

Evacuation Of Trapped Troops Continues

London on Guard With Barbed-Wire Barricade

London already takes on the aspect of a beleaguered city, as hastily erected defenses against invasion are set up at strategic points. Here are Tommies with fixed bayonets on guard at a barbed-wire barricade around a public building.

Hide-and-Seek With Death in Europe

They have seen the sight feared by the thousands of refugees toiling along Belgium's roads—a German airplane in the sky above them. The bicycle, with their scant belongings, is abandoned as they hurry to the roadside ditch. The old woman—still wearing her kitchen apron—clings to the protective trunk of a huge tree. Director Is Named For Ranger Center

Mary Jane Dreinhofer has been named as supervisor of the Corral Community Center of Ranger, the recreation department in the town. She replaces Mrs. Bill Tipton, who has been supervisor for the past few months, but who has resigned. Miss Dreinhofer is a physical education graduate of Texas State College for Women at Denton and has done graduate work in Colorado State Teachers College. For the past four years she has been head of the physical education department of the Carlisle schools.

Judge Davenport To Preside Over Court

Judge George L. Davenport was called to Breckenridge today to preside as judge in a case in 90th district court, in which Judge Acheson had been disqualified.

Nature Tricks Hare, Camouflage Wrong

CHEBOYGAN, Mich. — Dame Nature played a mean trick on the snow shoe rabbit this season. True to form, their coat has changed from brown to white, but there was no snow to provide a protective background. The rabbit, sometimes known as the varying hare because of the way its coat changes color, is called Wabasso by the Indians.

Meeting Is Urged To Secure Rifles For Legionnaires

Henry Pullman, post commander of the Dulin Daniels Post of the American Legion, has received a telegram from William H. McDonald, a member of the post who is now in Austin, asking that the post request rifles for fifth column activities. The telegram reads: "As a member of this post, may I suggest that you call special meeting for the purpose of considering resolution requesting the war department to equip each member with a rifle and round of ammunition for the purpose of preparedness in combating activities of the fifth column."

Kitten Goes To Fire A Prisoner In Hose

SASKATOON, Sask. — Spunky, 6-weeks-old pet kitten at a Saskatoon fire hall, took a snooze—and consequently a ride in a fire hose. Spunky had crawled into a four-and-one-half inch suction hose, prepared for a night's rest, when a fireman unknowingly imprisoned her when he screwed a metal cap on the end of the hose. The alarm rang. The truck carrying Spunky's "bedroom" raced to the fire. It was there that a fireman noticed the kitten's head sticking out of the hose.

WPA Employees To Be Decreased During Month

SAN ANTONIO — Employment on WPA projects in Texas for June will be limited to 71,050 persons, a reduction of 11,450 workers from the total authorized employment during May, it was announced today by State Work Projects Administrator H. P. Drought. The reduction is this state's share of the nationwide cut in WPA employment, Drought explained. The June employment figure reflects the third consecutive monthly reduction in WPA employment and brings the Texas employment quota to 37,050 workers less than the 108,100 jobs authorized for the agency in this state during March. June employment quotas for Texas administrative districts were listed as follows: Marshall district, 10,232; Dallas district, 11,082; Houston district, 7,868; Fort Worth district, 9,598; Waco district, 6,159; Austin district, 4,299; San Antonio district, 7,847; Laredo district, 2,511; Amarillo district, 2,801; Lubbock district, 2,347; San Angelo district, 4,392; El Paso district, 1,816. Jobs for 168 workers will be provided on statewide projects.

WASHINGTON, May 31.—The War Department announced today that a new, highly mobile infantry division of the army, will be formed with headquarters at Fort Benning, Ga.

Ranger And Cisco Women Golfers In Abilene Tourney

ABILENE, May 31.—First entries in the West Texas Women's golf tournament which starts here next Monday were received today at the country club. Registering for the meet were Mrs. G. H. West and Mrs. H. T. Schooley of Ranger and Mrs. K. N. Greer of Cisco. The course was opened yesterday for practice rounds by the feminine golfers. Most of the Abilene contingent played tournament rounds. Abileneans on the course yesterday included Mmes. Bud Wilson, J. B. Fair, R. B. Leavitt, S. M. Marshall, Earl Gaiter, Ted Huestis, O. B. Little, Dan Gallagher, Bill Miner, Carroll Hall Savage, Morgan Hampton, Dub Wooten, George Hall and Dan Stinch.

Red Cross Quota Has Been Doubled

R. C. Kinnaird, chairman of the Eastland County Chapter of the American Red Cross, has received word from Norman Davis, national chairman, that the quota for war relief needs has been doubled. The original minimum figure has been raised from \$10,000,000 to \$20,000,000 in view of present conditions, Davis' letter stated. The letter raising the quota reads, in part, as follows: "The tragic events of the past two weeks have made it necessary for the American Red Cross to increase its war relief fund goal from \$10,000,000 to \$20,000,000, thus doubling your quota. The twenty million quota is a minimum figure. The only maximum limit is the generosity of the American people. "We expect that this fund will enable us to carry through our war relief operations for the balance of this year."

Suffragist Of 73 Laments Her Work

MILWAUKEE, Wis.—A militant fighter for woman's suffrage believes most women might just as well stay at the bridge table as try to exercise their right to vote. Miss Lutie E. Stearns, 73, traveled throughout the country for 20 years urging that women be granted the ballot, but today she does not think the fight was worth the trouble. Women, she said, plunge into politics without the slightest notion of what is going on. They acquire political parties, she said, "by inheriting them, as they usually do their religious denominations." Fear and indifference have made the ballot useless in the hands of women, she believes, and their influence has been "practically nothing" in shaping public opinion in the interests of the best candidates. A case in point, she said, is Milwaukee's mayoralty election last month in which the veteran Socialist, Daniel W. Hoan, was defeated by Carl F. Zeidler. "The women," she said, "voted for that boy (Zeidler), because he was good looking and because he had a baritone voice." She said she worked for woman's suffrage many years because she felt "if women had the right to vote they would make politics the translation of Christ's principles into the law of the land." "I firmly believe that women would vote only for those candidates who would do the most for humanity. Never was I more deceived."

Date Blacklist for Sky Co-Eds Urged

COALINGA, Cal.—Elmo Greeve, president of the Coalinga Junior College student body, proposes that girls who refuse to accept student body responsibilities should not be dated. "There is too much of this sort of responsibility shirking going on among the co-eds in American schools," Greeve said.

BIG TURNOUT EXPECTED FOR GOLF TOURNEY

Several of Ace Players Had Not Turned In Scores By Mid Afternoon Today. James Phillips of Ranger, one-time winner of the West Texas Golf Championship, who has returned to form with recent practice, led the early qualifiers today in the annual Ranger Country Club golf tournament. Phillips turned in an even par 72. A number of the ace golfers, who have already arrived in Ranger, and who were either qualifying or playing practice rounds preparatory to turning in their scores had not finished qualifying by mid-afternoon. At noon today a total of 45 had qualified, most of the scores being turned in during the day Thursday. Many of the regular championship flight golfers were not qualifying until mid-afternoon or later, as only those who qualify Friday will be eligible for medalist honors. At 12:30 Jimmie Phillips of Ranger was leading the qualifiers with a score of 72, closely followed by Bill Allison of Breckenridge, 76, Frank Bird of Mineral Wells, John Dickey of Weatherford and R. V. Cole of Ranger, each with a 77. Prizes to be awarded at the conclusion of the tournament Sunday afternoon will be: Medalist—radio. Winner driving contest—12 Top Flight golf balls. Championship flight—winner, 17-jewel wrist watch; runner-up, leather golf bag; consolation, golf shoes. First Flight—Winner, set of Bobbie Jones matched woods; runner-up, leather golf bag; consolation, golf shoes. Second Flight—Winner, set of matched woods; runner-up, golf shoes; consolation, 12 golf balls. Third Flight—Winner, golf slack suit; runner-up, golf shoes; consolation, 12 golf balls. All other flights—Winner, suit golf slacks; runner-up, golf shoes; consolation, 12 golf balls. Qualifying scores posted at 2:30 this afternoon included: Jimmie Phillips, Ranger — 72 Bill Allison, Breckenridge — 76 Frank Bird, Mineral Wells — 77 John Dickey, Weatherford — 77 R. V. Lowest Qualifier

Shooting 65 and 69 over the difficult No. 4 and 1 courses of Chicago's Olympia Fields, Lawson Little's par-shattering 134 was the lowest qualifying score among the 139 throughout the country which earned those compiling them starting places in the National Open in Cleveland, June 6-8. More than 1100 attempted to qualify.

Fifth Column Talk Is Termed Rumors

JUAREZ, Mexico, May 31.—General Jara, of the Mexican Revolution Party, said today that the American oil companies and supporters of General Huan Almazan, candidate for the Mexican presidency, are spreading false rumors of "fifth column" activities and a possible Mexican revolution in Mexico. WASHINGTON, D. C., May 31.—Chairman Andrew May of the House Military Affairs Committee, pointing to possible "trouble in Mexico" said today that the Western Hemisphere Nations should abolish "fifth columns" and give the United States access to strategic air bases.

CIO Shipbuilders Go Out On Strike

KEARNEY, N. J., May 31.—Congress of Industrial Organization union members, working on two navy cruisers, two destroyers and three merchant ships, struck today for ten cents an hour war increase and paid vacations.

Roosevelt Asks More Money for Defense Program

WASHINGTON, May 31.—President Roosevelt asked congress today for more funds, boosting the defense requests to about \$5,000,000,000 because of what he termed possibility that the American continent may be involved in a world-wide war. "All continents may become involved in the war," he said, "one lesson of the present war in Europe is the value of speed." The president also asked for authority to use the National Guard and reserve corps as he saw necessary for national defense.

Moody's Impulse Is To Refuse to Run

AUSTIN, May 31.—Former Governor Dan Moody, whose Georgetown friends yesterday filed his name for governor, said today that his impulse was to say, "no", but that he had not definitely refused.

Novel Milk Market Operates Perfectly

FREEMONT, Mich.—Mrs. Maud Rogers here has a novel method of selling milk to neighbors. She leaves her refrigerator and house door unlocked and neighbors come and go as they please to get their milk, leaving the money in a box or paying later. In nine years she has been selling milk this way. Mrs. Rogers says she has not lost the price of one bottle nor has milk been stolen.

SHIPS CARRY SOLDIERS TO SAFER SHORES

Evacuation of Allied troops from Flanders continued today under the protection of fog and the British Navy, as the French announced recapture of Abbeville sector in a surprise attack. The French claimed that the Germans lost heavily at Abbeville, at the mouth of the Somme River and that 200 prisoners and "several armored columns" were taken. Meanwhile hundreds of ships entered Dunkerque harbor to take on troops and the British rear guard "fought like cats" to maintain the last defense line, six miles east of that port, and an unknown number of French troops trapped further east tried to reach the coast. The British said the Germans were losing five men to one in Flanders, although the German High Command said the battle was about over and the main Nazi army of 600,000 men will be available for the next thrust toward Paris or England. The Germans said their air force was ineffective at Dunkerque because of the fog, adding that the Nazis have taken so many prisoners and so much war booty that it cannot be estimated. Adolf Hitler today summoned Italy's ambassador to his western front headquarters for a conference.

Defense Group Of State Will Offer New Information

LUBBOCK, Texas — Governor W. Lee O'Daniel's new appointed 10-man committee on national defense will offer an opportunity to those who obtain important information concerning fifth column activities in Texas to present their data direct to the governor, President Clifford B. Jones of Texas Technological college said today. The committee, composed of heads of state departments and educational institutions, urges cooperation of loyal, patriotic citizens in preventing subversive activities. "Information will be held inviolate except in that it will be placed in the proper official hands," Dr. Jones, a member of the board, said. He added that "it is a matter of pride that Texas under Governor O'Daniel has taken the lead in the present movement which is of far greater importance than is perhaps generally understood." Jones was a member of the Texas State Council for Defense after the World War, was chairman of the Dickens county draft board in the early months of the war and was later a member of the district draft board for the northern judicial district of Texas at Fort Worth. The committee will support the act introduced by U. S. Senator Morris Sheppard of Texas to amend the National Defense Act by providing for a National Industrial Defense Corps. Purpose of this act would be "to provide for a defense of the home front in time of war and prior thereto, to prevent interference with the Government's program in preparing for defense, and to give adequate protection to all industries of every nature now or hereafter declared to be essential to national defense."

New Films Bring Rare Libraries To Texas University

By United Press
 AUSTIN, Texas—Using microfilm, a newly developed process for photographing books and rare papers, the University of Texas is bringing to its campus libraries works that were never before obtainable.

Expeditions are being sent to libraries and storehouses of rare documents to make photographic duplicates of the more important and desired ones. The project is jointly sponsored by the Uni-

versity's Bureau of Research in the social sciences and the Littlefield fund for southern history.

Already 5,000 feet of film has been accumulated for the library, whose reading machines have been installed as an aid in research work.

Librarian Donald Conroy said that a dozen volumes may be reproduced on one reel of film. Reading films project the film in normal sizes, and the student can "turn the page" by inserting the new film.

Famous works which already have been photographed include: reports of Confederate agents, working in Mexico at the time of the Civil war; 5,000 pages of Col. E. M. House's works; the official version of Confederate documents and the papers of Jefferson Dis-

vis; and the state department accounts of Mississippi.

Film of the new process can be developed at the cost of \$1.2 cents per foot. Photostatic reproductions cost many times as much.

In microfilming, a miniature camera is used. It was said by university officials that an ordinary camera would do the work.

Harvard Students Get Cheese In Class

BOSTON—If you're passing by Sever Hall in Harvard Yard these days you're apt to catch some scents that will seem out of place. Harvard students are becoming wine, perfume and cheese con-

noisseurs!

Levey J. Benoit, an instructor of Romance Languages who is an expert on French wines, perfumes and cheeses, gives a series of illustrated lectures on what he has learned. By way of class-room instruction he brings along specimens of each to be sampled by his students.

Advised not to come to class on an empty stomach, the students find instructor Benoit's illustrated lectures unusually absorbing and extremely tasty, and feel he is well on his way to creating a new fad in teaching.

Pilot Believes In Steam Driven Plane

SEATTLE, Wash. — Aviation could use another James Watt to re-discover the uses of steam in air transport, believes Capt. Herbert B. Ruschenberg, veteran pilot.

In fact, he has an automobile powered by steam and he hopes it would lead some day to steam-propelled airplanes.

"If steam had been engineered and studied as carefully as gasoline motors," Ruschenberg said, "I'm sure we could today see planes with steam power plants."
