SCHOLARSHIP WON BY TAHOKA C-C HEAD IN STATE CONTEST

(Special to the Journal)
TAHOKA, June 11.—C. C. Williams, secretary of the Tahoka chamber of commerce for the past sixteen months, was recently awarded the \$200 scholarship to the National Institute of Commercial and Trade Executives, Evanston, Ill., by the Texas Commercial Executives association. The award is made each year to the Texas executive writing the best paper on chamber of commerce administration. M. E. Melton, Tahokan, president of the committee on awards, presented the scholarship to Mr. Williams at the meeting of the organization in Plainview Saturday night.

C. C. Williams is serving his second year as secretary here, coming from Crosbyton in March, 1929, where he had served a year. Prior to that he served four years in the United States civil service in the Philippine Islands. He was reared at Commerce and attended the East Texas State Teachers college at that place.

The National Institute held at Evanston, Ill., each year, opens on August 4 and continues two weeks and is in the nature of a training school for chamber of commerce workers. Usually approximately 400 are in attendance, a number of them from Texas. This will be Mr. Williams' second year to attend.

Waco Citizen 79, Endorses New Konjola

"Too Bad I Did Not Hear Of Konjola Long Ago," Says This Happy Man

MR. J. A. KIN
"Too bad I did not hear of Konjola long ago. It could have saved me much suffering. My stomach was the cause of my trouble," said Mr. J. A. Kin, 122 Oriental Road, Waco. "Everything I ate caused pain, gas and bloating. My whole system was run down, my vitality was low and I was gradually losing my strength. I had no ambition and was worn out all the time."
"So many medicines had failed me that I had about lost hope. Then came Konjola. After taking four bottles my appetite increased. I found I could eat anything without a trace of indigestion in any form, and my whole system has taken on new life. I have plenty of ambition to do my work, and I will always recommend Konjola as a real medicine."
Konjola is not a "cure-all"—there is no such thing, but when taken for from six to eight weeks will produce amazing results. The countless thousands of indigestion sufferers of Konjola have proven that it makes good in even the most stubborn cases.
Konjola is sold in Lubbock, Texas at Brown's drug store, and by all the best druggists in all towns throughout this entire section.—Adv.

SALES OF HORROR AND HEROISM TOLD AS AFTERMATH TO SHIPS' COLLISION

...poking slowly through the fog moving at barely half its normal speed of 12 knots. Almost without warning, there was a crash as it ploughed into the tanker.

...The explosion, according to the passengers, tore the tanker to pieces, and within a few minutes the last piece had sunk from sight leaving a flaming sheet of oil on the surface of the sea.

...Panic Holds Sway Apparently in panic and crazed by their burns, several persons leaped into the water. Among the seven passengers who were missing were four women. Eleven members of the crew disappeared.

...Hole In Liner It was not until nearly noon, however, that the Fairfax limped back into her berth, a gaping hole in her starboard side, just above the water line and her portside amid and blacked by the first.

...SHIPS CRASH BLINDLY IN BLANKET OF FOG BOSTON, June 11 (AP)—Flaming gas of floating oil claimed the lives of at least a score of persons—possibly three times that number—

...Warning Is Shouted The Fairfax, a Merchants and Shores Transportation company ship, bound out of Boston for Norfolk, Va., with a passenger list of 11 and a crew of 70, drove her bow into the port side of the tanker before watchmen aboard the steamship could do little more than shout.

...Others Are Missing Eighteen of the passengers and crew of the Fairfax were missing when a roll was called later. Several were seen to jump overboard as the flames swept upward and it was believed at first that all of the missing perished in the sea of blazing oil.

...The flames which swept up from the burning oil melted away the radio antennas on the Fairfax and halted her efforts to send out an S. O. S. Repairs were started and the wireless finally began operating. The Gloucester picked up the appeal.

...Doctors, nurses and ambulances were at the pier awaiting the Gloucester.

...SAILOR DIES TRUE TO TRADITIONS OF NAVY BOSTON, June 11 (AP)—Rolling waves, fog, fire, screams, and out of it all a man who died true to United States Navy tradition.

...Such is the story of Seaman J. B. Walker of Kittery, Me., who sank beneath a fire-coated sea clinging to a woman he had hoped to save.

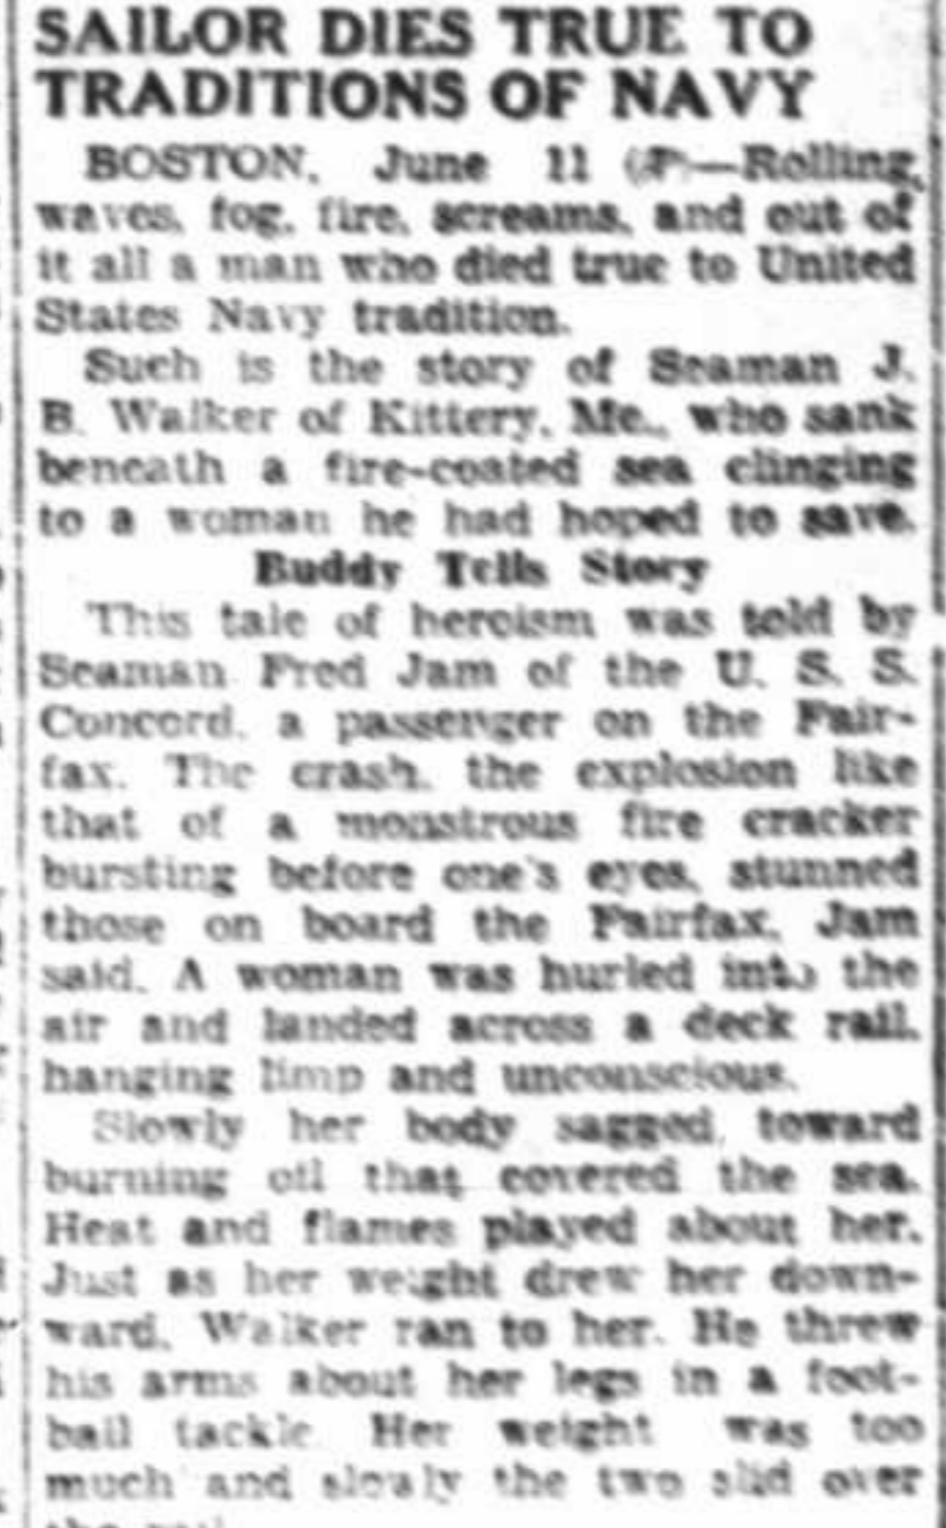

...This tale of heroism was told by Seaman Fred Jam of the U. S. S. Concord, a passenger on the Fairfax. The crash, the explosion like that of a monstrous fire cracker bursting before one's eyes, stunned those on board the Fairfax, Jam said.

...A woman was hurled into the air and landed across a deck rail, hanging limp and unconscious.

...Slowly her body sagged toward burning oil that covered the sea. Heat and flames played about her. Just as her weight drew her downward, Walker ran to her. He threw his arms about her legs in a football tackle. Her weight was too much and slowly the two slid over the rail.

They Couldn't Know

BACK IN 1818 the greatest newspaper of the day declared that the world had reached the limit of human expansion. It even went further, saying that there weren't enough supplies in the world to support further growth of population.

The mind of 1818 couldn't conceive of the miracles that human ingenuity would perform during the twentieth century. It couldn't imagine the wonders that would be wrought by new agricultural methods and modern manufacturing genius. It was ignorant of transportation as we know it, or the progressive sales methods of today. It could not see the vital part that would be played by advertising.

Even today there are some who fail to realize what an important factor advertising has become. Advertising is as much a part of today's life as electricity, antiseptic surgery or automobiles. It keeps us up to date on the many things we need in order to live profitable, happy and useful lives. It presents for our approval articles of all kinds and for all purposes. The requirements of each member of the family are met by advertised offers of good merchandise of proved value.

The advertisements save time, money and effort for those who read them and follow their guidance. They are practical guarantees of satisfaction.

SEMINOLE IS GOING AHEAD

PLANS TO IMPROVE IN SCHOOL OFFERINGS ARE MADE

SEMINOLE, June 11.—With a new building for the Seminole common schools to be completed in time during the next year, plans are being made by officials of the district to handle an expected increase of 50 or more new pupils.

W. Pittman, county superintendent, D. C. Southall, who has been superintendent for the past three years, was recently elected for a two year term. Plans were made by the board to increase the teaching staff from 9 to 11 the coming year.

To Buy Buses
Four motor buses are to be purchased for the handling of the pupils from rural communities into the district. Recently seven districts consolidated with the Seminole district and five other rural districts wanted to send pupils here to school next year.

If necessary, the district will purchase two more cars in addition to the four already decided on by the board.

The Seminole district is using its acreage for the home economics department, they are so crowded. Voters by an overwhelming majority, adopted a bond issue of \$75,000 building a new building. It will have 12 or more class rooms, an office and a combined gymnasium and auditorium seating 700 people. Contract for the new building will be let the last of June.

APPEAL IS GRANTED

MACHINE GUNS RATTLE DEATH TO ONE; FOUR ARE WOUNDED

(By Associated Press)
NEW YORK, June 11.—A feud between rival gangs over slot machine privileges was seen by police today in the machine gun slaying of one man and the wounding of four in Brooklyn last night.

The five men were shot down while repairing a flat tire on their automobile in the east New York section of the borough. Four men in another machine drove by, fired a round of between 15 and 20 shots, and escaped.

Members of Syndicate
The police said the five men were members of a syndicate operating slot machines in the Brownsville section of Brooklyn and recently, despite warnings by a rival gang, attempted to extend their operations to the east New York section.

The slain man was identified as George De Feo, 24. The wounded were Abraham Reiss, 24, shot twice in the back; Louis Esperit, 22, wounded in the leg and scalp;

OIL NOTES

DALLAS, June 11 (AP)—Humble Oil and Refining company's No. 4 new well on the northeast end of the Bruner oil field, which blew in making 25,000 barrels of oil daily, came as a surprise to geologists and field men. The well is at least three locations east of what experts called the production line in the Bruner field and is north and east of the complete closure worked out by oil men. The well ran wild for 12 hours but was finally shut in and the flow was restricted to 10,000 barrels daily through a four-inch choke.

Tidal Oil company's No. 1 Seligman test, near San Antonio, which found oil in the Austin chalk at 2,511 feet, but was continued to the Edwards lime because production in the chalk was not of commercial proportions, now is considered a failure in the Edwards. Sufficient indication of sulphur water was encountered in that formation, 2,796-2,801 feet, to lead to the conclusion that it would not produce oil.

Another important test which apparently has proved a failure was Deep Rock Oil company's No. 1 Hayden Niles, one and a half miles south of Andrews county's only commercial production in the West Texas permian basin. Sulphur water

which first appeared in the test at 4,200-85 feet, increased to a hole full at 4,400 feet.

The New Mexico field, which has had several producers recently, had another in the Midwest Exploration company's No. 38 State which blew out and flowed at an estimated 2,500 barrels of oil and 25,000,000 cubic feet of gas from 4,145 feet. The test is three and a half miles southeast of Humble No. 1 Bowers, but apparently in the same deep pay horizon. It is in section 10-13-32.

PROVING THE SPORTS WORLD

More than sixty entries, including the outstanding sharks of the city, are lined up for competition in the annual event. The personnel of the two teams has been so moulded that neither appear to hold any noticeable advantage. Both the "Necks" and the "Gizzards" boast a number of the leading shooters and theuffers are likewise equally divided between the two squads.

HEAVENLY GROUND

Houston lost ground in the race when the Fort Worth Cats squared their series, 7 to 6. The Buffs were almost a week behind the Spuds today, and only eight days remain before the club owners will vote on a split season. The Cats' limited yesterday's verdict in a hurry, jumping on Ray Lingrel for six runs in the first two innings. Joe Brown relieved Lingrel and hurled good ball the last six innings, but to no avail. Dick McCabe went the route for the Pelines.

LIKES PUNCH ABSORBERS

Sharkey has fought his good fights almost exclusively against the domestic punch absorbers. His most impressive performances were scored against Harry Willis and George Godfrey, the so-called black menaces; Jim Maloney and Tommy Loughran, representing the Irish-American contingent.

AGAINST THIS, THERE IS SHARKEY'S RECORD OF BEING KNOCKED OUT EARLY IN HIS CAREER BY ROMERO ROJAS, THE CHILEAN; BEATEN BY JOHNNY RISKIO, THE AUSTRIAN HAKER BOY; HELD TO A DRAW BY OLD TOM HEENEY, THE NEW ZEALANDER; VICTOR BY PHIL SCOTT, THE ENGLISHMAN, IN A VERY QUESTIONABLE BOUT AT MIAMI WHERE PHIL MIGHT EASILY HAVE BEEN DECLARED THE WINNER ON A FOUL, WHETHER OR NOT HE WAS HURT BY SHARKEY'S BLOW.

Getting back to business, the victim of Kloss's big punch was "Dar-ro", who up to that time had fumed a very creditable game for the downstarters. The extra-inning victory enabled the leaders to square the series. Joe Moore did nobly for the losers, contributing a double and three singles to the cause.

Weather Man Watched

With any kind of an even break from old man weather, a crowd of 75,000 fans probably will pay in excess of \$700,000 to see the big show. This is a far cry from the figures attending the last of the outstanding Rickard extravaganzas on Chicago's lake front in 1927, but it exceeds anything on the books of the heavy-weight business for the past three years. In addition the customers will have the happy opportunity to serve a double purpose in benefiting the Children's Milk fund, sponsored by Mrs. William Randolph Hearst, and in aiding the recovery of the indigent heavy-weight division.

Today, the two main questions up for debate among the railbirds are: Can Schmeling Do It?

First, can Schmeling carry the fight heights that three previous foreign challengers, Firpo, Carpenter and Heene, failed to reach?

Second, can Sharkey overcome the temperamental jinx that has seem-

ingly less important than the Wall Street crash, if the heavy-weight title is lost to America. In spite of it, the form players have made Sharkey a 9 to 5 favorite in the betting and he probably will enter the ring at that figure.

REWARD FOR SCRIBE'S SLAYER IS BOOSTED AS CHICAGO GETS BUSY IN SOLUTION OF MURDER

PUBLIC AROUSED OVER LINGLE'S DEATH AND DEMANDS ACTION

CHICAGO, June 11.—A reward of \$50,000 hangs today over the head of the man who murdered Alfred (Jake) Lingle.

The Tribune, for whom he worked as a reporter, was first offering \$25,000 for information leading to the arrest and conviction of the killer. Its morning competitor, the Herald and Examiner, today had added another \$25,000, and the Evening Post has offered \$5,000.

Public Is Indignant
The slaying of Lingle Monday afternoon in the Illinois Central subway at Randolph street has been followed by such concerned public and official indignation as has seldom been provoked here in recent years.

The murder, as Coroner Herman H. Bundesen pointed out, demands solution because it is the first in which gangland has dared to shoot down in its sensational manner a respected citizen. Invariably before it has been gangster shooting down gangster. The public has refused to become exorcised over such murders. The public attitude has been, as the coroner said, that a gangster slain is good riddance.

Stage Is Changed
But now the authorities have for solution the murder of a man widely known and respected, shot down without warning in the presence of several hundred persons within a block of the busy Loop at the peak of the day.

The hunt for the killer, proceeding from the state's attorney office, police headquarters, the coroner's office and independent agencies, is being pushed with deadly earnestness. Results of search are being kept secret—an unusual procedure in Chicago crime investigation. Clues are being guarded so as

PEE-WEE GOLF IS STOPPED

KANSAS CITY, June 11 (AP)—The advance of miniature golf has been halted temporarily on one front, at least.

Acting on the request of the Rev. S. P. Blitzer, pastor of St. Peter's Evangelical church, W. H. Allen, assistant city counselor, today ordered E. B. Chapman to cease work on a toy course at the intersection of Linwood and Benton boulevards, where Mr. Blitzer's church is located.

The tract is zoned for residential use. All the miniature links constructed here previously were placed on lots zoned for business.

no word of the progress of the inquiry will get to the killer.

Inquest Is Held
The inquest yesterday was adjourned after three witnesses had been heard. Coroner Bundesen said he had important information which he did not want revealed at this time. Pat Roche, ace of the state attorney's staff, was hunting a left handed gangster who he believes is the man who killed Lingle. He would not name him, but he emphasized the fact that the glove discarded by the slayer was for the left hand.

Police Commissioner William Russell, close friend of Lingle's for many years, does not hold with the theory that the murder was a gangland job to press and public. Both he and his chief of detectives John Stage, are conducting their investigation in the belief that a personal grudge not connected with gang activities motivated the murder. They do not believe that Lingle was assassinated for "knowing too much" about Chicago gang plots and plotters.

The resources of the "Secret Six" committee, organized some time ago to drive organized crime from Chicago, were pledged to the murder inquiry by Col. Robert Isham Randolph, president of the Association of Commerce. The coroner's office was making use of its elaborate scientific resources for criminal hunting, including the crime laboratory of Northwestern university.

LONDON-PARIS RECORD SET
LONDON (AP)—A British airplane carrying 20 passengers and weighing nine tons set a record in flying to Paris in 95 minutes. The distance is 200 miles.

A GOOD SCOUT!

John D. Rockefeller, the oil magnate, is shown here presenting thirty new souvenir dimes to a group of Boy Scouts after attending church with them in Lakewood, N. J. When the boys presented him with a Tenderfoot Scout Badge, Mr. Rockefeller said, "I am a scout now, so I must study up and learn how to be a good one."

CAROL'S QUEEN IS URGED TO FORGIVE

RUMANIAN PEOPLE LONG TO SEE REUNION OF ROYAL COUPLE; HELEN IS DEEPLY HURT

(By Associated Press)
BUCHAREST, Rumania, June 11.—Renewed efforts are being made to bring about reconciliation of Princess Helen with King Carol. Those seeking to influence the young Grecian divorced wife of the new Rumanian sovereign stress that they will not be satisfied with a mere reconciliation for appearance sake, but wish her to forgive and forget and to seek anew the happiness which thus far has escaped.

ECONOMY MILLS HOLDS BANQUET

The fifth anniversary of the Economy Mills, Inc. of Lubbock, was celebrated last night when 50 officials and employees of the company, dealers and poultry raisers met for a banquet at the Hilton hotel.

Awarding of certificates to 12 master poultrymen of the South Plains was a feature of the banquet. The dozen awards were made to: Sam Paschall of Lubbock; E. L. Keene, Abertown; Bud Kelsey, Idalou; John Chisholm, Brownfield; Joe M. Peterson, Lamesa; J. R. Martin, Levelland; Forrest Weinhold, Sudan; L. J. Ham, Lubbock; M. E. Davis, Lubbock; J. P. Clement, Stanton; and Louis Mueller, Wilson.

J. R. Newman, sales manager of the company, acted as toastmaster. The program was opened by an address of welcome by Claude Tatum, president and general manager; response being by J. I. Selbert, of Crosbyton. County Agent D. F. Easton spoke on the "Poultry Outlook for 1930," and Dr. F. G. Harbaugh, of Texas Tech, talked on "Sanitation and Nutrition." B. Sherrod, Lubbock hardware merchant, told of the growth of the Economy Mills.

Dr. Boone Perkins
Entertainment features included an exhibition by Dr. O. C. Boone and a chicken calling contest. Those attending the banquet were as follows:
B. Sherrod, Claude Tatum, Dr. O. C. Boone, S. J. Paschall, J. R. Newman, F. G. Harbaugh, D. F. Easton, J. B. Hancock, M. S. Gunn, G. L. Hankins, R. J. Owens, Henry Ross, Dr. E. A. Boone, George H. Moore, J. P. Newman, M. I. Davis, Clyde G. Tatum, John L. Sears, Lewis Tatum, J. L. Hamm, C. (Pat) Murphy, and Al Hill, all of Lubbock; J. H. Sander, J. D. Cook, Eugene Richardson,

pinness which thus far has escaped. It has been stressed to the Princess mother that it is the desire with the Rumanian people that she and Carol go back together, and that she allow annulment of the divorce which was granted her after his desertion and exile in Paris with the titian-haired Mme. Magda Lupescu.

In certain quarters it was said the Princess' attitude would have to undergo a marked change before such reconciliation would be possible. She was said to feel keenly her desertion, and to be resentful of the tony of European politics, which leaves her in Rumania without a home of her own.

STOCKTON HENRY, now publisher of the Idealist Echo, was for a good many years a resident of Lubbock

The proposed county jail and criminal courts building issue has gone by the boards

Really, it would have been hard to find a more unselected location in the business district on account of its inaccessibility

WE know Lubbock needs a jail and a big one, so come on with another election and we'll go strong

The Plainsman is going to have to disagree with Mr. Henry in several of his statements

The first place we disagree is where Mr. Henry points out the blunder Lubbock made when part of the court house square was given for the federal building

On the other hand, the federal building is a Lubbock city affair. It will house, mainly, the Lubbock postal quarters

Further duagere when he intimates that the courthouse lawn property was converted to the federal building site at the displeasure of most Lubbock citizens

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes"—Byron

Congressman Garner Hasn't Said The Last Word In Fight To Split Texas Into Five States, Rodney Dutcher Says

BY RODNEY DUTCHER NEA Service Writer WASHINGTON, June 11—The country hasn't heard the last of House Minority Leader Jack Garner's proposal to divide up Texas into five states

Argument—pro and con—has been raging down in Texas. Next winter probably will see the state legislature and introduce a measure looking to the division

After that, he believes, there will be a well defined movement in favor of division growing up in the Lone Star state

The rest of the country is confronted with the fact that Congress in a joint resolution in 1926 provided that 'New states of convenient size not exceeding four in number' in addition to the said state of Texas

Garner is ready to combat such objections as have been raised by Texans. One comes from state proud citizens who were born Texans and want to die Texans

Some Texans have demanded to know whether the sacred bones of old Sam Houston are going to be taken up and scattered around among the proposed five new states

Individuals from Slaton and some rural sections, bluntly said so. Just why there should be an anti-Lubbock feeling is a puzzle to the Plainsman

Therefore the importance of having as many senators from a given section as possible is obvious

Heiress To Marry Officer Of Bremen

NEW YORK, June 11 (AP)—An international romance with a marine setting was revealed today when friends learned of the impending marriage of Miss Mary Davis Landstreet, society girl, to Hermann Pieck, fourth officer of the liner Bremen

The couple visited the Municipal building yesterday to inquire whether any complications would arise from the marriage of an American girl to a German citizen

NEW YORK, June 11—Broadway's one and only playwrighting native son today runs for the peace and quiet of the European provinces or the pastoral Cape Cod country whenever he feels the creative urge

When I say 'native son,' I mean literally that he was born under the dancing acres of the gay white way

These dear old ladies, who creep like lost ghosts of the past from the faded brown-stone residences, seem about to lose their last sleeping place

Announcement appears in the New York prints that the famous old John Danzell show has finally surrendered to the crash of modernism and will soon pass from the picture

The Danzell show established here in the Fifties was one of Manhattan's best links with the Victorian era, a romantic reminder of the days of lavender and old lace

Several of the clerks had grown white of face in service. The counters and arrangements kept the illusion of another era and hundreds of early New Yorkers made their weekly trading trips

When one wondered where the dear old ladies got their daily little lace hats the answer would almost invariably be 'at Danzell's'

There were times at the place who had waited on the same customer for half a century who had become almost as friends of the most aristocratic families

Many of these customers had come to treat the place of traffic and would not venture so far downtown. Whenever the store began to take on a large mail order trade, its customers were scattered over the earth: the aging aristocrats who had moved their homes to London or Paris

One hundred and ten persons are enrolled in the summer session of Lubbock high school, a decrease of 20 per cent from figures of 1925

Advanced courses are being taken by a large majority of the students. While only a small group are taking failure work

The session started May 28 and will close July 11
