

Weather Satellite Is Hurled Into Orbit; Photos Returned

By HOWARD BENEDICT-CAPE CANAVERAL, Fla. (AP)—The United States put a new weather satellite, Tiros IV, into orbit today, and its cameras and electronic equipment promptly began sending back photographs of the earth's cloud cover.

A 90-foot Thor-Delta rocket, blasting off from this base at 7:44 a.m., put up the 285-pound satellite.

In Washington, the National Aeronautics and Space Administration announced shortly before 11 a.m. that pictures of cloud cover had been received, and that "indications are that these are good."

A spokesman for the space agency said pictures were received at 9:32 a.m. at the Wallops Island, Va., monitoring station.

Officials of Radio Corp. of America said pictures from the satellite were also received at their Princeton, N.J., station.

A spokesman for NASA said these pictures were made during the satellite's first whirl around the earth. In this initial orbit, he said, the satellite was slightly tilted and the quality of pictures

would not be expected to be as good as those received during later orbits.

The job of putting up the satellite went smoothly.

At a news conference later, project official Robert Gray gave the report that all looked well. He said that radio signals from the rocket indicated all three stages performed normally.

He said signals were picked up from the payload by a station in Winkfield, England.

The target of the shot was an orbit path about 400 miles high. No definite conclusion as to whether orbit was achieved could be made ahead of the completion of the first 100-minute circuit.

The satellite is a tall, drum-shaped IV, almost identical to the three earlier weather-eye satellites. The major difference is an improved lens system in one of its two television cameras to reduce distortion and provide clearer cloud pictures.

Jayne, Mickey Found On Island

NASSAU, Bahamas (AP)—A U.S. Coast Guard search plane found today Jayne Mansfield, her husband and a friend on the eastern tip of Rose Island today.

The trio was spotted by a Nassau Development Board plane which notified the Coast Guard.

A chartered fishing boat, the "Blades," picked up the three and left for Nassau.

Their condition was not reported.

The search began Wednesday when the three, Jayne, her husband, Mickey Hargitay, and their Fort Lauderdale, Fla., companion, Jack Drury, failed to return from a day-long water skiing trip.

The U.S. Coast Guard at Miami, Fla., sent a big Albatross amphibious plane at dawn to help Bahamas rescue units and volunteer yachtsmen sweep the seas in the area and scan the nine-mile-long, half-mile-wide island which has no telephones and only two or three seldom-used cottages.

Searchers hoped the missing trio, strong swimmers, made Rose Island.

The capsized boat—which re-

JAYNE MANSFIELD ... found on island

sembled the 16-foot outboard that towed the water skiers out Wednesday noon—was found afloat bottom-up a quarter-mile off the island at sundown by a fisherman.

The steering shaft bracket was broken.

The veteran charter boat Captain Milton Pearce examined it at Nassau and said, "There's no doubt this is the boat they went out with."

Pearce said the 16-foot "white outboard craft was the only such boat for hire by its owner, who rented his craft to the water skiers.

The break in the steering column bracket was fresh and the boat could have been steered with the fitting broken," Pearce said. "I don't know how the break occurred."

Pearce said a gasoline tank which was in the boat when it departed Nassau apparently had drifted away.

"I went down to look at it and it looks like their boat," said Carl Livingston of the Bahamas Development Board who watched the water skiers push off.

Jayne, in a brief swimsuit, and Hargitay, a former Mr. Universe, had skied gaily out of Nassau behind the outboard motor boat driven by Drury.

Mine Blast Death Count Reaches 279

SAARBRUECKEN, Germany (AP)—The Saar State Mining Office announced today that 279 miners were killed and approximately a score are still missing in one of Germany's worst coal mine disasters.

A spokesman said 275 bodies had been removed from the tragedy-stricken Luiseenthal mine explosion, and four men had died near here, and four men had died in hospitals. Another 81 miners are in hospitals, many in critical condition.

The spokesman said 100 men escaped unhurt from Wednesday's explosion, and cave-in leaving about 20 men unaccounted for among the 480 who were in the pit at the time of the disaster.

Efforts continued more than 30 hours after the accident to find the missing, who possibly are buried under tons of coal and rock.

The bodies of many miners were found burned, gasped or crushed under the debris of caverns from the massive fire-damp blast on the fourth level, 1,800 feet underground.

Earlier rescue authorities gave widely varying estimates of the number missing, because of the possibility that many survivors had not reported to the state-owned mine office.

Many of the rescuers were among the 200 miners who escaped when a sheet of flame shot through the main shaft and set off a terrific blast that sent timbers flying and brought tunnel walls and ceilings crashing down 1,800 feet below the surface.

"I felt like being hit by a giant's fist," said Georg Kneip, 21, who was in Gallery No. 2. "Grey, dirty" clouds filled the part of the Gallery I was in. I could barely see my hands even if I raised them to my face. The lamps at the top of our helmets

WAITING FOR WORD—Relatives and friends wait at the entrance of the Luiseenthal coal mine near Saarbruecken, Germany for news about miners trapped below. An explosion caved in large areas of the mine and reports from officials place the dead at 279 and 20 more miners missing. (AP Wirephoto via radio from Frankfurt)

Winter Spell Is Shrinking

Warmer and wet weather prevailed across broad sections of the nation today but winter's latest cold spell clung to northern parts of the Midwest and East.

Coldest weather in the Midwest with temperatures dropping to more than 30 degrees below zero.

In the Northeast, the frigid air dropped readings to nearly 30 below in Maine. Coldest spots were Millinocket, with -26 and Old Town, with a -14 reading. Temperatures in upstate New York were mostly zero to 10 above.

Four inches of fresh snow fell at Lowell, Mass., and in Waterville, Me., -25 in Pellston, Mich., and -20 in Eau Claire, Wis.

Outside the cold belt, increasingly mild and moist air from the West and Southwest brought warmer weather and caused widespread precipitation during the night in many areas.

WEATHER

SNYDER TEMPERATURES: High Wednesday, 73 degrees; low, 33 degrees; reading at 7 a.m. today, 33 degrees. North Central Texas: Partly cloudy through Friday. Warmer this afternoon. A little cooler Friday. Low tonight 42-50. High Friday 60-70.

Northeast Texas: Partly cloudy through Friday. Little change in temperatures. Low tonight 28 north to 45 south. High Friday 45-55.

South Texas: Partly cloudy to cloudy and mild through Friday. Widely scattered showers. Low tonight 55-65. High Friday in 70s.

Southwest Texas: Partly cloudy through Friday. Low tonight in 40s. High Friday in 70s.

Pollution Must Be Stopped, Manager Of CRMWD Asserts

By JERRY PILLARD

AUSTIN (AP)—An official of the Colorado River-Municipal Water District told the Texas Railroad Commission today that pollution in Mitchell and Scurry counties "must be stopped to safeguard the water supply of rapidly expanding West Texas."

E. Y. Spence, general manager of the district, told Commission Examiner Fred Young that the district tried a voluntary plan for oil operators to stop pollution, but it became evident we were not going to succeed along this line.

Spence said that the voluntary pollution abatement plan had been approved by the Railroad Commission to halt the alleged water pollution.

Spence said that the district plans a new dam and reservoir but a permit will not be issued by the Texas Water Commission until pollution in the southeastern part of Mitchell County is cleared up.

Spence said that it was not the intention of the district to "push anyone to make these corrections."

Writing in Aerospace, official publication of the Aerospace Industries Association, Webb said the flights would test man's ability to live and work in the space environment.

Webb said that beyond the Mercury program; a major launch scheduled for 1962 would be Oso, the orbiting solar observatory.

The 440-pound Oso satellite, 37 inches tall, will be stabilized so its instruments point continuously toward the sun. It will measure ultraviolet, gamma ray and X-ray regions.

Webb said that beyond the Mercury program; a major launch scheduled for 1962 would be Oso, the orbiting solar observatory.

The 440-pound Oso satellite, 37 inches tall, will be stabilized so its instruments point continuously toward the sun. It will measure ultraviolet, gamma ray and X-ray regions.

but the voluntary plan did not work.

Joe Carroll, attorney representing the Sharon Ridge Producers and Royalty Owners Association, asked Spence how much money had been spent on the pollution investigations.

Spence estimated from \$15,120,000.

Also testifying was Midland hydrologist Ed Reed, who performed much of the investigation for the district.

The district's application seeks to have the oil companies in the Sharon Ridge and North Coleman fields of Mitchell and Scurry

counties show why they should not have shells plugged.

The district had asked the commission to hear its application simultaneously with a similar application involving the same two fields.

"Pollution of usable water in these areas by salt water and oil field brines is seriously affecting the operation of the ... district in its operation of furnishing fresh water to the inhabitants of member cities of Odessa, Big Spring and Snyder," the application said.

The district requests that the commission order plugging of the wells.

Martin Enters School Race

Albert R. Martin today became the second candidate to file for a place on the ballot in the Snyder Independent School District trustee election.

Martin, a partner in Southwestern Brick and Tile Co. here, is seeking one of three posts on the board, which will be at stake in the April 7 election.

His petition for a place on the ballot was signed by Gilbert Fields, R. B. Sears, Roy C. Wood, M. L. Andrews and B. F. Pinnell.

The terms of Malven K. Stevenson, Lee D. Stone and William J. Schiebel expire this year.

March 5 is the deadline for candidates to file with the board secretary, E. D. Flynn, whose office is in the school administration building.

Republicans Have A Record Field

AUSTIN (AP)—Ninety Republican candidates, the largest number ever will seek election to the legislature, GOP state headquarters said Wednesday.

Among those running in the May 5 primary are 13 Republicans seeking nomination in 10 Senate races and 77 trying for House seats in 61 races.

Two incumbents, Reps. George Korkmas of Texas City and Kenneth Kohler of Amarillo, are included. They won special elections held before the last legislative session.

Flights Of 18 Orbits Scheduled

WASHINGTON (AP)—Two Mercury astronauts are scheduled to make 18-orbit flights this year, a space agency official says.

James E. Webb, administrator of the National Aeronautics and Space Administration, says each flight would keep an astronaut in space for 27 hours.

The orbits would be made at satellite velocities of about 17,500 miles an hour.

Writing in Aerospace, official publication of the Aerospace Industries Association, Webb said the flights would test man's ability to live and work in the space environment.

Webb said that beyond the Mercury program; a major launch scheduled for 1962 would be Oso, the orbiting solar observatory.

Site Is Selected For Nuclear Tests

WASHINGTON (AP)—The United States and Britain announced today agreement on Christmas Island in the Pacific as a site for U.S. nuclear atmospheric test programs. They also called for an East-West foreign ministers meeting on disarmament.

The proposal for a foreign ministers meeting was made by President Kennedy and British Prime Minister Harold Macmillan to Soviet Premier Khrushchev.

A joint U.S.-British statement said that foreign ministers of the three powers should meet in advance of the proposed 18-nation disarmament conference opening at Geneva March 14 and should also be ready to participate personally in the negotiations.

The aim of this foreign ministers effort would be to generate a "supreme effort" to bring the nuclear arms race under control, the joint statement said.

On the military side the two Western governments declared that the existing state of nuclear development would "justify the West in making such further series of nuclear tests as may be necessary for purely military reasons."

An important factor in the present state of nuclear development, the statement said, is the "recent massive Soviet tests."

"The United States and United Kingdom governments" the statement said, "have therefore decided that preparations should be made in various places and as part of these the United Kingdom government are making available to the United States government the facilities at Christmas Island."

Site Is Selected For Nuclear Tests

The island, which is a huge atoll, lies more than 1,000 miles south of Hawaii. It is in a lonely section of the Pacific.

Grand Jury Returns 13 Indictments

The Grand Jury, after two days of deliberation, has returned indictments in 13 of the 15 cases heard. One suspect was no-billed and one case was transferred to County Court.

Indictments of armed robbery were returned against Earl J. Crews and Joseph Monson Key. The pair are presently serving 40

in year sentences in Oklahoma. They were charged in Scurry County for the hijacking of a pickup from Mr. and Mrs. Joe Parks.

Johnny Hankins and Bobby Holman were indicted on a charge of assault with intent to murder. The charge grew out of the knifing of Doyle Sharp on the square the night of Jan. 12.

Wilbert Nelson Peebly was indicted on a charge of rape as a second offense and also on a charge of failure to stop and render aid after an accident. Also charged with DWI as a second offense were Ray Jessie Sparks and John Bertram Baugh.

Mike Hernandez was charged with two counts of burglary and one count of unlawful destruction of the property of another. A burglary charge was also returned against Guadalupe Vera Alvarez, Jr.

MRS. T. W. THOMAS

Mrs. Thomas Is Candidate

Mrs. T. W. (Red) Thomas has announced that she will seek the Democratic nomination for Justice of the Peace in Precinct 4 (Hermleigh).

Mrs. Thomas stated that she was unable to file officially before the deadline Feb. 5 because of illness.

A retired nurse, Mrs. Thomas has lived in Scurry County for the past 12 years, with the last eight years spent in Hermleigh. The candidate is asking that her name be written in on the May 5 primary ballot.

Mr. and Mrs. Thomas are the parents of three married daughters one of whom is Mrs. G. R. Sanders, an employee of Thompson Cleaners in Snyder. Mr. Thomas is a retired farmer.

Mrs. Thomas is asking for the JP position, stating that she would be able to devote her full time to the office, and that she would welcome the support of her friends in seeking the office.

Early Beauty Hybrid Eggplant

New Eggplant Offered This Year To American Gardener

Plant breeders are continually searching for new and better varieties so that you, the American gardener, may have an easier time of growing vegetables, have a greater variety on your menu and enjoy the quality and flavor of food that cannot be purchased in your supermarkets.

One of the latest achievements of this search is the introduction of Early Beauty Hybrid Eggplant. This is no giant, mammoth, or colossal purple balloon which you

can exhibit to your friends and neighbors, but a petite oval or pear-shaped fruit that you will need more of than one for a meal, after your family has sampled it.

Besides the flavor and quality of Early Beauty, this new hybrid is truly early. You will be serving delicious eggplant on your table, along with your earliest tomatoes, and this you can brag about to your neighbors; or better still, share some with them for there will be an abundance.

As with most vegetables (as you have probably discovered) it is best to keep the edible sized fruits picked so they will continue to produce.

Knapp News

By Mrs. Ben Weathers

Mr. and Mrs. Doyle Lovell and Ronnie were weekend guests of her parents, The R. B. Beleyers of Cross Plains.

Mr. and Mrs. Ben Spradling and children spent the weekend with relatives at Girard.

Mrs. Jerry Taylor and daughter of Portales, N. M., visited with her parents the H. H. Cary's over the weekend.

E. L. Franklin attended the Fat Stock Show at Ft. Worth, over the weekend.

Studies in the book of Jeremiah are being taught this week at the Knapp Baptist Church.

Mr. and Mrs. Vernon Todd and family visited Sunday with Lamesa relatives. Mrs. Todd's parents Mr. and Mrs. P. A. Dugger of Lamesa were honored Sunday as pioneer citizens of Dawson County, along with other pioneers of the County.

According to vegetable historians, eggplants originated in Asia. Burpee's collected and tested, over the years, samples from all the countries of Asia. There were white ones, yellow ones, striped and streaked ones, early and late maturing, large and small fruited ones.

The Japanese types proved to be very early and of good quality, but they were so different from the types used in America, that producers were skeptical about their acceptance by the American gardener.

Since tested F1 or First Generation Hybrids have to be superior to existing straight or open-pollinated varieties, crosses were made and the new Early Beauty Hybrid is the result.

Frying eggplant is not the only way to prepare this vegetable and Early Beauty Hybrid is delicious in a casserole with your early tomatoes, and a few onions from your garden. There are many recipes just look around for some that sound appealing, and try them.

One thing not mentioned previously is that Early Beauty has very attractive deep purple stems with contrasting green foliage. This, along with the dark purple, shiny fruits hanging all over the small compact bushes, make it eligible for a place in the narrow flower border. It is all the room you have available.

Early Beauty Hybrid is the eggplant for you to try next season. It is very early, will give you an abundance of good eating and will perform well with a very minimum of care.

American Field Service Names Officers For 1962-63 Term

Election of officers for the 1962-63 year was held Saturday morning by board members of the local Chapter of the American Field Service. Those elected to office and morning will assume their responsibilities as of July 1 of this year. In July of 1961, the chapter was re-organized as a community-wide project. Up to that time, the Student Council of the Snyder Senior High School and its sponsors carried the greatest portion of the program's responsibilities.

Since the present set-up for the operation of the local chapter has been only for one year, three of the present officers were elected by acclamation. Officers re-elected were Mrs. M. H. Roe, president; Joe Cargile, treasurer, and Attorney Robert R. Patterson, Americans Abroad co-ordinator.

Other officers named Saturday to posts have served on the board for the current year. The Rev. Jack Dean was elected vice president, a new office for the chapter. Mrs. Lyle Alexander was named secretary, and will take the place of District Attorney Wayland Holt who is serving in this capacity for the 1961-62 year.

ROBERT Clinton, Senior High School principal, was elected School Advisor. Mrs. Raymond Williams, local mother for this year's Foreign Exchange Student, will head the committee on Member Homes and Adjustment. Mrs. Daniel R. Martin, local mother for last year's Foreign Exchange Student, is serving on this committee at the present time. The Rev. Walter Lentz is acting chairman, and the third member of this committee now serving is the Rev. Harry Vanderpool.

Board members have learned from past experience that families adopting a Foreign Student for a school year and so closely associated with this AFS program can bring much understanding to the board in its program planning.

The Snyder High School is being asked to have a representative on the local AFS board for 1962-63. The High School student who participates in the American Abroad program each year will be expected to fill this position whenever possible. If for any reason it is not possible for the returning American Abroad student to serve, a member of the Senior High School student council would be named. The selection of the student to serve would be made by the student council.

Other board members to serve for 1962-63 will be appointed soon by Mrs. Roe and other elective officers.

Jack Longbotham presented members of the board with a revised charter containing regulations concerning the operation of local AFS chapters, in compliance with the requirements of national headquarters in New York. The new charter is in accord with organization requirements for all U. S. AFS chapters. Daniel R. Martin was also responsible for preparing the new charter.

The American Field Service programs are nation-wide and are sponsored solely by interested citizens. The size and growth of the AFS scholarship programs place an increased responsibility on all those connected with it, and directors and officers of the national headquarters have determined that the programs will be more efficiently administered if the relationship between the head chapters representing the American Field Service in various localities be formalized and their respective responsibilities be more clearly defined.

Plans were also discussed Saturday morning for the May fund raising drive for the local AFS programs. Plans are being formulated by Rev. Dean and his committee. The Snyder High School Council has made its pledge of \$100 for 1962-63.

Since the beginning of the local AFS programs in the fall of 1959, the High School Student Council has been the largest contributor. This year, the student council pledged \$1,000. Since these large sums mean a great amount of money to the councils funds, are needed in various other ways, the students hope to cut their 1962-63 contribution to \$500, which would be a fair share for this school body to contribute since the program is now a community project. It is hoped that sufficient funds can be raised during the finance drive in May to carry on both the American Abroad program this summer and next year's Foreign Exchange Student program. Between \$1500 and \$2,000 will be needed for the 1962-63 year.

The treasurer's report showed Saturday morning that present AFS funds are in the amount of \$295.36.

The chapter of AFS is looking forward to sponsoring another Foreign Exchange student for the 1962-63 school year.

Applications for families wishing to adopt the Foreign Exchange Student for the 1962-63 school term are due now. Persons interested should contact the Rev. Lentz. Forms must be mailed to national headquarters of AFS at New York not later than February 13.

At the January meeting of the local AFS chapter, Mary Katherine Howell was extended the honor of being recognized by the local AFS board as a foreign student attending Snyder High School. Mary Katherine was born and reared in Nigeria where her parents are serving as missionaries associated with the Southern Baptist Convention. This student is a junior in SHS this year, and will attend senior classes here next year. Mary Katherine is not being sponsored by the local chapter of AFS, but since she is in reality a foreign student member of the board voted to honor her by recognizing the fact.

Since Snyder will sponsor a Foreign Exchange Student through the AFS program, and since Mary Katherine will also be in school here next year, Snyder High School students will again experience the association of two foreign students.

The next regular board meeting of the local AFS chapter will be held on Saturday morning, March 3, at 7 o'clock at Sallee's Cafeteria. Board members meet for breakfast and a business session the first Saturday morning of each month.

WOMEN

The Snyder (Texas) Daily News, Thurs., Feb. 8, 1962 3

Dr. Hartley Speaks To Art Guild

The Art Guild met Tuesday evening at the Martha Ann Woman's Club with Miss Ethel Mae Sturdivant, hostess and Mrs. Verba Williamson, program leader.

A salad plate was served to 16 members.

After a brief business meeting a film on cancer was shown. Dr. Thomas F. Hartley concluded the program with an interesting talk on mental health.

Luncheon Held By Get Together Club At Union

A covered dish luncheon for members of the Get Together Club was held Tuesday at the Union Community Center.

Mrs. Billy Evans and Mrs. Milton Stephens served as hostesses for the luncheon.

Plans for a family party on Feb. 15 were discussed during the business meeting. Club members are to be notified of the place and time by telephone.

Present for the Tuesday luncheon were Mrs. Fred Kizer, Mrs. Kenneth White, Mrs. A. C. Newman, Mrs. Bobby Sims, Mrs. Dan Evans, Mrs. Stephens, Mrs. Dan Thurston, Mrs. G. A. Parks, Mrs. Billy Joe Middleton and Mrs. Ray Atkinson.

Mrs. Dick Roberts Guest Speaker For Sorority

The Lambda Kappa Chapter of Beta Sigma Phi met Tuesday at 7:30 p.m. in the home of Mrs. Troy Scott, Mrs. Scott, president, presided at the meeting.

The group voted to send a donation to the International Endowment Fund to be used in their yearly project. The projects vary from year to year but this year is Mental Health.

Mrs. Jurden Brunken, program chairman, introduced Mrs. Dick Roberts who entertained the group by showing slides of her trip to Bermuda.

Refreshments of coffee, Cokes, and German chocolate pound cake were served to eight members and one guest.

Mrs. Bob Swint Hostess To Hernleigh H-D

The Hernleigh Home Demonstration Club met Tuesday in the home of Maurine Swint for their regular meeting, with 10 members present.

Mrs. Patterson and Mrs. W. E. McDowell gave a demonstration on fixing a chick-n-que.

Mrs. Annie Patterson received the hostess gift.

Refreshments of chicken, rolls, cookies, coffee and Cokes were served.

Iota Psi Chapter Meets With Blenda Roberson

The Iota Psi Chapter of E. S. A. met Monday evening at 7 p.m. for the regular monthly business meeting. Plans were made for a bake sale to be held at Piggy Wiggle Saturday morning, Feb. 10.

Blenda Roberson, hostess, served Cokes and coffee, cheese sandwiches, olives, potato chips and cream cheese tart pies to Sue Mahood, Barbara Spivey, Mary Pinner, Ann Matthews, Jean Robinson, Anna Stephens, and Marcia Overman.

Sanitary Sinks

Ordinary hot salt water poured into sinks, drains and tubs once twice a week will keep them free of grease and disagreeable odors. To assure added sanitation, the surrounding surfaces should be covered with tile. Cleaning real tile is easier than washing the dishes. Ordinary soap and water will keep it fresh and lovely.

Unsung Hero

Often overlooked is the importance of splashbacks in kitchens. Imagine your kitchen work area without splashbacks. In a short time, stains from frying and cooking would all but obscure the color of the walls. If the affected areas were protected by a stain-proof, easily cleaned material like decorative tile, kitchens would stay bright and colorful forever.

WOMEN'S CALENDAR

THURSDAY

Canyon Reef Medical Auxiliary will hold a business meeting with Mrs. Thomas Hartley, hostess.

Snyder Garden Club meets at Martha Ann Woman's Club with Mrs. F. G. Sears, hostess.

Twilight Garden Club meets at 7:30 p.m. at Snyder Country Club. Special guest speaker.

Ira Home Demonstration Club meets at the community center with Mrs. Mack Kruse, hostess.

Family night at Snyder Country Club.

Community night will be held at the Inadale community center starting at 7 p.m. Everyone is invited.

FRIDAY

Altruistic Club meets at Martha Ann Clubhouse with Mrs. J. C. Dorward, hostess.

El Peitz Club meets at 2:30 p.m. with Mrs. L. O. Bynum, 2703 Avenue V.

If I were a King
And had a Queen
Who had a Son and Heir—
I'd buy up every
Flower in Hinshaw's
To Grace the Royal Pair.

From me to you A DAILY VIEW

Rev. R. Charles Spivey

"Blessed are those whose way is blameless, who walk in the law of the Lord." Psalm 119: 1-3.

I can think of no higher tribute to pay to any man than to be able to say, "He was blameless." But who can live such a life? One who would live in this way would be a friend to all, would never make an enemy. He would do everything just right, and never wrong. He would never "talk" about his fellow man, but would uphold the good that be found in each individual. "Blameless" means free from blame or fault. So he would be a man who "could have" no faults. In fact he would be one whom all men would praise.

But who can be this way? Can You? As far as I can see, there is only one who can fall into this category—that is God himself. He only is perfect.

Yet men can obtain a degree of perfection, though they will never arrive at the end. The Psalmist says that those who walk in the law of the Lord are those who can be counted as blameless. Those who obtain the praise of God as well as the praise of men are those who are obedient to the will of God.

The Snyder (Texas) Daily News, Thurs., Feb. 8, 1962

Tiger B Stamford Tournney Entrant

Coach V. V. Shearburn's Snyder Tiger B team has been entered in a five-team tournament at Stamford, and will hit the competitive circle at 6 this evening against Brownwood B.

The Tiger juniormen will carry with them into the tournney a five-game winning streak, all having been registered against their District 3-AAA foes. Their record in district play stands at 5-2, while for the season they are 15-3.

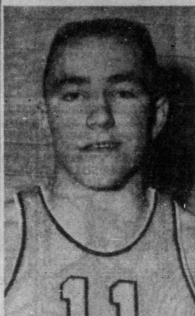

A victory today would place them in their next action at 8 p.m. Saturday. Should they lose they will take the floor at 5:45 p.m. the same day.

Host Stamford is entering two teams in the tournament. Snyder, Colorado City and Brownwood make up the remainder of the tournament entrants. Wichita Falls B had been entered, but had to withdraw due to sickness of several squad members.

Sandwiched in with the tournament will be Snyder B's final regularly scheduled district fray of Friday in Sweetwater. That game will get underway at 6:15 and will be followed by the varsity clash at 8 o'clock.

The Tiger varsity five was eliminated from the district title picture Tuesday on the strength of a 36-36 upset at the hands of Colorado City, dropping them to 4-3 in district and 12-11 for the season. In the race for the 3-AAA bunting, Sweetwater and Lamesa are

both tied for the top with 5-1 readings. Lamesa entertains Colorado City Friday in district play prior to hitting the road for Sweetwater Tuesday in a season-ender which should decide the loop champion.

TIGER 'B' ACE—Benny Minor is the leading Snyder B team point man for the campaign with 196 tallies in 23 outings. He'll be leading his mates into their final weekend of play this evening when they take on Brownwood B in the Stamford Tournament opener.

Texans, Blue Devils See Duty Tonight

Lamar and Travis will both taste action this evening in the last "big night" of the season involving outside competition.

Lamar's Texans will be home for three games against Big Spring Runnels in Texas Gym. The Texas 9th (11-4) is slated to take the floor at 8 o'clock in the featured clash of the night. The teams have met on one other occasion in a game which saw Lamar posting a shaky 46-45 triumph.

The Texas 8th (5-9) meets the visiting Big Spring 8th graders at 8:30. In two previous clashes Runnels has reigned supreme by scores of 34-16 and 25-20.

Lamar 7th will carry an 8-4 mark into its 5 o'clock game against the visitors. It was Runnels that pinned the worst defeat of the season on the Texans when it peppered them 41-14.

Goliad will furnish the opposition for Travis in three games of this evening in Big Spring. The starting times in all three are identical to those above involving Lamar and Runnels.

Travis 9th will enter the fray with the most impressive record of any team within the system, having won 16 and lost only one. Two of the Blue Devil wins have been at the expense of their foes of tonight by scores of 31-32 and 36-31.

The Blue Devil 8th graders are 1-12, with two of their losses having been dealt them by Goliad, 27-19 and 20-19.

Travis 7th will carry a 1-9 mark into its game. They have met Goliad once and lost out by a slim 25-23.

Lamar and Travis (all grades) will meet each other Monday in Tiger Gym, after which Travis 8th will travel to Lamesa Tuesday to cap off Snyder junior high case play for the season.

Scurry Glovemen In Brownwood GG

Nineteen fistie hopefuls will represent the Scurry County Boys Club in the 15th Annual Golden Gloves Tournament which begins tonight in Brownwood.

Some 175 boxers are to take part in the meet, which will continue through Friday, Saturday and Monday. Site of the show is the National Guard Field House located at Camp Bowie.

Club director Herb Barnett and coach Lacy Bales will take the local team to Brownwood in order to compete. They have extended thanks to those Snyder people who have assisted the program by donating money; otherwise, the trip would not have been possible.

Team entrants in addition to the Scurry group, along with their prospective entry number, are as follows: Stephenville (35), Sweetwater (16), Abilene Boys Club (23), Dub Mama Abilene Athletic Club (10), Brownwood Police Association (35), San Saba (19), Cisco (10), Brady (10), Fort Worth (10), Dallas (2), and Odessa (2).

The Scurry Club will have several outstanding boys shooting for honors, with both open and novice bouts on tap. The eight open class champs will compete at Fort Worth later in the month in the state meet.

Snyder's Agan Romero, who won regional honors at Abilene in

1961, will be back in defense of his title. Other top Snyder aspirants include lightweight Ruben Gonzales, welterweight Abe Gonzalez, featherweight Donnie Deere, and lightweight Vince Gonza.

There is a chance that David McKinley, an outstanding Snyder welter, may fight under the Scurry colors, also. He is currently attending school at Cisco, and it was not determined at mid-morning today whether or not he will fight as a Cisco or Snyder entrant.

Kansas State Senior Shines

By JIM HACKLEMAN
Associated Press Sports Writer

Mike Wroblewski has taken over a starring role for Kansas State after two seasons as understudy, and he's proving a re-sounding success in the Wildcat's drive for a fifth straight Big Eight basketball championship.

Wednesday night the 6-6 senior equaled the conference scoring record by pouring in 46 points, just over half Kansas State's total in a 91-72 romp over Kansas.

Wroblewski, a clever jump shooter from South Bend, Indiana, moved in as a Wildcat first stringer in this season after playing two varsity years in the shadow of Ced Price and compiling a 6.7-point scoring average.

Tex Winter's Kansas State club, 16-2 over-all, suffered their lone conference loss at Colorado Jan. 6 and trail the Buffaloes in the standings, 7-0 to 6-1.

Hubie White, Wally Jones and George Letwisch alternated as chief gunners for Villanova (16-4)

ranked Duquesne 22-63 and Toledo surprised eighth-ranked Bowling Green 79-59.

While the nationally fourth-ranked Wildcats were winning with ease, the two other rated teams in action were being toppled. Villanova rapped sixth-

ranked Duquesne 82-63 and Toledo surprised eighth-ranked Bowling Green 79-59.

led the Rockets in their home-court victory.

Loyola of Chicago, fast becoming recognized as one of the Midwest's top independents, pushed its record to 15-2 by running off from Western Michigan 108-79.

John Speaks netted 30 points and led repeated rallies for North Carolina State's Wolfpack in an 86-88 Atlantic Coast Conference victory at Virginia. Richmond ran up eight straight points in overtime and tripped VMI 82-81 in their Southern Conference game.

OPEN SUNDAYS

Between You And Me

BY JERRY JACKSON

Sage Sanner said in yesterday's Reporter News in reference to Hardin Simmons University athletic losses:

"Chief casualty in track and field was freshman Jesse Crawford of Snyder, multiple state champion, who failed to pass enough courses. Crawford is reported to have gone to Baylor."

Crawford, whose name has become a byword within area circles, tried and failed in his attempt to enter Baylor. His coach at the Waco school had high hopes that he might be entered this semester, run unattached this spring, then continue from there on a full four-year scholarship.

The switch in that regard is made, however, in that the Baylor registrar declared his grades to be non-transferable.

The latest word is that Crawford is headed for Iowa State, a school that is very desirous of utilizing his running ability in future years. He is reported to have hoped a plane for that northern school today in order to enroll. He will not be eligible to run track this coming season, however, but will have to hold off until next year.

The athletic situation at Hardin - Simmons has been precarious, to say the least, during recent months, which could well have had an effect on Crawford's outlook and studies. Our best wishes will be riding in his new northern endeavor.

Parting note number 1: A recent rumor had Dick Hayes, a transfer from Texas Tech to Tarleton last year, heading back for Tech. It's not so, though. The former Tiger grid great was home recently, and that bit of news came as a surprise to him, too.

Parting note number 2: Misfortune will keep former Tiger hurling ace Ronnie Jones away from the diamond during the next semester. The personable southpaw, attending Odessa Junior College, had the tips of two of the fingers on his throwing hand snapped off a while back in an offfield accident and will be taking an involuntary vacation from the mound as a result.

Ponies Sink Sooner In Dual Tank Meet

NORMAN Okla. (AP) — Southern Methodist University nipped Oklahoma 50-45 in a dual swimming meet Wednesday night.

The only double winner was Oklahoma's John Bernard, who swam away with the 50 and 100-yard freestyle events.

A week ago in Dallas, SMU bested the Sooners 62-33.

WF End To SMU

DALLAS (AP) — Don Denham, who played end for Wichita Falls' state Class AAAA champions, has signed a pre-enrollment application at Southern Methodist University, Coach Hayden Fry said Wednesday. The 6-foot-2, 185-pound schoolboy star is rated a top pass receiver.

Star Vaulters Sets Sights Still Higher

By W. B. RAGSDALE JR. QUANTICO, Va. (AP) — John Uelses, a slender, soft-spoken Marine corporal whose slight accent betrays his German birth, appears to have mastered a new technique that may send pole vaulters soaring toward the 17 foot mark.

Uelses, 24, became the first man ever to top 16 feet last weekend, sailing over that height twice. His best mark was 16 feet 3/4 inch, at Boston Saturday.

He predicted Wednesday he will go even higher this weekend in indoor meets at Philadelphia and 2 inches. Possibly to 16 feet, 2 inches. By midsummer, Uelses said, he plans to be close to 16 feet, 6 inches.

But if his record-shattering leaps have made Uelses the best known pole vaulter in the world, his fiber glass pole has made him the most controversial.

Olympic champion Don Bragg and other critics say the extra snap in the fiber glass pole makes vaulting "an acrobatic stunt."

A spokesman for the International Amateur Athletic Federation in London said it seems to me it would be most unfair to rob an existing record-holder of his mark by using a pole that catapults an extra three or four inches into the air.

In a special news conference, Uelses noted that anybody who wanted to could use a fiber glass pole and they were not new.

NOT EXACTLY A COLOSSUS

Kennedy Follows Traditional Line In Censorship Dispute

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP) — President Kennedy has distinguished himself by refusing to let Congress get too nosy. Presidents from Washington to Eisenhower have done the same.

Through American history presidents have reasoned this way: The Constitution separates the powers of the three branches of government. Congress, the executive headed by the President, and federal courts.

So the President can assert his "executive privilege"—when he thinks it's in the public interest—to refuse Congress' request for certain information from the executive branch.

Who decides what's in the public interest? The President says he does in such a case. Does he have the right to refuse? He thinks so. The third branch, headed by the Supreme Court, has never ruled on it.

Congress has never forced it to a showdown. So it has only been a test of wills so far between presidents and Congress. Now Congress is heading into another test.

A Senate subcommittee investigating Pentagon censoring of speeches by the military brass has demanded that Defense Secretary Robert McNamara reveal the names of his men who censored specific speeches.

McNamara refused Wednesday. Kennedy backed him up publicly. McNamara has given the committee his censors' names and background. But he will not disclose which one of them censored what in what speech.

If he did, almost certainly the individual censors would be called before the subcommittee and extensively quizzed on why he did what he did. Kennedy didn't speak of this kind of thing as a quizzing.

He said it would be an "harassment" of men who were only carrying out policies dictated by their superiors. McNamara says he takes full responsibility for what they did.

Kennedy said he would invoke "executive privilege" if necessary to protect the censors. He may have to. The subcommittee decided to insist on its demand.

Eisenhower ran into the same kind of thing—and reacted the same way—in 1954 when a Senate

committee holding the Army-McCarthy hearings demanded information about a secret meeting of Eisenhower's top aides.

Eisenhower at the time cited some other presidents who took the same position, from Washington to Truman. The latter refused Congress 10 times.

Eisenhower said: "The messages of our past presidents reveal that almost everyone of them found it necessary to inform Congress of his constitutional duty to execute the office of president and, in furtherance of that duty, to withhold information and papers for the public good."

By the reckoning of Herman Wolkinson, a Justice Department attorney and a specialist in this field, at least 18 of the 34 presidents at one time or another took this stand. Kennedy would be the 19th.

This could happen if the subcommittee on censorship wants a showdown:

1. The Senate sergeant-at-arms could be sent to arrest the secretary and the Senate could order him kept in custody indefinitely or sentence him to jail.

2. Or, more likely, having cited him, the Senate could turn the case over to the U.S. district attorney for prosecution in that third branch of government, the federal court, which has never ruled on this ancient dispute between the two other branches.

The President, of course, would be quickly involved in this fight on the side of McNamara and no doubt would push for the case to go to the Supreme Court in a hurry for a ruling at last.

Sex Losing Appeal At Box Office

By HAL BOYLE
NEW YORK (AP) — Is sex losing its box office appeal? There are some signs that it is. Doom-criers who believe that America is heading for the fate of decadent Babylon, Sodom and Gomorrah may now take heart.

There seems to be a definite slump in the sex market. Moralists cling to the theory that anyone can get rich quick by making a dirty film or writing a dirty book. Well, it just ain't so.

It's bedrock tradition of puritanism still has a strong hold on America. It is easier to make a fast buck in this country selling a new detergent, filter cigarette, or headache cure than in the leering portrayal of sex.

You can probably even make more money by starting a one-day diaper laundering service.

It is true that the country has been flooded with lurid-covered paperback novels dealing with the ruder aspects of sex as well as foreign and homemade movies that bring a blush to the cheeks of old maid censors.

But their market is still limited. The golden harvest is reaped by writers and producers who deal in the wholesome themes that have always appealed most to the hopeful and normal nature of the majority of mankind—adventure, religion, family life, comedy and romantic love.

Here are a few proofs: A headline in Variety, the bible of show business, reads: "Sex not

the top foreign import of 1961. 'La Dolce Vita,' criticized widely for its suggestive scenes of society orgies in modern Rome, placed 12th in box office appeal.

Varity in the same issue listed the top cinema box office hits of all time. Here they are:

"Birth of a Nation," "Gone with the Wind," "Ben-Hur," "10 Commandments," "Around the World in 80 Days," "The Robe," "South Pacific," "Bridge on the River Kwai," "Greatest Show on Earth," "Guns of Navarone," "The Ten Commandments," "From Here to Eternity."

Six of these dozen films deal with either historical or religious themes. Only the 12th, "From Here to Eternity," had scenes of questionable taste even for a child's eyes.

Now let's take a look at the literary scene. The two fiction books that have been longest on the best seller list of the New York Times are "To Kill a Mocking Bird," by Harper Lee, 79 weeks; and "The Agony and the Ecstasy," by Irving Stone, 45 weeks.

The first is a picture of life in a small Southern town as seen by a child; the second is a novel about Michelangelo, the artist.

93-Year-Old Man Is Assessed For Damages
COLUMBUS, Ga. (AP)—A 12-year-old boy who suffered a broken arm when he was whacked by a cane-wielding 93-year-old man received a verdict for \$1,500 damages from a jury Wednesday.

Dorsey A. Williamson, father of Dwan Williamson, filed a damage suit charging James M. Turner with willfully and maliciously attacking his son while the boy was riding a bicycle past Turner's residence.

"PAINT A NEW FACE ON ME, TOO, WILL YA?"

Junior Editors Quiz on PLANTS

QUESTION: Do plants have feelings?

ANSWER: They do not have the same feelings that people have. They do not seem to suffer when they are cut. But many plants are extremely sensitive to outside influences. They react quickly to changes of temperature; they suffer from lack of water and must not be handled too much. There is a plant called the Sensitive Plant which quickly reacts to being touched. When the leaves are touched they seem to shrink, and instantly they draw together and fold close to the branch, which then bends closer to the stem. If it is left alone for a while the leaves will open again, but at just a touch it will fold up as before. The true Sensitive Plant comes from South America and is 18 inches tall. It is related to the pea.

FOR YOU TO DO: Here is a girl with a Sensitive Plant. A quick touch on the plant has made the leaves nearest her close up tight. Have you ever seen a sensitive plant?

(Raymond Hebert of North Smithfield, R. I., wins \$10 for this question. Mail yours on a postcard to Junior Editors, in care of this newspaper.)

Trujillo Terror Still A Mystery

By ROBERT BERRELLIZ
SANTO DOMINGO, Dominican Republic (AP) — Generalissimo Rafael L. Trujillo has died eight months, but even today many of the secrets of the Trujillo terror are yet to be disclosed.

Some of the grim aspects of the dictatorship can be pieced together on the basis of available information. The whole story, including exactly what happened to various victims, is not likely to be known for years, if ever. The key to many of the mysteries rests among Trujillo followers of kinfolk who got out of the country fast when the Dominican people started mapping a route down the road to democracy.

Two of the most discussed victims were Gerald Lester Murphy of Eugene, Ore., a pilot, and Jesus de Galindez, Spanish-born student of De Galindez at Columbia University, New York.

A generally accepted story is that Murphy was involved in transporting De Galindez, a former employe and arch enemy of Generalissimo Trujillo. De Galindez dropped from sight in New York in March 1956. He supposedly was brought here on orders of Trujillo and was killed shortly after his arrival in December 1956.

Their bodies have not been found. Last month a businessman claiming to have been a former student of De Galindez said a body unearthed in the nearby village of San Jose de Ocoa appeared to be the professor's. Authorities dismissed the claim. No formal investigation was made.

The attorney general's office says there are no current plans to reopen the Murphy-De Galindez case.

Attempts to determine the fate of Trujillo opponents who disappeared have yielded only a few political prisoners and some unidentified remains from unmarked graves and hidden wells.

There is dark talk about the municipal incinerator as a possible instrument of total liquidation. The waters of the south coast are alive with sharks, and there are lonely stretches of wild country only a few miles from Santo Domingo.

Murphy's car was found abandoned near the shore in 1956. The Trujillo government attempted to link his disappearance with a Dominican military officer, Octavio de La Masa, with whom, it alleged, Murphy had a violent argument.

argument and fight. Family friends say De La Masa was last seen Dec. 23, 1956, when he was called to testify on Murphy's disappearance. De La Masa is said to have denied any connection with the American, whom he knew.

De La Masa's body was dumped from a speeding car on Jan. 7, 1957. The government claimed he had committed suicide. Family associates said the body showed signs of strangulation and a deep wound at the waist.

Friends of Murphy still believe he was taken before the president vaguely intimates about a connection with the De Galindez case.

According to most versions available from those purporting to have been close to developments, the drugged and unconscious De Galindez was flown from New York. He is then said to have been taken before the president, Generalissimo Trujillo, and forced to eat page after page of a copy of an anti-Trujillo manuscript the professor had written. After this, it is said, he was lowered alive into a vat of boiling water.

Other stories of brutality by Trujillo's agents far surpass De Galindez death versions in sheer horror.

De La Masa's implication in the Murphy disappearance was reportedly not purely accidental. Family associates say the young officer first got in trouble with the generalissimo while in the diplomatic service at London in 1954. He shot and gravely wounded a fellow diplomat close to the official family in what is said to have been a personal quarrel. Perhaps a chance to eliminate him arose with the plan to erase Murphy because of the then widening investigation into the disappearance of De Galindez.

A nurse, Gloria Viera, who allegedly made the flight with Murphy from New York, died in a mysterious automobile accident early in November, 1956.

This is said to have had a sobering effect on Murphy, who made believe but never fulfilled plans to leave the country.

Ironically, the De Galindez-Murphy case may have set forces in motion that subsequently led to the liquidation of Trujillo himself last May.

One of the key plotters in his assassination was Antonio de La Masa, a brother of Octavio.

The results were costly to the De La Masa family. Brothers Ernesto, Bolivar, Mario and Pablo were tortured and killed immediately following the generalissimo's assassination. Antonio was shot dead on the street June 4.

There still is a reluctance to talk openly about the events among members of the families involved.

Those who say they formerly worked with or knew Murphy are even less disposed to reveal much.

"There are many people alive and abroad who know the whole story. Let them talk," one said.

Federal Grant Turned Down

DAINGERFIELD (AP) — City councilmen have turned down a \$700,000 federal grant and decided to finance a new water system with municipal bonds.

Mayor Roy Nail said Wednesday the council took the view that this course would cost the community less and it also preferred to keep the project under local control.

Daingerfield, in East Texas near the Lone Star Steel Co. plant, has about 3,250 residents.

Because the present water supply from wells is limited, they voted \$605,000 in bonds last August to build an intake at neighboring Lake of the Pines and pipe it into town.

Subsequently the government designated Morris County, in which Daingerfield is the county seat, among 47 Texas counties eligible for redevelopment loans and grants.

The Northeast Texas Water District serving Daingerfield accordingly applied for a \$300,000 grant to help finance the water system.

Federal officials made a survey and said the city needed a larger system. They suggested a \$700,000 grant plus a \$454,272 loan.

That's when the city councilmen balked.

The council believes a large line can be installed to provide a surplus of water to the city without federal aid and its subsequent control," they said in a statement.

"We are opposed to federal aid for a project where the people have indicated their willingness to assume their obligations as free Americans."

One Dead In Wild Melee

HOUSTON (AP)—Flying bullets killed a construction worker and wounded at least one other man during a wild melee Wednesday night at a cafe in what Houston residents call the "bloody 5th Ward."

Witnesses told police a third man was shot in the chest. He disappeared. Officers checked to see if he sought treatment at a hospital or clinic.

Jimmy Hoyle, 35, died in the flurry of gunfire, which sent two dozen people in the tavern scurrying out of range.

One bullet hit Leonard Holley, 39, a steelworker, in the right knee as he was playing pool.

Officers held a longshoreman, 29, who told them Hoyle fired first while the two were arguing. The longshoreman shot six times with a .38 caliber pistol, hitting Hoyle in the head and in the right arm.

Detectives said they could find no empty cartridges from Hoyle's .32 automatic.

Political Announcement

The Snyder Daily News is authorized to announce the following candidates for office, election to be subject to action of the Democratic Primary.

Wreckage Believed From Drone Plane

ST. PETERSBURG, Fla. (AP) — Reports of a crashed airplane in the Gulf of Mexico sent Coast Guard rescue craft to the scene only to find the wreckage apparently was from a drone aircraft used for antiaircraft target practice.

Crew members of two shrimp boats in the area radioed that a plane had crashed about 75 miles west northwest of St. Petersburg.

The Coast Guard reported Wednesday night that the wreckage appeared to be from a drone airplane, used by the military to test air-to-air and ground-to-air rockets.

An English proverb says, "Too many cooks spoil the broth." A Chinese proverb: "Too many bricklayers build a lopsided house."

Heart Disease Is Top Killer In U. S.

Diseases of the heart and blood vessels account for more than 54 per cent of all deaths and afflict more than 10 million living Americans, officials of the local Heart Council have reminded.

Heart diseases are not just a problem of old age, they explained. Statistics show that they are the leading killers during the most productive years, 45 to 65.

Therefore, the American Heart Association reasons, there can be little doubt as to which health cause deserves priority on the "giving-for-health" list—the Heart Fund.

The sheer magnitude of the heart problem is not the only consideration. Of great significance is the fact that the Heart Association has the unqualified support of the nation's leading cardiologists and medical scientists. Also, "Heart" devotes a greater proportion of its income to research than any other leading health appeal. Furthermore, the Heart Fund dollars support essential programs of education and community support.

Dozens of heart-saving advances have been speeded by gifts to the fund, since the first heart fund campaign in 1949. Among the many are operations to correct defects of the heart and its great vessels, the prevention of rheumatic fever and rheumatic heart disease, drugs to reduce high blood pressure, drugs to safeguard against repeat heart attacks, and better methods of treating heart attack, heart failure and stroke.

Officials say progress to date amply justifies the expectation that new dramatic gains in treatment and prevention are in the offing, and that these will come in time to be of benefit to many now-living victims of heart disease.

Many physicians and prominent laymen say that the heart fund is not a charity, but rather a sound and practical investment. Therefore, Snyder area residents are being asked to respond promptly when heart volunteers call at the various homes on Feb. 25, and to remember that "More will live—the more you give."

Contributions to the Heart Fund may be mailed to the Scurry County Heart Council, Route 1, Box 207, Snyder.

Artistic Director Of Opera Resigns

VIENNA, Austria (AP)—Conductor Herbert Von Karajan has resigned as artistic director of the Vienna State Opera amidst a controversy between opera management and the government, the education ministry announced Wednesday.

Von Karajan, world-famed conductor of leading European orchestras, said in a letter to the ministry that he was dissatisfied with a recent compromise which ended two months of passive resistance by stage hands.

Jackie Hostess To 234 Children

By FRANCES LEWINE
WASHINGTON (AP)—Jacqueline Kennedy wanted to give embassy children in Washington something American to remember when they go back to their homelands.

They got something no teenager could forget.

They saw the White House Wednesday in party style, saw a special opera performed in the glittering east ballroom, met President and Mrs. Kennedy and even got a glimpse of Caroline Kennedy.

Besides, there was unexpected excitement when the huge, feathered headdress of one of the singers tipped into a lit candle and caught fire in the State Dining Room, where everyone was having refreshments.

The occasion was the second in a series of concerts for young people which Mrs. Kennedy is sponsoring at the White House.

The First Lady invited 234 teenagers from 67 embassies to see a special performance of Mozart's comic opera "Così fan tutte" by the Metropolitan Opera Studio of New York.

Besides giving the embassy youngsters a treat it was a special opportunity for the studio group, which includes young American singers hoping for opera careers.

One of the performers, Nolan Van Way of Evansville, Ind., had a few anxious moments, though, when his three-foot-high feathered turban, part of his opera costume, ignited on a candle as he was leaning over a side table in the dining room signing autographs.

Quickly coming to the rescue was Rudolf Bing, general manager of the Metropolitan Opera Company, who was serving as master of ceremonies. He snatched off the turban and the fire was put out. But the odor of burning feathers lingered on.

President Kennedy stopped by after his news conference to chat with the youngsters, many of whom were in colorful costumes of their homelands. Mrs. Kennedy shook everyone's hand, standing in a receiving line with Vice President and Mrs. Lyndon B. Johnson's daughters, Lynda Bird, 17, and Lucy, 14.

"My wife said it was terrific," the President told a member of the cast. Mrs. Kennedy told them: "I enjoyed it very much. You were marvelous!"

Four-year-old Caroline, who sat next to her mother in the first row, watched the costumed performance with fascination. Nobody had expected her to sit through the hour-and-a-half show, but she didn't want to budge, except to lean over and give her mother an occasional kiss.

Four Nabbed In Slaying

DENVER (AP)—FBI agents are holding four persons charged with the slaying of a carpenter near Lubbock, Tex.

Scott J. Werner, FBI agent in charge of the Denver office, identified the four as Elvis Ellsworth Dalrymple, 38, his wife, Sylvia Jane, 23; Ida Joan Whitten, 27; and Jim Edward Hammonds, 27. They were arrested Wednesday.

They are among the six persons charged with murder in the death of J. R. Castle, 24, a Lubbock carpenter and a former Caddo Mills resident. His body was found Jan. 21 in a caliche pit near Lubbock. He had been beaten and shot.

Earlier this week, Dallas officers arrested Mary Virginia Grizzle, 22, also charged in the slaying, and turned her over to Lubbock authorities.

Also charged and still sought in the case is Richard DeLong, 33. An old barracks joke says that GI clothes came in two sizes—too small and too big.

City Traffic Mishaps Down By 30 Per Cent

The Snyder Police Department has completed and sent to the National Safety Council a tabulation of its traffic activities for 1961.

The National Safety Council assembles data from local police departments, consolidates and evaluates it, and then returns it to the departments in the "Annual Inventory of Traffic Safety Activities." Averages are compiled over a three year period. Local law enforcement agencies are then able to compare their operations with nation-wide statistics.

For 1961 Snyder reported 249

accidents within the city limits. This compares with 354 in 1960 for a reduction of 30 per cent in 1961. No fatal accidents were reported either year.

In 1961 Snyder police issued 935 citations for moving traffic violations. Convictions in 906 of these cases have been obtained with some cases still pending.

Overtime parking and other parking violations accounted for the largest number of tickets, 2,689. Drivers license and "non-hazardous" violations accounted for 306 tickets.

In the non-fatal injury accidents, 168 tickets were issued. The number appears low until one considers the large number of one-car accidents where in many cases it is not necessary to issue a ticket.

In cases other than traffic, the city police handled 45 cases which were turned over to the county for disposition. Cases of this type would include juvenile cases, DWI, and theft.

City police made 321 arrests in 1961 for misdemeanors. A large percentage of these were for intoxication or fighting.

Total fines from all sources totaled \$26,539.70. Cash taken in to

Levelland Rites For Former Resident

Funeral services were held in Levelland on Saturday for Mrs. Helen Wynn, daughter of Mr. and Mrs. T. C. Morrow, 2511 1/2 Avenue M.

Mrs. Wynn and her husband, Johnny Wynn, were killed in a truck-auto collision early Friday near Carlsbad, N.M., just 24 hours after they were married in Juarez, Mex.

Mrs. Wynn was operator of a cafe in Levelland. Mrs. Wynn was buried in Snyder.

Travis Honor Roll Named John Bircher Is Candidate

Bob Smith, principal of Travis Junior High School has released the names of students who made the honor roll for the first semester of this school year. The same grading system that is used in high school is used in junior high, that is, an A is given for averages from 92 to 100.

In order to make the honor roll a student may not have made below an A for the whole semester. If the student is able to maintain this average during the present semester he will be recognized at the All-School banquet at the end of the year.

Seventh grade honor students were Herbert Eades, Joyce Greenway, Patsy Rainwater, Shari Rose, Triesta Angel, Delbert Bruns, Barbara Ray, Teri Rose, and Margie Hickman.

Eighth grade honor students were Dan Brunken, Dale Orr, Ann Shelburne, Lynn Shelburne, Gary Purser, Douglas Pitner, Danny Stokes, Gayle Williams, and Glenda Sebested.

Ninth grade honor students were Barbara Buchanan, Ann Milliken, Hazel Williams, Bobby Kay, Vanta Bunt, Elna Jean Grant, Mike Richie, Carol Cavender, Sheila Cox and Aleta January.

A weatherman in the tropics can issue his forecasts with great assurance. Weather often stays virtually unchanged there for weeks.

DALLAS (AP)—A member of the John Birch Society is the first candidate to file for the 1962 Dallas School Board election.

D. L. Valkus, 33, a clerk, filed Wednesday for an at-large position on the board. The election will be held April 7.

"I am a member of the John Birch Society," Valkus said, "but it doesn't mean I'm a radical nut. People think it is a way of life, but the John Birch Society is doing a good job in encouraging people to learn more about Americanism and our Constitution."

Valkus said he is running independently and "has no backing from any organization. He is the father of three children and is working for a business administration degree at Dallas College of Southern Methodist University."

He previously attended Baylor University in Waco for three years.

"There should be a greater interest in teaching the American system," Valkus said. "I have three children in school and I

don't think they are getting enough of this. There's too much emphasis on the United Nations."

Mementos Examined By Mrs. Hemingway

KEY WEST, Fla. (AP)—Mary Hemingway, widow of author Ernest Hemingway, has been examining a store room of mementos he cached with a fishing crew in a barroom nearly 30 years ago.

So far, Mrs. Hemingway has turned up parts of manuscripts, including "To Have and Have Not" (which he wrote in Key West), photographs of fishing trips in the Atlantic Ocean and Caribbean Sea, letters, telegrams, and printers' proofs of stories.

The items were stored in the rear of Stoggy Joe's Bar. The bar was owned by the late Joe Russell, Hemingway's fishing covey. Mrs. Hemingway and the estate attorney will decide what to do with the papers and other items.
