

THE JUNCTION EAGLE

Volume 44

Junction, Kimble County, Texas, Thursday, April 12, 1923

Number 52

COPPERAS MAINTENANCE TAX CARRIED 4 TO 1

The local maintenance tax in the Copperas district was raised from 25 cents on the \$100 taxable valuation to 75 cents on the \$100 taxable valuation, which will enable this district to hold a full term of school and provide funds necessary for proper instruction of their student body, at an election held April 7th.

This community has long needed the facilities which this added tax will effect, and we are glad to see them move forward in the improvement of their school.

NEED MORE ACRES PLANTED TO FEED CROPS

The ranchmen of Kimble County need to plant more acres to feed crops. This rain and snow will produce excellent pasture, but the progressive rancher does not depend on grass alone to winter his livestock. He will plant, besides small grain, many acres of forage crops, which he stores away for winter feed.

The sweet sorghums and milos are well adapted to this section of the state. Alfalfa especially, when irrigated, produces well. It is also a very excellent feed, both dry and green.

The ranchman who plants several acres more to feed than he thinks he needs for the coming winter is doing a wise thing. It is far better to have a surplus of many tons of feed than to be short a ton or two. Be prepared for the worst by planting more acres to forage crops.

EASTER CANTATA

Sunday evening an Easter cantata, "The Dawn of the Kingdom," was presented at the Methodist church, which, in spite of the inclement weather, was well filled. The cantata was rendered by a combined choir of voices from the several churches in town, with Mrs. Milton F. Hill as director. Mrs. Hill is a capable leader and hopes to organize a community choir, which will be an asset to Junction.

The cantata was well rendered and proved an inspiration to those present. Mrs. H. O. Patterson read the cantata story in an able manner.

The invocation was pronounced by Rev. Sterling Fisher, of San Angelo, presiding elder of the San Angelo district.

Rev. Louis Boatman of Georgetown, representative of Southwestern University, gave an interesting talk in behalf of his college.

This is the first time that a musical program of such an ambitious nature has been attempted by local talent. Those taking part deserve commendation for the splendid effort put forth to provide such a musical treat for the Easter tide.

EGG HUNT

Mrs. H. O. Patterson complimented her expression class of younger pupils with an Easter egg hunt at her home Saturday afternoon. After a series of interesting games the egg hunt took place, which caused much merriment. Fay Wahl found the most eggs and was presented with a pretty Easter basket filled with candy eggs and an Easter rabbit. Mabel Hodges found the least number of eggs and was consoling with a tiny Easter egg.

Ice cream cones topped with candy rabbits and chickens were served at the close of the afternoon to about fifteen small guests.

THE METHODIST CHURCH

Sunday School, 10 a. m.
Morning worship, 11 a. m., the pastor preaching.
Hi-League, 2 p. m.
Junior League, 3 p. m.
Evening song and preaching service, 8 p. m.
Prayer meeting, Wednesday evening at 8.
You are cordially invited to all the services of the church.
Milton F. Hill, Pastor.

ROOSEVELT IS TO HAVE NEW SCHOOL

At an election, held in the Roosevelt school district Saturday, April 7th, a bond issue of \$5,000 prevailed by a vote of 39 to 6 for the construction of a school building in the town of Roosevelt.

We are very glad to note this progressive move on the part of that district and to know that before another school term the school children will be housed in a building adequate to properly care for all their needs.

It will be recalled that Roosevelt under the able leadership of Professor L. E. Stockard, now deceased, was the first school district to receive equipment for domestic science training under the rural school aid law, and with the construction of this new building and the equipment that will necessarily be added, we predict one of the best rural schools in Southwest Texas for Roosevelt.

COUNTY INTERSCHOOL- TIC LEAGUE MEET

As a result of the County Meet held at Junction March 30 a number of Junction and London pupils will go to Kerrville to enter the District Interscholastic Meet. Practically every literary and athletic event will be represented by a contestant from this county. Also a few rural schools entered the contest and have representatives.

The following is a brief outline showing the first and second places: Tennis—singles and doubles, both boys and girls—Junction first; London second. Junior spelling—Segovia first; London second. Junior spelling—London first; Junction second. Sub. Junior spelling—Junction first; London second. Essay writing—Junction first; London second. Extemporaneous speaking—Junction first; London second. Declamation—Senior girls and boys—Junction first and second. Junior, girls, Junction first and second. Junior boys, London first and second.

Debate—boys, London first; Junction second. Girls, Junction first; London second.

Arithmetic—team, London 1st individual, Junction first.

Athletic events—Junior Play Ground ball—boys—Junction first; London second. Jr. 50 and 100 yard dash—Junction first; and second. Jr. relay race—Junction first; Junction second.

Jr. broad jump—Junction first. Jr. high jump—Junction first. London second. Sr. broad jump—London first; Junction second.

Sr. high jump—Junction first. London second. Pole vault—London first; Junction second.

220 dash—London first; Junction second. 440 run—Junction first; London second. 880 dash—London first; Junction second.

1 mile run—London first; Junction second. 1 mile relay—Junction first; London second.

Javelin throw—Junction first and second.

Discus throw—London first; Junction second. Shot put—Junction first; London second.

All the first places should go to the district meet. In the literary events the first and second places should go. All the literary events take place on Friday and all athletic events take place on Saturday except tennis, which will begin on Friday. The contest will be held at Schreiner Institute. It is urged that many of the parents will accompany their children to Kerrville.

AT THE HOSPITAL

Mr. Pierce Hoggett, surgical, Junction.

Mrs. W. W. Parker, obstetrical, Johnson City.

Mr. N. H. Price, medical, Austin.

Mrs. Lucy A. Rees, medical, Junction.

Mr. B. L. Vereno, surgical, Catrina.

Mr. A. L. Trotter, medical, Junction.

Mrs. F. Cummins, obstetrical, London.

POLO ASSN MEETS IN JUNCTION APRIL 7, 1923

A meeting of the Polo Assn of Southwest Texas was held at the court house last Saturday afternoon, pursuant to a call of president Robbins of Camp Wood.

The teams represented were as follows: San Angelo, Capt. Lin Mertz; Camp Wood, Eddie Robbins and Powers; Menard, Nesbit and Luckenbach; Watson Divide, Earl Hill and son; Edwards Plateau, Cardwell and Cowsett; Junction, John Fleming; Copperas, Eddie Bode; Murr, Roland and Asa Murr; Crooked Hollow, Dutton Murr and Fish.

Much enthusiasm was evidenced throughout the meeting and the association bids fair to give our eastern people some real polo exhibitions this year.

The delegates were guests of the Kimble County Chamber of Commerce at a luncheon at the Fritz Saturday noon.

Polo is our best western game to promote interest in good sportsmanship among men, and interest in good horses.

MRS. HARDEMAN'S PROGRAM WELL RECEIVED

The auditorium of our local school building was filled to capacity Friday night of the past week for the program of plays presented by Mrs. Conde Harde-man's class of Speech Artists.

The Chamber of Commerce had opened the program with two selections of music and were well received.

The play, "My Lady Dreams," had a valuable lesson of life to many of our young ladies of today, who are inclined to sacrifice their natural and consequently happy sphere of living, for a career. The characters of the play were represented in a manner that reflects credit on the individuals and this school of Arts.

The Pantomime Burlesque, presented by Herbert Newman, Paulette Linn, Virginia Strong, Marvin Blackburn and M. C. Blackburn was an amusing little skit of the love affairs of two young men and the girl, with a determined mother as director of her daughter's modus operandi. The two Blackburn boys finally determined the matter satisfactorily to themselves and the audience.

The robbery of Mrs. Sims-Vane, by Miller, the Hawk, and Lucille, his accomplice, characterized by Miss Merrill, Miss Wilkinson and Mrs. Stevenson, was full of action from the outset, coming to a dramatic close with the arrest of the robbers, by the officers of the law. The robbers fell out over the loot with the result that Lucille shot her companion. At the report the gun several of the audience became very much more frightened than the victim.

The Music Revue was well rendered by Miss Blackburn and the youngsters assisting her. Especially did they show the result of their training, each number was heartily applauded by the large audience.

Miss Merrill, acting the part of the sick young man, experienced on her own initiative, a series of thrills, occasioned by inviting his ex-wife, his married boy friend and wife over, for a visit to the hospital. The nurse had to assume charge of the situation, and request the visitor away in an effort to restore her patient to a normal condition.

We feel the entire audience joins with us in expressing our appreciation of the creditable manner in which these playlets were rendered.

BAPTIST NEWS

Sunday School at 10 a. m. Preaching at 11 a. m. and 8 p. m.

B. P. U. at 7 p. m. W. M. U. will meet Tuesday at 3:00 p. m. at the church.

Mrs. Hugh Wilson will be in charge of the program. Mr. and Mrs. Brown King left Monday for their home in San Angelo after visiting Mr. and Mrs. John Hankins here.

160 MILES OF ROAD CONTRACTS TO BE LET

Advertisements are being placed and contracts will be let April 24 for asphalt toppings of approximately 160 miles of highways in six counties, Maintenance Engineer Leo Ehlinger announced Monday. These contracts will supplement a large list let at the last meeting of the commission April 2 and 3.

Work under these contracts will be as follows: Kerr and Kimble counties, 39 miles of Highway No. 27 from Junction southeast to Mountain Home.

Schleicher and Sutton counties, 30 miles of Highway 27 from Sonoma east draw of Llano River, seven miles west of Kimble County line, and 17 1/2 miles of Highway 30 from Sonoma to a point south of Schleicher to the end of the present paving.

Coleman County, 18 miles of Highway 7 from Brown-Coleman County line northwest thru Santa Anna to a point two miles northwest of Coleman. Also 43 miles of Highway 23 from Runnels-Coleman County line north through Coleman to the Callahan-Coleman County line.

Taylor County, 11 1/2 miles of Highway 7 from Tuscola southwest to Coleman-Taylor County line.

EGGS AND ORPHANS

(By Hal F. Buckner in the Baptist Standard.)

We have an abundance of orphan children; but the egg supply is exhausted! For three years the good women of Texas have, during the month of April, sent to Buckner Orphans Home a year's supply of eggs. They have sent them during April because they are more abundant then than at any other time of the year, and because they are cheaper than at any time during the year.

A brief article in the Standard is all that has been necessary to get the women to gather the eggs up and ship them in. The women have delighted to do this for us, and have been delighted to know that we have a cold storage plant where eggs can be kept with almost no loss by spoiling. During the last three years the expense connected with the running of the Home has been less and less, until the per capita cost of caring for the children has been reduced approximately 10 per cent. Eggs given by the women are responsible for a large part of the saving that has been effected.

With gratitude and praise for all the good women have done and believing that they will do it again in the name of the Savior who loved and blessed children, and for the sake of the children themselves, we are making this another appeal.

We are confident the many friends in Kimble County interested in Buckner Orphans' Home will count it a privilege to make Saturday, April 14, a glorious Egg Shower Day in answer to the above letter of Dr. Hal Buckner. His loving appeal on behalf of these motherless children, we know will meet with a generous response. Kindly leave the eggs at the home of Mrs. D. L. Williams, Junction, (president of the Baptist W. M. U.) on April 14 if possible, and during the early days of next week. Should anyone have eggs to donate, and no way of transport, if word is given to the president their gift will gladly be called for by one of the Egg Shower committee.

EPISCOPAL CHURCH

Rev. J. S. Budlong of San Antonio will hold services at the Episcopal Church Sunday, April 15, at 11 o'clock; holy communion and sermon. Evening service at 7:30. Everybody invited and urged to attend both services.

The marble of Brewster and Presidio counties is said to be of surpassing beauty but there is little production because of their distance from railroads.

NOXVILLE NOTES

Easter brought us a mixture of rain, hail and sleet and wound up with a four-inch snow. We were thankful for the moisture. Mr. Ollie Cobb presented his family with a brand new Chevrolet last week.

Mr. and Mrs. Dee Taylor and children are visiting Mrs. Taylor's parents, Mr. and Mrs. J. A. Milam, this week.

We are glad to report Mr. W. O. Brown is at home again after having spent several weeks in the Secor Hospital at Kerrville.

Several sheep buyers have been in our neighborhood this week.

Elder J. B. Holmes of Fort Worth, state superintendent of Texas missions for the Christian Church, will begin a revival meeting at Noxville on July 8. He will probably be assisted by Elder J. J. Ray of Mason. All are cordially invited to attend and assist in this meeting. Both ministers are eloquent speakers, scholarly gentlemen and consecrated Christians. You will enjoy these services.

Dee Whetstone and family of Harper visited relatives on James river the first of the week.

Mr. and Mrs. Ollie Cobb and son and daughter, Robert and Edna, were guests of Mr. and Mrs. Fred Whetstone one day last week.

J. P. Taylor and daughter, Edna B., and son, Roland, were guests at the Coffey ranch for the week-end.

Miss Alma Whetstone of San Antonio is visiting her parents, Mr. and Mrs. Lon Whetstone, on the ranch this week.

We are sorry to report that George Parker is in the Secor Hospital at Kerrville and will undergo an operation this morning. We are all hoping that he will recover speedily and be able to return home soon.

Olga Cobb surprised many friends last week by announcing his marriage to Miss Aletha Cavitt of Driftwood. We do not know the bride but we do know that Olga's choice is bound to be a charming girl. Olga was reared in our community and was always a favorite with the younger set. He is a young man of splendid character, possessed of thrift and integrity which combine to make him one of the outstanding young men of his community. The young couple will make their home near Driftwood where Olga has been ranching for several years. We wish them all happiness through their wedded life. They arrived at Noxville Sunday for a visit with homefolks.

Col. J. W. Coffey returned from a visit to his son, Charlie, at Dripping Springs last week. Ed Cowsett and daughters, Misses Anna Lee and Jessie, were Kerrville visitors Saturday.

Fred Whetstone is able to be about again after having been very sick for ten days.

Jim Hull was shopping in Kerrville Friday.

Mrs. Willie Collins and father, C. A. Stapp, were Junction visitors last Wednesday.

Edwin Brown and family were Kerrville visitors Saturday.

Lon Whetstone is convalescing after a week's sickness.

W. B. Blond and wife visited relatives on James River Sunday.

William Parker has just completed a new well on his ranch and erected a wind mill thereon.

Elder Barr, presiding elder of the Methodist church will hold quarterly conference at Noxville on the third Saturday and Sunday of this month.

Dillard Stapp has drilled a new well preparatory to erecting a wind mill.

William Parker sold 500 mutton sheep at \$5.50 per head, to Mr. Schroeder of Mason.

Lon Parker sold 250 mutton sheep to the same party at \$5.50 per head, and Paul Jones sold 400 mutton sheep to the same party at the same price.

All of the above mentioned sheep had just been sheared.

Mr. Alton Powell spent the week-end in Waco.

KIMBLE AND ADJOINING SECTIONS GET GOOD RAIN

The Easter spell which greeted us in the early afternoon of Saturday of last week, brought a long needed rain to this entire section of Texas and is worth many thousand dollars to the stock men. More than an inch of rain has fallen to the date of this writing with prospects for more.

Along with the rain, at intervals, there has been some sleet and snow, which melted quickly due to the rising temperature.

So far we have heard of no serious loss in livestock. As the weather gradually became cooler preceding the cold snap, which has accompanied the rain, we feel that most ranchmen have their stock protected.

Junction presented a strange view Monday morning, with the landscape covered with a coat of snow. So far as our knowledge goes, this is the first time in twenty-five years that we have had snow at this season.

Another innovation for this country, was a flock of thirty or forty majestic white swans, that have temporarily taken up their abode at the dam and are occasioning a great deal of comment from the passers by.

LONDON LOCALS

Mr. and Mrs. R. T. Amberson now own a new closed in Chevrolet car and have their daughter, Mrs. W. T. Chandler, as driver. Their first trip was to Junction last Wednesday. Mrs. Tom Amberson was assistant driver. Haven't heard how many posts they knocked down.

R. F. Cannon and wife and J. A. McCollum and wife visited Junction last week.

Tate Jarvis and Dick Wooten were transacting business in our town on the 3rd.

Mr. John B. Winn and Miss Norma DeSpain, two prominent young people of our community, were happily united in marriage March 29. The many friends of this young couple unite in wishing for them a truly happy voyage.

Mrs. Dee Gibbs and her daughter-in-law, Mrs. Leonard Gibbs, were visiting relatives in our community last Wednesday.

Mr. Marley Fussell, the son of Dr. and Mrs. Fussell of London is now on board U. S. S. Lexington and is well satisfied. The Lexington has recently passed through the Panama Canal and Marley says it is wonderful. He says he is well pleased with the Navy.

The entertainment given by Mrs. Ellis Brown and her pupils Thursday night was well attended and all who attended report a real entertainment.

Mr. Reuben Lange of Yates is home for a few days. Reuben is attending business college at San Antonio.

The recent rain and snow was fine on farm and range, but severe on stock. We hear of many dead goats.

The rough weather prevented the preaching service at the Baptist church Saturday night and Sunday.

Mr. and Mrs. C. F. Bannowsky took their son to San Antonio for an operation last week. The last news we had was that he was doing nicely.

Mr. F. Cummins brought his wife home from the Junction hospital Sunday. We are informed that Mrs. Cummins is doing fine.

Remember if we do not send in all the news it is because we do not get it. You can assist if you will, by handing in items.

It is hard to reconcile the facts, as shown by the many financial statements we see, that prove our country to be very prosperous, and on the other hand from 1,500,000 to 4,000,000 men out of employment. There is no true prosperity when men want to work and can't find jobs. And there are too many idle men now to make the claim that they do not want to work.

I am glad there is no excuse for an idle man in Kimble County. A disposition to avoid labor (honest) is their only excuse.

This Week

By Arthur Brisbane

The bursting of a dam, part of Los Angeles' water supply in San Francisco Canyon, cost hundreds of lives. Reasons are given for the dam giving away, but no adequate excuse. "Water, seeping into the earth at each end of the dam, weakened the hold of the great concrete wall." It should be someone's business to learn why the dam was built that way—and what danger there is at other dams. Why fragments of broken concrete crumbled in the fingers.

Compared with familiar disasters, by flood, California's accident is fortunately mild. There was the big flood that drowned all but Noah's family. The rainbow guarantees against a repetition of that wholesale calamity, but small floods have wrought havoc.

Five hundred years ago in Holland 100,000 were drowned, and at Kaifong, China, nearly three hundred years ago, 300,000 lost their lives; 200,000 were drowned at Bengal, in India, fifty years ago. Many times in history eruptions of the sea, river floods and similar disasters have taken 100,000 lives and more at a time. This country can congratulate itself upon the fact that the Mississippi flood of last, destroying hundreds of millions in property, cost only two hundred lives. That was due to admirable work done by the army and navy, and to prompt scientific direction by Herbert Hoover, chosen by President Coolidge in the emergency.

The Census Bureau says United States population on July 1 next will be 120,013,000. At the end of this century, if births, deaths, immigration and health run along as at present, the population will be 260,000,000. If the larger per cent of that number know how to think it will be quite a nation.

In the last eight years population has increased 14,302,380. The annual arrival of babies exceed by one million the number of deaths. That is good news for the editor publishing an up-to-date paper, Bill Curley, formerly of Chicago, now of New York, used to say, "Every birth is a new reader for my paper, every death of an old man means a reader forever lost to the opposition." And it was true.

A gigantic "hook-up" of radio stations will enable 8,000,000 Americans to hear all that goes on in the Democratic and Republican conventions.

From the first announcement of Alabama's choice, to final howling when the winner is announced, everything will be heard. However, sad to relate, many of the 8,000,000 that might listen to the convention will not listen. They will tune in for jazz music, sad heart-rending songs, or daily dozens to keep thin. In this nation, where only half vote that might vote, there is little deep interest in politics.

Speaking of slush funds, bribes, etc., you should read the book written by Judge Kavanaugh, of Chicago, after thirty-

three years on the bench. Three hundred and fifty thousand individuals make their living, partly, by crime in our happy country, he says. Last year they contributed 12,000 murders to the nation's news items.

Public indifference is to blame, says the Judge. Each country gets as much crime as its indifference deserves. Judge Kavanaugh favors use of the whip because "No crime leader retains the respect of his gang after he has winced under the lash. The moron and racketeer fear the cat o' nine tails more than the police. One \$50,000 bribe builds steel yearly enough to build the Panama Canal."

They steal more than that. And public gambling at racetracks, another form of crime, legalized by grafting politicians, takes from the public each year enough to build the Panama Canal three times.

We have some millions of farmers that would like to run this country, partly, but they don't know how to go about it. No real organization for one thing. Next Fall they will get wonderful promises and they think it over four more years.

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS.
County—Grewing.
To the sheriff or any Constable of Kimble County:—
YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Kimble, State of Texas, and you shall cause said notice to be printed at least once each week for three consecutive weeks before the return day hereof.

NOTICE OF APPLICATION FOR PROBATE OF WILL.
THE STATE OF TEXAS.
To all persons interested in the Estate of O. B. Fleming, deceased, Ollie Fleming, Mack Huffman and John R. Martin have filed in the County Court of Kimble County on the 25th day of March, A. D. 1928, an application for the probate of the last Will and Testament of said O. B. Fleming, deceased, and for letters testamentary (the said Will accompanying said application), which will be heard and acted on at the next Term of said Court, commencing the first Monday in May, A. D. 1928, at the Court House thereof, in the City of Junction, Texas, at which time all persons interested in said Estate may appear and contest said application should they desire to do so.
HEREIN, PAUL NOT, but have you then and there before said Court this Writ, with

BRITISH LIKE AMERICAN CANDY

John Bull, his wife, and his children are the steadiest customers at Uncle Sam's candy counter, a counter so long that it reaches around the world and sells 14,546,677 pounds of candy abroad in a single year.

Nearly 4,800,000 of this amount—4,800,000 pounds—was purchased last year by British women and children of the British Isles, according to figures compiled by the United States Department of Commerce.

The active outdoor life led by most Englishmen and English women is cited as one reason for the demand for candy. Athletes and sportsmen who use up a great deal of physical energy are coming more and more to appreciate the value of sugar, which can be transformed into energy within half an hour after it is eaten. Ten-

nis players, swimmers, runners and walkers use candy in its various forms to furnish energy without bulk. Women abroad as well as home who want to keep their fingers slender are turning away from an inactive life on a starvation diet to athletics on a normal diet.

American gumdrops, according to the Department of Commerce report, are special favorites in the British market, and peppermint is the most popular candy flavor.

HINTS FOR THE HOME

(By Nancy Hart)

Welcome the new tinted damasks, all ye housekeepers! The lesser crinkles and spots that afflict the family table pass almost unnoticed on these charming colored cloths—and this means a great saving of labor, especially where there are little folks.

The pastel tints of the new linens bring a delightful tone of color into the dining room, where we appreciate cheerful appointments more than in any other room.

Picture a primrose yellow cloth, a pale sea green or amethyst cloth as a background for your flowered china. Tempting—isn't it?

Preserving Brooms and Toothbrushes

Soak a new broom in hot salt water. The bristles become stronger and wear longer. New toothbrushes soaked in hot salt water will last twice as long.

For Burns and Insect Bites

Use damp salt to kill the pain of burns, bee stings, insect bites, rash and hives. Moisten the affected part immediately after a burn or sting and cover with a thick paste of salt. This will remove the pain and soreness.

For Gardeners

A little salt added to the water in which they are kept will make cut flowers keep longer. Strong brine thrown around quince trees will cause them to grow and bear in a remarkable way. Salt strewn over asparagus beds, generously, will kill weeds and serve as fertilizer.

Obnoxious weeds may be killed by covering the stalks with salt. Salt sprinkled over the ground will keep down weeds. Snails and earth worms can be killed by sprinkling salt on the sidewalks and damp corners where they thrive.

How to Clean Silver at Once

Fill a big enameled ware kettle with water, adding to each quart 1 teaspoon salt and 1 of baking soda. Keep water boiling, placing in bottom of kettle a piece of new aluminum ware such as a pie tin or lid. Place silver in water so each piece touches the aluminum or another piece of silver in contact with it. Soak 5 minutes, remove silver to hot suds, wash off tarnish and dry.

Some men are too intellectual to be intelligent.

SOUTH LLANO NEWS

We were in the midst of a snow storm for two days, but the rain and snow has been very beneficial to the soil, although it has been hard on stock. Still so far the loss has been light.

There was quite an enjoyable dance at Evergreen last Friday night. A number of guests from Junction attended.

Mr. and Mrs. Will Emsley were guests at the F. M. Hodges home last Friday afternoon.

Robert Allsup was a visitor at F. M. Hodges Sunday.

home last Friday afternoon.

Robert Allsup was a visitor at F. M. Hodges Sunday.

Mrs. Matt Burt and children are spending the week-end with her parents, Mr. and Mrs. A. Allsup.

Mr. Burney and family and Mrs. P. Hagen visited at Kerrville and with relatives at Center Point Saturday and Sunday. They were accompanied by Miss Gussie Burris and Miss Hagen.

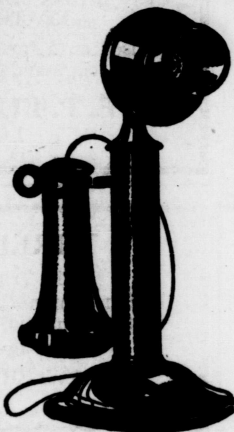

Dr. Huffman and Dick Boone were week-end visitors at the M. Huffman ranch at Center Point.

Heyman Drug Store

Sensational Success
—based on sensational value.

You need to know only a few of the exclusive superiorities offered by today's Pontiac Six to understand that its sensational success is based on sensational value. It is the lowest priced six in the world with body by Fisher. It is the lowest priced six offering the G-M-R cylinder head, the

cross-flow radiator and the AC fuel pump.

Add to these evident advantages in design the fact that it is the lowest priced six built by General Motors—and then you will know why Pontiac Six sales are continually reaching new record-breaking heights!

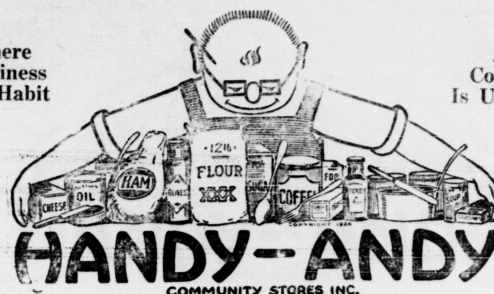

Coupe, \$745; Sport Roadster, \$745; Phaeton, \$775; Cabriolet, \$795; 4-Door Sedan, \$825; Sport Limousine, \$875; Oakland All-American Six, \$1045 to \$1265. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the liberal General Motors Time Payment Plan.

TEACUP MOUNTAIN

(By Emmett T. Hensley)

"Rather a queer looking mountain," I said to the Old Timer as we stopped our road on the road that leads from London to Junction. "There isn't a Legend about it, is there?"

"Not that I know of," the Old Timer replied. "But there's a lot of history that goes with it. The hottest Indian fight that ever happened in the state of Texas took place on that little hill."

"Really," I was somewhat surprised. "Strange I never heard anything about it."

"Course you never. Everyone that was in that fight is dead now—everyone but me. I seldom tell about it, for lots of people won't believe me. It happened when the first settlers came to this country. I mean the ones that came before the Civil War and was run out by the Indians. I was with the bunch, and I was among the ones that turned this country over to the Indians and left after the fight."

"Old Timer, I didn't think you were so old as that, but tell me about the fight."

There was no need to urge him further.

"Well, it happened in the year of '58—maybe it was '59, I never was good at remembering dates. Anyways, a bunch of us comes into this country with the intentions of making it our home. So, of course we scatters out, some settling on the river, others out on the flats, and still others back in the mountains. What we should have done was to settle close together and build a stockade, but we didn't. This was a fine country in them days, not that it isn't now, but there was deer, buffalo and everything that a man could desire—if it only hadn't been for the Indians. Apaches kept slipping in and stealing our horses. I argued that they would come after our scalp some day, and that we oughter build some kind of a fort for protection. At first the people didn't pay much attention to me, acted kinda like the people did when Noah suggested building the Ark. Then one day a bunch of Indians made a raid on a settler that lived down the river. After that it wasn't no trouble to get them to talk about building a fort. Talk, however, was about all they did at first. Everyone was as full of as many suggestions as there have been about relief for the farmer, or ways to keep the Mississippi where it belongs. Eventually we took a vote on the proper site to build the fort. Most of the settlers wanted to build it on the river, but there was one man, old Bill Abercrombie, who didn't. Bill was a hard hombre. He could cuss louder and shoot straighter than any feller I ever seen. When anyone crossed old Bill a funeral always followed. Yes, sir, ole Bill was a regular desperado. Well, Bill lobs that we wouldn't build the fort on the river. He walks in on the convention, pulls out his guns and suggests that we build the fort on the top of Teacup."

"Teacup mountain?" I asked. "Yes, sir, Teacup Mountain," the Old Timer insisted, seemingly a little irritated by my interruption.

"As I was sayin', old Bill pulls his guns, cusses a little and says that the fort would be built on the top of Teacup. He claims that what we needs to whip the Indians is elevation. This sounds kinda reasonable, for even if there was no water on Teacup, it had elevation without doubt. Bill, with his guns and argument on elevation, easily won out.

"We built the fort right on top of Teacup. Made wagon roads up there. Tunneled under the rocks; why it was a regular underground fort, like that Verdun you overseas 'vets' talk

about. Yes, sir, it certainly was impregnable—if we had jest had water. You know they say a chain is only as strong as its weakest link. That was the weak link in our defense—no water.

"We hadn't much more than got the fort completed, when a scout brings in news that there was a big bunch of Indians coming. We rounds up our stock and women folks and herded them into the safety of the underground fort. We hadn't no more than got ready when the Indians appears. They were all mounted. Talk about Indians! You have read that poem about Custer's last stand, haven't you? It tells about swarms and swarms of Indians attacking Custer. That bunch would have looked like a squad alongside a division, when compared to the mob that attacked us up there on the mountain. They jest comes ridin' up to the foot of the mountain like they was goin' to a birthday party. Then they dismounts and begins to crawl up toward the fort. As quick as they got within good range, we cut loose on them. Our muzzle-loaders roared, and after the smoke caused by the volley raised, we saw plenty Indians that had already started for the happy hunting grounds.

(To be continued next week)

CANTATA RENDERED

In spite of very inclement weather Sunday night, a large audience was present at the Methodist church to hear the musical service, "The Dawn of the Kingdom." The cantata was given by a choir from the churches of the town and was directed by Mrs. M. F. Hill. The solo numbers were given by Mrs. Guy Wynne, Mrs. Hill and Mr. Kittrell Durst. The scripture lessons were read by Mrs. H. O. Patterson, and the accompaniment and piano solos were taken by Mrs. A. W. Loeffer.

The cantata presented the Resurrection record in a beautiful musical setting, and its rendition evidenced real talent and careful preparation. The fine interest and close attention on the part of the audience was evidence of the appreciation felt for the service.

BORDEN ICE CO.

PREFERRED STOCK

In keeping with its announced policy the West Texas Utilities Company, a Texas corporation, will sell to its customers and friends shares of preferred stock. West Texans are familiar with the splendid growth and development which this company has experienced since its organization and know its dependable financial record.

Expanding and growing impressively since its beginning a few years ago, the West Texas Utilities Company has forged in to the forefront of public utility companies of the Southwest. It stands today as a leader in the public utility field in Texas.

In five years, from early in 1923, to the present time, the West Texas Utilities Company has increased the number of communities served from eight to 102, which have a population of more than 200,000; its electric customers have grown from a little more than 6,000 to 49,087. In addition, it serves 7,603 gas customers and 4,695 water patrons.

The soundness, strength and stability of the West Texas Utilities Company, bolstered by the continuous development and rich possibilities of the territory in which it operates, make this company's preferred stock one of the most attractive and safest of any securities ever offered for sale to West Texas investors.

This company is offering for sale \$6 cumulative preferred stock (no par value) at \$96 per share. These shares are fully paid and non-assessable; they are preferred as to assets and as to cumulative dividends of \$6 per share per year. Dividends are payable quarterly on the first days of January, April, July and October, each year.

Full information concerning this stock is available at any office of the West Texas Utilities Company. Any employee will be glad to explain in detail.

West Texas Utilities Company

Let Powell wash your car.
Mr. and Mrs. Robert Ruckel spent the week-end in New Branfels.

Mrs. A. L. Mudge returned from San Antonio, accompanied by Fred Mudge. Mrs. Mudge has been visiting her daughter, Mrs. Jack Molesworth, Jr., and little grandson, John Mudge Molesworth.

Lewis Jetton of Brady spent the first of the week with his mother, Mrs. L. H. Jetton.

Mr. P. W. Schwab, manager of the Houston branch of the Ford Motor Co., passed through Junction Saturday on his way to Houston after a trip through West Texas.

Mr. and Mrs. Jim Gentry and Mr. and Mrs. L. A. Taylor left Saturday for Glenrose where Mrs. Taylor will receive medical treatment.

Rev. Sterling Fisher, presiding elder of the San Angelo district of the West Texas conference of the Methodist church, was a week-end guest of Rev. and Mrs. Milton F. Hill and family. Sunday morning Rev. Fisher delivered a splendid sermon from the text, "Behold, I stand at the door and knock."

Mrs. Oren C. Reid and little son, Creighton, arrived Friday for a visit with Mr. and Mrs. W. H. Baker and family and Mrs. Reid's father, W. H. Shepard. They will return to their home in Brownwood this week.

Planting Seeds—Red top cane, Dwarf Maize, Hegira, Sudan, Derse. Pure seed direct from Plains. Gann Grocery Co.,

Have your car repaired by Powell Motor Co.

The educational meeting of the Woman's Missionary Society of the Methodist church will be held Tuesday afternoon, April 17, at the church.

Mr. and Mrs. J. A. McDonald and children spent Sunday in Center Point.

For quick wrecker service, call Powell's Garage.

Planting Seeds—Red top cane, Dwarf Maize, Hegira, Sudan, Derse. Pure seed direct from Plains. Gann Grocery Co.,

Wade Ogle and Wayne Waits returned Sunday from a trip to Abilene.

Misses Olive Chadwell and Thelma Byron of San Antonio were week-end guests of Mrs. Pearl Chadwell and Mr. and Mrs. Sam Woodward.

Mrs. Jimmy Taylor of Austin is visiting her aunts, Mrs. Sam Woodward and Mrs. Pearl Chadwell.

Mr. and Mrs. Joe Thompson, Mrs. Gertrude Showers and Mr. Claude Belden left for their home in Raymondville after a visit with Mr. and Mrs. George DeLano. Mrs. Thompson is a niece of Mrs. DeLano.

Mr. and Mrs. George H. DeLano left Wednesday for San Antonio where they will attend the meeting of the State Camp Owners Association.

DR. FRANK CRANE SAYS—

The Battle of the Bugs
In a pamphlet called *The Forest Primer*, issued by the American Tree Association, are some interesting statistics about one of man's greatest enemies. It appears that there are some two hundred thousand kinds of tree-attacking insects and that these little insects cause far greater losses to forests than do fires.

If unhindered these insects would destroy thousands of acres of valuable forests a year. In one section of Oregon these pests have destroyed enough trees to build eight thousand homes at \$10,000 each.

Birds are one of the best preventatives of insects. In a way they are our best friends. Some insects prey upon others, thus protecting the trees.

But man must be constantly vigilant. He must fight the pine beetles, borers, timber worms. Bark beetles attack the trees of the Adirondacks.

The larch is the victim of the saw-fly worm. The pine beetle is well at the top of the list of insect enemies.

In addition to these trees have diseases, although their powers of resistance to disease are greater than their resistance to insects.

Dr. L. O. Howard says that if man does not succeed in combating insects they will destroy man.

One of the greatest insect enemies is the termite or white ant. It penetrates the wood of floors, walls and foundations. Hence we must not only fight to save the lumber, but to save the buildings.

There must be no let-up in the fight against insects.

We must either pay out more money to protect the forests or pay ever-increasing prices for lumber, and in the end see the forests disappear.

Much has been done in forestry in the last five decades, but much remains to be done, and the care of the trees should be taught in every public school.

Who can fully describe the benefits of the tree? It is not only a thing of beauty that enhances the landscape, but it is useful. We get from it the material for our houses, for many of our utensils, and for many other useful things.

Charles Lathrop Pack, who has devoted his life to the trees, and spent much money at this work, deserves much credit.

Every town ought to have a municipal forest in its environment and ought to do something for the trees of the country.

UNIFORM TRAFFIC CODES NEEDED

Washington has estimated that in 1927 there were 26,618 persons killed in highway accidents, 798,700 persons seriously injured, and economic losses of \$672,097,000. This economic loss figure is exclusive of minor damage to motor vehicles.

The total killed is an increase of 1,316 over 1926.

The injuries and losses awaken one to the need of expansion of the nation's road-building program, and the necessity for the immediate adoption of uniform traffic codes.

Of course, it will be said, the human factor is the main element contributing to these accidents.

But that human factor could be offset to a large extent by adequate motoring facilities and regulation.

Added to that, the individual practice of courtesy and caution is important.

Of late the great menace has been the "hit and run" driver. There is no more obnoxious person than the one who will run on and escape detection after hitting a pedestrian.

William J. Fitzgerald, a member of the New Jersey Bar Association, has invented a device designed to put a stop to "hit and run" driving. It may be adopted by the state for use on automobiles. This invention will scatter fifty metal discs when an accident occurs. The metal discs will be scattered over an

area of twenty-five feet, and so it will be almost impossible for the "hit and run" driver to stop and collect them.

The discs will fall to the ground when a trigger is released, the trigger responding to the collision of the bumper with a moving body.

If this invention will work smoothly, it seems as though it ought to be pretty universally adopted.

THINGS WORTH KNOWING

Peace-Time Triumphs
Land clearing has been one of the greatest peacetime developments of the last ten years. Instead of dumping all of his surplus explosives into the sea as was advocated by some of his high officials, Uncle Sam promoted a great movement among farmers to blow the stumps and stones off their farms, and to dig drainage ditches with surplus war explosives.

In excess of a million acres of land cleared in a few years. The Government has finished this particular job, but private industry has taken up the undertaking where the Agricultural Department agents left off.

Aggritol is now being generally adopted for blasting stumps, boulders, and hard-pan, and for

loosening the ground where trees are to be planted.

Experts familiar with handling Aggritol and other explosives have removed tens of thousands of old tree stumps and boulders which have been eyesores in town and city property. It is the development of the land-clearing idea. Another cause of good for country, good for town!

The pick and the shovel and the laborer with bent back, due to useless physical slavery, have about passed out of the industrial horizon because their methods are too slow and expensive. Explosive experts nowadays prepare the ground for a front porch without danger of breaking the windows in front of which their operations are performed.

These same experts can take out a discarded bridge from across a stream in a day. They blast great channels for subways and traffic beneath our city streets. And it did not take them long to shoot their way through the great Continental Divide, and create the wonderful Moffat Tunnel.

I'll appreciate your business and you'll appreciate my service and the quality of my products

Millions of Model T Fords are still in active service

FOR nearly twenty years, the Model T Ford led the motor industry and it still is used by more people than any other automobile. More than eight million Model T Fords are in active service today—an indication of their sturdy worth, reliability and economy.

Because of the tremendous investment which people have in these cars and because so many of them will be driven for two, three, and even five more years, the Ford Motor Company will continue to make replacement parts until, as Henry Ford himself says, "the last Model T is off the road."

For the Ford Motor Company has always believed that its full duty consists not only in making a good automobile at a low price, but also in keeping it running efficiently for you as long as possible at a minimum of expense.

No matter where you live, therefore, you can still buy Model T Ford parts with the same assurance as formerly, knowing that they will give you the kind of service you have a right to expect, and at the same time protect the money you have invested in your car.

All Ford replacement parts, as you may know, are made of the same materials and in the same way as those from which your car was originally assembled, and are low in price because of the established Ford policy.

So that you may get the greatest use from your Model T Ford over the longest period of time, we suggest that you take the car to the nearest Ford dealer and have him estimate on the cost of any replacement parts which may be necessary. You may find that a very small expenditure will maintain the value of your car and will be the means of giving you thousands of miles of additional service.

ABOUT YOUR HEALTH

(By John Joseph Quinn, M. D.)
Hot-Weather Diet

A few days ago I had occasion to take a noon meal at a first-class restaurant which supplies a large trade. The mercury outdoors was reaching for the century-mark. The waitress dropped a menu-card in front of me which read:

OUR STANDARD FEATURES
Prime ribs of beef, au jus
Roast loin of pork, apple sauce
Porterhouse steak—cuts to order
Breaded veal cutlets, lima beans
Goose-liver sausage, onions
Frankfurters and kraut
Old Home Farm Sausage

A selection from that list, on a torrid day, and for a fat man with blood-pressure! There was one at a neighboring table, devouring one of those steaks served rare; he was calling to his aid a bottle of Worcestershire sauce, with which he literally forced his overworked stomach to swallow the insult! It is no wonder that apoplexy is still on our unquartered list. In hot weather we do not need heat-producing fuel in the body. We have calories enough without adding more.

A capable breakfast at this season may consist of a dish of cereal, butter, toast, an egg, two strips of crisp bacon—a half cup of black coffee if the day's task is strenuous—and an orange or half a cantaloupe.

The noon meal should be sustaining: brown bread, buttermilk, well-cooked garden vegetables, stewed fruits, a moderate slice of boiled ham, or a much more moderate one of cold roast beef. The meal will be complete with the addition of a piece of plain apple pie or custard. The fewer condiment, ice-cold temptations, and fancy sweets the better.

And the evening meal? Well—as nearly nothing as possible, if you would retain the health that I am assuming you have. This bit of advice is not for invalids, you know.

F. M. Chase

Land and Livestock Exchange. List your property with me

CHILDREN SHOULD KNOW—

Put it Over on Dad

Boys' and girls' clubs throughout the country are now starting out to make their triumphs in raising record-breaking crops. Late next fall the champions will be given free trips to Washington to see their National Capital, and to meet the President and other officials of the National Government.

The records attained in all these crop-growing, champion-

ship contests were due to the careful tilling of the soil, and liberal use of scientific fertilizers.

The seeds must be carefully selected or they will not grow successful crops.

The Agricultural Department at Washington has issued bulletins which tell how Semmes has been used as a seed treatment for corn, cotton, apples, potatoes, vegetables, cereals and grasses. Good seeds insure

good crops provided all the details of fertilizing, planting and cultivating are not neglected.

There are lots of ways by which girls and boys can get their fun and pleasure out of life. But it is doubtful if any class of our American youth has harvested a larger crop of genuine pleasure than the young boy or girl farmer who has seen the fruits of individual effort rise up out of the ground and grow and mature into substantial produce for human beings.

Thousands of these youngsters have been able to put it over on dad in the matter of successful farming.

USED CARS
"with an OK that counts"

Because we are delivering more new Chevrolets than at any other time in our history, we are offering a number of exceptional values in reconditioned used cars.

Our used cars carry an official O. K. tag which is reproduced on this page. Attached to a used car by a Chevrolet dealer it signifies that every vital part of the car has been inspected, properly reconditioned

and where worn, replaced by a new part. This plan enables anyone to select a used car with absolute confidence as to its satisfactory operation, and the price is absolutely fair and right.

Reasons why you should buy your used car from a Chevrolet dealer

- 1—Chevrolet dealers have been selected by the Chevrolet Motor Company on the basis of their financial responsibility and dependability.
- 2—Chevrolet dealers offer used cars on a plan originated and endorsed by the Chevrolet Motor Company.
- 3—Chevrolet dealers have the necessary modern tools and equipment to properly recondition used cars.
- 4—Chevrolet dealers desire the good will of used car buyers the same as they enjoy from new car buyers.

A few of our exceptional Used Car values
"with an OK that counts"

Chevrolet Roadster, 1926
in good mechanical condition
\$285.00

Ford Coupe, 1925, in good condition and worth the money
\$185.00

Ford Touring, 1925, can be bought for
\$100.00
Worth more

These cars are all in good condition and can be bought on liberal terms

NOTICE TO CONTRACTORS FOR STATE HIGHWAY MAINTENANCE

Sealed proposals addressed to the State Highway Engineer of Texas, covering the following maintenance work will be received at the office of the State Highway Engineer at Austin, Texas, until 10:00 a. m. Tuesday, April 24, 1928, and then publicly opened and read.

Kerr and Kimble Counties
382,515 square yards of one course asphalt surface treatment on 39.0 miles of Highway No. 27 from Junction in Kimble County Southeast to Mountain Home in Kerr County, 18 miles Northwest of Kerrville.

On the above jobs a surface treatment consists of 0.5 gallons of 250 penetration asphalt and 1 cubic yard of cover material to 40 square yards of surfacing in accordance with State Highway Department Standard Specifications, Item 59-A.

Separate bids are to be submitted for each job and the right is reserved to accept or reject any or all proposals or to waive all technicalities.

Specifications and proposals can be had from the office of the State Highway Department, Austin, Texas.

Proposals shall be submitted in sealed envelopes and marked "Bids for Maintenance Surface Treatment in Kimble County," enclosed in another envelope and mailed to Gibb Gilchrist, State Highway Engineer, Austin, Texas.

A certified, or cashier's check for not less than 5 per cent of each bid made payable without recourse to the order of the State Highway Commission of Texas, must accompany each proposal as a guarantee that the bidder, if successful, will enter into contract and make bond.

Planting Seeds—Red top cane, Dwarf Maize, Hegira, Sudan, Derse. Pure seed direct from Plains. **Gann Grocery Co.**

WANTED—Hear from owner Ranch for sale. State cash price, particulars. **D. F. Bush, Minneapolis, Minn. 49-4t**

SORGO BETTER ROUGHAGE THAN COTTONSEED HULLS

Range lands of northern and western Texas, are going under cultivation each year by thousands of acres. To provide a home market for roughages grown on Texas farms, and to preserve the fertilizer values of the crops, more and more Texas farmers are turning to the feeding of livestock.

This is the background of a series of feeding experiments carried on by the United States Department of Agriculture and the Texas Agricultural Experiment Station at Big Springs, Texas. The results are published in Technical Bulletin 43-T, "Sorgo Silage, Sorgo Fodder, and Cottonseed Hulls as Roughages in Rations for Fattening Calves in the Southwest," now available for distribution upon request to the Department of Agriculture, Washington, D. C.

Cottonseed hulls are a common roughage in Texas. In feeding experiments in three successive winters these were fed in comparison with sorgo silage and sorgo fodder. The concentrates in each experiment were milo heads and cottonseed meal.

In each of the three tests sorgo and silage and sorgo fodder proved to be more efficient than cottonseed hulls in fattening the calves used for testing the value of the roughages. The calves fed cottonseed hulls did not finish as well, did not make as large gains, and did not return as good a profit as those fed either sorgo silage or sorgo fodder. The difference between the net returns from the calves fed silage and those fed fodder, was slightly in favor of the silage.

Although nominally a technical bulletin, the 24-page pamphlet should prove of value to livestock feeders and farmers in the Southwest.

On Wednesday, April 4, at 11 p. m. Walter Winfred Parker, weight 9 pounds, was born to Mr. and Mrs. W. W. Parker of Johnson City, at the Standifer Hospital. Mrs. Parker was formerly Miss Madelle Jobs. The Eagle extends congratulations to the proud parents and, also, the happy grandmother, Mrs. Maggie Jobs.

It is estimated that during May and June about 60,003,659 girls will be told they are the "only girl in the world."

Planting Seeds—Red top cane, Dwarf Maize, Hegira, Sudan, Derse. Pure seed direct from Plains. **Gann Grocery Co.**

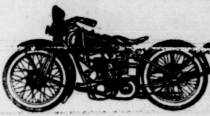

KNOW TEXAS

Texas has inexhaustible and widely distributed sand and gravel resources and the great increase in all kinds of construction work in the last six or eight years has brought about

great increase in production.

Hundreds of towns and cities were connected to gas pipe lines in Texas during 1927 and gas development was counted one of the greatest advancements of the state.

HARLEY-DAVIDSON on a MOTOR CYCLING

Gives you all the thrills of roller skating and then some. If you like sport and action, try the 1928 Harley Single. Speed up to 65 miles per hour, and 80 miles to the gallon of gas. You can make that long trip and have plenty of money when you return. From Junction to Cheyenne, Wyo., and return on \$12 worth of fuel was actually accomplished. For further information see

\$500 in 10 Minutes!

Dick Brewster had a deal on to sell his house. A buyer had sought him out—but—there was a hitch in the terms of final settlement. Dick was a smart man—but a bit inexperienced in such transactions. He thought over the proposition—finally decided he would have to sacrifice a bit of profit to close the deal.

Remembering our offer to advise customers whenever possible—Dick dropped in to ask our judgment of his action.

"You made just \$500 for me," said Dick 10 minutes later as he left the bank. We had made a very simple suggestion of ANOTHER way to finance his sale.

It was a small detail—for which we charged nothing.—Only a part of the same service we offer you—when you bank here.
