Rangers Open Football Drills With 44 Candidates Reporting

Coach Pete Peterson and his three assistants greeted 44 Ranger football candidates Monday morning and workouts have been proceeding on a two-a-day schedule since then.

The squad is working out from 7-9 a. m. and 7-9 p. m. under the lights at Ranger Field. The first few days have been devoted to conditioning drills, and no heavy contact work is contemplated until the end of the first week.

Assistants are Keith Flowers, who is in his second year on the coaching staff; Eddie Williams, new basketball coach who will tutor the backs and ends; and Joe Ogden, the B team mentor who held the same position last year.

The Rangers have 10 lettermen returning, but face a rebuilding job. The first team will be experienced and have fair size, but the reserve strength will be lacking.

Biggest question mark is at quarter-back, where all-district performer Short Dear graduated. B team graduates Tommy Johnson and Del Ray Mounts are working out at this position, along with letterman Dan Pearson.

Returning regulars are backs Jimmy Todd and Dempsey Gyger, with regulars in the line Bob Williams and Glen Simpson.

Other lettermen are Hobart Buxton, Neal Flathers, Bill Jines, Charles Bulls and Dan Pearson.

Two lettermen were lost when Freddie Chisum was found scholastically ineligible and Victor Briggs moved to California.

Other squadmen on the Ranger roster this year are Kent Apple, Billy Apple, Bob Beck, Sammy Carter, Thomas Carter, Kelly Clark, Benny Easter, Lawrence Ellzey, Wayman Epp, Ben Flowers, Joe Fountain, Lanny Hargrove, Tommy Johnson, Zack Miller, Howard Mooneyham, Danny Myers, Gary Taylor, Russ Thomas, Don Tillerson, Mike Wright and Lewis Waggoner.

County Oil Well Is Competed; Another Starts

The completion of the Phillips Bernice well and the drilling of a new Fulton well highlighted the oil activity in Ochiltree county this week.

Phillips brought in the first Marmation oil well in the field when its No. 1 Bernice in Sec. 136, Blk. 4-T, T&NO survey, was gauged for 136 barrels of oil. The pay was from 6,430-62 and the oil was 36.5 gravity.

This well is located south of Farnsworth.

R. H. Fulton is drilling the No. 1 Fulton-Boese in Sec. 55, Blk. 4, GH&H survey, five miles west of Farnsworth and six miles east of Fulton's big oil wells in Hansford county.

This well is drilling below 2,000 feet.

The Magnolia Petroleum Co. No. 1 George-Mounts, located a few miles northwest of Perryton, was losing circulation at 5,818 feet.

The Union Oil of California No. 1 Russell, south of Farnsworth, took a drill stem test at 7,945-54 feet and recovered 100 feet of oil cut muc.

In Beaver county, the Union Oil Co. of California has applied for 640-acre as spacing for gas production from the Morrow sand in sections 1, 2, 3, 10, 11, 12, 13, 14 and 15-2N-23eCm, surrounding its recent gas discovery just north of Elmwood.

The No. 1 Parker in C NW SE of 11-2n-23eCm, was completed earlier this month for 28,252,000 cubic feet of gas per day through

Plainview Plans Marathon Sale For 64 Hours

The Plainview Hardware Co. is joining with hundreds of Maytag dealers throughout Texas in an ambitious sales program tagged "Operation 64", a part of the "Maytag Marathon", starting Thursday, August 25.

During "Operation 64," sales personnel at Plainview will serve coffee or Cokes to prospective customers around the clock, continuing through Saturday midnight.

If a salesman is caught "asleep on the job", manager Sam Hergert claims he'll give the finder a brand new Maytag washing machine. Their slogan will be "We're sleepy—take advantage of us!"

In preparation for this event, Texas Maytag dealers ordered 6400 Maytag appliances. The Maytag factory is sending the entire shipment by 64 giant trailer trucks. The portion of the special convoy shipment will reach the Plainview Hardware before the sales event starts.

All of these twirlers have achieved the highest rating, that of "superior" at the spring Interscholastic League contests and the Ranger Band this year will boast the most skillful twirling section in the Panhandle.

Substitute twirlers are Joyce Maberry, Deanna Swink and Nancy Wright, all freshmen.

The drum majorette and the twirlers will be featured at the opening football game with Panhandle on Sept. 9, according to band director B. D. Walker.

Burglars Get $87 at Burk's

Burglars took $87 in cash from the Burk drug store sometime Friday night or Saturday morning, reports city police chief Arlie C. Binion.

There were no marks on the door, and it appears that entry was gained through the use of a key, Binion said.

A total of $71 was taken out of the back cash register in the store and $16 from the front register. Binion said a large laundry box was taken to the front and apparently the thieves used this to conceal themselves from the view of passers by on the street.

One unusual fact was reported in that a $20 bill was found in the front register Saturday morning when the burglary was discovered. Store employees said the bill was not in the register the night before.

The missing money was discovered when the store was opened Saturday morning.

Perryton Pioneers Win Texas Rookie League, Meet Hooker

The Perryton Pioneers, winners of the Texas State Rookie league championship, will play an exhibition game here Sunday, August 28, at the local Blue Sox park, when they meet Hooker, Oklahoma's Tri-State league team at 2:30 p. m.

A capacity crowd is expected at the game, according to Managers Keith Flowers and Bob Lemon.

The Pioneers drew a sell-out last week when they won a double-header from the hands of the Amarillo Rookies and became the Texas State champions and earned the right to enter the National tournament at Salina, Kansas, during the Labor Day weekend.

"The game with Hooker on Sunday, will be returned on Monday night at Hooker," according to the managers.

In the first of the twin-bill, Larry Deutchsndorf, Cordell, Oklahoma, took the pitching assignment and struck out 11 Amarillo Rookies. Amarillo's pitcher, Hyatt, struck out one Perryton Rookie, and his relief, Thomas, also struck out only one local hitter.

Leading the offensive battle for the locals in the first game was Bob Schneider. Darrouzett, who scored four runs on four hits on only four trips to the plate. The Pioneers, in winning the first encounter 13 to 5, were also paced offensively by Bubba Hillman, Borger, and Dean Weis, Higgins.

In the second encounter, Hillman relieved Rogers, Booker, in the second inning and pitched the rest of the game except for the seventh and eighth innings. Thrasher relieved Hillman and in the final period, was relieved by Hillman. Thrasher was credited with the win.

Perryton trailed in the second game until the ninth inning. Amarillo scored three runs in the first inning, four in the second and one in the fifth, followed by two in the sixth and one in the ninth. The locals failed to score until the fifth inning when three runs came in, followed by one run in the sixth inning.

Two more runs were scored in the eighth and a rally came in the top half of the ninth inning when seven runs crossed the home plate.

OBITUARY

Julia Neufeld, daughter of Henry A. and Minnie Unruh Goertz, was born Dec. 31, 1878, in Marion county, Kansas and it was here she spent the early years of her life. She was baptized June 10, 1893, and received into the membership of the Mennonite Brethren church, of which she was a faithful member.

On Jan. 3, 1897, she was united in marriage to Abraham J. Neufeld, who preceded her in death on Jan. 5, 1940. Their marriage was blessed with five daughters and five sons.

Mr. and Mrs. Neufeld lived in Hillsboro, Kansas until 1901, then at Cooper in Blaine county, Oklahoma, for four years, and then moved to Beaver county in 1905.

Mrs. Neufeld endured the hardships of a pioneer mother, but enjoyed life to the fullest. She served as Sunday school teacher and in other ways served her church.

She was in good health until recent years, finally suffering from a kidney ailment, heart condition and hardening of the arteries. She had several operations on her right eye, because of a cataract, and her eyesight was poor in recent years.

She died on Friday, August 5, and was making her home with her daguhter and family, Mr. and Mrs. R. B. Frantz.

She is survived by ten children, Mrs. Elsie Enns, Enid, Stella of Wichita, Kansas, Mrs. R. B. Frantz of Balko, Mrs. J. W. Briscoe of Holliday and Mrs. Otto Hiebert of Hillsboro, Kansas; Edwin J. Neufeld, Arthur H. Neufeld, Sam D. Neufeld and Milton P. Neufeld, all of Balko, Albert C. Neufeld of Hooker; 28 grandchildren, five step grandchildren, 15 great-grandchildren, 11 step great grandchildren, three sisters and many relatives and friends.

Map Fight for Irrigation Gas

Farmers from five states will meet Friday in Goodwell, to map out plans for a court battle in their bid to gain natural gas for irrigation well power.

The Supreme Court is expected to be the final arbiter in the issue which has already been hotly debated from fence row to legislature in three states, Oklahoma, Texas and Kansas.

A gas-for-irrigation measure enacted by Oklahoma will become the test legislation when it becomes effective Aug. 25.

Spokesmen for the Phillips Petroleum Co. have said the company will battle the measure all the way.

Interested farmers in the Perryton area are invited to attend the meeting in Goodwell Friday.

TV Classes Predicted

DETROIT (AP)—The University of Detroit's president says closed-circuit television may offer a solution to skyrocketing college enrollments and a shortage of teachers.

"As realists," says the Rev. Celestin J. Steiner, S. J., "we must be convinced that we will never be able to cope with the challenge of swelling enrollments ahead if we adhere to present conventional teaching methods. There simply won't be enough competent teachers."

Frustrated Moose

ASHTON, Idaho (AP)—Trotting along a forest road in front of a ranger's pickup, a bull moose got tired of being followed, turned, lowered his head and charged.

Forest Ranger W. D. Carringer waited with a smile. It was the time of year when moose have no antlers. Finally the moose realized it, too. He stiffened his legs, slid to a stop just in front of the headlights and walked humbly away.

Honesty Pays Off

HOUSTON, Tex. (AP)—Mrs. A. A. Cavada, owner of a liquor store, told a holdup man she had exactly $3 in the house.

"Is that all you have?" he asked.

"Yes," she answered.

The man turned around and as he went out the door said, "You have as honest a face as I have seen. I trust you."

TO THE EDITOR:

"The election day is over and we all know very well the negatives did the best they could, but the affirmatives gave them Hallilyah, "got glory in my soul." Well, I am glad we are out of it and every one is happy. We should not hurry through life, it is short at best.

There is an old saying that just fits this occasion, "Go way back and sit down and take things easy." The engineers won't care, they have only been here a few months and it will take them several more to get started. So far as the Bonds are concerned, I am sure the Banks would gladly relinquish their interest in the bonds for the benefit of the taxpayers.

Do you remember a few years ago that two factions in the County got into a fight over a Bond issue. Farmers versus Chamber of Commerce? Well, it was a pretty hard fought battle. They had a meeting at every schoolhouse in the County and the Chamber of Commerce won by a nice majority. But the Chamber of Commerce seemed to get cold feet after that, and finally went before the Commissioners Court and asked them not to sell the Bonds.

I believe that if this Court gave that Ballot a thorough study, they might find some beautiful thoughts. For instance, that almost exactly 50% of the people voted against the Dam, at least 80% of the Taxpayers of consequence voted against the Dam. While a few farmers lost their ballots by waiting for Monday morning, but that was their fault. (The Teenagers) Well, a lot of others voted with their fingers crossed, and that was the Kids fault. There were several, surprised. First, the Court House, only 15 majority at the Seat of Government. Second, Farnsworth, both Business and Politics, stuck to the middle of the road and made it 30-30. Then came the real surprise, down the Valley road where they could view the $250,000 dam, both going and coming. Alfalfa! The only box that was unanimous. For—0; Against—20. There must be a nigger in the woodpile somewhere. There is a reason for all things.

Lets take plenty of time to fully digest the Ballot, go easy for, it's a long, long road to Delhi.

Pop Has Lollipops

CLIFTON FORGE, Va. (AP) — Cap'n C. C. Lane, a fifty-year Chesapeake and Ohio Railway conductor, has an enviable reputation among the children on the Clifton Forge-Hot Springs line. He makes it a habit to have a supply of lollipops on hand. When a teacher took 32 first graders on a 14-mile train trip, Cap'n Lane had enough to give one to each child. He values a "thank you" note from the children among his greatest trophies.

Caution Farmers On Poor Milling Wheat Varieties

Farmers of the Perryton area are reminded by Elliott Lee, ASC secretary, that the U. S. Department of Agriculture has put a penalty on poor milling varieties of wheat and only the approved varieties should be seeded this fall.

Listed for the 20 cent per bushel dock in Texas are Red Jacket, Kanking, Chiefkan, Early Blackhull, New Chief and Yogo.

It is estimated that less than 10 per cent of the county wheat acreage has been seeded to any of these varieties. There have been fields of Red Chief, Chiefkan and Early Blackhull in the county.

The price support regulations for 1956 call for a certificate from the producer regarding undesirable varieties, similar to the certifications now made by a producer that he produced the wheat and produced in the current crop year.

There will be no protein premiums paid on any of these seven varieties of wheat, regardless of their test.

Prayers For Thief

DIXON, Ill. (AP)—The congregation of the Methodist Church has turned to the Lord instead of the police for the solution of a theft. And they're getting results.

Several weeks ago someone stole a birthday penny bank from the church Sunday school department. The class prayed for the thief and the eventual return of the bank, fashioned in the shape of a cross.

The bank was returned—left on a shelf. It was empty. Now prayers have been renewed for the theif and return of the cash—about $4.

While last year only eight mills were producing sanforlan washable woolens, this year 22 mills are turning out the shrink-resistant wool fabrics, which are being made up into almost every conceivable type of garment.

Parents of both big and little school boys and girls will be glad to know that the new washable woolens can be tossed into the washing machine with the rest of the family laundry. In shopping for these woolens, here are a few things to remember:

1. First look for the label which identifies the fabric as treated against shrinkage.

2. Be sure the garment doesn't have a lot of interlinings and padding which might not be washable.

When washing the new sudsable woolens, you may use an automatic washing machine, use warm (not hot) water and set the washnig cycle to not more than two minutes for lightly soiled garments, three or four minutes for clothes which are heavily soiled. The spin-dry type of machine is all right for these woolens, but they should not be put through a wringer.

When you take them from the machine, put on a hanger and pat into shape, to avoid a complicated pressing chore.

If the clothes are washed by hand, they should be squeezed gently—not wrung—and again hung on a hanger to dry.

Reward for Quality

Some wheat growing regions have complained loud and long about the new Department of Agriculture ruling which will penalize poor milling varieties of wheat by 20 cents per bushel in 1956.

These regions which have been growing the poor varieties say these types grow best and they want the penalty lifted.

But the new ruling is good news for this area, which has long maintained a reputation for producing quality milling varieties of wheat. For many years, more than 90 per cent of the acreage in Ochiltree county has been of the premium milling varieties, and only in recent years has the "slick head" varieties invaded this county.

The government has accumulated a tremendous surplus of wheat in government storage under the price support program, but there is said to be an actual shortage of premium milling varieties. The government wheat is useful primarily for livestock feed, and is too high to be used for that.

Why Wait?

Why wait until the horse is stolen? Why wait until a grand jury meets? Why wait until a newspaper unearths a scandal?

Anyone who handles public funds should be required by law to publish a full accounting of same at regular intervals.

Frankly—both the lawmakers and the public are to blame for thievery in public office.

Every state in the Union, with few exceptions, and Texas is one of the exceptions, requires that every public official who handles public funds publish a full accounting of same at stated intervals.

When legislators fail to act it is time for the people to act. It is time for the people to take a hand in drafting legislation or electing men who will do so.

During the last session of the legislature there were two bills introduced by Representative Elbert Reeves of Matador, to force publication of financial statements by the Commissioner's Courts, the school districts, and by other groups handling public monies.

Why weren't these bills passed? That's what the people would like to know.

We think the people should ask their elected representatives just why those bills were not passed.

Any state failing to pass such legislation is guilty of tempting public officials to pocket the people's cash. It is just as guilty as the man who takes it.

Theft of public funds is not uncommon in such states where financial reports are not required.

And thievery will continue until such time as the people demand of their elected representatives that laws be passed that remove such temptations, by requiring published reports of all receipts and disbursements by all officials entrusted with the collection and distribution of public money.

Ever wonder what "Santa Fe" means?

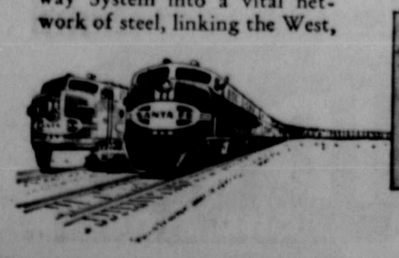

Santa Fe

Back in 1901, about 40 years after the Santa Fe Railway was founded, the ancient Indian Cross-within-a-Circle design was placed in a square and the assembly was adopted as the official trademark of the young railroad.

The words "Santa Fe" means Holy Faith. Today, that faith and vision in America's future have built the Santa Fe Railway System into a vital network of steel, linking the West, Southwest and East with fast, efficient transportation services. These rails serve your town; help it grow and prosper.

And, no matter what your shipping or travel problems may be, Santa Fe will solve them. Your local Santa Fe agent is right here in your town to help you.

You can depend on him, as you can depend on the vast system he represents.

From the SIDELINE

with HAROLD HUDSON

The North Plains Fair has come and gone, and it appears at this stage that the financial statement will come out even. The entertainment, the income from the commercial booths and the concessions will pay the expenses, and will take up the slight deficit which was carried over from last year, according to fair manager John Mayfield. This is welcome news, indeed. Now if the fair can be made to show a slight profit, maybe it can grow bigger and better.

The fair is like any sort of operation—it is rough sledding when there is a constant struggle to make the income meet the outgo and we think the fact that the fair will break even speaks well for the management of the officials.

Gate receipts at the rodeo exceed the expenses, and the installation of the new five-wire fence around the south side of the rodeo arena must be given credit for the increase in paying customers. We don't know what this fence cost, but we'd wager that it paid for itself in increased gate receipts this year.

The man who says that only time will tell hasn't had much experience with women.

The Herald has failed to mention this, perhaps, but a former member of this staff is now a publisher. Jim Bray, who was shop foreman and ad manager on the Herald for many years, has bought an interest in the Port Lavaca Wave, Port Lavaca, Texas and is the publisher. Old friends who want to get in touch with him can write to him there. Jim is a partner with Rigby Owen, publisher of Conroe Courier and several other south Texas newspapers.

We learned from Daniel Newman that his uncle, W. B. Lilly of Durant, Okla., was a visitor during the fair. Mr. Lilly, known as "Buster" was for years the Perryton fire chief and operated the Lilly Service Station until he sold it to his nephews Irvin and Willis Neal Lilly. But perhaps the most amazing thing about Mr. Lilly is the hiccups. He has had the hiccups since the 1930's, according to Daniel, and he still has them, in spite of trying every remedy known to man.

And just the other day we read an Associated Press story about a man near Lubbock who went to the hospital because he had had the hiccups for 11 consecutive days. Wonder how it would be to have the hiccups for 25 years?

Correcting faults is like tying a necktie; we can do it easier on ourselves than on anybody else.

While it's still summer, we always think of the beginning of fall with the end of the annual fair. Next week school will start, football practice has already opened, and while the weather may be warm, for all practical purposes summer is over. We know it is getting toward the end of summer because our crab grass is trying like mad to go to seed and we're trying like mad to cut the stuff before it does.

We hope that the Perryton schools can compile as outstanding an overall record this year as they did in the 1954-55 term, but it is unlikely. School accomplishments in athletics, band, agriculture and speech, were the best in PHS history and it doesn't seem logical to expect a repeat. Several good faculty members have been lost during the year, all of them to better jobs, but there are still plenty of capable teachers on the faculty this year.

Can you spell antidisestablishmentarianism? We didn't think you could—and we can't either. But a little Negro girl who appeared on TV's biggest giveaway show last week spelled this to win $8,000. And she was 34th in a field of 62 finalists in the National Spelling Bee. Not only can we not spell it, we don't even know what it means. We seem to recall that this word is often cited as the longest word in the English language.

One thing a girdle does is keep an unfortunate situation from spreading.

The Rangers have started fall practice, and there are plenty of sore muscles this week as the squad goes through their exercises. The Fort Worth Star-Telegram rates Perryton fourth in the district, while Putt Powell's Pigskin Parade has them next to last in the district. Coach Pete Peterson thinks the Rangers may do better than that. He's pretty fond of his boys and of course has never been one to bring out the crying towel.

Every since he came here in 1951, Pete has operated on the theory, "if the coaches don't believe the team will win, how do you expect the kids to believe they will?"

Charm is that indefinable something possessed by girls with stunning figures.

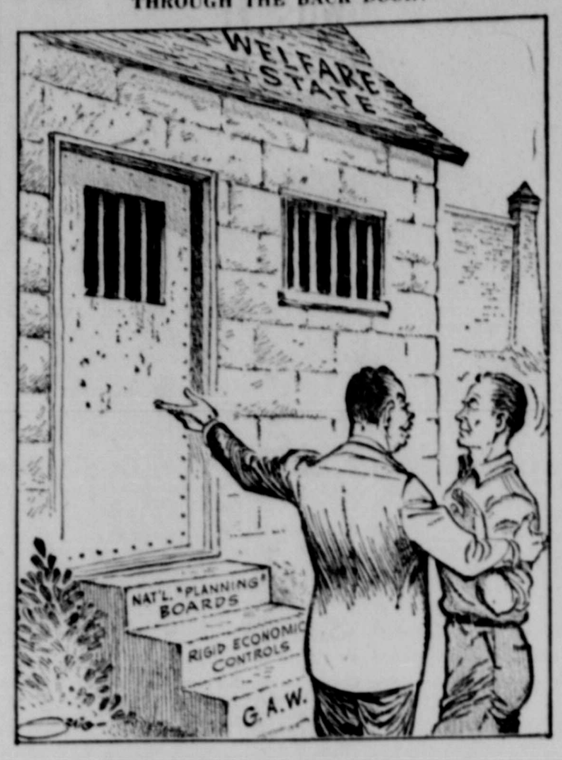

Mr. and Mrs. Harvey Dudley and Peggy Sue of Apache, Okla., were guests of their son and brother and family, Mr. and Mrs. Eldon Dudley, Saturday and Sunday.

Mr. and Mrs. Jock Gerard were guests of their daughter and family, Mr. and Mrs. Don Stephenson and Clay of Lubbock, last week end.

Wolf Creek Philosopher

Make Mistake In Repairing Farm

(Ed. note: The Wolf Creek Philosopher has his mind on politics or farming this week, it's hard to tell which.)

Dear editar:

I have never had any Presidential aspirations or any other kinds much and have never worried much over who was President, on the theory that the country is always bigger than its chief executive regardless of how big he is and plowing is as hard under one administration as another, but there are a lot of people not turned that way, who's President or who's gonna be President are matters that keep them in a turmoil.

The reason I bring this up is that there are a lot of people right now worryin themselves sick over whether President Eisenhower is going to run again, although it doesn't seem to be worrying the man it concerns the most, President Eisenhower himself.

Understand, I'm not entering into the discussion from a partisan standpoint, taxes have always been just as due under one administration as another, but Republicans would have a situation on their hands if Eisenhower decided he was going to farm year atfer next. It would be a mad scramble for the nomination. There are plenty of Republicans who know they're capable of being President, but their trouble is not enough other people know it. Consequently, the whole Republican strategy for the election next year is based on Eisenhower's running again. Even I can see that.

And that's where my point comes in. I've noticed that from time to time Eisenhower well-wishers have been sending him presents for his farm at Gettysburg. One group sends him a new jeep, another sends him a new tractor, another sends him a few registered heifers, another some hogs, another a new fireplace, etc.

What these well-wishers don't seem to realize is that every time they make his farm m... tive, they make the W... less attractive.

After-Dinner Speaker Gets His "Deserts"

"Red" Thomas tells about a dinner party he and his Missus went to in Center City last week. He said it was a wonderful party—except for one guest who was a real know-it-all," right from the start.

Whatever the subject, this fellow considered himself an expert." Wasn't quiet about it, either. He told different people what automobile to buy, what books to read—even told some who they "just had" to vote for.

When it came time to leave, this fellow must've felt a pang of conscience. He turned to the hostess and said: "I suppose I was a bit outspoken tonight." Quickly she replied, "Of course not. No one could have *out-spoken* you."

From where I sit, it's all right to have opinions as long as you don't try to force them on neighbors. Take those who would deny me an occasional glass of beer simply because they prefer something else. They're welcome to their choice but shouldn't try to force me to be a "party" to it!

Christian Science

Services 11 a. m. each Sunday
Public Cordially Invited

The way of health and holiness, of dominion over fear and sin which Christ Jesus came to teach, will be emphasized at Christian Science services Sunday.

Scriptural selections in the Lesson-Sermon entitled "Christ Jesus" will include the Master's healing of the servant of the high priest as recorded in Luke's Gospel (22:50,51): "And one of them smote the servant of the high priest, and cut off his right ear. And Jesus answered and said, Suffer ye thus far. And he touched his ear, and healed him."

Correlative passages to be read from "Science and Health with key to the Scriptures" by Mary Baker Eddy include the following (54:10-17): "That he might liberally pour his dear-bought treasures into empty or sin-filled human storehouses, was the inspiration of Jesus' intense human sacrifice. In witness of his divine commission, he presented the proof that Life, Truth, and Love heal the sick and the sinning, and triumph over death through Mind, not matter. This was the highest proof he could have offered of divine Love."

FRED BUTLER
Minister, Church of Christ
Booker, Texas

The following is the 23rd in a series of messages by ministers of this trade area. This week's message was written by Fred Butler, Minister of the Church of Christ, Booker, Texas.

ARE WE AN INGRATE?

We count it a great privilege when we are permitted to have a personal meeting with one who is an authority such as a Senator or maybe the president of the United States. One who would neglect such an opportunity would be readily classed by his friends as an ingrate and one who has no interest in civil affairs. Probably the reason for this is that we recognize the power of men who are in the high places of our government. Yet, we seem to forget that there is one Great Potentate who is greater than the greatest of all our great men, one who is more powerful than all our powers collectively. Our God is omnipotent and we have the privilege of meeting Him each Lord's Day when we assemble to worship Him by the authority of His Son, Jesus Christ. We have the promise of his presence when we gather in the name of His Son in Matthew 18:20. When we fail to meet Him it is an expression of our ingratitude for His giving weak creatures such as us an opportunity of meeting Him.

Will we always be an ingrate? Let us begin to show our appreciation of his offer by attending Church each Sunday morning and night.
