NUMBER 33.

RAILROADS ARE USING MORE MOTOR CARS

The following article is from an issue of the Wichita Eagle and makes us think that the day is not distant when the Santa Fe officials will see fit to commence the operation of a motor car service over a branch of the road. As will be seen by this story, motor car service is proving to be successful and we know the reason why it would not be in a country.

Extensive operation of gasoline cars is looked forward to by the railroads as their only means of recovering the business taken from them in the past years by the rapidly increasing number of motor buses.

The progress made in construction of hard surface roads, which has led to an increase in the number of motor buses, has reduced railroad passenger traffic for short-distance travel more than 40 per cent, the past year, according to A. W. Towsley, manager, superintendent of transportation for the Rock Island railroad, who spent Friday in Wichita attending the conference of the Trans-Mississippi regional advisory board. During the last three years the railroad passenger business in short-distance hauling has been reduced 80 per cent by the motor buses," said Towsley. "While the railroads are not trying to freeze out any legitimate business, the slump in railroad passenger traffic is proving a serious blow to the more important business of freight traffic. Unless the cars can revive their passenger business the brunt of the decrease in their income must fall upon the shippers. As much as to haul a half a hundred, but look at the difference in the revenue."

Gasoline cars have been tried successfully on the railroads in the east and western United States, but just making their debut to the west, said Mr. Towsley. The Rock Island now has seven gasoline cars in operation on its lines in Arkansas, Missouri and Kansas, he said, expressed the belief that within two or three years the operation of gasoline cars on railroads will be universal."

ART DEPARTMENT WANTS EXHIBITS

Mr. David D. Shanks, superintendent of the Domestic Art department at Fair reports that her department is going to be bigger and better than before but that they will still have many more entries. If you have things to show, you are requested to get in touch with Mrs. Shanks or her assistants who are Messrs. R. T. Shindler, C. B. Rogers, J. Coffee, Clarence Zirkle and Ray of Booker. This department consists of embroidery, lace work, knitting and crocheting, fancy sewing, floral flowers, wax work and basketry.

CYCLE RIDERS ON SIDEWALKS OF PERRYTON

A number of ladies have called at Herald office during the past week and complained to us about the side walks in the resident section of the city. This practice is enough during the day but when it comes to night riding it is absolutely dangerous and it should be stopped. The sidewalks were built for pedestrians and not as a public play area or bicycle track.

Mr. J. N. Conley and Mr. and Mrs. E. Egan left Tuesday for Lubbock, Texas where they were called by the serious condition of Mr. Conley. Newton was operating for appendicitis, his appendix being removed before he could get to the hospital at Lubbock from his home at Perryton.

A large number of Perryton people attended the Beaver County Fair at Perryton on Monday and Tuesday of last week. They report that there were excellent exhibits with a good attendance. The bad weather of Wednesday and Thursday prevented many from going from here.

Mr. Mears of southwest of town was shopping here last Saturday.

PARENT-TEACHERS TO MEET NEXT MONDAY NIGHT

The first meeting of the Perryton Teachers Association for this school year will be held at the school auditorium on Monday night of next week. It is expected that a large attendance will be present. Every parent who has a child should attend this first meeting. An opportunity will be presented for the patrons to meet the teachers of their children. Many of the misunderstandings that often arise between parents and teachers and pupils would be avoided if all were better acquainted. Program for Monday evening as follows:

"The Parent-Teachers Association from the student's viewpoint"—Chester Carter.

Piano Solo.
Reading from September Bulletin
Vocal Solo—Mrs. C. E. Whippo.

"Value of Teaching Agriculture in the Schools"—County Agent Hutchinson.

QUILTS, PLAIN AND FANCY SEWING AT FAIR

This department is always one of the outstanding departments of the women's department of any fair and this is going to be the case at our fair next month. Parties that are intending to exhibit are urged to communicate at once with those who will have charge of this section. Mrs. Allen M. Wilbanks, Jr., is superintendent. Mrs. J. E. Barbour, assistant superintendent, assisted by Mesdames H. C. Coffey, G. D. Holt, E. L. Lawson and E. R. Jarvis.

SMITH-FERGUSON

Miss Gladys Smith, daughter of Mr. and Mrs. H. W. Smith of Shattuck, Oklahoma, and Rufus Ferguson, son of Mr. and Mrs. J. V. Ferguson of this city, were united in marriage at Lipscomb on Thursday of last week, the ceremony being performed by Rev. Blankinship of that city. The bride is a very charming and accomplished young lady and has been one of the most popular members of the younger set of her town. Rufus has lived in and near this city the greater part of his life. For the past few years he has attended the Perryton High School where he took an active part in athletic and social affairs. He is one of our best young men. After a few days visit in this city, the newly weds left for Colorado where they will spend their honeymoon. They will make their home in this city. The Herald joins with the many friends of this young couple in wishing them a long and prosperous married life.

BIRTHS

Born to Mr. and Mrs. Joe Schollenbarger a boy on September 12.
Born to Mr. and Mrs. Charles Thrush a girl on September 7.
Born to Mr. and Mrs. Earl Williams a boy on Friday, September 12.
Born to Mr. and Mrs. Ernest Teurman on Friday, September 12th, a boy, whom they have named Ernest Wilford.

A GOOD RAIN

The rain on Tuesday night and Wednesday morning totaled .67 of an inch according to the United States government gauge kept by Attorney Jack Allen. While this was not a great big rain it did worlds of good for it came down easy and every drop of it soaked into the ground. This section was needing a rain and it came just at the right time.

Mr. and Mrs. Ralph Summers of Liberal, Kansas, and their house guest, Miss Althea Frisbie of Kansas City, Missouri, were Perryton visitors Monday. While here Mr. Summers looked after business matters, and Mrs. Summers and Miss Frisbie visited at the home of Mrs. John Bolin.

Mrs. W. D. Tenney and little son, Jack, left last Friday for a visit with relatives at Shattuck and May, Oklahoma. Mr. Tenney's sister, Mrs. F. S. Enlow of May, who has been a guest in the Tenney home for the past few weeks, accompanied them.

Mrs. Jim Price and daughters of Union were shopping here last Saturday afternoon.

"Weather-Stormy"—The Year Round.

TOWN OF TURPIN IS FASTEST GROWING TOWN IN GREAT WEST

Located on the boundless prairies of western Oklahoma, in northwestern Beaver county, where this very season a wheat crop was harvested. Today stands the bustling little city of Turpin, surrounded by the best farming and agricultural section of the entire state, half way between Forgan and Hooker on the Beaver, Meade & Englewood railroad, a new road 42 miles in length, which is just being built between the two above named towns and within the next thirty days trains will be running regular from Forgan to Turpin, thus putting Oklahoma's newest city in touch with the outside world and establishing a town that is bound to grow and prosper right from the day the first passenger train sounds its first toot-toot as a stopping signal in the town of Turpin. Twenty-one miles west of Forgan, and twenty-one miles east of Hooker, where 150 acres has been platted into a townsite and building is already in progress. Cement walks will be laid at once from the depot all over the business section of this new and bustling little city. Several large department stores are arranging to build and be ready to operate at once. A bank has been organized and will be ready for business in a few days. Three grain elevators are now under construction. Two large garages and two big hardware stores will open their doors to the public with the opening of the town. A splendid and modern up-to-date hotel has been arranged for, a drug and two doctors are planning to locate here at once and negotiations have been gone into for a newspaper and one of the state's foremost farm and livestock auctioneers is arranging to move here.

Sites have been reserved for schools and churches and plans are being made to make this a consolidated accredited high school, and if ever a town opened with a rush and a welcome for every line of business, it will be Turpin, Oklahoma, of which can be truly said—yesterday a wheat field, today a village and tomorrow a city.

The town is beautifully located, surrounded by lovely fertile farms which are highly improved, and whose owners are industrious and progressive; and this entire section of the state is blessed with an abundance of fine soft water. The country around Turpin is thickly settled and the chief crops are wheat, corn, oats kaffir and feed and hay crops, while orchards, gardens and the like are productive.

Nor would the writer close this sketch without a word about the B. M. & E. railroad company, for we are acquainted with each of them from the president down to the grading contractor, and also Mr. Butcher, who is in charge of the townsite at Turpin.

Earlier in life we were closely associated with them in building and promoting the town of Hartner, Kansas, and knowing them as we do we

CANADIAN RIVER TO BE SURVEYED BY GOVERNMENT

A representative of the Engineers Office of the War Department of the United States is expected to arrive in Amarillo within the next few days to begin the preliminary survey of the headwaters of the Canadian and Cimarron rivers in the Texas Panhandle and New Mexico, according to a letter which has been received by A. S. Stinnett.

The United States recently appropriated \$1,500,000 for a preliminary survey of the headwaters of the Canadian river with idea of constructing a mammoth dam which would impound flood waters, and prevent floods, provide for the irrigation of the thousands of acres of land in this section and generate an enormous amount of power.

This appropriation was secured in a bill introduced by Congressman Tom D. McKeown of Oklahoma.

The work will be under the supervision of the Memphis office of the United States Engineer's office. Mr. Stinnett has a great deal of accurate information regarding the survey already compiled all of which has been tendered to the government and which will be used in the making of the preliminary survey.

With the making of this preliminary survey and the discovery that the Canadian river can be successfully dammed floods prevented thousands of acres irrigated and millions of horsepower developed it is believed by local business men that it will only be a short time until an appropriation for the construction of such a dam will be made.—Amarillo News.

CARD OF THANKS

We wish to express our sincere thanks and appreciation for the liberal donation to our piano fund from the members of the lodge who attended the picnic last Sunday.

Perryton Rebekah Lodge

H. C. Coffey was appointed as Justice of the Peace at the last term of the Commissioners Court and has qualified for the office. This is an office that pays but very little and it was only after much persuasion that Mr. Coffey was induced to assume the duties. He is well qualified for the place.

can heartily endorse every proposition they get back of for they are honest, active and untiring, and for them our wishes are that their efforts may be well rewarded.

In less than a year Turpin will be one of the most thriving towns in Oklahoma, and we shall be greatly fooled if it doesn't mean to that section of the state what Enid means to north central Oklahoma, or Hobart means to the southwestern section, and the man who embarks in any line of business at Turpin is sure to make a success. O. A. Leamon, in Agra Index.

ODD FELLOWS AND REBEKAHS ENJOY OUTING

The following Odd Fellows and Rebekahs enjoyed a basket dinner at horse shoe bend on Wolf Creek last Sunday.

Mr. and Mrs. J. B. Nash, Mr. and Mrs. Geo. W. Cutter, Mr. and Mrs. Louis Tucker and children, Mr. and Mrs. Jim Shearer and children, Mr. and Mrs. Otis Shearer and children, Mr. and Mrs. J. M. Bales and sons, Mr. and Mrs. G. R. Wilson and daughter, Mary Lee, Mr. and Mrs. Ray Kutch and children, Mr. and Mrs. Aubin Allen and sons, Mr. and Mrs. Haskell Lawrence and son, Mr. and Mrs. J. W. Wright, Mr. and Mrs. J. W. Wade and son; Mesdames E. M. Allen and Harriett Thornton; Misses Burke, Evelyn Glaspie, Wava McLain and Zelta Gardner; Messrs. A. E. D. Brooks and W. M. Stringfellow.

MARKETING LIVE STOCK CO-OPERATIVELY

A recent survey of the farmer-controlled livestock marketing organizations in the United States resulted in the collection of data from 1547 organizations located in producing sections and 26 sales agencies located in terminal markets. The 1547 local associations, some of which served entire counties and a few even larger areas, had an estimated membership of 294,271 and handled business estimated at \$162,896,000 during 1923.

Nearly 95 per cent of all the organizations are in the twelve North Central States, Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa, Minnesota, Missouri, Kansas, Nebraska, South Dakota and North Dakota. The largest number of organizations reporting from any one state was 334 from Iowa. Minnesota ranked first in the estimated number of members, while Iowa was first in the estimated amount of business.

The average number of members per association for the Ohio organizations is 444, while the organizations are on a county basis. The average for Indiana, Michigan, and Illinois are 281, 213, and 206 respectively.

In the case of 119 associations, data regarding average amount of business per member are available. This average is \$662. Fifty-four Iowa associations reported an average of \$894 per member and 41 organizations from Minnesota reported \$493 per member.

Reports from over 1,400 associations indicate that 40.6% of the associations are incorporated, that 17.6% have capital stock, 89.6% are composed only of producers, 10.1% pay dividends on capital stock, 53% pay patronage dividends, 67.9% handle the products of nonmembers and 7.9% have marketing contracts with their members.

The twenty-six sales agencies in twenty terminal markets handled during 1923, nearly one hundred fifty thousand (149,592) cars of livestock consisting of practically ten millions (9,939,512) animals which were sold for over one hundred ninety million dollars, (\$192,564,431) and the returned to the shippers during the year \$822,236 in patronage dividends.

MARRIAGES

Joe Thomas and Miss Mamie Miller, both of near Gray, Oklahoma, were married September 9th by County Judge, J. M. Grigsby, at the Court House in Perryton, Texas.

Joseph R. Strickler and Mrs. Lola Westlake, both of Enid, Oklahoma, were married by J. M. Grigsby, County Judge of Ochiltree County, Texas, at Perryton, on Monday, September 15th.

Joseph F. Pierce and Miss Dora Foster, both of Boyd, Oklahoma, were married Tuesday, September 16th, by County Judge, J. M. Grigsby.

George S. Johnson and family of Hugoton, Kansas were visitors in this city the fore part of this week. Mr. and Mrs. Johnson and their five children are all fine musicians, all playing band instruments. Mr. Johnson is an experienced band leader. They are now operating a auto top and paint shop at Hugoton but are considering locating in this city.

A. F. Pendegraast and K. S. Geerdes of Moreland, Oklahoma, were here Tuesday looking this country over, with a view to locating here.

PURE BRED HOGS DELIVERED KNOCK OUT BLOW

Demonstration of the superior earning power of pure bred hogs proven to be the outstanding feature of Ton-Litter Contests carried on in 1923, which was only the second year of operation of these projects under the supervision of the agricultural Colleges of the several states. Reports from the states of Illinois, Texas, Ohio and Wisconsin showed 165 litters raised that weighed a ton or over in 180 days and reveal some pertinent facts and figures that evidence what a prominent factor the pure bred hog is in economical pork production on farms.

Of the states mentioned, Illinois ranked first with 80 litters raised to reach a weight of 2000 pounds or more in 180 days. Ohio claimed second place with 40 ton-litters followed by Texas with 28 litters in the honor class. Wisconsin reported 17 litters to make a ton or better in the required time. To Texas goes credit for growing the champions of the year with a litter of 12 pure bred Durocs weighing 3898 pounds at 6 months of age. Second place also went to Texas with a litter of 12 pure bred Polands with a weight of 3542. Indiana held the National Ton-Litter Title in 1922. The top litter in Illinois weighed 3283 while in Ohio the greatest weight recorded was 2970 on a litter of ten. In Wisconsin a litter of ten pigs attained a weight of 2772 pounds which was the high mark for the state.

Of the 165 litters raised that reached the weight required in 180 days, 139 were pure bred on both sire and dam's side. Eleven litters were sired by pure bred boars and out of dam's classed as grades. Some of the sows in this class were pure bred butrated as grade because not eligible for registration. Five were grade litters and the remaining ten were cross bred. Most of the cross bred litters were pure bred, the sires and dams being recorded stock of their respective breeds. Classified by breeds the litters are as follows: Berkshires one; Hampshires, two; Tamworths, four; Chester Whites, seven; Spotted Poland Chinas, ten; Poland China's forty-one and Durocs, eighty-five. The five grade litters were raised in Illinois. Not a grade litter in the other three states made the qualifying weight in 180 days. The records made by the pure bred is a striking example of their ability to give the greatest production at the lowest cost.

There were a total of 1737 pigs raised in the 165 litters or an average of 10.5 pigs per litter. In giving the average weights, Wisconsin is not taken into account as the rules in that state based the weights on a sliding scale and not on 180 days of age. The 148 litters in Ohio, Texas and Illinois weighed 343,591.5 pounds. This is an average weight of 2321.5 pounds for each litter in 180 days. The average weight of each pig was 221 pound. This data substantiates the claim that the qualities of prolificacy, early maturity and rapid growth are highly developed in pure bred hogs. Maximum production per sow in the shortest time largely determines profit in raising pork. The 1923 Ton-Litter contests so conclusively prove the superiority of pure bred hogs over grades and scrubs in this respect that there is no basis what ever for comparison.

Mr. and Mrs. C. E. Forbes and Zack Westbrook were called to Amarillo on Monday of this week on account of the serious illness of Mrs. Forbes and Mr. Westbrook's father, G. M. Westbrook. Mr. Westbrook and daughter, Miss Neita, had been visiting here and were on their way to their home at Keren, Texas when he became ill while at the home of his daughter in Amarillo.

The ballots in the straw vote which is being taken by this paper in conjunction with other members of the American Press Association, continue to pour in. In one mail this week, we received votes from three distant states, California, Iowa and Missouri. Local voters still continue to give Davis an overwhelming majority.

E. R. and Miss Vivian Kinzer have returned to their home at Durham, Oklahoma after a few days visit in the home of their sister, Mrs. R. F. Nies of this city.

A DUNCE THERE WAS!

Youth, first of all, is human—and being human it usually follows the path of least resistance. That path is for ease, comfort, recreation and a "good time."

Youth in its inexperience thinks something may be had for nothing. When youth does pause to consider the tomorrow of middle age, it thinks only of some vague distance date with "plenty of time" to lay-by for a middle and old age of plenty.

But it isn't so. The world is full of men who waited too long. They awakened to find youth gone—and now look back on wasted days—wasted opportunities.

To wait is fatal. Start today, no matter how small your savings may be.

BALANCE OF POWER IS IN BORDER STATES

Coolidge in East, Davis in South, LaFollette in Northwest now the line-up. Real surprises promised in States which lie between these territories.

If it were possible to know just what the "border" states are going to do on election day, then forecasting the result of the coming national contest would be a much simpler matter, for seemingly upon the border states will be the great battle ground on which the national election will be won.

So far as the solid south is concerned—and the solid south really embraces Virginia, No. Carolina, So. Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas and Arkansas—every thinking man will concede it to Davis. Coolidge and LaFollette may cut down majorities here and there, but this will not affect the electoral vote. Thus Mr. Davis starts off with 114 votes, or 21 per cent of the whole, 531.

Now let it be remembered that 266 are necessary to a choice. This is the figure that sticks in the crop and seems to make it highly probable that LaFollette may dictate the presidency though he has small chance of election.

Just as Davis is certain of the South, so is Coolidge sure in the East, and so at present is LaFollette in the Northwest.

Wisconsin, Iowa, Nebraska, Minnesota, North Dakota, South Dakota, Montana, Idaho, and Washington, seem as much opposed to a conservative Democrat as they are to a conservative Republican. Many claim they can be counted as the basis of the LaFollette strength. Summed up they spell seventy-one electoral votes, the real solid radical vote of the Northwest.

One of the important considerations is what may be termed the "border" states. They are those states lying between the North and South. They are Delaware, Maryland, West Virginia, Tennessee, Kentucky, Missouri, and Oklahoma.

Davis is a "border southerner" and may have the knack of particular appeal to the people there. If he should win in all of these states the sum total would be 72 votes, making his grand total 186. Then granting to Davis, Nevada, Arizona and New Mexico, this would give him an additional 9 votes, swelling his grand total to 195.

LaFollette followers declare they

will carry Ohio and maybe Michigan. LaFollette has the support and backing of the Scripps-Howard newspapers in Ohio, and it is possible that the six such powerful newspapers working for him he stands a chance of carrying the state. In the West are also many Scripps-Howard newspapers; and also the Hearst newspapers in Washington and California—as well as in the East.

It is possible that the Davis LaFollette strength may obtain a majority, even with conservative figuring. A glance at the situation in tabular form will convey the picture quickly.

FIRST NATIONWIDE RETURNS

First returns from the Herald nationwide Presidential poll verify in a way all that is admitted by leaders in all of the three big parties.

Newspapers in twelve states have made returns, furnishing some very interesting figures for speculation. The surprising strength of LaFollette indicates that our election may not be settled in November—but will go to the House, a probability foreseen by political students when the Wisconsin Senator tossed his hat into the ring.

WHY WAIT ON GEORGE?

This is a pretty good town, as towns go. We all admit it, and are proud of it.

But there is one fly in the community ointment that prevents us from advancing as rapidly as we should.

Everybody is willing to have things done, but wants to "let George do it," and when George reaches a certain point he balks. He gets tired of carrying the whole load.

What we need is a greater spirit of co-operation, a willingness on the part of each one to do his or her share in the advancement of our community interests.

In every community there are always a few who are willing to work for the public good. They are the Georges.

There are also a lot of others who are willing to let them do it. They are not Georges.

Once in a while we read of some town like Perryton that keeps booming and showing right along regardless of conditions or handicaps.

Such a town is full of Georges, and because the Georges are so numerous none of them is overworked and there is no occasion for balking.

Why can't we all be Georges in this town?

There is room for improvement, and we have plenty of people with the brains of George.

"CLEAN-UP AS YOU GO"

Thousands of tourists every day during summer and autumn months picnic under rural skies. Invariably they leave behind a great deal of refuse matter—paper bags, newspapers, and scraps of eatables.

All those who picnic out-doors, whether in city parks, boulevards, or along the country roadside should resolve not to violate the hospitality of those who afford them pleasure spots for spreading their basket lunches. Motorists should co-operate to keep the roadsides clean. Those who leave smeared scraps of paper, greasy boxes, and other miscellany behind them after finishing their luncheons are not only indulging in indifference to the rights of others but are helping to destroy their welcome afield and the pleasure to be derived from occasional visits to the country.

RADIO OPERATORS ARE URGED TO BE CAREFUL

Since the general use of radio has come about a number of amateur operators have been killed while putting up their aerials or other wires near poles carrying electric wires.

Some suggestions to radio amateurs have been compiled by electric engineers, says the Texas Public Service Information Bureau, that may be summarized as follows:

"Antennae, or any part of it must not be attached to electric lighting poles, or poles carrying wires at a greater potential than 220 volts.

"These wires must not be installed above any electric light or power wires, or nearer than three feet from them.

"The wires must not be installed below any electric light or power wires carrying more than 220 volts. "When being installed the wires must not be thrown over any wire of any kind, unless it is positively known that this wire does not carry any voltage.

"Transmitting sets must not be connected to secondary lighting, or power circuits to which any other customers are connected. A separate transformer must be set for any such connection to the radio apparatus.

"Many accidents, some of them resulting in death can be averted if these few simple rules will be followed."

SOFT SNAPS

If you have found a "soft snap," don't count yourself lucky. You'll soon be as soft as the snap.

If you are looking for a soft snap, turn right about face and go the other way. "Hard lines" would be the making of you.

Feeling that you have a soft snap makes you take things easy, prevents your extending yourself and drawing on your powers, causes you to postpone effort, assures your failure.

It is better to be a good finisher than a strong starter.

BUSINESS FRIENDSHIP

When town people convince the farmers that they are interested in their welfare, the farmer's confidence is won. It is not how many dollars' worth of business you do each day that counts most, but how many friends you have made, friends that have confidence in you as a merchant and feel that you will deal fairly with them.

Peru passed a law compelling every male to work at road building one to two weeks a year, depending on age, or to pay enough extra tax to hire somebody else to do the work. The law is working splendidly, the Peruvian government reports. A network of good roads is being developed. Many a man in our civilization who "stood for" the military draft during the war would violently oppose being drafted for work in peacetime on behalf of the community. Why?

Watch Repairing - Cleaning

Ask an engineer how often he has to clean and oil his engine. He will tell you "every day and oftener." Your watch makes as many revolutions per year as most engines and should therefore be thoroughly cleaned and oiled AT LEAST once a year. The dirt and dust of your pockets forms a grime that acts like emery and soon loosens all wearing parts.

All kinds of jewelry and watch repairing scientifically done at reasonable prices.

Around The Corner ?

Heart trouble—or was it appendicitis?—carried Henry off one day, quite suddenly.

After the funeral his wife began dimly to realize that she and the children must face the future alone. But how? The bank balance showed deposits to the amount of \$182.98. That wouldn't go very far.

And—it was too late. Mrs. Henry had often thought of bringing up the insurance question—in fact she had done so several occasions. But with a woman's natural hesitancy she had not pressed the matter.

Henry had laughed and said: 'Well, I'll attend to it one of these days.' And the question was postponed in Henry's typical way.

Put yourself in this story. Could this happen to YOUR family. Are you postponing your application for life insurance? Are you like Henry?

A Home

A home—a place in a quiet spot, freedom for the children that puts color in tiny cheeks and health in little bodies—these are some of the advantages of home owning. WHAT INVESTMENT COULD BRING YOU BETTER RETURNS? The value of home owning cannot be measured in dollars and cents—It leads to something more than money alone can buy—Peace, happiness and contentment are known to the fullest extent only in one's own home. A permanent abode where the family is reared, a home so livable and lovable that the children will look back to it to the last day of their lives as the most precious spot on earth—It is our earnest desire to help every home-wanting family in this community own a home. It places you under no obligation to consult us about plans and suggestions and we consider it our duty to supply you with only the best of materials to assure you an investment with lasting value. Simpson was ambitious. At least he thought he was. He had been with his firm for years, and his prospects looked bright. One day fortune knocked at his door. He was offered a partnership providing he was in a position to make a suitable investment. But—

Simpson had never learned to save money. He had spent all he earned. And in deep humiliation he had to admit that he was not in a position to accept the big chance when it came.

PERRYTON'S FAIR

The following poem was written by a lady of this community who is a real booster for the Texas-Oklahoma Panhandle Fair which will be held in this city on October 1-2-3.

If, for a good time, you'd care
Come to Perryton's Fair,
And I'm sure you will see
And with us agree
That no town of its size can compare.

In these new buildings of ours
Will be birds, music and flowers
To while away the hours.
You'll think you are resting
Under "Eden's Fair Bowers"

There'll be wheat, barley and oats,
Cows, hogs, sheep and goats,
And specimens rare
Of lion and bear,
Bobcats and wild coyotes.

Hens and roosters,
And Perryton Boosters,
Now you'll be amazed
And perhaps become dazed
When you see all the products,
This country has raised.

Horses and mules,
And of course, a few fools,
As in all towns of any size, you'll see
But of these, there are few
And you'll find, it is true
The reason is, "Boosters are we."

Dr. Powell, Eye, Ear, Nose and Throat Specialist will be at the Perryton Hotel, Tuesday and Wednesday until noon, September 30th and October 1st. Glasses fitted, tonsils and adenoids removed. 33-27c

SEE M. R. COFFEE FOR FAIR CONCESSIONS

Any one desiring concessions at the Texas-Oklahoma Panhandle Fair to be held in this city on October 1, 2, 3, should get in touch with M. R. Coffee, who will have charge of concessions of all kinds.

Wheat & Burran, the Ford agents at Darrouzette, have purchased the garage and business of the Whitacre Motor Co. at Booker, Texas. Sam Whitacre and family have moved to Fairview, Oklahoma where they have taken over the Nash agency. Wheat & Burran will make Booker their headquarters but will still operate their garage at Darrouzette.

Have you got your copy of the premium list for the Texas-Oklahoma Panhandle Fair to be held in this city on October 1-2-3? You can get a copy at the Herald office. There is one for every family in this trade territory.

Prof. Terry of Booker was a visitor in this city on Monday afternoon of this week.

O. T. Glasgow was in from his farm southeast of town on Wednesday of this week.

Mr. and Mrs. C. E. Duke of Tulsa, Texas were here the latter part of last week, guests in the home of Mrs. Duke's sister, Mrs. A. C. Witt.

"THE HUNCHBACK" SIGNAL TRIUMPH

SUPREME COURT OF NEVADA
Carson City, Nevada

Dear Mr. Laemmle:

I have seen the screen production your company, "The Hunchback of Notre Dame," twice now—once in San Francisco and more recently in Reno, Nevada. My interest in it was held almost as strongly on the last as on the first occasion. It is a signal triumph in the moving picture world. The realistic effect of the acting and the scenes is beyond description. All of the characters are faithfully portrayed, but the leading characters—the Hunchback, Clopin and Esmeralda, played respectively by Lon Chaney, Ernest Torrence and Patsy Ruth Miller, are given interpretations that reach great heights in dramatic art. With due regard to the adjective, I do not hesitate to pronounce "The Hunchback of Notre Dame" a wonderful picture. Any one who does not see it will have missed a great picture.

Cordially yours,
(Signed) EDWARD A. TUCKER
Chief Justice of the Supreme Court
35-27c of the State of Nevada

Don't Start Too Late

MAN WAS RUNNING hard to catch a car. He was almost ready to swing aboard when the car started forward and the conductor closed the door.

A friend who was near him said: "John, you didn't run fast enough."

"Yes I did run fast enough," he replied "but I didn't start soon enough."

And that will be the story of a lot of folks who put off saving money until they are well along in years. They may save as fast as they can but they will find they did not start soon enough.

A dollar saved by a child will grow into several dollars before old age comes. That is why we urge all young people to learn to save money. Think it over.

A Position of Trust!

Both the banker and the druggist hold positions of trust in every community. The prescription in the hands of a druggist should be as inviolable as a check or other valuable papers in the hands of a banker. When you bring your prescription to this store you always get what the doctor ordered.

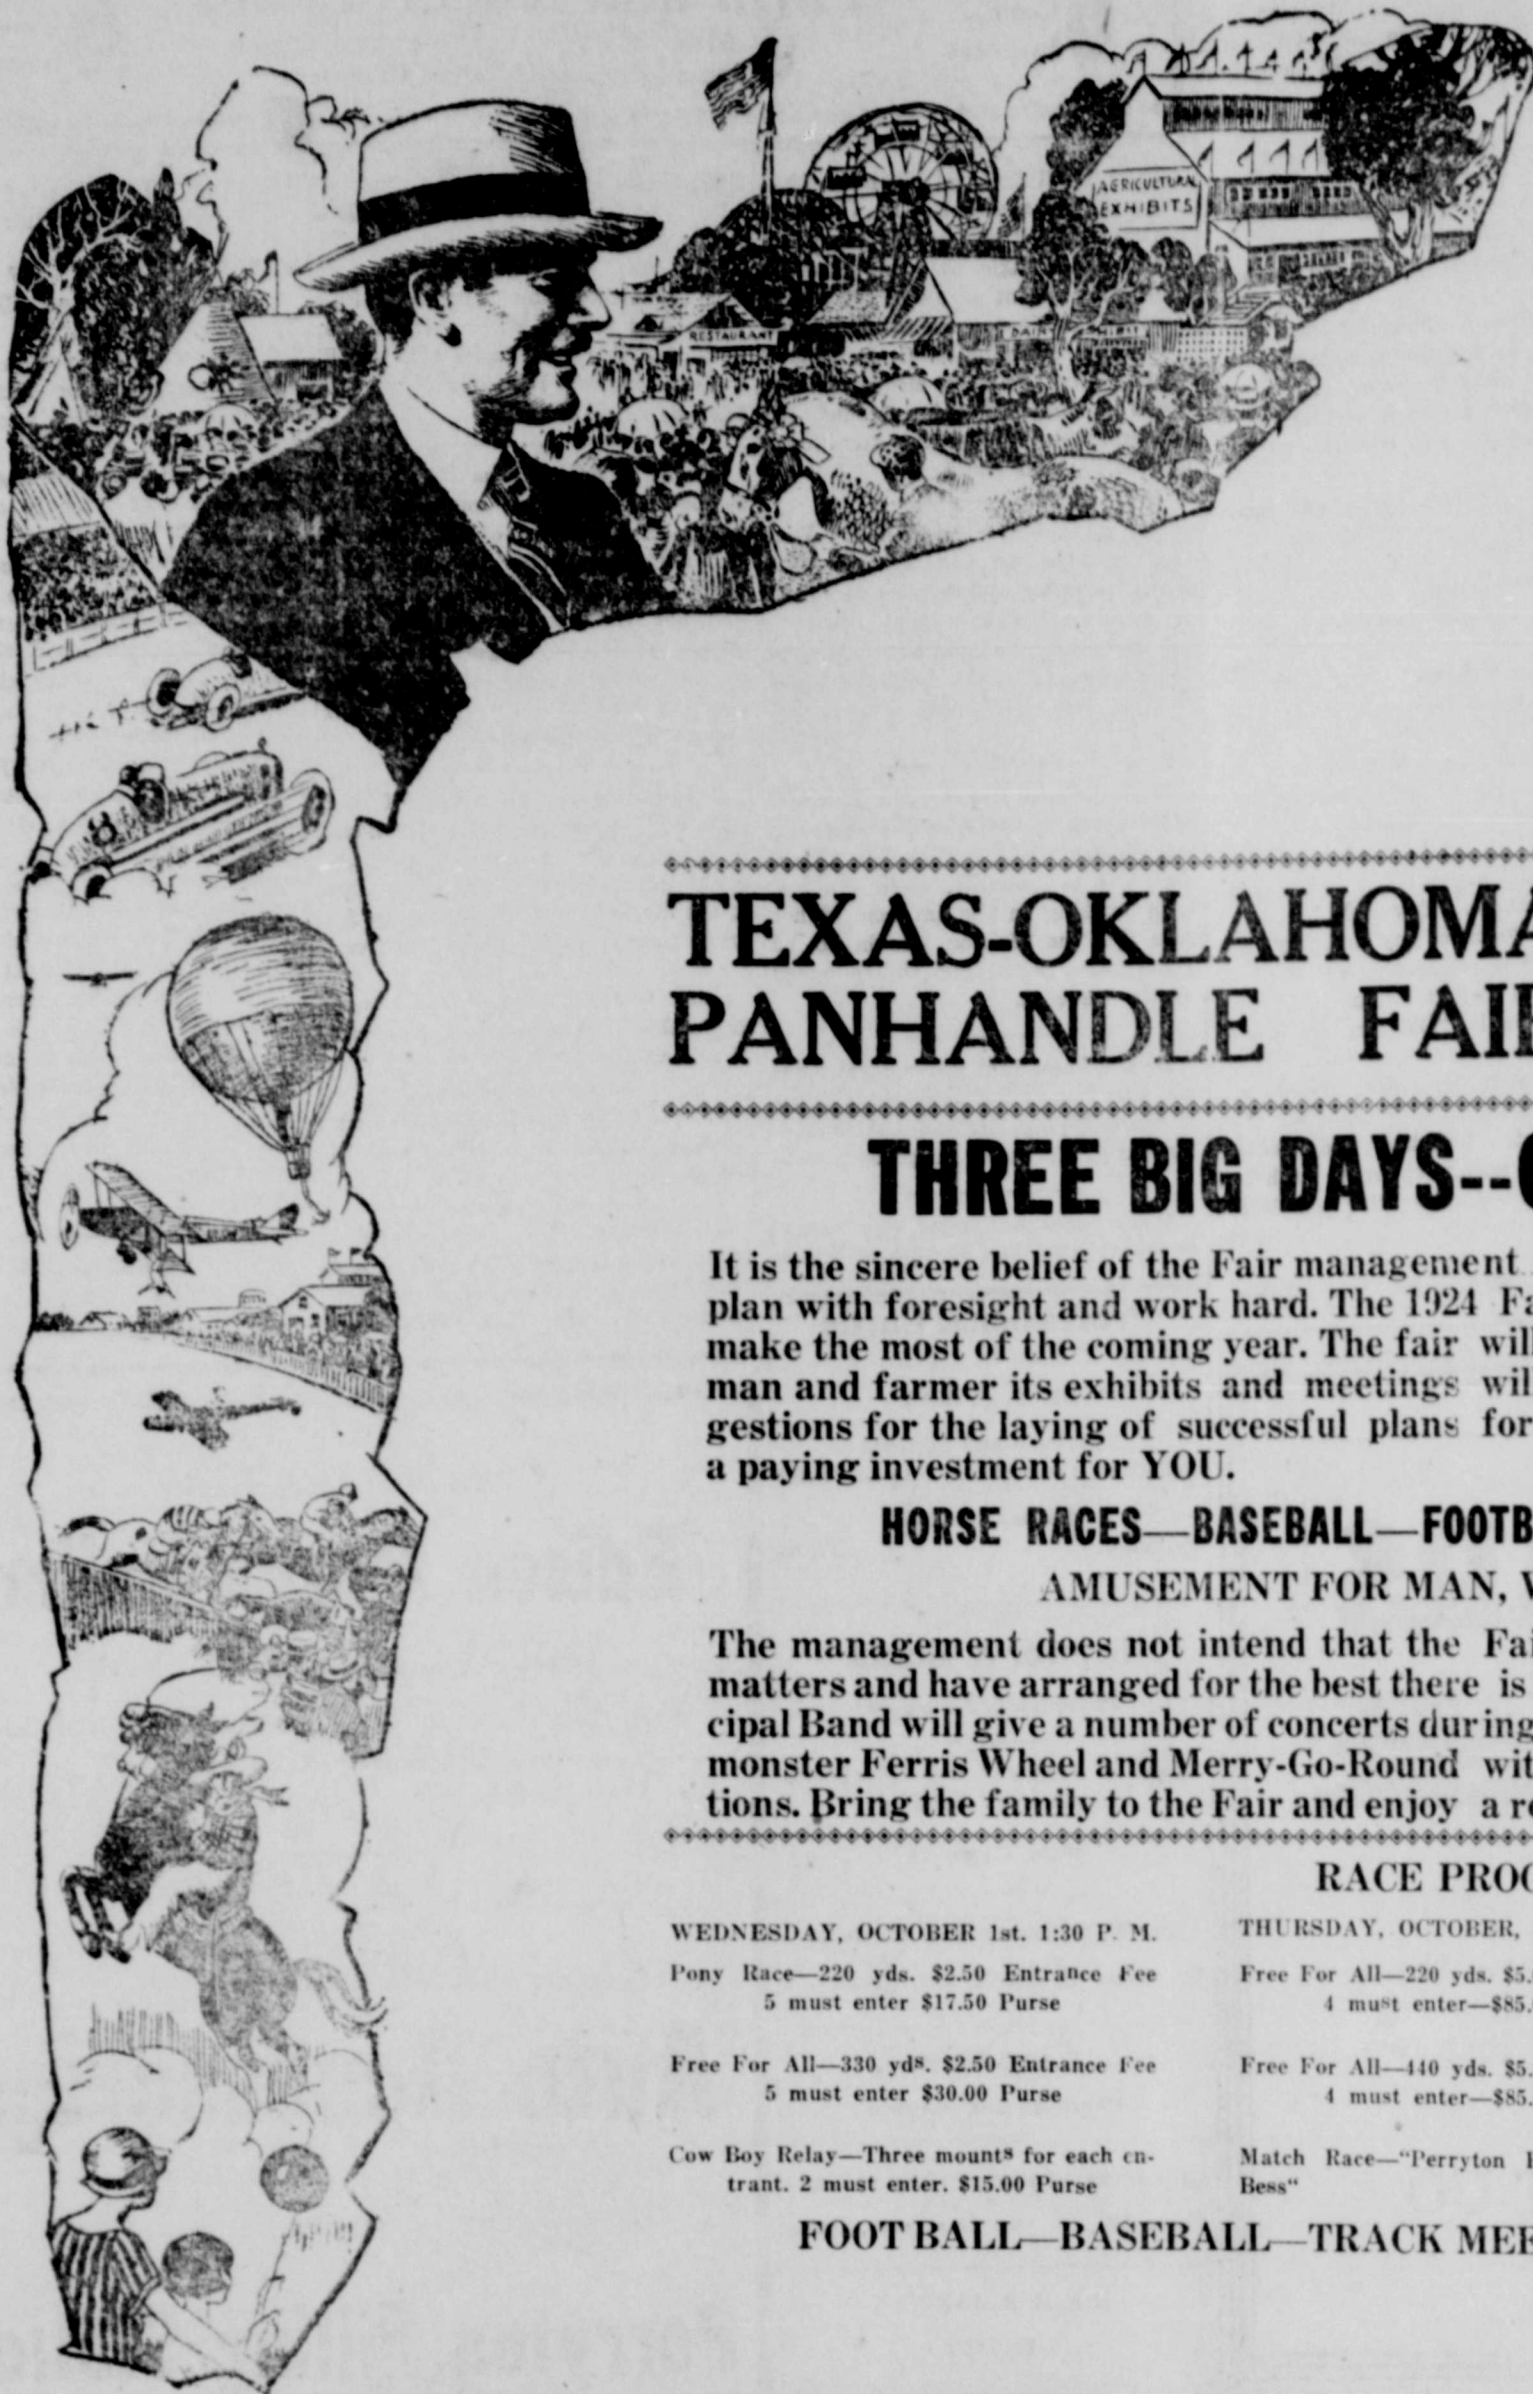

In these modern times the drug store has developed into a kind of a department store. We are still old-fashioned enough to consider our prescription department the most important feature of our business.

Come here and let us stock your medicine cabinet with simple home remedies. It may save you hundreds of times the expense. This you know—is the age of "Prevention" of sickness.
