President's Signature Gives City Federal Court Sputter of Radio Boosts Hope for Italia, Lost In Fog

Air Conquerors Of Arctic Rally To Rescue Nobile

More Than 100 Hours Have
Elapsed Since Definite
Word Was Received From
Giant Dirigible.

RADIO REPORT HEARD SATURDAY VERY WEAK

Gave No Details and Failed
To Specify Position
Wilkins, Amundsen and
Others Offer Services.

BERLIN, May 27. (Sunday).—A report to the Deutsche Allgemeine Zeitung from Oslo, Norway, said that the Meteorological station there had received a message from the Italia at 11:03 P. M. Saturday night via the North Norwegian radio station. The message was badly garbled, but seemed to disclose that the Italia had landed and that Nobile was asking for help. The place or the time of the landing could not be deciphered.

Improved Transmitter Was Used By Italia

OSLO, Norway, May 27. (Sunday).—At 2:00 A. M. today the Oslo Afternoon reported receipt of a dispatch from Vadso, saying that the Italia had called the Ciria Di Milano, using an improved radio transmitter. The call was said to have come at 10:05 P. M. Saturday night, Spitsbergen time.

(By Associated Press)
Conquerors of the Arctic have rallied to the rescue of General Umberto Nobile, and the cry of fifteen on the Italia, which has disappeared in a polar fog. More than 100 hours have elapsed since the big dirigible took the air for a round trip flight to the north pole. Her wireless gave frequent reports of the homeward flight up to early Tuesday morning. It has not been heard since.

Roald Amundsen and Lincoln

Mrs. Knapp Found Guilty On Charge

Grand Larceny Of State
Census Funds Is Count
On Which New York
Secretary Tried.

ALBANY, N. Y., May 26.—Mrs. Florence E. S. Knapp, former secretary of the state of New York, was found guilty of misappropriation of state census funds by a jury today. The verdict was guilty of grand larceny, first degree, of state census funds.

After the verdict was returned to-night, Justice Callaghan called Dr. A. R. Davignon to the stand to testify to Mrs. Knapp's physical condition. The physician said she needed a complete rest. Dr. A. W. Sting also testified that Mrs. Knapp had sprained her ankle, hereby aggravating a "distressing physical condition." He predicted her health would be poor for some time to come. Justice Callaghan postponed sentence until such time as her health should be restored. At that time he said, he intended to impose a prison sentence. He fixed the date for sentence as September 1. The maximum sentence would be from five to ten years.

QUARANTINE NOW HOLDS PRISONERS

The champion hard-luck story at last has been found. A man is in jail with the small-pox, his jail sentence already served, but unable to leave because of a quarantine. That is the condition in the Lubbock county jail at the present time. Three of the eleven inmates of the "hoosegow" are broken out with the smallpox. No prisoners will be released until the epidemic in that well-known iron-barred apartment is over, and no additional prisoners will be put in the jail. Offenders need not become elated, however, over the fact that the jail is closed up, for there is still the city bastille. And that is the very place county officers are placing the ones arrested.

General Nobile And Italia Lost In Arctic Wastes

Dallas Business Man Killed When Store Is Raided

Superintendent of Piggy
Wiggly In Dallas Dies Of
Bandit's Gun; One Of
Robbers Slain.

(By Associated Press)
DALLAS, Texas, May 26.—Ronald L. Combs, 32, superintendent of the Piggy-Wiggly stores in Dallas, and an unidentified man, about 25 years old, were shot to death during an attempted holdup of one of the stores here tonight.

Combs and W. A. Greenwell, a friend, drove up in an automobile to a store at Grand avenue and Erway street shortly before midnight to take charge of the store's heavy Saturday receipts.

Because of several recent holdups Combs had an automatic pistol laying on the shelf beside him. As an employee of the store brought the money amounting to several thousand dollars, to the automobile, a man stepped up, presented a pistol and shouted "hands up."

Combs answered with a bullet, and the robber opened fire with his gun. Combs was killed by one shot while the robber sustained several wounds that almost instantly proved fatal.

Drug Store Owner Faces Death From Burglars

DALLAS, May 26.—(P)—M. P. McKinney, proprietor of a pharmacy, died here tonight when shot at several times by a robber who attempted to hold up the pharmacist.

The robber entered the pharmacy and ordered McKinney to open the cash register. Instead McKinney dropped to his knees and crawled quickly behind a counter and to the rear of his store.

The robber fired several shots at McKinney but, fled to an automobile and escaped when a passerby was attracted by the shots.

Police were given descriptions of the man.

GETS 25 YEARS

Wichita Falls Man Found Guilty Of Murder

WICHITA FALLS, May 26.—(P)—Jack Nagle was found guilty on a charge of murder and his punishment fixed at 25 years imprisonment by the verdict of a jury which reported Saturday after an hour's deliberation.

Nagle had admitted that he shot Theodore Zimmerman, a shopkeeper, to death during an attempted holdup on the night of last April. He had asked for a suspended sentence, pleading that the shots were fired accidentally when Mr. Zimmerman grappled with him.

WATER ROW PEACE

Contract Being Negotiated
Now, Paper Says

BROWNWOOD, Texas, May 26.—(P)—The Brownwood Bulletin says today that an agreement between the Brown county water improvement district No. 1 and the syndicate company of Dallas, which have been active opponents for almost a year, have been reached and that the parties are negotiating a contract to settle their respective rights and claims.

The paper says that the controversy over the water rights on the Colorado river had been settled, water board officials here denied that final action had been taken.

GENERAL NOBILE
And Above, "The Italia"

Butler, Leading House Member, Claimed by Death

Chairman of Naval Com-
mittee Was Serving Six-
teenth Continuous Term
As Congressman.

(By Associated Press)
WASHINGTON, May 26.—Representative Thomas S. Butler, of house naval committee, died at his home here tonight. He was 72 years old.

The veteran house member succumbed to a heart attack suffered more than a month ago. All members of his family, except one son, Brig. General Smedley Butler, now in command of American marine corps forces in China, were at his bedside. Mrs. Butler and her two other sons had been caring for him during his illness.

Mr. Butler was serving his sixteenth continuous term in the house for the eighth Pennsylvania district. His home was at Westchester in that state.

The death of "Tom" Butler, as he was known to his associates, removes from the house its oldest representative in point of continuous service.

See BUTLER DIES, Page 8

Possemen Aided By Planes Continue To Scour Wide Area for Brutal Bandits

(By Associated Press)
OAKLEY, Kans., May 26.—Undaunted by the prospect of having lost their quarry, at least temporarily, hundreds of possemen, aided by airplanes surveying miles of hills and prairie of western Kansas, continued a relentless search tonight for the desperadoes who raided the First National Bank of Lamar, Colo., Wednesday and who have left three dead in their dash for freedom.

While more than 1,000 men were in the field in quest of the robbers, a 36-hour search over an area of more than 50 square miles tonight had failed to reveal any trace of the missing gunmen.

Cashier's Fate Unsolved
The fate of A. E. Kessinger, kidnaped assistant cashier of the Lamar bank, who was carried away as a hostage after the bank robbery in which the

men obtained \$30,000, still was as much a mystery as the whereabouts of the bandits themselves. Hope faded that he would be found alive, and the search went on under the theory that he had been slain and his body thrown out of the speeding bandit car.

Doctor Was Beaten
Indications were that Dr. W. W. Wineinger, Dighton, Kansas, physician had been severely beaten before he was slain by the robbers yesterday morning near Scott City, Kans. His body was found near his wrecked automobile. The captive's face had been battered in and he had been shot twice. Dr. Wineinger had been abducted to dress the wounds of the robbers—shot before he and his accomplices had slain A. N. Parrish, president of the Lamar bank, and his son, John Parrish, cashier.

Amarillo Power Plant Bought By Texas Utilities

Big Merger of Utility Com-
panies Operating On
Plains Announced; Plans
Drawn for Super Plant.

Adding another link to the already extensive holdings of the Community Power and Light company of St. Louis, parent organization of the Texas Utilities company, and New Mexico Utilities company, acquisition of the Southwestern Public Service company, with headquarters in Amarillo, was announced Saturday jointly by I. R. Kelso, president of the Community Power and Light, and L. L. Perree, general manager of the latter organization, through the local offices of the Texas Utilities company.

Actual transfer of the properties will take place July 1, the announcement said, adding an additional approximately 10,000 horsepower of generation to the inter-connected link of the Texas and New Mexico companies, and bringing the total generative power of the system to approximately 40,000 horsepower.

The consideration involved in the transaction was withheld, and no information in this connection could be obtained, although it was learned that the purchase price of \$20,000,000 is being expended in the

98 Graduates Of Tech Will March On Campus Today

Cap and Gown Will Be In
Vogue for Second Time
Today; Houston Pastor
Will Give Sermon.

NEFF, COMMENCEMENT SPEAKER HERE TODAY

Services Start At 11 This
Morning at Gymnasium;
Alfred Van Dyke Grand
Marshall.

The cap and gown will again be seen upon the campus of Texas Technological College this morning as ninety-eight students of the college march in the academic procession from the textile engineering building to the gymnasium where they will hear Dr. William States Jacobus, pastor of the First Presbyterian church of Houston, deliver the school's second commencement sermon.

Today will find a slightly altered scene from a year ago when the first class of a scant two score and five graduates marched into the gym.

The services will start at 11 o'clock this morning with the march of the class into the building preceding Dr. Jacobus' sermon. Only Dr. Jacobus' sermon and music selections will be heard this morning.

Van Dyke to Marshall
Alfred Van Dyke, junior student from Strawn, is Grand Marshall of the day, having charge of the procession of the graduates into the gym.

Tomorrow morning at 10:30 the final exercise of the year will be held and the students will march out of the gym for the last time for the day having charge of the procession of the graduates into the gym.

Following this the announcement of the winners of the scholarships for next year will be made.

Jones Willing To Become Candidate

Will Enter Race If Can Best
Serve People And Party
That Way, Houston Man
Says.

(By Associated Press)
HOUSTON, May 26.—Jesse H. Jones, endorsed by the state Democratic convention for the presidency, is willing to become a candidate if he "can better serve the party" in that way, according to a statement issued here tonight.

"He thanked the people of Texas for honoring him at the Beaumont convention and gratified that the leadership of our splendid party was vindicated and the Texas Democrats reasserted their unwavering loyalty to the national party."

The statement follows:
"I cannot allow this occasion to pass without some word of appreciation to the people of Texas for the honor they have done me through their representatives at the

Probability Of Deadlock Is Now Political Topic

Hoover Foes Will Amass
Forces for Nomination At
Start; Smith Backers Are
Confident.

(By Associated Press)
WASHINGTON, May 26.—As the last of the delegates to the republican national convention are being selected, the dispute whether there will be a nomination on an early ballot or a deadlock goes on.

From the standpoint of pre-convention delegate strength, Hoover has the best of it. Even his foes, while insisting that he won't be nominated, concede that. But neither his managers, nor those of Lowden, who has amassed a formidable list of delegates, are claiming that their men have the votes to win on the first ballot. From both camps, however, come predictions of victory later in the voting.

Deadlock In Making.
In the face of their forecasts, more than one party leader is passing the tip that neither Hoover nor Lowden has smooth sailing ahead in the convention and that a deadlock is in the making.

It is in connection with such predictions that the names of Coolidge, Dawes, Curtis, Hughes and a number of others, who would be in a real dark horse class are advanced.

It is generally agreed that much

MAYFIELD SPEAKS Opens Campaign for U. S. Senate

SULPHUR SPRINGS, May 26.—(P)—United States Senator Earl B. Mayfield opened his campaign for reelection here this afternoon before a large audience.

The Sulphur Springs chamber of Commerce has leased a large cotton warehouse, seating about 7,500 for all large political and religious gatherings, and in this building the senator fired the opening gun of his present campaign.

Coming directly from Washington, Senator Mayfield was met at Sulphur Springs and greeted here by automobiles.

BUTLER TO RETIRE

Resigns As the Republican
Committeeman

BOSTON, May 26.—(P)—The Boston Herald will say tomorrow that William M. Butler, has definitely decided to retire as the Massachusetts member of the Republican National committee. Louis K. Liggett of Boston has been discussed, the newspaper will say, as Mr. Butler's probable successor.

SANITY INVESTIGATION Sister of Hickman Is Being Examined

KANSAS CITY, Mo., May 26.—(P)—Examination to determine the old sister of Edward Hickman, slayer of Marion Parker, was asked today by Col. Charles, former chief of police here and sponsor for the Hickman family.

Chaplin Subpoenaed
MANTLE, Utah, May 26.—(P)—Charles Chaplin, king of comedians, will be subpoenaed Monday to appear at the trial of Sheldon Reid Clark, 23-year-old confessed hammer-slayer of Don Solvich, 37, former Butler in the Chaplin Beverly Hills home. It was announced tonight by Lewis Larson, defense counsel.

News Flashes

(By Associated Press)
Schumann-Heink Charged
LOS ANGELES, Calif., May 26.—(P)—Henry Schumann-Heink, 38, son of Madame Schumann-Heink, grand opera singer, was charged with grand theft in a complaint issued here today by the district attorney's office. He is accused of defrauding Mrs. Margaret F. Dobson, in a stock transaction.

Breckenridge Girl Killed
BRECKENRIDGE, May 26.—(P)—Nellie B. Lynn, daughter of Mr. and Mrs. T. B. Lynn of Breckenridge, was instantly killed here tonight when run over by an automobile at a street intersection. She ran from behind a crowd into the path of the car which was driving slowly.

Wink Election Called
WINK, Texas, May 26.—(P)—On the eve of an election Monday to choose a mayor and two commissioners and to decide upon incorporating Wink, officers are parading the streets at hourly intervals to maintain order during spirited campaigning.

Hoover Praises Youths
WASHINGTON, May 26.—(P)—Secretary Hoover paid tribute tonight to the youth of America. Avoiding any reference to politics or to his presidential candidacy, the commerce secretary, in an address before the National Oratorical contest, repudiated the often-heard charge that the young people of today are "irresponsible" or "light-headed."

Story Trial Recalled
SHERMAN, May 26.—(P)—The trial of Yuliy Stry charged with robbery of a Krum, Denton county, bank, was recessed in district court today until Monday after several witnesses had been heard.

Barge Line Bill Passed
WASHINGTON, May 26.—(P)—The senate passed the Mississippi barge line bill today without a record vote.

Child Burned to Death
DALLAS, May 26.—(P)—Jene Tullis, 2, suffered burns which proved fatal when her clothing was ignited while she was playing at her home here today. Her sister, Eugenia, 13, was painfully burned on the hands while attempting to extinguish the flames.

Coolidge "Draft" Revived
BEMUS POINT, N. Y., May 26.—(P)—The "draft Coolidge" program was revived tonight by George K. Morris, chairman of the republican state committee, in an address to the western New York republicans, assembled at the third "dandelion party" of the eighth judicial district.

Identify Dead Prisoner
DES MOINES, Iowa, May 26.—(P)—The body of a man who hanged himself in the city jail yesterday, was identified today as that of John William Price, Jr., 26, Ranger, Texas. Identification was made by his brother-in-law, Thomas Workman of Riverside.

POSTAL REDUCTION
One Cent Post Card Is To
Come Back

WASHINGTON, May 26.—(P)—Congress completed legislative action today on a measure to reduce postal rates on most classes of mail to the 1921 basis thereby slashing \$16,285,000 from the mail costs of the nation to take effect on next July 1.

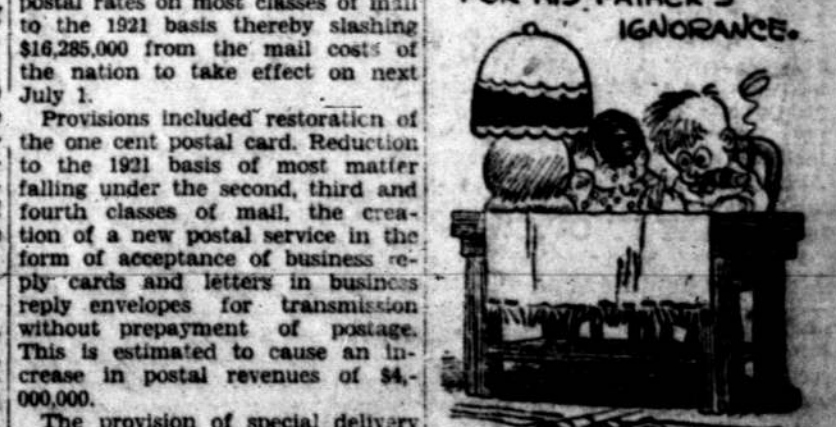

Provisions included restoration of the one cent postal card. Reduction to the 1921 basis of most matter falling under the second, third and fourth classes of mail, the creation of a new postal service in the form of acceptance of business reply cards and letters in business reply envelopes for transmission without prepayment of postage. This is estimated to cause an increase in postal revenues of \$4,000,000.

The provision of special delivery stamps in denominations of 10, 15, 20, 25 and 35 cents with the service extended to all classes of mail, estimated to cause an increased postal revenue of \$900,000.

Handicap of Mud And Rain Beaten By Stanford Team

All That Elements and Score of Eastern Colleges Can Do Overcome by Plucky Athlete.

BY ALAN J. GOULD
Associated Press Sports Editor
HARVARD STADIUM, CAMBRIDGE, Mass., May 26.—(AP)—Mud, rain and the combined track and field strength of more than a score of eastern colleges today could not stop the brawny sons of Leland Stanford university from carrying off the intercollegiate A. A. A. team championship for the second straight year.

Eleven Stanford athletes, led by the stalwart sophomore, Eric Krenz, piled up a total of 43 points to spread eagle the field and win by the biggest margin any victorious team has had in thirteen years. Yale, carrying the forlorn hopes of the east, finished second with 25.1-3 points while Cornell and Penn state tied for third with 16 points apiece.

Shares Individual Glory
Ray Barburti, Syracuse captain, emerged to share chief individual glory with Eric Krenz.
Krenz was able to rest on his laurels of yesterday, clinching first place in the shot put and discus with his record-breaking preliminary throws that no one was able to threaten today, but Barburti was forced to go out and earn his twin victories in the 200 yard dash and 440 yard run.

The big Syracuse flier beat out the Stanford captain, Emerson (Bud) Spencer, the favorite by a yard in a thrilling finish in 48.70 seconds. Apparently none the worse for the wear and tear of this grueling event, Barburti came back an hour and a half later to win the 220 with a sensational finish that overcame Barron Rockwell of Princeton in 22.5 seconds.

PLAY IT OVER
East Texas League Game
THROWN OUT
TEKARKANA, Tex., May 26.—(AP)—The Lone Star baseball game of May 2, between Texarkana and Palestine, which was won by Palestine, has been ordered played over by T. H. Fisher, president of the loop, President Bayard Witt of the Texarkana team.

Two Racers Drive to Glory In Tryout On Indianapolis Track; De Pablo Is Injured

(By Associated Press)

INDIANAPOLIS, May 26.—Pounding over the bricks of the Indianapolis motor speedway, at speeds never before attained on the course, Leon Duray and Cliff Woodbury rode to glory today in qualifying for next Wednesday's 500 mile race, while Peter De Pablo, their challenger, landed in the hospital, battered from a triple somersault but pronounced not seriously injured.

Woodbury, a Chicago product of the dirt tracks, first rode down the mile lap—1.2 miles—record of the late Frank Lockhart, when he negotiated it at an average speed of 121.881 miles an hour. Then he surpassed the ten mile mark also held by Lockhart, by averaging 120.417. The previous best lap average was 120.918 miles an hour and for ten miles it was 120.10.

Broke Three Times
Five minutes later Duray, whose home is in Los Angeles, plunged into the turns and skidded out of them for one lap at an average of 124.018 miles an hour and pulled to a quick stop, three of his tires badly torn and flapping wildly in the breeze. After a change of rubber and a rest Duray returned to the course to set a new ten mile average of 122.351 miles an hour. His time for the trip was 45.414. Then De Pablo, the 1927 speedway driving champion, and holder of the 500 mile record for the track—101.13 miles an hour—rolled a new front drive car onto the track for a whirl at the new records, roaring into the turn out of the back stretch, he skidded, into the inner retaining wall (correct) bounded off, rolled over three times, and finally came to a halt on the upper wall.

De Pablo, thrown clear of the car, was on his feet when he paraded.

Yanks Get Early Lead by Hitting Jack Quinn Hard

Lazzeri and Speaker Get Home Runs But Ruth And Gehrig Fail to Connect For Round Trip.

(By Associated Press)
PHILADELPHIA, May 26.—The Yankees pounded Jack Quinn hard in the early innings today and piled up a lead which enabled them to win their third straight and their fourth in five games from the Athletics, 7 to 4. Rummel and Orvill followed Quinn in the box, Coveleskie and Shealy pitched for the Yankees.

West Texas League Averages

Keep Check On Loop's Performers By The Statistics Presented Here.

The West Texas league's two leading home run hitters, Garland Orr of Abilene and Don Frane of San Angelo, were unable to park the ball during the week ending Thursday, but both Orr and Frane continued to get base hits. Frane, who has never been out of the league lead, topped the bluegeonners with a .481 average through Thursday's game. Orr slugged along in the real runner-up position with .411. Jess Vick, Hamlin pitcher who has been hit by 24 times, has an average of .458. Big Ed Kallina, Abilene first baseman, is third in hitting and fourth in the number of home runs garnered. Kallina has sent seven balls out of the lot against 10 each by Orr and Frane, nine by May, Lubbock shortstop, and eight by Harris of Midland.

Comeaux of San Angelo remains the leading base-stealer with 15. Chick Galera, Abilene's bespectacled southpaw, is the real pitching leader with six victories against one loss. Busby of Midland has won three and lost none. Allen of Abilene has won one and lost none. Figures on Allen's victory are unavailable.

Statistics on batters in five or more games who have hit 300 or better through Thursday's games, team batting and on pitchers who have won half or more of their games follow:

Inter-City Shoot To Be Held Today By Gun Club Here

Teams From Floydada And Tahoka To Compete In Events; Range Moved To Better Location.

The initial inter-city shoot of South Plains marksmen will be held here this afternoon when gun club members of the Floydada and Tahoka clubs meet here with the Lubbock membership in a tri-city shoot to be held at the local gun club range, on the east Broadway canyon, just across the fence from the Municipal golf course.

More than 5,000 targets will be used in the inter-city meet, according to Byron Brown, president of the local club.
Sweetwater was invited to take part in the shoot for this afternoon but due to the recent state shoot held at Waco in which several members of the Sweetwater club took part in they have postponed the meet with Lubbock at another date in the near future.

The local club expects to have an increased membership as a result of a more suitable location for the range and several improvements in the range are being contemplated.
This afternoon's shooting will start at 2:30 o'clock and some twenty or more visiting shooters will be expected here.

LOS ANGELES, Calif., May 26.—(AP)—Mrs. Harry Pressler of the San Gabriel Country Club, won the Southern California Women's Golf championship here today by defeating Mrs. Dan Jones of Brentwood, 5 and 3 in the final of the tournament.
Mrs. Pressler is holder of the Western Women's title.

Cubs Make It Two Out of Three For Pittsburgh Series

Cuyler's Home Run With Two Abound In First Factor In Early Lead. Boosted During Game.

(By Associated Press)
Pittsburgh, May 26.—The Chicago Cubs made it two out of three from the Pittsburgh Pirates today, by winning 6 to 1. Cuyler's home run with two on in the first gave the Cubs a big advantage and they annexed two more in the second largely through loose fielding of the buecaners.

Strolling Down Sports Lane

By JAMES R. DOW

Opening game with the Colts here yesterday was delayed some forty minutes as one of the cars bearing the Colt players broke down on the trip from Midland to Lubbock.

The ump, Grady White and Trueman Case, too, were late and even if the Colts had appeared in due time the game would have been delayed. The ump, too, had car trouble in their trip to Lubbock. The trouble in the Class D circuit is just starting—these "gully-jumpers" will deal plenty of misery after three or four trips are made.

Bennie Brownlow was in uniform yesterday for the first time since his illness of some few weeks ago. The silver-haired pilot for the Hubbers certainly looked good in his "battling top."

A shift was made in the Hubber hitting order yesterday due to the absence of Don Anderson, fleet outfielder, who received a sprained ankle during the second game of the Colt-Hubber series in Midland. Anderson will be out of the game for some two weeks, it is thought.

Luckily for Anderson's place, Blackie Adams is just recovering from a pneumonia attack and was placed in the left garden. Blackie came through with two hits in five trips and was responsible for the Hubbers.

Barney (Red) May, aside from rapping out his No. 10 home run for the season, made a most spectacular stab and play on Thornton's ripped grounder over second base in the second inning of yesterday's game. Red was dashing at top speed, stooped over, fielded the ball and retired Thornton by a close out.

Willis Knight looked great for five innings as only one man reached first base. In the third inning only seven pitched balls were used in retiring the Colts.

Thornton, first sacker for Maloney, who rapped out four for five trips, was the first Midland hitter

to touch Knight for a hit in yesterday's game.

Ray Robinson was hitting the agate hard and far yesterday. He tripled in the fourth to deep centerfield and in the seventh almost undressed Busby on the mound with a tearing liner back to the mound.

Hays, Maloney's catcher, stepped over the can in the eighth to connect with Red Hill's pitch out. Hays fairly rapped it, too as it soared over the left field barrier.

Red May was purposely walked in the eighth when two were on base. May's walk, however, didn't help matters for Burch followed him with a hot ground-er through Williams, Midland keyster, that went onto the fence and for three bases.

In the eighth the Hubbers were just naturally hopping on the first pitched ball thrown up by Busby and it looked for a while like a hail storm of base hits.

Lubbock just got nineteen hits from the offerings of Midland chuckers, while Knight, Hill, and Maxwell gave up thirteen hits for twelve runs.

Same place. Same faces. Three bells today.

"—and I didn't know what to expect of tires of until I used MILLERS"

When all tire companies quite naturally praise their own product—there is only one thing that will bring conviction—and that is comparison. MILLER'S claim to superiority is no idle boast when their performance involuntarily brings praise from one who has tried the many. Compare them yourself—test them against any tire built—at any price.

(An actual quotation from a Miller user.)

Salo Places At Second and Will Be Given \$10,000

It Took Payne 513 Hours Or More Than 21 Days Of Actual Running, to Span Continent.

BY EDWARD J. NEIL Associated Press Sports Writer

NEW YORK, May 26. (AP)—Through a forest of empty seats—strange contrast to the trials of the trails of the Rocky Mountains—the parching winds of deserts, and the concrete of city pavements—fifty-five survivors of Charlie Pyle's trans-continental foot race, plodded to the end of their weary trail of 3423 miles in Madison Square Garden tonight.

Andrew Payne, the sun-blackened 21-year-old son of an Oklahoma farmer, nursed the wide lead he has held for several days in the final

20-mile grind over the cement floor of the Garden and won the first prize of \$25,000. Pyle offered the winner when the fantastic jaunt started 34 days ago in Los Angeles. John Salo, who finished first in the run from Suffern, N. Y., to his home town of Passaic, N. J., yesterday, and led in today's lap, was second. He finished 15 hours, 35 minutes and 39 seconds behind Payne to win \$10,000.

Eight Got \$1,000

The next eight prize winners were: Phillip Granville, Hamilton, Ont. third, \$5,000; Mike Joyce, Cleveland, fourth, \$2,500; Guisto, Umeck, Trieste, Italy, fifth, \$1,000; William Kerr, Minneapolis, sixth, \$1,000; Louis Perella, Albany, seventh, \$1,000; Ed Gardiner, Seattle, eighth, \$1,000; Frank Von Flue, Kerman, Calif., ninth, \$1,000; John Cronick, Saskatoon, Sask., tenth, \$1,000.

Payne's last lap of 32.2 miles was covered in 4:28.01 and he completed the long trek from California in 573:04.34. Salo's time for the lap was 3:46.08, his elapsed time 588:40.13. Granville's elapsed time was 613:42.30; Gardner's 659:56.47; Von

Flue's 661:31.49. Other money winners still were finishing.

Money Doubtful

While their prize money amounted to that, most of the sun-baked plodders believed today that the most they could expect as reward for the jaunt that covered 3423 miles would be the exercise entailed and their names in the papers. They believed that Pyle no longer controls the financial destinies of the race and lost \$60,000 in the venture. The promoter declared, however, that the prize winners will be paid off next Friday night when a 24-hour race will be staged in the garden.

Full of hope, eighty-four days ago 199 runners left Los Angeles on the first of the daily runs that finally brought the fifty-five survivors into Weehawken, N. J., today to Perry across the Hudson river and plod through New York's streets to the garden.

Curious New Yorkers, anxious to gaze upon men who could complete a race considered impossible when the jaunt began, lined the streets leading to the garden. They jammed the entrance ways, but less than 3,000 accepted Pyle's invita-

tion to come inside and see the 20-mile indoor marathon that marked the finish. Acceptance of the invitation required the depositing of \$1.65 collateral with Mr. Pyle.

WIMBLEDON TEAM

Women Who Will Represent U. S. Announced

NEW YORK, May 26. (AP)—The United States lawn tennis association today announced the personnel of the team which will defend the Wightman cup against the challenge of England at Wimbledon, June 15 and 16. The team includes Miss Helen Wills, Mrs. Molla B. Mallory, Miss Helen Jacobs, Miss Eleanor Goss and Miss Penelope Anderson.

CORNELL OARMEN WIN

ITHACA, N. Y., May 26. (AP)—Cornell's oarsmen swept through to victory in all three races in the dual regatta, with Syracuse on Lake Cayuga today. The big red varsity scored its victory by a margin of two and one quarter lengths.

WINS BRITISH TITLE

Perkins Bests Wethered, Six and Four

PRESTWICK, Scotland, May 26. (AP)—A new name was today placed at the top of British Amateur golf. T. P. Perkins, stalwart 24-year-old Birmingham youth, started playing golf for his health when he was a sickly boy and thrived on it until he was able to defeat Roger Wethered, 6 and 4, for the championship. The champion will be seen in the United States this summer for he is a certain Walker cup team selection.

TEACHERS WIN TRACK

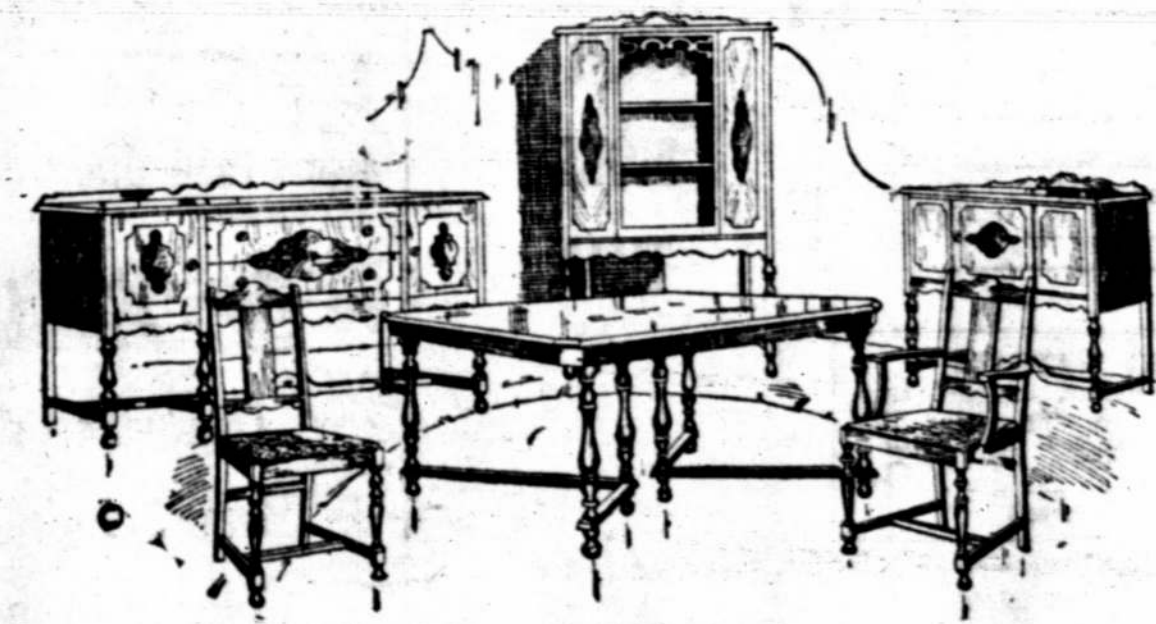

Pittsburgh College Team Is Victor In Meet

PITTSBURGH, Kansas, May 26. (AP)—The Pittsburgh State Teachers College carried off first honors here today in the first annual Missouri-Kansas Interstate track meet, scoring a total of 46 points, with men placing in twelve of 16 events.

Various Phases Of Retailing Are Talked In Session

Hassell and Sherrod From Local Association Hear Program At Convention In Wichita Falls.

Better Retailing, Community Credit Policy, Credit Loans, and many other similar subjects were discussed at the 28th annual convention of the Retail Merchants Association of Texas at Wichita Falls Monday, Tuesday and Wednesday of last week.
D. Hassell, Jr., president of the Lubbock Retail Merchants association, and Paul Sherrod were delegates from Lubbock to the convention and brought back a report that the meeting was an outstanding educational meeting for merchants and credit men.

Bauch Is Speaker
L. H. Bauch, educational director of the National Cash Register company of Dayton, Ohio, was one of the principal speakers on the three day program, speaking on the subject of "Better Retailing." Members of the Texas retailers organization were high in their praise of the address and letters are to be sent from hundreds of the delegates to the National Cash Register company thanking the organization for sending Bauch to the convention and to request that he be sent to Texas for a tour of the principal cities in various sections of the state.
President Hassell has written asking that Bauch be allowed to make the tour and giving an invitation to the speaker to include Lubbock in the itinerary should the trip become a reality.

D. J. Woodcock, St. Louis, manager of the National Retail Credit association, spoke on "A Community Credit Policy," giving data on the success in many towns of adopting a "retailer credit policy" which is followed by all stores. The advantages to all stores is obvious, Meyer stated.
John R. Clark, credit manager of the Monroe Dry Goods company of Fort Worth explained the success of the educational "Pay Promptly Advertising Campaign" that has been conducted for the past several years by Fort Worth merchants.
Judge John C. Read, Dallas attorney, spoke on the "Legal Basis of Retail Credit." With the extension of credit, John said, and a medium must be struck, John said in his particular business losses have averaged seven-tenths of one per cent of all charged sales.

Leopold L. Meyer, Houston, president of the National Retail Credit association, spoke on "A Community Credit Policy," giving data on the success in many towns of adopting a "retailer credit policy" which is followed by all stores. The advantages to all stores is obvious, Meyer stated.
John R. Clark, credit manager of the Monroe Dry Goods company of Fort Worth explained the success of the educational "Pay Promptly Advertising Campaign" that has been conducted for the past several years by Fort Worth merchants.
Judge John C. Read, Dallas attorney, spoke on the "Legal Basis of Retail Credit." With the extension of credit, John said, and a medium must be struck, John said in his particular business losses have averaged seven-tenths of one per cent of all charged sales.

Merchants Loan Company
E. G. Graves with the Fort Worth Retail Merchants association told of the Retail Merchants Loan Company that has been operating with considerable success, extending loans to people with good credit records to their credit who have gotten behind with their obligations and who wish to float a loan to keep their credit rating in sound condition.
Mrs. Ethel B. Finks of San Benito spoke on the "Relation of Credit Bureau to Credit Grantor" and urged that merchants get the benefit of the credit bureau's information on every new customer before extending credit.
L. W. Bevens of Fort Worth was elected president of the association and San Benito was selected as the convention city 1929.

RELIGHT ANCIENT FIRES
BOLANZO, Italy—Flames leaped high on his surrounding Merano recently in commemoration of the huge bonfire used in the middle ages to signal neighbors when plague swept the country. The custom has been continued by the peasantry during the intervening centuries and the fires are lighted at a specified time at least once a year.
Nails, spikes and other pieces of iron are being removed from sections of our state highways by powerful electromagnets suspended underneath trucks.
The founder of the Salvation Army was General William Booth, an English clergyman.

Court Climaxed 14 Year Campaign

Cities' First Effort for Project Were Start In 1914, Survey Shows.

With the awarding of the court to Lubbock, 14 years of hopes and struggles on part of the city's business men are ended.
In the earlier part of 1914, Roscoe Wilson, who has played one of the most prominent parts in the fight for the division, entered into correspondence with various individuals over this section regarding the court. Correspondence was about all that took place at this time, however.
Later in 1916, Wichita Falls started a fight for a district court of the circuit, there and a bill was entered in the senate by Senator Morris Sheppard which also called for the creation of a district at Lubbock.

Then Fight Began
Right there the fight began. M. T. Jacobs, then secretary of the Lubbock Chamber of Commerce, and the telephone wires not between here and Washington, Austin, Dallas and any other point which might aid in securing the court for Lubbock. Senator C. A. Culberson from Texas was the man who received the bulk of the correspondence and the task of placing a bill in the house falling partly in his hands. He, apparently, did not work at the job as diligently as citizens here thought he ought to and additional wires and letters were sent to Washington.
A committee composed of C. L. Elston, Roscoe Wilson, Colby Thomas (deceased), and George C. Wolfarth, was appointed from the Chamber of Commerce to work on the project.
Feeling that the time was ripe for action on the grounds, Jacoby and Judge W. R. Spencer were sent to Washington to aid the bill in being passed in the house. Here, it met much opposition and was killed.

Lubbock Was Undaunted
Lubbock was undaunted, however by the move and continued their fight for the court.
In 1919 additional interest in the court was created only to fall short of its goal. Again in 1926, the matter was brought up again only to meet disapproval at the hands of the department of justice and Judge Charles Meek at Dallas. It died then also.
Then the new bill was introduced this year, meeting with success only after fight had been carried on through a committee of local men.

Various men have had a part in the fight for the court, a file of the correspondence in the chamber of commerce offices show. George W. Briggs, secretary of the chamber of commerce here for a number of years, J. K. Wester, present candidate for state representative from this district, J. E. Vickers, who worked from 1919 until the past week, E. L. Klett, local attorney and present workers, C. E. Maedgen, John L. Vaughan, A. B. Davis, and numerous others.
Following out the "live at home" movement, Lubbock county housewives can this year.
This information was given out by Miss Louise Baird, county home demonstration agent, who says that there will be much canning in Lubbock this year.
And Miss Baird ought to know for she visits practically every community in the county, talking with several hundred home demonstration club women. She is to present additional stimulus to the home canning movement by giving 35 canning demonstrations in the county during the coming summer.
Fruits will be comparatively low this year, Miss Baird says, but there will be an abundance of vegetables. With practically every club in touch with at least a half dozen home demonstration agents, each housewife will have a chance to do some canning. Members of the Wolfarth club are to purchase seven additional cookers in the near future, she said.

Auto Holds Lead In Accident Toll
19 Killed and 96 Hurt In Week Of May 1-7; Total For Year In All Cases Shows 549 Dead.
Automobiles continue to maintain a good lead in fatalities and injuries through accidents in Texas, with nearly half the total number killed and over half injured, laid to automobiles during the week of May 1 to 7, it is revealed in a tabulation released by the Texas Council of Safety.
The toll of the automobile during the week was 19 killed and 96 injured, with the total in all accidents 44 killed and 135 injured.
Falls stepped into second place with fatalities and injuries with four killed and six hurt, though five were killed and two hurt by burns, the report shows. Other causes and comparative figures with the corresponding period a year ago follow.

CHOIR QUILTS WHEN PASTOR BANS DANCE
MANCHESTER, Eng.—The choir of St. Clement's church at Higher Broughton, went on strike recently when when J. Daft, pastor of the church, placed a ban against smoking on church premises, and prohibited what drives and dances. In explaining his action the pastor held that what drives and dances threaten the life of the church and stifle the efforts of the minister; while smoking on church premises was held improper as well as being responsible for keeping many people, who object to smoking, from attending church functions.
The rector's announcement to his congregation met with jeers and cries of "nonsense" and "rubbish" from the chorists, who called a strike when their pastor failed to change his attitude.
"In no circumstances will the chorists who have gone on strike be reinstated," was the pastor's ultimatum. "Those who are trying to coerce me are unrepentant. It must go on now."

NEW PHONE SYSTEM
LAMESA, May 26.—According to plans of the State Telephone company a new modern common battery system is expected to be installed here this year. A telephone survey has been completed of the city with view to determining the cost of installation of this system.

COTTONSEED OIL
NEW YORK, May 26. (P)—The cottonseed oil market held steady in a dull featureless trade, closing 5 to 10 points higher. Prime crude nominal; prime summer yellow spot 10.40; May closed 20.40; July 10.38; September 10.60; October 10.65; December 10.53.
FORT WORTH LIVESTOCK
FORT WORTH, May 26. (P)—The hog market here today was slow but prices held steady. The top figures for the day was \$9.55, with the bulk selling from \$8.75 to \$9.45. Sows brought from \$8.00 to \$9.25. Pigs were scarce.
The cattle and sheep trades were largely nominal affairs.
The many titled monarch of Afghanistan, prior to his tour of Europe, had never previously seen the sea or a ship.

Thousands Visit Formal Openings For Stores Here

Attendance at Montgomery-Ward, Baker and Myrick Openings Greatest Ever; For Business House.

Lubbock was guest yesterday at the opening of three of the major firms of the city—Montgomery Ward and Company, Baker Furniture Company, and Myrick Hardware Company.
The simultaneous openings of the three stores brought what is thought to be one of the largest crowds in the city for a number of months. Official checking apparatus at the door of the Montgomery Ward and company's store showed that approximately 25,000 people crowded through the doors of the opening. Crowds at the other openings were variously estimated at from 10,000 to 15,000.

Flowers were presented to the management of each of the three firms by business men of the city.
C. J. Myer, manager of the Montgomery Ward and company's store here, stated last night that the crowds and sales yesterday were beyond all expectations. He was extremely pleased with the opening and expressed an appreciation of the courtesies extended to the firm by local business men.
Mrs. H. A. Lattimore, 1919 10th street, was the person awarded choice of the entire stock of the Baker Furniture store, selecting a mattress, Senator Bledson and W. C. Ryland, noted addresses, and an orchestra furnished music in connection with the opening of the Baker program.
Numerous compliments and congratulations were received by the management of the Myrick Hardware company on the first floor of the Myrick building. Crowds thronged the store throughout the day and until a late hour last night. Three and one-half bushels of roses were given out as souvenirs.
Mr. Myrick stated that he appreciated the flowers sent by the management of the other firms holding openings and from other business firms of the city. He expressed himself as well pleased with the opening.

Canyon Student Is Winner In Essay
Nationwide Contest Held Through Spanish Paper Won By Mrs. McDonald With "Maria" Essay.
CANYON, May 26.—Mrs. T. H. McDonald, a member of the graduating class of the West Texas State Teachers college, has recently won a prize in the nationwide Spanish essay contest which is sponsored by La Prensa, a newspaper published in New York, and the National association of Spanish Teachers.
This contest has the purpose of arousing greater interest in the Spanish language in the United States. Seven prizes are offered, one first prize, one second, and five third prizes. There are six districts and the one in which Canyon is situated is comprised of New Mex-

DAILY MARKETS
NEW YORK COTTON
NEW YORK, May 26. (P)—Early declines in the cotton market today were followed by rallies on the uncertainty of over-Sunday weather developments in the south, but after advancing from 20.62 to 20.81 for October, prices reacted under week-end realizing. October closed at 20.70 and the general market closed steady, net 1 point higher to a point lower.
The opening was steady at declines of 1 to 5 points, the market showing net losses of 9 to 16 points in early trading under realizing by recent buyers who may have been influenced by reports of continued slow demand for cotton goods. Buying became a little more active at the decline to 20.50 for July and 20.47 for December, however, and the market steadied up on apprehensions that the weather in the south might become unsettled over the week-end.
The belief appeared to be based partly upon reports of a low barometer over Brownsville, Texas, which some thought might work along the Texas coast and into the eastern belt. Covering became quite active on the bulge, which extended to 20.71 for July and 20.66 for December, or about 5 to 10 points above yesterday's closing quotations but demand tapered off at these figures, and a good part of the advance was lost in late trading.

NEW ORLEANS COTTON
NEW ORLEANS, May 26. (P)—There was little incentive for activity on the cotton market today with Liverpool closed for the Whitsuntide holidays and trading in Wall Street suspended while brokers catch up with their accounts. The principal business of the abbreviated session was for evening up of commitments for over the week-end.
Prices opened at a decline of 7 points on the favorable weather outlook although this loss was recovered later on week-end covering. October sold off to 20.16, down 7 points at the opening, rallied 18 cents and closed at 20.24, up one point net for the day. The close was steady at net gains of one to four points.

Spuders Divide Double Bill With Sports Saturday

Shreveport Walks Away In First, 18 to 16, and Wichita Falls Grabs Second, 8 to 5.

(By Associated Press.)
WICHITA FALLS, Tex., May 26.—The Spuders divided a double header today with sports. Shreveport took the first 18 to 16, which was played under protest by Manager Williams of Wichita Falls on a ground rule interpretation of umpire Donnelly. The Spuders won the night cap 8 to 5. Heavy hitting with home runs, numerous, marked both games.

First Game.
Shreveport 221 004 142—18-24-4
Karp, Williams and Hayworth.
Wichita Falls 51 222 010—8-5

Fort Worth Cats Get Dozen Hits; Win 3-2

PORT WORTH, Tex., May 26.—The Fort Worth Cats today downed the Dallas Stars to a 3 to 2. The game was a duel between Joe Pate and Dick Schuman, with Schuman going out in the seventh for a pinch hitter and Walker holding the Cats scoreless the last two rounds he worked.

Steady Pitching, Perfect Fielding Win For Bears

SAN ANTONIO, May 26.—Steady pitching and perfect fielding turned out a good game of baseball here Saturday afternoon in which the San Antonio Bears defeated the Houston Astros for the second time of the season. The score being 4 to 1. The Bears scored their only run off Thib Riviere in the second.

Bearmont 010 000 000—1 5 0
Hubbel and Robertson.
San Antonio 000 001 12x—4 11 0
Riviere and Gibson.

Waco's Early Hitting Spree Defeats Buffs

WACO, May 26.—The Waco Cubs defeated Houston 8 to 5 today by hitting Hallahan early, mixing hits with walks. Johnson's long double with the bases crowded was the decisive blow of the contest. Elliott pitched a fair game, but home runs by Watkins and Worthington kept the Buffs in the game of the day.

Houston 010 021 001—5 11 2
Whitworth, Hallahan and Abbott.
Waco 002 200 10x—8 11 1
Elliott and Wolgamot.

U. S. BEATS CHINA

Davis Cup Team Wins Doubles Straight Sets

Kansas City, Mo., May 26.—Winning the doubles in straight sets here this afternoon, the United States eliminated China in the third match of the international Davis cup tennis series.

Captain William T. Tilden, American's ranking star, and W. F. Coen 16, of Kansas City, youngest player ever to wear the Stars and Stripes in Davis cup competition, swept through Gordon Lum and Paul Kong, 6-2, 6-1, 6-3, to clinch victory in the American zone semi-finals.

John Hennessey of Indianapolis yesterday defeated Lum, 6-3, 6-1, 6-0, in the singles, while Kozyrsk, of Chicago won over Kong in three love sets.

Utility Merger

(Continued From Page One)

giant expansion program affecting several states including the Southwestern merger.

Plan Super Plant

Consolidation of the three companies—Texas Utilities, New Mexico Utilities, and Southwestern Public Service—will in no way affect plans of the parent organization for construction of a super-power plant somewhere in the South Plains or Panhandle of Texas, preliminary announcements on which have been made according to information received here.

The location for the giant plant has not yet been decided. It was said, but the bulk of the engineering work has been completed, and officials are ready to proceed with construction as soon as a decision is reached on the site, several million dollars will be expended on this project.

No change in local management or operating personnel are contemplated in the Southwestern merger, the announcement said, but in due course of time operations of the Texas and New Mexico utilities will be brought into harmony with those of the Texas Utilities and New Mexico Utilities all with a view to improved service at the lowest possible rates.

The announcement also clarified the recent situation brought about by announcement of plans for connecting the power system of the Amarillo division of the Southwestern Public Service company and the Texas Utilities company by a high tension line extending from the new power station via Amarillo Lake to Canyon, which then was said necessary to safeguard Amarillo's water supply. These plans now will be carried out in full and these properties, with the New Mexico Utilities will shortly be inter-connected, it was said.

The northern terminus of the consolidated organization will be Panhandle, the southern Post and Securities, the eastern Crocker and Florida, and Silverton, and the western Roswell, New Mexico, one of the most fertile and productive areas in the United States.

Jones Willing

(Continued from page 1)

Democratic State convention at Beaumont in looking me for the presidency of the United States. "No greater tribute can be paid a man than to say he is qualified to be president of this great republic. The honor is greater than any I ever could have expected or for which I ever could have expected too much credit," was the way Mr. Maedgen put it and his words were welcomed by his fellow committeemen.

As is the custom, the Federal court's quarters will be combined with the postoffice in the recently granted postoffice building and in all probabilities Lubbock will get a larger and better federal building as a result of securing the court, the committeemen said. The sum of \$100,000 has already been assured the city and that total will probably be augmented to care for the additional business of the government brought to the Hub of the Plains in the form of the court.

Five thousand dollars of the \$100,000 total will be available for

President Signs Bill That Gives City Federal Court

Fourteen Year Fight On Party of City Ends In Triumph With Coolidge Sanction Yesterday.

(Continued from page 1)

of the Northern District of Texas will be, presided over by Judge James C. Wilson, of Fort Worth, and the government's prosecution will be handled by United States District Prosecutor N. A. Dodge, also of the Panther city. Its establishment calls for the appointment of a referee in bankruptcy, a United States commissioner, a deputy United States marshal and a deputy clerk, all of whom will make Lubbock their home and the majority of whom will likely be appointed from the present citizenship.

To Convene Twice Yearly

The court will convene twice yearly, on the third Monday in each May and upon the second Monday in each December. Length of terms will be governed by the size of the docket. The Lubbock division is the fourth in the Northern District of Texas, other points being Amarillo, Abilene and Fort Worth.

While the recent trips made to Washington by members of the local committee are no doubt largely responsible for the success of the campaign, these individuals attempted to duck and side-step the credit and commendation yesterday.

"It wasn't me," claimed Messrs. Vickers, Vaughan and Maedgen in unison and then, all together, they began passing out the credit to Congressman Jones, who wrote the bill and introduced it before the House of Representatives; to Senator Earle B. Mayfield, who introduced it in the senate; and to R. B. Greager, who carried the campaign to both Present Coolidge and Attorney General Sergeant in person and whose influence with republican leaders in Washington was of no doubt of great assistance.

They Praise Helpers

All three were in accord concerning the aid rendered the city's campaign by Messrs. Jones, Mayfield and Greager. "You can't give them too much credit," was the way Mr. Maedgen put it and his words were welcomed by his fellow committeemen.

As is the custom, the Federal court's quarters will be combined with the postoffice in the recently granted postoffice building and in all probabilities Lubbock will get a larger and better federal building as a result of securing the court, the committeemen said. Tech Graduates

(Continued from page 1)

of the college, who are to hold a meeting here tomorrow, will be present at the exercises today and tomorrow.

Neff Due To Arrive At 10:15 This Morning

Honorable Pat M. Neff, of Waco, former Governor of Texas, will arrive in Lubbock at 10:15 this morning, according to word received here late last night. He is to deliver the commencement address of the Tech graduates on tomorrow.

Mr. Neff comes to Lubbock from Washington where he has been on business connected with his present position on the Federal Rail Commission. He is to attend the commencement ceremonies at the Tech gym at 11 o'clock this morning and be feted at several events while here.

use on July 1 of this year and the balance will be available as needed. Just what sort of a campaign will be staged to assure extra funds for a larger building has not been decided by civic leaders last night but the granting of additional funds was regarded as a certainty.

Since at least two, and probably three sessions of the local committee will be available, some plan must be formulated to furnish a meeting place for the tribunal. It is likely, members of the local committee said, that the municipal court room in the City hall will be used, since Federal court officials are usually reticent about using courthouses for their meetings.

COOL PRINTED DRESSES IN LIGHT AND DARK GROUNDS FEATURED AT AN UNUSUAL PRICE

Newly arrived is an assortment of printed silk crepe dresses that are unusual. The patterns are good and the styles attractive. The material is light, but just the weight preferred for the inexpensive mid-summer garment. All sizes are represented. Slightly lower price range than usually featured at this store but decidedly lower in price than usually featured elsewhere. Think of it—\$4.85 silk dresses for only

NEW BETTER ORGANDY DRESSES

Another new line of ladies' fine dresses has just arrived—fine printed organdy dresses in the latest of styles—the materials are floral prints—from \$10.85

Stoffel—the models most attractive, the price is

PRINTED SILK CREPE AT REDUCED PRICES BRINGS YOU SUMMER DRESS MATERIALS OF MERIT

Printed silk has a most conspicuous place in the dresses one will wear for the warmer months of summer. The patterns and weights are ideal for comfort and appearance—then, too, they can be purchased now undervalued.

PRINTED CREPE

Fine bright patterns from Cheney and Stehl—crepes that are high in quality and most novel in design—crepes that give you every possible color effect and make the planning of summer garments so decidedly pleasant. There is a wide assortment to choose from—all new this season's creations. They are featured now in two groups:

\$2.50 values, now \$2.48
\$3.00 values, now \$2.19

PRINTED GEORGETTE

Prints also find popular demand in the light weight Georgette so well adapted to summer's requirements. Just now we are featuring a range of fine high quality materials in rich floral patterns—fabrics that either can be used for entire dresses or in combination with solids—fabrics that have the high quality necessary for service—fabrics we have no cause to discount. Wide is the variety in both dark and light grounds and all colors are represented. They are grouped in one lot:

Regular \$2.25 values, now \$1.89

STRIPED WASH SILK

New and smart in the extreme—an item that cries out "coolness" both in weight and coloring. The patterns are in the brightest possible stripes as well as the more sober colorings. The material is especially high quality, for it comes from one of America's finest manufacturers. Sleeveless mid-summer dresses from these patterns will be a joy to any woman—a correct summer garment that will be moderate in cost. The entire lot—all new just received patterns in one range:

New Striped Wash Silk, Now \$1.79

JANZEN SWIMMING SUITS FOR MEN, WOMEN AND CHILDREN — CHOOSE THEM NOW

With new pools both at the Municipal park and at the Country Club, swimming this summer will be quite the vogue. You'll enjoy this form of recreation much more in a JANZEN suit—they are decidedly correct in style, fit, workmanship and pattern range.

FOR MEN

Infants' clever little suits in Cardinal and white are priced \$2.50

Children's suits in varied colors in all-wool construction are \$4.00

Youths' "Speed" suits—very low—in all colors priced \$5.00

Italy

(Continued from page 1)

Ellsworth, companions of General Noble on the 1926 voyage of the dirigible Norge across the pole, volunteered their services as soon as the need for rescue work became apparent. Amundsen accepted a suggestion from the Norwegian government that he lead a searching party. In this he will have as associate, Captain Otto Sverdrup, a man deeply versed in the way of the arctic.

Edsworth May Join

Ellsworth cabled from New York a offer to join his former comrad in the search.

Captain George H. Wilkins, and Lieutenant Carl B. Eielson, who drove an airplane from Alaska to Spitzbergen a few weeks ago, offered to again survey the northern wastes from the air.

Order Ice Boat

The Norwegian government itself, acting on an urgent appeal for aid for the Italian minister at Oslo, ordered a noted icebreaker ship to sail tomorrow for the north.

Russian Soviet agencies along the arctic from the Norwegian border to the eastern reaches of Siberia have been told by their government to be on the lookout.

The possibility that the big arctic ship may have been wind driven toward the Siberian coast, called for this Russian activity, but that possibility also was viewed by Gen-

Retailers Here To Continue Campaign

Four New Members Signed Up Past Week by Committee And Continuous Drive In City Is Planned.

Beginning a continuous membership campaign to bring in every new business firm that comes to Lubbock, the membership committee of the Lubbock Retail Merchants association called on several new concerns Friday and signed up four new members for the association.

Several other new members have been added within the past few days.

A. G. Hunt, of the Hunt grocery company is chairman of the committee with other members being J. C. Anderson, of Anderson Bros. Jewelry company, and Ollie Clem, of Clem Bros. Lumber company.

The committee was recently appointed by President Hassell to serve for three months or until five new members are added to the association. The committee plans to secure a few more members than the required five before they receive the honorable discharge before their three months term is complete.

To Name New Committee

When the present committee is dismissed a new committee will be appointed immediately to serve under the same terms and regulations.

The new members added to the association by the committee Friday are: C. E. Stone company, Garretts Electric, Pinson Drug company, and Bynum Bros.

Interesting Seasonable Items Are Now Being Featured In All Departments of Lubbock's Finest Department Store

Time was when two seasons only constituted the style year—winter and summer. This is not true today for now the seasons change almost monthly if one keeps abreast of the style parade. Just now it's mid-summer merchandise that holds the center of the stage—cool, attractive, light weight items that are appropriate both for the vacation or the stay-at-home. It is this correct style merchandise that is constantly featured at this store—always at correct prices. We prefer to supply you with nice things rather than "cheap" things; prefer to feature the correct rather than the price.

Three Girls Injured In Car Accident Near Slaton

Pieces of Doctor M. Gordon, Tech, Are Victims

Students, On Way To Tech Commencement In Mishap; Boys Accompanying Them Unhurt.

(Special To The Avalanche-Journal) Slaton, May 26.—Three young women, all pieces of Dr. James M. Gordon, dean of the school of liberal arts at Texas Tech, were injured near Slaton, Tex., when the automobile in which they were riding collided with another machine. Although painfully and seriously hurt and their two companions, both young boys, together with the lone occupant of the second car, escaped practically unharmed.

The injured girls were Mary Eve Gordon, 16, her sister Helen, 14, and a friend, Mrs. J. O. O'Connell, of Albany, and their cousin, the Wallace, 16, daughter of Mr. and Mrs. H. E. Wallace, of Mr. and Mrs. Zudelle Wallace, a sister of Mrs. Wallace, a member of the faculty of the Lubbock senior school.

Enroute to Tech Ceremonies.—The three girls, accompanied by two boys, were enroute to attend commencement exercises at Texas Tech on Monday and were in the home of their uncle and aunt at a point two miles from Slaton when the collision occurred.

The Gordon sedan, being driven by Jason, turned over into the ditch, and the machine and its occupants were thrown into the air. The girls were taken to a nearby house, where medical aid was summoned. After examination, the girls were taken to a hospital there.

Girls Not Badly Injured.—Further examination of the girls sustained by the young girls yesterday afternoon, proved the injuries they sustained were not as serious as first reported. J. M. Gordon told the Avalanche-Journal, Doctors at the West Texas Hospital permitted the girls to be taken home after the examination and treatment, and will probably remain at the home of the doctor and Mrs. Gordon several days.

Succeeds Mellon

General Edward Martin of Washington, Pa., has been elected chairman of the Pennsylvania state Republican committee, succeeding W. L. Mellon of Pittsburgh. Martin commanded a regiment in France during the war.

Amherst Class Is Granted Diplomas

Seventeen Young Women And Men Hear Dr. Jackson, Of Texas Tech, Deliver Graduation Talk.

(Special To The Avalanche-Journal) AMHERST, May 26.—With the three-year-old school system turning out its largest class in its brief history, commencement exercises were observed here Thursday night.

Seventeen young men and women were given their diplomas in a program which was featured by an address delivered by Dr. W. A. Jackson, of Lubbock, head of the department of government at Texas Tech.

Taking as his subject "Present Day Tendencies," Doctor Jackson emphasized the responsibilities of citizenship in this country, and the optimistic spirit of his message impressed not only the graduates but also the many other listeners.

Following the procession Rev. J. E. Anderson delivered the invocation and Miss Virginia Copeland rendered a piano solo. Charlie Wagner, the class salutatorian, gave his address and then Miss Cleo Morris gave a violin solo.

Miss Genevieve Meredith, valedictorian, gave her address which was followed by the entire class singing the commencement song. After Doctor Jackson's address the diplomas were presented by John H. Wood, president of the school board.

The graduation class was composed of the following young men and women: Margaret Heckey, Yolanda Knox, Virginia Copeland, Cleo Morris, Cleatus Pennington, Alice Thomas, Francis Whitfield, Lucile

Simmons U. Plans \$1,500,000 Drive To Aid Expansion

Most Extensive Campaign In School's History Will Be Launched Over Next Two Years Time.

(Special To The Avalanche-Journal) ABILENE, May 26.—A drive for \$1,500,000 to be realized in the next year or two by Simmons University has been announced from the office of the president, Dr. J. D. Sandefer. This is the most extensive single program ever outlined for the West Texas university.

One million of this is to be added to the endowment which stands now at half a million and the other five hundred thousand will be used in constructing more buildings and adding equipment.

In his statement concerning the drive President Sandefer said that the time has come when Simmons, to serve a growing West Texas, must have more classroom and have more buildings. The twelve buildings now on the campus are taking care of the activities of more than 1,400 students and are taxed to capacity.

HEADS COMMITTEE Coleman Man Is Chairman Of W. T. C. C. Board

COLEMAN, May 26.—Appointment of committees to function at the West Texas Chamber of Commerce convention is being conducted through the president, R. W. Haynie's office, and a letter received this week advised S. O'Neal, secretary of the Coleman Chamber of Commerce, of his appointment as chairman of the credentials committee.

Under Mr. O'Neal on the list of qualified voters and charged with the duty of checking credentials in case of contested elections.

O. E. S. ELECTS Slaton Chapter Names Its Officers For Year

SLATON, May 26.—The Order of the Eastern Star here has elected the following officers: J. F. Merrill, worthy patron; Mrs. Berna Merrill, worthy matron; Mrs. W. T. Driver, assistant matron; Mrs. Ivy A. Moore, conductress; Mrs. Sam E. Stages, assistant conductress; Mrs. Roy Cobb, secretary; and Mrs. G. J. Catching, treasurer. The officers will be installed at a meeting on June 12.

Crop Outlook For Slaton Territory Considered Great

Farmers Are Busy Planting Cotton As Aftermath To General Rains; Feed Crop To Be Extensive.

(Special To The Avalanche-Journal) Slaton, May 26.—Farmers throughout the Slaton section have been exceedingly busy the past week planting cotton and feed crops. The general outlook is considered unusually good at this season of the year, according to farm leaders.

This is due to the general rains which covered the territory recently, and also that planting is going forward a month earlier than last year. Some increase in cotton acreage is declared likely, but feed crops will be included in every farmer's crop program. Besides, the poultry and dairy industries will engage

Littlefield Busy Work to Start Soon On New College

(Special To The Avalanche-Journal) LITTLEFIELD, May 26.—Foreman Echols, of the Waller Construction company, is here with two truck loads of machinery and tools with which to start work on the administration building and the dormitories and cottages of the Littlefield Junior College. Mr. Waller himself, with R. O. Conner, business manager of college, will be here next week, when work will start on these buildings. The breaking of the ground will be attended with proper observances for celebrating the occasion.

Slaton Good Will Tourists, Almost One Hundred Strong, Visit Woodrow Community; Hold Program There

Citizens of Woodrow Greet Neighbors; Many Speeches Are Made and Crowd Has Refreshment Course.

(Special To The Avalanche-Journal) Slaton, May 26.—Nearly 100 Slaton people visited the Woodrow community, nine miles west of Slaton, Friday night, and were greeted by a crowd of more than 150 Woodrow people at the high school auditorium. It was one of a series of good-will trips Slaton people are making this summer to communities surrounding the city. Each trip is sponsored by the Chamber of Commerce.

The Slaton high school band, directed by Ernest Pogue, was in the party going to Woodrow and rendered three numbers at the opening of the program. H. E. Griffith, su-

perintendent of the Woodrow school, gave the welcome address. Pupils of the school gave two readings.

Many Talks Made.—Talks were made by J. W. Hood, president of the Slaton Chamber of Commerce; W. H. Smith, chairman of the public relations committee of that organization; D. E. Kemp, Slaton attorney, and other short features were enjoyed by the large crowd attending.

At the close of the program Woodrow people furnished sandwiches, coffee and cake, served by the women of the community, and ice cream was served by the Slaton delegation. W. D. Huckabee, secretary of the Woodrow board of public school trustees, was a leading figure in arranging the heavy

The Avalanche-Journal's Women's Section Edited By Blanche E. Bean Phones 13 and 14

U. D. C. and Federation of Women's Clubs Announce Scholarship Lists Useable By High School Graduates

Valuable Certificates May Be Received By Students Upon Application; Tuitions Are Paid

Two women's organizations have announced lists of scholarships available to boys and girls in Texas who are graduates of high schools.

The Texas Federation of Women's Clubs has a list that has been prepared by Mrs. L. V. Smith of Florida, state chairman of scholarships and loans, and may be applied for through Mrs. R. E. Fry of Florida, seventh district chairman.

The United Daughters of the Confederacy has a list, Mrs. W. N. Woods, 1923 5th street, is local chairman and may be seen in regard to these scholarships, which may be used by descendants of Confederate veterans. Mrs. Woods has announced that she may be called at 1247-n in regard to these scholarships, which include tuition or part tuition to colleges.

Must Apply. "Ambitious and worthy boys and girls, financially unable to attend college, may obtain one of these scholarships by making application for same through one of the district chairmen of scholarships and loans," according to word sent out by the Federated clubs.

Scholarships which are as yet unawarded in the club list include the following:

Abilene Commercial College, tuition; 1. Alamo City Commercial and Business College, San Antonio (either stenographic or bookkeeping course); 1. Board of Education, San Antonio (exemption of high school fees); 2. College of Ignatius Wood, San Antonio, Texas (\$150); 1. College of Industrial Arts, Denton; 1. Draugh's Business College, San Antonio, Texas (either stenographic or business course, value \$50); 4. Draugh's Business College (combined course \$175 at either McAllen, Donna or Corpus Christi); 2. John Tarleton College, Stephenville, Texas (for boy and one girl only); 1. Erath county (no money); 2. McMurry College, Abilene (\$124); 1. North Texas Agricultural college, Arlington, Texas (girl); 1. North Texas State Teachers College, Denton, Texas (tuition) (girl only); 1. Our Lady of the Lake College, San Antonio, Texas (tuition and entrance fees \$125); 1. Sul Ross State Teachers College, Alpine, Texas (boys and girls); 6. Southern Methodist University, Dallas, Texas (\$140); 1. The Young Women's Christian association, an Antonio, Texas (full course in stenography); 1. Texas Technological college, Lubbock, Texas (girl and boy fees); 2. West Texas State Teachers College, Canyon, Texas; 3. Christian college, Abilene (\$104); College of Mines and Metallurgy, El Paso (boy); Randolph College, Ohio; Westminster college, San Antonio (\$100); Matthews School of Dramatic Art, San Antonio.

Also Loan Funds.

The U. D. C. scholarships are as follows: Alabama Military Institute, Anniston, Ala. \$125; Alabama Polytechnic Institute, Auburn, Ala. \$50; Center college, Danville, Ky. to a boy \$50 and to a girl \$50; Cincinnati Conservatory of music, Cincinnati, Ohio \$500 to \$500 in voice, piano and violin; Columbia Institute Upper school, Columbia, Tenn. \$100; Columbia Institute Lower school, Columbia, Tenn. \$50; Gulf Coast Military academy, Gulfport, Miss. \$100; Lucy Cobb Institute, Athens, Ga. \$150; Margaret college, Versailles, Ky. \$150; Marion Institute Navy and Army school, Marion, Ala. \$200; Randolph Macon academy, Front Royal, Va. \$100; Southern Methodist University, Dallas, \$100; prinsepide Mrs. Chapman's and Miss Jones school, Chestnut Hill, Philadelphia, \$350; Stonewall Jackson college, Abingdon, Va. \$300; Sullins college, Bristol, Va. \$300; warthorn Preparatory college, Swarthmore, Pa. \$300; University of Oklahoma, Norman, Okla. \$100; University of South, Sewanee, Tenn. \$200; University of Virginia, University, Va. \$125.

Ten two-year scholarships are to be awarded in state universities as follows: California, Colorado, District of Columbia, Florida, Illinois

Missouri, Ohio, Oklahoma, Tennessee, Washington. The following gift scholarships are also available: Mary P. Poppenger scholarship, Vassar college, Poughkeepsie, N. Y. governing board and tuition, \$1,000; S. A. Cunningham memorial fellowship, George Peabody college for teachers, Nashville, Tenn. \$200; Woodrow Wilson memorial scholarship, school of law, University of Virginia, University, Va. \$400; Corvallis Branch Stone fellowship, Randolph Macon Women's college, Lynchburg, Va. \$175; Matthew Fontaine scholarship, St. John's college, Annapolis, Md. \$500. Three local funds were also maintained by this organization. These are the Hero Loan fund, \$2,400; the May, Rev. McKinney Loan fund, \$300; Stonewall Jackson Loan fund, \$300.

THE WOMAN'S DAY By Allene Sumner

The "company dropping in" stunt is a real sign of conflict in many homes. It's probably because women are composed of so many more individuals with individual interests than in the day when the sound of stranger's gig brought loud huzzas from a snowbound home, just rarin' for company and excitement.

I know a woman of this older day who can't understand why her daughter gets so wrathful at the visiting country cousins who "just drop in" most any Sunday afternoon. The mother is glad to see them. Her life is spent indoors pretty much. She has few interests apart from her family. But the daughter, a private secretary to a big business man has but one day a week for her entertaining, her clothes pressing and mending, her shopping, all the odds and ends to which the Sundays of our working girls are devoted.

"I never in the world planned having my own company to tea or supper on Sunday but what mother's relatives dropped in on us," she says. "I'm not snobbish and I'm not ashamed of them. But it merely means discomfort for all sides. One can only be decent and ask them to sit down to supper."

Or, as she says, "I'm not snobbish and I'm not ashamed of them. But it merely means discomfort for all sides. One can only be decent and ask them to sit down to supper."

"Sundays are too precious to be commandeered in this way who are not to realize the importance of her day off to a working girl. It's one thing to plan on people and invite them, and it's another just to have them 'drop in'."

Perhaps it's digression from the main theme, but then there are the relatives and friends who "utter" one: it's so handy to stay in your home while there's up for your spring or fall wardrobe, or while poor mother is having her operation in the hospital, or while the decorators are in their own homes.

Now I don't want to be a bit of trouble, they blithely announce, and don't let me interfere a bit. But part of the family won't be speaking for several years if you try taking them at their word. "Dropping in" relatives precipitate a panic in the opening chapter of the best of the year's grief of home. In order to get rid of the "dropping in" relatives, in order to keep the family skeleton hidden, the distraught visiters stage an impromptu moving day.

The only answer, if we don't wish to be nuisances, is to believe that in this complex and modern world, where anything else must be "dropped in" is as out of date as tallow candles, unless you are very, very intimate with the family and know your chronic welcome.

BUFFET SUPPER

Dr. and Mrs. Horn Hosts To Distinguished Visitors

Dr. and Mrs. Paul W. Horn are serving buffet supper this evening at their home on the Technological campus, having as their guests Dr. William Stater Jacobs, of Houston; Pat M. Neff, of Waco, and regents of the college. Dr. Jacobs, who is pastor of the First Presbyterian church at Houston, is to preach the college baccalaureate service this morning. With Mr. and Mrs. R. A. Underwood, of Plainview, he is a house guest in the Horn home this week-end.

70 ATTEND PICNIC

Junior Church Group Enjoys Outing Friday

About seventy children attended a picnic at Tumble N pool Friday afternoon given for the First Methodist Junior church. Ending a contest, boys in the church entertained the girls. There were contests and games and eskimo pies and punch were served.

Mr. and Mrs. H. W. Richardson were assisted by Mesdames R. O. Short, J. P. Giles, Charles Ward, Mamie Caton and E. F. Alford in directing entertainment.

MRS. GEORGE U. HARRIS

Luncheon Served For Miss Walker, June Bride-to-Be

Miss Jonnie McCrery Honors Bride-Elect Yesterday At Practice House With Pretty Luncheon.

Complimentary to Miss Edna Walker, member of the Technological college home economics faculty, who is to be married Friday, Miss Jonnie McCrery was luncheon hostess yesterday at the home economics practice house.

Flowers in the house were pretty with flowers and tables were laid in the dining room and living room. The bride-elect's table was laid with a lace centerpiece with a center bouquet of white roses. Other tables were laid in Italian cut work and were centered with Dorothy Perkins roses in green pottery vases. A general scheme of green and white was favored.

Covers were laid for Misses Walker, Margaret Weeks, Mabel Erwin, Dorothy McFarlane, Katherine Harper, Marie Delaney, Eugene Marshall, Bessie League, Lucille Gill, Gussie Teague, Elizabeth Stal, Ruth Horn, Mrs. W. B. Atford, Mrs. Lawrence Bacon, Mrs. A. H. Bledsoe, Mrs. F. R. Friend, Miss Estelle Shepherd, Miss Marie Williams, Miss Auvema Hufstader, Miss Pila Brown, Mrs. E. M. Barnett, Miss Frances Whitley, Miss Walker and Miss McCrery.

H. E. STUDENTS MEET

Misses Weeks and Erwin To Be Hostesses

In order that seniors in the Tech home economics school may meet the school faculty and students in the school again, Misses Margaret Weeks and Mabel Erwin have invited to call at their home, 2422 Broadway, this afternoon between 4 and 5 o'clock.

The seniors are Misses Ella Mae Lyle, Fay Brooks, Rosa Smith, Ella Brown, Estelle Shepherd, Marie Williams, Lulu Belle Rehms, Rena Robertson, Mrs. Roy Sydes and Mrs. E. M. Barnett.

AUXILIARY MEETS

Mrs. Will Benton, Amarillo, Meets with Group

Mrs. Will Benton, of Amarillo, met with the local American Legion auxiliary Friday afternoon at the home of Mrs. F. D. Rupe, 1714 13th street, and discussed with the members auxiliary work. Mrs. Benton is organization chairman in the 18th district.

At the close of the meeting, Mrs. Rupe served refreshments.

SERVES DINNER

Farewell Function For Tech Students Saturday

Mrs. T. W. Jackson, 2308 17th Street, served a dinner last evening, honoring her brother, Delmar Criswell, and several other Tech students. This was in the nature of a farewell affair. Guests were Misses Hazel Lewis, Marjorie Pfaff, Carroll Clements and Delmar Criswell.

POST PAIR WEDS

Miss Hazel Morris and G. Lewis Are Married

POST, May 26—Miss Hazel Morris, of this city, was married to Garland Lewis, of Canyon, last Saturday afternoon at the home of the bride's parents, Mr. and Mrs. M. L. Morris, in the presence of a few relatives. The couple is visiting in California and Arizona and will be at home in Canyon.

IN RECITAL

Miss Naomi Hancock Will Be Play Thursday

Miss Naomi Hancock is to be presented in senior piano recital Thursday evening by Miss Mary Dunn at 1807 9th street. Mrs. I. F. Holland, soprano, is to assist.

By BETSY SCHUYLER

NEW YORK, May 26.—"Suit yourself" seems to be the motto of the well-dressed woman at the moment. No wonder, considering the stinky suits the season is producing. They are fully as nonchalant and individual as the women who wear them.

I am convinced now that summer is on the way, for yesterday I saw, not bluebirds or robins, but a couple of smart little silk suits that invariably mean warm weather. Mrs. Harvey Wallace Shaffer wore one, a yoked skirt with pleats on the left side only and a two-button coat that swung to the same side for closing, fashioned of navy blue silk tulle. A flash chiffon blouse with pleated frill gave it a light touch.

The second silk suit was sponsored by Mrs. George Henry Warren, Jr., and was of very fine black flax crepe, with a double pattern of matching polka dots worked by hand around the front, bottom of the coat and across the back at v-neck depth.

Will Wear Wool. Soft woens will be quite as appealing in hot days as silks this year. They've stolen the thunder of the thinner materials by appearing in sheerer and lighter weights than silk.

Mrs. G. P. Shutt has a new suit of patterned Rodier cloth in a beige and brown combination that is stunning. It features the notched lapels men rave about and has a lapels men rave about and has a matching band around the bottom of the pleated skirt. The jacket has a tuxedo front. Mrs. Shutt did that pleasing thing of having her wardrobe purely novelty exotics and ballyhooed turban and just the right brown.

As the trees grow greener, so do the suits. Mrs. George U. Harris, luncheon at Pierre's the other day with Mrs. Henry P. Rogers, had just a green suit on of soft kasha. But it was its namaste Parisian lines that marked it rather than

its unmistakable green. Sloping, feminine shoulders, wide graceful cuffs, godels in the skirt for fullness and the snappiest of collars, one that could choke its owner or be left open to ripple in many points.

Checks for Novelty. If one wants novelty, I suppose checks do more towards helping out than any other pattern. So it seemed to me, at least, when I saw Judy Hamlin making good time down the avenue with a determined shyness-expression on her face. Her black and grey checked suit with its boyish collar and four lines did a lot for her.

At lunch I glimpsed her in repose and she had perked off the coat, revealing a daintily embroidered lace and batiste blouse with frills, buttons and other what-nots for femininity. Most charming.

The more one travels now the more convincing is she of the authority of brown for formal wear. Seeing is believing, certainly, if one should happen to glance at pretty little Mrs. Frederick P. Humphreys, slim and graceful in a new frock of beige lace with brown touches and a chic caplike belt of brown straw.

Still Better Prints. Smart women are saying "It" in print more and more as the summer season gets a good start. I thought we saw so many figured things last season that everyone would go in for plainer materials, but the subtleties prints have introduced this year leave me gasping.

Molly Cogswell, for instance, has a marvelous frock of printed cream that floats before your eyes like a fragrant flower bed. Her hat is floppy of some natural straw, with some streamers of this figured stuff floating off it too.

Mrs. Howard Brokaw is one who knows the lure of white. Take a summer evening, soft moonlight and a woman in white and it's a combination hard to beat. To be sure, the last time I saw her, it was afternoon, but there was that same satisfying beauty about it.

One-Minute Interviews. Flapperhood Still Loves Domesticity.

SAYS EDITOR OF JUNIOR LEAGUE MAGAZINE. The home fires are still burning in flapper hearts in spite of their exaggerated independence and matter-of-factness about love, home and children, in the opinion of Mrs. Charles A. Lindsey, editor of the Junior League Magazine.

As editor of this official organ, Mrs. Lindsey feels the pulse of the younger women all over the country who will be the social leaders of their respective communities.

"Girls today are astonishingly serious at heart," she said. "Their nonchalant matter-of-factness and attitude grows out of their abhorrence of sentimentality rather than a lack of feeling. The key to their behavior is summed up in their own phrasing: 'What is all the shooting about?' But the fact that they hate a fuss over things does not mean that they are indifferent to the home and family things that the women of yesterday stressed so much."

"It is just that the young women of today have a business-like efficiency and matter-of-factness about living. They are practical and not romantic. They insist that their lives be interesting. But I am constantly surprised to find that they are interested also in home things."

"I should say that women's love of home and children has not changed. The method of living merely has."

Officers Elected Yesterday In Pan Hellenic Society

Mrs. W. M. Craig Succeeds Miss Ruth Horn As Head Of Society; Bridge Is Played After Luncheon.

Mrs. W. M. Craig was elected president of the Pan Hellenic club yesterday afternoon to succeed Miss Ruth Horn. Mrs. M. E. Farris was elected vice-president and Mrs. E. C. Come was elected secretary-treasurer.

The final luncheon of the season was served in the home of Mrs. Lowell Munday, 1860 Avenue N. at 1 o'clock. Chf. Omega were hostesses and served a silverware meal.

Use Red Roses. Bouquets of red roses were placed in the center of each table when the luncheon was served and flowers were placed throughout the house. Club members attending were Miss Blanche Bacon, Mrs. F. R. Friend, Mrs. W. H. Abbott, Mrs. Byron C. Dickinson, Mrs. M. E. Farris, Miss Ruth Horn, Mrs. J. P. Newman, Mrs. Ed McCreary, Mrs. E. Carl Patton, Miss Johnnie Gilkerson, Miss Evelyn Knipp, Mrs. S. E. Come, Mrs. Charles H. Mahoney and Mrs. W. A. P. Graham.

Marshall, Misses Louise Crawford and Ruth Alexander of Childers, Mrs. McCrery scored high in bridge and was presented with a box of stationery. High cut favor, perfume, went to Mrs. Mahoney.

THREE NEW MEMBERS

Mrs. W. N. Woods Hostess To U. D. C. Chapter

Three new members were received Friday afternoon when the S. W. Wilkins chapter of U. D. C. met with Mrs. W. N. Woods at her home, 1923 5th street. They were Mrs. A. V. Weaver, Mrs. Estlin Wolfarth and Mrs. Adeline Bellish.

Mrs. Sue McCreary and Mrs. L. S. Mast were appointed on a visiting committee and plans were made to bestow crosses of honor on veterans in a public service June 3.

Visitors yesterday were Mrs. Gussie McCrummen and Mrs. N. H. Gussie. Members attending were Mesdames L. C. Tatom, C. L. Fowler, Mrs. McCreary, L. S. Mast, Lon Mullican, J. F. Tom, Eppie Sowder, Hattie O'Hair, E. P. Williamson and H. C. Renfro. At the close of the business meeting refreshments were served by Louise McCrummen and June Woods. The next meeting is to be with Mrs. Mullican.

37 ATTEND PICNIC

Ladies Aid Honors Young People's Church

Thirty-seven young people of the Cumberland Presbyterian church attended a picnic at the J. A. Long farm, north of Lubbock, Friday evening. The Ladies' Auxiliary of the church gave this picnic honoring Tech and high school graduates in the church and members of the Christian Endeavor.

P. T. A. RAISES FUND

Library Receives \$350 From School Organization

LITTLEFIELD, May 26.—Under the able leadership of Mrs. Chas. Harless, president, Mrs. Frances Tolbert, first vice-president, Mrs. Bob McCaskill, second vice-president and Mrs. A. G. Hemphill, third vice-president, Mrs. B. M. Harrison, treasurer, and Miss Vivian Courtney, secretary, the local Parent-Teachers Association has just closed a very successful year's work. They began the year with a quota of \$274.44 to raise for the library for the grammar school and primary school. These ladies worked so faithfully and well that \$350.00 was secured for this purpose. This is a very wide awake organization which has accomplished many things of lasting benefit to the school and community. Officers for the ensuing year are Mrs. Annie Wiseman, Mrs. F. V. Burleson, Mrs. Bob McCaskill, vice-presidents, and Miss Thelma Kilbough, secretary.

VISITORS HONORED

Children's Visitors Feted At Party Yesterday

A number of courtesies are being paid to Miss Louise Crawford and Ruth Alexander of Childers, who are house guests of Mr. and Mrs. F. R. Friend, 2005 Broadway. Mrs. Homer Grant and Mrs. W. W. Rix entertained yesterday afternoon at the Grant home, 2319 Main street, for the two visitors. A color scheme of pink and green was prettily carried out in the decorations and an ice course was served after bridge games.

Those playing were Mrs. Friend, Miss Crawford, Miss Alexander, Miss Frances Whitley, Miss Chan Rix, Miss Jennie McCrery, Miss Bessie League, Miss Gussie Teague, Miss Mary Meador, Miss Ruth Dunn, Miss Frances Conley, Miss Blanche Bacon, Miss Ruth Rix, Miss Dorothy Lomax, Miss Margaret Weeks and Miss Ellen Castigberry.

BIRTHDAY PARTY

Ronda Jaunice Smith Gives Party On Birthday

Ronda Jaunice Smith, seven-year-old daughter of Mr. and Mrs. H. C. Smith, entertained with a birthday party Friday afternoon from 2:30 until 5:30 o'clock at the home of her grandparents, Mr. and Mrs. T. R. Allen. Those attending were Thomas White, Jr., Wilda Rae White, Fritz Sandlin, Amy Rae Kerr, Estey Lerry and Leta Mae Carrington.

Improvement In Physical Condition Of Children Is Result of Campaign For Health At Central Ward School

Scholarship Awards Made Friday With Close of This Term of School; Certificates Are Awarded

Health records kept at the Central ward school since last fall when a public health nurse examined children in the institution, show that 81 per cent of the pupils have had teeth corrections made during the winter, 15 per cent have had de-cayed tonsils removed and treated, 25 per cent had adenoids removed, 24 per cent have received medical care of their eyes and 60 per cent have corrected underweight through milk-drinking and proper eating campaign.

This announcement was made yesterday by H. C. Bowlin, principal of the school.

24 Are Honored

Scholarship awards were made in the school Friday in connection with the closing of the institution, and the names of 24 students are to be placed on a scholarship run that was awarded the school by the Junior High School P. T. A. This list includes the boy and the girl having the highest general average in the building.

Twenty-eight boys and girls have a record of 10 per cent in attendance and punctuality and were given honorable mention for this achievement. Punctuality certificates were awarded 178 children and pins were awarded 61—those whose work was above the quality standards for their grades.

Last year 45 certificates were awarded and pins were given 19 students.

Campaign Made

A particular campaign to improve health standards of this school was made during the last few months. Children were taught health rules, there was a morning and evening hour during which underweight children were given a lunch of milk and crackers, and the correction of physical deficiencies was encouraged.

Children who met conditions indicated on the health nurse's report in the fall, having corrections made and following health rules, were the following:

Art Craker, Melvin James, Bob White, J. B. Ford, William Childers, James B. Collier, Harry Blocker, Maurice Hubbert, Hall Crum, J. C. Mason, Moxley, J. L. Stenson, John Shropshire, Charles Truett, Elizabeth Spencer, Mary Thomas, Claude Huebner, Billie Bob Jones, Avey Leeth Smith, Loren McCleary, Ralph Brock, Jacob Alexander, Jack Campbell, Marion Denman, Boyd Francis, Ed Fitch, E. C. Blythe, Gordon Sanders, John Henry Vaughn, Thomas Meador, William Penny, Rena Belle Green, Charlotte Radloff, Leila Lake Betty Richardson, Geo. Anna Shelby, Irah Mae Tipton, Inez Francis, Horace Gearhart, Louise Hodges, Padgett Madrox, Billie Taylor, Fred James, Randolph Robertson, Tol Terrell, Frank Turner, Ralph Bumpass, Arthur Bradshaw, Garth Green, John Green, Esther Sewell, Marvin James, Mary Bowers, James Latimore, Melvin Young, Leaman Wilkinson, Frances Clay, Beth Holland, Lora Watkins, Pauline Zachary, Ruffy Davis, Maxine Booser, James Kimmel, Glen Brazil, Lois Rogers, Martin Martin, Earl Walker, Raymond Dyes, Truett Sanford, Flier Middleton, Donald Smith, Danny Thompson, J. D. Williams, Julia Abun, Ruby Lee McKinley, Vernice Shelby, Helen Ruth Raymer, and Elva Laura Hall. Each of these pupils received health badges.

Made High Grades

Students whose punctuality and attendance were perfect were the following:

John Gaines, Eva Eaton, Lois Adair, Pearl Howard, Roleta Izard, Johnnie Vaughn, Robert Hale, Ruth Davis, Beth Holland, Mary Howell, Pauline Zachary, Frank Bundy, Wesley Hanna, Novelle Bussey, Louise Hodges, Pauline Phillips, Evelyn Weisenborn, Ralph Brock, Maxine Burrus, Verline Furlow, Onelia Gooch, Kendrick Green, Hall McCrummen, J. Mason, Marion Moxley, J. D. Williams, Mary Cammack, Gordon Sanders, and Irene Wilson.

Boys and girls whose names will go on the scholarship cup are Helen Kruger, John Gaines, Mary Thompson, Harry Blocker, Tol Terrell, Ruth Wagner, Ruth Lewis, Johnnie Pierce, Lloyd Taliaferro, Idalee Hlavaty, Woodrow Walker, Mary Bowers, Hugh Dickey, Edith Wallace, Josephine Powell, James Kimmel, Ois Robinson, Raymond Ellings, Jean Orr Eaton, Edvard Barkham, Louise Bridges, Earl Stahlaker, E. M. Smith and Elva Gilham.

Good Will

(Continued from Page 1)

reception given the visitors from Slaton.

The meeting proved to be one in which the people became better acquainted through an informal evening of entertainment, according to Chamber of Commerce leaders. Speakers stressed the need for better understanding between rural and urban people, urging that closer acquaintance should result in solving every mutual problem. The next good-will trip to be made comes Friday night, June 1, and Union community is to be visited.

Mercury is being used instead of water to supply vapor for steam turbines; it enables operation at higher temperatures.

The island of Sumatra belongs to Holland.

New Industry Crosbyton Woman Making Popcorn

CROSBYTON, May 26.—Mrs. J. I. Sieber is starting a new wholesale popcorn confection industry in Crosbyton just as soon as material, wrappers, and other materials arrive. This new firm will be known as the Sieber Confectionery company. Mrs. J. I. Sieber, proprietor, Mrs. Sieber plans to go into the business on a large wholesale scale. The confection will have the trade name of "Jean" and will be a delicious popcorn confection which Mrs. Sieber is an expert at making.

FIRST METHODIST CHURCH

Broadway and Ave. M

Rev. E. E. White, Pastor

Sunday school at 9:30 a. m. All
classes will assemble promptly and
will be dismissed without the formal
closing assembly period, in order to
give time for arriving at the colleg
in ample time for the commence
ment sermon which is to be deliv
ered by Dr. Jacobs, of Houston.

No preaching service at the
church at the morning hour.

At 8 p. m. the pastor will use as
his subject, "Selling Out Below
Par." All young people especially
urged to be present. What are you
worth? This is a vital question
which concerns all. Bring a friend
to the service.

Junior Epworth society at 4 p. m.
Hi-League at 3:30 p. m.

Senior League at 7 p. m.

Daily Vacation Bible school opens
at 9 a. m. Monday. Children from
five to thirteen should be present.

FIRST BAPTIST CHURCH

Sunday school at 9:30 a. m.

Preaching dismissed for Tech
services.

Primary B. Y. P. U. 5:40 p. m.

B. Y. P. U. 7:00 p. m.

Sermon 8 p. m.

Mr. Cooper will have charge of
conferences, personal work and sur
veys. The pastor, Rev. W. R. White,
will preach each evening through
the week at eight o'clock. This is
Enlistment and Evangelistic Week.
Some of the subjects will be: Heav
en's Family Bible, Pivotal Hours,
Things That Endure, The Spider's
Web, The Great Divide, The Predi
cal That Never Returned, Etc.

LUMBERLAND PRESBYTERIAN CHURCH

Corner Tenth and Ave. O

Rev. O. N. Baunon, Pastor

Sunday school, 9:45 a. m.

There will not be an 11 a. m.
service as we will turn out for the
commencement sermon at Tech.

Christians Endeavors will meet at
7 p. m.

Budgets for 8:15 p. m., "The
Danger of False Profession."

Prayer meeting each Wednesday
8 p. m.

Missionary society will meet Mon
day at 2:30 p. m.

You will find a glad welcome to
all services.

FIRST NAZARENE CHURCH

Courthouse, District Court Room

Rev. S. H. Erwin, Pastor

Our Bible school opens at 9:30
a. m. with Supt. A. C. Rodgers in
charge. The county judge has
granted us permission to use his
court room and two district court
rooms. The morning worship will
be on the second floor. The other
rooms will be used for class rooms.

The pastor's theme for the eleven
o'clock hour will be: "Possessing the
Mind of Christ."

Frank Beauchamp will speak at
the Senior N. Y. P. S. meeting at
8 p. m.

The evening service will be an
evangelistic service. The public is
invited to come and hear the old-
fashion gospel message.

CHRISTIAN SCIENCE SOCIETY

Services are held regularly each
Sunday at 11:00 a. m. and on each
Wednesday at 8 p. m. when testi
monies of healing and remarks on
Christian Science are given. Sun
day school is held at 9:45 a. m. for
pupils under the age of twenty.

The subject of the lesson for to
day is "Ancient and modern nec
romancy, alias mesmerism and hyp
notism, denounced." The Golden
Text is from Malachi 4:2 "Unto
you that fear my name shall the

sun of righteousness arise with heal
ing in his wings."

A reading room is maintained at
the church where all authorized
Christian Science literature may be
read free, borrowed or purchased,
and is open on Tuesday and Friday
afternoons from 2 to 5 o'clock.

The public is cordially invited to
attend the services and enjoy the
reading room.

FIRST PRESBYTERIAN CHURCH

Avenue N and Fourteenth

Rev. Jack M. Lewis, Pastor

Sunday school begins promptly at
9:30. It will be necessary to close
the Sunday school a few minutes
early and for that reason it is
necessary to be prompt in begin
ning. Everyone present and on time
to attend that service.

There will be no morning service
because of the baccalaureate sermon
which will be preached at the col
lege. The congregation will desire to
attend that service.

The evening service will begin at
8:15. Rev. Wm. States Jacobs, D. D.
will preach at this service. The
public is most cordially invited to
hear him. Dr. Jacobs is the pastor
of the First Presbyterian church of
Houston, Texas, and is in the city
for the purpose of preaching the
baccalaureate sermon at the col
lege. We are very fortunate in se
curing him for the evening service.

A great Christian Endeavor rally
will be held at this church this af
ternoon at 3 o'clock. Representatives
from over the Panhandle and Plain
country will be present.

The Intermediate society will
meet at 6:45 and Seniors at 6:30.

PRESBYTERIAN AUXILIARY

The Auxiliary will meet Monday
afternoon at 3 in its circle meetings
as follows:

Circle No. 1 with Mrs. R. S.
Rodgers, 1912 Fourteenth.

Circle No. 2 with Mrs. L. C. Den
ton, 1406 Main.

Circle No. 3 with Mrs. H. A.
Davidson, 3011 Tenth.

Circle No. 4 with Mrs. R. H.
Moore, 2117 Thirteenth.

Circle No. 5 with Mrs. W. T. Hes
ter, 1920 Avenue N.

Circle No. 6 with Mrs. J. B. Jack
son, 2811 Twenty-first.

19TH ST. BAPTIST CHURCH

Rev. W. A. Todd, Pastor

The revival meeting at the 19th
Street Baptist church is a real re
vival. Rev. Hulton Coffman is one
of the cleanest and most cultured
evangelists we have had in Lubbock
for some time and above all, he is
a very spiritual man. Bro. H. M.
Fiondley is putting the gospel into
our singing. Several have united
with the church and large crowds
are present. We hope to have 200 or
more in our Sunday school today.
Be one of that number. The meeting
will continue through the week.

FIRST CHRISTIAN CHURCH

16th Street and Avenue J

Bible school 9:45 a. m., with Har
old H. Griffith as superintendent.

There is a class for you if you are
not already in some Sunday school.

Communion service, 10:45 a. m.

After the Sunday school and Com
munion service we will dismiss for
the baccalaureate sermon at the
Tech college.

The Triangle meets at 3 p. m.
with Mrs. R. A. Mills, 2309 16th
street.

The Junior Endeavor meets at 8
p. m. The Seniors meet at 7 p. m.

At 8 p. m. Mrs. J. E. Hartley and
the pastor will give detailed report
of convention held at Greenville,
Texas. You will want to hear of the
splendid achievements in our state

work in all realms of our church
work.

The choir will furnish good music
at each service. We extend to the
general public a most cordial invita
tion to our services. Come and
bring your friends.

"I was glad when they said unto
me let us go into the House of the
Lord."

Rev. W. P. Jennings, Pastor.

SOUTH SIDE BAPTIST CHURCH

Ave. Q and 21st St.

Sunday school, 10 a. m.

Preaching at 11 a. m. and 8 p. m.
by Missionary Breeding.

Song—"Blest Be the Tie That
Binds."

Business.

19TH ST. METHODIST CHURCH

Corner Ave. J

G. P. McCollum, Pastor

M. S. Mead, Sunday School Supt.

We will not have the regular
morning service on account of the
baccalaureate service at the Tech
college. However, we will have
Sunday school.

Sunday school 9:45 a. m. Jun
ior Epworth League 3 p. m. senior
Epworth League 7 p. m. Preach
ing 8 p. m. The subject will be "A
Good Man's Hell"—Manasseh, by
the pastor.

Every member is urged to be
there, visitors are welcome.

Women's Missionary society
meets Wednesday 3:15 p. m. at
Mrs. Bond's.

Prayer meeting Wednesday 8 p.
m. Grady Todd, leader. Choir re
hearsal Thursday 8 p. m.

DE PAOLO HURT

Racing Car Turns Over On
Speedway

INDIANAPOLIS, Ind., May 26.—

GP—Peter De Paolo of Los Angeles,
1927 Speedway driving champion,
was injured at the Indianapolis mo
tor speedway late today when his
car turned over while he was at
tempting to qualify for the annual
500 mile race to be held here Wed
nesday. De Paolo was rushed to a
hospital. He was unconscious and
appeared to be only slightly injur
ed, it was said.

Slaton Items BY MRS. L. C. ODOM Slaton, Phone 25-J

Misses Lucile and Mildred Rowley
of Portales, N. M., are visiting
friends and relatives here. The
Misses Rowley formerly lived in
Slaton and have many friends here.

Mrs. Fred Tudor visited relatives
in Plainview the last of the week.

Mrs. O. Korn spent several days
in Pecos the past week.

A. E. Whitehead has returned
home from Marlin where he spent
several weeks taking treatment for
rheumatism.

Mrs. A. J. Payne returned
Wednesday from a very pleasant
trip to Ft. Lauderdale, Fla., where
she visited her daughter.

W. F. Newbill and family of Mel
rose, N. M., are visiting at the home
of Mr. and Mrs. M. O. Napps.

Mrs. Henry Jarmon and little
daughter are visiting Mrs. Jarmon's
parents at Anton.

Dr. S. H. Adams and daughter,
Josephine, have returned from Aus
tin where they visited Miss Francis
Adams who is in State University
this year.

Mr. and Mrs. M. E. Smith and
sons of Ft. Lubbo visited at the home
of Mr. and Mrs. M. O. Napps here
the past week.

Mr. and Mrs. O. N. Wilson of
Lubbock visited at the home of L.
A. Wilson here Tuesday.

Tex Bruner and Charlie Smith
left the first of the week for a
camping and fishing trip to be
away about two weeks.

Mr. and Mrs. J. O. Young and
family are visiting relatives in Cal
ifornia and Arizona.

Mrs. Clara Elizabeth Bruner is
visiting relatives in Strawn.

H. C. McGuire of Melrose, N. M.,
has leased the Cottage Camp, a
tourist park on the Lubbock high
way.

Mrs. J. P. Adams closed her kin
dergarten class Friday afternoon.

The John Francis Carnival will be
in Slaton all this week, under the
auspices of the City Volunteer fire
department.

Mr. and Mrs. Leo Mitchell are
the proud parents of a baby girl,
that arrived Monday. The young
lady has been named Valera Cal
atherine.

Rev. and Mrs. Thompson of Wil
son were here on business Friday.

Mrs. J. P. Posey of Lubbock vis
ited here Thursday and Friday with
her sister, Mrs. L. C. Odom and
daughter, Mrs. Roe Gainer.

Tom Overly, local real estate man,
has returned from a trip to Ken
tucky, where he visited his mother.
He made the trip in his new Stude
baker.

Miss Francis Guffin, teacher of
violin in the schools here, left for
her home at Roswell, N. M., Satur
day afternoon.

Howard Hoffman and Ben Holo
way, Jr., will leave Monday for Aus
tin. They will make the trip in
Howard's car. C. C. Hoffman will
receive his degree from the State
University this year and will re
turn home with Howard.

B. A. Toliver, manager of the
Acorn Store here left Thursday for
Old Mexico. He will be away about
two weeks.

Mr. and Mrs. P. H. Norman of
Amarillo are visiting at the home
of the former's brother, B. G. Nor
man here.

Mrs. E. L. Blundell and daughter
Vernie Lee left Saturday for Ama
rillo in response to a message that
a little nephew of Mrs. Blundell
was seriously ill.

Mr. and Mrs. N. C. Dickerson are
the proud parents of a daughter
that arrived at their home the past
week.

Mr. and Mrs. L. B. Nooten have
as their guests today, Mr. and Mrs.

Andy Gillespie of Lometa, and Mr.
and Mrs. W. H. Rogers of Lubbock.

Mrs. Gillespie is Mr. Nooten's sister.
Pauline Loker who taught in the
public school at Canyon the past
year is visiting in Liberal, Kansas
now, but is expected home next
week.

Mrs. Ferris Frye of Lubbock was
a Slaton visitor Saturday.

RECITAL

Piano pupils of Miss Jeanette Ram
sey and violin pupils of Miss Fran
cis Guffin appeared in a joint re
cital at the high school auditorium
before a large audience Thursday
evening.

Pupils appearing on the
programs were as follows: R. H.
Todd, Jr., Alva Simms Wilkes,
Christelle Scudder, Bettye Pock,

Geraldine McAlister, W. H. Clap
ton, Jr., Joveta Blundell, Joveta
Rogers, Wayne Catching, Verna Lee
Blundell, Troy Pickens, Alice An
thony, Elvira Smith and J. N.
Smith.

MRS. ELLIOTT HOSTESS

Mrs. J. A. Elliott was hostess to
the Philadelp class of the Baptist
Sunday School at her home on
North Fifth street Tuesday after
noon. An ice course with lovely
pink rose buds as favors was served
to eight regular members and guest,
Mrs. H. C. Burris.

S. S. CLASS SOCIAL

The Ruth Wesley class met in the
Methodist church basement Friday
afternoon in the regular monthly
business and social meeting. Mrs.
J. H. Brewer led the devotional. A
short business was held after which
a contest of questions on the life
of Paul was led by Mrs. Darwin.

Lovely refreshments was served to
eleven members. Mrs. Korn and
Mrs. Darwin were hostesses.

WIN ONE CLASS

The Win One Class of the Me
thodist Sunday School were enter
tained at the home of Mrs. P. N.
Houston on South Sixth Street Fri
day afternoon with Mrs. Pierce
Youngblood, Mrs. M. L. Elliott and
Mrs. Vann Tudor as joint hostesses,
after the devotional and business
session, piano solos were given by
Elvira Smith and Katrina Houston.
Lovely refreshments was served to
about fifteen members.

CROSBYTON BUILDING

Contracts Let For Several
Structures

CROSBYTON, May 26.—Crosby
ton is experiencing the greatest
building boom that it has had in
many years. Some twenty or twenty
five new homes have been built in
the past three months, all of them
modern in every respect. There are
five going up at the present time.
The new postoffice building will be
completed about June 15, as will two
other business houses which are
being built by E. H. Hendricks of
this place.

Contract has been let and work
is to start next Monday to remove
the old wooden building on the
northwest corner of the square
where two nice modern brick build
ings will be built. The people of
the Baptist church have plans laid
for building a \$50,000 brick church
in the near future. They plan to
have the building completed be
fore the summer has passed.

Goodman Is Lone Houston Delegate From Plains Area

Many Expected to Go From
City As Spectators For
Democratic Show, How
ever, Judge Avers.

James H. Goodman, local attor
ney and insurance man, will be
the South Plains' sole delegate in
the National Democratic Conven
tion which convenes in Houston,
June 26.

Judge G. E. Hamilton, of Mata
dor, George B. HW, of Amarillo,
and G. C. Moffett, of Quanah, will
be the other delegates from the
18th congressional district which is
composed of 53 counties. R. 9. Un
derwood, of Plainview, is to rep
resent the district as a delegate at
large.

Judge Goodman returned to Lub
bock from the state convention late
Friday, reporting a very enthus
iastic and hotly contested session be
tween three factions. On his return
from Beaumont, he visited Hous
ton and saw the convention aud
itorium which is being completed.
It is capable of seating 25,000 people,
he said. Houston is preparing for
the convention, Judge Goodman
said, 50,000 people being expected.

Tickets for the convention will
be scarce articles, he said. Each
Judge Goodman said that he had
more than a hundred applicants for

LAWYERS LEAVING Plan To Attend the Dallas Convention

Headed by Judges Clark M. Mul
holland and Homer Pharr, a large
number of Lubbock attorneys will
leave this week for Dallas where
they will attend the meetings of
the District Judges association and
the State Bar association which will
be in session there on Thursday,
Friday and Saturday.

In view of this fact and that the
farmers, who practically make up
the jury list for the term, will be
planting, both district courts will be
recessed this week.

Martin W. Littleton, of New York
City, considered as one of America's
most ablest lawyers, will make ad
dresses as the highlight of the con
ventions.

ROLLS ROTARY OFFICERS

ROLLS, May 26.—The Ralls Ro
tary club today elected the follow
ing men as officers and directors:
W. P. Taylor, president; J. Eld
McLaughlin, vice-president; Dr. H.
P. Schwab, secretary-treasurer; Ben
Cole, M. G. Hargraves, P. B. Ralls,
and Roy Cooper, directors.

The ten allotted to him. Anyone in
Lubbock wishing tickets to the con
vention and know of anyone from
out of the state who might have
them, should try these first. Mr.
Goodman said as state tickets are
practically all gone now.

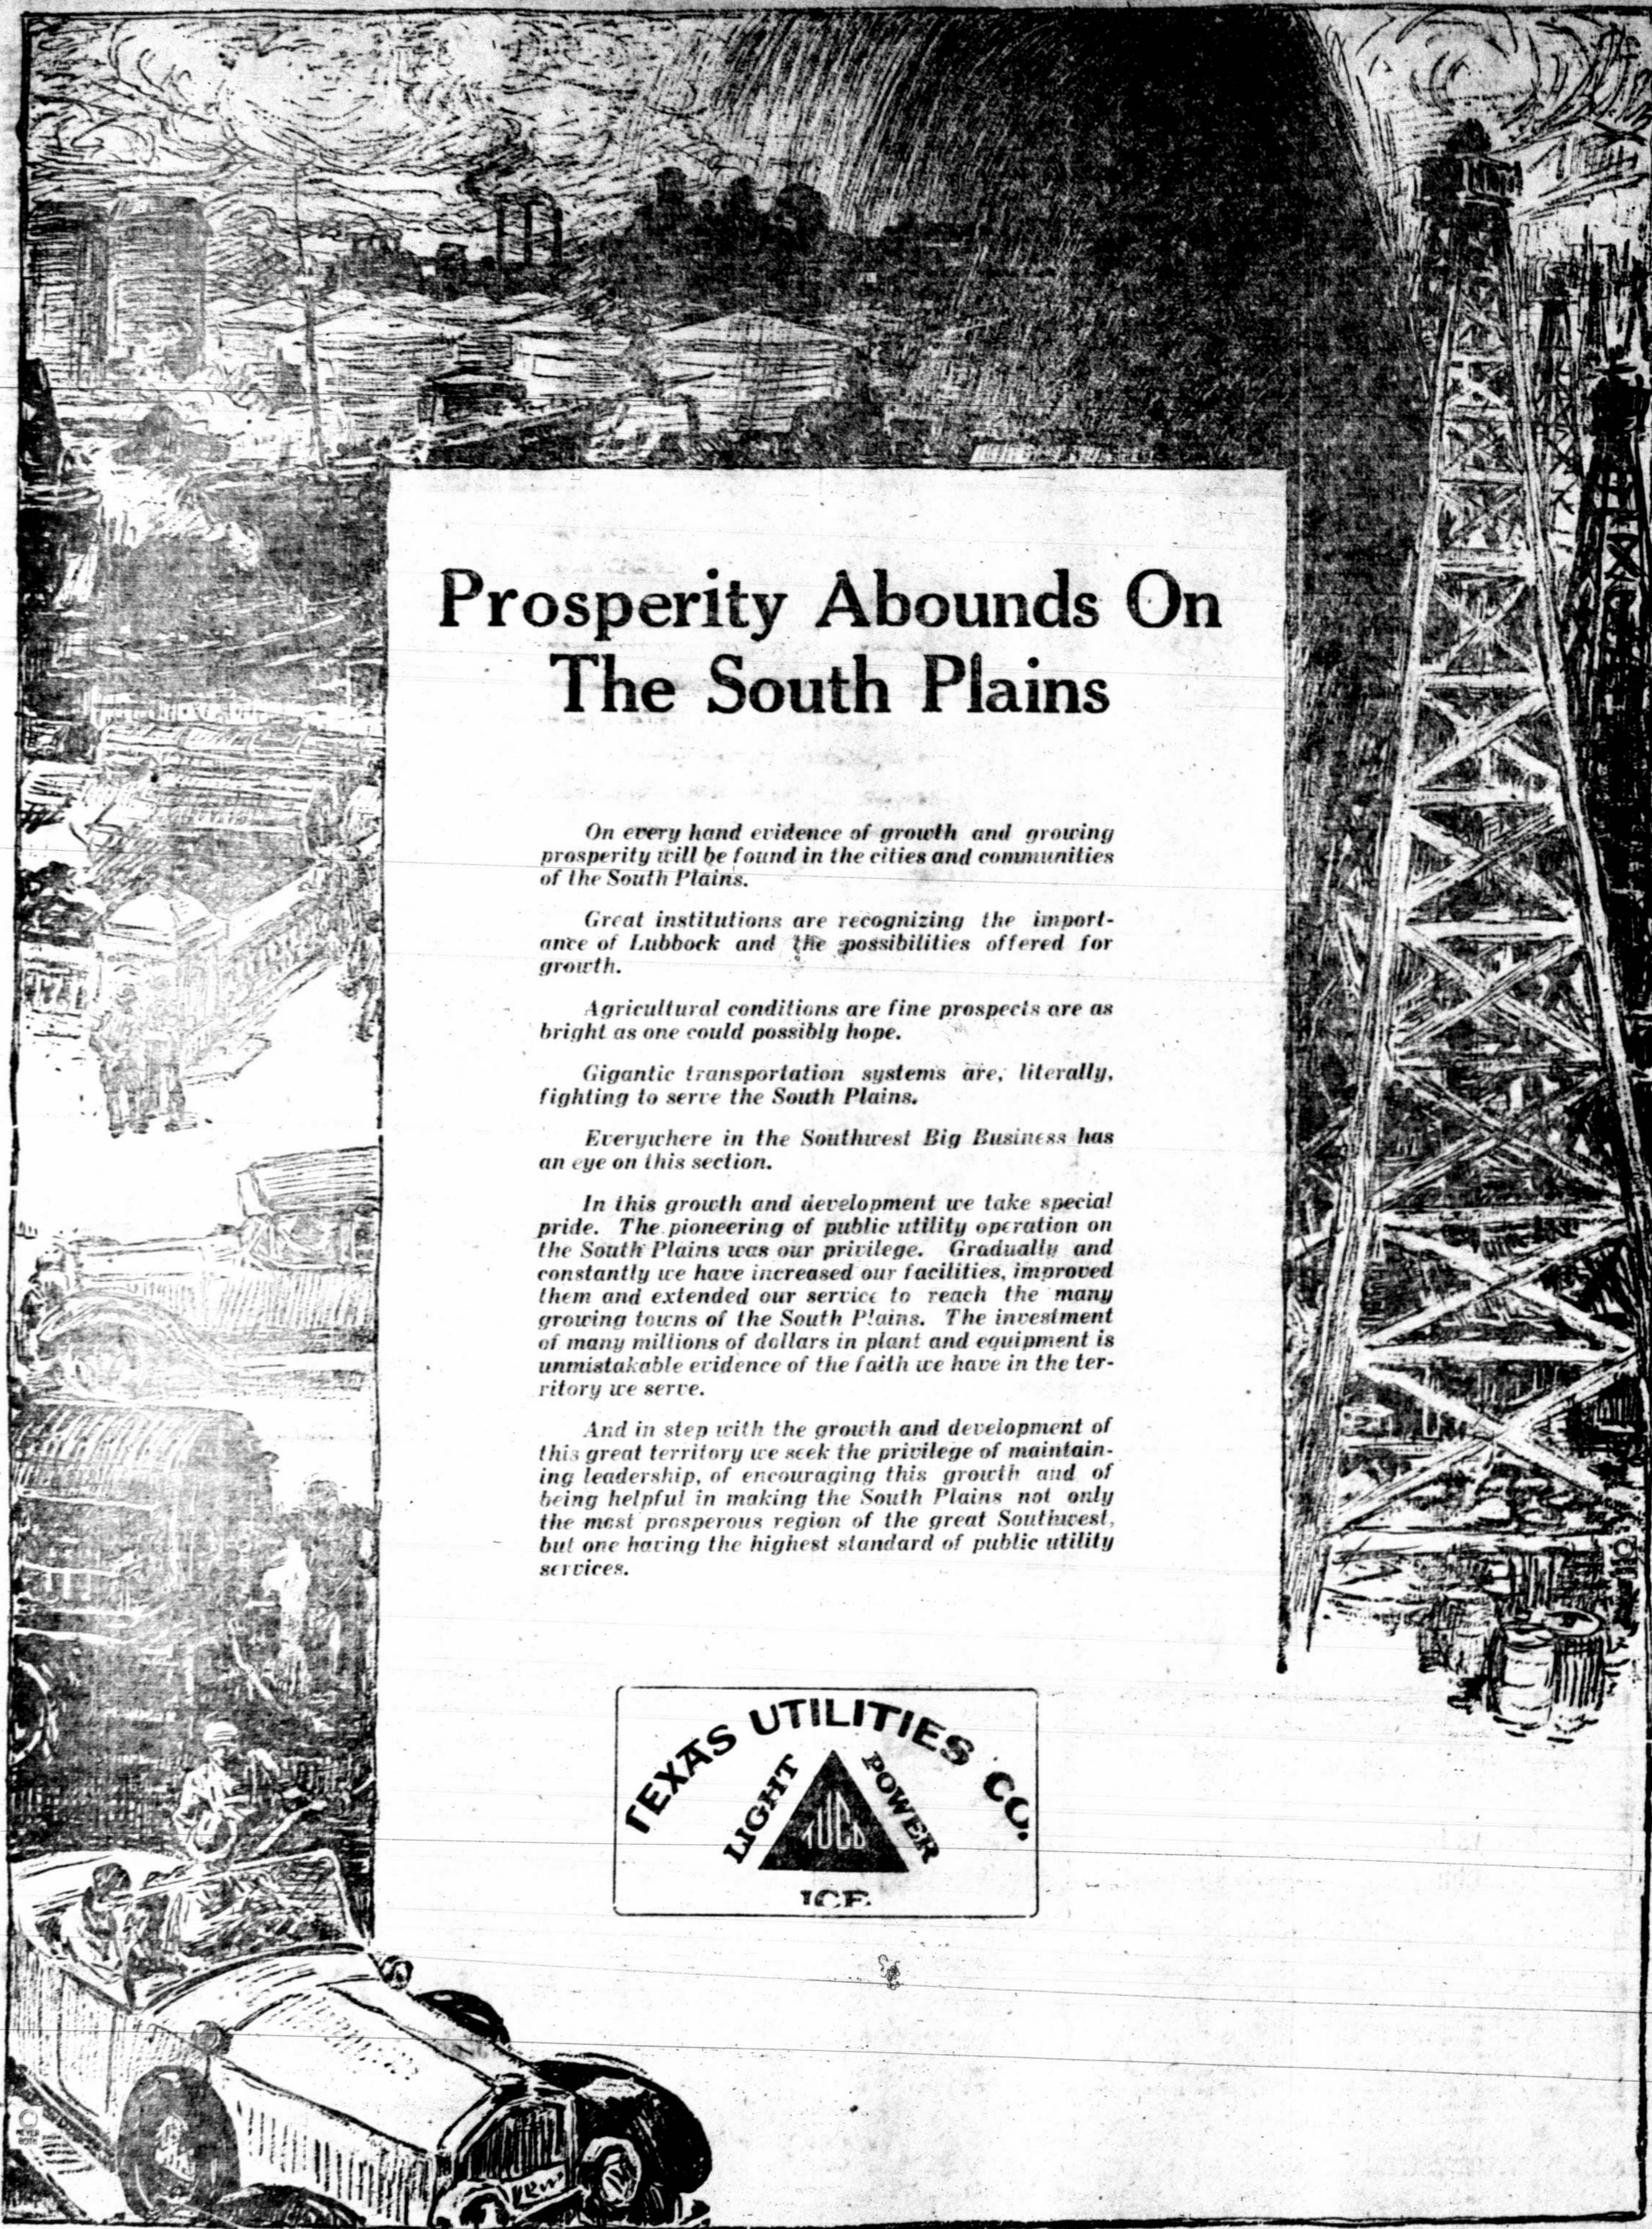

Kansas City grain mills grind be
tween 80 and 90 million bushels of
Kansas wheat each year.

MAK

Prosperity Abounds On The South Plains

On every hand evidence of growth and growing prosperity will be found in the cities and communities of the South Plains.

Great institutions are recognizing the importance of Lubbock and the possibilities offered for growth.

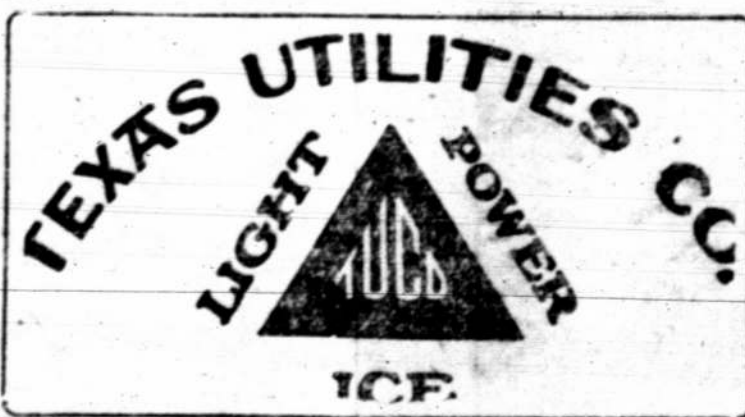

Agricultural conditions are fine prospects are as bright as one could possibly hope.

Gigantic transportation systems are, literally, fighting to serve the South Plains.

Everywhere in the Southwest Big Business has an eye on this section.

In this growth and development we take special pride. The pioneering of public utility operation on the South Plains was our privilege. Gradually and constantly we have increased our facilities, improved them and extended our service to reach the many growing towns of the South Plains. The investment of many millions of dollars in plant and equipment is unmistakable evidence of the faith we have in the territory we serve.

And in step with the growth and development of this great territory we seek the privilege of maintaining leadership, of encouraging this growth and of being helpful in making the South Plains not only the most prosperous region of the great Southwest, but one having the highest standard of public utility services.

SEE-SAWING ON BROADWAY

NEW YORK, May 26.—Manhattan's most successful beggar is a woman they call "the madonna." Possessed of a delicate oval face,

the illusion is continued by means of a carefully draped black scarf which accentuates the olive pallor of the skin. It is well not to approach too close, for then the illusion is quickly shattered by the hardness of the mouth, and the carefully affected drooping of the eyes.

Thus wrapped in garments that seek to imitate certain European paintings of the madonna she ap-

pears at subway entrances during the rush hour, carrying a child that is not her own—and not always the same child. But it works. Hundreds of scramblers stop and stare and rub their eyes and quickly feel in their vest pockets for coins. She is said to have one of the largest incomes of any of the New York seekers of alms.

Over on the East Side, where

Manhattan bridge sprawls into the edge of the pushcart belt, I met a beggar with a new and clever ruse. Since his territory is one in which handouts are not likely to be large he finds that he can get along very well on shorter rations. He approaches with his hand outstretched and displays three pennies lying in the palm. And his wail goes something like this: "Say, mister, can ya spare two cents?"

Just two cents to make this a nickel so I can get street car fare over the bridge home. . . . Been on the bum all day and ain't got strength to walk couple miles. . . . Just two cents. . . . And, after all, who can turn down an appeal for a couple of coppers? Slung changes from day to day to meet the requirements of the occasion. The speakies and

bootleggers have created an entire new dictionary. For instance—the burly bouncers of the beer bars are called "fire-water extinguishers." To stage a merry cocktail party is to "make whoopee," an expression invented by one Walter Winchell. A "two-faced person" is a "double record." A newspaper man is a "Park rogue." A very exclusive bar in a "whisper." A very

hectic and busy resort is a "stale." A week-end cocktail party is an "alcoholism." New arrivals are "be-ginners." Places where the entertainment is particularly warm are "turnaces," and a delicatessen is an "ice box dinner." And so it goes. While the immediate sensation of the night life is a python used by a dancer at Tex Guinan's it never fails to sober up the boys who have

been visiting too many of the gin places. GILBERT SWAN

When A Girl Loves

© 1928 by NEA Service

BY RUTH DEWEY GROVES

THIS HAS HAPPENED.

NATHANIEL DAWN is engaged to VIRGINIA BREWSTER, whose father dies suddenly after losing his fortune. NIEL begs her to marry him at once, but FREDERICK DEAN and his daughter CLARISSA persuade her to make her temporary home with them. This angers NIEL for he suspects DEAN'S motives.

VIRGINIA becomes unhappy in her new home and resolves to tell NIEL her fears. But when she phones his studio late at night his model, CHIRI, answers. This causes doubt and a lovers' quarrel which is later mended.

Hoping to get NIEL out of the way, DEAN has a company he controls offer him a high-salaried position in San Francisco. NIEL is overjoyed and begs VIRGINIA to marry and go west with him. But she refuses to let him sacrifice his art study.

VIRGINIA is involved in trouble with CLARISSA when the latter's fiance, RUSSELL WAINGOULD, catches her unexpectedly in a half-drunken embrace. CLARISSA accuses her of trying to marry money and VIRGINIA resolves to leave the house immediately.

GO ON WITH THE STORY.

CHAPTER XIII

Did Dean believe, as ClariSSa, that Virginia would throw NIEL over for money?

Virginia stayed in dismay at the thought and put out a hand to steady herself. "No, no," she cried under her breath, "he couldn't. He knows how much I love NIEL."

She struggled to put the shocking suggestion out of her mind, but memory mocked her. What about those fatherly caresses? Weren't they just a little warmer than they used to be?—Merely sympathy, she tried to tell herself. But deep in her heart she knew differently. . . . knew something more than sympathy was the reason for the subtle change in Frederick Dean's manner toward her of late.

It could mean only one thing, when insisted. Dean must believe his attentions would be welcome. And if that was the way he felt about it, then he evidently judged her as his daughter did.

Virginia could not be insensible to his situation. She knew that father and daughter shared the same thought concerning her. And the knowledge roused in her an overwhelming impulse to show them both how mistaken they were. She no longer needed to draw upon her courage to face Dean. It had not been her intention to tell him what ClariSSa had accused her of, but now she wanted to do something, to say something, to defend herself against their unjust estimate of her. Her steps grew brisker as she walked up to the door and walked to the presence of the man she felt was her enemy.

"Come over here," he invited from comfortable davenport. Virginia walked determinedly over, but as she rose to meet him she suddenly sat down in a chair a few feet away from him.

Dean repeated himself, folded up the newspaper he had been reading, and looked at her inquiringly. His first glance had shown him that she was agitated, perhaps angry, but caution prompted him to let her be the first to speak.

"I've come to tell you, that I shall pack my things and leave your house immediately," she said, plunging in without preliminaries.

"Why, my dear, what is the matter? Has something gone wrong?" "It's hardly worth while discussing in detail," Virginia declared firmly. "I think I've made a mistake in refusing to do as Nathaniel wishes and I'm going to live in a hotel until we can be married without improper haste."

Dean leaned forward a touch of paternalism written upon his aristocratically handsome features. "Do you realize what you are saying?" asked in a voice that convinced Virginia he doubted her sincerity "perfectly," she said glacially, and stopped there.

"But you must have some reason for this explanation," the man expostulated. "Surely you can't throw my hospitality in my face in this manner simply because you feel you have made a mistake about your plans." Virginia could not accept the charge of ingratitude and remained silent.

"Of course there is an explanation," she admitted defensively. "I've learned why ClariSSa wished to have me here, and I've always discovered that my coming is misunderstood." "By ClariSSa? She is not the head of this house, let me remind you, Virginia." He smiled placatingly at his deep-set eyes glinted with sarcasm.

"If ClariSSa could misunderstand others could do the same," Virginia remarked pointedly.

Dean's smile vanished instantly as his eyes appeared to become under his heavy eyelids. There was a pause in which Virginia's red cheeks seemed to hang in the air as bombshells about to explode, broke the silence, speaking gently.

"Won't you tell me all about it?" asked. "I cannot always find answers for ClariSSa, but you see it and not she whom who are taking to task."

er consider that she was insulting you with that idea. She would call it the only thing to do, no doubt. His words held a note of regret and apology, but it struck Virginia that he was in complete accord with his daughter's views.

"It's the last thing I'd do," she stated emphatically. "Oh, come now, Virginia. You're in no state of mind to make decisions that will affect your whole life—perhaps make a mess of it. Be sensible and go up and dress for dinner. We're dining alone. Understand, and I assure you I shall enjoy it greatly. I'll speak to ClariSSa tomorrow."

Virginia got up from her chair and Dean walked over to the door to open it for her. "Please understand that I am leaving at once," she told him positively.

For answer he closed the door again and put his back against it. "Are you really in earnest?" he queried unbelievably.

His doubt of her sincerity angered Virginia still further. "Do you think I would remain here where no one seems to care anything about loyalty or—even love?" she flamed at him.

"But how do you know that no one here cares about love?" Dean retorted, instantly. "I imagine there's a love so obsessing that you have never dreamed of it," he went on excitedly. "What do you know about passion or desire? Have you ever yearned with every fibre in your body to fulfill your dreams? You're too young to know what it's like to feel starved, to want to live again, to get back your youth." He stopped, panting a little and slightly flushed.

Virginia's eyes were fastened upon him in something akin to terror. His outburst of emotion was like a series of electric shocks to her, shaking her and filling her with apprehension.

"Please—open the door," she begged, hardly above a whisper.

"Not yet," he refused, "not until I tell you something more about love, my cold one." He came toward her and Virginia stepped back to escape his outstretched hands. She looked beyond him at the door but he was still too near for her to get past him.

"Don't be alarmed," he said, observing her fright. "I shall do nothing but talk to you and as you have expressed your opinion of me and ClariSSa you must be fair enough to hear what I have to say."

Virginia retreated another step. This brought her to another chair and she sank into it helplessly.

"You think you know what love is," Dean sneered. "Why haven't you even tasted life yet. And you're willing to let a foolish insatiation for a young upstart rob you of your birthright, the only kind of life you know how to live. I hoped you would come to your senses in time and get rid of him, but since matters have been precipitated by ClariSSa's blundering you might as well know that I intended to offer you a chance to live as you were reared, in luxury, before you could marry that jackanapes."

"Oh, you are even worse than I thought," Virginia cried furiously. "I guessed you must think I'd listen to such a horrid proposal, but I never dreamed that you would make it."

"Then you must be a trifle thick, my dear," Dean returned smoothly, not at all offended. "For it isn't so absurd as you seem to think. You are the prettiest girl I know, and a charming one. I'm bored with smart women who hunt big game in the Social Register. And you've lost a fortune. That puts each of us in need of the other. It's perhaps a little drawback that I'm not your age, but nothing is perfect in this world, and I assure you I've had younger girls than you literally thrown at my head by mothers I've known since their debut."

He stood before her now, his ease of manner completely restored and his voice back to its normal, agreeable accents. He even permitted a smile to rest lightly upon his thin cut lips.

"You and ClariSSa both seem to have suffered at the hands of fortune hunters," Virginia said scornfully. "But if you find it so easy to buy what you want—a wife that is young and pretty—why have you chosen to insult me with the offer?"

"Because, my dear, you are more than young and pretty. You're something that I want above all else in the world. You see, you have the power to stir my imagination," he added candidly.

Virginia flushed painfully under the direct gaze he sent upon her. Her temples throbbed with the rush of blood to her head and she was conscious for the first time in her life that desire could be degrading.

"I wouldn't marry you if I were

starving," she cried, jumping to her feet. Dean let her get to the door before he answered.

"But I think you would to re-

deem your father's honor," he said slowly.

JUSTIFIED FAITH

The magnificent new enterprises which arise regularly upon the business horizon of the South Plains indicate only slightly the great possibilities for growth.

Keeping in intimate touch with agricultural and commercial activities this bank feels that its faith in Lubbock and the South Plains has been fully justified.

And as has been our constant aim since the organization of this bank—we shall plan and build and expand to fully meet and properly care for the fast growth and full development of this section.

Should you seek the services of a strong, progressive and sympathetic banking institution, we invite your earnest consideration.

It would be silly to say that no tires are as good as Tires by LEE of Conshohocken. Some manufacturers are making excellent tires—but we try our hardest to outdo them.

If there were better materials we would buy them, if new processes would add to a tire's life, we would use them.

The name LEE on tires, tubes and every rubber product we make, must be a Hall Mark of quality, worthy of the faith of our several thousand LEE dealers and their multitude of tire customers.

Major Hoople Says "Weaker Sex" Is Misnomer; The Ladies Boss Us And We May As Well Admit It, He Says

Wives Were Made To Order Husbands Around And If You Don't Think They Do You're Wrong.

By MAJOR A. HOOPLE
MCKORMICK.

Avalanche-Journal Philosopher.

Well, who's boss, anyway?

The average man, "thinks" he wears the pants, and the average woman knows that he does not. Men who remain silent on the subject are the happy ones. They escape much embarrassment as well as shrill shrieks—men who insist that they are the real article—the big boss—spend their spare moments defending the stand, only to lose when "she" finally renders the verdict in her own favor.

Women have always ruled the world. If they can't do it through love and kindness, they will resort to intrigue—but they are going to rule, and they are going to let the entire world, including Cuba and South Carolina, know it.

Eve Started It. When Mother Eve decided to get corner on the apple market she started something she could not finish. Adam didn't "fall" for the plot, but the Holy Writ tells us that Eve finally induced him to join her in the proposition, and since that time we have been compelled to work for a living, rather than getting it for nothing. Pretty high pay, we admit, but women never count expense when they decide to pry conclusively who is boss.

Samson was a great and good man, and we are told the strongest man the world has ever known. Physically he ranked ace-high, and had the notion struck him he might have grabbed Delilah up by the hind leg and popped her head off. But Samson didn't do this. He just admitted his strength, and told his secret. Delilah probably gave him a few squeezes, and an occasional kiss—he had to gain his confidence, and Samson "fell." Warm kisses from beautiful maidens have wrecked nations on more than one occasion. Delilah wanted to know Samson's secret, and if it took a few "squeezes" and hugs, and a lot of love talk—well, what was the difference—she certainly won, and Samson with all his strength went down to a death of sun and shame, and all because he let a little "flapper" make a fool of him—let her wear the pants, and be boss.

Joan Was Another. Another fair maiden whose name was Joan, made herself keenly felt. Brave soldiers and bright minds of the masculine persuasion went up against her, but what she lacked proving who was boss wasn't very much.

And what is true in the cases mentioned above will hold up anywhere and at any time.

A little 90-pound flapper, wife whose waist-line would compare very favorably with that of a wasp and whose physical strength might be weighed on postage scales, can make her 190-pound pugilistic husband jump through a hoop any time she decides to remind him just who is boss. If you doubt this, have a wife, deny this to her face, if you have the nerve. If you are not a very swift runner you will take your next lunch in a hospital.

Made to be Boss.

Women were just naturally made to boss. Of course the Bible says God put them here to be man's helpmate, but like many other customs, such a thing is now considered old-fashioned.

One writer who wanted to give women her full credit without getting anything from man's standpoint, tells us that "the hand that rocks the cradle rules the world." He is correct. We admit it. And she can "rock" a man (or shoot him, either) just as easily as she rocks a cradle. When she gets ready to assert her power she is just particular about her weapon she uses. A rock will do if she can't find a gun. If neither are on hand she will substitute her tongue, and heaven pity the man who must have a "tongue lashing barrage."

All women do not look like Maggy Jiggs, but most of them control their husbands with equal success. Mrs. Jiggs is strong for the rolling pin, while others use automatics and high-pitched adjectives. One is just as fatal as the other—and a man is a fool when he offers resistance.

They're Not Cowards.

Some men are cowards, physically, but there isn't a woman in the world who wouldn't tackle a circle saw and give it 40 licks the start if someone says anything about one of her babies or tells her she is not boss. They will fight with anything from a hat pin to a gas bomb and they are not particular about having only one thing in mind—to protecting innocent bystanders. They win, and they never fail. They may be knocked out for a time, though they will never admit it, but when they come back for the grand finale the whole cock-eyed world had better start running—something is going to happen.

We talk about women being the weaker sex. Well, that's one we can keep from telling. There is nothing about them—other than their craving for fine clothes and a good time, and neither hampers them when it comes to staging a battle royal. Some people, even more simple than we, talk about women's rights. Well, they have them, and they have all the time since women entered politics. No man can predict the outcome of any campaign. About the time some old trooper starts to run for a third term along comes a gay flapper with political aspirations who offers herself as an opponent. She may not be qualified to do anything other than drink vanilla fizzlers and flirt,

but she will get the office just the same. You just can't beat them. You Can't Kill 'em.

If a cat has nine lives a woman has 108. When you think you have crushed her out, stretched her hide and made it possible for her to come back stronger than ever. It just won't do to oppose them.

Women are not fools—no, not by a long shot. They are born with more "sense" than lots of men accumulate in a life time. They have a remarkable sense of fairness, and if they are not opposed, will, as a rule, do the right thing. Their only failing is this: they are never satisfied. They elevate their chins and their ambitions and neither are lowered until they are called to cross the pond of death, and even then they dream of being something better than just an ordinary angel.

But we are for the women. They may rule the world in person or by proxy (as is husband). We really prefer the latter method, but give the woman a chance—never oppose her, and she will wear a crown of honor and glory. Bear with her, comfort her, and by all means "brag" on her, and she will live and die for you and your happiness.

Let her be queen, if she so desires, even king, if it will make her happy. You will not lose, but will reap happiness, for she will rule with honor and fairness. Give her power to act; encourage her and bolster her up during the sadder hours of her life, and you will find it better to be her subject than her king. She is very appreciative—at times exacting, though not critically so.

Let her be the shining light—the wonderful leader. Let her rule, and she will stand by you through life, follow your body to its last resting place and commend your spirit to him who gave it. Yes, let women rule.

NEW TWIN CITY

YOUNGSTOWN, O. May 26.—Families here are being blessed with twins. In one day recently one duo each was born to the A. W. Beatt, Anthony Luggie and Samuel Butch families.

Tahoka News

BY MRS. FRANK HILL

MOTHERS CLUB MET WEDNESDAY

The Mothers' Club met Wednesday afternoon in their regular meeting in the room at the American Legion Home. A very interesting study was enjoyed and a new plan was made, which will be carried out in the following meetings. Mesdames Oscar Roberts, Marshall Stewart and Skip Taylor served lovely refreshments. The visitors of the club were Mesdames George Law, Buster Fenton, Noble and Lane.

LYNN COUNTY FEDERATION OF CLUBS MEET MAY 26

The Federation of Women's Clubs of Lynn county met yesterday in Tahoka. In connection with the accompanying program Mrs. Phoebe R. Warner of Claude and Mrs. Lee Jones, president of the Women's

Marketing association of Mitchell county, addressed the clubs.

The installation of officers for the coming year was held.

The following program for the Federated clubs was rendered: Invocation, 10 a. m.—Rev. R. T. Brodhead, Tahoka.

Welcome—Mrs. J. B. Walker, Phebe K. Warner Club of Tahoka, Community Club of Wilcox.

Paper: Mrs. Unfried, "Things That Contribute to Home Making." What Lynn County Women Are Doing Along That Line—Mrs. Jeff Higginbotham.

Paper: "Family Life in the Home"—Mrs. J. R. Strain.

Four Fundamental Features, discussed in part by the following: "Lack of Honesty in the Home"—Mrs. G. M. Stewart, Phebe K. Warner Club, Tahoka.

"Lack of Proper Business Basis for the Home"—Mrs. L. Lumsden of Wilcox.

"Lack of Sense of Proportion in the Home"—Mrs. R. W. Fenton. "Lack of Fun and Courtesy in the Home"—Mrs. J. R. Strain.

PERSONALS

Miss Mae Logan of Abertathy is spending the week here as the guest of the J. P. Jeffers family. She is a niece of Mr. and Mrs. Jeffers. C. L. Dickson and his mother Mrs. A. P. Dickson, were in Lubbock Tuesday, visiting.

Mr. and Mrs. A. R. Hill of Barter were here last week-end visiting their parents, Mr. and Mrs. A. G. Hill and Mr. and Mrs. W. F. Slater.

Mrs. W. G. Torrence and daughter Leta and Helen Lee Maddox spent Tuesday in Lubbock.

Miss Mary Greathouse, student in Texas Tech, has been elected vice-president of the Pre-Law Club of that institution.

J. Clay McCoy, son of Dr. and Mrs. J. H. McCoy, returned Sunday from Port Worth, where he has been attending the Dr. Danforth School of Pharmacy. He also took the examination before the State Pharmacy Board a few days ago.

Supt. and Mrs. M. L. H. Baze and son Junior left Monday evening for a week's visit with relatives in Kimball county, going via Sweetwater to visit relatives there.

F. M. Billman of Roanoke, Ark., was here the first of the week on business.

Mr. and Mrs. O. L. Morgan of Lubbock were guests in Mr. and Mrs. Nat Williams' home Sunday.

Mr. and Mrs. Homer St. Clair left Monday on an extended trip for points in New Mexico and Arizona.

Emmett Flemming was in Abilene the first of the week on business.

Miss Jennie Camp, District Agent of the Extension Service for the Dallas-Ft. Worth District, was here Monday. Miss Camp's official work here was to score the two living rooms that had made the highest score in the recent contest. The rooms scored were those of Mrs. Ed. Anderson of Slaton L. Club and Mrs. C. W. Dean of Gordon Hackberry Club.

CROSBYTON NEWS

By MRS. W. M. CURRY

MRS. CARTER HOSTESS TO BOOK CLUB

Garden roses and spring cut flowers made a charming sitting for three tables of players when Mrs. R. S. M. Carter entertained Friday's Book club at her lovely home on Fourth street. Progressive forty-two furnished the afternoon's diversion. After the usual book exchange the hostess served a delectable plate luncheon to Mesdames A. K. Lackey, J. W. Ayres, W. C. Chase, R. D. Shaw, J. W. Scarborough, B. W. Mitchell, S. J. Dendy, I. W. Collier, Ernest Wood, members, and Mesdames W. T. Dunn and T. J. Cagle, guests.

One of the loveliest social events of the spring season was the reception given by Mrs. W. R. Davis in her beautiful home in north Crosbyton honoring members of Wednesday Bridge club and guests.

The spacious reception rooms were fragrant with a profusion of garden roses, pinks and peonies carrying out a color scheme of pink.

The rose motif was charmingly carried out in the lovely cards, gift prizes and refreshments.

In the games of bridge Mrs. F. A. Greene made high score and was presented a lovely boudoir lamp. Mrs. J. J. Taylor the soloist, prize, a hand made luncheon set, Mrs. R. C. Carter, the boogie prize, a linen towel; Mesdames J. I. Sieber and R. C. Westerman, the guest prize, a lovely colonial lady pin cushion.

A delightful two-course luncheon was served by the hostess to Mesdames J. A. Buck, R. C. Carter, F. A. Greene, John Littlefield, G. M. McKee, J. A. Parks, E. M. Perkins, Sep Smith, J. J. Taylor, Robert

berry Club.

Mrs. Lizzie Adair left Friday afternoon for Breckenridge, where she attended the graduating exercises of the Breckenridge high school as two of her grandchildren, Ruth and Oliver Adair, were graduates of that school this year.

H. C. Crile went to Dallas Monday to attend the Republican convention.

N. A. Gordon has taken charge of the Parks garage and will be manager permanently after the first.

Mrs. Aubrey Thomas of Lamesa visited her parents, Mr. and Mrs. J. D. Donald, Sunday and Monday.

Miss Dome Colleenback, who has been teaching in Ballinger, returned home Monday afternoon to spend her summer vacation.

Mrs. Thomas of O'Donnell visited her mother-in-law, Mrs. John Thomas, first of the week.

Mrs. Orlo Sook of California spent several days visiting her little daughter Elizabeth and Mrs. H. C. Crile. Elizabeth returned for a visit with her mother.

Webb, members, and Mesdames J. I. Sieber and R. C. Westerman, guests.

JUNIOR ENDEAVORS GET BIBLE

A month ago Bro. Buie offered a Bible to the pupil in the Presbyterian Sunday school who won in a Bible reading and memorizing contest. One point was given for reading a chapter and ten points for memorizing a whole chapter. Emma Ruth Freeman made 119 points, this giving her first place. Mary Ruth Freeman got second place and received a beautiful picture of Christ at prayer. Both of these girls are Junior Christian Endeavorers. Their superintendent, Mrs. C. E. Roy, encourages them in the Bible reading, and perhaps that is the reason they were in the lead.

PERSONALS

Mr. and Mrs. W. T. McCurdy spent the week-end with their daughter in Idalou.

Mrs. Roy Heard visited friends and relatives in Snyder last week-end.

Mrs. R. A. Crausbay and daughter, Elsie and Billie, went to Port Worth Friday for a few days vacation.

Mr. and Mrs. H. C. Oldham and daughter, Francis, left Friday for a week's vacation at Gorman.

Mr. and Mrs. Harvey Allen and baby of Amarillo, are guests of the Carter families this week.

Mrs. I. R. Powell and children, Hudson and Zay, and Mrs. W. P. Walker spent the week-end in Hereford.

Mrs. L. E. Worley and daughter, Freddie Marie, of Slaton are spending the week with her daughter, Mrs. Clarence Cooper.

J. Frank Smith of the Smith house returned home Saturday from Dallas and Glen Rose. Mrs. Smith remained at Glen Rose for medical treatment.

Miss Annell Ayres left Tuesday for Jacksboro where she will spend her vacation. Miss Pauline Newton is assisting Mr. Ayres in the store while Miss Annell is away.

E. W. Gregg went to Cisco last Thursday for Mrs. Gregg who has been visiting her mother for the past two weeks. They returned home Saturday after a two days drive through the mud.

Jasper L. Roberts and family of Comanche, Okla., are visiting Mr. and Mrs. E. H. Hendricks of Crosbyton and Mr. and Mrs. Sparkman of Ballinger this week. Mrs. Roberts is a niece of Mrs. Hendricks.

E. M. Perkins returned the first of the week from Dallas, where he had been at the bedside of his father, following an operation. Mr. Perkins says his father is much better and is hopeful of his recovery.

H. L. Allen of Lubbock, district manager of the Texas Utilities company, was here Monday helping Roy McDaniel line up the new office in the Hendricks building, where they expect to move when the building is completed.

Mrs. Sallie Branch arrived Friday from Dallas to spend the summer with her daughter, Mrs. R. L. Goad.

Littlefield News

By MRS. M. W. ETTER
Phone 28

NAMED AS SPONSOR

Miss Maurine Irvin, daughter of Sheriff and Mrs. Lew Irvin has been named by the local chamber of commerce as sponsor for Littlefield to attend the annual meeting of the West Texas Chamber of Commerce to be held at Port Worth June 18-20.

COLLEGE TO BEGIN WORK. The first shipment of supplies for the Littlefield college has arrived and more supplies will follow as fast as can be loaded out. Actual construction on the building will begin within a few days.

Mrs. B. L. Cogill and son, Jackie, left Tuesday for an extended visit in California.

Mr. and Mrs. T. S. Sales moved into their new home.

Mr. and Mrs. W. E. Brandon and Billy, were in Lubbock Thursday.

Mr. and Mrs. M. M. Brittain and Jim Tom, were in Lubbock Thursday night.

Miss Pauline Hardesty one of the teachers of the grammar school, returned home Tuesday.

Miss Dorothy Nettleton, teacher of history and Latin for the past year, left for San Antonio Tuesday.

Miss Helen Moore, who was teacher of Spanish left for her home in Temple Tuesday.

Miss Louise Magee of Lubbock was visiting in Littlefield Thursday.

PLAN ABILENE FACES

40-Mile Contest To Feature At West Texas Fair

ABILENE, May 26.—Featuring the annual July 4. automobile races on the West Texas Fair Speedway in this city for this year will be a 40-mile contest between some of the most prominent dirt track drivers in the United States.

This contest, to be called the West Texas Sweepstakes, will be augmented by four other major events on the program for the Independence Day classic. A guaranteed purse of \$3,000 with an additional twenty percent of the gross grandstand, bleacher and automobile gate receipts over \$6,500 will be divided as prize money among the winners in the different events.

First prize for the big race is guaranteed at \$700 with twenty percent of fifty percent of the gate purse added.

PASTOR RESIGNS

Canyon Baptist Minister Closes Work Sunday

CANYON, May 26.—Reverend Lyn Claybrook, for five years pastor of the First Baptist church of Canyon, will finish his work here with his sermon May 27th. During his pastorate a \$100,000 church has been planned and is now nearing completion.

From Canyon, Reverend Clay-

brook and family will move to Seminary Hill at Port Worth, where he will study; later he will complete his work for the degree of Doctor

of Theology at Southern Seminary, Louisville, Kentucky.

Claybrook's successor has not yet been named.

A Store of Individuality

Are you one of the many, who are not SATISFIED to trade at a store that is a general up-roar and a loud speaker going full speed all the time, or, are you one of that mild evenly disposed that when you want to buy you go out to a store that has some Individuality and select what you want from new merchandise well bought and go home.

SATISFIED

With your purchase and know you have had personal attention.

Ask your neighbor about us.

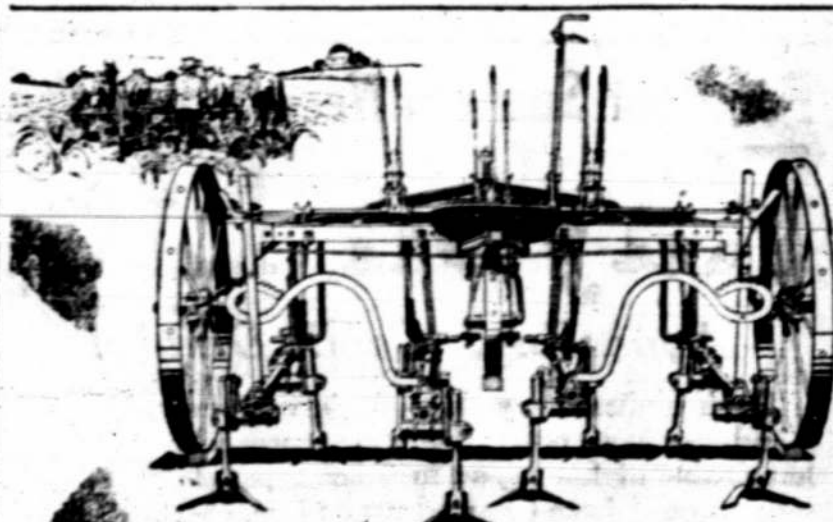

Minter-Gamel Company

That Friendly Store

In Grateful Acknowledgment-

—of the kind expressions from our friends, patrons and the public at large, on the completion of the new Myrick office building and the Formal Opening of the new and Greater Myrick Hardware Co., store.

RUSSEL MYRICK

Note These Time-Saving Features

All the rigs on the John Deere ND are raised or lowered by one master lever. You don't have to stop the team at row ends. Lift the rigs, make the turn, lower the rigs and keep going. You can cultivate an acre more per day because of the non-stop advantage which this master lever gives you.

John Deere ND Two-Row Cultivator

By means of the spacing levers, you can space the rigs the desired distance from the rows. Tilting lever instantly insures proper set and suction of all shovels—a special advantage when cultivating hillsides. And you make all these adjustments from the seat as you drive along.

Quick and easy dodge is secured by pressure on the handy pedals—a feature you will appreciate when working in crooked rows.

Steady-running foretruck no neck weight on horses. All-sized folding eveners—easy to drive cultivator through farm gates.

Come in and see the ND.

Mother Held

Mrs. Lorene Ford (above) who
told police her two-year-old daugh-
ter, Betty Jean, was kidnaped and
drowned by four men, was held at
Shawnee, Okla., after it was dis-
covered the child died from a blow
on the head before the body was
thrown into a nearby river. Her
twice-divorced husband, Douglas
Ford, whom she accused as one of
the kidnapers, and Frank Knight,
Mrs. Ford's sweetheart, also were
held.

Plenty Of Cold Drinking Water For Democrats

Frigidaire Motors Will Fur-
nish Each Delegate With
Equivalent Of 15 Pounds
Of Ice Daily

HOUSTON, Tex., May 26. (Sp.)—
Cold water may prove a deciding
factor in the selection of a Demo-
cratic nominee for the presidency
in case the delegates drift into a
convention deadlock and are com-
pelled to sit through long drawn
out balloting in the heat of Texas
midsummer.

There being no such thing as a
free line in this latitude, water
mains in Houston are laid close to
the top of the ground. As a result
drinking water direct from the tap
has a temperature of 85 degrees—
considerably too warm for the av-
erage politician. For this reason, the
city of Houston has turned over the
convention drinking water problem
to engineers.

Thirty delegates to be relieved
Automatic electric coolers, equip-
ped with oversized Frigidaire mo-
tors will be scattered about the con-
vention floor and set up outside the
hall, for the relief of hot and thirst-
y delegates, many of whom will be
experiencing heat and humidity of
southern Texas for the first time.

Refrigeration engineers, who have
been assigned to the task of chill-
ing the convention water supply will

install mechanical equipment that
has been tested in the blistering
heat of steel mills, where a cake of
ice disappears like a slice of butter
on hot toast. Water coolers that
have performed successfully in the
full glare of open hearth furnaces
will function for the Democratic
delegates until some one gets the
necessary two-thirds vote.

Tons of Ice Substituted.
It is estimated that the automa-
tic water coolers will provide the
cooling equivalent of nine tons of
melting ice daily making it easier
for organization leaders to hold
their delegates in line in the event
the convention fails to arrive at an
early choice. This will give each
delegate the equivalent of 15 pounds
of ice daily for his drinking water
as long as the convention is in pro-
gress.

REAL WILD WEST
OMAHA, May 26.—Just like Dead
Eye Dick who shot his crooked card
partner is the incident of Max Mc-
Clure, who shot his brother, Verne,
Verne, 8, won two games of cards
in succession from his brother, Max,
12. Max, enraged, picked up a small
bore rifle and shot his brother in
the eye. Both boys say the shoot-
ing was an accident, because Max
did not know the gun was loaded.

PITTSBURG, May 26.—In play-
ing with her sister, Miriam, 6, Mar-
tha Bechtold, 2, swallowed a toy air-
plane. It was removed by surgeons
after being lodged in her throat for
more than 36 hours.

SNYDER, May 22.—The state and
county officials have completed the
bridge that was washed out be-
tween Snyder and Colorado last
winter.

"THERE IS NO SUBSTITUTE FOR QUALITY"

General Electric Refrigerators

—offered by this store represent what we honestly think "the best refrigerator value" on the market. *Why shouldn't it be?*

—the vast resources of General Electric are behind it. Fifteen years of scientific research and invention is embodied in every model.

Color
—the New Note
in Gas Ranges!

The Range You've Always Wanted

Beautiful! Modern!—and the best value of them all! They have the Estate-Fresh Air Oven—built like a double boiler, it makes perfect baking results certain.

Choice of new and vivid colors—with cooking utensils that match. \$10.00 places the Estate Gas Range in your home—take a year to pay balance.

The 4th Car Has Arrived!

NEW PROCESS Gas Ranges

Quality and Beauty

Without a cost penalty!

NEW PROCESS Gas Ranges express
"Good Taste". Simple, dignified, grace-
ful of line. Beautiful in appearance—all-
white enamel with pearl-gray enamel door-
trim. Not "flat"—but not flashy or freakish.

- In "Good Taste"—New Process Gas Ranges. Smooth, enamel surfaces of doors slightly curved for artistic effect—not too flat.
- Lorain (RED WHEEL) Oven Heat Regulator. The Original. There is no substitute. A thermostat that automatically regulates the heat of your oven.
- Latest design of Hingeless Oven doors. No door catches needed. Smooth, silent opening and closing.
- Pearl-gray-enamel door-trim—just a note of contrast. Like a touch of color at wrist and throat of a beautifully tailored gown.
- No ugly pipe-flue to mar the smooth, white oven-top. Flue concealed at back of range.
- "Twirling" flame-top-burners. Each tiny, blue jet of flame "twirls" constantly toward center. Intense heat with least amount of gas consumed.
- Large, perfectly plain, smooth, porcelain-enamel door-handles. Cool and easy to grasp.

LORAIN OVEN HEAT
REGULATOR

You can buy the New Process Gas Range on easy terms
with only a small cash payment. Or you may trade in your
present stove and get a liberal allowance on a New Process
Range.

Moody In Awkward Position By Democratic Victory

Defeated Politically Some Of Best Friends With Aid Of Opponents But Holds Promise To Support Principle

Convention Was Display Of Fair Play, Waide Says In Comparing It To Former Controlled By Klan

By C. D. WAIDE
Special Correspondent
LUBBOCK, Texas, May 26.—Dan Moody won a victory at the Beaumont convention, but it is a safe bet that the governor would never have won it had he not put up with the aid of his political arch enemy, Steve Pinckney. He threw it to the aid of his political arch enemy, Steve Pinckney. He threw it to the aid of his political arch enemy, Steve Pinckney.

Open to Argument
Whether or not, in doing that, he did the noble thing will all be a subject of argument, according to the lights of the debaters. He had to choose between a promise to the people of aid and supporting a principle, which he did in the same situation. He had to choose between a promise to the people of aid and supporting a principle, which he did in the same situation.

Moody's action in doing this was to keep his promise to the people that if they would support him in an anti-Smith campaign, he would be sent to Houston to be commended. It took rare courage to permit himself to be elected on the cross of his friends, and a higher obligation which he owed to the people of Texas. It was a courage which few people have. He threw his support at the moment to a minority report, which he knew had been written by a man who mibe regards as his

political arch enemy. He threw it to the aid of his political arch enemy, Steve Pinckney. He threw it to the aid of his political arch enemy, Steve Pinckney.

Display of Fair Play
The convention was a display of fair play throughout, especially in comparison with the Klan controlled convention of four years ago, when the will of the Klan was all that mattered. Tom Ball, C. W. Johnson, Jake Wolters, Dan Moody, and finally, and especially John Boyle of San Antonio played fair. In fact, John Boyle came out of that convention the idol of his friends, the admiral of the neutral observers and the respect of his enemies.

It was John Boyle who, when he realized that a Ferguson-Smith combination, in which he could have held high place, threatened the political life of his friend, threw his weight in the balance for Dan Moody. It was John Boyle who helped the governor defeat the Love demand that the delegation vote against Al Smith, calling the New York governor by name. Finally, John Boyle expected the governor to support the principle for which he already had announced—that of local self government and of permitting the districts to name their own delegates.

Boyle Hurt By Actions
When Moody took the position which he admitted was inconsistent, and took it because he had no better guarantee that the delegation would be anti-Smith, John Boyle did not fly into a lowering rage, nor charge crookedness. He was hurt. He was like a sensitive child that had been wrongly punished. But he took his defeat like a man—a defeat that was headed straight toward victory until the governor took the floor in the middle of the voting and announced his position. There will be as many opinions of

See DEMO SITUATION, Page 3

Six States Prevent Headlighting Progress From Enveloping Entire Country

By ISRAEL KLEIN,
Science Editor, NEA Service.
A law adopted in only six states is retarding the progress of effective headlighting in the entire country.

The law prohibits the use of 32-candlepower bulbs in the headlamps of automobiles and thus forces automobile manufacturers to equip all their cars with 21-candlepower lamps. It isn't practical to ship different cars to different districts, say the manufacturers, so these six states control what motorists can have in the other 42 states.

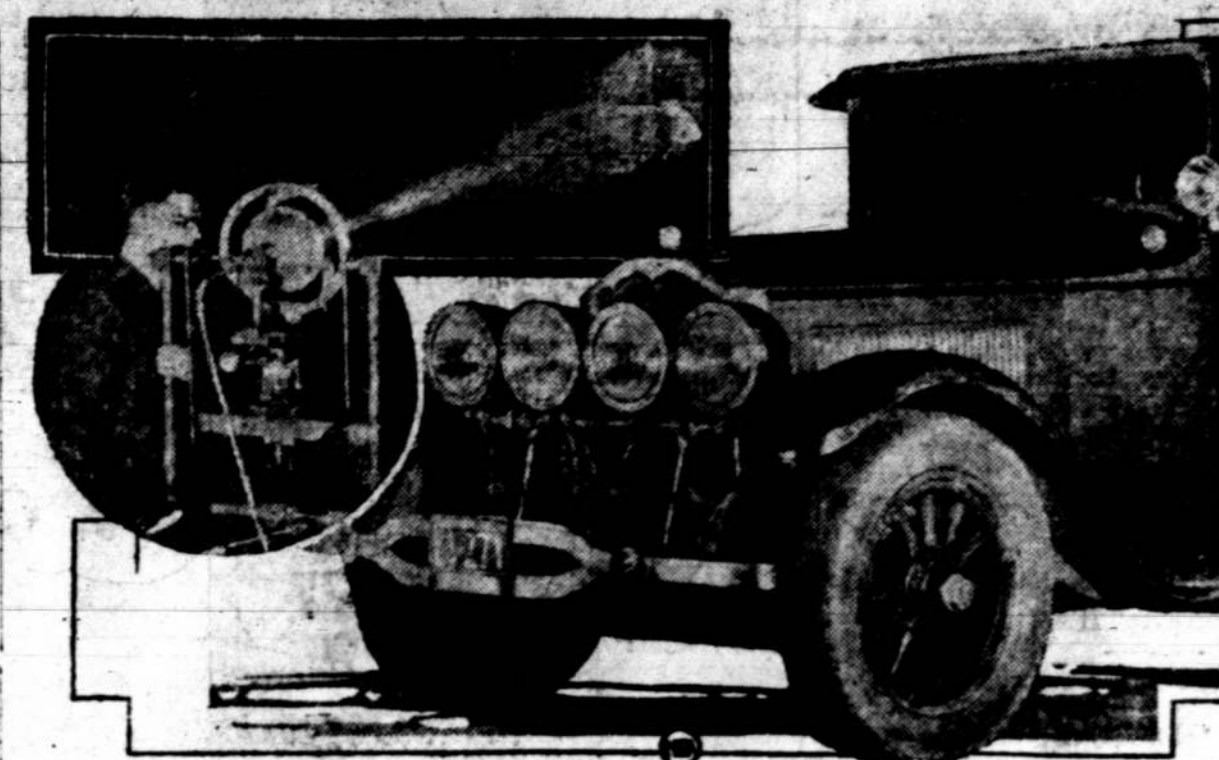

The states are Connecticut, Indiana, Nevada, New Jersey, New York and Pennsylvania.
Yet automotive engineers say conditions have changed since these laws went into effect. Where formerly the 21-candlepower lamp threw a bothersome and dangerous glare into the eyes of approaching motorists, lamps with 32-candlepower bulbs today can be designed without endangering others.

Higher Power Found Safer
In fact, improvements made with lenses and reflectors at the General Motors research laboratories, the U. S. bureau of standards and other laboratories make the use of higher-powered lights safer and more convenient. This development has been approved by the Illuminating Engineering society and the Society of Automotive engineers.

In a report to the former society, a special motor vehicle lighting committee sums up the matter of headlighting as follows:

"It was the usual practice in headlight design to provide a beam 15 to 20 degrees wide and four to five degrees deep. Under these conditions, the 21-candlepower lamp served very well. The trend, however, has been toward greater road coverage until today the usual beam is from 30 to 40 degrees wide and from six to eight degrees deep.

"In illuminating this very materially greater road area, the amount of light flux available per unit area has been reduced to such an extent that it is now generally agreed further progress along this line cannot be expected until the candle-

The apparatus at the left and the four-headlamped automobile at right have contributed greatly to the advancement of headlighting. Intensity of a beam of light is being measured at left, while experimental lights are put on the car for actual road tests at night.

power limit is materially increased. One generally recognized deficiency in modern headlamp beams is that the high intensity just below the headlamp level, which is necessary for revealing objects well down the road, serves very well on straight roads, but does not extend far enough to the sides to perform satisfactorily on curves. Greater width in this zone involves an undesirable sacrifice in range.

"The logical solution for future design is to increase the quantity of light flux by using a source of higher candlepower. If the limit were increased from 21 to 32 candlepower, it would take care of the immediate situation without overloading the electrical equipment."

R. N. Paige, head of the lighting section at the General Motors research laboratories, points out that the Hoover uniform vehicle code,

which was adopted by the National Conference on Street and Highway Safety in 1926 and which has since been incorporated in part or in full in many of the state laws, establishes no limits on bulb candlepower.

"There is no good reason why headlamps designed for 32 candlepower bulbs need glare any more than those designed for 21 candlepower," says Paige. "Experiments show that an approaching driver

can comfortably face 800 candlepower from a pair of headlamps. Glare from four adjustments.

"It makes very little difference whether the direct light which reaches his eyes from the blub itself is 21 candlepower or 32 candlepower. The glare which blinds us on the road is many times greater than 800 candlepower."

"On the other hand, at least 10-

Members Of Tech Faculty To Spend Summer In Many Places, Some Abroad In Quest For Advanced Educations

Few To Remain Here During Vacation Period Teaching In Summer School; Five Are To Go Abroad

The trek of Tech's faculty members will take them far this summer—to France and old Oxford in England, to fields of advanced learning throughout the United States, on research expeditions, into those mysterious channels described as "business of their own." Some teachers will remain in Lubbock, meeting classes for two terms of school and enjoying a short respite from instruction before the opening of the winter term of school.

Mrs. Mary W. Doak, Miss Katherine Harper, Miss Lucille Gill and Miss Gussie Teague and Miss Flora McGee are to sail from Galveston on June 2 for Europe. They will land in Boulogne, spend some time in France and then go to Oxford where they will pursue various courses in the university. They expect to return to the United States about September 15.

Cotton Market Research
L. D. Howell is to be with the United States department of agriculture doing research work in cotton marketing.

Harold J. Broderick is to do landscaping and H. J. Bower is also following a private business. He probably will live on a farm in Kansas.

Ray Mowery is to study at Ames, Iowa, working toward his doctor's degree, and Charles Mahoney is to study at the Michigan Agricultural

Little Gas On City Streets

By NEA Service.

WASHINGTON, May 26.—Experiments conducted by the U. S. public health service tend to show that carbon monoxide, the deadly exhaust gas from automobiles, is not present in injurious quantities on congested city streets.

Using measuring tubes on streets where many automobiles were idling, it was found that only one-fourth of the tubes contained as much as one part of carbon monoxide in 10,000 parts of air.

In public garages, however, experiments showed 2.1 parts per 10,000 of air.

College, Lansing, working also toward his doctor's degree.

Dr. Fred Harbaugh is to be in charge of the hospital for small animals at the Boston Animal Rescue league in Massachusetts.

Dr. Leroy T. Patton is conducting a geological tour for students through the western states.

J. H. Murdough will do graduate work in the University of Michigan during the summer and F. L. McRee will be with the state highway department. Dr. W. M. Young will go to Schenectady, N. Y., to be

any other fine car

Buy your Buick with the knowledge that the overwhelming majority of America's fine car buyers are making the same wise selection and enjoying the same wonderful satisfaction.

This most brilliant of fine cars enjoys two-to-one leadership in its field and has maintained its leadership, not for a week or a month, but year in and year out since the early days of the industry.

The minute you see Buick you'll know one reason for its popularity—it excels in beauty. The minute you drive it you'll discover a further reason—it excels in vibrationless performance. And when you compare values, you'll have the full story—for nowhere is there a car so fine and dependable at a price so remarkably low.

The judgment of America is mighty good judgment to bank on. And America, by a two-to-one vote, tells you to buy a Buick.

All Buick models have *Lovely Hydraulic shock absorbers*, front and rear, as standard equipment

SEDANS \$1195 to \$1995 • COUPES \$1195 to \$1850 • SPORT MODELS \$1195 to \$152

All prices F.O.B. Plant, Mich., government tax to be added. The G.M.A.C. finance plan, the most desirable, is available.

USED CARS
"with an OK that counts"

What the
RED OK TAG
means to you

During the last few months the popularity of the Bigger and Better Chevrolet in this community has reached spectacular proportions. As a consequence, we have taken in a large number of good used cars. Many of these cars have been thoroughly inspected and reconditioned where necessary. To protect the buyer the red "O. K. that counts" tag has been attached to the radiator caps of these OK'd cars. Look for this tag and KNOW that you are getting honest value!

Best Combustion Results Found In Oldsmobile

New Chamber Is Designed To Give High Compression Performance Without The Use of Special Fuel

LANSING, Mich., May 26 (Sp.)—That occurs when gasoline vapor is introduced into a cylinder combustion chamber, compressed and fired is a problem that has baffled automotive engineers. However, they have made progress in its solution with the resultant increase in power and smoothness of operation and in the better cars of today.

Study of the problem is comparable to the youthful researcher who, on July Fourth, holds a lighted firecracker in his hand "to see what will happen." Both the "boy" and the "engineer" are dealing with something that operates practically instantaneously and with explosive force.

Principles Well-Known. The principles of an internal combustion engine and the way it operates are well known. Gasoline is mixed with air, heated, and then drawn into the cylinder by the downward stroke of the piston. The upward stroke compresses the vapor and an electric spark explodes the mixture, the resulting explosion forcing the piston back to its starting position. The energy of the power stroke of the engine is what produces the motion.

Engineers also know that increased compression increases power, up to a certain point and then power is lost and "detonation" or "knock" results. Also they know that the stage and the stage of the combustion chamber influences the useful force of the explosion.

Oldsmobile Engineers Work Hard. During the two years that the Oldsmobile was being designed, months of effort was expended in the design of the combustion chamber. The Oldsmobile engineers worked in cooperation with the engineering staff of the General Motors Corporation at their disposal the laboratory and equipment of the corporation in solving this problem.

A co-operative effort resulted in a new design of combustion chamber which gives high compression performance without the use of special fuel. The compression is 5 to 1 or approximately 88 pounds per square inch. The design further controls the flame within the chamber and the stage of the combustion is more nearly constant. This results in additional power per explosion.

Demo Situation. (Continued from page 1) Convention as there are people who will read accounts of it, very few will agree on all points. Those who may want to see the demonstration must first accept this statement: I have been friends with the close personal friends of the majority of the leaders of all the parties, and viewed the situation impartially. And because of friendship for virtually all the leaders of the party, the convention is not a matter of rejoicing. It was not a victory for anybody.

Shannon of Johnson, the rank and file of the constitutional Democrats in their opposition to Smith should not be questioned, even though one might think the prejudice which is the basis of most of the opposition. The party of Moody, Ball, Davidson and the other leaders of the Democratic Party of Texas is also not subject to doubt and they did what they thought was best for Texas. Finally, loyalty and sincerity of John Dillard and his fellow-supporters of Smith is to be admired and their support of Smith should be unquestioned. Therefore, the tragedy of the convention is the loss of the friendship and broken friendships came out of it. But no charge of "double-crossing," "crookedness" or lack of sincerity should ever be made at any of the leaders.

Early Days of the Convention. J. Dillard, the Lubbock Avenger, has written a series of "Early Days of the Convention" which will appear each Sunday. The series will be of interest to new and old timers, alike.

Local Agent of CUNARD and Anchor Lines. The Atlantic Club Building, Dallas, Texas.

Auto Market Ends Parking Worry

The modern "Automarket" at Louisville, Ky.

By NEA Service

LOUISVILLE, Ky., May 26.—How would you like to drive your automobile into a grocery store and make your purchases without being forced to wait for a clerk and without even leaving your seat?

Think of the pleasure of shopping minus the drawback of hunting for a place to park and less the discomfort of carrying bundles! This is what residents of Louisville are doing at the "Automarket," the only store of its kind in the world.

The "Automarket" is the ordinary grocery what the escalator is to the stairway.

The front much resembles any store except for the wide doors on each side. As a car drives up to the entrance, the door automatically opens.

Insider, the automobile is guided into a cement track, just wide enough for the wheels. The customer need worry no longer about his guiding—that, too, becomes automatic.

The groceries, canned goods and fresh vegetables and bakery products are displayed on large disk-shaped shelves which line the left side of the driveway. These shelves rotate slowly, allowing the customer to see everything on each shelf before he purchases.

Beneath the shelves is a roller bearing track which allows moves a container into which the customer drops his packages.

The drive is in the shape of a huge "U," at the bottom of which is a turntable which places the automobile in just the right position to continue its journey up the other side.

Pedestrians may walk along the inside of the row of rotary shelves and make their purchases at the same time that motorists are selecting their goods from the other side.

Six States

(Continued From Page One)

000 candlepower is needed to show up objects on the road a safe distance ahead. When headlights are adjusted properly this extremely high candlepower is aimed below the eyes of other drivers where it does not glare.

Dangerous glare comes from badly adjusted headlights when the glaring rays are aimed too high and go into the other driver's eyes instead of on the road where they are needed. Even here the glare from properly designed headlights using 32 candlepower bulbs need not be any greater than the glare from 21 candlepower bulbs since the added light should be used to provide more light at the sides of the road rather than to increase the beam candlepower.

False also points out that chromium plating could be introduced for reflectors, instead of silver, if 32 candlepower bulbs were permissible. Chromium plate would last longer and remain free from tarnish, while the higher-powered light would offset the lower reflecting efficiency of the chromium.

Tech Faculty

(Continued from Page 1)

with the General Electric company and Carl Svensen will be with a publishing company in New York.

Others Go Back East. G. L. Tuve, accompanied by his family, is to make an extensive trip through the east, inspecting schools and laboratories in the interest of improving the mechanical engineering department of Tech.

Harry Garden is to be in the east and probably will be connected with a mill.

Miss Margaret Weeks is to attend a conference on Child Development and Parent Education at Iowa City, Ia. June 20-22 and a meeting of the American Home Economics association in Des Moines June 24-30.

Miss Mabel Erwin will be at the Des Moines meeting, after visiting in Indiana for several days with relatives. These two women are to return for the second term of school.

Misses Marie Delleney, Edna Walker and Jonnie McCrery will be here for the first term of school and have not announced plans for the latter part of the summer.

Mr. and Mrs. Fred W. Sparks will spend the summer in Illinois where Mr. Sparks will attend the University of Chicago.

Others Visit in Texas. Mr. and Mrs. F. V. Robnett are to visit in several Texas points during the first part of the summer. They will be in Lubbock for the second term of summer school as Mr. Robnett will be on the staff of the English department.

J. T. Jackson will have as his permanent address, Austin College, Sherman.

Kenneth L. Knickerbocker will visit in Little Rock, Ark., and points in south Texas.

W. B. Gates will be in Austin for the first term and the second term will teach here.

Mr. and Mrs. A. T. Bishop will visit in Kansas during the entire summer.

Miss Madeline Canova will be in Lubbock until September 1, when she will go to Austin for a few days and from there she will go to Urbana, Ill. Miss Canova has a leave of absence for next year and will pursue courses leading to bachelor of science degree in library science at the University of Illinois.

Miss Emma Main will visit her parents in Thalia, and later will go to Denver.

Mr. and Mrs. C. B. Thalia will spend the first six weeks in Lubbock and after that time will travel extensively. Their itinerary has not been announced.

Harold R. Nissley and Harry Hill will study in the University of Chicago.

F. E. Ballard has announced that he will pursue courses leading to a Ph.D. degree in the University of Iowa.

Thor J. Beck will teach during the first term of the summer school and spend the next six weeks in making preparation for comprehensive departmental examinations in French and German at the University of Columbia, for his doctor's degree. Mr. Beck has been advised that his dissertation has been accepted.

Merrill A. Stainbrook will teach here during the first term of summer school and after that time will go to points in south Texas collecting fossils for the use of the geology department and also for the museum at the college. Mr. Stainbrook will perhaps visit in eastern states for a few weeks also.

McKay Granted Leave. J. Weiborn McKay has been granted a leave of absence next year in order that he may study in the University of California, taking courses leading to a Ph.D. degree. He will spend the major portion of the summer at his home of Royston.

M. F. Landwer will be engaged at the college for the first six weeks. He expects to spend the remainder of the summer in western states, having no definite line of travel.

A. F. Moursun, Jr., will visit in Austin and other points in south Texas.

Dr. E. F. George, head of the physics department, states that he has no definite plans for the summer.

Geo. A. Lyle and Jas. G. Allen will study in the University of Texas.

H. C. Pender will go to George Washington University in the District of Columbia where he will pursue extensive courses in government.

Oligarchy is a form of government in which the power of government is in the hands of the few.

The Tax Driver. I use Champion Spark Plugs because they help to make my service more dependable.

Champion is the better spark plug because it has an exclusive silicate insulator specially treated to withstand the much higher temperatures of the modern high-compression engine. Also a new patented solid copper gasket-seal that remains absolutely gas-tight under high compression. Special analysis electrodes which assure a fixed spark-gap under all driving conditions.

WILLYS-KNIGHT

GREAT SIX SEDAN \$1995

More than ever the leader in quality car values

Having long held front rank with America's most luxurious cars, the Willys-Knight Great Six is now advanced and perfected to a degree of superiority which few automobiles ever attain.

Low, sweeping lines are beautifully expressive of the most

modern tendencies in body design. Perfect symmetry obtains throughout, from the tapering, aristocratic hood to the smoothly curving back. Many new colors offer a wide selection of exquisite blendings.

Interiors are spacious, luxuriously upholstered and tastefully

appointed, embodying many exquisite refinements of detail which result in true distinction.

Drive the Great Six, and you'll thrill to performance such as you have never known before—a smooth, unflinching flow of power, silently and effortlessly delivered.

High compression with any gas. Engine grows smoother with use.

In the power Willys-Knight engine, two sliding metal sleeves in each cylinder combine with the spherical cylinder head to form a perfectly sealed combustion chamber. This head directs the full force of the explosion straight downward against the piston, making the most efficient use of the highly compressed gas.

As a result, the Willys-Knight engine gives high uniform compression—maximum power with any gas. And the Willys-Knight is the only type of automobile power plant that constantly keeps growing even smoother and quieter with use.

Willys-Knight Sixes from \$995 to \$2395. Prices f. o. b. factory and specifications subject to change without notice. Willys-Overland, Inc., Toledo, Ohio.

STANDARD SIX COACH \$995

The new Standard Six is the climax of fourteen years' effort—a car maintaining all of Willys-Knight's quality supremacy, at the lowest price in history! Willys-Knight's many superior advantages are now brought within easy reach of thousands of added buyers.

SPECIAL SIX SEDAN \$1495

Always popular with experienced motorists, the Willys-Knight Special Six is now still further advanced and distinguished by such modern features as full crown fenders, window reveals, steel-rimmed roof and beautiful new color options. Truly one of the year's outstanding values.

down payment, including freight, insurance, and taxes. Your dealer can help apply at approval value.

TWO extra cylinders at no extra cost—and with those extra cylinders you get extra power, extra smoothness, extra speed and extra satisfaction with every mile of travel.

It's a faster, smoother, more modern automobile, and it's built to stand the gaff.

It's more economical of gas than any six of anywhere near its power.

It's full size and full tread, with abundant room for five passengers.

It's a genuine Marmon, and that means extra style and extra luxuriousness as well as extra dependability and long life.

PROSPECTIVE WHITE HOUSE HOSTESSES INTRODUCING MRS. JIM REED

Washington Finds Senator And Wife
Ideal Companions.

BY ALLENE SUMNER
WASHINGTON, May 25.—Mrs. "Jim" Reed is as much of a dramatic personality as her fire-eating husband, which is saying a lot. Mrs. Reed can make "Jim" come home to dinner on time. Mrs. Reed can make "Jim" stop talking when nobody else can. Mrs. Reed reels in her own copper wire with a 12-pound trout quivering on the end, and won't let "Jim" help a sock. As someone once put it, "Mrs. Reed is the one person able to be Jim Reed's wife and not be flattened out by the job."

When she gives a luncheon or dinner for officialdom, however, it is perfectly done, they say—entirely on her own. "Mrs. Reed is not at all impressed by the official social whirl and indulges in only those official social occasions which are almost obligatory."

A Charming Hostess
When she gives a luncheon or dinner for officialdom, however, it is perfectly done, they say—entirely on her own. "Mrs. Reed is not at all impressed by the official social whirl and indulges in only those official social occasions which are almost obligatory."

MRS. JAMES A. REED

for "Tom" "specta" her here for life." Mrs. Reed fosters Tom's talents in crocheting and painting which tells history of a woman as interested in the pleasure and ambitions of those about her as in her own.

Married 46 Years
Mention Mrs. "Jim" Reed in Washington and any listener will say, "Did you ever see such hair?" The hair in question is as golden as honey, though Mrs. Reed boasts of her 46 years' marriage to the senator.

It was the golden hair and pearly blue eyes of Lura Mansfield that started the Reed courtship back in Cedar Rapids, Ia., in 1885 when "Jim" Reed was just a successful attorney and even his best friends didn't dream that he'd be looked for the White House some years later.

"Brilliant, beautiful, companionable and dainty" are the most frequent adjectives of description thrust upon Mrs. Jim Reed. She loves bright colors, in both her house and clothes. Just now Mrs. Reed is brightening up the new homey house bought in Kansas City with cheery chintzes and drapes.

They say in Washington that the Reeds are the most perfectly companionable couple in official life. "Jim" Reed is a movie fan. Nobody knows whether Mrs. "Jim" really is or not, but she stands in line in the movie queue with "Jim" at the opening of most every new film and even they say, doesn't recall if "Jim" comes home late for dinner and explains he just dropped into a movie house on the way home from the senate.

Senator "Jim" has his library and "work shop" in the basement of the new Kansas City brick home on Cherry street. Here "Jim" putters around and Mrs. Jim lets him putter, going off to a bridge club or some party of her own which she knows would bore the senator to outbreak.

Mrs. Reed loves pretty clothes. She is said to be one of official Washington's best-dressed women. She doesn't buy just dresses and coats and hats and shoes; she buys complete costumes; a green hat means a green or beige dress, bag

Quick Shows Much Endurance In Test

Runs 62,000 Miles In Last Four Months In Testing Tires; More Than 500 Miles Averaged Per Day

PLINT, Mich., May 26 (Sp.)—The Cooper Corporation, of Findlay, O., makers of Cooper Arched Cord Tires and Cooper Long Service Batteries, comes another striking testimonial to the stamina of Buick cars. This manufacturer has a Buick master six seven-passenger sedan chassis, fitted with a special box body for hauling weights, to test its products. The Buick now used for this testing has covered 62,000 in the last four months. A. H. Johnson, advertising manager of the company, writes: "It is the latest of four Buicks similarly employed. Its predecessor was replaced only after 191,314 miles of service, delivered within a period of 12 months. Averages 500 Miles Daily

Tire testing is one of the most exacting uses to which a motor car can be put. It calls for almost constant running, at every speed, so that the performance of tires under all the various operating conditions may be checked accurately. That Buick should have stood up so well

Sunday Sermon

(Continued from page 2)

should remember that he said, "the end is not by and by." (Luke 21:9; Mk. 13:7; Matt. 24:6). Now, keeping in mind the three-fold question in the first part of the text, "When shall these things be; and what shall be the sign of thy coming, and the end of the world?" You will recognize that "The end of the world" could not come until the things which precede it come to pass.

The first stage of his coming, as already explained, might have come at any time during the Apostolic age, so far as they could know; just as it might come now, so far as we know; and the admonition to "watch and pray always that we might escape all these things that shall come to pass; and to stand before the Son of Man" is still a timely admonition.

"For no man knoweth the day and hour when the Son of Man cometh." The importance of this first stage of the coming of Christ we emphasized in our last sermon; and it was to this, many of the warnings of Jesus alluded when he urged his disciples to watch "lest coming suddenly he might find them sleeping."

We now come to study what he said about his coming with his saints and angels to execute his judgments in the earth. And Enchiridion the seventh from Adam, prophesied of these saying, "Behold the Lord cometh with ten thousand of his saints to execute judgment upon all, and to convince all that are ungodly among them, of all their ungodly deeds." (Jude 14:15).

"For if we believe that Jesus died and rose again, even so them also which sleep in Jesus will God bring with him." (I Thes. 4:14).

"To the end he may establish your hearts unblamable in holiness before God, even our Father at the coming of our Lord Jesus Christ with all his saints." I Thes. 3:13.

It is beyond question that our Lord will bring his saints with him when he comes again to earth. The scriptures quoted show this to be a fact. Other scriptures to the same effect could be given, but these are to the point and affirm it as a fact.

When Jesus comes to earth again it will be in great majesty and power.

"And to you who are troubled rest with us, when the Lord Jesus shall be revealed from heaven with his mighty angels, in flaming fire taking vengeance on them that know not God, and that obey not

Early Days

(Continued from Page 2)

each pond a lake of tears.

Long and faithful did be, the lover of liberty, struggle for his constitutional rights, dreading death not half so much as surrender. But there is a limit to all human power. At last his noble chieftain, the knightly Lee, exhausted by forced marches and daily engagements, sheathed the sword which had gleamed so often above the brave in the tragedy of battle and his brave followers in obedience to their leader's command, packed their blackened guns and buried their torn and bloodstained battle flags beneath the sands of time to be unfurled no more.

This man turned his face homeward, inspired only by the thought that no questions is ever settled until settled right. When he reached that home he left so prosperous and beautiful, he finds his house burned down, his fields laid in waste, and his slaves set free. This dauntless hero with an iron will does not fall a victim to despondency for one moment, but, unaided, and unopposed, he rebuilds the fence about his farm and converts the crimson of battle grounds into a golden field of waving green.

After a few years in the state of his birth and having heard of the great state of Texas, he determined to learn of its advantages by actual observation. Thus determined he left for Texas in a two-horse wagon in 1871, accompanied by his aged father and brother. In his travels he passed through Dallas, then a small village and finally locating at Alvarado, Johnson county.

After a few years' residence in that county he decided to explore the South Plains of Texas, landing in Lubbock county at then what was called North Lubbock, on Thanksgiving day in November, 1880, and like the Pilgrims at Plymouth Rock, he and his family profoundly thanked God, the giver of every perfect gift and who holds in his hands the destiny of nations, and that ours is a nation of civil liberty, tolerance and peace with all mankind; a nation whose broad flag is the freeman's shield whose great patriotic heart vibrates with Christian sympathy and charity for the destitute and helpless of every land.

He was thankful that he had located in a county in Texas, whose products when fully developed, would be sufficient to feed and clothe the entire human race. A county mighty in fertility and unrivaled in production. A county whose breeze sweeps softly over dell and plains to kiss the golden sun and shower in its voyage of life and fruitage in this virgin wonder country.

He was so thankful, and so impressed with the surroundings, that he was fully anchored in Lubbock county, and had faith in her destiny assured of its coming bright day, when he knew then in the not far distant day, when the rose, the vine and watermelon would decorate the prairie vista into happy fruitful homes, while the sun, moon and stars gave witness to the thanks giving unto him who rewardeth in the end every duty and deed rightfully done.

Within a few weeks after his arrival in Lubbock, W. E. Rayner, F. E. Wheelock and others settled the county site question, deciding on the present location.

The Broadway hotel, which stands on the corner of Broadway and Avenue H, was at that time located near the center of the section immediately east of the Country club some three miles north of the present city.

When the county site question was settled, the hotel was among the first houses to be moved. "Uncle Johnny," as he is familiarly known, assisted in its moving and when the winter came to Lubbock in 1886, he and his family, consisting of wife and three sons, W. C. E. B. and J. O. Green, were operating the hotel in conjunction with a livery barn, on the southeast quarter of the block, south across the alley from the present site of the Broadway hotel. The Nicoletts as it was known at that time, had the reputation of being the best hotel building and the best managed on the Plains. They were hospitable and entertaining and the table could not be surpassed and the large heating stove in the lobby was heated during the winter months with corn grown in the county. Of the novel features of the hotel was a large bell which was erected on a post in the back yard, and which announced that the sumptuous meals were ready to be devoured.

"Uncle Johnny," who he has voted at every election held in the county, beginning with the organization on March 10, 1891. He had a part in the development of the county and city in which he always took much interest. He celebrated his 83rd birthday on April 19 and had many friends and relatives with him, who wished him a dozen more years to enjoy the results of his many years of pioneering in the county of his adoption.

(To Be Continued)

By Blosser

When Jesus ascended to heaven while his disciples beheld him, a cloud received him out of their sight; and the angels said that he shall come in like manner as they had seen him go into heaven.

There was no mourning then. It was then with a profound ecstasy and amazement that they saw him ascend into the clouds that received him out of their sight. Why this mourning now?

These disciples that say him go into heaven will be with him as co-regents to judge the world (I Cor. 6:2; Psa. 149:5-9).

Please note "this HONOR have all the saints"; and those who behold him when he comes again "in flaming fire taking vengeance on them." That obey not the gospel of our Lord Jesus Christ will have reason to mourn.

Those who "received not the love of the truth that they might be saved," (2 Thes. 2:8-12) be yielded obedience to the Lawless one (I. v.) whose coming is after the working of Satan, with all power and signs and lying wonders, and with all deceivableness of unrighteousness in them that perish; "will with this anti-Christ meet avenging justice for the latter shall be destroyed with the brightness of Christ's coming." (2 Thes. 2:8-10); and his followers will probably cry out, "The great day of his wrath is come, and who shall be able to stand?" when they see the Son of Man coming in power and great glory. But will NOT be so with the saints for they shall share in the glory and honor of the King, Himself, who said, "Ye are they which have continued with me in my temptations, and I appoint unto you a kingdom as my Father hath appointed unto me; that ye may eat and drink at my table in my kingdom, and sit on thrones judging the 12 tribes of Israel" (Luke 22:28-30). Of course, we know that this he said to his disciples while he was here in the flesh, but the same promise is made to all who share his suffering. "If we suffer with him we shall also reign with him" (2 Tim. 2:12).

It has already been observed that no one can know the day nor hour of his coming again, and that the subject has become very unpopular because of certain fanatical teachers fixing a day for the second coming of Christ in contradiction to what our Saviour said was not for us to know: "It might be asked, however, 'Did Christ give any signs by which his people might know that the time was near at hand when such signs were in evidence?'"

Let me say again that by no means of comparison or calculation can we determine the "day and hour" that will indicate its nearness, as our Lord gave them in His Word.

Daniel the prophet had some wonderful revelations of things near the end-time, among which was that "there shall be a time of trouble such as there never was since there was a nation, even to that same time; and at that time thy people shall be delivered, every one that shall be found written in the book; But thou, O Daniel, shut up the words and seal the book, even to the time of the end. Many shall run, to and from, and knowledge shall be increased." This last clause is having a wonderful fulfillment in modern times, and is some indication that the time is near; but it is far from fixing a date for the coming of Christ.

Jesus said that "Jerusalem shall be trodden down of the Gentiles, until the times of the Gentiles be fulfilled." Luke 21:24.

The holy city is still trodden down of the Gentiles, and how long it may remain so is unknown to man; but there are some movements indicating the time may be near when Jerusalem may be restored to the Jews.

Christ and all the inspired apostles speak of a great Apostasy before the coming of Christ, but something of this occurred in every period of his church's history.

"This gospel of the Kingdom shall be preached in all the world, or a witness unto all nations, and then shall the end come," but just how this is to be done, or whether or not in some sense this has not already been done is hard for us to know. St. John saw an angel flying in mid-heaven "having the everlasting gospel to preach." I am sure it is the part of wisdom for us to be always ready, "for, in an hour as ye think not, the Son of Man cometh."

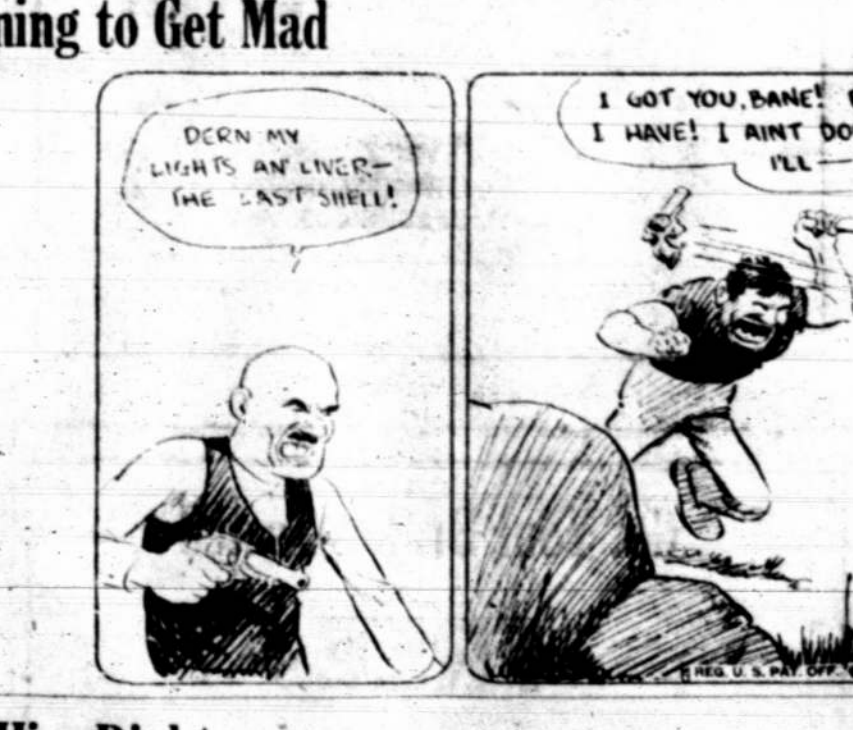

Some have attempted to visualize the judgment and reign of Christ on earth, but I am sure such attempts are vain, and lead into error for at best we can "see only through a glass, darkly," now, but the great facts that Christ has revealed about his coming again are ours, and we should treat them with becoming seriousness.

One question remains to be disposed of, and that is, "Is the coming of Christ to be premillennial, or post-millennial?" We shall attempt to answer that in our next sermon.

R. F. DUNN.

REAL HEN FRUIT

MIDDLETON, N. Y.—A giant egg laid by a hen owned by William Dickerson of Thompson Ridge is being exhibited by the Dairywomen's League here. It is three and a half inches long and two and one-half inches across.

GIRL DEFIES DAD'S DIGNITY AS JUDGE

CLEVELAND—A temporary injunction was issued the other day by Common Pleas Judge Frederick P. Walther, barring his daughter, Marcia, 3, from his court room. It came as a result of the young lady's total disregard of his honor's dignity.

Marcia had entered the court room with her mother, Mrs. Walther left the youngster to phone from the judge's private office.

Quick to take advantage of the unusual liberty, Marcia proceeded to make life pleasant for everyone in the room but her father. She jumped on jurors' laps, played hide and seek and otherwise interrupted the course of justice. When a recess was announced from the bench, Marcia was taken in custody, charged with contempt of court, and sentenced to go to bed two hours earlier than usual.

Marmon Motors Abolish Use Of Billboards In Their Advertising; Co-operating With Club Women

Move Is Made To Preserve Rural and Scenic Land Scapes Over Nation; News Papers Are Better Media

INDIANAPOLIS, IND., May 26.—(Sp)—Another automobile manufacturer, the Marmon Motor Car Company of Indianapolis, through its vice-president and general manager, E. L. Purdy, has added its endorsement to the campaign launched by the state division of the General Federation of Women's Clubs to save the rural landscapes of America by restricting billboard advertising to commercial centers.

In explanation of his attitude, Mr. Purdy pointed out the fact that the commercialization of our highways and the exploitation of the scenic beauties of the country had overstepped all bounds of propriety and the time had come to call a halt.

Rural Landscapes Asset. "Every progressive automobile manufacturer," said Mr. Purdy, "can appreciate the fact that our rural landscapes are one of our greatest assets. More than 40,000,000 motorists this year are planning to invest some three or four billions of dollars in fresh air and scenery, and if their pleasure is to be marred by a succession of unsightly billboards the popularity of touring will fall off.

Instead of defacing our highways we should do all in our power to enhance their beauty and thus add to the enjoyment of touring. The American landscapes are the common property of all, and it is as presumptuous on the part of outdoor advertisers to cheapen them with blatant signs as it would be to pollute the air or dim the sunlight.

Highways Are Motor Sluts. "I am told that the use of last year's five-year-old outdoor advertising has increased in volume more than 3,000 per cent, and I can well believe that statement. Even to the casual observer it is apparent that our highways have become motor sluts.

"The natural beauty of America is not the least important of her resources, and is an asset both commercially and spiritually. Yet, as rapidly as we build new highways, opening up new and attractive vistas, the ugly billboard takes up a strategic position and obscures the view. It not infrequently happens, moreover, that these signboards are an accident hazard, especially when erected along the approach of a dangerous grade crossing.

The campaign as carried on by the women's clubs, I understand, is not directed against outdoor advertising as a whole, but seeks only to restrict such advertising to districts where it is appropriate. It can be said for the interests controlling these billboards that they have made many improvements in the appearance of their outdoor displays, but apparently are unwilling to surrender without a fight their purely American privilege of marred the face of nature.

Newspapers Better Media. "While I believe the newspapers and magazines offer a better media for advertising than the billboards, I will concede that outdoor advertising has its economical value, but must be relegated to its proper place. If we were to visit an art gallery or a museum we would be offended if reminded everywhere of the virtues of some breakfast food or a soap.

"Similarly, the motorist who goes out to enjoy nature and the beauties of the countryside is entitled to resent it when such breakfast foods and soaps, not to mention other merchandise, intrude upon him at every turn. One of the pleasures of touring is to get away from all that sort of thing.

"We sing 'America, the Beautiful' and we ought to live up to the sentiment. For these reasons I have been glad to pledge my own support to the campaign for more attractive highways. I can see no objection in allowing any one group to exploit for its own profit a natural resource that belongs to all, and the advertiser who does so is robbing the motorist of pleasure to which he is rightly entitled."

Output per worker has increased 36 per cent in iron and steel, 172 per cent in automobiles; 27 per cent in meat packing and 40 per cent flour milling since 1914.

How's She Hittin'?

BY ISRAEL KLEIN
NEA Science Editor

By ISRAEL KLEIN
Science Editor, NEA Service

The interest and boast of motorists lies most prominently in the mileage obtained for each gallon of gasoline.

But it isn't the motor alone that has to account for economic fuel consumption. The matter of driving has almost as important a part to play.

On a long trip the man who keeps to a steady pace of about 30 or 35 miles an hour will be certain of the most efficient fuel consumption—provided, of course, his engine is up to snuff mechanically. Motors are designed for most economical use at this speed, and when they go slower or faster, there is waste in unburned fuel or in extra power to overcome wind resistance.

Ability to gauge distances to slow down in high long enough to allow for pickup, also in high, when a signal is about to change from red to green, to avoid shifting gears, to use the brakes advisedly, to maintain a steady flow of fuel are important considerations in the effort to raise a car's mileage to the maximum.

All this depends on the driver. On the part of the motor, the carburetor has to be adjusted properly for summer driving, the spark plugs have to be clean and the points properly set, the timing has to be exact, the valves should seat perfectly, the pistons should be tight and permit no leak, the battery must be well charged, the cooling system must be in good condition, although the engine must be at efficient heat and the brakes mustn't drag.

Every moving part of the car must be well lubricated to permit easy action, and the oil gauge should show a steady flow of oil in the crankcase.

Under such ideal conditions the compression of the engine will be at its most efficient point in all cylinders and will therefore make the best use of all the fuel provided. Compression is lost mostly through leaky pistons, valves or spark plugs. Therefore all these must be tight and in the best condition.

Even the mileage might be reduced if there is lack of cooperation from the driver. The greater the speed of the car the greater the wind resistance and the more the engine has to work to resist that extra force. Therefore, the speed of 30 to 35 miles an hour is recommended as most economical.

The driver can help the motor additionally by coasting when going down hill and on approaching a heavy grade, obtaining sufficient momentum to carry him up all the way if possible, in order not to be obliged to shift to a lower gear. Use of lower gear reduces the mileage accordingly, for the engine has to run much faster in low than in high gear.

There is no necessity for using the choke in warm weather, even in starting. Use of this valve means sometimes a 100 per cent increase in fuel consumption for the time the choke is applied.

The spark also should not be retarded. Retarding the spark leaves no time for the entire mixture to burn or explode, and therefore reduces power and mileage. More gas has to be fed into the cylinders to make up for a retarded spark.

Oakland Service Men 'Dressed Up'

Uniforms Made For 15,000 Oakland-Pontiac Service Specialists; Officers And Privates Distinguished

PONTIAC, Mich., May 26 (Sp)—An army of something more than 15,000 men, representing the service station personnel of the Oakland Motor company throughout the United States, is being outfitted in a standard uniform.

Soon this entire group of Oakland-Pontiac service specialists will be wearing the uniform recently adopted by the Oakland Motor Car Company.

The new service garb includes one uniform for the "privates" of Oakland's shop army and another for the "officers." The former will wear overalls of special two-tone tweed—powder blue with trim on pockets and collar of dark navy blue.

The "officers," or floor men will wear a long coat of similar color and materials. Both the mechanics and the floor men will wear hats to match their uniforms.

According to E. A. Armstrong, service manager for the Oakland Motor Car company, the decision to uniform his nation-wide organization is the latest development in an unceasing campaign to raise still further the standards of Oakland-Pontiac service.

New Tire Put Out By Miller Rubber New Deluxe, Six-Ply, Heavy Duty, Passenger, Balloon Tire Is Built For Superlative Tire Luxury

AKRON, O., May 26 (Sp)—Following several months of laboratory and practical road tests, the Miller Rubber company announces an addition to its line in new deluxe, six-ply, heavy duty, passenger, balloon tire, designed for motorists who demand the superlative in tire luxury.

Built to supply the demand of more luxurious tires on today's speedier cars, Miller engineers claim that the new six ply tire offers the relentless punishment of road safety and economy. The carcass is built of six plies of high test, long staple cotton, cord with extra heavy cushioning of the highest grade rubber between each ply. Tread improvement includes two running strips near the edges of the road shaped tread. In the center, between the running strips, the road gripping design extends well down on the sidewalls.

For Hard Driving. Miller tire engineers claim that the new tire will give the hard driver the motorist the service that he demands. It is produced, they claim, to meet the conditions as sustained high speed, tire skidding stops at traffic lights or in emergencies and tire slipping starts in response to changing traffic lights. It is supplied to meet the requirements of the speedier and more expensive cars, but it is said that it offers true tire economy to the average motorist who demands less of his tires.

Automobile Looms As Competitor To Railroad Systems

Entire Nation Benefits As Travel On Highways Gets Thicker And Thicker As Years Roll By

WASHINGTON, May 26.—To the railroads, the automobile has become a serious competitor. To more than 40,000 communities in the United States it has proved a substantial benefactor.

Authority for this statement lies in the report of the Interstate Commerce Commission on its investigation of motor bus and truck operation.

Of about 125,000 communities in the United States, the report points out, 45,000 have no rail service. It is to most of these 45,000 towns that the automobile has proved a boon.

"Motor transportation," comments the I. C. C., "has given to a substantial portion of the country's population transportation facilities which have enabled them to contribute in greater measure to production and to a sharing in earnings and to secure the benefits of increased production and earnings in higher wage levels and better standards of living.

"In Indiana," the report goes on, to cite an example, "there are 600 towns and villages which have no direct rail service. Of these, 500 are served by motor truck lines and 200 have regular bus service. The California 850 towns rely entirely on motor transportation."

New farming areas have been opened with the advent of good roads and motor transportation, adds the commission, and motor trucks have brought their products into city markets which formerly they had no way of reaching.

Jobbers in farm products at Minneapolis report an increase of 75 per cent in their business, due to quick motor truck service, and in the last seven years the same business around Flint, Mich., increased 330 per cent, reports the commission.

While the I. C. C. sticks to its contention that steam railroads will always remain the backbone of national transportation, it points to their passenger service, although motor trucking has not as yet made an appreciable dent in the railroad freight business.

In 1926, for instance, the freight-carrying capacity of the railroads was 11,450,000 tons, while that of motor trucks was 2,086,000 tons. But in passenger service the potential carrying capacity of the railroads was 6,000,000 against more than 70,000,000 for private automobiles and buses.

Regarding the latter, the I. C. C. reports:

"The number of passengers carried by the Class 1 steam railroads in the United States decreased from 1,234,862,048 in 1920 to 880,343,019 in 1926, or 30.33 per cent. During the same period the passenger revenues decreased from \$1,285,613,273 to \$1,011,822,048, or 21.03 per cent."

In the case of the New York, New Haven and Hartford railroad the loss of revenue was 40 per cent in this period, the I. C. C. adds. In Arkansas, railroad passenger traffic in 1925 was 59 per cent of what it was in 1920; in Kansas, 57 per cent; Louisiana, 57 per cent; Oklahoma, 50 per cent; and Texas, 52 per cent.

"Practically the only reason assigned for the loss of passenger traffic," the I. C. C. concludes, "is the private automobile and the motor bus."

CALCUTTA—The Indian nationalist, Gurdit Singh, may blame cleanliness for his present plight. He was arrested here while taking a bath, following a trip to Peru. He was charged with sedition and inciting to class hatred, in connection with a series of speeches delivered in this city prior to his visit to Peru.

1928 Chevrolets Set New Record

More Than Half Million Of Cars Now On The Road, Says Report of Chevrolet Sales Manager

DETROIT, Mich., May 26 (Sp)—More than half a million new 1928 Chevrolets were on the road by the end of the fourth week in May, J. Klinger, General Sales Manager of the Chevrolet Motor company, announced here today.

This establishes a high record figure for the public acceptance of a new model, since never before in the history of the industry has such a volume of new models been delivered in a similar short space of time, Mr. Klinger pointed out.

Expect a Million This Year. In view of this new record, and the fact that the peak selling season has just got under way, the entire Chevrolet organization felt unbounded enthusiasm over the prospect that this year's performance will comfortably surpass the 1927 record, and that more than a million new cars and trucks will be in operation on the highways and

boulevards of the United States along before the close of 1928.

Reports of retail deliveries for the first four months this year, plus the estimated figure for four weeks in May, indicate that the domestic dealer organization, with General Motors of Canada and General Motors Export, delivered approximately 525,000 Chevrolets to date, Mr. Klinger said.

Every month showed a consistent gain over the corresponding period last year, according to Mr. Klinger, the average per month gain being above 20,000 units, with the result that deliveries to consumers the first four months of 1928 were nearly on a par with deliveries for the first five months last year.

NEVER KNOWN TO FAIL. TROY, Pa.—After losing his unemployment maid, via matrimony, Hal Carpenter of this city resorted to advertising as a means to secure another. The ad ran: "GIRL WANTED: The most successful matrimonial agency in northern Pennsylvania wants a good girl for general house work. Two in family, washing done out. Marriage certificate guaranteed in reasonable time. All graduates from home—now happily married to fine men. Delays are dangerous, regrets are vain."

Growing fruit and vegetables under glass has become a great industry around Worthing, on south coast of England. There are 44 miles of greenhouses in the district, and among the crops cultivated are figs, peaches, tomatoes, cucumbers, mushrooms, flowers.

Girls, Provide a Foundation for Your Future Happiness. Port Arthur, Texas.—"When I was a girl my health got very poor, and I became an invalid. Some advised me to take Pare's Oil of Medical Oils and the 'Fav' Prescription. I got three bottles each, and I then alternated between the bottles and I was feeling and looking like a different girl. I have enjoyed my good health ever since."—Mrs. J. Taylor, 520 New Orleans Ave., Dr. Pare's Famous Family Remedies are sold at all drug stores, tablets, 65 cts., or liquid, 1.00. Bottles \$1.35.

And It's Just As Natural Over Long Distances!

IN your personal contacts with people you don't use the sign language or pass notes back and forth. To talk is natural. Any other method seems ridiculous.

When you want to communicate with someone in your own community, you turn naturally to the telephone.

When you want to communicate with someone in a distant town, you can still use the natural method,—call them by long distance and talk to them. Nothing is as expressive as the voice in communicating thought.

Even to distant points rates are low. You can talk for three minutes as far as 500 miles for only \$2.40.
