

Funds In Sight For Fulton Harbor, Aransas Channel

Work on the Two Projects Expected To Get Underway During This Fiscal Year

Construction on the Intracoastal Canal cutoff through Turtle Cove and along the shore of Aransas Bay during the next fiscal year appears virtually assured following recommendation of \$1,600,000 for Gulf Intracoastal work by the Senate Appropriations Committee last week.

The sum recommended by the Senate Appropriations Committee was \$100,000 more than that earlier recommended by the House Committee.

In the original budget, \$900,000 was recommended for the local project out of \$2 million recommended for the entire Gulf Intracoastal system. Although funds for the cutoff must necessarily undergo some reduction, it appears that the project is certain to get a substantial appropriation and that work on the cutoff will be started during this fiscal year.

Local interests are busy obtaining the right-of-way along the route the channel will follow. The Army Corps of Engineers are surveying the proposed route and expect to have the survey far enough along so that work can be started immediately when the appropriations are available.

A source of guaranteeing the money for completion of the Fulton Harbor is assured it was learned here this week and local interests are now preparing data for presentation to the Corps of Engineers to show that completion of the harbor is an emergency.

Facts and figures regarding the number of boats from Fulton that are required to use the Rockport Harbor and truck their catches to Fulton to the commercial fish houses there are being compiled.

With the approval of the Chief of Engineers, the money obtained locally would be loaned to the government without interest and the dredging could be done. These funds would be paid back by the government at the time it is appropriated.

It was learned here early this year that if this method could not be utilized, it would be 1952, at the earliest, before funds could be forthcoming from the government to do the dredging.

U. S. Army Engineers will advertise for bids on the channel cutoff in September, it has been reported.

Native Son Seeks Office As Judge

James Hill Letts, candidate for Judge of State Court of Criminal Appeals, visited in Rockport Wednesday.

Letts was born in Rockport in 1895 and reported that he will return to the city Saturday to hear the election returns. He has toured 251 of the 254 counties in Texas during his campaign.

Along The Waterfront

Fishing in the Rockport bay area has been at a standstill this week. Strong south winds have kept fishermen close to shore since Sunday. However, many went out again this morning as the winds had died considerable.

J. H. Tucker of Houston went out with Fred Christilles last Thursday and landed 30 nice trout. Friday Dr. Rentz and party from Bellville fished with Christilles and caught 105 trout.

Mr. Tittsworth and party of San Antonio fished with Christilles Saturday and brought in 127 trout.

Wednesday Phil Young of Refugio went out with Christilles and caught 20 trout and one redfish in spite of the strong winds.

W. C. Hunt and R. H. Thompson of Pettus went to Cedar Bayou Monday and fished for two nights. They brought in 119 trout and rat reds and 9 flounders. Mrs. Windsor of Refugio gilled 35 flounders during the same period.

Scott Russell and sons from Dallas fished at Cedar Bayou with Harry Mills Tuesday and caught 75 trout, rat reds and gafftop.

Forest Avery of Refugio landed 8 large redfish while fishing in St. Charles Bay Tuesday.

Mr. and Mrs. Rex McCulough, Miss Edna White and Miss Ruby White, all of Dallas, fished with Henry Ballou on the Lola Jean last Thursday and landed 149 trout.

Friday they went out with Ballou again on the Lola Jean and G. C. Wetsel and party of Plano, Texas, fished from the Earline B. The two parties brought in 112 trout which weighed up to 3½ pounds.

Fire Fighters Bring Brush Blaze Under Control After Two-Day Battle

Members of the Rockport and Fulton fire departments and other volunteers finally brought under control Wednesday night a brush fire which raged over a wide section of the peninsula for nearly two days.

The fire was reported to have started Tuesday noon at the dump ground located at the edge of north Rockport and rapidly got out of hand. Fire fighters were unable to get their trucks out in the brush to the site of the conflagration. As a result backfires were built to keep the path of the blaze under control as far as possible.

Wednesday the fire had spread east to the rear of the Kriger Court on Highway 35 and west to the Floyd Huffman home. Meantime it was rapidly cutting a path north toward Copano Village. Backfires were built all along the Copano Village road to prevent the fire from leaping the road and threatening the homes located along the shore of Copano Bay. Bulldozers were busy clearing a wide path surrounding oil storage tanks at Copano and the firefighters were busy protecting these tanks much Wednesday. The Sun Oil Co. had 10 men on hand to assist and they set up a watch Wednesday night

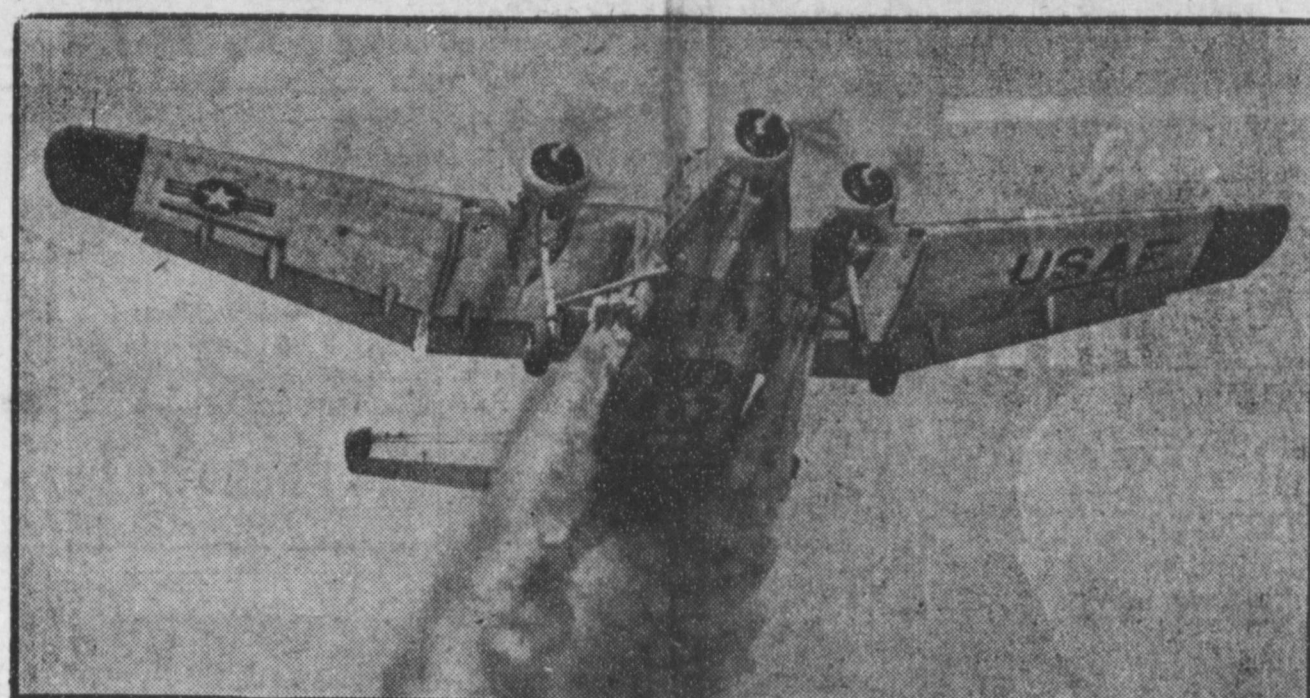

as their tanks were threatened.

Rockport and Fulton firemen were on the job constantly during the two day period and kept the three trucks of the fire department busy. Work was made more difficult by the fact that they were forced to come to the city to fill the trucks with water as a source of supply was not available near the blaze.

Meantime, two brush fires got out of hand within the Rockport city limits and the fire department was called upon to put them out. On one occasion a truck was available and rapidly extinguished the blaze. On the second occasion Wednesday afternoon, all trucks were in the field and a bucket and hose brigade managed to put out the fire.

Fire Marshall Ed Barnard has issued a plea to all home owners to use caution when lighting a trash fire. He reminds citizens that grass and brush are extremely dry and that a small fire aided by a strong wind can rapidly get out of hand. If home owners feel that they have to burn their trash under these conditions, they should get a permit from the fire department, he said.

The siege of "burnitis" continued on its rampage in Rockport (Continued on last page)

NEWEST LIGHT TRANSPORT—Six jet rocket units and three engines enable the U. S. Air Force's newest light assault transport to take off in a space of less than 500 feet. Weighing 20 tons, the Northrop Raider C-125 was designed to transport heavy loads in and out of small, unimproved clearings. The photograph was made during one of the ship's test flights at Hawthorne, Calif.

Bob Ayers Named School Tax Collector

Boy Ayers was named tax assessor-collector for the Aransas County Independent School District at a meeting of the Board Tuesday night. Mr. Ayers will take over his duties in the near future.

Miss Iris Sorenson has served in this position since the School District set up its own tax assessing-collecting office early this year. Miss Sorenson will continue her duties in the office of school superintendent, it was reported.

The board called the meeting Tuesday night for the purpose of selecting a site for the proposed new high school. An announcement concerning the chosen site is expected to be forthcoming in about 10 days.

The board anticipates holding the bond election very soon after the details regarding the site are completed. Included in the bond election, will be funds for the proposed addition at the Fulton school and improvements for the Rockport school. These improvements, scheduled to be done this summer, have been delayed because of lack of funds in the general maintenance fund of the school district. Due to the increased enrollment in the schools, the additions are badly needed. Work will get underway immediately once funds are available, it was reported.

The board authorized the sanding and sealing of floors in both the Rockport schools and the Fulton school. This project will serve to lighten classrooms as well as preserve the floors.

Location Made for New St. Charles Test

In the St. Charles Field, West-end Natural Gas Co. No. 12 St. Charles Ranch Co. Friday was clearing location for a 12,000 foot contract and was scheduled to spud in about a week. Location is in R. D. Blossman Survey 1933, A-31, 2000 feet northeast of the No. 9 gas well.

Hewitt and Dougherty No. 1 K. E. Werland, new oiler in the Mud Flats Field, made 188 barrels of 41.3 gravity oil on potential test through 14/64 inch choke under 460 pounds pressure on tubing, 1,535 pounds on casing. Gas-oil ratio was 1,013 to 1. Perforations were at 8,602-07 feet with 20 shots. Total depth was 9,200 feet, and 5½ inch casing was set at 9,196 feet. The test is in Lot 3, block 51, Fifth Addition, Taft Farm Lots.

George W. Graham, Ryan, Hays and Burke have taken potential on gas production from a second (higher) sand in the Mud Flats Field gas-distillate discovery, the No. 1 Margaret E. Davis. On open flow potential test on perforations at 8,985-92 feet the well made 2,975-000 cubic feet of gas. Gas-liquid ratio was 16,800 to 1. Distillate gravity was 56 degrees. Shut-in pressure was 2,936 pounds. Earlier it had made 69 barrels of distillate in a 20 hour test in these perforations. The discovery in Lot 7, block 48, Sixth Addition, Taft Farm Lands, was finalized late in November last year for 192 barrels of distillate and 2,440,000 cubic feet of gas through 3/16 inch choke from perforations at 9,242-54 feet. New perforations have been shot in the lower zone, at 9,248-54 feet and on 20 hour test, they made 49 barrels of distillate.

The Railroad Commission has reversed an earlier order to make Mud Flats Field the official name of the oil-gas-distillate field in Aransas near its common corner

Fishermen's Board Labels Commission Action Unjust

The Executive Board and the State Board of Directors of the Texas Fishermen's Association met in Aransas Pass Saturday at a special called meeting to discuss the recent raise in the fishing boat license quota recently granted by the State Game, Fish and Oyster Commission.

It was the unanimous expression of the men assembled there that the Commission was unreasonable in setting the quota at the high level of 2325 boats.

It was pointed out that actually in new boats fishing Gulf waters, this would probably represent an increase of 100 percent rather than the 50 percent as stated by Mr. Dodgen.

The possibility of legal action against the Commission was discussed and a committee consisting of H. A. Adcock of Port Isabel, Cyrus Farley of Aransas Pass, Raymond Owens of Rockport, Ted Nelson of Corpus Christi, W. W. Sachtleben of Aransas Pass and W. D. McMillan of Galveston was appointed to investigate this phase and report back to the Executive Committee.

The fishermen assembled at the meeting felt that the Game Commission could and should cut back the quota from what they, the fishermen, felt to be an excessive and unwarranted increase. They expressed the opinion that the true facts as to production figures and where the production came from was not given the proper consideration before the quota was raised.

It was the general opinion of all that attended the meeting that if it became necessary to raise a fund for the purpose of continuing the fight which the fishermen believe is the fight for survival, that the necessary money can be raised by assessment and subscription of those interested.

Fulton Lions Discuss Mosquito Control

The subject of mosquito control was a subject for discussion at the Fulton Lions Club meeting Monday night. Alec Scott, members of the Mosquito Control Board, was instructed to find out what was planned by the board in regard to this matter and report to the club at the meeting.

Jas. Jarboe reported favorably on the progress being made toward getting the Fulton basin dredged.

Jack McCabe of Victoria was a visitor.

The Misses Yolanda, Giovana and Mario Scorza of San Antonio, vacationing this summer at the home of their grandmother, Mrs. H. J. Nussbaumer, were entertained at a swim party at Port Aransas early this week. The party was given by Mr. and Mrs. Tachenor who were vacationing there. The Tachenors are teachers in the public school system at Chattanooga, Tenn. Miss Janie Tachenor was a guest at the home of Mrs. Nussbaumer during the two week period.

With Refugio and San Patricio counties. The earlier order had named the field W. E. Whitten, supplanting the Mud Flats designation by which it had been known since its discovery late last November by George W. Graham, Ryan, Hays and Burke.

Cars Damaged In Highway 35 Accident

C. O. Bethal, employed by the Sun Oil Co. here, rammed into a car parked at the side of the road on Highway 35 early Monday morning about 1 a.m. as he was driving north from Aransas Pass, causing considerable damage to both cars.

Bethal, driving a 1949 Studebaker, claimed that he was unable to see the car parked at the side of the road due to the fact that he was blinded by lights of a car approaching him from the north.

A short time earlier Franklin S. Gregory of Alice had parked his 1948 Plymouth off the pavement on the left hand side of the road to change his tire as a result of a flat tire on the left front wheel. Gregory was driving south on the highway.

The impact pushed the parked car about 30 feet, investigating officer Sherman Mundine reported. Mrs. Gregory was holding the flashlight for her husband while he changed the tire and reported the end of the flashlight was knocked off. Neither Mr. or Mrs. Gregory were injured, however.

Billy Blaylock, riding with Bethal, received cuts and bruises and was treated at Walter Nobel hospital early this week.

Reserve Calls To Begin Soon

Washington—The armed services will begin immediate ordering limited numbers of reservists to active duty.

There was no announcement when National Guard units might be called into federal service.

President Truman has authorized the calling of reservists and Guardsmen, along with free use of the draft law to build up fighting units.

In a quick follow-up to the President's call for greater military strength, legislation was introduced in both Houses of Congress to "freeze" in military service for the next 12 months all persons now in uniform.

This means that men whose enlistments are expiring could be kept in for another year.

In his message advising Congress that an additional \$10 billion should be spent to strengthen U. S. defenses, the President announced that he had authorized Secretary of Defense Johnson to dip into the reserves and the National Guard for as many units and individuals as might be required.

LIMITED CALL

The Army and Air Force promptly announced a "limited" call of reservists "to meet the needs of the Korean situation" and the Navy announced a "selective" service call-up.

The emphasis in all three services was for individuals with immediately usable skills, such as electronics experts.

The Army and Air Force indicated that some of their organized reserve units, as well as individual reservists, will be called. The Navy said there is a possibility that some air reserve squadrons may be summoned into service as units. The Marine Corps said it, too, may mobilize certain selected reserve units.

A decision on calling up National Guard outfits is not expected until around the end of this month.

The Defense Department declined to estimate how many of (Continued on last page)

Democratic Primary Election Scheduled Saturday, July 22

Voters Urged to Cast Ballot Early Sat., Attention Called to Election Laws

Voters in Aransas County will go to the polls Saturday to cast their vote for state, district and county officers, who will be named to serve for a period of two years.

Jas. C. Herring, Dist.-County Clerk, reported this week that 1065 persons have paid their poll taxes and are eligible to vote in this election, 36 persons have filed poll tax exemptions. The deadline for casting absentee ballots was July 18, at which time 43 had been cast.

Doctors Hold Open House at New Clinic Sunday

The public is invited to attend Open House at the McElveen-Graham clinic Sunday from 1 to 3 p.m., July 23, it was announced this week. The new clinic with modern facilities was recently completed for Dr. N. E. Graham and Dr. W. C. McElveen of Aransas Pass. C. C. Fowler was the contractor.

The concrete block building with stucco finish is located across the street from the Auto Service Company in Rockport. The interior is finished in white cast knotty pine, asphalt tile floors and acousticon ceilings.

The new clinic provides a reception room, dentists office and laboratory, consultation room, examination and delivery room, labor room, laboratory, and bath. Furnishings are Westwood style.

Mrs. C. O. Bailey has been named nurse in charge.

Dr. Graham is living in Rockport and will hold office hours regularly at the clinic. Dr. McElveen will also be available there.

Copano Village Woman Rescues Pair from Boat

A woman and her child, vacationing at the Adams home at Copano Village, were rescued from their fishing boat in Copano bay Monday afternoon by Mrs. I. E. Allemang.

The pair were fishing in the boat with outboard motor a short distance from shore Monday afternoon. When they were ready to come to shore, they discovered that it was impossible to start the motor. The anchor was let out once more as the lady decided to continue fishing, believing that someone would notice their plight and come to their rescue. After considerable time was spent fishing and playing with the child, it was observed that the anchor had not served its purpose and the boat had drifted far out into Copano Bay.

Mrs. Allemang was notified of the drifting boat by persons seeking assistance. Her husband was not on hand and Mrs. Allemang decided to go on the rescue mission by herself although it has been reported she had never operated the boat before.

After she had started the motor and got the boat well out into the bay, the tiler lines broke. Determined to complete the rescue, Mrs. Allemang managed to guide the boat to the scene and get mother and daughter safely aboard her vessel. The boat from which the couple had been fishing was rapidly filling with water and it was impossible for them to tow it ashore. A short time later the boat sank.

In no time at all the novice seaman had returned mother and daughter to their quarters on Copano bay.

Evening Services At St. Peters Church Sun.

The service of Evening Prayer and sermon will be conducted at St. Peter's Episcopal Church Sunday evening at 7 o'clock, July 23.

The Right Rev. Everett Holland Jones, D.D., Bishop of the Episcopal diocese of West Texas, will administer the service of confirmation and preach. Rev. Theodore C. Branch, rector of St. Peter's Church, will assist the bishop.

Mr. and Mrs. Burl Wagley and Ellis T. Holt of Houston spent the week-end with Mr. and Mrs. R. B. Sipe. Mrs. Wagley remained to spend the week with her mother, Mrs. Sipe.

Records show that 1,323 persons cast their vote in the democratic primaries two years ago, which was more than the total number of persons eligible to vote at the present time.

Fred Booth, Aransas County Democratic Chairman, this week called voters attention to the Texas election laws. He stressed the fact that all voters must have their poll tax receipt with them or sign an affidavit at the time they vote. All persons who forget their poll tax receipt will be required to sign the affidavit, he said. As a reminder, he added that to qualify a voter must also be over 21 years old, have resided in the state one year and in the county six months.

Booth urged that there be no loitering about the polling places. All ballots must be marked and deposited by the voter at once, he said. No ballots can be taken from the polls for any reason. Judges or clerks are not permitted to leave the polls from the opening to the closing of the voting. He pointed out that no voter shall be allowed to have a marked ballot or memorandum showing how or for whom to vote when he enters the polls.

Booth also urged that voters cast their ballot early if at all possible. There is no reason that half the ballots should be cast between the hours of six and seven p.m., he said.

The polls will open at 8 a.m. Saturday, July 22 and remain open until 7 p.m. Voters in the four precincts will cast their votes at the following places.

Precinct 1-A. — Aransas Pass, election judge, Glen Ellis.

Precinct 1. — Fire Hall, Rockport, judge, Gordon Terry.

Precinct 2. — Aransas County Courthouse, judge, Mrs. T. H. Ratliff.

Precinct 3. — Fulton School, judge, W. J. Moss.

Precinct 4. — Concession Hall at Goose Island State Park, election judge, Robert Key.

Rotary Speaker Recommends Future Planning for Area

Jas A. Jarboe told Rotarians at their Wednesday luncheon meeting, that Aransas Countians should consider future planning for the area. Many projects are in the process of completion, he said, and since it takes from three to five years to get a project underway, future plans should be made.

Jarboe pointed out that the Fulton Harbor project will likely be completed this year. He accompanied members of the Navigation Board to Port Lavaca where Mill Bauer guaranteed a loan of \$29,800 to dredge the harbor. The Navigation Board agreed to pay 5 percent interest on the loan until the money is forthcoming from the federal government, he said. The Army Corps of Engineers will now have to give permission for the project to be completed with funds provided by local interests, to be paid back by the government without interest when the funds are made available by that agency. Jarboe said that it is now costing Fulton boat operators \$10,000 a year to operate out of the Rockport harbor.

Jarboe suggested that in regard to future planning, a request be made for U.S. Engineers to make a study of beach erosion in Aransas County and a harbor of refuge for boats in time of storm.

Visitors at the Wednesday meeting were A. A. Walker, R. Erwin, Dr. Jack Auten, C. W. Robinson and Art Vonstrought, all of Ingleside, Richard Hatch of Aransas Pass, J. B. Green of Houston, Dr. Thorn of Wichita, Kans., Geo. Adams, Byran, L. J. Dimmitt, Pecos, Geo. Hoffman, Victoria and M. L. Cobb, Edna.

CAST YOUR VOTE SATURDAY

Saturday, July 22, will be the Democratic primary election for the purpose of selecting officers to serve in state, district and county offices for the next two years. The voters of Texas, including those of Aransas County will elect a governor and a lieutenant governor and ten other state officers.

There has not been a great deal of interest shown throughout the state this year. In fact, this has been one of the quietest political years in the history of the state. This is a year that presents a splendid opportunity to the people of Aransas County. For a goodly number of votes to be polled in Aransas County Saturday would increase the respect of office holders and candidates for offices of this county.

There are seven candidates for the office of governor, while an even dozen are listed on the ballot for the office of lieutenant governor.

During the past few weeks, as the candidates for public office have been about the state, visiting in the various towns and cities with voters, few have stopped in Rockport.

It is time to bring about a respect for this county. This can be accomplished by the casting of ballots by the people of Aransas County. Two years ago, there were 1323 votes cast in the Democratic primary. This year there are 1101 persons eligible to vote in the county. Remind your neighbors that Saturday is the day to go vote.

This newspaper makes no suggestion to its readers as to which person for whom to vote—it urges every voter, as a loyal American citizen, to vote.

Your vote can and does make a difference. It can be used to express an interest in the affairs of government—or it can be left unused and the operation of your government can be placed in the hands of an inactive minority. If you want to run your government and have a voice in it—GO VOTE.

An appeal to all citizens in the Rockport area to vote Saturday was issued today by Mrs. Mary Juergens, Manager of the Retail Merchants Association.

"This may be the most critical period in our country's history," Mrs. Juergens said, "and it is important that the best qualified candidates be elected to serve."

She urged each poll tax holder to screen the qualifications of each candidate carefully between now and election day.

Mrs. Juergens noted a lack of interest in the primary election this year, and warned that such apathy could be dangerous.

"It is possible," she said, "that only half a million votes will be cast Saturday. This could mean that 250,000 voters—or less than one-thirtieth of the people—will determine who shall hold office in our State Government. Such a condition is dangerous because a small subversive group could possibly gain control of our Government."

Mrs. Juergens said that to prevent this from happening it was essential that every citizen vote Saturday and that he urge his friends to do likewise.

Political Announcements

The Pilot is authorized to announce the following candidates for the respective offices named, subject to the Democratic primaries:

For State Representative, 70th District:
JOHN N. BARNHART

For District and County Clerk:
JAS. CLARK HERRING (re-election)

For County Judge:
JOHNNIE D. WENDELL
D. R. SIMMONS (re-election)

For County Attorney:
WELDON CABANISS (re-election)

Warden Impostor Fleeces Merchant

AUSTIN—The Director of Law Enforcement of the Texas Game, Fish and Oyster Commission has alerted field men about a man who falsely represented himself as a game warden as a means of cashing a worthless check.

The spurious agent recently identified himself as a "district supervisor" for the Commission at Wharton, Texas. This enabled him to cash a fake check drawn on an Austin bank, that cost a merchant \$150. He is described as 35 years of age, six feet, two inches tall, 210 pounds with black hair and dark eyes.

Joe Johnson Jr. left Sunday for A & M College where he will attend summer school.

Mr. and Mrs. Edgar Cain of Breckenridge are guests at Palm Village.

Poetry Society To List Texas Poets

A complete list of Texas poets is wanted for the bibliography being compiled by the Poetry Society of Texas. All poets in the state who have not been listed are asked to send their names and information about their work to David R. Russell, 2945 Stanford, Dallas, Texas.

Mr. Russell, president of the Society, reports that it is hoped that the forthcoming Bibliography of Texas Poets will be a complete reference work on the subject.

Week-end house guests at the home of Mr. and Mrs. R. R. Rice were Mr. and Mrs. Ross Allen, Dr. and Mrs. M. J. Perkins and Mrs. Harold Carpenter, all of Corpus Christi.

WATCHFUL COP—In the Formosan capital of Taipei, eyed by communists as a lush war prize, policemen keep a watchful eye on traffic from modern street stands equipped with no less than four electric signals. Now that Chiang Kai Shek has made this city the home of his nationalist forces, traffic has become more of a problem.

Social Security Administrative Costs Kept Low

It costs less than 13 cents to keep track of a worker's earnings under social security for an entire year, according to figures furnished by H. M. Cleveland, manager of the Corpus Christi office of the Social Security Administration.

As explained by Cleveland, the old-age and survivors insurance system is based upon individual wage accounts in which the government keeps a record of each worker's earnings in jobs subject to the law. So far, accounts have been set up for about 80 million individuals who have some wage credits. The entire job of establishing and maintaining these millions of accounts costs about 1/2 of one percent of the taxes col-

lected. The overall cost of the complete program, including the collection of taxes, record keeping, and payment of claims, is now approximately 3 percent of the social security tax collections. The percentage of the costs of administration to the taxes collected is steadily declining.

This record for economy of administration has seldom been equalled in government or business, Cleveland stated. The results have been achieved by use of the most modern technical methods and by strict attention to economy and efficiency. In support of this statement he cited figures which show that the same amount of work which required 100 employees in 1941 was done by 60 in 1949.

As an example of his agency's speedy action, Cleveland mentioned the furnishing of wage statements. These statements are

furnished upon receipt of signed requests from account number card holders, in much the same way that a bank furnishes a statement to its depositors. In spite of the fact that requests are received in the central accounting office of the Social Security Administration, at the rate of about 3,000 a day, each individual account is located among the millions in file, a summary of his earnings is prepared, and the statement is in the mail within 72 hours from the time the request is received.

Mr. and Mrs. Charlie Griffiths of Omaha, Nebr., daughter, Mrs. Holley and granddaughter of San Antonio, spent last week at the home of Mr. and Mrs. Charmley in Fulton. The Griffiths and Charmleys were next door neighbors in Omaha.

U. S. Civil Service Announces Vacancies

The Civil Service Commission announces examination for the position of Superintendent (Utility Railroad Equipment), GS-11, at a salary of \$5,400.00 per annum. Employment will be with Headquarters Fourth Army, Fort Sam Houston, Texas, or at various other Federal establishments in the vicinity of San Antonio, Texas, including San Marcos Air Force Base.

Applications for the position of Stenographer at entrance salaries ranging from \$2,450. to \$2,875 per annum are also being received. Employment will be with various Federal agencies in the State of Texas. Application forms and additional information may be secured from the post office or from the Regional Director, Four-

teenth U. S. Civil Service Region, 210 South Harwood Street, Dallas 1, Texas.

Merman Hutchins and sons, Marvin and Dean, of LaPorte, Texas spent the week-end in Rockport with relatives and friends.

LETTER TO THE EDITOR

Hi Folks:

We're just back from the National Boy Scout Jamboree, held at Valley Forge, Pa., June 29 to July 8, and we thought the home folks might like to have some of the highlights on our "trip of a lifetime."

William Hiett and I were the two Scouts representing Rockport on this trip, having been selected on a competitive merit basis.

We spent the first week of June getting ready for our trip. First of all, there was much "red tape" in connection with the Jamboree: forms to fill out, insurance, correspondent back and forth, many bulletins from headquarters to be studied, and catalogs from which to order our equipment and clothing. Our fathers bought our clothes and equipment and set aside our spending money allotment. Our mothers sewed innumerable badges and insignia on all our uniforms. (The special Jamboree insignia depicted General George Washington kneeling in prayer). We went to our doctors for physical checkups and vaccinations.

Our transportation and board were paid from money raised locally and we want to thank all the people of Rockport who made the trip possible for us by their financial support of the various

projects that raised this fund.

We were also busy accumulating our trading material. This consisted of horned toads, sawfish blades, shells, small catfish, souvenirs and other odds and ends.

On Friday, June 23, at 3 p.m. our parents deposited us, bag and baggage, at the Corpus Christi Naval Air Base. Our Jamboree troop was No. 31, Section 16, and was composed of Scouts from Corpus Christi, Rockport, Aransas Pass, Ingleside, Edna, Gregory and Ganado. Our leaders were Scoutmaster Shorty Lewis of Corpus Christi, E. F. Corbin of Ingleside and Father Augustin Linbeck of Corpus. There were three other Jamboree troops en-camped there besides ours.

At the Naval Base we received pre-Jamboree training—practiced setting up the Jamboree tents, cooked some of the Jamboree menus, checked all our equipment, drilled and had another physical once-over. There was fun too; while there we went swimming and saw a movie. Twice we were guests at the Naval Cafeteria.

THE BIG PUSH

On Sunday, June 25, we packed up, put on our travel uniforms, and otherwise got ready for the big push to Valley Forge. We were really excited when the Navy buses rolled us in to the S. P. station at 10 p.m. All our parents were there to see us off and after our luggage was loaded, we could visit with them until train time. Finally it was 11:30 and the train pulled out with much waving and yelling from boys and parents. "Valley Forge or bust!" shouted the Scouts as the train started to roll.

The next morning we were in Houston after having picked up more cars of Scouts all night along the way. We were not allowed to leave the train at Houston. Had our breakfast on the diner.

We arrived in New Orleans at 4:35 p.m. with more Scouts added to our train. We were given

a bus tour of the city, ate at a cafeteria, went to Audubon Park, and left there at 10 p.m. on the L. & N.

Then there was a long drag, broken only by a stop at Atlanta, before we reached Washington. We amused ourselves on the train by singing, playing games, reading, writing postcards and cutting up in general.

On June 28 at 6 a.m. we arrived at the national capital. Here we had the best tour of all with a very fine guide. We boarded buses and went to the U. S. Navy Cafeteria for breakfast. This building contained many scale models of famous warships. From there we went to the Lincoln Memorial, an experience none of us will ever forget. Next we went to Arlington National Cemetery and saw the changing of the guard at the tomb of the Unknown Soldier. Then we journeyed across the countryside to Mt. Vernon.

There we saw the beautiful furniture used by George Washington. We also saw the graves of George and Martha Washington. From there we went into Alexandria, Va., and saw the church where Washington worshiped. We also saw the many houses built in the early 1700's including the house in which Robert E. Lee was born. Coming back into Washington on the beautiful Memorial highway, we passed the towering George Washington Masonic Memorial. We also passed over the famous tidal basin and saw the Thomas Jefferson Memorial. Back in Washington again, we rode the "shortest railway in the world". This is the underground railway that takes the Senators from their office buildings to the capitol. After lunch at a cafeteria, we were on our own and visited the Smithsonian Institute where we saw many interesting exhibits, including the original Wright Brothers airplane. We then saw the Capitol building, the White House, the Washington Monument and the Library of Congress. We left Washington at 11:30 that night on the Pennsylvania Railway.

FIRST DAY—WORK

Early next morning we were in Valley Forge. We really had

to get to work then. We had to clear the land for our campsite first. Next we set up our field kitchens and got breakfast going. After breakfast we settled into the steady business of setting up tents, ditching them, and general cleanup. We had to get provisions from the commissary and fill our three 40 gallon waterbags. We did not have time for any play that day. All over the huge area thousands of Scouts from our country as well as others were doing the same thing.

Next day, June 30, was the official opening of the Jamboree. We spent most of this day in swapping. That night we all filed into the arena to hear the President open the Jamboree. It was a grand sight to see 47,000 Scouts, coming from all points of the compass, toward one central position. After the President's

BIRTHDAY PARTY FOR DARLENE EVANS

Mrs. Annie Evans entertained a group of youngsters at her home last Friday afternoon honoring her daughter, Darlene, on her fourth birthday.

The children spent the afternoon playing games.

Refreshments were served to Benny Lynn Mullinax, Marlena Evans, Judy Mullinax, Danny Zowadski, Robert Hester, and the honoree.

Mrs. Evans was assisted by Mrs. Roy Mullinax and Mrs. Lora Hubble.

FRANK W. HUNT CELEBRATES 81ST BIRTHDAY TUESDAY

Mr. and Mrs. Fred B. Hunt entertained at their home Tuesday afternoon honoring Mr. Hunt's father, Frank W. Hunt of Beeville, on his 81st birthday.

Refreshments of cake and coffee were served by Mrs. Fred Christilles and Mrs. Hugh Highfill.

Friends of Mr. Hunt who gathered to celebrate the occasion were Mr. and Mrs. A. L. Bruhl, Mr. and Mrs. Fred Booth, Mr. and Mrs. Chas. Cleveland, Mr. and Mrs. Fred Christilles, Mrs. Miles Murray and Miss Mary Murray of San Antonio, Mrs. Hugh Highfill, Mrs. M. Fahr, Miss Lillie Fahr, Jimmy Hunt and Mrs. Frank Hunt.

BIRTHDAY PARTY AT CAMEHL HOME

Mrs. Henry Camehl entertained with a party at her home Monday afternoon honoring her daughter Tamara, on her fourth birthday.

Twenty-two youngsters gathered for the yard party. The birthday cake featured miniature animals and carried out a circus theme. Refreshments of ice cream and cake were served.

Those attending the party were Julia Fox, Azalea Shivers, Sue Ann Johnson, Mary Lou Johnson, Sharon Spencer, Sandra Spencer, Jeannie Diederich, Betsy Sparks, Janice Fay Garrett, Colla Utley, Dolla Utley, Donna Lassiter, Connie Sue Kent, Janet Claire Grant, Dorothy Rowe, Sue Hackett, Bart Rozzell, Steirly Rozzell, Mike Rippey and Roger Rippey.

Recent house guests of Mr. and Mrs. Joe Smith were Mr. and Mrs. Paten Ash and son of Houston and Mrs. Nora Ash of Taylor, Texas.

Visitors at the E. R. Blaylock home this week were Mr. and Mrs. Winston Davis and Mr. and Mrs. John Henderson of Waelder and Mrs. N. A. Newton of Bay City.

ARSUAGA-GARZA PLEDGE VOWS AT CHURCH CEREMONY

Miss Susie Garza and Antonio S. Arsuaga exchanged vows in a double ring ceremony performed Sunday afternoon at the Sacred Heart Church with the Rev. Herbert Bockholt officiating.

The bride is the daughter of Mr. and Mrs. Gavino T. Garza of Rockport and the groom is the Arsuaga of Corpus Christi.

White gladstoles were used in the sanctuary. Sister Mary was organist.

The bride, given in marriage by her father, wore a dress of white satin designed with a nylon yoke, fitted bodice and bouffant skirt. Imported lace was used to accent the yoke. The train was in cathedral length. An arched tiara held a train-length veil. She carried a pink bouquet.

Miss Mary Arsuaga was maid of honor. Bridesmaids were Mrs. Teodoro T. Gonzales, Mrs. Antonio Diaz, Mrs. Ismael Arsuaga, Miss Dora Soliz, Miss Beatrice Garza, Miss Palmira Garza, Miss Petra Falcon and Miss Manuelita Guerra. They wore dresses of pastel shades with carnation corsages.

Teodoro T. Gonzales was best man. Groomsman were Antonio Diaz, Ismael Arsuaga, Pete Ramirez, Glasido Solis, Emilio Alvarado, Frank de la Rosa and Rudy Farlas.

A reception was held in the Garza home. The table was laid with a white linen cloth and centered with a bride's cake. Mrs. Joe Valdez served.

For traveling the bride wore a navy blue dress with pink accessories. After a wedding trip to the Valley, the couple will be at home in Corpus Christi.

The bride attended schools here and the groom was graduated from high school and attended business college in Corpus Christi.

STORK SHOWER AT OTTIE MUNDINE HOME SUNDAY

Mrs. Oattie Mundine and Mrs. Glen Mundine entertained with a stork shower at the Oattie Mundine home Sunday afternoon, honoring Mrs. John Downs of Woodboro.

Gifts were presented Mrs. Downs in a basket decorated in the pink and white color scheme.

Refreshments were served to Mrs. Edwin Mundine, Mrs. O. C. Cole, Mrs. Elbert Mundine, Mrs. Mattie Cole, Mrs. Sherman Mundine, Mrs. E. Smallwood, Mrs. Bertie Cole, Mrs. Frank Casterline, Mrs. Sam Mundine, Mrs. Norman McLead, Mrs. Annie Evans and Mrs. Ross Downs of Bayside.

Letter to the Editor

(Continued from Page 4)

speech, we witnessed a pageant telling the Valley Forge story from the time the weary, footsore soldiers of Washington dragged themselves into the snow-bound hills until the wonderful news of the alliance with France. We all returned to our camps with a new feeling of the heritage we possess.

The next three days were spent in more swapping and getting acquainted. On Sunday, July 2, we had outdoor religious services for all faiths.

July Fourth dawned bright and clear. There was tremendous expectancy in the air. It was to be a big occasion, for that night we were to have a mammoth show. As the time drew near we again assembled in the arena. First on the program was the largest show ever put on by the Boy Scouts of America. It told the story of the United States from the time of the Indians to now. To produce it involved more than 8,000 Scouts and leaders. Next Gen. Eisenhower gave a talk on our heritage. Then the largest moment of the day came—a \$5,000 fireworks show which lasted for nearly two and a half hours. It was really colossal. Again that night we went to be thrilled that we were a part of this big show.

SWAPPING AND TRADING

Another day of swapping and trading passed. These days we were free. We took many tours of the park and saw: Washington's headquarters, Varnum's headquarters, Huntington's headquarters, the Washington Memorial Chapel, the Park Museum, the many soldiers and officers huts, the old camp school, the famous covered bridge, and the many fine statues commemorating the soldiers of Valley Forge. We also toured Philadelphia.

Then the last day of the Jamboree arrived. We had a grand program planned for that evening. Dr. Arthur A. Shuck, Chief Scout Executive of the United States, and many foreign scout leaders were to speak to us. Dr. Shuck was presented with two high honors of other countries: the Silver Elephant of India and the Silver Horse of Argentina. Our own highest award—the Silver Beaver—was presented to the Scout leaders of these countries. As the Jamboree closed we all stood and sang "America the Beautiful."

All the next day, July 7, we were engaged in breaking camp. On July 8, at 5:30 in the morning, we left for New York, arriving there about 9:30 a.m. We boarded buses for a tour of the city which took us to the Bowery, Chinatown, the Battery, the Bronx, Harlem, Greenwich Village and the Wall Street district. We ate lunch at the Humble Cafeteria in the Esso building, which is the latest addition to Rockefeller Center. After lunch we took a tour of the NBC studios in Radio City. There we saw radio programs being rehearsed and produced, also the largest radio studio in the world, where the NBC Symphony, Chesterfield Supper Club and many other fine programs are put on the air. All through the building were many interesting displays of early and

ARANSAS PASS WSCS ENTERTAINED BY LOCAL GROUP

Mrs. O. B. Thompson was hostess at her home Tuesday afternoon to members of the Rockport and Aransas Pass members of the Methodist W.S.C.S. who met to celebrate the 10th birthday of that organization in connection with the chain visitation program. Co-hostesses were Mrs. J. A. Walling, Mrs. John Haynes, Mrs. Clark Rooke and Mrs. W. B. Allen.

The program was led by Mrs. Harold Teegerstrom. She was assisted by Mrs. A. C. Glass, Mrs. Neil Raulerson, Mrs. Raymond Sparks, Mrs. T. C. Kelly, Mrs. E. G. Cooke and Mrs. W. B. Allen.

Mrs. B. W. Hamblin, president of the society, gave a welcome to the visitors from Aransas Pass. Questions by the visiting Society were asked by Mrs. Garnett Saint. The response was given by Mrs. Haynes, Mrs. Cooke, Mrs. Hamblin, Mrs. Chas. Garrett, Mrs. Allen, Mrs. Teegerstrom, Mrs. Glass, Miss Ethel Friend, Mrs. Walling and Mrs. Joe Smith.

Mrs. I. E. Allemann gave one of her original poems.

Refreshments were served to 23 members of the Rockport society and 12 members from the Aransas Pass Society.

ATTEND WEDDING

Mrs. E. R. Blaylock attended the wedding of her niece, Dorothy Cartwright, and Lewis Wagner of Houston. The wedding was held at the Methodist Church in Bay City Saturday evening. Mrs. Winston Davis of Waelder, the former Bonnie Blaylock, was matron of honor. The couple will make their home in Houston following a wedding trip to Miami, Fla.

modern radio equipment. We left New York late that night.

At 1:30 the next day we arrived at Niagara Falls. We immediately crossed into Canada for a better view of the Falls. While in Canada we saw the beautiful parks that line the Niagara River. We also saw the Whirlpool Rapids which is the fastest running stretch of water in the world. The waves sometimes reach a height of 40 feet. We saw the barrel in which a Canadian man is going to shoot the falls next November.

Our next stop was Nashville which we toured briefly. We were now on our way home and the weather grew hotter as the train got slower.

Back in New Orleans again, on July 11, it was raining hard so we were confined to the station. By the time we reached Houston all we could think of was home.

After a three hour delay, we finally arrived in Corpus Christi on Wednesday, July 12, and boy, it was great to see the homefolks all there to welcome us. What we wanted most was breakfast as we'd had none on the train. After that everyone scattered for home, hot baths, and the business of "telling all about it."

We'll always be grateful for our wonderful trip to Valley Forge.

PORT BAUGHMAN

YOUNG MATRONS PLAY BRIDGE AT CABANISS HOME

Mrs. Weldon Cabaniss entertained members and guests of the Young Matrons Bridge Club at her home Wednesday afternoon. Mrs. G. C. Francisco held high score. Mrs. J. B. Jackson claimed second high and Mrs. DeWilton Jeffries was awarded the consolation prize. Mrs. Arley Shivers won the 'bingo' prize.

Six tables of bridge were in progress. Those playing were Mrs. Harold Picton, Mrs. C. C. Fowler, Mrs. Emory Spencer, Mrs. Arley Shivers, Mrs. Ed Barnard, Mrs. N. F. Jackson, Mrs. J. B. Jackson, Mrs. DeWilton Jeffries, Mrs. T. J. Johnson, Mrs. Chester Johnson, Mrs. Harry Mills, Mrs. Steirly Rozzell, Mrs. Dick Picton, Mrs. Roy Rogero, Mrs. Joe Johnson.

SWIM PARTY

Mrs. Tracy Williams was entertained at an early morning swim party at the roadside park last week before she returned to her home in Frederick, Okla.

Ladies who planned the party were Mrs. E. S. Crow, Mrs. Jewel Ballard, Mrs. Tootsie Dittforth, Mrs. Pearl Zowarks, Mrs. Geneva O'Neal and Mrs. Joe Smith. Mrs. Williams and daughters had visited at the home of her parents, Mr. and Mrs. Joe Smith for three weeks.

son, Mrs. Leonard LeBlanc, Mrs. Herbert Mills, Mrs. C. F. Rozzell, Mrs. G. C. Francisco, Mrs. Louis Bailey, Mrs. Henry Ballou, Mrs. Clark Wren, Mrs. Arthur Bracht and Mrs. Chas. Roe, Sr. Mrs. J. K. Gibson was a tea guest.

JOE L. JOHNSON, Owner

Biologists Continue Investigations On Menhaden In Port Arthur Area

The Texas Game, Fish and Oyster Commission recently approved experimental studies in connection with authorizing the issuance of licenses for 14 additional menhaden seines, to be used from July 16 until Sept. 1.

Joe Breuer and Byron Baker, marine biologists, have been assigned to the fleets for a three week period to continue the investigations begun two years ago and which were carried on in the waters of Louisiana adjacent to

Port Arthur. These biologists will be assigned to the task of determining whether information gathered during the past two years east of the Port Arthur jetties is valid west of the Port Arthur jetties. They will have the power at any time to prohibit fishing if, at any time, appreciable damage is caused to either food or game fish during the menhaden operation. There seems no reason for any apprehension in this regard, J. L. Baughman, chief marine biologist, stated.

Biologists F. M. Daugherty and Ernest Simmons will handle the investigation for the final three week period.

The question of whether or not these boats will be allowed to fish after this six weeks period, depends entirely upon the way the fishery is prosecuted and upon the effect on other fisheries as determined by the biological investigation, Baughman said.

Two plants in the Port Arthur area are permitted to operate a closely controlled fishery in Texas waters for a period of six weeks which was effective July 16. Each may operate not more than seven menhaden fishing vessels exclusive

of purse and stricker boats. Only one vessel of each company may operate within the one mile limit, only two of each company may operate between the one and three mile limit and the balance of the boats must operate outside the three mile line in the Gulf.

There has not been a Menhaden fishery in Texas since about 1922. The Quinn Fishery at Port Arthur has operated in Louisiana. A second plant in the Port Arthur area is being completed, a good portion of which is owned by local capital.

In 1901 Texas produced 26,806,500 pounds of menhaden from which 69,639 gallons of oil and 17,010 tons of meal was produced. After that year the industry lapsed in this State until 1918, when about 14,000,000 pounds of menhaden were produced. Production tapered off after that and the last operations were reported in 1922.

The primary reason for cessation of the fishery at that time was the low price of oil and meal which made the fishery unprofitable.

WELL DONE!

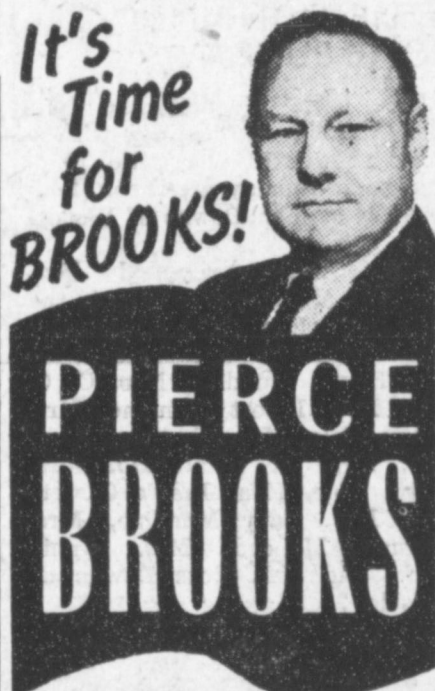

This pretty miss is taking advantage of Old Sol's rays to acquire a flattering tan. For her tanning hours, she wears a cotton costume that permits her to make the most of her opportunity. Stephanie Koret designed the brief shorts of waffle pique and contrasting cotton print halter, the National Cotton Council reports.

Call For Volunteer Enlisted Reservists

CORPUS CHRISTI—An immediate call for volunteer enlisted reserve men and WACS for extended active duty has been announced by Colonel Oscar B. Abbott, chief of the Texas Military District.

Reservists most urgently needed include radar, radio, tank, anti-aircraft artillery mechanics, engineer heavy equipment operators, cryptographic technicians and engineer construction specialists.

Included in the requirements for enlistment are: Reservists must agree to serve on extended active duty for a minimum period of one year and meet current physical requirements.

Interested enlisted Reservists are urged to contact their Organized Reserve Corps Instructor, Colonel Nels L. Soderholm, Building No. 2, Naval Air Station, Corpus Christi, Texas for further details.

A CHANGE IS NEEDED

Vote For
John N. Barnhart
FOR STATE REPRESENTATIVE

For greater efficiency, better laws, and hard-working government.

Experienced in Legislative procedure, having worked as the Committee Clerk in the Texas Legislature four years.

A lawyer trained in law making.

Impetigo Calls For Extreme Caution

AUSTIN—When a state health authority says there is no such thing as a natural resistance to impetigo, parents of small children know exactly what he means. Those parents know, perhaps from bitter experience, that the same individual can suffer repeated attacks from what State Health Officer Geo. W. Cox calls an "offensive, annoying skin infection."

Although children are unusually susceptible, impetigo can be found in any age group, Dr. Cox said. It is most prevalent during the summer months, but has been known to occur at any month.

Impetigo, according to Dr. Cox's explanation, is a purulent skin infection. It isn't too serious, except in new born babies. An invasion of a hospital nursery ward calls for extreme attention to keep uninfected babies from getting it, for it spreads like fire in dry grass.

Impetigo is caused by a pus forming bacteria called staphylococcus—the same sort of germ found in boils and sores where pus is present. Usually it forms an unsightly crust over wide areas of the body. The pus underneath the crust is highly infectious if allowed to get on any other skin surface.

The infection is easily transmitted when a non-infected person uses the towel of someone infected, since the towel moisture per-

mits the germ to survive.

Children living in the most hygienic homes frequently get impetigo, although it is perhaps more common among children living in homes where personal sanitation isn't considered too important.

Dr. Cox says soldiers are often infected, because they have small chance for keeping consistently clean. It may involve a whole arm, or a side of the face and neck.

The only way to minimize the ill effects of impetigo is to keep the infection localized, that is, keeping it from spreading. This can be done only by preventing the pus or serum from exuding onto "clean" skin surfaces.

The family physician is the infected child's best friend. He'll advise the mother how best to combat the ailment, and how to keep it from spreading to other members of the family.

Bascom Giles Addresses Texans At 7:15 Tonight

State Land Commissioner Bascom Giles will report to Texans upon the development of the state public school and university lands Thursday (tonight) at 7:15 p.m. His address will be broadcast over a special network of 22 stations.

Giles, under whose direction the two school funds have passed the staggering total of \$250,000,000, seeks re-election to the office he has held since 1938.

Giles' radio report will also discuss the "tragedy of the tide-

lands", the fight by Texas to retain possession of oil-laden submerged lands adjacent to the Texas coast. Giles, first state official to urge Texas action to hold these valuable properties, has been in Washington often pleading the cause of the Lone Star State.

In his radio address Commissioner Giles will also report on the development of the \$25,000,000 Veterans' Land Program, which he originated and sponsored, and will discuss his plan to expand the present program.

One of the few state elected officials to "come up from the ranks", Giles has spent 30 years

in the General Land Office. In 1938 he made his first political campaign, winning over a strong field in a stunning upset and has never had serious opposition since. Two years ago he won easily over three opponents without a runoff.

Father of two sons and proud of two young grandchildren, Giles comes of a respected and venerable Texas family. His family has owned the same farm in Travis County since 1850. His great grandfather served with General Rusk against the Cherokee Indians and his grandfather, Leonidas Banton Giles, was historian

of Terry's Texas Rangers. His wife is the former Effie Dean Rogan.

In private life Giles is a sports lover, active in civic and fraternal organizations and is a "hobbyist historian". Material compiled under his direction was written into a history of the Texas domain, "Lots of Land", which was published in 1949, and a popular pamphlet, "History and Disposition of the Texas Public Domain."

Mr. and Mrs. George Dahse of Woodboro were Sunday guests at the Fred B. Hunt home.

Mrs. J. J. Fletcher of Dallas returned to her home this week after spending 10 days visiting her sister Mrs. Tom Rooke. Mr. Fletcher is visiting at the Rooke home this week. Mr. and Mrs. Paul Fletcher and daughter of Dallas are expected to arrive next week to spend their vacation with their aunt and uncle. J. J. Fletcher Jr. of Mildand flew down to spend the past week-end with Mr. and Mrs. Rooke.

Mrs. Lena Jannett and daughters, Misses Augusta and Estelle, of Yoakum spent the week at Walton Courts.

BRUSH FIRE

(Continued from Page 1)

this morning. On three occasions the fire department was called to extinguish brush fires which had developed from burning trash, according to reports from fire fighters who rushed to the scene. At 10:45 a.m. the firemen were called out to put out a blaze which had started at the rear of the Clyde Townsend home. Ten minutes later another fire had got away just west of the Worley Dietrich home in the north section of town. At one o'clock firemen were called from the dinner table to battle the blaze west of the Dietrich home which had flared up again.

Fire Chief Chas. Ankele added his plea to that issued by Fire Marshall Barnard earlier in the day—that persons desiring to burn trash ask permission from the fire department and that when permission is granted, they stay at the scene of the fire until the last spark has died. It is foolish to start such fires when strong winds are blowing, trash burning can wait until a calm day, they said.

Texas State Guard Reserve to Bring Units Up to Full Strength

In view of the threatening international situation and possibility of the Texas National Guard being called into Federal Service, Colonel Hobart Huson, of Refugio, commanding the 9th district of the Texas State Guard Reserve Corps, has instructed all officers of his regiment to accept enlistments of men of unquestioned loyalty, and bring all units up to full strength.

The purpose of the State Guard Reserve is to replace the Texas National Guard whenever the latter is called into Federal Service, so that the state will not be without internal security of military nature. The Reserve becomes automatically activated when the National Guard is Federalized.

At present, eligibility in the Reserve is restricted to those who have had service with the Texas State Guard, the Texas National Guard or any of the armed forces of the United States. The forthcoming legislature will be requested to remove the restriction. The age limits are 18 to 60. The fact that one has some physical handicap does not disqualify him if he can efficiently render some needed service. It is the policy of the Reserve Corps to prefer those who are not likely to be drafted into the Federal service.

Those interested in protecting vital installations of their home community and assisting in maintaining order, are advised to contact some member of the Texas State Guard Reserve Corps. Every applicant is carefully screened as to loyalty and character as prerequisite to acceptance, hence, each applicant should present letters of recommendation.

Mrs. H. C. Floyd underwent a major operation at the Rockport hospital Sunday night. She was released from the hospital this morning.

RESERVE CALLS

(Continued from page 1)

the more than 2 million members of the reserves will be called to active duty.

MAY RAISE AGE LIMIT

The defense department is expected to take a further step to mobilize manpower by asking Congress to raise the top age subject to draft from 25, possibly to a new figure of 35.

Under the present draft law, which provides for the drafting of men aged 19 through 25, draft boards have been called upon to furnish an initial quota of 20,000 men.

In announcing its "selective" call-up of reserves, the Navy said that no deferments will be granted except in cases involving key industrial jobs vital to defense or in cases where community welfare would be seriously affected.

The Navy said its quotas will be filled as far as possible from the organized reserve, who are considered to be qualified for active duty, and from the fleet reserve.

ONE-YEAR SERVICE

All three services said that they intend to provide a minimum of one year's service for reservists ordered to extended active duty. And all three said that reservists man continue to volunteer for active duty.

The Army and the Air Force said reserve officers returned to active duty, either by volunteering or being called up, will keep their latest reserve grades. They promised that reserve officers holding the rank of major or higher, but already on active duty in a rank lower than that, will be considered for promotion before there is any general recall of reserve officers of comparable rank.

The Army said it badly needs medical, engineer and infantry officers holding the rank of captain or lower.

Enlisted reservists most wanted by the Army are those who have been trained in airborne operations, electronic, tank and armament maintenance work, certain military intelligence, medical, communication and wire maintenance technicians, as well as some engineering and construction specialists familiar with landing craft operation, camouflage, and construction of bridges, roads, ports and airfields.

The Air Force also said its requirements for individual officers are predominately for those holding the rank of captain or less. Like the Army, however, it said certain critical specialists, as well as officers who may be called to duty with their units, will be required in other grades.

Mrs. Katie Bivins, Miss Shirley Bright and Reddis Stulting of Gonzales were week-end guests of Mr. and Mrs. Roy Rogero. Mrs. Nelda Bivins accompanied them back to Gonzales after a two week's visit here.

Mr. and Mrs. Roy Woods will return Sunday from a two weeks vacation trip to Black Hills in South Dakota, Yellowstone Park and Estes Park. They also visited with Mrs. Woods' sister and family who recently moved to Wyoming.

Gulf Fisheries Group to Confer

The Executive Secretary, Howard Dodgen, of the Game, Fish and Oyster Commission will attend a meeting of the Gulf States Marine Fisheries Commission at Mobile, Alabama, July 20-21. He is vice-chairman of the group. J. L. Baughman, chief marine biologist at the local marine laboratory will also attend.

A principal topic will concern progress reports on biological research and exploratory commercial fishing recently authorized. Veritable floating laboratories are being used for the scientific studies designed to benefit the already vast coastal fishing industries.

W. Dudley Gunn, secretary-treasurer of the interstate fisheries organization, reports that the Mobile conferees will consider developing a program in fishery technology. It would cover refrigeration and preservation, processing and curing, sanitation and bacteriology of fish, nutrition, by-products, and fishing gear deterioration.

11 Cars Smashed In Stock Car Race Tues.

John Abert Ratliff won second place in the Helmet dash, placed third in the first heat, and demolished his car in the last race at the Corpus Christi Speedway Tuesday night.

Ratliff says that the frame of No. 11 was completely demolished in the final race when 11 cars were smashed. The motor was not damaged.

Ratliff and Tim Haynes, partners who drive the car on alternate weeks, are fixing up another car, a 1935 Ford which will be known as No. 12, to enter in the races next Tuesday. Haynes will arrive next week.

The boys entered their car in three races before it was demolished in a race which Ratliff described as the 'most thrilling to date'.

J. L. Baughman attending an Oceanographic Conference at A. & M. College Monday departed from there for Mobile, Alabama, where he will attend a meeting of the Gulf States Marine Fisheries Commission. He was accompanied by Mrs. Baughman and Port.

Francisco Place 2nd In Sailboat Race

According to reports recently released, the Offshore II, captained by George Francisco III, placed second in the sailboat race July 2.

Twelve boats were entered in the race from Corpus Christi to Rockport.

The bottom of Corpus Christi Bay kept the Mars, captained by Travis Bailey, at a standstill for awhile, in spite of which the Mars was listed in sixth place.

Corpus Christi sailors prepared their supper on the Rockport beach and remained over the week-end to enjoy the small boat races. They returned to Corpus Christi on Monday.

SUPRISE PARTY FOR MRS. CRIST

Mr. and Mrs. Frank Zeller and Bill Crist arranged a birthday surprise party for Mrs. Crist Wednesday night.

In her absence the group prepared a chicken supper with birthday cake for her.

Guests were Mrs. Emma Sowerbutts, Wm. Fritze and Tootsie Bruner.

Miss Audrey Bruner of Dallas visited with her aunt, Mrs. Bill Crist, today.
