## Talent Contest Planned

# County Farm Bureau Queen Will be Chosen Saturday

Beauties of Collingsworth will again compete for the title of County Farm Bureau Queen on Saturday night, Sept. 10, with the winner seeking to follow the footsteps of past county queens to the state championship. Six girls were entered in the contest at noon Tuesday:

Linda Kay Elbert and Sheri Gibbs of Wellington; Betty Moseley, Linda Jenkins and Jackie Hill of Quail, and Kay Norman of Dodson.

The deadline for entering is Friday evening, when the contest rehearsal will be held, Dee Burba, Farm Bureau manager, said.

Included with the contest for the first time, if there is sufficient interest, will be the Farm Bureau Talent Contest. The winner on the county, district and state levels will attend the national meeting of the Farm Bureau, just as does the Texas Farm Bureau Queen.

Girls with musical or any other talent who wish to compete in the contest, will have until Friday evening to enter, according to Monty Mitchell, who is helping with plans.

N. E. Childers will be in charge of the contest, which will be held at the community building, beginning at 8 p.m. Mrs. Lowell Wells, director of music in the Quail schools, will present the program, which will include numbers by her students.

Each girl entering the Queen contest will be judged on poise, personality, and other qualities. She also will give a one-minute talk on why her family belongs to Farm Bureau.

Mitchell pointed out that in the seven years the Farm Bu-

reau contest has been conducted, Collingsworth County has had six girls who placed in either first or second place on the district level.

Payton Peoples went on to become Texas Farm Bureau Queen, and her cousin, Kay Peoples, was runner-up in the (Continued on back page)

## Motorists Get Warning on School Zone

Police Chief Troy Marsh warned motorists this week to observe the school zone speed limit of 15 miles per hour in the area of the Wellington schools.

This zone is along 15th Street, beginning at East Avenue, just east of the high school, and extending west to Paso Street, west of elementary school.

The 15-mile-per-hour speed limit is in effect around the clock, but motorists should be especially careful between the hours of 8 a.m. and 4:30 p.m., when children are in school, coming or going.

The zone also extends one block north and south of 15th (Continued on back page)

## Farm Tour to Visit Test Plots Thursday

The annual tour of the on-the-farm demonstration plots gets under way at 9:30 a.m. Thursday, Sept. 8, when buses leave the south side of the court house, County Agent Bob Lynch reminded.

Four demonstrations will be visited, at the Heber Brantley farm north of Wellington for cotton variety tests; Jack Aaron farm at Rolla for fertilizer tests; Cecil Shanks farm south of town for grain sorghum variety tests; and Marvin in Clubb farm, Fresno, for the Johnson grass control tests.

County business men as well as farmers are urged to make the tour.

Two men who have worked consistently with the Youth Project Show for a quarter of a century were honored at a short program at the new Livestock Barn Saturday morning, Sept. 3. Receiving awards for their services were Cameron Beam, second

# Rockets Open Season Fri. Against Strong Hollis Team

The Wellington Skyrockets open season play against the Hollis Tigers, one of Oklahoma's top rated teams, in a Powell Field game Friday, Sept. 9 at 8 p.m.

Rockets will be in good physical condition and spirits are equally high, Coach Frank Lindsey said, after he and assistant Ed Bawcom had reviewed the results of pre-season practice sessions.

The Tigers lost only two men from last year's team, and are already picked to rank second in the state of Oklahoma in their class.

They returned recently from their Craterville training camp and took on the Lawton Wolverines, a double tough team, in a pre-season scrimmage.

Coaching the Tigers are Tex Selvidge, in his second year at Hollis, and Bill Cummings. Rocket injuries are about healed and practice is putting the boys in good condition, Coach Lindsey said.

The Rocket band will make its first appearance under its new director, Tubal Cain.

Coach Lindsey this week an-

nounced the probable starters: Center, Rommie Forbis; guards Bobby Antoon and Leo Russell; tackles, Leon Bawcom and Ronnie Rudy, or Ralph Coburn and Bobby Winton; ends, Weldon Cleveland and Granvel Killian; quarterback, Richard

Mauldin; halfbacks, Gary West and Bill Estes; fullback, Gary Holliman.

The defensive starting lineup will see Jackie Daves, Glen Lacy and Freddy Watkins in the backfield, and Charles Floyd as guard.

## Tours of Plant

# General Telephone Plans Open House

Wellington area residents will visit behind the scenes of the General Telephone Company office here during open house Tuesday, Sept. 13, Roy Brewer, district manager, announced this week.

It is being held at the office building from 1 to 6 p.m., in order that visitors may see the new dial equipment.

Company officials and employees will be present to conduct visitors on tours through all parts of the office, explaining the functions of the new equipment, and how the dial system works "behind the scenes."

Also here for the open house will be the company's Showmobile, which will have the latest developments in the telephone communications field, such as automatic dialing, multiple dialing, and others. "This is our invitation to all

of the people in the Wellington, Dodson and Quail areas—those sections served by the Wellington office—to visit us at the open house," Brewer said.

Refreshments will be served and each visitor will receive a souvenir gift.

## Memphis Here

# Washington School Plays First Football

The Booker T. Washington high school will play its first football game in the history of the high school here at Powell Field Saturday night, Sept. 10, against Memphis.

This is the first game of the season; however, Memphis has had a year or two of playing experience.

Person, coach at Booker T., said he had 22 boys report for football practice and they have been working hard and he expects a good game Saturday night, even though they have had no playing experience.

Probable starting lineup as announced by Person is Samuel Shoad, left tackle; Bobby Joe Powells, right tackle; Terry Jones, right guard; Payton Mallard, left guard; Calvin Edwards, center; Curtis Carr, left end; Jesse Bailly, right end; Joe Price, full back; Aubrey Nickelberry, right halfback; Melvin Moore, left halfback; and James Price, quarterback.

Reserve players are David Richardson, tackle; Webster Carter, end; J. B. Price, fullback; Sherman Carter, end; Odell Meadows, fullback; Roscoe Meadows, tackle; Bonnie Ray Weatheron, guard; Harry Ingram, guard; Jesse Cullpepper Jr., guard; Charles Hayes, back, and Calvin Roland, tackle.

## Harry McEwen Soil Scientist With SCS Here

Soil Conservation Service has assigned Harry McEwen of Canadian as soil scientist with the unit here, to work in Collingsworth and Wheeler counties.

He held a similar place at Canadian three and a half years, working with the Hemphill, Ochiltree and Lipscomb Counties Soil Conservation districts.

McEwen succeeds Paul Mohle who joined his family on the staff of the Lockhart Post-Register. He and Mrs. McEwen and their three small sons have moved here and are living at 1307 West Avenue.

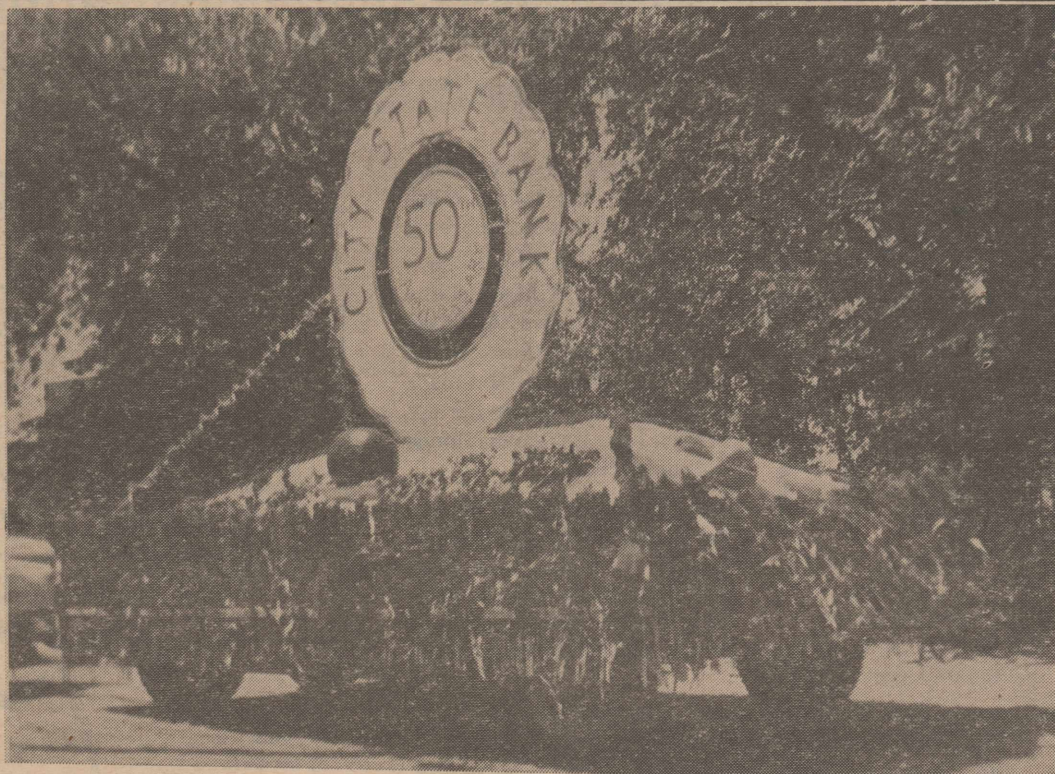

McEwen is in charge of the Collingsworth County Standard Soil Survey, which will be used in conjunction with soil conservation work and also as part of the nation-wide land survey now under way. This survey is due to be completed in 1964 and will record such information about the county's land as slope, texture, permeability, previous erosion, yield data and capabilities.

This information will be available to land owners, Soil Conservation Service, and other agencies needing it.

McEwen is a native of Alvin, near Houston. He received his bachelor of science degree in agriculture from Texas Tech in 1954 and after joining Soil Conservation Service, was stationed at Childress and Pampa before going to Canadian.

Mrs. McEwen is the former Jerrie Monarch of Alvin. She attended North Texas State. They have three sons, Jimmy 7, Wayne 6, and Dale 3.

In Canadian they were active in the Methodist Church and PTA. She belonged to Epsilon Sigma Alpha and the Wesleyan Guild. McEwen worked with Boy Scouts and referees football games, being a member of the Southwest Conference Association. He also was a member of the Lions Club.

## WINNING FLOAT

This float won for City State Bank first place in the parade that opened the two-day Collingsworth County Free Fair Friday, September 2. The emblem atop the float reminds that

the bank is observing its golden anniversary. Around the outside are headed stalks of grain sorghum and agricultural products and vegetables were on the four sides.

## More Fair Stories, Pictures, Due in Next Week's Paper

Additional County Fair material and pictures will be printed in next week's Wellington Leader.

Due to lack of space, not all lists of winners and pictures of all departments could be included in this issue.

### An Interesting and Educational Morning

Farm readers and business men are again reminded of the tour of the On-The-Farm demonstrations which will be held Thursday September 8 from 9:30 till noon. These tests are invaluable for they enable us to know what different varieties of grain, cotton and grass will do right here in our own county with our soil and our rainfall.

The demonstrations are not permanent, but are set up on a year to year basis. Therefore it is important that an interest be shown in these projects not only by the farmers but by everyone living in this agricultural community.

The tour Thursday will include an inspection of new varieties of cotton and grain, experiments in the use of fertilizer and noxious plant control methods. It should be an interesting and educational morning for those who attend.

### Alaska Retains Historic Capital

The big issue in the Alaskan primary last week was not so much who were the winning candidates but whether the capital of our 49th state was going to be changed. Juneau, the historic capital of the territory, was challenged by Anchorage, a city three times the population of Juneau and, further bolstering its claim, more centrally located with respect to the other cities in Alaska. But historic tradition appealed to the Alaskans and the Anchorage petitioners failed to muster a majority. Juneau remains the capital.

Texans, likewise, retained their capital where it was established during the republic after the admission into the Union. But Texans had no traditional ties with Austin for the capital was established there as late as 1840 by an act of the Congress. As a matter of fact, Texas has had more different capitals than any other state in the nation.

Under the Spaniards, it was variously located at San Antonio, Saltillo, Monclova, San Felipe de Austin and, even earlier, at Los Adaes near present Robeline in Louisiana. And in the uncertain days of the republic it was moved about from Washington-on-the-Brazos, Harrisburg, Galveston, Velasco, Columbia and, for three years, to Houston. Where now the Rice Hotel stands, our state was ruled from 1837 to 1840. And where the Scanlan Bldg. stands, bold Sam Houston had his White House. —Houston Chronicle

### Juveniles Get Solid Advice

Perhaps, after all, the real trouble with the juvenile malefactor is simple his juvenility. He is immature, underdeveloped; he has not grown up. This fact was spotted by a Denver juvenile court case worker whose open letter on the subject of juvenile delinquency was picked up for distribution by the Houston Crime Commission. Said this unsung case worker to the juvenile: "The world does not owe you a living. You owe the world something. You owe it your time and energy and your talents so that no one will be at war or in poverty, or sick or lonely again. In plain words, grow up; quit being a cry-baby; get out of your dream-world; develop a backbone, not a wishbone and start acting like a man." Good advice, and there are grown-ups who could follow it with profit. —Houston Chronicle

## New Hope For Hard of Hearing

Boston, Mass., Aug. 15, 1960—Something new has just been announced. It is an electronic development designed for those who hear but who do not understand words. There is nothing in either ear. No dangling cords. No tubes. The sound vibrations are conducted right through the bones of the head to the inner ear and right to your center of understanding. We have termed this process "Vibratory Sensory Conduction" — truly secret hearing.

The manufacturer has been able to produce a hearing device so small that many who wear it report "No one knows I have a hearing deficiency." It is said to be very reasonably priced.

### Free Hearing Consultation

King's Courts, Wed., Sept. 14, 9:30 to 12:30

No appointment necessary. Mr. George Grey, a qualified Hearing Aid Consultant, will gladly make a FREE test and analysis of your hearing.

The new instrument is manufactured by Audivox, Inc., Successors to Western Electric Hearing Aid Division and makers of "The hearing aids your doctor knows."

Further information and details may be obtained by writing to Audivox of Amarillo, 2710 W. 10th, just west of Georgia on Tenth, or call by phone DR 4-0722.

## CROSSROADS REPORT

Dear Editor:

I see where Mr. H. L. Hunt, the super-millionaire, says the more taxes a citizen pays, the more votes he ought to have in each election.

Which system likely won't be popular with the politicians, on account of it might tend to chaote the vote market.

And my foiled voter neighbor says the idea does not appeal to him either, because right now there are none of the politician-sponsored national candidates that he wants to vote for once, let alone five or six times.

I see where a law school is aiming to commence teaching English, and maybe develop a new breed of lawyers who can write legal documents which just people can understand.

My non-filtered thinking neighbor says if laws and contracts and other legal stuff get written in plain English it might make lawyers as obsolete as side-saddles.

Which he figures would bring up another surplus problem, and says while we could store some more of this legal glib in Congress and state legislatures, no doubt we'd have to put up extra bureaus to warehouse the rest.

I see where a newspaper writer is kind of sarcastic about our U.S. Senators having some little hide-outs built into their old office building, where tired law tinkers can

move here from Fort Worth. He will work for the Farmers Supply Company.

Bill Godfrey left Sunday for Roswell, N. M., where he will attend school again this winter.

J. B. Castberry and L. C. Jones attended the Fordson tractor demonstration at Amarillo Thursday.

hole-up for refreshful naps.

My rebutter neighbor says we hadn't ought to begrudge our hard-working Senators their modest comforts and conveniences.

Says, after all, there is lots of wear and tear on them, and it's only fair for us taxpayers to furnish comfortable places where they can sleep off their spending jags.

I note that abstract art seems like is getting more popular all the time, and the more doodulous a painting is, the better price it brings.

My Nature-fan neighbor says he has always allowed that the Creator knew better how a man or a tree ought to look than some disturbed painter, but he is beginning to worry.

Says this hog-wild art must be a form of brain-wash, and he is about ready to have his head examined, on account of he is commencing to sort of like the stuff.

I see where the books show there are now about 1,500,000 more women than men in the U.S. and the gap getting wider every year.

And some hair-trigger worriers even figure this situation may get so bad that men will have to be allotted two or more wives each.

But my oh-no neighbor says if the woman surplus is really a problem, there ought to be some more humane solution than triple-harness.

I see where the horticultural meddlers are now bragging about how they have developed a compact watermelon.

But my deploresome neighbor says it will plumb ruin the sociability of the watermelon supper to serve each participant with his own individual one-man watermelon.

Says it just goes to show how the compulsive world-warpers are trying to change all of the old familiar institutions, such as the Republican and Democratic parties, and now even the watermelon.

## LETTERS from the People

Dear Deskins:

I am writing you this letter and hoping you will print it in big letters.

From childhood I was taught to honor the flag, and as a veteran of World War II I respected it even more. During the parade in Wellington Friday, I did not see one soul take his hat off when the flag passed. Now I am sure I could not view the entire crowd, but I could certainly see a large portion of it.

Why is there no respect shown for our flag when it is used in public celebrations today? What is wrong with our people? Is it ignorance or indifference; have they forgotten the boys who died for our flag? Sadly enough one can see this same lack of respect on so many occasions when the national anthem is being played or the colors are passing.

If we are not going to honor our flag, let's don't use it.

Sincerely,  
W. H. COOKE III

Gasoline taxes up 51% in ten years

Federal tax to 4 cents a gallon, in addition to the State tax of 5 cents a gallon.

Looking at it another way, in the last ten years gasoline taxes have skyrocketed 51%—yet the price of gasoline itself has risen only 5.5% during the same period.

**\$78 a year for gasoline taxes!** Gallon by gallon, these taxes add up to a lot of money. Each year the average motor vehicle owner in this state pays \$78 for gasoline taxes alone. That's just a few dollars less than the average week's pay for most people!

Everywhere in Texas, car owners pay 90¢ tax on every 10 gallons of gasoline they buy.

Does a tax this high—on a basic commodity like gasoline—really make sense? Gasoline taxes across the nation amount to a 50% sales tax—and that's five times as high as the tax rate on luxuries like diamonds and mink coats.

How did gasoline taxes get so high? Well, since World War II, there have been three increases in the federal gasoline tax alone. This brought the

**HIGHWAYS AND GASOLINE TAXES**

Your gasoline retailer, naturally, favors construction of the roads that the motoring public needs. He believes in fair and reasonable taxation for this purpose but feels that taxes on gasoline have now reached unreasonably high levels. He also believes that all special taxes on the motorist should be used only for highway purposes. Yet last year, out of every automobile tax dollar collected by the Federal Government from highway users, more than 40 cents went for non-highway purposes. If these automotive tax revenues were dedicated for highway purposes, there would be no need for the latest increase in the federal gasoline tax.

# Deck's DIDACTICS

—By Deskins Wells

The free fair last year was better organized than the first one in 1958, but the fair last week was definitely superior to the first two. In the first place it was more conveniently located than in former years. The exhibits were better, the parade was both better and longer and as usual entered the square exactly on the minute, and the quarter horse show would have been a credit to any sized city. As usual the terrapin races created a bunch of fun and incidentally took in quite a bunch of money, as did the other concessions. Congratulations are in order for everyone who had a part in promoting and arranging this outstanding exhibition. Here's looking forward to a greater fair in 1961.

There was one sour note as set forth in a letter from Bill Cooke III on the editorial page, but it had nothing to do with those who arranged and managed the fair. It was due to the thoughtlessness of some of the spectators. It was the failure of too many men to remove their hats when the flag went by. In the block from which I viewed the parade it was not as bad as Mr. Cooke says for the majority did uncover as the flag went by, but even at that location there were enough who left their hats on the fill you with chagrin.

The Rockets meet the Hollis Tigers in their game at Powell Field Friday night. Like Shamrock, Wellington has a limited number of reserves but they will field a strong starting team with a limited number of excellent reserves who will see about as much action as the starters. Make your plans now to attend the first game of the season.

Somebody asked me where I got those old time cowboy sayings. They come from John Justin Jr., the bootmaker. One of his hobbies is collecting these sayings in an effort to record the colorful language of them and would like to get more. Here are a few more:

Cowboys referred to a heavy

rain or cloudburst as a "goose drownder."

Old-timers in the Southwest called a paint or pinto horse an "Indian pony," since he was the favorite of the Indian because of the savage's love of color.

On the western frontier, the woman of the saloons and honky-tonks was called a "calico queen."

The "Oregon puddin' foot" was a type of horse which was developed when a riding horse was crossed with a draft horse. This type was developed in Oregon for mountain work.

A highlight of the Samnorwood Lions Club program has been building the new park, located on the old rodeo grounds. This is equipped with facilities for barbecuing, and it is a gathering place for groups of the northern half of the county.

The club has mapped three rural cemeteries in the school district—Dozier, Plymouth and Needwood. Glasses are provided for needy school children, and the elder citizens are remembered with a good-will program which includes Christmas caroling at their homes during the holiday season.

Miss Virginia Graves of Amarillo and Mr. and Mrs. Jimmy Graves and family of Alamogordo, N. M., visited their parents, Mr. and Mrs. Allen Graves, over the holiday week end.

## GOD'S WORD

Bible Question: Why do not preachers of the Church of Christ use the word Reverend as a title?

Because Jesus said, "But be not ye called Rabbi: for one is your teacher, and all ye are brethren. And call no man your father on the earth: for one is your Father, even He who is in Heaven. Neither be ye called masters: for one is your master, even the Christ. But he that is greatest among you shall be your servant. And whosoever shall exalt himself shall be humbled; and whosoever shall humble himself shall be exalted." (Matt. 23:8, 12). Religious titles are therefore Condemned. We are brethren and are not to exalt ourselves with religious titles.
