

Mediation of War Is Proposal of FDR

Can Get Along

"Mississippi doesn't need a lieutenant governor," said hearty, jovial J. B. Snider, holder of that office in that state, and thereupon he went fishing in the gulf, off Biloxi, where he is pictured above. He steers his sailing craft under trim rigging and leaves cares of state to others.

School Faculty Is 100 Per Cent in C of C Membership

Faculty members of the Midland public schools joined the chamber of commerce 100 per cent today, exactly sixty teachers signing the membership cards and making payment of dues. Other new members were enrolled by committeemen today as the drive which was started Thursday morning got well under way. It was expected that several hundred dollars will be added to the annual budget, making possible the projected 1938 expansion program.

Spanish City Fired By Air Raid From Insurgents Today

MADRID, Oct. 15 (AP)—A large section of Infesto, on Gijon's south-eastern front, was in flames today and Gijon was greatly damaged as the result of two insurgent air raids yesterday.

From Loriet, France, it was reported the governor of the Spanish province of Asturias was among a shipload of refugees arriving there today.

The governor's flight was interpreted as meaning Valencia forces had abandoned hope of saving the last territory of the republican government in northwest Spain.

Royalty Buildings Destroyed By Fire

Practically one-half of an entire block in the business section of Royalty was reported to have been destroyed by fire this morning before the combined fire departments of Monahans and Grand Falls could bring it under control.

At least five stores were burned to the ground and the postoffice was badly damaged by the flames. The flames were thought to have started about 1:30 and it was approximately two hours before the flames could be brought under control by the efforts of the fire departments and large numbers of volunteers.

Proprietors of stores in the stricken area moved their stock into the streets in the Holy Land today, the spreading flames but the move was unnecessary. An estimate of the damage had not been made today.

Martial Law Threat Made in Jerusalem

JERUSALEM, Oct. 15 (AP)—Guerilla bands of Arabs struck new terror in the Holy Land today, the British policemen being felled in an ambush on the Bethlehem road. Martial law has been threatened.

MINISTER TO BE HERE.

Rev. P. Walter Henckell of Big Spring, minister-in-charge of Trinity chapel Episcopal church, will be in Midland Sunday morning to conduct services at the 11 o'clock hour, parishioners announced today.

Bitter Fight Waged Today In Hongkew

Chinese Counter Thrust Started To Repel Japs

SHANGHAI, Oct. 15 (AP)—An intense battle raged today in Changhai and Hongkew sectors where Chinese are making a bitter counter-thrust to stave off an expected Japanese general attack.

Three Japanese civilians were killed when a shell struck the famous Astor hotel. Chinese awoke after a night of terror to count the damage done by six Chinese air raids over the area and intensive Japanese bombing of fringes of the International Settlement.

It was estimated 150 were killed and wounded.

Developments on other fronts:

1. Japanese and Chinese forces clashed in a battle near Pingkuan, 45 miles north of Tsinanfu, capital of Shantung province.
2. Chinese reported victories in Shansi province. The reports said the Chinese airforce took a prominent part in the fighting.
3. Japanese air raids continued in eastern provinces south of Shanghai. Japanese reported destruction of airdromes, railways and other military objectives. Chinese denied the reports.
4. Japanese asserted their planes bombarded points in Kwantung province, where Canton, China's southern metropolis, is situated. The planes were said to have sunk two Chinese gunboats and inflicted further damage on the Canton-Hankow railway.
5. Japanese reported the capture of Kweisuei, capital of the inner Mongolian province of Suiyuan.

R. L. Dupuy, Local Builder, Succumbs To Long Illness

R. L. Dupuy, 67, died this morning at his home at 405 North Colorado street, after an illness of more than two years. He had been confined to his sick bed for the past year. Funeral arrangements had not been announced, pending communication with relatives living at distant points.

Robert Lee Dupuy was born at Huntsville October 26, 1870. He has been a resident of Midland for thirty years and had a wide acquaintance in West Texas and New Mexico. He had made his home with his son, R. E. Dupuy, and family here. He was a member of the Masonic lodge and of the First Baptist church of Midland. Prior to his illness, he engaged in the building and cabinet business.

Survivors include two sons, R. E. Dupuy of Midland and E. J. Dupuy of Longview; two daughters, Mrs. Joe Good of Douglas, Ariz., and Mrs. H. G. Adams of Animas, N. M.; one sister, Mrs. Frank Fannin, Houston; two brothers, J. L. Dupuy of Houston and H. E. Dupuy of El Paso.

Mrs. Good, Mrs. Adams and Mrs. Fannin were here but other relatives had not been heard from. It was expected that funeral services would be held here Sunday, with burial at Fairview cemetery. The body is at Ellis funeral home.

Warmer Weather In Area Forecast

Rain clouds that had dropped almost an inch of rain in Midland during the past week gave slight indications today of disappearing as the wind shifted around to the southwest after having remained in the north for the past few days. A cold mist was falling early this morning but stopped and the mercury managed to climb a few degrees.

A minimum temperature of 50 degrees was registered last night and today at 11 a. m. the mercury stood at 56. The forecast for this area is warmer tonight and tomorrow. Probable rain is predicted for the Panhandle.

Many farmers expected to resume picking cotton tomorrow if no more rain fell today or tonight. Farmers and stockmen reported that a supply of surface water had been caught as heavy rains fell over this area. There is expected to be a slight damage to cotton but late feed benefitted materially by the precipitation.

Negro Electrocuted For Attack on Girl

TUCKER PRISON FARM, Ark., Oct. 15 (AP)—Jessie Amos, 35, negro, was electrocuted today for criminally assaulting a 14-year-old Texas white girl.

VISITOR HERE.

H. D. Bearden, former Midland high school teacher, now of Sweetwater, was a visitor here Tuesday.

Slain In Syria

The brilliant diplomatic career of J. Theodore Marriner, above, U. S. consul-general at Beirut, Syria, was ended in a shower of bullets fired at close range by an Armenian, disappointed in efforts to get a passport to go to the United States. Marriner, whose work at the Paris embassy as charge d'affaires had secured his reputation as one of the more promising young American diplomats, was 45 and unmarried.

"Peter or Patter," Singin' Son-of-a-Gun Calls Midland Home

Is there a cowboy-polo player from Midland named Pete Peterson, or was the yodeler on Major Bowes' amateur hour last night the well known Pete Patterson, brother of Night Officer E. B. Patterson? Radio listeners today were pondering that question after a Pete Peterson had been announced last night and entertained with cowboy songs, jigs and yodels.

Listeners said Pete took the hammer from the Major's hand as he started to sing, advising that he didn't want the gong to be struck before he got going. The singer said he was a cowboy and polo player from Midland, Texas, and is now employed on a dude ranch in New Jersey.

Curtailement of All Unnecessary Drilling Sought By Oil Men

HOUSTON, Oct. 15 (AP)—Curtailement of unnecessary drilling was approved by the Independent Petroleum association Thursday night after a heated floor discussion at the annual convention.

A committee on balance of supply with demand had recommended strongly that drilling be regulated "because of unnecessary drilling is resulting in an unprofitable condition in the industry." C. P. McGaha of Wichita Falls, chairman, submitted the committee report which said between \$85,000,000 and \$100,000,000 was wasted each year by the industry in useless drilling.

Previously the convention delegates had heard Charles R. Roesser of Fort Worth, president of the association, warn that dangerous legislation threatened the industry and Jesse H. Jones urged patience and cooperation between business and government.

An ever increasing number of wells, sharing in a relatively national anelastic market, had bumped production allowances to the minimum for each well, the committee reported. An active educational program on unnecessary drilling was recommended.

Oil pools in each state constitute a separate problem, the oil men agreed, but each state will be asked to promulgate regulations in conserving oil.

"The committee realizes if proper cooperation is had between the operators in each pool and the regulatory body, much unnecessary and unprofitable drilling can be eliminated," McGaha said. "Over a period of years this will save millions of dollars to the industry and enable the industry to continue its efforts to maintain low prices for its retail commodities."

Oil fields were exempted by the committee in its suggestion for prohibition in other states.

Former Ambassador To Italy Succumbs

NEW YORK, Oct. 15 (AP)—Robert Underwood Johnson, 85, author and former ambassador to Italy, died here last night. Funeral services will be held Sunday.

Mrs. D. L. DeHoume and Mrs. Floyd Hatfield will leave today for a week-end in Dallas.

Gibson Dies Of Wounds In Prison

Noted Desperado Succumbs Today In Huntsville

HUNTSVILLE, Oct. 15 (AP)—Forest Gibson, 28, Groesbeck, died in the penitentiary hospital here a midnight of wounds suffered October 3 in an attempted break from the Eastham prison farm.

His death was attributed to a wound inflicted by Guard J. M. Thomas and pneumonia complications. Thomas stopped the break with rifle fire, killing Austin Avers of Fort Worth and Roy Thornton of Dallas and wounding Clyde Thompson, Eastland, and Gibson.

Gibson had a long criminal record. One June 19, 1936, he led a Retrieve prison farm break in which Guard Felix Smith was killed. Gibson's partner, Luke Trammel, was electrocuted for his part in the break. Gibson received 60 years.

Crow Is Given 35 Years for Murder In District Court

Winifred Crow was assessed 35 years in the penitentiary by a district court jury here last night for his part in connection with the murder of Raymond Webb last June in an altercation in East Midland.

The jury remained out only two hours and one-half before finally reaching a decision on the assessment of the term.

Lilton Stringer, indicted jointly with Crow for the murder, is yet to be tried, having been granted a severance by District Judge Klapproth.

Civil cases are on the docket for the remainder of this week.

Centralized Plan Of Government Is Rapped By Thompson

AMARILLO, Texas, Oct. 15.—Dangers of centralized government were pointed out today to the convention of County Judges and Commissioners by Ernest O. Thompson, member of the Texas Railroad Commission. He urged that the counties retain control of governmental functions, delegating to State and Federal authorities only those powers which cannot be effectively enforced locally.

"The people you associate with every day elect you to office," Thompson pointed out. "You are officers who are mighty close to the grass roots of the government."

"State and Federal officials are likely to grow away from the people. They know what they read in the papers, or what is brought to them by men who know what that particular officials wants to hear, and they are not likely to bring anything else."

"Such an official loses contact with the people and is likely to think that he and the people are thinking just alike, that what he thinks is good for the people is, per se, the thing that is good for them," he continued.

Thompson pointed to his fight to See (THOMPSON) Page 6

Cubs to Meet at Old North Ward at 9 O'Clock Saturday

Cub scouts of Midland, as well as all boys aged 9, 10 or 11 years who are interested in the cub organization, are asked to meet Saturday at 9 a. m., at the old north ward school grounds, for further organization and for games and recreation.

Darrell F. Wilson, scout field executive, said there will be approximately 28 different contests held and all boys of those ages are asked to attend the meeting and become acquainted with cubbing.

A meeting of parents was held last night and much interest was shown in furthering the organization of younger boys here.

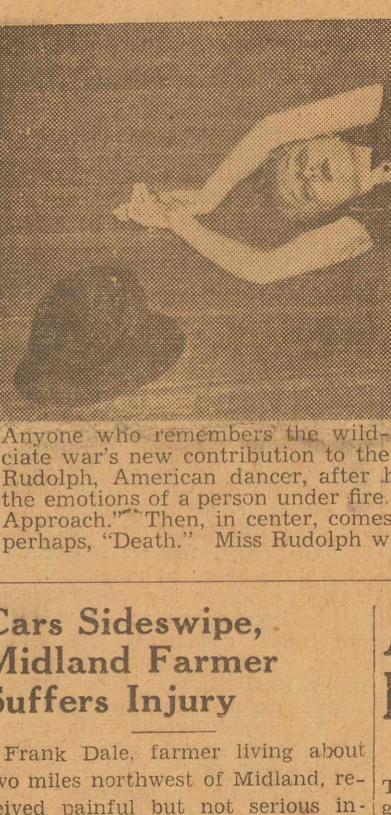

Jones Defends the Practice of Aid To U. S. Farmers

AUSTIN, Oct. 15 (AP)—Congressman Marvin Jones, Amarillo, chairman of the house agriculture committee, told the Texas house of representatives today that farmers are entitled to aid as long as the tariff system is maintained.

He said that Alexander Hamilton, father of the protective tariff, admitted such a system would be unfair unless farmers were given bounties to offset burdens imposed on them.

The house listened to the congressman after voting late last night, 65-49, to legalize the sale of liquor by drink.

"Shrapnel Swing"—The Esthetic Side of War

Anyone who remembers the wild-west six-shooting bullies who made their victims dance may appreciate war's new contribution to the arts—the "Shrapnel Swing," just in from China. Created by Terese Rudolph, American dancer, after her experience in the Shanghai warfare, "Shrapnel Swing" depicts the emotions of a person under fire. In the first episode, upper left, Miss Rudolph portrays "Warbirds Approach." Then, in center, comes "Fear," followed by "Stunned." The climax below is "Faint"—or, perhaps, "Death." Miss Rudolph was dancing at Shanghai's Cathay Hotel at the time of bombardment.

Cars Sideswipe, Midland Farmer Suffers Injury

Frank Dale, farmer living about two miles northwest of Midland, received painful but not serious injuries last night when the car in which he was riding collided with another just east of Stanton.

A passing motorist brought Dale to a hospital here and his condition was said satisfactory by a physician today. His injuries consisted of lacerations of the forehead and on his legs and a chest injury.

Dale reported the two cars sideswiped when the one driven by another man, said to be from Mississippi, attempted to dodge some furniture in the road that had fallen from a trailer. Two men were in the second car and were taken to Big Spring to a hospital. After treatment both were released.

Dale was returning from Big Spring, where he had been on business, at the time of the accident. His car overturned once and a half times after the collision.

Duke of Windsor Given Position

LOS ANGELES, Oct. 15 (AP)—The Duke of Windsor has signed up as a representative of a commercial firm and in that capacity will start a world tour shortly after Christmas, Cornelius Vanderbilt Jr., said Thursday.

"His work naturally will be of a propaganda nature and is in keeping with his plans for world peace," said Vanderbilt.

"Windsor holds to the theory that undernourishment and ill-housing conditions are the cause of most internal strife. 'Wherever you find nearly intolerable living conditions you will find internal strife,' he once said to me."

Vanderbilt attended the wedding of the former King Edward VIII of England and Mrs. Wallis Simpson in France some months ago and has been in touch with them since.

The Duke and Duchess are due here the latter part of November on their American tour.

"I cannot divulge the name of the firm Windsor has contracted to serve," said Vanderbilt, "but I can assure you it definitely has nothing to do with motion pictures."

BURNS TO DEATH.

KANSAS CITY, Oct. 15 (AP)—Charles Reinhardt, 65, was burned to death today in a fire which destroyed a general merchandise store.

AFL Sends New Proposal For Peace To The CIO

ATLANTIC CITY, Oct. 15 (AP)—The Committee of Industrial Organization proposed to the American Federation of Labor today committees from both to meet to consider further possibility of peace conferences.

The CIO, in conference here, advised the federation's convention at Denver of its decision in a telegram which suggested a preliminary meeting be held in Washington during the week of October 25.

DENVER, Oct. 15 (AP)—The American Federation of Labor sent a new peace proposal to the CIO Thursday in response to the offer.

DENVER, Oct. 15 (AP)—Geo. Harrison, chairman of the American Federation of Labor's peace committee, said today the Committee of Industrial Organization's latest peace proposal "looked like it had possibilities."

John L. Lewis sent here Tuesday. The federation's proposal was new in that the federation agreed to enlarge to a "reasonable" size the executive council's three-man standing peace committee.

Otherwise, it was no different from the offer the federation has stood by since it suspended ten leading CIO unions for "insurrection" more than a year ago.

It called for committees from the two camps to meet "without conditions or stipulations" to work out a settlement.

Lewis' offer stipulated that the A. F. of L. recognize the principle of the industrial form of labor organization for mass production industries.

It also proposed that each side send 100 men to the peace conference.

While a telegraph operator was tapping out the peace plan to the C. I. O. meeting in Atlantic City N. J., the A. F. of L. convention unanimously elected Green to his thirteen term as president.

It's accepting the post, Green adopted the most conciliatory tone he has used for weeks in discussing the C. I. O. issue.

"I hope and trust and pray we may become united," he said. "United we are invincible."

Green interpreted the C. I. O. peace bid as an indication that "even these to whom we have appealed in the past 12 months admit we are right—they are willing to meet us in some kind of a conference."

South Extension Well In Foster Pool Pumps 465 Barrels On Test

BY FRANK GARDNER.

Production of 465 barrels of oil on 24-hour pumping potential test was registered today by Mid-Continent Petroleum Corporation No. 1 Wanda Hinkle, Ector well which extended the Foster pool a mile south. Located 330 feet from the north and west lines of section 29, block 42, township 2 south, T. & P. survey, the No. 1 Hinkle reached a total depth of 4,319 feet in lime and was shot with 400 quarts from 4-1/8 to 4-3/8.

Rogers & Rogers No. 1-B TXL prospective one mile west extension of the Goldsmith pool in Ector, was shut in after it had headed off following shot. The well was shot with 180 quarts from 4,110 to 4,233. Its total depth is 4,289. Operators will acidize before completing. Location is 440 feet from the north and east lines of section 1, block 45, township 1 south, T. & P. survey.

Expected to remedy the problem of inadequate water supply for drilling wells in the Harper pool See (OIL NEWS) Page 6

of Ector is the 6-inch water line soon to be laid through the field. Harry Watson, former superintendent for Landreth Oil Corporation in West Texas, and York & Harpner, major operators in the pool, will construct the line. It will be approximately six miles in length, extending from water wells on the Elliott F. Cowden ranch westward to the field. Drilling of wells has already begun, and the line will be completed within the next 25 days. Mr. R. L. York said yesterday.

New Seminole Test.

Amerada Petroleum Corporation has announced location for its No. 1 Mrs. Sarah J. Averitt, a south edge test in the Seminole pool of central Gaines county. It was staked this morning 1,980 feet from the north and 660 feet from the east line of section 228, block G, W. T. R. R. survey. The well offsets to the south the W. T. Walsh and Harry Adams Corporation (formerly Amerada) No. 1-A Averitt, first oil well on the structure.

Continental Oil Company No. 2 See (OIL NEWS) Page 6

Nine-Power Group Will Meet Soon

United States Work On Situation Not Decided as Yet

HYDE PARK, Oct. 15 (AP)—President Roosevelt said in substance today that the attempt at mediation in the Sino-Japanese conflict would be the first step considered in the conference in Brussels of the nine-power treaty signatories, including the United States.

On the foreign situation, the president said it was sheer guess work as to what the United States was going to do in the future.

Asked what would follow if mediation efforts in the Sino-Japanese undeclared war failed, the president said that was an "it" question.

2 Midland Women Injured as Cars Collide Last Night

Two Midland women, Mrs. Marie Holden, proprietress of a beauty parlor, and Miss Edna Rucker, waitress, received serious injuries last night when the car in which they were riding collided with another about two miles this side of Odessa. Mrs. Holden received serious bruises and lacerations and Miss Rucker received a broken leg, bruises and lacerations.

The two women were reported to have been riding in a car with Mr. and Mrs. Ellis Holland, Elmer Turcott and Leonard Schroeder, all of Odessa, which collided with a car in which Mr. and Mrs. E. W. Meadows, Monahans, were riding.

The accident occurred at the intersection of the old and new highways two miles this side of Odessa. At the time the Meadows were enroute to Midland and the occupants of the other car were headed toward Odessa. The cars were said to have collided head-on, practically demolishing both.

Schroeder received a serious head injury. Turcott suffered a broken arm. Mrs. Holland a broken leg and Holland was uninjured.

Meadows escaped with slight bruises and lacerations and was dismissed after treatment. His wife was released today. She suffered only bruises and lacerations but they were more serious than those of her husband.

A car in which six negroes were riding reared the scene of the accident: soon after it occurred and in an effort to dodge the wrecked cars went into the ditch and collided with a telephone pole. At least four of them were treated for cuts inflicted when the windshield shattered over them.

Direct Action By France Considered In Embargo Fuss

LONDON, Oct. 15 (AP)—French foreign office officials said last night France is considering joint direct action with Great Britain if a non-intervention subcommittee fails to obtain withdrawal of Italian volunteers from Spanish insurgent armies.

France stood ready to protect her Mediterranean trade routes after agreeing to go along with Britain in giving the nine-power subcommittee a quick chance to obtain withdrawal of the troops. The committee is to meet here Saturday.

French sources were pessimistic on the outcome of the meeting. British spokesmen were only moderately hopeful.

Acting apart from the non-intervention group, British and French defense experts considered the vital issue of French and British Mediterranean seaways. The question was more vital to France because Spanish insurgent possession—with alleged Italian domination—of two Balearic islands and an Italian threat against a third put the fascist spectre squarely across the path from which French colonial reinforcements must come in time of national need.

It was stressed that French and British declarations to be read when the non-intervention group meets will insist the meeting be brief and to the point.

The two nations are expected to warn Italy if an agreement on withdrawal of foreign volunteers is not reached quickly, they will consider themselves no longer bound by non-intervention rules.

Prairie Lee School To Re-Open Monday

Prairie Lee school, closed for the past month to facilitate gathering of the cotton crop, will re-open Monday, Oct. 18, and will run continuously throughout the remainder of the 8-months' term. Principal A. M. Bryan announced today.

The school opened in late summer for a sixweeks schedule before closing for cotton picking.

HOME-MADE VOTE ISSUES

It seems to be taken for granted that as a result of the New York primary, the city's mayoralty election this fall will not be fought on the issue of the New Deal.

Senator Royal S. Copeland, who valiantly entered both the Republican and Democratic primaries, sought to make the New Deal the principal talking point of the campaign. Since he was defeated in both contests, and since both Mayor LaGuardia and Democratic Nominee Mahoney are pro-New Deal, this issue vanishes. And that—regardless of one's opinion of the New Deal—is an excellent thing.

No city election should ever hinge on a purely national issue. When citizens choose their mayor with his loyalty or opposition to the federal administration as the criterion, they are making a mockery of municipal government. Local issues, and local issues only, should be considered.

Family Mixes Dates, Holds Reunion Twice

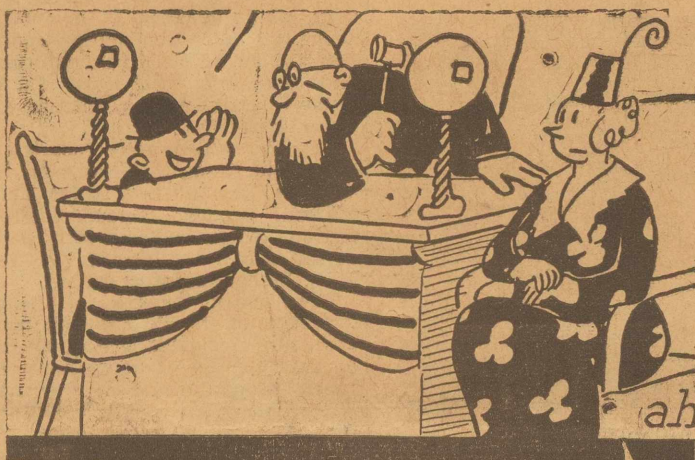

SUFFIELD, O. (U.P.)—Because of a misunderstanding in dates, the Otto family reunion was held meeting was held a week later.

twice.

War Censor Reveals French Blunder; 1914 Invasion Plan Known, Spurned

PARIS (U.P.)—The famous German Schlieffen Plan for the invasion of France only cost the Deuxieme Bureau (France's espionage and counter-espionage service) 60,000 pre-war francs. But the history of the episode, according to Paul Allard, French wartime censor, illustrates how blind the French general staff can be in face of a document of such capital importance.

Many years before the war a secret agent, Captain Lambing, received a letter signed with the pseudonym Vengeur containing a proposition from the author, who had just arrived from Germany, to sell detailed German military plans.

Lambing paid no attention to the letter. The bureau receives hundreds such communications. But Vengeur persisted in his letter writing and finally Lambing was ordered to see him. Three meetings took place in Paris, Brussels and Nice. Each time Vengeur appeared with his head almost completely enveloped in bandages. He handed Lambing convincing documents proving he was a high German officer attached to the German general staff. He told Lambing:

"I know I am committing an ignoble deed. But my chiefs have conducted themselves in a still more ignoble manner toward me. That is why I want to avenge myself."

As Allard remarks, this officer was taking terrible revenge, because he handed over the Schlieffen Plan which the Germans partly used in 1914.

But Allard thought: Alas! It was only a sword thrust in the water because, as you know, our mobilization Plan 17 took no account of the Schlieffen Plan.

The Deuxieme Bureau sent mission after mission to verify the plan in Germany. Strategic roads,

railway platforms, everything reported by the missions confirmed the plan. But doubts still persisted. . . . Suffering from acute suspicion the secret service and general staff still doubted until the Germans actually put the plan in action in 1914.

The suspicion is such in the Deuxieme Bureau that agents are set on the trail of trusted agents. Marthe Richard once told Allard:

"I received the Legion of Honor decoration. I could have just as easily ended my career before a firing squad at Vincennes" (where Mata Hari was shot).

The Deuxieme Bureau "gave away" Pierre Lenoir, its agent in Switzerland; Count Armand, who was dispatched by Aristide Briand to discuss a separate peace with Emperor Charles; it almost "got" its own chief, famous Major Laidoux, in a fever of suspicion.

The Deuxieme Bureau frequently has been taken in by "plants" and false documents—the Swiss affair, the false documents passed on by Karl Schuchardt to General Nollet. Colonel Laurent, chief of the Deuxieme Bureau, was duped in the Aero Postale affair by Lubersac and Colin, alias Lucco. French agents in Germany were responsible for the recent Moroccan "crisis" in which Germany was accused of leading troops in Spanish Morocco. According to Allard, if the newspaper campaign had not been stopped in time war might have resulted.

NRLB Object of Attack By AFL; Boycott Voted

DENVER, Oct. 14 (U.P.)—The American Federation of Labor decided Wednesday to ask congress to keep the national labor relations board out of the federation's fight with John L. Lewis' rebel C. I. O.

After hearing repeated charges that the board and its agents had favored the C. I. O. in the fight, the federation's annual convention voted to ask congress for two amendments to the Wagner Labor Disputes act.

The first would prevent the board from stepping into any dispute between unions. The second would compel the board to hold its elections by craft in plants where more than one craft was employed.

The delegates also voted to boycott Japanese manufactured goods and to keep a wary eye on any federal wage and hour legislation proposals.

John P. Frey, president of the federation's metal trades department, led off the speech-making on the labor board issue by demanding immediate removal of three of the board's regional directors—Mrs. Elmore Herrick of New York, Mrs. Alice Rosseter of San Francisco and A. Howard Myers of Boston.

He called them "incompetent" and said they had used their positions "in every way they could to build up the membership of the C. I. O. and to make it more and more difficult for the American Federation of Labor unions to secure even a hearing."

Chairman J. Warren Madden was the only member of the board's personnel for whom Frey had a good word.

"If we had more men of his character and his qualities in public life, our country would indeed be much more fortunate than it is," Frey said.

The convention voted unanimously to join the British organized labor movement in boycotting goods manufactured in Japan and

called upon A. F. of L. officers to seek the support of trade unions in other nations.

The Town Quack

Decision of the school board to order a bond election for the proposed \$75,000 gymnasium seems to me to be a sound act. In the first place, when it was planned to get a grant from the PWA along with construction of the elementary school and the gymnasium, the board waited as long as possible to start construction on the elementary school, hoping to get a definite allotment from the PWA in time. But when it didn't come through, the board wisely began construction of the building without PWA conditions, thereby completing the building in time for the first day of this school term.

Later, when the building was practically completed, the PWA grant came through, but it was too late to have it included with the north elementary job and the board had to start figuring all over with the PWA officials. The best proposition now is to vote bonds of \$40,000 to get a grant of \$35,000. Whether the public votes to do so or not, the board was eminently right in submitting the proposal to the property tax paying voters. Had the board rejected the proposition, on the grounds that no more bonds should be voted at present, many tax payers would have protested the action on account of the need of the gymnasium. As it is now, the bond election, set for November 6, puts the proposition squarely up to the voting tax payers. Midland has never lost a bond election. This one may lose, yet it will be the act of the people either way.

I, for one, believe we should

vote the bonds. If we don't take this PWA grant while it is available, we will be forced to build, in a few years, a gymnasium at the total cost to the school district. We are farther behind in physical education than in any other department of our schools. A boy must belong to the football, basketball or track team to get any exercise, except walking to and from school. A girl must do her exercise in the pep squad, while it lasts. We need gymnasium equipment, physical training for all the youngsters and a gym which can serve also for an auditorium, basketball court and other purposes.

B. T. Westerman, who read the recent article about the Big Bend, said those seven to twelve foot panthers were pretty long. The man who told about them said the panthers there grow pretty long tails, and the measurement was from nose to tail tip.

Cleveland Air Races Yield \$60,684 Profits

CLEVELAND (U.P.)—Profits for the 1937 National Air Races, recently closed, were reported here by John C. McHannan, director, as totaling \$60,684.

The four-day show brought a total attendance of 170,717, netting \$262,548 for ticket sales.

LIGHTING ...new style

BETTER SIGHT LAMPS WERE DESIGNED FOR SEEING

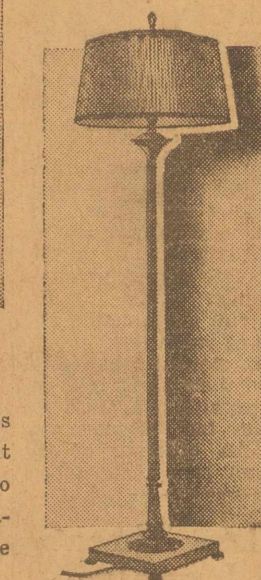

● All of the experience of lighting specialists and scientists interested in better vision was combined in designing this new type of lamp. The result was a lamp that is scientifically correct—and in addition, is attractive.

This lamp is the Better Sight Lamp, with the tag of approval from the Illuminating Engineering Society, which provides the right kind of glareless light for easy seeing.

● The glass diffusing bowl serves two purposes—it softens the light that is thrown downward on the reading surface, and reflects light to the ceiling and throughout the room to provide general illumination and reduce shadows.

Lounge lamps are placed by lounges or easy chairs to provide a good light for reading comfortably.

Tri-lite floor lamps provide a good light for reading, and also a general illumination throughout the room.

Home Art Club Hears Program On Needlecraft

Four members presented a program on "Needlecraft" under leadership of Mrs. B. W. Recer at the regular meeting of the Home Art club with Mrs. N. W. Bigham, 310 W. Louisiana, Thursday afternoon. They were Mrs. Guy Brennenman, Mrs. H. B. Dunagan, Mrs. John Drummond and Mrs. Recer.

Members held a short business meeting.

Party rooms were decorated in Halloween style and the holiday note was followed in the refreshment plate served at tea time.

Mrs. B. C. Girdley and Mrs. Engel were guests.

Club members present included: Mmes. Brennenman, Recer, Dunagan, Drummond, Julia Filson, M. D. Cox, Iris N. Bounds, Geo. L. Wright of Odessa, Ernest Neill.

Although the giant whistles of the Queen Mary, English liner, can be heard five miles away, they are pitched so low that they cause no distress to the ears of passengers.

HELP 15 MILES OF KIDNEY TUBES

To Flush out Acids and Other Poisonous Waste

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste. Frequent or empty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the beginning of nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Twelve-ite Club And Friends Favor Mrs. Thomas

Mrs. L. G. Mackey was hostess to the Twelve-ite club at her home, 1405 W. Illinois, Thursday afternoon at one o'clock. Red zinnias, dahlias, snapdragons, and red roses formed the house decorations and table centerpieces. The Spanish theme was carried out in the place cards and food.

Mrs. A. O. Thomas, who is moving to Amarillo, was presented with sterling salad forks as a parting gift from the club and friends. Mrs. Mackey's gift was a sterling butter knife to match.

A two-course luncheon was served to the following: Guests, Mmes. Andrew Fasken, R. E. Estes, R. C. Crabb, A. Knickerbocker, L. L. Payne, W. G. Whitehouse, H. C. Wheeler, and Miss Helen Fasken; club members, Mmes. J. D. Dillard, Hall Edwards, W. B. Harkrider, Sidney Iverson, W. P. Knight, Harry Prickett, A. O. Thomas, Frank F. Fulk, and the hostess.

Mexican Motif Employed for Ace High Party

Zinnias in orange and yellow tones and tallies and score pads in Mexican design formed colorful accessories for the bridge-luncheon with which Mrs. S. P. Hazlip entertained the Ace High club and guests at her home, 911 W. Wall, Thursday afternoon at one o'clock.

A two-course luncheon was served and later two tables of bridge were played.

High score was held by Mrs. W. G. Henderson and second high by Mrs. Jas. Maxwell.

Guests for the afternoon were Mrs. T. C. Younger and Mrs. T. N. Roberts.

Club members present were: Mmes. Henderson, P. A. Nelson, C. P. Lancaster, Maxwell, Wm. Holmes, and the hostess.

Sewing Club Plans Party For Halloween

Plans for a Halloween party were made by members of the Thursday Sewing club in a meeting with Mrs. W. G. Attaway, 404 W. Ohio, Thursday afternoon.

Sewing occupied the group until tea time when a refreshment plate was served.

Visitors included Mrs. I. J. Killingsworth and Mrs. Ann Evans of Odessa, and Mrs. Cordon.

Members attending were: Mmes. Frank Simpson, H. H. Nicholson, W. J. Stewart, W. L. Sutton, W. L. Fickett, D. E. Holster, J. A. Mead, Joe Roberson, Herbert King, C. O. Fredrell, E. L. Crites, H. R. Brazeale, C. E. Strawn, Pearl Parry, Paul Jackson, C. B. Fonder, and the hostess.

The club will meet next week with Mrs. W. J. Stewart.

Trim and Tailored Frock for Running Around Wear

BY CAROL DAY

THIS time of year when you want a dress to wear under your Fall coat and trim enough to wear without a coat or with a fur scarf, choose Pattern 8069. It is one of those simple dresses that are the backbone of your daytime wardrobe.

Well tailored, designed on trim, slim lines, it has braid trimming to give the bodice distinction. The shirtwaist collar and turned back cuffs suggest the simple, clean-cut lines of a man's shirt. You'll wear this dress happily all through the winter—and you'll make it in no time at all. Pattern includes a complete step-by-step sewing chart.

A smart fabric selection for this dress is gabardine, newly revived as a smart dress material—or tweed in brilliant plaids.

Pattern 8069 is designed for sizes 12, 14, 16, 18 and 20. Size 14 requires 2 1/2 yards of 54 inch material and 3 1/4 yards of braid to trim as pictured.

The new Fall and Winter Pattern Book is ready for you now. It has 32 pages of attractive designs for every size and every occasion. Photographs show dresses made from these patterns being worn; a feature you will enjoy. Let the charming designs in this new book help you in your sewing. One pattern and the new Fall and Winter Pattern Book—25 cents. Fall and Winter Book alone—15 cents.

For a PATTERN of this attractive model send 15c in Coin, your NAME, ADDRESS, STYLE NUMBER and SIZE to TODAY'S PATTERN SERVICE, 11 STERLING PLACE, BROOKLYN, N. Y.

Church Services

MEN'S CLASS
The Men's class meets every Sunday morning at 9:45 o'clock in the Crystal ballroom of the Hotel Scharbauer. It is a non-denominational class and every man who does not attend services elsewhere is cordially invited to attend.

The teachers are Marvin Ulmer and Judge Charles L. Klapproth. There is a singing service of fifteen minutes prior to the speaking.

NAOMI CLASS
The Naomi (inter-denominational) class for women will meet at 9:45 o'clock in the private dining room of the Hotel Scharbauer.

Mrs. J. Howard Hodge is the teacher.

9:45 a. m. Church school.
11:00 a. m. Divine worship. The worship theme will be: "The Purpose of Suffering."

Daffodils Find Many New Friends

Daffodils for Garden, Rockery and as House Plants.

The hardy narcissus naturalizes best of the larger fall bulbs. This means that it establishes itself as a permanent occupant of the border and comes each spring without being lifted and coddled.

The narcissi are classified by clans, in which the relationship is the same as in human clans. The Barri were developed from certain parents; they have a common ancestry and their name comes from the fancier who started the line, Peter Barr. The Leeds, Poetaz and Incomparabilis classes are similar clans.

The Poeticus and Leeds types are perhaps the most successfully naturalized. Under favorable conditions they will multiply if left undisturbed for several years. It is the best practice not to move narcissus bulbs of any type every year. Even in growing for commerce many growers leave the bulbs in the ground two years without lifting. But when they become crowded they should be lifted and given more room.

You'll be roaring to go—in the suit that we dry clean expertly. . . . Our SHEEN-GLO PROCESS makes last year's fall clothes look like new.

pose of Suffering." You need to hear this message since suffering is inevitable to humanity. You ought to be prepared to make the most of it.

7:00 p. m. Evening worship which has been designated as "The Peoples' Hour". In this service we deal with questions which people are really asking. The questions submitted for this evening's discussion are: "What Will Help Me to Again Believe in Prayer?" This question by one who has the familiar experience of being disappointed in prayer. And "How Can I Get Rid of My Doubts?" A question which most of us could have asked. An opportunity will be given for any to express himself on these questions in connection with the Minister's comments.

Everyone will receive a sincere welcome at "The Friendly Church" any time.

FIRST BAPTIST CHURCH
Rev. Winston F. Borum, Pastor
9:45 a. m. Sunday school.

3:30 p. m. Monday. Rinhart circle.
7:30 p. m. Tuesday—Church fellowship at the church.

7:30 p. m. Wednesday, Choir practice.

CHRISTIAN SCIENCE SERVICES
"Doctrine of Atonement" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 17.

The Golden Text is: "God is faithful, by whom ye were called unto fellowship of his Son Jesus Christ our Lord" (I Corinthians 1:9).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And all things are of God, who hath reconciled us to himself by Jesus Christ, and hath given to us the ministry of reconciliation" (II Corinthians 5:18).

The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Jesus aided in reconciling man to God by giving man a truer sense of Love, the divine Principle of Jesus' teachings, and this truer sense of Love redeems man from the law of matter, sin, and death by the law of the Spirit,—the law of divine Love" (page 19).

Lucky Thirteen Club Entertained At S. P. Hall Home

Employing an autumn motif in tones of brown and gold, Mrs. S. P. Hall, 1004 W. Tennessee, entertained Thursday evening in courtesy to members of the Lucky Thirteen club and their husbands.

Clusters of queen's wreath decorated the playing rooms where five tables were laid for games of progressive 42, with tallies and score pads in autumn design.

Mrs. Houston Sikes held high score for women and J. T. Walker high score for men in the games, with Mrs. J. T. Walker scoring low.

At the refreshment hour, the hostess served a party plate which repeated the chosen color scheme.

Mrs. Frank Williamson and Mrs. Julia Filson were guests.

Club members present were: Mmes. and Messrs. H. S. Collings, Houston Sikes, W. N. Cole, B. M. Hays, J. T. Walker, W. F. Hejl, J. C. Hudman, Ellis Conner, Mrs. L. F. Joplin, and the host and hostess.

Mrs. Frank Fulk left today for Fort Worth to attend the TCU-A&M football game Saturday.

GENTLEMEN WE GIVE YOU THE MOST MODERN CHASSIS IN THE WORLD

"Buick carries the banner forward"

Under the new beauty of Buick, modern engineering makes history, co-starring the DYNALASH ENGINE AND TORQUE. FREE SPRINGING

WHAT HAPPENS inside the 1938 Buick engine happens nowhere else in the world.

That is not advertising language, it is cold-steel engineering fact.

Speeding through the raceways of the intake manifold, the fuel mixture vapor hurricanes into the cylinders at speeds around 250 miles an hour.

As it sweeps past streamline valve contours, a scientifically designed Turbulator, built into the piston face, flings it into airswirls of terrific turbulence.

The spark that leaps through that compact storm-center sets off a flashing cyclone of power, exploding with tornadic force!

Sitting in the driver's seat you become aware of power that is livelier and more brilliant because gasoline is giving up more performance than it ever gave up to motorists before!

To MATCH this incomparable stride, Buick engineers now give you a kind of springing you will likewise find on no other car in the world.

Poised on jarless coils of easy-flexing steel, Buick floats free of bobble, jar, chatter, jounce.

The car will not over-steer or under-steer—skidding, even on icy highways, is blessedly reduced.

Rear tires no longer scuff half their life away through power-wasting wheel-slip.

Through winter and summer, without need of grease and without "seize" from rust, dirt, water or ice, springs keep their gentle, even cushioning for the life of the car.

Yes, it is a great story, the story of these twin engineering triumphs in the 1938 Buick.

So great a story that it obscures half a score of other advances, themselves enough to make any car a wonderful buy.

We invite you to learn more about them this week at any Buick showroom.

CRANE FAVORED TO DEFEAT BULLDOGS

MIDLAND ATTACK LOWERED AS JAY FRANCIS INJURED

Keeping up a role started early in the year, the Midland Bulldogs again tonight will be the underdog when they tie into the Crane Cranes on Lackey field at 8 o'clock.

Crane, like Midland, has suffered only one defeat this year and also has one tie to mar their record but past performances give them at least a two touchdown margin over the Bulldogs in "prediction row."

The battered Bulldogs, rocked back on their heels all year by injuries will take the field tonight minus their quarterback and the spark plug of the team, little Jay Francis. With him out of the fray their offense will be reduced to a minimum and scant hope is held of their scoring against the rugged Crane team.

Crane will place a veteran at every position tonight while the Bulldog coaches will be forced to rely upon newcomers at three positions in the backfield and three in the line.

The two lines should be fairly evenly matched but Crane will boast a lot of superiority in the backfield. The Cranes are declared to have two of the hardest running backs in the district, a pair that are likely to get loose for a score at any time.

Crane will be playing minus their coach, Arthur Niebuhr, Jr., who succumbed Sunday following an operation.

Paying tribute to his memory, the crowd will be asked to stand at silent for one minute immediately prior to the opening kickoff as the Midland high school band plays "Taps."

The Cranes will be attempting to get revenge for the defeat handed them last year by the Bulldogs and all indications point to a very satisfactory evening for them.

But the Bulldogs will be attempting to stay in the chase for the district championship award and won't give up without a struggle. With

The PAYOFF

BY JESS RODGERS.

Trying to guess how a few of them will come out:

Midland-Crane—The weather being what it is should help Midland more than it does Crane, but I am picking Crane to win 13-0.

Wink vs. Stanton—the Wink Jugernaut will win by just as large a score as Lacey Turner desires: Say 60-6.

Pecos vs. Kermit—Pecos should win by 25-0.

Monahans vs. McCamey—Monahans should be a couple of touchdowns better than the Badgers. Guessing 13-0.

Odessa vs. Snyder—Odessa by 20-0.

University Games.

Auburn vs. Miss. State. Mississippi is good enough for our money.

Brown vs. Dartmouth. Brown never has won this one and won't start now.

California vs. Pacific College. All PC has is Alonzo Staggs—not enough.

Catholic U. vs. Detroit. Detroit keeps traveling.

Carnegie Tech vs. Notre Dame.

one defeat already against them, the team knows it is out of the running if the Cranes win tonight and will undoubtedly be playing their best ball of the season during the game tonight.

Probable starting line-ups:

Crane		Midland
Chaffin	LE	Pace
Brunette	LT	Adams

No Prophet—All Loss

Goosy, Goosy, Gander!

When the Al G. Barnes and Sells Floto Combined Circus arrives in Midland Friday, Oct. 23, for an afternoon and night performance it brings, beneath its acres of tents, 60 famous laugh makers. Above is shown one of them with his assistant, Hank, The Goose. A personnel of 1,000 performers will be seen with the big show this season. Performances will start at 2 and 8 p. m.

prevent Federal control of the oil industry as an example of this condition.

"When I got to Washington there was a tendency on the part of a certain clique to smile at me, regard me as old-fashioned. They said the principle of state's rights was dead and that I was living in the past. They dealt in high flown

theories; I gathered they thought that the people should govern no longer, that they were to be governed. "Right there I made up my mind that it should always be my purpose to keep the government as close to the people as possible. The power must be kept close at home if we are to maintain our demo-

Oil News--

CONTINUED FROM PAGE ONE

Dr. E. H. Jones, northwestern Gaines wildcat about eight miles southwest of production in the Wasson pool, is reported to have topped the Yates sand 72 feet higher than the No. 1 Jones, a dry hole a mile and a half to the northwest. The No. 2 test logged the marker at 2,990, datum plus 642, as compared to the first well, which topped Yates at 3,080, datum plus 570. No. 2 Jones is drilling ahead below 3,247 feet in anhydrite, sand and red rock. It is 1,980 feet from the north, 660 feet from the east line of section 1, block A-8, public school land.

Flows of 107 and 90 barrels the first two hours, respectively, after second acid treatment were reported for Phillips and Carter No. 1-B Wasson, in the northwest Gaines pool. It has been re-treated with 5,000 gallons, but no test has yet been made. Total depth is 4,990 feet in lime.

To Acidize Walker Well.

In southwest Yoakum, Texas No. 1 Walker, discovery well three miles west of the Denver area, swabbed 51 barrels through casing during the past 24 hours and is now preparing to run tubing and acidize. Total depth is 5,162, plugged back from 5,180.

Yates was topped at 3,120, datum plus 575, by J. L. Greene No. 1 L. B. Nevels, interesting southwest Yoakum. On the marker it is running lower than the Texas No. 1 Walker, four miles to the south-east, whose Yates datum was variably called at 636, 647 and 666. The No. 1 Nevels is drilling below 3,170 feet in anhydrite and red rock.

Murchison & Fikes No. 1 C. A. Elliott, west offset to the Denver No. 1 Whittenburg discovery in southwest Yoakum is drilling below 4,465 feet in lime. It topped solid lime at 4,420, approximately 45 feet lower than the discovery, although it had run high to it on upper markers.

A mile and a quarter to the east, Denver No. 1-A Whittenburg is fishing for drillpipe at 2,988 feet. Top of Yates has not been determined, if encountered.

cratic form of government.

"If we keep that power close at home," Thompson continued, "the citizen can see how that power is used. They can see how the money is spent that they have paid in as taxes. If waste occurs it will not last long (the people will see it and the officials responsible will be thrown out.

"The further you remove the spending power from the tax payer, the less carefully is it spent. If that spending is left to you men of the county commissioners' court, you will use every care in seeing that it is properly handled.

"My stand for keeping the government close to the people has been constant and life-long. I have fought to keep the control of the oil business in the hands of the State, and I will always fight to keep the government control in the hands of the county commissioners and county courts as far as that is possible," Thompson concluded.

to see how the state's public service generating plant worked. The monkey touched a circuit carrying 2,300 volts of electricity—and fell dead.

Nemaha county, Neb., once had a dog for a deputy sheriff; he attended all trials at the courthouse and once captured a jail breaker.

The largest stop-watch in the world is used to time races at the Singapore Turf club. The starting gate sets the watch working and the first horse past the post crosses a beam of light which stops the watch and records the time.
