Today in Society

FRIDAY

Mrs. Williams are entertaining at bridge at 3 o'clock in the afternoon, honoring Misses Eugenia Marshall and Beattie Teague, at 1901 18th street.

The Business and Professional Women's club is to meet at 7:30 o'clock in the evening at Mrs. George Turner's studio with Mrs. Josephine Hal-langer and Miss Beulah Dixon as host-esses.

Mr. and Mrs. W. A. Bacon will en-tertain the Double Dozen club in the evening at their home, 1802 Broadway.

Mrs. A. H. Travis, 1604 Avenue Q, will be hostess to the Friday Needle club at 2 o'clock in the afternoon with a Christmas party.

Mrs. Clyde F. Elkins, 1310 Avenue Q, will be hostess to members of the A. A. U. W., who are interested in forming a welfare study circle, at 4 o'clock in the afternoon.

Sunday School Class Studies World Problems

The Bible Study class, of the First Baptist church, is to begin the study of present day world problems in the light of Daniel's prophecies next Sunday morning at 9:30 o'clock. It was announced yesterday.

A higher proportion of educated women in China take up careers after marriage than in the United States.

—Germaine Fares Forth to Buy a Trou-seau—But Not Her Own

Left is a brown wool coat with collar and cuffs of brown marlin. The evening gown is of delicate pink chiffon trimmed with sequins.

PARIS, France, Dec. 9 — My Dear Cousin: If I have seemed to neglect you, it is because my cousin Margot has been in Paris shopping for her trousseau, and I have aided and abetted her at every hand.

Margot's father lost a great deal of money in the war, and the large fortune that once should have been here is practically dissipated, so for this great event in her life she is buying carefully and restrainedly.

But we did not let that prevent us from having a wonderful time shopping. And when I saw the outfit we got together with so little actual cash in hand I came to the conclusion that a limited income is a great safeguard.

We bought nothing until we were absolutely sure what we had was the very best that could be had for the money. And we have equipped her very adequately. I shall go down to the wedding, which is set for next month.

I'm sending you a picture of a coat we found which is quite too lovely. It is of brown, wool with horizontal bands that give the effect of deep tucks and large collar and cuffs of brown marlin. If Margot were not so slender as a reed, this coat might be trying, but on her it is charming.

Among several evening costumes, I liked best the one we photographed for you. It is of delicate pink chiffon trimmed with sequins arranged in a very simple design, but very effective-ly too.

The tendency here is more away from plain materials unless they are given embroidery or glitter so that they seem bright and gay. Never have I seen such laces and gold and silver boucans as the couturiers are exploit-ing. And as if that were not enough they are encrusted with diamonds, pearls and colored stones so that every illusion of splendor and richness is profound.

Youth and Colleges of Mrs. Riggs Charming Today Defended by President Horn

The college of today is preparing young people for life better than the institutions of a generation ago pre-pared young people, President Paul W. Horn, of the Tech, said yesterday afternoon in addressing a meeting of 47 Parent-Teachers associations, of the city at the high school auditorium the members having gathered follow-ing invitations from the George M. Hunt school organization. M. H. Dun-can, superintendent of city schools, presided at the meeting. Doctor Horn spoke in defense of the present-day youth, and education.

Kindergarten pupils of Miss Mattie Beth Harper, of the Hunt school, sang songs, gave a folk play and the or-chestra group played several num-bers as the program for the afternoon pre-ceding the talk. Seven young women of the Tech sang Christmas carols and other songs at the close. They were accompanied by Prof. W. R. Wag-horne.

Society Briefs

Camp fire girls are requested to bring articles for their bazaar to the Mister-Gamel store early Saturday morning. It was announced last evening.

No meeting of the Child Study club was held Wednesday afternoon as so many of the members have illness in their homes.

The regular monthly business ses-sion of all B. Y. P. U. organizations.

Mrs. Riggs Charming Hostess to Club and Guests

Mrs. K. L. Riggs was charming hostess to the Cosmopolitan club Thursday afternoon at her home, 1801 12th street. Christmas bells and wreaths lent a festive air to the home and the colors of red and green were repeated in the tallies, score pads and refreshments. Bride was played with Mrs. W. T. Raybon scoring high among the guests. Mrs. Earl Moore making high score for the members and Mrs. R. T. Campbell scoring low. Guests for the party were Mesdames E. J. Parsons, H. D. Woods, H. L. Allen, Vernon Brown, Amos Howard, Joe Welch, W. S. Moss, Capt. Wilson, R. T. Campbell, R. B. Hutchinson, Morgan Shelton, N. L. Peters, Clayton Gammill, W. L. Baugh, J. T. Miller and W. T. Raybon.

Club members who attended were Mesdames H. B. Hawkins, Earl Moore, W. H. Parkinson, J. R. Dick-son, E. E. Swindell, Howard Logan, Joe Logan and E. R. Allen.

The Woman's Day

"BLUE IS FOR BOYS" Continued discussion of science's near solution of how the sex of a child may be controlled before birth, arouses interesting speculation. And since any speculation only becomes inter-esting when it becomes personal, let us personalize it now. Listen, parents, you who are fixing up that half-bush-ed peach basket with satinettes for a bachelorette, you can have a boy or girl, which you'll have?

If you'll average the choice stuns you. In the first place, you as a member of the human species, are not ac-tustomed to being forced to make such a choice. Second, it's such a choice! Suppose you choose a "boy" and he turns out to be a burglar. It'll be jus-tice on you for making so bold as to choose, and if you say "girl," and the girl "turns out wrong," there you are again! Here's wagering that prove science what it will, things will be just about where they were before, unless women get rumors of another war—then, if they are canny, they'll be all girls!

"STYLE ALL THE WHILE!" Here's a rather new clever defini-tion of style. "Style is that feature of a dress which enables you to sell it to a woman because she thinks it will enable her to sell herself!"

"BATHING BEAUTY TOO OLD" Is it because the silver-haired Mrs. Samuel Burleigh Milton, erstwhile member in good standing of the United Daughters of the Confederacy, has curves and not anatomical slats that she is no longer a member in good standing? The story goes like this. The lady in question, member of said august body, won five cups for swim-ming and life-saving. That was all right, but she had her "picture took." That would have been okay, too, if she had worn, as all good U. C.'s should wear under such circumstances, a neat, but not gaudy, not-to-be-seen-and-too-short dress. But Mrs. Milton thought that since she would pose with her cups it would be erratic silliness to wear anything but the bathing suit which helped her win the cups.

"GRANDMA WANTS LUSTY LES!" Then, it seems, the war broke. "Con-duct unbecoming a lady and a U. D. C." clarified past presidents of this body, who called upon the shades of their female ancestors who would no more have been photographed in a bathing suit than have eaten raw worms.

"CUTEST SIGHT EVER!" Now, I wish you could see the pic-ture. It's the cutest, prettiest thing you ever saw! Mrs. Milton has all the plumpness that wags' before, but her white hair is bobbed, and her legs beat any flapper legs I have ever seen, with the daintiest ankles imaginable! It's a refreshing change from the flood of usual bathing beauty pictures. Of course, she's right! How silly she would have looked posed beside her cups as she wore black velvet with her pearls!

"NASTY-NICE ONES!" And it certainly is too bad that any body of women can be so nasty-nice. Ideas into the minds of their daughters, trying to make them think that there's something indecent about the sight of mother in a bathing suit!

"A BOUNCING GIRL!" Here's a new profession open to women—that delicate one known as "bouncing." For the benefit of those unfamiliar with the term, be it now explained that a "bouncer" is a gen-tleman—or lady—who sits or stands on the outside of a dance floor, usually, and ejects forcibly any person whose presence seems undesirable in the house. There are bouncers for theat-ers, too, but the dance-hall bouncer is the most common member of the spe-cies. Now it seems some halls are em-ploying "lady bouncers" for the benefit of female guests whose delicate em-bellishes object to being bounced by a member of the opposite sex.

"NOTE, COLLEGE MAIDS!" I recommend to the physical edu-cation department of our colleges that they train their maids for this lofty occupation. Teachers, it seems, for which profession the majority of our college girls are trained, are a drug on the market. Thousands of college-trained teachers are out of jobs. Here's a solution. Make 'em bouncers!

LOCAL BRIEFS

Walter E. Taylor, of Levelland, was in Lubbock on business yesterday. He said that the child of a Highland man

Tulle Scarf

Very new is the long tulle evening scarf in pastel shades, loosely caught at the left shoulder with a large flower of contrasting color.

had been bitten by a prairie dog re-cently and the head of the animal was sent to Austin for examination in the Pasteur Institute, where it was re-ported that the dog had hydrophobia. This is the second prairie dog found to have the disease in the history of the institute, he said. Mr. Taylor did not remember the child's name.

W. P. Florence, of Slaton, was in Lubbock Thursday.

Ferd N. Rigney left this morning for Dallas.

N. D. Kelso, 1716 Avenue H, was dismissed from a local sanitarium yester-day after having undergone an operation several days ago.

Mr. and Mrs. H. D. Chipley left this morning for Dallas, making the trip in their car.

Home-Made Fruit Cake Is Ideal Christmas Gift

If you are racking your brain for a gift to give to some friend who has "everything," why not stop racking and go to work and make some fruit cake for her Christmas remembrance. There's an appeal about any gift made with our own hands and if these hands turn out something so tradi-tional with Christmas, so good to look upon and so delicious to feast upon, the appeal is double.

Money, time and work are ingredi-ents of fruit cake, as well as flour, eggs and sugar. If you've priced fruit cake in the shops you realize its commercial value. From the "chain stores" to the exclusive shops the price goes up. So those who patronize exclusive shops will appreciate a loaf of fruit cake in proportion.

Even if you never have attempted to bake a fruit cake, you need have no compunctions for it's one of the most comfortable to work with. It can't be light and fluffy, as we ex-pect other cakes to be, for there's so much fruit in it it just naturally has to be solid and firm. The one essen-tial for the perfect cake is moistness and to insure this quality, steam the cake. Line the pans with heavy oiled paper and there will be no hard cor-ners or edges. A tube pan is particu-larly good for fruit cake, since it permits heat to penetrate from the center as well as the edges.

Since eggs are unusually high this year, you may prefer this eggless cake recipe. The cake is delicious and should not be regarded as a makeshift. Of course, it's not as rich as the cake made with many eggs and much but-ter, but it doesn't cost as much, ei-ther.

Eggless Fruit Cake One pound fat salt pork, 2 cups boiling water, 2 cups light brown sugar, 1-1/2 cups molasses, 1 nutmeg, 2 ta-blespoons cinnamon, 1 tablespoon of cloves, 1 pound seeded raisins, 1 lb. currants, 1 pound dates, 1-2 pound cit-ron, 1-2 pound candied cherries, 2 cups chopped nut meats, 4 tablespoons strong cold coffee, 4 teaspoons baking powder, 1-2 teaspoon soda, 8 cups flour, 1 tablespoon vanilla.

Remove the rind and bits of lean meat from the salt pork. Chop fat very finely and put into a large mix-ing bowl. Pour over boiling water and let stand until cool. The boiling water will melt most of the fat pork. Add sugar and molasses. Mix and sift all but 1 cup flour. Add coffee and van-illa to first mixture. Stir well and

mix thoroughly. Turn into prepared pans and steam two hours. Bake half an hour and cool.

The raisins must be chopped, the currants cleaned, the dates stoned and chopped and the citron sliced and shredded. The nutmeg is grated.

This cake can be baked in a slow oven for two and one-half hours if steaming is inconvenient. Cover with buttered paper during the baking.

The following fruit cake is rich and black and thoroughly delicious. Thin slices of this cake are ideal to serve with tea or one of the hot fruit drinks to holiday callers.

Fruit Cake Two cups butter, 1 cup brown sugar, 10 eggs, 1 cup molasses, 1 cup grape juice or sweet cider, 4 cups flour, 1 teaspoon soda, 1 tablespoon cinnamon, 1 tablespoon allspice, 1 teaspoon cloves, 1 nutmeg, 1-4 cake chocolate, 2 pounds seeded raisins, 1 pound clean-ed currants, 1 pound citron, 1/2 pound candied cherries, 1-2 pound candied orange peel, 1-4 pound candied lemon peels, 2 1/2 cups blanched and shredded almonds, 2 tablespoons vanilla, 1-2 teaspoon salt.

Prepare fruit and almonds. If cit-ron must be sliced and shredded the task will be much easier if the fruit is warmed before trying to cut. Mince lemon and orange peels. Mix prepared fruits and sift 1 cup flour over them. Stir well with a fork. Mix and sift remaining flour with spices, salt and soda.

Cream butter and slowly beat in the sugar. Add eggs, well beaten. Mix thoroughly and add molasses, cider and vanilla. Add flour and stir until perfectly blended. Add chocolate melted over hot water. Add prepared fruit and nuts and mix well. Turn at once into deep pans and steam three hours. Bake in a slow oven for one hour after steaming.

The cherries are cut in halves and the pineapple cut in thin slices.

Pasten heavy oiled paper over the top of the cake pans to prevent mois-ture from getting into the cake dur-ing the steaming and prevent it from leaving the cake.

If fruit cake must be baked, keep the oven very "slow" and put the cake pans into a larger pan containing about an-inch of hot water.

When cake is taken from the oven, place on a clean towel on a cake cool-er or bread board. Pull cloth over pan to completely cover it. Let stand

thoroughly. Turn into prepared pans and steam two hours. Bake half an hour and cool.

The Morning Avalanche Menu for the Day

BREAKFAST — California grapes, cereal, thin cream baked hash with tomato sauce, crisp graham toast, milk, coffee.

LUNCHEON — Rice croquette with cheese sauce, head lettuce with French dressing, molasses pudding, milk, tea.

DINNER — Casserole of chicken, mashed potatoes, squash, croquettes, jellied fruit salad, cranberry sherbet, macarons, bran rolls, milk, coffee.

The molasses pudding suggested for the luncheon dessert is an unusual and delicious dessert, worthy of any occasion. It is particularly good for an "emergency" dessert. Marshmallow sauce or fluffy hard sauce can be used in place of whipped cream if cream has not been provided for whipping.

Molasses Pudding One cup molasses, 1-2 cup granu-lated sugar, 4 tablespoons melted lard, 1-2 cup hot strong coffee, 2 cups flour, 1 teaspoon soda, 1-4 teaspoon salt, 1 teaspoon ginger, 1 teaspoon cinnamon, 1-2 teaspoon cloves, 1 egg.

Combine molasses, sugar, lard and hot coffee. Mix and sift flour, salt, soda and spices and stir into first mixture. Beat until perfectly smooth and add egg beaten until very light. Turn into a deep cake pan with a chimney or dripping pan. Bake 25 minutes in a moderate oven if the dripping pan is used, or 40 minutes in a tube pan. Cut in squares and serve warm with whipped cream sweetened and flavored with vanilla.

If the tube pan is used, remove pud-ding from pan, fill cavity with whip-ped cream and cover entire pudding thickly with it.

Twenty minutes and then lift off pan. Turn cake right side up and let stand until cold. Wrap in heavy waxed paper and keep in a tight cold tin box until needed.

This rich fruit cake should be baked nearly three weeks before Christmas in order to "ripen," but the eggless cake will be very good in a week's time.

Your child will thrive on Comet Rice

PANHANDLE HISTORICAL SOCIETY WILL MARK SITE OF FAMED ABANDONED FRONTIER FORT

(Special to The Avalanche) CANYON, Tex., Dec. 9.—In carrying out its work of marking the spots of historic interest in this section of the state, the Panhandle Plains Historic Society in this week, sending Professor L. T. Sheffy and J. Everett Haley, field secretary, to look into the matter of securing the West Elliott site near Mobeetie. It is thought that this spot will be marked by the society as considerable interest attaches to it because of the fact that it was the only fort established in the Panhandle and one of the last to be maintained on the frontier as an aid in holding the Indians upon the reservations. It was established in 1875 and abandoned in the early 80's.

Castro Chicken Farm Eye-Opener for Panhandle

(Special to The Avalanche) HEREFORD, Dec. 9.—C. E. Mead, who won a string of blue ribbons at the Plains circuit poultry show here last week, has a poultry farm in Castro county, that is an eye opener for the average farmer of the Panhandle. Mr. Mead has 700 high grade Buff Orpingtons on his farm and plans for them to make him a living so that products from the farm will be net. He has 200 pens that will be put on the market soon at a fancy price.

Mead is reducing the cost of operations by using adobe for building material. He has one adobe chicken house 40x20 feet, and another house of the same dimensions made entirely of lumber. Another large adobe poultry house will be ready before spring. A 4,000 egg hatchery will be installed on this farm within the next few months, according to present plans, and Mr. Mead will specialize in the raising of fine Buff Orpingtons. He has some good milk cows and two brood sows with several shoats to make meat for the family larder. Home grown feeds will be used for the livestock and the live-at-home plan will be practiced all the year.

Here are the prizes that Mr. Mead won at the local poultry show last week: 1-2, 1st pullet; 2nd cockrel and 1st year hen.

TO PUT UP FOUR BUILDINGS IN BIG SPRING

(Special to The Avalanche) BIG SPRING, Dec. 9.—G. W. Elliott of El Paso, has just closed a deal with A. G. Hall for the Stewart hotel which includes a block of ground 100 feet square on the corner of East Third and Hunnells, consideration \$15,000. Mr. Elliott says he will build four business stores on this block before closing the deal. Mr. Elliott had applications for space in his new building. Mr. Elliott is a baker by trade, says he will install a modern bakery in a part of this new building. Work on tearing down of the old Stewart hotel will probably begin about January 1.

OLD SOLDIER DIES

CAPITAL STOCK INCREASED

NEW YORK, Dec. 9. (AP)—The National City bank of New York, the country's largest commercial banking institution, today voted to increase its capital from \$50,000,000 to \$75,000,000.

Midland Secures Big Ice Factory

(Special to The Avalanche) MIDLAND, Dec. 9.—Culminating an extensive campaign that has been waged for more than two years, Midland has secured an ice plant for its section and gives credit to the West Texas chamber of commerce, for having achieved this end.

Over 24 months ago, Paul T. Vickers secretary of the local chamber of commerce, began work for an ice factory in Midland. Since that time he has sent out reams of publicity on the matter. It was not until some weeks ago that he called upon the West Texas Chamber of Commerce to help in the movement, and it was through this channel that a contract was signed recently for the construction of a modern ice plant for Midland.

L. P. Troxel, representing the Morgan utilities, Inc., told secretary Vickers that his organization was attracted to Midland territory through material released by the publicity department of the West Texas chamber. The Morgan utilities, Inc., were granted a franchise for a light plant by Midland last month which stipulated construction of a modern ice factory for the city.

Plains Poultry Show Goes to Portales

(Special to The Avalanche) HEREFORD, Dec. 9. (AP)—Portales, N. M., was selected as the place for the 1927 Plains Circuit poultry show, at a poultrymen's banquet held here last week. The "sweet potato town" has been one of the best supporters of the Plains circuit show since its organization, aiding in a financial way, as well as sending many prize birds to the show ring.

Carl Mueller, president of the association, lives at Portales and he says that his city will put over a real show in 1927. Plans for next year's show will be laid immediately, and it is the aim right now to join the American poultry association before another year rolls around. Poultrymen of this section are elated over the bright prospect for a real poultry show at Portales next year.

FARM LAD EARNS HIS OWN SPENDING MONEY

(Special to The Avalanche) HEREFORD, Dec. 9.—Fleet Callaway is one Deaf Smith county lad who does not call on his dad for spending money. This club boy is sixteen years of age, buys all his own clothes and keeps some pocket change all the time for spending money. Fleet has a crop each year, and feeds his grains to hogs and chickens. Sixteen months ago this boy bought a pig for \$10 as a club project. He kept accurate records of the feed, and labor, and has found that he made a net profit of \$65 from his investment, and still has a gilt left. He has 20 chickens which will compose his breeding flock for the poultry in 1927.

GERMAN SHIP WRECKED

ST. PIERRE, Miquelon, Dec. 9. (AP)—The German steamer Totila is piled up a total loss on the south coast of Langlade, Captain Roper, of the French steamer Frontaria reported on docking here late today. Captain Roper sighted the Totila an hour before reaching this port. There was no sign of life aboard the stranded steamer or on land.

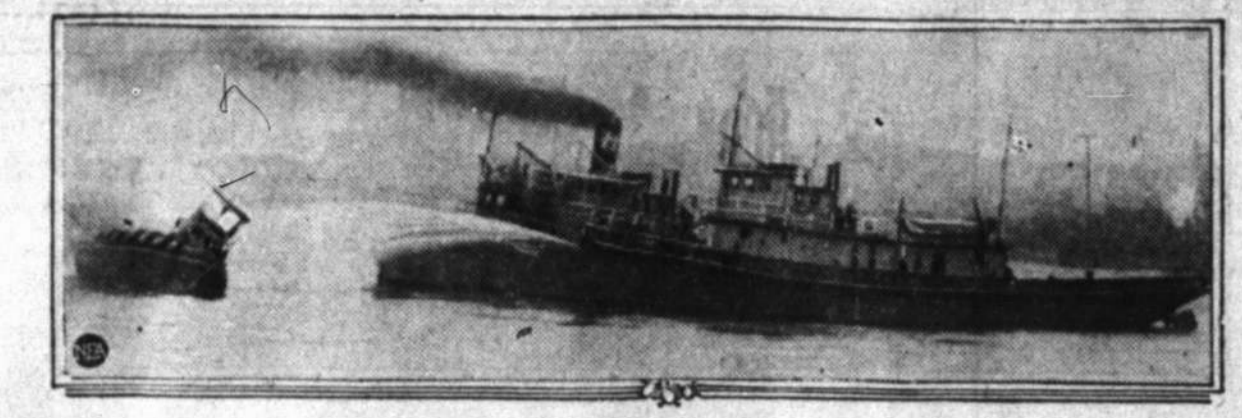

LIEUTENANT ON TRIAL

SAN ANTONIO, Dec. 9. (AP)—Lieutenant John O. Murtaugh of the twentieth infantry went on trial before a court martial here today charged with the possession of liquor and an attempt to destroy liquor seized as evidence.

NOMINATION MADE

WARRENTON, Dec. 9. (AP)—Presidential nominations today include: Member farm loan board, Lewis J. Pettijohn, Kansas.

Ten Thousand Miles Go Up in Smoke

A tin lizzy could have gone far on the petrol lost when fire destroyed this gasoline barge on the Schuylkill river at Philadelphia. One member of the crew was severely, perhaps fatally, burned and a second could not be found after fireboats finally subdued the flames.

Lubbock Water Rates Less Than Ft. Worth

Recently the city secretary, instructed to get water rates from Fort Worth, learned that Fort Worth people are paying more than is asked in this city. The Lubbock rates are more equally divided, in that the "little fellow" pays a moderate rate for his water, and the man who uses a large amount is given a lower rate.

Table with 3 columns: Amount Gallons, Fort Worth, Lubbock. Rows show rates for 2,625, 6,000, 12,000, 15,000, 20,000, 30,000, 60,000, 100,000, 300,000, and 775,000 gallons.

Lubbock citizens who use only a small amount of water pay the minimum charge of \$2 a month, but if they wish to operate a steam plant, irrigate lands or beautify their lawns the city encourages them by making special prices for large amounts.

Hereford Men to Attend Road Meet

(Special to The Avalanche) HEREFORD, Dec. 9.—Hereford will not have a chamber of commerce luncheon next Monday, and business men of this city will go a body to Clovis, N. M., for the general meeting of the Abe Highway association. Many towns along the route from Tulsa, Oklahoma to Springville, Arizona, are expected to have representatives at the meeting.

Local people are boosting good roads and petitions are now being circulated in Deaf Smith county asking for a \$1,500,000 bond election for paved roads in various parts of the county. E. W. Harrison and D. P. Ashbrook, two of the local highway committee, have already started working up a delegation for the meeting at Clovis, and these men plan to have a record attendance from here.

C. I. A. TO DEBATE

(Special to The Avalanche) DENTON, Tex., Dec. 9.—The College of Industrial Arts will debate with five other colleges during the remainder of the session, according to Grover C. Shaw, debate coach. The debating team will meet the West Texas State Teachers college in the C. I. A. auditorium, Oklahoma State college for Women, at Chickasha; Southern Methodist university at Dallas, Texas Christian university at Fort Worth and Southwestern college of Kansas will be met at C. I. A.

HEADS MUSIC TEACHERS

DENTON, Texas, Dec. 9.—William E. Jones, director of the music department of the College of Industrial Arts, was elected vice-president of the State Music Teachers association at the convention recently held in Austin.

LOSES BOTH ARMS

FARMINGTON, Mo., Dec. 9. (AP)—Dr. C. Schuttler, former president of the St. Francois county farm bureau and prominent in state and national farm organization work, suffered the loss of both of his arms Saturday when they were severed while he was operating a corn shredder. His condition tonight was considered grave.

"LONG LIVE QUEEN HEN," CRIES SLATON FARMER, WHO PROFITS MORE FROM EGGS THAN FROM COTTON

(Special to The Avalanche) SLATON, Dec. 9.—If "King Cotton" must be careless in dealing with his subjects, as he has been this year, then no sympathy should be accorded him when "Queen Hen" perpetrates a "bloodless revolution", dethroning the "king" and supplanting him in power. Such is the opinion of A. J. Kahlich, a farmer living just west of this city. Kahlich grows cotton on his farm, but he also tends a good sized flock of hens. To the Slaton markets he brought two boxes of cotton and seven dozen and one-half dozen eggs on the same day. The cotton was ginned and sold, and the ginning at picking paid for, after which Kahlich saw he had realized \$8.19 net return on the transaction. To the produce house he then carried his eggs, selling them for \$9.52, a margin of \$1.32 over the proceeds of the two boxes of cotton.

LINER CRASHES AT SHANGHAI

SHANGHAI, Dec. 9. (AP)—The Dollar liner President McKinley crashed into a wharf here today while clearing for Hong Kong, overturning and wrecking several junks and sampans. It is believed a dozen coolies were drowned. The liner was only slightly damaged.

LEOPOLD BROKE

ST. PIERRE, Miquelon, Dec. 9. (AP)—Last of the royal governors of Lippe-Detmold, is broke, although he is one of the biggest landowners in Germany. Recently he wanted to sue Dr. Thyssen for non-payment of \$50,000 for a tract of land he had sold, but did not have the necessary \$500 to post to cover court costs.

Toyland is Open

Bring the Children Down to Myrick's

A visit to Toyland will be a pleasant revelation of wonderful Gifts for the children as well as the grown-ups. Here are displayed thousands of lovely gifts for every member of the family and best of all they are priced well within reach of Santa Claus' pocket-book.

To enumerate the Toys and Gifts in this store would take the space of this advertisement. We sincerely hope that you will come and make a personal inspection.

Myrick Hdwe. Co.

If It's Christmas Toys We Have Them

This is one of the swift Italian seaplanes which was matched against the American naval Divers in the Schneider cup races at Hampton Roads, Va. Major de Bernardi, of the Italian army, is seen climbing from the fuselage at the moment of take-off over the racing course.

THE SUPREME BEING—"O Lord, there is none like Thee, neither is there any God beside Thee, according to all that we have heard with our ears." 1 Chron. 17:20.

LET US NOT INVITE THE FIRE DEMON TO MAR OUR CHRISTMAS JOYS

May we remind our readers that the approaching Christmas season can sadden as well as gladden the heart, which shall it do is a decision that rests with every one to make for himself; for the conversion of Christmas from a occasion of joy to one of sorrow is most often brought about by fire, and fire of a kind that is traceable chiefly to that great American Nemesis, Carelessness.

The Department conducted experiments on 48 existing routes in widely separated sections, with a view to developing and encouraging the transportation of food products directly from producers to consumers or vendors, and found that the need or demand was very limited and did not justify a continuance of the experiment.

The postal department is a pioneer unequalled by any other public utility. In the sparsely settled portions of the county, there is some means of receiving mail. Long before the railroads could see clear to build into this country, the United States Postal Department had services throughout this country.

THE SOUTH WILL BE BENEFITTED

The Sentinel of Winston-Salem, N. C., in reviewing some of the figures given in the Manufacturers Record regarding the industrial development of the South in connection with the low price of cotton, repeats with emphasis our recent statement: The South's permanent prosperity will be enhanced as a result of this temporary depression in cotton.

We believe if every newspaper in the South would follow this lead of the Sentinel and drive home upon the people the truth in regard to these matters, great good would be done. A few days ago in a meeting of some bank directors in Baltimore one merchant said that he was going to call some of his traveling men in from the South because of the low price of cotton.

IT MAKES A BIG DIFFERENCE

It depends on how one conducts his affairs as to how he is going to stand little reverses. The other day we were walking on the streets and seeing a farmer friend we asked him how things were: "Fine," he said. "I made a fine crop of cotton, got it out early, sold most of it before the slump in price, made plenty of feed stuffs for the entire place, have a dozen head of hogs to sell and the old lady will realize several hundred dollars on her chickens and eggs. Don't owe anything, my grain is all planted and things look mighty well to me."

"This country is ruined, I made a good crop but did not get anything for it, taxes are mighty high and I can not pay my debts." Further inquiry revealed the fact that he had lost money in a business venture, had bought a big new automobile when it looked like his investments were going to pay and we are sure that the heavy interest he had to keep up on his unfortunate loss made him the pessimist.

OUT OUR WAY

HARD WEAR.

SO THINK WE

We think the weather man has a big job pleasing everybody, but we heard one man say he was sure glad to see this rain for he had been uneasy ever since Thanksgiving, and we were going to have a dry and stormy spring. This has relieved him some.

We think at this season of the year great care should be exercised in the purchasing of Christmas toys and presents for the children. Do not buy anything that will require gasoline or other explosives as it is very dangerous to life and property.

We think the city date are on the right track when they plan another big paving program. It will be a great thing for the town, and we believe that a very broad program should also be made for cement walks.

We think possibly the reason there are as many of the gun men of today that are straight shooters is because they stay sober. A sober headed man cannot shoot straight and is of very little value to anyone.

We think that honesty is the best policy even though it may cost a little more.

We think we American folks are rather queer in our speech anyway. For instance, we send goods by steamship and we call it a cargo, and if we send it on the cars we call it a shipment.

We think that if the present style of mustaches continues to take hold, we will have to get out the old fashioned mustache cup that father used to use and put it in operation.

We think that the women of this country have ample proof to refute the widely circulated report that women are hard to please. Just take a look at the average husband that the married women selected, and it will be self evident that she certainly was not hard to please in her younger days at least.

We think there are very few people who succeed without having made preparation for the task, and therein lies the importance of young people acquiring a good education.

We think if all of the members of the League of Nations are actually on the square they will give the nation a square deal all the way round.

We think putting off until tomorrow is often putting off too late the things that could have been done today.

We think when a bad man pretends to be good he is just getting worse.

We think the silent tongue never did start a scandal. What a wonderful treasure it must be.

We think that Governor Hog started the biggest thing in Texas when he asked that a pecan tree be planted at the head of his grave and the products of these trees used for planting purposes only. It was a great vision, and since these trees are now producing and the distribution has begun. We think that our high school or our Tech college would do well to procure some of these and plant them from here after they have begun to produce.

IT IS REPORTED

That one woman in Lubbock was heard to say that she did not mind admitting that home is the place for her, but she did not want to admit that she worked in the kitchen. We can remember the time when the women took special delight in their kitchens, and prized them more than the dressing table.

That Mrs. Charlie Chaplin is very fond of her two children, and says she shall look after them first of all. And as proof that she is going to do so, she is going to demand of the father a million dollars for their separation. This

will possibly not be so funny to the screen comedian.

That a blind man for twelve years will become collector of taxes in Parkers county after the first of the year. Even this blind man will be able to see that taxes are not equal by any means.

That a few cases of hog cholera have been found on the South Plains. Great care should be taken in shipping hogs into this country. Be sure they have been properly vaccinated before they are brought in—and thoroughly inspected, too.

That one man says that an automobile will last ten years, and he does not believe that it is extravagance to own one. We have seen very few automobiles that have stood the test for ten years, and if they did look like fifty years ago.

SOME CAN'T KEEP STEP

In every community there is usually a person who is "out in" everything that is "in" who can not agree with his neighbors, or keep his membership in any organization, or follow the customs and observations the proprieties insisted upon by his community.

He may be right in his opinion, and often he is but always the burden of proof is on him.

It is his place to show that he is right and he must give reasons for the lack of faith that is in him.

When he does explain himself he will give his fellows a chance to decide whether he is a prophet ahead of his time or a chronic kicker who is out of harmony with his associates.

Most movements that are entered into by groups are instigated and put over by some individual leader. This leader may be wrong and if he is wrong he often inflicts a hardship upon the entire section in which he has influence. This fellow who is against things may be right and it is up to him to develop a leadership to convince others that he is right and, if this be so, he should use his every effort to save his fellows from taking a disastrous step, but he should not stand by himself and kick and kick after everything has been done, but should do his part when movements start.

DIVERSIFICATION BEING PROVEN

MILLION POUNDS POULTRY Forty thousand pounds of poultry was marketed in Floydada during the first seven days of this month. Turkeys furnished the larger part of this number bringing from 25 to 30 cents per pound. This is a part of the regular Christmas market and will continue another week with the prospects good for the price of turkeys to reach 31 or 32 cents. Floyd county produced 1,200,000 pounds of poultry during 1925 bringing an estimated sum of \$300,000 into the county.

TURKEY PROFIT BEATS COTTON IN NAVARRO

KERENS, Dec. 4.—Live turkeys are bringing 20 cents per pound at the door of their owners in East Navarro county. The income from a flock of turkeys is larger than from the cotton crop of several of Kerens' best farmers.

A few of the turkey owners are holding their birds for a price above 20 cents. Eggs are selling at 50 to 60 cents per dozen, with the price going higher as the holiday cooking season approaches.

TURKEYS PROFITABLE TO SUDAN FARMERS

SLATON, Tex., Dec. 5.—Local produce men report the handling of 18,000 pounds of turkeys since the Thanksgiving season opened. Of this amount 12,000 pounds were dressed before shipping.

One farmer sold 214 turkeys at one time for which he received \$500.50. It is estimated that only half the turkey crop has been placed on the market, an total of approximately 45,000 pounds will be marketed before the Christmas season is over.

By Williams

LAUGHS

Rich Gail

Two farmers were arguing about the fertility of the soil of their respective states. "Why, the soil is so rich in my state," said one, "that a man with a leg that doesn't stand still for five minutes. The wooden leg will grow roots."

Evidently of No Avail

A small boy was taken by his father to Washington and taken to visit congress. He was much interested in the chaplain, who always opened the sessions with a prayer. Both in the senate and the house he had observed this procedure.

And the Boss Boosted Him

Yonk Jenkins had asked his employer if he might leave the afternoon off to attend his grandmother's funeral, and old as the story was, it worked.

An hour later he was about to enter the baseball ground when whom did he see standing beside him but his employer himself.

Wanted: Non-Skid Teacher

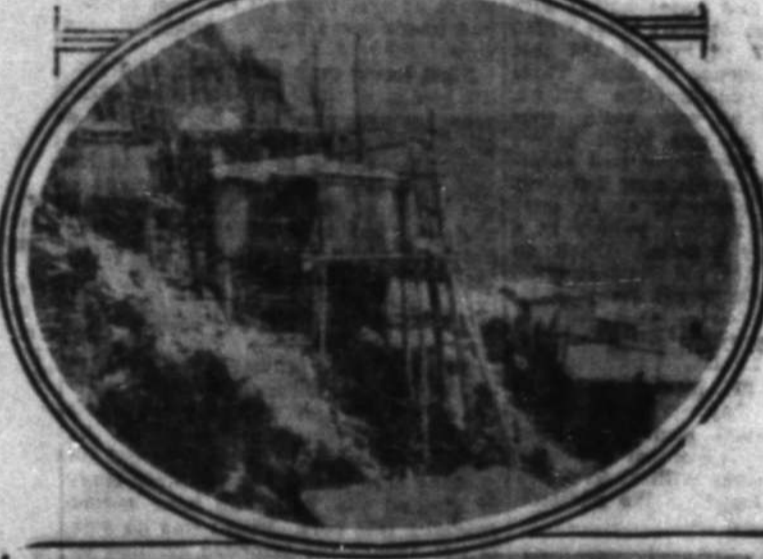

SEATTLE, Dec. 9.—What American educator would like to tackle the world's toughest teaching assignment? The United States bureau of education, Alaska division, has the invitation out.

Here's the layout:—Eighty-eight miles northwest of Nome, out in the Bering Sea, is King Island. King Island's sides are so steep and the weather is so stormy that no white man ever has succeeded in staying on it for any length of time.

By that time, if he hasn't fallen off, as all the other white men have, he'll discover that the island is deserted. The population leaves en masse, every first of July, for Nome; it returns with coffee, sugar, kerosene and flour in October. Then the teaching can start.

Oh, yes, the island has attractions. There's a native dance hall and city building. And a cave that is a natural cold-storage warehouse. The sea-parrot eggs are something like turkey eggs.

Don't all speak at once.

Part of an Eskimo village, clinging to King Island's cliffs out in the middle of the Bering Sea, is shown above. Two King Islanders, in native costume are pictured below. They are to be given a school and school-teacher by Uncle Sam, if Uncle Sam can find a teacher who won't fall off the island.

BASEBALL MOGULS MEET NEXT IN DALLAS

TEXAS CITY CHOSEN OVER RICHMOND AND TORONTO; WINTER BASEBALL IS RULED OUT BY DIAMOND MAGNATES

ASHEVILLE, N. C., Dec. 9. (AP)—The national association of professional baseball leagues selected Dallas, Texas, for its 1927 meeting and adjourned today after one of the most harmonious conventions since its organization 25 years ago. Dallas, Toronto and Richmond, Va., extended invitations for the next meeting, but Dallas won almost unanimously. No dice for it was set.

The last day of the meeting saw the most radical ruling of the year passed. The association decided that no more winter baseball could be played by players owned by clubs in the league which makes up its membership. Pacific coast league players and those in a number of the eastern leagues will be affected by the rule. There has been a long war over the question on the West coast and some winter baseball in Florida and south Georgia.

Commissioner K. M. Landis was giving a rousing reception at the meeting here and yesterday received a vote of confidence that at the time delivered "official notice" that the major leagues that the minors want Landis re-elected for a term of seven years at the next meeting of the big league.

The board of arbitration went into session shortly after the association adjourned and began working through a mass of rules which will be discussed at the meeting of the association.

The morning session of today was taken up with the reading and approving of a codified constitution for the association which will serve as the minor league agreement. There were no more rules which would affect the conduct of the minor league baseball incorporated in the new draft made by a committee appointed at the last year's convention.

Each article in the section was read and approved, the process taking up the entire morning.

With little to do at the sessions of the association of interest, most of the managers and club owners left the league president to conduct business and established a player market in the lobbies of the convention hotel.

Bores of trades and sales were discussed but few were completed.

The national association of professional baseball leagues meeting today buzzed with trades and near trades.

Henry Fanning, one armed umpire of the Texas league, was employed to report to the Pacific coast league when the next season opens.

Fert Woch bought short stop Kibbee from Providence and sent pitcher Betts and infielder Foss to St. Paul, in exchange for catcher Blachoff.

San Antonio sold infielder Henzen to Evansville, second baseman Bonnell and Lou Verrier to Lincoln, and pitcher William from Beaumont and pitcher Caldwell from I. N. Y.

Oklahoma City sold first baseman Swanson to Amarillo.

The NUT CRACKER by Joe Williams

NEWS NOTE: The city council of Pittsburg has voted to erect a memorial to Harry Green, the prize fighter.

MR. O'GOFFY thinks this is a very nobby idea, and suggests that the proposition be adopted by other cities boasting distinguished cauliflower exhibits. For example—

ST. PAUL, Minn.: A beautiful block of granite was unveiled here today in public square. It depicts a long angular form in bathing trunks disappearing into the sea. In the inscription: "Fred Fulton, losing a heavyweight fight in a characteristic manner." It was presented to the city on behalf of the Amalgamated Order of Cheap Punsters of America.

GREENWICH VILLAGE, N. Y.: Dedication exercises were held here today in connection with the opening of the new Public Library, which is to be known as the Gene Tunney Institution of Cerebral Stimulation. Mr. Tunney himself was master of ceremonies. He admitted, among other things, that Shelley, Homer, Goethe, Keats and Hugo were also good writers.

THE BRONX, N. Y.: A gracefully wrought tableau in white Italian marble was placed on exhibit in the Hart, Schaffner and Hoopla cutting rooms today. In the sculpture have caught the beautiful filial devotion of the prize fighter for his gray-haired mother, than which there is nothing more filial. The mother is shown seated near a ticker eagerly scanning the tape for ticks. The fighter is shown on the right with arms extended singing "Mamma from the Bronx, Mom Mamma Shore." It is labeled the Leonardo at home.

PARIS: There is a disagreement among the present and future promoters of France as to what form a testimonial to the international popularity of Mons. Georges Carpentier should take. The following suggestions are under consideration:

(A) An unadorned chalk rock.

(B) A soft shoe dancer in dinner clothes.

(C) A cross between Richard Dix and any Collier Ad.

(D) A half crowned figure, in neck pain claiming a fry.

(E) A bicycling calculator talking Mr. Richard out of ten extra thousands.

LONDON: It was definitely announced here today that no attempt would be made to erect a monument to Joseph Beckett or Bombardier Wells in Ploemilly Circus. It seems that, contrary to its name, Ploemilly Circus is no place for columns.

LOS ANGELES, Calif.: Amid impressive ceremonies a large, monolithic-looking object bearing marked resemblance to a human forearm and fist was tossed in the municipal scrap heap here today, along with remnants of 1926. Forged, discarded bed springs, bent car axles, battered metal lanterns and horseshoe soles. A tag was attached to the thing which reads: "Old Iron Mike." Informed citizens said it formerly belonged to a heavyweight named Dempsey.

Northwestern Coach Realizes Cherished Desire For Conference Honors

GLENN THISTLETHWAITE

Coach Glenn Thistlethwaite of Northwestern, after five long years has realized his ambition, the winning of a Big Ten championship. With Michigan, his eleven shares the premier honors of the Western Conference.

It seems that Northwestern had signed to play Michigan at Ann Arbor in the last game of the season, prior to the annual meeting of the Big Ten coaches at which time most of the schedule is made out.

When the coaches got together, it was found that Minnesota was unable to schedule the required four games. Northwestern Coach Vost requested Northwestern to release Michigan from its contract, so that he might play Minnesota twice and complete its schedule of four conference games. In turn, Iowa agreed to play Northwestern in the final game if it would release Michigan.

There was no other solution if Minnesota was to be kept in the conference and Northwestern in sportsmanlike manner agreed to Michigan request. In so doing, what would have been the biggest game of the Western Conference season was eliminated from the schedule.

Northwestern's great showing of this season has made it a much sought after eleven for 1927. I have it on good authority that the schedule of the Purple will be far more pretentious next year, having both Michigan and Illinois hooked.

The winning of Big Ten honors by Northwestern will do much to stimulate interest in athletics at the university as well as in the Big Ten.

Strolling Down Sport Lane With James R. Dow

The Florida-Clarendon clash for the Panhandle title has been postponed until Tuesday of next week. This was done in order that the game may be played under more favorable conditions.

Over in Asheville, N. C., things are buzzing in baseball-trades and near-trades are being made. Fanning, the one armed umpire of the Texas League, was employed to report to the Pacific coast league when the next season opens.

Amarillo purchased the Oklahoma City first baseman, Swanson.

The Westerners are training daily for the coming race season. One of the strongest basket ball clubs in the history of the high school will defend the Gold and White during the 1927 season.

"Red" Granger, the football ghost, will perform in Dallas on December 19. There will be plenty of Texas fans attend the game to see the carrot top ace in action.

Dallas was selected by the National Professional baseball leaders as the meeting place of the next annual meeting of the baseball moguls. The meeting held in Asheville was brought to a close yesterday afternoon. Many transfers and purchases have been made at Asheville this year.

MATADORS MAKE GOOD CHOICE OF GRIDIRON LEADERS WHEN THEY ELECT REED AND WOOLDRIDGE

The 1927 football captains of the Matadors are both late of several years of experience and are well up on the tactics of the game.

Bruce, "Ox" Reed, a husky guard, who has been a member of the Tech football team for the past two years, comes from Vernon. While in Vernon "Ox" was a member of the Vernon-Lyon aggregation for four years; in his last year's work with the Vernon club he took part in the semi-final clash between Vernon and Dallas.

Bruce is one of twenty-three men of the college who has the distinction of being a member of Texas Technological college's first football team.

Before entering in Tech college (Woolridge was a member of the Bryan high school club as quarterback. Woolridge's major sport is football and like Reed he is a track man. Floyd takes part in the dashes and broad jumping events of the track contest.

The 1926 lettermen have chosen what they think is the cream of the club as their captains and will fight with and for them both.

Canyon Cagers to Meet Longhorns

(Special to The Avalanche)

CANTON, Dec. 9.—Much interest attaches to the announcement just made that the West Texas state teachers college basketball team has been offered a game with the Texas Longhorns, which will be played probably January 4 or 7. This game will be watched with unusual interest because of the fact that these two teams, many who contend that the type of basketball played in the Texas Intercollegiate Athletic association last year was superior to that of the Southwestern Conference. It will also give the "down-state" fans a chance to see Coach E. D. Thurston's style of play, by which he has produced several of the best teams seen upon the basketball floors of Texas.

The Buffaloes will play two games with the Southwestern Teachers college of Weatherford, Oklahoma, the second of which will be at this college's contribution to the Walter Camp Memorial. These games will be played in Canyon, during the second week in January. D. A. Penick, of the University of Texas, is the chairman for the sixth district, or the southwest, and is a member of the National committee which is sponsoring the raising of funds for the memorial.

This memorial, as planned, is to be a massive colonnade as an entrance into the Yale Athletic Fields. It is to be something like one hundred and fifty feet in length, and fifty feet in height. The words, "Walter Camp Field" will be cut into the stone over the gateway. It will cost approximately \$300,000, and will be a fitting memorial to the man who did so much for football. One half of this sum is being raised by the National Collegiate Athletic association, while Yale is raising the other half. Some schools make outright donations, while others adopt the plan chosen by Canyon of giving benefit games.

Leopards Ready for Battle in Ranger

DALLAS, Tex., Dec. 9. (AP)—Coach Howard Allen and his Oak Cliff high Leopards will leave Dallas at 1:15 p. m. Friday for their invasion of Ranger and the semi final championship game there Saturday afternoon. They will receive word of the outcome of the other intercollegiate league semi-final between Marshall and Waco, after their arrival in the oil town.

The blue and white warriors went through a spirited work out on a nearby gridiron Thursday afternoon. Included in the work out was a considerable blizzard Allen's plans for smoothing out the rough spots in his team, but the rest has been beneficial to Griffith, Hall and Higgins, injured in the Cleburne game.

A special train, bearing fans will leave for Ranger at 8:45 a. m. Saturday.

Big Spring Feasts High School Team

(Special to The Avalanche)

BIG SPRING, Dec. 9.—The Big Spring fifteen club made a touch-down Wednesday when they entertained the high school football team with a turkey dinner at the Coda hotel. About 15 football boys were present. There were in attendance about 50 people. Rev. W. C. Hinds was master for the occasion. Mrs. Chas. Hovest gave a piano solo and played for Mrs. V. H. Plowden who sang. A ten minute talk was made by Coach Boyles on the intercollegiate league and what it means to the schools of Texas. Coach Collins talked on the value of athletics as a means of keeping boys in high school, calling to the attention of the audience that before football was instituted in Big Spring high school that above 50 per cent of the graduates were girls and since the boys were playing football the classes were about equally divided with boys and girls and in some graduating classes the boys were in the majority. Miss Helen Rogers gave a very appropriate reading entitled "How to Win."

SOUTHWEST CONFERENCE LEGISLATES AGAINST SHIFT PLAY, CALLING FOR TWO SECOND PAUSE AFTER MOVE

DALLAS, Tex., Dec. 9. (AP)—Adoption of a resolution favoring two second pauses in the shift play was the south-west conference athletic managers and business directors on record in their annual meeting here Thursday as being practically willing to eliminate this form of football tactics. The Missouri Valley conference, recently voted on record in favor of a one second pause.

A general rule was adopted by the directors and managers prohibiting the team coach from communicating or interfering with players in any way except through a substitute after the team goes on the field. It is read that the resolution be read to all team members and the squad by the athletic committee, before the playing season starts.

A proposal to insert the 45 yard rule in track events was left to a committee to decide upon. This committee consists of coaches Clyde Littlefield, Madison Bell and H. J. Hirtberg.

It developed that Arkansas University probably will arrange a football game with either Texas A. and M. or Baylor University in 1927. The Razorbacks to take the date vacated by the breaking of athletic relations between the two institutions.

Championships in the southwest conference were awarded as follows: Football, Southern Methodist university; basketball, Arkansas university; baseball, University of Texas; golf, University of Texas; tennis, Singlec; Southern Methodist university; doubles University of Texas.

Delay Floydada Clarendon Game

(Special to The Avalanche)

FLOYDADA, Dec. 9.—On account of the bad weather and the rough and impassable roads to Floydada, and by agreement of the Floydada coach and Clarendon coach, the championship game for the Panhandle title which was to have been played in Floydada Friday has been postponed until Tuesday, December 14th. Superintendent J. C. Wester is very anxious that the game be played on a pretty football day and is taking this means to shift a better time for the contest.

The officials for the game have been selected and will be: McMullan (Texas A. and M.) referee; Honey, (T. C. U.) umpire; and Jackson (T. C. U.) headlinesman.

The game will be called at three o'clock Tuesday.

N. Y. BOARD IN NO HURRY FOR RETURN BOUT

NEW YORK, Dec. 9. (AP)—The New York state athletic commission so far as Chairman ames A. Farley is concerned, "isn't interested" in enforcing any arrangement for a speedy return match between Mickey Walker and Tiger Flowers, for the middle-weight championship.

Mrs. Homer Pharr and baby returned yesterday from Solihull Springs where they have been visiting. Mrs. Pharr's parents for several weeks.

CITY COMMISSION

(Continued from Page 1)

request yesterday for "Little Juarez," or the Mexican section. No action was taken on any of Dr. Granbery's suggestions.

Accounts for the past month totalled more than \$19,000. With one exception, all were ordered paid.

Asks Bids on Paving

City engineer Milton Smith gave a detailed description of proposed paving work. City secretary F. W. Gross was ordered to advertise for bids to be considered on January 18.

It was pointed out that Lubbock is greatly in need of additional fire fighting equipment, and some of the first money spent will go to buy a large standpipe or reservoir with a capacity of one million gallons of water. This will lower insurance rates in the city, and while the first cost will be in the neighborhood of \$25,000, it will prove a great saving in the end, the Board said.

As two commissioners were absent the standpipe proposition was left open, though special night sessions may be held within the next few weeks to study the matter thoroughly.

While no definite action was taken, it was suggested that the commission should take steps to have the State Highway Commission connect the new Lubbock-Slaton highway with the existing on Avenue H. The highway commission now plans merely bringing the road to the city limits. This means that there will be a 35 block gap of very rough road, and the city will make an effort to have the state aid in repaving and improving this section.

Trinity's Air Work Beats Randolph, Jr.

CHICO, Tex., Dec. 8. (AP)—Superior training enabled Trinity University to come back in the last half after Randolph Junior college had led during the first down by the margin of a field goal and out across two touchdowns in the post season football game here Thursday afternoon, 12 to 3. Hoffman received a pass and ran for a total of 50 yards for the first touchdown and Waltaker was able to plunge through the line for the second.

Schey played a speedy offensive game for the visitors.

Randolph went out of its class in the Trinity in preparation for its home here Christmas day with Bellville academy, national academy opponents.

The Picture Story of 1926 (1)

Jan. 5—William K. Hale, ranchman, was arrested in Oklahoma following violent deaths among the Osage Indians.

Jan. 10—Ninety-one men were killed by an explosion in the Degan-McConnell coal mine near Wilburton, Okla.

Jan. 10—Mexican bandits held up a passenger train and killed 50 passengers and soldiers who were acting as guards.

Jan. 22—Four Spanish flyers hopped off on flight to Buenos Aires and landed at Las Palmas, making 817 miles in eight hours.

SKETCHES BY KROESIN SYNOPSIS BY BRAUCHER

COLDS THAT DEVELOP INTO PNEUMONIA

Efficient coughs and colds lead to pneumonia trouble. You can stop them now with Cosmochem, an unadulterated essence that is pleasant to take. Cosmochem is a new medical discovery with two-fold action; it soothes and looses the inflamed membrane and kills the germ growth.

TECHNICAL TOPICS

By C. W. RATLIFF

Tech students are doing something else besides going to school. The records of Prof. Cecil Horne, manager of the employment bureau for the past month, show. More than \$8,500 were earned by students during the past month. Horne's actual records in the employment bureau show.

BAND TO GIVE CONCERT AGAIN Following repeated requests for a concert, the Tech band will again appear at the high school auditorium next Thursday night. Arrangements have been made for the event and tickets will be placed on sale today. The concert will consist of ensemble instrumental and cello music as well as a saxophone band of fifteen pieces.

W. A. A. STAGE CHRISTMAS PARTY Opening the Christmas program of parties and social events, the W. A. A. girls entertained last night with a Christmas party in room 305 of the administration building. A large number of the girls were present and the evening's entertainment consisted of participation in various games and contests. Refreshments were served.

SOPHS ROAST WEEENIES Before a large bon fire in the pavilion last night, the sophomores gathered around and roasted that well-known sausage. With Prof. Gus L. Ford, sponsor of the class, presiding as toastmaster, an excellent program was enjoyed in which the four schools were well represented.

TECH CONCERT GROUP TO GO TO LEVELLAND TONIGHT The second concert of the Tech troupe will be given tonight in Levelland. Reports from that place state that a large crowd is expected. Numbers have been added since the program at Ropes last Friday night and an excellent program is scheduled. Miss Ruth Pirtle, head of the public speaking department of the Tech, who is directing the group and takes a major part in the concert, received a telephone call from Anton yesterday afternoon asking for a concert there next Thursday night. Brownfield will also be visited by the group.

Home Ec. Added at Canyon College

(Special to The Avalanche) CANYON, Dec. 9.—A general survey course in home economics has been introduced at the West Texas state teachers college for the special benefit of girls who are not majoring in home economics but who wish to get a general knowledge of this field. There is practically no laboratory work, the work consisting largely of lecture lessons.

The first term's work consists of a study of food values, meal planning, entertaining, and general etiquette. The second term takes up the feeding of the family, emphasizing the feeding of children. This course is really very elementary dietetics.

The teaching of health and nutrition in the grade school is considered, and the members of the class take turns teaching model health lessons, following lesson plans made for use in the grade school rooms. Some observation is done in the training school, and lesson plans worked out and criticized.

The work of the third term consists of a study of proper selection of clothing and how to prepare and use a family budget.

WELLINGTON ODD FELLOWS ELECT

(Special to The Avalanche) WELLINGTON, Dec. 9.—Wellington Lodge No. 388 I. O. O. F. elected the following officers at their regular meeting Wednesday: T. D. Norred, Noble Grand; Bert Miller, Vice-Grand; H. S. Montague, secretary; W. H. McClelland, treasurer. The new officers will be installed the first meeting night in January.

Kissing costs the Japanese government \$125,000 a year, although it is officially barred as immoral and unsanitary. The sum is spent in cutting kissing scenes from the films.

Looks Good for Canyon Paving

(Special to The Avalanche) CANYON, Texas, Dec. 9.—Active interest in the paving election of Randall county to be held on December 18 indicates that the issue will probably be carried by a vote of something like four to one. The bond issue to be voted upon is for \$250,000, which, supplemented by federal and state aid will be used to pave the highway from Canyon to Amarillo, and the highways south and west of Canyon for a distance of some four or five miles.

The steering committee, composed of J. A. Hill, chairman, C. W. Warwick, O. W. H. Cook, Ed Beard, and J. S. Meadow, is active in carrying out every voter the advantage of paved highways. The largest taxpayers of the county are enthusiastically behind the issue.

NEW PRODUCE HOUSE FOR BIG SPRING

(Special to The Avalanche) BIG SPRING, Texas, Dec. 9.—Big Spring has another wholesale house. The Wren Produce company, is opening a branch house here and have shipped two car loads of fresh fruits and vegetables. Local merchants are saving about 75 cents per box on apples, and 20 to 40 cents on other fruits. Mr. Wren says that he will build a cold storage and ware house close to the railroad tracks some time after the first of the year.

200 TICKETS SOLD TO BIG SPRING C. C. BANQUET

(Special to The Avalanche) BIG SPRING, Texas, Dec. 9.—The ticket selling committee of Big Spring Chamber of Commerce for the annual banquet for Thursday night, Dec. 9, report that their sales have passed the 200 mark. They are estimating the crowd at least 300.

NUNN-PARKER FARM NEAR HEREFORD SHOWS ADVANTAGES AND PROFITS OF DIVERSIFICATION IN PANHANDLE

(Special to The Avalanche) HEREFORD, Texas, Dec. 9.—"Nunn Butter, None Better." is the label that is placed on all the butter produced on the Nunn-Parker farm nine miles northwest of Hereford, and this butter sells just like hot cakes. An average of 575 pounds of butter is produced every month on this farm and the butter is sold the year round at fifty cents per pound, or an average of \$27.50 per month and Mr. Nunn says that it is difficult to supply the demand. Twenty-five Jersey cows are now being milked on the farm. The milk is run through a separator and the skimmed milk is fed to hogs and chickens, and these people say that the milk is worth as much as the butter brings.

About a year ago G. A. F. Parker, pioneer of Hereford, and one of the "Daddies of Diversified Farming in the Panhandle," made a trade with R. T. Nunn, and the two are now carrying out diversification to perfection on Mr. Parker's half section tract northwest of here.

Ninety head of hogs are kept on the farm. Nine of these are brood sows, and this number will be increased to twenty just as soon as possible. Not all the hogs are registered, but Mr. Nunn and Mr. Parker plan to get into the registered business as fast as possible. The hogs are fed on home grown grains, with alfalfa for pasture and plenty of skimmed milk. Mr. Nunn says that he is selling from \$250 to \$300 worth of butter each month, and that his skimmed milk is worth more to the hogs and chickens than he is receiving for his butter.

About two hundred laying hens of the S. C. Rhode Island Red breed thrive on the waste from the place, and furnish eggs for table use, and many for the market. The farm now has 35 acres of alfalfa on it, and the rest of the half section is planted to maize, alfalfa, sorghums, cotton, and wheat. Here are two men who are not worrying over the low prices of feed in this section.

Dr. Alice Hamilton, professor of industrial medicine in the Harvard school of public health, has begun a crusade for health in industry.

Poet God-Father of Anson School

(Special to The Avalanche) ANSON, Texas, Dec. 9.—Anson High School of Anson Texas, county seat of Anson county, is the only secondary institution in the state that can boast the distinction of having a poet as its godfather.

Larry Chitenden, well known and widely read writer of ranch verses, is official Santa Claus" to the Anson student body, and besides having contributed numbers and numbers of volumes to the school library, has dedicated numerous of his poems to Anson folk, and has honored Anson high school with an ode included in his latest book of poetry. It is thus that he has been designated at the "poet-godfather" of the school, in addition to being recognized as its "godfather."

The soul of Anson high school is in its library, which is not only the pride of the student body, but is one of the sources of community pride. More than 325 volumes are included in its shelves. Of this number, two cases of books are contributions made by Anson high's godfather, Larry Chitenden.

Dr. Alice Hamilton, professor of industrial medicine in the Harvard school of public health, has begun a crusade for health in industry.

DAILY MARKET

NEW ORLEANS COTTON
NEW ORLEANS, La., Dec. 9 (AP)—The cotton market experienced a fairly active session. The trend of prices was downward during the morning, but rallied fairly in the afternoon.

After opening 14 to 17 points down the market eased off steadily during the morning, finally showing losses compared with the previous close of 20 to 22 points. Around noon the decline was checked by trade buying and the market rallied during the early afternoon on buying based on the closing totals being too moderate to warrant the big government estimate, prices recovering 10 points from the lows.

Liverpool came in 8 to 9 penny points worse than due and first trades here showed losses of 14 to 17 points. Prices eased off after the start and were on the down grade most of the morning, December reaching 11.63, January 11.64 and March 11.75, or 20 to 22 points below yesterday's close.

The rally which started around noon started December up to 11.53 by mid-afternoon, January to 11.55, and March to 11.55 or 16 points up from the lows. There was a further bulge in the late trading which carried prices to new highs at 11.59 for December 11.52 for January and 11.65 for March, or 23 to 25 points up from the lows. The close was a shade off from the best of the rally.

Exports for the day totaled 25,735.

SUGAR

NEW YORK, Dec. 9 (AP)—There were no changes in the raw sugar market today, but Cuban 16 nearby positions were offered at 5.05, duty paid, with no sales reported.

Raw sugar futures were steady at the start, principally the more distant positions which advanced 2 to 4 points on active buying for trade and Cuban account, supposed to be covering of hedges against sales of actual to the far east. The December and January positions, however, after selling 1 point net higher, soon weakened under liquidation, promoted by the issuance of 35 December notices, and subsequently the whole list reacted, with the close 2 points net lower to 1 point higher. Approximate sales 1,000 tons, December closed 3.21; January 3.22; March 3.22; May 3.25; July 3.25; September 3.41.

The refined sugar market was quiet with prices unchanged at 6.25 to 6.40 for fine granulated.

COFFEE

NEW YORK, N. Y., Dec. 9 (AP)—Coffee futures were lower today, offering to the decline in Rio exchange rates and reports of somewhat lower offers from Brazil. The opening was 8 to 12 points lower and the markets sold off to 14.41 for March, or 25 points net lower. That delivery closed at 14.53 on covering, and there were partial recoveries on other months, but the close showed net losses of 75 to 25 points. Estimated sales 45,000 bags. Closing quotations: December 14.51, January 14.50, March 14.52, May 14.55, July 14.52, September 13.76. Spot coffee dull, Rio 7 1/2 13 1/2-14, Santos 4 1/2 20 to 20 1/4.

FORT WORTH LIVESTOCK

FORT WORTH, Tex., Dec. 9 (AP)—The livestock trade here today was regular. Cattle receipts were sold generally on a steady basis, with strength being noted in several branches of the market. An advance of from 10 cents to 25 cents was made in the hog trade. Sheep were steady and lambs nominal.

Receipts totaled for 2,500 grown cattle, 1,500 calves, 500 hogs and 1,200 sheep.

CHICAGO GRAIN

CHICAGO, Ill., Dec. 9 (AP)—Owing more or less to word that big shipments of Canadian wheat by lake were still being prepared for, wheat averaged lower in price today. No fluctuations, however, were again reported effective. Closing quotations on wheat were irregular 2 1/2 cent net lower to 1-4 cent advance, corn unchanged to 1-4 to 3-5 cents off, oats 1-2 cents down, and provisions unchanged to 5 cents decline. Likelihood of larger receipts of corn next week tended to weaken the corn market and oats as well.

Higher prices on hogs helped to steady provisions.

COTTON GOODS

NEW YORK, N. Y., Dec. 9 (AP)—Cotton goods were quiet today with an easing tendency on print cloths and other gray goods lines. Yarns were quiet and stable. Durkaps were slightly firmer at Calcutta and unchanged here and more active in Yokohama, where another 1000 bales were being withdrawn for the Japan market. To steady it, 500 bales ruled quiet. Wool markets were firmer.

HEADS OIL CO.

NEW YORK, N. Y., Dec. 9 (AP)—J. A. Berlin, for years the active head of the Kaypon business of Calumet Signal Oil (Pennsylvania) has been elected president of the company succeeding L. J. Drake, who recently resigned to become president of Union Tank Car company.

TO ABSORB CRUDE OIL

NEW YORK, N. Y., Dec. 9 (AP)—Union Oil company of California starting the first of the year will absorb the entire year's oil production of North American oil, amounting to about 6,700 barrels daily which at present is going to Richfield oil under a contract terminating December 31.

CHICAGO LIVESTOCK

CHICAGO, Ill., Dec. 9 (AP)—Cattle 11,000, hogs 12,000 and sheep 10,000. Top positions 14.00; best steer 410.00; bulk steers 3.50 to 3.60; one stock and bulk steers to 25 cents higher; vealers steady to 25 cents lower; bulk 10.00 to 11.00.

Hogs 12,000; show, quiet; steady; bulk 12.25 to 12.50; one 12.75 to 13.00; pigs 11.50 to 12.25; cutaway hogs 5.00.

Sheep 11,000; show, quiet; steady; bulk 12.25 to 12.50; one 4.75 to 5.00.

Top section of the advertisement featuring two illustrations of people in cars, the words 'Touring' and 'Sedans' in stylized boxes, and the phrase 'A GENUINE' above the large 'USED CAR SALE' text.

33. Legal Notice CITATION BY PUBLICATION

THE STATE OF TEXAS To the Sheriff or any Constable of Lubbock county, Greeting: You are hereby commanded to summon M. C. Donovan, by making publication of this citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of district court of Lubbock county, to be held at the Court House thereof, in Lubbock, Texas, on the second Monday in January A. D. 1927, the same being the 18th day of January A. D. 1927, then and there to answer a petition filed in said court on the 15th day of November, A. D. 1926, in a suit, numbered on the docket of said court as No. 10,000, wherein, Fudrye Donovan, is plaintiff, and M. C. Donovan is defendant, and said petition alleging: That plaintiff and defendant were married in Reeves county, Texas, on August 1st, 1923, and separated March 1st, 1925. Defendant often cursed and abused plaintiff and directed towards her vile, opprobrious and obscene language and epithets, all amounting to the treatment of such base nature and character as to render their further living together insupportable. No children were born and no property accumulated by said marriage. Plaintiff prays for divorce as well as legal and equitable relief. If you fail not, and have you before said court, at the aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.
