Friday, February 13, may be an early day for the Spearman Lynx boys as they meet the Rangers on the court, if the determination which the Shupemen are looking forward to the conflict can be made for anything. All of the boys from the two teams have been comfortably close, but up to present time the Lynx have been able to hold the winning margin. It is the hope of the Rangers this may be reversed in Friday's game.

any rate it will be a good session, the preliminary to the Spearman girls and the n finish.

more good games are in for Perryton fans when the teams meet the boys and girls from Shattuck on the Perryton court on Tuesday night. According to advance information, neither the Shattuck teams have lost a game this season and they have been the one of the strongest squadrons in western Oklahoma.

These are the only games that will be on the Rangers' schedule before the district tournament which will be held at Canyon next Friday and Saturday which marks the beginning of the season schedule unless other games are matched.

Lions Ladies Night

Postpone Banquet To Tuesday Night February 17; To Be Held At Coffee Shop

The Perryton Lions ladies night banquet has been postponed to Tuesday night, February 17, at which time all Lions and their wives or sweethearts are expected to attend the banquet given in honor of the ladies at the Hotel Perryton Coffee Shop.

TWO MORE SEEK CITY POSITION

LEROY HARTMAN IS OUT FOR CITY CLERK; LEONARD OVERTON IS CANDIDATE MARSHAL

Two more aspirants for city offices have announced. Leroy Hartman authorizes the Herald to place his name before the voters as a candidate for the office of city clerk subject to the action of the voters at the city election to be held Tuesday, April 7. Leroy is a home boy, coming to this country when just a lad in 1914. After graduating from the Perryton high school in 1924 Leroy was in the accounting department of the First National Bank for almost five years, going from there to the Burrow Lumber Co., where he was employed as bookkeeper for over a year. For the past year he has been engaged in the insurance business. Leroy is well qualified for this office and has a host of friends who will support him in the race.

Leonard Overton has tossed his hat into the ring as a candidate for the office of city marshal. Leonard is another old timer, having resided in and near Perryton for many years. He has served the city as special officer on a number of occasions. If elected to this important office, we feel that he would make a competent officer of the peace. He is worthy of the consideration of every voter in the city when they go to the polls in April.

Plan Grange At Union

Community Planning Organization of Subordinate Grange; Want Thirty Members

Homer H. Holden, Medford, Oklahoma, lecturer for the Oklahoma State Grange and deputy of the National Grange Patrons of Husbandry was the principal speaker at a community meeting held at the Union school in Beaver county, Monday evening. The Union community is considering the organization of a new subordinate Grange.

Many at the meeting were in favor of the organization and a committee was appointed to make a drive for members. Enough have already signed their intentions of joining to assure a national charter, but the committee is working to obtain a minimum of thirty members. Providing enough favor the organization, another meeting will be called for next Monday night.

Beaver county already has five subordinate Granges, the Union or the sixth.

There were only two girls teams entered in the meet. They met at 12:30 in the afternoon. Farnsworth winning from Waka girls by a 25 to 21 count.

FORM LIPSCOMB ROAD DISTRICT

COMMISSIONERS' COURT CREATES SPECIAL ROAD DISTRICT TAKING IN ENTIRE NORTH HALF

LIPSCOMB, Feb. 19.—Lipscomb county's first decisive step toward construction of highway 117 through the northern part of the county was taken here Monday afternoon when the commissioners court granted a petition creating a special road district of the north half of the county.

The new district, taking in precincts 1 and 2, is to be known as road district No. 1. It was granted following presentation of a petition signed by more than 100 taxpayers. A petition asking the commission to call a bond election for the district will be presented at the next session of the court on March 9, according to County Judge C. A. Dickenson.

It is the general opinion here that the election will be set and will subsequently carry by a substantial majority. Agitation for designation and improvement of an east-west highway through the northern part of Lipscomb county started more than a year ago. Meetings were held throughout the county and in Amarillo furthering the plans for building the road.

Last fall a delegation was sent to Austin to request extension of highway 117 through the county. At that time the road came to the west line of the county, stopping there. Designation was finally granted on condition Oklahoma would consent to hook up with a state road at the east line of Lipscomb county. This the Oklahoma commission agreed to do in the event Lipscomb county would pass a bond issue to finance construction.

It is believed here that the bond issue will pass, thereby meeting all the conditions and giving citizens a dream of years—an all-weather east-west road through the northern part of the county.—Amarillo News.

B. F. TALLEY, MIAMI, IS STOMPED BY BULL

PAMPA, Feb. 9.—B. F. Talley, 58, of Miami, was brought to the hospital here today after being trampled by a young bull at his ranch. Talley is president of the Miami State Bank. He was badly bruised about the chest and abdomen. The bull knocked him down as he was removing a halter from the animal.—Amarillo News.

INFANT DIES

A baby daughter was born to Mr. and Mrs. Glen Tarbox at the Plaza hospital Thursday, February 5, but only lived until Saturday morning, February 7. The little body was buried in the Ochiltree cemetery.

Mrs. S. J. Allen has been quite ill at her home the past week. At this writing she is improving.

OLD COURTHOUSE BUILT WITH SQUARE CUT NAILS

Present day carpenters would think they would be having a "heck" of a time if they had to use square cut nails for building like workmen who erected the old Ochiltree county courthouse, the present American Legion Hall. During the past few days, Legionnaires have been at work remodeling the lower floor so it can be used for a club house. They find that few round nails were used in the construction, even the lath nails were the old fashioned square cut kind. Practically all of the lumber, including lath, dimension, finish, etc., is clear white pine. The building was erected about 1890 and the lumber was hauled out of Dodge City, Kans.

DOLLAR DAY IS GOING OVER BIG

BIG CROWD ATTENDS FIRST EVENT HERE WEDNESDAY; \$100 IN GOLD ON FEB. 25

Perryton's first dollar day, Wednesday, February 11, proved to exceed all expectations, drawing a big crowd of shoppers in securing the Dollar Day coupons, good for the \$500.00 in gold prizes offered during the three months campaigns. On the second Dollar Day event which is scheduled for Wednesday, February 25, the first prize will be offered, \$100.00 in gold, to be awarded in one lump sum. The coupons will be given by all Perryton merchants on every day of the week, and each coupon is good for the entire campaign.

Plans are being made by the various merchants to make the second Dollar Day a even greater attraction than was the first. Special purchases of merchandise, bought for this occasion will be offered at the very lowest prices possible, and a sufficient quantity will be on hand to supply everyone. Many merchants reported yesterday noon that the demand exceeded their expectation and they were running out of the bargain merchandise.

Return Bret Stone Here

Deputy W. J. Pottorff Left Wednesday for Oklahoma City With Extradition Papers

Bret Stone, wanted in Ochiltree county for the removal of mortgaged property from the state and the disposal of same, is being held in Oklahoma City for return here. Deputy Sheriff W. J. Pottorff left Wednesday with extradition papers for his return.

Kramer Keith, who has been a patient in the Plaza hospital for several days, was able to be removed to the home of his sister, Mrs. Van W. Stewart, Sunday.

Rev. E. C. Raney, a former pastor at Perryton now located at Claude, is in the Amarillo hospital for treatment.

ROUND-UP GANG OF HI-JACKERS

LAST OF GANG OF FOUR MEN WANTED HERE FOR OVER A YEAR IN JAIL NOW

During the past two weeks, the remaining two men wanted in this county on a charge of robbery with firearms, have been returned, ending a search on the part of Sheriff J. S. Talley and Deputy W. J. Pottorff that has lasted for over a year bringing the remainder of a gang of four criminals to justice.

The four men were connected with the robbery of Buller's store 15 miles south of here, in October, 1929. Ollie Gray, one of the gang was sentenced to the penitentiary last year. Another member, Hurley Scobee, Laverne, Okla., was released on bond last June.

Pat Powell or J. E. Horn as he is known here, was returned to Perryton on Saturday, January 31 on a bench warrant from Plainview and Roy Murphy, alias W. H. Young was brought in last Saturday on a bench warrant from Huntsville. Their cases will come up in the February term of district court.

Powell was sent to the penitentiary last May to serve a two year term. Pampa wanted him so a bench warrant was issued and he was taken there where he received another two year sentence for car theft and burglary. Immediately after sentence was pronounced, authorities at Plainview put in an appearance and there he was given another sentence of two years for burglary.

Deputy Pottorff went to Plainview and got the prisoner, returning him to this county where he is wanted for burglary and robbery with firearms. After he completes all of his terms at Huntsville he will be held for authorities at Cleveland, O., where he is wanted for murder.

Murphy was brought in by Deputy Pottorff from Huntsville last Saturday on a bench warrant. He was convicted on a charge of forging cashier's checks at Stinnett and given a five year sentence. He is likewise charged with burglary and robbery with firearms here.

MILTON MORRIS ACTIVE IN COLLEGE AFFAIRS

Milton Morris, former Perryton High school student, is taking an active lead in his college work at W. T. S. T. C., Canyon, according to a news dispatch from that city.

Mr. Morris, who has been elected chairman of the college board of stewards of the Methodist Student federation for the last quarter has done some excellent work toward keep the work of the stewards going as well as helping other phases of the federation work. RANGERS WIN FROM LIBERAL

LOSE TO CANADIAN AND WIN FROM FARNSWORTH DURING ACTIVE GAME WEEK

The Perryton Rangers won three games during the past week and lost one, distinguished themselves as the county champions and earning the right to enter the district tournament at Canyon on Friday and Saturday of next week, February 20-21.

The defeat came on Thursday night when Canadian trounced the Rangers by a 26 to 17 count. The Rangers had previously defeated Canadian on two occasions but were over confident and did not allow sufficiently for the improvement in the Canadian ranks.

On Friday night, the Rangers came back in a glorious way, upsetting the "dope bucket" to win from the Liberal, Kans. Redskins by a 25 to 16 count. The Rangers, playing in super-form, were clearly the best team on the court and the outcome of the game was never in doubt. The Perryton Juniors defeated the Liberal Junior high team in the opening session by a 27 to 16 score.

The box score of the Liberal-Ranger game follows:

LIBERAL	fg	ft	f.
Wheeler, f.	0	2	1
Keating, f.	3	1	2
Hodges, f.	0	0	1
Kent, c.	0	1	1
Burns, c.	0	0	0
Atkinson, g.	2	0	0
McGee, g.	0	2	1

VOTE FOR THE SCHOOL BONDS

SCHOOL BOND ISSUE BEFORE VOTERS OF DISTRICT TODAY FOR BUILDING NEW STRUCTURE

Have you voted for the school bonds? That is the question that is uppermost in the minds of every booster for adequate schools in the Perryton Independent School District today. The proposition is to issue bonds to the amount of \$65,000 for the erection of additional school room in Perryton to relieve the present overcrowded condition.

Many arguments have been raised by those who oppose the issue. Some of them utterly without foundation. One man said he was against the bonds because a part of the money would be used for the building of a gymnasium. There will be no gymnasium in the new building. In last weeks Herald, one of our readers in a public letter, advocated running buses out of Perryton to the rural schools which are not overcrowded. Show us the parent that would be in favor of having his children taken to the country school. This particular reader moved to Perryton while his children were being educated.

Another opponent of the bond issue says to use the piano room in the present school for a class room. For his information, we might state that the piano room is exactly seven and one-half by ten feet in size. How many pupils would it take care of? Others have advanced the brilliant idea of using the gymnasium for class rooms. The floor level of the gymnasium is exactly fifteen feet below the grade line. A fine place indeed for children to sit day after day, in classes. Some have even suggested using the superintendent's office. It is another very small room and would accommodate about six pupils.

Here are some figures that are facts, not just talk. The cost of the proposed issue will be \$4300 per year. At the present time, \$1,000 is being paid for rent, light, heat and fuel for the basements of the Baptist and Christian churches, which are being used as class rooms to take care of pupils crowded out of the main building. If the bonds do not carry, the cost of renting outside space will increase each year as the average enrollment increase for the past years has run from 75 to 100 new pupils each year. The increased valuation due to new pipe lines, and other improvements, and not any raise in present valuations, will run about \$500,000 and at the present levy this increased valuation will bring in \$3750.00. Now deduct the \$1000 for rent from the \$4300 to carry the bonds and you have \$3300 or \$450 less to raise than the new property tax will produce.

Some have stated that there is plenty of room in the present building and that ninety seats were moved out to the churches. This is true, the ninety seats were moved to the churches, but on the other hand 180 new seats were purchased this year by the board and installed in the present building. In the present building there is a study hall which takes care of 175 pupils, all under one teacher. Some have put out the idea of cutting this study hall up into class rooms. This would mean the employment of five additional teachers to look after the 175 pupils during study periods. Which would be the cheaper, a new building or five new teachers.

At the present time there are 322 pupils in the high school, an average of one teacher to 32 pupils, which is far above the average, the ideal situation being about 18 pupils to the teacher. In the grades there is an average of 38 pupils to each teacher. The state dead line is forty pupils for one teacher. Many of the grade rooms are already over the grade line of forty.

Go to the polls and vote for the bonds. More room is needed for the proper education of the children of the district, regardless of what the opponents of the bond issue say. Our schools are the most important thing in the community. Let's don't drop behind after we have made a wonderful record as having the best wonderful record of having the best

WHEAT BRINGS \$1.03 BUSHEL

S. B. LEWIS, FARNSWORTH FARMER FEEDS OUT PIGS AND GETS OVER DOLLAR FOR HIS WHEAT

S. B. Lewis, Farnsworth farmer, has set another example of what can be accomplished in the feeding of wheat to hogs. He has just sold a herd of twenty-nine shoats which netted him a price of \$1.03 for the wheat fed them, after allowing for all other feed and cost of labor to handle. The following figures were furnished us by County Agent Sheets who is making a survey of this county to determine the amount of wheat which has been fed since harvest and an estimate as to how much will be used for this purpose between the present time and next harvest. Mr. Sheets is also seeking information as to the number of hogs, sheep, dairy cows, chickens and all other stock that are being fed wheat. This data is being compiled in order to assist materially in reducing the wheat surplus.

In the case of Mr. Lewis, which is a concrete example that wheat can be fed successfully and at a worthwhile profit, 29 head of shoats, weighing 50 pounds each, were purchased last November. They run on green wheat pasture and were given 10 gallons of skimmed milk for the first 60 days. On January 1, the shoats weighed 100 pounds. Then they were put into a small pen and fed 103 bushels of finely ground wheat and 250 gallons of skimmed milk, in a period of 25 days, making a gain of 212 pounds per head per day. They were then sold for \$7.10, grossing \$315.24, for a total of 4,440 pounds.

Mr. Lewis states that each morning, he placed the days ration of ground wheat in the trough dry. Water was added three times daily at the rate of 50 gallons for the day. In the evening 10 gallons of skimmed milk was poured into the trough. In all, 60 gallons of liquid and about 4 bushels of wheat was consumed daily. Weather conditions were ideal for the feeding out of these common grade shoats.

Willard McLarty spent the week-end visiting James Blasingame.

Miss Bessie Carter and Chester Mitts spent Sunday evening in the Mrs. Jno. A. Russell home.

Carey Abney of Plains, Kansas, spent the week-end with his parents, Mr. and Mrs. F. P. Abney, of this city.

Milford Wildman and family and Mr. and Mrs. John Slaughter played 42 in the C. L. Burns home Friday evening.

Mr. and Mrs. A. H. Chambers and Frank Chambers spent Saturday night and Sunday in the L. D. Turner home.

Misses Nora and Ruth Stump and Miss Pauline Shifflett were Saturday afternoon guests in the C. L. Burns home.

Accurate cost data was compiled by Mr. Lewis as follows: Cost of shoats, \$145.00; wheat pasture, 60 days at 2c per day per head, \$34.80; 850 gallons skimmed milk at 2c per gallon, \$17.00; 60 hours labor at 20c per hour. Total expense \$208.80. The hogs sold for \$315.24, leaving Mr. Lewis \$106.44, or \$1.03 per bushel for the 103 bushels of wheat which he fed.

LUTHERAN CHURCH NOTES

A Fable

A man was complaining of his neighbors. "I never saw such a wretched set of people," he said, as there are in this town. They are mean, selfish, greedy of gain, and careless. Worst of all, they are forever speaking evil of one another.

"Is it really so?" asked an angel who happened to be walking with him.

"It is indeed," said the man. "Why only look at this fellow coming toward us. I know his face, though I cannot tell you his name. See his little sharp, cruel eyes, darting here and there like a ferret's and the lines of covetousness about his mouth. The very droop of his shoulders is mean and cringing, and he slinks along instead of walking."

"It is clever of you to see all this," said the angel, "but there is one thing which you do not perceive."

"What is that?" asked the man.

"Why, that is a looking-glass we are approaching," said the angel. Divine services Sunday morning at 10:30, followed by Sunday School at 11:30. Our place of meeting is five miles north of Perryton. "Come thou with us, and we will do thee good."

There will be no Lutheran Hour program this week, Thursday, due to the fact that the Lutheran Laymen's League has yielded the time for an address by President Hoover. The regular broadcast will be resumed next week.

The new Ford is an economical car to own and drive

Low first cost, low cost of operation and up-keep, and low year depreciation mean a distinct saving to every purchaser

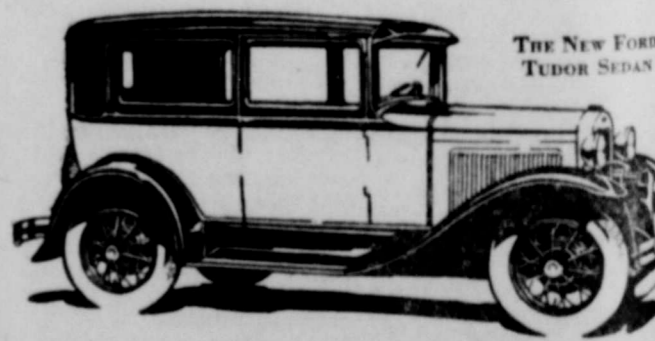

THE NEW FORD is a splendid car to own and drive because of its attractive lines and colors, safety, comfort, speed, reliability and long life.

There are, in addition, three other features of importance to every far-seeing automobile owner. Low first cost, low cost of operation and up-keep, and low yearly depreciation.

During the life of the car, the day-by-day economy of owning a Ford will amount to considerably more than the saving on the first cost. You save when you buy the Ford and you save every mile you drive.

The reasons for this economy are simplicity of design, high quality of materials and care in manufacturing and assembling. Many vital parts are made to limits of one one-thousandth of an inch. Some three ten-thousandths of an inch. Throughout, the new Ford is an outstanding example of fine craftsmanship in automobile engineering.

The more you see of the new Ford—the more you talk to Ford owners and experienced mechanics—the more certain you become of this fact. . . . It brings you everything you want or need in a motor car at an unusually low price.

LOW PRICES OF FORD CARS \$430 to \$630

F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra or small cost. You can purchase a Ford on economical terms through the Authorized Ford Finance Plans of the Universal Credit Company.

BOYD, OKLA. ITEMS

We were promised some snow but it has not arrived yet, only some light drizzle from the north, but those little cool spells just help us to appreciate the wonderful winter we have had.

Mr. and Mrs. Addy Sullivan of Norman were visiting Mr. and Mrs. F. F. Gates Friday.

The Boyd Home Circle met Friday afternoon, February 6, with Mrs. J. H. Peters. Twenty members, two visitors and Miss Cline were present. The lesson was responded to with a song. Miss Cline gave a demonstration on making a chick feeder. After the lesson we drew numbers for the mystery box which was awarded to Mrs. Jessie George. We also drew names for our Unknown friend. Every one seemed interested and we anticipate much satisfaction and enjoyment from the kind words that are to be done.

Mrs. F. L. Drake is visiting her daughter, Mrs. R. H. Peters.

Mr. and Mrs. J. H. Pierce attended the banquet and play given by the Farm Women's club in Turpin, Thursday night. The Turpin and family ladies have proven themselves real entertainers. The play was most pleasingly presented as all of their program. After the program, delicious refreshments were served to about two hundred guests.

Mr. and Mrs. G. O. Pope are the parents of a little daughter who arrived at their home last Thursday. She has been named Anna Mae.

Mrs. I. P. Henline is quite ill with flu and not able to be out.

Rev. and Mrs. J. A. Haworth attended the revival meeting now in progress at Camrick, Sunday afternoon. It was Mr. Haworth's regular appointment but he deferred to Mr. Neal who is conducting the meeting.

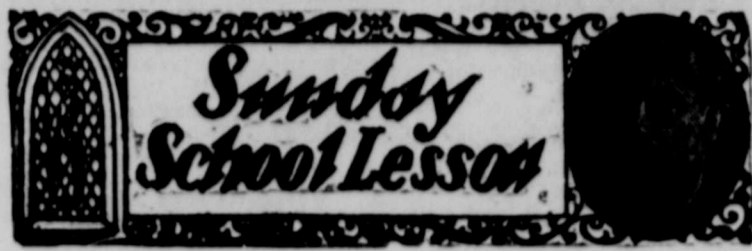

Mr. and Mrs. Roy Casady and family of Turpin were Sunday visitors at the home of Mr. and Mrs. J. H. Pierce.

BLODGETT ITEMS

The Bible Study at the school house was well attended. The fifth chapter of Matthew was taught and discussed by Rev. Jasper Bogue of Spearman in a manner which was very instructive and inspirational to all present. Rev. Nichols of Spearman will teach of Matthew 6 Sunday afternoon, February 15th, beginning promptly at 2:30 o'clock.

Rev. Nichols, Rev. Bogue, Mrs. Mattie Sheets and Mr. and Mrs. Earl Church and children were guests of the Milo Blodgett family February 8th.

Wm. Deck and family, J. M. Blodgett and family and L. W. Austin and family drove over to McMillen last Friday night to attend P.-T. A. After waiting about an hour outside, someone suggested that an inquiry be made of Mr. Barnes as to whether our dates were mixed, we did so, only to find out the program had been postponed for a week, but we'll try again sometime. Founders Day was celebrated at the school house by the Blodgett P.-T. A. Friday afternoon. Twenty-one out of a membership of 30 and several visitors were present. Everyone enjoyed the talk by Rev. Bogue on "Cooperation," also the splendid paper on "Parent Education" by Mrs. Wm. Deck. A very beautiful cake decorated in P.-T. A. colors, blue and gold, with thirty-four candles was made by Mrs. Ralph Blodgett. All members present participated in lighting the candles while reading the P.-T. A. alphabet. The cakes were cut, after the program and business session and were served with coffee. The birthday gift was \$5.00. Pictures were taken and all reported a very enjoyable afternoon.

International Sunday School Lesson

For February 15
JESUS, FRIEND OF SINNERS
Luke 7:36-50

Rev. Samuel D. Price, D. D.
Again the entire chapter should be read. Remember that we are studying the entire life of Christ on earth and not just a few incidents therefrom. More miracles are performed. The faith of the Centurion was commended when that man brought Jesus to heal His servant from the distance by merely giving the word. Raising a dead body is no greater problem than any other kind of healing, as is evidenced when the widow of Nain receives her son again. Then note the incident when John the Baptist sends messengers from his prison and Jesus replies by calling attention to the works and preaching which are common report.

The Pharisee who invited Jesus to his home evidently did it that he might observe this Nazarene more closely. He did not say "Come" for Jesus' sake. There may have been food enough but the common courtesy of washing the soil from the feet was omitted though that was the work of a slave or lowly servant. A woman who had made her living as a common prostitute rejoices at the opportunity of expressing her joy in the salvation which had come to her soul through His teachings.

When the Pharisee-host condemns both Jesus and the woman a deep lesson is given by a parable-story about two debtors. The forgiven sinner was therein exalted above the rude Pharisee. The woman was encouraged to make a new start in life, no matter what her forgiven past had been. The Golden Text explains the meaning of it all: "Faithful is the saying, and worthy of all acceptance, that Christ Jesus came into the world to save sinners." I Timothy 1:15.

Register More Cars

More Passenger Cars Registered to Date Than in 1930, Decrease in Trucks

At the close of business on January 31, the sheriff's office in this county had registered 1,075 passenger cars and 222 commercial cars or trucks. This was an increase of 13

cars and a decrease of 20 trucks in comparison with the registrations at the same time in 1930.

The total car registrations for the entire year of 1930 in Ochiltree county was 1660. During the same period 628 trucks were licensed. Cars or trucks that have been operated on the highways on or after January 1, 1931, are now subject to a twenty per cent penalty added to the regular fee. If a car or truck has not been operated on the highways and the owner will make affidavit to that effect, license tags can be procured without the penalty upon payment of the fee for the remainder of the year.

FEED COST TO PRODUCE BROILERS

By R. M. Sherwood, Texas Agricultural Experiment Station

Have you heard anyone say, "My chicks are eating their heads off," meaning that they are eating more feed than they sell for? I have heard this statement many times but can seldom, if ever, believe it. There is a rather definite relationship between the amount of feed consumed and the growth of an animal. With broilers and friers this varies somewhat, but it is not uncommon to produce a pound on less than three pounds of feed. In an experi-

ment at the Texas Station we tried four different rations and produced a pound of broiler on from 2.4 to 2.6 pounds of feed. We certainly could not say that these broilers ate their heads off. There are, of course, many other expenses to be considered and we are not recommending promiscuous broilers production. We are recommending that poultry raisers use their equipment for as long as possible, and those who have equipment for growing chicks for egg production can well afford to grow some broilers and friers before they grow their stock for pullets, or if they can secure a satisfactory market they might in some cases grow later chicks for broilers and friers. In the case of satisfactory

those people who have the equipment, the accounts to be charged to the broilers and friers would be original cost of the chicks, cost of heat, and cost of feed. The difference between those costs and the selling price of the broilers or friers will, during the early season when prices are good, show a good labor income. With the later hatched chick the chick cost and heat cost will be enough lower than the early ones to partially offset the lower sales price, so in many cases there is a satisfactory labor income from the late chicks also. The market during the later part of the season does not want the light weight breeds, but early in the season in most markets the light weight breeds sell broilers and friers. In the case of satisfactory

"You can drive all day at 60...and your Germ-Processed won't thin out!"

HOW often have you heard, "I'll have to change oil early this time because of high speed driving"? It was quite the customary thing, until Conoco Germ-Processed Oil came along. Now an all-day drive at a 60-mile speed brings no oil worries. You know that Germ-Processed oil won't thin out at high speeds; know, too, that it actually reduces motor operating temperatures because of the added "oiliness" produced by the Germ Process. The proof... at the Indianapolis and Altona races at speeds up to 120 miles an hour and in numberless individual tests... is history now. Your own experience will add to the weight of the proof.

You need Conoco Germ-Processed Motor Oil in this day of high speed motors and high speed driving. You'll find it at the sign of the Conoco Red Triangle... the proper grade for your car at 35¢ a quart.

NOTLA SCHOOL NEWS

We had a very unusual visitor in our cellar at school last week, who caused quite a little excitement. Probably we didn't make him feel welcome, so his stay was short. We felt greatly relieved when he left, since he was none other than "Mr. Skunk."

Our attendance record fell down last week. Mary Helen Lawrence was absent on account of illness and W. H. Barker fell from a house, injuring his side, but not seriously.

Here is a little story about Tad Lincoln by Dorothy Lee Stewart, second grade. He was a son of Abraham Lincoln, and had been nicknamed "Tadpole" by his father. Later it was shortened to "Tad".

Abraham Lincoln and his family were going to the White House so Lincoln could make his first speech as president. They were going on the train. Soon they came to a train that was wrecked. The people got out to see the wrecked train. Abraham Lincoln started talking to them. Tad was in the train. Some boys came by and put their hands in the window. Tad pulled the

The following is a Valentine play made from a story by Mary Helen Lawrence:

"Mary's Valentine"
 Characters: St. Valentine, Elves, Brownies, Mary.
 Time: Two nights before Valentine Day.
 Place: St. Valentine's workshop.
 1st Elf: Give me some words to rhyme with heart, I'm tired of "dart" and "smart."
 2nd Elf: And I'm tired of using "dove" to rhyme with "love."
 3rd Elf: Oh! Give me a thousand of those red hearts. We have no time to waste.
 St. Valentine: Those words have given perfect satisfaction for many years, my children. Don't try any new-fangled notions.
 Elves: The children always love them, it's true.
 1st Elf: Sist! I hear mortal footsteps. (Enter Mary, looking greatly surprised.)
 St. Valentine: Can't you guess who I am?
 Mary: Oh! You are St. Valentine. Will you show me how to make Valentines? We are too poor to buy them.
 St. Valentine: Surely I will. Do you know what they are made of?
 Mary: Yes, of gold and lace paper and beautiful flowers.
 St. Valentine: But do you really know what they are made of? (He rings a bell and Brownies enter.)
 1st Brownie: I make people laugh.
 2nd Brownie: I fill people's hearts with loving thoughts.
 3rd Brownie: I give them happiness and sunshine.
 Mary: (Clapping hands) Oh! I like you.
 St. Valentine: Choose a Valentine to take your mother.
 Mary: I will take this one.
 St. Valentine: I'm glad you chose that one. It represents all the kind words and smiles you gave your mother since last year.
 Mary: Good-bye, St. Valentine. Thank you for a lovely visit.

Community Presents Play Friday, Feb. 20, Under Auspices of P.-T. A.

A comedy drama in five acts, entitled "Tony, The Convict," will be given at Blodgett, Friday night, February 20, at 8:00 o'clock, under the auspices of the Blodgett Parent-Teachers association.

The story moves around the central figure, Tony Warren, who is portrayed as a many sided character, as the hopeless convict, the merry tramp, the unhappy father and the terrible avenger. He appeals to all hearts, is forced by a villain to claim a rich girl as his daughter, discovers that she really is his own child, only to deny relationship rather than coerce her into marrying the villain.

The characters in the play are:
 Tony Warren, L. W. Austin
 Weary Wayside, Tony's henchman, Ed Beck
 James Barclay, hard hearted villain, L. M. Bell
 Phillip Warburton, social leader, Earl Church
 Judge Van Cruger, Judge of Supreme Court, J. Milo Blodgett
 Warren Burrows, warded of Sing Sing, S. J. Powell
 Jackson, negro footman, O. J. Williams
 Lena, reputed daughter of Judge Van Cruger, Mrs. Ralph Blodgett
 Mrs. Van Cruger, the judge's wife, Mrs. L. W. Austin
 Miss Sedley, a very spiteful old maid, Mrs. L. M. Bell
 Sally, a lively servant girl, Velma Williams.

FAIRVIEW ITEMS

There will be lively specialties between the acts. An admission of twenty cents for school children and thirty-five cents for adults will be charged, the proceeds to go to Blodgett school.

Are Your Gas Bills High?

Numerous complaints have been voiced about high gas bills for January, in spite of the mild weather.

Our records show that of those who were burning gas in January 1930:

40 per cent Had Smaller Bills in January 1931
60 per cent Had Larger Bills in January 1931

Since all consumers are burning the same gas, and using the same kind of equipment, the higher bills of the 60 percent must result from one of the following causes:

- 1. Defective Plumbing**
- 2. Leak at Outlet Side of Meter**
- 3. Faulty Meter**
- 4. Natural Gas Consumption**

We will gladly check the first three possibilities for you at your request. Over the fourth we have no control, for if you are consuming gas, your meter will register it.

Consumers over the entire States of Texas and Oklahoma are complaining of high gas bills, and we feel, therefore, that the trouble is not a local one.

Perhaps consumers are using more stoves this year than last.

A mild winter has encouraged consumers to assume that their consumption will be less, forgetting that there is a great tendency to leave doors and windows open when the weather is only moderately cool. This is the real cause of

high gas bills.

A laboratory analysis of our gas dated October 1930, showed 1000 B. T. U.'s per cubic foot, and shows ample heating quality.

A public utility must have the confidence and good will of its patrons in order to progress. It cannot command that confidence by attempting to charge for value that has not been delivered. We therefore invite both your constructive criticism and co-operation.

Government Competition With Printers

A perfect illustration of the need for impersonal, industry-building is afforded by the following discussion of government competition with local newspapers and printers in printing return-addresses on envelopes for a price which small publishers cannot meet. The parallel between this practice, which costs country newspapers hundreds of thousands of dollars a year, and proposals to put the government into other lines of business, is undeniable. And while, from an economic standpoint, it is a small thing if a country publisher is unable to make ends meet, the basic principle on which our government is built is menaced when the government uses the resources and the power given to it by its citizens to deprive any of those citizens of all or part of their livelihood.

An Editor Asks a Question

The publisher of a weekly newspaper in a California town of 5,000 population recently wrote the Manufacturer and Industrial News Bureau as follows:

"Last year the local postmaster wanted the Blank post office raised to a higher class so that he would receive more salary. He went around to all the merchants and sold them a year's supply of stamped envelopes with their address printed in the corner. This did not raise the efficiency of the local post office, the government lost money by paying more salary and the local printer lost on not receiving these printing orders."

What Can Be Done?

He then asked, "What can be done to prevent the government competing in this manner with local printing offices?" The answer is, Probably nothing, so long as the public sanctions a policy which permits the government to compete in business with private citizens and taxpayers who are taxed to maintain such tax-free competition which destroys their own business and means of livelihood.

The present instance is a perfect illustration of what happens to private enterprise when the government goes into business instead of confining itself to the function of governing, for highly-taxed private industry cannot compete with tax-free government industries. Ever since the government went into the printing business there has been a constant endeavor to extend its activity to other lines of business.

Inconsistency

The inconsistency of many business men is shown when, on the one hand, they sanction and encourage

Is Your Face Covered With Pimples?

Wichita Falls, Texas—"My son was in poor health when he was about twenty years of age. His blood became thin and he was pale. He was also troubled with his stomach and his face broke out with pimples. Finally, I decided to have him try Dr. Pierce's Golden Medical Discovery. By the time he had taken a few bottles of the 'Discovery' he was completely relieved of all these troubles, his blood was healthy, and he had no more stomach trouble."—Mrs. Beulah Singleton, 1101 18th St. Tablets or liquid. Government competition might better apply to the local meat market, grocery store or clothing store than to the local printer, for it is much more important that the average family get the first three items "at cost" than it is that they get their printing "at cost."—The Manufacturer and Industrial News Bureau.

U. S. EGG CONSUMPTION GREATEST IN HISTORY; CANADA STILL LEADER

More eggs per person than ever before are now being eaten in this country. But despite this, the United States lags behind Canada in egg consumption. In that country, eggs are used at the rate of 366 for each person per year.

The increase in egg consumption in the United States is due to the fact that prices of this commodity have sunk to the lowest levels in years and also to generally increased knowledge of the egg's high food value.

Food authorities who long have advocated "an egg a day" as a health measure now are urging home-makers to use eggs in abundance in the preparation of meals and thereby take advantage of the low prices.

SAFETY PRINCIPLES THAT FARMERS SHOULD KNOW AND PRACTICE

By E. R. Dobbin, Empire Gas and Electric Company, Geneva, N. Y.

Electricity, when wiring is adequate and the circuits are correctly installed and routed, becomes the safest and most efficient light, heat and power source known to man.

To make this versatile servant available to both city and country dweller, the power companies construct highways on which the current travels. The main highways, so to speak, consist of the steel towers and large wires that we see about the country-side.

These lines carry very high voltages which accounts for the sturdy construction of the best materials so as to withstand the strain of wind and storm.

From these main electrical highways, lower voltage distribution feeder lines that are strung on poles along our thoroughfares and across fields carry the current on a wholesale basis to serve the community.

While the voltage on these lines is lower than that on the main lines, it is still so high that it is dangerous; it is not a working or what we might call, a retail voltage.

Ordinarily, the accident hazard on these lines is negligible to the public and customer, but occasionally a gale will blow a pole over, a continued sleet storm will, through the weight of ice deposited, break the wires, or a tower or pole may be damaged to the buckling point by an uncontrolled automobile. At such times, there is danger to the public, and you can help prevent electric accidents from these causes, if you

INSURE-TODAY

Many a man aglow with health intends to protect his family "some day."

Then, he suddenly finds that health is a fleeting thing and that his is lost, so that he CAN'T INSURE his life.

He pays for his neglect in worry, and his family may pay for his neglect in poverty.

R. L. CHRISTOPHER

will pledge yourself to the following code and keep it.

First: When I see a wire down between or near electric towers or poles, I will immediately go and stand guard allowing none to come near or touch the wire. I will also have the electric company office notified and will not leave the wire unguarded until the repair men arrive.

Second: I will use my influence in keeping trespassers from climbing high tension poles or towers, because danger lurks at the top.

Third: I will discourage the use of wire as a substitute for string in kite flying, because a wire in contact with a high tension line may lead the current to the kite flyer's hand and then to the ground, causing severe shock and perhaps death. I will go even farther and discourage the flying of kites near electric power lines, because a wet kite string coming into contact with the line might conduct the high voltage to the operator and that would spoil his fun; better play safe and keep away from electric power lines. They look harmless enough, but remember, you can't tell from the looks of a toad, how far he can jump.

Fourth: I will discourage the attaching of radio aerials to electric poles or over or under or near any electric lines, because it will prevent chances of damage to life and property.

Fifth: I will become familiar with the Prone Pressure Method of Resuscitation so as to be able to use it in cases of electric shock.

The low, safe, working voltage, carried on the lines throughout the house, barns, shops, and other buildings do not carry the same hazards as do the lines I have mentioned, and when everything is in working order, such as outlets, fixtures and leads, electric shocks and the danger and discomfort that attend them seldom, if ever, occur.

But let me ask: Did you ever pull on a light with one hand while turning on a water faucet with the other? This or the pulling on of lights while you are in a tub of bath water subjects you to the possibilities of a shock and a dangerous one, because you provide with your body, another and easy circuit to ground

for the electricity and thus get in the path of the current. Ordinarily, if the fixtures are in good order, there will be no flow to you, but if the fixtures are defective, then the leaking current flows to you and you receive a shock. Such shocks are dangerous and should be carefully avoided. A good way to avoid them is to remember that broken insulation of cords, partly burned off connections and such like, allow leakage and consequently are a source of discomfort, if not actual danger. It's cheaper and safer to discard defective cords and appliances than to take the chance of receiving a burn or shock.

My experience in dealing with electric current has taught me to respect it as a great servant of mankind, when properly transmitted and controlled, and also as a destroyer of life and property when misused or uncontrolled. The electric companies employ the most modern and approved methods to keep it under control so that it may serve you to the fullest possible extent. Will you not help prevent unduly long power interruptions and possibly accidents when winds, sleet storms or some force beyond the companies' control have damaged the lines? Rural residents can render a service to the community and to the operating electric company by

MARION DAVIES PLAYS IN "BACHELOR FATHER"

Marion Davies goes from one extreme to the other in her last two pictures. In "The Florodora Girl" the vivacious comedienne brought guffaws and chortles when she demurely donned the costumes of the gay '90's and went zipping around corners in a new fangled gasoline buggy at a 15-mile-an-hour clip. Her new picture, "The Bachelor Father," which will open next Wednesday at the Ellis Theatre, goes to the other extreme, displaying Miss Davies in the latest of Paris creations and nobby sport and flying outfits, her transportation in this film now being supplied by a huge tri-motored plane, undreamed of in the days when the automobile was scaring horses off Fifth Avenue.

Robert Z. Leonard directed the new Davies picture from the original David Belasco stage hit which ran for nine months on Broadway.

C. Rubrey Smith, who created the title role on the stage, heads the supporting cast for Metro-Goldwyn-Mayer, and other featured players are Ralph Forbes, Ray Milland, David Torrence, Nena Quartaro, Guinn Williams, Edgar Norton, Halliwell Hobbes and Elizabeth Murray.

city gambling, "Street of Chance," is to be seen in another Paramount picture—"Scandal Sheet."

In "Street of Chance" Toomey was the brash younger brother of Powell who came out of the West to upset the best-laid plans of rats and men in the gat-and-poker dives of New York.

In "Scandal Sheet" he will be seen as the resourceful tabloid paper reporter who never fails to get the latest dirt ("with pix") for his boss' George Bancroft, the ruthless and blustering managing editor.

Good Quality is Good Economy

Good economy means getting your money's worth. You may pay a very low price and still get poor value for your money. That's not economy! On the other hand, you may pay a somewhat higher price and receive much extra service and satisfaction that you actually secure greater value.

That's the case with Stetson Hats. The fact that more Stetsons are sold than any other hat at any price is ample testimony that when you buy a Stetson you get your money's worth!
