"\$30 more cotton per acre where I used TEMIK...and better quality cotton."

Wamon Foster of Hart, Texas, has to control thrip if he's going to make cotton. He tested TEMIK® 10G aldicarb pesticide to see if it would do the job.

His report: "It's more than just an insect control. The cotton seemed to grow so much better with TEMIK. We had a check plot without TEMIK that yielded 530 pounds of lint, compared to the TEMIK-treated which yielded 680 pounds. That's approximately \$30 more per acre, and the TEMIK was a better quality cotton, also."

Mr. Foster likes TEMIK's easy application, and feels TEMIK is the best pesticide he's found.

"Well, we've tried other things and they don't work nearly as well as TEMIK. I believe TEMIK will help us make more money."

STOP! All pesticides can be harmful to health and the environment if misused. Read the label carefully and use only as directed.

to the Editor

Dear Editor,

Concern about the tennis court of the Methodist Church is rising. It is evident that the generosity of the church has been taken for granted. Much abuse of the court and surrounding property is evident. Broken bottles often cover the court, motor cycle skid marks are all to numerous and windows of the church have been broken due to carelessness.

Because of these problems the church board feels that some changes are needed. Plans are pending to fence the court. Admission will be granted all who have enough responsibility to take care of the church's property.

Since the court is used by the entire community, we would appreciate any and all donations of money, labor or materials.

Please feel free to contact the Methodist preacher, Rev. Carl Oglesby.

Sincerely,

The Hart Methodist Church Board

HOW TRUE!

"If religious literature is not widely circulated among the masses in this country, I do not know what is to become of us as a nation. And the thought is one to cause solemn reflection on the part of every patriot.

"If truth is not diffused, error will be. If God and His Word are not known and received, the devil and his works will gain the ascendancy. If the evangelical volume does not reach every hamlet, the pages of a corrupt and licentious literature will.

here are some excellent alternative hybrids for High Plains farmers.

Pioneer Brand 8311, the "Golden Bronze Yield Leader," has been our most popular hybrid this year — so popular, in fact, that it may be in short supply in some areas. Fortunately, there are several other Pioneer Brand hybrids that are proven top performers on the High Plains. If you can't get 8311, ask your dealer about these.

PIONEER Brand 8417

This versatile yellow endosperm sorghum is a champion yielder in the medium-late maturity class, for irrigated or non-irrigated land. It has large open heads, uniform head height, strong stalks for easy threshing, good tolerance to smut and anthracnose.

PIONEER Brand 820

This top-notch full-season hybrid, is a consistently high yielder. Excellent drought resistance and standability plus good roots and stalks make it a good choice for irrigated or non-irrigated farming on the plains.

PIONEER Brand 828

One of the highest yielding sorghums you can plant, this full-season hybrid responds well to good management on good land with plenty of water. Plains growers like it because it holds its quality and threshes well even after an early freeze. It produces sturdy stalks with semi-compact heads of dark red grain.

PIONEER Brand 846

Famous for its versatility and adaptability, this medium maturity hybrid yields along with the full-season varieties. Resistant to smut, rust and MDM, its outstanding hybrid vigor and excellent drought resistance help it turn in consistently high yields even under stress.

woman costume and beard contest.

The old fiddler's contest held for the first time last year, will be repeated this year because of the interest and enjoyment expressed by those who participated and their audience.

The merchants' drawing will be conducted from 9:30 to 10 a.m. preceding the fiddler's contest, and winners must be present.

As an added attraction this year the Riding Club has been asked to prepare and stage an old-fashioned Western style shoot-out on main street during the Saturday activities.

All clubs and organizations are urged to sponsor some type of booth which will create interest and stimulate activity.

The meeting was attended by Mrs. Glyn Reed of Xi Mu Iota, Mrs. Ed Bennett II, Chi Psi, Mrs. R.A. Futrell and Mrs. Hubert Newman, Good Neighbor Club, Mrs. Jimmy Ray Davis and Mrs. Hubert McLain, Zealot Club, Newlon Rowland, Jim Werner, L.C. McLain and Bob Reed, Lions Club and Darryl McLain, Castro County

Activities committee, vice president, and Wanda Black, Hart Riding Club.

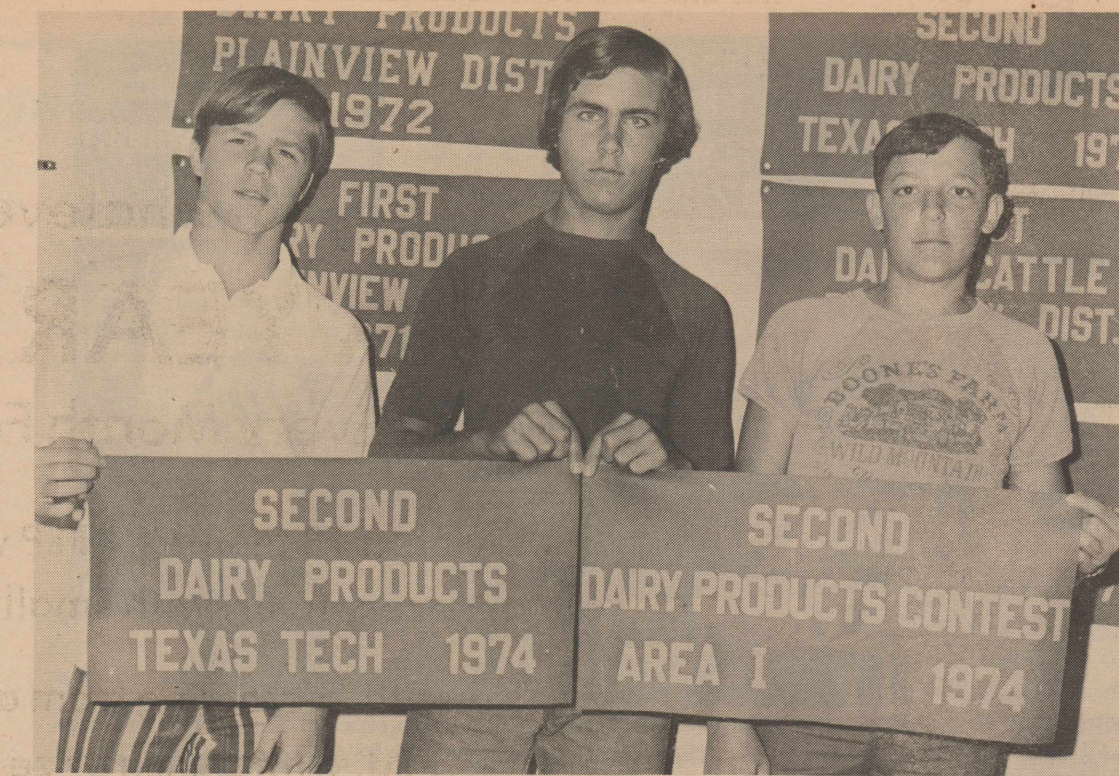

Next meeting is scheduled for Monday night, June 3, at which time it is hoped each organization will have their plans for participation mapped out and a theme for the parade will be selected.

A suggested theme is song titles of a period from the 20's through the 40's. "All suggestions will be appreciated and considered as a theme tends to add continuity and dimension to a parade and makes the work of preparing a float much easier," Mrs. McLain said.

She urges everyone to go the second mile in again supporting and preparing for this year's activities, as "this fast moving, fun filled event is looked forward to with great anticipation by the entire community and remains forever in the memory of those who participate."
