New Mexican Division For Chamber Plan

Establishment by West Texas Chamber of Commerce Announced by A. M. Bourland

Port Worth, Texas, July 31.—Establishment of the New Mexico Division of the West Texas Chamber of Commerce was announced in Port Worth by A. M. Bourland, Vernon, president at the conclusion of a two-day meeting with his advisory committee.

Portales, N. M., will be the temporary headquarters of the division; Coe Howard of Portales will be chairman of the division and Sam Seay, also of Portales, his Secretary and in active charge of the work.

The advisory committee for the New Mexico division will be Claude Simpson, Roswell, N. M., Bob Anglin, Clovis, N. M. and J. D. Hamlin, Fairwell, Texas.

Wade's Successor

No intimation was made by either Mr. Bourland or his associates as to who will be chosen to fill the place as general manager vacated by Homer D. Wade, now general manager of the Dallas Chamber of Commerce. Wade's successor will be selected during the annual convention at El Paso.

It was with the purpose of formulating a statement laying certain rumors to rest in West Texas that the advisory committee held its meeting. It is the first time it has come together since its founding following Wade's resignation.

The establishment of the New Mexico division is evidence of the growing importance of the group of about fifteen eastern counties of the neighboring state that have aligned themselves with the West Texas Chamber of Commerce, Mr. Bourland pointed out.

New Mexico Application.

About fifteen counties in the eastern part of New Mexico applied for entrance into the organization about four years ago, and after a first refusal, were taken in because of common commercial interest with Texas counties west of the Pecos, Bourland said. These interests consist mostly of sheep and cattle industry problems, in which the West Texas chamber has aided especially in bringing about the removal of the interstate freight differentials and in other matters.

Committee Reports On Clean - Ups

In visiting the different homes of Portales during the recent clean-up campaign and home Beautiful Contest, the judges find that practically every one has done some cleaning up and home beautiful work. We feel that the clean-up campaign has been a great success and the close competition between the many beautiful homes of our city leads us to believe that our present interest will carry our town forward until it will be following merchandise: Ten gallons known as the "City of Beautiful Homes."

Considerable time and close consideration was given the many beautiful places of our City and we were indeed sorry there were only three awards to be made as we do not feel that we have been able to reward many people who are entitled to some award on account of their excellent work. We are glad to announce that first place which gives a cash prize of \$15.00 from Joyce-Fruit Co was awarded to Mrs. Joe Howard.

Second prize consisting of Gas by Wood, Garage, \$2.00 Merchandise by Portales Drug Co, \$2.00 Merchandise by Fields & Bonner and \$2.00 Merchandise by Kemp Lumber Company, was awarded to E. J. Norris.

Third prize consisting of merchandise from the following merchants: \$2.00 merchandise by Orange Service Station, Hair Cut by Konegny's Barber Shop, five gallons gas and 1 quart of oil by C. K. Those connected with the poultry and livestock industries of Roosevelt county feel that a great benefit may be derived through such a show and pride in the fact that Portales and trade territory is a great potential livestock and poultry center. Portales is already the ranking cream shipping center in the state.

Two Safes Wrecked \$900.00 Secured

Entrance Forced by Jimmies Front Doors

On last Sunday night between the hours of 10 and 11:00 o'clock burglars forced their entrance in to the Portales Drug Company, and the Joyce-Fruit Company stores by jimmieing the front doors of both establishments.

The safe of the Portales Drug Company was wrecked, the hinges being broken off and the door, priced open, completely wrecking the safe. Between \$450 and \$700 in cash and checks was secured, a number of slow checks being left in the safe.

A number of high grade Parker and Shaffer fountain pens was also missing.

In the Joyce-Fruit Co's store the safe was blown, completely wrecking it. Cash in the amount of \$250.00 was taken, but all checks were left.

Several are reported as hearing the explosion about 10:00 o'clock. Around ten o'clock that night the streets were deserted, but passers returning from church, report seeing two men in the Joyce-Fruit office, but thinking that it was the office force working on the books nothing was suspicious.

Around 10:00 o'clock two pistol shots were heard on the highway in the edge of town, leading to Roswell. This was supposed to have been a signal to the burglars that the coast was clear for the get away.

An number of finger prints were left on the safe doors, and these were recorded by City Manager Miller of Clovis, who is a finger print expert.

Several suspects were brought in by the sheriff and their finger prints taken, but so far no clue has been found as to the identity of the burglars.

On the same night a safe was blown at Artesia, and it is the supposition that it was the same parties.

During the past ten days robberies have been reported at Melrose, Fairview, Tucuman, Clovis and other points.

Indications are that an organized gang are operating in West Texas and eastern New Mexico.

The safe and contents of the Joyce-Fruit Company was insured against burglary in the amount of \$1,000 by the J. Rex Forrest Insurance Agency.

The various road committees which have visited Portales in the past week, impresses one with the fact that Portales is looked upon as an important highway point by our neighboring towns in Texas. It is to be regretted that hard surfaced roads cannot be built to every point, and it is hoped that in the near future a great highway system will be built, radiating in all directions from Portales.

When Governor Hannett stated that Roosevelt County was the garden spot and the greatest agricultural county in the state, it showed that he was thoroughly familiar with his onions. Gov. Hannett has visited every section of the county in the past years, and would be drive over the county today, he would be impressed with the progress and development that has taken place within the past year, to become a great agricultural and truly Roosevelt County is a destined dairy empire.

A Plan is now on foot to have a dairy and poultry show for Roosevelt county. This will be a great aid in stimulating the dairy industry of the entire county, and those actually engaged in dairying should get behind this movement.

Portales is proud of the fact that Portales has been selected as one of the best dairying and marketing of

headquarters for the New Mexico Division of the West Texas Chamber of Commerce. The board also made a wise selection when they chose Coe Howard as chairman and Sam M. Seay as secretary of this division. Howard and Seay are at all times working for the advancement of eastern New Mexico, and in their new capacity will be able to render a service to the state that cannot be estimated in dollars and cents.

Roosevelt county is the garden spot of New Mexico, and many settlers will be turned this way, by the West Texas Chamber of Commerce within the next year or so. This body is working for the development of the plains of Texas and eastern New Mexico.

From a tourist's view, they have already turned millions of dollars into New Mexico, by routing tourists this way. The work that can be accomplished in this line cannot be over-estimated.

Perhaps there is no man in New Mexico who has done more to develop the state than has Coe Howard. During his residence in Portales he has been instrumental in the building of many homes, settling hundreds of farms, and has at all times been a constant booster for the state and for Roosevelt county in particular.

As a Commercial Secretary, Sam M. Seay, will rank with any one in any section of the nation. In fact he has made such wonderful secretary of the Portales Chamber of Commerce, that his fame has spread, and many points are now bidding for his service.

MACKAY OF TEXAS A. & M. SCHEDULED FOR NEW MEX.

Arrangements have been made by the Extension Service of the New Mexico Agricultural College for Mr. A. K. Mackey, Chief of the Sheep and Goat Husbandry Section, Texas A. & M. College, to conduct a series of meetings in different parts of New Mexico, beginning August 6 and ending August 15. The schedule of meetings is as follows: Lordsburg, Hidalgo county, August 6; Pinos, Otero county, August 8; Roswell, Chaves county, August 10; Artesia, Eddy county, August 12; Clayton, Union county, August 14; Springer, Colfax county, August 15.

Mr. Mackey will discuss such subjects as range management, breeding that Portales has been selected as one of the best dairying and marketing of

wool and mohair. Mr. Mackey will bring with him samples showing the different grades of wool and substances which are sometimes found in wool, such as needles, glass, etc.

Mr. Mackey received his training at the University of Illinois and was later professor of Sheep Husbandry at that institution. He later took his post-graduate course under Dean Hill at the University of Wyoming. Dean Hill's course is recognized as being the best training it is possible to receive in the United States. Mr. Mackey accepted a position as herdsman of the King Bros. Ranch, Laramie, Wyoming, which is one of the leading Rambouillet breeding establishments of the United States.

For the past several years Mr. Mackey has been in charge of the sheep and goat work at Texas A. & M. College, and in addition to having a profound knowledge of his project is considered one of the leading judges of the United States. He is also very interesting speaker and a man who meets men upon an absolute equality. His meetings are characterized by the feeling on the part of the audience attempt to obtain any special consideration or credit for the work that he is one of them and does not be so.

TERRACING STARTED
IN COLFAX COUNTY

The Corsicana Grader and Machine Company, of Corsicana, Texas sent their best field man to New Mexico on August 5 and 6th to assist with the terracing demonstration on the farm of Mr. O. F. Harris in the Kiowa Valley, in Colfax County. This flat and fertile valley offers one of the greatest opportunities for successful terracing and increasing crop production of any section of the state.

Business men as well as farmers were invited to attend this demonstration. Posters announcing the date and showing the benefits derived from terracing were hung in conspicuous places. Farmers and other interested were given demonstrations on how to run terracing lines, lay out terraces, build the proper type of terraces and were shown what might be expected by a farmer who follows this system of farming.

Due to the fact that a county agent has been in Colfax county only a short time, no similar demonstrations have been held previously in this community. By terracing, Mr. Harris will be able to hold back a large amount of the water that runs over his fields and he is now planning on seeding a part of this land in alfalfa. At present there is very little alfalfa grown in this community, but with the added stored moisture, good crops will be possible.

The past week the News had the opportunity to bid on a five dollar job of printing. Wonderful.

How would it seem to our grocery dealers if they were asked to submit a bid everytime a customer

wanted to purchase a dollars worth of sugar.

That reminds us that the editors son is about ready for a tonsil operation. How about submitting it to a bid.

Or if after the operation, it should be found that his appendix needed amputating, that would call for another bid.

The News editor will need a clean shirt within the next few weeks. Bids on this work will be received each bidder depositing a cash bond.

If this bidding continues, the printers will bid fair to go without their pay checks on Saturday night.

Then the sheriff will ask for bids on the printing plant.

And the editor will bid you all farewell between saps.

Someone at Big Springs is trying the Kid the News on its issue of July 17th, 1935. The following communication was received under a Big Springs post mark.

City Manager,
Portales, N. M.

Dear Sir:-

Just want to report on the condition of the streets in the south part of town, especially on south Main. As long as this part of town was known as Elida we had pretty good service in this department but since being voted into the city limits last month we find that very little attention has been paid to street work. Of course we realize that the rapid growth of the city has caused many problems to arise but we, of this part of the city would appreciate some attention to paving and improved lighting at your earliest convenience.

Respt submitted,
A Citizen.

Leon Jones and R. A. Young attended the Puraena dealers banquet at the Harvey House last Friday night. It is reported that Leon got into a jam when he attempted to eat green peas with his knife, until one of the waitresses showed him how to scoop them up with a spoon.

Bob Yoachum went the preacher one better on last Monday night when the board of Stewards met at his home. He had Mrs. Yoachum to serve punch in larger glasses than was used at the preachers home.

Quite a crowd gathered Saturday when a tourist car parked and several ladies of the party alighted. Every one of them were wearing stockings.

Since Mack Stanton has wiped our oil well and terms it the Clovis oil well, he should also claim the blame for the crime wave which has broken out in Portales. This naturally follows an oil field and as it is "Clovis Oil field" it should be Clovis' Burglaries.

One day this week, when entering the office of Rich Grissom, both Rich and Floyd D. Grissom were found at work. You may not believe it, but it was a fact.

More Days of Vacation Pleasure

Winding Roads Lead to Summer Playgrounds

August—late summer still calls the motoring world. Everywhere, vacation lands invite you from beyond the hill ahead or the next bend in the road.

As you travel, telephone ahead for reservations. The assurance of a comfortable place to stay makes each day's trip more pleasant.

Whether your trip takes you to a quiet mountain resort or a distant city or town, daily contact can be maintained with home or office—by telephone. It's quick and inexpensive.

Know the Number?

On most out-of-town calls by number you can generally hold the line while the connection is being made, just as you do on a local call.

If, when placing a long distance call, you tell the operator you will talk with anyone at the called telephone but do not know the number, she will inform you just before completing the connection. Calls of this nature are known as station-to-station calls and are less expensive than person-to-person calls.

Keep a record of those out-of-town numbers you frequently call. When the operator gives you a number you had not known, jot it down. It will save you time and speed your service on future calls.

The Richland Sewing Club Girls met at the home of their leader Thursday. Seven girls were present. The girls did their sewing work, sang, songs and played games. They chose green and gold as club colors. It was decided that they should meet at the home of Velma and Geneva Page August 1st. Refreshments of ice cream and cake were served by Mrs. Stroud. Signed, Miriam Cox, Temp., Secy.

The Richland girls could hardly have chosen a warmer day for their meeting than last Thursday, the first. As they canned beets, peas and beans at the home of their leader, they felt and (looked) like they were having Turkish Baths.

The sewing girls worked on their project, Practiced demonstrating practiced their songs, etc. Their song which was written by Miriam Cox and is to the tune of The Gay Bandallero is as follows:

A GAY CLUB BAND

We belong to the 4-H Club Band
We'll tell you for what the 4-H's stand.

The hearts so true.
The head and hands too
And good health which makes our lives grand.

We're learning to do our club work
We're industrious so we'll not shirk

We make all our clothes
And mend all our hose

If we don't trouble is sure to lurk.

The D. S. C. (Dora Sewing Club) met July 31, at the School House, Miss Wetzel and Mrs. Creamer were both present. We spent a very busy morning selecting our colors and flowers. We decided to have pink and light green for our colors and the pink carnation for our flower. We worked out our club song which is to the tune of Old Black Joe and is as follows:

Now are the days when our hearts are young and gay.
Now are the days when our hands they work and play

Now are the days when our health is good you know
We put our heads together and we learned to sew.

D. S. C. D. S. C. we're full of pep and go
Oh, what fun we've had together.

As we learned to sew
Oh yes, we're going to see this club work through

If it is the last thing we can ever do
We'll all work together in good and bad weather

Oh yes, we're going to see this club work through

The East Valley View Girls met with their leader and the agent at the Court House to practice demonstrating. They all feel very badly because Dorothy Heckman, one of the club girls, fell from a mule on her way to club meeting. She was badly bruised and her leg broken.

The Portales Cooking Club met on Monday at the home of Ruth Wheeler and the Sewing Club met on Tuesday at the home of the Agent. The Portales girls have chosen rose and gold as their colors. The rose as their flower and their song is to the tune of Red Wing, and is as follows:

There once was a 4-H Club
A happy 4-H club

Who worked all the day
And made their work play

As in their homes
They sang happy and gay

They loved to cook and sew
These fine little maids you know

To better their club-to make it pay

To carry the prize away.

Mrs. Hill the Canning Club leader of Arch reported a meeting of the canning club at the Club House on Tuesday. The girls canned beans, okra and potatoes and all the girls practiced demonstrating. All members but 3 were present.

Common Sense and Electricity

Common sense is all that anyone need use in order to keep electricity—the safest, most faithful and dependable of helpers—in its place in the Home.

RULE SIX

Additional wiring in your house should be installed only by a responsible electrician. Your best insurance against fire and accidents is good wiring.

RULE SEVEN

If a fuse, the electrical safety valve, blows out, you are overloading your wiring system or using a defective appliance. The trouble is not corrected by inserting a larger fuse. A fuse of the proper size is your protection against fires or accidents. Ascertain and correct the trouble before putting in a new fuse.

ORPHANS HOME

The children of the Home are getting along nicely. They were examined and given free treatment by our Dentist Dr. Means. The work on the 35 children would have cost the Home \$287.00. The home appreciates such friends as Dr. Means.

The Home has been fortunate in securing the professional help of Dr. Wollard. He has given the children free medical aid every since the Home was founded in 1919. With the loss of only one child, this was during the flu epidemic which swept the country.

Then we are delighted to speak a good word for our neighboring city of Clovis, and the way she has helped the Home. Day's Bakery has sent the Home \$14.00 worth of bread within the last two weeks. And the Good people of Clovis Church has sent us \$30.00 worth of groceries in July. The children as well as the management appreciate the help in gifts and also each visit from the many good friends of the home.
