

THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, August 9, 1928

Number 17

LOCAL SCHOOLS OPEN SEPTEMBER THE THIRD

At a meeting of the Board of Trustees, it was decided to open the Junction schools on September third, as all teachers have been chosen and are ready to report at any time.

It was also decided at this meeting to admit all children under scholastic age and not over six years of age, on tuition of \$2.50 per month, provided, however, that the first grade is not crowded.

Mr. Earl Bowers of Rising Star has been secured as Seventh Grade teacher and athletic coach. Mr. Bowers requests that all students interested in football, to meet him at the school grounds August 20th, at 3 o'clock in the afternoon.

The faculty for the coming year will be as follows:

Miss Austin Durst, First Grade; Miss Bernice Kraatz, of C. I. A. Second Grade and Domestic Science; Miss Margaret Sutton, of Simmons College, Third Grade; Miss Mary Willis, Fourth Grade; Miss Mary Ellis Buckburn, Fifth Grade; Miss Bernice Chensault, Sixth Grade; Mr. Earl Bowers, Seventh Grade and Athletic Coach; Miss Nellie Bennett, Foreign Languages and History; Mrs. Joe Felps, English and History; Mr. A. J. Bierschwald, Science; Professor H. B. Cowles, Mathematics.

J. D. MOTLEY MADE HEAD ASSN. OF SECRETARIES

J. D. Motley, secretary of the Ballinger Chamber of Commerce, was elected president of the "Heart of Texas" Commercial Secretaries Association at an executive meeting of the body here Wednesday afternoon. Fifteen towns and cities of the region, consisting of nineteen counties, were represented at the meeting. The next regional session is scheduled to be held at Coleman in November.

Mr. Motley succeeds Hilton Burk, of Brownwood, as head of the organization. Carl Blasig, of Brady, was selected secretary, to fill the vacancy created by the promotion of Mr. Motley. T. N. Carswell, of Abilene; W. H. Hickey, of Ranger, and Mr. Blasig were chosen to succeed retiring members of the directory board.

The purpose of the association is the cultivating of contact between secretaries. Mr. Motley pointed out. Its chief accomplishment is in the publicity advantages it derives, he said. Meetings of the secretaries are held regularly throughout the year, and current problems are discussed.

The principal project before the meeting here was the subject of good roads. The various secretaries sought to gain information to help in carrying on their respective good roads programs. Every county represented at the meeting has a good roads movement of some type current.

The following places were represented at the session: Ballinger, Abilene, Coleman, Brownwood, San Angelo, Brady, Cisco, Rising Star, Gorman, Eastland, Ranger, Comanche, Winters, and Cross Plains.—Ballinger Daily Ledger.

BUS LINE, LLANO TO MCCAMEY VIA JUNCTION

The State Railroad Commission last week granted to J. R. Walker a permit to operate a bus line from Llano to McCamey, via Mason, Junction, Sonora, Ozona and Sheffield, a distance of 250 miles, a bus daily each way.

This will place Junction a little more prominently on the map, as it is stated that the traffic on this route will be greater than over any other route. With all the other good things coming this way, Junction may reasonably expect to grow more rapidly in the next five years than it has done in the past fifteen.

MAY MOVE PECAN BU- REAU FROM BROWNWOOD

The following article, taken from the Brownwood Bulletin, may be of significance to the people of Kimble County, in that the bureau will likely be moved, no more appropriate location could be found than in Kimble County. And it is the opinion of some that if the matter is taken up by the Chamber of Commerce and a committee appointed to go after the re-location for Kimble County, it is more than probable that it could be secured.

It is at least worth looking into and making an effort for. The article follows:

"A re-location of the United States Bureau of Entomology and Plant Quarantine now located here is being considered and probably will be made sometime this fall, according to H. S. Adair, in charge of the station. The new location has not been selected.

"The move is being contemplated in order that present investigations of pecan insects can be continued to the advantage of the pecan industry in Texas," Mr. Adair said.

"The station was established here in 1917 and during the greater part of the time has been maintained as a substation of the bureau of entomology, the central station being at present at Albany, Georgia. Until a year ago the personnel consisted of one person, with additional help occasionally as the work demanded. Since June, 1927, two permanent employees of the bureau have been stationed here.

"Although considerable experimental control work against certain insect pests of the pecan have been conducted in co-operation with local pecan growers the major work of the station has been the study of the life histories and habits of the more injurious insects attacking the pecan.

"As a result of the work done here a great deal has been learned concerning the various insects attacking the pecan," Mr. Adair said. This knowledge has made possible the development of successful control measures for some of the pests. Studies of some of the other injurious insects have not reached the point where control measures can be formulated, however, those methods that have been tested sufficiently to warrant their recommendation, if applied by pecan growers would do much to reduce the insect damage and increase the profits from pecans.

"Although many of the methods of control that have been tried have not proved successful the work is of considerable importance because it protects the pecan grower from the expense of adopting worthless measures of control for some pest that may be attacking his pecans. During the past two years considerable time has been devoted to the study of the parasitic enemies of the pecan nut case bearer, an important pest of the pecan."

REVIVAL AT THE METHODIST CHURCH

The revival now being held at the Methodist Church has been accorded a steadily increasing interest on the part of the community. On Sunday night the building was filled to capacity with many unable to find places. There has been a deep interest displayed and the meeting promises to accomplish real and lasting good.

The music under the leadership of Mr. Bob Watkins has been a valuable factor in the meeting. Bro. Watkins is a leader and soloist of exceptional ability as well as a splendid worker with the children and young people.

Subjects presented have been: At Ease in Zion; Tragic Indifference; Sudden and Gradual; God's Watchman and others.

Services will continue through Sunday, each morning at 10 and evening at 8:15.

Water Question Settled; City to Install New Plant.

There has been no item of news which this paper takes more pleasure in announcing to the public in many months than the fact that the City Council and the local Water Company have arrived at a settlement of the differences in the matter of the law suit which has been pending on our docket for some time.

We feel this action will be met with sincere approval on the part of most of our citizenship, as the outlook for some weeks past has been that no new water works would be available for some time on account of litigation, and it is a cardinal necessity that an adequate supply of water be furnished the town of Junction before contemplated improvements can be realized.

We wish to commend the spirit of friendliness and sincere efforts on the part of the leaders on both sides of this

case in their effort at adjusting this matter. No more signal service has ever been, or will ever be, rendered to the city of Junction than the adjustment of this difference.

In addition to this great benefit it will serve to bring our business interests into even more close unity than has been the case in the past. When we go to consider that last year, we contributed more than Ten Thousand Dollars to Public Welfare, with all the differences out of the way, Junction and Kimble County are destined to be one of the best developed communities in all of Southwest Texas.

The many houses which have been contemplated for the past few months will now be constructed, as only one of the few benefits derived from this settlement, and with an ample supply of water available there is no prophesying the good that will result by this adjustment.

The Slogan

"What was good enough for Father
Must be good enough for me."
Said the dinosaur paddling
In the ancient shipless sea;
Which is why he's in museums,
While the more progressive cow
Has electric light and oil-cake
In a model stable now.

"What was good enough for Father
Must be good enough for me."
Says the naked, nose-ringed savage
Bowing down to stone or tree
But the ancient Briton grumbled
At his hovel and his wood,
And in time a boy called Shakespeare
Came along the Stratford road.

"What was good enough for Father
Should be good enough for thee."
Said the druids, quacks and tyrants
To the soul who would be free;
We could still be burned for thinking,
We could neither read nor fly,
And our doctors would be witches
Had our forebears answered "Aye."

So whatever in the future
You may set yourself to do,
Making, airships, building houses,
Hunting microbes in the blue,
Rearing babies, dealing justice—
Let your slogan ever be
"What was good enough for Father
Is not good enough for me."

—Exchange.

DISTRICT COURT CON- VENED MONDAY, AUG. 6 PROBABLY LOCATE BOY SCOUT CAMP ON LLANOS

District Court for Kimble County convened Monday, August 6th, with Judge J. H. McLean on the bench, and District Attorney F. H. Hammond, prosecuting.

The Grand Jury returned five bills of indictment: three burglary and two theft. All parties have been arrested and are confined in jail or have made bond.

The Criminal Docket was taken up and seven cases were disposed of and one continued.

In the Civil Docket, five cases were continued, one judgment taken by default, one divorce granted and three cases settled and dismissed.

This is the record of the Court up to Wednesday at five o'clock. There are many other cases pending that will come up during the remainder of the session, and if handled as rapidly as the preceding ones, the docket will have but few cases to carry over to the next term.

Mrs. Felix Watson of the Watson Divide is here this week the guest of Mrs. Carl M. Wolf.

W. T. C. OF C. MOTORCADE TO BE HERE 12th AND 13th

When the West Texas Chamber of Commerce motorcade arrives at Junction on the evening of August 12th, the Junction Chamber of Commerce will be ready to receive them and escort them to the places of the greatest interest.

A barbecue dinner has been arranged for at "Grande Court" at the noon hour Monday, the 13th, to which the entire motorcade will be taken and to which the entire membership of the local chamber of commerce is urged to attend and meet the members of the motorcade.

The motorcade is composed of a number of the West Texas Chamber of Commerce members and they have in the party the Cowboy band of Simmons University, the official band of the organization, and will give a concert. The band, arrayed as it always is in cowboy hats, chaps, and other regalia, has been engaged to add color to the motorcade which was scheduled to tour parts of New Mexico, and probably a short trip into Old Mexico.

Junction is one of the few points where the band will give a formal concert. Recently adjudged the best band in West Texas at the contest at Fort Worth, the Cowboy band will give one of its very best musical programs here.

The citizenship of Junction should consider itself fortunate indeed, to be on the route selected by the motorcade, as they will gain considerable splendid publicity from this short stop of this fine bunch of West Texas Boosters.

Let every member of the local Chamber respond readily to the invitation issued by the secretary, J. B. Stevenson, and attend the noon-day barbecue at the "Grande Court" Monday.

GILLESPIE COUNTY FAIR OPENS AUGUST 25th

A program more pretentious than any circus program ever seen at Fredericksburg will be presented to visitors to the Gillespie County Fair this year to be held August 24, 25, 26.

The Fair itself will be many times bigger than the average circus for in addition to its splendid entertainment program it will offer a score of big educational features.

In addition to the usual circus features to be seen at a Fair there will be horse races, polo, ball games, band concerts, and a carnival. The exhibits of cattle, sheep, swine and poultry, farm crops, women's work, boys and girls club work and other educational attractions will round out the best combined program the fair has ever planned.

A liberal prize list has been set aside for all kinds of educational exhibits, and a big inventory list of livestock and other products of the farm is expected. Boys' and girls' club work is being emphasized, and the children enrolled in club work are working hard to get their displays ready.

Governor Dan Moody has accepted the invitation of the Association to open the Fair with an address which will be made at 11:00 a. m., on Friday, the first day of the Fair.

Advertising matter, telling all about the features of the Fair has been distributed far and wide, and attendance from point never covered by the Fair before is expected.

AT THE TEXAN THEATRE

On tonight and tomorrow night The Texan will show George O'Brien in "Paid to Love."

Saturday, matinee and night, Tim McCoy in "Spoils of the West." And remember that the show begins at 2:30 and continues till 10:30 on Saturday.

For Monday and Tuesday of next week, John Gilbert and Greta Garbo in "Love." Better see this.

Then on Wednesday night, Richard Dix in "Shanghai Bound."

PAVING ON OLD SPANISH TRAIL STILL MOVES ON

The paving of the Old Spanish Trail across east Texas and into the hill country of west Texas is proceeding faster than people realize. Of the 330 miles from the Louisiana line to San Antonio only 65 miles are now unpaved, and the paving is half completed into the hills at Junction. These are the reports of Harrell Ayres, who was in Beaumont Sunday on his way to the Old Spanish Trail meeting of the Louisiana people at Crowley, La., Tuesday. Mr. Ayres will spend Monday in Vinton.

If the people of Beaumont want a nice vacation and a pleasant drive let them now go to the west Texas hill country. Out there amid these hills, spring-fed rivers, great ranches and clear sunshine is the finest region in the south for restoring one's health, he says.

Between San Antonio and Houston the highway department is topping the old, seasoned gravel roads with asphalt. This is costing from \$1500 to \$2000 per mile. The surface is as good as concrete, but it requires maintenance and some renewing to keep in condition. California, Mr. Ayres says, is using a similar treatment on its standard gravel roads and the cost out there is about the same. All drives are accepting this asphalt treatment as satisfactory.

The department is setting fences back on 80-foot and 100-foot right-of-way lines and moving the ditches away from the traveled part of the road. Curves are being taken out. Old bridges are being replaced with modern structures. Contractors are at work on the concrete road across Fort Bend county from Rosenberg to East Bentler. The new concrete west of Houston will be opened in ten days. The new San Jacinto bridge is opened and a new concrete road will cut across to Crosby.

Texas is proceeding so rapidly with this paving and improvement work along the Old Spanish Trail it now seems that Texas will in another 12 months match the ribbon of pavement that is stretching across Mississippi, Alabama and Florida, and from Mobile on up to New York and the east for pavement is already half completed from New York to Mobile, he says.

"We are ready even now to give travelers fine driving conditions," he says, "through this Old Spanish Trail territory. East and South Texas are especially good. But we are facing the problem of changing the travel movement of the nation. California and Florida have pulled this travel to their territory for generations and they are spending large sums to keep travel coming their way. We will also have to spend money telling the nation what we have. Stories of past conditions along the Old Spanish Trail are all over the country and it is going to cost money to clear them away. I find evidence of this constantly in my travels. Over in Florida last month I met a traveler who had just been told to keep off the Old Spanish Trail because there were \$25 of ferry tolls. He wouldn't believe the big bridges were now built and only two ferries remained."—Beaumont Enterprise.

KILLS BIG BOB CAT IN HIS BACK YARD

Last Monday night the bull dog of L. B. Kirkpatrick created a commotion in the back yard of his home, and on investigation Mr. Kirkpatrick found that a large bob cat was being kept up a tree by the dog. He, of course, proceeded to shoot the cat, and thereby stop the fun of the dog.

The cat had been preying on Mr. Kirkpatrick's chickens.

SAFETY OF HIGHWAY DEPENDS ON DRIVER

The safety of the roads and highways of America depends upon the behavior of the motorists toward the public, says an automobile dealer.

He points out that a motor car does not need a driver who is a skilled mechanic as much as it needs a driver who is skillful in manipulating a car on the highway.

"An excellent mechanic is not necessarily a good driver," Mr. Tucker continued. "What is required in a driver, besides a general knowledge of his machine is a knowledge of the rules, customs and courtesies of the road and the habits of traffic; also the possession of the qualities of alertness, foresight and a consideration of others."

"He should have a temperate frame of mind and an abstinence of even moderate drinking. The automobile driver needs to be the best driver on the highway if he is to drive without offense to the public, and danger to others and himself, for he has to conduct a vehicle which is more valuable than any other on the road and more speedy."

"He must be observant and realize that children hanging on the rear end of wagons are apt to drop off suddenly and run across his path."

"He must be on the lookout for pedestrians, stupid, drunk or deaf; wagons on the wrong side of the dangerous corners, and be prepared to find vehicles in charge of sleepy drivers, who will often do the wrong act on being aroused."

"A good driver must know the proper way to drive his car around the corner, both right-handed and left-handed, and the best way to ascend and surmount steep grades."

CLAUDE HUDSPETH WILL
SUPPORT MAYFIELD

El Paso, Texas
July 31, 1928

Hon. Earle B. Mayfield,
Austin, Texas.

While our relations personally have always been pleasant, as you know, I did not support you for Railroad Commissioner, nor for U. S. Senator, giving my support to Senator Culberson. I voted for Mr. Owsley Saturday. Remembering your statement of tariff views to me in Washington last March which, coincided with my position since I became a voter, and which means the life of the livestock and farming industries of my district, I shall support you in the run-off against Mr. Connally with my whole strength. Surely the people will not elect a man to the Senate, who, as far as my recollection goes in ten years service with him, cannot point to a single bill with the name of Connally that has passed either body. If Mr. Connally has any claim upon the livestock and farming interests after voting against and fighting both emergency tariff bills, I fail to see what he bases it upon. The Sixteenth District is still Democratic by fifty thousand. Will you speak in it? Now is the time to give the people the facts. You can safely trust them when they know the facts.

Claude Hudspeth.

Many alfalfa growers, who cut the hay at full bloom or in the early pod-stage of maturity—a practice especially common in the North Central and Rocky Mountain States—could produce hay of better quality if they would cut it when 1-10 to 1-4 in bloom or when new growth starts from the crowns, irrespective of the bloom. This would advance the time of cutting a week or so for the first cutting and increase the seasonal tonnage because of the longer period given to subsequent cuttings. Large quantities of late-cut alfalfa are marketed annually in the United States and most of this type of hay grades only U. S. No. 2 or No. 3 because of insufficient leaves or lack of color. Late-cut alfalfa also has hard and somewhat woody stems, which, although not very objectionable to horse or stock-eattle feeders, are not wanted by dairymen who are the chief buyers of alfalfa hay.

Quick Work

Lancaster, Pa.—It required four hours and twenty-five minutes to transform part of the grain in a wheat field into a palatable cake here. A farmer, miller and baker co-operated.

The collection and destruction of peach "drops" is an aid in preventing the development of the adult plum curculio, the most serious insect pest attacking the peach and one which is especially abundant in the Southern States. There are often two generations of the curculio, the second-brood adults emerging from the soil in August. Most of the small peaches that are punctured early in the season by the curculio fall to the ground, and the collection of these drops will get about 90% of the worms that fall to the ground during the season and will also leave fewer beetles in the orchard after harvest to hibernate and attack the crop the succeeding year. All drops should either be buried in a trench and covered with quicklime before the soil is filled in, or they should be submerged in boiling water.

The valuable thing a man gets out of his garden is good exercise

The Statue of Liberty measures 305 feet six inches from the base of its pedestal to the tip of the torch. The statue itself measures 151 feet, one inch.

INSTRUCTIONS ISSUED FOR INCOMING ALIENS

Washington, D. C.—Instructions to immigrants and detailed information on the immigration statutes, revised so as to include the newly enacted laws dealing with immigrants and aliens, have been prepared by the Department of Labor and will be shortly in printed form, it was announced recently by the Commissioner General of Immigration, Harry E. Hull.

The publication, Mr. Hull stated, will supersede the one issued in 1926 by the Bureau of Immigration. It describes the steps necessary for the alien who seeks admission to the United States. It defines an immigrant and non-immigrant; the quota, non-quota, and preference immigrant; and the immigrant visas.

Mr. Hull said that 50,000 copies of the publication have been ordered for distribution. An average of 2,500 inquiries for such information reach the Bureau of Immigration each month, it was added.

Abstracts for your lands can be secured on short notice from E. Holekamp. 25 years in business; we know how. (adv)

According to the biennial census of manufacturers taken in 1916, the establishments engaged primarily in making confectionery and salted nuts reported for 1925, products valued at \$380,761,000, an increase of 4% as compared with \$366,256,000 for 1923, the last preceding census year.

Since 1885, 4,250 people have been lynched in the United States. Of this number, 1,045 have been white people, and 3,205 have been negroes.

Carranza, good will flyer, has passed to his reward. And in the very midst of mourning for the brave flyer, citizens of both Mexico and the United States were shocked by the news of the assassination of General Obregon. Mexico has lost two of its finest, two great souls whose lives were an inspiration and an incentive to noble thoughts and deeds.

The honors paid to Carranza in New York were impressive and beautiful. While airplanes cruised the skies overhead, a long, solemn funeral procession marched the streets. Thousands of American military men marched with slow, measured tread in tribute to the great aviator, while many more thousands watched, hats in hand, eyes dimmed with tears. The sun burnt scorchingly upon New York that day. On and on moved the procession, with slow, measured tread, to the music of Chopin's funeral march, unmindful of the burning heat. All New York thought that day only of the young hero whose achievements had fired the imagination of two lands.

America and Mexico have wept together over the tragic deaths of Carranza and Obregon. The tears of a common grief have brought, we believe, Mexico and America closer to each other than they have ever been.

Carranza's good-will flight was a beautiful tribute to this country, a magnificent gesture of international friendship. His untimely death has caused great sorrow; he shall be enshrined forever in our hearts and in the hearts of his countrymen.

**DECLARES CHURCH SEEKS
TO BE POLITICAL PARTY**

Atlanta, Ga.—"The trouble with the Roman Catholic Church is that it seeks to be both a church and a political party," according to Bishop Warren A. Candler of the Methodist Episcopal Church.

"Its arrogant claim of being the only true Christian church might be treated with indifference; but when its head asserts political and civil authority, a position is assumed which cannot be allowed any church whatever. It must not complain if it is met with political opposition not offered to any other church. If it were willing to take its place along with all other churches, it would be improper to meet it with any other attitude than that with which we meet all other churches; but it is not willing to be only a church. Putting itself into a class to itself by its political animus, it must take all that such improper attitude makes inevitable. It cannot claim the political exemption of a church while it asserts political claims as well as churchly prerogatives."

**STANDARD HYDRANT
COUPLINGS NEEDED**

A large proportion of the fire departments of this country are unable to aid neighboring cities if a need arises because of the lack of uniformity of hydrant couplings. The National Board of Fire Underwriters is carrying on a campaign for the adoption of uniform standards for fire hose and connections.

It is said that in a number of the greatest and most destructive conflagrations the loss would have been appreciably less had standardization of equipment been effected. As it is, fire fighting apparatus that came from communities ready to aid, was practically useless

and could not be utilized.

Our fire menace must be curbed and this standardization movement will do much to help. Every city and town should co-operate to the fullest extent in remedying present conditions as rapidly as possible. When we have conquered fire it will mark the dawn of still greater progress and prosperity.

**CROCKETT STOCK RAISERS
FORM EXCHANGE**

The Crockett County Livestock Exchange, an organization of ranchmen in this section for the purpose of providing a center of contact in the livestock industry and a convenient location where buying and selling may be carried on and matters of common interest discussed, was organized at a called meeting of about 20 ranchmen held in the office of Judge Chas. E. Davidson Saturday afternoon.

As soon as the charter membership is complete, articles of association will be drawn up and the association put on a legal basis for transaction of business.

The organization plans to take a one-year lease on the Smith building recently completed on the corner opposite the square and establish headquarters for the exchange there. Floor space in the building will be rented to allied interests and the building will become the local center of the livestock industry in Crockett and adjoining counties. The meeting was called by T. A. Kincaid, who was chosen for his fifth term as president of the Sheep and Goat Raisers' Association of Texas at the thirteenth annual convention of the body in San Angelo last week. Mr. Kincaid said that the idea of the livestock exchange had been discussed years ago by him and the late L. B. Cox and that it was his belief that the organization would be of immense benefit to the livestock industry of this section.

Mr. Kincaid declared that a full time secretary would be selected for the Sheep and Goat Raisers' Association and that the secretary would maintain offices in the livestock exchange building. In addition to office of the Sheep and Goat Raisers' Association, office space may be rented to commission dealers.

Paul Perner was chosen as first president of the Exchange organization. T. A. Kincaid was selected as vice-president. The board of directors, appointed by the president, includes the following: T. A. Kincaid, Early Baggett, Joe Pierce, Bascomb Cox, Hugh Childress, C. C. Montgomery and W. R. Baggett. Membership dues were fixed at \$24 a year, payable in advance, for the first year. It was provided that the board of directors have the power to reduce this amount if in its opinion the organization could function with a lower fee.

The board of directors compose a membership committee to get members for the organization and it was reported the middle of the week that approximately 65 had signed up and

paid the dues to become members of the association. Ranchmen of Crockett and adjoining counties are eligible for membership in the organization and to share in its benefits.

The primary function of the exchange will be to provide a local livestock center, where member stockmen can list the stock or land they have to sell and also their wants in the way of stock or land. It will be a center where ranchmen can meet buyers or where they can go to do their trading. It will be a source of publicity for the livestock industry of this area. The Sheep and Goat Raisers' secretary also acting as secretary of the livestock exchange and providing publicity to newspapers, magazines, etc., about livestock in this section and the various deals consummated.

All livestock deals in Crockett and adjoining counties will be reported to the exchange and in this way it will be come a center of information for stockmen and the public at large on the industry.

The building to be occupied by the exchange will be furnished comfortably and ranchmen who are members of the famous "Sweater Club" will be privileged to use the exchange quarters for their daily meetings, it was pointed out.—Ozona Stockman.

But Do You??**

We know that you want the best of everything that your money will buy.

For instance, when one of your family is very sick you call the doctor that you think is the very best to be had, and you feel a sense of comfort as soon as he arrives. And you give the medicine that he prescribes.

We are not doctors but we do prescribe Frigidaire for better refrigeration, that your foods may be protected from the harmful growth of bacteria. And this is one of the greatest protections to health.

LAWN PARTY

Mrs. Coke R. Stevenson honored Miss Avaril McLean of Fort Worth, Mrs. James Taylor of Austin and Mrs. H. G. Perry of Carrizo Springs with a bridge party at her home on Thursday afternoon.

The big porch and shady lawn proved a pleasant place for the players. From the porch hung baskets of sunflowers which provided the color motif of yellow and black.

With the hostess in the receiving line were the honorees and Miss Eloise Hardeman and Mrs. Pierce Hoggett. The ladies were appropriately costumed in yellow or black.

Mrs. Joe Watson made high score and was rewarded with a brass fruit bowl. Mrs. S. A. McDonald won the second prize, a hand-painted black and yellow boudoir pillow. Mrs. Charlie Henderson cut the consolation and received brass candle holders with yellow candles and sun flower shades.

A bottle of perfume was presented to Mrs. Jas. Taylor and yellow silk hose were given the other honorees.

Fruit punch served from an ice punch bowl, raisin bread sandwiches, sunflower salad, lady fingers and ices were served by Mesdames C. T. Orth, C. R. Stevenson and Coke Stevenson, Jr.

Hand made sun flower tallies further carried out the color scheme.

BRIDGE LUNCHEON

Mrs. S. S. Bundy was the charming hostess Friday when she entertained the Ladies' Afternoon Card Club and a number of friends in honor of her house guest, Mrs. Sears, of Boston, Mass.

The beautiful ranch home was aglow with hospitality, and the entrance to the spacious living room, with bowls and vases filled with cut flowers and greenery provided an attractive setting for the players.

The guests wandered over the lovely lawn and flower garden until the dainty luncheon of meat loaf, baked country ham, potato chips, stuffed tomatoes, buttered hot rolls, ice cream with butterscotch icing, macaroons and iced tea were served.

A breezy and entertaining program of songs and readings were rendered by Mrs. Gay Slesker and Miss Betty Bundy. Mrs. Sears' discussion of the foreign students who are studying in Boston was both interesting and instructive.

Four games of bridge were then played with Mrs. Felix Watson holder of high club score and Mrs. A. S. Rieck made high guest score. They were presented with dainty rose bud vases.

Ice cream with butterscotch sauce, white cake and devil's food cake were served at the close of the afternoon.

RIDING PARTY

Wednesday afternoon Mrs. Pierce Hoggett complimented her house guests, Mrs. H. G. Perry of Carrizo Springs, and Miss Avaril McLean of Fort Worth with a horseback riding party.

Mrs. Slaton Fleming won the cigaret race and received a tie; Miss Eloise Hardeman rode the winning steed in the horse race. A belt was awarded Miss Clara Fritz for the best riding habit. Miss McLean and Mrs. Perry the honorees, were presented with a shirt and a belt, respectively.

The out-of-town guests were Mrs. H. G. Perry of Carrizo Springs, Mrs. James Taylor of Austin, Misses Avaril McLean of Fort Worth and Eldon Clare Gough of Waco.

Women Not Allowed to Wear Trousers in Iola, Kan.

Iola, Kan.—Chief of Police Custer Davis believes that trousers are all right in their place, but do not belong on women—at least, not in Iola.

Davis issued an order prohibiting women from wearing trousers in the streets of Iola, and sent two women out of town because they were wearing overalls.

PARTY

Tuesday afternoon Mrs. L. E. Standifer honored Miss Avaril McLean of Fort Worth, Mrs. James Taylor of Austin, Mrs. H. G. Perry of Carrizo Springs and Mrs. Rudolph Tatum with a bridge party at the home of Mrs. Irvin Jarvis.

Mrs. H. O. Denman was the lucky holder of the high score and was presented with a box of bath salts.

Each of the honorees received a jar of dusting powder.

Iced tea, potato chips, fruit salad on lettuce, olives, tuna fish sandwiches, pimiento sandwiches and jelly roll were served to about twelve guests.

Radios and phonographs repaired. **B-C Music Shoppe.**

TO THE VOTERS OF PRECINCT No. 1

It is my desire to thank all of you for the consideration and help you gave me in my race for Commissioner of this precinct.

In going about during my candidacy I occupied a great deal of your time, and I must say that I got a very patient hearing from all of you, and received the best sort of treatment from each and every person I canvassed with.

Should I again run for a public office I shall be well pleased to be considered in the future like I have in the past. Again sincerely thanking everyone of you, I am,

Yours very truly,

V. L. Millsap.

Chiropractic for constipation? Yes, Sir. For stomach trouble? Absolutely. adv

MUST REGULATE THE DRIVER

Some affirmative legislative action must be taken to abate reckless driving and safeguard against automobile accidents on the highways.

In 1927, excluding accidents at railroad crossings and with street cars, 22,251 fatalities occurred from automobile accidents. One out of every four fatal accidents involved auto-

mobiles.
An analysis shows that in 5,581 instances the driver disregarded signals; 4,280 resulted from cutting in; 3,859 drove off roadway; 7,451 exceeded the speed limit; 7,247 on wrong side of road; 1,281 in passing standing street car; 691 passing on wrong side; 938 making wrong turn; 631 passing on curve or hill; 574 disregarded officers' signals; 282 drove thru safety zone; 19,720 did not have right of way; 1,750 disregarded arterial stops.

The usual remedy suggested by those unfamiliar with the situation is elimination of railroad grade crossing. But none of these accidents occurred at grade crossings and grade crossing accidents are responsible for but a small proportion of total fatalities. Removal of all grade crossings would further burden the people with taxation without remedying the main causes.

If accidents are to be reduced and driving on the highways made reasonably safe, there must be written into our statutes regulations which by driving qualifications will prevent the reckless, inexperienced, or physically incapacitated individual from obtaining a driver's license.

Railroad crossings, boulevards and densely traveled intersections and highways should be made arterial stops. With nearly 24,000,000 licensed automobiles in this country and in-

creasing every day, and with about 95,000 accidental deaths occurring in 1927, of which 22,251 resulted from automobiles on the highways, the time has come when, for the public safety and welfare, definite and remedial action must be taken to curb primary conditions responsible for such results.

A GREAT SERVANT OF AGRICULTURE

A short time ago a big tractor, to be used in the cultivation of cotton, was shipped into Mississippi. It is stated that these machines will do the work of 1300 men and 5200 mules in drawing multiple row cultivators.

The Florence, Alabama, Times-News, in commenting on this, says that "there will probably be no more significant development in Southern agriculture during 1928."

The tractor has given the farmer new standards of speed, efficiency and labor saving. It will be interesting to observe the progress in cotton cultivation in the Mississippi delta that will be effected by the utilization of these tractors.

The oyster crop of the world amounts to over 22,000,000 bushels and is valued at nearly \$20,000,000. Of this output the share of the United States is 79% of the quantity and 63% of the value.

Order Freely thanks to ICE

ICE in a good refrigerator keeps food so fresh, sweet and wholesome that women can order in greater quantities, thus saving both time and money.

They can anticipate food requirements, secure in the knowledge that fruits, vegetables and all other perishables keep during the hottest weather well-iced refrigerator.

Ice not only gives the modern woman more leisure, but contributes mightily to the health and happiness of many millions of families.

Borden Ice Co.

Dread of big business fades. Raabok, financial head of the four billion dollar General Motors Company, is Democratic National Chairman. Owen D. Young, chairman of the Board of the General Electric Company, one of the biggest corporations in America, is asked to run for Governor by Democrats in New York.

Williams Jennings Bryan where he dwells in bliss, doubtless shudders at all this. But these are practical days; big business is practical, and it is well to recognize things as they are.

Some Calvinists, it seems, are still Calvinists like old John. Queen Wilhelmina, of Holland, will not attend the Olympic games. Calvinists in Holland are urged to stay away from what stern preachers call "a carnival of the flesh."

Dutch Calvinists say the Olympic games turn men away from Golgotha to Greco-Roman paganism.

A majority of human beings have abandoned the John Calvin theory, which include the burning alive of Dr. Servetus on slight provocation, believing that the good Lord wants people to enjoy themselves occasionally.

Crime organization seems to reach almost everywhere. One Sunday morning two dangerous man-killing gunmen escaped from Sing Sing Prison.

The same morning two Sing Sing Prison guards were arrested, accused of blackmailing motorists on the highway.

No wonder prisoners escape, when the jailers by night are highway blackmailers by day. A fine example to the prisoners, in "reforming" prison atmosphere.

Jeritza will talk and sing in a "talking movie." These "Talkies" make a good start with this artist. The singer will get \$10,000 a week or more. And while she rests the film will go on singing, millions hearing it. Wonderful invention, time and labor saving.

Dr. Ira S. Wile says the population is "growing older." It lives longer, the birth rate is lower. But old people, he says, are no longer proud of their age and little reverence is paid it. Today the number of those past fifty is fifty per cent greater than in 1870.

Age is nothing to be proud of, since we grow old in spite of ourselves. But to be hard at work when you are old, and EFFICIENTLY at work, is something.

Young ladies that "don't seem to get any proposals" will marvel on hearing that our Peggy Joyce is about to be married again.

This will be her fifth husband and her second nobleman. Once Miss Joyce was the Countess Gosta Moerner, but she gave that up. The Commoners had "good money." Happy No. 5, if everything goes smoothly, will be Lord Northesk, whose wife, formerly Miss Jessica Brown, is now divorcing him.

"How does she do it?" young ladies ask. How did Helen of Troy do it, or Cleopatra?

Miss Joyce, it is said, has a certain dash and swing in a night club that electrify the atmosphere. There are many "live ones" in night clubs.

WILD BIRDS AND ANIMALS

The ostrich lives 30 years. The beaver lives 30 years. The lion lives 40 years. The camel lives 40 years. The elephant lives 100 years. The crocodile lives 100 years. The squirrel lives 7 years. The fox lives 14 to 16 years. The eagle may live 100 years. The deer and wolf live 20 years.

An eagle can live 20 days without food. A Condor can survive 40 days without anything to eat.

The bison lives 30 to 50 years, the bull being longer lived than the cow.

A lion in a jungle will jump 25 to 30 feet from a standing start.—Farm and Ranch.

ABOUT YOUR HEALTH

(By John Joseph Galen, M. D.)

"Vagant Pains"

Most every active human being is subject, at one time or another, to fleeting, shifting twinges, varying from slight discomfort, to severe, pronounced pain. Such may not be accompanied by any inflammatory signs—heat, redness, or swelling. Just transitory pain, often called erroneously, "muscular rheumatism."

Such annoyances almost invariably come from disturbed nerves. Organs adjacent to the locality complained of, should be studied. Constipation—an impacted bowel—may cause anything from head neuralgia to sciatic irritation, even pains in ankles or heels. Unload the bowel, and relief comes. All pain in nerves should be investigated as to local injury. Grandma lifted a heavy rocker yesterday; today she has a sharp pain in the wrist. You "turned" your ankle last night on an uneven sidewalk.

Little disturbances due to injuries, may be treated by hot fomentations, rest, and medicaments rubbed on; good liniments are very useful, if persisted in. It is possible that no cause for a localized pain can be found in such case, the physician is a timely resort, if the pain does not disappear after rest and heat. I do not agree that heavy massage does any good to pains that are not understood—and it may do harm. A lazy liver may produce pain at point of shoulder-blade and elsewhere—to disappear of itself apparently, after eating plenty of fruit. Most of the fleeting pains in the lower extremities are caused by trouble in the organs within the body above—unless local injury happened. "Diffuse Neuritis" is a warning that demands the physician.

"INSIDE" INFORMATION

Cooked liver makes a good salad, combined with sliced cucumbers.

Pineapple and cream cheese sandwiches are dainty for afternoon tea.

Broiled peaches, either fresh or canned, are appetizing to serve with meat or for dessert.

Always successful for a porch supper is a menu consisting of egg salad, cress sandwiches, iced tea and any fruit shortcake.

Cottage cheese contains all the constituents of milk excepting the cream. It is therefore high in food value and is a particularly rich source of protein and minerals.

In summer time give the refrigerator extra care, and wash it thoroughly with hot water and soda once or twice a week. See that anything spilled is properly wiped up, that the drainpipe is not clogged or slimy and that the ice chamber is clean. Keep the doors shut tightly and do not open them oftener than necessary. Do not wrap the ice in paper or cloth.

Don't waste your money and risk delay by trying substitutes. Put your case in the hands of a Physician who has been a proven success for many years as a Pelagra Specialist.

READ WHAT OTHERS SAY:

Mrs. R. R. Robinson, Stigler, Okla., writes: "I am glad to tell you what your wonderful Pelagra treatment has done for me. I feel like a new woman."

Mrs. W. E. Hays, Englewood, Ark., writes: "I took Dr. Rountree's treatment for Pelagra in 1916. I feel better than I have for 15 years."

WRITE TODAY! Reunite Laboratories, Austin, Texas. For FREE Diagnosis, Questionnaire and Free Book, "The Story of Pelagra," also for hundreds of additional testimonials.

SHORT CUTS TO OBLIVION

Always drive fast out of alley.

Always race with locomotives to crossings. Engineers like it: it breaks the monotony of their jobs.

Always pass the car ahead on curves or turns. Don't use your horn, it may unnerv the other fellow and cause him to turn out too far.

Demand half the road—the middle half. Insist on your right.

Always speed; it shows people you are a man of pep even though an amateur driver.

Never stop, look or listen at railroad crossings. It consumes time.

Drive confidently, just as though there were not eighteen million other cars in service.

Always lock your brakes when skidding. It makes the job more artistic.

Always pass cars on hills. It shows you have more power; and you can turn out if you meet a car at the top.

In sloppy weather drive close to pedestrians. Dry cleaners appreciate it.

Never look around when you back up. There is never anything behind you.

—Transit Guest.

BET SUGAR VS. CANE

By every test known to science and cookery beet sugar cannot be distinguished in the laboratory or in its many uses from cane sugar. They are one and the same chemical compound, sucrose—although derived from different sources. To admit a prejudice against beet sugar is to admit ignorance of the advance of this great industry.

The buying of more beet sugar means better prices—hence more profit—for farmers of many states.

Sore, Bleeding Gums

Only one bottle Let's Peppermint Remedy is needed to convince anyone. No matter how bad your case, get a bottle, use as directed, and if you are not satisfied, druggists will return your money.

PROPOSED CONSTITUTIONAL AMENDMENT LEGISLATING FOR A STATE BOARD OF EDUCATION AND SCHOOLS OFFICERS

(H. J. R. No. 14.)

Proposing to amend Article 7 of the Constitution of the State of Texas by adding thereto Section 16, providing that the terms of all officers of the public free school system, including State institutions of higher education, may be fixed not to exceed six years; providing to amend Section 7 of said Constitution, authorizing the appointment or election of a State Board of Education to serve not more than six years; providing to amend Section 16 of said Constitution, authorizing the submission to the people for adoption and making appropriations therefor.

Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Section 16 as follows:

"The Legislature shall fix by law the terms of all officers of the public school system and of the State institutions of higher education, inclusive, and the terms of members of the respective boards, not to exceed six years."

Section 2. That Section 5 of Article 7 of the Constitution be amended so as to hereafter read as follows:

"The Legislature shall provide by law for a State Board of Education, whose members shall be appointed or elected in such manner and by such authority and shall serve such terms as the Legislature shall prescribe not to exceed six years. The said board shall perform such duties as may be prescribed by law."

Section 3. The foregoing constitutional amendment shall be submitted to vote of the qualified electors of this State, at an election to be held on the first Tuesday after the first Monday in November, A. D. 1928, at which all ballots shall have printed thereon the following:

(1) "For the amendment to Article 7, adding Section 16, providing that school officers, including boards of institutions of higher education, shall serve for a term not to exceed six years."

(2) "Against the amendment to Article 7, adding Section 16, providing that school officers, including boards of institutions of higher education, shall serve for a term not to exceed six years."

(3) "For the amendment to Article 5 of the Constitution, authorizing the appointment or election of a State Board of Education to serve not more than six years."

(4) "Against the amendment to Article 5 of the Constitution, authorizing the appointment or election of a State Board of Education to serve not more than six years."

(5) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(6) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(7) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(8) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(9) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(10) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(11) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(12) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(13) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(14) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(15) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(16) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(17) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(18) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(19) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(20) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(21) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(22) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(23) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(24) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(25) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(26) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(27) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(28) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

others, including boards of institutions of higher education, shall serve for a term not exceeding six years."

(8) "For the amendment to Section 5 of Article 7 of the Constitution, providing for the appointment of a State Board of Education."

(9) "Against the amendment to Section 5 of Article 7 of the Constitution, providing for the appointment of a State Board of Education."

Each voter shall scratch out one of the Above listed names on the ballot, leaving the one expressing his vote on the proposed amendment to which it relates.

Section 4. The Governor of this State is hereby directed to issue the necessary proclamation ordering an election to determine whether or not the proposed constitutional amendments set forth herein shall be adopted, and to have the same published as required by the Constitution and laws of this State. And the sum of five thousand (\$5,000.00) dollars, or so much thereof as may be necessary, to hereby appropriate from any funds in the State Treasury, not otherwise appropriated to defray the expense of printing said proclamation and of holding said election. 16-4c

Section 5. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Section 16 as follows:

"The Legislature shall fix by law the terms of all officers of the public school system and of the State institutions of higher education, inclusive, and the terms of members of the respective boards, not to exceed six years."

Section 2. That Section 5 of Article 7 of the Constitution be amended so as to hereafter read as follows:

"The Legislature shall provide by law for a State Board of Education, whose members shall be appointed or elected in such manner and by such authority and shall serve such terms as the Legislature shall prescribe not to exceed six years. The said board shall perform such duties as may be prescribed by law."

Section 3. The foregoing constitutional amendment shall be submitted to vote of the qualified electors of this State, at an election to be held on the first Tuesday after the first Monday in November, A. D. 1928, at which all ballots shall have printed thereon the following:

(1) "For the amendment to Article 7, adding Section 16, providing that school officers, including boards of institutions of higher education, shall serve for a term not to exceed six years."

(2) "Against the amendment to Article 7, adding Section 16, providing that school officers, including boards of institutions of higher education, shall serve for a term not to exceed six years."

(3) "For the amendment to Article 5 of the Constitution, authorizing the appointment or election of a State Board of Education to serve not more than six years."

(4) "Against the amendment to Article 5 of the Constitution, authorizing the appointment or election of a State Board of Education to serve not more than six years."

(5) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(6) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(7) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(8) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(9) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(10) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(11) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(12) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(13) "For the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

(14) "Against the amendment to Article 16 of the Constitution, authorizing the submission to the people for adoption and making appropriations therefor."

Junction Trade Notes

The efficacy of advertising placed in the proper channel is demonstrated in the visit of E. H. Miller of the Ellison Furniture Co., Fort Worth, to Junction this week. Mr. Miller with his family is enjoying his summer vacation on the Llanos. He had planned to take his vacation in New Mexico but changed his routing when he received one of the handy illustrated folders recently issued by the local chamber of commerce. Mr. Miller was in Junction eleven years ago. He expressed surprise at the progress of the town and community since his first visit here.

Mrs. Anita Stow Goedcke, instructor of violin in State University, and Mrs. H. L. Clamp of Austin, are on the Llanos for two weeks' vacation and are enjoying every hour of it, they say.

Fresh shipment of high grade flour this week—Albatross for biscuits, Meyer's Best for baking, Our Pride a blend of hard and soft wheat. Gann Grocery Company.

E. E. Stricklin who sponsored the first herd of registered Angoras in Val Verde county and was a personal factor in improving both the mohair and wool industry of southwest Texas, was a visitor this week with his son, Thompson Stricklin, ranchman of the South Llano, and daughter, Mrs. Virgil Waters of Junction. Mr. Stricklin retired from active ranching last year on account of his health and is now living in San Antonio.

The State Railroad Commission last week granted permit to J. R. Walker to operate a bus line from Llano to McCarney, via Mason, Junction, Sonora, Ozona and Sheffield, distance 250 miles, one schedule each way daily.

Chicken feed, 'Economy' cow-feed, bran, shorts, corn, maize, etc., unloaded this week. Gann Grocery Company.

Del Rio commission houses sold last week a million and half pounds eight-months wool at 37½¢ for No. 1 and 34½¢ for No. 2. It was stated that no sales of twelve months fleeces were made.

The good women of Junction Cemetery Association on Tuesday served to the public a dollar dinner for 50¢, and at that cleared more than a hundred dollars for the cause. The menu included everything that anybody could want.

The amount of home-grown vegetables now being marketed in Junction is indicative of what the valleys of the Llanos could do under intense cultivation and by the aid of irrigation. Nearly everything needed for the table is now being supplied from the farms and gardens of the Llanos. This week's market afforded green beans, peas, lima beans, beets, bell peppers, cucumbers, okra, squash, radishes, green corn, young onions, tomatoes, cantaloupes, peaches, watermelons.

Fruit jars, caps, lids, rubbers, and "Certo" for the inexperienced canner. Wednesday next week we expect to have on hand a quantity of peaches to be sold at cost for canning purposes.

SOUTH LLANO NEWS

Singing at the school house Sunday night was fine and well attended. Mesdames J. Schuhardt and Ward favored us with some fine singing.

Mr. and Mrs. Ward and little daughter, Mesdames Young and Sledge of San Antonio were guests at the Schuhardt ranch home the past week. They are great in praise of our Llanos, 700 Springs and country in general.

F. M. and Jim R. Hodges were business visitors to Kerr-

ville and near Center Point Saturday.

Mrs. W. Johnson and daughter were week-end guests at the J. W. Boone home.

Mrs. Flossie Blardone is suffering from a severe cold this week; also Mrs. Guy Wynne.

Miss Eldon Claire Gough of Waxahachie has been a guest of the Guy Wynne family are past month.

Mrs. Guy Wynne has as her house guests this week Miss Frances Hobbs of Temple, Mr. Smoot Gough of Waxahachie and Miss Dorothy Gough of Waco.

Mrs. A. Alsop and daughter, Miss Edith, are visiting at the Mat Burt ranch this week.

LONDON LOCALS

Mr. and Mrs. J. S. Walton and daughter, Miss Agnes, of Rochester, Texas, are again among friends and relatives, having returned in answer to a message relative to the condition of Mr. F. F. Pearson who underwent a serious operation at the Standifer Hospital. Our last information is that Mr. Pearson is doing well.

Mr. Guy Cummins has returned from San Antonio where he has been under treatment of a specialist for several weeks. Mr. Cummins says he is much im-

proved and we are indeed glad to hear that he is.

Mr. Perry Wartenbach and wife and Mr. J. B. Smith attended the barbecue at Harper. They report a pleasant time.

Prof. Rex Salle reports Mrs. J. L. Gibbs on the sick list this week. Also he reports his father, Mr. J. P. Salle of Cherokee, and Prof. L. S. Adams, superintendent of the Bisbee, Arizona, school visiting at his home.

Mrs. Claude Harrell and babe of Cross Plains were at the home of Mrs. Harrell's mother, Mrs. J. W. Ellis, this week.

Our old friend, E. C. McCollum and family of Alpine, called in to see us on the 1st. They were just passing through on their way home from the Temple Sanitarium where Mr. McCollum has been under treatment. We certainly appreciate their call.

Mr. Tom Butler of Rising Star stopped long enough to shake hands with us the 2nd. He and those with him were bound for the Llano River for a few days. As many others do, they had instructed their folks that if anything should go wrong at home, they should call the writer to deliver their message.

Mrs. Thelma Thiers is visiting her father, Mr. T. H. Walton, while her mother visits her sister at Denton, Texas.

The Butcher Shop of QUALITY and VALUE

When the wise housewife does her shopping, she comes to this shop because she recognizes the high quality of our meats and the remarkable values offered. Courteous, prompt attention given to all trade. Only fresh, pure products handled. For the best in quality, value and service, patronize this shop.

Coffee	Lone Star Peaberry one	28c
	Star pound	
Turnip Greens	No. 2 can 2 for	25c
Sugar	5 pounds	33c

Blue Bonnet Grocery

Mr. W. L. Kothmann has sold his two year old steers at \$75 each. Pretty good price, we call it.

Mr. E. B. Tomlinson of Sheffield called by to see his sister, Mrs. G. Lewis last Saturday. He states that his section is experiencing an oil boom just now.

Miss Jessie Weaver has rendered real service in securing films for the coming Kimble County Magazine.

Mrs. T. H. Walton has returned from a trip to Denton, Hopkins and other counties. She states they had a real good time.

The Furr Brothers are again shipping cattle to market.

The Dora Baker revival is still in progress. Fine crowds gather to hear this girl preacher. Many have professed faith in Christ and turned from darkness to light. Others are thinking seriously. The meeting closes the 8th.

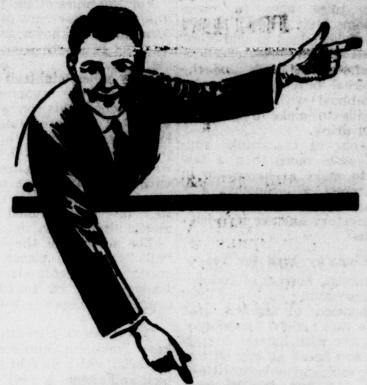

Remember, the Christian meeting begins on the 9th at the Community Hall. Let's all join in and encourage in every way possible. It should be the purpose of all Christians to lend their aid in every attempt to forward the cause of Christ. To be a Christian is to be Christ like. It can't be that one is Christ like unless they possess the spirit of Christ, because the Bible teaches us if we have not the spirit of Christ we are none of His. One cannot possess the spirit of Christ and at the same time possess religious prejudice. Then away with prejudice and work as one for the cause of Christ and the salvation of lost souls.

The writer had the privilege on Sunday to drive out in the country and incidentally used the occasion to partially inspect the crop situation. We found corn an average crop, the feed crop average, the cotton crop condition to be above average. We viewed the crops on the Amberson place south of town, the W. T. Walton farm, the Jack Goodman, J. S. Goodman, J. F. Gentry, D. M. Stewart, C. E. Lambert, J. H. Goodman, Joe Hardesty and the Cummins Massey farms. We ended our inspection on the back row of E. I. Cummins' watermelon patch and found it to be normal, too. Crops are good.

BY ORDER OF THE EXECUTOR
The heirs of Mrs. Julia Waskley, deceased, situated on the drive of the Johnson Park Club in Kimble County, are now ready for sale. In all there are 1400 acres of which 600 acres are school land, and the remainder is private land. Possession can be given on October 1st, 1934. Reasonable terms can be arranged to suit purchaser. Sealed bids are asked for, accompanied with a check for \$500.00 as forfeit, bids to be opened September 18th, 1934, by the Executor of the Will, right being reserved to reject any and all bids. For further particulars, see or write FRANK L. WILSON, Junction, Texas.

You want your land abstracted; then you had better see E. H. Holsinger; he has complete in-day of all County lands. (adv)
