# THE JUNCTION EAGLE

Volume 46

Junction, Kimble County, Texas, Thursday, September 19, 1929

Number 23

## ENROLLMENT IN SCHOOL IS NOW 382

Superintendent Guy C. Moses stated that the enrollment of the school at the beginning of this week had reached 382, which is a record for the first month of the session. Of this number more than 100 are in the high school. Fifteen children under school age are enrolled. A feature that is very pleasing is that there are twenty-nine transfers into the district and none out. This shows how the people feel toward the school.

The rooms are all full and it took considerable planning to take care of the high school students. The grades have been crowded for the past two years. The building is entirely too small to house the school properly.

It is not too early for the people of Junction to begin to consider seriously the problems confronting the school. Every room is filled to overflowing and before many more pupils can be enrolled more room will have to be provided.

Junction has a good school with full university affiliation and the board hopes that the people will see the necessity of providing more room and equipment in time to take care of the normal growth. The climate is so fine that it would be easy to interest people further east and north in this section, but people with money to invest look to the school facilities of a community before making investments.

When the present building was erected, no doubt, our people felt that the housing building for Junction was settled for many years to come. Little did some of them realize that it would be so short a time until it would be too small.

What benefit the Junction School benefits Junction. Let's keep Junction at the top of the list in this section.

## Efficiency Class To Present 3-Act Comedy

The ladies of the Efficiency Class of the Methodist Sunday School will present "Not Such a Fool as He Looks," a three-act comedy, at the school auditorium, Friday, September 27, at 8 o'clock.

The play is a lively comedy and you will get many laughs from the family "rows" between Mr. and Mrs. Mould; the stunts of Sir Simon Simple, the Fool; and the run-away lovers. Between acts readings will be given by Mrs. Conde Hardeman and Mrs. A. W. Loeffler. The Junction band will furnish music and a good time is promised all who come. The best talent of Junction will have part in this comedy. Remember the date, Friday, September 27, at 8 p. m.

## O. E. S. CELEBRATES

Thursday evening the members of the Order of the Eastern Star held their regular meeting, at which time a program was given in honor of Rob Morris, founder of the order, whose birthday is August 21.

Mrs. Ross Brison sang "Star of the East." This was followed by a sketch of the life of Rob Morris by Mr. Alton Miller. The members then stood with bowed heads in commemoration of Rob Morris.

In the absence of the Worthy Matron, Mrs. Alton Miller, Mrs. Mattie Patterson, past matron, presided.

At the close of the meeting a social hour was enjoyed when orange ice and cake were served.

Mr. and Mrs. E. H. Hekamp returned Friday from a visit with relatives in San Antonio.

## First Anniversary Local Golf Course

Sunday, September 15, Mr. J. R. O'Bryan celebrated the first anniversary of the opening of the Junction Golf Course under his management. He says that Junction has the most loyal golfers to be found anywhere. He has enjoyed his first year here and says that he has made much improvement on the course during his first year and expects a larger patronage the second year.

While no special program was arranged for the anniversary event he had a good crowd present to play and would have had more had the weather not been so threatening. Mr. O'Bryan appreciates the good people of Junction and Kimble County and has built him a good stone residence in West Junction and plans to cast his lot permanently in this beautiful Hill Country.

## REPORT STATES COURT HOUSE UNSAFE

In last week's issue it was stated that the report of State Building inspector S. R. McCoy would be given this week. The reports as submitted to County Judge J. B. Randolph is here with given:

"This is my report to you after a thorough and careful inspection of the physical condition of your County court-house building, at Junction, Texas.

"I found that the building has settled very irregularly, causing cracks in many places from bottom to top of walls. This settlement also is the cause of walls to buckle at second story joists from vibration. I notice that the stone in the walls are burst from what seemed to be fire heat and have a tendency to slough off and become rotten.

"In examining the trusses which support the roof and ceiling joists, I found the truss rods to be very loose and not taking care of the strain, which they should. This within itself is a very dangerous condition. These trusses have no cambering in them, and are beginning to sag from weight. In the present condition of these trusses, if there should be much vibration or a heavy wet snow, this roof would be liable to collapse. Therefore, I consider the building a menace to public service and hereby condemn the building as unsafe."

## CARDWELL SELLS \$1000 BILLIE TO C. A. PEPPER

"The best is the cheapest in the long run," said C. A. Pepper and "the price is satisfactory," said O. W. Cardwell is he delivered to Mr. Pepper in Kerrville Tuesday the registered billie that Mr. Cardwell paid \$1,075 for two years ago when he bought him from Mr. Pepper. This is one of the best billies in all the country and Mr. Pepper has wanted him back ever since he sold him to Cardwell two years ago.

All Hill Country ranchmen are always improving the herds and flocks. For twenty years new and better blood has been brought to the Edwards Plateau until no better goats are found anywhere. The very people who sold this section good goats a few years ago are now coming to this section to get the best.

Mr. Cardwell is one of our most progressive ranchmen.

Mr. James Prentice had on display in Junction Saturday some of his fine billies from his ranch of excellent goats. He has been breeding goats many years and has some of the best that can be found anywhere. The goats attracted considerable attention from the ranchmen.

## John Coolidge to Wed Florence Trumbull

Florence Trumbull, daughter of the Governor of Connecticut, with her fiance John Coolidge, son of the former president, who are to be married at Plainville, Ct. on Sept. 23. Also shown is the Rev. Kenneth Willes of Albany who will perform the ceremony at the Plainville Congregational Church.

## H. O. DENMAN IS FIRST TO OWN AIRPLANE

More interest was shown in the arrival of the new Curtiss Robin Monoplane here Tuesday morning than any air plane that has ever landed in Junction. It is the new plane just purchased by Mr. H. O. Denman. In the plane when it arrived Tuesday morning were Mr. and Mrs. H. O. Denman and the pilot, Mr. L. Mauldin.

They were scheduled to reach Junction Monday afternoon, but on account of heavy rains in San Antonio that afternoon they did not leave until Tuesday morning. The trip was made through rain and against a stiff wind in less than one and one-half hours.

Many people were on the side walks and in the streets to watch them as they circled the town before landing. Many went out to look over the new plane. Mr. E. A. Loeffler, who has taken considerable interest in a landing field for Junction, has the distinction of being the first one to ride in the new plane after reaching Junction. Mr. Loeffler and Mr. Denman were looking over the places suitable for landing places. Guy Wynne and Miss Eloise Hardeman were the next to go up in the new plane. They were followed by Carl Wolf and A. S. Rieck. Mrs. A. S. Rieck and Mrs. H. O. Denman also looked over the beautiful Junction country from the air plane during the afternoon.

The pilot will return to Junction Saturday and Sunday to take up any who are interested in riding Mr. Denman's new plane. A charge of \$3.00 will be made for single passengers. Two passengers will be charged \$2.00 each. Mr. Mauldin, who has had several years as a pilot, will be glad to talk with anyone interested in flying lessons.

Mr. Denman is to be congratulated as the first Junction citizen to own a plane. It is to be hoped that a suitable landing field will be secured. The twelve planes passing over Junction last week on their way to Big Spring reminded us that we are on an air line between San Antonio and Big Spring, and almost on a straight line between San Angelo and San Antonio. Air planes are here and Junction will secure a field.

We appreciate the news from the various communities in the county. We are anxious for news from Ivy, Telegraph, Cleo, Copperas and any other places that are not sending in news. Our Sycamore correspondent has been on a vacation, but we are hoping that she will send in some news soon. The teachers are invited to send in school news. We want to give our readers a good paper and need the co-operation of everybody. Some of our correspondents have been faithful all summer and since fall is here we are hoping to get news from every community.

Mr. and Mrs. Luther McDonald visited in Boerne this week.

## WEST AWAITS MOTORCADE ON O. S. T.

On October 2 a motorcade of probably 100 cars will leave San Augustine, Florida, in a great ocean-to-ocean joyride which has for its destination San Diego, California. It is estimated that the motorcade will consist of one thousand people by the time it reaches the giant motorcade is to sell the Old Spanish Trail to the United States. This is one of the most historic and most scenic drives in the United States. Harral Ayers of San Antonio has given ten years of the best part of his life to this popular highway that connects the Atlantic and Pacific Oceans with the shortest, the most interesting and the best highway.

This motorcade is scheduled to reach Junction on the afternoon of October 8 and will spend the night here. The Kimble County Chamber of Commerce is planning to entertain this motorcade in the true western style. A barbecue will be served late in the afternoon, and it is hoped that the people from Florida can be shown a few rodeo stunts while here. Ken Goodson will attempt a record run from San Augustine to San Diego, beginning at midnight, September 20. His schedule calls for him to pass through Junction about five o'clock on the morning of September 22. He plans to return to Florida and head the motorcade with the car that makes the fast run across the continent.

This motorcade is giving much publicity to the Old Spanish Trail which is rapidly becoming a hard surfaced road from ocean to ocean. It is hoped that the motorcade will be an incentive for sections now unimproved to become interested in making the O. S. T. an all weather road.

## P.-T. A. Meets Monday Afternoon at 3:30

The next meeting of the local Parent-Teachers Association will be held in the high school building Monday afternoon at 3:30 o'clock. Some important reports will be given and the following interesting program will be rendered:

Song—"America the Beautiful."

Prayer—Rev. G. W. Crabb. Health talk—Contagious diseases and their prevention—Dr. L. E. Standifer.

Reading—What William Henry did—Kathryn Hodges. Piano solo—Mrs. C. W. Atchison.

The importance of proper food in school lunches—Mrs. C. W. McCarroll.

School lunch menus—Mrs. Clay Secrest.

Round table discussion—Helpful suggestions for school lunches.

Business session.

Elder J. S. Newman and son, Herbert, went to Abilene today where Herbert will enter College.

## Reduction In Light Rates For Junction

Mr. V. P. Emmons, local manager of the West Texas Utilities Company, announces a reduction in residential rates for Junction effective with the reading of the meters this month. Mr. Emmons states that it is the policy of the company to make reductions as often as the business will justify. A few months ago a slight reduction was made in the power rates for Junction. Mr. Emmons says that the reduction in the residential rate for Junction at this time will mean a saving of approximately 10 per cent.

The West Texas Utilities Company, announces from the Abilene office that during the next three years there will be material reductions in electrical rates throughout the properties of the company.

## O. PEARL SAYS IT PAYS TO DIVERSIFY

Mr. O. H. Pearl of the Little Saline community near London passed through Junction last Friday with a fine registered Delaine Merino ram that he had bought from Frank H. Russell of Wakeman, Ohio, who has a car load in Kerrville. Mr. Pearl paid \$250 for this fine ram which weighed 210 pounds. He is improving his sheep each season. He now has thirty registered ewes and is expecting a fine crop of lambs next spring.

He is also featuring fine dark brown Leghorn chickens. From January 1, 1929 to July 1, 1929, he sold \$520 worth of eggs from 425 hens. He recently made a trip to North Texas where he bought some very fine cockerels to put with his flock. When he learns of any chickens that he thinks might improve his flocks he buys them.

In addition to looking after his sheep and chickens he farms 110 acres of land in order to grow feed for his livestock. He bought no feed this year and has a good supply now on hand. On the side he has grown 14 bales of cotton during this dry year when many people are making practically no cotton.

Men who diversify as Mr. Pearl does will never have any trouble getting accommodations at the banks.

## T. B. PHILLIPS BUYS NEW RAMBOUILLET RAM

Mayor T. B. Phillips was displaying a fine registered Rambouillet ram on the square Saturday that he had just bought from a car of Orth sheep from Ohio. Mr. Phillips feels that he secured a real bargain as he got the sheep for \$150 and it sheared more than some of those that others have been paying much larger sums for. Mr. Phillips took this fine ram to his ranch near Rocksprings. Like all our progressive ranchmen, he is improving his sheep each year. He now has the best goats and sheep that he can find.

## COPPERAS COMMUNITY ORGANIZES P. T. A.

Monday afternoon the people of the Copperas community met at the Boisdare school house and organized a P. T. A. of 16 members with the following officers: Mrs. Fox president, Mrs. Sisler first vice president, Mrs. Emery second vice president, Miss Byler secretary, Mrs. Ragsdale treasurer, Mrs. Bennett corresponding secretary. Work starts early. A number of quilt blocks were passed around for each member to get a pattern in order to help piece a quilt for the benefit of the organization.

Kimble County looks like spring since the good rains.

## C. OF C. OFFERS 8 VALUABLE PRIZES

Far reaching results are expected from the 4H clubs of Kimble County. In order to increase interest in the work the Kimble County Chamber of Commerce is offering some valuable prizes to the boys and girls who secure paid memberships to the organization. The campaign which began September 11 will close with a big celebration in Junction on November 11.

For the benefit of those who may not have seen the list of prizes published in the Eagle two weeks ago, it is given again:

1. A fine Jersey heifer, valued at \$75, will be given to the boy or girl in Kimble County securing the largest number of paid memberships.
2. A Hereford calf, valued at \$50, to be entered in the baby beef club. The county agent will assist in selecting both the Jersey calf and the Hereford baby beef.
3. A pair of registered lambs, valued at \$40, bred and raised by F. H. Russell of Wakeman, Ohio.
4. A big boned Poland China pig, valued at \$20.
5. A pen of certified KI-WI chickens consisting of four hens and one cockerel, valued at \$15. These chickens are peculiar in that they have no wings and will stay seemingly docile and contented anywhere.
6. A pen of certified Brahma chickens, valued at \$10.
7. A big breeder lamb, valued at \$8.
8. \$5.00 in gold.

Any boy or girl between the ages of 10 and 18 years, living in Kimble County is eligible to enter this contest. The memberships are \$6 and any person is eligible to membership in the Kimble County Chamber of Commerce. The payment of \$6 entitles anyone to a full year's membership with all the privileges of the organization. Any person can buy as many memberships as he or she desires.

It is planned to have the prizes on display on the square in Junction each Saturday afternoon as soon as they are secured. These prizes are worth working for, so all boys and girls interested should begin at once to secure memberships to the Kimble County Chamber of Commerce. Anybody is eligible to membership. All they have to do is to pay six dollars which will be used for the development of Kimble County.

Watch for information about the big day on November 11.

## Eagles vs. Wildcats Here Saturday, 3 p. m.

The Junction Eagles meet the Del Rio Wildcats here Saturday afternoon at 3:00 for the first football game of the season. Coach Bowers and some of the boys went to San Angelo last Saturday to see the big class A team of that city barely nose out a 7 to 0 victory over the Del Rio team. The Eagles have a hard team to play in their first game of the season.

The Eagles are in fair condition considering the short time they have had to practice. Some of the boys are bruised up from practice, but they are ready to go. The school and the town are urged to co-operate to the fullest extent by being present at the game Saturday afternoon. This is not a conference game but will be one of the hardest of the season. The Eagles go to Sonora on the 28th for the first conference game.

Dr. H. E. Wright returned the first of the week from his vacation. He is an experienced wolf hunter and killed several while on his vacation. He has been so busy since his return that we have not been able to get the details of his hunt.

"Jimmy" Johnston Takes the Place of Bobby Jones

Harrison R. "Jimmy" Johnston of St. Paul, Minn., has taken Bobby Jones' place as king-pin of United States amateur golfers, the Minnesota player defeating Dr. Oscar F. Willing, Portland, Ore., dentist in the final round of the championship tournament at Public Beach, Cal., 4 and 3. Remarkable in the final match was that neither of the contestants could claim the distinction of having beaten the dethroned champion, Jones. In the first round the Atlantic met his defeat at the hands of Jimmy Goodman, youngster from Omaha, Neb., who went out in the very next round.

New Words Coined For Aviation Use

The very latest creation officially credited to the aviation industry is not a new type plane, a motor with an adjustable angle of attack, or a folding fuselage.

It is two "brand-spanking" new words, "enplane" and "deplane," now official members of the New Standard Dictionary's large and flourishing family. According to a letter of congratulation received by Deane Davenport, director of public relations for the Braniff division of the Universal Airlines system, and "parent" of the words, from Frank Vizetelly, famous lexicographer and editor-in-chief of the New Standard Dictionary, these two little orphan words have formally been adopted and declared legitimate.

"Enplane" means exactly the same thing in aviation terminology that "entrain" means in the railroad and "deplane" means exactly the opposite. Vizetelly announced in his letter that both would be incorporated into the latest edition of the dictionary. So now one "enplanes" for New York and when he arrives the only reasonable procedure for the honest air traveler is to "deplane." The entire Universal system will incorporate the two words into official orders and common usage in connection with their activities, according to Colonel Halsey Dunwoody, executive vice-president of the company.

25 CENTS FOR AN EAGLE

The file for the Junction Eagle for May 30 is exhausted and the management will pay 25 cents each for the first four copies of that issue brought to the office.

Spirituality is that farther look which sees eternal values.

GOLF PRODIGY

Valley Forge, Pa.—The hole-in-One Club now has a 9-year-old member. He is Sidney Coltart, brother of the University of Pennsylvania golf team captain, who at his extremely early age has already achieved a hole in one.

AMONG OUR SUBSCRIBERS

We are expecting a large number of new subscribers between September 10 and November 1 as we have authorized the Junction Parent-Teachers' Association to solicit and accept for subscriptions until November 1. We are allowing the P. T. A.'s a liberal discount on all new subscriptions and renewals and any favors shown this organization will be appreciated by the members of the local P. T. A.

The following have renewed or added their name to the list during the past few days:

- L. B. Kirkpatrick, Segovia; Fred Beasley, Austin; Henry Murr, Junction; Mrs. Nick Kersting, Chicago; Mrs. G. A. Koock, Austin; Jack Sykes, Fort McKavett; E. A. McCoy, Junction; Mrs. Floyd Little, Austin; Mrs. Tom Jones, San Antonio; J. W. Boone, Junction; Mrs. W. E. Barr, Las Vegas, Nevada; C. W. Henderson, Telegraph; J. C. Whiteley, Junction; W. L. Bierschwale, Noxville; Carl Taff, Junction; John Fritz, London; John A. Allen, Junction; T. C. O'Bryan, Madisonville, Kentucky.

We ask a liberal response from our subscribers when approached by the Junction Parent-Teachers Association.

SCOTCH STORY NO. 7836

The usual morning collection was taken in church one morning, and the minister noticed a lot of dollar bills in the plate and two pennies. "Ah," said he facetiously, "I see there is a Scotchman present."

Whereupon an old Scot arose from the back of the church and said, "Yes, sir, there are two of us."

Season Closed On Deer in Old County

Austin.—Many Texas hunters who are contemplating hunting trips into Mexico this fall will be disappointed to learn that the season on deer in the states of Chihuahua and Coahuila is closed until October 31, 1931, and the season on quail, antelope and mountain sheep is closed permanently. This information was given out by Game, Fish and Oyster Commissioner William J. Tucker following information delivered him by the commissioner of game, fish and forests of the Republic of Mexico.

Texas hunters are also warned that transportation of game killed in Mexico upon which season has not been opened in Texas is unlawful unless the hunter has received a permit from the Texas game commissioner. Licenses for hunting in Mexico can be obtained from the secretary of agriculture in Mexico City at a cost of \$10.

For Expert car washing, polishing, and tire changing see the McDonald Service Station, northeast corner square. 20c

## LONDON LOCALS

Mr. and Mrs. E. H. Kothmann took their daughter, Miss Loree to Waco last week where she goes to enter Baylor University for the 1929-30 term. Miss Loree is one of our fine young girls. She is sober, bright and studious, therefore we expect nothing less than success in Baylor for her.

Mr. Jack Price was visiting homefolks Saturday. Jack says he likes the Mason high school fine.

There will be a box supper at the Community Hall Friday night. This supper is given for the purpose of raising funds to pay on the school piano. A very worthy cause and should receive liberal patronage. The instrument cost several hundred dollars and is being paid out by installments. This is why you are asked so often to contribute a small amount. I am informed that the money taken in Friday night will be turned in to the Parent-Teachers' Association to be paid out on the above named instrument. Everybody is invited. Come, have a good time and help in a good cause.

R. T. Amberson is preparing to run a concrete floor in the building occupied by the Walton Grocery. This will be quite an improvement and add materially to the interior of the building. E. P. Furr has installed a filling station in connection with his Handy-Andy Grocery Store and is now ready to fill your automobile (there are no more fluffers; everything on the road passes my Star copster; a fluffer couldn't do it).

Our people are busy gathering the short cotton crop which is proving very short. Miss Henriett Gephart is spending this week in the Gephart home at Yates.

J. B. Fisher was in town Tuesday.

G. M. Pearl was in town Monday.

Carl L. Bryant returned from Ballinger Saturday and is now helping run the 5-inch casing in the McLean well, preparing to drill it to a greater depth.

The well on the Amberson place is standing still with the machine idle over it.

The Bryan well is shut down, awaiting a drilling line and other equipment.

Our school started Monday morning with a good attendance of happy girls and boys. A large per cent of the parents and all the trustees except one were present. This attendance on the part of the parents and the trustees is proof of the interest our people have in our school.

Now a combined and continued effort on the part of the teachers, the trustees and the parents will insure a successful term of school. Let's all move forward together.

I would suggest just here, that our school be made not only an institution of literary and physical training but that it also be the place where the higher ideals are held up and practiced that our girls and boys may learn the value thereof. I am glad to note the fact that most of our girls and boys are becoming more sober and less silly, more real and less rough, less giddy and more grand. This is the best indication we have noted since the jazz age began over a decade ago. Let's lend our united support to this change and let it be said of London that the jazz age with its silly shams and shames are only history that need not be of record.

London may well be proud of her record along educational lines. This immediate section has given to professional life more men and women than any other place of its population in the State and possibly in the United States. Beginning with the Hon. Coke R. Stevenson in his barefooted and boyhood days when the principles of honor and usefulness were being planted in his fertile mind, he was a citizen of London and a pupil in London's school. From this example on down to the present we have been sending out professional men and women. Let's keep this good work going and let's send them out; let's send them out morally fit as well as fit otherwise.

The Rev. I. W. Gephart has just paid us a call.

## LITTLE SALINE SAYINGS

The Little Saline school started Monday morning with the same teachers that taught last year. Everyone knows the teachers and don't have to wait to get acquainted, so we are hoping to have a better and larger school than we had last year.

Miss Bertha Pearl spent Saturday night with her sister, Mrs. Jim D'Spain.

Mr. and Mrs. Edd Waddell were guests of Mr. and Mrs. Louis Pearl Saturday night and Sunday.

A baby boy made his appearance at the home of Mr. and Mrs. Ernest Nichols Friday night to help brighten their home more in the future.

Mr. Jake Otte made a business trip to Mason Tuesday.

Mr. and Mrs. Jesse Otte of Roosevelt visited his parents, Mr. and Mrs. Jake Otte, Sunday.

Mr. Sarl Parker went to Roosevelt with Mr. Estell Otte where they will work on the road.

Mr. Jess Walker accompanied Mr. Jess Coffey to San Antonio Sunday afternoon where Mr. J. W. Coffey underwent an operation Monday morning. He is reported doing fine.

Mrs. William Blackmon and little son of Austin are visiting her parents, Mr. and Mrs. John Pool.

Grandmother Ford was pretty sick Saturday night but is able to sit up again now.

Rev. Louis Pearl filled his regular appointment at Little Saline Saturday night and Sunday. A large crowd attended Sunday night.

## TEA CUP TIPS

Mr. and Mrs. W. K. Fisher and family spent Sunday with Mr. and Mrs. O. C. Fisher of San Antonio.

Mr. and Mrs. Bennie Simon of San Antonio were the guests of Mr. C. W. Simon last Wednesday and Thursday. Mr. Simon returned Friday, leaving Mrs. Simon for an extended visit with her father.

Mr. J. W. Robbins and daughter, Lily, and Mrs. S. H. McCaleb visited Sunday in the home of Mr. and Mrs. Tate Jarvis.

Othal Ivy gave her friends a party Saturday night. A number of young people of Junction were present.

Miss Lola Grobe entertained her Sunday School class with a picnic Sunday afternoon on the river.

Howard Kothmann delivered 275 mixed lambs to W. L. Kothmann last week.

Mr. J. B. Fisher shipped 425 mutton sheep Sunday.

A baby girl was born to Mr. and Mrs. T. J. Wootan September 11.

Misses Gertrude and Helen Gary left Sunday for Rocksprings where they will be in school this year.

Mrs. J. B. Fisher, Misses Bessie and Vivian Reese and L. C. Fisher visited school Friday afternoon.

## INTERESTING ITEMS

Only one person out of 8,679,000 who rode on passenger trains in 1928 was killed, according to last year's railroad accident record.

The railroads of the United States will spend approximately three billion dollars this year for labor, one billion and a quarter for material and supplies, and about three-fourths of a billion for new equipment and betterments—a total of five billion dollars poured into the channels of trade and commerce by a single industry.

Texas has more railroad mileage than any other state in the Union. It has 23 thousand miles of track, of which 16,500 miles are main line. The building of new track in Texas is constantly going on, due, no doubt, to the fact that its natural resources are being rapidly developed. The state has 168 million acres of land, but 32 million of which are under cultivation.

The Beaumont-Hampshire Fig Co. cannery expects to handle 750,000 pounds of figs during its four months season, the product of 800 acres in figs in Jefferson County.

Magnolia Gasoline is GOOD gasoline. That's why we sell it. Give us a trial. We try our best to give you Good service.

## REGULATIONS GOVERNING REGISTERED AND CERTIFIED FIELD SEED

**Registered Seed**  
1. Shall be seed grown from bagged seed produced on experimental stations last year (1928), or grown from bagged seed under supervision of the State Department of Agriculture for two years.

2. Shall be pure line seed and show 100 per cent purity as determined by the inspector.

3. The seed shall be harvested, threshed, cleaned, sacked and stored under conditions to prevent any mechanical mixture.

4. The grower shall thresh and clean registered seed by equipment owned and operated by him.

5. Reasonable isolation from other sorghum fields has been maintained as determined by the inspector.

6. Shall be seed of a recognized variety or strain of proved merit and usefulness.

7. Free of disease and weed seed.

**Certified Seed**  
1. Certified seed are the first year progeny of registered seed.

2. The seed have been produced from fields showing a varietal purity of 99.8 per cent or more as determined by an official inspector.

3. The seed are harvested, threshed, cleaned, sacked and stored under conditions to prevent mechanical mixture.

4. Reasonable isolation from other sorghum fields has been maintained as determined by the inspector.

5. Certified seed shall be seed of a recognized variety or strain of proved merit and usefulness.

6. Free of disease and weed seed.

Note: Cottonseed are certified under a different set of regulations. These apply to grain sorghums.

—Farm and Ranch.

The first Pullman car ever used was placed in service in 1859. It was a converted passenger coach and was operated on the Chicago & Alton Railroad between Bloomington, Ill., and Chicago. There were four lower and four upper berths, which were petitioned off by curtains. The first Pullman car, built from the ground up, was finished in 1865 and was called the "Pioneer." It carried a portion of the Lincoln funeral party from Chicago to Springfield, Illinois.

The new Cascade Tunnel, recently completed by the Great Northern Railroad, is the longest tunnel in the United States, being 41,152 feet, or 7.79 miles long. There are four larger tunnels in the world, all of them being located in the Alpine region of southern Europe. The longest tunnel in the world is known as Simpon No. 1, which is 65,734 feet, or 12.45 miles in length.

That new Ford is a Good car. Low FIRST cost, Low UPKEEP, Low DEPRECIATION. Try one and SAVE the DIFFERENCE.

## Philip Joseph Keeps Rocksprings Store

The stock of general merchandise owned by Phillip Joseph is being moved this week from the Day building, next to the E. A. Buswell grocery, to the Hough building, adjoining the Hough Drug Store.

The interior of this building is being equipped with necessary shelving and other fixtures, and the stocks will be on display before the week is closed.

We are indeed glad to know that Mr. Joseph has decided not to leave Rocksprings, and that he has leased the new Hough building for a number of years, and is placing in charge of his business at this point, Sam Schrotter of San Antonio, who has had over twelve years' experience in the general merchandising business, specializing in the clothing, shoes and ladies' ready-to-wear and furnishings departments; having also spent several years traveling for some of the largest manufacturers of these articles in America.—Rocksprings Record.

## GUINEA FOR GAME

Guinea fowl are used extensively as a substitute for game birds and guinea raising in small flocks on general farms is becoming more profitable. The demand in late summer at city markets is for young birds weighing from 1 to 1½ pounds. As the fall season advances heavier birds are in demand. Guineas are fed in much the same way as chickens, but they need less feed as they are natural rangers and obtain much of their feed in that manner.

The gospel would make one supreme standard universal.

In Randolph Field, San Antonio, Texas is to have the largest and most modern airport and flying school in the world. Plans have been accepted by the War Department for its construction.

In 1927-28 the Texas Valley shipped 1,528 cars of citrus fruit. In the 1928-29 season the shipments totaled 2,316 cars, according to the Donna News. The gain was more than 50 per cent.

Try Magnolia gasoline and oils. They are good. That's why we sell it. 20c Loeffler Motor Co.

Mr. and Mrs. H. G. Hubert and daughter, Miss Mary, left Tuesday for a trip to San Antonio and Austin. Mr. and Mrs. Hubert's daughter, Mrs. Jimmie Taylor will return with them for an extended visit here.

Choice meats and all market products at reasonable prices at the City Market.

The best place to get your car washed and greased is at the Powell Motor Co.

Seed oats, barley and wheat for sale at Skaggs' Grocery.

The sad news was received here the first of the week that Robert Henderson had died suddenly at his home in California. His wife died only a few months ago. The body is being shipped to Junction for burial, but it is not known just what time it will arrive.

Fred Beasley left the first of the week for Austin where he will attend the State University this year.

A Mexican driving a Chevrolet at a rapid speed collided with a truck driven by Claude Davis and Millard Petty near Teacup on the London road last Saturday night. Mr. Davis is in a critical condition and the Mexican is considerably bruised up. Mr. Petty is carrying his arm in a sling, but he is not seriously hurt. The cars were badly damaged.

For first class car washing and greasing service, call on Powell Motor Co.

At a meeting of the commissioners' court last Saturday it was definitely decided to build a new court house on the site where the present building stands. A report from the State Building Inspector in this issue of the Eagle states that the present building is unsafe. It is a fire trap and the records are not protected from fire to any great extent. The new building will be built by issuing warrants. Plans have not been selected and the court will be glad to discuss with anyone interested in proposed plans, as the court is anxious to build as economically as possible. A new fireproof, steam heated building adequate for the needs of the county is the desire of the court. An effort will be made to see that the tax payers get full value for every dollar spent.

Messames Joe Fritz and Arthur Thompson motored to Kerrville Friday where they met Mrs. M. B. Stokes of Houston who is spending her vacation at the Fritz Hotel.

Wilson Stone left the first of the week for Austin where he will continue his studies at the university.

## A FIBER AS OLD AS BIBLE

(By A. C. Cagg, Editor and Publisher *Angora Journal*, Portland, Oregon.)

I am going to tell you about a fibre, or thread, which is as old as the Bible, and which is yet unknown to the average American householder. We all know of silk, cotton, wool and recently discovered rayon, but this fibre of which I am going to tell you is the whitest and strongest known to the textile industry. It is mohair, the fleece of the Angora goat.

Now, when I say the word mohair, you perhaps think of your davenport, or your motor lining, or the plush in Pullman cars, but plush is only one of a wide variety of weaves possible to this unique yarn. All fabrics and other materials made from mohair possess the sturdiness which is so necessary to the Pullman company's demand for durability.

The basis of all material is thread or yarn, and I want to tell you about the construction of the mohair yarn so that you will understand how nature has fitted it, scientifically, for use in draperies, upholstery, clothing, and a wide range of other employment in modern dust and germ-laden cities.

Mohair is the fleece of the Angora goat, not the wool of the sheep. It is not camel's hair; it is not alpaca. Alpaca comes from the Llama, which thrives in the Andes mountains of South America, and is a member of the camel family. This difference in the genera of the animal makes all the difference in value to the user. Sheep's wool is warm, but it has scales something like the scales on a fish which gives it its felting property, but these scales catch the dust. Mohair, the fleece of the goat, has similar scales, but they are farther apart, less highly developed and therefore do not catch dust.

Under the microscope mohair shows a tubular construction, a central tube or channel. The more this fibre, mohair, is washed, the more silky and lustrous it becomes, without in any way becoming oily on its surface, although in its natural state, there is oil just as there is in wool, which gives it elasticity and pliability and great durability.

If you examine cotton under the microscope, you will find that it has a spiral form. In the same way, wool under the microscope shows barbs or scurs, whereas mohair is smooth and fine as a fine wire. This will enable you to understand how the very nature of mohair induces it to shed dust, dirt and dirt. Mohair has no felting property like wool. It is so smooth that it can not be woven on a mohair warp. For that reason, all mohair fabrics have cotton, principally, or wool, or linen, for a warp. Cotton is most used, perhaps forty per cent of mohair fabrics being cotton. But all the wearing surface is mohair.

These fleecy Angora goats are shorn spring and fall, and their fleece is shipped largely to Sanford, Maine, where the huge mills use perhaps half of the mohair consumed in the United States. Here the fleece is sorted, cleaned, washed, combed, spun, and finally woven into cloth, dyed, printed, stenciled and handblocked. The mohair drapery and upholstery fabrics uniform cloths, linings, women's coatings, rugs and motor robe materials manufactured by the Goodall Worsted Company are Leshor Mohairs. They include rich, heavy damasks, gauzes thin as a spider's web, and lovely colorful prints, the designs for which are originated by artists in all parts of the

For Satisfactory SERVICE Patronize Junction Steam Laundry

world. Mohair is an Arabian word meaning "clean," "select." Many of the oriental rugs are made of mohair combined with silk or wool. The lustre and brilliant beauty of mohair never is lost. Angora, which is now the capital of Turkey, derived its name from the word Anycra, which was Greek for anchor, horns, or hook. Doubtless, the Angora goat got its name because of this similitude. These goats are old in history. We are told in the Bible that the veil in the temple of Solomon was made of goat hair.

In the home, for whatever purpose mohairs are used, whether curtains, cushions, upholstery, bedspreads, wall-hangings, slip covers, screens or panelings, they create a harmony of beauty throughout the house. They attract the most attention, yet require the least care. Their loveliness is woven in, and their soft glow and graceful folds will defy time and sun. They have long laundry life. Leshor mohairs are increasingly used in sanitariums, hospitals, hotels, lodge rooms, and other public institutions, as well as in homes. The steamship Leviathan, in refitting, required thirteen miles of Leshor mohairs.

The color-fast dyes of these fabrics are recommended by expert decorators throughout the country. Even in damp weather, these fabrics are non-crushable, due to the resiliency of the mohair fibre. Last, but not least, their comparatively moderate price recommends them to the thriftest home-maker.

I hope that in these few moments, I may have been able to convince you of the value of mohair as a fibre. There are about two hundred thousand of these animals in Oregon; Texas has three millions of them. The value of mohair lies in its tendency to shed dust and the remarkable ease in laundering. Its value economically is its long endurance under trying conditions. And above all its charm to the eye—an ever-satisfying lustrous beauty.

Idolatry of all kinds is dead where spirituality is alive.

## SAYS HE'S LIKE A MAN MADE OVER NEW NOW

"I feel like a new man—made all over again and I'm glad to tell the whole world what Sargon has done for me.

"For the first time in 15 years, I am free from pains and feeling fine. I've gained twelve pounds, too, and that's worth talking about, because I certainly was in a terrible run-down condition.

"I had pains in my side for three years and they were so bad I could hardly stand them. My blood pressure was low and people my age know what that means, because it brings on all sorts of complications like headaches, shortness of breath and low vitality. That's not worrying me any more for my blood has been built up and even though I am 52 years old, I feel fine and full of energy all the time.

"I'm through now with losing lots of time and spending lots of money on useless medicines. I know Sargon does the work and I'm not going to be without a bottle handy from now on."—H. M. Curtis, 725 Frey Ave., Fort Worth.

J. A. Heyman, agent.

## STATE WILL ENFORCE STATE FIELD SEED LAW

Austin, Sep. 16.—Preparations are being made by the Department of Agriculture to enforce the field seed certification law, which was extended by the Legislature to cover grain sorghum seed, it was announced Wednesday. Only seed from experiment station stock will be certified this year. All seed for which application is made for certification will be placed under a two-year observation period before certification. Heretofore the department has not kept check on grain sorghum seed and can not determine the quality except by a two-year observation period.

## Masons Used Cave As Meeting Place

Arbroath, Scotland.—There is a large, natural cavern here about 230 feet in length and 12 to 24 feet in width, that is known as Mason's Cave. The name is derived from the fact that for very many years in the eighteenth and during the early years of the nineteenth centuries members of Lodge St. Thomas No. 40, used to go in procession to the Cave on St. John's Day, December 27, when the lodge was opened and the newly elected Master and other officials were installed into office for the ensuing twelve months. A part of the ceremony was the cutting or carving on a ledge at the back of the cave the initials of each Master as he entered into the occupancy of the Chair. As far as is known, it is stated in the London Masonic News, the Masons had no proprietary right to the cave, as it was part of the estate of the Seaton. However, in order to assert their prescriptive rights to the use of the cave they built a stone wall at the entrance, into which was fitted a door. Part of this stone wall was in existence until about thirty years ago.

Numerous references to these visits to the Mason's Cave are to be found in the earlier books of Lodge St. Thomas No. 40, Arbroath, and of Lodge St. Vigean No. 101, which is a daughter lodge. St. Thomas Lodge is itself one of the oldest Masonic lodges in the country. According to tradition, it was founded by the Italian workmen who came to Arbroath in 1178 to build the stately Abbey—one of the finest of its kind in Scotland, which took fifty-five years to build.

Various attempts have been made from time to time to revive these annual visits to the Masons' Cave, but for some reason or other, after a year or two, they were abandoned. The last known official Masonic visit to the cave occurred in 1896, when members of several lodges met there.

Nobody likes compulsion but we must all submit to it if we hope to get along in this world. The social swim may carry you down to death; spiritual tides will carry you up to God.

**SUMMARY OF GAME LAWS**

Inasmuch as the hunting season is already open on doves in some counties and during the next few weeks will open on various kinds of game in Texas, we are giving a digest of the game laws below. The last legislature made several changes and we have made an effort to embody the changes in the digest which follows:

**Game Birds and Game Animals**  
 Animals—Deer, elk, antelope, wild sheep, bear and squirrels are game animals.  
 Birds and Waterfowl—Turkey, ducks, geese, brant, prairie chickens, pheasants, quail or partridges, grouse, wild pigeons, doves, chachalacas, snipe, plover and short-birds of all varieties are game birds of this State.

**Open Seasons**  
 Deer—White tail, November 16 to December 31; black tail east of Pecos river, November 16 to December 31, and west of Pecos November 16 to November 30. Only buck deer with prong, horn or better may be killed.  
 Doves (morning)—Gillespie, Kerr, Kimble, Mason, Llano, San Saba, McCulloch, Menar and Blanco, October and November.  
 Doves (white wing)—State wide, August 8 to October 31.  
 Ducks (except wood ducks), geese, brant, snipe, gallinules and mudhens—North zone, October 16 to January 31; south zone, November 1 to January 31.

Quail and Mexican Pheasants—Both zones December 1 to January 16.  
 Rails (except coot and gallinules)—Both zones, September and October.  
 Squirrels—Kimble and surrounding counties open all the year.  
 Turkey (gobbler)—November 16 to December 31.

**Bag Limit**  
 Bear—1 a season; deer, 2 bucks a season (black tail or mule deer west of Pecos river, 1 a season); doves (all kinds), 15 a day or 45 a week; ducks, (all kinds), snipe, gallinules or mudhens, 25 a day or 50 a week of all varieties; geese and brant, 4 a day or 12 a week; prairie chicken, 10 a day or 10 a season; quail or Mexican pheasants, 12 a day or 36 a week; turkey, 3 gobblers a season.

It is unlawful for anyone, except a transportation or storage company, to possess more than 50 game birds of all varieties at one time.

**Licenses**  
 Non-resident county and non-resident State hunters, boat owners who accommodate hunters for pay, and shooting preserve managers are required to have licenses. Fees—Non-resident State, \$25; hunting boat owners, \$2; shooting preserve managers, \$5.

The trespass laws of this State relating to inclosed lands do not apply to land where same is leased or used for hunting purposes at a charge of more \$4 per day per person, or 25 cents per acre per year.

**Non-Game Animals and Birds**  
 Animals—Non-game animals such as rabbits may be killed at any time in any numbers. For others see Fur-bearing animal laws.

Birds—It is unlawful to kill song birds or other non-game birds at any time. Provided the following may be killed at any time and in any numbers: Sparrows, rice birds, blackbirds, buzzards, crows, owls, hawks, woodpeckers, roadrunners, jay-birds, sapsuckers and pelicans.

It is Unlawful To Hunt migratory Birds between

Your tongue tells when you need

Coated tongue, dry mouth, bad breath, muddy skin, groggy nerves and sour stomach suggest its use.

sunset and one-half hour before sunrise, and other game between one-half hour after sunset and one-half hour before sunrise.

Hunt, kill or possess game animals or other birds and animals, except where provided by law.

Hunt from a motor boat, sail boat, boat under tow, auto, or airplane.

Hunt on State Game Preserves.

Hunt deer with dogs. One dog may be used in any county to pursue a wounded deer.

Hunt, kill or take any duck, goose or brant by any other means other than by the ordinary gun, not to exceed 10 gauge, capable of being shot from the shoulder.

Hunt for hire, or hire anyone to hunt.

Use or possess a headlight at night in a territory where deer are known to range, or hunt with one at any time.

Use a deer call, except deer horns, which may be rattled.

Keep game in storage for more than ten days after the season closes.

Ship game without an affidavit that it is being shipped to one's home or to a taxidermist and that the shipper has lawfully killed such game.

Bring game into this State during the closed season on such game, without a permit from the Commissioner.

Sell or buy game birds or animals, dead or alive, regardless of where caught or killed.

Trap any game bird without a permit from the Commission.

Destroy the nest or eggs of any bird protected by the laws of this State.

Refuse to stop a vehicle or auto when demanded by a Game Warden, and it is unlawful to refuse to allow a Game warden to search your game bag when he has reasons to believe that the game laws have been violated.

Receive on board a boat for pay any hunter, unless the owner has a license for his boat.

Possess any deer carcass or green hide with all evidence of sex removed.

Kill doe deer, fawns or spike bucks.

Shoot any gun or firearm, in, on, along or across any public road in this State.

If you're meeting your obligations to yourself and your creditors, you're doing more than some people.

**SHORT DRESSES ARE TERRIBLE TO WOMAN IN PRISON 36 YEARS**

One often thinks how interesting it would be to call back life to somebody from another age and show him around one of our modern cities. What would Julius Caesar, for example, who was proud of his fast chariots, say of our modern transportation methods?

Something of the sort has just happened in Madrid, Spain.

A woman who was sentenced 36 years ago to life imprisonment for murdering her daughter was pardoned the other day and set free.

The turnkeys little guessed the effect that liberation would have on her!

Once out in the streets of Madrid the poor woman nearly went mad. She recognized nothing in the once familiar capital. New buildings everywhere, of unimaginable height, automobiles flashing to and fro instead of the stately carriages of her day, people bustling about instead of strolling in leisurely fashion as of yore. It was terrifying.

And what was this? She rubbed her eyes. Women going about naked—or so it seemed to her. Skirts to the knees, bobbed hair peeping from under saucy little hats. Where were the ruffled trains, where were the lace mantillas? Had the world gone mad, or was she herself losing her reason?

But at last she found refuge with friends, who patiently explained the twentieth century to her.

It was a striking illustration of the undoubted fact that Madrid has changed more in the past 30 years than in the previous three centuries.

But to have to leap those 30 years in an hour was surely enough to unsettle even a strong mind.

**POP WAS WRONG**

Son: Pop, I got in trouble at school today, an' it's your fault.

Pop: How's that, son?

Son: Remember I asked you how much \$1,000,000 was?

Pop: Yes, I remember.

Son: Well, "a helluva lot" isn't the right answer.—Exchange.

**BUILDING MATERIAL**

When in need of any kind of building material, such as lumber, cement, lime, tile, etc., call or see Dan St. Clair, 48fc

By the time the members of a committee have eaten lunch and learned the purpose of the meeting it's time to adjourn.

**MAKES FASTEST TIME MADE IN AIRPLANE**

Calshot, England, Sept. 12.—The world's record for speed by airplane was shattered here Tuesday when Squadron Leader A. H. Orlebar drove his machine at the terrific rate of 368.8 miles an hour, or more than five and one-half miles a minute. This was said by aviation experts to be the fastest speed at which man has ever traveled.

Flight Lieutenant G. A. Stainforth made a flight at an average speed of 336.3 miles an hour, which was a world record up until Orlebar's smashing of the former mark.

Both men flew faster than the winner of the Schneider speed trophy last week.

Let's pave Junction streets.

**DELIVERS PERFORMANCE THAT ONLY BUICK BUILDS**

Into the Marquette, Buick has built an extra margin of every quality that makes an outstanding leader. On the road the brilliant performance of this swift, smart new six is unmatched by that of any other car of comparable price. Nowhere in the thousand-dollar field can you find such thrilling response, such effortless speed, such big reserves of power.

more to offer than supreme performance and economy! In its class, Marquette is the only car with the remarkable new water-proof, dust-proof, wear-proof upholstery and the wonderful new non-glare windshield. A host of other exceptional features contributes to its completeness: Dustproof, tilt-ray headlights. Four Lovejoy hydraulic shock absorbers. Big, smooth, fully-enclosed brakes. Airplane-type stepped-size bearings. A completely sealed engine. Beautiful, harmonizing finish, inside and out. Perfect fittings and appointments.

Only Marquette with its priceless background of Buick craftsmanship can offer such superlative performance at moderate cost. Only Marquette in the thousand-dollar class has an engine of 212.8 cubic inch piston displacement. Marquette alone provides the extra endurance and extraordinary economy of operation that Buick alone knows how to build.

Here is one of the smartest cars on the road... setting the style with new, low-slung, faultlessly tailored Bodies by Fisher... and providing performance unmatched in the moderate-price field. See it—drive a Marquette today and know why the world is saying: "A GREAT PERFORMER!"

And this handsome new six has even

# Outperforming all other low-priced sixes

During 1928, a large public utilities corporation operated 996 automobiles of 33 different makes. And according to its own accurately recorded cost figures, its Pontiacs cost one cent less per mile to operate than any other low-priced six in the field at that time. Yet even that great record of economy is being surpassed by the Pontiac Big Six because of a number of refinements and advancements which this latest Pontiac includes.

**Pretty Belgian Girl Marries Fifty Times**

Always a bride and never a divorcee—625 "suitors" and 50 marriage ceremonies in which she said "yes" as casually as if she had been assenting to a tennis match. This staggering record has been doped up by a frail, lovely girl, wide-and-trusting eyes, with a voice like an angel's. Her name is Adrienne Guimarche. In Belgium 10 years ago—when she was 18—she began her career of high pressure marrying; she pursued it assiduously all over the world until one of her former husbands chanced to walk into the church where rite No. 51 was being performed. There she was arrested and her trial will soon take place. As a debutante in her teens Adrienne was wooed and won by Paul Guyet, of Brussels, a respectable and prosperous man who was rather gratified when his beloved insisted upon a marriage ceremony before yielding even a maidenly kiss. But that was the beginning of her strange nuptial complex.

M. Guyet had a substantial income. He was not rich, but he was able to indulge his young wife in theaters, balls, the races and a mildly fashionable whirl. He was able to do that, until Adrienne met Monsieur Duclos, who was unaware of her husband's existence. He was attractive to the beautiful girl from their first meeting; their were flowers, theater parties, gifts. Then Adrienne had an idea. Why not—? She made it known that she could not accept M. Duclos' munificence any longer unless he made known his intentions. Promptly the dazzling swain proposed. They were married at once. The Angel regretted the pain that departure from M. Guyet would cause. But after all, didn't one so lovely need clothes of expensive gowns, limousines and luxuries beyond the purse of poor M. Guyet, whose bank account was considerably smaller than it had been when she was first married? Even now the marrying Adrienne was not satisfied. She must have more husbands, more sources of cash. She began to marry now with an amazing assiduity. Almost every port visited on her tours produced a husband, and all of them earned at least \$10,000 a year. Adrienne saw to that.

In a little book this strange, charming woman put down her successive ceremonies. Once, in Australia, she narrowly missed disaster when she happened to marry two brothers, living in different towns. But she left the country in time. Then back to Brussels. She was about to take husband No. 51. It was a smart church wedding; the binding words were upon the lips of the priest. Out of the crowd stepped a man who cried, "Adrienne, my wife!" Alas, poor Adrienne did not even remember his face—there had been so many. But he quickly proved his "marriage" to her. All the other "marriages" came to light in the process.—Exchange.

**NON COTTON CLUB**

Should we organize such a club Mr. T. Pearl of the Ivy community would certainly be the Ringmaster of ceremonies. Mr. Pearl made the flat statement that he was going to plant every acre of his 225-acre farm in feed. He is not doing this because he is tired of cotton but has already sold every bundle of feed made next year at 3.5 cents a bundle. Mr. Pearl has made arrangements through the county agent to secure 2500 pounds of nearly pure line seed. Mr. Pearl states that he shall soon have his present cotton crop out and intends to terrace his land immediately. We need others to pick up this slogan. Raise feed and grow a qualified product for market. Take your choice, there are plenty outlets. Poultry in its various phases, baby beef, cream and butter, lambs or mutton. I am interested in such propositions and I believe you should be. R. E. Homann.

**JUST A SKIN GAME**

Mother: "If you get a job in the chorus, I hope you won't wear tights."  
Daughter: "Oh, but they don't wear them any more."  
Mother: "Well, I'm very much relieved to hear that."  
—Selected.

**RARE GIFTS PRESENTED UNIVERSITY OF TEXAS**

Austin.—A rare bowl of English chinaware which belonged to Robert Cushing, one of the Mayflower band, was given to the University of Texas library by Frederick E. Cushing of Austin, a descendant of the original owner. At the same time, Mr. Cushing also gave the library a book belonging to John Doane, master mariner, who married Phoebe Folger, cousin of Benjamin Franklin and grandmother of the donor. A picture of Phoebe Folger also accompanied the other gifts.

**BOYS LEARN TO COOK**

Berlin.—Boys as well as girls should learn how to cook. That is the opinion of the school authorities in Halle, in central Germany, and so they have extended the instructions in the culinary art in public schools to the boy pupils.

Revenge is wild justice.

**GOLD IN IOWA?**

Cresco, Iowa.—Gold was discovered near here and caused considerable excitement. The excitement, however, was mostly on the part of the boy who made the "discovery." He picked up a gold nugget on the railroad grating near here and took it to a local jeweler, who gave it an acid test and pronounced it genuine. It was about the size of a small raisin.

**RICH MAN WASHES DISHES**

Brockton, Mass.—Edgar B. Davis, multimillionaire oil man, dropped into the lunch room of his old friend, Mrs. Thresher. He remarked that she looked tired. "Mrs. Thresher informed him she could get no one to help her with the work, whereupon Davis took off his coat and hat, rolled up his sleeves and started to wash dishes and clean up the kitchen.

Music is not a luxury. It is a necessity.

**JETTON MODERN DAIRY**

We extend an invitation to our customers and the public in general to visit our modern dairy barn built of concrete. A well furnishes running water for each room.

Modern equipment, including steam plant, steam turbine bottle washer, steam jet for sterilizing utensils, an ample concrete steam box for sterilizing all bottles, crates, etc., standard double gauze and felt strainer, standard bottler and aerator; insure our customers a high grade product from tuberculin tested cows.

When in need of fresh, whole sweet milk, phone 204. We appreciate your interest and your patronage.

Jetton Dairy.

According to a study made by the Merchants' Association of New York, the people of that city consume 1,500 carloads of food products every twenty-four hours. That means 547,500 carloads annually.

**CORAL SNAKE**

A deadly coral snake, captured eight miles from San Antonio on the Leon Creek Road, has been presented to Witte Memorial Museum by Ernest H. Powell.

The coral snake, which causes the highest number of deaths per bite than any species of poisonous reptiles, is marked by 13 broad red and 13 broad black bands. Separating these bands are thin stripes of yellow. The head has two black bands separated by a yellow stripe.

**OLD TRAIL DRIVERS WILL MEET OCT. 17**

The Old Trail Drivers' Association will convene at the Gunter Hotel in San Antonio October 17 for a three-day meeting. At a previous meeting it was decided to conduct a two-day gathering in October, but the volume of business to come before the meeting is so large that the time has been extended to three days, officials announced.

Love cannot live a divided life.

**ROBERT P. HOOPER, M. D.**

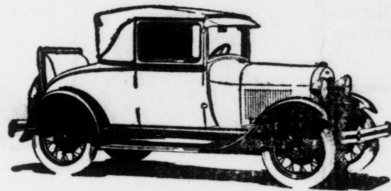

announces the opening of offices in rooms 2 and 4, first floor of SECOR HOSPITAL, Kerrville.

Practice limited to diseases of the EYE, EAR, NOSE and THROAT and scientific fitting of glasses. Office Phone, 576

Office Hours: 10 to 12 a. m.—2 to 4 p. m.

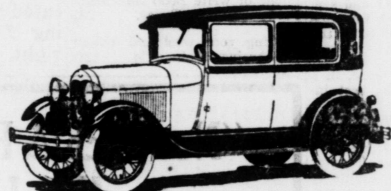

Residence—Blue Bonnet Hotel

**A new kind of motor car beauty is revealed in the low, smart, rugged lines of the new Ford**

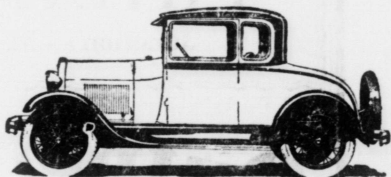

**NEW FORD SPORT COUPE**

Combines the alert smartness of the roadster and the advantages of a closed car. Wide, comfortable rumble seat included without extra cost. Your choice of a variety of beautiful two-tone color harmonies. **\$550**  
(F. O. B. Detroit, plus charge for freight and delivery. Bumpers and spare tire extra.)

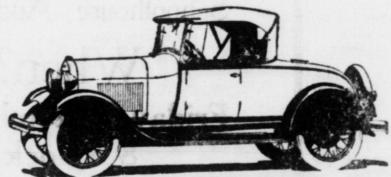

**NEW FORD TUDOR SEDAN**

An example of the fine coachwork of the new Ford cars. New military-type sun visor and crown roof. Narrow pillars and new door construction give unusual vision. Seats five people comfortably. **\$525**  
(F. O. B. Detroit, plus charge for freight and delivery. Bumpers and spare tire extra.)

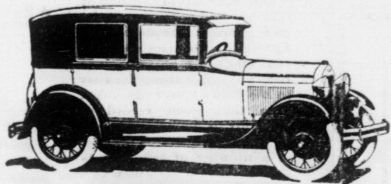

**NEW FORD COUPE**

One of the best looking small cars on the road today. Trim and smart, yet sturdy and substantial. Handy package shelf in rear of seat. Large water-proof luggage space in rear deck. Your choice of colors. **\$550**  
(F. O. B. Detroit, plus charge for freight and delivery. Bumpers and spare tire extra.)

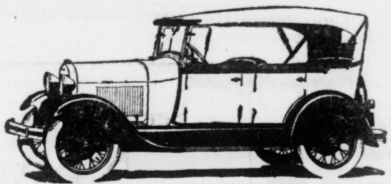

**NEW FORD ROADSTER**

A long, low car for Youth and the Country Club. As speedy as it looks. Windshield and windshield wings are made of Triplex shatter-proof glass. Top can be raised or lowered easily and quickly. **\$450**  
(F. O. B. Detroit, plus charge for freight and delivery. Bumpers and spare tire extra.)

**NEW FORDOR SEDAN**

A roomy, comfortable, family car. Wide, deeply cushioned seats. Generous room front and rear. Bow light. Rich, durable upholstery and full-nickel hardware. Your choice of two-tone color harmonies—an unusual feature in a low-price car. **\$625**  
(F. O. B. Detroit, plus charge for freight and delivery. Bumpers and spare tire extra.)

**NEW FORD PHAETON**

Another roomy car, with low fleet lines. Top can be raised easily and quickly. Curtains open and close with doors. Side curtains have unusually large windows. Triplex shatter-proof glass windshield and windshield wings. **\$460**  
(F. O. B. Detroit, plus charge for freight and delivery. Bumpers and spare tire extra.)

**FEATURES OF THE NEW FORD CAR**

- Beautiful low lines
- Choice of colors
- Quick acceleration

- Four Houdaille hydraulic shock absorbers
- New transverse springs
- Triplex shatter-proof glass windshield
- Economy and reliability

**Loeffler Motor Company**  
JUNCTION, TEXAS

Alexander Breaks National League Mound Mark

Grover Alexander of St. Louis has won the 3734 victory of his career, setting a new National League winning pitcher record. The record was held by the late Christy Mathewson.

Fourth of Sutton Co. Owned by Seven Men

Devil's River (Sonora) News, Sept. 6: One-fourth of Sutton County is owned by seven ranchmen. Ranchmen in West Texas usually count their land in sections and not acres. These ranchmen have in their possession a total of 224,772 acres of grazing land that could be sold for more than \$15 per acre. These land barons are: George S. Allison, Sol Mayer, J. T. Evans, Roy Hudspeth, A. F. Clarkson, Sam McKnight and W. J. Fields. George S. Allison is the man who owns over a hundred sections in Sutton County and about thirty or forty in Kimble and Menard Counties. His ranch in this county comprises 63,453 acres. The D. J. Wyatt estate ranch has 41,780; J. T. Evans, 47,244; Roy Hudspeth, 26,968; A. F. Clarkson, 25,977; Sam E. McKnight, 20,160, and W. J. Fields, 19,200.

GOVERNOR?

The Alvin Sun, commenting upon the gubernatorial entries who are willing to make the sacrifice and serve the State for that measly \$4,000 per year says: Barry Miller of Dallas, present Lieutenant-Governor, who announced for the job because he wants it. Tom Love of Dallas, who announced because he's afraid Al Smith will come down and run. W. Gregory Hatcher of Dallas: he simply announced. E. G. Senter, of Dallas; famous as the publisher of "Senter's Rifle;" he seems to be anti-everything—except Senter. Representative Mauritz of Ganado; who craves a state income tax enough to suffer through a term as Governor to get it. Oscar Holcombe of Houston, former Houston Mayor, sometimes known as "Dollar-and-a-quarter Oscar." "Cowboy" Charlton Brown, Mayor of Mineral Wells. He thinks Governors should wear "galluses" and ten-quart hats. Former Senator Earle B. Mayfield—Maybe! Former Governor Pat Neff—Perhaps. R. L. Bobbitt of Laredo, Speaker of the House—Probably—ask Dan. Former Governor "Ma" Ferguson—Possibly—ask Jim. R. S. Sterling of Houston, chairman of the State Highway Commission—Quien Sabe. James Young of Kaufman—Potential East Texas "traffice." Alvin Moody of Houston—the Hoovercrat that Herbert forgot—no can say. Attorney General Claude Polard—apparently has not been "sufficiently urged" to make the race. Lynch Davidson of Houston—would probably make a pretty good business-like executive—so he won't announce. Van Alstyne, Grayson County, is to have a wash dress goods factory.

33 Killed and 147 Hurt In Accidents

Austin.—Thirty-three people were killed in Texas accidents during the week ended August 31, but this represented a decrease of two deaths a day over the average for the entire year, according to the Texas council of safety. It brought this year's total of accidental death to 1753, as compared with 1228 for the first eight months of last year. There were 147 persons injured in accidents during the week, bringing the year's total to 7,399, as compared with 5,085 for the same portion of last year.

Table with columns: Causes, Killed, Hurt

NEWS NOTES

Building operation data for the South shows an average increase in March of 26 per cent. The increase in Texas for the same period was 34 per cent.

Completion of the Orient extension through Brewster and Presidio Counties recently authorized by the Interstate Commerce Commission will complete connection of the Orient's United States lines with those in Mexico. It will serve 3,700 miles of territory and open up what is believed to be a most valuable mineral area now undeveloped largely because of the difficulties of transportation to railheads, now around 70 miles over mountainous roads. The new line will reduce rail distances between Mexico and several important sections of the United States.

The Brownsville Herald reports \$12,000,000 worth of new construction in the Valley during the first six months of 1929.

A written guarantee given on each Brunswick tire sold by the Powell Motor Co. No chance for the purchaser to lose. Ask about the Brunswick guarantee.

A PUZZLE

Sambo: "Didn't you tell me that 'procrastinate' means to 'put off'?"

Professor: "Dat am the signification of the word—yes sah."

Sambo: "Den, why did that street car conductor laugh when I says: 'Procrastinate' me at 21st street?"

—Smith-Helm.

Marble from Marble Mountain, near Marfa, was used in constructing the beautiful Jewish synagogue in Los Angeles, California. Texas black marble is said to be the finest in America and the equal of the best in Europe. The Marble Mountain Co. has recently installed the largest marble saw in America in its quarry.

ECONOMY in transportation is spelled in four letters—F-O-R-D. Let us show you. Loeffler Motor Co.

### Junction Trade Notes

(By G. G. Co.)

The new motor traffic law recently signed by Gov. Moody, and now in effect, provides a speed limit of 45 miles, with lesser speed for trucks and busses, and there will be fifty State patrolmen to check up on speeders. The measure provides, also, that wagons or other vehicles shall be equipped with front and tail light or glass reflectors that look like lamps when headlights shine against them. One is not permitted to park on highways if there is room to pull over to the side, or to park on highway day or night without leaving 15 feet clearance. "Hambone," in his meditations, sized up the situation about right when he said: "De trouble is, dese heah autos got too much hoss-power in de engine and too little hoss-sense in de drivin' seat."

V. P. Emmons, recently of Abilene, who succeeds W. B. May as local manager of West Texas Utilities, was surprised to find Junction as modern as it is. He is delighted with the Kimble County town and its attractive environment.

In stock: Del Monte sweet pickled whole peaches, hot Mexican peppers in cans. Gann Grocery Company. All kinds chicken feed, laying mash, meatscraps, maize and alfalfa meal, charcoal, oystershell.

#### A One-Bid on Clubs

Father: "Son, let me hear how far you can count."

Willie (who has just started to school): "One, two, three, four, five, six, seven, eight, nine, ten, jack, queen, king."

Coleman County, according to the Democrat-Voice, is one of few counties in Texas, that will harvest a large pecan crop this year. . . . R. C. Chambers of Coleman registered at the Fritz in Junction for the week-end. He was here on business. . . . Mack Crenshaw and family, recently of Aransas Pass, are newcomers in Junction. Mr. Crenshaw is identified with Burt's barber shop.

J. W. Boone of Junction is in the market for a few hogs to consume his surplus of feed.

Seed wheat, seed rye, in stock this week. Gann Grocery Company.

R. V. Fagans, recently of Okmulgee, Okla., with Mrs. Fagans has an apartment at Kimble Courts. Mr. Fagans is driller for the Independent Oil Company, which company is soon to start development on a block of acreage between Junction and Sonora.

Mr. H. R. Starkweather, vice president Coleman National Bank, was an interesting visitor to Junction for the week-end as guest of old friends. An Ohioan by birth, a West Texan by choice, he is now a resident of Hollywood (Calif.) by reason of circumstances. In 1881 Mr. Starkweather drifted 9000 sheep from the Texas-Mexican border to his ranch in Coleman County, the movement requiring three months to complete. He crossed his herds over the Llano River a few miles below the frontier town of Junction City. Mr. Starkweather admires the modern Junction and its scenic environment; in fact, stated it is one of the most alluring places he has ever visited.

#### Gann Grocery Company "Everybody's Store."

#### LETTER OF APPRECIATION

In our June Jubilee and our recent church benefit, I certainly did appreciate the quick response of everyone when asked to help. Any man or committee is spurred to do his or its best by a knowledge that anybody within call will lend assistance in any way at a moment's notice.

O. W. Cardwell.

## Society

### FAREWELL PARTY FOR COLLEGE BOYS AND GIRLS

Friday evening Misses Pairee Linn, Lucile Motley, Ruth Sandherr, Bonita Barnes and Elsie Bessent gave a lawn party at the home of Mr. and Mrs. Ned Linn, honoring Miss Nevada Blackburn and Fred Beasley, who left this week to enter the Texas University.

Across the central porch arch the word "farewell" was spelled in letters of blue and silver. Electric lights illuminated the lawn where "kid" games were played.

An exciting treasure hunt, which led through the cemetery and ended in the Riley-Ragland addition, brought the evening to a close. T. M. Tomberlin was the first to reach the treasure box, which contained a reward for each guest.

Candy and punch were served throughout the evening to Misses Margaret Hubbell, Norma Hendricks, Willa Lee Bray, Virginia Strong, Myrtle Weist, Tempa Boone, Ruby Davis, and Junior Stevenson, Carleton Wright, Frank Hubbell, Sessum Coney, Wilbur Jeter, Gordon King, La Rue Newby, Fred Beasley, Jake Beasley, Herbert Newman, T. M. Tomberlin, Berford Vest, M. C. Blackburn, Marvin Blackburn, Pete Curtis, Blake Chenuall, Leonard and L. E. Dunbar, Lawson Johnson, Charman Hendricks, the hostesses and the honorees.

#### LEAGUE PROGRAM

Leader's introduction.

Peter Transformed by the Faith of Jesus—Audrey Blackburn.

How Paul's Faith Made Him a Man of Influence—Mark Stevenson.

Incidents from More Recent History—Eliene Newby.

Benediction.

#### EPISCOPAL CHURCH

Rev. Frederic M. Brasier announces that services will be held at the Trinity Episcopal Church in Junction at 11 o'clock Sunday morning, September 22.

A cordial welcome is extended to every one to attend the services.

### MRS. RUDOLPH TATUM ENTERTAINS LAF-A-LOT

Friday evening the members of the Laf-A-Lot Club, and a number of guests enjoyed a party given by Mrs. Rudolph Tatum at the Hodges Hotel.

Festoonings of green and white crepe paper and cut flowers provided a festive note for the occasion.

Mrs. Brown King of San Angelo won the ladies' prize, a pretty basket, while a condiment set went to Miss Josephine Urban for consolation.

Mr. Walter Buck received a box of cigars for high score and Mr. Vann Martin, a miniature pipe for low score.

White cake with green frosting and ice cream topped with green cherries were served to about thirty-five guests.

#### LAF-A-LOT PARTY

Miss Josephine Urban entertained with a most enjoyable bridge party Saturday evening at the Hodges Hotel, honoring Miss Inez Warren of Houston.

Bridge was played throughout the evening and prizes awarded for high score, guest, cut and club.

The colors of pink and lavender were carried out in all decorations. The spacious dining room was artistically decorated with bowls and vases of zinnias with a background of canna leaves and maiden hair fern. Also a spider web of pink and lavender crepe paper. The color scheme was further carried out in cake and brick ice cream which were served later in the evening.

The guests included Mesdames J. M. Livingston, Ruth Blackburn, Aubrey Hill, Slaton Fleming, Clay Maddox, S. A. McDonald, Clarence Jettom, C. R. Stevenson, P. Joseph, L. D. Borden, Alton Childers, U. D. Kendrick, Dorothy Westmoreland, H. D. Taylor, Edith Standifer, Joe Fritz, Clara Thompson, Van Martin, Irvin Jarvis, Watt Turner, Luther McDonald, Roland Martin, Clifford Hamer, Conrad Hokekamp, Lucy Motley, Warren, Brown King, Misses Tottie Martin, Flo and Mary Spiller, Audrey Blackburn, Julia Weathered, Mary Hubert, Mary Ellis Blackburn, Blix Hankins, Lillian Kendrick and Inez Warren.

That new Ford is a Good car. Low FIRST cost, Low UPKEEP, Low DEPRECIATION. Try one and SAVE the DIFFERENCE. 20c Loeffler Motor Co.

Pave Junction streets. Ask San Antonio for a donation and see if you get it. Buy at home. 21c City Bakery.

### MRS. W. T. JOY DIES

Mrs. Louraney York Joy, wife of the lamented W. T. Joy, died Friday, September 13, at the home of her daughter, Mrs. J. A. Parker, near Roosevelt, and the body was buried Saturday, September 14, at Noxville, the Rev. Mr. Cunningham of Harper conducting the funeral services. For eight years preceding her death Mrs. Joy was an invalid.

Mrs. Joy was born May 13, 1849 and was married to William T. Joy November 15, 1866. To this union were born ten children, eight of whom survive. Mrs. Frank Thurman and T. M. Joy preceded their mother while she is survived by H. E. Joy, Young, Arizona; Mrs. M. A. Peacock, Hagerman, New Mexico; J. W. Joy, Young, Arizona; Mrs. S. A. McPherson, Mrs. Mat Adams, San Angelo; Mrs. J. A. Parker, Junction; Mrs. Seleta James and Mrs. Fred Pierce, Noxville.

Mrs. Joy was a member of the Baptist Church, having been baptized by Rev. Will Hardin May, 1920.

#### NEW JOURNALISTS

(Lena Abbott, seventh grade) Mrs. Grady Kindrick and her English students, the fifth, sixth and seventh grad pupils, have organized a Journalism Club. We have divided into nine groups, each group having a captain.

It is the duty of one group to prepare the notes of the Intermediate Department for the Junction Eagle, while the remaining groups act as reporters.

This work is done solely by the students and serves as one English lesson per week.

We desire the co-operation of all people to help us make this our most successful school year, and the best English project of the season.

#### ANGORA BILLIES

Nine head, fat, well grown yearling billies for sale. Sheared and hair weights kept separate.

O. W. Cardwell, Junction, Texas.

Judge J. B. Randolph, H. W. Bierschwale, County Agent R. E. Homann and Secretary E. V. Stewart attended the opening of the London School Monday morning. All of them responded to an invitation to make short talks.

That new Ford is a Good car. Low FIRST cost, Low UPKEEP, Low DEPRECIATION. Try one and SAVE the DIFFERENCE. 20c Loeffler Motor Co.
