### Continued Rainy Weather Slows up Wheat Harvest

#### Yield Good; Storage is Big Problem

#### Harvest is Now in Full Swing with All Combines Going

With the sun shining today, hundreds of combines are reaping the biggest wheat harvest in many years in the golden fields of the Perryton area. Rains, which started falling Saturday afternoon, continued to Wednesday morning and prevented many from cutting. It is estimated that only five to ten per cent of the wheat has been harvested.

The yield per acre is from 25 to 40 bushels and the grain tests high. Storage is the major problem. With local elevators able to take but a small part of the crop for storage, it is apparent that growers will have to provide the greater part of storage facilities on the farms.

The first shipment of prefabricated wheat bins being distributed by the Commodity Credit Corporation arrived Tuesday. They were unloaded and are now being erected. Additional shipments are expected daily.

The labor supply has been adequate to date but it is feared that when fields are thoroughly dry and the harvest reaches the peak, there will be a shortage. The United States Employment Service in the county welfare building is making every effort to supply laborers, trucks and combines. Parties needing help or wanting jobs should contact the labor office.

#### District Court Reporter Resigns

Brenda Norman, court reporter since January 1941 for the 84th District Court was inducted as a first class petty officer in the United States Navy at Dallas, June 22. Mr. Norman enlisted April 25. Petty Officer Norman hopes to be stationed in New Orleans.

During his absence in the Reed Western Union Telegraph Company case this week, Norman Minner official reporter for the Amarillo District Court, substituted. A. B. Dummitt of Birmingham, Ala., has been appointed by Judge Jack Allen to succeed Norman. This appointment was made with the expressed understanding that the position is to be tendered on Norman's return from the navy, according to Judge Allen.

The new court reporter formerly reported in federal courts of Florida, North and South Carolina, and Alabama. In recent months, he reported hearings for the United States Commerce Commission.

Mr. and Mrs. Dummitt will make their home either in Borger or Perryton when he begins his position on July 1.—Borger Herald.

#### June Rainfall 6.04 In. Most Since '32

June 1942 goes down in the records as one of the wettest Junes in the history of Ochiltree county, so states Judge Jack Allen. Rain fell on 12 days during June for a total of 6.04 inches. This record has only been exceeded twice in the history of the local weather station, in 1915 with 6.26 in. and in 1932 when 6.78 in. fell. June rainfall was as follows: 4—.04; 5—.04; 7—1.68; 8—1.60; 9—.75; 14—.26; 22—.47; 23—.48; 27—.48; 28—.04; 29—.10; 30—.10. On July 1, Wednesday morning, the rainfall was .15 in.

#### Red Cross To Postpone Fall Roll Call

In an effort to relieve in some measure the increasing burden on men and women in all communities who are engaged in money raising efforts during wartime, the American Red Cross has decided to postpone its regular 1942 Fall Membership Roll Call and hold it simultaneously with its next War Fund Campaign early in 1943, Chairman Norman H. Davis has announced. Authority for the chairman to plan this combination was voted by the Central Committee at its meeting on March second.

"For 25 years," Chairman Davis said, "the Red Cross traditionally has held its Membership Roll Calls in the fall months, to finance the normal operations of the organization, and to build up its membership which is the largest of any non-governmental organization in the country. Today we are engaged in a bitter war requiring Red Cross operations which will cost much more than the Roll Calls can provide. This makes necessary the larger War Fund Appeals. To conserve the man power of the Red Cross and its millions of citizen volunteers for their operating duties, the Red Cross has decided, barring unforeseen emergencies, to combine its 1943 Roll Call with the next War Fund Campaign which is expected to be launched early in 1943.

"Although combining our efforts into one appeal a year we shall still emphasize the membership principle of the Red Cross which is so deeply rooted in the voluntary and democratic character of the organization. In view of this decision the Red Cross feels that it is justified in holding, independent of any fund raising efforts by which includes its Roll Call Membership Appeal."

The Ochiltree County Chapter under the leadership of Mrs. G. L. Kengle, roll call chairman, has a total membership of 762 for 1942. The first War Fund call totaled \$1,923.90. Chairman Dave Shanks directed the war drive.

#### Honor the Defenders of 'Old Glory' by Buying War Savings Bonds, Saturday, July Fourth

While many communities are making whoopee with rodeos, horse races, etc., Ochiltree county and Perryton is staging a grand and glorious patriotic celebration with an all-out drive to sell \$32,200 worth of War Savings Bonds on the Fourth of July. This is the quota assigned to the county for the entire month of July by State Bond Sale Director Frank Scofield. Ochiltree's bond record reflects the true patriotism of its people. With a quota of \$153,150 for the first six months of 1942, sales are \$181,500, an excess of \$28,350. This record has been made without a single solicitation. As Carl Ellis, county chairman of the War Savings Committee states, "we haven't asked anybody to buy, they just come in and buy them because Ochiltree county folks are the finest folks in the world and fully realize their duty to the boys in the service and to their country."

#### Absentee Vote May Be Cast July 5-22

#### Absentee Ballots At County Clerk Office on Monday

Absentee voting in the Texas July 25 primary will start July 5 and end Wednesday, July 22. Applications shall be made at the office of the County Clerk for absentee ballots.

All county officers are seeking reelection. Only one has an opponent. W. G. Yeary, commissioner of Precinct No. 2 is opposed by M. W. Truax. Two are seeking the office of U. S. Congressman. Four candidates have filed for the office of Chief Justice of the Court of Civil Appeals for the Seventh Supreme Judicial District of Texas. With one exception, state officers have more than one candidate.

The Texas election laws provide that an absentee vote may be cast not more than 20 days nor less than three days prior to the date of an election, provided a qualified elector of the state makes his personal appearance before the county clerk of the county of his residence.

#### Selective Service Has 287 Youths Register June 30

The Ochiltree County Selective Service Board registered 287 young men between the ages of 18-20 on Tuesday, June 30. This was the fifth registration for the nation.

The majority of the 287 youths registering here were non-residents of Ochiltree county. Many of them were here working or seeking employment during the harvest season.

#### Lake Fryer Now Open For Fishing

Trot lines and throw lines, sizes and numbers to conform with Texas State laws, will be permitted for use in all government lakes in the Panhandle, including Lake Fryer, it was announced yesterday by W. J. Caserta, lake supervisor. Lake Fryer was among the lakes opened for fishing July 1.

Nothing but bream and mud cats will be allowed to be taken on the line, Caserta said, and this is being allowed to control the "abundant reproduction of those species." It is hoped the use of the lines will reduce the excess supply of cats and bream, said to be in all the lakes by Fish and Game authorities.

It was also announced by Caserta that bass and crappie may be taken from all government lakes with the exception of Rita Blanca near Dalhart. Rita Blanca will remain closed to taking of game fish for one more year, the supervisor said, and allow the bass and crappie to develop. Cat fishing at the Dalhart lake remains open.

Limits as to quantity and sizes of fish will also conform to State laws, it was announced.

Other government lakes where the new ruling applies include Buffalo Lake near Umbarger; Lake Tule and Lake McClellan near Pampa.

The fee of 25 cents per person will be charged fishermen at all lakes, Caserta said.

J. E. Brownlee, Santa Fe, N. M. and sons, William T. Tandy and Jesse E. Brownlee Jr., came in Monday to look after harvest and business interests here. Both young men have volunteered in the air corps and have been accepted as aviation cadets. William T., who has been auditor Texas U. Medical School, Galveston, is waiting his call. Jesse E. Jr., who already has his private pilot's license, will report for duty at Lubbock this week-end.

#### Our War Effort

"It must not be impeded by the faint of heart. It must not be impeded by those who put their own selfish interests above the interests of the nation. It must not be impeded by those who pervert honest criticism into falsification of fact."

"It must not be impeded by self-styled experts either in economic or military problems who know neither true figures nor geography itself. It must not be impeded by a few bogus patriots who use the sacred freedom of the press to echo the sentiments of the propagandists in Tokyo and Berlin."

"And, above all, it shall not be impeded by the handful of noisy traitors— betrayers of America and of Christianity itself—who would be dictators, who in their hearts and souls have yielded to Hitlerism and would have this Republic do likewise."

—Franklin D. Roosevelt.

#### Extend Scrap Rubber Drive To July 10th

With a peace time normal consumption of between six and seven hundred thousands tons of rubber, the scrap rubber collection campaign in the United States has fallen far short of expectation. At the final report on the night of June 27, only 218,998 tons had been collected. President Roosevelt was very much disappointed with the results. He had set June 30 for the closing of the collection drive, but in view of the disappointing results, he extended the time to July 10.

J. H. Nail, chairman of the Ochiltree county rubber collection, reports that at the close of business on June 30, 83,211 lbs. had been collected in this county. While this is a very favorable report, Mr. Nail states that there are many tons of scrap rubber that has not been turned in.

Mr. Nail urges that everyone redouble their efforts. Bring in every pound from the home, the business house and the farm. Any filling station or wholesale oil station in the county will accept the rubber and pay one cent for every pound for it.

#### More Fruits and Irish Potatoes For Blue Stamps

Three fresh fruits and Irish potatoes have been added to the list of Blue Stamp foods available during July under the Food Stamp program in Ochiltree County, according to Dan L. Boyd, Area Supervisor, Agricultural Marketing Administration.

Fresh peaches, fresh plums, and fresh apples are the fruits added. These, together with oranges, all fresh vegetables, including Irish and sweet potatoes, and the staple foods continued on the list, will give participants a wide variety from which to select the foods they require.

Dried prunes and fresh grapefruit are the only two commodities removed from the July list. Dried prunes are being acquired for use largely by our armed forces and the season of heavy marketing of grapefruit is drawing to a close.

With these changes, the complete list of Blue Stamp foods issued by the Agricultural Marketing Administration for July 1 through July 31 in all stamp program areas is as follows:

#### Miss Hall Resigns As Perryton Teacher

Miss Mary Jane Hall, Center, Texas, Spanish teacher in the Perryton high school the past year and reelected for the coming year, has submitted her resignation from the school faculty. Miss Hall will be married in the near future. Her husband, who is an army officer, will be stationed in Amarillo, according to word received here.

#### H. Holdeman Buried Tues.

Harve Holdeman passed away in his sleep early Saturday morning at his home, 529 S. W. Fourth St. Death came as a shock to his loved ones as Mr. Holdeman had appeared in much better health the past few weeks. It was thought he suffered a stroke. His first stroke came in September 1940.

Sorrowful last rites were held Tuesday afternoon, 2:30 o'clock in the Full Gospel Church with Earl Showalter, Mennonite pastor of La-Juanta, Colo., and Robert Giraud of Center Point in charge of the services. A quartet composed of Ralph Durham, Wick Brown, Ted Winters and Marcus Adair sang three selections, "When the Roll is Called Up Yonder," "Some Day He Will Make It Plain" and "Will the Circle Be Unbroken." Mrs. Millard Brown of Jacksonville was at the piano.

Interment was in the Ochiltree Cemetery directed by the Wilson Funeral Home. Pallbearers were S. P. Whippo, J. B. Cartwright, C. B. Rogers, W. M. Good, E. H. Francis, Glen McGibbon, Claud Bowen and D. D. Taliaferro. The array of beautiful flowers were carried by Mrs. Herman Wagner, Margaret Mary Pletcher, Goldie Mae Jantz, See No. 3, Back Page

#### Relatives Attend Holdeman Funeral

Relatives here from a distance to attend the funeral services of Harve Holdeman on Tuesday were a son, Frank Holdeman, Hawthorne, Calif. three sisters, Mr. and Mrs. H. G. Pletcher and Ruth of Springfield, Mo., Mrs. Linda Estes, Oklahoma City, Mrs. W. H. Johnson, New Orleans, La.; a brother, Mr. and Mrs. W. C. Holdeman, Dallas; Mr. and Mrs. Harvey Pletcher and Larry and Miss Lucille Steiner, Wichita, Kansas.

#### Rotary Club Meets Tonight

The Perryton Rotary Club has changed its regular meeting hour from Thursday noon to Thursday evening at eight o'clock. The club meets at the Methodist church.

At tonight's meeting, J. H. Brashear, newly elected president, will take over the reins of the club. Dan E. Archer is the retiring president. New members of the board of directors are J. H. Brashear, Dan E. Archer, Virgil E. Castle, L. D. Stinson and Glenn Truax.

#### County War Savings Chairman Carl Ellis Issues Appeal to Sell July Quota on July Fourth

Carl Ellis, chairman of the Ochiltree County War Savings Committee, is appealing to every man, woman and child in the county to join in Perryton's greatest Fourth of July celebration, by buying United States War Savings Bonds and Stamps on this Day of Independence. The July quota for the county has been set at \$32,200, the highest figure yet. Mr. Ellis urges everyone to buy War Bonds and Stamps on July Fourth in an effort to reach the goal for the entire month on this one day.

Ochiltree county again exceeded its quota in June. With an assigned quota of \$21,500, actual sales were \$23,375. Mr. Ellis received the following congratulatory telegram from Henry Morgenthau, Secretary of the United States Treasury, lauding the county committee for reaching the June quota.

"Heartily congratulations to the members of the Ochiltree County War Savings Committee upon fulfilling your June Bond Sales quota. Your success promises well for succeeding months and the Treasury takes real satisfaction in the splendid work your committee is doing."

For the first time in the history of Perryton, the First National and the Perryton National Banks will not close on Saturday, July Fourth. The banks will open for business as usual but for the principal purpose of selling War Savings Bonds.

Ochiltree county has never lagged in the purchase of War Bonds and Stamps. It has consistently been in that group of counties "over the top" every month in bond sales. During 1941, bond and stamp sales were \$121,250.00. For the first six months of 1942, sales totaled \$181,500.95, \$28,350.95 in excess of the quota of \$153,150.00. Total sales since the inception of the campaign are \$302,750.95.

The providing of such a rest room for women visitors to Perryton would be a most worthy project for the women's clubs of the town and county. It's a big project, will take considerable money, a lot of time and work but we maintain that the good from such a project would add up more on the credit side of the ledger of things worthwhile than a flock of "pink tees."

The scrap rubber campaign apparently has gone over in a big way, but the word comes from Washington that the campaign has failed to meet expectations the nation over.

Nation-wide gasoline rationing appears inevitable a little later. This is still a democracy. The United States would have been in war months sooner if the people had been ready for it. The same is true of gasoline rationing. Government officials realize that it is needed now to stretch out civilian rubber tires, but the people are not ready, hence the delay.

We read with interest the article in the Sunday Amarillo News-Globe under a Dumas headline praising Perryton's so-called unselfish and patriotic attitude in allowing the Perryton CCC camp buildings to be moved to Dumas to house workers on the Cactus Ordnance Plant.

This was the first intimation that Perryton had a priority of the least degree on the CCC buildings. The CCC buildings were put there by the Federal government and we supposed that they had every right in the world to remove them whenever they pleased.

If Perryton had a claim on the CCC buildings, we should by all means keep them here. We could have filed a protest with our congressman, if we had a congressman. When we note the needless waste, the out-of-line wages in wrecking these buildings, in even digging up small water pipes, we honestly believe that the Federal government would have been served best if the buildings had been left intact and given as a present to this community.

From the day the first building was erected at the CCC camp, we knew that some day the camp would be abandoned, that it could not continue indefinitely as a CCC camp. It was then that we started to look forward to the day that these buildings would become the property of the community.

We saw the camp structures as the home of a northeast Panhandle agricultural fair, we saw the Boy Scouts, the Girl Scouts, Home Demonstration clubs, F. F. See No. 1, Back Page

#### Post Office Sells 1,341 Car Stamps

Postmaster M. K. Coffee reports that 1,341 Federal car stamps were sold by the Perryton post office before July 1. The stamps, good for one year, must be placed on all motor vehicles before July 1.

Mr. Coffee states that the \$5.00 stamps, good for one year starting July 1, will be sold during this month but that it is a violation of the Federal laws to operate a motor vehicle of any kind without the Federal use stamp.

#### Nutrition Class Closes Tuesday

The Red Cross Nutrition class which has been taught by Miss Myrtle Lois Pearson, completed work Tuesday evening. This was a 20-hour class for adults and those who took the work received much helpful information on effective ways of applying nutrition which will enable them to render a broader health service to others.

Enrolled in this class were Mrs. Virby Conley, Mrs. Frank Keith, Mrs. Carl Ellis, Mrs. D. D. Shanks, Mrs. L. B. Bailey, Mrs. Delta Davis, Mrs. H. I. Hudson, Mrs. Irene Correll, Mrs. Frank Hibbs, Mrs. F. L. Garrett, Mrs. Jack Allen, Mrs. R. C. Allen, Miss Gwen Castle, Miss Esther Bearden, Miss Eugenia Mitchell and Miss Elizabeth Huffhines.

#### O. G. Price Transfers To Borger Postoffice

O. G. Price, who has been substitute mail carrier at the Perryton postoffice, transferred to the Borger office July 1. Mr. Price will be employed full time in the Borger postoffice.

Since coming to Perryton several years ago, Mr. Price has been engaged in the produce business. He has operated the Price Produce Co. on Southwest Third Ave. for the past year.

Mr. and Mrs. Price left for Borger the first of the week. Their son Melvin is working here and will join his parents later. Their address in Borger is 331 Deal St.

Ben Crum, who is stationed at Lincoln, Nebraska, receiving training as a mechanic in the air corps, visited a few days last week with home folks.

#### On the Home Front of World War II

(A weekly summary of developments in the Victory Program, prepared by the Regional Information Office, OEM)

Price control now has been established over practically every essential on Main Street.

Latest addition to the series of regulations issued by the Office of Price Administration was that during the last week covering consumer services. Under the new regulations, identified as OPA Regulation No. 165, it is ordered that charges for services covered can be no higher than they were in March.

With the order effective July 1, on the same date that all provisions of the General Maximum Price Regulation went into effect, southwestern consumers can feel certain that there are going to be no further reductions in their every-day cost of living. Surveys already made and covering only a few days after the GMPR went into effect showed that the general regulation had started letting the air out of the inflation balloon.

Control of services charges is highly important to the consumer, as is shown by the fact that the American public pays upward of five billion dollars annually for this type of living necessity. Those on the home front, especially in the

booming defense areas of Texas, Oklahoma and Louisiana, have recognized the situation because they have had to bid against each other to get many of the services that now come under control.

This new ceiling now stands above the cash register in the shoe store and shoe repair shop, as well as at the butcher's, and it has been extended to shield the man who wants a clock repaired or his hat blocked, as much as the ceiling shields the customer at the corner grocery or drug store. Under it are the prices that now may be charged by laundries, and furniture repairmen, as well as prices charged by auto parking lots, drycleaners, locksmiths, morticians, and many other services rendered in connection with commodities.

The extension of the cost-of-living roof is a sizeable one. The number of establishments of one sort or another which are affected has been estimated nationally at nearly a million. In this connection, it should be emphasized that the new regulation applies only to consumer services rendered "in connection

with commodities," and that it does not apply to fees charged by your lawyer, your architect, your barber shop, your beauty shop, and numerous others from whom you obtain professional services or services that are specifically exempted in the regulation.

In addition to the services ceiling, beginning July 1, all sellers of commodities under OPA control must have their ceiling-price lists available in their places of business where any person can inspect them. Every item offered for sale, and the seller's ceiling price on the item, must be listed, and every customer has the privilege of reading the list.

Also, the sellers must have filed similar price lists covering only the cost-of-living commodities as specified in the general OPA regulation. Later, the sellers of services will have to file lists of their ceiling prices, too, but service lists won't be due until early September, although sellers can't charge more than the March ceiling now.

"God" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 5.

The Golden Text is: "There is none holy as the Lord; for there is none beside thee; neither is there any rock like our God" (1 Samuel 2:2).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty; for all that is in the heaven and in the earth is thine; thine is the kingdom, O Lord, and thou art exalted as head above all" (1 Chronicles 29:11).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God is what the Scriptures declare Him to be—Life, Truth, Love" (page 330).

### Buy War Savings Bonds!

**This is a War Against Two Foes,  
 Inflation and the Axis Powers!**

If you were dictator, and had the power quite easily to avert a ruinous inflation in the United States—of the type that wrecked Germany after the last war—would you do so?

Every man and woman in the Perryton area now has this power, in common with the other plain men and women of the United States who hate the word, dictator.

What causes "runaway inflations?" It's an enormous sudden increase in the money used by the people.

Such a swift increase in our own nation's money-supply is now taking place—invisibly! And it is we—tens of millions of patriotic citizens—who are responsible for most of that increase. Through negligence, of course, but does that make any difference?

By failing to buy WAR SAVINGS BONDS, with money that we can spare for that purpose, we are continually forcing the United States Treasury to create new money with which to pay its war bills.

There is the plain truth, the grave possible consequences. Every adult in the nation must understand it, and at once. Are you forcing your government to create new money by failing to buy WAR SAVINGS BONDS? Failure to buy bonds and stamps can easily add up to as much disaster as anything the Germans and Japanese can do to destroy American civilization.

The United States Treasury has set a goal of \$12,000,000,000 of WAR SAVINGS BONDS to be sold to individual citizens during 1942. This means a super-colossal job for hundreds of thousands of workers to sell these bonds. There will be twelve long months of such effort. Yet in twelve hours the government could have raised this \$12,000,000,000.

The government could obtain every cent of this \$12,000,000,000 from the commercial banks of the nation. It would create just that much new bank deposits, bank deposits that would buy anything that green dollar bills will buy. Bank deposits that would add just that much to INFLATION!

It's simple, it's even easier than printing paper money. Twelve hours or twelve months—to raise \$12,000,000,000. Why does the Treasury choose the hard way? Because the government knew that the catastrophic German inflation of the twenties had its beginning in just such government-borrowing-from-the-banks.

Thus every dollar that we common men and women loan to the government by the purchase of WAR SAVINGS BONDS helps in the effort to keep printing press money out of circulation and defeat ruinous inflation.

We are not going to lose this war with the Axis powers, but we can easily be defeated in our internal war against inflation. That war can be lost—it is now being lost—by our own failure to buy WAR SAVINGS BONDS with every cent that we can rake and scrape together.

## They're Giving 100 per cent! How Much are You Giving?

Our Soldiers, Sailors and Marines are fighting to protect our homes and our way of life. The one sure way that each of us can back them up is by putting at least ten per cent of our incomes into War Bonds. Help to pay for the tanks and guns, planes and ships our boys need to destroy the Axis. Buy Bonds regularly . . . no matter what you have to give up. In America, nothing is indispensable . . . but Freedom! Make Saturday, July Fourth, a Day for Independence by buying our entire July quota of \$32,200 on this one day. This accomplishment would be a glorious and patriotic celebration.

## Our Defenders Speak!

The Herald asks that men and women from this community serving in the armed forces write letters to this department for publication. Letters to relatives that would be of interest to the public will be published under this heading.

June 7, 1942  
Dear Mr. Stewart:  
I thought I'd write and let you know what is happening here. And that is everything. Of course, I am in detention camp. "Boot Camp" it is called here in the station but there is plenty going on out here. There are big ships in the harbor and aeroplanes in the air continuously. I would like to get out of detention and really see what is going on.  
Did you know that if it wasn't for Texas, there would be no navy? Every other "Mac" (the nickname for all the gobs here) is from Texas. There are three hundred and seven companies in our camp. Camp Decatur, alone and a hundred and sixty men per company. Of all the station 60 per cent are from Texas.  
We are a sorry looking bunch of sailors. These special 10 cent navy hair cuts resemble the old time

scalping jobs done by the Indians. I think they take it out on us Texas boys for they hardly left me any hair.  
All the grounds are hard surfaced paving and the sun reflects off it and the white uniforms into our faces. Everyone is blistered and their faces peel off. As you know, these hats we wear offer no protection from the sun at all.  
Tell everyone there to write to the boys in service for we surely appreciate that mail from our home town. Some times we don't have time to answer immediately, though.  
I am sending you an official Station paper. Maybe you can learn a little more about our naval recreation.

## No Anvil Park Rodeo This Year

CANADIAN, June 29.—For the first time in twenty years, there will be no Anvil Park Rodeo this year.  
Between not having a suitable place to show, and the tire rationing program, the committee thought best to skip 1942, with the hope that it would again show in 1943.  
At the conclusion of the 1941 rodeo, the committee made application with the WPA for a grandstand, which was approved of, but due to defense work, sufficient labor was not available to start the program, and all WPA projects have since been "frozen." The old plant has been torn down due to age and depletion.

All the net profits from the Anvil Park Rodeo, Inc., which is a community-wide, non-profit organization, have been put right back into making the show bigger and better each year, and not one penny has ever been paid out as dividends to the stockholders.

The Anvil Park Rodeo was designed to keep alive the memories and traditions of the Old West, and has served its purpose in a splendid manner.

The success of the rodeo is due to the untiring efforts of the committeemen, who have given freely of their time to build the show, which stands as a monument to one of the greatest industries in the West—the ranching industry.

All surplus profits of the Anvil Park Rodeo have been invested in type "G" defense bonds.

## The Library Corner

Two "must" books have been added to the shelves of the Public Library for those readers who like to keep up with the important new books.

"Inside Asia" by John Gunther. This is the latest 1942 war edition, revised by the author to make it completely up-to-date, to keep pace with changing events. The book remains the one indispensable work on the Far East. Some of the high spots are: Japanese militarists, Pacific strategy, Australia and New Zealand, Nehru and the Indian struggle for freedom, Chiang Kai-Shek, Pearl Harbor, Persia, the Near East and Palestine. Here is what the Western reader wants to know of the background and history of the war in Asia. Here are the events, personalities, and forces which are changing the face of Asia today.

"Crusader in Crinoline" by Forrest Wilson. This book received a Pulitzer Prize award as the most distinguished American biography of the past year, "teaching patriotic and unselfish services to the people." It is the life story of Harriet Beecher Stowe, told with insight, wit and charm and drawing a great picture of the 19th century. The tumultuous life of the author of "Uncle Tom's Cabin" is thrown in sharp relief against the crowded screen of her times in this lively yet scholarly portrayal. Here is a pulsing, enthralling story of America at one of its most critical moments and of the woman—passionate, intelligent, indomitable—who stood at the vortex of the whirlwind that blew through the States.

In the past two weeks several important donations have been re-

Use your dollars to protect yourself and your country by buying War Bonds. You'll be investing in about the only gilt edged security left. And you'll be helping America forge the might and muscle she needs to take the offensive.

All of you know that freedom is expensive. The highest price tags are always attached to most precious items. And the cost of human liberty in blood and treasure is a staggering one. But to be able to speak and pray and think and vote the way we wish — did you ever hear anyone question the cost? Some Americans are paying the cost with their lives. Those of us that can't fight on the front lines can invest our dollars to help win the war.

## A Land of Plenty

The vast production machine that has been set up in this country will mean far more than victory over the Axis. It will mean a new and better world after this war is over. Donald M. Nelson, chairman of the War Production Board, expressed this opinion in a recent speech when he said:

"We are fighting for something. For a generation we have been living on the edge of a new world; we are only now beginning to realize it."

"For the first time in the history of the human race there can be enough of everything to go around. Poverty is not inevitable any more. The sum total of the world's greatest possible output of goods, divided by the sum total of the world's inhabitants, no longer means a little less than enough for everybody. It means more than enough. The possibilities in that simple statement are beyond calculation—and what we are fighting for is the right to turn some of those possibilities into realities."

This war is only part of the picture which we face today, according to Mr. Nelson. "For if the war is costing us a fearful price, it is also developing for us new techniques and new abilities. It is placing at our disposal an industrial plant—a set of developed resources—that will simply be beyond price. We shall have the most magnificent opportunity any nation ever had. To accept that opportunity we need only have the good pioneer sense not to be frightened by it just because it calls for new mental attitudes and new habits of thought."

The industrial miracles that we have recently seen performed in this country show us that the pioneer spirit of America is still alive, and manufacturers promise us that after the war is over the huge production facilities and new techniques that have been developed will be turned over to civilian needs so that this may truly be a land of plenty.

## Chronology of Aggression

1931 Japan invaded Manchuria. The United States led an attempt to secure united democratic action for Japan to withdraw but failed.

1933 Hitler came into power and ended the republican regime in Germany. Several months later, he ended disarmament efforts by taking Germany out of the Geneva Disarmament Conference.

1934 Japan denounced the 5-5-3 treaty and started a naval building race.

1935 Mussolini started Italian invasion of Ethiopia. Efforts for united action by democracies adequate to force withdrawal failed.

1936 Hitler re-occupied Rhineland in violation of Locarno Pact. The democracies did not act. Hitler said his territorial ambitions were satisfied. Later in the year, a Rome-Berlin Axis was announced and Japan and Germany concluded an Anti-Comintern Pact.

1937 Japan started the invasion of China proper. Efforts for United action by the democracies adequate to force withdrawal failed.

1938 Hitler seized Austria. The democracies did not act together to force Nazi withdrawal. Hitler again said he wanted no more territory in Europe. Several months later the democracies agreed to give Hitler Czech-Sudetenland at Munich. Once more Hitler said he wanted no more territory in Europe.

1939 Hitler seized the rest of Czechoslovakia. Again said he wanted no more territory in Europe. During the latter part of March, Britain and France guaranteed to aid Poland against aggression. Several days later, Mussolini seized Albania. The Russo-German non-aggression pact was concluded. Hitler invaded Poland and Britain and France declared war on Hitler.

1940 Hitler invaded neutral Norway and Denmark. He invaded neutral Netherlands and Belgium. Italy, seeing France prostrate, declared war. Japan occupied bases in French Indo-China near Singapore, East Indies and Burma Road. Japan signed a military alliance with Germany and Italy which was directed, in effect, at the United States. Italy attacked neutral Greece.

1941 Hitler attacked neutral Yugoslavia and Greece. He attacked neutral Russia. Japan attacked the United States (Dec. 7) in the midst of peace negotiations. Hitler and Mussolini declared war on the United States.

## Eligibility for Passenger Tire Users Changed

DALLAS, June 30—An amendment which tightens restrictions on use of tires by some eligibles under rationing and also extends eligibility to certain automobile users not heretofore provided for has been

issued by the Office of Price Administration, Max L. McCulloch, region OPA administrator, has been advised.

More stringent requirements to be met by physicians, surgeons, farm veterinarians and practicing ministers, to be eligible for tires and tubes, are contained in the amendment, Mr. McCulloch said. Vehicles operated by such users must now be used "exclusively" for professional services or religious duties, instead of "principally," as heretofore.

Eligibility for recapped or obsolete new tires is extended to school officials and teachers who must travel by car from one school to another in an area where no other transportation is available. Certificates will not be issued to any teacher or official whose duties are performed wholly at one school.

Other changes in tire rationing regulations are:

Licensed Chiropractors and Osteopaths are made eligible under the same conditions as apply to doctors of medicine.

Eligibility of ministers is extended to "any religious practitioner qualified to administer to the religious needs of the members of a congregation."

Designation of nurses eligible for tires is changed from "visiting nurse" to "public health nurse."

"Under the new standards applying to doctors and ministers if it is necessary for the applicant for new tires to answer emergency calls as a part of his professional practice, he may be issued a purchase certificate which will enable him to use

his car between his home, his office and hospital," Mr. McCulloch explained.

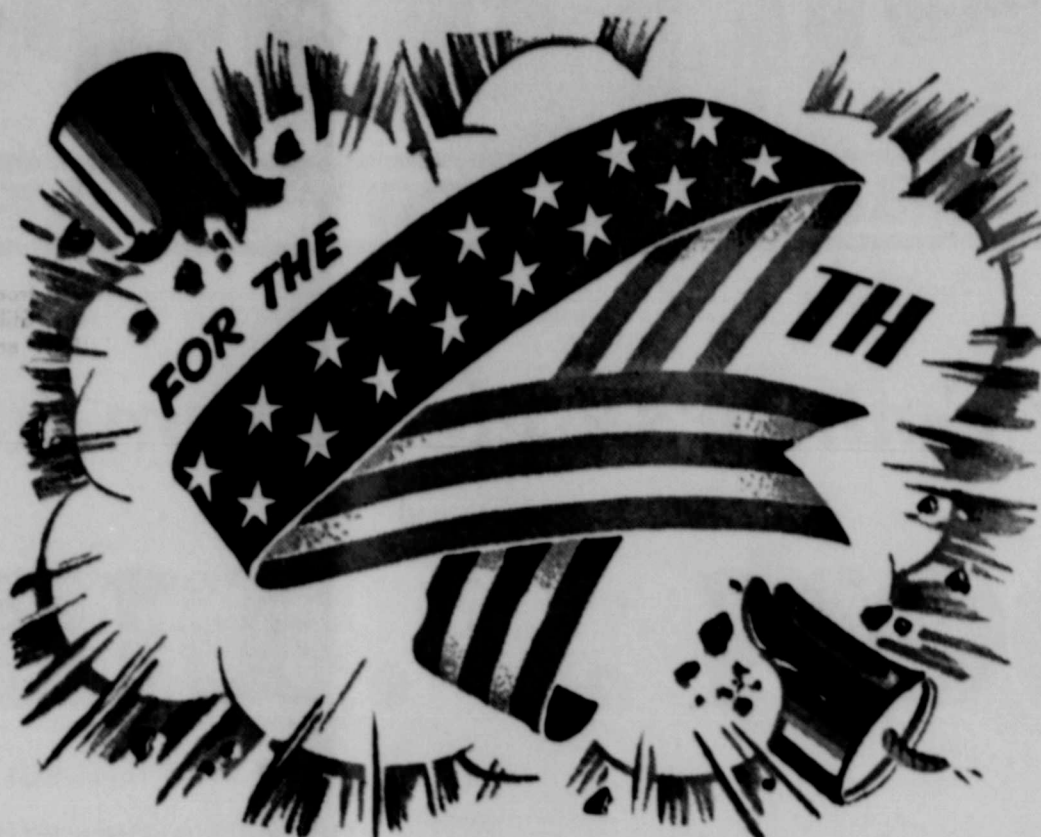

Change of the designation, "visiting nurse," to "public health nurse" does not extend eligibility to any group not heretofore covered, he said.

## A LETTER TO UNCLE SAM

### Dear Unc,

The priorities around this house are simply terrific. What a time I had getting at the typewriter to make up this letter of thanks.

You see, it's this way. Every Sunday, and after dinner weekdays, Dad used to take Mother and me for a ride. And did we dread it!

Mom said Dad used to drive like a maniac... no regard for my tender feelings and stomach. He'd honk and fight his way through traffic, missing fenders by an eyelash, at a speed that made my heart bump my tonsils.

Now, boyboy what a relief!... Dad heard a Phillips news broadcast say that Uncle Sam wants every motorist to Care for his car—For his country. Then he saw a Phillips ad which said that any Phillips Service Station man would be glad to show him how to do it. Well, to make a long story not too long,

the Phillips man whispered the magic words to him: **DRIVE UNDER 40.**

You'd never think anything so simple could change my whole life. But it did. Dad now drives like a human being. He has found out that he not only saves rubber, but also gas and oil... and saves his nerves, too. Mom swears that Dad is a different man ever since he started getting gas, oil, and car-care at the Phillips Service Station... you know, the ones that have the big Orange and Black 66 Shield.

I guess lots and lots of other folks are going there, too, because I sure hear plenty of talk about Phillips 66 Gasoline and Phillips 66 Motor Oil.

I even hear that you're using some of it yourself.

Respectfully,  
Your Grateful Nephew

### Defense Plant Seeks Workers

AMARILLO (Special)—There will be jobs for everyone. Perhaps the Pantex Certain-teed Company is situated near this city but their personnel will include workers from Perryton and all other cities and communities of the Panhandle if George H. Robertson, personnel director, has his way.

Furthermore, Mr. Don C. Boyd, personal representative of Mr. Robertson and the company, will be in Perryton July 9 for the express purpose of taking applications and granting interviews to interested men and women who wish a job that will help in winning our war, regular hours and good pay. It matters not what type of work you may now be doing, the Certain-teed

probably has a position where you would fit perfectly.

All types of employees are sought. If you are willing to abide by instructions and really want to work—you are cordially urged to meet the representative July 9. He will maintain offices in the courthouse. All are cautioned against seeking employment to evade the draft for it isn't being done. Those now employed with other defense projects must have a release from the chief executive before Certain-teed will entertain an application for employment. Those having criminal history are wasting their time as finger prints and other investigation will reveal such cases.

" . . . . The American people know that if we raise the billions which we now need to pay for the war and at the same time prevent a disastrous rise in the cost of living, we shall have to double and more than double the scale of our savings.

"Every dime and dollar not vitally needed for absolute necessities should go into WAR BONDS and STAMPS to add to the striking power of our armed forces.

"If these purchases are to have a material effect in restraining price increases they must be made out of current income.

"In almost every individual case they should be big enough to mean rigid self-denial, a substantial reduction for most of us in the scale of expenditure that is comfortable and easy for us.

"We cannot fight this war, we cannot exert our maximum effort, on a spend-as-usual basis.

"We cannot have all we want if our soldiers and sailors are to have all they need."

## Apply for Lost Social Security Cards

"Some workers are under the mistaken impression that when a social security account number card is lost a duplicate may be obtained by writing a letter or sending a telegram to the Social Security Board field office from which the number was secured," said Dewey Reed, manager of the Amarillo office of the Social Security Board.

He explained that if a worker wishes a duplicate account number, Form SS-5, which may be secured from a post office or a Social Security Board office, should be completed exactly as the original application with an additional statement that a duplicate number is desired.

Reed's statement was made because of requests, particularly telegrams, which have been coming into the office from persons needing duplicate account number cards.

The Form SS-5 is easily completed and need not be mailed to the office from which the number was originally secured since any Social Security Board field office will take the proper steps for securing the duplicate. It is necessary to have the same information as originally given in order that the worker's account number will not be confused with those of others having the same or similar names.

## Substitute War Crops for Wheat

COLLEGE STATION, June 28—Texas wheat growers will be urged to substitute war crops for wheat on land where such crops can be successfully raised, B. F. Vance, chairman of the Texas USDA War Board, said in announcing the Texas 1943 wheat acreage allotment of 3,727,966 acres.

"We have plenty of wheat, while we still are short of having enough of some crops, particularly oil-bearing crops," the war board official pointed out. "Under present law, the national wheat acreage allotment of the AAA cannot be less than the 55,000,000 acres which Secretary Wickard has announced, but I hope that Texas growers will voluntarily shift part of their wheat acreage to the production of crops which we need much more than we need wheat."

Vance said that AAA committees will work out with each grower a war production plan to get the maximum production from each farm to meet war needs.

## In Field Artillery

Oliver James Pribble, son of Mr. and Mrs. Edwin G. Pribble of Gray, Okla., is another Perryton high school graduate who is serving in the United States army. He was inducted at Beaver, Okla., September 22, 1941, and sent to Fort Sill, Okla. His parents received word that he had sailed May 24 from Seattle, Wash., for foreign duty, with the Field Artillery. He was born and raised on the home place in Beaver county, attending school at Union and Bethany. He graduated from Perryton high school in 1938, and has been farming with his father.

## Celebrate July 4 Without Fireworks; Buy Bonds Instead

AUSTIN—Texans who may plan to celebrate July 4, cannot hope to compete with gunpowder explosions on the battlefield. Marvin Hall, State Fire Insurance Commissioner, said in urging a safer and saner celebration for Independence Day.

"Lives can be saved, injuries prevented, loss by damage and fire destruction averted," Hall added, "if we eliminate the use of fireworks from our plans for observing our country's Declaration of Independence."

"Gunpowder and explosives burned up in fireworks for useless reasons can't be used by our fighting forces in the front lines. Fireworks exploded in Texas will not win another 'Midway victory'."

"Our celebrations with fireworks have caused us to pay a high price in previous years. This year the most patriotic manner of celebrating the Declaration of Independence will be to convert gunpowder into bullets and bombs by the purchase of war stamps and bonds instead of fire crackers."

## Volunteer Officer Candidate Data

Lt. Col. Joseph R. Peller, Recruiting and Induction Officer at Lubbock, Texas, stated that the War Department program for permitting men now classed 3A by Selective Service, to enter the Army as Volunteer Officer Candidates has been misunderstood in many cases. All of these candidates are required before acceptance as such to report to a designated Army reception center for mental and physical examinations. These examinations are intended to weed out all of those who are of doubtful officer caliber. This is a protection for the Army as well as the individual concerned.

A great many more applications have been received than can be accepted except after a delay of several months. Successful applicants are called to service in order of their date of qualification.

After an applicant is accepted and inducted into the Army as a Volunteer Officer Candidate, he is still not certain of acceptance for an Officer Candidate School. In selecting candidates for this school, all men in the service are considered and the Volunteer Officer Candidate must take his chance with the others. The fact that he has already passed a qualifying examination indicates that his chances for selection are better than men who have not taken such examination, but no promises can be given that he will be selected.

## A Patriotic Fourth Means a Safe and Sane Observance

Fourth of July will mean more to American liberty if workers on the home front will observe it by patriotic driving, the Texas Safety Association has announced.

Automobile traffic over the long holiday week-end will be almost as heavy as other years, the association predicted, and unless motorists do something about it, so will the toll.

Suggestions offered by the association include: Drive under forty miles an hour. Patriotically observe all traffic rules and signals. For patriotism's sake—don't drink before driving.

The result will be uninterrupted war production which since Pearl Harbor has been endangered by the traffic deaths of 17,000 Americans. Last year 28 Texans were killed in traffic accidents over the Fourth of July holiday period.

## Perryton Club

The Perryton Home Demonstration club met Wednesday, June 24 in the home of Mrs. J. R. Gunter. The program was in observance of Flag Day.

Mrs. J. E. Mullins gave the history and origin of Flag Day and told how it received the name of "Old Glory." Mrs. M. F. Hethcock explained the etiquette of displaying the flag. Mrs. Garland Redfern named the courtesies that should be shown the flag. The members repeated the Flag Allegiance in unison.

Others present for the meeting were Mesdames Bill Dull, A. N. Dowers, Lake Patton, Delta Davis, W. H. Thomas, B. B. Lee, and the hostess.

## Remember Regulation "W"

According to regulation "W" we cannot extend more credit after the 10th of the second month following purchase. Accordingly, all purchases made during May and any previous unpaid balances must be paid by July 10.

It takes both fighting men and industry to win the war. Industry has its job to do as well as the men on the front. But to carry on both jobs takes a tremendous amount of money. To raise this money—Uncle Sam asks us to buy WAR BONDS and STAMPS. Let's make the Fourth of July an outstanding day in purchase of WAR BONDS and STAMPS in Ochiltree County.

## No. 1 Continued from Front Page

A boys, 4-H boys and girls, fat calf and livestock shows, poultry shows. We could see the scene of many happy community gatherings.

But it all faded away in a few days when the wrecking crew moved in with their bars. How true that old verse that went something like this: "It's a good thing to remember, but a better thing to do, to always work with the construction gang, and not the wrecking crew."

Looks like the big milling and terminal grain elevators are taking the wheat farmers for a grand and glorious cleaning to the tune of about 20 cents on every bushel of wheat being sold on the Perryton market.

With the government willing to loan \$1.09 per bushel on elevator stored wheat and \$1.16 per bushel on farm stored wheat, the cash price for wheat in Perryton Tuesday was 89 cents per bushel. Just 20 cents under the loan price.

Mills and terminal buyers seem to have plenty of space in which to store cash wheat but no room for stored wheat. Looks like there is a well organized effort to fill up all available space with bought wheat, thus depriving wheat farmers of 20 cents on every bushel of wheat they are forced to sell.

We haven't had a very high opinion of the millers since they were a party to the legalized steal of millions of dollars when they succeeded in having the AAA processing tax declared unconstitutional. We suppose their piratical manipulations of the 1942 wheat crop is smart business but we think it's just plain high jackin' the farmers.

We've heard some unjust criticism of our local elevators and made it a point to investigate. Our grain buyers have exerted every effort to obtain storage and have secured very little. Cash wheat is bought on a very narrow margin, in fact we believe that the local elevator makes a smaller profit from bought wheat than from stored wheat.

Wheat growers are filling their private storage first, many others will pile it on the ground until storage facilities can be provided either on the farm or in elevators. We've heard many farmers declare they'll let their wheat rot before they'll sell to the mills and speculators at 20 cents under the loan value.

Personally we do not think there is a great amount of storage facilities available and that whether we like it or not, those controlling that available storage have the privilege of handling it as they see fit. It just happens that we want to store our wheat and not be forced to sell at below

the loan price. We don't like it.

And all of this leaves us in a heck of a quandary as to just how much good all this talk and legislation about parity prices for agricultural products has actually accomplished?

follows: fresh peaches, plums, apples, and oranges, all fresh vegetables including Irish and sweet potatoes, shell eggs, butter, corn meal, hominy (corn) grits, dry edible beans, wheat flour, enriched wheat flour, self rising flour, enriched self rising flour, and whole wheat (Graham) flour.

"Farmers," Mr. Boyd said, "are working to produce abundant quantities of all the food needed by the United Nations. The Food Stamp Program helps to assure them, particularly in seasons of heavy marketings, of a fair return for the efforts they are making. At the same time the program adds many nutritious foods to the diets of families in need."

Ona Grace Francis, Frances Mae Dodson, Jackie Adams, Opal Pearl Murray and Leata Wagner.

Harvey was born to Alpheus and Elizabeth Buerger Holdeman on February 13, 1885 at Avilla, Jasper County, Mo., and passed away at his home in Perryton on June 27 at the age of 57 years, 4 months and 14 days.

When Harvey was a lad of fourteen, his father died leaving him as partial support of the family of five children. On April 30, 1905 he was married to Miss Lydia M. Pletcher at Onong, Mo. They established their home in Neck City, Mo., where Mr. Holdeman followed the mining profession.

Six children were born to this union, all are living and present for the last services. They are Mrs. C. O. Peterson, Harold Holdeman, Mrs. R. L. Kile, Miss Eloise and Nona Carolyn Holdeman of Perryton and Frank Holdeman of Hawthorne, Calif.

The Holdeman family moved to Miami, Okla., from Missouri in 1911 and Mr. Holdeman was in the automobile business. They came to Ochiltree County in 1919 and resided on a farm several years, later moving to Perryton to enter the machinery business.

Mr. Holdeman was a man of many enterprises, which gave him a large circle of friends and he never forgot one even after a long period of illness. His greatest pleasure was to lend a helping hand to those in need, always serving others better than himself. He was a member of the Mennonite Church and will be remembered by his many friends and relatives as a man of greatest courage, generosity and kindness.

He leaves to mourn his loss his wife, six children, thirteen grandchildren, three sisters, one brother, and a large host of friends.

Let Co-Op serve you better. 9-11c

## With the Infantry

John Aron Blorton was inducted into the army December 1, 1941, and was stationed at Fort Sill, Okla. for ten days, when he was sent to Camp Roberts, Calif. Then in March, he went to Fort Lawton, Seattle, Wash., where he sailed for foreign duty on May 19. Prior to entering the army, Pvt. Blorton was a welder and farmer. His wife is the former Miss Winifred Morris, daughter of Mr. and Mrs. Andy M. Morris of Gray, Okla. His address is ASN 3806-2005 Co. C., 4th Infantry, N. F. A. P. O. 942, care Postmaster, Seattle, Wash.

## A Former Resident

Major Charles Claude Ege, who was Captain in Reserve, was called to duty March 23, 1941, at Fort Sill, Okla. On April 13, he was commissioned a Major G. S. C., A. C. of S. G. 4, 4th Armored Division. Major Ege, a native of Lipscomb County, Texas, is the only son of Mr. and Mrs. C. A. Ege, who filed on land in 1902, in Beaver County, Okla., where they lived until 7 years ago when they moved to Missouri. Major Ege attended the Balke schools, completing his education at Oklahoma A. & M. College, with B. S., F. A. and M. A. degrees.

This week also has been an important one in the field of rubber conservation. All orders issued by the Office of Defense Transportation affecting local and over-the-road delivery service and hauling now are in full effect, including those phases of the orders which earlier had been postponed to allow adjustments of schedules.

These ODT restrictions include limiting of local delivery service to 23 miles outside of city limits, one delivery a day to one address, no call-backs, etc. requiring full loading for over-the-road hauls and a 75 per cent minimum load for the return trip.

Although these orders do not apply to use of passenger automobiles, officials still are stressing the necessity for conservation of tires. There isn't any rubber for any more civilian tires and those civilians who now have tires should make them last for the duration—and that "duration" may be for years. Rubber burned up on a pleasure trip now may be just the amount needed on an individual's tires for a very vital trip months from now.

Autos Available to Eligibles: Declaring that the list of persons eligible to buy new automobiles is growing larger, due to increased employment in war production, Hubert G. Larson of Washington, chief of OPA's auto rationing branch, told a Dallas group last week that it is not unpropitious for eligible purchasers to buy new cars.

Sales of new cars release needed storage space and idle capital, he pointed out.

Army Needs Nails: All lumber yards in Texas, Oklahoma and Louisiana have received a letter from the region War Production Board office at Dallas, asking for lists of any kegs of nails they may have available, for use by the Army.

Sugar Books Available: Consumers who had excess amounts of sugar at the time they registered for rationing may now obtain ration books from their local War Price and Rationing Boards, if their excess supplies have been depleted by allowances made for home canning, region OPA Administrator Max L. McCullough announced.

Ceiling on Anti-Freeze: Dollars and cents maximum prices for anti-freeze at the retail, manufacturing and distributing levels have been announced by OPA, at points well below the speculative quotations prevailing at the end of last winter. The new regulation, No. 170, removes anti-freeze from regulation under the General Maximum Price Regulation.

Typewriter Deals Illegal: So-called "lend-lease" transactions by which certain stores have been accepting the full sales price of typewriters under a rental contract, with the agreement that the purchaser will automatically acquire title to the machine when OPA regulations permit, are in violation of typewriter rationing regulations.

OPA announced. Sale of typewriters has been banned since March 6, except to buyers who present certificates issued by their local War Price and Rationing Boards.

Travel to Fairs Not Essential: While postponement of state and county fairs, in accord with ODT's recently announced policy, will be a deprivation to the farmer, it will "by no means be an intolerable deprivation," ODT Director Eastman declared. He reaffirmed the decision that travel to and from fairs is non-essential.

Cosmetics Order Expected: Reduction in the number of permitted shades and odors of a wide variety of items ranging from lipsticks to "cosmetic stockings" will be a feature of a forthcoming WPB order limiting production of cosmetics. Limitations on container sizes and production of less-essential items also may be included in the order.

New Duties for Local OPA Boards: Letters outlining five major duties which board members will be asked to handle have been mailed to local War Price and Rationing Boards by Price Administrator Henderson. These duties include distribution of explanatory material on the General Maximum Price Regulation, filing of costs-of-living commodity prices prepared by retailers, and receiving and forwarding to OPA complaints of violations of price regulations.

Increased Sugar Available: Increased sugar allotments in proportion to the increase in the number of meals being served now are available to restaurants, hotels, boarding houses and other institutional users, region OPA Administrator Max L. McCullough announced. Institutional users of sugar in areas where war facilities have brought an increase in the service of meals will benefit from the increased allotment, he said.

Southwest Leads in Salvage: More iron and steel scrap moved from auto graveyards to the nation's war furnaces in May from the Dallas WPB region, which includes Texas, Oklahoma and Louisiana, than from any other WPB region in the country. Total tonnage moved from the region was 81,888 tons. Nearest figure reported from the 12 other WPB regions was 46,427 tons.

Egg Crate Sellers Licensed: All sellers of used egg crates and used component parts have been licensed by OPA as a condition of selling. License is automatically granted to all persons subject to the regulation. The measure was taken to aid enforcement on used egg crates. Licenses of violators of the price ceiling may be revoked by OPA.

Dr. and Mrs. O'Dell Ryan had as their guests Wednesday and Thursday of last week Mrs. Ryan's father, brother and sisters, C. B. Bullard, Jervis Bullard, and Misses Leota and Muri Bullard, all of Snyder, and her sister and husband Mr. and Mrs. Tommy Gressett, New Orleans, La.
