DIES AT AUSTIN****FORMER WICHITAN SUCCEUMBS
TO RELAPSE AFTER LONG
SPELL OF ILLNESS****WAS SECRETARY OF SENATE****Prominent in State Legislative
Circles For Many Years—Funeral
To Be At Austin Today**

Clyde D. Smith, formerly of this city, but for several years located at Austin, died at 8 o'clock Friday night, of a complication of diseases. The funeral will take place this afternoon at Austin, Rev. A. P. Bishop officiating. Burial will be in Oakwood cemetery at Austin.

Clyde Smith was born 38 years ago in Mississippi, his parents moving to Wichita county when he was still a boy. During his early manhood he engaged in newspaper work, being editor of the Weekly Times in the early nineties. Later he was in the grain business, first with J. C. Hunt & Company, later with the Wichita Mill & Elevator Company.

In 1897 he was appointed a committee clerk in the State Senate and the following session was elected secretary of that body, which position he held each succeeding session of the Senate until his death. He was very popular with the State Senators and in legislative circles generally. At one session, when political exigencies caused the Senators to consider someone else for the secretaryship, a caucus of the Senate decided that his services were too valuable to be dispensed with and no change was made.

In Gov. Campbell's second administration he was appointed Registrar of Vital Statistics, which he resigned about eighteen months ago. Later he has been doing publicity work at Austin.

During last winter he was taken very ill and spent a number of weeks in a hospital at Austin. He then visited his mother, Mrs. E. D. Smith and his sister, Mrs. J. C. Hunt in this city, remaining here until his health was, it was believed, considerably improved. A few weeks ago he returned to Austin.

**SHEPPARD SPEAKS TO
HILLSBORO AUDIENCE****Wilson-Ramsey-Sheppard Line-up by
Speaker who introduces
Candidate**

By United Press. Hillsboro, Texas, May 11.—Mirra Sheppard spoke here this afternoon to an audience of approximately 1,200 people, the proportion of hearers being from the country. There was scarcely any deviation in speech here from those at other points since his opening. J. A. Thompson, secretary of the Hill county Morris Sheppard Club, presided and presented Judge Roberts, who in turn presented President Brooks, who introduced Sheppard in a short address appealing for a higher standard of civil righteousness in politics. The trend of the remarks of Chairman Thompson was construed as indicating disposition to form a line up among the supporters of Wilson for president, Ramsey for Governor and Sheppard for Senator respectively.

Both classed Wolters with Republicans and champions of trust and interest. Mr. Roberts' remarks were mainly eulogistic of Dr. Brooks.

**'EVERYBODY'S DOIN' IT'
THE SCHOOL MISSES SAY
WHEN FOUND SMOKING**

By United Press. Davenport, Ia., May 11.—A whiff of cigarette smoke in the dormitory of the fashionable and exclusive St. Katherine's Home here, resulted in an investigation by the sister superior in charge, and today a dozen girl pupils in the strict Episcopal school were brought before the authorities of the school and may be suspended. The girls are from prominent families of the Middle West, but their names are withheld. They range in age from 14 to 18. Some of the girls admit smoking cigarettes and assert that the older girls particularly those who have graduated and entered society, smoke regularly.

**COLQUITT'S SPEAKING

**CROWD AT HENDERSON
HEARS COLQUITT SPEAK****Governor Outlines Course Pursued By
Campbell and Ramsey in Peni-
tentiary Matters**

By United Press. Henderson, Texas, May 11.—Governor Colquitt filled his appointment to speak at this place today. County Chairman R. T. Brown called the audience to order and in a few brief remarks introduced John M. Tipps who in turn introduced Governor Colquitt.

The court house was crowded to its capacity and almost as many were turned away who could not get seats to hear the Governor. He spoke for about two hours to a very attentive audience following his speeches heretofore made. He was severe in his arraignment of Campbell and Ramsey. He said it was true that the penitentiary was in debt, but some of the debt was incurred during the administration of his predecessor. That the railroad from Rusk to Palsgatan was built with the school children's money and convicts blood; that the people of Crockett offered the sum of \$50,000 as a donation if the railroad from Rusk should be extended to that place, but that the offer was refused by Ramsey as chairman of the penitentiary board and endorsed by Campbell.

**TRADE TRIPS PLANNED
BY LONGVIEW BOOSTERS.**

By United Press. Longview, Texas, May 11.—The Longview Live Wires will operate their first trades special train for this season over the T. & P. and I. & G. N. Railways next Wednesday, May 15th. The special will leave Longview at 8:30 a. m., and will make short stops at Gladewater, Big Sandy, Hawkins, Mineola, Lindale, Swan and arrive at Tyler about 2 p. m.

**OKLAHOMA CANDIDATES
FILE NAMES AT CAPITAL.**

By United Press. Oklahoma City, Okla., May 11.—Ex-Gov. Haskell Saturday filed his name with Secretary Ben Riley of the State election board for United States Senator. Others filing were Scott Perlis, who wants to be returned to Congress by the Democrats of the Fifth District and Ben Bouldin of Elk City, Democrat for Congress at large. Bouldin opposed Perlis two years ago in the Fifth District for nomination.

**OCEAN TO OCEAN ROAD
PLANNED AT EL PASO****Wager of \$1000 put up by Advocates
of Conflicting Parties for
Highway.**

By United Press. El Paso, Texas, May 11.—Good roads enthusiasm has been worked up to such a pitch in this section that \$1,000 is now up as a wager on the relative merits of two transcontinental high ways. The ocean-to-ocean highway has been mapped through Chilton, Schomerville and Globe, Ariz., to Phoenix and the borderland route through El Paso, Douglas and Tucson, Ariz. The Globe people offered to pay \$1,000 that they could make a quicker trip from where the two roads separate at Lordsburg, N. M., west to Phoenix that could be made on the border land route through Douglas and Tucson. Today the Douglas good roads boosters covered the amount and the El Paso boosters signified their intention of covering a like amount. It now remains only for the two machines and drivers to be selected.

MOTHER'S DAY

Gather your rarest white blossoms of May,
Baptize them with love for mother today;
Go kneel at her feet, your faults there confess,
She'll freely forgive, she'll graciously bless;
Try to forget for awhile that you're grown,
Rest your tired head against childhood's own throne.

Whisper, "I love you," just that, nothing more,
These words have healed hearts that long have been sore;
Touch gently the tendrils of fast graying hair,
'Twill soften the sorrows she has to bear;
Thank God for your trust, your best earthly friend,
Whom He in His wisdom and mercy did send.

Perhaps your mother is far, far away,
Then send her a letter, do not delay;
A fair, fragrant flower press in its pages,
The balm of its breath will carry love's wages.
Her hands will tremble and her eyes will fill,
And the great mother love anew will thrill.

Oh do not delay, oh do not forget
The mother who never has failed you yet;
Since your last mislaid the time has gone by
Slowly for her, will you longer deny
Her right to a line and to a May flower?
To her they mean more than riches and power.

And you whose mother has long been asleep,
A sacred vigil today go keep;
Go alone to her grave, kneel down on the sod,
And there dedicate her child to her God;
Renew your covenant there o'er her dust,
Know that to her you were given in trust.

Place your white emblems of life on her mound,
Step lightly, remember, 'tis holy ground,
And that her spirit is hovering there
Like a great benediction after a prayer;
Then when you go forth away from that shrine
The harp of the winds will play "Mother O'Mine."

Then there are graves in a far away land
By which today some are longing to stand,
In memory of those who hold sacred dead
Wear your white flowers, by the Spirit be led.
Mother love! Mother love! wonderful thing,
Holding all nations beneath its broad wing.

**TWO WELLS MAY
COME IN TODAY****BENSON AND LITTLE WELL AND
WELL ON FISHER TRACT
IN SANDS****GOOD SHOWING IS MADE****New Territory Added to Field and
will Result in much Activity
There.**

Special to The Times. Electra, Texas, May 11.—Keenest interest is manifested here tonight over the developments in the Benson and Little well on the Douglas tract and the Mivie, Russell and McFarland well on the J. A. Fisher section No. 10 adjoining on the east.

Both wells are in the sands and have made showings today that are pleasing the most sanguine. The Benson and Little well is at the northwest corner of the Douglas tract and is the one which is being drilled deeper, having good pay in a shallow sand. The drill was in the sand in this well tonight and it will probably be bailed in tomorrow.

The well on the Fisher tract is drilled six feet into the sand at about 1635 feet and is being held in until a packer that has been ordered from Beaumont arrives. This will probably arrive in time to ball out the hole Monday.

The Benson-Little well extends the eleven hundred foot sand a considerable distance to the east and the well on the Fisher tract extends the proven territory more than a mile to the east.

The whole country southwest of the W. B. Honaker test is now looking good. A half a dozen new wells will be started in that territory within the next twenty days.

**OIL COMPANIES
NOT IN TRUST****SUCH IS ATTORNEY GENERAL'S
FINDING AFTER INVESTIGATION
IN EAST.****COMPETITION IN TEXAS****Neither Pierce-Fordyce nor Magnolia
Companies Have Violated Anti-
Trust Statutes**

By Associated Press. Austin, Texas, May 11.—Attorney General Jewel P. Lightfoot today gave out a statement on his trust investigation on his recent trip East in March and April. The report exonerates the Pierce-Fordyce Oil Association and the Magnolia Petroleum Co., from the charges of violation of the Texas anti-trust laws, which have been unofficially made against them in newspaper articles. He expressed the opinion that the Texas field furnishes the means of a lively competition between oil seekers.

"The record shows that the Pierce-Fordyce Association is a partnership in the nature of a joint stock association; it is not a corporation. H. Clay Pierce and S. W. Fordyce own a large interest. There are a great number of leading citizens of Texas who own interests in the association. The Magnolia Company is owned in the same manner. My records show that neither the Walters-Pierce Company nor the Standard Company nor any other corporation connected with either have any interest whatever in the property."

"Both these companies are operated by their owners and officers independent of any corporation and are in competition with each other."

**CLAIMS OF THE

THE 768 DELEGATES CHOSEN
UP TODAY****ROOSEVELT'S NEW FIGURES****Former President Claims He Has
319 Delegates—Concedes Taft
143 Votes in Convention**

Special to The Times. Washington, D. C., May 11.—Of the 1078 delegates who will compose the Republican National convention, 768 has been chosen up to today, according to Roosevelt estimates. Taft works figure 20 less. Differences arose over the Kansas and Maryland situation.

Representative McKinley of the Taft campaign claimed 483 delegates, conceding only 237 to Roosevelt. The latter claims 319 delegates, giving 143 to Taft. The Roosevelt managers contend that 114 delegates are unattached including 88 from New York and that 164 are contested. Both campaign committees in their tables give La Follette 36 delegates and Cummins 10.

Preparations for the two weeks' battle at Chicago over the seating of contested delegations are being completed.

Ohio the Battleground.

By United Press. Washington, D. C., May 11.—The ringing battle cries of half a dozen Presidential aspirants, the clash of conflict, the beat of political drums, the flare of campaign torches, and the bustle of staking down of Ohio's 48 coveted delegates, will make the Buckeye State the hottest commonwealth in the country during the coming week.

Political sharps here tonight declared that never had such preparations for a campaign been planned as those to close up before the presidential primary in Ohio on May 21. President Taft himself will cross the State touching every county in his appeal for support in his own State. Theodore Roosevelt also plans a personal invasion.

By Associated Press. Dallas, Texas, May 11.—S. W. Hogue, aged about 65 years and traveling for a St. Louis produce house dropped dead at a Dallas hotel this forenoon.

**RAMSEY APPEALS TO
CONFEDERATE VETERANS****Tells Them How Colquitt has Treated
Old Soldiers at Austin and
Elsewhere.**

By United Press. Sherman, Texas, May 11.—Judge Wm. F. Ramsey, candidate for Governor of Texas, spoke here this afternoon. He was introduced by Judge A. L. Wolf, who declared that his speech was delivered in the opera house which was crowded to its fullest capacity both up and down stairs. The crowd was estimated at between 1,500 and 2,000. In his speech he spoke along lines of former speeches, but took advantage of the presence of a large number of Confederate veterans who had attended a decoration service and also attended the speech-making to tell them that Gov. Colquitt had dismissed an ex-Confederate veteran who was in charge of the Confederate home and had put in his place a fair-haired boy of about 30 years. He declared that if elected Governor he will fill these places with Confederate veterans.

**PROHIBITION DEBATE
BARRED BY WOLTERS****Says He Will Not Discuss Matter
With Sheppard Or Anyone Else
—Speaks at Bonham**

By United Press. Bonham, Texas, May 11.—Col. Jake Wolters, candidate for United States Senator, spoke here this afternoon in the court house to an audience of about 500 people. He paid his respects to Congressman Morris Sheppard and stated that prohibition was not a National issue and that he did not propose to fool away his time debating the issue with Mr. Sheppard or anyone else. He also made it very clear to his audience that he was opposed to the initiative, referendum, and recall ideas and met with very liberal applause from his hearers at frequent intervals throughout his speech.

WEATHER FORECAST**West Texas, Sunday general-
ly fair.****TO INVESTIGATE WATER
SUPPLY AT PLAINVIEW.**

By United Press. Austin, Texas, May 11.—A thorough investigation is to be made by the State health department through State Health Officer Steiner of the report coming from Plainview that that city is turning its sewerage into a subterranean stream which underlies the town. Such a step the health officer contends would tend to contaminate the water supply of the city and very seriously affect the health of the people and sanitary conditions.

Dr. Steiner said he had received complaints from there regarding this matter and that he would take up the matter at once. He will advise the city and county health officers there to make the investigation. Dr. Steiner said that it is a violation of the law which prohibits the pollution of streams.

**SERGEANT MANLEY IS
GIVEN FORTY YEARS****National Guardsman Found Guilty of
Second Degree Murder in Trial
at Waxahachie.**

By United Press. Waxahachie, Texas, May 11.—Following the verdict of guilty of murder in the second degree and assessing the penalty at 40 years in the penitentiary the attorneys for Sergeant J. D. Manley have given notice for a motion for a new trial. If this is refused an appeal will be taken to the court of criminal appeals. Manley bayoneted and killed Louis Reichenstein, a spectator, when President Taft visited Dallas, October 23, 1909. Guardsmen all over the country are said to have raised a defense fund in his behalf.

This is Manley's second trial. He was tried in Dallas county and given a life sentence. The court of appeals reversed this and a change of venue was then granted to Ellis county.

**INNOCENT BYSTANDER IS
SHOT AT DENISON.**

By United Press. Denison, Texas, May 11.—Will Benedict, an aged stone cutter was shot through the right lung and probably fatally injured tonight as a result of an affair in the heart of the business district. In a difficulty between H. Howard, a former policeman and H. H. Sims, the former shot at the latter five times. Sims was not hit, but Benedict who was standing near was shot. Chief of Police D. Wagner was slightly injured by a stray bullet.

**WRECK VICTIM'S BODIES ARE
BROUGHT TO TEXAS.**

By United Press. Marshall, Texas, May 11.—The bodies of four victims of the wreck of the Confederate veterans special train on the New Orleans & North Eastern Railway at Hattiesburg, Miss., passed through Marshall this morning. The bodies were those of Mr. Leonard P. Hillis, Mrs. Eva Hollis and Minnie May Hollis, aged four and Winnie Hollis, aged 2. They will be taken to Edgewood, Texas for burial.

**RANDELL CRITICISES
OPPONENTS AT CAMERON**

By United Press. Cameron, Texas, May 11.—Hon. C. B. Randell of Sherman spoke to a crowd of about 200 at the court house this afternoon. He made about the same speech as he has been making at other appointments. He touched on the initiative, referendum and recall, scoring Sheppard for his weakness on this point, condemning Wolters for not being for it and ridiculing him for favoring part and not all. He made his usual opposition-to-trusts talk and criticised Sheppard and Wolters for not being stronger on this. He says the trusts cannot be controlled by legislation, as long as legislators are in the employ of trusts. On the prohibition question he was for local self-government; and said he would not represent the people as a pro, neither as an anti, but as a Democrat in favor of a Democratic tariff, for revenue only. He appealed for the votes of the people to help him in that he may do all in his power to bring reform. His speech was well taken, having lots of followers.

**FATE OF REBELS
NOW IN BALANCE****SURROUNDED BY FEDERALS
WITH HUNGER AND THIRST
ATTACKING FROM WITHIN.****ARE BADLY OUTNUMBERED****Government Troops, Instead of Being
on Defensive, Have Been
Aggressive Lately**

By United Press. El Paso, Texas, May 11.—Driven from Tlalualillo by the army of Gen. Huerta, the Mexican rebels today made a stand in the desert at Conejos, Mexico, and in a blistering heat endeavored to stem the tide of Federal victory which for two days has been threatening to overwhelm them.

Tonight the fate of the revolution appears to be in the balance and nature is apparently of the rebels. Thirst and hunger today handicapped Gen. Orozco's men badly. Their hope had been to take and enter Bormijillo and thus give the way for a quick movement to Torreon. At Bormijillo, however, the rebels found Huerta with a force twice as large as they had expected. For twenty-five miles across the desert they found federal troops stretched and in their rear was Gen. Tracy Aubert whose defeat of Salazar's men had given the rebels grave concern.

Today the federals continued their aggressive tactics and the day has been another costly one for the rebels. Salazar, who was called from Cuatro Ciénegas to reinforce the main army of the rebels, brought a demoralized body of men and Salazar himself wounded in the Cuatro Ciénegas fight, was in no shape to give assistance. Calls for reinforcements sent out by Gen. Orozco yesterday brought small response and the third day of the battle was an unequal one.

Gen. Orozco's advance of guard of rebels has been driven back toward Escalon, the central base of insurrection in Northern Mexico. Instead of being on the defensive the government troops have within the last 24 hours pushed the attack vigorously, forcing the rebels northward nearly 20 miles to Cuernavaca. Personal and other towns occupied by the liberal forces within the week were evacuated to the federals.

These facts became known at 4 o'clock this morning when a telegraph interview was arranged between Gen. Joaquin Teller at staff headquarters of the federal troops north of Brownsville and an Associated Press representative here. It was learned that since yesterday morning when communication was established with the headquarters of Gen. Victoriano Huerta, at daybreak today was near Terrenal and his outposts were pitched northward toward Conelo, bringing up the rear of the forces of Gen. Rabaza while off toward the northwest. Aubert with 4,000 men threatens to come east near Escalon to flank the main body of the insurgents.

The federal forces now number nearly 10,000 men and latest estimates give Orozco several thousand. With reserves it is estimated that altogether about 18,000 men are spread over the barren plains and deserts within a radius of 75 miles. The government troops last night crept cautiously north. Shortage of water and food and general unsanitary conditions are having effect on both armies. Fever among the soldiers is prevalent. Gen. Huerta the federal chief, reached the front last night near Terrenal, but he could not be reached by wire. Gen. Teller was last in touch with him at midnight.

"The enemy is exhausted and hungry," said Teller. "They intended first to get behind us going to the east to the border, but the opportunity of Gen. Aubert intercepted them, causing a loss of more than 100 dead. They were routed shamefully and are still being pursued. The enemy was also beaten at Saragosa and LaBilla on the same day. We found many of their dead and wounded as we advanced today. They left behind many horses in their flight and abandoned much ammunition. We lost about ten or twelve killed and a few wounded."

REMAINED WITHOUT BAIL AFTER SHOOTING WIFE.

San Antonio, Texas, May 11.—Joe Chavez, charged with the murder of his wife April 15, was remanded to jail without bail by Judge Dwyer in a proceeding hearing here today. Chavez shot his wife because she refused to live with him. Her twelve-year-old son witnessed the tragedy through a window being locked out while Chavez and his wife were quarrelling. The killing took place following a policeman's refusal to make the arrest without a warrant and as the woman was dressing to go to the court house to make affidavit while a policeman was standing on the front gallery waiting for her.

AIRDOME TO OPEN MONDAY NIGHT

The Lamar Airdome will open for the season of 1913 Monday night. This popular amusement place has been repainted and has been fixed up in the most attractive manner and promises to be even more popular than it was last summer.

Wren and Berry, the proprietors, when they open the Airdome will be in a position to give a show any night, rain or clear, as on rainy nights they will give their show at the Lydia Margaret Theatre instead of the Airdome.

For the opening performance at the Airdome they will have two musical and dancing acts, said to be of the highest class and three reels of splendid pictures.

One of the musical acts will be Matilde and Elvira in Spanish singing and dancing. They will be dressed in Spanish costume and will dance with the castanet and tambourine. The Musical Brynans will also be featured in some novelty acts. The orchestra will be the Musical Halls.

MANY PROTESTS AGAINST PROPOSED FREIGHT CHANGE

By United Press.
Washington, D. C., May 11.—Protests against the proposed restriction of common point rates in Texas, on June 7th by the Interstate Commerce Commission were received by many of the Texas delegation today. The

commission at first stated that no such action had been proposed. Representative Slayden visited the commission to learn the facts. He was told finally that the joint tariff agent of the Texas line whose office is in St. Louis had filed with the commission a new tariff to become effective June 7th to abolish about 100 common

points, thereby raising freight rates. Mr. Slayden said that effectual protests might be made by people at the points affected.

"If the people at the points included in the proposed new rate," said Mr. Slayden, "will file with the Interstate Commerce Commission letters protesting against the increase

of rates, the commission has informed me that it will probably suspend the operation of the proposed new tariff and put upon carriers burden of proof that the proposed advance rates is justifiable."

I will test your eyes free all next week. Dr. Duncan.

Sheets, Sheeting, Pillow Cases, Bed Spreads and Table Linen—They are staple—The word itself means fixed-unvarying-study. Not only is that true of merchandise, it is equally true of the prices fixed, like those on groceries, sugar and flour. Imagine the rush at Pennington's tomorrow, if we proposed to sell sugar and flour at a reduction. And yet we are going to do practically just that—The thing is the same; the form is different. That is why this housekeeper's sale stands for real, broad helpful achievement. The bargains are even better than present conditions indicate—Whereas a comparison with today's cotton goods prices show fine and big savings, you must hold in mind that the floods in the greatest cotton growing states have sent raw cotton prices to the high water mark, and the end is not yet. Staples will be higher. Buy now when a little foresight will save a lot of money. Quantities immense—some hundreds of sheets and pillow slips, great quantities of sheetings, bed spreads and table linens.

The greatest event we have undertaken for some time. Remember these prices are good for one day only, tomorrow, Monday

SHEETING AT A GREAT SAVING.

The prices on sheetings will undoubtedly be advanced in a few days. Buy now and save.

Ex-Senator Foraker once said of our own Capt. Bill McDonald that he was a man who would not hesitate to charge hell with a half pail of water. This, of course, was a gross exaggeration. But Capt. Bill has done that which no many people would dare to do. He has defied or refused to obey a bench edict of a Hardebeck county court. The county Democratic convention held forth in one of the court rooms and as it was not as harmonious as it should have been this made it difficult for the court holding forth below to proceed with its business. The judge sent the sheriff up-stairs with instructions to clear the convention hall or restore quiet. Capt. McDonald was the chairman of that convention and received the order of the court with becoming dignity but calmly replied that the body over which he presided was a Democratic convention and that as such it would not adjourn until all business before it had been disposed of. Capt. McDonald suggested to the sheriff that the court might see its way to adjourn. Captain Bill won out and was not held in contempt of court.

Telling How It Happened.

The able editor of the Fort Worth Record, who has been engaged ever since the Presidential campaign opened in opposing the candidacy of Hon. Woodrow Wilson and who saw, not only the State, but his own county and precinct instruct for Wilson, is evidently still dazed by the blow as is shown by his explanation of the result.

The Record says that Wilson's strength was composed of "zealous prohibitionists, socialistic and populist democrats, and unrelenting enemies of Senator Bailey."

We presume that it was "the zealous prohibitionists" who carried for Wilson such counties as Comal, Travis, Gillespie, Falls, McGinnis, Dallas, Tarrant, Tom Green and Wichita, and that it was the unrelenting enemies of Senator Bailey who gave Wilson the votes of Pannin, Grayson, Lamar, Denton, Hunt, Collin and of every county in Senator Bailey's old home district except his own county of Cooke, and that the "socialistic and populist democrats" who favored Wilson carried for him such reliable democratic counties as Ellis, Johnson, Colorado, Limestone, Navarro, Rusk, Shelby and Smith.

The Record's explanation is one that does not explain. The strength of Governor Wilson is with the plain people; those who held no office and wanted none. He won against the democratic machine in Texas everywhere. If in any sense his victory was a defeat for Senator Bailey, it was because Senator Bailey made the issue himself by fighting Wilson instead of favoring some other good democrat, as was his privilege. From our observation prohibition was not in issue, for among the leaders in Wilson's ranks in the county were strong men on both sides of the question; nor was the Bailey question in issue for some of the strongest friends of Senator Bailey in this county supported Wilson.

It is clear that the initiative, referendum and recall were not an issue for the position of Wilson and Harmon was precisely the same, and Clark who was the only man who had at any time ever actively espoused this doctrine was third in the race. We trust that the genial editor of the Record will bathe his fevered brow, bow to the will of the people of his precinct, county and State and lend his great talents to carrying out their will.

TELEPHONE LECTURES FOR EDITORS AT TEMPLE.

By United Press.
Temple, Texas, May 11.—One of the most unique features of the convention of the Texas Press Association to be held in this city next week will be the long distance telephone lecture under the supervision of District Manager J. M. Carroll of the Southwestern Telegraph & Telephone Co. Three hundred individual telephones will be provided, one at each plate at the smoker for the lecture to be delivered by phone to the editors. Long haul cable from St. Louis or Chicago will be provided. Mr. Carroll has stated that the name and the place from which the speech will be delivered will be withheld until that night.

PUBLIC DRINKING CUP IS DOOMED

TO BE ABOLISHED ON TEXAS ROADS BY BOARD OF HEALTH ON JUNE 1

QUESTION OF LIABILITY

Attorney General's Department Issues Ruling That Railroads Would Not Be Liable For Damages

By United Press.
Austin, Texas, May 11.—The railroads of Texas would not be liable for damages by a passenger or passengers, by complying with the order of the State board of health for the abolishment of the public drinking cup, according to a ruling given State Health Officer Steiner this afternoon by the Attorney General's Department through First Assistant Attorney General James D. Walthall. This ruling was in answer to an inquiry by State Health Officer Steiner in which he says the board of health has decided to issue an order providing for the abolishment of the public drinking cups on passenger trains effective June 1st, but before making the order he wanted to know if a passenger would have cause for damages against a railroad for failure to provide drinking cups.

"I have given this matter quite careful consideration," advises Mr. Walthall, "and of the opinion that should the railroad companies comply with the order referred to, they would not in any way become liable in damages for failure to provide drinking cups."

He quotes from the sanitary code which requires railroads to provide water coolers and wholesome water, etc., on their trains, but Mr. Walthall says that powers in the code does it require providing drinking cups, therefore, it would be perfectly legal for the railroads to comply with the directions of the board of health.

EDITORIAL COMMENT.

It will be a rather difficult matter for the anti organs of the State to convince the people that the question of prohibition should not figure in the senatorial campaign, considering the fact that of all the able men they have on their side of the question they picked as their candidate for the position the general manager of the anti cause in the State. The pros were not desirous of having that question lugged into that race. And as an evidence of this, when Tom Ball, chairman of the Statewide campaign for the pros, announced for the senatorship he did not receive sufficient encouragement from the pros, and withdrew. Now that it has been forced into the contest by the anti's rallying to the support of Col. Wolters, the pros can do nothing but give their opponents the best they have in the shop, and this they will most assuredly do.

The widow of Sockless Jerry Simpson, has just recently held a seance with her late departed, gives it out straight from the shoulder that Roosevelt will be the nominee of the Republicans for President, and Clark for the Democrats, but that he is for Champ first, last and all the time and that the gentlemen who registers from Missouri and of houn' dawg fame is going to be the new President of the United States. Jerry's prophecies and predictions, while in the flesh never induced very many sports to back them with their coin, and it is not likely that they are going to have any more confidence in them since he died than before, but it must be admitted that the indications are very favorable—both for the nomination of Roosevelt by the Republicans and the election of a Democratic President. It may be Clark, Wilson, Harmon or Underwood. As to that part of it, it will not make much difference. Either have a sufficient number of Democrats whoopin' it up for them to take all the jobs that our friends, the Republicans will be forced to give up.

STRIKE OF NEWSPAPER PRESS MEN IMMINENT IN CHICAGO.

By United Press.
Chicago, Ill., May 11.—The Union Pressmen employed on Hearst newspapers in New York, Boston and other cities will strike in sympathy with the union pressmen and four other unions who are now on a strike against Chicago newspapers was the prediction tonight at the local pressmen's headquarters from Atlanta, the local strikers, however, received word that a strike was called on the Atlanta Georgian by the pressmen. It was believed that James S. Lynch, international president of the Typographical Union, would succeed in preventing the local printers in walking out in sympathy with the unions already on strike.

TAKING TESTIMONY IN ALLEN TRIAL ENDS

Defendant Hunsell Is Last Witness and State Offers No Rebuttal Testimony

By United Press.
Wytheville, Va., May 11.—Taking of evidence in the trial of the commonwealth of Virginia against Floyd Allen, charged with the murder of Wm. Foster was completed late this afternoon. The prisoner himself was the last witness. When he left the stand which he had occupied most of the day the defense rested, and after a brief consultation the attorneys for the prosecution reported that they had determined to offer no rebuttal to the testimony.

NO SOCIAL BOYCOTTING AT "TEXAS" LAUNCHING.

By United Press.
Washington, D. C., May 11.—Secretary of the Navy Meyer took the trouble tonight to deny a rumor that officials of the Navy Department and their wives would declare a social boycott on the launching of the battleship "Texas" because Gov. Colquitt of Texas selected to do the christening Miss Claude Lyon, daughter of Cecil Lyon, Roosevelt's campaign director in Texas. Meyer stated that he intends to be present at the launching and so far as he knows that no other officials have changed their minds about being present except President Taft, who gave a partial promise to attend but who will be in Ohio busy with his campaign.

Deaths at Cisco.
By United Press.
Cisco, Texas, May 11.—Two burials occurred in the Cisco cemetery at the same hour today. One was Mrs. C. W. Bedford, wife of the president of the M. & F. Bank died after a long illness; the other funeral was Chas. A. Abbott, whose name is the first on the Roosevelt tough rider roster.

An Infant Cuvier.
Miss Griggs easily induced the wealthy Mrs. May to let her son Freddie join the vacation class in natural history that she was organizing for children.

"I'm sure he'll love it!" said Mrs. May, with surprising enthusiasm. "And you will find that he knows a lot about natural history already."

"Indeed! That is very pleasant," murmured Miss Griggs, vaguely, for she was not prepared for scientific attainments in a spoiled boy of five.

"Yes," said Mrs. May, complacently, "ever since Freddie was a baby the chef has made all his blanc mange in the shape of rabbits and squirrels, and only lately he has begun to make him marmalade frogs and chickens and turtles, and Freddie simply worships them—you can't get him to touch anything in a plain world."

"I am sure," concluded Mrs. May, "that you will find Freddie very advanced for his age."—Youth's Companion.

DANCING FOR AN EMPRESS

How Princess Der Ling and Her Sister "Jumped" for the Dancer of China.

According to the Princess Der Ling, author of "Two Years in the Forbidden City," the old dowager empress of China showed great curiosity as to the dance customs of Europe and failed to see how any pleasure could be found in such an occupation. She had been told that even old women with white hair were to be found at balls. "Her majesty said," the princess writes, "I would like to see how you jump; can you show me a little? I went in search of my sister and found her busy talking to the young empress. I told her that her majesty wished to see how people dance, and that we must show her. The young empress and all the court ladies heard this and all said that they also wished to see. My sister said that she had noticed a large gramophone in her majesty's bedroom and that perhaps we could find some music. I thought that was a good idea and went to ask her for the gramophone. She said: 'Oh, must you jump with music?' 'I almost laughed when she said that and told her it was much nicer

with music, as otherwise one could not keep in time. She ordered the eunuchs to have the gramophone brought to the hall and said: 'You jump while I take my dinner.' We looked over a lot of records, but they were all Chinese songs, but at last we found a waltz, so we started to dance. We could see that a lot of people were looking at us who perhaps thought that we were crazy. "When we had finished we found her majesty laughing at us. She said: 'I could never do that. Are you not dizzy turning round and round? I suppose your legs must be very tired also. It is very pretty and just like the girls used to do centuries ago in China. I know that it is difficult and one ought to have any amount of grace to do it, but I don't think it would look nice to see a man dancing with a girl like that. I object to the hand around the girl's waist; I like to see the girls dance together."

Salesmanship.
To be regarded as a successful salesman you must be able to sell things that the purchaser does not wish to buy.

Cops and Cops.

The examining corps of the patent office is of an unusually high order of intelligence, and the members are generally acquainted with the various arts. Sometimes amusing things occur when an examiner fails to understand a technical term well-known in another art.

A "cop" is defined as "the conical roll of thread formed on the spindle of a spinning machine." In an application now issued, and consequently a public record, the applicant referred to an illustration as "the representation of a cop."

Not understanding the word, the examiner wrote, seriously, a letter in part as follows:

"The attention of the examiner being called to this case, he regards it as in no condition for official judgment on the merits. Applicant shows a device which the examiner would be inclined to regard as the representation of a ball of twine. Applicant says, however, it is 'the representation of a cop.' It does not look like a policeman, which to the examiner's mind is the popular signification of the word cop, and consequently the word requires some limitations."—Scientific American.

Taft Has Signed Pension Bill.

By United Press.
Washington, D. C., May 11.—Just before midnight upon his return from Princeton University, President Taft signed the Sherwood service pension bill as amended by the Senate—the final act making it a law. Increased pensions are provided to all 90 day veterans in the Civil war and those who served at least sixty days in the Mexican war.

Needs no Sherlock Holmes to Know Who are Properly Underwared These Days

Note the fidgety, nervous, uncomfortable person who is hunching his shoulders up on one side then on the other—that person is wearing either ill-fitting underwear, or underwear of the wrong weight. Then behold the serene one who seems only intent upon the thing he is doing, entirely oblivious of the fact that he is wearing underwear, because he wears the right sort; probably he is wearing a Combination Suit, the ideal in underwear comfort. Roosevelt May Get Washington.

By United Press.
Spokane, Wash., May 11.—Supporters of Col. Roosevelt, it seems certain today, will control the Washington State Republican convention which meets at Aberdeen next Wednesday and the Washington delegation to the National convention at Chicago will probably be solid for the former president. This is the way the delegates so far selected line up today: Col. Roosevelt 206; Taft 125; La Follette 8; Doubtful 108.

FORT WORTH ON LINE OF PROPOSED HIGHWAY.

By United Press.
Fort Worth, Texas, May 11.—A National highway extending from Winnipeg, Canada to Galveston and Florida passing through Fort Worth may be eventually be built according to information contained in a letter received Saturday morning by County Clerk Beavers from Major T. H. Jackson of the War Department Engineer's office at Dallas.

Major Jackson informs the county clerk that the planned National highway will follow a general line along the ninety-eighth meridian from the Canadian border.

FIRE DEPARTMENT GETS A CHECK FOR TEN DOLLARS.

The fire department is in receipt of a check for \$10 from G. W. Filgo, ten-dollar appreciation of good service rendered by the fire boys on the night of April 25 when a building owned by Mr. Filgo caught fire. Chief Stampfli desires, through the columns of The Times to publicly thank Mr. Filgo for his donation.

SAYS CROP CONDITIONS IN OKLAHOMA ARE GOOD.

Hon. F. M. Kell, a prominent business man of this city, returned a few days ago from Oklahoma, having just completed a tour of Northwest Texas and Southern Oklahoma, where he has been in a number of cities on business.

He reports that crop conditions in the sections visited by him were never better, and that without any unforeseen happening, a wheat crop is assured. He thinks that the farmers in places visited by him will thrash an average of more than twenty-bushels to the acre, and that a better wheat crop will be harvested this season than during the last seven years.

Mr. Kell also says that there are flattering prospects for a bumper oat crop, and that other crops are all up and doing nicely. According to him, corn, cotton, milo, maize, kafir corn and alfalfa are all in fine growing condition, and all things point to this as one of the most prosperous years which the farmers surrounding Wichita Falls have ever experienced.

Receive Copy of Tariffs.

By United Press.
Austin, Texas, May 11.—The railroad commission today received copies of new tariffs to be put in by the Interstate railroad changing the common point territory, placing Sweetwater west of the present common point territory, copies of which have also been filed with the Interstate Commerce Commission and which caused the protest by the people of Sweetwater. The change as disclosed by the new tariffs consist of a provision for differential on all articles taking commodity rates to Sweetwater, San Angelo and points in that section. There has been no advance made in class rates and the Texas commission is advised that the new tariffs become effective June 7. The effect of these new tariffs is the withdrawal of all commodity tariffs west of Sweetwater. The advance by this change means an increase in commodity rate of 10 percent. The people of the section affected are, complaining strenuously.

500 NEW APPLICATIONS FOR PENSIONS RECEIVED

By Associated Press.
Austin, Texas, May 11.—Pension commissioner Buford announces that he has approved all affidavits for pensions for the quarter ending May 31 and these affidavits have been sent to the comptroller's department. There are about 500 new applications for pensions making the total on the rolls approximately \$13,000.

TWO CONVENTIONS HELD AT GALVESTON MEETING.

By United Press.
Galveston, Texas, May 11.—The Republican Congressional Convention for the seventh district met here today. The Roosevelt and Taft factions divided right at the outset and lost no time in holding dual conventions in the same hall, one instructing for Taft and the other for Roosevelt. Each side claimed a majority of the counties and votes of the district and neither appeared disposed to make an effort to reconcile differences.

NEW PROBE IN ARCHBALD CASE

HOUSE COMMITTEE WANTS DEPARTMENT OF JUSTICE TO TAKE ACTION

CONTRADICTORY EVIDENCE

Saturday's Hearing Develops Mass of Conflicting Testimony That Is Bewildering

By United Press.
Washington, D. C., May 11.—Bewildered and almost lost in a fog of contradictions from several witnesses, the House-judiciary committee investigating the impeachment charged against John W. Archbald of the Commerce Court took drastic action this afternoon ordering a new investigation by the department of justice. Wesley Brown, special assistant to the attorney general tonight took charge of the investigation. He said Pennsylvania would be combed for more documents bearing upon any of Archbald's deals. In addition a subpoena was ordered duces tecum, Brown to Capt. W. A. May, manager of the Erie Railroad coal properties to submit every letter and paper in his files which Archbald ever wrote or received in connection with the railroad coal properties.

The hunt for evidence will also extend, it is said, to the letter files of the Lehigh Valley and the Philadelphia and Reading roads. The new track was provoked by the contradictory testimony of Edward B. Williams, Archbald's alleged partner in the Erie Cinn Coal pile and that late today of Jon Henry Jones of Scranton, promoter. Jones ridiculed Williams' testimony regarding the \$90 note given by Archbald in connection with the Venezuela timber deal after Williams had punched his own testimony so full of holes that many members of the committee tonight openly expressed disgust and disbelief of his evidence.

WOMAN MAKES DENIAL TO HOUSE COMMITTEE.

By United Press.
Washington, D. C., May 11.—Denying that she was being paid anything to prosecute an inquiry into the federal meat inspection service, Mrs. Caroline Barrett Crane today before the Moss committee assailed agricultural officials for what she said was "their unfair aspersions and insinuation" that she represented some special interest. She urged adoption of Representative Nelson's resolution for a probe.

Mrs. Crane said the department recently alleged she was in the pay of big company at Dayton when she had only been employed by them two days in "making a sanitary survey" of their plant.

The committee took Representative Nelson's resolution under advisement and will later determine whether the department of agriculture will be called upon to defend the charges. Nelson said tonight that he had a dozen witnesses who could substantiate Mrs. Crane's declaration that "almost damnable condition of affairs" exists in the meat inspection service.

ROOSEVELT IS EASILY VICTOR IN MINNESOTA

By United Press.
St. Paul, Minn., May 11.—With Robert M. La Follette a good second, Theodore Roosevelt swept the Republican caucus today overwhelming Taft by 3 to 1. La Follette ranged beaten 2 to 1 by Senator La Follette. Minnesota's 24 delegates as a result are practically assured for Col. Roosevelt including the six delegates at large which will be chosen by the State convention May 16.

Returns late today from a majority of the 67 counties in the State did not give Taft a solid delegation, while Roosevelt has carried over 50 counties. Twenty counties held preferential primaries. The popular vote for Roosevelt ran about 5 to 1 over Taft in these counties. La Follette in turn beat Taft over 2 to 1.

BOLT TAKES PLACE WITH REPUBLICANS AT AUSTIN.

By United Press.
Austin, Texas, May 11.—Delegates to the Tenth Congressional District Republican Convention sprung a surprise on leaders of both factions of the party today by naming Roosevelt as delegates to the National convention and endorsing the ex-President's candidacy by a majority vote. When it was seen that Roosevelt's followers would dominate the convention supporters of Taft including District Chairman H. M. Moore and General Webster Flanagan bolted and named a contesting delegation.

Taft men claimed the Hays county delegation should be their own because an illegal number of delegates were sent and protested when delegates from Lee and Bastrop counties refused to vote for Taft as instructed by their counties.

J. N. BROWNING CLUB IS ORGANIZED AT AMARILLO.

By United Press.
Amarillo, Texas, May 11.—With a membership of over eight hundred, a Browning club was organized here this afternoon for the purpose of promoting the candidacy of Hon. J. N. Browning for Congressman at large. J. W. Veale was made president; J. P. Hayter and Mark Logan, vice presidents and A. M. Mood, secretary.

DRILLERS TAKE FIRST AT DURANT

ERRORS TURN SATURDAY'S GAME INTO POORLY PLAYED EXHIBITION.

IS WON IN FIRST INNING

Jones starts for Wichita but is Forced to Retire on Account of Bad Hand

Special to The Times. Durant, Okla., May 11.—In a very poorly played game here this afternoon Wichita Falls easily defeated Durant, 6 to 3.

A base on balls, three hits and three stolen bases gave the visitors a big lead in the first inning, while a hit and three errors netted them two more in the third.

Durant's runs were scored on three hits and four errors in the seventh.

Jones suffered an injured finger in the third inning and was succeeded by Kiffel. The score:

SEVENTEEN INNING GAME AT GALVESTON

Fort Worth Wins Long-Winded Game On Wild Heave-Hard Fought Contest.

By United Press.

Galveston, Texas, May 11.—It took

Fort Worth seventeen innings to even

matters for the series with Galves-

ton today, the seventeen inning game

taking the place of an advertised

double header. At that it was a

wild heave of Pitcher-Moore to catch

a man at second that did the dam-

age, the heave sending the ball to

the center field fence and two runs

scoring. Hendricksen, who started

well went up to the eighth when he

was weakened and Moore went to his

relief with no one out and two men

on the bags, successfully retiring the

side. Up to this time the game was

Galveston's by a 4 to 2 score, but the

Panthers tied it going one ahead,

Galveston coming back in the tenth

where the game lingered 5 to 5 until

the 16th when each side added another

tally. Perritt who went in in the

tenth was in superb form, using a

slow ball that was hard to hit safely.

Three home runs by the Panthers fea-

tured the game. In the 16th inning

Catcher Harry Williams was spiked

on the hand receiving two badly cut

fingers. The score:

game was called in the 8th inning on

account of rain. The score by in-

nings:

Slumber Party.

A most enjoyable affair was the Slumber Party given by Mrs. W. L. Robertson at her spacious and hospitable home on Tenth street Friday night. The house was decorated with cut flowers and by evicting the masculine contingency of the household from the premises, room was made for the repose of sixteen guests. After a six-course luncheon, amusements of various kinds appropriate to the occasion indulged in, until the wee, sma' hours.

The following is the list of ladies, who enjoyed Mrs. Robertson's hospitality: Misses Randel, Childers, Lawler, Stallings, Moore, Roney, Alder, Perry, Oliver, Gillespie, Simmons, Parker, Burgess, Stratton, Young and Mrs. Fountain.

Birthday Party.

On Saturday Saturday I'll give a party. Please soon you see too old I'll be, and birthdays I must forget. Lyle Goodale, from 4 to 6 p. m.

The above invitation being received by about twenty-five little friends, made them eager for Saturday afternoon to arrive. The occasion was the celebration of Lyle's ninth birthday. At the appointed hour the guests were received by the little host and his mother, Mrs. Goodale. Mrs. Miller and Miss Leona Rose assisted Mrs. Goodale in entertaining. In the midst of the happy games a summons came to march to the dining room where the birthday cake sparkled with the nine bright candles and delicious refreshments were served.

The ring fell to Miss Dorothy Coe and the button to Master Mills Mays. Many birthday gifts and well wishes were showered upon the little host and all too soon six o'clock arrived and reluctantly the guests took their departure, wishing Lyle many happy returns of the day.

The invited guests were Manette, Eloise and Grace Brightwell, Lorena and Lenora Thompson, Paul and Mable Bundy, Malnor and Dorothy Coe, Posy Miller, Edwin Anderson, Freddie Flinbolt, Roberta Falschild, Clela Mae Wilson, Mores Smith, John Bradley, George Spiber, Almond Gates, Elmer Allen, Laynette Miller, Molash Hurst, Dixon Wiggs, Mills Mays, Mable McDill, Miss Posey and Mrs. A. J. Miller.

Luncheon for Teachers.

Mrs. C. C. Huff was hostess at a luncheon served to the teachers in the primary department of the Sunday school of the First Christian Church yesterday, the affair being at her home on Burnett street.

After luncheon which was given at 12:30 o'clock, the time was spent in making plans for the summer work of the primary department. The teachers who were present included Mrs. Patrick Henry, Mrs. Stewart, Misses Ruth Trueblood, Muriel Oliver and Daisy Stewart.

Old Maid's Convention.

On the evening of Friday, May 17th at the Wichita Theatre, the "Old Maid's Convention" will be held under the auspices of the High School Lyceum Committee for the benefit of the plaid fund and to give those who purchased season tickets to the lyceum course their money's worth. A number of society ladies of the city are assisting the school people to make the program a brilliant success, and those who have been present at any of the rehearsals are enthusiastic over the many novel, original and laughable features that are to be presented. An original poem by Mrs. M. F. Yeager, who writes under the name of Alice Brown, will alone be worth several times the price of admission.

Readings by the talented dramatic artist, Mrs. Margaret Wright Edwards of Dallas, will be another attractive feature of the evening's entertainment. In addition to this, there will be several musical numbers both vocal and instrumental, rendered by some of the best talent in the city; also a number or two by the girls' Choral Club of the high school.

A prize has been offered for the most appropriate costume, which will doubtless inspire the actresses of the evening to evolve some original and wonderful dresses. The play will be given in three acts, the first showing the old maids on their way to the convention, the second revealing to the public view the proceedings of the convention in session; the third showing the transformation of the spinsters into the creatures of their hearts desire. The play will be given next Friday at the Wichita Theatre.

Pretty Girl Contest.

One feature of the "Old Maid's Convention" on Friday evening of this week at the Wichita Theatre will be the appearance on the stage in accordance with a demand made by some of the spinsters, of the prettiest girl in Wichita Falls. It has been decided by the local committee in charge of the convention to determine who shall receive this honor by submitting the question to a popular vote.

In a caucus held in the auditorium of the high school last Friday afternoon, a list of some of the most popular young ladies at the high school

was selected, and this list will furnish a basis for the voting contest, although it is probable that it will be added to within the next few days as the contest is by no means limited to students of the high school.

A penny per vote will be charged for the privilege of voting in the pretty girl contest, and a ballot box where voting coupons may be secured has been established at Shaw & Thornberry Drug Store. Paul Haddix will have personal charge of the ballot box at the high school, and the contest is expected to be a most spirited one.

Those whose names have already been submitted as candidates for the honor of being the prettiest girl in this city are Misses Helen Fitzpatrick, Omarie Morgan, Mary Orth, Marion Crabtree, Bernice Taylor, Zola Robertson, Mabel Williams, Marie Shelton, and Zelma Bell. The contest is still open for candidates and any one who wishes to place the name of a pretty girl on the contest ballot, is still at liberty to do so. The contest will terminate Friday evening when the winner will be announced at the Wichita Theatre.

Something Wrong.

On account of the fact that his presence has not been felt in this particular part of town during the last few weeks, it is known that the wary little god of the bow and arrows has been busily occupied lately, and vague rumors regarding a number of contemplated weddings have been heard. However, up to the present writing, only one invitation to such an affair has been received at this office, and it has been suggested that we have been a little hasty in arriving at the above conclusion. However, we have the greatest confidence in our judgment, regarding such matters but still we are slow to believe that we have been slighted.

Miss Pickle Goes Abroad.

The following was taken from the Kansas City Star of Sunday, May 5th, and is of interest to Wichita Falls people on account of the fact that Miss Pickle is a former resident of this city, and there is living here at present her brother, O. J. Pickle, manager of the Western Union Telegraph Company.

Miss Lila M. Pickle, pianist, who will leave Kansas City shortly for Lausanne, Switzerland, to study with Harold Bauer, will play in a farewell recital in the Studio Building Friday evening, assisted by Miss Grace Keefe, soprano; Miss Amelia Reverend, violinist, and Hugh Wright, basso. The program follows:

"Faust" Waltz Gounod-Liszt

Oland Division 433 Entertained.

On Thursday afternoon, May 2nd from 3 to 5 the home of Mrs. L. D. Rhodes presented a scene of much merriment. The house was very prettily decorated with ferns and pot plants. Mrs. Rhodes is a charming hostess and succeeded in entertaining her guests in a very unique manner. After all had arrived Mrs. Rhodes announced them to a guessing contest. Mesdames Cook, and Pryor were the lucky contestants.

The guests were then served to fruit punch, wafers, ice cream and cake. Those present included Mesdames Allen, Young, A. Cohen, Eugene Cockrell, T. T. Wiseman, T. B. Cook and T. B. Pryor.

All departed voting Mrs. Rhodes a very pleasant afternoon and wishing Mrs. Courtney much pleasure on her trip to the convention of the G. I. A. to B. of L. E., at Harrisburg Pa., where she will represent Oland Division 433.

Tuesday Bridge.

A meeting of the Tuesday afternoon Bridge Club was held last week with Mrs. M. M. Walker on bluff street. Refreshments of punch and brick ice cream were served. Mrs. A. R. Duke was awarded the club prize, six cut glass celery clips, and Mrs. T. W. Roberts carried off the guest's prize, a gold-headed hat pin. Only one more meeting will be held, that being with Mrs. Claude Woods next Tuesday.

Those present were Mesdames Eugene Sherrod, Everett Jones, Wiley Blair, C. B. Woods, J. O. Smith, A. E. Myles, Bruce Smith, N. Sherman, R. G. Scruggs, Wade Hampton, Newton Maer, W. B. Sheppard, W. M. Mc

Gregor, Fred Weeks, A. R. Duke, T. B. Smith, H. O. Cravens, C. C. Huff, R. L. Miller, T. W. Roberts, Montague Stanforth, Misses Dora and Cora Coons and Lucile Sherrod.

New Bridge Club.

Mrs. L. M. Haynie at the home of Mrs. W. E. Cobb on Indiana avenue, entertained the New Bridge Club last Wednesday afternoon. Orange ice and a salad course were served as refreshments. Mrs. Fred Weeks received the favor of the afternoon, a cut glass vase. The next meeting will be held with Mrs. Ted Smith on bluff street Wednesday afternoon of this week. Those present were Mesdames T. R. Smith, Lucian Frith, J. S. Binford, Leon Leeb, E. P. Greenwood, E. L. Smith, Luther Webb, Fred Weeks, Piner Avis, T. B. Smith, H. O. Conservatory of Music.

The last term of the first year's work in the history of the Wichita Falls Conservatory of Music, which was established here a few weeks less than one year ago, is rapidly drawing to a close, and in the opinion of both Dr. B. Dunaway, the musical director, and of those financially backing the institution, the year has proven a most satisfactory one.

A reputation for the Conservatory has now been established in this city, and many of the most prominent families in Wichita Falls are represented among its students. The departments of piano, voice and viola have all received their full share of attention, and more and more equipment is being purchased each month for the use of those receiving instruction. It is intended to reach and maintain a standpoint that can hardly be equaled by any conservatory of music in this part of Texas.

Since local people have already been advised of the efficiency and standing of the conservatory, it now only remains to similarly convince outside people. Special efforts therefore will be devoted during the next year's work towards arousing interest in the institution not only among the people of this city, but of this entire section.

The first entertainment connected with the closing exercises of the initial year's work will be held on the evening of May 16th, when Mrs. Forsythe, one of the musical instructors, will give a recital participated in by pupils from her class. The exact place at which this recital will be held has not yet been decided upon but will be announced next Monday.

Following Mrs. Forsythe's recital on the 16th, Miss Pearl Underwood, who will shortly be honored with a music teacher's certificate, in company with Miss Bess Harvy, who is about to graduate from the department of voice, will give a recital in the Wichita Theatre on the evening of May 16th. This recital will be free to the public and everybody is hereby extended an invitation to attend.

The commencement exercises of the conservatory will be held on the evening of May 20th at the Wichita Theatre, and at that affair in order to pay for the expense of securing the opera house, the small admission fee of twenty-five cents will be charged. The occasion will gain added interest from the fact that honor students will be announced and a scholarship possibly awarded. An opportunity will be given to the public of observing the progress of the students in voice, violin and piano, and a mixed chorus from a recently organized choral club at Electra will render one or two numbers.

The program for the recital on the evening of the 18th is as follows:

1. Chromatic Fantasy (Bach)—Pearl Underwood.
2. Carmen Waltz Song (Cane)—Bon Hardy.
3. Beethoven Sonata (Funeral March)—Pearl Underwood.
4. Chanson Provencale (Illa Aqua Eva)—Bon Hardy.
5. Rigoletto (Concert Paraphrase Liszt)—Pearl Underwood.
6. La Follata (Exell)—Bon Hardy.
7. Nocturne (Chopin)—Pearl Underwood.
8. "I've Seen the Swallows Pass" (Bell Aqua Eva)—Bon Hardy.
9. Home Sweet Home (For left hand alone)—Pearl Underwood.
10. Spanish Serenade (Tracey)—Bon Hardy.

Following commencement exercises, the conservatory will be reopened for the summer term of instruction which will probably close the latter part of July or the first of August.

Card of Thanks.

We, the United Clubs of Wichita Falls, wish to express our thanks to all those who in any way assisted in the entertainment of the visiting delegates to the convention of the District Federation of Women's Clubs which recently convened in our city. To enumerate those who aided us would perhaps fill a column of this paper, so we take this means of expressing our appreciation of the "Pull Together" spirit which was manifested and which made our visitor's stay in the city a pleasant one. Sherman, Misses Irene Raney, Dora and Cora Coons and Lucile Sherrod.

Art Exhibit at High School.

The scope of the work of our public school has certainly been enlarging rapidly for where at first it was practically limited to the training of the mind, it has come to include manual and physical development and today our school has begun to make its influence as a social center felt.

There is one direction especially in which a most earnest effort is being made and it is a movement that is growing in force every day. Reference is made to the work that is being done towards increasing an

aesthetic appreciation among the school children. It is seen in the beautiful architecture of the best modern school houses in the careful tinting of school walks, and in the placing of fine reproductions of masterpieces of art in corridors and school rooms.

In many places such as our own town, they have gone farther and have every year a fine collection of the works of art exhibited, not only for the benefit of the teachers and pupils but to bring together the whole community.

The Elson pictures are to be shown at the high school building Tuesday, Wednesday and Thursday both in day-time and at night, and many of the best subjects in Greek, Italian, Egyptian, Dutch and Modern painting will be displayed.

The defray the expenses of bringing these pictures here, the small sum of ten cents will be charged each person and the public is urged to attend to help develop this social center and educational movement.

SOCIETY BREVITY

A meeting of the Civic League will be held next Tuesday afternoon at the home of Mrs. T. R. Boger on Tenth street. The meeting is one of importance and all members of the League are urged to attend.

Mrs. L. H. Mathis, president of the Scurry Camp Daughters of Confederacy, does not know at this time exactly when another meeting of the camp will be called. She will call a meeting, however, soon after the return to the city from the Confederate reunion in Macon of Judge Scurry, who it is thought will have some important information to impart to the local organization.

The next meeting of the Art Literature Club will be held Tuesday afternoon with Mrs. D. N. Perkins who lives on Floral Heights. This will be the last meeting of the club until next October.

A meeting of the New Century Club was held last Wednesday afternoon with Mrs. M. F. Turner. Plans were discussed for the next year's work, and only a short program was rendered. There will be no more meetings of this club until next October.

The last meeting of the Mother's and Teacher's Club of the Stephen P. Austin school was held last Thursday afternoon at the school building, and a report of the work accomplished during the last year was read. It was learned that the piano at the Austin school has now been completely paid for, a sum aggregating more than five hundred dollars having been made by the club since last October. The club will meet again next October.

The last meeting of the Tuesday afternoon Bridge Club will be held with Mrs. Claude Woods on Tenth street, next Tuesday.

SEEKING TO SOLVE RIDDLE OF UNIVERSE

SCIENTIST HAS PLANNED GREAT WORK

Camille Flammarion, World's Most Noted Astronomer, Is Confident He Can Discover Truths Hitherto Hidden—Says: "I Believe That Scientists, by Means of New Discoveries, Are Face to Face with the Great Principle."

CAMILLE FLAMMARION, one of the greatest of astronomers and French scientists, has set himself the problem of trying to solve the riddle of the universe.

Along with his astronomical studies he is trying to find if the Marconi wireless telephone, radium, telepathy, and spiritualism are some of the manifestations of this same great power. After some thirty years of study and investigation he has set forth the result of this work in "The Mysterious Psychic Force," which was begun some years before in his work called "The Unknown." In this book he gives the result of his investigation in spiritualism, and in "The Unknown" he handles the questions of mental telepathy, dreams, etc. Though approaching the subject differently, he comes to the same conclusion in both of these studies.

By CAMILLE FLAMMARION.
THE wireless telephone and telegraph have proven that the earth, as well as the air, has powers of transmission that were never imagined a quarter of a century ago. Interesting as these discoveries are in themselves, they are more interesting because they are urging scientists to find the same laws and principles in telepathy, spiritualism, and hypnotism.

I find the same laws governing mental telepathy that prevail in the Marconi and the wireless telephone, and think that these are only the first steps of greater discoveries that are to come. I admit that investigation of mental telepathy and spiritualism has brought me face to face with a great psychic force more powerful than electricity, radium and other physical forces.

Matter is only an appearance. The mysterious forces we are studying are themselves manifestations of the universal dynamism with which our five senses put us imperfectly into relation.

These things belong to the physical as well as to the physical. They prove that we are still living in the midst of an unexplored world in which the psychic force plays a

tion, mind reading, are as real as electricity and other forces found in physics and chemistry, only of a higher order, for they have in them something vital and a kind of mentality.

My experiments made during many years with spiritualism and its manifestations have shown me that these psychic forces are worthy of being embraced within the scope of scientific analysis. At present they have been a little studied as in the time of Ptolemy and have not yet found their Newton, yet they fairly obtrude themselves on our notice and cry out to be examined. That is not so strange when we remember that the earth and planets were circling about the sun in their harmonious orbits, while astronomical theories saw in them only a complicated mass of seventy-nine crystalline shells. Magnetism was encircling the earth with its complicated currents long before they were arrested in their flight. The stars were darting their rays through the ether before any human eye had been raised to them.

Soul Independent of Body.
From all my experiments, both in those gleaned from spiritualism and

telepathy and set forth in "The Mysterious Psychic Force" and "The Unknown," I come to the same conclusion: that the soul exists as a real entity independent of the body. It is endowed with faculties still unknown to science. It is able to act at a distance without the intervention of the senses. There exists in nature a myriad activity, a psychic element, the essential nature of which is still hidden from us.

Ever since I was a boy of 16 years of age, along with my studies in astronomy I have been at work studying these questions. The study of spiritualism was quite accidental.

One day in the month of November, 1861, under the galleries of the Odéon, I espied a book entitled "The Book of Spirits," by Allan Kardec. I bought it and read it with avidity, several chapters seeming to me to agree with the scientific basis of the book I was then writing, "The Plurality of Inhabited Worlds." I hunted up the author, who insisted that I should enter, as a free, associated member of the Parisian Society for Spiritualistic Research, which he had founded and of which he was president.

The members come together every Friday evening in the assembly room of the society in a little hall which was placed under the protection of St. Louis. The president opened the seance with an invocation of the good spirits. It was admitted as a principle that invisible spirits were present there and tried to appeal to us. A certain number of people were selected. They were seated at a large table and were told to abandon themselves to the spirits in the room and to write; these were called mediums. Several years later my illustrious friend, Victorien Sardou, who had often visited the observatory, wrote as a medium some curious pages on the inhabitants of the planet Jupiter and produced picturesque and surprising designs which tried to represent men and things as they appeared in this giant of worlds. One of his sketches showed the houses of Mozart, others the houses of Zoroaster and of Bernard Palissy. But I must confess that the drawings clearly showed that Sardou was not directed by a spirit from that planet.

The transference of thought from one brain to another is a fact proved by telepathy. Several mediums have also composed, in successive seances, genuine romances, such as the history of Joan of Arc, written by themselves, seeming that there is a kind of doubling of the personality. As to the second, planchette, I became familiar with this through the seances of Mme. de Girardin at the home of

role as yet imperfectly studied. It is an established fact that this dynamism exists, though it has not been fully explained, and perhaps will never be fully explained any more than are all the physical manifestations. This is because we take our ideas for realities.

"Things Not What They Seem." For example, to our senses the air is not a solid body; we pass through it without effort while we cannot pass through an iron door. The converse is true of electricity; it passes through the iron and finds the air to be a solid, almost impassable body. To the electrician a wire is a canal leading electricity across the solid rock of the air. Glass is opaque to electricity and transparent to magnetism. The flesh is transparent to rays, while glass is opaque.

Thus, for example, if one could have said that there could be instantaneous communication between London and Paris before the invention of the telegraph people would have laughed. Later it would not have been admitted as possible, except on condition of the existence of a wire. Now that we have wireless telegraphy, we can apply the discovery to the explanation of wireless telegraphy, spiritualism and other phenomena.

Likewise spiritualism, auto suggestion, mind reading, are as real as electricity and other forces found in physics and chemistry, only of a higher order, for they have in them something vital and a kind of mentality.

My experiments made during many years with spiritualism and its manifestations have shown me that these psychic forces are worthy of being embraced within the scope of scientific analysis. At present they have been a little studied as in the time of Ptolemy and have not yet found their Newton, yet they fairly obtrude themselves on our notice and cry out to be examined. That is not so strange when we remember that the earth and planets were circling about the sun in their harmonious orbits, while astronomical theories saw in them only a complicated mass of seventy-nine crystalline shells. Magnetism was encircling the earth with its complicated currents long before they were arrested in their flight. The stars were darting their rays through the ether before any human eye had been raised to them.

Strive For Commercial Conquest of South America

By CHARLES WELLINGTON FURLONG, Explorer and Writer

IF there is any idea left in the American mind that the United States may ultimately annex any South American countries it had better be forgotten permanently. ANNEXATION WOULD NOT BE DESIRABLE FOR EITHER SIDE. We can easily retain all the commercial benefits of association with these countries without assuming new territorial responsibilities.

The good will of the South Americans is worth a good deal to us. They are not like the Mexicans or the Filipinos or even the Central Americans. They are a PROUD PEOPLE, and their culture—a fact which is usually forgotten, but which is very important in understanding the situation—is much older than ours.

South America should be carefully distinguished from Central America. The notion that South America has frequent revolutions, like Central America has, is a false idea. Central America is less civilized and doesn't come in contact with the outside world so much. The SOUTH AMERICAN REPUBLICS WERE, MANY OF THEM, STARTED TWENTY YEARS AFTER

OURS WAS, and their constitutions were modeled after ours. Most of the alleged revolutions which we have heard about in South America have in reality been nothing but "strikes," less serious than our own labor strikes. WHAT WE AMERICANS SHOULD STRIVE FOR IN SOUTH AMERICA IS COMMERCIAL CONQUEST. THE NATURAL RESOURCES OF THE SOUTH AMERICAN CONTINENT ARE ENORMOUS, AS EVERY ONE KNOWS. ARGENTINA EXPORTED MORE WHEAT THAN THE UNITED STATES DID TWO YEARS AGO AND IS THE SECOND LARGEST WOOL EXPORTER OF ALL THE COUNTRIES OF THE WORLD.

All the best land, of course, in Argentina is now taken up. You can travel all the way across Argentina to Chile on the Transcontinental railroad without being at any time out of sight of grazing cattle or sheep. But if American business men are going to handle trade in South America in competition with the Germans they must ADOPT DIFFERENT BUSINESS METHODS than they have adopted heretofore. South American business firms like rather long credit—ninety days. The business houses there have been established just as long as ours have and are perfectly safe.

What the Newspaper Teaches

By HAMILTON WRIGHT
MABIE, Editor and Lecturer

THE FATE OF THE MEN WHO DISOBEY THE LAWS OF LIFE MIGHT BE FOUND RECORDED ON THE FRONT PAGE OF THE MORNING NEWSPAPER. ANY IMPORTANT NEWSPAPER MIGHT LEGITIMATELY TAKE FOR THE TEXT OF ITS FRONT PAGE "THE WAGES OF SIN IS DEATH."

A man's religion is worthless unless it PENETRATES AND GOVERNS HIS WORK, for a man's work is not simply a way of getting a living or of making a fortune or putting forth his energy. It is the great adventure of the spirit. It is an expression of his religion in the plainest possible terms.

Nothing great is ever done, either in religion, in art, in statesmanship or in mechanics, without SELF SACRIFICE, SELF DENIAL AND SELF CONTROL. There is no exception to this law. The great work demands the clear eye, the steady eye, the firm will, and these are possible only to the man who obeys the laws of life.

If you want to know what happens when those laws are disobeyed you need not go to the Bible or to the church to hear. Open your NEWSPAPER, and it will tell you every morning and every night what happens. You may speculate as you choose about the nature of evil. The newspapers say only one thing to you, "THE WAGES OF SIN IS DEATH."

It is idle to talk about what men with unconscious irony call "THE FREER LIFE." It is supreme folly to attempt to find happiness by taking the short cut across the laws of life. There is but one end to all these endeavors. They all end in TRAGEDY.

Commercial War Will Decide Strength of Nation In Future

By J. J. ARNOLD, Banker

WE are in the midst of a GREAT COMMERCIAL WAR AMONG THE NATIONS of the world. It bears a marked resemblance to the Napoleonic war.

Germany is wonderfully organized for carrying on this war, for she has her men out everywhere gathering information, just as did Napoleon's spies.

THE QUESTION THAT IN THE FUTURE WILL DETERMINE THE POWER OF THE WORLD WILL NOT BE WHAT NATION HAS THE GREATEST ARMY OR NAVY, IT WILL BE A COMMERCIAL RATHER THAN A POLITICAL POWER.

While we as a nation are very young, we have developed rapidly, so far as internal affairs are concerned, and even in international affairs we have done well considering the handicaps.

Sam Sealing was found guilty of auto speeding Saturday morning and was fined \$15. The alleged speeding was done on Ninth street on the evening of May 8th.

A CORROBORATION

Of interest to Wichita Falls Readers. For months Wichita Falls citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? No stronger proof of merit can be had than cures that have stood the test of time. The following statement should carry conviction to the mind of every Wichita Falls reader.

J. E. Sport, Wichita Falls, Texas, says: "We still use Doan's Kidney Pills in our family whenever occasion requires a kidney medicine and are always greatly benefited. We have previously endorsed this remedy and you may continue using the statement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

AUTOMOBILE
DELIVERY

PHONES
432 & 232

One of my strongest business policies is to secure the very best food products that the world's market affords for my customers. Very often this means a change of brands or a change of lines, as improvements are made from time to time.

Coffee is one of the lines that has been undergoing considerable change and improvement and a short time ago I made a very careful investigation of the line of coffees roasted and packed by an Illinois concern. With the result that I have put in a try-out line and invite you to see whether your judgment agrees with mine as to their quality. The line ranges in price from 30c to 45c, all put up in cartons or tins. The following is the list of brand names with prices from which I ask you to select your usual price and let me send you a trial can. "Toga" brand, 1-lb. carton, 30c; "Ozona" 1-lb. carton 35c; "Colonial Inn" brand, 1-lb. tins 40c, 2-lb 80c, 3-lb tins \$1.20; Genuine Java and Mocha for 45c.

Their specialty is suburban property, which they sell in five acre irrigated tracts or under, which can be paid for in monthly installments. They are the people who advertise that money will be furnished to build a home in a beautiful residence addition to buyers of lots paying lots out. If you have friends who are thinking of coming to the land of plenty, these are the men you can recommend to supply just what they want—with the full assurance that everything will be all right. They are the people to see if you want to sell your property, for they have a buyer for it or can soon find one, or if you want to buy real estate at right prices. What is the name of this company and on what numbered street are they located?

NUMBER 39—Do you know the best place in Wichita Falls to get a nice clean shave, first-class haircut, or a refreshing bath? If you don't it is time you were finding out. Every patron of this shop becomes a steady customer for every workman here is skilled in his work and an artist in his line. The barber shop has recently installed five new bath tubs and it is the shop where no long waits are encountered between "NEXT." Give the name of this shop and its location.

NUMBER 40—There are just two classes of merchants. One deals in the cheap brands of goods and wants to get rich on a few sales. The other builds for the future, furnishes the best brands, and leaves the question of profit to the volume of sales. This house belongs distinctly to the latter class. They have been selling dry goods, clothing, shoes and ladies and gents furnishings in this city for a period of two years. A few of their specialties are Redfern ready-to-wear suits, Ecco hosiery, Hanank Son shoes and light shirts. This store is located on the North side of Indiana avenue. What is the company's name?

NUMBER 41—There has recently been opened in Wichita Falls a new store on Ohio avenue by two enterprising and up-to-date tailors, where a splendid tailor made suit of clothes, at a guaranteed saving of 20% can be had for \$15.00. In connection is a cleaning and pressing department. Their method of cleaning is the very best method known to art. It is the place with the white treatment for everybody, and the place where they always sew on the buttons. Give firm name.

NUMBER 42—Do you read? Of course you do, and have probably purchased many a book or periodical from this store. All the latest books, and magazines are received here as soon as they come off the press. Here will be found the largest stock of school books, stationery and school supplies in the city. A feature of this store is a rental department where late books can be rented at a nominal cost. A splendid soda fountain draws the trade. Give the name.

NUMBER 43—There is no store or business house that presents a more pleasing appearance than a well kept wall paper and paint store. Wichita Falls has a leading institution of this kind on a numbered street, conducted by two brothers—both of whom are hustling business men. They have been in business in this city for a number of years and their methods and quality of goods speak for themselves. In wall paper they can please the most fastidious and their patterns this year are the prettiest ever shown in Wichita Falls. Give the name of the firm and brand of mixed paint they sell.

NUMBER 44—Where is the "business house for business men?" This Ohio avenue store was opened in September of last year and is conducted by two young business men, the initials of whose surname is identical. This is one of the best kept stores in West Texas, and is a well equipped typewriter supply of all kinds or to buy, sell, or have a typewriter repaired or cleaned. A splendid soda fountain is found here and a full line of magazines and sporting baseball goods. Give name of firm and location of store.

NUMBER 45—Where is the best place in Wichita Falls to have your clothes cared for? The firm that does the most satisfactory cleaning, pressing and repairing is in close proximity to a theatre on a numbered street. Ladies and gentlemen's clothes are carefully looked after here and all work is done in the most approved style. Here you can secure an up-to-date tailored suit which they guarantee to fit and wear. Their new method of dry cleaning will make your clothes new once more. Give the name of this shop.

NUMBER 46—Who is the scientific eyeglass specialist of Wichita Falls, and in what jewelry store is his office? He is the only optician on the Denver road that grinds his own lenses. He has been here for a number of years and his well appointed store has become the mecca for scores of people who want the best service in the optical line. This store carries one of the handsomest lines of Hawkes' cut glass, Gorham silver, jewelry and watches to be found in West Texas. A strong feature of this store is their reliability. First class watch repairing at the right prices. Give name and location.

Publicity Stamps

In this Age of Progress and Development

The Publicity Stamp has taken its place as an important advertising medium. When placed upon outgoing letters, the suggestion which the stamp conveys reaches people in all parts of the world. The Wichita Falls Publicity Stamp which has just been issued is designed on broader lines than any other stamp now in use. The Stamp is a beautiful design in pink, black and white. been under its present management for three years and the proprietor's three initials are the same. Can you give the name of the company, and its location?

NUMBER 48—"Fashion Clothes" Who sells them in Wichita Falls? If this question should be asked in any city in the entire country, thousands of the best dressed men would instantly sight you to the lucky dealer. What is the name of the store that sells them here and on what numbered street is it located?

NUMBER 49—Have you full knowledge of business? If not, there is an institution in Wichita Falls that for a period of three years has given instructions in many business branches to a vast number of young men and ladies of this section. Instruction in bookkeeping, banking, and shorthand is given by competent experts. Give name of this college.

NUMBER 50—Can you give the name of the oldest and most reliable laundry in Wichita Falls and the one that has long been considered the best place to have your work done? This laundry is owned by home people, who spend their money in Wichita Falls. Its name will remind you of water, and as water cleanses and purifies, the name is therefore very appropriate. Seven wagons call for and deliver laundry throughout the city. It is the place that will come into your mind when you want first-class work done, and is the laundry that keeps on the buttons. Can you give its name?

NUMBER 51—There is a splendid little market on Seventh street where a specialty is made of vegetables and table delicacies. Clean, wholesome fresh vegetables are received daily, no stale goods being allowed to accumulate. Buy and sell butter, eggs and chickens. It is possibly not the largest store in the city, but they have the good fresh edibles and sell them at right prices. It is named for a thrifty city. Give the name of the market?

NUMBER 52—Where is the enterprising new grocery in Wichita Falls that is rapidly building up a splendid

trade because of their courteous treatment to customers and their high-grade goods? Barrington-Hall bakerized steel-cut coffee—the best on the market, Libby products and First Pick canned goods are a few of their superior brands. Trading here is like making love to a widow—you can't over it. This store was opened three months ago and is near a summer theatre. Give name and telephone.

NUMBER 53—What restaurant in the city reminds you of the time when as a youngster you used to long for meal time to come? Short orders are served here at all hours, but their specialty is their famous dinners. This restaurant bears the name of a large city in a southern state. The proprietor puts forth his best efforts to please his customers. Give the name of this hospitable home for the hungry.

BARTENDERS DO NOT LOSE THEIR POSITIONS.

Austin, Texas, May 11.—The comptroller's department, through Chief Liquor Permit Clerk Ike Hartsell, has held that there is nothing in the liquor law which prohibits a barkeeper, who has been forced out of employment through the cancellation of the license of his former employer, from accepting employment in another saloon where such license in another has been revoked.

This question came up through an inquiry from the proprietor of a large saloon at Galveston, who occupied the last general cancellation of licenses at that place by the comptroller. This saloon man advised that since the opening of the forty-nine saloons at Galveston, his business has not only increased, but that he has employed two barkeepers who held positions with some of the now closed saloons, and he wanted to know if this was in violation of the law, and he was advised that it was not. This inquiry was inspired by a provision of the liquor law which prohibits the owners and proprietors of saloons in which the licenses have been forfeited from acting as barkeepers or waiters in another saloon, for a period of five years.

A SPLENDID CHANCE

Dr. T. H. P. Duncan of the firm of Drs. Duncan and Duncan has an advertisement in this issue of this paper that every spectacle wearer should read. Dr. Duncan is probably one of the most experienced optical men in the south and has fitted more glasses than any man in the state. Since he has been in Wichita Falls he has not given the optical part of his specialty much attention, on account of another firm that started in the optical business about the same time that he came here, but as they have retired from business, and he was able to buy a large stock of glasses from a Dallas Company at 25 cents on the dollar, he will give the people of Wichita Falls the benefit of his experience and purchase. Dr. Duncan has been making a specialty of the EYE, EAR, NOSE and THROAT for 18 years. His methods are a little different from that of the general specialist, because in addition to medical and surgical treatments, he also treats by Electricity, Osteopathy, and other modern nonsurgical methods and only uses the knife as the last resort. The fact that he gives free examination and consultation, assures you that it does not cost you anything to get his opinion of your case and to form your own opinion as to his methods and ability.

ALFALFA RAISING IN ARCHER COUNTY

Mr. Carson, who owns the farm known as the old Jim McConkey place in Archer county, has sent to The Times a sample bunch of alfalfa, taken from a 2-acre patch he has on his farm. The bunch he sent The Times is about 18 inches in length. This patch was sowed last fall, and this will be the first cutting. He estimates that he will get about one ton to the acre from the first cutting and that he will get three more cuttings during the season. The stand is not very good, but will be better by next season.

G. R. Decker, whose farm is three miles east of Mr. Carson's, also has a two-acre patch of alfalfa, and the stand is more even and perfect, though he will not get the first cuttings until about the last of this month.

GOLDEN SPIKE CEREMONY EN-
ACTED ON NORTHWESTERN
AT WOODWARD

ACCOMPANY KATY PARTY

Messrs. Schaff and Trumbull Return
By Way of Oklahoma City—
No Change in Status

Frank Kell, C. C. Huff and M. M. Cooke have returned after a trip over the Wichita Falls & Northwestern with Frank Trumbull, chairman of the Katy board of directors and P. E. Schaff, the new president of the Katy system.

The party inspected the Northwest-
ern as far north as Woodward where

they were met by five or six hundred people headed by the mayor and the ceremony of driving a gold spike was gone through with while speeches were made by several of the party including Mr. Kell, Mr. Trumbull, C. C. Huff and the mayor.

The Katy officials left for the East over the Santa Fe from Woodward. Mr. Kell, Mr. Cooke and Mr. Huff returned to Wichita Falls by way of Amarillo.

Mr. Kell stated Saturday morning that there had been no change in the status of the Northwestern—that it was still in the same position as it had been for the past eight or ten months, the Katy financing it.

RACE AGAINST DEATH OVER DENVER TRACK IS RUN FRIDAY NIGHT

Leaving Fort Worth at 7:50 Friday night a special train bearing Ramsey Bogey of Denver, Colorado from San Antonio in a race against death to Denver, reached Texline at 9:15 o'clock Saturday morning having made the distance at an average speed of more than 35 miles an hour. Mr. Bogey is trying to reach Denver before his daughter dies. The special was in charge of Conductor George Clark with Burke Michael at the throttle. The train was started on a twenty-four hour schedule from Fort Worth to Denver.

BAPTISTS WILL VISIT THIS CITY

EDUCATIONAL COMMITTEE TO
COME AND LOOK INTO MAT-
TER OF BOY'S SCHOOL

SESSION HELD AT WACO

Rev. J. P. Boone and Secretary For-
ester of Chamber of Commerce
Represent This City

As a result of the visit of Secretary J. C. Forrester and Rev. J. P. Boone to Waco last week a committee from the educational board of the Texas Baptist Association will visit Wichita Falls within the next few weeks to look over the situation here and to discuss a proposal to locate a Junior Baptist College here. The exact date

when the committee will come has not been definitely fixed, but will probably be the latter part of May.

Mr. Forrester and Rev. Boone returned yesterday from Waco where they met with the educational board and invited it to come to Wichita Falls to look over the advantages offered a school and to discuss with the Wichita Falls representatives report that the proposal for a school here met with a very favorable reception.

The members who comprise the educational board are: Rev. A. J. Barton, secretary; Dr. J. R. Jester, pastor of the Broadway Baptist Church, Fort Worth; Rev. S. C. McConnell, pastor First Baptist Church, Waco; Rev. J. L. Ward, Decatur; Rev. M. T. Andrews, pastor First Baptist Church, Hillsboro; Rev. J. E. Johnson, Waco; and Rev. R. E. Bell, Bowie.

Robaten's Mineral Water is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. J. Robatch, Owner. Phone 1601—1 long—4 shorts.

WELFARE COMMISSION'S PURPOSE IS OUTLINED

Chairman R. C. Duff of House on Tells
What New Organization Intends
To Do

Houston, Texas, May 11.—In view of the intense interest which the people of Texas have shown in the work of the Welfare Commission and in reply to numerous letters received from many citizens of Texas relative to its methods and purposes, Chairman R. C. Duff of this city has given out the following statement:

"By the terms of the resolution establishing the Texas Welfare Commission and defining its functions, the investigation to be conducted by the commission shall have special reference to the status of Texas industries as affected by the laws of the State; to determine at what points, if any, existing statutes are in disharmony with the efficient and profitable operation of the various industries of the State of Texas, and whether the highest good of the State and of its people requires the maintenance of such statutes, regardless of the effect on business or whether, on the other hand, it would be wise to effect changes in our economic laws with the view of improving the conditions of the businesses or industries affected.

"Consideration by the commission of the attitudes and conditions of the following matters, businesses and industries in Texas, with reference to the laws of Texas, and for the recommendations looking to the betterment thereof, has been requested at the date of this announcement:

1. The Production of and Methods for Marketing Cotton.
2. The Production and Marketing of Cottonseed Oil and other by-products of Cottonseed.
3. The Fabrication of Cotton into Cloth and the Establishment of Cotton Mills.
4. The Manufacture and Sale of Lumber.
5. Railroad and Railroad Securities.
6. Life Insurance Corporations, Foreign and Domestic.
7. Taxation as to Individuals and Corporations.
8. Compensation to Employees for Casualties occurring in Course of Employment.
9. The Production, Milling and Marketing of Rice.
10. The Raising and Marketing of Live Stock.
11. Mineral Resources and their Development.
12. The Promotion and Organization of Private Corporations.
13. The Production and Marketing of Perishable Farm and Orchard Products.
14. Good Roads.
15. Irrigation, Conservation of Storm Waters and Drainage.

"Other subjects will be docketed for consideration by the commission, on application to the chairman, supported by statements reasonably indicating same to be within the scope of the work laid out for the commission.

"Every citizen of Texas and every person interested in the Welfare of Texas is hereby invited to address the commission, submitting his views or providing information concerning any subject under consideration by the commission.

"For the pastures of the wilderness do spring, for the tree beareth her fruit, the fig tree and the vine do yield their strength." — Joel II, 22.

Swift are the feet of the rain,
Swift is the dance they are treading
Over the hill and the plain,
Down through the valleys outspreading,
Treading the aisles of the trees,
Racing, and rising, and falling,
Timed to the rare ecstasies
Of the spring's music entralling.

Soft is the song of the rain,
Soft as the softest of crooning,
Yet by the road and the lane
Burst now the buds to its tuning,
Hearing, the crocuses rise,
Starlike, and snowily gleaming,
Violets mock at the skies,
Daisies awake from their dreaming.

Clear is the call of the rain,
Rousing the rill and the river,
Till from the source to the main,
Bounding and brawling, they quiver.
Clear is the call—and it goes
Outward, and under, and over,
Singing of red to the rose,
Breathing of bees to the clover.

Swift are the feet of the rain,
Threading, and treading, and tripping
Over the valley and plain,
Daintily dancing and dipping,
Aye, and the flowers take heed,
Like to the grass in the hollow—
Shaking the husk from the seed,
Laughing, they waken and follow.

WILL GIVE \$500 TO SICK READERS OF THE TIMES

Indiana Scientists Who Originated the Now
Famous "Home Treatment" Offers Large
Packages Free to Sick and Ailing.

In order that every reader of the Times who needs treatment may have an opportunity to test this celebrated medicine, the now famous Indiana scientist has come to the front with an offer to give absolutely free a large proof package to five hundred readers of this paper to prove the wonderful claims which have been made for it. In making this offer the scientist said: "I know that there are many people who have been suffering for years with some chronic disease and many of them have spent large sums of money seeking a cure. I know that these people hesitate about investing money in medicine because they have despaired of ever getting well. Thousands have told me that story and many thousands of the same people have told me afterwards that my treatment had cured them after doctors and everything else had failed. I want to show these despairing people that all the newspaper talk about my treatment is absolutely true. I want to prove to a limited number—no matter what the disease, no matter how long they may have suffered, no matter how blue and discouraged—that my treatment really and actually does accomplish the wonderful results that have been reported."

People who suffer from Rheumatism, Kidney Trouble, Stomach Trouble, Liver or Bowel Disorders, Catarrh, Bronchitis, Asthma, Chronic Coughs, Weak Lungs, Lumbago, Piles, Urinary Disorders, Female Weaknesses of any kind, the weak worn out, broken-down and despondent will be delighted at the effect of a few doses. This wonderful treatment creates a fine appetite and helps the digestive organs to carry on their functions as they should. It strengthens the kidneys, too, and drives rheumatism poisons from the blood as if by magic. This is why people who try it become so enthusiastic.

Any reader of the Times who will try this extraordinary medicine that has created so much excitement by its cures can obtain absolutely free a liberal treatment by simply filling in the coupon below or writing a letter describing their case in their own words. If they prefer, and mailing it today to James W. Kidd, Fort Wayne, Indiana. No money need be sent and no charge of any kind will be made.

As this offer is limited, you should write at once, in order to be sure to receive your free treatment.

CYCLONE LEGEND OF INDIANS TOLD

THIS CITY SAID TO BE IMMUNE FROM DAMAGE BY SPRING TWISTERS

INDIAN TRIBE TRADITION

Red Men Said To Have Maintained Camp On Hill During the Cyclone Season

When the talk comes round to cyclone as it often does these days someone is almost certain to recall the Indian tradition that Wichita Falls occupies charmed ground and that it will never be devastated by a cyclone. No one seems to know the origin of this saying but doubtless there are those living who themselves have heard it from the Indians.

N. C. Redding, one of the pioneers of Wichita Falls, says he has heard this tradition ever since he has been here and that in the early days it was more generally believed than now. It was told him, he said, as a fact that in the spring and early summer when cyclones were frequent in this section, the Indians came for many miles and camped on the hill where the residence portion of the city now stands to escape the "evil breath" remaining in camp there until the season for the twisters was over.

No explanation was ever given why cyclones would not sweep this locality and whether the Indians chose this location from some instinct that has been lost to their civilized brethren or because no cyclone had ever been here is a matter of mere conjecture. A companion to the Wichita tradition says that when certain towns were laid out in Oklahoma the Indians warned the founders that they would be swept away by cyclones. This is just what happened in the last few years.

Twenty years experience in treating diseases of the eye justifies me in saying that I understand fitting glasses and that I will refund your money if you are not satisfied. Dr. Duncan.

OIL NEWS.

The Henry Oil Company of Bartlesville, Okla., and Chicago, has purchased the derrick put up by J. E. Head, four miles and a half south-west of Scotland in Archer county, and will start drilling there next week. Mr. Head still retains his leases there.

The Pure Oil Company is now down about 350 feet in its well north of Scotland.

Dr. Miller and associates are down about 400 feet in their well near Crystal Falls in the northwest part of Stephens county.

The Flannigan-Russell well on the Fisher tract southwest of Electra is expected to drill into sand at any hour and is being watched with the greatest interest, as it is well there will prove much territory to the southwest.

The W. B. Honaker test five miles east of Electra is another test that is being watched closely. The drill is now down about 2,000 feet in this well. Several sands have been passed through in this well corresponding to pay sands in the pool to the westward and it is hoped to strike the 350-foot sand in this well for good pay. Territory to the south and west of this well is looking mighty good to the oil men in the light of developments of the last fifteen days.

The Wichita Gas and Oil Company is preparing to drill another well at Petrolia. The well will be drilled by Bob Sanders and work on the derrick will start next week.

L. O. Thompson and associates of Amarillo are getting ready to sink a well on their 45-acre tract northwest of the big Miller gas well at Petrolia.

The Developers Oil Co., is down over a thousand feet in its No. 2 at Petrolia and is something over 600 feet in its No. 3. Drilling was started in the latter well only last Thursday.

Notice!

After this week my office hours will be from 9 a. m. to 5 p. m. No examination or consultation after 4 p. m. This is because it takes nearly an hour to make a shoe and I cannot make shoes in a short time during the hot months. I also want to correct some reports that some meddlesome persons have started about my leaving Wichita Falls. We are here to stay. We should we leave? We have the largest and best-paying practice in West Texas. This is the best town in the South. We have no competition; we are making money, so why should we leave? Also when you want any information about us come to us or ask some of our patients, any of the 200 we have treated here. If you listen to the "small talk" that you will be misled. I treat women only. Consultation and Examination Free.

WOMENKNOWHOW TO RUN HOTELS

ARE GETTING TO BE VERY CONSIDERABLE FACTOR IN THIS BUSINESS

MEETING WITH SUCCESS

Know How To Give Things That Homelike Touch of Which Mere Man Is Ignorant

New York, May 11.—Frigid hotel managers who for centuries have been able to sit with unconcern while tearful guests or irate tenants pleaded on bended knee for at least one pitcher of ice water before retiring must be careful. Their jobs are in jeopardy. Women, who can make a rental agent's life a pathway of thorns or a tropic garden, have entered the field of competition.

Women at the head of boarding houses and of private hotels are as frequent here now as campaign speakers. They are no longer a radical sign of the times. But from the smaller establishments, women have emerged into the larger.

One of the highest class hotels in New York is today under the management of a woman and she is making good with a vengeance. The owners declare they have no intentions of returning to the old style of management.

Fifteen years ago, a woman became famous in Minneapolis as manager and rental agent for a new office building there. Now there is a "town in the country" but can boast of the same progressiveness. In New York men are still generally acting as rental agents and managers for buildings but women are beginning to qualify in both capacities.

These women are according to big building owners. The superintendent of a large apartment has to deal mostly with women. The superintendent is the interpreter of the tenant's case. The tenant's frets and flurries and complaints must be investigated, weighed and answered.

Some owners have concluded that the woman superintendent can better handle the situation. Being a housekeeper—some of them—are women can get to the complainant's case more understandingly. She knows, the owners declare, which is the more urgent on its annual, the complaint that the dumb waiter bell doesn't ring or the complaint that the piano in the next apartment wakes the baby at midnight. Women have been tried out and they have made good.

Twenty years ago, Mrs. M. J. McAlpin, with four small children to care for, began work by taking charge of a block of houses near Eighty-ninth street which was then farthest north in New York. It took considerably more nerve to try out a woman in a new line of work then, than now but as the upper West Side began to define itself as an excellent place to live, Mrs. McAlpin was made the superintendent of one of the big apartment houses. During the decade her list increased. She is now agent for four or five of the larger uptown buildings.

She loves to get possession of an old house, one which is uninviting to apartment hunters, transform the rooms into habitable living places and then show in the home-seekers. She has made a success.

BUMPER CROP OF MARBLE STATUES

ALL SORTS OF BILLS FOR THEM THIS YEAR ARE PENDING IN NATIONAL CONGRESS

EXPENSIVE PATRIOTISM

Demande Are Many and Varied and Total Cost Would Run Well Into Millions

By United Press. Washington, D. C., May 11.—"Every Little City Has a Monument All Its Own," will be a new national duty if the plans of Senators and Representatives of the present Congress are carried out. The old U. S. will be dotted with marble shafts, statues, manuleons, and memorial halls as thick as grass on a leeward house table if all the bills now before Congress for patriotic memorials and celebrations should pass.

The annual crop of marble statuary will be a "bumper" too by the gift of many memorials by foreign nations. Hardly a Senator or Representative, except possibly those from far off "Dixie" exists who is not now carefully nurturing, in the nursery of some committee room, a bill to erect or construct a suitable memorial at "Podunk" or "Johnson's Corner" for somebody or something.

Every week a flood tide of appropriation bills, comes in, generally for substantial amounts, to erect some monument on some city or some court house square—and incidentally garner a few votes at the next election.

From \$2,000,000 to a modest couple of thousand dollars, the proposed appropriations run the gamut of patriotic fervor and lavish remembrance of some hero, national or obscurely local.

Two of the largest memorials contemplated proposed in this Congress are those to George Washington and to the unknown dead in Arlington Cemetery. The George Washington Memorial will cost \$2,000,000, as approved in a bill introduced in the Senate recently by Senator Sutherland, of Utah. It will take the form of a giant manuleon, of purest white granite or Italian marble. The site proposed in the Sutherland bill is near the new National Museum, where the old Pennsylvania Railroad station once stood.

Another bill, introduced by Senator Taft, Speaker Clark, former Speaker Cannon, Senators Representatives and members of patriotic societies, is talking at the program, however, favoring a site near the Washington monument, in Potomac Park.

The Sutherland bill provides that a permanent endowment be raised to maintain the Washington Memorial. Plans for the building were drawn by the National Commission of Fine Arts, and include an assembly hall of 5,000 capacity.

Another little chunk of \$750,000 from the national treasury is ordered to be appropriated for the memorial to the unknown dead in Arlington Cemetery by a bill in the House. This measure has the backing and insistent lobbying of the G. A. R., Spanish War Veterans and other patriotic military organizations. The bill provides that the money be spent for a large marble memorial amphitheatre in the cemetery, for use of vast throngs on Memorial Day and upon other patriotic occasions.

Senator Root, of New York, also has a bill to erect a memorial hall to commemorate the valor and sacrifice of northern women during the Civil War. His bill followed the plan of patriotic southerners in erecting monuments to the women heroes of the Confederacy. This bill is now before the Senate Library Committee, and contemplates appropriations of \$500,000 for the building. The building is to be the national headquarters of the Red Cross Society, now housed in the War Department and office buildings, scattered over Washington.

Another bill recommending federal aid to the tune of several thousands of dollars is before Congress to help the negroes of Atlanta, Ga., celebrate the fiftieth anniversary of their emancipation.

It is also proposed to appropriate \$50,000 for celebration of the fiftieth anniversary of the battle of Gettysburg, on the historic battle field of Gettysburg, Pa.

Time to Buy....

The Chamber of Commerce has just landed two large factories; This means that Wichita Falls will continue to grow, and that property is going to increase in value. If you are thinking of buying a home, do it now. If you are figuring on buying for an investment, don't lose the profit by putting it off. Prospects were never brighter for a larger Wichita Falls.

I have several residences to sell on the installment plan, like paying rent and several small tracts of irrigated land and other good bargains which will be to your interest to figure on before buying. Special attention to property owned by non-residents.

burg, on the historic battle field of Gettysburg, Pa.

Local heroes in various middle and far western States will be honored in overlasting granite and marble if other bills are passed which are now in the Congressional "hopper"—with but little chance, however, of many of them being enacted into law.

The first appropriation bill of this character to be passed at this session of Congress was a bill appropriating \$30,000 to preserve tattered, old battle flags at Annapolis Naval Academy. This bill went through "with a whoop" in the House, after a scant hour's debate, and was passed with in less than a week by President Taft. These flags number 136, all tattered trophies of American sea victories. They include the famous "Don't Give Up the Ship" flag of Commodore Perry, emblazoned in American history for his Lake Erie victory.

The latest memorial proposed is that to the 1,400 victims of the White Star Line steamer "Titanic." Women of national renown are promoting this memorial. Monuments to several individual victims of the Titanic, including Major Archibald Butt, President Taft's former aide, also are proposed in private appropriation bills being pressed for immediate passage.

The Times Publishing Company has more money invested in presses, type and job printing equipment than most printing plants in cities of 10,000 inhabitants, and is prepared to do printing of all kinds with neatness and dispatch. If you want good printing call phone 167.

BOY SCOUTS PLANNING ATHLETIC CONTESTS

Dr. J. L. McKee, pastor of the First Presbyterian church and a recognized leader in the Boy Scout work of this section of the State, while in Missouri last week, held a conference with the management of the Hollister Chautauqua, and made definite arrangements concerning an entertainment to be given by the Boy Scouts, Troupe No. 1, Wichita Falls, some time in August during the holding of the Chautauqua in Hollister.

In addition to the exhibition in scoutcraft which the local scouts expect to give as a popular evening entertainment, a challenge has been issued including any boys in the states of Missouri, Kansas, Oklahoma, Arkansas and Texas, for a contest in out-door athletics, and the local boys are therefore practicing almost daily to put themselves in the best possible physical condition in order to be able to make creditable showings when this challenge shall have been taken up by anyone.

Work is already fairly under way looking towards the highest development of the local scouts, and they are expected to make a successful showing for themselves during their absence from the city while in Hollister. Two baseball nines will be chosen in the near future; special meetings are being held for study and practice in the parts which the scouts will probably present; and the next three months will be a most busy time for all concerned. Dr. McKee will supervise the preparations for the trip, and more definite announcements concerning the progress of his plans will be forthcoming within a few days. The local organization will be represented at the Chautauqua by a large delegation of Boy Scouts.
