Speaker

G. E. Thompson In-Service Meeting Monday

Monday will be a holiday from classes for Colorado City students as teachers have an In-Service training session.

General faculty meeting is set for 10 a.m. in Colorado High School auditorium as G. E. (Tommy) Thompson talks to teachers about current educational problems and solutions.

Thompson retired last year as superintendent of Kermit schools and was coach and teacher at Pecos from 1932 to 1934; coach, teacher and principal at Kermit from 1934 to 1948 when he became superintendent.

He is also past president of the Texas State Teachers Association, 1955; a director in the Permian Savings & Loan Association in Kermit and was named Administrator of the Year by Texas Classroom Teachers in 1970-71.

Born in Thompson's Gin in Limestone County in 1909, Thompson attended elementary school at Thompson's Gin, high school at Hubbard, earned the A. B. degree at Trinity University in Waxahatchie and the M. Ed. from the University of Texas in 1942. From 1942 to 1945, he was in the U.S. Navy and is a Lieutenant Commander, USNR.

Thompson has also actively served the Lions Club and Boy Scouts of America, past president of district Boy Scouts; past district governor of Lions International and holds the Silver Beaver, honorary award for adult Scouters.

Entertainment Features Skit

"Howl Night" is set for 7:30 p.m. Thursday in the high school auditorium and will feature a Western theme.

Quill and Scroll, honor society for CHS journalists, sponsors the event annually, highlighting the evening's program with presentation of school favorites, King and Queen Howl.

New members of Quill and Scroll will be presented and inducted by President Sally Sparks.

Other entertainment will be a western dance routine by the CHS cheerleaders, a western twirling number by the CHS twirlers, routine by feature twirler Janice Kimmel and a special comedy act by Bo Merket and Mrs. Chrystene Hall, CHS teachers.

"Uncle Archie's Saloon," presented by the Journalism and Publication students, along with other CHS students, will be presented, a short play centering around the old saloon days of Colorado City in the 1890's.

"It is based on a true fact as there really was an Uncle Archie's Saloon in Colorado, Texas," said Peggy Welch, Journalism advisor.

Scott Weaver, CHS

Phone Hike On Agenda

Again on the agenda and this time in the form of an official request is Southwestern Bell Telephone Co.'s request for a rate hike by the city council of Colorado City.

The telephone company's presentation for a raise in rates was first made Nov. 25 by manager Bill Gilliland of Snyder. The council tabled the matter for further consideration and most of the council members later toured the company's facilities in Colorado City, then wire

Playday Prizes

Year-end prizes totaling \$1,200 were awarded to the past year's Playday participants following a supper Friday night in the Civic Center sponsored by Western Riding Club.

Winning first place solid silver belt buckles were: Danny Sutton of Sweetwater, 9 years and under; Dane Powell, 10-12; Kay McDorman of Sweetwater, 13-15 and A. B. Brannon of Sweetwater, Adult.

PeeWee high point prize, chaps, went to Kim Wulfjen, 4-year old daughter of Dwayne and Urda Wulfjen. Other PeeWees recognized included Zane Bowers, son of Cathy and Bob Bowers and Blis Powell, daughter of Judi and Don Powell.

Second place silver belt buckles were awarded to Andy Brannon of Sweetwater, 9 years and under; Gary Rowe, 10-12; Lora Monroe of Sweetwater, 13-15 and Don McDorman, Adult.

Third and fourth place winners were awarded saddle blankets with hand-tooled leather tips and the winners were:

—Third place, Reed Powell, 9 and under; Tracy Rees, 10-12; Lisa Guelker of Sweetwater, 13-15 and John Walton, Adult.

—Fourth place, Chip Northcutt, 9 and under; Latisha Kiker of Sweetwater, 10-12; Coalen Swann, 13-15 and Everett Walton, Adult.

photographer, will be the Master of Ceremonies.

Tickets will be sold at the door and priced 75 cents for students and \$1 for adults.

30-Year Employee Retiring

A reception honoring retiring officer manager Nelda Garrett has been scheduled for 2-4 p.m. Friday in the Medallion Room by Lone Wolf Electric Co-Op.

Everyone in the community is invited to attend the afternoon reception.

Miss Garrett has worked for the rural electric cooperative for thirty years and has been an active member in Texas Electric Cooperatives Accounting Association. She was presented with a plaque of appreciation at the group's state meeting in San Antonio this past year.

In addition to her work for the cooperative, she has also been an active member of the Chamber of Commerce and the Business and Professional Women's Club in Colorado City. She was honored as Woman of the Year for 1973 at the Chamber banquet by the B&PW.

chief John Trotter conducting the tours.

Trotter was recently transferred to Abilene and the wire chief's post filled by Ray Medley.

Gilliland and some of the telephone company officials were present at the last council meeting but their request for a spot on the agenda did not come to City Hall in time to meet the deadline for getting an item placed on the agenda.

The request is official now, Mayor Larry Hamner said, and is on Tuesday's agenda.

The request made by Gilliland in November called for an increase in business one party from \$13 to \$14.50 monthly and in residence rates for one party service from \$6.25 to \$6.75.

Present Colorado City exchange rates were established in 1972 but since then the increases in "taxes, salaries, wages and continued investment in Colorado City have grown to the extent that we must seek this increase," Gilliland said.

According to the discussion and questions raised by council members at Gilliland's first appearance, most of the council were definitely against a raise in rates. Dr. Elton Berkman said that service should be automatic and not depend upon a raise in local rates. Mayor Hamner said local service was not the best, even using the term "lousy" at one point in the discussion.

Operator service has since changed, being centralized in Abilene and there have been further replacements of old, outdated lines in the city since that first request was made.

"We've seen all the work they've done here and some of us have toured the facilities, but it will be up to the entire council to decide," Mayor Hamner said.

Also on the agenda for Tuesday's meeting, which begins 7 p.m. in City Hall, is a further explanation of the proposed bond issue by the city's financial advisor, Joe Smith of Abilene.

The mayor said that Smith had come up with details which would allow the money for an issue, if approved by voters, to be available for immediate work on the city's streets. Hamner said that new paving should start when the

weather warms up this spring and should not have to wait until possibly August before all the money would be available.

Smith has devised a plan that would allow money from the street bonds to be available following a partial audit of the city's books. Other monies from the bond issue, if approved, would not be available until a complete audit.

Emory Bellard

Bellard Set As Speaker

Details have just about been finalized for the Lorraine All Sports Banquet to be held in Lorraine Gym May 7 at 8 p.m. with Texas A&M Athletic Director and head football coach Emory Bellard as guest speaker.

Everyone is invited to attend the banquet. Tickets purchased prior to the banquet will cost \$5 each and \$5.50 at the door that night. Johnny's Bar-B-Q of Odessa will cater the event.

Highlighting the evening in addition to the speech by Bellard will be the naming of the Lorraine athlete of the year, an award sponsored by the Colorado City Record.

A large crowd is expected to be on hand to hear Bellard who since December 1971 has built the A&M football program into a national power.

Prior to taking the dual role of athletic director and head football coach at Texas A&M, Bellard had firmly established himself as one of the all-time great coaches in the state's ultra-tough high school program.

During a 15-year stretch at three high schools - Class B Ingleside, AAA Brecken-

WESTBROOK WILDCATS, currently leading the district 10-B race, are pictured here with Wildcats coach Dale Byrd. From left, they are John Manning, Ronnie Diese, Bobby Moody, Don Duran, Steve Rollins, Gerald Colbert, Bobby Matlock, Daryl Rich, Jim Anderson, Clark Sweatt and Glenn Rich.

About 41,880 In County Bale Count 45,679

The bale count from the county's eight gins this week shows that 45,679 bales are either ginned or on yards waiting to be ginned.

About 41,880 of those bales were produced in the county, based on the rough estimate of subtracting one-half the China Grove amount

and one-tenth the Lorraine Co-op count.

Individual gins report the following:

--Buford Coop, 6,687 bales, ginned, 373 on the yard.

--China Grove Coop, 5,646 bales ginned, 192 on the yard.

--Colorado Gin Co., 1,950 bales ginned, 200 on the yard.

--Farmers Gin, 4,757 bales ginned, 250 on the yard.

--Lorraine Coop, 8,394 bales ginned, 591 on the yard.

--Mitchell Co. Gin, 3,257 bales ginned, 383 on the yard.

--Planters Gin, 2,790 bales ginned, 450 on the yard.

--Producers Coop, 8,960 bales ginned, 800 on the yard.

--Totals, 42,441 bales ginned, about 3,238 on the yards.

Cotton market activity was slow to moderate during the week ending Jan. 22.

Prices were down early in the week but advanced by one-half to one and one-half cents per pound during the week.

Low micronaire prices continued to strengthen. Most 3.5 to 4.9 mike cotton sold for 18 1/2 to 20 1/2 cents per pound over CCC loan rates. Predominate grade was grade 42 at 30 per cent.

2-5 p.m.

Open House Tour Today

Open House at the new Colorado High School 4-building complex is set for 2-5 p.m. today.

First day of classes was Jan. 12 and Colorado High School students are still exploring the possibilities for education in the new buildings.

For the first time ever on the pages of the Record, a full color photo of the interior is printed on the first page of a special two-section

supplement featuring the new school.

This afternoon's reception, hosted by members of the board of trustees, will offer guided tours in small groups and a number of programs to show the new facilities to advantage.

As visitors arrive, they will be greeted by school board members and Superintendent of Schools Lloyd McKee. Then they will be taken in small groups throughout the four buildings by members of the Future Teachers of America club and Colorado High School Student Council.

As visitors inspect the buildings and equipment, they will have an opportunity to hear mini-concerts by the band and choir, orations by speech students and science demonstrations. Teachers will be stationed in their rooms or department of major assignment to answer any questions visitors might have.

Everyone in the community and guests from area schools are invited to attend the open house this afternoon at Colorado High School.

The open house marks the culmination of planning which started in 1972 with a comprehensive study of the school program, curriculum and physical plant. The long-range Master Plan which resulted from the study has seen changes in the entire school system, but most spectacular evidence of the change is the new buildings in the high school complex.

City Gets \$4,550.80 Tax Check

The city of Colorado City received a check from the office of State Comptroller Bob Bullock's office this week for the city's share of the sales tax.

The check was in the amount of \$4,450.80 for the period ending Jan. 3, 1976.

No check was mailed to the city of Lorraine but credit was booked in the amount of \$117.60 and will be added to the quarterly payment.

Bullock said that checks totaling \$11.4 million in city sales taxes were mailed to 493 cities and towns this week.

Frank Ginzel

Ginzel Files For Re-election

Frank Ginzel, District Attorney for the three-county 32nd Judicial District, has filed for re-election to the office in the May 1 Democratic primary.

Ginzel was appointed to the office Jan. 1, 1971 and re-elected in 1972. He was in private law practice with the law firm of Dell and Perry Barber following his graduation from the University of Texas School of Law

in January, 1950, then appointed county Attorney of Mitchell County in March, 1954.

Ginzel was born in Caldwell, Burleson, County and after graduation from high school there, entered the armed services, serving in an Infantry regiment in the European theatre. He was a POW for 19 months, rescued by a column of General Patton's 5th Armored Division and then returned home to enter the University.

He and his wife, Doris, have five children and are members of the First Presbyterian Church in Colorado City where he holds offices of Deacon and Elder. In talking about his candidacy, Ginzel made the following statement:

"I have considered it an honor and privilege to serve as District Attorney for the 32nd Judicial District of Texas. It has been a rewarding and educational experience. The office of District Attorney has been traditionally, and is now, in my opinion, for service to the community, people and law enforcement personnel. Its purpose is to effect justice."

"Presently, the field of criminal law is complex and varied, with many changes as reflected by the Texas Penal Code of 1974 and decisions of the Supreme Court, beginning with Escobedo vs. Illinois and continuing with the present uncertainty of the applicability of the death penalty, status pending result of a decision by the Supreme Court of the United States."

"Statistics for our 32nd District reveal, over the last eighteen months, a marked increase in the number of criminal cases committed, investigated and pending. The increase, some 45 per cent, covers Mitchell, Nolan and Fisher Counties, somewhat in accord with the national average."

"Today we have better trained and qualified officers on the streets and highways. Their efforts result in, and reflect, the cases brought before the courts and juries."

"If elected, the office will seek to administer, and enforce, responsible law enforcement on a regular basis. I respectfully solicit your vote in the upcoming Democratic primary Election May 1."

Cancer Education Week

Cancer Education Week
will be observed in all Mit-
chell County schools Janu-
ary 26-30 under the super-
vision of T. P. Fowler, Educa-
tion Chairman of the Mit-
chell County Cancer Society.

"Posters and education
materials have been put in
all schools, and kindergarten
children have been given
appropriate color books,"
Fowler reported at the
meeting Wednesday in the
C. C. Thompson Center.

Elementary grade child-
ren will view the color movie
"Huff and Puff"; "Decision
for Mike" will be shown to
the secondary students.

Local president C. R.
Smith said another "Five
Day Plan To Stop Smoking"
was in the making. Further
plans will be announced
later.

Mrs. Bobby Lemons stated
that Crusade plans were
near completion.

Area Director Frank Gra-
ham, Fort Worth, commended
the Mitchell County organiza-
tion since its reactivation
under the leadership of
the late Frank H. Kelley. He
also said M. D. Anderson
National Cancer Institute
will make articles available
to the local newspaper on a
variety of subjects.

Graham also went over a
list of supplies that the ACS
is making available to those
who need them.

District meeting will be
Tuesday, January 27, at the
Westwood Club at 10 a.m.
until 2 p.m.

Area Directors meeting is
scheduled for February 10,
at the Hilton Inn, Fort
Worth.

nut butter sandwiches, ap-
ple halves and milk.

To Wed In April

...Cheryl Sayger, Nathan Hoyle

Sayger, Hoyle
To Be Wed

Mr. and Mrs. Robert Say-
ger of Colorado City an-
nounce the engagement and
approaching marriage of their
daughter, Cheryl Janeen
to Nathan Carrol Hoyle, son
of Mr. and Mrs. Henry
Hoyle of Colorado City.

The couple will be joined
in marriage April 17 at 4
p.m. in Oak Street Baptist
Church.

The future bride is a 1975
graduate of Colorado High
School and attended Texas
Tech University.

The prospective bride-

groom is a graduate of
Colorado High School, a
graduate of Tarleton State
University and is presently
engaged in farming.

Fisher Host For Meeting

The Self Culture Club met
in the home of Mrs. E. M.
Fisher January 16. The
meeting was opened by
prayer and a pledge to the
U.S. flag led by Mrs. L. A.
Keith. The treasurer re-
ported \$110.63 in the treasury.

Mrs. Jesse Small could
not serve as president of the
club for the ensuing term.
Mrs. L. A. Keith was elect-
ed in her place. Mrs. E. L.
Tiller was elected as trea-
surer in Mrs. Keith's place.

The roll call was an item of
interest. It was about one of
our U.S. presidents.

The program was given
by Mrs. Paul Logsdon on the
subject "Viewing in Virginia
and Washington D.C.
through the eyes of a tour-
ist."

Second on the program
was a short biography of the
"Presidents born in Virgi-
nia, George Washington,
Thomas Jefferson and
Woodrow Wilson.

The hostess, Mrs. Fisher
served refreshments to Mrs.
Earl Brown, Mrs. E. L.
Tiller, Mrs. Paul Beeman,
Mrs. A. A. Herrington, Mrs.
L. B. Elliott, Mrs. C. P.
Gary, Mrs. John Brown,
Mrs. J. L. Strain, Mrs. Paul
Logsdon, Mrs. Wilfred Fox,
Mrs. L. A. Keith, Mrs. Jesse
Small and Mrs. R. M. Reed.

Looney, Fairview H.D. Clubs Meets

Mrs. Parker Jarman and
Mrs. Versie McMillan were
co-hostesses for the Looney
and Fairview Home De-
monstration Clubs, Wednes-
day in the Medallion Room
at 2:30 p.m.

Rep. Elmer Martin gave
the program on Citizenship
discussing our forefathers
who made it possible for us
to have Christian and Demo-
cratic Country as the two
qualities go together.

The roll call was answered
with "What I Can Do To Set
A Good Example For My
Club."

The following members
and visitors were present:
Mr. and Mrs. Elmer Martin,
Mrs. J. W. Adams, mem-
bers present for the Looney
Club were Mmes. J. D.
Gibson, Maggie Hamrick, C.
W. Claxton, N. O. Brown,
Henry McGuire, Bruce
Byrne, Charles Williams,
Sidney Compton and Parker
Jarman.

Fairview members were
Mmes. Billy Smith, Bertha
Simpson, Mimmie Strain,
Bertie Strain, Edna Pace,
Susie Strain, Mary Wo-
mack, Wilma Womack and
Versie McMillan.

Looney Home Demon-
stration Club will meet next
Thursday at 2:30 p.m. to
hear Miss Kay Fagan dis-

uss the Federal Bill coming
up on Child Care and Abuse.

Claxton Lodge News

By CORDELIA DAVIS
Visiting Willie McCarty January 2nd were Ben and Frances Cockrel from Fort Worth.

We would like to thank Kascot cosmetics and Mrs. Mae Mooring and Mrs. Myrtle Twewart and Mrs. Ruth Barnett for coming to the Lodge Tuesday afternoon. Sixteen of the residents gave themselves facials with Kascot Products.

Rev. Bobby Chaney visits the Lodge library every Wednesday morning to have Bible study. They are now studying St. John. The public is welcome to attend.

Mrs. Bonnie Alexander of Sweetwater visited with Mrs. Mattie B. Carpenter, Tuesday morning.

Mr. and Mrs. Claud Woods from Stanton visited her mother, Mrs. Mattie B. Carpenter. Mrs. Carpenter accompanied them to Lorraine to spend some time with her Vera Carpenter, Tuesday.

There was a social in the

Lodge dining room for Mrs. Emma Harkins and Mrs. Birdie L. Brooks. Thirty residents attended and were served punch and cookies, Wednesday afternoon.

Horace Snider visited with his sister, Ruby Burleson, Wednesday afternoon.

Two new residents are in the lodge now. They are Mrs. Birdie Brooks and Mrs. Emma Hawkins.

Jimmie Hardegree from the 22nd and Austin Street Church of Christ had services in the Lodge library Sunday morning. Sixteen residents and three visitors attended.

Mrs. Louis Claxton took Cordelia Davis to the Oak Street Baptist Church Sunday morning.

Mrs. Alpha White visited the Christian Temple Church Sunday morning to hear Rev. Bobby Chaney preach.

Mrs. Rue McDonald was moved away from Claxton

Lodge to a rest home in Kermit.

Rev. Bobby Chaney from the Christian Temple Church and a group of singers and Gipsy Harmon, guitarist were at the lodge Sunday morning. Rev. Chaney gave a sermon on St. John the 14th Chapter. The group sang some songs for the 19 residents and 2 visitors who attended.

Claxton Lodge received honorable mention for the 1975 scrap book of the year.

We would like to welcome Mary Louise Hardison back to the lodge.

Monthly Meeting

The Auto Mechanic Class of America met in the Civic House for their monthly meeting Thursday at 7:30 p.m. Glenn Dunn, Auto Mechanic Teacher showed some slides and the 20 students who attended were served dinner.

The next meeting will be in two weeks.

Freedom Train To Be In Odessa

The American Freedom Train is making its first stop in the state of Texas in Odessa and Midland. Scheduled to arrive in February 6th, the train will be on display at the Regional Air Terminal, February 7 at 12 noon-10 p.m., February 8th and 9th at 8 a.m.-10 p.m. Tickets may be purchased in advance at Bill Sears Supermarkets, Gibsons Outlets, the Odessa Chamber of Commerce and the Odessa American. Tickets will also be available on site once the train is on display at the Regional Air Terminal, during the display hours. Children under three are admitted free. Admission is \$1 for children ages 3-12 and for senior citizens 65 and older. All others will be \$2.

The American Freedom Train is a recreation of 200 years of America's development beginning with the American Revolution. An impressive 26-car train painted red, white and blue, this monument to our nation's 200th birthday includes 10 display cars and 2 showcase cars filled with historic treasures of Americana. Some of these are: Multi-media presentation displaying documents, artifacts, models and memorabilia that reflect 200 years of America's achievements in art, architecture, entertainment, invention, exploration, government, literature, science, sports and transportation.

Cars 1-10 include: the revolutionary beginnings... exploration from the early West to outer space... growth of a nation...origins of contemporary Americans... the American inventions in science and technology... Americans at work, from welding scythe to writing a song...the sights and sounds of sports...a panorama of American entertainment...

Pink Ladies Meet

A meeting of the Pink Ladies Auxiliary was held Tuesday in the home of Vista Harrell.

Gift items made by the Pink Ladies are on display and for sale in the Hospital Gift Shop. New and unusual articles are presently being made for future sale.

Those attending the meeting were Mrs. Jessie Black, Mrs. Ina Bowen, Mrs. Vista Harrell, Mrs. Bernice Hilliard, Mrs. Bonnie Hunter, Mrs. Minnie Howell, Mrs. Versie McMillan, Mrs. Zama Palmer, Mrs. Dorothy Theis, Mrs. Vicci Turner, Mrs. Mary Womack, Mrs. Wilma Womack, Mrs. Lucetia Small and Mrs. Susie Strain.

Paintings On Exhibit

Two paintings by Carolyn Walker of Colorado City are included in the Big Country Chapter of the Texas Fine Arts Association traveling exhibit now on display in the Scurry County Museum.

The museum is located on the campus of Western Texas College and is open each week day. The museum will also be open from 1-5 p.m. Sunday (Jan. 24).

Twenty-three paintings are included in the traveling exhibit, all winners in the Big Country show held last October in Cisco. The exhibit will travel until next October.

Visitors are also invited to see an antique gun display while in the Scurry County Museum.

Red Cross Meeting Held Here

The Red Cross had a meeting Thursday at 7 p.m. in the Mitchell County Public Library.

Officers were elected for the coming year. They are: president, Mrs. Jim Kelley; vice president, Mrs. A. B. Jackson; secretary, Mrs. Ruth Dosier; treasurer, J. C. Britton; drive chairman, Mrs. Dan Barber; disaster chairman, Bill McGuire; chairman of First Aid, Kenneth Rogers and new board members are Mrs. H. L. Crout, Mrs. Victor Galvan and Mrs. Lloyd Richardson.

How Kids Can Help Save Energy.

You'll be surprised how easy it will be for you to conserve energy. Put an X in the box in front of each way you think you can help.

PS. Parents: Have your children seen this message? If not, you may want to call it to their attention. Cut it out and use it to remind your children that they can help you and all of us conserve energy in many ways.

- ☐ Don't keep the refrigerator or freezer door open any longer than necessary.
- ☐ Turn off the lights when you leave a room.
- ☐ Turn off the TV set when no one is watching it.
- ☐ Turn off the radio or record player when no one is listening.
- ☐ Be sure the hot water is turned off after you've used it. Remind your mom or dad when a faucet leaks and needs repairing.
- ☐ Don't turn on more lights than you really need.
- ☐ If the furnace or air-conditioner is running, keep the doors closed. And don't make unnecessary trips in and out of the house.
- ☐ Ride the bus whenever you can, rather than asking your parents to drive you.
- ☐ Ride your bike or walk to the store for your parents. If they don't own the car, they will save gasoline.

☐ Help plan family errands that require the car so they can all be done at one time.

☐ If you're a little cool, don't ask your parents to turn up the thermostat. A sweater will warm you up.

☐ Tell your parents if heating or cooling ducts are blocked by furniture or draperies.

☐ If no one uses a particular room, close the heat registers and keep the door shut.

☐ If you're helping with cooking, use an element that is about the same size as the pan. And don't be an oven-peeper.

☐ If the sun is shining on a cold day, open the drapes so the sun can help heat up your house.

☐ If you have a fireplace, be sure the damper is closed when there is no fire. Otherwise, heat will escape up the chimney.

Write down any other energy conservation methods you can think of on these extra lines. Mark those boxes too.

TV PREVIEW

Sunday

ABC "CELEBRATION: THE AMERICAN PACED"
This fast-paced and multi-faceted special offers a blend of music, song, comedy and drama performed at different historic landmarks and locales across the country, reflecting the vastness and diversity of our nation and its people.

CBS "ADDIE AND THE KING OF HEARTS"
Fourth in the series of holiday dramas, starring Jason Robards, Mildred Natwick and Lisa Lucas in the continuing saga of the Mills family and their life in a small Nebraska town during the 1940s.

Monday
NBC "NBC MOVIE—"THE DAY OF THE JACKAL"
After the French Secret Army Organization hires the Jackal (Edward Fox), a ruthless, precise and reputedly successful assassin, they disclose his target: Charles DeGaulle. Also starring are Alan Badel, Tony Britton, Cyril Cusack, Eric Porter and Delphine Seyrig. Universal Pictures, 1973.

Tuesday
ABC "LAVERNE AND SHIRLEY"
Penny Marshall and Cindy Williams star in this series about two girls working in a Milwaukee brewery during the late 1950's. Not classy or intellectual, they struggled through high school and went right to work. But if they're rough around the edges, they are also two of the world's great tryers, and their feisty, spunky determination often gets them involved in humorous situations.

Wednesday
ABC "THE BIONIC WOMAN"
"Angel of Mercy," with guest star Andy Griffith. Jaime Sommers, disguised as a rescue team nurse, flies into a civil war-torn, South American country with a hot-shot helicopter pilot to rescue an American ambassador and his wife.

NBC "THE DUMPLINGS"
James Coco and Geraldine Brooks co-star as Joe and Angela Dumpling, a chubby Romeo and Juliet who operate a busy lunch counter in a New York City office building.

Thursday

CBS "THE WALTONS"
When John and Olivia travel to another city in order to expand their lumber business, John-Bob meets up with a pathetic little girl who is really an experienced con artist.

NBC "NBC MOVIE—"SISTERS"
Margot Kidder stars in a dual role in this suspense-drama about a writer (Jennifer Salt) who is the sole witness to a bizarre crime, the solution of which lies in the twisted identities of a tortured young model (Kidder). Charles Durning, Bill Finley, Lisle Wilson, Barnard Hughes and Mary Davenport co-star. American International Pictures, 1973.

ABC "LOLA!"
Lola Falana is the star of this special with her guests Billy Dee Williams, Gabriel Kaplan, star of ABC's "Welcome Back, Kotter," and a cameo appearance by Bill Cosby.

Friday
CBS "CIRCUS OF THE LIONS"
With Jack Klugman as host. Special featuring wild animal tamer Dick Chipperfield (lions) and Mary Chipperfield (tigers), as well as Leigh Marsh's poodles, the amazing Monahans (high wire), and the Cossack Cavalry (From Manchester, England).

NBC "THE PRACTICE"
Dr. Jules Bedford (Danny Thomas) refuses to admit that a patient is doomed by a tumor in spite of opinions to the contrary by his son, Dr. David Bedford, his nurse, Molly, several other doctors and the patient himself.

Saturday
ABC "THE AMERICAN MUSIC AWARDS"
Glen Campbell, Aretha Franklin, and Olivia Newton-John co-host the third annual presentation of these awards, an established event in the music world and a major entertainment happening. In which top recording artists across the country will perform and honor their colleagues. This program is live and originates in Hollywood.

Carter To Speak At Conference

The 18th annual conference of the County Judges and Commissioners of Texas will deal with specific issues that are today's problems.

Ambulance service, solid waste disposal and law enforcement are key problem areas to which the county officials will address themselves. Charles Lawrence, county officials program specialist for the Texas Agricultural Extension Service and general chairman for the conference has invited Mitchell County Judge Bill Carter to speak on the local ambulance service.

The conference is set for February 3-5 at the Ramada Inn in College Station, with registration the first afternoon. The official program kicks off at 10 a.m. February 4.

Presiding over the conference will be Joe Brigrance, Brazoria County commissioner, who is president of the County Judges and Commissioners Association of Texas.

Pioneer & Settler

Bob Ford

Pastor

First United Methodist Church

Colorado City

Mark 10: 17-31

There has always been inherent in the Christian movement two forces. One force is the careful approach and the other is the care-free approach. One decides what is safe and respectable, the other gives up all and then asks where it will lead and what will be received. We could call them, in western terminology, settlers and pioneers. To see what I mean let's look at the two scenes which are depicted in the scripture from Mark. The first scene has to do with the rich young man - the care-full person - the settler. Here is a man who had fulfilled the law. He had lived a good-upstanding life in the community all of his life. He was a careful man. He refused to give up his security when called on to do so by Jesus. He could give up all but the one thing that was needful for eternal life - dependence on something other than God.

He could be described as a settler. He was the kind who settled down and protected what he had. Instead of being willing to risk what he had acquired, he built up protective walls around it. The settlers are those who believe in a system in which everyone has his or her place and should stay there. The settler is one who likes an orderly assistance in which the risk of living is minimized.

The settler is one who is against much change, especially the kind which might upset his way of life. His security is in his conformity and in not upsetting the apperant. He never questions what goes on in the life of his town, at least that which might interfere with his way of life.

The outsider is not really welcome because the settler has his own group of friends and no one else is really welcome. He will put up with the stranger if he obeys the laws and mores of the town. But he will never accept the outsider because he is a threat to the rut the settler has dug for himself.

The settler is for law and order first and justice second, providing that the doing of justice does not upset his way of life. The settler is a careful man. He does not take risks. He does not really live, he merely exists in a vacuum and real life passes him by. The settler is satisfied to make small things the center of his life. He is like the rich young man who lacks the one thing essential to eternal life because he holds on to what he has. In living this kind of life he loses his life.

The pioneer is a different person. He is the disciple Jesus describes in the scripture. He gives up all forms of security to follow Christ. Then he asks, "What is in it for me?" This is a legitimate question when asked by the one who has already given up all he had to receive the pearl of great price. The disciple is the pioneer, the trailblazer. He is the one who lives in the covered wagon.

The pioneer-disciple risks all he has everyday as he pushes on toward a new existence. He cannot be content with a life that is stable and empty. He longs for the excitement of living on the frontier where life is caught up on adventure. The pioneer is the outsider who welcomes other outsiders into his life. He is concerned about human life more than property and security. On the frontier the pioneers band together to protect one another from enemy attacks.

The pioneer has only one thing - the promise of new lands to search out and to explore, but that is enough for him. He receives a hundred-fold in friends and fellow travelers on the road to a new life. The only law the pioneer knows is the reliance on and giving help and assistance to his neighbor. The wagon train moves along only as all are responsible to each other. The pioneer does not know where his next meal will come from. He does not know where he will sleep at night, only that it will be under his wagon - the open.

Yet the pioneer is happy because he has all he needs for a full and meaningful life. So what if the Indians kill him. HE HAS LIVED. The trail the pioneer takes is the narrow trail but it leads to adventure and real living, even though it is hard.

The scripture takes place on the road to Jerusalem and at the end of that road is the cross. The disciples, too, the pioneer-disciple, has a cross in the trial he is taking. But he is able to live knowing the fruits of an exciting life, good faithful companions, and the knowledge of life being fulfilled whether he lives or dies.

Guitar Course Offered

Western Texas College will be offering a basic guitar course through its Community Services department for the first time this semester.

Classes are to begin Jan. 29 and continue through May 13 with Lindsay Ezell of Colorado City as instructor. Students will pay fees of \$40 for 30 hours of instruction, with classes scheduled from 7-9 p.m. on Thursdays in room 102 of the Fine Arts Building.

The class will be limited to 15 persons and students must be at least 16 years of age. Each student is to furnish his own guitar.

Other Community Service courses starting soon are Weather for the Layman on Jan. 29, Skin and Scuba Diving on Feb. 3 and Radio Communications on Feb. 5. Persons wishing information about any of the courses may contact the Community Services office at WTC, 573-8511, extension 237.

Denice Percy

...to be wed

Percy, Wilson To Exchange Vows

Mr. and Mrs. Jim Northcutt of Shafter, California have announced the engagement and approaching marriage of their daughter, Denice Percy to Woodrow Wilson, Jr. of Bakersfield, California, son of Mr. and Mrs. Woodrow Wilson of Colorado City.

The wedding date has been set for April 3 in the First Baptist church of Shafter, California.

The bride-elect graduated from Shafter High School in 1971, where she received a Bank of America award in home economics. In 1973 she graduated from Bakersfield College and is currently employed as a secretary-receptionist at Hornkohl Laboratories, Inc. in Bakersfield.

The prospective groom graduated from Monahans High School in Monahans.

The prospective groom graduated from Monahans High School in Monahans in 1968. He attended Texas Technical University and is now employed by Western

Mud Sales and Services as a drilling fluids engineer.

Open House

Howard and Ona Preston of Loraine will have an Open House party, February 1 between 2 and 4 p.m. for their newly remodeled home.

Friends and relatives are invited to attend.

Semester Honor Roll

One hundred and ninety-one students are listed on the 1975 Fall semester honor rolls at Odessa College. Of this total, 39 full-time students made the "A" honor

roll, while 152 made the "B" honor roll.

Making the full-time "B" honor roll is Kelvin G. McMillan of Colorado City.

Tips From The City Of Colorado City

The City Council will meet 7 p.m. Tuesday in City Hall. Deadline for getting an item placed on the agenda is 5 p.m. Monday.

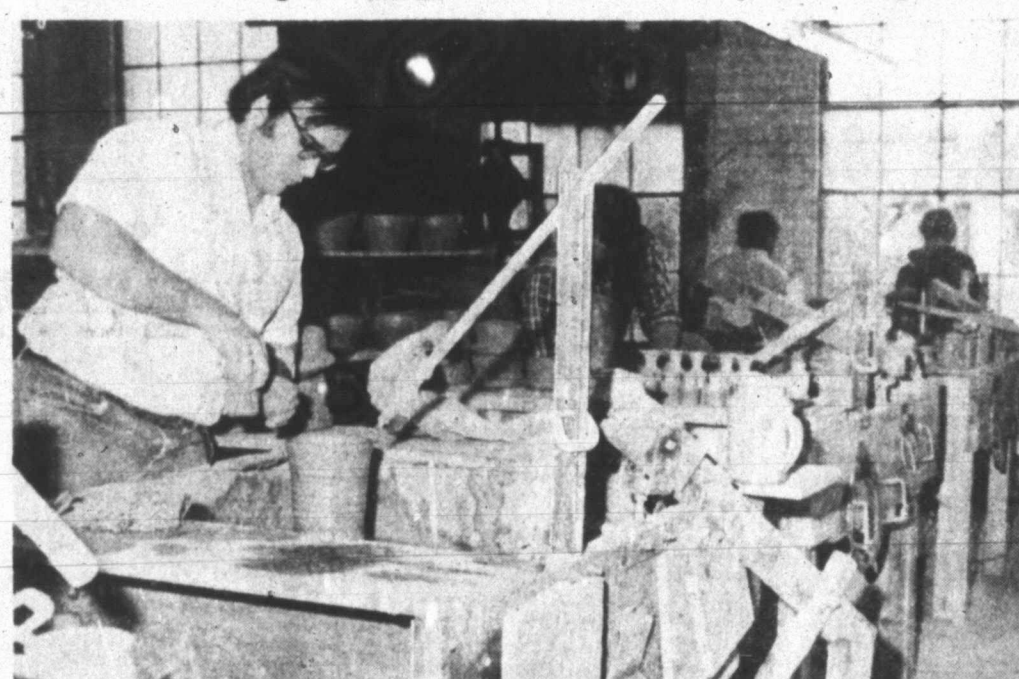

Annual Meeting

Annual meeting for members of All Saints' Episcopal Church in Colorado City was held Wednesday night following a covered dish supper.

Newly elected Bishop's Committee members are: Don DeLaney, Warden; Merl Morgan, Junior Warden; Mrs. Ann Morgan,

Clerk; Mrs. Nona Jones, Chairman of the Women's Committee and Mrs. Eleanor Powell. Shirley DeLaney was re-appointed treasurer.

Church Vicar, Father John Pratt, was present for the meeting, along with other members of the church.

FILL SPECIAL ORDER for the new \$100 million Hilton Hotel in Atlanta, Georgia. Iron Star Pottery Tom Gardner, foreground, and Dave King, are pictured here at work on the pottery wheel. The order was for pottery tableware—salt and pepper shakers, sugarbowl and creamer, bud vase and water pitcher—for the hotel which opened this week in Atlanta.

Wiggins Hostess For Club Meeting

Mrs. May Wiggins was hostess for the meeting of the Fairview Home Demonstration Club last Thursday at 2:30 p.m. in the Lone Wolf Medallion Room.

The guest speaker was Billie Smith who was elected as a prospective delegate for the District meeting at Bronte, March 17th. Her subject was Johnny Horizon 1976. She stressed taking care of our land, wildlife, and our game preserves. She also talked about water pollution and air pollution and what we could do to help.

Refreshments of punch, cake, potato chips and cheese crackers were served. Those attending were Mmes. May Wiggins, Mrs. Todd, Susan Strain, Bonnie Hunter, Versie McMillan, Muriel Thurman, Billie Smith, Mary Womack, Edna Pace and her grandson, Jeff Pace, Minnie Strain and Bertie Strain.

The next meeting will be February 12 at 2:30 p.m. in the home of Mrs. Bessie Todd.

Ag Notes

A special session to provide "outlook" information on livestock, cotton, grain and the money market will be one of the highlights of the 24th Texas Farm and Ranch Credit School for Commercial Bankers, February 9-11, at Texas A&M University. Other discussions will deal with the changing political, market and financial environments. Special sessions are also planned on agricultural loans and for bank directors. An in-depth Agricultural Credit Analysis Workshop will be held February 11-13, according to an economist with the Texas Agricultural Extension Service.

Gov. Dolph Briscoe has challenged County Program Building Committees in each Texas county to move ahead vigorously in 1976 toward the state's goal of making Texas No. 1 in agricultural income. "It is my conviction that Texans have the resources, the energy, and the managerial ability to achieve first place in both gross and net income from agricultural production. Achievement of this goal has important economic and humanitarian implications for our State, Nation and the World," Briscoe said.

The 18th annual conference of the County Judges and Commissioners of Texas will deal with issues that are today's problems, such as ambulance service, solid waste disposal and law enforcement. The conference which will be held February 3-5 at Texas A&M University will also feature discussions on national and state legislation, agricultural markets and policy, the state comptroller's office and the Jail Standards Commission.

BRIGHTER OUTLOOK FOR COTTON--
Cotton production and marketing leaders recently told Central Texas farmers that the cotton outlook looks brighter for 1976. Cotton prices have jumped and should continue strong due partially to a decline in domestic production during the last crop year as well as a decline in world production. At the same time, demand for cotton-fiber from the textile industry has increased 47 per cent during the past year. Continued emphasis on pest management and new efforts to eradicate the boll weevil should help farmers cope with this serious pest in the coming season.

Club Has Meeting Thursday

The Maranatha Club met January 15 in the Wallace Center with Mrs. Cecil Smith as hostess. A short business meeting was held. The subject of the program was "Life More Abundant with Miracle Drugs for the Soul."

Mrs. Della Fox was leader. She gave a few thoughts on the 13th chapter of First Corinthians.

Marion Bassham was the main speaker for the afternoon program.

Roll call was answered with a flower mentioned in the Bible.

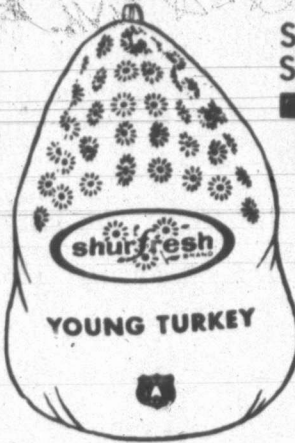

After the program the hostess served refreshments to Mmes. Bassham, Bullock, Crabtree, Fox, Henry, Martin, Pace, Reed, Helm and Smith.

The next meeting will be February 19 in the home of Mrs. Midge Crabtree.

Special Supplement to the *Colorado City Record*

New Complex Crowns Years Of Planning

The open house this afternoon at Colorado High School is planned for school district residents to see the result of planning which began as early as 1972.

A comprehensive study was initiated and long-range plans made which have eventuated in the opening of the new high school complex. Along with the new high school, however, changes have been brought about which have seen remodeling of Kelley and Hutchinson elementaries, complete phase out of Wallace as part of the public school system and its changeover into a community education center, devising a wholly new concept for Colorado Middle School and it will soon be housed in new quarters, the site of the former high school.

Changes in the physical plant have been matched by changes in the curriculum to take advantage of the added space and facilities which mean an actively involved student body at all age levels.

The Master Plan grew out of the study in 1972 and forces began operation to make the dreams become reality. Land was purchased

to add to land the district already owned and the election was held in September, 1973 as voters approved issuing \$1.75 million in bonds to finance the building program.

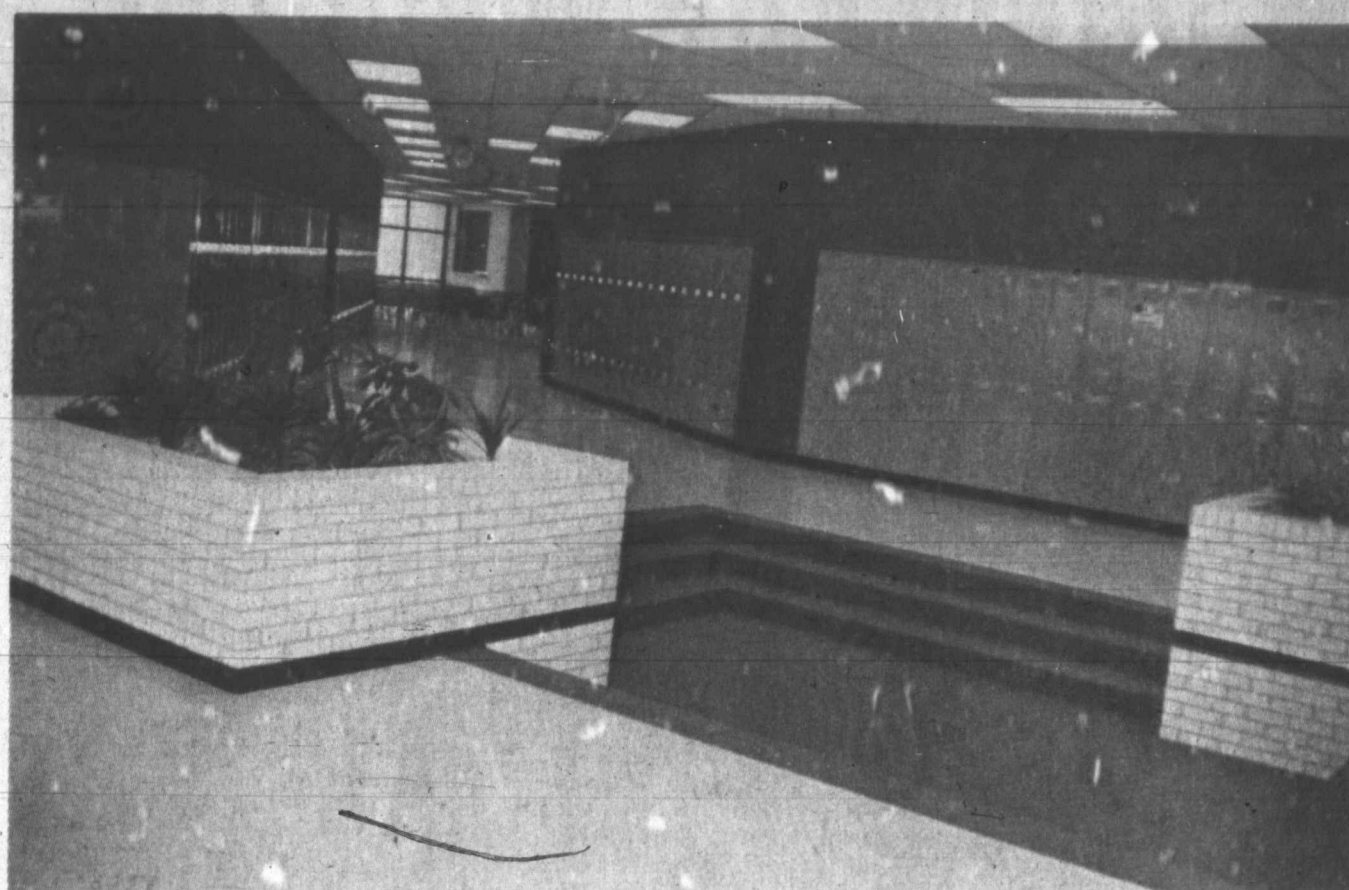

The bonds received an "A" rating and sold for an excellent bid. Money from the sale was then invested in certificates of deposit until needed and profits have added to the program.

The school building program received full support from the entire community as city and county officials backed it one hundred percent and helped with utility hookups, dirt moving and streets.

Opening bids came in March, 1974 and low bidder was Haney & Sivley Construction of Abilene. Contract was awarded for \$1,869,500.

Construction began in May, 1974 and first day of classes was Jan. 12, 1976.

Students, faculty, school board and administration, as well as every resident of the school district, are totally committed to the ideals of education and the new high school complex is the physical symbol of that commitment.

Colorful Interior Scene, Lobby and Office Area.

Dedication

Sunday, January 25, 1976, marks the dedication of the all-new facilities of the Colorado High School. In a very real sense, this modern comprehensive high school reflects the vision and confidence of students and community to meet current needs and ever-expanding responsibilities for educational excellence.

As early as 1972, the Board of Education of the Colorado Independent School District authorized a wide-ranging study of the program and needs of the school district. From this study, a long-range master plan for school programs, services, and facilities was developed which reflected in positive terms a set of desirable goals for education in this community.

In September, 1973, school patrons approved a \$1,750,000 bond issue which had as one of its purposes the planning and construction of a comprehensive high school facility. This facility represents the stage on which programs and services to students may be expanded and greater diversification of instruction achieved.

The staff of the Colorado Independent School District is committed to the creative and imaginative use of a truly excellent school facility.

Lloyd E. McKee
Superintendent of Schools

Open House

Reception-Tour-Program

Sunday

January 25, 1976

Hosted by

Colorado Independent School District

Board Of Trustees

TO: ALL CITIZENS OF CISD

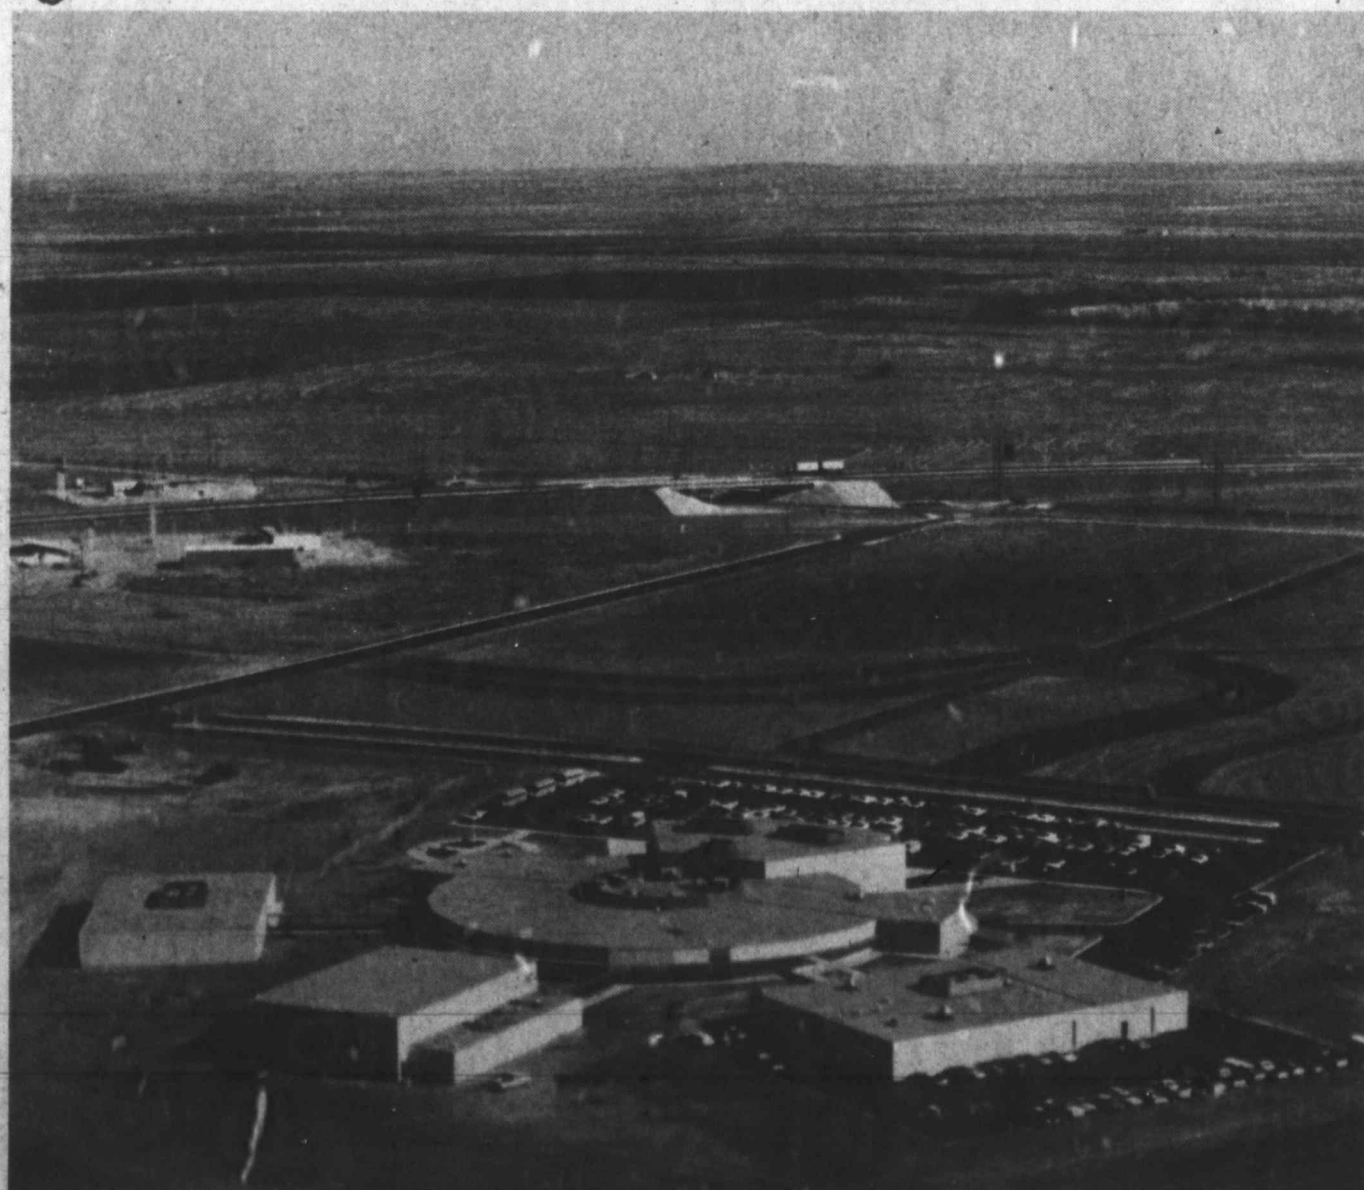

At last the new high school is a reality and the citizens of this school district are to be congratulated for having the farsightedness to realize the needs of their children and voting the bond issue that made all of this beautiful school plant possible. These facilities will permit the young people of this community to have the opportunity to use the best possible educational equipment available. It is felt that a student's environment has a major part to play in the school habits that they will create throughout their public school life. With the new comprehensive high school I feel that it can't help but improve the educational spirit of the entire student body.

As you tour the building for the first time, please observe closely all of the fine qualities that have been included. Please take care to notice the very special design of our auditorium, the latest design of each classroom, the advanced design and equipment that you may see in our vocational department, the physical education plant, and finally our fine arts building that will be housing art, home economics, choir and band.

No shortcut has been taken in providing every possible need of the student to make his educational advancement on a par with any other school in Texas.

Take pride you people of Colorado City in your accomplishment. You have insured the educational success of your children for years to come.

Sincerely,
Bill Everett
H.S. Principal

Vocational-Trades Education

Building For Technical Areas

VOCATIONAL EDUCATION

The design of the new Colorado High School reflects the increasing importance of vocational education in the total curriculum.

Because of the rapid changes occurring in technology and the rising demands for new educational opportunities, much progress has been made in the past few years in the field of occupational and technical education.

As a result of the re-examinations of the nation's educational opportunities, education in vocational and technical areas has recently assumed a new importance.

One outcome of the re-examination is evidenced by the passage of the Vocational Education Act of 1963. The Act provided adequate funds for the necessary expansion that lies ahead.

An even more recent change came in 1970 with the passage of House Bill 263, known as The Texas Vocational and Technical Bill. With the passage of this bill came more occupational education and better education in Texas schools.

The program of vocational education at Colorado H.S. reflects these significant student priorities and includes current progress in the following areas.

BUILDING TRADES

A new program added this year is Building Trades. It is a one-half unit program with enrollment of 18 students.

It will be a practice to build a house every year as a project to provide practical training for boys in the vocational building trade class.

The house the class is currently constructing is an all-electric home with an estimated \$33,000 local market value. The structure comprises 1,300 square feet of living area and 692 square feet attached garage and storage. It has three bedrooms, two baths, dining-living room, and kitchen, with an attached 2-car garage and storage.

Students will do all the carpentry, masonry and painting. They did all the electrical wiring under the supervision of a master electrician and most of the plumbing under the supervision of a licensed plumber. They helped install the heating and air conditioning system and installed all the duct work.

Because of the enthusiasm which has built up during the year, plans are underway to organize a VICA club (a youth organization for industrial vocational students) next year.

AUTO MECHANICS

A new program for Colorado High this year is Auto Mechanics. Credit is a full unit with enrollment of 25 students.

Students do actual repair of cars. The repair is restricted to what the student is capable of doing under teacher supervision. The

students began training by doing such minor adjustments as engine tune-up, adjust brakes, pack wheel bearings, and progress to the more difficult repair work such as grinding valves to an entire engine overhaul.

Students progressed remarkably well during the first 18 weeks and space was limited. During that period the classes were held in a former service station downtown. There were two work stalls, former wash and grease areas, with all other work done on the outside. Classroom was the business area of the service station.

Their new facilities consist of five work stalls plus one twin post lift. The students also have modern tools and equipment with which to work. These tools and equipment cost approximately \$28,000, with about 70% or \$20,000 reimbursed by the state of Texas.

The Auto Mechanics class has an active Vocational Industrial Club of America (VICA). They meet regularly each month for a supper, Dutch-treat. They plan to participate in the district and state VICA contests.

VOCATIONAL AGRICULTURE

The four vocational agriculture courses in Colorado High School are planned to meet the needs of those students who will become farmers and ranchers and those who will be working in agriculture-related industries.

These courses include classroom study, agricultural mechanics in the shop and on-farm work with individual agricultural projects.

The goal of the program is to have every student develop confidence in himself and to acquire the basic skills needed to be successful in his occupation. It is hoped that those students going directly into agriculture will have their farming enterprises started by the time they complete their four years in vocational agriculture.

Much of the work in agriculture is done outside of the classroom—in the shop, on farms, and on trips to the various agriculture-related businesses in the county. Much cooperation from individuals in the community is needed to have a successful program.

The new facilities in our high school have provided much-needed space for a more complete program in mechanics and classroom work. Our old building was designed for about 25 pupils—we now have 55—and the new facility is more than ample for this number. Our students now have as good or better facilities as any school in Texas.

INDUSTRIAL COOPERATIVE TRAINING AND DISTRIBUTIVE EDUCATION

Industrial Cooperative Training was added to the Colorado High curriculum in the 1968-69 school year as a

one-half unit. The following year, 1969-70, a one-half unit of Distributive Education was added.

This year there are 10 students in I.C.T. and 15 in the D.E. program. The success of the I.C.T. and D.E. programs and its constant growth is a tribute to the interest and time devoted by local merchants who assist in the training of these students.

These programs benefit the students in the fact that it gives them a saleable skill so that they may be able to work their way through college or a technical school or permits them to continue full time in their chosen field of work.

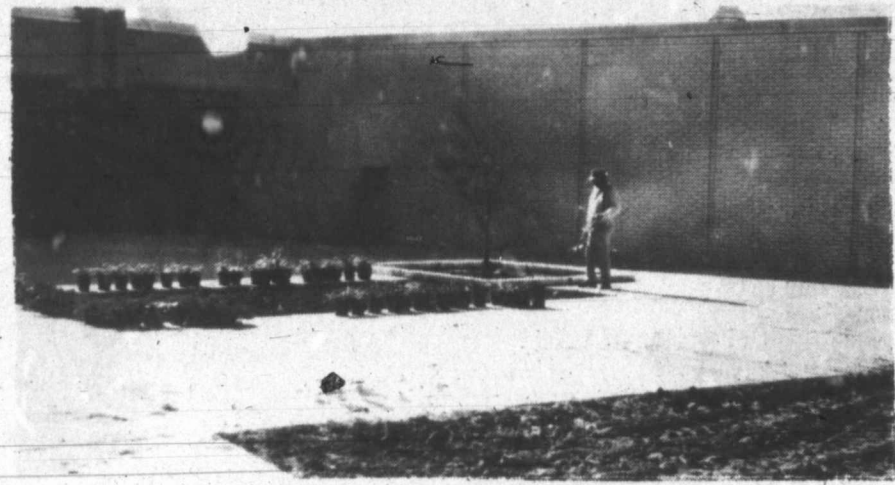

The students in I.C.T. or D.E. choose the field of work they would like to be in. They then work with the instructor, or through their own efforts, to find a job. Colorado City students get to choose jobs out of many different fields such as medical, technical, skill trades and area of distribution. Desirable jobs are usually available for the students who are interested in working.

The I.C.T. students are active in the Vocational Industrial Clubs of America (VICA) and the D.E. students are active in the Distributive Education Clubs of America (DECA). They plan to have a joint Employer-Employee Banquet and also to participate in the district and state contests for VICA and DECA.

Small groups will be conducted through the complex by members of the Student Council and Future Teachers Association.

Liberal Arts Areas Prepare For Future

ENGLISH
In an attractive and conducive atmosphere, the English Department of Colorado High School will offer English I, English II, and English III, with English IV for the superior talented students as an elective. The English courses will enable the student to develop self-reliance, and the capacity to accept responsibility in acquiring adequate and effective language skills in both oral and written communication.

The flexible facility provides a diversity of learning areas: a centrally located resource center, and a modern stage that will enhance the dramatic presentation of special classroom projects. The versatile classrooms encourage the frequent use of instructional media.

The modern educational complex creates a challenge and an opportunity in achieving the major goals of the English Department. Helping a student to become an invaluable, knowledgeable, and operable citizen is the primary goal.

FOREIGN LANGUAGE
At the present time the only foreign language offered at Colorado High School is Spanish. Future plans call for the addition of other languages as student interest indicates. In the new building the facilities for foreign language will be excellent. For the first time the classroom and the language laboratory will be in one room instead of in separate rooms as they have been. The language laboratory will be a portable, compact, wireless unit which can be used in the classroom; therefore, the students' moving from room to room will be eliminated.

Learning to communicate orally in Spanish is the primary objective; therefore, much oral work is done in our classes. The four skills of listening, speaking, reading and writing are practiced, but the skill of speaking is emphasized the most.

The students learn not only about the language but also about the people and customs of the Spanish speaking countries. By studying the Spanish language and culture, the students can learn about a different way of life and perhaps can appreciate their own language and culture more.

SPEECH & DRAMA
The Speech and Drama Department of Colorado High School plans a first major event in 1976 as a production honoring the American Bicentennial. Music and speech will be incorporated in this community-wide production which will be the first major event utilizing the expanded facilities of the new Colorado High School.

The auditorium of Colorado High School, which is already recognized as one of the best equipped in the area, will provide for the first time excellent facilities for major productions. During the 1976-77 school year a major musical production and an all high school drama production will involve greater numbers of students than anytime in the past.

Individual prose and poetry presentations, Reader Theater productions and one-act plays form the core of the program in speech and drama in the development of skills by individual members of the student body.

It is hoped that the new auditorium facilities at Colorado High School will encourage greater public participation in the wide-range of student activities and productions as well as enhance involvement by greater numbers of the student body.

SCIENCE
The new Colorado High School has the facilities to offer the finest science curriculum that can be obtained anywhere.

The courses offered are Physical Science, Biology, Chemistry and Physics.

The student should be well qualified for any type of college entrance requirements after the completion of these offerings.

The teaching and learning process has been enhanced by the new building. All types of modern equipment have been installed to offer the student the maximum of learning opportunities. We now have better lighting, more convenient storage, floors, desks and above all air-conditioning that will allow the student to study and work in the greatest possible comfort.

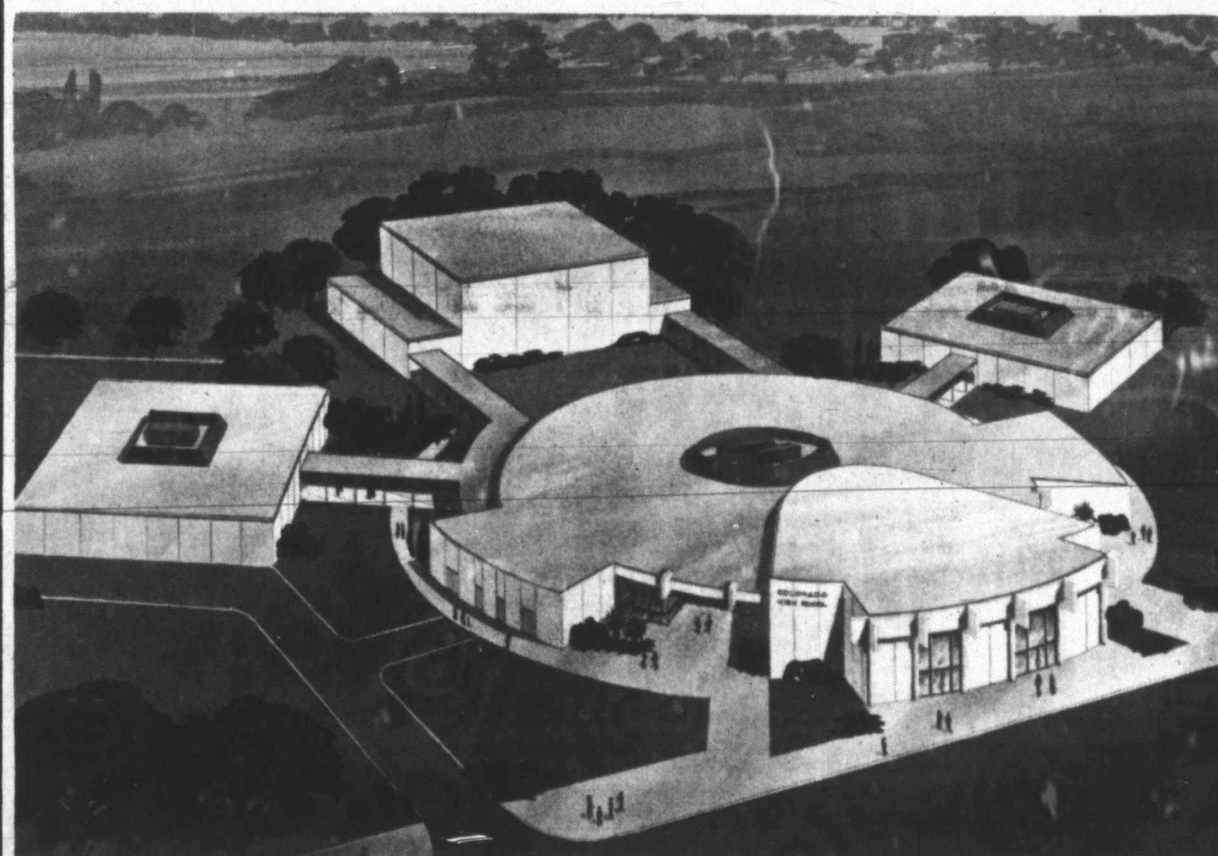

This will be a giant step in preparing the young people of Colorado City for their future life.

SOCIAL STUDIES

Colorado High School offers Social Study courses in World History, American History and Government. Throughout these courses a variety of topics are covered. We hope to expand our course offerings as we see student needs and interests. Our objectives are to acquaint the students with facts and concepts that relate to their lives today and to explore the possibilities of the future. All of the Social Studies teachers are concerned with emphasizing the importance of individual responsibilities. In our new facility we will have greater opportunity to use the audio-visual equipment. Also our library is now in the same building. In-depth research will be enhanced by having the library so close. These two factors plus an expanded curriculum will generate more interest in Social Studies, a much needed and relevant subject for today.

Homemaking, Fine Arts Building

HOMEMAKING
Homemaking and Consumer Education prepares youth for homemaking and

for employment in home economics related occupations. The subject areas forming

the basis for the particular discipline of homemaking education are human development and the family, including child development and home and family living, home management, consumer education, housing, food and nutrition, clothing and textiles and home nursing.

Homemaking education is assuming an increasingly important role in helping prepare today's youth, both boys and girls, for the dual role of homemaker-wage earner.

Just as homemaking education is a family centered body of knowledge, the homemaking department in the new Colorado High School was planned to help meet the demands and needs of a family in today's ever-changing society. It will provide the proper example of home environmental planning and will serve as a laboratory for the learning and practice of manual and social skills. The department has a well-equipped foods laboratory, including a demonstration unit featuring an overhead mirror, which reflects the exact procedures being used by the teacher. It also has a microwave oven, dishwasher, built-in oven and surface units on the demonstration counter.

In addition, the department has a large clothing laboratory, a living-dining room and a child development learning center, as well as office space, storage space and laundry area.

The addition of the child development learning center shows the shifting of priorities in Home Economics from the traditional cooking and sewing to a greater emphasis in the area of human development.

Keeping with today's trend of nostalgia, the old was combined with the new to create the living-dining area through the refinishing of bentwood chairs from a by-gone era. An old treadle sewing machine will be on display with other artifacts from the past. Various classes have worked on the entire decorating project.

ART & CRAFTS

The new Art room will have several advantages over the room that was offered in the old high school building. First of all it has no windows which will allow the students to do some photographic work such as developing and printing pictures and making photographs. Setting up for slide shows and movies will be easier because of the obtainable darkness which was hard to find in the old building.

In the spring Art I students build kites and have a kite flying contest. In the old building the trees and telephone lines took their toll. The new building has no tall trees and all electrical wires and lines are underground.

By the third trimester we will have a large new ceramic kiln. We have never had the potters wheel but now ceramic work will be hand made. This should create a tremendous interest in a new field.

BAND

The band program at Colorado High School is inclusive from the 6th grade through the 12th grade. It includes:

- Beginning band - 6th grade.
- Middle School Band - 7th & 8th grades
- High School Band - 9th through 12th grades.

The new Colorado High School band room is a beautiful modern facility which features lockers for individual students' instruments. This feature helps eliminate congestion in a single instrument room. Also these lockers are situated in corresponding locations with the different instrumental sections.

Other features are: four practice rooms, two closets, uniform room, library and office.

There is also adequate space for future growth of the band. I anticipate approximately 120 students

enrolled in the high school band by 1977. This should be our maximum enrollment.

With the new attitude and feeling of pride and with the modern facilities offered in the new building, I feel we can become and maintain a superior band.

CHORAL

The choral program at CHS should be ready to take giant strides ahead in the coming years with the new facilities. With the new surroundings and the carpeted rehearsal room, the quietness and cleanliness of the entire school area could not help but improve the singing attitude of the students.

Choir participation has increased from twenty-eight members two years ago to the present forty-four. It is anticipated that the choir will increase to a peak enrollment of approximately sixty members within the next two years.

CHS students helped with the move.

BUSINESS OFFICE
The Colorado Independent School District's Business Office is located at 256 Walnut Street with the Tax Office and has as employees J. S. Craddock, Jr., Catharine Morris and Brenda Henderson.

It is the responsibility of this office to keep an accurate record of all income and expenditures of the School District. School accounting is kept by funds and each fund must have a complete set of books. Since we have seven funds, we have seven complete sets of books. Double entry books are kept for each fund; as well as, encumbrances, which are used in order to know how the funds stand on a daily basis. Purchase Order are used in order to control purchases by the School system and to keep record of what we have on order.

Payroll checks are written every two weeks for hourly paid personnel while the certified teaching people are paid on the 20th of each month. We write about three hundred payroll checks each month and about the same number of payable checks to the people we owe.

Another responsibility of this office is to keep our investment program going so that we can benefit to the fullest from any money that might be available for investment. An example of this is the money we received when we sold our bonds for the construction of the new high school. We did not need this \$1,750,000.00 all at one time so the Board of Education instructed us that it should be invested. This office with the help of the bank has earned \$181,481.63 up through the present month. Without this additional money, many things in our new building would not have been available to us.

All of our funds are audited each year by a Certified Public Accountant to see that our records are correctly kept and accurate.

tions for delinquent taxes are added to the current tax collections, the office has collected over 100% in three of the last eight years.

This office must prepare the tax rolls and statements for each year, as well as, abstract books, to see that all items are assessed, ownership cards that have the description and sizes of buildings and land; plus air photo maps of property in the District. As ownership changes are recorded at the Mitchell County Clerk's office, these are picked up monthly and changed on our records to keep them current with ownership.

As new construction is finished, or additions made to existing buildings, the School District has certified appraisers to measure this new addition, then it is placed on the next year's tax roll at values that are in line with comparable property. Uniformity and equality of values is what this office strives to accomplish.

The School's tax records are audited each year by a Certified Public Accountant to see that such records are correctly kept, and accurate.

CAFETERIA
Colorado Independent School District has four cafeterias, one the new high school cafeteria. Approximately 180,000 to 200,000 lunches are served per year in the cafeterias. Each lunch is a Type A lunch as required by the USDA. Type A lunch furnishes one-third of the recommended daily dietary allowance of each child, recommended by the Board of Food and Nutrition, National Research Council, Washington, D.C.

The new high school facility has a large kitchen area and dining area which seats approximately 200 students, accommodating 400 students at the two lunch periods. It is equipped with a snack bar, a walk-in freezer and refrigerator, and a storeroom for dry goods and staples. High school serves an average of 200 to 280 students per day depending on the menu.

Manager of the high school cafeteria has as some of her responsibilities to assign the duties of the workers, order food to be purchased, oversee the food preparation, and collect money. Separate duties are assigned a meat cook, bread and desserts cook and salad and vegetables cook.

The snack bar is equipped to serve sandwiches and other foods such as hamburgers, hot dogs and corn dogs. It is also equipped with a drink dispenser and ice cream machine. One hundred fifty to 180 sandwiches are prepared and served each day at the snack bar, plus other snack foods such as chips and candy.

Supervisor, beside supervising all four cafeterias, plans the menu, purchases

the food and keeps records. There are 20 employees in

the cafeterias not including the supervisor, with a total

of 193 total years of cooking experience.

New Plant Complements Rest Of School System

KELLEY ELEMENTARY

The additions and renovations of Kelley School were completed in the summer of 1974. The work listed below was Kelley's part of the bond issue passed in October 1972.

--Fluorescent lighting fixtures were installed in each classroom, cafeteria and office areas

--Each classroom was air-conditioned

--Central air-conditioning for the office area was completed

--Exhaust fans were installed in all restrooms

--Extensive painting of rooms and gym and cafeteria

The above renovations have enhanced the learning atmosphere at Kelley School.

Future needs for Kelley Elementary School include the following:

--Flooring in hallways and classrooms will need to be replaced

--Cafeteria tables and chairs need to be replaced with furniture more suitable for young children (K - 2)

--Clock and sound system needs to be upgraded

--New lighting fixtures in hallways

--Continue replacement of student desks and tables as scheduled

Kelley Elementary houses grades Kindergarten, One and Two with 365 students currently enrolled.

It is our endeavor to encourage and assist each child in developing his individual talents and to provide opportunities for each one to grow in social usefulness so that he will become a responsible, participating member of our society.

The overall program is designed with the emphasis on success and not failure.

TITLE I READING

The Title I Reading Program in the Colorado City Public Schools provides individualized, prescribed instruction for those students whose performance indicates this need.

A continuous sequential program is provided for students in grades 2 through 8.

PLAN A

Plan "A" is a new system in special education, capable of providing comprehensive services to every exceptional and handicapped boy and girl in the State of Texas. It strives to make that educational experience relate specifically to the needs of each individual.

HUTCHINSON SCHOOL

The purposes of Hutchinson Elementary are many and each is important in the overall objective of the school, which is to provide quality education for each individual student.

It is the school's obligation to direct a wide range of attitudes, interest, and needs of all students into the most promising channels. To inspire students to think, study, observe and instill a desire for self-improvement.

It is also the obligation of the school to aid the child in developing socially, physically, morally and academically; also to motivate the child to defend and support American ideals.

The program is planned to meet the needs of the children who come from a varied background of economic, social conditions, and environment. Programs other than regular academic subjects to meet these needs of students with language learning disability, speech, visually and auditorially impaired, and students with learning disability or P.L.A. A Program, Speech Therapy provides additional help for these students. Students with difficult reading problems are helped by the remedial reading program.

Remodeling of Hutchinson Elementary

Summer of 1974 air-conditioning and heating was installed in all classrooms, teacher's workroom and library-material center. The library was enlarged by removing the wall between the library and material center. New lights and fixtures were added to all classrooms.

The administrative offices were also air-conditioned with a heating system installed. The Administrative offices and teacher's lounge were also carpeted.

A new ceiling, lighting and paneling of the Cafeteria improved the appearance of this part of the building. The speech therapy classroom was also paneled.

Future needs for improvement of building

Cafeteria and Kitchen needs to be air-conditioned. Replace present lights and fixtures in teacher's workroom and bookroom. Replacement of classroom teachers' desks. Storage space for teacher materials in each classroom. Shelving for material center and Audio-Visual room.

COLORADO MIDDLE SCHOOL

Board members, educators, students and citizens of the Colorado Independent School District are united in the firm commitment to maintain a first class, high quality school program for the youngsters of the district and the school community. The middle school is a part of this commitment. In Colorado City, emphasis is placed on the belief that learning is basically individual, and that a student's success depends to a large degree on the opportunities afforded along with the amount of initiative put forth and responsibility assumed.

The organization of the school system is not just a convenient arrangement of grades, students, teachers, and facilities but a carefully designed pattern which takes into consideration such things as the needs, interests, and abilities of the youngsters served.

The middle school is simply what its name suggests—a school in the middle. It is the school unit between the elementary and the high school. It serves the "in-between age" student. Its chief mission is to assist these students in moving from elementary school to high school with the greatest amount of success. It helps make the transition easier.

The transition from the sheltered, self contained elementary school to the more complex, highly departmentalized high school. It also helps make the transition from childhood to adolescence easier for the 10 to 14 year old students. The middle school is a learning center for students in their transitional years from elementary to high school and from childhood to adolescence. It creates an educational environment which provides for the changing needs and interests of young people in transition.

The middle school serves sixth, seventh and eighth grade students. Sixth graders are generally too mature for elementary school and eighth graders too immature for high school. New insights and knowledge regarding the nature and needs of the transitional youngster indicate that young people from about ten through fourteen years of age have more in common with other ten to fourteen-year olds as a group than they do with any other age group. However, as a group, these young people have

more unique characteristics and individual differences than other age groups. For this reason the middle school program is flexible and adaptable to the varying needs and characteristics of individual students.

Young people in the transitional years from childhood to adolescence are in a period of physical, emotional and intellectual change. They exhibit extreme differences in bodily growth and maturity. During this time they have unique characteristics, needs and interests. The middle school program is directly concerned about these changes that occur and characteristics that develop in youngsters during the pre-adolescence years.

With new and better facilities more courses have been inaugurated this year. These courses are: expansion and emphasis of the language arts, industrial arts, homemaking, girls' intramurals; increased arts and crafts, studio band and sixth grade choir.

The curriculum will and is constantly being evaluated to meet the needs of the students. In the planning for next year, advanced classes in several courses plus extending the girls' intramural program are being studied.

WALLACE CENTER

Community Education is the process of bringing a community together under one umbrella. The schools belong to the people. They should be used to serve all citizens.

Community Education is a Program to use the school buildings year-round for adult and child education classes, for enrichment activities, and for special programs and services to the neighborhood people.

It is a program to help the local and area people become more familiar with their schools and involved in their schools so that there will be better education for themselves and their children.

Community Education also provides coordination of other community agencies and programs avoiding senseless duplication of efforts and opens the schools for their use.

Programs and activities now in progress at the Wallace Center include:

- *Western Texas College Extension Center
- *Senior Citizens Program
- *Community Service Courses For Personal Enrichment and Education
- *Recreation
- *Adult Basic Education, GED Studies, Adult Vocational Classes

Preparing For Business World

BUSINESS

The business department constantly strives to tie the individual skills together and to provide the opportunity for students to work in a simulated business environment.

Already, students work on many short unit projects within the regularly scheduled classes. Dictaphone, ten-key adding machine, filing, duplicating, mimeograph and English grammar usage for communication units are completed by the senior level business students in addition to their scheduled classes and in the classrooms where sophomores and junior level students are learning the basic skills of typewriting, short-

hand, bookkeeping and business English. Some subjects, such as Typewriting I and Typewriting II are scheduled together. Students learn to work both independently and with others. This arrangement demands almost total individual instruction by the teachers.

The arrangement of the classrooms in the new high school lends itself to expand further on this "office environment" program. More can be done to transform the classrooms into office situations and work stations. One classroom has already been arranged into quad set-ups and individual work areas with the latest office-type furniture and machines. The rooms are connected by inside doors and window walls to further draw the working students into the feeling of an office unit. Plans for the future include the purchase of more office machines and the addition of an office machines course.

It is obvious that school clerical programs limited to basic typewriting, short-

hand, and bookkeeping are obsolete. Abilities must be further developed through directed learning activities simulated realistically in the classroom. Business teachers and students at Colorado High are striving to work together to unify theory with the reality of modern office procedures.

MATHEMATICS

The mathematics department offers eight courses:

- Fundamentals of Mathematics I and II.
- Introductory Algebra.
- Algebra I and II.
- Geometry.
- Trigonometry.
- Elementary Analysis.

Fundamentals of Mathematics I and II are offered for the student who does not plan to attend college. Algebra I and II, Geometry, Trigonometry and Elementary Analysis are designed for the college-bound student. Introductory Algebra was added to the curriculum this year for the in-between student who does not wish to take FOM I or II but is not ready for Algebra.

As STS courses, Trigonometry and Elementary Analysis enable students to earn extra grade points. The curriculum is flexible and may be adapted to meet the needs of the individual student.

Our major point of emphasis is helping each student achieve the knowledge, skills, and techniques he will need to function as a responsible, consumer in our society. Each student is encouraged to develop a personal responsibility for his preparation and success in mathematics through a program appropriate to his abilities, interests, needs and ambitions.

The new building has a better learning environment, better design for the use of audio-visual materials, and a centrally-located resource center. A special feature of the resource center is the provision of opportunities for students to do individual research and projects and to receive tutoring and individual assistance in areas of need or interest.

Physical Exercise Stressed

HEALTH & P.E.

The Health and Physical Education Department of Colorado High School is devoted to the physical and mental development of all students attending Colorado High. Ranging from grades nine to twelve, physical education is required for two years plus two trimesters of health before a student may graduate from Colorado High.

It is our goal to provide a relaxed yet active environment for the student to improve his physical well-being while learning fundamentals and basics of sports and knowledge of health and anatomy to further his advancement, capabilities and healthful well-being.

The physical education facilities at Wolf Gym have long needed improvement for they are contained in the original gym building and not in the new addition constructed in 1963.

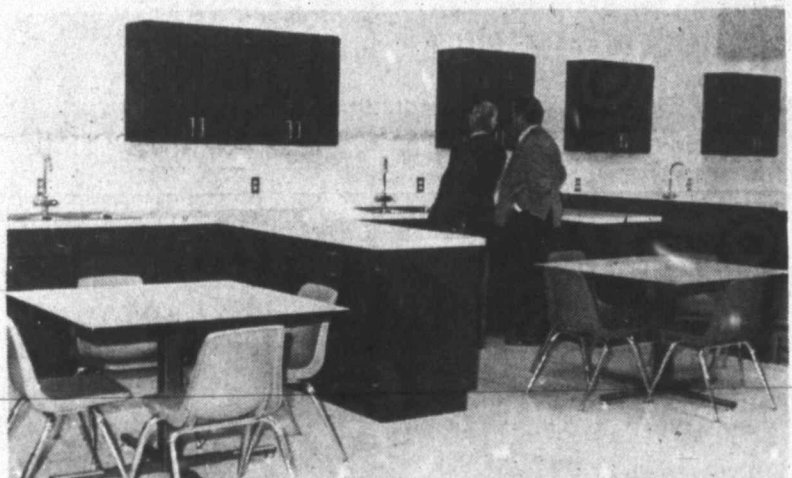

The new facilities should give the P.E. student a feeling of pride for it is a facility devoted primarily to physical education alone. The new gym will give the teacher better control of classes and a wider range of classes offered. It has increased floor space and improved methods for crowd control or trafficking.

The athletic contests will be continued at Wolf Gym. The gym is still a fine facility for many favorable comments are made each year from visiting teams.

In conclusion, the department would like to acknowledge the location of playing facilities, construction of safety controls, and abundance of conveniences that all point out the care and dedication put into the successful planning of a superior educational site.

Congratulations To The Colorado Independent School District On Our Beautiful

New High School

It Adds Beauty To Our City.
