NUMBER 20

NORMAL SECONDS BEAT CLOVIS HIGH

Second Team Dies Good Work Again
Fast High School Bunch—
Score 13 to 6

The football boys of the Clovis high school arrived in Canyon Saturday afternoon. Soon rumors were afloat that they considered the first team of the normal too large for their digestion, and asked to be allowed to feast upon the second team. The second team needed some practice, and Coach Willy kindly made this concession. The final score indicates that the Clovis boys had rather a good meal.

On the whole, the game was very good. Both sides showed considerable pep, and several thrilling plays were staged.

First Quarter.
Canyon kicked to Clovis. Clovis's ball, 40 yard line. Clovis held for four downs and kicked to Canyon. Canyon's ball on 20 yard line; Clovis off side, penalized 5 yards; Akers hit line for a touchdown; Hardin kicked goal.

Canyon kicked to Clovis. Clovis lost ball to Canyon. L. Lohn made a wide end run for 15 yards; Clovis held Canyon for 4 downs; ball went over at 30 yard line. End of quarter.

Second Quarter.
Clovis' ball on 30 yd. line. Clovis made pass for 5 yards; hit the line for 2 yards; Whippo pierced Clovis's line twice for a loss of 2 yards; ball went over to Canyon. L. Lohn smashed the line for 10 yards; Akers smashed for 10 yards; Easley hit line for 5 yards; Again 5 yards; Hardin broke through Clovis's line for a three yard gain; again Easley hit the line for a three yard gain; Akers plowed through for a touchdown; Canyon failed to kick goal. End of second quarter, score: 13 to 0.

Third Quarter.
Canyon kicked to Clovis; Clovis returned to 30 yard line; Clovis advanced 20 yards on forward pass; Clovis faked a pass and scored a touchdown; failed to kick goal. Score, Canyon 13, Clovis 6.

Canyon kicked to Clovis; Clovis's ball on 20 yard line; Clovis failed at forward pass; Clovis kicked to Canyon, Akers receiving ball and returning 10 yards; Canyon passed ball to Clovis; Clovis failed to gain for 3 downs and kicked at goal. Canyon's ball on 20 yard line; L. Lohn hit line for a clean gain of 12 yards; Canyon off-side, penalized 5 yards; Clovis off-side, penalized 5 yards. End of third quarter.

Fourth Quarter.
Canyon's ball. Akers made end run for 11 yards, again for 8 yards; Canyon fumbled ball and Clovis fell on ball. Clovis penalized 5 yards; Clovis punted to Canyon; Canyon lost ball to Clovis; Clovis off-side, penalized 5 yards; Clovis passed ball to Canyon. Brown caught ball and ran 15 yards; Lohn smashed line for 5 yards. End of quarter. Score: 13 to 6.

Canyon's line up was as follows:
Left End—Dodson.
Right End—Ray Brown.
Left Tackle—Jones.
Right Tackle—Whippo.
Left Guard—B. Queen.
Right Guard—Owenby.
Center—Bowden.
Left Half—Akers.
Right Half—Easley.
Quarterback—Hardin.
Fullback—L. Lohn.
Substitute—R. Queen for Owenby; W. Allen for Dodson; Mahney for Akers; Akers for L. Lohn.

—From The Prairie

Change Your Clocks Saturday.

All aboard for sun time! The United States changes time one hour Sunday morning at 2 o'clock. No more day light saving in this country. If you don't want to get up an hour earlier than the rest of the country, turn your clocks back one hour Saturday night before retiring.

Miss Rogers to University.

Miss Mabel Rogers, who went to Columbia University, New York, in September, received last week a very flattering offer as instructor in the English department of the State University of Texas, and accepted the same, coming from New York to Austin this week.

Stock Special.

A daughter was born to Mr. and Mrs. R. L. Wagner Sunday, Oct. 12.

NO POLL TAX OR EXEMPTION NEEDED BY SOLDIERS-SAILORS

Tax Collector Worth A. Jennings has a ruling from the Attorney General's office at Austin, stating the conditions under which discharged soldiers and sailors will be able to vote.

No poll tax receipt will be required up to Jan. 31, 1921 for voting. The presentation of discharge papers is the equivalent to a poll tax receipt.

Returned soldiers and sailors may pay the poll tax if they so desire, but it is not compulsory. If the tax collectors find upon the tax rolls a poll tax charged against any discharged soldier or sailor, he will given credit for same when requested by the man.

County Clerk O. W. Gano states that only forty men have registered their discharge papers. All of the men should have this done, as they might be caught in an embarrassing position should the papers become lost.

ALL INTERESTED IN DAIRY MEET AT COURT HOUSE

Are you interested in the dairy business?

County Agent Walker wants to see you at the court house Saturday afternoon at two o'clock.

Every man who has dairy cows, or who wants dairy cows should be at this meeting. Experiences will be exchanged which will be of great advantage to the man just going into the business, and won't hurt the fellow who has been in the dairy business for years.

Randall county needs more dairy cows. Feed is cheap now and very plentiful. Butter and milk are selling at a high price. The dairy cow is a fine investment.

City Property Sold.

E. E. Foy bought the H. H. Jackson residence in the southwest part of town.

Miss Alice Muldrow sold the house and two lots located in Block 67 to Mrs. B. F. Oatis for \$1500.00.

W. H. Lewis sold his house and 30 acres of land adjoining the West Texas State Normal College grounds on the north to Geo. A. Whittenburg for \$5800.00.

L. G. Conner sold 130 acres of his land to W. H. Lewis at \$58.50 per acre.

Rev. J. T. Burnett sold a four room house to Mrs. Nancy M. Archer of Hutchinson county for \$900.00.

E. O. Faulkner sold three lots in Block 74 to Mrs. M. Dillon for \$80.00.

J. B. Graddy sold his four room house and two lots located in Block 63 to Mrs. Prentice Tate for \$1,000.00.

O. G. Steen sold his house to Chas. V. Gregg.

Mrs. Jackson sold her place to E. E. Foy for \$2400.00.

R. McGee sold his house and lots to Vernon Parker for \$3000.00.

Vernon Parken sold to R. McGee 334 acres of land in Survey No. 39, Block B-5.

DOUGLAS FAIRBANKS in "His Majesty, the American," OLYMPIC, Wed. and Thurs., Oct. 28-29.

Come to Canyon to Live.

YOUNG MAN DIES FROM ACCIDENT

Struck Across Abdomen Wednesday Afternoon by Fork Caught in Drive Belt of Thresher

Wesley Owen was fatally injured Wednesday afternoon at the Joe Foster place while assisting Mr. Foster with his threshing, his liver being cut in two by the force of a blow received from the handle of a pitchfork which caught in the drive belt of the threshing machine.

Mr. Owen was throwing bundles into the machine from the ground. His fork caught in the big driving belt of the machine, and was hurled at Mr. Owen with such force as to cut his liver in two. He died early Friday morning in the sanitarium at Amarillo from the result of the injury.

Mr. Owen had been in this country but a short while, assisting farmers. His parents are down in the cotton country at work.

The funeral was held Sunday afternoon at the Baptist church, conducted by Rev. B. F. Fronbarger.

RED CROSS ELECTION POSTPONED UNTIL SATURDAY

The election of the Executive Committee of the Randall County Chapter of the Red Cross, which was scheduled to be held yesterday afternoon at the court house, was postponed until Saturday, and will be held at the Jarrett Drug Company.

A list of names was proposed by the nominating committee last week. These names will appear on the ballot, but any citizen of Canyon may be nominated and voted upon as a member of the Executive Committee.

TWO FORMER CANYON MEN HURT IN AUTO ACCIDENT

Early yesterday morning two former Canyon men were injured in an auto accident in Amarillo. Scott Christian, formerly a foreman on the C. O. Keiser ranch, was out fixing his car, being directly in front of the machine. Roy Cullum was coming in from Clarendon. Approaching the Christian car his breaks refused to work, his car going into Christian's car, running over Christian, and throwing Roy to the pavement. Both men and cars were badly smashed. Both men are in the sanitarium, but Mr. Cullum is not badly injured.

Want Census Enumerator.

Census Enumerator Wanted for 18th District of Texas, to take the census in January, 1920.

If you desire to be appointed as Census Enumerator in the 18th District of Texas (53 counties in the Panhandle) make application, by letter to me at once.

All applications must be filed with me not later than Oct. 30, 1919.

An enumerator of average industry can earn from \$4.00 to \$6.00 per day during the period of enumeration.

JAMES H. CAPERTON,

Supervisor of Census of Census, Shamrock, Texas.

PLAINVIEW HIGH WILL PLAY NORMAL TEAM SATURDAY

Plainview high will be here Saturday afternoon to play the Normal football team.

This promises to be an unusually good game. The Plainview boys took the Amarillo high to a cleaning last week to the tune of 38 to 0.

The Normal has a good team this year, as seen in the first game of the season. The visitors are coming with a veteran team, nearly all of the men having three years' experience behind them, with more games this year than the Normal, and a strong determination to win a clear title to the Panhandle Championship. Coach Willy will send in his best to meet the visitors, and the Normal fans are just as determined that the Championship will land in the home camp this year.

McNeil Sale Great Success.

The McNeil Bros. sale last Thursday was a big success. For awhile it looked as if a big storm was coming up Thursday morning. By ten o'clock the clouds disappeared and a big crowd went to the sale, but no doubt the attendance was cut materially among those from a distance who had planned to come, but were afraid of a storm.

The sale was not finished Thursday, and was continued over to Friday.

A. A. McNeil says for the people to get ready for another big sale at their place within thirty days. The next sale will be bigger than the one last week.

The boys don't believe in putting on a sale unless it is put on right.

Putting in Sidewalks.

A contract was let Tuesday for sidewalks in the Conner Addition, starting at the home of L. G. Conner, and extending east in front of the property of I. C. Jenkins, J. W. Reid, Miss Tennessee Malone, C. W. Warwick, Henry Bradford, R. W. O'Keefe and L. G. Allen.

Finley-Garrison Wedding.

A pretty wedding was solemnized last Wednesday at high noon when Miss Margaret Garrison was given in marriage to Embrey Finley.

The ceremony was performed at the Baptist parsonage by Rev. B. F. Fronbarger. A large party of friends accompanied the bride and groom from Happy to be in attendance at the ceremony.

NOTICE.

I have moved my law office to the office of Judge Geo. A. Brandon, west of the square, where I will gladly attend to any and all law business desired by any persons. A specialty on examining titles to lands.

B. FRANK BUIE,
Attorney.

Attorney-General Palmer says retail food prices have been reduced 15 per cent. What does Mrs. Palmer say?—Wall Street Journal.

The goose that lays the golden egg don't do half as much cackling as the cold storage pirates do.

REAL ESTATE, REALTY VALUES IN RANDALL CO.

(By R. Kenneth Evans)

Real estate is moving in Canyon

Sometimes the same piece of property will move twice or three times during the week, in fact this has happened two or three times this summer. The movement however is not caused by a special boom, neither are boom methods responsible for it. Property is just in demand as a result of the realization of the value of this land in the Canyon country and the natural immigration that will follow extensive development of resources.

As short a time as fifteen years ago for one to speak of the Panhandle country outside of the Panhandle was to talk of a territory that in the average individual's mind would mean a vast unbroken waste somewhere and in nine cases out of ten the recipient of this talk would not know exactly whether the Panhandle was in Texas or Honduras. And those who did know where it was had the impression that it was a wild and woolly country infested with bandits, thugs, rattlesnakes and owls. This was brought about because of the lack of proper knowledge. The Panhandle has always been rich in resources and it has only been in recent years that the true value of the Panhandle country was realized and it is this realization that is bringing about the immigration, hence the demand for real estate.

Land that fifteen years ago was selling all the way from \$2 to 10 per acre, and the latter price obtained only in the very choicest locations, is today selling all the way from \$25 to \$35 in unimproved sections and land that is improved by being broken and fenced sells as high as \$75 per acre. The land that seems to be in demand is the lower priced lands, which are just as good as the higher priced lands the only difference being the lack of improvements. The farmer who buys these unimproved lands and takes advantage of making the improvements himself will within three years be able to realize just as high a price for his property as the best lands are selling for in the Panhandle country today.

There is plenty of good tillable land in the Panhandle country today and this condition holds true in Randall county within easy access of Canyon, one of the liveliest commercial centers in the entire Southwest. These lands however are unimproved lands. The lands are all rich in the ingredients necessary for the growth and development of plant life and as a rule the rainfall is plentiful to raise bumper crops. For instance it was recited to the writer where an Iowa newspaper was making its brags of a piece of land in that county producing 28 bushels of wheat to the acre. This land was placed on the market for sale at \$350 per acre. There is a piece of land in Randall county upon which fifty bushels of wheat to the acre was produced and this land was sold last year at \$50 per acre. Of course every year will not see such an extensive production but it is a conservative average to put the wheat yield at 20 bushels to the acre, which makes it just as valuable land as the Iowa lands.

There are not any irrigated farms in this section as there has never been sufficient occasion for irrigation however dry farming methods are generally adopted. There is ample facilities however for irrigation as an ample water supply from inexhaustible underground streams is available. The Alfalfa land is sub irrigated and as many as four crops are realized from the alfalfa land each year. Much of this product is shipped from the Canyon country.

In Canyon there is not a vacant house for rental purposes. Many new homes are being built at this time and plans are being made for many more. Desirable building lots can be secured for from \$200 to \$500 depending upon the location. The city now is formulating plans for paving. As soon as paving is laid it will materially enhance the value of building sites for residences.

Business lots in the city and directly on the square can be purchased at this time for as low as \$1,500 but this price will not be in vogue long for the increased activity is bound to increase the value of building lots. There are ample sites for business blocks in the city and on the square. These buildings are in demand at this time also and from the capitalist standpoint there is an opportunity here for in-

vestment in building that will bring in handsome rents.

Real estate dealers are all enjoying an extensive business closing deals every day. This activity in real estate in Canyon and Randall county is substantial. There has been no undue excitement to bring it about. Oil activities are not of sufficient weight to cause any excitement and the activity is directly brought about by prosperous conditions and general business activity.

The Red Cross Drive.

A request urging the Randall County Chapter of the Red Cross immediately to appoint a local director for the Third Red Cross Roll Call for 20,000,000 members Nov. 3 to 11 has been received by Randall County Chapter Chairman from Alfred Fairbank, Manager of the Southwestern Division, American Red Cross of St. Louis.

"All Red Cross Chapters and Branches," Manager Fairbank writes, "should immediately consider and appoint their most able citizen to direct their respective campaigns, to the end that the Red Cross may be endowed with loyal and interested members and sufficient cash to direct its energies to the remarkable opportunities for service in the United States and in the different Chapter communities that daily are presenting themselves."

"Last year the influenza, bad roads, the signing of the armistice, and the Christmas season all interfered with the Roll Call. This year we aim to avoid all these difficulties and in addition we have some 700,000 returned soldiers every one of whom is a prospective Red Cross member.

"There is no reason why the Southwestern Division—Missouri, Kansas, Texas, Arkansas and Oklahoma—cannot reach its quota of 2,000,000 members and why it cannot exceed its splendid achievement of last year of more than 2,500,000. Our quota for members in Randall county is 1000.

"The Division Director, as previously announced, will be Edward Hiden, St. Louis banker and financier, who recently has gained wide commendation as Chairman of the Welcome Home committee for returned fighters."

Mr. Fairbank wrote later that as our Chapter had responded so generously when asked for means, that we would have no quota in the drive for \$15,000,000.

Book Club Meeting.

The Woman's Book Club met yesterday at the rest room. The following was the program:

II. "The Colonies and the Colonists."

Roll Call—Items of interest pertaining to the lesson.

1. European Colonial Administration.

2. Life in the Colonies.

3. First steps toward union.

Leaders—Mesdames M. L. Steele, M. B. Johnson, A. B. Haynes.

School Teachers Difficult to Obtain.

Plainview Herald—The Plainview Public Schools are in need of two teachers. Every effort to obtain them has failed. The board of trustees and Supt. Patty have spent over twenty dollars in correspondence with agencies and prospective teachers, but to no avail. The secretary of the National Board of Education informs them that there is now needed in the United States over forty thousand school teachers. The Plainview schools are more fortunate than many of the other schools of the state, however, for some schools have only half enough teachers. Miss Alma Armstrong and Mrs. McDonald are teaching here until teachers can be secured.

No Bond for Davis.

Roy Davis is still in jail, no bond having been given in his cases. He was taken in Amarillo Thursday afternoon where he will be held until the grand jury meets in February if no bond can be made by his brother who lives in Happy.

Davis was held after an examining trial last week awaiting the action of the grand jury, being suspected of both forgery and stealing a load of wheat.

D. A. PARK & COMPANY

You'll Want This Combination

It is the Case 10-18 kerosene tractor and a two-bottom Grand Detour plow. It is an ideal plowing outfit for either small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more than a big team of horses. It burns kerosene economically, developing full power on the same.

The Tractor has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece frame. A Case Siphon Thermostat controls the cooling system and insures complete combustion. The all-spur gears, with teeth cut and hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Rigid Beam Plow will fill the plowing requirements of the most particular farmer. Grand Detour plows are strictly quality plows. They are light in draft, yet so well constructed that they will give years of faithful service at a low cost of upkeep.

We would greatly appreciate the opportunity of telling you more about Case tractors. Drop in and let's talk it over.

L. T. LESTER

CANYON, TEXAS

NOTICE: We want the public to know that our plows are NOT the Case plows made by the J. I. Case Plow Works.

A LITTLE WANT AD BRINGS RESULTS

Linking Up With Life.

(By Phebe K. Warner.)

The most interesting thing in life is life. And the next most interesting in life are those things which pertain to life. The happiest sign for the future is the new attitude all the forces for good are taking toward life. It seems now that this is to be the basis of the reconstruction. It begins to look like out of the chaos of past centuries and the remnants of wrecked nations a new world is about to be designed, and in this new world, the chief factor is to be life and the chief business is to be living.

What a simple thought! But, oh how many hundred years the human family has been struggling along without a common aim. One nation lived for power, another for possession. One generation would live for religion, another for education and another for wealth. So distinct were the motives of the people that the history of the human family is divided into "ages," such as the Age of Conquest, the Age of Discovery, the Age of Science, or whatever motive featured a period in history. What a blessed change that soon we are to see and possibly be permitted to enter into the Age of Living—that new day in the human family when all nations and all the good forces in this world will be linked together to produce better living conditions for everyone. When every organization will have for its goal better living conditions for all the people. No matter whether it be a religious, educational, social, industrial or political organization. Not one of these organizations meets all the needs of life. It takes them all and much more to complete one human life. But we must all admit that up until the present, most institutions and organizations have existed for themselves. They used the people's money and brains to build up heartless nations; idle, empty, soulless churches; brainless schools; cruel, blighting industries, and wicked social devices of every conceivable money-making kind. However, thru all the years there have been a few, in all these various organizations who were guided by their vision of a more perfect life in this world. And these few in our churches, in our schools, in our States and Nation, in our commercial and industrial world and in the great social world of which we are all a part, have struggled thru the darkness of ignorance, selfishness and prejudice toward the light of this new day.

It is only those who are up and awake before the dawn that have a chance to enjoy the break of a new day. Those whose lives have already been linked to the lives of their fellow men and to the vital interests of life itself have some conception of the joy that is ahead when the whole world of selfish interests gives way to a world in which every good force is linked up with every other good force for the benefit of the whole man or the whole woman or the whole child. Does your community seem like a coldblooded, indifferent collection of human machines, wound up and geared to do a certain amount of work each day with no interest in the welfare of anybody but themselves? If so, your community is not linked up with life. Is your church a short cold-storage plant to keep lukewarm Christians from spoiling? If so, your church is not linked up with life. It is still existing for a selfish purpose and not interested in the lives of those outside its door.

Does your school stand off in one corner of the town out of the way and no one ever go near it except the teachers who are paid to go and the children who are forced by law to go? If so, your school, your child's second home, is not a part of your life, and your life has not become a part of your school.

Is life in general dull and stupid? It is because you are not linked up with the lives of others and working for their welfare. Do you take no interest in politics, in labor or any of the human problems of your community or nation? It is because you are still living the narrow life of a selfish individual. You have failed to link your life to the throbbing pulse of humanity.

Plainview War Hero on Furlough. Plainview Herald—Lieutenant Robert Fletcher, who is known to his thousands of friends here as "Bob", is here for a few days on a furlough from Walter Reed Hospital at Washington, D. C. Just one year ago last Tuesday he was leading an attack in the Meuse-Argonne offensive. While facing a deadly fire of machine guns and shell he led his men on. A high explosive shell exploded near Lieut. Fletcher and the fragments tore away a part of his legs. For two days he lay in a shell hole without medical attention. When at last he was rescued and taken to the hospital it was necessary to amputate both of his legs. Little hope was held for his

Normal Notes.

The Freshman class met at the Normal Monday evening at six o'clock and walked out of town a few miles for a mahshmallow toast. After about two hours, they returned and went to the show. They were chaperoned by Misses A. Graham and Michel.

Several of the students met at De-Graffenreid's on Saturday night and made candy.

Miss E. Graham with a crowd of girls, went on a hike to the Canyon Saturday afternoon.

Mr. Draper Mathis and Cammie Terry of White Deer were visitors in Canyon Saturday and Sunday.

Mrs. Conway and her two daughters, Lela and Jessie May, have moved to their new home up near the railroad.

Mr. Johnny Buckner from Hutchinson county was a visitor in Canyon Sunday.

The football game between Clovis, N. M. and the Normal, which was played on the Normal grounds last Saturday, was a tightly matched game. Clovis did not wish to play our first team; so Coach Willy put the second team on the field to defend our honor. The Normal won by a score of 13-6.

Mr. Witt of Amarillo was in town visiting friends Sunday.

Dwight Bobbit, a former student of this college, was in town visiting friends Sunday. Dwight was going to school here when he heard the call of his country. Joining the army he went to France and saw several months of active service on the front.

Mr. and Mrs. Wallace Clark went to Amarillo Monday to celebrate the fourth birthday of their little daughter.

Mr. Morelock and several of the Normal boys went duck hunting on Monday. They used a good deal of ammunition but didn't kill many ducks.

A meeting of the Dramatic Club was held Oct. 16 for the purpose of electing officers. The following were elected: Ruth Harrison, president; Ruby Lattimore, vice president; Joy Mills, secretary; Grady Hazelwood, treasurer; Mary Morgan Brown director of the club.

Madge Rusk, who is teaching in Hereford, was home for a week-end visit. Stella Rusk, Lucy Goodwine and Maleva McKee are also teaching in Hereford.

Mrs. Battaille, who has been spending the summer with her daughter, Mrs. H. W. Morelock, left Saturday night for her home in Cisco. She was accompanied by Mrs. Morelock who expects to be away two weeks.

Miss A. Graham went to Raton, N. M., Oct. 14, and made a speech on Oct. 15, on the Y. W. C. A. work, and what the Y. W. C. A. is doing here. She returned Oct. 17.

Mr. and Mrs. Mathis spent the week-end with their daughter, Miss Cassie Mathis, who is a student of this college.

Several new students entered school this week.

Mrs. Thompson and Mrs. B. T. Johnson, hearing that the girls at

Huntleigh Hall were interested in flowers to beautify the Hall, sent some geraniums and nasturtiums. The girls are grateful for the flowers.

Miss Cora Lee Woody spent the week-end with home folks at Crosbyton.

Miss Mildred Wilhite, on account of illness, left Friday for her home at Cisco.

Miss Mattie Jordan spent Sunday and Monday with home-folks at Tulia.

Among the week-end visitors of Amarillo were Louis Lohn and Miss White.

Miss Montell Mansfield is visiting with home folks a few days at Farwell.

Mr. Minter, a former Agriculture teacher of this school, visited with us Saturday.

Miss Beatrice Vaughn, a student of last year, visited her sister, Miss Madelene Vaughn Saturday.

Mrs. Charlie Gregg and sister, Miss Norton, entered school the latter part of the week.

Miss Ross, who was staying at Huntleigh Hall, left for Albuquerque, N. M., Tuesday morning.

Mrs. Croson and daughter, Miss Blanche spent Thursday in Amarillo shopping.

Miss Mary Meador, one of our graduates of last year, who is now teaching at Post, visited the college Saturday. We are always glad to have our old students visit us.

A number of the school boys went to the country Monday to work.

Mr. Williams a student of the college went to Amarillo Thursday to have his eyes treated.

Mrs. Sheffy, who has been visiting her home near Plainview, returning Monday.

Mr. Hardy Heard, who was elected president of the Freshman class at the beginning of school has resigned. Louis Lohn has been elected to take his place.

Mr. Shirley who had an attack of appendicitis Friday was reported better yesterday, but is still not able to be with us.

The English department has just received the following pictures for the department class rooms:

Chavannes "Pastoral Poetry," "Dramatic Poetry," "Epic Poetry," Cort's "Le Soir," "Passage du Gue."

Keith's "Mount Shasta," Taylor's "The Old Clock on the Stairs," "Hiawatha."

George's "Music and Poetry," Jones' "The Fall of Lucifer," Rosetti's "Dante's Dream," Dicksee's "Swift and Stella."

Mr. Leota Elkins spent Sunday with his cousin, Miss Elsie Elkins. Mr. Elkins has recently returned from France where he spent six months in the service.

Lipscomb county is leading this year in the organization of county clubs. There are already fifteen Lipscomb county people in school. They met last week and elected the following officers: Chas. Robbins, president; Lewis Hill, vice president; Reta Baldwin, secretary; Louis Pundt and Misses Louis Barton, Reta Baldwin and Julia Spangle were appointed members of the program committee.

Elementary School Notes.

At a meeting of the Junior Y. W. C. A., Tuesday, the following officers were elected: Annie Hart, president; Vivian Brumley, vice president; Ruth Hart, secretary. On next Thursday the organization will be completed.

Mrs. Tommie Montfort of the Elementary school faculty, accompanied by her sister, Miss Lizzie Kate Smith went to Cuyler Saturday evening to attend an entertainment given by the pupils of Annie Laurie Smith who is teaching in Cuyler.

Last Saturday the seventh grade met and defeated the seventh grade of the High School in a game of football on the High School ground. The score was 6 to 0.

The higher grades in the Elementary school met last Tuesday and organized a Boosters' Club. Miss Tip Bradford was elected yell leader and Annadel Guenther president. A committee consisting of one representative from each grade was appointed to decide upon some appropriate yells.

Same Scene—Half an hour later.

The Teaching Profession.

A recent report sent out by the N. E. A. showed that the attendance at the normal colleges throughout the country is unusually small this year. Considering the present shortage in teachers, this report is alarming. Who will teach our schools five years from now if this condition continues? This question our country must consider seriously and answer in some positive way, with a view to national safety. The world has long been interested not so much in the laborer but in his products. Out of our schools come the great men who make our country what it is, but for this contribution to society the teacher has been given little credit. As a precaution for national safety, there is much talk over the country about Americanizing our foreign population. This is all well and good enough. But what about the native born of Texas, against whose children the doors of 5,000 school houses are closed at present? What about 10,000 other school houses behind whose doors incompetent teachers bear the burden of making America "safe for democracy"? Politicians clamor loudly about a return to the democracy of our fathers, but they forget that these same wise fathers made an educated populace the foundation stone of all they built. Why not face the educational issues of today honestly and squarely? Publications all over our country are crying out for reform, but what substantial relief has been brought to the situation? In a few instances salaries have been slightly raised, but the high cost of living has more than offset this niggardly increase. The teacher should be trained as the physician, as the lawyer is trained. Can the public expect this of him for the small inducement it offers? Is the public willing for untrained minds to teach its children? In many places this is the situation now, and will remain so for years to come. Unthinking minds delayed the hour of needed help too long.—The Prairie.

Hungary announces that she will fight for unity to the last man. Figuring that when they get down to the last man unity will come automatically, we suppose.—Manila Bulletin.

MINTER WILL HELP FARMERS MARKET BIG GRAIN CROP

In an interview with Mr. T. S. Minter, Director of the Bureau of Markets, State Department of Agriculture, who was here from Austin Saturday on business connected with the work of his Bureau, a representative of the News was enabled to learn many interesting things about our State Department of Agriculture which he wishes all of our farmer readers could know. "The Department of Agriculture, from Commissioner Fred W. Davis down, belongs to the farmers of Texas," said Mr. Minter, "it was created and is maintained to serve them and desires to render them useful and satisfactory service. The better organized the farmers are, and the closer their cooperation with their Department of Agriculture, the better can it serve them."

Speaking of his own particular line of work, he said: "Many well-meaning people have talked and written for years about the productive side of farming—spilling tons of printer's ink and using miles of paper trying to encourage increased production. But the marketing side of his business has been neglected until many farmers know next to nothing about costs of production to the staple products, and hence do not know whether current market prices will afford them a profit or will entail a loss. It is the purpose of the Bureau of Markets, to encourage the keeping of cost accounts on the farm to enable the farmer first to know what his products should bring. It is its purpose to encourage the erection of proper storage facilities, that the farmer's produce may be protected from damage and kept in a good merchantable condition. And it helps the farmers to organize for the cooperative handling of their produce."

"The Bureau keeps in touch with the markets at all times, and also with the sources of supply, and acts as a medium of communication between buyer and seller in order that they may be brought together with as little delay and expense as is possible. The Market Journal, a monthly publication which carries free of charge, listings of products which farmers have for sale, and of things which they desire to purchase, has recently been admitted to the second-class mailing privilege and will be a useful factor in helping the farmers in their marketing problems. It is mailed free of charge to anyone desiring the publication, and farmers are invited to make generous use of its columns free of cost to them."

"For instance," said Mr. Minter, "if your farmers have a considerable quantity of, say the grain sorghums, they are privileged to announce this fact free of charge in the columns of the Market Journal. This Journal goes to some 30,000 people all over the country, including hundreds of big grain dealers, both within and without the state, and should bring inquiries from interested parties to the party having the grain for sale. Where farmers have an organization, it is preferred that their products be pooled and listed in bulk over the address of the business agent of the organization. Good, strong, effective organization always means greater efficiency, and facilitates the work of the Bureau of Markets."

"Besides these main features of the Bureau's work, it has minor activities of considerable moment. For instance, in its inspection of perishable fruits and vegetables, the Bureau's inspectors inspected 5,858 cars in 189 different shipping points of the State during the fiscal year ending August 31, 1919. A large dealer at one of these points has given out a signed statement that the State Inspection service had been worth \$100,000 to the growers of that community alone. The entire appropriation for the State Department of Agriculture is but little in excess of that, and the Bureau of Markets has only \$19,750.00 for all of its work. There are on file in the Department office, petitions from about a thousand farmers asking for its continuance next season."

Mr. Minter's trip to the Panhandle is made in the interest of marketing the big row crop. He is putting the farmer with as much as a car load of grain in connection with dealers in South Texas where the feed crop was destroyed, and with Montana dealers, where there was a bad drouth this year. Mr. Minter was formerly head of the Agricultural Department of the Normal.

Panhandle Herald—Actual work by the enumerators in the various census districts will begin on Jan. 2, 1920. It is expected that the population statistics of all cities and towns will be gathered in approximately two weeks. Final figures for rural districts, however, can hardly be gathered in less than a month, in the information given out at Washington.

Come to Canyon to live.

Albia. The Sultan of Turkey has issued a declaration that he tried to keep out of the war.—Cable dispatch.

"I'm fond of my home and I'm fond of harem, I'm fond of my children two hundred and three, All wars are disgusting, I never could bear 'em, My heart is for peace", said the Sultan, said he.

"No hunger for conquest was stirring within me, I don't want to scrap any more than a hen, But both of the Kaisers was working ag-in me. They forced me to fight", said the Sultan, again.

"I'm a peaceable man", said the King of Bulgaria, I faint at the sight or the mention of gore.

I never can stomach the rabid hysteria, That works people up to the notion of war.

I couldn't be sure that the nations that paid me To fight on their side, would be certain to win.

I hated to fight, but the Emperors made me; I couldn't keep out, so, I had to get in."

"Gott knows how I tried to make peace", said the Kaiser, By battles my bosom is always made sad.

I told France and England that they would be wiser If they would surrender before I got mad.

But the Bulgars and Turks were determined upon it They kept on insisting on war, till doggone it!

To placate the rascals I just had to fight!"

Hall County Herald—A mud-hen was seen early Friday morning near the Main and Seventh street crossing by persons who came to town early. It is most probable that the mud-hen liked the looks of our main street and was contemplating moving her tribe here to make their homes in future. It, at least, can not be refuted that our business streets in a spell like the

Nature and the Indian

The Indian never liked work but he wanted his money to get well as soon as possible so that she could do the work and let him hunt, therefore he dug, panned, prospected for her, for that was their custom, money for female weakness.

Dr. Pierce uses the same medicine called Blue Cobalt—in his "Favorite Prescription" skillfully combined with other ingredients make it more effective.

Women who are worn out, who suffer from pain in regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, health tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.

Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

JACKSON, Miss.—"Dr. Pierce's Favorite Prescription is a good medicine and I have recommended it many times to women who suffer. This medicine was a great comfort to me after motherhood. The doctor seemed unable to give me any relief or help, but I had very prompt relief as soon as I started to take the 'Prescription.' It cured me of my trouble and restored me to a perfect state of health, and that is why I do not hesitate to speak a good word for Doctor Pierce's Favorite Prescription whenever I have an opportunity."—Mrs. A. G. SUTZMANN, 228 Founders' Bldg.

RED CROSS DRIVE GAINS MOMENTUM

ACTIVITIES OF EACH DAY OF NOVEMBER CAMPAIGN OUTLINED.

SCHOOL CHILDREN TO AID

Also Women's Clubs, Municipal Employees, Labor Organizations and Business Men.

That added momentum is being given by the Third Red Cross Roll Call by the approach of the opening day of the campaign. November 2, is indicated by hundreds of preliminary reports reaching Southwestern Division headquarters in St. Louis from Red Cross Chapters in the five States—Missouri, Kansas, Texas, Arkansas and Oklahoma—composing the division. The drive closes November 11.

An outline giving in detail the Red Cross activities that will characterize each day of the 10-day campaign, recently has been made public. The opening day as been designated "Red Cross Sunday" and will be the occasion for sermons on the Red Cross that will be preached in churches throughout the United States. Special programs are to be held at morning or evening services.

On Monday, November 3, the Governor's proclamation in each State will be made public, mass meetings will begin and the first check of the progress of the campaign will be made at a workers' dinner in the evening. "Municipal Employees Day" has been set for Tuesday, November 4. On this day a proclamation from the Mayor of each city and town will be arranged for, while on the principal municipal building the Red Cross flag will be raised to be displayed throughout the remainder of the campaign. Department store, speeches will be made by "four-minute men" to be followed by lunch hour enrollment. Wednesday, November 5, is to be "Women's Day," on which special tribute is to be paid to the work which women are doing in the Red Cross. Meetings of women's clubs, special exercises in Red Cross workrooms and Chapters will characterize the day, which also will mark the peak of the house-to-house canvass that is to be an additional feature of the campaign. Homage to the support which the laboring man is giving to the Red Cross will be paid Thursday, November 6, which is "Employees Day." Noon meetings will be held at factories and large industrial plants. The school children of each city, town and county will be the central figures on Friday, November 7, when special exercises in the schools will be held. The following day is special feature day for business and fraternal clubs. On the second Sunday of the campaign, November 9, patriotic sermons will be preached. November 10 is "Button Day" when all for wearing Red Cross buttons will be solicited while on Tuesday, November 11, the first anniversary of the Armistice, final reports will be made, and the campaign will close.

SOLDIERS TO DIRECT DRIVE

SAIORS, TOO, IN SOME CASES WILL RUN CAMPAIGN.

Willingness of Returned Fighters to Direct Red Cross Roll Call Encouraging.

Returned soldiers and sailors in a large number of Red Cross Chapters of the Southwestern Division of the Red Cross—Missouri, Kansas, Texas, Arkansas and Oklahoma—have accepted the directorship of the Third Red Cross Roll Call, Nov. 2 to 11, according to a recent announcement. That this willingness not only to become members of the organization but to engage actively in the campaign to perpetuate the American Red Cross for future work indicates the high regard in which service men hold the Red Cross, is the belief of Alfred Fairbank, Division Manager. "The fact that the young men who have served their country so courageously, and who have seen the Red Cross at work, are willing to assist so actively in its continuance should appeal to every man, woman and child in the country."

TEACHERS WILL CANVASS

Dallas, Texas, Instructors Volunteer As Red Cross Roll Call Workers.

School teachers of Dallas, Texas, have volunteered their services as canvassers for the Third Red Cross Roll Call, November 2 to 11. They already have perfected an organization and plan to make a house-to-house canvass on the second Sunday of Roll Call week in an effort to swell the total of Red Cross memberships for 1920. "As we each intend to canvass in our own district," one teacher writes to Red Cross headquarters, "we expect to accomplish much by this unified action. Many teachers have mentioned that they had been unable to give as much time to war work as they wished and therefore desired now to aid the Red Cross in furthering its peace program."

ROYAL FAMILY ARE WARMLY RECEIVED

BELGIAN KING AND QUEEN ARE WELCOMED ON ARRIVAL IN NEW YORK.

New York.—The king and queen of the Belgians, with Prince Leopold, heir apparent to the throne, were the guests of the United States in New York Thursday. They have come, as his majesty expressed it, to voice their gratitude and that of their people for the generous aid given them by this country when their nation was threatened with extermination.

The couple arrived in New York on the George Washington. She anchored three miles east of the Ambrose lightship. A flotilla of 22 destroyers escorted the George Washington up the bay to her pier at Hoboken. As the ship came up the harbor salutes of 21 guns were fired from the castle fortifications. In response the George Washington broke out at her masthead the flag of the Belgian royal family and the national banner. It was arranged for King Albert to leave the vessel and proceed to the reception room between lines of American soldiers at present arms, and along a hall decorated with the flags of Belgium, the United States and the other allies in the war. Under a canopy of flags in the reception room the program called for the formal address of welcome by the vice president of the United States, and King Albert's reply to the greeting of the American nation.

Others in the official welcoming party at the pier were Robert Lansing, secretary of state; Newton D. Baker, secretary of war; General Peyton C. March, chief of staff of the army and Breckinridge Long, third assistant secretary of state.

HOUSE PASSES THE COLD STORAGE BILL

Will Not Have Much Effect on High Cost of Living, It is Claimed.

Washington.—After three days' consideration the house has passed the bill regulating cold storage in response to one of the suggestions of President Wilson in his message for reduction of the high cost of living. Many of the members say that the bill as passed will do practically nothing toward reducing the living cost and this is admitted by some members of the house agricultural committee.

The only essential change from the committee bill was an amendment to prohibit the placing in cold storage chickens until they had been drawn. The bill was opposed by Representative Connally of the Waco district, who contended in a speech to the house that the bill would bring an injury to the people and that practically its only effect would be to enable the operators of cold storages to relieve themselves of state regulation. While this is disputed by the sponsors of the bill, Mr. Connally read to the house from a resolution adopted by the cold storage people showing one of the reasons why they desire the law was "in order to relieve the industry of the unnecessary annoyances and losses incidental to divergent state laws."

SIXTEEN PERSONS DEAD IN RIOTING IN ARKANSAS

Five White Men and Eleven Negroes Are Killed.

Helena, Ark.—Five dead and five wounded make up the list of white casualties so far as a result of the uprising of the negroes in the vicinity of Helena, 18 miles south of Helena, which broke forth Tuesday and caused a reign of terror in the southern part of Phillips county until the arrival of federal troops from Camp Pike, sent to the scene on a special train at the request of Governor Brough. The number of negroes dead stood at 11, one of them a woman, with others variously estimated at five to 15, reported to have been killed, but their deaths not definitely established.

Whitlock Ambassador to Belgium.

Washington.—The president has sent the following nominations to the senate: To be ambassador extraordinary and minister plenipotentiary to Belgium, Brand Whitlock, Ohio, now minister to Belgium. To be chief of naval operations in the department of the navy, with the rank of admiral, for a term of four years, Rear Admiral Robert E. Coontz.

Dallas Has Population of 167,584.

Dallas.—This is now a city of 167,584 population. This is the estimate of the John F. Worley Directory company, whose new directory will be ready for publication within a few days. An increase of 14,804 is shown in the population since the publication of the 1918 directory. At that time the city was shown to have 152,780 inhabitants.

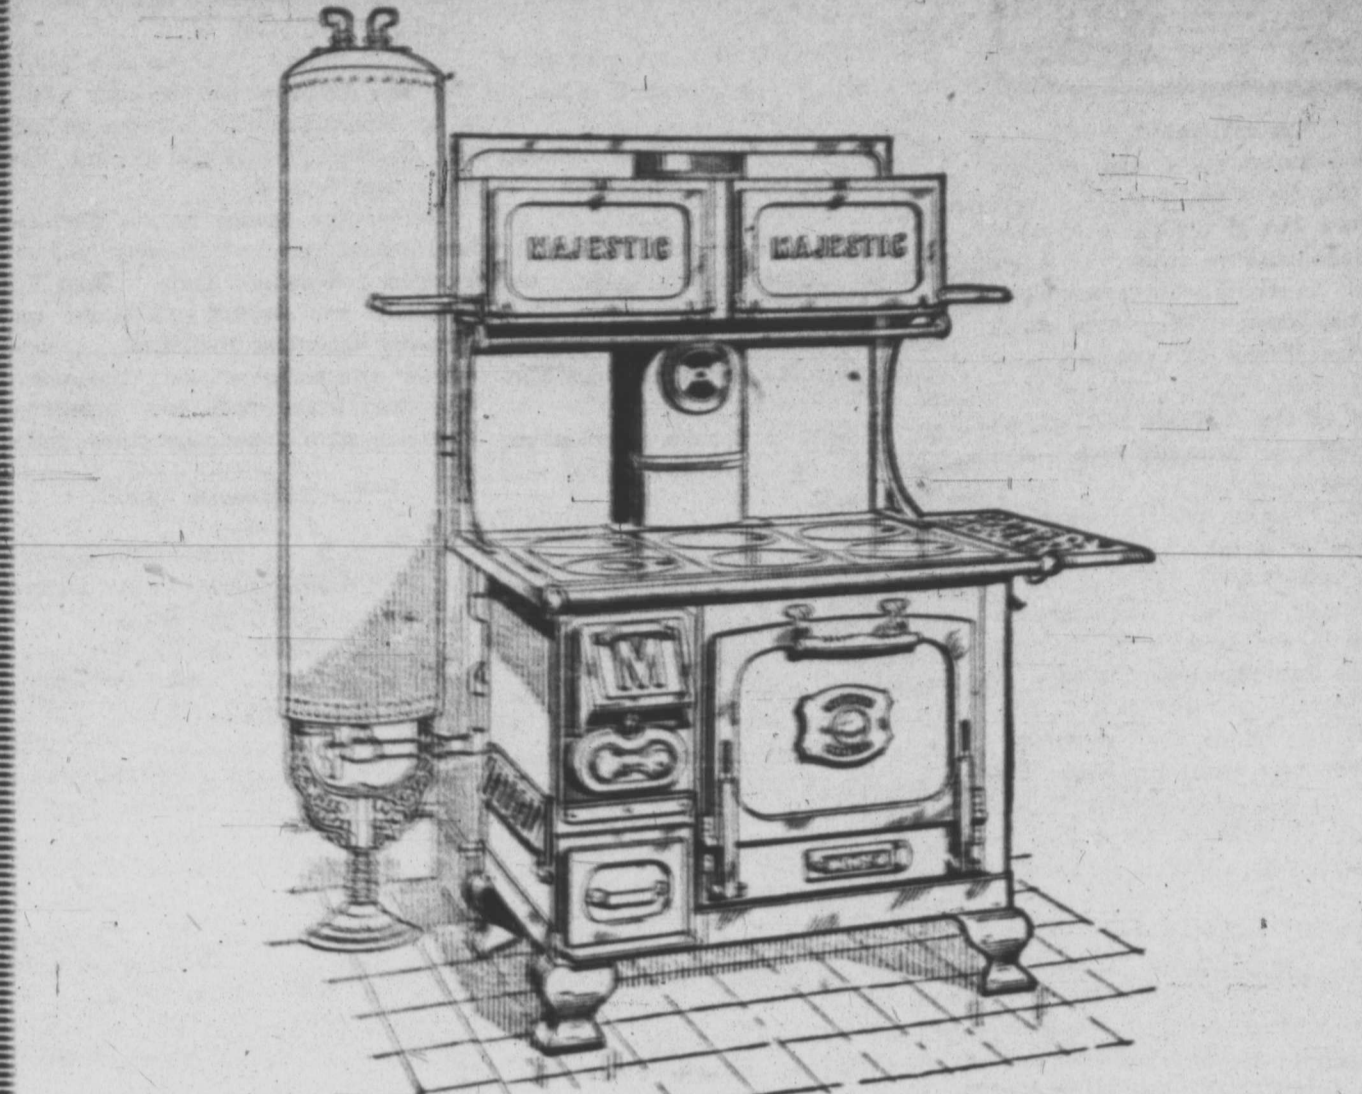

Hamilton to be Attorney General's Aid

Austin, Texas.—Dexter Hamilton of Corsicana has been appointed by the governor as assistant attorney general in attendance on the court of criminal appeals to succeed E. A. Berry.

Bill Limits Storage of Food.

Washington.—By a vote of 266 to 4, the house has passed the bill limiting the period for cold storage of food to 12 months and providing that all cold storage products must be clearly marked as such.

Majestic Bargain Week

Bargain Week Ends Saturday Night, October 25

Handsome Set of Cooking Ware is given with each purchase made before Saturday night.

The Majestic Range is the best range on the market. The material going into the range is the very best. The workmanship is expert. It will last a life time. Ask the scores of people in Randall County what they think of the MAJESTIC.

Do not fail to come in and visit the Demonstration, which is now going on. Hot coffee and biscuits are being served.

THOMPSON HARDWARE CO.

OLD FELLOWS INITIATION THURSDAY—AMARILLO LODGE
Amarillo News: Thursday evening five cars filled with the degree team and members of Amarillo Lodge No. 411 I. O. O. F. went to Canyon this being their second trip. The first trip was for the purpose of conferring the Initiatory and First Degrees on five candidates for Canyon Lodge No. 481. Captain McPherson of the Amarillo degree team was requested to take the team back to confer the Second and Third degrees on these candidates which they did Thursday night. A larger number of members went on the second trip than on the first, there being a number who do not belong to the degree team. They arrived at Canyon about 8 o'clock and commenced with the degree work immediately. After the work was completed the Rebekahs of Canyon entertained with delicious refreshments. After refreshments the lodge was reopened at which time a number of good talks were made by the newly admitted members as well as the Canyon and Amarillo members. All enjoyed the trip immensely and much good was derived from the visit by those present.

Amarillo Encampment No. 17 expects to derive much benefit from these visits to Canyon as that branch of the order was brought to the attention of the new members and those of Canyon who do not hold membership in this branch of the order. All expressed their desire to associate themselves with the Encampment Lodge and expect to have a large class ready soon. Capt. McPherson of the Subordinate team who is also captain of the Encampment team expresses his desire to keep the ball rolling and confer these additional degrees as soon as possible. It was left to the Canyon lodge as to whether they come to Amarillo to receive these degrees or if they wish the Amarillo boys will be more than glad to make the trip again to Canyon. The Canyon members also expressed their desire not to stop with the Encampment but to go on to the Patrick Militant Degree of the order and the Amarillo boys are anticipating much pleasure in the near future with this new material for Amarillo Canton No. 14.

The trips have not only been of benefit to Canyon but have done much to add to the already liveliness of Amarillo lodge. The different branches of the Amarillo lodge are conferring degrees every meeting night and the spirit of good fellowship is at its height. Those who made the trip were Messrs. Capt. McPherson, Frank Thompson, Bright, John Marshall, James Marshall, Herring, Ryan, Knox, Taylor, Walker, Hallmark, Ross, Baggett, Lyon, Spann, Bradford, Black, Loper and Works.

Senator Hiram Johnson of California is a very strenuous man. If he fails in his laudable aspirations to be President of the United States, any Uncle Tom's Cabin company would be leading to pay him a princely salary as leading Siberian bloodhound chasing Eliza over the ice.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

Take "Dodson's Liver Tone" Instead!

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

The Story of a Turret Captain

Promotion in the Navy comes quickly to those who qualify for higher ratings. In March 1919 A. F. Nilson enlisted in the Navy as an Apprentice Seaman, 3rd class. In April 1917 he was rated Chief Turret Captain. His pay today is \$165.75 per month.

A man's life — among men!

Reel them off—"Rio", Gibraltar, Ceylon, Yokohama—all the great ports of the world—are they only places on the map to you—or are they ports where you've gone sailing in from the high seas with every eye along the shore turned admiringly on your big ship—your ship! Every ocean has a United States ship sailing for some port worth seeing.

If you've any call-in you for a full life—join, and color all your years ahead with memories of things worth seeing—with knowledge worth having—with an inexhaustible fund of sea tales and adventures picked up ashore and afloat that will make you a welcome man in any company.

Work?—sure, and a man's work it is, among men.

Play?—well, rather, with a bunch of men who know how to play. These comrades of yours carry in their ears the sounds of great world cities, of booming guns, of swashing seas—sounds you will share with them and that will never die away.

And when you come home, you'll face life ashore with level eyes—for Uncle Sam trains in self-reliance as well as self-respect. The Navy builds straight men—no mollycoddles.

Enlist for two years. Excellent opportunities for advancement. Four weeks holidays with pay each year. Shore leave to see inland sights at ports visited. Men always learning. Good food and first uniform outfit free. Pay begins the day you enlist. Get full information from your nearest recruiting station. If you do not know where the nearest recruiting station is, ask your Postmaster. He knows.

Shove off! -Join the U. S. Navy

Will Test Milk Cows.

Fred H. Ives, head of the Department of Agriculture of the Normal has sent the following letter to farmers he know were selling cream, and is interested in having all to whom the letter did not go the information: Dear Sir:—

I am told that you ship more or less cream to market. The season of the year is now approaching when feed expense for milk cows will be much greater than it was during the summer. You can not afford to keep cows that do not pay for their feed.

Are you sure that your cows pay their board bill through the winter? I know of a man who was getting a cream check of about \$22.00 per week from ten cows. He thought he was making good money, but a bill figured for their feed came to a total of \$21.50. Some of his cows would be more profitable if they were knocked in the head. A recent test of farm cows in Illinois showed that more farmers were working for their cows than cows working for the farmers. The head of the Dairy Department at the Okla. Agricultural College says that ninety per cent of farm cows do not procure enough butter fat to pay for their feed.

There is only one way to find out whether your cows are all money makers. Figure the feed bill, weigh the milk and test it for butter fat. If you will do the first part, I will do the rest for you, and we will locate the loafers. Bring me a half pint of each cow's milk and I will test it for you free of charge. The sample must be taken immediately after the milking is finished and the milk has been well stirred. You can usually find me in Room 15, basement at the Normal College.

Yours for better cows,
FRED H. IVES.

How to Get It Out of Your System.

Little boys of pugnacious tendencies are usually warned by peace-loving mothers to count ten before saying a cross word or starting a fight. And we have all heard that the thing to do, after writing a particularly scorching letter, is to put it in the drawer and leave it there for twenty-four hours before sending it. At the end of that time, it is said, you will repent of your harsh words, and won't mail it.

The psychology behind all this seems to be that if a man, when angered, can only control himself for a few moments, his better nature will assert itself. This may be good psychology or it may not be; we do not profess to know. But Commerce and Finance, a periodical published in New York, seems to think otherwise. Its psychological theory is that a man has a certain amount of surplus energy generated within him when he is mad, and that this surplus energy just has to come out. If he can get it out of his system in a harmless way, he will no longer be bothered with the wild desire to swat something or somebody, and all will be well. Whereas if he allows his irritation to smolder, he is liable to turn bolshevik or something equally horrible, and go out and do some real damage.

Acting on this theory, and being impelled by a desire to save the country from revolution, the editor of the periodical referred to has figured out a system of exercise which gentlemen of irritable tendencies are admonished to take every morning before starting to work. Here are the exercises:

"Stand in the middle of room, raise arms slowly overhead, take deep breath and say, "Damn the Government," lowering arms in attitude of despair. Ten times.

"Extend body flat downward on floor, cover eyes with hands, kick heels, think of the railroads, and weep, till dry.

"Kneel, wring hands, meditate upon the labor unions and groan 150 times.

"Assume sitting position, hands on hips, sway gently to and fro and concentrate on Mr. Burlison until a generous frothing at the mouth sets in. Till exhausted.

"Collapse on floor. Grovel vigorously, think of the income tax and gnash your teeth as in anger. Add lib.

"While cooling off try to get a number on the telephone."

These exercises are recommended for all those who are grouchy because the "machinery of civilization does not function properly after the greatest war in history."—Dallas News

Johnson's statement that we are the only going national concern would be more interesting if he would tell us where we are going.—Greenville (S. C.) Piedmont.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHLORINE TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

ASPIRIN FOR COLDS

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monoacetic-acidester of Salicylicacid.

Sprouting Oats for Chickens.

Oats for sprouting are soaked over night in warm water and then spread from one half to one inch thick on trays having perforated bottoms, and put into an oat sprouter. Water the oats thoroughly and turn the trays around once daily to procure even sprouting. Artificial heat should be supplied in cool weather by the use of a kerosene lamp or some other means. Use a good grade of oats and allow a square inch of sprouted oat surface to each hen daily, feeding the sprouted oat on the floor of the poultry house or in the yard. Feed at any time after the sprouts are well started, which usually takes from five to seven days. Keep the sprouter clean and spray it occasionally with a disinfectant to prevent the growth of mold spores.

The time for setting your time pieces back an hour comes again this year on the 26th of this month when we will get back to the time we all observed before Kaiser Wilhelm's undertook to absorb the job of regulating the universe. We had to whip up an hour you see to get ahead of this fellow now known by the moniker of Bill. The time will on Oct. 26 (one minute after twelve o'clock on the night of Oct. 25, to be exactly according to Hoyle—pardon, Wilson) revert to a regular basis, even if our Republican friends, enthusiastically aided by a large number of Democrats, had to pass the act repealing the War Time Daylight Saving Law three times before they could show the President not only that they didn't want the Law but that they absolutely would not have it.—Canadian Record.

Must we wrong the rights of the United States in order to right the wrongs of Europe?—Muncie Press.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60c per bottle.

SAY BOYS, THOSE FAMOUS SUITS ARE SURE REAL JAZZING SUITS

Camel CIGARETTES

Cigarettes made to meet your taste!

Camels are offered you as a cigarette entirely out of the ordinary—a flavor and smoothness never before attained. To best realize their quality compare Camels with any cigarette in the world at any price!

Camels flavor is so refreshing, so enticing, it will win you at once—it is so new and unusual. That's what Camels expert blend of choice Turkish and choice Domestic tobacco gives you! You'll prefer this blend to either kind of tobacco smoked straight!

As you smoke Camels, you'll note absence of any unpleasant cigarette aftertaste or any unpleasant cigarette odor. And, you'll be delighted to discover that you can smoke Camels liberally without tiring your taste!

Take Camels at any angle—they surely supply cigarette contentment beyond anything you ever experienced. They're a cigarette revelation! You do not miss coupons, premiums or gifts. You'll prefer Camels quality!

18 cents a package

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

SUBSCRIPTION, \$1.50 PER YEAR

The general public has about as much sympathy for the proposed coal strike as it has for the steel strike. The steel strike is about played out. The coal strike is of a much more dangerous nature. The government may be expected to use a strong arm if the miners walk out. Their demands are abused and wholly unwarranted. The public can afford to wait until the steel strikers get tired of striking and go back to work, but it cannot wait for the coal strikers. Cold weather is here, and there is a great shortage of coal now.

The first edition of the new college newspaper of the West-Texas State Normal College, The Prairie, came out this week. The edition was very creditable to the staff and shows what may be expected when once the students get thoroughly organized. The Prairie is printed by the Randall County News, making the second paper we print besides our own edition. The Southwest Plainman of Amarillo has been printed in this office weekly during the past three years, and now The Prairie will be produced twice a month.

It was suggested to the News man that he would have to change the slogan of this great religious weekly, "Come to Canyon to live", since we moved outside the city limits Saturday and now have a "country home". Well, we come to Canyon every morning before seven o'clock, which is earlier than some of the fellows who are trying to rub it in get around in the mornings. But next to the Corner Addition, Canyon is the best place we have ever lived.

The Red Cross Roll will be called the first of November. It only takes a dollar to answer "present." That dollar will do a lot of good for humanity, and will make you a member of the greatest humanitarian organization in the world.

The famous Shantung admendment to the peace treaty was killed in the senate. The average American is getting tired of the time consumed in discussing the treaty, and wishes something would happen soon to get it out of the way.

The weather man has been flirting with a storm all week. The farmer and stockman hope the engagement will be cancelled. There is yet a great amount of wheat to be threshed, and row crop to be cut.

Wheat planting is going on rapidly in Randall County. The acreage will be large next year, but probably not so large as this year as the farmers will be unable to get it all planted in time.

The sidewalk movement has fully started in Canyon and indications are that a large amount will be put in during the next few weeks. Next to paving, good sidewalks add more to the value of your property than anything you can do.

Saturday is the last day the United States will operate under the daylight saving plan. Turn your clock back one hour before retiring Saturday night and you will have the right time Sunday morning.

An aviator told the world that he would out do Locklear in stunts at Dallas, and proceeded to kill himself by falling from his plane. It is only a question of time until Locklear will do likewise.

Billy Sunday will have to go swimming to beat the "sky piloting" record of the "flying parson".

Perhaps d'Annunzio had joined the poets' union and was compelled to make a demonstration.—Boston Shoe and Leather Reporter.

Happy Happenings.
Mrs. Sweet returned last week from McClellan, where she went to teach. On account of her poor health, her school was postponed for a month. She is under the Doctor's treatment for a nervous break down. She will return to her school work if she gets able.

Mr. Fowler left Friday for Dallas to join his wife where she will have an operation. Quite a number from here attended the sale at the McNeil Bros. ranch Thursday. There was a big crowd there but owing to the bad weather they didn't begin the sale till noon, consequently they didn't finish. It was concluded the sale would continue Friday.

Mrs. W. S. Cook left Saturday for her old home in Wayne, Nebr. They are having a reunion of all the old Ladies Aid Society that was there years ago. Miss Tallie Cook accompanied her to Amarillo where she was shopping.

Mr. Patching, S. C. and S. T. Whitman and J. F. White shipped 5 cars of cattle Saturday. S. C. Whitman and Fred Patching went to Kansas City with them.

John Lane returned Saturday to his home in Kentucky. He has been here visiting his sister, Mrs. E. A. Patterson for sometime.

J. H. Stephenson and family and Miss Pearl Banner were visiting relatives in Silverton Saturday and Sunday.

Mrs. R. L. Dillon and children of Canyon and daughter, Mrs. Miller Currie of Colo. were callers here Friday. Miller Currie came in Sunday and will take charge of the telephone exchange the first of the month. They will make this their future home.

A. P. Thornton of Hereford was shaking hands with his many friends here Saturday.

N. W. Uselding sold his calves to Mr. Murdock for \$32 around.

"Uncle Jim" Wesley and family and Mark Wesley and family left Tuesday for their new home in Washington county, Arkansas. We regret very much to lose these good people but hope they will like their new home. Uncle Jim was one of the first settlers of the Plains.

E. A. Patterson was an Amarillo caller Saturday.

Cliff and Harve Bellas were in Amarillo Thursday on business.

Miss Mildred Zoellers who is teaching the Garrison school spent the week end with home folks.

Jim Gurley was an Amarillo caller Saturday.

Wednesday, Oct. 16 at 12 o'clock at the Baptist parsonage in Canyon, Rev. B. F. Fronbarger performed the ceremony that united in marriage Miss Margarette Garrison and Embury Finley. They were accompanied by the bride's mother, Mrs. A. J. Garrison and brothers, Marvin and Guy and the groom's mother and Mrs. H. M. Baggerly and Mrs. Roy Smith. The bride wore a beautiful brown traveling suit with accessories to match. They left via Amarillo for Dallas and returning Saturday to Vernon to visit a few days with the bride's sister, Mrs. H. T. Still. They returned to their home here Monday.

We are very much on the boom at present. Mr. Selvidge is building a new house in the east part of town, Mr. Wilson is building in the east part; Charlie Mitchell's new house is nearing completion, they having moved last week. Earl Whitley bought the one they lived in and moved it onto lots north of the Farmers' Exchange.

Mrs. P. J. Neff and daughter, Miss Gladys were shopping in Amarillo on Tuesday.

Mr. H. H. Still left last Wednesday for her home in Vernon after spending a week at the parental A. J. Garrison home.

Mrs. M. B. McManigal was a caller here party Wednesday. Mesdames P. J. Neff, Wm. F. Miller, Ernest White and J. M. Flesher spent the day tacking comforts.

Clark Neff was a Canyon caller on Tuesday.

Quite a bunch of the young folks went out to the country home of Mr. and Mrs. Embury Finley Monday night where they proceeded to make the night hideous with the rattle of tin cans and beating of pans and any-

thing that would make a noise. After some time of that fun they were treated to cigars and oranges.

After returning to town they decided they had not had enough fun so they proceeded out to the home of Mr. and Mrs. Cary Durden where they went through the same performance. They left at a late hour wishing the newly weds much happiness.

E. E. Whitley moved to the Sid Guest place Wednesday. Elzo Guest moved where they were the same day. Sid Guest will move to the Jim Wesley place.

C. L. Goad moved to his farm near Arney Wednesday.

There will be a concert Saturday night at the auditorium given by the Wayland college. Every one come.

Wayside Items.
More cloudy but no falling weather. Farmers are quite busy sowing wheat saving row crops and many things that fall to the life of the farmer. Some wheat still unthreshed. Never before so much complaint of scarcity of hands, not withstanding the high price of labor and the difficulty of getting grain threshed.

W. I. Lane and wife are papering Jim Sluder's residence this week.

Mr. and Mrs. W. I. Lane and children spent the week end with relatives in Canyon.

Sunday, Oct 19, was a Red Letter day for Wayside.

Dr. W. A. and Mrs. Warner, accompanied by Sgt. White from Claude stopped in Canyon on their route to Wayside where they were joined by Pres. and Mrs. Hill and children, and Misses Rambo, Brown and Michel of the Normal college. The church was fairly well filled with interested spectators to see and hear what Dr. Warner had brought from over seas in the war zone. Mrs. Warner delivered a most interesting address followed by Sgt. White, a returned soldier who from experience could testify for the Red Cross. J. W. McCreery and H. H. Gillham of Wayside made short talks after which Dr. Warner brought out and exhibited quite a number of very interesting relics of the war. Every one presented greatly enjoyed the exhibit.

Workers for the third Red Cross drive at Wayside have enrolled a good per cent of their quota already. They expect to go "over the top".

W. C. McGehee, wife and Alline and Misses May and Naason, called on Uncle Reuben and Aunt Mattie Rogers Tuesday night. Aunt Mattie has been quite feeble for two weeks. She eats and sleeps well but unable to get about without assistance.

Joe Rogers and sister Ethel came Monday and are visiting relatives in Wayside.

Neighbors and friends of Mrs. Mary Hollabaugh were shocked to hear of her sudden death at her home near Amarillo last Sunday morning. She will be sadly missed. She leaves seven children and husband who have the sympathy of all their friends.

BERT DAVIS PLAYERS WILL BE HERE ALL NEXT WEEK

The mere announcement, that a show is coming to town does not signify anything. Most any one can buy a tent and hire a few men and women and go out and advertise "The Biggest and Best Show Ever Here," but that is not convincing, nor is it any assurance that the aforesaid show will be good or that it will get business. The Bert Davis' Players is now in it's fourth year of success in every way and it has not only made money from it's initial performance, but it has given universal satisfaction everywhere it has played, for example; Mr. Sullivan, the manager of the Deandi theatre at Amarillo heard that Mr. Davis was going to lay his show off for a couple of weeks while he repaired it and rigged it up for the winter. Mr. Sullivan immediately engaged the show for his house for the two weeks and before that time prevailed upon Mr. Davis to stay another week, which he did and business was better the last week than the first week. This show is better prepared to give winter shows under canvas than any other one in Texas, in the first place there is a practically new tent that cannot leak and there is double side walls and five big coal stoves are kept red-hot as long as they are needed.

The plays are all new and true to name, for instance, the opening play "The Boy Who Came Back" is even now playing in one night stands at dollar prices and every other bill is new, here is a partial list: "Bought and Paid For", "The Girl He Couldn't Buy", "The She Devil", "The Little Lost Sister", "A Pair of Country Kids" and "Lena Rivers" for a Saturday matinee.

The vaudeville numbers that will be introduced between the acts are all clean and highly entertaining.

The prices of admission are adults 33c and children 15c, which includes the war tax. The ladies will be admitted absolutely free Monday night upon the payment of a 3c war tax

at the front door.

There is an excellent band carried with the show which will give a grand free concert on the main street at four o'clock Monday evening and another one at seven.

The doors will be open at 7:30 with a band concert and their curtain will rise at 8:30 sharp.

It might be of interest to the lovers of music to know that Eddie See's

singing orchestra gives fifteen minute concerts every evening just before the curtain rises.

A Good Show Coming.

Col. Geo. W. Hall shows will be with us on October 27, with many new and novel features and it can be truthfully said to be a good one presenting so many pleasing high class original feats, facts, and wonders

making it now the best of all tented exhibitions before the public. A grand street review at noon. Two exhibitions daily at two and eight o'clock.

John Mathis of Amarillo was a business caller in the city yesterday.

Mrs. Chas. Stephenson of Amarillo spent the week-end at the parental W. C. Baird home.

J. M. Poston of Blake, Okla., is in the city this week meeting a number of his old acquaintances and friends and is talking about moving back to the Panhandle.

Mrs. Bob Dowling of Washburn and Mrs. Z. E. Simmons of Amarillo left last week after spending two weeks with Mrs. Ewell Brown who had been Quite ill.

LOCAL NEWS

Mr. W. B. Goodall of McClellan county, Texas, was in the city one day this week.

Auto top repairing at Thompson Hardware Co.

Charles V. Gregg and wife have moved here from Colorado to make this their future home.

H. A. Winters of St. Joe, Mo., is in the city on business.

G. P. Milton, scout for the Texas Oil Company, was in the city one day last week.

D. E. Ray of Altova, Texas, spent a few days last week at the Foy home.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness. GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood. The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 50c per bottle.

The Pioneer Scout.
(By Armstrong Perry, Chief Pioneer Scout, Boy Scouts of America.)
The country boy has always been a pioneer.

He follows up the streams to find where they come from and follows them down to find out what they flow into.

When he discovers a trail he never rests until he has discovered where it leads. He is not satisfied merely to look at a mountain; he climbs it and finds out what lies on the other side.

He knows a lot about trees and soil and crops; about animals and birds and fishes. He is a natural born scout.

But in spite of all the things which a country boy finds to do and to know, he is restless to get away and see new things, meet new people, do greater deeds. It is human nature—especially boy nature—to demand larger and larger experience. Pioneer Scouting helps to satisfy the longing.

Older men who have seen the world and tried all it has to offer know that at last the dearest spot on earth is home, sweet home. I have asked American sailors in foreign ports—in those ports which you have longed to visit—where they would like to go next. The answer is always the same—home!

On fast express trains sweeping across the continent, I have swapped yarns with travelers from all quarters of the globe. Sooner or later they turn to tales of boyhood days in the country.

But the experiences of older men do not satisfy you, the boy in the country.

You want to have your own experiences, and you should have them. Pioneer Scouting may make it possible.

This fact, though, I want you to remember: You never will see much of the world unless you learn to see the things that are right around you now.

Have you ever seen a mosquito? Sure, and felt it, too!

What kind of a mosquito was she? I say "she" because, as you may not know, "he" never bites a human being.

Did you know there were more than a million species of mosquitoes? Right around your own home you might be able to discover twenty or more species. For example, you might discover *Wyeomyia Smithii*, who is born only in the pitcher plant. "Smittie" you can call him for short. He is an interesting little cuss.

When you get so you can see the things around you, you will not need to go out into the world to become famous. Men who really know things are so scarce that they stick up like sunflowers in a vegetable garden.

A stone mason in Leroy, Pa., eight miles from the railroad, kept his eyes open as he worked and learned all about local geology. He discovered a fossil fish which had eluded the scientists of the world for centuries. Very soon he was known among geologists the world around, and the fish was given a Latin name meaning the Lilley found it.

Pioneer Scouting takes away the dullness of working all alone. When a boy becomes a Pioneer Scout he is a member of an organization with over half a million members in the United States of America. There are similar organizations in all civilized countries. The Pioneer Scout may exchange letters, post cards, curios or other articles with scouts in Ceylon, Mesopotamia, Siberia, China, France or any part of the globe.

Scouts in good-sized towns and cities are organized in troops with a scoutmaster, but the Pioneer Scout—the country boy who cannot find a troop near enough for him to join—is connected directly with National Headquarters.

Any boy who has passed his 12th birthday may become a Scout. Write to the Chief Pioneer Scout, Boy Scouts of America, 200 Fifth Avenue, New York City, for information.

Colds Cause Grip and Influenza
LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 20c.

A sale of Hereford cattle was made at Hereford last week, says the Brand, which sale is perhaps the record for a private sale of any breed of cattle. A firm there sold to a Nebraska firm 34 head of cattle at a little over \$3,000 per head. The sale is almost as good a dream as an oil well. The boys who sold the cattle recently purchased the T. C. Ivey herd for \$135,000 and everyone thought they were wildcatting in a strange manner in the cattle business, but now that they have turned 34 head of the stuff for a little over \$100,000 everyone is wondering where they found their joo-joo sticks.—Canadian Record.

In France the war-tanks are now being used to tow canal-barges. Apparently all the tanks are being driven to water-ways.—Columbia Record.

Don't Desert Now.
Talk with the next farmer you meet and he will probably tell you that when he knows the very things he produces are selling for about six times as much as he got for them when he turned them over to the jobber and the middleman and the wholesaler and a few go-betweens he feels a tendency to desert the farm, to hasten to the city and participate in what looks to him like the only kind of a harvest worth while.

He sees where wages are being pushed up to an unheard of figure, through strikes and agitation, and he longs to participate in the reward. And yet, if he will take the time to find out for himself, he will learn that the man who is working for a daily wage is not making money. He will quickly see that at the end of the year he will be farther ahead if he sticks to the farm. The average city dweller is straining every energy to make ends meet, just as is the farmer. The difference is that the city dweller takes his living out of the high priced grocery instead of the soil, instead of out of his own acres.

The man who deserts the farm for city life discovers sooner or later that the golden harvest he anticipated was only a mirage, only a seductive dream that had to have its end, and the end was not exactly as he had imagined it would be.

Plainview Jail Is Empty.
The jail is unoccupied for the first time in seven years. All old cases are disposed of and no crimes have been committed for some time. Sheriff Terry says that at no time since his term of office began has violations of the law been at such a low ebb. This is attributed to the general prosperity of the country. There is no incentive to steal when wages are so high and money is so plentiful for labor. It is said that idleness breeds crime and as there are mighty few idle ones in the county it is plain why there are no law breakers.—Plainview Herald.

Thos. Edison is the "wizard of the world." He began life a poor boy. He is now rich. He works from twelve to twenty hours a day. He has done more possibly than any man to make the world a pleasant place to live and work in. He is level-headed. He has nothing but contempt for agitators, I. W. S., socialists and all other radicals who dispise to work and are always raising hades about "down trodden labor" and demanding a short day's work. Edison has been worth more to humanity during his life than all these shirkers would in untold millenials.

SCIENCE TALKS

A celebrated scientist referring to cod-liver oil said that Nature had given the world "almost a ready-made food".

SCOTT'S EMULSION

is richest Norwegian cod-liver oil, elaborated in a scientific manner, very much as Nature wraps up each globule of butter-fat. Scott's is not unlike cream in consistency, but many assimilate it easier than they do other fats. Scott's Emulsion is concentrated nourishment that helps keep the body strong. Give it a trial.

The exclusive grade of cod-liver oil used in Scott's Emulsion is the famous "S. & S. Process," made in Norway and refined in our own American Laboratories. It is a guarantee of purity and palatability unsurpassed. Scott & Bowne, Bloomfield, N. J.

The man who works should be happy. He should be contented, and is more contented than the loafer. The man who is always grouching about "not getting a fair deal" or being ground down, should brace up, get a sure enough move on himself, use his brain and his muscle—and begin to climb the ladder, for there is a lot of room at the top for the fellow who has the will and determination to go to the top. "Every man should work and do his part in the world", says Mr. Edison.—Plainview News.

Freaks Of The Digits.

It is commonly supposed, said the old professor, that figures are cold, unromantic and uninteresting fellows, freakish, and some things about them are strongly suggestive of witchcraft.

For instance: The squares of numbers composed of all 1s are peculiar as to producing the digits similar to this number. Put the number of 1s for the central figure and then descend right and left with the next lower digit, and the number is squared thus: the square of

11 is 121
111 is 12321
1111 is 1234321
11111 is 123454321
111111 is 12345654321
1111111 is 1234567654321
11111111 is 123456787654321

The square of 111,111,111 is 12,345,679 times 999,999,999. 12,345,679 times 999,999,999 equals 12,345,678,987,654,321. 987,654,321 times 5 equals 10 (123456789 times 4) plus 45.

The only right-angled triangle possible in integral numbers whose sides and area are in arithmetical progression is that composed of the digits 3, 4, 5, 6; perpendicular 3, base 4, hypotenuse 5, area 6.

If the digits in regular order (omitting the 8) be multiplied by 9 and the multiples of 9, 18, 27, 36, 45, 54, 63, 72, 81, the results are successively all 1s, 2s, 3s, 4s, 5s, 6s, etc., as follows: 12,345,679 times 9 equals 111,111,111
12,345,679 times 18 equals 222,222,222
12,345,679 times 27 equals 333,333,333

12,345,679 times 36 equals 444,444,444
12,345,679 times 45 equals 555,555,555
12,345,679 times 54 equals 666,666,666
12,345,679 times 63 equals 777,777,777
12,345,679 times 72 equals 888,888,888
12,345,679 times 81 equals 999,999,999

The sum of the digits placed in a palindromic, using the 9 but once for a central digit, is to the square of

1 plus 2 plus 3 plus 4 plus 5 plus 6 plus 7 plus 8 plus 9 plus 8 plus 7 plus 6 plus 5 plus 4 plus 3 plus 2 plus 1 equals 81.

Take any row of mixed figures, reverse the order and subtract the less from the greater. The answer will certainly be always 9 or a multiple of 9. For example take 1705 from 5071 leaves 3366. Add these digits and you have 18. Try this with any number of figures and the result will always be the same.

Danger Either Way.

Trades unionism is an excellent thing; it is a weapon against the tyranny of capital.

Capital is a necessary thing; without it no industry can develop.

But the overdevelopment of either is dangerous to democracy—and democracy must survive and must rule. When either of them attempts to be master rather than servant of the body politic, our freedom and our national existence is menaced by a disaster as grave as invasion by a foreign foe.

Radicalism either way will accomplish no good results.

Come to Canyon to live.

Phonograph Pastors.

The installation of 3,000 "phonograph pastors," proposed by the Presbyterian New Era Conference, seems like a leap from H. G. Well's novel "The Sleeper Awakes," where he visualizes the religion-worship of two hundred years hence as "a combination of the phonograph and electric display." The St. Louis Star observes:

"The English novelist made his evolution of the Church a consequence of the eternal haste of an artificial civilization. The Presbyterian innovation is a measure of economy. The pulpits are empty because financial support is lacking. But it is possible that once the phonograph is established in the pastorless churches, it will drive the ministers out of many other churches. The phonograph has been most wonderfully improved in recent years that it is capable of genuine oratory, and can convey its message to an audience of several hundred people—far more than ever gather in the smaller churches. But the real advantage should be in the caliber of the sermon.

"Who is to say that congregation will not prefer to hear the 'canned' voice of a \$20,000 a year minister, representing the highest intellect and the finest expression of religious thought to be found in the church, rather than the 'firstlies' and 'tentlies' of a man who struggles under the martyrdom of a \$600 salary and preaching ability to match?"—Literary Digest.

Mr. Roosevelt's Reasons For Church Attendance.

Mr. Roosevelt was a vigorous, red-blooded American, who believed in God and had great love for the Church. We give below the nine reasons he gave for Church attendance and trust that some man may be helped by having his attention called to these reasons:

1. In this actual world, a churchless community, a community where men have abandoned and scoffed at or ignored their religious needs is a community on the rapid down grade.

2. Church work and Church attendance mean the cultivation of the habit of feeling some responsibility for others.

3. There are enough holidays for most of us. Sundays differ from other holidays in the fact that there are fifty-two of them every year—therefore on Sundays go to church.

4. Yes, I know all the excuses. I know that one can worship the Creator in a grove of trees, or by a running brook, or in a man's own house just as well as in church. But I also know as a matter of cold fact the average man does not thus worship.

5. He may not hear a good sermon at church. He will hear a sermon by a good man who, with his good wife, is engaged all the week in making hard lives a little easier.

6. He will listen to and take part in reading some beautiful passages from the Bible. And if he is not familiar with the Bible, he has suffered no loss.

7. He will take part in singing some good hymns.

8. He will meet and nod or speak to good, quiet neighbors. He will come away feeling a little more charitably toward all the world, even toward these excessively foolish young men who regard Church-going as a soft performance.

9. I advocate a man's joining in church work for the sake of showing

Saving \$5.00 Or \$10.00 For You

Here's what has happened, since we bought our fall stocks. Wholesale prices have advanced. Everything is higher--these clothes we have here are worth \$5.00 or \$10.00 more a garment. We could increase our prices that much. Merchants who are buying now have to do it, but we don't do business that way. We bought these goods for you, and you're entitled to all the saving-- over and above a fair profit for us. Were we forced to buy our stock on today's market, we would have to ask at least 20 per cent more for MERCHANDISE than we are getting. This week we bought Men's Dress Shoes for January delivery at an average of \$3.65 per pair higher than when we bought our present stock. That means we will have to get \$15.00 for shoes in January, that we are today selling for \$12.00. We don't know why-- and have no excuse to offer--other than we have to pay the price to get them. The earlier you buy your winter Goods the less they will cost you.

his faith by his works.

Good Words and Bad.

Often a good reputation is seriously impaired by a careless word or two said in jest and repeated in thoughtlessness. It is the same in this community as in all others.

Men and women can not guard too well their tongues in this respect. It is not good that our citizens be constantly exposed to the impairment of their good names because some other person, in a moment of thoughtlessness or in a spirit of vindictiveness, makes questionable allusions to them without the facts to substantiate such derogatory statements.

We are all interested in this town and the surrounding territory. We want to see it grow, and thrive, and blossom with prosperity. We want to see it a model community.

But it will never be other than just what we of the community make it.

If we insist on constantly hammering each other, we can only expect a battered wreck as the result.

But if we remember that in all people there is some good; and look to and speak of the best in life rather than the worst, it will have a wonderful beneficial result.

If each of us will search out his own faults, and correct them, we will be doing quite as much as the Lord expects of us individually.

If a stone must be cast, withhold your arm. Let the constituted officials handle the case. It is better than an indiscriminate shower of missiles, whether they be verbal or otherwise.

This is our town.

Let us boost, and not shove.

Higging News—Said a man the other day: "It don't seem to make any difference how hard I try to please people, I can not please everybody." As a general rule, mankind

as a whole, tries to be courteous and pleasant to all men. But how many are the shortcomings of mankind from the perfection it would attain.

To please everybody is just as impossible, as to push the moon out of its orbit, and the older and wiser a man gets the less he tries it. He knows that it is one of those things the angels failed to do, and what was not possible in the celestial world must be out of the question in the habitat of humanity.

Perhaps a good plan to follow is to do the very best we can, profit in so far as we may, by the shortcomings of the past, and just allow the rest to take care of itself.

The reason Europe respects American ideals is because they include square meals as well as square deals.—Greenville (S. C.) Piedmont.

Many a striking steel-worker has beaten himself out of a motor-car for next summer.—Wall Street Journal.

YOU'LL DO BETTER AT THE HOME

Do You Need Furniture

The demand for furniture is greater than the supply and if you need furniture it will pay you to buy at once.

Columbia Grafanola—Buy a machine early as there is a big shortage in them. Come in and see and hear the Grafanola.

Bed Room Suits—A full line of Ivory, Satin, Walnut, Birds-eye Maple, Cascassian Walnut and Brown Mahogany.

How About An Overcoat?

Have you ever thought of having your overcoat made to your measure—tailored for you individually? You'll never know real style, fit or wear in an overcoat until you do.

S. H. Churchill & Company
Made-to-Measure Clothes for Men

give you style plus individuality. The careful tailoring gives you better fit. The superior workmanship gives longer wear. Instead of an ill fitting, unshapely thing you get a coat that shows its superiority and character. So it's not just a coat, but, clothes satisfaction that you buy here.

THANK YOU

We thank the many patrons of the STAR BARBER SHOP and the STAR TAILOR SHOP for the kinds words of commendation since the announcement was made last week that we had bought this business.

All of the men who have been connected with the business in the past have agreed to remain. They are all experienced and expert workmen in their lines and we know that our customers are pleased that there is to be no change.

We trust to continue serving all of you, and will give the very best service in both the Barber and Tailoring departments.

PRICE BROS.
OWNERS.

A LITTLE WANT AD BRINGS RESULTS

\$75,000,000 TO BE RAISED IN SOUTH

BAPTISTS ANNOUNCE PURPOSES TO WHICH VAST SUM THEY SEEK WILL BE GIVEN.

STRENGTHEN CHURCH WORK

Special Effort of Denomination Aims General Lines Will Be Enlarged And Made Stronger As Result Of This Campaign.

Every general interest fostered by Southern Baptists will be strengthened and enlarged through the success of the Baptist 75 Million Campaign which is now well under way, and which will reach its climax in the final drive to secure this sum in cash and subscriptions during the eight days of November 30 to December 7. A period of five years will be provided for the final payment of these subscriptions but for the campaign to succeed, the sum of \$75,000,000 must be subscribed within the eight days. Many have expressed the belief that the subscriptions will run to \$100,000,000.

At a meeting of the Executive Committee of the Southern Baptist Convention the \$75,000,000 to be raised was apportioned among the general inter-

J. H. Anderson, Wealthy Knoxville Merchant, Who is Chairman of the Campaign in the Baptist 75 Million Campaign.

ests fostered by the Convention, as follows: Foreign missions, \$20,000,000; home missions, \$12,000,000; christian education, \$20,000,000; state missions \$11,000,000; ministerial relief, \$2,500,000; orphanages, \$4,700,000; and hospitals, \$4,125,000.

The apportionment of this sum among the several states within the territory of the Convention has been announced as follows: Alabama, \$4,000,000; Arkansas, \$3,200,000; District of Columbia, \$200,000; Florida, \$1,000,000; Georgia, \$7,500,000; Southern Illinois, \$1,200,000; Kentucky, \$6,500,000; Louisiana, \$3,325,000; Maryland, \$750,000; Mississippi, \$3,350,000; Missouri, \$2,925,000; New Mexico, \$250,000; North Carolina, \$6,000,000; Oklahoma, \$2,250,000; South Carolina, \$5,500,000; Tennessee, \$4,660,000; Texas, \$16,000,000; and Virginia, \$7,000,000.

Here is what this big sum of money will help Southern Baptists do for the Master, as set forth by the Campaign Commission:

"It will equip more adequately and multiply manifold the 1,099 missionary workers of the Foreign Mission Board, and the more than 2,000 Home and State Board Missionaries.

"It will enlarge and raise to a better efficiency the 132 Baptist schools in the South.

"It will go far towards meeting the expanding needs of the Southern Baptist Theological Seminary and the Women's Missionary Training School in Louisville, Ky., the Southwestern Baptist Theological Seminary and Women's Training School in Fort Worth, the Baptist Bible School in New Orleans, La., a Theological Seminary for the Negroes, and will provide a first-class college for boys and girls of the mountain region.

"It will increase greatly our hospital service to the sick, open wider our arms to the orphans and provide a strong support for our aged ministers of the gospel.

"It will put Southern Baptists in position to assume a considerable share in the reconstruction of war-torn Europe, and embrace many of the marvelous opportunities for service which thrust themselves upon us from all parts of the world, at home and abroad."

While \$20,000,000 of this sum will go to foreign missions and thus be expended in carrying the gospel and its blessings to other lands, the remaining \$55,000,000 will be expended at home in building up home missionary, educational and benevolent institutions and projects, of which there are a number in every state within the boundaries of the convention.

S. B. McCLURE, REAL ESTATE

(By R. Kenneth Evans)

On the front page of this issue of the Randall County News appears an exhaustive article on the real estate conditions of Randall county and Canyon and this article shows conclusively that there is much activity along this line at this time. It is but appropriate that something be said with reference to one of the leading real estate men of the Panhandle country in connection with the exploitation of real estate conditions. There may be many prospective real estate owners read this issue of the Randall County News and it is with pleasure that the News can publish something with reference to a thorough reliable real estate dealer who is conversant with all conditions in this section and who probably has as many lists of opportunities in this section for sale as any real estate man could possibly have.

To begin with S. B. McClure is truly a Texan. He believes in Texas and has reason to believe in Texas. He has been here for many years and has watched the Panhandle country grow and develop. He has watched the successes of those who came here from other sections and took advantage of the vast field of opportunities which were thrown open to them. He has been responsible for many of these people locating here and has always done everything in his power to assist them in acquiring success.

Mr. McClure established his real estate business in Canyon in 1912. He opened his offices on the basis of fair dealing to everyone and has since being in business established the reputation of never inflating conditions or misleading any individual in any particular who was interested in lands in this section. The term real estate covers a vast field but Mr. McClure does not confine his operations to real estate alone. He also handles stocks of merchandise, sells cattle and does a general commission business and also handles investments. He has made a specialty of handling property for non-residents and especially rentals. He has established a reputation of caring for rental properties belonging to non-residents with as much care and consideration as though the properties were his own personally.

Mr. McClure maintains his offices on the West side of the square and his offices are really the center of real estate activity in the city. There are always many patrons around his offices and he is constantly busy handling some real estate propositions. During the last two years with the extensive immigration to this section and the general activity in real estate Mr. McClure has had an exceptionally extensive business which in every instance was handled with signal success. He has consummated several very large deals during that period of time and recently disposed of more than two dozen residences and lots in Canyon alone.

His extensive familiarity with industrial conditions for which he has been directly responsible has maintained for Mr. McClure a wide acquaintance throughout the Panhandle country. In fact he has maintained the enviable position of one of the leading real estate and investment dealers and is known by almost every man, woman and child in the Canyon country.

Mr. McClure always has at his disposal many opportunities for investment. To those interested in this section of the Panhandle it will pay them to communicate with Mr. McClure. He will be glad to supply information which will show instances where profitable investments can be made in this territory of vast opportunities.

THE BANK OF PERSONAL SERVICE

The only Guaranty Fund Bank in Randall County. Its record of growth during the last nine years shows it to be successfully managed and offering every inducement for pleasant business dealings.

Labor Withdraws From Conference.

Washington, Oct. 22.—Labor withdrew from the National Industrial Conference tonight after its final effort to obtain adoption of a collective bargaining resolution had been defeated by the vote of a majority of the capital group.

Although the representatives of both the public and capital announced their intention of remaining in the conference, the next move, in the effort to restore industrial peace to the country evidently rested with President Wilson. Mr. Lane will make a personal report to the president, but higher leaders in the conference nor officials generally would venture a prediction as to what course Mr. Wilson would take.

Meantime the conference will be called together tomorrow as usual.

Withdrawal of the labor group was announced by Samuel Gompers, president of the American Federation of Labor, after a dramatic speech. It came only a few hours after Secretary Lane, in an effort to prevent what many from almost the first had regarded as the inevitable had read a letter in which President Wilson, directing from his sick bed appealed for harmony in the conference and for the final working out of a program of industrial peace.

Representatives of labor did not join in the applause which greeted the letter, and Mr. Gompers characterized as "most unfavorable" a motion by John Spargo, of the public group, that each group pledge the president it would make every effort to accomplish the work for which the conference was called. The motion was withdrawn and the conference recessed so the labor group could meet to determine its future course.

When the conference convened in the afternoon, the labor group proposed their resolution.

After a suspension of the rules the resolution immediately was brought to discussion and vote, the labor and public groups uniting in its support on the roll call. The majority against the resolution in the capital group was one vote, but under the conference rules this majority was sufficient to defeat the resolution.

With the announcement of the result, Mr. Gompers told the conference the resolutions had been rejected "without right or reason," rejected on grounds so flimsy that the men sitting in the employers' group will have difficulty in explaining their action to their fellows in the world.

Come to Canyon to live.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Many corn or callus off your fingers.

Don't suffer! A tiny bottle of Frazee's costs but a few cents at any drug store. Apply a few drops on the corn, calluses and "hard skin" on bottom of feet, then lift them off. When Frazee's removes corns from the foot or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

Lake Side School Notes.

Geo. J. Graves has bought a threshing machine and will thresh his grain this week.

Mr. and Mrs. M. H. Rockwall visited in Amarillo Sunday.

Mrs. M. H. Rockwall's sister of Bluff City, Kans., is visiting with that family this week.

Geo. Graves and Leland were in Amarillo on business Monday.

Jim Foster and family visited at the C. C. Fulton home Sunday.

J. P. Grimes of Vernon is here this week to see about his threshing.

Geo. D. Foster of Haskell is visiting his brother Jim Foster last week.

John Haines went to Amarillo on Saturday night.

F. E. Haines, Hugh, and Evans Baker and R. E. Richards and family attended the McNeil sale Thursday. School is progressing nicely. Some of the older boys are out on account of the rush to save the feed.

Grove's Tasteless chill Tonic

restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 60c.

Junior High School Notes.

Attention is again called to the expressions of the boys and girls in the Junior High School relative to vocations which were attractive to them: 16 would become school teachers; 6 music teachers; 2 bankers; 2 clerks; 13 stenographers; 1 picture show man; 1 bookkeeper; 1 missionary; 1 pharmacist; 2 civil engineers; 3 electricians and mechanics; 1 railroad mail clerk; 1 brakeman; 2 lawyers; 1 farmer. Some had never thought of the matter and had no ideals along the lines suggested by the question. The faculty is pledged to secrecy so far as giving out names, but will try to be a service to these young people in helping them to find themselves and to begin fitting and qualifying themselves for real usefulness. The parents will doubtless wonder where in this list lies the choices of their own children. Another year will bring many changes but more will be brought to see the necessity of an aim in life.

At the faculty meeting encouraging reports were given as to the progress of the pupils. A limited number of pupils were reported as unsatisfactory and special efforts will be made to draw them into line of work. The superintendent's visits find a happy lot of young people in all the rooms and genuine school work being accomplished.

Efforts will be made to enlist the earnest cooperation of all parents in the work and thus secure the best of conditions for the pupils who are having a hard time in their studies.

Thrift stamp clubs were organized in each room this week. Mr. Turner who is in the government service assisted in the organization.

Mrs. Pipkin who is leader of the woman's division of the Thrift campaign was a visitor this week. She may depend upon the school for help in her work among children.

The mothers visited in large numbers last week. We hope they were pleased and since progress is our motto we feel sure they will be better pleased at their next visit.

The little fellows in the 5th, 6th and 7th grades played football with a group of boys from the Normal last week. It was a close game with the Normal leading by a very small margin. The best of feelings prevail between the two groups and during the coming months they will be allowed at frequent contests to display their ability.

ADMINISTRATION TO TAKE STEPS TO MOVE WHEAT

Texas Congressmen Make Demands For Relief and Hines Orders Action Immediately.

Washington, Oct. 22.—Assistant Director Brice Claggett was today named by Director General Hines to take immediate personal charge of the situation in West Texas and the Panhandle and work out a comprehensive plan of relieving freight congestion and moving the wheat crop.

The action was taken following the visit of Congressmen Parrish, Jones, Lanham and Hudspeth of Texas to the railroad administration to demand that action be taken or they would carry the matter to the floor of congress and obtain relief through legislation. Congressmen Jones and Parrish did most of the talking. Jones showed telegrams from the Panhandle-Plains Chamber of Commerce and the Panhandle Grain Dealers Association to prove that only a small part of the grain crop had been moved. Hines promised a program that would move the crop in thirty days. British vessels are arriving at Galveston now to take on cargo and a fleet of Swiss owned vessels are to be diverted from New York to Galveston to relieve the situation.

Congressman Parrish took exception to the recent report of W. T. Tyler, director of operations, that the congestion is a temporary one. Hines admitted that Tyler was wrong and conceded that unless a systematic plan of operation was worked out the situation in West Texas and the Panhandle would grow worse. He directed Assistant Director General Claggett to go to work on the plan at once.

Typesetting Eliminated.

The typesetters in the publishing house that prints the Literary Digest and those in the offices of nearly every other New York magazine decided last week to take a "vacation." This means that practically all the well known magazines will be late in reaching their readers.

The Literary Digest, however, will go on the news stands at the usual time this week. In order to accomplish this it has been necessary to publish the issue of Oct. 18 without the assistance of typesetters. This is probably the first time that a million copies of a large national magazine of eighty pages, with handsome colored covers, and many illustrations, was ever published without the assistance of compositors.

The experiment has deep significance, not only to the publishing fraternity, but to the public. As stern necessity is oftentimes the mother of invention, it is not impossible that in this age of marvels the whole future of magazine publication will be revolutionized by the elimination of what has hitherto been its costliest operation—the typesetting. The present departure, as shown by the "Digest" this week, will undoubtedly furnish a basis for many similar experiments throughout the country.

The South is heart and soul for the Treaty. It hasn't read it, but it has read some of the speeches of them darned Republicans.—Greenville (S. C.) Piedmont.

With the arrival of our prohibitionists in England, to turn that country dry, the anxiety of the Sinn Feiners for complete independence becomes comprehensible.—New York Tribune.

When you do any mourning, don't wear the insignia around the coat sleeve or under the finger nails.

If those Bolshevik armies continue to advance Kolchak's title of admiral may come in handy after all.—Arkansas Gazette.

IF HE HAS—
Killed a pig
Shot his wife
Got married
Borrowed a stamp
Made a speech
Joined the army
Robbed a bank
Bought a Ford
Sold a dog
Lost his wallet
Gone fishing
Broke his neck
Committed suicide
Shot a cat
Bought a house
Been away
Got rich
Got licked
Been in a fight
Come back home

Moved his office
Taken a vacation
Struck an oil well.
It's News—
SEND IT TO THE NEWS.

Panhandle Herald—Editor James A. Hillburn of the Shamrock Texan, has been appointed postmaster for Shamrock, which has necessitated his resignation as Census Supervisor for this Congressional District. J. H. Caperton of Shamrock has been appointed census supervisor.

A few summer styles are still lingering in the lap of fall. There is a whole lot of lap-lingering going on, here and there.

Visions of Winter.

The sun is shedding his light
In slanting rays,
Slowly, silently slips the summer
Into autumn tinted days.

With colors rare, an unseen painter
Is touching the leaves,
And moving his brush o're the mountain-side
A purple haze he leaves.

At the eventide the crickets song
Is borne to me,
That dear little harbinger of winter-tide
That is to be.

Visions of fireside cheer I see
Dear happy days,
When the fires of affection stronger grow
These are the happiest days.
—Annie Laurie Baile, Boulder, Colo.

BREAKS A COLD IN A FEW HOURS

"Pape's Cold Compound" instantly relieves stuffiness and distress

Don't stay stuffed-up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery. The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

A Bird of a Show Here Soon.

Col. Geo. W. Hall shows are coming. There is always about a tented exhibition in the way of amusement that is attractive and this show is well spoken of as being far above the average in pleasing its patrons. No other show has such perfectly trained wild animals and they are well worth seeing; two performances daily at two and eight p. m., October 27.

National suffrage is now only a matter of a few days and details. Glad of it, but—boy, lock those pantaloons in the safe, and don't you dare let any female woman on earth have them!

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children need to be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.
