Marian Settles To Stay In Uganda

Marian Lee Settles, daughter of Mr. and Mrs. J. H. Settles of Texhoma, will be stationed at Arua, Uganda, at least for the next year.

Miss Settles was evacuated from the Congo last month. She will teach in the Teacher Training School at Arua.

In a recent letter Miss Settles said that five Congo missionaries would be stationed at Arua. Three of them were British women and two were American. They will share the same house and by pooling the equipment they were able to salvage in their flight, they will be able to "keep house" after a fashion.

Miss Settles left the Congo with two suitcases of clothing, a duffel bag of blankets and shared a small trunk of linens

with her housemate. They fell heir to a small supply of dishes and utensils at Rethe when one of the missionaries decided to return to the states.

SCHOOL NEWS

MR. BOOTHBY'S ROOM

(By Dolly Mehner) Friday in art we drew and painted pictures of flowers. We displayed them on the bulletin board.

Last week we had our six weeks tests. They will send our report cards this week.

In P. E. we are playing volleyball.

MRS. RIGGS' SEVENTH GRADE NEWS

(By Donna Judd and Nancy Lollis)

The girls are tumbling, playing volleyball and jumping on the trampoline in P.E. They went swimming Friday. Some of them are just learning to dive off the high board and are progressing quite well. We were all very sorry to have Elaine Brown leave us and move

to Arizona. Some of the girls in the 7th Grade class gave her a farewell party Thursday night.

We finished our six weeks tests the past week and are expecting our report cards Wednesday.

There are only 12 more weeks of school this year. Goody, goody!

CARD OF THANKS

I want to take this opportunity to thank those of you who were so kind and thoughtful in sending cards while I was away, part of the time in the hospital at Boise City. Words cannot express ones feelings for the kind thoughts expressed. God bless you.

Pardners, you can corral 5000 Gunn Bros. or Frontier stamps — plus the best doggone cookstove you ever did see — electric, of course — if you'll saddle up and sashay down to your Reddy Kilowatt Electric Appliance Dealer's diggin's right now.

It's true — so help me — that every Southwestern Public Service Company residential customer buying a new electric range in March or April from a Reddy Kilowatt Dealer will receive 5000 Frontier or Gunn Bros. stamps. You'd have to buy 10 wagonloads of vittles to get that many stamps in one lick.

Doggone, Ma'am, you're such a good cook now — why not cook electrically and be that much better. And lasso all those stamps, too.

NF Scholarships Are Available For Students

Sherman County students seeking National Foundation health scholarships must file applications by April 1, according to Don Riffe, chairman of the organization's county chapter.

More than 500 scholarships will be offered nationally for training in medicine, nursing, physical therapy, occupational therapy and medical social work, Riffe said.

Each scholarship amounts to \$500 a year for four years for a total of \$2,000.00.

Graduating high school students planning to enter college in September of 1961 may apply for scholarships in nursing, physical therapy or occupational therapy.

Sophomores ready to enter the junior in college who plan to continue the graduate study necessary to qualify as medical social workers are eligible for the medical social work scholarships.

Undergraduate students who have been accepted for the first year in medical school beginning in 1961 may apply for the scholarships in medicine.

Application blanks may be obtained from the school principal or counselor; the Sherman County Chapter of the National Foundation, or by writing The National Foundation Health Scholarships, 800 Second Avenue, New York 17, New York, the chairman said.

Browns Leave For Mission In Arizona

Rev. and Mrs. J. O. Brown and children left Tuesday for the Gila River Indian Reservation near Chandler, Arizona where he will serve as a missionary to the Pima Indians.

At the present time a 20x30 foot building serves as a mission for the 18,000 Indians on the reservation.

Rev. Brown has raised funds to drill a new water well near the center of the reservation where he will build a new mission. There are 135 families living in the village in which Rev. and Mrs. Brown plan to make their home. There are 10 people in the average Pima Indian family.

Pima Indians do not receive compensation from the government. They are employed about four months in the year by Arizona cotton growers. When there is sufficient moisture in the mountains, the Indian use water from a stream flowing through the reservation to irrigate their land to grow beans and some corn as a food supply.

Five or six families of Pima Indians usually use one wagon and one team to haul drinking water and fire wood to their homes.

Rev. Brown had served as the pastor of the Assembly of God Church for about 2½ years.
