1. 728 acre stock farm 5 miles N.E. from Stephenville, all under good cedar posts of four and five wire fence. 45 acres in cultivation, in all 200 acres good tillable land, balance in pasture with fine coat of sage and mesquite grass, everlasting creek water and tanks, deep well with wind mill, water inexhaustable. 2 box houses with two rooms each, barnes, lots, etc. This is one of the best small stock farms in Erath county, and a rare bargain at $9.50 per acre. Reasonable terms.

2. 1280 acre stock farm out of Issac Aldridge survey, 100 acres in cultivation. Everlasting creek water runs through place. 2 sets of improvements. This place is a very fine stock farm. Terms to suit. Price $9000.

3. 500 acres 2 miles south of Stephenville and on Stephenville and Alexder road. 3 pastures and 2 farms. 50 acres in each and 250 acres heavy timber that would yield about 12 cords of wood to the acre, same being fine tillable land. Sedge and mesquite grass. 4 wells and one wind-mill, plenty of water, four tanks, one house, barn and out houses, very good orchard, all under a 4 wire fence with good cedar posts, one mile of good rock fence. Easy terms. Price $12 per acre.

4. 666 acre stock farm, one mile from Marvel Gap school house, 100 acres in cultivation, with good well and wind-mill at house, 4 room house 2 galleries, spring water, 2 good orchards, well fenced, cedar posts. Terms reasonable. Price $5300.

If you want to buy a farm, or if you want to buy a stock farm, or ranch in any part of Texas, be sure to write or come to see me, as I have choice farms in Erath and adjoining counties; also stock farms and ranches in this county and all counties west from the north line of the Pan-handle to the Rio Grande river and the Gulf. If you want to sell your farm, ranche or city property, I have every facility for handling same, and thoroughly advertising your property. I am now publishing a booklet of about forty pages, listing about 100 desirable farms, ranchs, etc., in Texas. These will be distributed throughout the North and East in such states as Iowa, Ohio and Illinois. I also have plenty of money to loan on good farm securities at 8 per cent on long time. Will take up and extend vendors lien notes or sell them outright. Watch this space for bargains in Real Estate from week to week, as I have contracted for this space for a period of 12 months.

GUSTINE.

Regular Correspondent. Nov. 20th.

The severest drouth in the history of Gustine country was thoroughly broken last Thursday night. A steady downpour of four hours duration has put lands in fine condition for plowing.

A. F. Blue, of Comanche, was circulating among friends here last Thursday.

Charlie Day, of Dublin, was in Gustine last Thursday on business and en route to his farm on the Leon.

C. C. Nash, of the Latham Co., was here Thursday from Dublin.

John Sullivan and John Dupree, of Comanche, have been doing some chimney work in and around Gustine the past week.

Mrs. J. W. Wyatt was very sick Friday and Saturday, but is up doing well at present.

Mrs. J. G. Daniel who, who has a severe attack of fever of more than six weeks' duration was removed to her father's, G. W. Wilson, at Comanche last Friday.

John Ward, who has been very low the past two weeks, we are glad to report rapidly recovering.

J. J. Barker, of Wealthy, Leon county, has moved into our midst. We welcome all such good citizens as Mr. Barker to our progressive little town.

J. E. Bean living three miles south of here, has sold his farm to Mr. Strickland, of Sidney. Mr. Bean will move toward the setting sun at once. We regret to lose such a good citizen as him.

Robert Allen, of Newburg has removed to his farm and ranch two miles south of Gustine.

Ike Albin, of Newburg, was in our town Monday on business.

J. E. Palmer, of Rush creek, is at home here this week visiting his family.

W. R. Kelley made a business trip to Waco last week.

Rufus Parker, of Dublin, was here in the interest of Higginbotham Bros. Monday and Tuesday.

Will Allen and Miss Bama Brumly visited Comanche Tuesday.

The feed problem seems to be the hardest to solve at this place. It is taking all the money the farmer can rake up to buy this article. The Latham Company of this place have disposed of two cars of corn the past week. If conditions had been different from what they are, the money paid out for this corn would have paid many debts and bought many other articles the farmer has to buy.

The present condition of the farmer should arouse him to the necessity of diversification next year. Be sure you plant plenty of all kinds of farm products. Plant less cotton and be happy and prosperous.

CHALK MOUNTAIN.

Regular Correspondence.

Nov. 17th.—Several hogs were killed the first of the week when the wind blew from the north.

A nice rain fell Thursday which was needed to bring up the late wheat in this section. The acreage in wheat is much more than for several years. People are beginning to realize the necessity of diversification of crops.

Mr. Rhodes, from Freestone county, has purchased a portion of of George Johnson's sheep ranch.

A cousin of J. S. Roders, accompanied by his family, from Franklin county, Alabama, arrived last week and will locate somewhere in this county

I noticed an announcement in the Progress that the commissioners court would soon order an election to be held in this county to vote on the road tax. When this question is submitted to be voted on, I hope the people will consider it dispassionately. There are no politics in that; it is just simply a plain business proposition and one that all feel deeply interested in. If there is anything we need in the way of internal improvements, it is good roads.

People are plowing and preparing for another crop.

Cotton all picked out and most all sold.

VICTOR.

Regular Correspondence.

Nov. 18th.—There will be a meeting held at the Baptist church next Friday night for the purpose of arrousing an educational sentiment. Mr. Boon and others will speak.

Our school opened last Monday with about sixty pupils, and as the remnants of cotton will be picked out this week, the number will be increased to about seventy-five the coming week. The people have put us in a new floor and dug a well close to the school house door. We are in hopes they will continue the interest they are now taking in the school.

Rob Clifton, one of the members of our brass band, has moved west.

We understand that H. C. Miller, of this place, has a music class at Lingleville. We had better lookout boys, for we can't afford to lose our music teacher, and we had better try to make him up a class here.

We are glad to learn that Mr. Dees, who has been quite sick is improving, and Ed Ross, who has also been very low with typhoid fever, is on the mend.

W. J. Sitton, another member of our band, came very near losing his hand in the gin the other day. It cut off the end.

DE LEON.

Regular Correspondence.

Nov. 20th.—J. R. Mobley was in the city the first of the week.

Mrs. Will Faggard of Gorman is spending the week with her father, J. F. Trail.

S. R. Johnson and family are moving this week to Brownwood. Mr. Johnson is a cotton buyer and has been located here for the past season or two.

Rev. J. J. Davis returned yesterday evening from Corsicana, where he had been attending the Methodist annual conference.

Preparations are being made for a grand Thanksgiving ball at the opera house in this city.

Arch Marrs, collector for Higginbotham Co., was seriously injured by a fall at the home of Col. Bishop, near Clairette. He had spent the night at Mr. Bishop's, and while helping in feeding the horses yesterday morning before daylight, he fell from a barn loft, a distance of about ten feet. He was brought home yesterday evening, and thinks he will be able to be at his work again in a day or two.

DUFFAU.

Regular Correspondence.

Nov. 20th.—Cotton picking is over in this part of the country, and the yield has been about one bale to eight acres.

Mr. Rucker is now doing business at the wells, in the way of groceries and feed stuff.

Dr. A. T. Cooper has moved to Duffau and we wish him success. He is from Morgan.

The High school is progressing fine. T. W. Hamilton principal.

Robert. Ballow is still very low low with slow fever.

Wheat is looking fine in this part of the country.

Clyde Thompson says it is to far to come down to see his girl and will move here on the first of next month.

LINGLEVILLE.

Regular Correspondence.

Nov. 19th.—The recent cold spell has caused many of our farmers to kill hogs, thereby saving corn, which will run very short before another crop is made.

It is with sadness we chronicle the death of Mr. Matthews, an old settler and highly respected citizen of our community. His remains were interred in the Shelby cemetery the day following his death on the 9th, inst.

Our people are very busy picking the fragments of cotton that are yet in the field.

The gin at this place has turned out 1050 bales to date.

The young men of our town have on foot a movement to organize a brass band.

Dr. Carr has purchased his old residence again from Frank Grissom and the latter in turn traded for the F. M. Brown property.

J. E. Tunnell has sold his farm west of town to Mr. Featherston, and his town property to Mr. Clendening of near Meridian.

Mr. Shaw of Duffau was here last Saturday and Sunday prospecting with a view to entering the Christian college.

Mr. Daily has his residence near completion, which will add very much to the attractiveness of our little city.

Marion Maxwell has made considerable improvements on the old school building.

Will Mitchum has returned to his farm, after an absence of nearly one year.

Our young folks enjoyed a splendid singing at John Lingle's Sunday night.

Bates Cox has his residence near completion.

COMANCHE.

From the Visitor.

Nov. 20th.—Jim Allen, who is under indictment here for cow theft, was brought in from Shiner, Texas, Friday by Sheriff Jay. He was arrested at that place.

E. Quilitch returned Thursday from Colorodo and is now advertising his electric light plant here for sale, preparatory to removing to his old home there.

"Uncle" Joe Tunnell and wife left Monday for their new home at Proctor.

Another fine rain fell here Wednesday and Thursday.

Tom Livingston lost $160 in currency while in town Friday night.

Blue & Eanes have removed a portion of their dry goods stock to Gorman.

Yellow flags are numerous in the east part of town, and several families are staying at home by invitation of the health officer.

From the Exponent.

Nov. 21st.—Up to yesterday noon ten thousand bales of cotton had been received here. The price paid yesterday was $6.50 to $7 a hundred.

In district court the case of W. F. Harris, for unlawfully disposing of mortgaged property, is now on trial. A. F. Hardin, for perjury, and W. C. Bradshaw, for misappropriating public money, have been passed to the February term.

Comanche will receive about half the cotton this year that she did last.

We acknowledge for the family of the editor an invitation to a Thanksgiving ball and banquet, to be given at Crow's opera house in Stephenville, Thursday evening, November 28th, by the Stephenville Social Club.

CLAIRETTE.

Regular Correspondence.

Nov. 18th.—We are having some coal weather now and the time to kill hogs.

The new house of Zack Eakins, which was built for a beer joint and occupied a short time in the summer by Joe Bishop as a beer stand, was burned Monday morning about 3 o'clock. It is the first fire we have ever had in our little village. We do not know how the fire originated.

Mr. Marrow, a collector for Higginbotham of Stephenville, stayed all night with Col. Bishop and they are early risers at the colonel's. Mr. Marrow got up early and went with the boys to feed and went up in the barn loft, it not being daylight, he walked off and fell a distance of twelve feet, bruising him considerably, but we hope not seriously.

Clairette is still improving. We have a new school bell and we are under obligations to Messrs. B. F. Golden and Harris for the nice work they did in building the belfry. There are about eight pupils enrolled in our school at present.

A. D. Parker is down from Dublin spending a few days.

Eld .P. M. Lancaster a primitive Baptist preacher, delivered a sermon here Sunday night.

Eld. Beem, a Missionary preacher preached Friday night.

Elder S. A. Paine preached Mrs. Thomas Hammitt's funeral at Alexander last Sunday.

M. Teague, of the Morgan Gin Co., passed through Wilson Wednesday.

Ellie Williamson and Miss Carrie Wiednar were married last Monday.

Several Wilsonites contemplate attending the speaking at Purves Friday night.

Our gin has handled something over 500 bales this season.

The young folks had an enjoyable entertainment at the residence of Mrs. Charley Smith Friday night.

ST. GEORGE.

Regular Correspondence.

Nov. 19th.—We are having some light northers, which are right on the top crop of cotton, but not cold enough to save meat, which is a very interesting question with our people here on account of scarcety of corn.

Sam Cole made a trip to Waco Sunday.

Till Hudson returned home Saturday from a trip to the Territory, where he has been working for some time.

We intend to make a final swipe at the top crop of cotton next week.

Obituary.

Maree Grimes, adopted daughter of Mr. and Mrs. W. W. Barber, died at their home in northeast Dublin, Wednesday Oct. 30th, at 12:45 a. m. Little Maree was sick twenty-four days with typhoid fever and suffered much, though she bore it all with patience and fortitude. She was a lovable little child, dearly attached to her adopted parents and to the friends who assisted her in her sickness. all of whom loved her. She was one of four liltle girls, whose mother died at Nevada, Missouri, five years ago on the 17th of October of this year. The death of this child was a hard blow to the uncle and aunt, who have cared for her and her little sisters since one month after the death of the mother, to whom may be said;

This lovely bud, so young and fair,
Called hence by early doom,
Just came to show how sweet a flow'r
In Paradise would bloom.

—A FRIEND.

Dublin, Tex., Nov. 16, 1901.

Mr. and Mrs. W. W. Barber wish to thank all the friends and neighbors, who so kindly assisted them in the last illness of their little adopted daughter, Maree, and pray that the Father above may give to them such good friends in all their sorrows and adversities as they have been to us in this great trial.

Smallpox at Comanche.

Thursday of last week at Comanche, Jim Kelly and his five-year-old son were taken with a disease which has since been pronounced genuine smallpox, the disease having been contracted from a relative who recently visited them from the territory. Saturday the cases were quarantined and those who had been exposed required to remain at their homes with a yellow flag at the gate. The cases are doing well and the officers are taking every precaution to keep the infection from spreading.

Five Sentences to be Served.

The persons who have been convicted and accepted their sentence at the term of district court expiring this week are as follows: John Smith, two years, burglary; Harry Anderson, two years for theft from person; Dan Lasano, two years for theft from person; Claud Ray, five years for arson; John Bruce, two years for horse theft. We are indebted to Deputy Harve Keith for this information, and also that the parties will shortly be taken to the penitentiary to begin serving their respective terms.

Burn at Clairette.

A box house at Clairette, situated on the Zack Eakins farm and being the property of that gentleman, was destroyed by fire early last Monday morning, the cause of the conflagration being unknown. The house has until recently been occupied by Bishop's beer hall, but at the time of the burn was vacant. The loss is estimated at about $400, with insurance of $200.

Dr. Taylor Coming.

Rev. E. O. Taylor, D. D., president of the Taylor Bureau of Lectures at Boston, Mass., will deliver a course of three lectures in Dublin, Dec. 1st, 2nd and 3rd, at a place yet to be designated. Don't fail to hear him, as this will be an intellectual treat.

For Sale—A delivery wagon. Apply to Mrs. G. W. Harris, Dublin.

"NERVE WASTE."

Is the title of a little book (now in its fourth edition) by H. C. Sawyer, the eminent San Francisco physician. It is indorsed by both religious and secular papers of the country, strong papers like the Pacific Baptist, Boston Congregationalist, San Francisco Occident, Christain Guardian, Peck's Sun, Cleveland Plaindealer, Baltimore Sun, Providence Journal, etc. Public Opinion of Washington, D. C. says: "Nerve Waste as a title is so suggestive of quacks that even if the book had other merit than its honesty it would nevertheless deserve mention for that," and "There has probably never appeared on a subject as high-toned, unselfishly written book so nearly commensurate with the apparent needs." The Occident says: "There are so many quacks and charlatans and many need just such sensible and practical information as Dr. Sawyer gives. We heartily commend his book." The Rochester Herald says: "It should be in the hands of every person who has trouble of this kind, for it is calculated to point the way to relief as unerringly as a physician who would charge many dollars could do."

Hundreds of thousands of men, young and old, are being bled by charlatans and quacks who prey upon their misfortunes, and what is worse they even sell each other the names and addresses of the unfortunates who, they new more of themselves, would not be bled by the vampires that are growing rich off of them. This book will tell these victims about themselves and what to do, and save them from the clutches of the worst class of heartless pretenders this country has ever produced. A sample chapter will be sent in plain, sealed envelope, for two cent stamps, that fully explains and cares an average case from beginning to end, and gives the formulae for the prescription of only the standard drugs to be found in every drug store being used. The book is for sale (25 stamps) by mail postpaid, and it is the hope that there will be sufficient sale to justify continuous advertising that will reach and put this book in the hands of every person needing it in the United States.

Deputy Sheriff Harve Keith came over from Stephenville yesterday morning.

The Granbury Democrat reports a larger acreage of wheat sown in that county than ever before.

John K. Harless, editor of the Morsel Rustler, was a pleasant caller at the Progress Tuesday.

The report that the Texas Central railroad has been purchased by the G. & T. C. is denied in Waco.

Drug store complete in every line. Goods cheapest amd best; service unexcelled.—Clay Drug Co.

The teachers' institute of Comanche county will meet at Comanche on the 30th of this month.

For rent—The Wiseman place on upper Patrick street. Apply at Progress office or to E. A. Powell.

Mrs. J. R. Taylor, of Brownwood, spent the past week with her husband, who is employed with the oil mill here.

Mrs. Mary Blackford has written from Dallas to friends here that she would return to Dublin in a week or more to visit.

D. C. Rogers made a trip the first of this week to Bridgeport to see his father, who will shortly move from there to Oklahoma.

F. M. Oakley, representing the Western Newspaper Union of Dallas, was here yesterday on business and called on the Progress.

Jno. E. McCarty left Tuesday for a trip to Greenville as assistant counsel in a district court case there. He expects to return to-morrow.

Our thanks are tendered for a nice flock of new subscribers from different parts of the county, who "saw" the editor at Stephenville Wednesday.

Prof. W. J. Clay and M. C. Wacher returned Tuesday from the meeting of the Northwest Texas conference of the Methodist church at Corsicana.

Judge J. S. Straughan came over Wednesday from Stephenville, and left on yesterday morning's flyer for Marlin, where he will remain for some time in the hope of being benefited in health.

If you can conscientiously say a good word in favor of the Progress to any of your neighbors who may not be taking it, do so and we will appreciate it. Besides, if you can get up four new cash subscribers (not renewals of old ones) and send them in at one time with the money we will give you a year's subscription free and thank you to boot, or we will give five new yearly subscriptions in a bunch for four dollars. This we offer only as a means of to some extent remunerating our friends for their personal interest in behalf of the paper, and it must not be construed as a reduction of the subscription price, which will remain at one dollar. A boy or girl in each community can readily get the paper free by a comparatively small effort. Sample copies of the paper will be furnished to those desiring them.

Capt. W. R. Shaw tendered his resignation as city recorder to the council at the monthly meeting of that body last Tuesday night, reciting that he intends shortly to remove to north Texas as a reason for his action. Capt. Shaw has not only made numerous friends since he has been with us, but he has also made a fine official, both because of his qualifications for the office and for his sterling integrity and sound judgment. The city fathers will find it a rather troublesome matter to obtain the services of another as able and efficient a recorder as Mr. Shaw has proven and he and his estimable family will be missed. Captain Shaw expects to engage in the lumber business in north Texas, as an associate in a new lumber yard to be added to the many established by R. B. Spencer.

Prof. W. O. Hines, principal of the Lingleville college, was here Saturday and gave the Progress a pleasant call. He reports a regular attendance now of nearly forty pupils, representing thirteen counties and two of which are from the city of Dallas. The professor is sanguine of gaining large success for the school when it is better established. D. S. Ligon, of Huckabay, has recently been engaged as assistant in the literary department of the school and the board is contemplating the employing of Rev. Coleman D. Nichols to instruct a bible class. He also reported the death near Lingleville last Friday of Mr. Matthews, an old settler in that community and who was the father-in-law of Ed S. Whitacre.

The west bound passenger train on the Central last Saturday ran into a wagon belonging to Clem Hancock at the wagon crossing just east of the crossing of the Rio Grande and Central. A serious catastrophe and the loss of life was narrowly averted by the presence of mind of Mr. Hancock, who, with a firm hand held his excited team and with hardly any room to turn, managed to get all the wagon off the track except one front wheel. This the engine struck and shattered into bits, overturning the wagon and throwing Mr. Hancock and his wife and children out. Several of them were bruised, but not seriously.

C. H. Bencini, manager of the oil mills at Brownwood, Dublin, Stephenville and Hico, is back from Mississippi where he bought 10,000 tons of cotton seed, most of which will be ground in the mills here. There is some delay in securing cars but as soon as that is overcome the seed will begin to come in. He expects to return to Mississippi again next week. In addition to giving employment to laborers, this will likely throw a quantity of meal and hulls on the market and make stock feed some cheaper.—Brownwood Bulletin.

The irrepressible Eli Oxford of Stephenville is overflowing with exuberance these days, the cause being his exceptional good fortune at this term of court, in gaining for his clients every one of a number of land suits in which he was counsel. Wednesday he met the Progress editor at Stephenville with the exclamation, 'Jim, b'jabers, I'm a'flyin." There can be no doubt in the minds of those who know Eli that his success in a large measure is due to his indefatigable energy in pursuing whatever he undertakes.

Joe Wilkins was arrested in Dublin yesterday by Constable Hickey on a telegram from the sheriff of Bosque county at Meridian, who gave no other information than he was wanted in a felony case. The sheriff came in yesterday at noon and returned with his prisoner on the next train. Since above was put in type we are informed the man is charged with fraudulant disposition of mortgaged property.

D. W. D. Cathey has been very sick for the past two weeks with fever, but at this writing is reported better. He came to town Monday to try to take care of his stock of confectioneries, but found that he was not able to do so. From the exposure he took a relapse and has only now begun to improve.

Christian Church.

The meeting at the Christian church continues with unabated interest. The sermons being delivered by Elder Watson are enjoyed by all who attend. The audiences have been large and attentive. A leading feature of the services has been the solos by Mr. Fitz. There have been thirteen additions to date. Among those who responded to the invitation to accept Christ at the close of the Sunday night's service were C. M. Beard and lady, the young couple who had just been married that afternoon. Pastor Morrison spoke of the courage and wisdom displayed by this young couple in thus beginning life together right by taking Christ into their home.

Such lines of soaps, perfumes, toilet water, lotions and other toilet goods never before seen in the city at Clay Drug Co.

The recent term of district court for Hill county was a record breaker. There were twenty-six felony cases tried, resulting in a conviction in every case but one.

W. R. Killian has purchased the fine Valley Grove farm of C. L. McElhany, near Stephenville, at a price of $6,000, besides buying his cattle and farm implements.

C. G. McCord made a business trip to Gorman the first of the week and has associated with his brother, who has purchased an interest in a racket store at that place.

The residence of J. E. Buckley at Morgan was destroyed by fire with all its contents last Sunday morning, having originated from a defective flue. Insurance $950.

Maj. D. M. Rumph, for many years a prominent citizen of Erath county, is removing to the territory. He is now up there, having driven his cattle to the point of location.

The tax rolls of the city for this year are now fully completed and I am ready to receive the amounts due. This is a matter you should attend to.—J. F. Robinson, collecter.

F. B. Ewing was up again from Proctor last Wednesday, to have his eyes treated. He has now entirely lost the vision in both optics, but is in hopes of a partial restoration of the sight.

An order for a county prohibition election will be asked of the Comanche county commissioners' court at its February meeting, so we are informed. The petition is now being circulated.

The first thing a merchant blames for the failure of his advertising is the medium, second the advertising, and last, and where probably the trouble lies, the store methods.—White's Sayings.

A. H. McCord, who has for some time been assisting his brother in the jewelry department of the Clay Drug Co., has this week purchased a half interest in the Boone racket store at Gorman.

Revs. E. F. Boone and H. A. Boaz were returned to the Dublin district by the M. E. conference recently in session at Corsicana, the former as presiding elder and the latter as pastor at Dublin.

The finest and most complete line of China, Dresden and Glassware in the city. Plates, cups, saucers, cake plates, cake baskets, rose bowls and every novelty known to the trade in their line.—Clay Drug Co.

Mayor R. B. Spencer returned Wednesday from a trip to Childress and other points in that territory, where he, in company with Capt. W. R. Shaw of this city, contemplates opening a lumber business.

A dry goods store at Cresson was broken into last Monday night and goods to the amount of about $50 was taken. The robbers escaped with their booty on a hand-car, the latter being found in the yards at Fort Worth the following morning.

The Comanche Lumber Co. and the lumber yard of Higginbotham Bros. at Comanche have jointly purchased the lumber stock of the J. D. Burr Co. at that place and will divide it equally between their two yards.

The general conference of the Methodist church will meet in Waco the first Wednesday in May of next year. Prof. W. J. Clay of Dublin has been elected as one of the delegates from the northwest Texas conference recently in session at Corsicana.

Tenderness or aching in the small of the back is a serious symptom. The kidneys are suffering. Take Prickly Ash Bitters at once. It is a reliable kidney remedy and system regulator and will cure the trouble before it develops its dangerous stage.

The accident of last Saturday, wherein the Central passenger train ran into a farmer's wagon near the railroad crossing, emphasizes the need of a wider street and also an additional opening at the crossing where this occurred. The citizens of that portion of town have complained without avail for some time relative to this crossing and now, when the necessity has been so strongly brought to mind, is a good time for the council and the railroad company to act. The public safety demands that it be done.

Col. Hamilton's special car, familiarly known as "Mary Ann," but properly the "Marian," barely escaped being wrecked last week. The section of bridge mentioned as having given way in our last issue, was passed over by his car, but as it was a light train, did not go through. It was he who stopped the east bound passenger at the next station until the bridge was repaired. The friends of the colonel congratulate him on the escape.

C. C. and Tom Woods of Hico, who have until recently been engaged in the sale of hop ale and other beverages in the prohibition town of Hico have built a small house in the edge of Erath county, on the nearest point to Hico and have opened a saloon. We are informed that the new location is in the Duffau precinct and as that is a prohibition precinct they will have to move from there.

The attorneys for the anti prohibitionists in the Cleburne precinct have applied to Judge Nash of Dallas for a writ of mandamus to force the commissioners' court to order an anti prohibition election for the new precinct recently formed there. The judge has ordered the commissioners to appear before the district court at Cleburne December 16th and show cause why the peremptory mandamus asked for should not be granted.

Judge J. S. Watson of Stephenville is still awaiting action of the courts in the matter of his claim of heirship to some valuable lands near Beaumont. His title, with the others interested, rests upon the decision of both the district court at Beaumont and the federal court having jurisdiction, and we understand his claim of title to be practically perfect. We all, of course, hope that the judge may be successful in gaining the property,

The corpse of the ten-year-old daughter of George Chancellor and lady arrived on the noon train last Wednesday and was interred that afternoon at the old Dublin cemetery in this city. The parents have the sympathy of many friends here in the loss of their little girl. Mr. Chancellor formerly resided here, but is now following the mechanic's trade at Stamford.

J. L. Bruce, of near Pizarro in this county, left last week for Terrell to bring home his daughter, May, who was sent to the asylum after a trial in the Erath county courts for the murder of her mother, an account of which was published in the Progress at the time. The asylum authorities say that she is cured of the indisposition.

It is now thought that between eleven and twelve thousand bales of cotton will be received at this place and probably a like amount at De Leon.—Comanche Visitor.

The above item was published in in the Progress last week without credit, making it appear that the estimate referred to Dublin.

The "sere and yellow leaf" season is now upon us in all its pristine glory, but most of the sturdy oaks in this neighborhood hold to their green robes with remarkable tenacity. The sunny south is a great retreat for our northern brothers, who are now clambering through the snow knee deep.

A military company has been organized at Stamford. That's another thing that Dublin young men should take an interest in. There is no finer physical exercise than the regulation military drill and it tends to cultivate a dignified bearing, as well as giving prominence to the home town.

R. S. Walker & Co., general merchants at Hico, executed a deed of assignment last Tuesday night. At the time of this writing we have no further information than the mere fact that they have assigned, but we are told they were carrying a stock that would invoice from eight to ten thousand dollars.

Chloro-Naptholeum, the best disinfectant known to science. Endorsed by U. S. Government and the leading hotels of the whole country.—Clay Drug Co.

The arson case of A. L. Murphy in the district court at Comanche has resulted in a hung jury. The case has been in the courts several years and will be remembered as one in which the defendant was charged with burning a stock of goods at Proctor.

President Roosevelt has ordered that the White House stables shall be purged of all dock-tailed horses. This is a wholesome rebuke to a barbarous and ugly custom. To spoil the beauty of a naturally beautiful animal by depriving it of protecting itself is mere wanton cruelty.—Dallas News.

The history of civilization is but a detailed narrative of the efforts of men to get away from hard work. The derrick is a device to escape from heavy lifting. The steam hammer saves the labor of a thousand men. The reaping machine allows the operative to ride. The sewing machine is a "get-done-quick" arrangement. The railroad train saves walking. War itself is waged that one nation may appropriate the profits of another, in order that living may be easier.—Atlanta Constitution.

The Dallas News remarks by way of comment on the late elections, that the democratic party needs reorganizing. Never mind; the people will organize it when they get ready to make another platform and nominate a ticket. They are getting very tired of following the free silver 16 to 1 "ignis fatuus" and will leave all such heresies out of the political declaration of faith. Bryan will no longer dictate the views and utterances of democrats. They want to elect the next president and they will do it, too, if they stick to principles and not go roaming about after some political hobby. This is our prediction.—Hamilton Herald (democratic)

President Roosevelt seems to have taken the bit in his teeth and is running things to snit himself. For once in many long years it seems that merit only will control his appointments and the bosses are amazed.—Cleburne Watchman.

As an illustration of how rapidly changes occur in this country, it is only necessary to note the case of Judge Wallace of Missouri, who is a candidate for United States senator against ex-Governor Stone. Wallace has always been a gold standard democrat, and is now making speeches to attentive audiences in advocacy of that doctrine. There was a time, not so long ago, when he doubtless would have been massacred if he had attempted such a thing before a Missouri democratic audience.—Dallas News.

Every editor has received them; the postmaster sends them to the editor, but the postmaster is not to blame. For instance there is a man named Tim Short, who sends us three notices to stop his paper; he did not want it any longer. We wondered what was the matter. Upon investigation of our subscription list found that Tim was short $4.50. He never paid a cent, and yet as a matter of economy to us he stopped his paper. A few evenings ago we stepped into a church and Tim's melodious voice rang out clear in the soul stirring song, "Jesus paid it all." We might have been mistaken, but his earnestness impressed us. The next day we sent him a receipt in full' begging his pardon for not knowing that he had made an assignment with the Lord.—Pine Bluff (Mo.) Clarion.

DUBLIN, TEXAS, FRIDAY, NOV. 22, 1901.

From all indications it may yet develop as an outgrowth of the court of inquiry that Admiral Sampson was responsible for the attacks upon Admiral Schley.

The veteran actor, Joe Jefferson, recently called on the president. He suggests the election of two presidents in the future, one to shake hands and the other to transact business.

After all the trouble over the Creton affair resulting in the late war between Turkey and Greece, it is now stated that Crete will be annexed to Greece without any material opposition.

The state commissioner of agriculture has issued a statement reiterating his former expressed opinion that the cotton crop of Texas will this year be short by eight hundred thousand bales.

For non-observance of the rules of the civil service and for using his office as a means of collecting campaign funds President Roosevelt has removed Moses Dillon from the collectorship of the port at El Paso. Robert H. Bruce of Mineola, a gold democrat, has been appointed to the place.

The Stephenville Empire of last week failed to "show up" at the Dublin office until Monday evening, but when it did come it contained twelve pages of all home print matter, seven of which were full page ads of the home merchants there, including a number of smaller announcements of similar character.

The Whitney Messenger of last week contained a full page write-up of the paper, its past, present and prospective, liberally illustrated with engravings of the fine new machinery recently enstalled and a half-tone of the Messenger's new home, which is built of brick and elegantly equipped inside with bank office furniture. The Messenger deserves the magnificent success with which it is meeting.

COFFEE COMPLEXION.

Many Ladies have Poor Complexions from Coffee.

"Coffee caused dark colored blotches on my face and body. I had been drinking it for a long time and these blotches gradually appeared, until finally they became permanent and were about as dark as coffee itself.

I formerly had as fine a complexion as one could ask for.

When I became convinced that coffee was the cause of my trouble, I changed and took to using Postum Cereal Food Coffee, and as I made it well, according to directions, I liked it very much, and have since that time used it entirely in the place of coffee.

I am thankful to say that I am not nervous any more, as I was when I was drinking coffee, and my complexion is now as fair and good as it was years ago. It is very plain that the coffee caused the trouble. Please omit my name from public print." Mrs.——,2081 Ogden Ave., Chicago, Ill. The name of this lady can be given by the Postum Cereal Co., Ltd., Battle Creek, Mich.

Most bad complexions are caused by some disturbance of the stomach and coffee is the greatest disturber of digestion known. Almost any woman can have a fair complexion if she will leave off coffee and use Postum Food Coffee and nutritious healthy food in proper quantity. The food coffee furnishes certain parts of the natural grains from the field that nature uses to rebuild the nervous system and when that is in good condition, one can depend upon a good complexion as well as a general healthy condition of the body.

Our friend Brown, editor of the Glen Rose Herald, takes the Progress to task in its last issue for an error in spelling the name of Somervell county, in a brief local recently published regarding some ribbon cane products raised in that county; in fact the Progress spelled it two different ways in the same short local and neither was right. What's in a name anyway, Bro. Brown? Somervell spelled Somerville or Summervell or any other old way, will raise as much cane to to the acre as if spelled correctly, so what great difference does it make. We nearly all know where Somervell and Glen Rose are and those who don't, if they happen to be a candidate in the district in which it is located, will find out about election time or shortly after. We doff our hat in the most genteel way we know how and beg to stand corrected.

If the proposed "Hall of Fame" is made a feature of the World's Fair at St. Louis in 1903, the people of this state will be called upon to select for it two of their most representative citizens, no longer living, to stand for the work the State has done for the Louisiana Purchase, for the United States and for the world in general. Each state will be entitled to have statues or busts of two of its great men in the "Hall of Fame," and the discussion necessary for making the selection has already begun. Every one who has an opinion to express is entitled to express it,and to have it considered before the final decision is reached. The question of who are the greatest men of this state is an interesting one, and the discussion of it will help to honor the makers of history and to bring out the history they have made.

Hico needs a district and probate court of its own. It is very inconvenient and expensive for our people to have to go so far to attend court and to attend to other county seat business. The county could be divided for judicial purposes into two districts—Hico district and Hamilton district, the same set of officers, with the assistance of deputies, doing the business for both districts, This kind of an arrangement would be a great saving to the people in this section of the county.—Hico Vedette.

The above suggestion of our neighbor at Hico applies with equal force to the condition in Dublin and Erath county. An extremely large portion of the court business of Erath county is from Dublin and it is constant and expensive menace to the interests of the large number who reside in and about Dublin having to go to Stephenville for any and all official business they may have.

Editor George Kornegay of Blanket, is talking straight to his home people about patronizing the paper. He says he is tired of subsisting on business that barely furnishes enough of the coin of the realm to buy a straw hat and a pair of cheese-cloth pantaloons in November and he proposes to shake the rich dirt of the Blanket country from his feet if things don't change soon. The Gazette is a credit to the city of Blanket and deserves a good patronage at the hands of its constituents, who are standing in their own light by not supporting it handsomely. Besides Kornegay is too good a newspaper man to while away his time in an unappreciative community.

Under the new constitution of Alabama, which was submitted to a ratification vote recently, practically all the negroes will be disfranchised. Many claims of fraud in the election are being made by those who were opposed to ratifying the constitution. It required as a principal of representation that the voter, if not a soldier or descendant of a soldier, must be educated or have property.

Milton Park, state populist chairman, urges every county chairman to call a county meeting on or before December 20th, to pass on the Kansas City conference work; also to elect delegates to a state conference to be held not later than Feb. 20th, 1902.

The governor of Kentucky said to the governor of Indiana: "You are a knave and a scoundrel, a protector of criminals, and a disgrace to your high office." The governor of Indiana said to the governor of Kentucky: "You are another one." This is the condition existing in those states by reason of the rank partisanship leading up to the Goebel tragedy.

Congress will convene the first Monday in next month and then the president's message. This document is being looked forward too with a great amount of interest and if it is not the most tersely and pointedly framed one that has been submitted in many a day there will be disappointments galore. Though the president is young, every competent judge, without regard to political affiliation, must agree that he is able, patriotic and a severely earnest man.

Last weeks' issue of the Erath Appeal announces that the paper will hereafter be democratic instead of independent. Now it is doubtless in order for the Appeal to "go way back and set down." Every official plate is taken and the future is already spoken for and no doubt the "true and tried" and the unterrified are the only ones that will be safe to admit to the counter. The Appeal, however, is a good local paper and we hope to see it continue to give all the local news.

The populists of Johnson county met at Cleburne recently and adopted resolutions endorsing the name of Allied Peoples Party, for the movement of all independent elements recently set on foot at Kansas City, and asking the state chairman to call a state meeting to elect delegates to the convention to meet in Louisville next April to form a platform and adopt a name for the new movement. The populists of Parker will also have a meeting on the 30th of this month and throughout the state the workers of the party are moving in preparation of the coming campaign.

Spreads Like Wildfire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years." You know why? Most diseases begin in disorders of stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, rundown man or woman. Price 50 cents. Sold by Overton Drug Co.

A petition signed by over six hundred voters, asking for an anti-prohibition election in the new Cleburne precinct, was turned down by the commissioners' court of Johnson county last week and it is now said the antis will, through mandamus proceedings in the district court, attempt to force the commissioners to order the election. Local option is now law in the precinct and it is claimed that while the pros would have the right to have an election if the precinct was under anti-prohibition, to reverse the matter the antis would not.

When a merchant has a good, honest article to sell, he likes critical customers, particular people, for whom only the best is good enough. That's the way we feel. The Buckskin Breeches are so good, so strong at every point, that we like to sell them to people who appreciate a good pair of pants. We make these pants with the idea of pleasing the most particular buyers, then we please everybody. We guarantee the fit and stitching.

A deserter from the army by the name of George Green called on Sheriff Hume at Stephenville last week and gave himself up, having decided that he could not escape the vigilance of the officers. He deserted the army at Fort Reno last August and was working his way to old Mexico. The sheriff took him to San Antonio, where he was returned to his command.

Constipation means the accumulation of waste matter that should be discharged daily, and unless this is done the foul matter is absorbed and poisons the system. Use Herbine to bring about regularity of the bowels. Price 50 cents at Clay Drug Co.

Capt. Ira Millican was down last Friday from Lowell and said to a reporter that it would be three or four months before he would get off again to Lubback.

Erath County Commissioners' Court.

Commissioners' court convened in this city Monday and has been in session all week, dealing principally with road matters and other minor business.

Official bond of B. G. Hall, sum of $1,000, R. T. Long and J. J. Bennett, sureties, was approved.

Bond of W. B. McCall, janitor of the court house, sum of $1.000, S. R. Slaughter, W. Chamberlain and S. B. Watts, sureties, was approved.

Petition for local option election in all precincts in the county but Thurber, was rejected, because same was not legally drawn up.

Quarterly reports of the following justices of the peace were received and approved, the number of the precinct being in the order they are named: John W. Grey, fees and fines collected, $54.40; F. C. Oldham, $49.45; G. H. Mayes, $29.75; H. T. Shellmet, $44.71; A. L. Greenwood, 35c; S. H. Davis, $12.75; A. H. Miller, $14.45; J. T. Christian, $17.85; also J. R. Trewett, district clerk, $66.65; John W. Frey, county clerk, $66.65, and R. T. Hume, sheriff, $222.

Final report of W. L. Crow, court house janitor, and J. M. Barham, superintendent of county poor farm, were approved. The latter reported the farm as now having but two dependents, two having left last week for Ft. Worth; also that they have on hand nearly six hundred bushels of corn, one hundred and fifty bushels of wheat, three hundred bales hay, twenty-five hundred binds of oats and two thousand of millet, one hundred bushels of oats, a rick of fodder, thirteen head of cattle, nineteen hogs, eighteen pigs, three bales of cotton picked and one to pick, and $22.40 cash on hand.

For burns, cuts, bruises, lacerations, or injuries of and description, Ballard's Snow Liniment is a sovereign remedy. It never fails to do good, and so promptly that its wonderful curative properties frequently create surprise. Price 25 and 50 cents at Clay Drug Co.

Mexican Link for the Frisco.

It is reported on what is considered reliable authority that the H. Clay Pierce syndicate, who is interested in the St. Louis and San Francisco and the Fort Worth and Rio Grande and controls the Mexican Central and the Monterey and Mexican Gulf railroads, has also acquired the Mexican Northern railroad. The latter line runs from Sierra Mojada, in the state of Chihuahua, to Escalon, where connection is made with the Mexican Central. It is said that one of the objects in acquiring this road by the Pierce syndicate is that an established line for a part of the distance might be obtained for the proposed extension of the Fort Worth and Rio Grande to a connection with the Mexican Central.

The present southern terminus of the Fort Worth and Rio Grande is at Brownwood. The survey has been made and the contract let for the immediate extension from Brownwood to Brady, a distance of about forty miles, and the survey from Brady south toward the Rio Grande is being made as rapidly as possible. It is stated that the route of the road will be in a direct line as far as practicable to Sierra Mojada, passing through the towns of Junction City, Rock Springs and other small places in west Texas. It will cross the Rio Grande at Del Rio, where connection will also be made with the Southern Pacific. From Del Rio to Sierra Mojada the road will pass through a grazing country which is sparsely settled. A branch line will be built from either Brady or Junction City to San Antonio.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlin's Cough Remedy, and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given when the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidentally to a baby as to an adult. For sale by Overton DrugCo.

Cotton Stalks for Feed.

The following article was wri by J. W. Poindexter of Bridge and published in a late issue of paper of that place. It opens great possibilities in sections w cotton growing and cattle raising side by side, if it is true. The Pr ress would like to have the opi of some good Erath and Coman county farmers on the subject:

"Save your cattle—you h abundance of feed and don't your stock perish. For years have seen hay made by gather green cotton stalks and all, and it lay and cure, then haul it up stack. If you haven't a house put it in, ricket it and cover w something that will turn wa Horses and cattle eat it, stalk all. There is cotton fields enou to make feed for all the cattle Texas.

This is no experiment, as I ha seen it tried. Cut it down just sorghum and let it lay until it c and you have fine feed. Stock thrive on it because it has a str substance to it, you can also other feed with it and the co will do well. Remember ho will eat it like corn fodder w they get hungry and it makes good roughness for our stock. sure and cut before frost as it is good after frost.

This is enough. If you let y stock perish it is your own fa Go to work now and make arran ment to feed your stock. You h plenty green cotton."

DUBLIN, TEXAS, FRIDAY, NOV. 22, 1901.

A baby girl was born last Saturday to J. E. Shelton and lady.

Keep warm this winter by getting coal from Maloney's.

The postoffice inspector was here on his regular round last week.

A baby boy was born to C. G. Bennett and lady last Saturday.

Savage's market for first-class meats. We try to serve the best.

The regular monthly meeting of the city council convened last Tuesday night.

W. J. Jordan is having an addition made to his residence on Patton street.

Gen. Harris expects to remove to the country and occupy a ranch out of town.

A baby girl was born one day last week to Clarence Kelly and wife of Waco.

Santa Clause time is coming very soon and the youngsters are as excited as they can be."

All kinds of painting, also paperhanging done at City Paint Shop, over Bowden's Furniture Store.

Mrs. Reddin of DeLeon, aged about sixty-five years, had her right arm broken by a fall recently.

Comanche had received six thousand seven hundred and fifty bales of cotton this season up to last week.

Joe Crabb came in last Friday from Stephenville to accept a position with Pipes & Eddleman's tonsorial parlors.

Will Brown came in Sunday to visit his parents. He has a position as fireman on the Katy, with headquarters at Denison.

A special Ft. Worth-Denver car passed over the Rio Grande last Monday. It contained a party from Fort Worth en route west for a hunt.

Mrs. W. R. Shaw returned Sunday from a week's visit with her relatives and friends at Waco. She also attended the flower show while there.

Jesse S. Davidson of Dallas, representing the typewriter supply department of the Dorsey Printing Co., was here Monday in the interest of his firm.

J. M. McCrary reports that there was quite a meteoric shower Friday morning. He was up before day and saw about a hundred meteors.—Comanche Chief.

Wallace Wagner, who has been postmaster at Sipe Springs, recently delivered the office to Dr. P. J. Coughs, who was lately appointed to the position.

The Pecan Valley News reports a scarcity of pecans this year about Brownwood. The shortage is a drawback on many successful planters in that section.

W. Cook, county surveyor of Comanche county last week tendered his resignation to the commissioners court and the court appointed R. G. Strong to fill the place.

Prof. W. A. Davis of Proctor, who has associated in the ginning and cotton business with parties at Blanket, will shortly remove to that place and erect a handsome home there.

Miss Daisy Mattson and Charlie Hall were married last Sunday evening at the Christian church parsonage, in this city, Rev. G. H. Dobson officiating. The congratulations of the Progress are extended.

The commissioners' court, last week in session at Stephenville, refused the petition for a local option election, to be held in all precincts in the county except Thurber, on the grounds that the petition was not drawn up in a legal manner.

STRONG FOOD.

Among the Longest Staying Powers.

It is a good thing to know how to select food that will so thoroughly feed and nourish the body that there is no indication of hunger or weakness from one meal to another. Grape-Nuts Food will carry the user longer, probably, than any other food known. A young lady attending business college writes from Atlanta, Ga., saying, "Before I began using Grape-Nuts I got so hungry before the dinner hour that I was faint and almost sick, but since using Grape-Nuts Food for breakfast I study harder, and wait longer for dinner without experiencing any of the former trouble. The great advantage is that it requires no cooking or preparation. Wish everyone knew of the value of Grape-Nuts Food for children in delicate." I. Parkhurst.

The Progress is doing well, thank you. Not as well, however, as we would like, for the management of the Progress never expects to be entirely satisfied with the magnitude of his business, nor stop his efforts to give the largest possible value to advertisers and subscribers for every dollar of patronage they favor us with. If we ever do get entirely satisfied in this respect, then we will be ready and anxious to sell out to some one who is not fully satisfied, in order that the paper may continue to improve. There is yet room on the Progress' big list for many more names and we shall continue to adopt every legitimate business effort of which our limited means and ability are capable to secure them. Reader, if you are not on the big list, we want you to be and solicit you to be, and promise if you will be, we shall not spare efforts to merit your support.

A prominent local democrat was in the Progress office a few days since and upon being solicited to subscribe, took occasion to say: "No at the present time I do not care to take it, because another gentlemen, who is now located with me is taking it and of course there's no use to pay for two papers to come to the same house, when we all read the one. However, I am compelled to say that the Progress is by far the best paper published in the county, notwithstanding the fact that is of opposite political faith to mine, and for this reason I shall continue to read the paper and will take it later on when the gentleman now residing with me leaves." This is only one of many appreciated expressions the Progress is hearing every day and they are calculated to stir us continuously to renewed energy towards the publication of a newspaper to give the news.

The story is told in connection with the recent appointment of a new postmaster at Stephenville, that the matter may not have come to a close so quick had it not been for a circumstance which is reported thusly: The incumbent had been absent for some time at Mineral Wells, and the place was being attended by her sister. On an especially chilly morning recently, the postoffice inspector, as usual without warning, dropped in and had to wait until away up in the day and long after the legal hour for the postmaster to arrive so that he could inspect the affairs of the office, and it is said he promptly notified the department that the office had been abandoned. Miss Hyman had held the office for thirteen years, notwithstanding there has been more complaint at her administration of the affairs than that of any similar sized office in the union.

Among the reports of pastors made to the Methodist conference at Corsicana last Friday we note the following: H. A. Boaz of Dublin, reported a new church just about complete and practically paid for at a cost of $16,000, parsonage moved and repaired and $1,200 raised for all other purposes. K. S. VanZant of Green's creek, reported a good year and $3,400 raised for all purposes. J. M. Baker of Morgan Mill, reported eight conversions. C. W. Daniel reported fifty-two conversions and all assessments paid. W. L. Morris of Hamilton, reported increase of eighty-five, a parsonage built and all claims paid. Mr. Morris is in poor health and his salary being less than $400 his presiding elder asked that he be given money to move to Clarendon and $65 was paid him. W. J. Clay was elected a lay delegate to the general conference.

John T. Risien, of the Progress force, received a letter Monday from his little brother, Miller, written from Galveston last Saturday, conveying the information that the former plans for his journey to England had been changed and the present expectation was to sail on the 20th instant on the steamer Concho for New York, where they will change and go direct to Southampton and then to London, instead of by way of Bremen, as formerly expected. He will be accompanied by a cousin who lives near San Saba and the two boys, both under fifteen, will go the entire route from Galveston by themselves. They will be met at London by their uncle, who is a wealthy retired merchant there and with whom the boys will live for a few years. The uncle promises to do a good part by them.

The W. J. Duckworth gin at this place was destroyed by fire last Wedneseay morning. Loss $4,500, insurance $2,500.....Ed Browning had his hand badly mutilated one day last week. While out hunting, his gun went off accidentally shooting the fingers of his right hand. ....Sheriff Tandlin brought in last week from Stephenville Frank Williams charged with stealing some money and a saddle from the home of Mrs. Barnard of Fort Spunky. He acknowledged the theft and is lodged here in jail. He is only fifteen years of age.—Granbury Graphic-Truth.

Complying with the recent verdict of the voters the commissioners court of Eastland county has ordered that all saloons within its borders must close Decembers 16th.

John A. Bennett, formerly of Dublin, is proprietor of the Crystal Saloon, Ft. Worth, one block up Main street on right from the union depot. 21-tf

The public schools of Coleman county were closed for two weeks Thursday of week before last by order of the county judge in order to lessen the probability of an epidemic of diphtheria.

Constructed from the best material science has yet produced, the Garland line of stoves are well worthy the reputation they have so long borne. "The World's Best" at Maloney's.

"Uncle" Joe Tunnell, who has for sometime resided at Comanche, having moved there from Rockdale, has sold out at the former place and will move to Proctor and engage in business.

A pension of eight dollars a month has been granted by the federal government to Mrs. Bettie G. Herndon of Dublin on account of the service of her husband in the Mexican war.

The commissioners' court of Comanche county last week ordered local option elections to be held in the Gustine school district and the De Leon justice precinct on Saturday November 30th.

J. W. McKenzie of Carlton, a gentleman very well and favorably known in Erath county will make the race the coming campaign for the democratic nomination for tax assessor of Hamilton county.

Tom Longacre, of this county, is under indictment in New Mexico and is in jail at Roswell, charged with the murder of a man named Carson there. His trial was recently continued until the next term of court.

Mrs. M. A. Dunn is in receipt of a letter from her son, Willie, dated at Boise City, Idaho, November 13th, in which he says that on the following day his regiment would leave for Portland, Oregon, where they take ship on the transport Rosencrans for the Phillipines.

B. Reese of near Dublin, a substantial friend of the Progress and J.D. Striplin of the same community were pleasant callers last Friday, while in town trading. Mr. Striplin informed us that himself and wife would spend the holidays this year at their old home in Alabama.

Wyly & Wyly, dealers in groceries and gents' furnishings at Stephenville, made a general assignment last week, naming E. F. Jones as assignee. The liabilities are placed at $22,942.75, and the assets at $12,500. Among the creditors named are the Cooper Grocery Co. for $6671.60, and J. F. Weiser for $565.48.

W. J. Powers of Stamford was here Monday, looking after his property interests, consisting of a house and lot in east Dublin. He had conditionally traded his property some months ago to Ramsey Cox for land near Stamford, but the trade is now off. Mr. Powers is engaged in the racket store business at Stamford.

We are informed that a large number of the Dublin sports have folded their tents and fled to climes more agreeable, the particular reason for this sudden emigration being the serving of a notice by the mayor and recorder that particular efforts would be made towards making a continuation of their business here most unprofitable.

Capt. J. B. Brown was here Monday, en route to Stephenville from a trip to Stamford, at which place he has rented land to make a crop the coming year. Capt. Brown was an applicant for the postoffice appointment at Stephenville, but was unsuccessful in this and now says he is going west to grow up with the country.

The case of W. W. Moores vs. Western Union Telegraph Company was tried in the district court at Stephenville last week, resulting in a verdict for defendant. It was a claim of damages for the non-delivery of a message. Motions for new trials in the O. R. McCoy and Arthur Freeman cases were overruled, and the Claude Rayarson case was taken up Thursday.

John T. Risien of Progress force not long since received a letter from George Gallaway, formerly of this place, written from Cape Town, South Africa. In his letter he failed to state what he was doing, but promised to write again soon. It required twenty-five cents to start the letter from there, the receipt of which is designated on the envelope by a post mark to that effect and ten cents was required to get it out of the office here. It lacked three days of being a month in transit.

M. Shaugnessy came in Sunday from Greenville, where he had gone several days ago to attend the bedside of his son, John, who was severely injured on the 5th of the month by having his left leg run over by one car of a work train on the Katy railroad, some twenty miles from Greenville. The report of the accident printed last week contained several inaccuracies as we now learn from Mr. Shaugnessy and the injury received is much worse than at first reported, though the life of the boy is not considered in danger. Instead of beimg amputated at the ankle it was necessary to take the leg off about six inches below the thigh joint. The work train had with it a steel car, the drawhead of which was so damaged that it had to be fastened on behind the caboose, and when the train started to move out John swung onto the step of the caboose. A negro workman was sitting on the lower step and caused him to miss his foothold and he was thrown between the caboose and the steel car, which passed over the limb in a lengthwise direction, smashing it into a pulp from the ankle to a few inches above the knee. If it had not been for the steel car in the rear of the caboose he would not have been hurt, and hence it is presumed that he will be financially recompensed by the road for the loss. He was taken to the railroad hospital at Sedalia as soon as he was considered in a condition to stand the trip, which was last Saturday morning, accompanied by his brother, J. A., who had come from Colorado to see him.

A Colorado farmer who farms by irrigation is reported to have said that he regretted to see a rainfall; that rain packs the soil, beat his plants into the ground and made a muss of things generally. The view of the Colorado farmer may be an extreme one, but it goes to show the comparative independence surrounding the man who is possessed of irrigated lands. Western Texas has a fertile soil, the water may be had for the digging and it behooves her citizens to get in line as soon as possible. Irrigation turns an acre of worth one hundred dollars.—Brownwood News.

Marsh Martin, residing six miles east of town, happened to quite a painful accident Thursday of last week. He sat down on a pair of scissors protruding from an open bottom chair and the point of the instrument penetrated the fleshy portion of the upper right thigh to the bone and glancing around this went nearly through the thigh. So deep was the wound that the scissors had to be taken hold of to pull out. His neighbor, W. S. Messner, at once brought him to Dublin and the wound was properly dressed and we understand he is now doing very well.

Four cases of what is by some claimed to be smallpox, has appeared near Huckabay, the victims being four children of Coon Pack. One of the attending physicians claims the cases genuine smallpox and the other pronounces it chicken pox. No action has yet been taken by the officials, though Judge Frank gives it out that he will keep informed on the cases and take whatever steps may prove necessary. It will be remembered that small pox prevailed extensively and was especially severe in that neighborhood last winter.

Dr. Mayes Miller left Tuesday of this week, accompanied by his wife, for Iredell, where he has bought an interest in the drug business of Kimmins & Gordon and will enter the practice of medicine. This young couple have an endless number of friends here and elsewhere whose good wishes for success accompany them where ever they may cast their lot. Dr. Miller is a studious and reliable young man, whose experience and observation has fitted him to successfully cope with the best physicians in practice.

Jim Kelley, who lives in the eastern part of town, is sick with a disease which his physicians Drs.Gray and Wynn, declare is smallpox or something suspiciously like it. It was brought into the family by a visiting relative from the Territory, the place where that disease nearly always hails from. The city authorities are watching the case and will isolate it if it proves genuine, and will take every precaution to prevent it spreading.—Comanche Chief.

W. L. Phillips, who killed his father at Stephenville some four years ago and was adjudged insane and sent to the asylum at Terrell, escaped from his guards two weeks ago after cutting another patient severely on the head with a spade. He appeared at the home of Fred Faulkner in Stephenville recently, and claimed to have walked all the way from Terrell, except ten miles that he rode in a farmer's wagon. He was rearrested and returned to the asylum.

Our farmer friend G. W. Reaves of near Victor, was in last Friday and reported having witnessed the reported Leonid shower of stars about three or four o'clock that morning. He said the spectacle was a grand one and was equal in brilliancy to the similar occurance in the sixties, which many people will remember having witnessed.

Lee Carroll and Bill Porterfield, of Nathan, Pike county, Arkansas, had a difficulty at a debate in that community recently, over some stock that had entered the field of one of the parties, and the result was instant death of Porterfield by a shot fired by Carroll. They are both well known in this county and especially so in the Huckabay neighborhood.

W. T. Simmons has disposed of his farm of two hundred acres on Sowells creek, eight miles from Dublin, to Charlie Campbell of that community, for a consideration of $2000 and has purchased a tract consisting of five hundred and seventy-one acres, a little over one hundred of which is in cultivation, located six miles north of Gordon in Palo Pinto county. The consideration for this property was $2375. Mr. Simmons left Monday with a portion of his family for his new home.

A correspondent in the Hillsboro Mirror recites the following peculiar incident: "Early in the summer a swarm of bees settled at the home of M. L. Long, in one of the flues. They worked busily all the time. A few days ago it became necessary for him to put up his heating stove. After the bees had been smoked good, Tom Goodman and the writer went on top of the house and by taking off part of the flue, got out about forty pounds of honey.

D. J. Timlin, master mechanic of the Central railroad and one of the most enterprising citizens of Walnut Springs was here Saturday and favored the Progress with a most appreciated call. Mr. Timlin is making an effort to keep it quiet, but we know from the county records that he has been buying some choice and valuable farm property near Dublin, from which one would naturally infer that he has faith in the future of the town.

The Progress editor was interrupted a number of times last Saturday evening while engaged in an effort to satisfy the demand of the printers for copy. The interruptions were most pleasant however, for they were in each case caused by the call of a new subscribers with the cash or an old one to pay up and encourage us with expressions of satisfaction with the paper.

Whitney is rejoicing over the prospects of securing the I. & G. N. railroad extension from Waco to Ft. Worth, and Hamilton is still expecting the Cotton Belt extension from Gatesville. Both roads will likely be built and before the latter has commenced, it would not be a bad idea for Dublin to take the matter in hand and properly agitate the continuation of the line from Hamilton to Thurber by way of this point.

W. M. Shipman, a former citizen of Erath and a warm friend to the Progress, was a pleasant caller last Friday. He is now located in Knox county, for which place he left last Saturday with his wife, after a visit friends in this county. Mr. Shipman is well pleased with his location in Knox, but says that he has come to the conclusion that Erath is very hard to beat.

W. C. T. U. COLUMN.

BY MRS. A. E. CASWELL.

Our state president, Mrs. Helen M. Stoddard, exhibited to the great gathering at Ft. Worth a map of Texas, showing that over half the state was prohibition territory. Texas has made the most progress and produced the best results in non-alcoholic medication, and was awarded the palm.

***

Miss Fannie L. Armstrong, of Dallas, state superintendent of press work, captured the silver press star for 1901 from the old Empire state, having shown the greatest amount of matter in W. C. T. U. columns. She reports that of the one thousand papers in the state, over one-half the number printed W. C. T. U. items, and we are glad to note the Dublin Progress among the number.

In awarding the star to Miss Armstrong, Mrs. Minnie Barker Homing, national press superintendent, said: "New York has held the press star for the past year, but now 'Westward, this star of the empire takes its way.' This little woman, Miss Fanny L. Armstrong, the press superintendent of Texas, has secured the insertion of a greater number of columns in the Texas papers. The Lone Star of Texas need no longer shine alone, as it has the press star of the W. C. T. U. for its heavenly twin."

Miss Fanny made a pretty little speech of acceptance, thanking her fellow workers and acknowledging the help of the newspapers of the state. Closing, in her unique way, she exclaimed: "Bless God! I feel that I have gotten religion over again. I feel just like getting out on a prairie and shouting, 'Glory, hallelujah!' I feel that I would have to join the Salvation Army for about a month to say 'Glory' enough. This is the best thing I ever had in my life. I am glad I live in Texas, and I am glad I am a member of the W. C. T. U. I am going to keep right on working for the Master, and I know that when I am done on earth, I will meet the great white ribboned army around the throne of grace."

***

More than twenty-five pulpits in Ft. Worth were filled by visiting women Sunday.

***

The Loyal Temperance Legion is a branch of the W. C. T. U. which numbers nearly 500,000 members. Sunday afternoon an enthusiastic meeting was held for the boys.

More than 1700 delegates are in attendance.

THE SHADOW IN THE HOME.

It was a neat little cottage in a railroad town, in which dwelt the father, mother and their little boy, scarcely six years of age.

At the time of my visit to the town the father, who was a most gentle, hospitable man, had formed the habit of an occasional spree. The mother had joined the W. C. T. U. that had been recently organized, and with a sad face and a determination bordering on desperation, she had lavished her energies on saving the boy.

She and the little boy, each wearing the white ribbon bow, attended the temperance meeting and in response to her pressing invitation, I accompanied her home to tea.

She clutched in her hand one of the leaflets which had been distributed at the meeting. This leaflet contained the statement that saloons can no more be run without boys than saw mills without logs. "And whose boys; yours or mine?" she asked.

Nearing the home, she leaned over and handed the leaflet to the child, saying in a low tone, "Give that to your father and ask him to read it."

The little fellow deposited the leaflet on the bed and began to play, but presently, when we were alone, he said: "Oh. I do wish my papa would hurry and come home. I want to give him that to make him good." To the query, "What does papa do?" he replied, "Drinks whisky and runs an engine."

Knowing that the railroad had a rule requiring total abstinence of its employes, I wondered how this man could combine these occupations. Upon investigation, I found the man was a "supply" freight engineer and that discharge would surely come to him if the officials should find him unfit for service when called.

At the tea-table the mother, in speaking of a certain town, said, "That is a nice place; there are no saloons there." Instantly the little fellow said, "Mamma, let's go there to live."

This pathetic scene has followed me day after day, and I wonder that any man can put such a shadow in the home, not only upon the woman whom he has promised to love and cherish, but also upon the young life that he should help to shape for Christ.—S. H. H.

Getting Thin

is all right, if you are too fat; and all wrong, if too thin already.

Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: over-work and under-digestion.

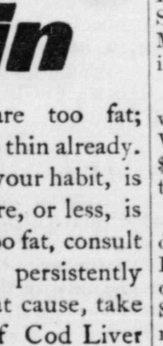

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it—true—but, by it, you can. There's a limit, however; you'll pay for it.

Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work—you can't long be well and strong, without some sort of activity.

The genuine has this picture on it, take no other.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

MURDERS A MYSTERY

Two Women Killed Near the City of Evansville.

BOTH WERE CHOKED.

Their Bodies Were Found in Opposite Directions from the Place—Other Similar Murders Has Officers to a High Degree.

Evansville, Ind., Nov. 14.—The mystery of the two murders in this city remains unsolved. The facts that both of the victims were women, that both were killed in the same manner and evidently by the same person, adds to the mystery. What possible motive exists for either crime no one is able to explain. Neither woman was known to have had an enemy and nothing is known to link the two of them in any affair likely to furnish an excuse for one man to attack both.

The body of Mrs. George Railey was found near the city beside a public highway. There were finger marks on the throat. Her neck was broken. The suspicion is that the woman was choken to death by some one in a buggy and then when she fell out her neck was broken. There were evidences of the body having been dragged some distance and thrown into a ditch.

A mile outside the city, but in an opposite direction, the body of Miss Lena Renner was discovered by searchers. Her throat also had finger marks, showing the manner of death to be similar to that of Mrs. Railey.

John Keifer, who was seen with Miss Renner was arrested, but proved an alibi and was released.

The similarities of these two murders to two others in this city during the last three years, forms another strong incident of the case.

While officers are searching diligently for some clew, there is no prospect of arrest as far as known.

Arkansas Industries.

Washington, Nov. 14.—A bulletin has been issued by the census bureau showing the condition of the manufacturing industries of the state of Arkansas for the census year 1900 and giving comparisons with each census since 1850.

The statement shows that last year there were 4,474 manufacturing establishments in the state with an aggregate capital of $35,960,640, with 1,649 salaried officials, to whom $1,251,096 were paid and with 26,501 wage earners, to whom was paid $8,686,291. The cost of materials used was placed at $23,963,768 and the value of products for 1890 was $22,659,179. In 1850, the value of products of a manufacturing character amounted to only $537,908.

Coming to the South.

Nashua, N. H., Nov. 14.—It is estimated that more than 200 of the employes of the cotton mills in this city are about to leave town to be employed in mills in the south. This is the result, it is claimed, of the short hour system that has recently been adopted by the Nashua Manufacturing company and the Jackson company, which, it is claimed, is equivalent to a reduction in wages of 17 per cent. Representatives of southern cotton mills noting the conditions, came to this city offering inducements to the mill hands to go south. They met with good success.

Will Not Help Switchmen.

Denver, Nov. 14.—Grand Chief Clark, of the Order of Railway Conductors and Grand Master Morrissey, of the Brotherhood of Railway Trainmen, have issued a statement in regard to the switchmen's strike, declared on Denver and Rio Grande railway last week. The statement is to the effect that there is no just cause for the strike, and that it will not be supported by the conductors and trainmen's organizations.

MISS STONE SEEN.

A Bulgarian Official Had a Talk With Her -May Lose Her Mind.

Sofia, Nov. 14.—Ivan Molocheff, a Bulgarian clergyman from Uscub, in Macedonia, has arrived here from visiting Miss Stone and is now in consultation with Mr. Dickinson.

"Miss Stone," he said, "is in the house of Bekir Bey, in the town of Ceres, Macedonia. I left her two days ago, coming direct to Mr. Dickinson to try to arrange for her release. Miss Stone and Madam Tsilka are well, but the strain is terrific, and there is danger that Miss Stone may lose her mind. To be always in the same surroundings is likely to drive her crazy; constantly looking at the same objects has semi-mesmerized her, and she has a presentment that evil will befall her.

"The brigand chief informs me that he will now insist on the full ransom, as the length of time Miss Stone has been left on his hands leaves no margins for bargaining. The name of the brigand chief is Devish Younouse, and he is an Alabian. Beker Bey, in whose house Miss Stone is confined, is hand-in-glove with the brigand chief. Bekir Bey assisted the brigands by keeping Miss Stone for 30 days in the mountains before taking her to his house.

"There are about 150 Macedonians imprisoned in connection with the Stone affair by the Turkish officials. I want no personal compensation, but I want the Macedonians released. If the American, English and French consuls at Salonica insist upon Bekir Bey releasing Miss Stone it will not be necessary to deal with the brigands, and we can get her release without paying the ransom."

Retirement of Merriam.

Denver, Nov. 14.—After forty years' service Brigadier General Henry C. Merriam, commanding department of Colorado, is retired on account of age.

GENERAL H. C. MERRIAM.

General J. C. Bates, commanding the department of Missouri, will, for present, assume command of department of Colorado, be relieved later by Gen. MacArthur, who, it is understood, takes place of Gen. Merriam.

EVENTS WILL DETERMINE.

Senator Bailey Says Democratic Senators Have Decided on No Policy.

Washington, Nov. 14.— Senator Spooner of Wisconsin, and Senator Bailey of Texas, held a conference with the president.

Senator Spooner declined to discuss questions of reciprocity and tariff, but expressed the opinion the new treaty with Great Britain would be ratified and the canal bill passed at the approaching session of congress.

Senator Bailey says that so far as he is aware there will be no meeting of the minority senators to determine upon a policy of opposition in the coming congress. He is inclined to think events will be likely to determine their course.

Senator Bailey said that if the new canal treaty was as strong an American treaty as it was reported to be, he would gladly give it his support.

AGAINST CASTRO.

General Pietri Raises Another Revolt and Is Joined by Venezuelans.

Port of Spain, Trinidad, Nov. 14.—General Juan Pietri has raised another revolt against President Castro's government. The uprising is at Carabobo. General Pietri has been joined by several distinguished Venezuelans.

The resignation of Senor Velutini, the Venezuelan minister of interior, is anticipated as a result. President Castro's reply to the Pan-American congress in reference to difficulties between Venezuela and Colombia. Senor Aurelo Val Buena, who rose against Castro at Turmero and was captured, has been liberated.

Knights of Labor Meet.

Indianapolis, Nov. 14.—The twenty-fifth annual general assembly of the Knights of Labor opened here Tuesday. Delegates were present from nearly every state in the Union and Canada. Sessions are secret, and will last several days.

Tree Fell on Him.

McKinney, Tex., Nov. 14.—A fatal accident happened to R. L. Cunningham of Princeton. He was cutting down a large tree, which fell before he expected. While attempting to escape, the trunk of the tree fell on him. He was killed instantly.

A LIVING BAROMETER.

The Crablike Spider That Poses as Yucatan's Weather Sharp.

In Yucatan, a land of many curiosities, there is a living barometer in the form of a small spider, called "am" on account of the effect produced by its poison. As far as its own conduct goes, the insect is inoffensive and can be handled with impunity, but if anybody has the misfortune to get one mysteriously mixed with his food he is certain to die after a few hours and meanwhile for some unexplained reason will frequently ejaculate "Am, am, am!" hence the name of the spider. Throughout the peninsula this is affirmed to be a fact, and if an am falls into fodder of horses or mules the animal that swallows it surely dies.

This spider is shaped like a crab, minus the claws, and is of a bright yellow color, with brown spots; the biggest could be accommodated upon a silver dime. Its favorite abode is among the leaves of the banana shrub, commonly, but erroneously, called tree. There it spins with extreme rapidity, its web, which is prodigiously large, considering the size of its architect, and proceeds to devour the flies that are unlucky enough to get entangled in the meshes of this astonishing little glutton, that is not satisfied with less than a dozen a day—that is to say, it consumes a good deal more than its own bulk. Its progeny is numerous and appears at first like more black specks, smaller than the smallest pin's head.

The sky may be blue and cloudless when suddenly the am commences taking in its sails, or, rather, gathering in its net, with neatness and dispatch, cramming the whole of the material into its diminutive body entirely out of sight. A few minutes completes the job, and the spider takes up its position on the under surface of one of the great leaves to be lulled by the gentle swaying and sheltered while the storm rages. It is for this that the am has prepared, and never is it mistaken. When the web is taken in, rain will certainly fall within an hour.

The moment the am is touched it feigns death and lets itself drop, showing no sign of life until again placed upon a leaf or on the ground. Many a one has lain in the palm of the writer's hand inert, all its legs drawn close to its body, while it was examined at leisure, even being picked up in the fingers without its manifesting any life.

BEAUTY SPOTS.

Try lemon juice for whitening the neck. Apply it with a linen cloth.

After the head has been shampooed, whenever possible, give the head a sun bath.

A writer states that oily hands may be made comfortable and touchable by wetting them once or twice a day while clean with cologne, alcohol or toilet vinegar.

A good circulation is essential to the growth of the hair as well as to its color and fineness. A frequent, vigorous brushing with a stiff brush is the best method of obtaining this.

A writer upon the complexion says the best way to treat freckles, a sure cure in all but very obstinate cases, is to touch them night and morning with a camel's hair brush after dipping it in lemon juice.

For a greasy skin nothing is better than the combination of an ounce of dried rose leaves, half a pint of white wine vinegar and half a pint of rosewater. Let the vinegar stand on the rose leaves for a week, then add the rosewater. Use a tablespoonful in a cup of distilled water.

A Geological Fallacy.

Probably the most wild and unjustifiable of all the crude beliefs respecting geological resources is that which holds to the conviction that by going deep enough the drill is sure to find something of value, no matter at what point the work of boring is commenced.

There are numerous wise persons in every community, estimable, influential and in the highest degree public spirited who are convinced that the question, for example, of finding coal in their special locality is simply a matter of the depth to which the explorations are carried. Rock oil and natural gas are recognized as desirable products in every progressive community, and every such community contains persons in other respects intelligent who are ready to stake their own fortune and that of their nearest friends on the belief that oil and gas are everywhere underneath the surface and that their sources can be tapped with the drill provided only there is sufficient capital to keep up the process of drilling long enough.—Mines and Minerals.

Professional Shoppers.

Professional shoppers are employed by a certain large firm of London drapers to test the abilities of shop assistants. This firm owns over thirty large shops and employs nearly 1,000 assistants. To find out whether every customer is politely served a number of lady customers are employed to call at the various shops. They are told to give as much trouble as possible and sometimes to leave without making a purchase after looking at nearly everything in the shop. Should the unfortunate assistant's temper not be equal to the strain, or should a single word be said that might offend, a report will infallibly reach headquarters and lead to the dismissal of the sorely tried handler of silks and ribbons.

An Example.

"After all, it isn't the big troubles that bother a fellow so much; it's the little things that annoy us most."

"That's right. Why, they say a hornet's sting is only one-thirty-second of an inch long."—Philadelphia Press.

CONFEDERATE DAUGHTERS

They Meet at Wilmington in Eighth Annual Convention.

Wilmington, N. C., Nov. 14.—The eighth annual convention United Daughters of the Confedercay was called to order here Wednesday by Mrs. Edwin Wood of Jacksonville, Fla., the president. About 175 officers and delegates are in attendance, representing every southern state and several states in the north.

During the morning session the visitors were welcomed in behalf of Cape Fear chapter by Mrs. Wm. Parsley, president; in behalf of the city by Mayor A. M. Waddell, and for the state by Charles B. Aycock. Mrs. Wood, president of the convention, responded.

Mrs. Stonewall Jackson of Charlotte, N. C., who is the guest of friends in the city, was formally introduced to the assemblage and was accorded an ovation.

Miss Adelia Dunavont, historian of the Texas division, closed the morning session with an address upon "Principles in Their Relation to Human Action," the same being an able defense of secession.

Mrs. Cornelia B. Stone of Galveston presented, on behalf of Mrs. M. R. MacGill of Rosenburg, Texas, a handsome silk flag as it was first adopted by the Confederacy. The staff is surmounted by a Maltese cross, an emblem of Maryland, the native state of Dr. Charles MacGill and Mrs. Ragan MacGill, for whom the flag is designed as a memorial.

The business session was entirely taken up with a settlement of a controversy over the representation to be allowed each division incident to the report of the credentials committee.

Wednesday night the visitors were guests of the local chapter at an elabroate reception at the Orlon hotel.

TERRORIZED A TOWN.

Robbers' Unsuccessful Attempt to Rob an Ohio Bank.

Wapokoneta, O., Nov. 14.—A bold attempt was made late Tuesday night to rob the Citizens' bank at Minster by a gang of 12 or 15 men, who held up the citizens of the town in regular western style. The robbers, well armed with revolvers and shotguns, suddenly appeared on the main street and fired half a dozen shots. They broke open the doors of the bank building, and attempted to blow open the safe with nitroglycerin, but failed to reach the inner vault, which contained about $10,000.

In the meantime the marshal and night watchman opened fire on the robbers from a second-story window across the street from the bank. The robbers returned the fire, and also fired at all citizens who appeared on the streets. Over 100 shots were exchanged. Becoming frightened, the robbers jumped into their rigs, previously stolen and drove rapidly away.

FIGHT WITH OUTLAWS.

Oklahoma Officers Attack Masked Men Who Fight and Escape.

Guthrie, O. T., Nov. 14.—A pitched battle was fought late Tuesday between deputy sheriffs and citizens on one side and a band of outlaws on the other, near Piokee, a village of Kay county. The officers state the outlaws to be some of the escaped prisoners from Leavenworth.

The battle was the result of an attempt made by the outlaws, who were masked, to steal several horses in that neighborhood.

Several of the combatants are reported wounded. Officers in all sections of Oklahoma have been notified and the escape of the gang seems impossible.

MINE DISAPPEARS.

A Plant Near Joplin Swallowed up by a Cave in the Earth.

Joplin, Mo., Nov. 14.—In a cave-in at Oronogo, near here, the entire plant of the Aurora Mining company was swallowed up. No lives were lost. The plant comprised a hundred-ton mill, office building and engine house, all of which were engulfed, together with six gravel cars and an immense tailing pile. On entering the mine a short time before the cave-in occurred, workmen heard the timbers cracking and signalled to be drawn up. The last man had reached the surface only a few minutes when the timbers collapsed, the earth yielded and with a crush the whole plant sank into the abyss.

Relying upon Dickinson.

Washington, Nov. 14.—Such information as comes to the state department from Sofia and Constantinople is confirmatory of the press reports of Mr. Dickinson's negotiations with the Bulgarian government touching Miss Stone's case. It is believed that the Consul General's efforts to secure Miss Stones release by negotiations with the brigands without interference by the Bulgarian government will be successful.

It is apprehended, however, that his declination to permit the Bulgarian government to exert its police authority to effect the capture of the kidnappers, Mr. Dickinson may have absolved that government from any legal liability on account of the amount of money which must be paid over as ransom to secure Miss Stones release.

Delegates Gathering.

Fort Worth, Tex., Nov. 14.—The delegates to the twenty-eighth annual convention of the National Women's Christian Temperance Union are gathering. There are fully 150 of them here. They represent many states.

HIS STORIES CONFLICT

Rathbun Tells Tale after Tale and Then Repudiates Them.

OFFICERS PUZZLED.

The Identity of the Dead Man Remains Unsolved, but its Is Almost Sure it Is Not the Body of Rathbun as it Was Claimed.

Louisville, Nov. 14.—Newell C. Rathbun, who was arrested here on suspicion of having caused the death at Jefferson, Ind., of Charles Goodman, who was found dead in a hotel in that city last Thursday, death having resulted, it is supposed, from laudanum poisoning, is in Indiana in the Clark county jail, on a charge of murder. Under instructions from the war department at Washington, Rathbun, who is a deserter from the U. S. Army was late Wednesday night turned over to the Indiana authorities and taken across the river.

Rathbun who told the Louisville police Wednesday that his wife at Little Rock had known of his plan to defraud the insurance company, though not of the murder feature of it; now denies such a story.

Other features of the case is a decision of the authorities to have the body of the supposed Goodman returned to Jeffersonville from Little Rock for autopsy and identification and the refusal of the local authorities to send Rathbun to Little Rock to testify at the coroner's inquest of the corpse that was shipped there.

Conflicting stories told by Rathbun make the case more mysterious than ever.

One of the most perplexing features of the case, as it now presents itself, to the police, is in regard to the real identity of the prisoner here. That he has been passing himself over the country under the name of Newell C. Rathbun, that he was married at Little Rock under that name, and was there insured for $4000, appears to be certain, but the detectives are convinced that it is an alias and that he has never told his real name or his real home.

THE CORONER'S INQUEST.

Only One Witness Declared He Believed the Body Rathbun's.

Little Rock, Nov. 14.—In order to establish the identity of the man under arrest at Louisville, Ky., and said to be Newell C. Rathbun, Deputy Sheriff A. B. Chichester has left for Louisville, accompanied by Emil T. Gloeckler, who knows the real Rathbun.

Coroner Young has taken testimony touching the identity of the dead body sent here as that of Rathbun. Charles McKown, whose wife is a sister of Rathbun's wife, testified that he was well acquainted with Rathbun. He had looked at the body and thought it was undoubtedly that of Rathbun. He said that his wife had told him that Rathbun had had his moustache shaved off two days before he left here eight weeks ago, but that he had never seen him with his moustache off. Witness received the remains at the depot Sunday morning and had them conveyed to his house on Third and Cross streets. When the coffin was opened Rathbun's wife viewed the remains and said, "That's my darling." The first intimation he had that anything was wrong when Mrs. J. C. Watkins came to his house Sunday, and, after looking at the body, said it was not that of Rathbun. McKown said there had never been any doubt in his mind but that the body was Rathbun's.

Chris. Elkins testified that he knew the man who was here as recruiting sergeant, and who gave the name of Rathbun.

He saw the body and noted some resemblance, but could not state positively whether it was Rathbun or not. Rathbun had a prominent dimple, which the dead man did not have. He also thought the hair of the corpse was a shade lighter than that of Rathbun.

William O'Connell testified that there might be a slight resemblance between Rathbun and the corpse from the nose up, but he was positive the corpse was not that of Rathbun. He never saw the dead man before. He stated that he would recognize Rathbun with his moustache off, and was certain that the dead man was not Rathbun.

Durand Whipple testified positively that the dead body here was not that of Rathbun.

Rathbun's wife did not appear before the coroner's jury in response to the summons served upon her. She has been in a condition of nervous prostration for several days. The taking of further testimony was postponed.

Mill Men Indicted.

Jaskson, Miss., Nov. 14.—The federal grand jury of the United States court of the southern district of Mississippi has indicted a large number of cottonseed oil mill directors and other cottonseed oil officials, alleging violation of the federal statues of July 2, 1900.

This statue announces combinations and the indictment alleges that the oil mill officials have conspired in writing to control the prices of cottonseed and cottonsed products.

CUBAN CAMPAIGN.

Gomez Will Support Palma in the Presidential Race.

Havana, Nov. 14.—A majority of the Nationalist and Republican parties have united on Senator Tomas Estrada Palma for president of Cuba, the decision being reached at a joint meeting presided over by General Maximo Gomez. A banquet followed the meeting. It was attended by many prominent leaders. General Gomez has made some strong speeches in the interest

MAXIMO GOMEZ.

of Senor Palma and will stump Cuba for him if necessary. Senor Maso's followers are making desperate efforts to kill Palma's influence on the plea that Senor Palma is not the friend of the revolutionists nor of the poorer classes. They even assert that Senor Palma is not a Cuban citizen, having failed to renounce American citizenship. Senor Maso's campaign is not without effect, but it is believed the influence of General Gomez will overcome opposition.

MANY LIVES LOST.

Gales on the Coast of Great Britain Exceedingly Disastrous.

London, Nov. 14.—The gale which has been sweeping over Great Britain and Ireland for the past two days continues unabated at many coast points. Over Welsh lowlands torrential rains are increasing, causing disastrous floods and reports of wrecks and casualties continue to flow in. Death list, made up of threes and fours, has an aggregate approaching 100.

The mail boat Nord from Dover for Calais which ran down a light-ship has succeeded in returning to Dover. The mails and pasengers are safe. The crew of the light-ship saved.

A French bark was struck off Hendon, 19 of the crew drowned.

Numerous wrecks are reported, but weather in most cases prevents identification of craft.

Revenue cutter Active was wrecked in the Firth of Forth. Twenty-three of her crew were drowned, three only saved.

Dead in the Woods.

Terrell, Tex., Nov. 14.—The remains of H. G. Wright, an asylum patient, were found in a thicket two miles north of this city Wednesday in a bad state of decomposition by a party of hunters from this city. The deceased was about 42 years old and had been an inmate of the asylum for eleven years, having been brought here from Upshur county in 1890. He worked about the asylum barn was was a "trusty." He escaped from the asylum grounds last week. It is supposed that he killed himself, as a large knife was lying by his side and this throat was cut when found.

Filing on School Lands.

Guthrie, O. T., Nov. 14.—In response to a notice served by the Ottumwa Oil and Development company of Ottumwa, Iowa, that it intended developing mineral claims on territorial school lands, Attorney General Strang Wednesday gave out an opinion declaring that school lands were not subject to entry under the mineral laws, and all persons attempting to hold mineral claims thereon would be ejected by the territory.

JORDAN-ST. CLAIR COMPANY.

STEPHENVILLE.

From the Tribune.

Capt. W. C. Ready has moved with his family from their former home near Thurber to this place.

Marion Turner came in Monday from the state of Washington, where he has been engaged in the lumber mills. Last summer a kiln of lumber toppled over on him and broke a number of bones, but he has now recovered from the effects.

Mrs. Ed Wallace and family, of Collingsworth county, have recently visited Jack Wells and family, near Lingleville.

Clarence Chambers, who was arrested near Atlanta, Ga., some time ago and brought back here on a charge of seduction, has married the young lady and been released.

While engaged in sewing one day last week, Mrs. Mollie Fulkersen had the misfortune to run a needle through the end of one finger. The needle broke and left a portion of it in the flesh, necessitating a slight operation.

Mr. and Mrs. Will Witcher left Monday for Henrietta, where they will reside permanently.

W. H. Main has sold his bottling works to Mr. Houk and Richard Frank for a consideration of $2000.

N. J. Shands has recently returned from Motley county, where he has been prospecting for grass land for his cattle.

Rev. R. S. Hizen, of Merkel, stopped here recently to visit his sisters, Mrs. S. J. Baker and Mrs. N. J. Snapp, who reside west of town. He was pastor of the Methodist church here fourteen years ago.

Mrs. Mary J. Johnson, aged sixty-three years, wife of Rev. James M. Johnson, died at the family home in the Oak Dale community Tuesday night. Her husband died several years ago, but three sons are surviving.

W. G. Caldwell, foreman of the oil mill here, had his right arm painfully lacerated and bruised by being caught in a seed elevator at the mill one day this week. The elevator had become choked and he was cleaning it out, the machine being propelled by some of the men. Even as it was, the muscles between the elbow and shoulder were almost cut in twain.

"Uncle" Harvey Keith, a pioneer citizen of Erath county, died at his home on Alarm creek Friday, Nov. 8th, at the age of seventy-three years. He removed from Titus to Erath county in 1859, and bought land at the place where he died, but when the civil war broke out he enlisted in the Confederate army and removed his family to Dublin, then but a small settlement, where the people of this section had a habit of concentrating to protect themselves from Indians.

The question is not whether the citizen shall take an interest in politics. All are agreed that he should. The question is whether he should permit the men who live by politics alone to sift him as wheat; to use him in season and out of season a catspaw to rake out fat nuts to satisfy their own appetites. The question is whether it is necessary and wise to run all to partisan politics. The News takes the negative.—Dallas News.

If you have sore throat, soreness across the back or side, or your lungs feel sore or tender, or you are threatened with diptheria or pneumonia, apply Ballard's Snow Liniment externally, and use Ballard's Horehound Syrup. Clay Drug Co.

The most independent man on face of the earth is the laboring man with a fairly good job. The day laborer or farmer can lay off whenever he feels unable to work and he does lay off, but the poor newspaper editor is compelled to work whether sick or well. His work is a steady grind, for "the ends must all be kept up."—Brownwood Bulletin.

Infant mortality is something frightful. Nearly one-quarter die before they reach one year, one-third before they are five, and one-half before they are fifteen! The timely use of White's Cream Vermifuge would save a majority of these precious lives. Price 25 cents at Clay Drug Co.
