51ST YEAR—No. 70 8 PAGES COLORADO CITY, TEXAS, SUNDAY, JUNE 10, 1956 \$5 Per Year in Mitchell County—10c PER SINGLE COPY

Our Town...

By JOE BELL

The string music and "Beautiful Texas" sounded just about the same.

And the political promises had the O'Daniel trademark—plenty for everybody.

Even the black tie and white shirt—open at the collar—made it a look-back to 1938.

But the crowd wasn't there. Not Tuesday.

By actual count there were 210 persons in the 100 block of E. Second—150 on the north side and 60 on the south side of the street—who stopped to see and listen to Pappy's new campaign for governor.

And Tuesday was Dollar Day with the city's main street more heavily traveled than any week day of the month except Saturday.

All of which adds up to a far cry from the 1938 campaign when Pappy beat all comers in the primary—receiving 1,675 of the 3,000 votes cast for governor in Mitchell County.

It was because of the audience—the lack of it, rather—that O'Daniel switched his speech Tuesday from the Courthouse lawn to mid-street on the city's Highway 80 thoroughfare.

Pappy sat in the back seat of his Buick sedan in front of the courthouse for 30 minutes waiting for a crowd to form.

But with only 20 spectators in 30 minutes, the candidate switched his speech from the original Courthouse site to busy downtown.

However, don't count O'Daniel out of the race just because of the crowd.

He and John Hawk, an "advance man" for the campaign, claim that the ex-governor is well pleased with the crowds that heard him in his swing through West Texas.

The old-time political rallies are things of the past, they claim, and big crowds aren't the rule any more no matter the name of the candidate.

Plenty of politicians agree with them.

Other campaign appearances here back up that theory.

Price Daniel, while campaigning a few years back, didn't draw half the crowd in the shade of Crawford Hotel that O'Daniel stopped Tuesday.

Remember, also, that Ralph Yarbrough in the governor's race two years ago didn't attract but approximately 260 listeners in Civic House despite a campaign organization here, advance publicity, a motorcade into town and an air-conditioned speaking site.

And Yarbrough carried the county, too.

It's true that a sizeable portion of Pappy's listeners Tuesday were only sightseers.

They were there for a glimpse of the O'Daniel technique, to try to evaluate just what kind of political magic it was that turned a flour salesman into governor and senator.

But there were those also who believe and vote for Pappy.

One pretty sure way to check those kind of listeners is to keep an eye on the "pork barrels"—the wooden containers that are passed around for campaign contributions.

Fourteen citizens—on the south side of the street where the audience amounted to only 60 persons—thought enough of the candidate to toss money into the barrel without any solicitation.

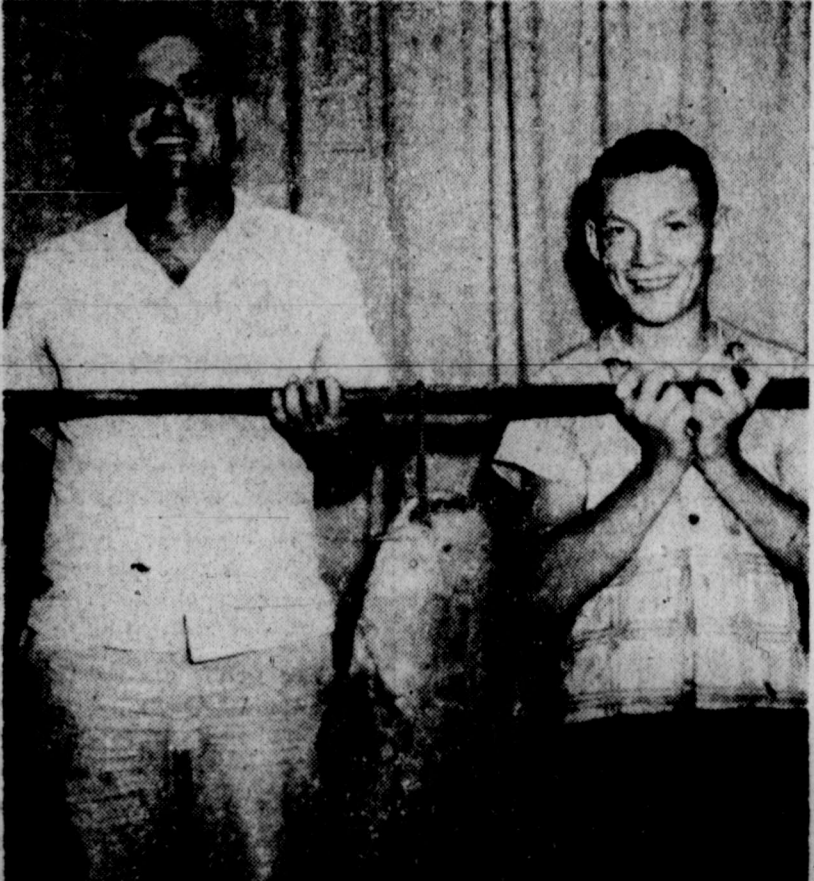

It was all silver, but it was money.

Despite the theory on crowds, though, and in face of the previous magic of Pappy's campaigning with Bible verses, hill-billy music and promises, and in view of the obvious sentiment for something like a clean slate at Austin, you can't help but get the feeling that Pappy is through.

That appraisal is more evident when you are just talking to him and watching his off-the-speaking-platform actions.

Somewhat, as he lolled on the back seat of the Buick sedan in front of the Courthouse, you got the impression his heart wasn't in it.

His reply to citizen's "Hi See TOWN Pg. 1

FOR MORE TOURISTS

Membership Move To Boost U.S. 80

A move is under way here in Colorado City for U. S. Highway 80 members.

The membership recruiting program is part of a campaign for more traffic on U. S. Highway 80 across Texas.

Representatives from a dozen Texas cities between Dallas and El Paso met recently in Big Spring to map the campaign for U. S. Highway 80 Association's central division.

And since the association's central division is a non-profit organization with no salaried employees funds for the traffic campaign are paid for entirely from \$10 individual membership fees.

Contacting various firms here during the last week and in weeks ahead will be M. N. (Nap) Caddell, former U. S. Highway 80 Association president, and Bill Quimby, Chamber of Commerce manager.

First phase of the new campaign for more Highway 80 traffic across Texas will be the placing of 15 highway signs between El Paso and Las Cruces, N. M., and 10 signs between Weatherford and Fort Worth.

Purpose of these signs will be to persuade motorists to use Highway 80 rather than U. S. 180 and U. S. 62 via Carlsbad, N. M.

Junction of U. S. 80 eastbound and U. S. 180 is at El Paso. Westbound junction of the two routes is at Weatherford.

The signs will be five feet by 10 feet with red background and yellow and white letters—"Follow U. S. 80—Main Route to Fort Worth and Dallas (or El Paso)".

A white apron below the 10-foot sign will focus attention on various features of the U. S. 80 route. Those apron phrases will be in black letters and each will have a different message—enjoy

PAUL D. MARABLE JR., to discuss industry.

A breakfast Thursday morning in Civic House will provide Chamber of Commerce members with latest data for community industrial development.

The industrial development information will be supplied by Paul D. Marable Jr., manager of industrial development and water resources department of West Texas Chamber of Commerce.

Marable, who is on the WTCC headquarters staff in Abilene, also will conduct a roundtable discussion on the topic of industrial foundations.

The breakfast—which is being scheduled in place of the June membership luncheon of the chamber—is scheduled for 7 a.m.

And the roundtable discussion will begin at 9 a.m. in Civic House.

Marable, who was Chamber of Commerce manager for Denison before joining the WTCC staff, will point out community assets and requirements for promoting industrial development when he speaks at the 7 a.m. breakfast.

The breakfast program will be concluded in time for business men to open their various firms at 8 a.m.

There will be an hour interim before the roundtable discussion pertaining to industrial foundations begins at 9 a.m.

Possibility of forming an industrial foundation in Colorado City has been mentioned off-and-on for the last few years as a means for assisting industry already located here and for the purpose of developing and attracting new industry.

And the roundtable led by Marable will provide opportunity for open discussion on all problems and potentials of formation of a foundation within a town comparable to Colorado City.

Marable, who also edits the WTCC monthly magazine, West Texas Today, has been industrial and water resources manager for the WTCC since 1952.

He was graduated from University of Texas in 1942 and served as a commission officer in the Normandy invasion in Europe. He was captured by the Germans and held a prisoner of war in Poland until liberation by Russian army of General Zhukov.

Marable joined the staff of Waco Chamber of Commerce in 1946 and as membership director increased that organization's member list by 450 in three years.

At Denison he was credited with an outstanding job in industrial development, tourist promotion and retail trade development.

Heading arrangements for the breakfast and roundtable is the chamber's industrial development committee headed by Frank Mas-sad.

Rain Drenches Area North Of Loraine

Rain Friday night drenched the Loraine area.

But most of the county had to be content with light showers and sprinkles.

However, low clouds brought some moisture Saturday morning and the possibility of additional rain.

At noon Saturday the total rain in Colorado City (Friday night and Saturday a.m.) amounted to only .15 inch.

K. L. Taylor, president of Loraine's First State Bank, reported that rain amounted to .80 in Loraine and 1.30 north of Loraine in the Valley View area.

But south of Loraine farmers reported only light showers.

Some areas south of Colorado City reported beneficial showers Friday evening.

Abilene Insurance Man To Address Kiwanis

Roy Kinslow, Abilene insurance man, will speak at the Kiwanis luncheon Tuesday in Civic House.

He will represent the Southwestern Insurance Information Service of Dallas.

Kinslow is district engineer of Texas Employees Insurance Association in Abilene.

WITH REGULAR SCHEDULE

Teams Organized In Minor League

A four-team Minor Little League has been organized here with boys left over after selection of Little League players this season.

John Conaway, general supervisor of the league, organized the teams with the aid of other workers.

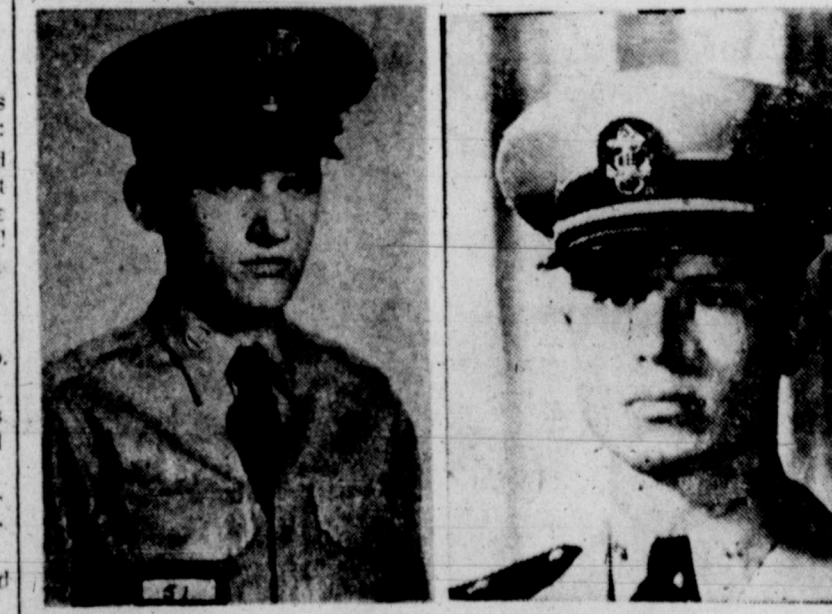

Ages of the team members ranges from eight to 12 years.

Managers and boys will meet at the Junior High School playground Monday to receive uniforms and caps.

Need for the additional teams was realized after the large number reported this season for Little League play.

"We had over 50 boys left after the four teams rosters were filled," said League President Chester Thomas, "and we had to have other teams for the boys to play on."

Thomas contacted local businessmen and signed up eight sponsors, with two merchants co-sponsoring each team.

AIRMEN

Calvin H. Watkins, left, son of Mr. and Mrs. K. H. Watkins, 736 E. 20th St., is completing Air Force basic military training at Lackland Air Force Base, San Antonio. Naval Aviation Cadet William J. Post, son of Mr. and Mrs. R. E. Post, 905 Chestnut, is in primary flight training at Whiting Field Naval Auxiliary Air Station, Miami, Fla., after graduation from Naval Pre-Flight School, Pensacola, Fla.

AT MONDAY NIGHT SESSION

Council to Study 10th Street Drainage, Board Appointments

W. 10th Street drainage and appointments to the city's first park and recreation board will be main topics for City Council discussion Monday night.

Both are holdovers from the May council session to provide plenty of time for study.

And the city has invited property owners in the vicinity of W. 10th near Walnut and Oak to attend the council meeting for a full-grown public hearing on the drainage problem.

Drainage of the 10th Street area has been a problem before council for years. It has been given plenty of attention, too, by City Manager Rollin K. Sneathen since he took over the city manager's job early in the year.

Sneathen at the May council meeting discussed several measures for alleviating the flooding of yards from 10th St. overflow during heavy downpours. Among those were a plan for inverting the street crown and lowering grades at a cost of about \$5,000; installation of storm sewer at expense near \$50,000; and raising of street curbs several inches.

The city manager and councilmen viewed the inverted crown plan closely last month. One reason for that close scrutiny was economy and another is the fact that a bond issue would be required to finance storm sewer construction.

But councilmen wanted to wait for Monday night's meeting —

and the appearance of interested property owners — before making a decision.

Ordinance creating and setting up duties of a park and recreation board was approved unanimously at the May meeting of the council.

However, councilmen held off from making quick appointments to the seven-member board and suggested consideration appointments be postponed until the June meeting.

They said a strong board was necessary if the city institutes a successful recreation program. And the extra weeks would allow time for careful study and consideration of prospective appointments.

TELEPHONE TALK

by Truman Black, Manager

Vacation Tip

I guess everybody looks forward to that once-a-year vacation, and probably wishes it came round more often. And since this is the start of the vacation season, it's a good time to remind you how your telephone can help you have a better vacation.

After you have the fishing gear and everyone's bathing suit tucked away in the car ready for an early morning start, why not call ahead Long Distance?

It's the courteous thing to do if you're visiting relatives or friends. That way, they'll know about when to expect you.

It's the smart thing to do if you're stopping at a motel or hotel on the way. With reservations, you can drive a couple of more hours and put more miles behind you. No need to stop early in order to get accommodations.

More and more, nowadays, people count on Long Distance to help them enjoy their vacation more.

Remember: Your calls go through twice as fast when you call by number. And rates are lowest on station-to-station calls every night and Sundays.

A Family Friend

You know, the telephone has always seemed to me to be a real "friend of the family." Mother uses it to do a lot of her shopping, and to "visit" with friends around town.

For Dad, it's a big help in carrying on his business, and keeping in touch with what's happening in community affairs.

And for the growing children at your house, it's probably a "must" for asking their friends over to visit, or asking them where's the best place to meet for the weekly walk to the movie.

These are probably just a few of the ways in which the telephone proves itself as a family friend—always ready to help you and your family keep in touch.

You'll Love the Convenience

If you already have an extension telephone in your home—or your office—you know firsthand how many steps and how much time you save every day.

If you haven't ordered an extension yet, why not do it today, and find out how much you'll like the convenience of an extension telephone, installed wherever you want it?

Just call the telephone company to place your order. The cost is \$1.00 for installation, and the monthly extension rate of \$1.00.

RADIO TALK—Billy Nidiffer apparently takes over the ear phones of his father's amateur radio. With him are his parents, Mr. and Mrs. W. F. (Bill) Nidiffer, and brother, James. The Nidiffers' daughter, Nancy Jo, is visiting relatives in Kansas this summer. (Record Staff Photo).

AT BILL NIDIFFER RESIDENCE

Entire Family Joins Dad for Ham Radio Talk Across Nation

Ham radio operating is family fun at the W. F. (Bill) Nidiffer residence.

That's because Mrs. Nidiffer and children join in when Dad sends out his call letters to other amateur operators near and far.

Mr. and Mrs. Nidiffer and children—Nancy Jo 14; James, 10; and Billy, 4—live on Highway 80 (to Big Spring).

They moved here in January from Snyder where they had lived for the past five years.

Mr. Nidiffer is an electrical engineer for Halliburton Oil Well Cementing Company and is on 24-hour call. But in his spare time he talks to other amateur radio operators. He has talked to persons in 46 of the 48 states, South America, Mexico and Canada.

Even though electrical work

has been his favorite, he began his amateur radio hobby only two years ago.

Before that he and James made model airplanes.

He now belongs to the North West Texas Emergency Network, which covers about 20 counties in the Panhandle and West Texas.

Mrs. Nidiffer, as she says, is a "jack-of-all-trades." She likes doing Scout work, textile painting and assists in teaching Sunday school classes at the First Christian Church where they attend regularly.

Nancy Jo and James have other hobbies in addition to joining in radio talk, too.

Nancy, who will be a freshman next school term, began a stamp collection last year. Her latest stamp is Queen Elizabeth's per-

sonal stamp from England. The stamp was on a return thank-you note for a birthday card sent to the Queen on her birthday anniversary.

James, a fifth grade student, likes to make model airplanes and has recently begun a collection of coins. At the present he has coins from Ireland, Canada, Mexico, Denmark and various parts of the U.S.

He also plays first base for the Giants in the Little League.

And as a whole, the family likes to fish. That's what they plan to do on their vacation this summer.

In 16 years of married life the Nidiffers have moved 14 times. They have lived in Oklahoma City and Snyder two different times. Other places have been in South Carolina, East Texas, Louisiana, California, Alpine, Amarillo, Garden City, Kans., San Angelo and Colorado City.

Mrs. Nidiffer explained that she thought that traveling so much has helped Nancy in her studies especially in historical sites and events.

Mr. Nidiffer has been employed by Halliburton for the past six years.

IN FIRST METHODIST CHURCH

Norma Parkhurst, Thomas Winton Repeat Vows in Midland Ceremony

First Methodist Church in Midland Saturday evening was setting for the marriage of Miss Norma L. Parkhurst and Thomas Stephen Winton.

The bride is the daughter of Mr. and Mrs. Arlis Beckham Parkhurst of Midland, former Colorado City residents. Winton is the son of Mr. and Mrs. Charlie J. Winton of Chickasha, Okla.

Dr. Marvin L. Boyd read the double ring vows at 8 o'clock.

The sanctuary was a profusion of white gladioli, white stock and marooni daisies. Sunburst arrangements of white gladioli and marooni daisies on seven-branched candelabra flanked central arrangements of stock and daisies. Decoration was completed with a background of wood-wardia fern trees. Arrangements of white stock and marooni daisies graced niches which formed a part of the Gothic architecture of the sanctuary.

The bride was given in marriage by her father.

She wore an original Murray Hamberger designed gown of silk finished taffeta. The moulded bodice had delicate scrollwork embracing the wide scooped neckline and short summer sleeves. The full skirt fell into unpressed pleats at the waistline and extended into cathedral train.

She wore a finger-tip length veil of imported Brussels lace and carried a cascade styled hand bouquet of lily of the valley and stephanotis centered with three orchids.

FRIENDLY PEEK—Skyline of lower Manhattan as seen through a submarine's periscope provides spine-chilling food for thought: What if it were being seen by an enemy submarine commander? The camera took this friendly peek at New York City from control room of the nation's first atomic submarine, USS Nautilus, as she visited New York harbor for the first time. Deadliest sub in the world was surfaced at time picture was taken.

White Sox Surprise Cards as Athletics Increase League Lead

Athletics took a larger lead in the Pony League Thursday night as they outscored the Braves 14-12 and the second place Cardinals lost to the White Sox 5-4.

Coach Toby Dearen's Athletics are still undefeated in six complete games while the Cards have dropped two contests and won five.

Athletics used the home run

route for their win, blasting three over the fence. Connecting on the round-trippers were Billy Key, Ronnie Bassinger and Dwayne Spivey.

Athletics whammed eight hits for nine runs in the first four innings off Brave pitcher Bennie Greenfield.

Romaldo Lujan took over for the Braves in the fifth and held

them to three hits and five runs. Robert Bracy started on the Athletic mound but gave way to Key in the third.

Braves were tough throughout the entire contest. They took a 4-0 lead in top of the second frame. But Athletics rallied for three runs in their half of the second. Key led off with a homer, Lindsey doubled and Spivey brought him home with a home run.

Braves chalked up four more in the third frame and the Athletics duplicated the feat with four runs of their own, mainly on Bassinger's four-bagger.

Athletics went ahead 9-8 in the fourth on runs by Bassinger and Steve Smith.

Then the Braves went ahead 10-9 in top of the fifth on runs by Robert Boney and Lujan.

The lead sawsawed again with the Athletics scoring four runs in bottom of the fifth to spurt ahead 13-10.

sixth and seventh but never enough to overcome the Athletics' lead.

White Sox, winner of only one game before the Thursday tilt with the Cardinals, used a two-run seventh inning rally to surprise the Cards.

Thirteen Cards went down via the-strikeout route with Grady Davis fanning six in four innings and Danny Fisher sending seven down swinging in three frames.

It was Fisher who took over in the fifth for the win. Cards collected six hits in all.

Dickie Richardson went the route for the Cards, fanning nine and allowing six hits.

White Sox scored first in the fourth inning. Red Lemons led off with a double and scored on Raymon Owens single. Sherman got on base on an error and scored on Don Vest's double.

Cards waited until the fifth inning to tie the score 3-3. Richardson whammed a single and Larry Moser scored him with a single. Charles Rothwell went to first on a fielder's choice and scored on an error.

Cards went into a 4-3 lead in the sixth when Hunter Mann doubled and scored.

But then the determined Sox came back fighting in the seventh for the two winning runs.

Fisher socked a single and scored on Vest's single. Vest scored following a series of walks and an error.

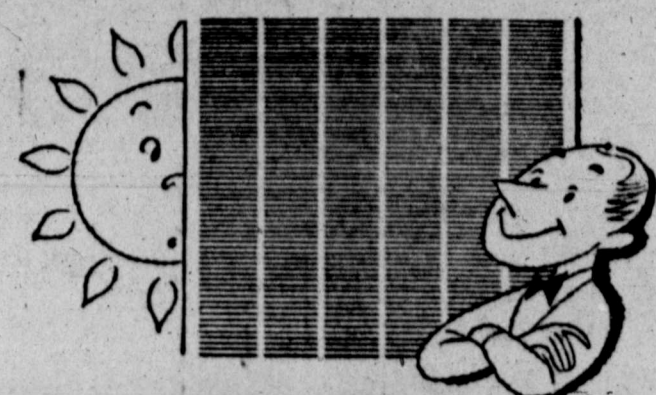

Fisher sent the Cards down 1-2-3 in bottom of the seventh on three straight strikeouts.
