Monday Deadline To Apply To Sell Cattle In Mexico

Monday, November 12, is the final date on which to file with their County ASC the lists of beef and dairy cattle which they desire to sell to Mexico's Department of Agriculture.

Buying teams from Mexico are expected to reach Texas about November 15. They will be given the lists gathered at Texas A. & M. College from county offices and it will be up to the buying teams to determine what herds are to be visited and what purchases will be made.

Both registered and high quality commercial cattle will be purchased but mixed breeds are not wanted. Stockmen will be responsible for testing the cattle for bands and TB and for transportation to an agreed border post of entry, if purchases are made.

Stockmen are asked to include on their lists the number of cattle available, their sex, age, (only cattle four years of age or younger are to be purchased) price and breed.

Voters Join Nation In Backing Current Administration Policies

Here in Sutton County voters proved themselves in agreement with voters over the state and nation by endorsing again Dwight Eisenhower and Richard Nixon for President and Vice-President.

Pre-election day polls made here by the County Republican Organization foretold the outcome. Results of the poll showed, out of 248 voters contacted: 47 percent for Eisenhower and Nixon, 21 percent for Stevenson and Kefauver, 26 percent undecided and 6 percent declining to answer.

Final tabulation showed 53 percent of the voters favoring Ike and Dick and 47 percent going for Stevenson and Kefauver.

Returning the incumbents to office dealt a blow to the Soviet Union by proving that the American people are behind the administration's policy of firmness against Communism and its underhanded methods of attempting to undermine healthy relation between nations.

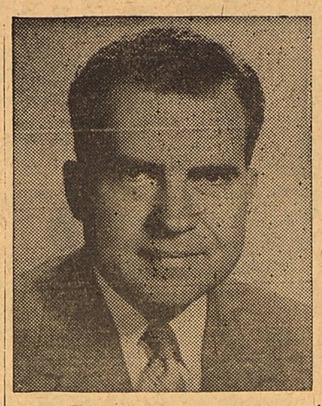

Voters in effect underwrote the administration's domestic policies, too, and told the world that America is indeed a nation of United States.

Voters To Polls Tuesday On Amendment Vote

Sutton County voters will return to the polls Tuesday, November 13 to vote on the ninth of the proposed amendments to the state constitution. The ninth amendment must be voted on at a special election due to an error in preparation.

The proposal is aimed at providing financial assistance for permanently and totally disabled Texans. Passage would enable the Texas Legislature to draft legislation to take advantage of federal assistance available under the Social Security act of 1950, already in effect in 41 states and Puerto Rico.

The proposal limits to $20 per month the maximum amount to be paid to any disabled person from state funds and bars from its aid anyone who receives other forms of assistance. Applicants must meet residence requirements and undergo careful medi cal examination and determina tion of their ability to make a living. Any who would benefit from medical or curative measures would be helped to get such care.

This would extend aid to men and women between 18 and 60 stricken by crippling conditions Present state aid covers only those under 18 and over 60.

Light Showers Friday, Sunday Cover Two-Thirds Of Sutton Area

Showers last Friday and Sunday brought light moisture to some two-thirds of Sutton County. Rainfall was lightest south and southeast of Sonora where only .10 inch was measured. Rain of up to one inch fell north and northwest of Sonora.

The small but frequent showers are very baneficial to drought stricken rangeland. Most of the showers have fallen slowly and runoff from denuded rangeland has been light. Torrential rains would result in severe runoff and soil loss.

The showers are producing a good stand of winter growing weeds which will decrease the runoff from later rains. Many ranchmen have measured three to four inches of rain since October 15.

James G. Robbins and three of his Sonora High School speech students, Jan Keng, Butch Baker and Roger Fawcett, attended a speech meet in Abilene Saturday.

Billy Scott was named to Who's Who in American Colleges and Universities last week. Scott, president of the Student Body at Baylor University, received the honor for the second time, having been named to Who's Who last year, his junior year.

Selections are made by a student-faculty committee after two general elections by the members of the classes eligible for the honor.

Scott has also been designed a Distinguished Air Force ROTC cadet.

The designation was based on Scott's scholastic standing, both in AFROTC and in the university, moral character and definite aptitude for service in the Air Force, and distinguished leadership.

HOW SECRET IS SECRET?

An Editorial

According to the Texas Election laws 1956, Article 7.04: "the voter . . . shall be . . . so screened that no other person can see how he prepares his ballot."

Tuesday, November 6, a near-record number of voters turned out to give Ike and Dick an overwhelming majority. Anxious voters found it necessary to stand in line to wait their turn to mark ballots while seated at card tables where their ballots could easily be read by any passer-by, as shown above.

In numerous instances husband and wife combinations voted at the same table, also pictured. We even noted one wife consulting with her husband - - a natural enough occurrence where complete privacy is not provided. At least two other prospective voters refused to vote because their ballots would not be SECRET.

Who is to Blame- We, the citizens and voters of Sutton County are at fault for allowing this condition to exist.

How may we correct it? Simply by telling the Commissioner in our Precinct or our County Judge that we think something needs to be done. We believe inexpensive collapsible voting booths would be the economical solution. Our Commissioners' Court has always proven ready to co-operate with the desires of their constituents for the betterment of Sutton County.

In Precinct 1 contact D. L. Locklin, Precinct 2 Dan Cauthorn, Precinct 3 Aldie Garrett, Precinct 4 Elmer Wilson, or County Judge George A. Wynn. Or call us at 21241.

We would encourage our service organizations, clubs and churches, if they feel, as we do, that a remedy is necessary, to send representatives to appear before the next scheduled meeting of the Commissioners' Court, the second Tuesday in December.

LET'S LEGALIZE OUR VOTES AND MAKE OUR SECRET BALLOTS SECRET.

The Menard team shows their dismay as Shannon Ratliff catches a pass off the arm of George Johnson. Ratliff made the pass good and broke a 7 to 7 tie.

Broncos Overpower Yellowjackets 32-14 Friday Night In Menard

Passes clicking, the Sonora Broncos rode over a fired-up Menard eleven to take their third conference game 32 to 14 Friday night.

Early in the first quarter the Broncos, with Johnson carrying, moved from their own 38 to the fifty. A run by Johnson was good for another first and a Johnson pass to Love was good for 36 yards and the first touchdown. The PAT was good and the score read 7 to 0.

In the second quarter the Yellowjackets surged down the field with a 32-yard pass off the arm of Leggett to Patterson taking them to the Bronco three yardline. Parker carried over guard for the score and the extra point tied things up 7 to 7. Retaliating, the Sonora team took over on the 40 with a pass from Johnson to Ratliff bringing the Broncos to the forefront again. Johnson's try for extra point was no good and at the half the score stood 13 to 7.

After the half-time the Sonora eleven really began to click with a Johnson pass complete to Ratliff on the five followed up by two plays which saw Johnson carry over for the touchdown. His PAT was no good and the score remained 19 to 7.

In the final period of play the Broncos recovered a Menard fumble on their own 30. From the two, Johnson carried over and his conversion try was good to raise the score to 26 to 7.

Again from the 45, Johnson shot one to Galindo on the 10 which Sam turned into another score. Point after was no good and the score read 32 to 7.

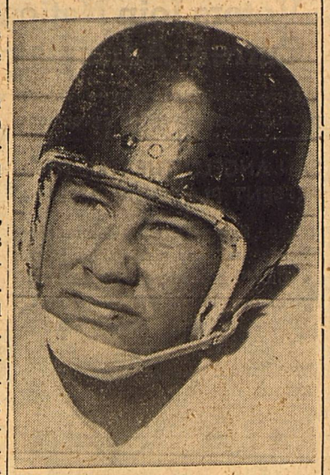

In the final moments of play, Menard's Leggett tossed a pass to Parker which gave the Yellowjackets their second touchdown. Mohler converted and the final score was Sonora 32, Menard 14.

Statics-wise: First Downs: Sonora 16, Menard 11; Yards rushing: Sonora 213, Menard 163; Yards passing: Sonora 128, Menard 116; Passes completed: Sonora 11 out of 16, Menard four out of eight; Passes intercepted: Sonora none, Menard one; Fumbles lost: Sonora 1, Menard 2; Penalties: Sonora 2 for 20 yards, Menard 4 for 40 yards Punts: Sonora none, Menard one for 20 yards.

Mrs. Byron Newby of Del Rio spent Sunday with her mother, Mrs. Hi Eastland.

Turner Happy About Menard Game, In Doubt About Eldorado Contest

Asked to comment on his team's eighth straight win this season, Coach Joe Turner smilingly confessed, "I's always good to win." But in typical Turner fashion, he dispensed with the grin to say that "we made too many mistakes Friday night, started too slow, and we are going to have to show definite improvement in several phases of our offense and defense if we expect to beat Eldorado."

Back in play at defensive tackle is Dan Carter Cauthorn. Out for a short time with an injured knee, Cauthorn is chalking up experience.

* * *

The Sonora team rested Monday, limiting their practice to some blackboard drill on weaknesses evinced Friday night which Turner described as "apparent in the eyes of the coaching staff".

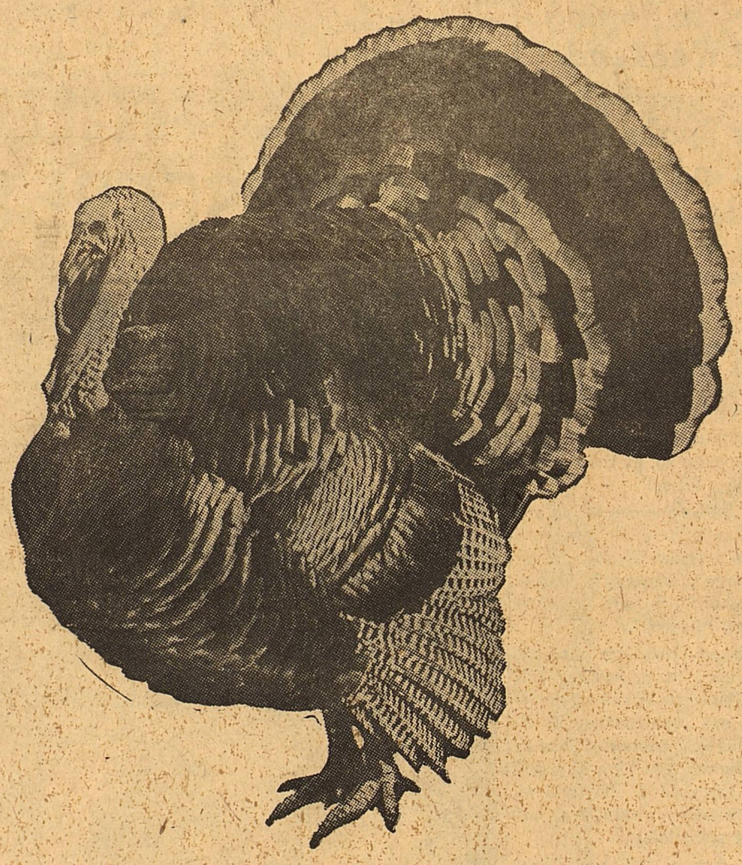

"Don't take Eldorado lightly", Turner further warned. "They have 17 seniors who have played together for three years without tasting a championship and they will come here with determination and the desire to topple the Broncos off their lofty perch".

We discussed the record for the Sonora Broncos over the past five years and learned that in that time the local eleven has won 38 games, lost nine and tied two games in regular district play to capture the district championship twice. Four of the losses occurred in one year (1953). Since mid-season of 1952 Sonora has lost only three conference games and six pre-season contests.

Torrivio Chavez is seeing service this year as kick-off man.

SHE KNOWS...
IT'S FEEDING TIME!

This cow's telling you something you probably know . . . it's time to start feeding. Grass is brown, tough, and doesn't have much food value. If her owner wants her to drop a husky calf come spring, then he'd better start supplementing her range.

She'd like Purina Range Checkers. They're easy to feed, tasty, contain a variety of proteins and carbohydrates and carry vitamins and minerals that the tough grass doesn't have. Cows must have these materials to build the unborn calves

Next time you're in town, drop in and let us tell you more about Purina Range Checkers. They're proved right, made right, priced right.

Looking Through The Windows Of Life

By W. H. Marshall

Loquacity is a good word and full of meaning. For instance Feltham said, "A talkative fellow may be compared to an embraced drum, which beats a wise man out of his wits. Loquacity is ever running, and almost incurable."

"Learn to hold thy tongue; five words cost Zacharias forty weeks of silence." -Fuller.

"Speaking much is a sign of vanity, for he that is lavish in words is a niggard in deed." -Sir W. Raleigh.

Of a great and wise statesman it is said, "that he can hold his tongue in ten different languages."

"Labor to show more wit in discourse than words, and not to pour a flood of the one, when you can hardly wring out of your brains a drop of the other." -Spencer.

"Every absurdity has a champion to defend it, for error is always talkative." -Goldsmith.

Shakespeare said, "You cram these words into mine ears against the stomach of my sense." There are always people who try to do that very thing to you and to me.

There are those of us who, because we don't first think, say and do the foolish thing. -W.H.M.

We talk the most when we think the least. -W.H.M.

"Many a man's tongue shakes out its master's undoing." -Shakespeare.

The only thing you have that you can't lose is character, that you must keep, be it good or evil. -W.H.M.

"Ridicule, which chiefly arises from pride, a selfish passion, is but at best a gross pleasure, too rough an entertainment for those who are highly polished and refined." -Home.

"If there be one habit which more than another is the dry-rot of all that is high and generous in youth, it is the habit of ridicule." -L. E. Landon.

"Let us have faith that right makes might, and in that faith, let us to the end, dare to do our duty, as we understand it." -Lincoln.

If you cannot win by love, be sure of this, you cannot win by hate. -W.H.M.
-Rules of Life.

"No man has a right to do as he pleases, except when he pleases to do right." -C. Simmons.

There are always those of splendid reputation, who will subtly plan behind your back to cut you down. -W.H.M.

Edwards Plateau Soil Conservation District News

By E. B. Keng
Soil Conservation Service

Rainfall in 1956 has totaled 7.32 inches on the Edwards Plateau SCD trial area on the Herbert Fields ranch. Most of the rain was in the form of light ineffective showers, particularly through the spring and summer. Eleven showers varied from .01 to .50 inch, and three showers ranged from .74 to .95 inch. On October 15 a shower of even 1.00 inch to make the only rain of as much as one inch during the year.

In reviewing long time rainfall records at San Angelo and Del Rio we find no record of any year which did not receive more than one inch of rainfall sometime during the year. Our 1956 record is not the driest year on record for total rainfall, but it does appear to be heading for a new low record on effective rainfall. Some parts of the district have had more rain, but some areas are even drier.

The severe drought has caused serious damage to grass vegetation on the trial area. Good recovery was made in 1955 with 14.75 inches of moisture, but plants did not have an opportunity to develop deep roots. With no effective rainfall from September 24, 1955 to October 15, 1956- over 12 months, it is little wonder that many plants died.

Curlymesquite seems to have suffered the heaviest death loss. Other native grasses such as threeawns, red grams, and sideoats grama also died extensively on the deeper soils.

Introduced grasses seeded on pitted land lived surprisingly well. Buffelgrass, blue panicum and KR bluestem outlived the Uvalde strain of sideoats grama. Heavy losses were also sustained in green spangletop, cane bluestem, and sideoats grama seedlings from seed originating in the Marfa area.

Thousands of new seedlings have germinated from October rains. Buffelgrass leads the list, but sideoats grama, KR bluestem, and other seedlings are numerous. With continued rainfall and a mild winter these seedlings will survive and be ready to replace the dead plants next spring.

The trial area was deferred during the summer of 1955, and an abundant seed crop was produced. Even if the present seedlings are killed by a severe winter, moisture next spring will quickly produce a new crop of seedlings.

* * *

It appears that the continued drought has confused Nature to some extent. George Brockman bought in some shin oak branches covered with new, tender red leaves. Some algerita bushes are tryings to bloom, and evergreen sumac was recently observed in full bloom.

The severe drought has caused many trees to shed most of their leaves. With October moisture these trees and shrubs are trying to form new leaves. It is only through the action of sunlight on the green leaf of a plant that food can be manufactured to store in plant roots.

The plant produces new leaves from food stored in the plant roots. If the new leaves are nipped by frost before they have matured sufficiently to manufacture food, the plant will go into winter in a seriously weakened condition. A late dry spring could bring an early death to the already drought-weakened plants trying to re-leaf at this late hour.

Guests present included Pat Cooper, J. B. Ross, Robert Pfluger, Ted Maxwell, S. H. Womack of Austin, H. T. James of Ozona and J. E. Robbins, Jr., of San Angelo.

Pvt. Joe Morrison will arrive early next week for a two week's visit with his parents, Mr. and Mrs. Dick Morrison and Janet, before leaving for Germany where he will be stationed.
