

THE JUNCTION EAGLE

Volume 46

Junction, Kimble County, Texas, Thursday, October 3, 1929

Number 25

PRIZES OFFERED BY C. OF C. WILL BE ON DISPLAY SATURDAY

Local Company Ships 500,000 Pounds Mohair

The Junction Wool and Mohair Co. is shipping out approximately 500,000 pounds of mohair this week, according to Mr. W. P. Riley. The accumulation was sold to E. G. Wentworth of Boston for 46 cents and 56 cents.

A large force is being employed in the weighing and loading of the mohair out of the local warehouse, and it is expected that all the mohair will be moved this week.

Due to the fact that shearing of wool is not completed, it will be around November 1 before the wool is shipped out, stated Mr. Riley. He said that 500,000 pounds would be a good estimate of the amount of wool to be shipped out.

"According to indications," Mr. Riley stated, "we will have to double the size of our warehouse. We are contemplating an addition the size of the present warehouse."

Pearl Family Has Annual Reunion

The annual family reunion of the descendants of Mrs. Alzada Pearl of Landon was held Sunday and Monday on the Llano River at Yates Crossing. Mrs. Pearl holds this reunion every year for her children, grand children and great grand children.

Around 65 persons were present for the two day reunion. Barbecue, lemonade, ice tea, soda water and cigars were served throughout the two days.

The seven children of Mrs. Pearl present were: Harvey Pearl, London; T. Pearl, Yates; George Pearl, London; Mrs. Will Matthews, London; Mrs. C. A. Slate, Gouldbusk; Mrs. Barney Martin, Gouldbusk and Mrs. Linnie Hight, London.

Mrs. Pearl is 66 years old and has lived in the London community practically all her life. She is well known throughout the entire section. Uncle "Punkin" Adams is a brother of Mrs. Pearl.

DeLano is Elected President Lion Club

Mr. G. H. DeLano was elected president of the Junction Lion's club at the regular luncheon hour yesterday. He was elected by acclamation. E. M. McLendon was elected secretary of the local club.

There were thirteen members present and two visitors, Messrs. Earl Tracy and E. V. Emmons.

Mr. Forrest Weldon, who is moving to Rocksprings soon, was granted permission to withdraw his membership from the club here.

Hunting Season is Approaching; Season on Doves Now in Sway

As a result of the change of game laws in Kimble, Kerr, Gillespie, Mason, Menard, McCulloch and Blanco counties concerning the shooting of doves, the hunters were a month late this year in pursuing their sport.

The date was changed from September 1 to October 1. The bag limit remains the same, not more than forty-five in any one week. The season lasts through the months of October and November.

The quail season and bag limit remain the same as heretofore. December 1 marks the opening of the season, and it closes on January 16. Bag

Wingless Ki-Wi Fowls Will be Placed On Exhibition

In order to increase the interest in the 4H clubs of Kimble County, the Kimble County Chamber of Commerce has offered eight prizes to the members of the 4H clubs who secure the most paid memberships to the Kimble County Chamber of Commerce. The campaign began September 11 and will close November 11.

There are eight 4H clubs in the county with an enrollment of about 100 boys and girls. According to reports from E. V. Stewart, secretary of the chamber of commerce, the exhibits will be on display on Main street Saturday, in order that the contestants may see the quality of the prizes which are being offered.

The Jersey heifer donated by Mr. L. A. Schreiner of Kerrville will also be on display.

The prizes which will be given are listed below:

1. A fine Jersey heifer, valued at \$75, will be given to the boy or girl in Kimble County securing the largest number of paid memberships.
2. A Hereford calf, valued at \$50, to be entered in the baby beef club. The county agent will assist in selecting both the Jersey calf and the Hereford baby beef.
3. A pair of registered lambs, valued at \$40, bred and raised by F. H. Russell of Wakeman, Ohio.
4. A big boned Poland China pig, valued at \$20.
5. A pen of certified KI-WI chickens consisting of four hens and one cockerel, valued at \$15. These chickens are peculiar in that they have no wings and will stay seemingly docile and contented anywhere.
6. A pen of certified Brahma chickens, valued at \$10.
7. A big breeder lamb, valued at \$8.
8. \$5.00 in gold.

Overloaded Trucks Cross Llano Bridge; Drivers Detained

Two trucks, owned by Houston interests, were stopped in Junction last week by Sheriff Frank Patterson and turned over to Bob Miller for being run over the North Llano bridge overloaded, according to reports from the Sheriff's office.

A fine of \$110.42 was imposed for the alleged violation. The trucks were held over in Junction for two days.

To avoid passing over the South Llano bridge, the truck drivers drove their trucks over the lower road to get on the San Antonio highway, fording the North Llano and crossing over the concrete bridge over the main stream.

Delegates Attend Proposed Rail Line Meeting at Sabinal

Messrs. E. A. Loeffler, Conrad T. Holekamp and J. S. Farmer attended a meeting in Sabinal last Saturday representing the interests of Kimble County in the proposed railroad from Corpus Christi to Roswell, New Mexico.

According to Mr. Holekamp, every town between Corpus Christi and San Angelo which would be affected by the line, had representatives present.

A barbecue dinner was served to the representatives attending the meeting. The following resolution was signed by the members at the meeting:

A Resolution
Realizing that direct railroad connection between Roswell, New Mexico, and Corpus Christi, Texas, by way of San Angelo is not only a necessity, but a long felt want to develop and fructify the virgin lands as well as the potential wealth of this territory and also providing the shortest one way carrier, reducing freight rates to Tide-Water, therefore

BE IT RESOLVED—That we, the undersigned, representatives of our community and delegated with power to act, do hereby heartily endorse the project proposed by the Roswell-Corpus Christi Holding Co., Inc., to promote the building of a rail-

(Continued on page 10)

Architect Pictures New Court House

The architect's conception of the new court house for Kimble County was given to the public Wednesday. A picture of the new building will be found on page 3 of this issue.

The new building will consist of a basement and two floors. Quarters for the county agent, justice of the peace, and rooms for the vaults and boiler will be in the basement floor.

On the first floor will be the offices of the county judge, county superintendent, sheriff, tax collector, tax assessor, county attorney, county clerk, county treasurer, county surveyor, county court room, rest room and vaults.

The second floor will contain the district court room, jury rooms, witness room, offices for district judge, district attorney and rest rooms.

The new building will be erected on the site of the old structure which has served as the home of official county business for many years.

Local Business Men Co-operate With C. C.

It is gratifying to the Kimble County Chamber of Commerce to notice the close co-operation that the business men of the county are giving that organization. Last week, L. A. Schreiner, of Kerrville, donated a fine Jersey heifer to the Chamber of Commerce to use as a prize in the 4H Club campaign.

After L. A. Schreiner of Kerrville donated the heifer, the Schreiner-Hodges Co. of Junction donated the services of a truck to haul the heifer to Junction. This spirit manifested by the business men of Junction is the kind that promotes civic enterprises and builds cities.

IVY SCHOOL TERM WILL OPEN MONDAY

The Ivy school will open Monday morning, according to reports from the principal, Mr. Orlan Stewart.

Miss Alberta Wootan will be the assistant teacher for the school term.

Mr. Richard Homann, county agent, has been invited to make an address at the opening of the school.

Old Spanish Trail Motorcade Will Reach Junction Tuesday Afternoon

NEW CHURCH IS NEARING COMPLETION

The new Church of Christ building will be ready for occupancy about the first of November, according to Elder J. S. Newman, pastor.

When the building is completed, it will be one of the most beautiful church edifices in southwest Texas.

In the basement, are four large class rooms. The heating plant is also located in the basement. Steam heat will be provided throughout the building.

The auditorium which will seat around five hundred people is one of the most beautiful assembly rooms in this section. The baptistry and the pulpit are both arranged well and the arch above the baptistry is beautiful.

Rest rooms for both men and women are being provided in connection with the building.

The people of Junction congratulate the congregation of the Church of Christ in building such a beautiful and efficient place of worship.

Local Men Buy Ford Agency Rocksprings

Messrs. Alton Miller and Forrest Weldon have bought the Rocksprings Motor Co. at Rocksprings, Texas, and will take charge of the business before the fifteenth of this month. The Rocksprings Motor Co. is the Ford agency of that section.

Mr. Miller and his family will move to Rocksprings soon. Mr. Weldon will also go, but his family will remain in Junction until the present school term closes.

Junction regrets to lose these two men and their families.

Mr. Miller has held a responsible position in the Junction State Bank for some time. Mr. Weldon has been the proprietor of the City Meat Market. Rocksprings is fortunate to have these men enter business in that city.

BURT BARBER SHOP UNDERGOES CHANGES

The E. M. Burt Barber Shop, located on the west side of the square, has undergone a remodeling recently. One of the new features of the shop, is the installation of baths, Shower and tub baths are available now.

Two more chairs have been added and new equipment purchased.

In making a partition in the shop, Mr. Burt has used the large concrete tile blocks, manufactured in Junction by Bissett and Baker.

WOMAN DRIVING STOLEN CAR ARRESTED HERE

A woman driving a small coupe which was supposed to have been a stolen car, was arrested by Deputy Sheriff Sod Durd, here last week.

The car was registered in Navarro County at Corsicana, according to information given by the local police. The woman is being held in Junction pending developments.

The owner of the car can not be found, it is stated.

CHEVROLET COMPANY INSTALLS LARGE SIGN

The large perpendicular, multi-color electric sign of the Highland Chevrolet Company is installed now and burning nightly. The sign is 17 feet long and bears the name "Chevrolet" and the name of the local company. This electric sign is the largest one ever installed in this city, and would do credit to a city much larger than Junction.

EAGLES TAKE GAME FROM SONORA

Coach Earl Bowers' fighting Eagles swooped down and buried their talons in the backs of the lame Sonora Broncs last Saturday, the fray ending with the score standing 26 to 0 and the Broncs thoroughly subdued.

It is said that a ferocious bronc will do battle fiercely until it finds its master. Then it will become docile enough. The Sonora Broncs were led off the field Saturday after the final whistle sounded. They were a subdued and conquered bunch, bowing to their superiors.

During the first period of the game the Broncs put up a fierce fight and twice got within twenty yards of a touchdown. The field was dusty and the weather was hot and it took the Eagles several minutes to get their eyes properly focused on the Broncs, but when once they took the proper survey they were soon upon their backs. Near the close of the first half Witt took the ball across the line for the first touchdown. An attempt for the extra point failed and the half ended 6 to 0.

With the second half the Eagles showed more fight and easily out-classed the Sonora Broncs. A pass from Johnson

(Continued on page 2)

Texas Co. Gives \$2,500 to Noxville Highway Project

Judge J. B. Randolph received a letter the first of the week from the Texas Pipeline Company of Houston stating that the company would give \$2,500 on the Noxville road. Commissioner H. W. Bierschwale wrote the company several months ago that the road was being built near their station in the eastern part of the county and solicited a donation, as the funds for the road is limited.

Nothing more was heard from the proposition until some of the officials talked with Judge Randolph recently and later the receipt of the letter stating that the donation would be made. Mr. Bierschwale and the entire court are delighted with the gift as it will aid materially in the completion of the road.

It is believed that when the road is completed and the Gillespie County road connects with it the State will designate this road. It will give Junction and all points west a direct route to Austin.

Mr. W. B. May of Mason was a Junction visitor Monday. It looked natural to see Bill on the streets again as he only recently moved to Mason where he is now manager of the West Texas Utilities.

Junction Eagles Will Encounter Eldoradoans Here Tomorrow 3:30

SCHREINER-HODGES CO. RECEIVES WOOL

Wool and mohair is coming in rapidly at the Schreiner-Hodges Co. warehouse. Mr. Hodges stated to the Eagle reporter Tuesday that if the industry kept growing that he would have to enlarge his warehouse. Both firms in Junction are handling large quantities of wool and mohair this season. From the reports of the managers the shipments this year will be far ahead of any previous year.

Visitors Will be Given Old-Fashioned Barbecue

The great ocean-to-ocean motorcade which will travel over the O. S. T. left San Augustine, Florida, October 2. The destination of this motorcade is San Diego, California.

Junction was chosen as one of the over-night stops. The motorcade will arrive in Junction at 4:30 Tuesday afternoon, October 8.

Under the supervision of the Kimble County Chamber of Commerce, preparations are under way to entertain the visitors while here. A big barbecue supper will be held in Schreiner Park at 6 o'clock for the visitors. A program will be arranged to follow the supper.

Messrs. Emil A. Loeffler, I. W. Myers, O. W. Cardwell and Weaver H. Baker are the members of the entertainment committee.

The committee which will have charge of the arrangements for sleeping quarters of the guests are Messrs. Arthur Thompson, Albert Rieck and Leon Powell.

According to information, approximately 100 cars left San Augustine in the motorcade. By the time the caravan reaches California, it is expected that more than one thousand people will be in the big parade.

The main purpose of the giant motorcade is to sell the people of the United States to this great all-weather route from the Atlantic to the Pacific oceans. This is one of the most historic and most scenic drives in the United States. The drive thru Kimble County is one of the most beautiful encountered on the whole trail. It is a fitting place for the motorcade to pause for a while.

Junction is planning to entertain the guests with a taste of the old time western hospitality.

O'Bryan Residence Is Now Completed

The new home of Mr. and Mrs. J. R. O'Bryan, which has been built in the new addition in the western part of the town, is completed now with the exception of some minor improvements in the grounds about the house.

It is a five room house with all modern conveniences. The exterior is of native rock, with the woodwork trimmed in green.

Mr. O'Bryan is having concrete walks laid about the place. In the near future, they plan to build an ornamental rock wall about the place. The top of the wall will be so arranged that flowers and shrubs can be planted there. They are going to plant the lawn in grass and lay out a rose garden at the side of the house.

Eagles Will Match Wits With Eldorado Friday

It's too early in the season to figure out who's going to win by dope. Anyway, the old dope bucket has been overturned so many times in the past two seasons, that the smart guy usually bets against the dope—and wins.

In the opening game of the season for the Ozona Lions, this scrapping bunch scored an easy win over Eldorado. The final score was 40 to 0.

Last Friday Ozona defeated Rankin by the close score of 7 to 0. Rankin is rated as a strong team. Those Ozona Lions must have something besides a roar.

Tomorrow they will meet Sonora. We predict that Ozona will walk off with the long end of the score without much trouble. But the Sonora Broncs put up a stiff fight against Junction last Saturday. They have a fighting bunch, but the team is light.

S. M. U. has proved that it is below standard this year. The mustangs haven't got this year what they have had for the past four years. They were lucky to get a tie with Howard Payne last week.

By scoring a 61 to 0 victory over Daniel Baker last week, the T. C. U. Horned Toads demonstrated that they have plenty of offensive and defensive

Coach Bowers is putting his team through a good workout each afternoon this week in preparation for the Eldoradoans. The Eagles will be in good shape for the game Friday.

The Eldorado boys will be in Junction tomorrow for a game. All indications point to an easy win for the Eagles.

According to information, the Eldoradoans are a raw bunch. With the exception of one man, the team is a green one.

A week from tomorrow, the Junction Eagles will play the Mason High School team.

The Del Rio aggregation are still trying to figure out how the Eagles trimmed them up. They were not expecting it and it was a bitter pill to swallow. Some of the fans tried to lay it to the dust, but dust gets in one man's eyes as easily as it gets in another's. All we can say is that the best team usually wins.

A large crowd should turn out tomorrow and watch the Eagles fly over the field. It's human nature that most people perform better before a large audience. Let's furnish the audience tomorrow and watch our team add another victory to their perfect record for this season.

EIGHT LETTER MEN ON OZONA GRID LINE-UP

Eight letter men, four of them playing their fourth year of high school football, will form the main strength around which Coach O. G. Lewis is building his squad of fighting Lions which hail from up Ozona way.

There are eighteen members of the squad at Ozona this year. The eight veterans are Dock Lee, George Bunger, Carl North, Earl Deland, Red McGee, Thalib Elledge, Walter Kyle and Herman Chandler. Others who are bidding for berths on the team are Ray Deland, Raymond Swinney, Fletcher Freeman, Lee Patrick, Bill Friend, Pleas Childers, Miller Robison, James Badgett, Elmer Schwalbe and Roger Dudley.

EAGLES WIN (Continued from page 1)

to Richardson who sprinted by the Broncs brought the second touchdown. The extra point was made. In a short time Richardson went around the end for another forty yards and the third touchdown, but the extra point was not made and the score stood 19 to 0 at the end of the third quarter.

With the beginning of the fourth quarter the Sonora Broncs realized their defeat, but continued to fight. During this quarter Ake carried the ball over for the fourth and last touchdown. The extra point was made and the game ended with the score standing 26 to 0.

About half of the crowd present was from Junction. Forty pretty Junction girls in white uniforms formed a pep squad that made themselves heard. They played as valiantly as the boys on the field and deserve a part of the credit for the decisive victory.

The lineups:

Junction	Pos.	Sonora
Dunbar	LE	Logan
Cochran	LT	Lankston
Duderstadt	LG	Pfiester
Munn	C	Brown
Taylor	RG	Adams
Ragland	RT	Whidden
L. Dunbar	RE	Kidd
Witt	Q	Taylor
Ake	RH	Morris
Richardson	LH	Trainer
Johnson	F	Hill

In the last quarter Blackburn was sent in for Johnson and Taylor for Beasley. Sonora made many substitutions during the game.

It is the peculiar quality of a fool to perceive the faults of others, and to forget his own. —Cicero.

Sheet Iron Keeps Squirrels From Out Pecan Trees

While the squirrel is a natural born forester and forests owe much of their existence to his labor, yet it is sometimes desirable that he should not climb certain trees.

A mott of pecan trees on the river just south of town, for years have been bearing good crops of nuts. As soon as the nuts began to mature, the squirrels gathered them and planted them in the ground, so when the owner got ready for the harvest, he had but few nuts for his share. This year, some of the trees are loaded with nuts. As soon as they began to mature, Bunny went to work on them. In order to keep him from climbing the trees, the owner cut down the other kind of trees and put a jacket of sheet iron around the trunk of each pecan about four feet from the ground, and extending up about thirty inches. The squirrel could climb up to the iron jacket, but he could get no further, because he couldn't get a toe hold, and had to give it up as a bad job. Since that time, the squirrels have not been in those trees, except that one or two climbed up from limbs that extended near the ground and from drift wood which had piled up against the tree trunks. Squirrel tracks indicate they have transferred their activities elsewhere.

This method is cheap and simple, and does the work effectively. Try it.—Sterling City News-Record.

A little melted butter on the chin makes the whole world grin.

Cool Days Attract Golfers To Course

According to Mr. J. R. O'Bryan, manager of the local golf course, large crowds are visiting the course now. He said that last Sunday more than fifty people played around the course.

Improvements are now being made on the course, and the greens are being worked over. Mr. O'Bryan is getting everything in readiness for the Fall tournament. The exact date for the tournament has not been decided, but it will be announced soon.

AMONG OUR SUBSCRIBERS

During the month of October the Junction Parent-Teachers Association is authorized to solicit an receipt for subscriptions to the Junction Eagle. The ladies will appreciate your subscription and ask that you send them your renewal during the month of October as they receive a liberal commission during this month.

The following subscriptions were received during the past few days at the Eagle office, several of them being new subscriptions:

- Lester Phillips, Junction; Mrs. F. H. Dupuy, Junction; Superintendent Guy C. Moses, Junction; T. B. Phillips, Junction; Sam Bowers, Junction; John D. Phillips, Rocksprings; W. W. Buck, Junction; George R. Papp, Junction; John Braley, Junction; Willis Mason, Junction; J. F. Cabler, Junction; Mrs. Miller Oliver, Junction; Floyd Little, Junction; Mrs. Jack Moleaworth, Sierra Blanca; Harvey Foley, Rocksprings; Jim McDonough, Junction; John Evans, Junction; Alfred Banowsky, Junction; S. C. Counts, Junction; Mrs. R. L. Peters, Kirksville, Missouri; Miss Loree Kothmann, Waco; J. G. Kroppf, Junction; C. P. Brockmann, Kerrville; O. J. Brockmann, Austin; Miss Flora Eckert, Austin; Alton Stewart, Los Angeles, California; Miss Maurine Biggs, Austin; Morris Nethery, Junction; G. G. Reid, Telegraph; Mrs. J. T. Hughes, Dallas.

ANOTHER SNAKE STORY

Mr. S. C. Counts was in our office a few days ago commenting on the snake and fish stories that appeared in the Eagle recently. He told a snake story but would not vouch for the truth of it as it did not come under his observation. He said that a chicken snake swallowed an egg and then ran its head through a jug handle and swallowed another, and when the workmen went to get a drink of water found the snake fastened in the handle as the egg on each side of the handle held the snake fast.

MRS. JOHANNA KNEESE PASSES AWAY

Mrs. Johanna Kneese, one of Harper's pioneer mothers, passed away at nine o'clock Wednesday night at her home. For many months Mrs. Kneese had been in declining health and although death had been anticipated for some time her friends of this section were none the less grieved at learning of her death.

Mrs. Johanna Kneese was born on Squaw Creek, Gillespie County, December 5, 1857, and lacked only three months of being seventy-two years old when she died. Before her marriage to Fritz Kneese in October, 1879, she was Miss Johanna Mund, the daughter of Mr. and Mrs. Conrad Mund. She was the mother of six children, three of whom survive. Her husband, Fritz Kneese, disappeared thirty-five years ago and no word has been heard of him since. He made frequent trips to New Mexico to buy horses and had planned the last trip to cover a period of six months but he never returned. A friend of Fritz Kneese, sometime after-wards saw a Mexican in West Texas riding the horse that Fritz Kneese had left home on, and it has been generally believed that he met with foul play. At any hazard he never returned and Mrs. Kneese was left to rear a family alone. The difficulties and struggles the good mother encountered were many but her brave spirit faced the ordeal and she was victorious.

Three children who died are Oscar, Alfred and Emily. Alfred Kneese passed away two years ago. The surviving children are Mrs. Martha Hazelwood, Mrs. Hilda Sageser, and Mrs. Ella Thomas, all of Harper. Three sisters and four brothers also surviving are Mrs. B. Markwordt, Mrs. L. D. Dixon, Mrs. Elisa A. Sauer, August, Henry Conrad and William Mund. She was grandmother to fourteen grandchildren and five great grandchildren.

Funeral services were held today at the Baptist Church with Rev. J. A. Dekle officiating. Interment followed in the city cemetery.—Harper Herald.

Architect's Conception of Kimble County's New Court House

HENRY T. PHELPS ARCHITECT KIMBLE COUNTY COURT HOUSE JUNCTION TEXAS

Above is the architect's conception of the new court house for Kimble County. It will be two stories with a basement. The new structure will be erected on the same site where the old home of Kimble County's official business now stands. The building will be complete in every detail and will house properly all the departments that carry on business of the county. Tentative plans call for the vaults to be placed in the basement of the new building. The second floor will be utilized by the district room, jury rooms, witness rooms, offices of the district judge and attorney and rest rooms.

WILD DOGS SLAY LARGE BUCK ON WEST RANCH

It has been reported that there were some wild dogs in the country south of Uvalde, but real evidence of the fact was established last week, following the rains. On the Albert West ranch 10 miles south of Uvalde, a large buck deer with a 17-point head of horns was found by J. W. Ferris, foreman of the ranch. The hams of the animal were almost eaten away and scars were found on its shoulders and ribs made by the fangs of dogs. The deer was big and fat and weighed approximately 180 pounds.

Mr. Ferris said that the deer had been chased by dogs for some time and finally being run down, the flesh of its hams was torn off. During the rains, he believes that the deer got away from the dogs and they lost its trail. The carcass was found Monday.

He says that a wolf will always attack an animal's neck, while a dog will attack it from the rear. He had heard dogs chasing something at times and knew that these dogs ranged in that country, but had never been able to see them. Mr. West and Eugene Kincaid saw the carcass of the deer and said that it carried one of the finest sets of horns they had ever seen.—Uvalde Leader-News.

Texas advanced to tenth place in portland cement production with an increase of 12 per cent over 1927 as compared with a 2 per cent increase the country over.

SPENDING MONEY

(By Frank C. Ward)

The fellow who never spends any of his money is on the road to unhappiness. And on the same road, but a little farther on, he will find himself in the fateful state of selfishness. This state is a strong prison with bars of steel at every window; once you get in, it is very difficult to get out.

And the fellow who spends everything he can lay his hands on is on the way to financial ruin. Of this sort one of our country's greatest business men said, "The germ of success is not in him."

But every boy is entitled to have some spending money. About the use of such money there are a few valuable hints worth noting.

The boy who expects to have spending money should earn some himself. It is more fun to earn money yourself than have someone else hand it to you.

It is wise to set a "can't afford" limit on the spending. The sooner a boy learns that there are some things that he can't afford, the better off he will be. It is a poor policy to spend as fast as money comes in, and still worse to get into debt for something that could well wait a while longer.

Learn to compare values. Some things will amuse you for an hour and then be worthless; others will afford pleasure for weeks. Esau failed because he couldn't compare values. He wanted what he wanted when he wanted it. He could have waited, but he wouldn't.

Spending money would lose its value if there were no enjoyment in the spending and in the thing bought.

Farmers in the Medina Valley and the Winter Garden district are advantaging from the construction of a new canning plant at Natalia, 30 miles southwest of San Antonio, which will have a daily capacity of 10,000 cans of vegetables and fruits.

Yet they indicate goals in conversation to which all of us might well aspire. Let us see if we can more nearly approach them in the future than we have done in the past.

University of Texas oil royalties, already more than \$11,000,000, are likely to be increased further through the leasing of mineral rights on 5,240 acres in Pecos, Crane and Ector Counties. Leases will be let under direction of the newly created University Land Leasing Board composed of Regents R. H. Holliday of El Paso and Edward Crane of Dallas and Land Commissioner J. H. Walker.

The Lindale canning plant, which handles fruits and vegetables in season, cans pumpkins, citron melons and meats in the fall and winter so as to keep busy practically every month in the year.

TESTS OF SPEECH

A distinguished speaker addressing a college group not long ago proposed three tests of speech which are very searching and stimulating:

The first was this: "Can you instruct without insulting?"

The second was this: "Can you contradict without antagonizing?"

The third was this: "Can you rebuke without humiliating?"

Has anyone of us ever stood successfully any one of these tests of speech without taking into account all of them together?

Yet they indicate goals in conversation to which all of us might well aspire. Let us see if we can more nearly approach them in the future than we have done in the past.

MARTIAL LAW NOW PLACED OVER BORGER

The law in Borger and the neighboring county seat, Stinnett, Monday passed from the control of elected officials into the hands of 100 National Guardsmen working with ten State rangers. The martial law went into effect Monday, September 30, and by nightfall uniformed men had arrested a dozen men.

San Angelo shipped 14,500,000 pounds of wool of the 1929 crop, representing more than one-third of the 40,000,000 pounds which Texas sheep produced. The fall clip will start moving in September and is expected to total about 7,000,000 pounds against 6,000,000 last fall.

Five hundred and seventy-two Texas towns have newspapers. Texas has 121 daily, one-tri-weekly, 29 semi-weekly and 617 weekly newspapers with a total of 944 publications of all kinds. Two hundred and twenty of the 254 county seats in Texas have newspapers.

FORD PREDICTS WOMEN WILL QUIT INDUSTRY

New York.—Henry Ford predicts the disappearance of women from industry. In the Pictorial Review he says they don't want to think much; they prefer to take orders; they are not precise.

Conservative estimates of the Texas wheat crop for 1929 range from 40 to 45 million bushels, putting an equal number of millions of dollars into Texas banks. Frank Kell of Wichita Falls ten years ago was quoted as predicting that Texas would be a rival of Kansas as a producer of wheat and Texas this year has probably gone past Oklahoma in wheat production.

MATTERS OF INTEREST OF OUR STATE CAPITAL

(Frontier Times)

Austin was selected as the capitol of Texas in 1839, by five commissioners, sent out by Mirabeau B. Lamar, President of the Republic of Texas. There was a small village on the site at the time known as Waterloo.

The commissioners purchased for \$21,000 the rights of 7,735 acres of land for the Republic.

The city was surveyed for the government by Judge Edwin Waller in 1839.

On August 1, 1839, the first sale of lots in the new town was held. The first day 306 lots were sold at auction for \$182,588. The lowest price at which lots were sold was \$100; the highest price paid was \$2,800. The average price was about \$500.

The President of the Republic moved to Austin in October, 1839, also members of his cabinet. A frame capitol building and a frame presidential residence had been erected, but the cabinet members had to occupy log homes and offices.

The first newspaper in Austin, The Austin Gazette, made its appearance October 30, 1839.

On the 11th of November, 1839, the first session of Fourth Texas Congress was held at Austin. The session was marked by attempts to move the capitol from Austin.

In January, the first census of Austin was taken. The enumeration showed a population of 856, of which 150 were negroes.

In 1842, President Sam Houston removed the State Capitol to Houston on account of fear of raids by Indians, who had attacked San Antonio. In the removal the archives of the government land office were forgotten, and were never removed. They were turned over to the State government when Texas was admitted to the Union, and Austin again became the seat of government.

The Governor's mansion, that is still in use, was erected in 1855.

Austin got its first railroad in 1871, when the first train of the Houston & Texas Central Railroad reached the city.

In 1872 Austin won designation as the permanent capitol of Texas.

The temporary capitol building, a frame structure, burned in 1881, and the following year, after giving a Chicago land company three million acres of land in the northwest portion of the state, began the construction of the present beautiful capitol, which is of Texas granite, 311 feet high, and covers six acres of land.

The University of Texas was founded, with a single stone building as its quarters, in 1881.

Sixty thousand square miles of lignite underlie Texas.

In 1927 there were 116,763 industrial wage earners in Texas who drew in wages \$116,535,580.

BIRTHDAY SURPRISE

Saturday afternoon Mrs. Leo Goben received a happy surprise when a group of friends came in to help celebrate her birthday. A number of pretty and useful gifts were presented to the honoree after which delicious refreshments were served.

Those present were Mesdames T. M. Hodges, Sr., Joe Ramsey, John Cochran, Joe Bissett, Furr, A. B. Hodges, E. A. Bissett, Dave Goben and daughter, Knox, H. Ragsdill and Bob Jarvis.

MRS. PIERCE HOGGETT ENTERTAINS CLUB

Mrs. Pierce Hoggett entertained the Little Bridge Club at her home Wednesday afternoon. Mrs. Joe Fritz won highscore, and Mrs. Clifford Hamer won high cut. Mrs. Jack Richardson won low cut.

After the refreshments were served, a tray bearing a cake and presents was brought in honoring the birthday of Mrs. Coke R. Stevenson.

Those present were, Mesdames J. A. Thompson, C. T. Orth, Vann Martin, Guy Moses, L. E. Standifer, Irvin Jarvis, Ovie Buster, Coke R. Stevenson, Jack Richardson, Clifford Hamer, Joe Fritz and Pierce Hoggett.

CARD OF THANKS

We have no words sweet enough to express our thanks for the loving deeds, beautiful flowers and tokens of sympathy shown us in so many ways during the tragic illness and passing of our dear son, brother and cousin, Claude Edgar Davis. We appreciate your kindness from the depths of our hearts and pray God's blessing to rest on all of our dear friends.

Mr. and Mrs. Marion Davis and Family,
Mr. and Mrs. Edgar Petty and Family.

PACKED HOUSE HEARS JIMMIE RODGERS SING

One of the largest crowds ever assembled in the Schreiner High School auditorium gathered last Thursday evening to hear Jimmie Rodgers sing and yodel some of his favorite songs. Accompanied by his three associates, the audience was given the privilege of hearing many of the songs that made the reputation for this company.

This was Jimmie Rodgers' premier showing in Junction, and judging from the applause, he was well received. He was brought to Junction under the auspices of the Schreiner High School foot ball team.

Mr. L. W. Goben and family returned last week from a vacation trip to Mason, Brady, Coleman and San Angelo. They enjoyed the trip and found that all these towns are growing rapidly. Mr. Goben's little son who was ill so long stood the trip all right. He was rather tired when he reached home but soon rested up and is gaining in weight.

URGES COUNTY PARKS FOR KIMBLE COUNTY

A petition is being circulated over Kimble County this week asking the Honorable Commissioners' Court of Kimble County to call an election to be held in each voting precinct in Kimble County, to determine whether or not a tax of and at the rate of not more than five cents on the hundred dollar valuation of taxable property be levied for the purpose of purchasing and improving lands in Kimble County, Texas, to be used as county parks.

When you are presented with this petition be sure to sign it and help your county to take a step forward in advancement. The time has come when each and every county in the state and in the United States should have a County Park. It is essential to the prosperity of every resident of Kimble County and it is essential to the educational value of every boy or girl in Kimble County and to the future posterity of our citizenship.

By having a county park and operating it with the necessary improvements, building a municipal hall that each community and school district may have a place to exhibit their products, will do much to encourage the raising of more and better agricultural and livestock products. The land can be bought now at a reasonable price adjoining our present Schreiner Park. In a few years this land will double and treble in value and likely could not be had at all. Then we will have lost the opportunity of a life time.

A five cent tax can not be felt by anyone. It will mean only a few dollars from the wealthiest citizen of our county, and only a few cents from the average citizen. And when the park is built it will be self supporting, probably making money for the county. When it is self supporting the tax will not be collected.

It means a whole lot for our people to have this park. It will be a place to go to for amusement. It will be a place to exhibit your fine poultry and livestock. It will be a place where you and your children will learn the value of good stock and where you will learn to judge them by seeing experts with their judging teams do the real work. A Fair Park will be an asset to Kimble County instead of a liability. It will be an investment that will make every person in Kimble County feel proud in time.

We must have it. Our neighbors all have a place of this kind, and we go there and spend our money and have a good time. Why not have a park here where we can go and have a good time and where our neighbors may come to see us and incidentally leave a little of their change along with us to help smooth out a few wrinkles of the times that come and go, and will as long as life lasts. Here is hoping for a Kimble County Park.

Pecan Crop Light Says J. N. Hodges

With the opening of the pecan season Mr. J. N. Hodges, manager of the Schreiner-Hodges Company, is besieged with many questions pertaining to the 1930 crop in this county. He keeps in close touch with the pecan situation and handles more pecans than any other firm in this section. Last year he shipped twenty-nine cars of pecans from Kimble County, but he believes that there is less than one-third of a crop here this year. Some pecan growers report good crops, but Mr. Hodges says that he does not believe that more than six cars will be shipped.

Oklahoma and Louisiana are reporting good crops. Just what the market will be is not known yet, but it will likely be better than last year when the crop was above normal. The pecan crop in Kimble County is a considerable industry and means a great deal financially to the people.

STOCK SALT AND FEED

Before buying your stock salt, cake, corn and oats see Dan St. Clair. He can supply your needs along this line at special prices.

H. O. DENMAN FLIES TO SAN ANTONIO

Mr. H. O. Denman, local aviation enthusiast, piloted his new monoplane to San Antonio last Tuesday in one hour and fifteen minutes.

Mr. Denman flies nearly every day and is quickly putting the hours of flying time behind him.

PLAY-DAY!

Fedelco Washer and Ironer—Dixie Twin-Tubs Included—Just \$174.50.

YES—here at last is freedom! You can have more time to do those things you like to do. . . Because the new Fedelco Washer cleans clothes safely and quickly—Just five minutes to the tub full!

—the Ironing? It too can be done in less time than you can imagine . . . the Fedelco Ironer tends to that. You but guide the clothes through the ironer and each piece is finished perfectly.

—every homemaker who wants to enjoy lifes pleasures should have this laundry equipment.

—the Fedelco Washer, Ironer and Dixie Twin-Tubs, (which are included) and the cost is but \$174.50.

Grant us the privilege of showing you this "labor-saver" at your earliest convenience

West Texas Utilities Company

**FIRE PREVENTION WEEK
IS OCTOBER 6 TO 12**

The week of October 6-12 has been designated by President Hoover as Fire Prevention Week. The annual observance of this week, says Secretary of Agriculture Arthur M. Hyde, undoubtedly has contributed materially to the cause of human safety and well-being.

Following the President's announcement on fire losses in general, Secretary Hyde called attention to farm fire losses in the following statement:

"The farmer has as much reason as the city dweller or any other owner of property, to interest himself in these special annual campaigns against fire.

"The loss on farms and in rural communities due to fires has been estimated to have been as high as 3,500 lives and \$150,000,000 worth of property in a single year. The rural population of our Nation should give serious and constructive thought to this problem and make special efforts to eliminate needless fire losses.

"Lightning, defective chimneys and flues, sparks on combustible roofs, matches, smoking, spontaneous ignition of agricultural products, careless use and storage of gasoline and kerosene, faulty wiring and improper use of electric appliances, continue to be the principal known causes of fires on farms.

"The individual has it in his power to combat these hazards, and I urge that he do his utmost to safeguard his family and property against the fire menace. Periodic clean-up and inspection of premises will remove many serious fire hazards.

"The U. S. Department of Agriculture has a special committee on farm fire protection, which is actively co-operating with interested national organizations in an effort to reduce the losses from fires on farms and in rural communities.

"Rural volunteer fire departments, equipped with modern motorized apparatus, are receiving merited and widespread attention, and represent investments which pay dividends in fire protection, especially where good roads have been provided.

"The rural fire prevention and control movement calls for concerted and continuous effort by all concerned, with the common end in view of conserving national resources, both in lives and materials."

THE MYSTERY REMAINS

Professor C. Judson Herrick of the University of Chicago believes that man is simply a machine that thinks.

After spending years in the study of neurology, Dr. Herrick has concluded that all life—physical, mental and spiritual—is simply a mechanistic process. He has just written a book setting forth his views, and in it he says:

"Mental processes are biological functions of the body in general and of the brain in particular, in just the same sense that circulation of the blood is a function of the heart, or breathing is a function of the lungs. A thought is a manufactured product as truly as a pair of shoes."

The present age is distinguished from all former ages by a number of things; but chiefly, it would seem, it is set apart by the fact that never until now have men been able to conceive of themselves as soulless bits of machinery.

Probably this is only natural. We live in an era that moves by machinery. We are as far removed from the social and economic conditions of a century ago as we are from the pyramids. It is not surprising that some men should have come to look upon human beings themselves as mere glorified bits of mechanism.

It is a mistake, however, to think that one solves any problems by adopting such a theory.

In the old days the contemplative man felt that he had an immortal soul, that he was kin to the majestic spirit of the universe itself, that he was superior to time and change and death; and he knew, therefore, that he was a partaker in a tremendous mystery, and this knowledge gave him a sense of dignity, a feeling of exaltation, a consciousness of nobility.

Today he simply says, "I am

**TEXAS LEADS IN
HIGHWAY BUILDING**

Improved highway mileage in 1928 amounted to 29,252 in the United States, according to a recent statement of the United States Bureau of Public Roads, a division of the Department of Agriculture. Texas led the country with 2,356 miles of highway improved during the year.

Kansas was second with 1,783 miles, Arkansas was third with 1,673 miles, Iowa was fourth with 1,345 miles, Illinois was fifth with 1,344 miles, Minnesota was sixth with 1,243 miles, and North Dakota was seventh with 1,230 miles.

Skyscrapers with about 150 floors, almost two-fifths of a mile high, or nearly four times the height of Washington monument, now can be built with safety. But their "economic height," for the best rental profits, is around 75 stories. This economic top is limited at present in Chicago, Detroit, New York and possibly a few other American cities where land values are extremely high.

a machine. I breathe in pure air and eat certain meats and fruits and vegetables and undergo certain experiences, and out of them I create the finished products of thought and action."

Thus he has an entirely new slant on the universe and his place in it.

But—and this is what is noticing—the mystery remains as great as before. A machine? Very possibly. But what a marvelous one! A machine that can lift itself by its own bootstraps; a machine that can create beauty so compelling and haunting that the beholder, involuntarily, is persuaded of his own immortality; a machine that can be heroic, can suffer hardships for a cause and can sacrifice itself for the sake of other machines—what kind of a machine is this anyway?

The mechanistic explanation may be a very good one. The facts of physiology may support Professor Herrick's theory right up to the hilt. But the mystery is still there, as tremendous as ever. No theory can dispel it. And you may make of it what you please.—San Angelo Times.

**ANCIENT BELL IS
FOUND IN CHURCH**

The last of four great bronze bells hung in a Spanish mission at Refugio in 1793 but missing for almost a century, has been discovered near Victoria, doing faithful duty in a negro church.

A quartet of the bells—excellent ones and of a type no longer made—were rung in the old mission when Spain campaigned through Mexico and Texas and established a string of chapels which still exist in many localities.

The mission was destroyed by artillery fire when the Spanish were driven from Texas. With its destruction in 1836, the bells disappeared.

Two of them were found in a priest's house in El Paso some years ago, and the third was discovered hanging on a ranch on the San Antonio river. The other one, cracked after its century or more of use, was that which has been but lately discovered in the negro church, calling men and women to worship even as it did in 1793.

**CHAS. EVANS SELLS
1,700 FEEDER LAMBS**

Chas. Evans, local commission dealer, this week sold mutton lambs for the following ranchmen to George Middleton, Kansas City feeder, for a dime a pound:

For C. O. Ridley, 600; H. P. Cooper estate, 340; R. D. Trainer, 150; Tom Sandherr, 460 and Rector Cusenbury, 250.

The lambs will be put in the feed lots, Mr. Evans stated.—Devil's River News.

**HIGHEST MOHAIR PRICE
IS PAID AT UVALDE**

Uvalde, Tex.—Fall accumulation of mohair of the Edwards County Wool and Mohair Warehouse Company at Rocksprings amounting to 250,000 pounds was sold Wednesday to S. G. Murfitt and Company of Boston at 46 1/4 cents pound for mature hair and 56 1/4 cents pound for kid hair, according to reports.

E. G. Wentworth, representing Murfitt and Co., was the buyer. This is said to be the highest price so far paid for any fall accumulation in Texas. Horner's accumulation at Uvalde amounting to between 450,000 and 500,000 pounds remains unsold.

**\$92,160 RANCH SALE
IN SUTTON COUNTY**

What is known as the Glasscock ranch, comprising 5,760 acres, was purchased this week by Thomas Epsy from the Joe Wyatt estate. Mr. Epsy paid \$16 per acre or \$92,160 for the ranch. He will take possession of his new place in about 30 days.

Mr. Epsy sold his eight-section ranch to Ed Mayfield for \$14 per acre. He will move his livestock from this ranch to the Glasscock place in about thirty days.—Rocksprings Record.

BUILDING MATERIAL

When in need of any kind of building material, such as lumber, cement, lime, tile, etc., call or see Dan St. Clair.

Dismantling of several plant in California and building several in Texas during 1928 put Texas first in number of oil refineries in the United States.

The WILD CAT Saddle Jacket illustrated at left is our idea of the finest saddle length jacket that can be made regardless of price. Every jacket is cut full and roomy. Cuffs are shaped and full length. Patented flexible buttons are rustproof and will not pull out. The large reinforced pockets, cuffs and collar are corduroy, trimmed.
Well made throughout and built to stand the gaff of the roughest kind of out-door wear.
A pair of finely tailored pants to match, completes a brush-proof riding outfit for the man who gives work clothes the supreme test. WILD CATS retain their weight and true color in spite of frequent rubbing.
Sold and Fully Guaranteed by
Schreiner-Hodges Company

FAME OF SARGON NOW SPREADS OVER NATION

When Sargon was first given to the world, well known authorities predicted it would become one of the great outstanding health-giving remedies of the age...

According to the statements of people everywhere who have actually put it to the test, it is restoring literally hundreds of thousands of weak, rundown, half-sick, discouraged men and women...

One big New York firm, with wholesale houses in leading cities, have sold and distributed 908,184 bottles in the past eight months...

Kansas City wholesale and retail firms have sold and distributed over 300,000 bottles within twelve months...

Texas dealers required nine carloads the first four months. In the Northwest, the Twin Cities of Minneapolis and St. Paul have been selling at the rate of over \$100,000 per year...

Back of Sargon's triumph in the drug stores is Sargon's triumph in the homes. When a suffering man or woman finds a medicine that helps them, they invariably tell their friends about it...

No matter where you go—North, East, South or West—Sargon is bringing health to thousands, and many foreign countries are now clamoring for it.

J. A. Heyman, agent.

Physicians and Publicity

Dr. Joe Dildy of Brownwood, president of the Texas Medical Association, declared recently that the time has come for physicians to change their attitude towards publicity...

It may be conceded that professional men should not advertise in the manner that merchants and manufacturers do. It may also be conceded that publicity for the medical profession should be used with restraint and dignity...

A 12- LB. TON

Chicago.—There was a picnic here of Five Hundred Tons. One Ton weighed only twelve pounds, but this was explained when it became known that June Millicent Ton is only five week old!

A thousand years scarce serve to form a state; An hour may lay it in the dust.—Byron.

11,500 HEAD OF LAMBS SHIPPED IN CROCKET CO.

The annual hegrira of Crocket county lambs is on. Lanes leading to the shipping pens at Barnhart are clogged with the fleecy flocks daily as the 1929 lamb crop is moved to market.

Five producers with a total of 11,500 head loaded out of Barnhart during the week. Of this number 6,286 represented the first shipment of a total of 25,000 head of Crocket County lambs contracted by the National Producers' Cooperative Association of Chicago early in the year.

MAN FEIGNS DEATH, FOOLS GRIZZLY BEAR

C. Hughes of Vancouver, engineer in charge of the Consolidated Mining and Smelting Co., at Octsa Lake district, is lying in the Burns Lake hospital suffering from a severe mauling from a grizzly bear.

He has lost one finger, one side of his face is badly chewed and he is bruised on the back of his legs.

He owes his life to having feigned death. The grizzly picked him up, threw him down, then left him for dead.

MAN IS WORTH 98 CENTS

Man contains fat enough for seven bars of soap; sulphur enough to rid a dog of fleas; iron enough for a medium size nail; magnesium enough for a dose of magnesia; sugar enough to make a third of a pound of candy; lime enough to whiten a chicken coop...

Father—Necessity, my dear boy, is the mother of invention. Dear boy—Oh, I see, but who was the father?

Father—Why he was—er, oh, yes, he is Pat Pending.—Boston Benepot.

PIMPLES DISAPPEAR

BOERNE RANCHER, 75 DRIVES AUTOMOBILE ON 6,000-MILE TRIP

Years and distance mean nothing to Capt. F. J. Dodge of the Dodge ranch at Boerne, who registered at the A. A. A. Touring Bureau Saturday after completing a 6,000-mile trip by automobile in the Northern States and Canada.

Despite his 75 years, Capt. Dodge stated that he drove every foot of the journey, which included a stop-over at the old family home in Waverly, Ohio, and a family reunion in New Concord.

The captain looked hale and hearty despite his advanced years and long trip, and soon will resume the work of compiling a history of the Old Southwest.—S. A. Express.

HE WAS STILL O. K.

As an illustration of the man who lacks the cooperation, consciousness, interest in the other fellow, etc., this story now and always takes the cake.

Two colored brothers met on the street. "Mose," said one, "Ah done heard about all the bad luck you been having, an' Ah suttinly am sorry for you."

"Boy, what you'all talking about?" said the other. "Ah ain't ha no bad luck."

"You ain't?" asked the other, incredulously. "Didn't yore pappy git hit wid a train an' die?"

"Oh, yassuh," said the other. "Pappy's gone."

"And yore sister Mary, didn't she die of the numonie?"

"Uh huh. Mar's gone."

"An' yore brothe' Joe, didn't he git stabbed an' die in de hospital?"

"Yeh, brothe's under the soil."

"Well," said the other wonderingly, "doan you call them things bad luck?"

"Yes suh," said the other. "It sho is bad luck. But its their bad luck; it ain't mah bad luck. Ah's all right."

TRAIL DRIVER'S REUNION

The reunion of the Old Trail Drivers will be held at San Antonio October 17, 18 and 19 this year. Several of the old trail drivers living in this section of the country are preparing to attend the meeting this year.

Let's pave Junction streets.

CONCHO COUNTY SHEEP BREEDERS HAVE MEET

Breeders of registered sheep in Concho County had a meeting in Eden yesterday for the purpose of promoting the raising of improved herds, and the general improvement of the sheep industry in the county.

The sheep industry in Concho County has grown rapidly in the last few years. In 1921 there were only 67 sheep men in the county, while today there are more than 200 engaged in the industry.

On the rendered tax rolls in 1921 there were 30,000 sheep listed, while the 1928 figures showed 114,000.

Flies will disappear from a room if 20 drops of carbolic acid are evaporated from a hot shovel every day.

Good—and How!

You can just bet our bakery goods taste great. They're made of pure ingredients, baked to a turn by people skilled in their art.

Efficiency Class Gives Comedy Play

A good house was present last Friday evening to see the presentation of the 3-act comedy "Not Such A Fool As He Looks," presented in the high school auditorium by the Efficiency Class of the Methodist Church under the direction of Mrs. Forrest Weldon and Mrs. Alton Miller. The play was given for the benefit of the new Methodist Church building fund.

Every character did her part well and the readings between the acts by Mrs. Conde Hardeman and Mrs. A. W. Loeffler were well received. Both of these ladies are popular readers and they always render pleasing numbers.

The Chamber of Commerce Band, under the direction of Mr. I. W. Myers, added to the pleasure of the evening. Mesdames Ovie Buster and E. O. Lowgren were ushers. The cast of the play follows:

Mr. Murgatroyd, lawyer and moneylender—Mrs. S. A. McDonald

Felicia, his niece—Pairelee Lynn

Fred Grantley, a client—Mrs. Hayden Lawler

Sir Simon Simple, not such a fool as he looks—Virginia Strong

Mrs. Mould, washerwoman and provide for the family—Mrs. B. L. Smith

Mr. Mould, the worm who turns, Mrs. Frank Patterson

Mrs. Merton, a long lost mother, Mrs. L. E. Standifer

BAPTIST CHURCH NOTES

Friday, October 4, the W. M. U. will meet at 3:30. A devotional led by Mrs. G. W. Crabb, to be followed by our business meeting.

Next Sunday there will be preaching by the pastor at the 11 o'clock and 7:30 worship hours. After the morning service the monthly conference will be held.

Don't forget Sunday School at 10 a. m. each Sunday. Many changes have taken place, but a welcome is ready for everyone who cares to attend.

The primary department feels very sad over the loss of 6 scholars by removal and 12 by promotion.

Any children in the city between the ages of 4 and 9 who are not attending any other Sunday School are lovingly invited to meet with us. The teachers of this department are very appreciative of those who helped in any way last week with the promotion exercises, and take this opportunity of thanking them, and especially the ladies who made the church so beautiful for that occasion.

Many loving prayers are going up to the Heavenly Father for Mary Lee Graves, who we are very sorry to report still lies in a very critical condition. Reporter.

Fifth Sunday Meet Is Held In Bandera

The Fifth Sunday Meeting of the Baptist Church which was held in Bandera last Friday, Saturday and Sunday, was well attended according to the Rev. G. W. Crabb, who attended from Junction.

Rev. Crabb took part on the program and made an address concerning the Medina River Association.

The meeting closed Sunday afternoon with a big B. Y. P. U. Rally. Around 150 young people were present at the meeting.

U. S. MARINE BAND AT SAN ANTONIO

According to information received by Dr. Libburn Standifer, Deputy Potentate of Alzarfar Temple, San Antonio, the United States Marine Band will present a concert at San Antonio on October 27 under the auspices of the Alzarfar Temple of that city.

Dr. Standifer has a few tickets to the affair which will be sold to those desiring to attend the concert.

ROOSEVELT SCHOOL NEWS

Last Friday marked the end of the first month of school. This has been a very successful month and we hope to make them all this successful.

Lonie Williams has been sick for the past several days, but he is back in school Monday.

Our new song book that we had ordered for school purposes, came in on Sunday's mail and all the pupils felt like singing until the new wore off.

Reba Barfield was absent from school last Friday.

Beatine Camp was absent from school Friday.

The trustees and teachers had a monthly meeting at the school house Friday night for the purpose of making arrangements to order some new equipment for the school.

Mrs. Oscar Camp visited in the room of the higher grades Monday afternoon.

Ann Camp was absent from school Tuesday.

The pupils of the Roosevelt school met Friday afternoon, September 27, and organized a literary society to meet twice a month. Mr. Burleson Parker was elected president and Miss Dannie Thiers was elected secretary of the society. For program committee we appointed Dora Ann Camp, Ruby Lawler, and Edith Surber. We adjourned to meet again October 11.

The program committee has the program made out and posted and everyone is working on his part in order to make the first program a success.

SUNDAY SERVICES AT METHODIST CHURCH

"The Golden Hour"—A service of inspiration and interest to everyone will be held at 7:30 p. m. There will be a reading by Mrs. A. W. Loeffler, a solo by Mrs. Bryson, a fine song service, and a message of practical interest by the pastor. Don't miss this fine service.

Epworth holds its program and service at 6:45 and cordially invites all young people to attend and have a part in its varied program of activities.

Sunday School meets at 10 a. m. Mr. H. W. Bierschwalde, superintendent, will conduct the meeting. Let every member of the school be present.

Midweek service, 7:30 p. m. Wednesday. You need this service.

A cordial invitation is extended visitors to attend all the services of the church.

Our custom made suits are shipped to us; you must be satisfied before you pay. No C. O. D. Junction Tailor Shop. 25c

Efficiency Class Has Business Meet

The Efficiency Class held a business meeting at the church Monday afternoon, September 30, for an election of officers which were as follows: Mrs. Lily Nichols re-elected teacher; Mrs. Lester Hodges, president; Mrs. T. E. Sheppard, vice president; Mrs. H. H. Lawler, re-elected treasurer; Mrs. A. W. Loeffler, secretary; Mrs. Ovie Buster, reporter.

Regular business meetings are to be held the second Monday in each month at the church at 3 p. m. and the social meeting the third Thursday as before.

Mr. H. O. Denman made his first trip to San Antonio in his new airplane Tuesday afternoon. The trip was made in one hour and fifteen minutes.

Rich and poor alike are turning to Chiropractic as the best method of getting well. 25c

Girls Organize Glee Club Here

On Wednesday, September 25, Mrs. David Dutton and Mrs. C. W. McCarroll met all the high school girls who were interested in the Glee Club work. Thirty-two girls expressed the desire to organize a club and the following officers were elected: President, Vivian James; secretary, Temple Boone; treasurer, Ruby Davis; reporter, Kaleta Taylor.

Practice was started that afternoon and the girls hope to soon have a good program of songs ready for the public. Regular practice will be on each Wednesday.

Mr. Howard Stephenson and family, who for some time have been on the Fred Franks place near Roosevelt, moved to Junction Saturday to make their home. Mr. Stephenson has leased the Stephenson Tourist Camp in the eastern part of the city.

"For Men Must Fight and Women Must Weep" ... By Albert T. Reid

"DID MOTHER'S PRECIOUS HAVE A NICE GAME?"
"OH, IT WAS A PIP. I GOT THOSE TWO TEETH KNOCKED OUT"

TURKEY TALK

An excellent plan for fattening turkeys for November 28 next is to begin around the first of October to feed night and morning. Give just enough at first, so the birds are left a little hungry, and gradually increase the quantity until a week before killing time when they should be getting all they will eat three times a day. Some turkey raisers feed equal parts of wheat and oats during the first part of the fattening season, gradually changing to corn as the weather gets cooler. A grain ration of oats, wheat, and corn is probably the best. Old corn is much better than new, but it must be free from mustiness. Chestnuts, beechnuts, and acorns are also good fattening feeds. Confining free-range-reared turkeys during fattening has been tried, but with little success, as the birds lose their appetite and lose weight. However, turkeys that have been raised in semi-confinement may be fattened in confinement with good results.

PRIDE

Pride is sometimes condemned. Men have been known to have too much pride to do commonplace work. That is the wrong kind. But pride of the right sort is one of the most valuable adjuncts to character. There is something in some men of strength and courage that keeps them going forward against the hardest kind of conditions, with their heads up and their chests out. They are failing in business. They are failing somewhere else along the line. Things are breaking badly. But they conceal everything from even their best friends. They pretend that all is well when all is not well. Pride won't let them show the world their empty pocketbook, the failure of their plans, the failure of their home life, the failure of their children. They swallow disappointment. They carry on. That's pride of the right sort. A strong man has pride, and it keeps his head up when the waves are high.—San Angelo Times.

POLO HORSES

Four brood mares for sale. Probably best prospects in all this country. O. W. Cardwell, 23-3 Junction, Texas. Junction streets need paving.

SHIPPING CATTLE

Losses of cattle during shipment from "shipping fever" and other causes are particularly heavy in the fall and winter, says the U. S. Department of Agriculture, which gives the following recommendations for reducing losses in transit: Avoid hard driving and allow ample time for rest before loading. On arrival at pens, animals should have rest and some native grass or legume hay before watered. Crowding in cars should be avoided. In cold weather the cars should be well bedded. Feed, rest, and water should be supplied at regular intervals en route. "Springers," or cows soon to freshen, need particular attention. The common practice of withholding water from stock, so that later they will take a heavy fill, is harmful, often upsetting the digestive system so the animals are slow in resuming normal feeding and gain in weight. Unthrifty cattle are unprofitable to the owner who feeds them, and it is especially important for the producer of feeder cattle to see that his animals reach the market or feed lot in good condition.

"Here! I'll let you have the Union depot for 10," said the smooth city slicker to the hick from Podunk Center. "Say, mister, I'm not as simple as I look, but I'll take that Public square for five." "Sorry, but that costs 10 also. But, by the way, seeing as it's you, I'll let you in on something good. Here's the zoo, and you can have it cheap." "Sold, stranger!" And the hick from Podunk Center took the postal card from the hick and handed the clerk a penny.

The worst place to fall is at home. For life insurance statistics show that almost half of the tumbles that end fatally occur on domestic premises. A third of the fatal falls in the home were on stairs and every 10th one was out of a window.

For Expert car washing, polishing, and tire changing see the McDonald Service Station, northeast corner square. 20c

A COUPLE OF REASONS

She: "I bobbed my hair to show my independence."
He: "What did you bob your skirt for?"
—The New England Printer.

QUESTION TIME

Judge Pierce Butler, about to sail for Europe, said at a farewell dinner in New York: "The reformer has many a disappointment." "A prominent banker agreed one day to address the boys at a reformatory. He prepared his address with care, and those hundreds of erring lads listened to him with interest. The banker believed he had done them good." "Then came question time." "Are there any questions," he said, "that any boy would like to ask?" "A boy with red hair and very large ears stood up." "Mister," he said respectfully, "can you burn through them new style safe doors with an oxyacetylene torch?" — Boston News Bureau.

In wages alone (exclusive of salaries) the printing industry in Texas (including newspaper and job printing plants) in 1927 expended \$9,282,298.

TEN COMMANDMENTS OF MAIL ORDER HOUSES

- 1. You shall sell your farm produce for cash, for we buy nothing from you.
- 2. You shall believe in us, because we do not know you personally.
- 3. You shall send your money to us in advance, so we can buy the goods from the factory with your money; you may have to wait a few weeks, but that's our business method.
- 4. You shall get help from your nearest city or village to build good roads, so you may easily haul our goods from the depot, but do not ask help from us—we don't help to build good roads.
- 5. You may buy church bells and altar utensils from us, and send the money in advance—that's our rule.
- 6. You shall get all the help you can from the business men in your neighborhood, although we may have more profit from you than they have, it is against our rules to give to your churches.
- 7. You shall convert your neighbors also to your faith in us, for we have room for more money.
- 8. You shall look at the pretty pictures in our catalog as often as you can, so as to strengthen your desire for things you do not need, but which you may order with other goods to save freight. Send us all your ready cash so that you may not have any left to buy necessities from your home dealers.
- 9. You shall believe us rather than your business men, for we want your trade. We get to be millionaires on your support. Don't be bluff.
- 10. You shall call on the business people of your vicinity for help and credit if you meet with hard luck or sickness. It's your money we want. We don't know you unless your orders are accompanied by cash.—Prairie Lumberman.

CARD OF THANKS

We wish to express our thanks and appreciation to Messdames Forrest Weldon and J. A. Miller, the characters, the band boys and everyone who helped to make our play "Not Such A Fool As He Looks" a success.

The Efficiency Class of the Methodist Church.

Paved streets are better.

Nacogdoches has a storage battery factory that started this year with one man and now employs three regularly with orders ahead of deliveries. Texas towns are learning that from just such nuclei as this grow big industrial plants, and that not always is it wise or profitable to try to start out in a big way with a heavy capital investment. In the industrial sections of the United States many of the large factories of today were one and two-men establishments in the beginning—a good idea, backed by small capital and much energy and ambition to grow.

Rice growers and exporters of Texas and Louisiana have organized a big rice export association with headquarters at Lake Charles, La., and have filed declaration of purpose to export rice, rice products and rice by-products.

RICHEST CHURCH IN THE WORLD

It seems incredible that a church should own \$15,000,000 in realty and show an income of \$1,462,340, but such are the figures given in the annual report of the Corporation of Trinity Church, the famous Episcopal sanctuary, standing at the head of Wall Street, New York. The Trinity fortune is founded on whales and flossam and on land grants given 233 years ago, when there was no Wall Street, and Fifth Avenue was not even a footpath. But Manhattan Island was destined for wealth, and the church prospered as its land increased in value, and whales drifted ashore. The big fish comes no more, but the land is still there, and worth more every year. The principal source of income of the corporation, as read in *The Wall Street Journal*, is its real estate, which forms one of the largest realty holdings in New York City, and dates back to grants of the English Crown in the late seventeenth century. Of the \$1,462,340 income shown in the statement issued by the rector of the parish, Dr. Caleb R. Stetson, revenue-producing realty contributed \$1,334,370; interest brought in just under \$90,000, and the balance was from rent of steam power, electricity and water, and pew rents. The operating expenses of real estate aggregated \$523,358, of which \$208,637 for taxes and water rents, and \$209,925 for repairs, alterations and operating steam plants formed the bulk; sundry items of \$32,444 rounded out the expenditures, leaving the 1928 fund for gifts and pensions and the operation of the mother church and its seven affiliated churches at \$900,538. From this total, disbursements of \$449,078 were made, and \$250,156 reserved for corporation and parish building, resulting in a surplus for the year of \$71,691. According to the financial daily's summary: "The corporation lists its assets at \$16,923,956, of which close to 90 per cent represents the \$15,022,236 book value of productive real estate. Cash was the next largest item, standing at \$1,214,403, which was nearly double the \$638,496 held in productive and unproductive mortgages. The corporation could certainly show a fine working capital position, for its accounts payable stood at only \$20,406. The surplus account was carried at \$14,104,696, while other items listed among liabilities were mainly reserve items for building operations, repairs, depreciation, renewals, etc. "Not all of the corporation's property is included in the \$15,000,000 book value of realty. It does not include churches, chapels, schools and burying-grounds, Trinity Church and graveyard, occupying the equivalent of about two square blocks in the heart of the financial district, might easily command a market approaching, if not exceeding, the book value of all productive realty."—Literary Digest.

YELLOW AND BLACK TO BE COLORS FOR 1930 AUTO LICENSE PLATES

Texas will not follow the three major styles of color in automobile license plates adopted by most of the other 30 states which will change their license color combinations for the year 1930. Texas' motif for the next year will be blue on a yellow background, the change being from the current state style of yellow figures on a black background. The latter style predominates in all of the states this year, but will hardly be seen over the nation after January 1.

STOCKMAN ASSOCIATION TO MEET OCTOBER 3

Roy Hudspeth, president of the Sutton County Ranchmen's Association has called a meeting for that organization for Thursday, October 3, in the office of Judge L. W. Elliot. Citizens of Sutton County are also invited to be present. Mr. Hudspeth states: "The object of the meeting is to discuss matters pertaining to the association and to the livestock producers of this county.—Devil's River News.

"Well, I think I'll put the motion before the house," said the chorus girl as she danced out on the stage.—Texas Ranger.

State Law May Put Stop To All Rodeos

Rigid enforcement of the state law against prize fighting has raised a question of what is to be done with bulldogging and roping contests, that usually form a part of the fall fairs in Texas. The same article that prohibits a prize fight prohibits a contest between a man and a bull or any other animal. This knocks out bulldogging—one of the greatest events of rodeos. Roping of any animal is forbidden in another article of the same chapter of the criminal statutes. It provides a fine of from \$100 to \$500 for any person who participates in such a contest, either in competition with others or alone as a trial of skill "for money or prize of any character for anything of value, or upon the result of which any money or anything of value is bet or wagered." Just as the anti-prize fight law came into the light at Dallas recently when an attempt was made to stage the Kober-Trammel fight, so the anti-rodeo law is likely to attract attention in Dallas, for reports have it that a noted rodeo manager has been signed by the State Fair of Texas for the coming fall. By a queer turn of fate, State Ranger Captain Tom Hickman, who with sheriff Hal Hood stopped the Kober-Trammel fight, has been invited to act as judge at the rodeo here. Whether he will appear in the role of judge or rodeo stopper is a question that is causing much speculation. Hickman has been a rodeo judge in New York and abroad. He is one of the celebrated American rodeo performers that appeared at Wimbledon, England.—Rocksprings Record.

THE HON. BANANA

(Essay by Japanese schoolboy) The banana are a remarkable fruit. He was constructed in same architectural style as Hon. Sausage. Difference being skin of sausage are habitually consumed, while it are not advisable to eat rapping of banana. Perhaps are also intrinsically the following difference between the two subjects. Banana are held aloft while consuming; sausage usually left in reclining position. Banana are first green in culler, then gradual turn yellowish. Sausage start out with indefinite culler (resemble terrier cotta) and retain same hue indefinitely. Sausage depend for creation, etc., upon human being or stuffing machine, while banana are pristine product of Hon. Mother Nature. Both article resemble the other in that neither have pit or colonel of any kind. In case of sausage, both conclusions are attached to other sausages. Hon. Banana, on the other hand, are joined on the end to stem; other termination are entirely loose. And finally, banana are strictly members of vagitable kingdom, while affiliation of sausage are often undecided. "RECOMPENSE"

SCOTCHMEN ARE SUPPOSED TO BE TIGHT-FISTED

Scotchmen are generally supposed to be tight-fisted. And yet there was one old bonny Scot who got so tight he inadvertently paid for the drinks.

ROCKSPRINGS RECORD ENDORSES STEVENSON

Like the San Angelo Times, we think it more than right that a man from this section (guess we are in the San Angelo section) should be selected to represent us in congress. That honor has gone to the border section of the district for a number of years, and now that Hon. Claude B. Hudspeth has announced his intention of retiring at the expiration of his present term, we think it but right that we should cast about for a man who is a friend to the ranching interests of the state to represent the Sixteenth district.

A man can be found that will fill the bill without going into the border cities of the state; a man who has proven himself a friend to the ranchmen of Texas, as also a true and tried friend of the greatest friend west Texas ever had. A man peculiarly fitted for this position, a lawgiver in political circles, a lawyer, standing at the head of his profession, and a business man who has accumulated much by his works, and more by his keen insight into the business of ranching, and one who will always be found working to the interests of his constituency, as has Hon. Claude B. Hudspeth.

The gentleman we have in mind is Hon. Coke R. Stevenson of Junction.—Rocksprings Record.

HIS FATAL MISTAKE

This is the story of a prudent man, as told by a Kansas newspaper: He brushed his teeth twice a day, wore rubbers in wet weather, did his daily dozen, slept with the windows open, was careful with his diet, and had a medical examination twice a year, never smoked, drank or indulged in any kind of excesses. He was all set to live to be 100 years old. The funeral was held last Wednesday. He is survived by 18 specialists, four health institutes, six gymnasiums and numerous manufacturers of health foods and antiseptics. He had forgotten to look out for a train at a grade crossing.

Tourists eager to see Westminster abbey and go punting on the Thames left more money in England this summer than Great Britain's share in the German reparations payments for a whole year.

Jewish New Year Begins Tomorrow

Jewish New Year will be celebrated by the Jewish people commencing at sunset tomorrow, which will usher in New Year's eve and continuing through Sunday.

This celebration of the New Year, known in Hebrew as Rosh Hashanah, is one of the outstanding events on the Jewish calendar. "On this solemn day, Jewry over the world will start the year 5690 with prayers and meditation. The Jewish tradition is that this day marks the beginning of creation and later this day was marked with a more solemn meaning. Based upon scriptural passages, this day began the judgment day of the Jewish calendar, the day upon which God judges all the inhabitants of the earth."

PANAMA CANAL PAYS

It isn't so many years ago that certain pessimists would shake their heads when anyone mentioned the Panama Canal. "On, yes," they would say, "it's a big engineering achievement, and it's a military necessity—but it's costing like thunder, and it will never pay it's way. It will always be a drain on the government purse." You do not hear much of that kind of talk now. Last year, for instance, the Panama Canal set a new high record. It carried more tonnage than ever before, took in more money—\$27,172,000—and rolled up a neat profit for the year of \$18,000,000. Evidently that canal was an extremely good business venture.—Denison Herald.

A new hat is a woman's favorite intoxicant. Every one she takes goes right to her head.

COP FIRES TO STOP GUN, HITS BOTTLE WOUNDS SONGSTER

Chicago.—In Chicago it has sometimes been known as suicide to reach for the hip pocket, even for a handkerchief. Paul Heller, 22, with a bullet in his leg, was thinking about it Monday.

Heller was singing "Sweet Adoline" out Clark Street ways Sunday night and Police Albert Rickert had no ear for the tune. He told Heller to move on and shut up. Heller's hand went to his hip pocket. The officer had an idea that this was no idle gesture. He knew what sometimes is kept in hip pockets—guns. He decided to fire first, and he did. With a bullet in his leg, Heller dropped, and when he fell the bottle of liquor in his hip pocket was smashed. "Such gratitude," he said, sadly, "I was only going to offer you a drink."

REMARKABLE CORN

Windsor, N. C.—John T. Smith seems to have the corn-producing record for good as far as one stalk is concerned. The stalk was fourteen feet tall and contained eight ears of corn. The lower trunk measured two inches in diameter and one's fingers and thumb barely could meet around it.

We always admire the recklessness of the fellow who dares to order a meal in a swell restaurant without looking at the prices on the menu. Let's pave Junction streets.

DIRECTORS T. A. G. R. ASS'N TO HAVE MEET

A directors' meeting of the Texas Angora Goat Raisers' Association has been set for Friday, October 4, to meet in Brackettville at the office of the president, Dr. W. W. Nipper. All directors are urged to be present.

Wahl Bros. & Schraub

Junction Trade Notes

(By G. G. Co.)

William L. Turner of Brownwood has been named supervisor of 1930 census for a tier of Texas counties, which includes Kimble. . . . For the first time in its history the National Wool Growers' Association will hold its convention in Texas this year, in San Angelo November 20, 21, 22. The formation of a nationwide marketing organization under Federal provision will come up for consideration.

The Bend Pecan Association of San Saba County is reported to have contracted sale of 200,000 lbs. choice pecans to a Lometa buyer at 14c. . . . The season's first carload Texas grapefruit was rolled October 1 to northern market.

There is probably cheaper feed than "Economy" dairy feed, but none as good at the price. It is a balanced dairy feed. Gann Grocery Company.

Friends were glad to meet J. N. Maddux on the streets Tuesday. He is able to be up and around after a stroke which held him around the family fireside for several weeks.

There has been noticeable in Junction considerable junior velding since the local appearance of Jimmie Rodgers. Some pick a high note, many pick a low note and others a blue note.

F. M. Chase is an optimist, if not a new comer. Peering into the elements Monday, he predicted rain soon. . . . A vacationist, resting at Price's popular Llano camp, landed a 16-inch bass Tuesday. He doesn't care whether it rains or not. . . . George G. Murray, representing a San Antonio mortgage loan company, was a Junction visitor Wednesday.

For the table: Kay and Velveta cheese, Pimiento Cream Spread, spreads on bread like butter; Wright's French dressing and Taste-Spread; Del Monte sweet pickled peaches; Crosse & Blackwells and Heinz assorted delicacies. Gann Grocery Company.

Changing Corners: R. L. Rueckle and family will soon occupy the Alton Miller residence in town. Judge and Mrs. Randolph will occupy the suburban home to be vacated by the Rueckles, which they recently purchased. Mrs. Hardy Farmer expects to occupy her new home in West Junction before the week is out. Mrs. George Hamilton, from the ranch, will soon occupy her new home in Junction for the school year.

Junction's most forward step this year is the realization of a modern sewer system, installation of which is now under rapid way. And November 11 will be a notable field day in Junction when the 4H Clubs will take form. Other events of the day include a pecan demonstration by A. & M. expert and demonstration upon diseases of sheep by A. & M. specialist. In the afternoon, a football game on school campus.

October 8: O. S. T. Motorcade, enroute Florida to California, will spend the night in Junction.

Gann Grocery Company "Everybody's Store."

Missionary Society Members Attend Zone Meeting At Menard

Friday a number of the members of the Local Woman's Missionary Society of the Methodist Church attended a zone meeting of the Missionary Society in Menard. Representatives from Eldorado, Melvin, Junction, Christoval and Brady were present.

Mrs. G. H. House of Junction gave a talk on "Social Service, the practical expression of Jesus." Rev. Milton F. Hill led in devotional service.

At noon a delicious dinner was served. Those present from Junction were Mesdames W. M. Taylor, E. A. Bissett, Ada Dockery, G. H. House, Lily Nichols, Bookhaus, Joe Bissett, Sanford Boe, W. M. Alexander, W. O. Decker, Rudolf Becker and Rev. Milton F. Hill.

Society

LAF-A-LOT CLUB IS ENTERTAINED

Friday afternoon Mrs. Audrey Hill was hostess to the Laf-A-Lot club and a number of friends at the residence of Mrs. Sam Woodward. Mrs. John Blackburn, a recent bride, was the guest of honor.

The color scheme of pink and yellow was carried out in the decorations, tallies and party appointments.

Mrs. Clifford Hamer won the club prize, a pretty candy jar. An incense burner went to Mrs. S. A. McDonald, who made high score. The cut prize, a glass flower basket, was won by Mrs. Clay Secrest.

A delicious ice and white cake with yellow frosting were served to Mesdames L. E. Standifer, P. Joseph, Clay Secrest, H. G. Hubert, Stanton Bundy, Gordon Stewart, Henry Taylor, Omer Wright, U. D. Kendrick, Joe Fritz, Arthur Thompson, Jim Carpenter, E. Holekamp, L. D. Borden, Roy Spiller, Sam Woodward, Clifford Hamer, Felix Watson, A. L. Mudge, Joe Watson, Victor Hardeman, Frank Patterson, Irvin Jarvis, S. A. McDonald, J. M. Livingston, Earl Hill, H. E. Luehrs, Watt Turner, Ben Warren, Dorothy Westmoreland, Lucy Motley, John Blackburn, Vann Martin, Misses Mary Hubert, Mary and Flora Mae Spiller, Lela Taylor, Mary Phillips, Ruth Morriss, Inez Warren, Lena Cowser, Myrtle Davey, Kathleen Watson and Mary Ellis Blackburn.

BIRTHDAY PARTY

Mrs. Arthur Thompson complimented Mrs. Clifford Hamer and Mr. Arthur Thompson with a joint birthday party, Monday evening at the Fritz Hotel.

A profusion of cut flowers were placed in the lobby where bridge was enjoyed throughout the evening.

A birthday cake topped with pink candles was cut and served with coffee to Dr. and Mrs. L. E. Standifer, Mr. and Mrs. E. V. Emmons, Mr. and Mrs. Clifford Hamer and Mr. and Mrs. Arthur Thompson.

SURPRISE PARTY

Tuesday evening the ladies of the Missionary Society met at the Methodist church.

After the devotional service, the lesson from "Spiritual Adventure" was conducted by Mrs. Ada Dockery.

Following the program, a social hour was enjoyed, with Mrs. E. R. Boylen as honor guest and Mrs. B. B. Ragland as hostess.

A pretty pink birthday cake ornamented with birthday candles and containing amusing favors, was cut in honor of Mrs. Borden's birthday. Ice cream was served with the cake.

Mesdames B. B. Ragland, George Cavness, Backhaus, E. A. Bissett, H. H. Lawler, W. M. Taylor and Ada Dockery united in wishing Mrs. Borden "many happy returns of the day."

LADIES' AFTERNOON CARD CLUB MEETS

A pleasant occasion was enjoyed Wednesday afternoon when Mrs. Earl Hill was hostess to the members of the Ladies' Afternoon Card Club and a group of friends at the residence of Mrs. H. G. Hubert.

Colorful zinnias adorned the living room and provided an attractive background for the players.

After a series of bridge games the scores were added and the club prize, an embroidered card table cover, was presented to Mrs. Sam Woodward. Hand-made guest towels went to Mesdames John Martin for cut prize, and P. Joseph, who made high guest score.

The color motif of lavender and blue was carried out in the tallies, decorations and in the refreshments of brick ice cream and cake with lavender icing.

Those enjoying Mrs. Hill's hospitality were Mesdames John Martin, P. Joseph, Sam Woodward, Felix Watson, H. W. Taylor, A. L. Mudge, Ridenhower, Hugh Rieck, H. G. Hubert, Clay Secrest, Aubrey Hill, J. M. Livingston, James Prentiss, Alton Miller, Lester Phillips, Frank Patterson, Misses Davey and Kathleen Watson.

Mrs. Clarence Self and Miss Nell Doran visited the eight mile school house Wednesday.

Mesdames Avery Mayes and Clarence Self and Bill and Nell Doran visited Asa Murr Wednesday afternoon. Messrs. Clarence Self and Avery Mayes are shearing sheep for Mr. Murr.

Choose your Christmas Cards NOW! It is not too early to buy. You can take time to select the very ones that express your individuality as to both design and wording. 25c Mrs. Dorothy Westmoreland.

Cars oiled and greased right. Powell Motor Co. The Rev. G. W. Crabb attended the Fifth Sunday Meeting in Bandera last week.

DELEGATES ATTEND

(Continued from page 1) road from Roswell, New Mexico, by way of San Angelo and terminating at the port of Corpus Christi, and be it

FURTHER RESOLVED—That we render any reasonable and necessary assistance in our County to aid the project to our fullest extent.

To the foregoing Resolution we hereby affix our name in good faith this 28th day of September, 1929, at a Joint Meeting held at Sabinal, Texas.

WEATHER REPORT

The weather man continues to send beautiful weather. It is cool and pleasant at nights, but the temperature rises during the day. It is unusually fine weather to finish gathering the short cotton crop and pecans are maturing rapidly. Some of the pecan growers are getting ready to begin harvesting the favorite nuts. Sheep, goats and cattle are looking fine, but the ranges need a rain.

CONCRETE TILE BLOCKS POPULAR IN JUNCTION

The new rent house of Luther McDonald's, which is being built by Bissett & Baker, is practically completed, according to Mr. F. S. Bissett.

The concrete building tile, manufactured by the Bissett & Baker Co., were used in the construction of the house.

Since Bissett & Baker started the operation of their tile plant last spring, they have furnished the material for fourteen new buildings, among them, buildings like the Highland Chevrolet Company.

According to Mr. Bissett, the company will begin construction soon on a new home for Mr. Albert Bartley.

You will be proud of your car when it has been washed and greased at the Powell Motor Co.
