Tom Green's First Spraberry Oiler Makes 171 BOPD

First Spraberry producer in Tom Green County has been completed. The Atlantic Refining Company reported a daily flowing potential of 171.3 barrels of high-gravity oil for its No. 1-39 Calvin Sugg located in the west panhandle of the county. It made two per cent water in addition to the oil.

Completion was through casing perforations at 5,923-5,940 feet in casing opposite the Spraberry pay. The pay had been fractured with 5,000 gallons.

Gas-oil ratio was 400-1 and tubing pressure was 100 pounds. The venturi gauge was on a one-half-inch tubing choke.

Location is 660 feet from north and 2,077 feet from west lines of section 29, block A, TC survey.

This new well marks a 4,100-foot southeast extension to the Weddell field. Closest producers are in the Southwest Sterling County portion of the field.

Atlantic Reports 17-Hour Flow-At Beagan Discovery

The Atlantic Refining Company No. 1-C-48 University, Ellenburger discovery in Southeast Reagan County, was gauged for 346 barrels of oil in 17 hours on a production test through a 24/64-inch choke.

After that gauge was completed, operator put the well on 24-hour potential test. That test was started at 4:30 p.m. Wednesday.

Oil on the above test was flowed through perforations at 9,060-9,124 feet after 2,500 gallons of regular acid had been injected into the formation.

Location is 669 feet from south and 1,990 feet from east lines of section 19, block 44, University survey and two miles south of the Barnhart (Ellenburger) field.

Humble Completes Martin Wildcat As Small Pumping Oiler

Humble Oil & Refining Company has completed a small pumping discovery from the Spraberry sand in Central-South Martin County.

The new field opener is Humble No. 1 J. W. Blocker and others. It is seven miles west and slightly north of Stanton and three miles northeast of Germania.

Made Some Water

On the official Railroad Commission potential test the wildcat pumped 25 barrels of 39.5 gravity oil, plus 46 per cent salt water in 24 hours.

The production was from two sets of perforations in the Spraberry. The upper one is at 7,380-7,450 feet and the lower set of holes is at 8,175-8,272 feet.

Both those intervals had been drilled with mud and each of them had also been fractured.

Location is 660 feet from north and west lines of section 10, block 37, T-1-S, T&P survey. Ellenburger was barren.

The project drilled to a bottom of 12,100 feet in barren Ellenburger. That section made only water.

It plugged back and tested the Wolfcamp-Permian. There were no possibilities of commercial production in that formation.

Operator then plugged back and tested the Dean sand. It made a little oil and some water. The Dean did not develop as much oil production as has been shown in the Spraberry and as a result operator elected to complete from the later horizon.

Runnels Reports New Prospector, Wildcat Failure

A new wildcat location and a dry hole have been reported for Runnels County.

Alaska Steamship Company has filed application with the Railroad Commission of Texas to drill a prospector in Central-East Runnels County.

It is No. 1 J. A. Morrison and is 80 feet from south and 800 feet from east lines of tract 23, A. Lo-soya survey No. 215. It is on a 280-acre lease.

South Of Failure

Drill site is one mile south and slightly east of Clark & Cowden No. 1 Morrison, dry hole abandoned at 4,043 feet and one-half miles southeast and one mile north of the Clayton field but separated from this.

House Vote May Kill All Controls

June's Blazing Heat Scorches Half Of Nation

June's blazing heat kept up its relentless siege over wide areas in the Eastern half of the nation Thursday. Wednesday was the summer season's hottest day in hundreds of cities in the heat-stricken region. Temperatures soared into the 90's and above 100 in the East, the South and the Midwest. Records for the date were broken in scores of cities.

No immediate, widespread relief appeared in sight. However, some of the cooler air which covered the Northern Plains states was headed into the North Central states. There was a promise of some cooling by Friday. No such relief was forecast for Eastern and Southern hot spots.

Hot dry weather threatened crops in some Southern states, including Virginia and Arkansas. Deaths from heat were reported in several cities. Hundreds suffered heat prostration.

Baltimore reported 99 heat prostrations and one death from the 89-degree heat. It was the hottest June 25 in 54 years. In nearby

Washington, the mercury hit 98 for a season's high and the hottest June 27 since 1875.

Three deaths attributed to the heat were reported in Ohio, which sweltered in temperatures around the 100 mark.

Two persons died from heat in Philadelphia and 40 were treated in hospitals for heat exhaustion. The day's top reading of 96 was a record for the date.

New York City reported a record 96.5 reading. More than a score of persons were treated for heat prostration. Only death was reported in Upstate New York, where temperatures were in the 90's.

Readings of 100 and above were general in many parts of the south. The day's top of 104 at Macon, Ga., marked the fifth consecutive day of 100 or higher and the twenty-

first straight day with temperatures above 90. It was 103 in Augusta and 101 in Savannah. The 101 in Nashville was a record for the date while Chattanooga's 102 tied the all-time high for June.

New records for June were set in several Virginia cities, including Newport News with 102 and Richmond and Norfolk with 100. Texas basked, with a top of 106 at Presidio.

St. Louis was promised no relief after Wednesday's sizzling, 100-degree heat which set a new June 25 record.

TRUMAN BOILS WITHOUT WATER

WASHINGTON — (P) — Many members of Congress and President Truman were inconvenienced in Wednesday's record 96-degree heat. There was no water. A giant water main burst, cutting off water to the White House and much of downtown Washington.

Water was rationed at hotels. The air conditioning system was shut off in the White House but workers managed to get enough water for the President's bath.

CUTIES CHILLED IN CALIFORNIA

LONG BEACH, CALIF. — (P) — The sun did a fadeout in Long Beach Wednesday and put a chill on the parade of the prettiest girls of 39 nations competing for the title of Miss Universe.

Most of the 70 candidates, 40 of them from the United States, were forced to don wraps over their bathing suits, hiding their charms from almost 50,000 persons who lined the streets to watch the parade.

fifth straight day with temperatures above 90. It was 103 in Augusta and 101 in Savannah. The 101 in Nashville was a record for the date while Chattanooga's 102 tied the all-time high for June.

New records for June were set in several Virginia cities, including Newport News with 102 and Richmond and Norfolk with 100. Texas basked, with a top of 106 at Presidio.

St. Louis was promised no relief after Wednesday's sizzling, 100-degree heat which set a new June 25 record.

Rain-Bearing Clouds Again Skip Midland

A dark cloud shed a .44-inch rain at Midland Air Terminal late Wednesday, dripped a damp semi-circle around the northernmost corners of the city and last was seen wallowing slowly in the general direction of Stanton. Thursday it had vanished.

Before the cloud's brief appearance the temperature here had reached 100 degrees and residents had consumed 10,000,000 gallons of water. The forecast: No important change.

Elsewhere in Texas the picture was much the same. The Associated Press said. The scattered light showers didn't do much to break the state-wide drought.

Crop Growth Cut

Dry winds and high temperatures gave the lack of moisture an assist in cutting the East Texas tomato yield and checking new growth in the eastern two-thirds of Texas.

Some 13 Texas points reported temperatures of 100 or above Wednesday with Presidio the highest. Galveston had 98 degrees for the day's low maximum.

The hot weather continued Thursday and before dawn Galveston's 81 was the highest temperature. Marfa was on the cool side with 65, the state's lowest before-daylight temperature.

Showers fell during the night and early morning hours at Lubbock, Salt Flat, Marfa and Big Spring. But they were not believed enough to slow the effects of the drought.

Two Men Injured In Auto Accident

Edward M. Boatman, Big Spring, and Robert R. Beck, Odessa, were admitted to Midland Memorial Hospital Wednesday night suffering from serious injuries received in an automobile accident on Highway 80. Attaches reported both men to be improved Thursday morning.

Boatman suffered an injury to the right side of his head, while Beck suffered a fractured right knee. A possible fracture of his right knee. Investigating state patrolmen were not immediately available Thursday to furnish details of the accident.

Ike To Take Over Convention Battle

By The Associated Press

While one of Gen. Dwight D. Eisenhower's aides said "the jig is up" for Senator Robert Taft, another reported Thursday Eisenhower will go to the Republican convention to direct his campaign for presidential nominations.

The "jig is up" quote came from Eisenhower's campaign manager, Senator Henry Cabot Lodge, Jr., of Massachusetts, who flew to Denver Wednesday for a conference with the retired five-star general.

It was attacked quickly by Taft's campaign manager, David Ingalls, who said bluntly: "It just isn't so."

The report that Eisenhower has decided to take on the spot charge of his bid at the July 7 GOP convention came from Senator Lodge, the general's campaign manager.

The Massachusetts senator said the move was made on his recommendation.

Meanwhile, Lodge said an important shift in delegate opinion has made certain his candidate will get the Republican nomination.

The Associated Press tabulation of pre-convention delegate strength,

CHILD'S MEAL PROVES COSTLY

COPENHAGEN, DENMARK — (P) — A well-known Danish scientist, who requested anonymity, announced Thursday that his daughter, aged two, had eaten up a state lottery bond a few days before it drew a prize of 25,000 kroner (about \$3,500).

The money provided in Thursday's bill is separate from regular budget appropriations already considered by Congress for the Defense Department and the Atomic Energy Commission. Their regular budgets, much larger, have been reduced already.

The new funds supplement appropriations already considered for the coming year or actually made for the present year, and are primarily for construction programs.

No big agencies were spared the committee's cuts. The largest was a \$1,706,000,000 reduction in funds for the Atomic Energy Commission. This was 53 per cent less than the \$3,197,000,000 requested.

The foreign aid program was chopped by \$250,120,000, from \$6,836,060,750 to \$6,585,940,750.

The Defense Department, which wanted \$2,993,868,440 for its construction programs, was allotted \$2,187,899,840, a cut of \$805,968,600.

A group of defense agencies was trimmed from \$661,610,000 to \$61,600,000, a reduction of \$599,920,000, with \$563,500,000 of the total cut aimed at the Civil Defense Administration.

The Economic Stabilization Agency (ESA) got nothing.

The Commerce and Interior Departments got what they requested, \$716,536 for Commerce and \$325,000 for Interior.

The Labor Department was cut from \$16,870,000 to \$9,600,000.

DEFENSE AGAINST POLIO—City crews scour the city daily in their intensified battle to keep the polio menace out of Midland. Sprays (top) discourage flies around garbage cans, and a fleet of trucks keep a steady stream of refuse (below) flowing out of the city toward dump grounds.

House Panel Pares All Fund Requests

WASHINGTON — (P) — The House Appropriations Committee Thursday recommended a 25 per cent cut in new funds asked by the Administration for the armed forces, foreign aid, atomic energy and a variety of other purposes.

In terms of cash, the purse-holding group's proposed reduction—which comes up for House action Friday and will be considered by the Senate later—was \$3,468,156,250.

The committee, headed by Representative Cannon (D-Mo.), said the agencies involved should get along on \$10,282,532,030 instead of the \$13,750,688,280 President Truman asked.

The money provided in Thursday's bill is separate from regular budget appropriations already considered by Congress for the Defense Department and the Atomic Energy Commission. Their regular budgets, much larger, have been reduced already.

The new funds supplement appropriations already considered for the coming year or actually made for the present year, and are primarily for construction programs.

No big agencies were spared the committee's cuts. The largest was a \$1,706,000,000 reduction in funds for the Atomic Energy Commission. This was 53 per cent less than the \$3,197,000,000 requested.

The foreign aid program was chopped by \$250,120,000, from \$6,836,060,750 to \$6,585,940,750.

DOUBLE-DUTY PLATE

With the addition of the "I Like" tag, the license plate of former New York State Senator Isaac B. Mitchell not only identifies his auto, but also tells the public who he hopes will win the Republican presidential nomination.

★ LATE NEWS FLASHES ★

HENDERSON, KY. — (P) — All state police in the Henderson barracks were called to the state prison at Eddyville Thursday. First reports said prisoners had rioted and were holding two guards as hostages.

PUSAN — (P) — A Korean government spokesman Thursday night said Kim Shi Hyon, a National Assembly member, had confessed he furnished the pistol with which a secret society member tried to assassinate President Syngman Rhee.

BOSTON — (P) — Excessive heat Thursday prompted postponement of Thursday night's 10-round featherweight match between former champion Willie Pep and Boston's Tommy Collins. It was rescheduled next Monday night.

WASHINGTON — (P) — President Truman cancelled his mid-afternoon news conference Thursday because of the intense Washington heat. The Weather Bureau indicated the thermometer would go to around 99 degrees by 3 p.m., time the conference had been set.

British Spy Suspect Due Prompt Trial

LONDON — (P) — A magistrate's court Thursday committed William Martin Marshall, 24, a radio operator for the British Foreign Office, to trial on charges of slipping official secrets to a Russian diplomat.

The action followed a closed hearing. Reporters and the public were barred because of the top secrets involved in the case. At the opening of the hearing, a government prosecutor charged that Marshall was carrying information which would have been useful to the Kremlin when he was placed under arrest on June 13 in the company of the Soviet Embassy official.

Marshall may be tried in Central Criminal Court—Old Bailey—within the next week. This is the same court where Klaus Fuchs was convicted of betraying top atomic secrets to the Russians. Fuchs is serving 14 years in prison.

Marshall was denied bail and ordered held in jail until his trial. Marshall once worked in Britain's Moscow Embassy, where he described himself as a "mist" and disgruntled with his work.

He was picked up in Suburban Wandsworth Park with Pavel Kuznetsov, second secretary of the Soviet Embassy in London. The Soviet diplomat was released on grounds of diplomatic immunity.

Tidelands Veto Ballot Must Wait

WASHINGTON — (P) — A Senate vote on overriding the President's veto of legislation giving the states title to oil-rich submerged coastal lands may be delayed until after the national political conventions.

Chairman O'Mahoney (D-Wyo.) of the Senate Interior Committee said he saw no prospect of getting the issue brought up for a vote before July 3, the date tentatively set for a congressional recess.

Terminal Gas System Sale Gets Approval

City Manager W. H. Oswalt announced Thursday that the War Munitions Board had approved the sale of the Air Terminal gas distribution system to the West Texas Gas Company.

Oswalt said he had been notified of the approval in a telephone conversation with Congressman Ken Regan in Washington.

The gas company will pay the city \$28,000 for the system and the funds will be used for the sealing of runways at Midland Air Terminal.

Major Curbs Already Are Peeled Away

WASHINGTON — (P) — The House voted Thursday to end federal rent controls on September 30, except in critical defense areas and cities specifically requesting control. The vote, subject to rollcall reconsideration, was one more step toward final action on the Administration's sharply reduced controls bill.

Taft Charges Dewey Runs Ike Campaign

WASHINGTON — (P) — The Administration's stripped-to-a-skeleton controls bill faced final rollcall tests in the House Thursday afternoon.

And Administration leaders had little hope of restoring the major control powers peeled away by a coalition of Republicans and Southern Democrats in a week of heated debate.

In that case Congress could either allow all controls to die next Monday, when the present law expires, or pass a quick, short-term extension of the present law.

No Credit Restrictions

As it now stands the House bill would:

End wage and price controls on July 31, 1952.

Continue until June 30, 1953, allocation and priority powers and rent control.

"Request" the President to try to stop the steel strike with a Taft-Hartley Law injunction.

Reorganize the Wage Stabilization Board and take away its power to act in labor disputes.

The House left out of its bill all authority for the government to control private credit. This authority had been used in the past to regulate installment buying and house purchases.

There was one exception: Republican Leader Martin of Massachusetts told newsmen he thought the House might reverse Wednesday's 118 to 87 decision to end wage and price controls July 31.

Representative Barden (D-Nc.) sponsored this amendment, Martin, who opposed it, said a Senate-House conference committee probably would knock it out of the final bill even if the House didn't cancel Wednesday's tentative vote.

Even without the Barden amendment, however, the bill—originally drawn to continue President Truman's wage, price, rent and other control powers for a year—has been whittled so sharply by the House some members said they'd be surprised if it wasn't sent back to committee.

Taite Amendment

Another amendment up for reconsideration Thursday was by Representative Taite (R-Iowa). It would end practically all price controls after June 30. This amendment, approved by an unrecorded vote of 145 to 88, appeared to have a good chance of remaining in the bill.

Before Thursday's final votes, the House still had to decide what to do about rent control. An amendment to remove rent controls on July 31 was pending and had strong backing.

The Senate, in its own version of the controls bill, has voted to retain rent controls until next March 1, when it also would end wage and price controls.

Shows Stew

Partly cloudy Thursday night and Friday. Widely scattered showers. Maximum temperature Wednesday 100 degrees; minimum Thursday 69 degrees.

Mrs. J. M. Lipham, Resident Of Kermit For 16 Years, Dies

KERMIT — Mrs. J. M. Lipham, 46, resident of Kermit for 16 years, died at 2:30 a.m. Thursday in Winkler County Hospital, after an extended illness.

Funeral services are scheduled at 4 p.m. Friday in the First Baptist Church here. The Rev. Charles Walker, pastor of the First Methodist Church, will officiate. Assisting will be the Rev. Ronald Hubbard, pastor of the First Presbyterian Church at Snyder, and the Rev. Joe Allen, pastor of the First Baptist Church, Interment will be in the Kermit Cemetery.

A native of Colorado City, she was married in 1925 to J. M. Lipham, pioneer Kermit businessman and civic leader.

She was a member of the Methodist Church and square dance club.

Survivors include the husband; two daughters, Mrs. Evelyn Odum and Mrs. Wanda Cooper, both of Kermit; a son, James E. Lipham, student in Sul Ross College; the mother, Mrs. H. F. Feaster of Colorado City; five brothers, Elmer, Clyde, Orin, Randall and Lawrence, all of Colorado City; two sisters, Mrs. Lottie Hunsinger of Colorado City and Mrs. Vernon Koon of Cleburne, and two grandchildren.

SIZZLING GALS DENIED RELIEF

CLEVELAND —(P)—The gal workers at Cleveland City Hall are not going to wear shorts, regardless of the sizzling weather.

Mayor Thomas A. Burke so ruled Wednesday after some of the girls had requested permission when thermometers bobbed to a bake-over 90.

Martin County Road Project Authorized

STANTON — Authorization has been made by the State Highway Department for 2.3 miles of grading, structures and surfacing for State Highway 349 in Martin County.

Right-of-way will be furnished by Martin County for the project, which extends from the Dawson County line southwest to county road.

\$7,000 Damages Are Awarded Texas Boy

FORT WORTH —(P)—A boy who lost his left eye and finger while playing with explosives on the World War II site of Camp Walters was awarded \$7,000 damages in U. S. District Court Wednesday.

Walter Wayne Inmon was injured in February, 1949. Judge T. W. Davidson also granted the boy's father, Walter W. Inmon, \$1,000.

The father, who brought suit for himself and his son, had asked \$55,000 from the government.

FAT'S ANKLE
Sherman Williams, 3,000 Travis Street, suffered a sprained ankle when he fell from a four-foot ledge on a ranch Wednesday. He was treated at Western Clinic-Hospital.

BACK IS INJURED
Edgar L. Watts of Rankin, employed by Texas Natural Gas, suffered an injured back Wednesday. He was treated at Western Clinic-Hospital.

Wife Markets Movie Rights To Mystery Of Missing Judge

By ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD — Exclusively Yours: Movie rights to America's most intriguing mystery—the strange disappearance 22 years ago of a New York Supreme Court Justice, Joseph Force Crater—have just been placed on the bidding block.

Crater vanished in 1930 after leaving his summer cabin in Maine for a business weekend in New York. His wife, Mrs. Stella Crater, granted the story rights through her attorney to Irene Wright, secretary to a Hollywood producer.

British newsmen are boiling because Clark Gable won't hold still for interviews. . . The Artie Shaw - Constance Dowling romance, punctuated by fierce bickering, has cooled down to plain friendship.

Hollywood's new economy kick is hair-raising. The U. S. call sheet for "The Great Compagnies" carried this notation: "Three Men for Quartet." Further economy was practiced on "Cattle Kate" during the murky days this month on an outdoor set. Director Lee Sholem had shadows painted on the ground to create the illusion of sunlight so no shooting days would be lost.

The boys who worry about such things are trying to figure out how Alan Ladd and Arlene Dahl are going to be able to co-star in "Desert Legion." Arlene towers over Alan. It's the studio's knottiest problem since Richard Basehart had to make love to Marilyn Maxwell. She played her scenes in bare feet and still had to stoop.

It's magazine photographer Milton Green, a ringer for John Garfield, who's No. 1 in Nina Foch's life, replacing director Vincente Minnelli. Nina's pals think that her European vacation plans are a cover-up for a honeymoon with Greene later this Summer.

Steve Dunne, who made 30 flicks before playing in James Mason's "Lady Possessed," isn't taking the rap for the "Introducing Stephen Dunne" billing he received in the picture. He's so embarrassed about it that he's blaming June Haver, who squawked, he says, about sharing normal star billing with him.

The Gene Barrys—he is Paramount's new fair-haired boy—are expecting a Christmas baby. . . It will be a family affair on the Dorothy Shay TV show over CBS. Dotty's niece and two nephews have been set to play kinko. . . Ursula Thiess says her dating with Bob Taylor isn't serious. "He's a nice guy," is her only comment. . . Ken Tobey, who saved the world from "The Thing," will attempt to destroy it as the foreign atomic spy in Sheldon Reynolds' "European Incident."

Joe DiMaggio's ex-wife, Dorothy Arnold, is ready for a comeback in a west coast Summer troupe of a new musical, "Penny on a Drum." . . Sweden's top film queen, Anita Bjork, is headed for Hollywood in the fall. She's now making her first English speaking film, "Memory of Love," in Stockholm.

Maureen O'Hara and hubby Will

Price will go into independent production this fall with "Stars of India," another swashbuckler.

"Let other people spend money on 'acting' and 'message' stories," snorts Maureen. "This is a business. I check with exhibitors to see what they want. They want action—not talk."

Katharine Hepburn's golf sequences in "Pat and Mike" are reminding pals that she was runner-up in the finals of the Connecticut Women's Open Championship several years ago. But instead of her clubs, the caddy carried an umbrella so she wouldn't sunburn and gallery loved it.

"Sword of Damascus," a screenplay tailored for Tony Curtis and Piper Laurie, is ready for the cameras at U. I. But Piper's pals say she's boiling at Tony's remarks about her and will ask the front office to find Tony another co-star.

There's a divorce talk about British star Glynis Johns and her groom, soap tycoon David Foster. She's in London to play Mary Tudor in Walt Disney's remake of "When Knighthood Was in Flower" and he's traveling around the world solo.

Even without Greta Garbo, Ida Lupino and Collier Young are going ahead with their idea of filming "The House of the Seven Gables" about the Hollywood boarding house where aspiring starlets dwell.

Gene Howe Rites Are Held Thursday

AMARILLO —(P)—Gene Howe, veteran newspaperman who rose to prominence in the Texas Panhandle, was interred here Thursday.

The body of the longtime editor of the Amarillo Globe and News was found Wednesday morning, a pistol clutched in the right hand. A bullet hole was in the 66-year-old newspaperman's right temple.

Mrs. W. J. Flesher, Randall County justice of the peace, returned a verdict of suicide. Friends said despondency over his health caused him to end his life.

Ingrid Hires Geisler In Battle Over Pia

ROME —(P)—Ingrid Bergman announced Thursday she has hired Hollywood lawyer Jerry Geisler to "fight to the end" to bring her 13-year-old daughter to visit her in Italy.

A Los Angeles judge ruled Tuesday against Miss Bergman's application for a visit by her daughter, Pia Jenny Ann Lindstrom.

News Of Wedding, Baby Announced

HOLLYWOOD —(P)—Actor Robert Lowery and actress Jean Parker have announced that they are married and are expecting a baby.

Miss Parker said Wednesday the wedding took place May 29, 1951, at the home of a friend in Miami. She expects the baby in October, she said.

Hays Motor Firm Closes Temporarily

Due to expansion of the First National Bank, the Hays Motor Service at 122 East Wall Street, closed Thursday with its present building to be demolished.

B. M. Hays said the firm would open within 60 days at a new location on East Highway 80.

Until the new facilities are available, Hays will operate a business office for the firm at his home, 1701 West Kentucky Street. The telephone number is 2-2091.

SURGERY PLANNED

Stephen Ash, five-year-old son of Mr. and Mrs. J. C. Ash, 308 East Noble Street, has been admitted to Western Clinic-Hospital for a tonsillectomy.

Actress' Daughter Marries Fireman

HOLLYWOOD —(P)—Actress Beverly Hills, 18-year-old daughter of comedienne Joan Davis, eloped to Carson City, Nev., last Sunday and married a fireman.

Miss Davis didn't learn about it until the newlyweds returned here Wednesday. Her comment: "At 18, kids sure do think they know everything."

The bridegroom is Lee Bamber, 25, of the Pasadena, Calif., fire department.

UNDERGOES TONSILLECTOMY

Walter Fred Pate, seven, 2300 Brunson Street, has been admitted to Western Clinic-Hospital for a tonsillectomy.

24-Year-Old Man Held In Reported Attack On Woman

A 24-year-old negro man was being held Thursday in connection with a reported attack on an 18-year-old white woman.

Named in a rape charge filed by County Attorney Reagan Legg was James Walter Badger, 210 South Adams Street.

Badger was arrested early Thursday by Police Lt. Clarence Hollis and Officer Joe Wilson after the woman, who lives at Sims, Texas, told of being attacked in the front seat of her car while her husband slept in the rear seat.

In a statement, the woman said she and her husband picked up the negro man near Roscoe. At Big Spring, they bought a fifth of whisky and continued on to Midland.

When they drove to Badger's house, she said, her husband fell asleep in the rear seat and Badger assaulted her, threatened to kill her if she cried out.

GIRL HURTS HEAD
Donna Sue Hudson, five-year-old daughter of Capt. and Mrs. R. F. Hudson of Midland, suffered a laceration of the left side of her head when she ran into a door Wednesday. She was treated at Western Clinic-Hospital.

Sir Francis Drake was the first Englishman to sail around the world.

CLOSE SHAVES, NO COMPLAINTS

NEW YORK —(P)—There are barber-mice who shave other mice—without a squeak in a car-load of customers.

So said Dr. Theodore S. Hauschka of the Institute for Cancer Research and Lankenau Hospital Research Institute, Philadelphia, in the Journal of Heredity Wednesday.

Hauschka wrote that the barber rodents give close shaves—but no haircuts—by eating all the whiskers off their companions.

Mexican, 23, Admits Hotel Room Slaying Of St. Louis Mother

ST. LOUIS —(P)—A 23-year-old Mexican has admitted the brutal hotel room slaying of Mrs. Irene Thompson, an attractive 32-year-old mother.

Police Capt. John Buck reported Wednesday night Jose Romero had signed a statement saying he strangled Mrs. Thompson and left her partially nude body in a room at the Jefferson Hotel.

Mrs. Thompson's body, clad only in panties, was found in the room Sunday. Her throat had been slashed with a broken bottle and an electric cord had been twisted around her neck.

Romero told of having been in a fight with another man over Mrs. Thompson last Friday and then visiting her hotel room later that night. He said she had screamed insults at him and lunged toward him with a desk pen.

Romero met Mrs. Thompson, mother of a two-year-old daughter, at a dancing studio where she was employed as an instructor.

He surrendered to police Wednesday on a warrant charging him with the slaying.

Busted Sergeant To Work For Clark

MONTEREY, CALIF. —(P)—That sergeant who was court-martialed and busted in rank for writing Gen. Mark Clark an insolent letter soon will be writing letters for Clark's command.

C. Deane Chase, now a private first class, has his orders assigning him to the Far East theater as a stenographer.

After Clark repudiated some promises made under duress to rioting Reds at Kojima Island prison in Korea, Chase wrote the general his action was "repugnant and disgraceful."

'Little Black Dresses' Are Designer's Forte

By DOROTHY ROE
AP Fashion Editor

NEW YORK—Suave is the word for Nettie Rosenstein, famous for her special touch with the all-in-one "little black dress," which this season manages to give the effect of having been poured on.

Her collection for Fall, previewed for the visiting fashion press, shows a series of these, all having smooth, rounded shoulder lines, slim mid-

riffs, skirts narrow or with controlled fullness, understated but immensely flattering.

With the black dresses she adds dramatic touches of costume jewelry in the form of massive gold coin medallions or pendants and heavy gold chains.

Have Feminine Cut
Her collection of suits also stresses soft tailoring, natural shoulders and a feminine cut. Most have slim skirts and brief jackets with flared petal-like peplums. The slim waistline is important in the Fall silhouette, the lines curving above and below.

Jane Derby shows a series of well-tailored suits in understated design. Accenting the costume suit consisting of box jacket and sheath dress. She employs contrasting textures in fabrics, combining poodle cloth and flannel with effective results.

The ladylike black crepe-de-chine cocktail dresses trimmed in delicate handwork and lace, which are practically a Derby signature, are again in evidence.

Mrs. Derby uses magnificent Italian brocades in a series of dinner and evening fashions, does such tricks as making a wind-breaker in French blue satin with knit cuffs and waistband, lining it in mink. This goes over a matching satin dinner dress.

Her collection shows the kind of good taste that marks American designing at its best.

'John Calvin' Is Presbyterian Program Topic

"The Life of John Calvin" was the program topic at the Tuesday meeting of the Women of the Church of the First Presbyterian Church. Mrs. L. A. Roby was in charge of the program.

Dr. Matthew Lynn, pastor, opened the meeting with prayer. Mrs. Bob Watson gave the devotional on "Doing All For The Glory of God." Mrs. Mervie Ellis spoke on "Calvin and Luther" and Mrs. Jack Huff spoke on "Calvin's Conversion."

Mrs. Paul Anderson discussed "Calvin's Teaching and Preaching and a Model Christian Community." The Rev. Flynn Long, Jr., assistant pastor, answered the following questions: "How has Calvin's ideas molded our ways of worship?" "Did Calvin write any church music?" "How did Calvin affect our beliefs?" and "Are Presbyterian's doctrines, elections, sanctifications, etc., the five points of Calvinism?"

A coffee was held before the meeting. Mrs. J. T. Spikes and members of Circle 8 were hostesses.

ATTENDS CONFERENCE

The Rev. R. L. Kirk, pastor of the First Methodist Church in Lamesa, was one of 10 clerical delegates attending the jurisdictional conference in Wichita, Kan.

Methodists Slate Leaders Camp

The First Methodist leadership camp for church school workers will be held Monday through Friday in the Ceta Canyon Methodist Camp. The announcement was made by the Rev. Uel D. Crosby, executive secretary of the Northwest Texas Conference Board of Christian Education.

The four divisions of study will be Bible Backgrounds for Church School Workers, The Methodist Church School, The Methodist Youth Fellowship and the Laboratory Section for Workers with Children.

Among the leaders will be the Rev. Jordan Grooms, pastor of the First Methodist Church in Lamesa; Dr. Walter Turner, representative of the General Board of Christian Education of the Methodist Church; the Rev. James T. Carter of Amarillo; Mrs. John English of Phillips; Maurice Martel of Fort Worth and Mrs. Uel D. Crosby of Lubbock.

Mrs. Fowler Is Program Leader

Mrs. Bill Fowler led the program at the Wednesday meeting of the Edwina Kirk Circle of the First Methodist Church.

Her topic was "Let the Earth Be Glad." Mrs. T. R. McAden was the circle hostess. Others attending were Mrs. Brooks, Mrs. Harris, Mrs. W. R. Bryant, Jr., Mrs. Weldon McCormick and two new members, Mrs. H. E. Merritt and Mrs. Jones.

Congratulations To

Mr. and Mrs. R. W. Mangum, 941 North Edwards Street, on the birth Wednesday of a son weighing seven pounds, 11 ounces.

Mr. and Mrs. F. A. Weisel, 102 West Cowden, on the birth Tuesday of a daughter weighing six pounds, 13 1/2 ounces.

Mr. and Mrs. E. E. Locklar on the birth Tuesday of a son weighing 10 pounds, seven ounces.

Mr. and Mrs. Dick Melton, 201 1/2 East California Street, on the birth Thursday of a son weighing five pounds, five ounces.

Mr. and Mrs. J. E. Redd on the birth Thursday of a daughter weighing seven pounds, nine ounces.

Mr. and Mrs. Marion L. Barnes, 1402 South Terrell Street, on the birth Thursday of a daughter weighing seven pounds, four and one-half ounces.

VISITS IN BOSTON

Mr. and Mrs. Charles Campanella and son, Charles, of 821 North Main Street, left Thursday for Boston, Mass., for a three-week vacation. They will visit Campanella's parents, Mr. and Mrs. Liborio Campanella.

VISITS IN COLEMAN

Mrs. W. R. Roy, 805 South Weatherford Street, is visiting in Coleman. She plans to return to Midland Monday.

RECENT BRIDE—Lt. and Mrs. Leslie Stewart Harding are at home in Selma, Ala., after their recent marriage in the chapel at Craig Air Force Base in Selma. The bride is the former Roxana Leonard, daughter of Mr. and Mrs. J. S. Leonard of Midland. Harding is the son of Mr. and Mrs. G. L. Harding of Denton. The Rev. Claud Bond, chaplain, officiated at the double-ring ceremony. The bride attended Texas State College for Women and Harding attended North Texas State College.

Shirley Allen, Gayle Morrow Wed In Andrews

ANDREWS — Shirley Allen and Gayle Morrow were married Saturday in a double-ring ceremony in the home of the bride. The Rev. A. C. Harding officiated.

The bride is the daughter of R. L. Allen and the late Mrs. Allen. Morrow is the son of Mr. and Mrs. Elmer Morrow of Andrews.

The ceremony took place before a background of greenery and floor baskets of pink gladiolus. Mrs. Everett Smith played traditional wedding music.

Given in marriage by her father, the bride wore a ballerina length gown of white nylon lace and net. She wore a cap of white lace with a shoulder length veil. She carried a bridal bouquet of pink carnations on a white ribbon.

Maid Of Honor
Patricia Allen, sister of the bride, was maid of honor. She wore a dress of white eyelet embroidered organza with a pink organza overskirt. Her corsage was of pink carnations.

Vernon McWilliams was the best man.

After the ceremony a reception was held in the bride's home. The table was covered with a lace cloth and centered with an arrangement of pink gladiolus flanked by pink tapers.

After a wedding trip to Cloudcroft and Ruidoso, N. M., the couple will be at home in Andrews.

Mrs. C. B. Hedges Directs Program

Mrs. C. B. Hedges led the program at the Tuesday meeting of the Ladies Bible Class of the Trinity Baptist Church.

The group discussed Moses' instructions to the children of Israel to stand still and seek the salvation of the Lord. Mrs. Tommy Davis was a guest. The closing prayer was given by Gladys Waters.

Others attending were Mrs. Ben Gray, Mrs. L. M. Bassham and Mrs. J. L. Thompson.

Intermediate Camp To Close Friday

The Intermediate Camp of the First Methodist Church, Big Spring and Brownfield districts, will close Friday.

It has been meeting at the Methodist Camp Grounds in Ceta Canyon. Midlanders attending are Janice Hooks, Jonanna Sewell, Jarienne Powledge, Sally Smith, Bobby Crain, Bobby Hillin, Arthur Adams, Mary Louise Erskine and Owen Ann Davis. The counselor for this group is Mrs. H. B. Welch.

Foreign Policy Architect

John Foster Dulles, who has just been chosen to draft the Republican Party's 1952 foreign policy platform plank, believes war with Russia is unlikely unless Moscow can get its hands on Germany and Japan first.

This is the sober, considered view of the complete realist, the man who understands the factors that underlie the world power struggle.

Men with this hard-headed approach have been telling us all along that Germany and Japan were the big prizes and that Russia would fear to move against the West without them. It's a matter of economics: Japan is the industrial dynamo of Asia and Germany's heavy industry is unrivaled in Europe.

Cast these into the balance against the free world, and the Soviet Union really would have reason to feel it might win a long test of arms. For there can be no question of its awareness of American industrial might. Without a reasonably equal chance in extended combat, the Kremlin would not likely take the leap.

Viewed from this perspective, the free world's recent achievements, first of an operating peace treaty with Japan and now of a prospective peace pact with Western Germany, are huge landmarks.

The most significant things about both agreements is that they are accompanied by parallel defense arrangements placing these two industrial strongholds firmly within the free world's military orbit. In other words, if the German pact now should be ratified as was the Japanese, both nations would be arrayed on our side against the Soviet Union and its satellites.

To minimize such an accomplishment at this stage is to acknowledge ignorance of the elements of power politics. To describe as a total disaster any foreign policy that successfully woo Germany and Japan to our side is to lapse into the ridiculous.

Since Dulles himself played so large a role in bringing Japan into the fold, and since many leading Republicans wholeheartedly ascribe to the German phase of the program, this part of our foreign policy is American, anyway, rather than strictly administration.

Our overall foreign policy indeed may have important weaknesses. But the winning of Japan and Germany to the free world's family cannot be counted among them.

Dulles is an excellent choice as architect of a GOP foreign policy plank. No man is better qualified by reason of experience and originality of thought to undertake this vital task.

He may or may not be able to frame a plank that will satisfy all elements of his party. But he is sure to draft one that will take account of the realities on the world scene. His newest expressions on the prospect of war are part proof of that.

Little League Needs Help

Little League Week is being observed in Midland, and surely the sponsors, adult supervisors who give generously of their time and effort, and the Little Leaguers themselves deserve the congratulations and best wishes bestowed upon them by Midland citizens generally.

The Little League players are the talk of the town, and all Midland is proud of them.

That the Little League movement is a great and worthwhile youth program is a generally accepted fact and everyone apparently is a Little League booster.

Yet, the Little League finds itself in somewhat of a financial strain, even in the face of a relatively small \$6,500 budget for the season. A public appeal for funds has been sounded. Approximately \$1,500 now is needed.

It should not be necessary to issue a second appeal in prosperous and progressive Midland.

Let's Set Example

The government's plea for swift action on the German peace contract and the related mutual defense arrangements ought to be heeded by the Senate.

The sooner we get West Germany firmly within the orbit of free nations, the better it will be for the future solidarity and safety of the West. It is wholly fitting that the United States lead the way in ratifying these agreements. We have at every stage been among the strongest advocates of such action.

There will be enough wavering and obstructionist efforts in the parliaments of the other parties to the pacts, namely, Britain, France and Germany itself. If we set an example of speedy and clear decision, we may influence the others to keep that sort of thing to a minimum.

There is only one downfall you should laugh off—the one provided by rain.

A critic says modern poets have on fault in common. We've noticed that, too—writing poems.

"Well, What's The News From The Western Front?"

The Washington Merry-Go-Round

By Drew Pearson
(Copyright, 1952, By The Bell Syndicate, Inc.)
Drew Pearson says: Franco slows up air and naval bases for U.S.; U.S. can't get an agreement from Spain in return for \$100,000,000; Eisenhower doesn't understand political bargaining.

WASHINGTON—The State Department has struck a snag with Dictator Franco of Spain regarding the much-discussed naval and air bases he was supposed to give U.S. forces in return for the \$100,000,000 which Congress voted him.

When Ambassador Stanton Griffiths discussed bases with Franco, about a year ago, he was effusive in his anxiety to do anything the United States wanted. In fact, it was Franco who took the initiative in wanting American cash and there seemed to be nothing he wouldn't do to get it.

Now, however, he is just the opposite. He wants American dollars to be spent in Spain only on his own terms.

Specifically, the difference with Franco boils down to the fact that the U.S. Navy and Air Force want bases in Spain, while Franco wants modern military equipment for the Spanish army.

However, the tanks and heavy armor which he demands happen to be the things which the U.S. Army is short of. Priority on this equipment goes first to Korea, second to U.S. forces in this country, third to NATO allies in West Europe. Defense officials argue that to give Franco modern army equipment before we send it to France, Italy, Belgium, and other non-Fascist allies would cause a furor in Western Europe. We already are far behind in our promise to them.

Furthermore, defense officials point out they aren't much interested in the Spanish army anyway. Located on the southern tip of Europe, it would be of no help in stopping the onrush of the Red army over France and Belgium to the English Channel. What they are interested in instead is air and naval bases in Spain. And regarding these, Franco now seems much less enthusiastic.

Franco hasn't said so in so many words, but he seems to want the latest \$100,000,000 voted by Congress more or less with no strings attached.

What U.S. Wants
Meanwhile, the State Department has been engaged in a lengthy painstaking negotiation with Spain for the following:

1. Air and naval bases.
2. A technical aid agreement by which the United States would supply technicians for the improvement of Spanish agriculture, public health, etc.

3. Anti-discrimination against American investors. At present Franco has strict laws against foreign capital, and so far has not been willing to change them.

Franklin Roosevelt, Calvin Coolidge, and Harry Truman, all master political strategists, never would have been caught making an error like this.

Another Russian Attack?
The Air Force fears that the B-29

Q—Who was known as the "Happy Warrior" in American politics?
A—Al Smith.

Q—How many of our presidents were generals?
A—Nine.

Q—What state is called the Beaver state?
A—Oregon.

Q—What two Americans contributed mostly to the Federalist Papers?
A—Alexander Hamilton and James Madison.

Q—How many homers did Babe Ruth hit during his career?
A—714.

Have A Laugh

By Boyce House
In early days, a stage coach was being held up. One passenger, who was handing over his valuables, said, "Surely you wouldn't rob a minister." The leader asked, "What church?" The victim said, "Baptist." The thief said, "Boys, give him his valuables back. 'Twas a Baptist myself."

JACOBY ON BRIDGE

By OSWALD JACOBY
Written for NEA Service

One feature of bidding that is employed by the best Eastern players, but not quite so much in other parts of the country, is the use of the fourth suit as a sort of general forcing bid. The principle is illustrated in the hand shown today.

Howard Schenken opened the South hand with one heart, playing at the "expert's table" in New York's famous Cavendish Club. His partner, Alfred Sheinwald, decided to respond with only one spade, noting mentally that the hand was very nearly worth an immediate jump take-out of two spades.

Mr. Schenken made his normal rebid of two clubs, and now Mr. Sheinwald had a bidding problem. A jump to three hearts would be a

gross underbid; but a raise to four hearts would overstate the trump support for a suit that had been bid only once.

A jump to three spades seemed pointless, since South's bidding indicated spade shortness. Conceivably, such a jump might persuade South to raise the spades with a doubtful holding on the theory that North had a long and very strong suit.

The simple bid of two diamonds—the fourth suit mentioned by the partnership—was the best solution of the problem. Such a bid is absolutely forcing, and it guarantees nothing in the way of a suit or of a high card.

It simply indicates that the player has enough value somewhere in the hand to make a forcing bid—and that no other bid seems to be a better choice.

Mr. Schenken had the chance to rebid his hearts cheaply, and did so. Now Mr. Sheinwald could afford to come out from behind the bushes with a jump to four hearts. Moreover, his bidding hinted at a slam even though he had not gone past game, for if he had been interested only in game there was no need for his bid of two diamonds.

Mr. Schenken had the sort of hand that old-fashioned players would not even open the bidding with, but he now proceeded to try for a slam with a Blackwood bid of four no-trump. When North showed two aces (with the response of five hearts) South went on to slam.

West made his best opening lead—the ace of diamonds and continued the suit, South ruffing. The slam now depended only on "finding" the queen of hearts, which Mr. Schenken proceeded to do. With any other opening lead, of course, declarer would have discarded the diamond on a spade, thus assuring the slam against even a bad trump break.

The grave of Nancy Hanks Lincoln, mother of Abraham Lincoln, is at Lincoln City, Ind.

Fifth Best In Delegate Pledges, Kerr Fancies Himself Winner

By PETER EDSON
NEA Washington Correspondent

WASHINGTON—The strategy of Senator Robert S. Kerr of Oklahoma in his race for the presidential nomination presents an interesting commentary on the Democratic Party's internal situation.

At this writing Senator Kerr stands fifth in the number of pledged delegates on the official box score. But according to the Kerr school of political reasoning, the four men ahead of him have no chance of winning the nomination.

So he fancies himself the top man with a good chance to win the nomination, even if he is only fifth best bet right now.

This is a typical case showing how the political disease affects candidates at this particular period of their affliction. If political candidates couldn't kid themselves into believing that they could win against all odds, there wouldn't be any point in running.

The official listing of instructed delegates to the Democratic Convention now gives Senator Kefauver 246, Senator Russell 86 1/2, Averell Harriman 85 1/2, Gov. G. Mennen Williams of Michigan 40, Senator Kerr 33 1/2. Gov. Adlai Stevenson of Illinois, who says he isn't even running, has 30 1/2, close behind Kerr in sixth place.

Of course this isn't the way the candidates will line up on the first ballot at Chicago. Senator Kefauver and Senator Russell claim they will have more than 300 apiece. What Averell Harriman will have is anybody's guess, but if by some miracle he should double his present pledged strength he would have 171.

Bosses in Control
According to the Kerr headquarters theory, the Democratic political bosses just won't allow Senator Kefauver to have the nomination. They are said to dislike him, even though he has shown an ability to run 100 delegates ahead of the field.

According to the same Kerr headquarters reports, Senator Russell can't get the nomination because he's too Southern. Averell Harriman is figured to have no great popular appeal. Kerr definitely counts Stevenson out.

The 33 1/2 delegates that Senator Kerr has rallied down—for the first ballot, anyway—consist of 24 from his native state of Oklahoma, three from Nebraska, two from Kansas, one and a half from Idaho, one each in Maine and Montana and a half vote from Nevada and Montana.

This broad, eight-state representation leaves Senator Kerr with only 40 states in which to win the mere 583 1/2 delegates necessary for his obtaining the nomination.

Actually, Senator Kerr thinks he may have as many as 150 delegates on the first ballot. This might put him in fourth place, instead of fifth. In addition to the 33 1/2 he rallied

You, South, hold: Spades K-8-3-2, Hearts K-Q-9-8-4, Diamond 7, Clubs A-Q-J. What do you do?
A—Bid three spades. This invites North to go on to game if he has a sound but light response, but permits him to pass below game if he has a really bad hand.

Death in the Sierras

By Doris Hudson Moss

XVI
Frightened, the woman dropped her eyes and sat very quietly. "We will question you further a little later," David said crisply. "And now Sam, will you please tell us why you live in the cave and all about the buried treasure indicated in the map on the wall of the cave?"

"Well, folks, there's not so much to tell except that back in 1846 my father had a fight on the wagon trail up the mountain yonder. He hit a man and thought he killed him. May have.

"For years he hid here, just hunting, fishing and wasting his life. Then he married a squaw of the Digger tribe and she was my mother. I was brought up in the Digger way but when I was grown I came back to the cave. I don't like the Injun way of living. I buried the little bit of money that he had and dug up a little when he needed it for grub.

"He claimed that the watch and chain was his but they really did belong to that feller he killed or hurt in the fight. When he got old, they kinda worried him and so he took the money and the watch out of the hole where you folks dug up the trunk and he put that note inside instead. That was about 20 years ago when he was an awful old man. Every once in a while I've written another note and put it in a new box or trunk so if ever anybody should find the map and dig for the treasure, he could find the note. I'd know if he was in some parts and give the watch if he wanted it and the money too, if that was his."

David said, "How much money is left, Sam?"
"Bout \$50. What I'd like to know is how'd the crazy story of gold ever get out anyhow?"

David continued, "Unfortunately Miss Martinson's death was promoted, probably by an affliction. She was very hard of hearing. When she told the state police about the letters, they told her to

down, his field workers report to headquarters that there is a bloc of 100-odd unbranded and stray delegates in the Western plains and Rocky Mountain states which will be corralled safe in the Kerr log cabin, come the convention.

Delagates Few, Far Between
Unfortunately, delegates in this range country are about as sparse as the population. A whole lot of territory is covered, but even though eight big Western states should go solid for Senator Kerr, they still wouldn't give him many convention votes. Not enough, anyway.

Among the possibilities on which Senator Kerr's hopes arise are these:

Idaho—eight of 12 votes for Kerr. Dan Cavanaugh, Democratic national committeeman, is a Kerr backer.

Utah—20 delegates with 12 votes, all uncommitted. Grant MacFarlane, former state chairman, is for Kerr.

Wyoming—10 delegates, uncommitted, operating under unit rule. Senator Lester Hunt will head the delegation.

North Dakota—nine of 16 delegates, each with a half vote, are on the original Kerr-for-President Committee.

Washington—Kerr returns to Seattle June 26 and hopes to have at least 10 out of 23 delegates.

Montana—Another unit rule state, with 12 votes. Gov. John Bonner, a Kerr supporter, and Senator Jim Murray head the delegation.

Kansas—Kerr has the only two pledged delegates in the 16 votes which will be cast under the unit rule, and he hopes for all.

Senator Kerr will meet Colorado delegates at Golden on June 27 and attend a Missouri state rally at Kansas City next day.

So They Say

With fiendish cleverness they the Communists exploit every grievance, every class, racial and religious division.
—Sen. Estes Kefauver (D, Tenn.)

The Kremlin bombards the world with cries of "peace" and the Kremlin brings on war at every point she can.
—President Harry Truman.

Freedom of speech and freedom of the press are not in serious jeopardy in our country.
—United Press Vice President E. J. Johnson.

Korea was a post-war Pearl Harbor that aroused and awakened the free world to the true nature of Communist imperialism.
—U.S. ambassador to Korea John J. Muccio.

I stand at the (race track) pad-dock and as the horses come out I speak French. I bet on the horse that looks up.
—Movie actress Corinne Calvet.

wait for an escort when she went to the Lodge. She evidently mis-understood and she started out alone, reaching the high mountains well after dark. We know that she drove safely as far as Horseshoe Springs where she bought some gas and asked the way to Gold Lake from old Jim. Half an hour later, Sergeant Duncan and Officer Marguard who patrol that stretch of highway found her murdered in her car.

"WITHIN a short time Miss Curtis arrived at Horseshoe Springs in her green coupe. It seems fantastic that both she and Miss Martinson should both drive similar cars and that both should have red hair, but such was the case. However, Miss Martinson is in her fifties and Miss Curtis is still in her twenties and different in all other ways. Jim hesitated about coming out of the house after the murder only a short time before but when he heard a woman's voice, the kind old man wanted to warn her. When he saw Miss Curtis by the dim light of the electric lantern he carried, she frightened him thoroughly. Her red hair and green car were too similar to the murdered woman's. Then the rifle shot put an end to any warning he might give her. But the shot was not really intended for her, Rosemary, it was intended for Jim Loomis."

"Not for me?" I gasped.

"No, you were quite harmless in the eyes of the person who held that rifle. Jim believes that he sold the shell that killed Elsie Martinson. Together with the coroner, the officers removed the bullet from the body when they reached Blue Valley. Is that true, Duncan?"

"Yes, the bullet had been disturbed. The murderer probably tried to dig it out, but was scared off. It was a 30-30 shell, the kind Jim sells. And it'll probably work out that it was fired from the rifle found in the barn last this morning. Our ballistics men will be able to tell."

(To Be Continued)

Allied Infantrymen Drive Chinese From Hill In West Korea

SEOUL, KOREA.—(P)—Allied infantrymen drove armor-supported Chinese troops off a Western Korean hill Thursday in a bitter, five and one-half-hour battle.

At least one Communist armored vehicle—type unreported—was damaged by planes supporting the advancing UN troops, the Eighth Army said. Two other armored vehicles were seen on the hill.

As the Reds abandoned the hill northwest of Yonchon, Allied soldiers used flame throwers to destroy their bunkers.

Marine planes knocked out two airstrips near the front in Central Korea. Carrier-based Navy planes blasted Communist rail yards and supply facilities in Eastern Korea while the Air Force hammered

front-line positions with bombs, rockets and flaming napalm.

An ammunition dump was blown up and 11 Red troop bunkers, four artillery pieces and an anti-aircraft gun were destroyed, the Fifth Air Force said.

Action along the sweltering ground front had dwindled Wednesday, but the Reds poured heavy artillery and mortar fire into Allied lines.

REVIVAL SINGERS—The Rev. and Mrs. Lester Nefzger are leading the music at a revival being conducted at the Midland Heights Revival Center. The Rev. J. D. Jackson is the preacher. Services are being held at 7:45 p.m. each evening at the corner of West Florida and Camp Streets.

Victim Of Arthritis Gains New Courage From Strangers' Aid

LINCOLN, TEXAS.—(P)—A man who fought a losing battle against the twisting torture of arthritis for 18 years gained new courage Thursday because strangers 55 miles away had come to his aid.

Oscar Schiwart, his body immobilized by the wracking pain which held him on his bed as surely as if he had been chained all these years, headed for Seton Hospital in Austin.

Special Election Date Is Postponed

AUSTIN.—(P)—Date for the special congressional election in the Seventh District was changed Thursday from August 23 to September 23. Gov. Allan Shivers ordered the change after county judges in the district said they did not have enough ballot boxes and other materials to hold both the special election and the second Democratic primary on the same day.

The election was called to fill the vacancy created by the resignation of Rep. Tom Pickett, who will enter private business July 1.

Two doctors awaited his arrival. Their services will be without charge. The hospital room and nursing care also will cost nothing for Schiwart, a 45-year-old man who had to be declared a pauper to qualify for \$25 a month from Lee County. The county, a rural area of Texas, had no charity hospital or county nurse to help care for Schiwart.

Without Charge
The ambulance carrying Schiwart to Austin made the trip without charge. Drugs which the doctors hope will kill the pain and help Schiwart's rehabilitation will be furnished by a druggist "at cost."

All this was made possible by the efforts of two Austin businessmen who heard of Schiwart's state and determined to help him. The men, Conrad Fath and Bob R. Lockart, knew what Schiwart was suffering because they also had suffered arthritis.

Fath and Lockart went to state agencies which they thought should be able to lend assistance.

The answer always the same: "Sorry, he doesn't qualify for help under the law that covers our work."

Search Shifted
Fath and Lockart shifted their search to private citizens of Austin. There they found response. Joe Manor volunteered the ambulance. Dr. Jim Kreisle and Dr. Lawrence Griffin offered their services. Druggist Everett Kelly agreed to supply the drugs on a non-profit basis.

The Rev. Albert F. Jesse of St. Paul Lutheran Church told his congregation about Schiwart and received pledges of financial assistance. He contacted Lee County Judge John S. Simms and gained a promise that Schiwart's monthly allotment would be raised to \$40.

Sister Basil, administrator of Seton Hospital, promised a free room and nursing care for three to four months. Meantime, Fath and Lockart are hoping to find an institution that will provide permanent care.

Livestock

FORT WORTH.—(P)—Cattle 1,100; calves 400; fairly active, mostly steady; good slaughter steers and yearlings \$26-\$30; a few choice yearlings to \$31; beef cows \$15.50-\$20; bulls \$15-\$22.50; good and choice slaughter calves \$27-\$31; stocker calves \$18-\$31; stocker yearlings \$17.00-\$26.50.

Sheep 1,400; active; all classes steady; utility to choice slaughter Spring lambs \$22-\$26; a few utility and good shorn slaughter lambs and yearlings \$12; good slaughter two-year-old wethers \$9; cull to utility slaughter ewes \$6; common to good Spring feeder lambs \$10-\$17.

NEW ARRIVAL SHOOS MOOSE

BERLIN, N. H.—(P)—Richard Pinette, a Berlin school teacher driving along a country road, was stopped by a bull moose.

The moose wouldn't move—Pinette didn't dare to. A bull moose, when irritated, can do a lot of damage.

Man and beast stared at each other almost 15 minutes. Along came another car. Two was too much for the moose. He shook his head and sauntered away.

THE MIDLAND REPORTER-TELEGRAM, THURSDAY, JUNE 26, 1952-5

Divorcee Convicted Despite Redfield's Bedroom Bargain

CARSON CITY.—(P)—The French-Canadian divorcee who pleaded that she made a bedroom bargain with millionaire La Vere Redfield to steal his \$1,500,000 safe Thursday faced five to 10 years in prison for directing that fantastic burglary.

A Federal Court jury Wednesday found Mrs. Jeanne d'Arc Michaud, 36, guilty of carrying more than \$147,000 of the loot across state lines.

The jury rejected the petite, dark-haired woman's contention that she gained Redfield's consent to the theft in a bedroom tryst at the

millionaire's gloomy Reno mansion last December 28.

A special suicide watch was put over her. She previously attempted suicide and said on the witness stand:

"It is preferable to this shame of bringing out my private life as La Vere Redfield's sweetheart."

Redfield denied in court he consented to the theft, but was so hesitant and evasive that Federal Judge Roger Foley's temper flared at the blue-jeaned financier.

An amazing new touch to a case that will go down in FBI files as one of the strangest in history came Wednesday with this revelation: Redfield still has 270,000 silver dollars cached in a secret basement room of his field stone residence.

The 270,000 cartwheels, which weigh almost 10 tons, were discovered by FBI agents, acting upon coded instructions found in a note taken from Mrs. Michaud upon her arrest. The note, with a will and other personal papers, was among the currency, jewels and securities shocked into the millionaire's small bedroom safe when it was carted away last February 29.

FBI men chiseled through 39 inches of plaster, stone and concrete to find the secret room, which also contained a vast quantity of postage stamps.

Mrs. Michaud, who will be sentenced June 30, freely admitted masterminding the rich burglary. Four men involved are under arrest.

Shivers Radio Talk Thursday Night To Launch 30-Day Campaign For Reelection

By The Associated Press
Gov. Allan Shivers begins a 30-day campaign for reelection Thursday night with a state-wide radio address.

Most of the 30 stations carrying the governor's kick-off address will broadcast it at 8:45 p.m.

There were these developments as political activity in Texas grew more hectic daily:

1. Briefs to support their claims to Texas' 28 delegates to the National Republican Convention have been prepared by various factions supporting Senator Taft (R-Ohio) and General Dwight D. Eisenhower. Eisenhower released his 48-page document Wednesday. Taft followers said they would release theirs Sunday evening.

Sub Surfaces To Rescue Airmen

SUNDERLAND, ENGLAND.—(AP)—The British submarine Sirdar surfaced during maneuvers in the North Sea off Wednesday night to rescue two injured airmen from a Royal Air Force Shackleton bomber which exploded and dove into the sea.

One other member of the four-man crew was killed and a fourth was missing.

The accident was the only serious mishap during the NATO maneuvers. Operations Castaneta, in which 400 aircraft and 250 ships of nine nations had been taking part. The exercises ended Wednesday night.

Russian Embassy Leaves Venezuela

CARACAS, VENEZUELA.—(AP)—The 36-member staff of the Russian Embassy sailed for home Wednesday night following a diplomatic squabble which resulted in Venezuela and Russian breaking off diplomatic relations.

They left behind them two disgruntled Venezuelan carpenters who had helped them pack. The carpenters complained the Russians refused to pay the bill for their work.

French Marshal On Griddle Again

PARIS.—(AP)—French Marshal Alphonse Juin was in hot water again Thursday over a newspaper report which quoted him as saying the United States often made the United Nations look ridiculous in Korea.

Premier Antoine Pinay claimed the account of Juin's remarks to the French Overseas Club was "distorted," but government circles buzzed with the story.

Marshal Juin is commander of European ground forces under the North Atlantic Treaty Alliance and one of Gen. Matthew B. Ridgway's top aides in NATO.

More Women In Secretariat Urged

NEW YORK.—(AP)—More trained women for positions with the United Nations Secretariat has been urged by the board of the International Business and Professional Women.

At its fifteenth annual meeting Wednesday, the board said in a resolution that women "are not as yet adequately represented either in the Secretariat of the United Nations and specialized agencies, or as delegates representing governments."

Jet-Powered Car Sets Speed Record

BRUGES, BELGIUM.—(AP)—A British designed jet engine automobile set a speed of 152.681 miles an hour in the officially timed trials here Thursday.

The experimental car burned a gallon of kerosene every six miles.

MIDLANDERS TO ATTEND U. S. 80 CONVENTION

L. W. Sager, James Fields and George Votruba will leave Friday for Abilene, where they will represent Midland at the annual convention of the U. S. Highway Association.

Plans are being formulated to organize a U. S. 80 Highway Club here, and an organization meeting likely will be held following the return of the Midland men from the association convention.

MEETING OF WTCC OFFICIALS POSTPONED

A meeting of the Executive Committee of the West Texas Chamber of Commerce, scheduled Friday in Abilene, has been postponed due to the illness of President Frank Kelley of Colorado City.

Bill Collins of Midland, vice president of District 6 of the WTCC, was to have attended the session. He was advised of the postponement by Fred H. Bands, executive vice president and general manager of the regional organization.

AMARILLO MAN KILLED IN MISSOURI CRASH

CARTHAGE, MO.—(AP)—Douglas Henry Harris, Amarillo, was killed Thursday in a car-truck collision on Highway 166 south of Carthage. The state highway patrol said Harris' car was struck in the rear by a truck.

MEDICAL PATIENT

Mrs. Mac Alvarado, 340 East Front Street, is a medical patient at Western Clinic-Hospital.

Child, Three, Suffers Six Bone Fractures; More Likely

LOTT.—(AP)—It's mighty tough already for three-year-old Glenn Loren. The youngster has had six bone fractures in his short life—and he and his family and his doctor are afraid it won't be his last one.

Because almost any time he falls or bumps into something a bone breaks. Sometimes his little bones don't even have time to heal before they break again.

That's what happened this time—Tuesday. Glenn's left leg still was in supporting braces, but he fell in the yard and hit his knee on a rock. His left thigh again snapped.

He was taken to Martin and his doctor, who has treated him for all of his fractures, fixed him up again. Dr. D. R. Swetland, an orthopedic surgeon, sent the boy home Wednesday.

Swetland says Glenn's trouble is that he has too much calcium in his bones, a condition he calls "marble bone." It has affected all the bones in the boy's body, but the breaks have only bothered Glenn's legs.

It's a rare ailment. Dr. Swetland says, in Glenn's case his parents, Mr. and Mrs. Grover Loren, have to be extremely careful handling the youngster and watching his normal little-boy movements.

Slips On Floor

Glenn's first bone break came when he was only 15 months old. He slipped on a waxed floor and broke his right thigh. Four months later he got a foot hooked on the bedsheet of his crib and broke the lower part of his right leg.

A few months after that a fall was responsible for left thigh break. The next time he fell and broke his left leg. Last August he was standing in the family car, he twisted, fell and broke his left thigh again. And then the Tuesday accident followed.

Glenn's folks, who usually farm near here but have been living in Grand Prairie where the boy's father works in a defense plant, are taking the trouble in their stride. But everybody is pretty careful about handling little Glenn.

Factions' Leaders Set For Showdown In Party Squabble

JACKSON, MISS.—(AP)—Two leaders of Mississippi's predominantly white Republican faction leave for Chicago Saturday to prepare for a showdown fight for national party recognition.

They are Anson Sheldon of Greenville, state chairman of the "Lily White" faction, and his father George Sheldon of Clinton.

Two rival factions will have delegations at the national convention next month—the "Lily Whites" with pro-Eisenhower leanings but unpledged to any candidate and the predominantly negro group known as the "Black and Tan," which is pro-Taft. The negro faction always has been seated by the national party.

TEXAN HEADS ENGINEERS

HANOVER, N. H.—(AP)—Willis B. Woolrich, dean of engineering at the University of Texas, was elected president of the American Society for Engineering Education Wednesday.

PLAYS UP BOMBING

LONDON.—(AP)—Moscow radio Thursday began playing up British Socialist protests against the UN bombing of North Korean power plants along the Yalu River and charged—that the raiders hit a hospital with "many victims."

Nice Girls Hold Edge In Battle For Sailors' Favor

MIDDLESBOROUGH, ENGLAND.—Progress was reported Thursday in this city's good girl vs. bad girl competition for the favor of sailors.

The nice girls are going strong, it was said by the Rev. Cyril Kettle, 35-year-old chaplain of the Mission of Seamen.

The sailors are flocking in greater numbers to this mission where, just as Mr. Kettle promises on visits to arriving ships, they can meet some of the wholesome and pretty girls of the city. Middlesborough, an industrial and shipping center of 150,000 has become a bright spot on many a sailor's list.

Mr. Kettle's project has attracted a great deal of attention, some reports have suggested that he has organized the proper girls from the town to lure sailors away from the town to be found in any port, who aren't so nice.

It isn't like that, he protested. There is no existing competition in the streets between his team and the good time girls. But he does make it possible, and easy, for sailors who land in Middlesborough to meet girls who can give seamen

a memorable and proper evening. "I wish the mission could supply a few more," the chaplain said. "It's quite a job frequently to turn up a dozen on short notice."

Who are the girls? "Friendly, church-going and, in many cases, very pretty girls who know a sailor needs a girl to talk to after days and weeks at sea. I like them peppy, and it helps a great deal if they are tireless dancers. Our little church supplies most of the girls but we manage to borrow some from other churches."

The other churches sometimes are a little unhappy when I make raids on their pretty girls, because the other churches have their own social programs. But the cooperation really is splendid."

Any sailor may find a girl friend here. Many enduring friendships have been formed and, in the Rev. Mr. Kettle's experience, the boy-meets-girl department of the mission has produced at least one highly successful marriage.

State VFW Flays Failure To Allow Soldiers To Vote

GALVESTON.—(AP)—Condemnation of Texas' failure to allow soldiers to vote by absentee ballot was made by the annual convention of the state convention of the Veterans of Foreign War Wednesday.

Johnnie U. Foster, Lufkin, was elected state commander. Other officers include: Justin M. Morrow, Rotan, senior vice commander; John McKelvey, Electra, junior vice commander; Cleo Clayton, Amarillo, judge advocate; Johnston Beech, Gainesville, chaplain.

Officers of the auxiliary include: Mrs. Norman Summers, Austin, president; Mrs. Rosemary Smith, El Paso, junior vice president; A. A. Matistic, Lubbock, was elected grand commander of the Military Order of the Cooties.

Stephen Foster, the composer who won fame for his songs about the South, was a Northerner. He was born in Lawrenceville, Pa.

MELON-COLIC BABIES—Melons, melons, everywhere, and these two unidentified Hollywood youngsters are having a fine time loading up on the succulent fruit. The street-covering salad was spread out when a produce truck was overturned in an accident. Appropriately enough, it happened during National Salad Week.

Midlanders Enroll In Clinic At TCU

FORT WORTH.—Six students from Midland have been enrolled in the sixth annual Summer School Clinic of the School of Fine Arts at Texas Christian University. They are Miss Sue Michener, enrolled in the orchestra class; Misses Annette Wells, Bobbie Jean Willis and Sarah Jackson, in the band and baton twirling classes; and Miss Claudine Hammer and Frank Miller, Jr., in the band class.

The two-week clinic has the largest enrollment that the University has registered. Almost 400 high school students from 85 towns in Texas, Louisiana and New Mexico signed up.

Twenty-two instructors are teaching the courses in band, orchestra, speech-drama, twirling and drum majoring.

Tasmania was first discovered when two Dutch ships under Capt. Abel Tasman were driven onto the coast by gales in 1642.

Mistrial In Slaying Case Is Declared

PEARSALL.—(AP)—The murder trial of a former drive-in cafe owner was declared a mistrial Wednesday and set for September 29 at Jourdanton.

Frank E. Tapley, 37, is charged with slaying Clifford W. Smith, Jr., of Polk City, Miss., at the cafe last March 20.

District Judge Hunter D. Barrow declared the mistrial after eight jurors had been selected from a special venire of 160 men. Most of those excused said they had formed opinions.

Tarpley remains free under \$7,500 bond.

Worry Of FALSE TEETH

Slipping or Irritating? Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Off FASTEETH at any drug store.

Mexico's Ballot Law To Get Test July 6

MEXICO CITY.—(AP)—Mexico's new election law, aimed at reducing bloodshed at the ballot boxes, will have its first major test in the July 6 presidential election.

The new law abolished the old system by which the first three voters to arrive at the polling booth became the election officials. This led to fist fights, and sometimes gunplay, between groups trying to take over the ballot box.

Instead, the precinct election officials will be named by a district electoral commission. Representatives of the political parties are invited to sit in on the session and try to agree on the names. If they cannot agree, the district commission names them anyway.

Must Show Credential Voters must show a credential issued by the National Registration Office and their names must be on a list of qualified voters for that precinct. Only soldiers on active duty and bona fide travelers are allowed to vote in any but their home precinct.

Voters with guns, even soldiers, are forbidden inside the polling place.

State Labor Group Reelects President

AMARILLO.—(AP)—The Texas State Federation of Labor reelected William J. Harris of Dallas president Wednesday and chose El Paso for next year's convention city.

Harris and other unopposed officers were named by acclamation. Five other officers were to be elected at Thursday's final session. Those elected vice presidents include:

R. D. Fisher, Waco; George Weber, El Paso; M. M. McKnight, Fort Worth; Ray Johnson, Longview; N. E. Coward, Houston; L. A. Townsend, Galveston; William Cullen, Harlingen; and Freeman Everett, Houston.

Political Announcements

Charges for publication in this column: District and State Offices, \$40.00; County Offices, \$25.00; Precinct Offices, \$12.50. (No refunds to candidates who withdraw.)

Subject to the action of the Democratic primary election Saturday, July 25, 1932:

GG, Even If It Works, Can't Supply Final Answer To Polio

By ALTON L. BLAKESLEE
Associated Press Science Reporter
NEW YORK (AP)—The best immediate hope of preventing paralysis from polio is the gamma globulin (GG) shots being tested this summer.

But even if GG works, it won't supply the final answer against polio.

For it is not a vaccine, which could give permanent protection.

The GG shots would protect children for perhaps only three to six weeks. The shots might have to be repeated several times a summer.

But GG—if it works—probably could become a fireman to put out polio epidemics, and limit their spread. That would mean practical control to avoid many cases of paralysis.

The reasons for the limitations of GG lie in some facts about immunization.

When disease germs invade us, our bodies start making antibodies.

Antibodies are specific protein agents which combine with the invading germs and make it harmless.

In most diseases, once we have made our own antibodies, we are protected permanently. Our antibody factories keep on producing, or at least are ready for quick action if that germ comes along again.

Active Immunization
This is known as active immunization. Vaccines also do this job.

A vaccine is made up of germs that cause a disease. The germs first are killed or weakened so they can't cause sickness. But the germs still can stimulate us to make antibodies against them. The antibody protection aroused this way is long-lasting, or even sometimes permanent.

The GG shots would be passive immunization, which works quite differently.

With the GG, you would be getting antibodies made by another source, not your own. Your own body would not keep these donated antibodies very long. You would not set up the factories to make your own antibodies, unless there was enough virus to make your own body go into action.

The donated GG antibodies apparently would last only three to six weeks. Then another protective dose could be given if the polio epidemic was still on.

Must Come First
If effective at all, the GG would protect children only if they got the shots before the virus entered their bodies, or a few days after the virus had already come in. It takes a few days to a few weeks for the virus to incubate and start invading once it has been swallowed.

It would be impossible to give GG repeatedly to all children and adults in the nation. The GG has to come—right now at least—from human blood, and there simply would not

be enough unless all Americans donated vast quantities of blood.

GG's main use would be in areas where polio broke out. Then it could be used to protect a town's children, and to keep the disease from spreading. Polio apparently spreads by intimate human contact.

Tests probably can be devised to show which of us already have our own antibodies and protection against polio. Then GG could be given just as those who lack antibodies, thus making the supply go farther.

The most complete preventative would be a vaccine. One vaccination might give permanent protection.

Vaccines already have been used successfully on monkeys. We don't yet have a vaccine for humans, but the outlook is getting bright.

Socialists Take Lead As Strongest Party In The Netherlands

AMSTERDAM, THE NETHERLANDS (AP)—Socialists moved into the lead as The Netherlands' strongest political party for the first time in history Thursday as parliamentary election returns gave them three new seats and a gain over 1948 voting of almost 300,000 votes.

The popular balloting Wednesday filled the 100 seats in the national Parliament's lower house. Thursday, provincial legislatures sitting as electoral colleges choose the 80 members of the upper chamber.

On the basis of his party's triumph, Socialist Leader Dr. Willem Drees was expected to be designated again by Queen Juliana to form a new Cabinet. Drees has been Premier of the out-going Labor-Catholic coalition Cabinet.

None Has Majority
Another coalition cabinet was expected since none of the parties won a majority in the voting.

Complete unofficial returns showed that the middle-of-the-road Catholic Party lost, by a small margin, the lead in popular votes it held in the 1948 general election.

Labor won 1,548,444 votes to the Catholics' 1,529,464. Each won 30 parliamentary seats, the Catholics losing two.

The Communists also lost two of the seats they won in 1948, leaving them six in the lower house.

Five Officials Quit After Attempt On Syngman Rhee's Life

PUSAN, KOREA (AP)—Five South Korean military and police officials resigned Thursday in the wake of Wednesday's assassination attempt on the life of President Syngman Rhee.

A government spokesman said they are Maj. Gen. Won Young Duk, appointed by Rhee to enforce martial law in this provisional capital; the head of the national police, the chief of Rhee's personal bodyguard and two others.

Clarence Rye, the spokesman, said the five turned in their resignations because they failed to protect the President's life. However, some sources said Rhee asked for the resignations.

A member of a secret Korean society attempted to shoot Rhee as he was delivering an address but the gun failed to fire.

Fire Rips Kansas Grain Mill Plant

ABILENE, KAN. (AP)—A spectacular fire swept through a milling company plant in the Central Kansas town early Thursday, causing damages estimated at \$750,000 to \$1,000,000.

The fire leaped across five railroad tracks to destroy three coal sheds, a workshop and a cement warehouse at a lumber yard and spread to the roof of the adjoining steam laundry.

A block-long feed plant and warehouse belonging to Mid-West Mill and a new section of wooden grain elevators were gutted. The only part of Mid-West Mill not destroyed was a group of large concrete storage bins.

Midland Fire Chief On Course Faculty

Melvin Little, chief of the Midland Fire Department, has been named a member of the faculty of the annual Firemen's Short Course at Texas A&M College.

Attended by selected firefighters from throughout the state, the short course will be held from August 24 to August 29.

Little will teach a course on training of firemen.

Abilene Gem Loot Estimated At \$4,400

ABILENE — (AP) — A state-wide search was on Thursday for two women suspected of stealing \$4,400 worth of diamonds from an Abilene jewelry firm, Bush & Sons.

The loose stones which were in side a pouch in a display case were missed Wednesday by a clerk, said manager Frank Pitt.

Two clerks said they had shown jewelry to the women, one about 35 and another, 55 to 60.

Pitt said the theft was effected by a routine he called "familiar in the jewelry business."

The younger woman held the clerk's attention at another counter while the older woman dropped a piece of costume jewelry on the floor, kicked it under the counter and then went around to retrieve it.

Dallas Set For New Round Of Frivolity By JayCees

DALLAS — (AP) — JayCee Jittery Dallas was ready for another round of fearful frivolity Thursday as the annual U. S. Junior Chamber of Commerce convention roared on.

And the JayCees were winning friends. Said one oil firm's librarian: "I wish they could stay. . . I never saw so many nice-looking young men."

The complimentary young lady refused to be identified.

Thursday's program was to feature the gigantic "Parade of States," featuring floats from all the 48 states, Hawaii and the District of Columbia.

The Hawaiian delegation's float will be bordered with 18,000 orchids flown from the islands.

New Liquid Kills Roaches and Ants

ROACHES and ants are the most difficult household pests to control, and they can be brought into the home at any time. Science has just come forth with a new discovery, a colorless coating that kills cockroaches and ants, and that stays effective for months. It is called Johnston's NO-ROACH.

It's just as simple and easy to use as it looks. You paint the coating on surfaces frequented by roaches and ants, woodwork near the sink, baseboards, garbage pails, window and door sills. When these crawling pests come in contact with this invisible, odorless, stainless coating they slowly become paralyzed, turn over on their

backs with legs waving in the air, and die. Then the coating stays effective for months to kill any strays that get into the home and that walk over it.

Effective for Months
Science has seen to it too, that this product contains no DDT, no sodium fluoride, and no phosphorus. Johnston's NO-ROACH is not a contaminating spray or a messy powder. It is colorless, and may be brushed just where you want it, without having to move all your dishes and pots and pans.

Guard against crawling insects. This modern NO-ROACH way. Prices are 8 oz. for 89c, pint for \$1.69, and a quart for \$2.98.

Lockett Is Medalist In Golf Tourney Here

A 36-year-old Midland oil company employee shot a blistering, par-tying 72 here Wednesday to take medalist honors in the 25th annual Midland Country Club Men's Invitational Golf Tournament.

Roy Lockett, virtually an unknown golfer, journeyed here, survived a shaky start, which saw him score a bursard six on the first hole to go one-over par 37 on the out-going nine and a one-under par 35 on the incoming nine to tie par for the rough new North course.

Following his six on the first hole, Lockett scored a birdie on the number two and four holes to get back to par, where he stayed until he marked up a bogey on the number nine hole.

A stiff wind which had hampered Lockett's game during the first nine settled and the Midland golfer covered the backside with near-perfect golf, registering eight pars and one birdie, on the number twelve hole, to chalk up a 35.

Although Lockett had played on the North course many times before, his lowest previous score was 74.

Lockett said his low score Wednesday was strictly a "fluke," but attributed his success to "good putting and chipping."

Several of the top-flight golfers who were supposed to enter the meet dropped out at the last minute, making the championship flight primarily a battle among Midland talent.

One of the more prominent golfers who bypassed the Midland tourney was Don Cherry, New York television and radio crooner, who had won the West Texas Invitational and the Hobbs, N. M., Invitationals in recent weeks.

With Cherry out of the competition, the role of favorite was tagged on Bob French of the Midland Country Club course, who automatically qualified because he is the defending champion.

Cherry bested French recently when he posted the Midland golfer, 9 and 7, in the West Texas Invitational at Mineral Wells two weeks ago and greeted the Hobbs, N. M., tourney away from him last weekend.

In a driving contest held at the old nine-hole course following the qualifying rounds, Graham Mackey, a former star high school golfer here, placed first with a nine drive of 367 yards.

Another sidelight of the driving

contest saw Medalist Roy Lockett tie Jim Binford for the award of placing the three best balls in the fairway.

A barbecue for all participants concluded the opening day's activities.

The seventh flight, comprised of golfers who had the highest scores, started at 7:30 a.m. Thursday, with succeeding flights following.

The Championship flight was scheduled at 12:30 p.m. Thursday with Defending Champion Bob French teeing off against Buddy Brannum of Midland.

Other pairings in the championship flight:

Vernon Ligon, Midland and A. T. Pierce, Midland; J. T. Smith, Midland, and Heazie Carson, San Angelo; Marcelino Moreno, Midland, and Arlyn Scott, Odessa; Roy Lockett, Midland, and A. D. Barnard, Odessa; Bill Breeden, Odessa, and E. B. Douer, Big Spring; J. W. Stone, Midland, and Bob Wortham, Midland; Red Ripden of Odessa and Raymond Lee-

ROY LOCKETT
... hot job, well done.

Rain Cancels Artesia Tilt

The Midland Indians' scheduled Wednesday night game at Artesia was postponed because of wet grounds.

The two teams will meet in a single game Thursday night, Eddie Jacono will go on the hill for the Indians.

Following Thursday night's game, the Indians will move into Roswell for a three-game set. The Tribe will return home next Monday to entertain the San Angelo Colts in a pair of games.

Broncs Snuff Rally; Beat Dusters, 10-8

VERNON — (P) — Big innings and a rally that fell short here Wednesday night handed the Big Spring Broncs a 10-8 victory over the Vernon Dusters and their second win of the current three-game series.

Big Spring scored four big runs in the sixth and eighth innings and single tallies in the seventh and ninth frames for the winning margin.

Trailing, 10-3, going into the bottom of the ninth, the Dusters went to work on Broncs starter Bert Baez for five big runs but the rally fell short although it chased Baez. Regi Corrales came on to put out the fire.

The score: R H E
Big Spring 10 004 141-10 15 5
Vernon 8 005 005-8 13 3
Baez, Corrales and Valdes; Finkler, Baskin and Niesdon.

Colt Relief Hurler Stops Rockets, 5-0

SAN ANGELO — (P) — Working only because the scheduled starter, Lew Lozano, needed another day of rest, San Angelo's Clarence Tinkler spun a six-hit, 5-0 shutout over the Roswell Rockets here Wednesday night.

Tinkler, principally a relief hurler who had made only one previous start this season, was complete master of the situation except in one inning, the eighth, when the Rockets loaded the bases with none out. After loading the bases, Tinkler got leadoff man Ed Feneelon to fly out to short right, the runners holding, and then Stubby Greer hit into a fast double play from pitcher, to second to first.

The score: R H E
Roswell 0 000 000-0 6 1
San Angelo 5 003 035-5 10 1
Young, Norton and French; Tinkler and Dacko.

INJURED — Indian Second Baseman Floyd Martin became the third Tribe pivotman to suffer injuries this season when he was hurt in the Artesia game Tuesday night while trying to complete a double play. Previous Indian second sacker who have been hurt include Bill Crumley, now on the voluntary retired list, and Dempsey Albritton, who was released outright by the club.

Comanches Slip By Rotary By 7 To 6

The Comanches edged the Rotary, 7 to 6, in the Pony League Wednesday afternoon.

Jim Owens was on the mound for the Comanches and also slammed a home run.

Dennis Patton hurled for the Rotary.

The Comanches garnered seven runs on six hits, while the Rotary got six runs on six hits.

Oilers Keep League Lead In 12-6 Win

ODESSA — (P) — The Odessa Oilers made it two in a row over the Sweetwater Braves here Wednesday night with a 12-6 victory to hang on to first place in the Longhorn League by a slender half-game.

Leon Hayes went the distance on the mound for the Oilers to gain his fourth win of the season against three losses. Ernie Sadler started on the hill for the Sweetwater nine, going seven and one-third innings before taking shelter in favor of Marcelino Solis in the eighth. Sadler is charged with the loss.

The score: R H E
Sweetwater 6 000 033-6 12 2
Odessa 12 005 035-12 12 0
Sadler, Solis and Traspuesto; Hayes and Castro.

Westerners Win, 9-7; Retain Lead

The Westerners retained their lead in the American League Wednesday by edging the Hornets, 9-7, Wednesday afternoon.

Trailing in the seventh, the Westerners staged a comeback to bring in six runs for the win. With the score tied, a misjudged fly ball by a Hornet outfielder resulted in two runs for the Westerners that spelled the victory.

Lee Sneed and Jesse Hatfield hurried for the Westerners during the early stages, with Don Smith on the mound for a shutout during the last two stanzas.

Jack Harris and Dale Jobe did the hurrying for the Hornets. Bob Moran led the hitting with two hits. He and his brother, Tom Moran, also teamed up for a double play.

Harold Robbins got a home run for the losing Hornets.

In the hitting department, the Westerners lead with six, while the Hornets garnered two.

Cleveland Signs Denison Schoolboy

DENISON — (P) — The Cleveland Indians have signed Bob Leach, Denison High School baseball sensation, to a contract.

The 19-year-old southpaw pitcher star inked a pact with the Indians Wednesday with the consideration said to be more than \$20,000.

Bucky's Senators Move To Junior Loop's Top Division

By The Associated Press
"We won't finish last."

That's what Bucky Harris, manager of the Washington Senators, said flatly in February. "We'll win more games than we did last year," Harris said.

Harris, by astute manipulations in the trade market, has more than kept his word. The Senators are a country mile from last place and are threatening to plunge into the heart

of the American League pennant race.

The Senators, victors in only 63 games last year, scored their thirty-second triumph Wednesday, outlasting the cooled off Chicago White Sox, 9-6, in 10 innings.

The victory enabled the Senators to take over fourth place from the White Sox by three percentage points and move to within four games of the league-leading New York Yankees, who dropped a 4-1 decision to the Browns in St. Louis.

Yankee Lead Cut
The loss cut the Yanks' lead to two and one-half games over the Boston Red Sox, who moved into the runner-up slot by trouncing the Detroit Tigers, 10-3, while Cleveland's erstwhile second-place Indians bowed to the Philadelphia Athletics, 11-9.

Brooklyn maintained its four-game National League advantage over New York, beating the St. Louis Cardinals, 3-1, while the Giants edged the Cincinnati Reds, 3-2.

Big Max Surkont and Sid Gordon teamed up to lead the Boston Braves to a 5-2 victory over the Pittsburgh Pirates. The Chicago Cubs snapped their nine-game losing streak by defeating the Philadelphia Phillies, 4-1.

Had a talk with Spec Gammon, sports editor of the Odessa American, here Wednesday and the conversation turned, naturally, to the sagging Odessa Oilers who now cling to first place in the Longhorn League by a shallow half-game. The Odessans had threatened to run away with the pennant during early season play.

The Odessa scribe says pitching currently is the sore spot on the Oiler squad. However, help is in sight, and two hurlers are expected to join the team within the next couple of days.

Out of the base paths. . . The Odessa pro-am golf tournament will be held in that city after all. In early summer, rumor had it that the tournament might be played in Midland because the Odessa Country Club Course was undergoing a reconstruction job.

But it's definitely on now and will be held the Wednesday following Labor Day.

A four-day-long event, the meet is expected to attract such top professional stars as Tommy Bolt, Jackie Burke and Chuck Klein.

Also, and during the same week in Odessa, the Dallas Texans and Philadelphia Eagles, professional football teams, will meet in Odessa High School Stadium.

And, while more than 7,000 tickets already have been sold, plenty of choice seats remain. Tickets are priced at \$3.60 and may be purchased by mailing money order or check to the Odessa Shrine Club, Box 574, Odessa.

A 25-cent mailing fee should be included in the ticket orders.

Fitcher Ed Santa has been asked to return here by the Midland Indians. In his brief sojourn with the Tribe, Santa started in a game against Sweetwater but was shelved in the fourth inning when he tired.

He appears to be a good pitcher but simply needs more work to get in shape.

When he left here, Santa was headed for his home in Pennsylvania where he had orders to report for an Army physical. However the Army will permit him to finish out the baseball season. He is due to rejoin the team within a couple of days.

Outfielder Hayden White, on the disabled list because of an ankle injury, has been in Fort Worth visiting relatives. However, Tribe officials gave him order to report back to Midland Wednesday.

GREASE BURNS TREATED

Lester Fifer, 108 South Adams Street, employed by Midland Country Club, suffered grease burns on his back while cooking Wednesday. He was treated at Western Clinic Hospital.

BOB SMITH TO LIONS

DETROIT, MICH.—(AP)—Texas A & M Fullback Bob Smith will play for the Detroit Lions according to an exchange deal made Wednesday with the Cleveland Browns.

Maxim, Heat Beat Sugar Boy By TKO

NEW YORK.—(AP)—The glorious ring career of Sugar Ray Robinson may have come to an end Wednesday night in the blast furnace heat of Yankee Stadium—just two rounds away from victory over Light Heavyweight Champion Joey Maxim and a third jewel for his gleaming crown.

Steaming, 104-degree heat melted the taut flesh off the lean middleweight king and burned out his resistance after 13 rounds of a valiant, winning effort. He collapsed and the victory went to Maxim.

"Ray was going to call it quits if he won decisively," said Junior Clark, a longtime friend of Ray. "Now this could be it too, I guess."

Robinson had been bidding to become the third fighter ever to win three championships and join Ruby Bob Fitzsimmons and Hammerin' Henry Armstrong in the ultra-elite of the ring.

The bout will go down in the books as the fourteenth round technical knockout for Joey—the bell had sounded to start the fourteenth—but everyone in the wild crowd of 47,983 (gross gate \$421,694) will credit the TKO to the steambox that was Yankee Stadium.

Ray wouldn't and couldn't talk to the press after he was helped to his dressing room. He had just suffered the first knockout—technical though it was—of his 11 1/2 years of pro boxing. It was his third defeat in 137 bouts, but two of them have come in less than a year. He lost to Randy Turpin last, July 10.

"Robinson is mentally as well as physically exhausted," said Dr. Ira McCown, State Athletic Commission physician and one of the first to leave Sugar's dressing room. "He's speaking unintelligibly. He appears to be out in left field."

Sugar Wobbles, Falls

Through the first 11 rounds, Ray, as graceful as a ballet dancer, moved in and out and sideways on his taller foe. He shot jabs to the head and body, rattled him with flashing combinations to the head and body, and staggered him in the seventh and ninth rounds with smashing left hooks.

The best Maxim could do on his darting rival was to dig those shorties to the body in the clinches. He landed occasional left hooks to the head and a rare right without much steam.

In the twelfth, two rounds after Referee Ruby Goldstein became ill from the oppressive heat and was replaced by Ray Miller, Robinson appeared to wobble as he retreated from Maxim, now the stalker.

Suddenly the heat, the 15 1/2-pound weight handicap and everything else caught up with the sleek poised Harlequin near the end of the thirteenth.

He let fly with a haymaker right that missed by a mile and fell flat on his face from exhaustion. As the round-ending gong sounded, he collapsed against the ropes in a neutral corner. His handlers quickly dragged him to his stool.

Little League Fund Raising Drive Brings Quick Results

Less than an hour after The Reporter-Telegram hit the streets Wednesday with an appeal for funds for the Midland Little League, a check for \$25 was turned in at the sports desk as a contribution toward that goal.

The check came from Erskine Motors, 120 South Baird Street, Midland.

In addition to that, other contributions submitted by various parties Wednesday raised the amount contributed so far to more than \$1,000.

To make a contribution, one merely needs to clip out the coupon from another column on this page, fill it out and mail it in.

In order to meet expenses for baseball equipment for the Little Leaguers, a total of \$2,500 must be raised.

A list of contributions submitted so far follows:

Ball Park collection	\$ 813
Mrs. Walter Rankin's collection	120
John Redfern's collection	31
Lions Club	13
Civitan Club	27
Erskine Motors	25
Bob Adams	5
Anonymous	100
Total to date	\$1,094

Two Negroes Work Out With Beaumont

BEAUMONT.—(AP)—Harry Craft, manager of the Beaumont Roughnecks, has refused to say whether or not two negroes who worked out with his team Wednesday night will be signed up.

Fitcher Gene Perkins, 19, a Beaumont boy with eight wins and no losses in semi-pro circles, and Raymond Taylor Lacey, 22-year-old catcher from Wiergate, worked with the Roughnecks before the Beaumont-Houston Texas League game.

Devil's Island is off the coast of South America.

THE MIDLAND REPORTER-TELEGRAM, THURSDAY, JUNE 26, 1952-11

Billy Maxwell Pushed Hard To Gain NCAA Second Heat

LAFAYETTE, IND.—(AP)—National Collegiate Athletic Association officials, who control their golf tourney in the country's toughest amateur test, had some new taking points going into Thursday's second round.

Billy Maxwell of North Texas State, the 1952 U. S. Amateur champion, was pushed 18 holes Wednesday to defeat Joe Walsher of Oklahoma A&M, 2-up. Scratch golf

wouldn't have beaten Walsher. Maxwell had to shoot a two-under-par 68 over Purdue's tricky South Course.

David Stanley of UCLA, 1951 National Public Links champion, failed to survive the 36-hole qualifications in the NCAA meet.

Maxwell's opponent Thursday was Dick Evans of Michigan's Big Ten championship team, who won a first-round victory over Dick Tiddy of Wake Forest, 4 and 3.

The usual end came to the medalist: Eastern Intercollegiate Champion Paul Haney of Holy Cross.

Don Addington of SMU scorched him with 4-under-par golf for 15 holes, 4 and 3.

Haney had company among the losers, including Don January of North Texas State, and Don Nichols of Oklahoma A&M. Elliott Phillips of Indiana University was 2 under par in beating January, 4 and 3. Burt Weaver of Louisiana State took out Nichols, 2 and 1.

Boys Are Invited To Attend Boxing, Wrestling Workouts

The clubroom of the Optimist Club's Boys Factory, located at New York Street and Lanes Road, will open at 2 p.m. daily for boxing and wrestling workouts, under the direction of Pat Murphy, its president.

All boys, of any age, are invited to attend the sessions.

It was announced that the show-ers in the Boys Factory, which will accommodate eight boys at one time, also are available.

A model airplane club and a radio club also will be organized soon, officials said.

LONE STAR

Its popularity GROWS and GROWS*

What a Wonderful Beer!

* WHY DO PEOPLE change their minds about beer? . . . Thousands and thousands switch from brand to brand every few weeks. That's a lucky habit as far as we are concerned. It's their SEARCH for a better-tasting beer that gives us a chance to make new friends. When they try LONE STAR — most people stick! That's made LONE STAR the fastest growing brand of beer in the U. S.!

Q. Do you know how fast LONE STAR'S popularity has grown? Ans. Sales of LONE STAR have grown 886% faster than sales of the next fastest growing brand of beer in America — from 1941 through 1951. In 11 years — LONE STAR'S total sales have grown 1403%! And its popularity grows and grows! Lone Star Brewing Company, San Antonio, Texas

Pitcher Ed Santa has been asked to return here by the Midland Indians. In his brief sojourn with the Tribe, Santa started in a game against Sweetwater but was shelled in the fourth inning when he tired.

He appears to be a good pitcher but simply needs more work to get in shape.

When he left here, Santa was headed for his home in Pennsylvania where he had orders to report for an Army physical. However the Army will permit him to finish out the baseball season. He is due to rejoin the team within a couple of days.

Outfielder Hayden White, on the disabled list because of an ankle injury, has been in Fort Worth visiting relatives. However, Tribe officials gave him order to report back to Midland Wednesday.

GREASE BURNS TREATED

Lester Pifer, 106 South Adams Street, employed by Midland Country Club, suffered grease burns on his back while cooking Wednesday. He was treated at Western Clinic-Hospital.

BOB SMITH TO LIONS

DETROIT, MICH.—(AP)—Texas A & M Fullback Bob Smith will play for the Detroit Lions according to an exchange deal made Wednesday with the Cleveland Browns.

A Man Never Stands More Straight Than When He Stoops To Help A Boy

Maxim, Heat Beat Sugar Boy By TKO

NEW YORK —(AP)—The glorious ring career of Sugar Ray Robinson may have come to an end Wednesday night in the blist furnace heat of Yankee Stadium—just two rounds away from victory over Light Heavyweight Champion Joey Maxim and a third jewel for his gleaming crown.

Steaming, 100-degree heat melted the taut flesh off the lean middle-weight king and burned out his resistance after 13 rounds of a valiant, winning effort. He collapsed and the victory went to Maxim.

"Ray was going to call it quits if he won decisively," said Junie Clark, a longtime friend of Ray. "Now this could be it too, I guess."

Robinson had been bidding to become the third fighter ever to win three championships and join Ruby Bob Fitzsimmons and Hammerin' Henry Armstrong in the ultra-elite of the ring.

The bout will go down in the books as the fourteenth round technical knockout, for Joey—the bell had sounded to start the fourteenth—but everyone in the wild crowd of 47,983 (gross gate \$421,696) will credit the TKO to the steambox that was Yankee Stadium.

Ray wouldn't and couldn't talk to the press after he was helped to his dressing room. He had just suffered the first knockout—technical though it was—of his 11 1/2 years of pro boxing. It was his third defeat in 137 bouts, but two of them have come in less than a year. He lost to Randy Turpin last July 10.

"Robinson is mentally as well as physically exhausted," said Dr. Ira McCown, State Athletic Commission physician and one of the first to leave Sugar's dressing room. "He's speaking unintelligibly. He appears to be out in left field."

Sugar Wobbles, Falls

Through the first 11 rounds, Ray, as graceful as a ballet dancer, moved in and out and sideways on his taller foe. He shot jabs to the head and body, rattled him with flashing combinations to the head and body, and staggered him in the seventh and ninth rounds with smashing left hooks.

The best Maxim could do on his darting rival was to dig those short-ies to the body in the clinches. He landed occasional left hooks to the head and a rare right without much steam.

In the twelfth, two rounds after Referee Ruby Goldstein became ill from the oppressive heat and was replaced by Ray Miller, Robinson appeared to wobble as he retreated from Maxim, now the stalker.

Suddenly the heat, the 15 1/2-pound weight handicap and everything else caught up with the sleek poised Harlequin near the end of the thirteenth.

He let fly with a haymaker right that missed by a mile and fell flat on his face from exhaustion. As the round-ending gong sounded, he collapsed against the ropes in a neutral corner. His handlers quickly dragged him to his stool.

Little League Fund Raising Drive Brings Quick Results

Less than an hour after The Reporter-Telegram hit the streets Wednesday with an appeal for funds for the Midland Little League, a check for \$25 was turned in at the sports desk as a contribution toward that goal.

The check came from Erskine Motors, 120 South Baird Street, Midland.

In addition to that, other contributions submitted by various parties Wednesday raised the amount contributed so far to more than \$1,000.

To make a contribution, one merely needs to clip out the coupon from another column on this page, fill it out and mail it in.

In order to meet expenses for baseball equipment for the Little Leaguers, a total of \$2,500 must be raised.

A list of contributions submitted so far follows:

Ball Park collection	\$ 813
Mrs. Walter Rankin's collection	120
John Redfern's collection	31
Lions Club	13
Civitan Club	27
Erskine Motors	25
Bob Adams	5
Anonymous	100
Total to date	\$1,034

Two Negroes Work Out With Beaumont

BEAUMONT —(AP)—Harry Craft, manager of the Beaumont Roughnecks, has refused to say whether or not two negroes who worked out with his team Wednesday night will be signed up.

Pitcher Gene Perkins, 19, a Beaumont boy with eight wins and no

losses in semi-pro circles, and Raymond Taylor Lacey, 22-year-old catcher from Wiergate, worked with the Roughnecks before the Beaumont-Houston Texas League game.

Devil's Island is off the coast of South America.

THE MIDLAND REPORTER-TELEGRAM, THURSDAY, JUNE 26, 1952-11

Billy Maxwell Pushed Hard To Gain NCAA Second Heat

LAFAYETTE, IND.—(AP)—National Collegiate Athletic Association officials, who control their golf tourney in the country's toughest amateur test, had some new taking points going into Thursday's second round.

Billy Maxwell of North Texas State, the 1952 U. S. Amateur champion, was pushed 18 holes Wednesday to defeat Joe Walser of Oklahoma A&M, 2-up. Scratch golf

wouldn't have beaten Walser. Maxwell had to shoot a two-under-par 69 over Purdue's tricky South Course.

David Stanley of UCLA, 1951 National Public Links champion, failed to survive the 36-hole qualifications in the NCAA meet.

Maxwell's opponent Thursday was Dick Evans of Michigan's Big Ten championship team, who won a first-round victory over Dick Tiddy of Wake Forest, 4 and 3.

The usual end came to the medalist, Eastern Intercollegiate Champion Paul Harney of Holy Cross.

Don Addington of SMU scorched him with 4-under-par golf for 15 holes, 4 and 3.

Harney had company among the losers, including Don January of North Texas State, and Don Nichols of Oklahoma A&M. Elliott Phillips of Indiana University was 2 under par in beating January, 4 and 3. Burt Weaver of Louisiana State took out Nichols, 2 and 1.

All boys, of any age, are invited to attend the sessions.

It was announced that the show-ers in the Boys Factory, which will accommodate eight boys at one time, also are available.

A model airplane club and a radio club also will be organized soon, officials said.

LONE STAR

Its popularity
GROWS
and **GROWS***

* WHY DO PEOPLE change their minds about beer? . . . Thousands and thousands switch from brand to brand every few weeks. That's a lucky habit as far as we are concerned. It's their SEARCH for a better-tasting beer that gives us a chance to make new friends. When they try LONE STAR — most people stick! That's made LONE STAR the fastest growing brand of beer in the U. S.!

Q. Do you know how fast LONE STAR'S popularity has grown? Ans. Sales of LONE STAR have grown 886% faster than sales of the next fastest growing brand of beer in America — from 1944 through 1951. In 11 years — LONE STAR'S total sales have grown 1403%! And its popularity grows and grows! Lone Star Brewing Company, San Antonio, Texas.

BATTING INSTRUCTIONS—G. E. Bicknell, coach of the Midland Women's softball team here, takes time-out to show Shortstop Sylvia Hickman how to grip a bat. Sylvia was instrumental in getting the team organized.

Texas' Betsy Rawls Favored As Women Open National Play

PHILADELPHIA (AP)—Texas' Betsy Rawls, who is closing in on the one-year women's golf money-making record, is favored to add another \$1,750 to her bank account by successfully defending the seventh annual Women's National Open championship which started Thursday over the Bala Country Club course.

Miss Rawls is one of 14 professional women's golfers who are competing for a prize money of \$7,500 in prize money being offered by the tournament sponsor, the Philadelphia Inquirer Charities, Inc. The tournament runs through Sunday.

Betsy will have to be on her best game to win. Her traveling pro colleagues, including Patty Berg of St. Andrews, Ill.; Betty Jameson, San Antonio; the pretty Bauer sisters—Marlene and Alice—of Sarasota Bay, Fla.; Louise Suggs of Carrollton, Ga.; Beverly Hanson, National Amateur champ from Fargo, N. D.; and Peggy Kirk of Ponte Vedra, Fla., all are seeking to end the Rawls string.

Roughs Kick Butts Out Of Second Slot

By The Associated Press
Beaumont's Roughnecks gave Houston a tumble in the Texas League Wednesday night.

Houston definitely was in a slump, this time losing its fifth in the last seven games as Beaumont triumphed, 5-1. The Buffaloes tumbled from second place to fourth.

Beaumont moved to the runner-up slot, two and a half games out. Meanwhile, El Paso Elites moved up the longest lead, a first-place club has held in a month as the Houston Astros, 5-1, for Dallas.

Shreveport dropped a doubleheader to San Antonio, 7-4 and 7-6, becoming the first club as far out of the race as nine games.

Oklahoma City took over third place, a point up on Houston, by beating Tulsa, 7-5.

11-Run Inning Just Not Enough

By The Associated Press
This one happened in New Mexico, but it's still got some of the Texas ball tale about it: Borger scored 11 runs in one inning of its game with Clovis Wednesday night in the West Texas-New Mexico League, but it wasn't enough.

Lefty-leading Clovis hadn't runs to bat. Borger's first-inning runs were all the Gassers made, and they bowed 11-1.

The night's only close battle was waged at Albuquerque, where the Dukes took an 11-inning decision from Amarillo, 6-5.

Abilene and Lubbock were rained out, while Lamesa blasted Pampa, 22-5, in the other game.

12 Pros Tee Off In Quest Of Iverness' \$18,000 Pot Of Gold

TOLEDO, OHIO (AP)—With the National Open and PGA classics out of the way, 12 of the country's top-flight golf professionals headed Thursday on a 90-hole jaunt for an \$18,000 pot of gold.

The selected stars were paired in six twosomes for the four-day round-robin, best-ball Iverness matches.

The winners get \$5,000, second \$3,000, third \$2,500, fourth \$2,000, fifth \$1,600 and sixth \$1,400—in addition to the \$2,500 for the five best rounds.

One of the highlights is the return of Byron Nelson to the golfing wars. The Texan formerly was professional at the Iverness Club. He toured the first time of his old haunts Wednesday in 31 strokes, carding five birdies.

"The field has single rounds scheduled Thursday, Friday and Saturday, with a doubleheader wind-up Sunday."

Turnesa Wins PGA Tourney Title, 1-Up
LOUISVILLE (AP)—For Jim Turnesa, the first victory was the hardest.

That was easy to say Thursday after watching the swarthy, tight-lipped little man fight his way back from what looked like a certain defeat to whip Chick Harbert, 1-up, on the thirty-sixth hole of the Big Springs Course to win the PGA Championship.

It was the first major title ever taken by a professional member of the famous Turnesa golfing clan.

Cup Matches Kick Off Golf Tourney In Kermit Friday

KERMIT—Playing of the McMurry Cup matches will kick off annual Winkler County Invitation Golf Tournament Friday.

Other events slated for the first day are qualifying, a long driving contest, a pitch and putt contest, and a barbecue late Friday afternoon.

Saturday, match-play will begin. Semifinals and finals are scheduled Sunday.

With an entry fee of \$7.50, anyone desiring to enter should contact Pro Pat Holder.

Chuck Davey Puts Vejar To Sleep In Fifth-Round Kayo
DETROIT (AP)—Chuck Davey, the thoughtful scholar of pro boxing, looked forward to bigger things Thursday. Now that he's brushed past Chico Vejar for the second time, the bigger things include a crack at the world's welterweight title.

Davey, the 147 1/2-pound Michigan State College graduate student, knocked out Vejar, 149 1/2, at 1:58 of the fifth round of their scheduled 10-round televised battle Wednesday night before 11,341 fans at Olympia Stadium.

Sayles Fines Players
ABILENE (AP)—Loughorn League president Hal Sayles announced Wednesday that he has levied fines against Charlie Tuttle, Sweetwater outfielder, for pushing an umpire and against Steve Lagomarsino, Vernon pitcher, for using abusive language in recent Loughorn League games.

When Clerk Calls 'Alabamaah,' The Main Event Of National Convention Underway

By BRUCE BROSSAT
CHICAGO (NEA)—When you hear a clerk intone "Alabamaah" some time during the third day of the national convention, you'll know the main event, the nominating of a presidential choice, is under way at last.

Then begins a parade to the rostrum of hand-picked speakers who will lay before the convention assembly and the radio-TV audience the purported qualifications of the candidates they favor. A fuller catalogue of human virtues you will likely never hear—until 1956 when we have the same thing again.

At this stage of the game, the pronoun "he" and the phrase "a man who" get tremendous workouts. A speaker who actually mentions his candidate's name before the very end may lose his status in the nominators' union. It is supposed to be a surprise.

The rise of big-time TV is expected to have a somewhat curbing effect on all this oratory. Top politicians don't want home viewers and listeners drifting away to canasta and bridge. So they plan to hold nominating speeches to 15 minutes, and seconding talks to four or five minutes, with perhaps no more than four of the latter.

TV may also work a welcome change on the noisy convention hall demonstrations which are traditionally begun the moment a nominating speech winds up with "Ladies and gentlemen, I give you the Honorable, the distinguished Senator

Between the acts: End of nominating speech is always the signal for demonstrations, like this one in 1948. But TV may work a change in these floor shows by candidate's supporters.

Naturally the candidate's object is always to have the longest and loudest demonstration. Later, too, there seems to have been some feeling that it helps to be novel. In the 1948 Democratic extravaganza, 48 white pigeons were released during the spurge for President Truman. It's perhaps debatable whether the hazard of a pigeon perched in the rafters overhead is the best clincher for a wavering delegate.

When the roll of states is called for nominating speeches, states high on the list, like Alabama, are usually induced by pre-arrangement to yield to one down the line which has a candidate to offer. Thus in 1952 Alabama may yield to Ohio so Senator Taft's name may be tossed in. And Colorado may give the floor to Kansas, General Eisenhower's home state.

When the last chorus of "I'm Looking Over A Four-Leaf Clover" has been sung ("Taft, 1948"), when the tired banners and placards have been laid to rest, when it is clear that the party hopefuls are all great Americans from great states, then the moment of climax in the convention is at hand. It is time to ballot.

Roll Of States
Again, the clerk will drone out the roll of states. But this time, unless it wishes to "pass" while it watches the early trend, each state must stand up and be counted. The delegation chairman will rise and announce the vote, like this: "Arizona, the land of copper and sunshine, casts 10 votes for Taft and 4 for Eisenhower." At the end of the roll, states which passed must declare their vote.

The permanent chairman of the convention proclaims the result. If no candidate has the needed majority, the roll is called once more. This goes on until a decision is had. Underneath the surface, a tense scramble for delegates develops. Each candidate has a floor manager, whose job is to shop for more delegate strength for succeeding ballots. In his frantic quest he runs the whole gamut from pleading to persuasion.

At Philadelphia in 1940, Harold Stassen, then Wendell Wilkie's manager, was hustling delegates hard in an uphill fight. He wanted to talk to Alf Landon, 1936 GOP nominee and leader of the Kansas delegation. But the floor was too noisy.

So Landon and Stassen found a freight elevator, stationed policemen at top and bottom doors, and rode up and down while they had an earnest little talk. Kansas went for Wilkie on the next ballot.

In the beginning, some delegations ride with favorite sons. Others are tightly bound to one candidate or another, either by choice or by state law. Still others are loosely tied and are most eager to sense the winner.

As the balloting goes on, voting shifts occur. Favorite sons drop out. The candidate with no reserve strength fades. The key delegations are faced with the big question: "Where do we go?"

To decide, they usually retire to some tiny cubicle off the floor, where debate will rage in a smoky haze. The tension may be terrific. Waiting too long may mean eating dust as the band-wagon disappears down the road. And this is the most unpalatable dish a politician can sample. In the Republican conventions, Pennsylvania was too late in 1940, and Michigan missed in 1948. They are still sad about it.

At All Stages
At every stage the floor managers are usually in constant touch with the candidates themselves, or their top lieutenants. Telephone lines from the hall to important hotel suites downtown stay hot. The floor manager may need a quick answer from his man on what he thinks about China, or what he'd do about civil service in the Commerce Department. The reply might swing a delegation.

Sometimes internal delegation stresses break out on the floor. A delegate may be dissatisfied with his chairman's announcement of the state. He may demand—and get—a man-by-man poll of the delegation. If you're home, and they're polling New York (60-vote votes), this is the time to step out for refreshments.

These patterns are essentially the same for both parties, though they have different delegate totals, and the Democrats allow unit rule voting, under which a state may bind its whole delegation to vote as the majority does.

When the victor is finally determined, he comes into the hall to deliver his acceptance speech. What follows thereafter is most often downhill going.

The parliamentary procedures are repeated for selection of a vice president. But usually the new presidential nominee is given the main say in the choice and the convention routinely ratifies his decision. Big exception was the Truman-Walsh fight at Chicago in 1944, which overshadowed the presidential balloting.

When the last chorus of "I'm Looking Over A Four-Leaf Clover" has been sung ("Taft, 1948"), when the tired banners and placards have been laid to rest, when it is clear that the party hopefuls are all great Americans from great states, then the moment of climax in the convention is at hand. It is time to ballot.

When the last chorus of "I'm Looking Over A Four-Leaf Clover" has been sung ("Taft, 1948"), when the tired banners and placards have been laid to rest, when it is clear that the party hopefuls are all great Americans from great states, then the moment of climax in the convention is at hand. It is time to ballot.

Providing Democracy Substance Held Way To Beat Communism

MEXICO CITY (AP)—The Philippine Republic defense secretary said Thursday the way to beat communism is to "deliver the substance" of democracy to the people.

Ramon Magasaysay, whose policy of "all-out force or all-out friendship" broke Communist hopes for an easy victory, was the chief speaker at the International Lions Convention.

He said the essence of Philippine strategy against the Huk, Communist peasants, was to fight them remorselessly with force. But once they surrendered or were captured, the Army itself guaranteed them a better life, their own land or their own business.

Magasaysay said the Huk recruited from four sources: The ignorant; criminals who join "for the amazing reason that as criminals they are welcome;" kidnapped men who are forced to join Communist doctrine and threatened with death if they desert; and those who join "because Communism have told them that communism offers the only hope."

"I know there are great sore spots in Asia," Magasaysay said. "These great sore spots are poverty, where people who work on land 12 hours a day never get quite enough to eat, hunger, disease, illiteracy, a woeful lack of sanitation and only the hope of a short life span. These things we cannot—we must not ignore."

Magasaysay told the convention session that "only those fighters who have a real missionary zeal can defeat the Communists; this battle is no place for the faint of heart or for the compromisers."

Lay Off Farm Workers, Truman Warns Military

WASHINGTON (AP)—President Truman Thursday told the armed services to quit recruiting farm workers if they are deferred from the draft for necessary production.

He said he was alarmed by the loss to the farms of six million workers in the last four years.

The President issued a statement in connection with the signing of an executive order which he said would provide a more orderly policy for granting temporary deferments for essential industrial workers.

"These orders do not permit permanent exemption of any worker from Selective Service," the President said.

"Rather they provide a more orderly basis for granting the temporary deferments which local boards have customarily extended to qualified individuals."

LEGAL NOTICES
At Ten O'clock A. M. on June 27, 1952, J. D. Bruton, Sheriff of Howard County, Texas, will sell at Public Auction, at the North door of the County Court House in Big Spring, Howard County, Texas, the following described tract of land:

A 35 acre tract of land out of and part of the South 1/2 of section No. 44 in Block No. 32, Top 1 North in Howard County, Texas, and described by metes and bounds as follows:

Beginning at a stake in fence corner, the S. W. corner of the F. F. Gary Tract in Block No. 44 Block 32, Top 1 North in Howard County, Texas;

Churchill Presses
For British Brass
On UN Command
LONDON (AP)—Prime Minister
Churchill pressed Thursday for
quick appointment of a top Brit-
ish military man on the planning
and policy staff of the United Na-
tions Command in Korea.

This was the aftermath to the
row kicked up by the Laborite op-
position in the House of Commons
over the bombing of the Yalu River
power plants.

Churchill's Conservative govern-
ment expressed regret that it was
not advised in advance of the
bombings but it defended them as
attacks on a legitimate war ob-
jective. The Laborites said the bomb-
ings threatened to extend the war-
fare in Asia.

Cab Driver Reports
Robbers Take \$8;
Police Seek Pair
Two negro men were being sought
by police Thursday after a cab driver
reported he had been robbed at
knife-point of \$8 in cash earlier
in the day.

The cab driver, W. H. Wright, 107
South Jefferson, reported that he
had picked up the two men shortly
after midnight.

After he had driven a couple of
blocks, one of the men grabbed him
around the neck and he was dragged
from the car.

Flashing a 10-inch-long knife,
they forced him to hand over his
money and then fled on foot.

REAL ESTATE

Bulletin Board

REPORTING THE TOP NEWS IN REAL ESTATE

\$460 PER MONTH is the income you
will get with this unusually good
residential investment proposition. It
consists of three 2-bedroom houses
and one duplex. Excellent location
on North Big Spring Street.

WHY NOT HAVE IT NOW? If you've
been mulling over the thought of
owning a brand new 3-bedroom
brick home, carpeted wall-to-wall,
you should see this one for only
\$14,900. Just the location you'd
want, too, a corner site on West
Louisiana . . . convenient to elemen-
tary and junior high schools. This
home is centrally heated and has
many, many reasons to make you
realize it's priced under the market.
Oh, yes . . . attached garage, too!

Close to town, and just a block
off North Big Spring is this unusual
buy. A large family home, with
three bedrooms, beautiful kitchen
with dishwasher, family room, and
roomy combination children's room
and utility. It's well landscaped and
the yard is enclosed. And here's the
surprise . . . only \$3,500 down!

NO APOLOGIES FOR THIS ONE!
Northwest, close in. Two bedrooms,
single bath, attractive dining room.
Hardwood floors. Drapes included in
the surprisingly low price. The yard
is fenced, and plenty of low-cost
water is assured by the new well.
This house is in excellent condition
inside and out. One block from bus
line and shopping center.

IF HOUSES WERE CARDS, THIS
WOULD BE AN ACE! Paved corner
location in URBANDALE. Stone and
shingle construction. Evidently
designed by an artist in building
materials. Three bedrooms, two
baths, attractive dining room and
breakfast room. The fireplace is of
beautifully cut stone, and the carpeting
is in the best taste. Completely
landscaped. You'll be interested
when you hear the price.

THIS ONE IS A LITTLE EXPENSIVE,
but then so is a Matisse painting! It,
too, is in URBANDALE . . . the perfect
setting for this perfect home. Four
bedrooms, in order to not limit the
owner's hospitality. Servant's room,
too. Big, 2-car garage. Privacy and
beauty in the tile fence. The full
price is \$37,500, which we know
you'll agree is moderate after you
inspect the property. Call us at your
convenience for the inspection tour.

**COLLECTING RENT RECEIPTS ISN'T
MUCH OF A HOBBY** . . . and you'd
have trouble renting a home like this
one for TWICE AS MUCH as the
monthly payments of \$63. The ad-
dress is 304 East Maple Avenue in
Loma Linda. Two bedrooms, living
room, separate dining room, Bendix
equipped kitchen, nice bath, carport
with storage. Central heating, fenced
patio, too. The home is freshly re-
decorated. Down payment? Only
\$2,500.

WE'RE NOT TRYING TO SHOW YOU
the homes we advertise. While
you're reading these listings, pick
out the ones that interest you, call
the office or one of our representa-
tives and make a date to personally
inspect the homes that might meet
your requirements. It is our belief
that we have the best real estate
values in Midland, in all price
ranges, only a few of which we are
able to list in these columns. For in-
stance, we'd like to show you a
2-bedroom home at 1310 West
Washington. It has an extra-large
living-dining room, breezeway and
garage. The full price is \$9,500, and
you may have possession of this
home for as little as \$2,000 down.
The paving is paid for.

**INVESTMENT MINDED? NEED A
COMMERCIAL LOCATION?** This 2½-
acre site on the Garden City High-
way is just outside the city limits,
and offers an unusual opportunity from
several standpoints. Ask us
about it!

THE PRICE IS INTERESTING . . . ask
us about the 2-bedroom home, cor-
ner location, facing a park in the
northwest section, close in. It's fen-
ced, with nice grass and shrubs.

TIED UP WAITING FOR THE BUS?
Only 9 blocks North of Wall Street
is a very attractive 2-bedroom home
which could be handled for as little
as \$2,000 down. Never needs out-
side painting as it is constructed of
Johns-Manville asbestos siding. Four
years old. Young trees, lawn, paved
street. But just in case, the bus runs
in front of the house. Full price is
only \$7,000.

WEST HWAY 80 BUSINESS LOT.
Next door to Miller's elaborate res-
taurant. 50x140, facing south. Priced
far below the market. Urgently priced
for quick sale. Call immediately for this
unusual opportunity.

YOU PAID \$125 RENT LAST MONTH
— and what have you to show for it?
Stop nagging your spouse, the
money is gone. But for July, you
need pay only \$52 if you purchase
this new, 2-bedroom, tile brick
home. This includes all payments.
And the total price is a mere \$8,900.
If you are in earnest, this home can
be yours today.

ON COMMUNITY LANE you will find
some of Midland's finest homes.
Among them is this new, 3-bed-
room, 2-bath Austin Stone dream. It
has a 13x31 living room with a New
England fireplace, central heating,
utility room, a convertible attached gar-
age which converts into a ball-room.
Size den if more space is needed.
Unique floor plan. \$26,500.

OWNER WILL COMPLETE his plans
for enclosing a breezeway at no
additional cost to you so that you
may have a 3-bedroom, 2-bath home
on College Street for only \$9,500.
One room is pine paneled. Laundry
room, fenced yard, lawn, paved
street. Check this home as a MUST
on your list when you call us. Re-
member, only \$9,500.

**WANT TO SEE A LOW-PRICED,
MAGNIFICENT AND LUXURIOUS
HOMEC? DRIVE TO 2414 WEST
STONEY. THEN STOP. LOOK AT IT
FOR A WHILE. IT WILL INVITE YOU
TO COME INSIDE. IT HAS 3 BED-
ROOMS AND 2 BATHS. COMPLETELY
CARPETED. YOU'LL LOVE THE IN-
TERIOR. CALL US, WONT YOU?**

NEARLY ARRIVED IN MIDLAND?
Start your house-hunting by calling
KEY, WILSON & MAXSON first. Let
our highly trained and expert sales
people show you the BEST AVAIL-
ABLE. We are members of the Na-
tional and Midland Real Estate
Boards. Our aims far surpass just
selling; we endeavor, first, to satisfy
you. Helping progressive Midland
grow is another of our chief aims.
We want you to be happy, for the
progress of a city depends upon the
people in it. Call us, or stop in at
the office for a Coke.

15-ACRE INDUSTRIAL SITE. Located
just south of the RR, close in. \$850
per acre.

400 BLOCK ON NORTH COLORADO.
Lot 50x140 with a 20-foot alley.
Zoned for Local Retail. Priced under
\$3,000.

THE HOME immaculate which will
please the most fastidious. It is a
2-bedroom white home surrounded
by a New England white fence, the
luxurious lawn in front and rear
yards defies description. Central air-
conditioning, central heating, and
attached garage. Vent-A-Hood and
Youngstown metal kitchen cabinets
(and lots of 'em). Assume GI loan.
Total monthly payments are only
\$60.25. \$11,750. full price.

1406 NORTH WHITTAKER. Will trade
for smaller home or good building
lot, plus cash difference. Tile fence,
water well, some carpeting, Bendix
and dishwasher connections, furnace
heating. We will convert the garage
into a pine paneled den. Only
\$14,750.

LUXURIOUS

Here is a home that absolutely beggars description . . . and if
you're interested in owning a fine, new home, we simply must
show it to you. The designer's unusual and impeccable ideas are
reflected in all the details, which cannot adequately be described
in any advertisement. Here are a few of the statistics . . . trem-
endous living and dining area, centered and separated by Austin
stone planter . . . three large bedrooms and den . . . walk-in
closets . . . two tile bathrooms, one with dressing room . . .
double garage with completely finished interior . . . heated and
air conditioned through duct system . . . select carpeting
throughout the entire living area . . . recessed lighting . . .
6-foot tile fence around the back yard, beautiful stone fence in
front . . . ideal setting in an area of comparable residences.
We will be delighted to escort you through this luxurious home
at your convenience. Just call . . .

New Oiler, Site Are Reported For NW Runnels Field

American Trading and Production Corporation has completed the third Goen-Strawn lime producer in the Bays field of Northwest Runnels County, and spotted a north-west offset to the new well.

The new oiler is the concern's No. 1 F. E. Berryman, completed for a daily flowing potential of 447.75 barrels of 47.8-gravity oil through a 15/64-inch choke. Tubing pressure was 310 pounds and pressure on gas was 380 pounds. Gas-oil ratio was 157-1.

Production is through casing perforations at 4,623-29 feet. Total depth is 4,712 feet. Casing was cemented at 4,710 feet. Derrick floor elevation is 209 feet.

Location is 330 feet from south-east and northeast lines of tract No. 10, H. L. Bays survey No. 444 and nine miles west of Winters.

The offset is American Trading No. 2 F. E. Berryman, 330 feet from north and 495 feet from east lines of subdivision No. 10, H. L. Bays survey No. 444 and 747 feet north-west of No. 1 Berryman.

More Oil Found On Devonian DST In NE Andrews

Oil was recovered on the second drillstem test of the Devonian in the Texas Company No. 1-Z State, wildcat and indicated discovery in Northeast Andrews County.

Latest drillstem test was in the section from 12,595 to 12,625 feet. Tool was open three hours. Gas surfaced in one and one-half hours at the estimated rate of 10,000 cubic feet daily. Recovery was 1,272 feet of 42.1-gravity oil and 30 feet of oil and gas-cut mud. No formation water was present.

Operator was coring below 12,625 feet.

Drillsite is 660 feet from west and 1,980 feet from south lines of section 22, block 6, psi survey and 20 miles northeast of Andrews.

Stanolind Finals Strawn Extender In C-N Scurry

Stanolind Oil & Gas Company has extended production in the Cogdell West Strawn field of Central West Scurry County, one and one-quarter miles to the southwest. The new extender is the concern's No. 2 O. A. Buffalo, 467 feet from south and 1,035 feet from west lines of the northeast quarter of section 565, block 97, H&TC survey. It was completed for a daily pumping potential of 4.16 barrels of 37.2-gravity oil and no water from perforations at 7,594-58 feet. Gas-oil ratio was 1,415-1.

Oil And Gas Log—

(Continued from Page 1)

production by dry hole.
Projected depth of No. 1 Morrison is 4,200 feet. Rotary tools will be moved in and drilling will begin at once.

Bayou Oil Company of San Angelo has plugged and abandoned No. 1 Hugh Campbell, wildcat in Runnels. It was drilled to a total depth of 3,705 feet.

Location was in J. Bays survey No. 530.

SE Winkler Test Flows Oil From Ellenburger Zone

Stanolind Oil & Gas Company No. 1-B Wight, wildcat in Southeast Winkler County, flowed oil on a drillstem test of the Ellenburger from 11,561 to 11,596 feet.

Gas came to the surface in 68 minutes on the test. Water blanket started flowing out in two and one-quarter hours and oil flowed in two and one-half hours.

During the last one and one-half hours, the well flowed 34 barrels of oil through a 32/64-inch choke. Drillpipe was being laid down.

To Run Surveys

Operator is preparing to run electrical surveys.
Recovery on a drillstem test at 11,567-11,586 feet was 135 feet of 32.5-gravity oil and 2,000 feet of water blanket, slightly cut with oil and gas. The tool was open four hours and 38 minutes.

The Ellenburger was topped at 11,520 feet. Elevation has not been reported.

Location of No. 1-B Wight is 660 feet from south and west lines of section 25, block 40, psi survey and four and one-half miles southwest of the Wheeler multipay pool.

Ellenburger Top Is Being Tested In Borden Project

Sinclair Oil & Gas Company No. 1 Roy Reeder, one location north of the discovery well of the Myrtle (Pennsylvanian) field of Northeast Borden County, was bottomed at 8,345 feet in the Ellenburger with a drillstem test being run.

Interval being tested is from 8,295 to 8,345 feet. The Ellenburger was topped by samples at 8,298 feet, elevation 2,486 feet.

No. 1 Reeder did not show for a commercial well in the Pennsylvanian when that section was drilled through, however, if the Ellenburger fails to produce oil, operator probably will go back up the hole and re-test the Pennsylvanian.

Location is 660 feet from south and 1,980 feet from east lines of section 410, block 97, H&TC survey and 13 miles northeast of Gail.

Swab Gauge Is Reported From Tom Green Test

Operator swabbed 18.56 barrels of oil and 4.91 barrels of salt water during the last two and one-half hours of testing at J. K. Dorrance, Trustee, and American Republics Corporation No. 1-A C. A. Atkinson, wildcat in Central-West Tom Green County.

Operator released the rig after the above gauge and will install a pump for completion.

Location is three and one-half miles southwest of Knickerbocker and at the center of the southwest quarter of the northwest quarter of section 5, block 20, H&TC survey.

Testing was on casing perforations from 5,252 to 5,282 feet opposite the Palo Pinto after being washed with 800 gallons of mud acid.

Magnolia Finals Parks Producer In W-C Midland

Magnolia Petroleum Company No. 9 Roy Parks has been completed in the Parks (Pennsylvanian) field of West-Central Midland County.

Operator reported a daily flowing potential of 222 barrels of 44-gravity oil through a 18/64-inch tubing choke and from perforations at 10,505-10,545 feet. Gas-oil ratio was 725 pounds.

The project made 7.1 per cent water in addition to the oil.
Location is 1,980 feet from east and 660 feet from south lines of section 10, A-885, Matt Daugherty survey.

No. 2-B TXL is 660 feet from north and east lines of the southeast quarter of the section and the same distance east of production.

No. 3-B TXL is 660 feet from north and west lines of the southeast quarter of the section and one-half mile east of production.

No. 4-B TXL is 660 feet from south and west lines of the southeast quarter of the section and the same distance east of production. They are slated for 7,600-foot bottoms.

Plan For Spraberry Spacing Of 80 Acres Is To Be Presented

Operators and royalty owners in the Spraberry Trend Oil areas of West Texas are to be asked to approve an 80-acre spacing pattern for future drilling in those fields.

A definite proposal for such a development program will be presented to the operators and royalty owners at a meeting in Midland at 1:30 p.m., July 9.

That decision was made at a meeting of a special committee representing seven operators in the Spraberry areas held in this city Wednesday.

To Send Out Plan

A. W. (Bill) Rutter, Jr. of Midland, chairman of the committee said a letter outlining the spacing and proration plan for the Spraberry regions, as worked out by the committee, will be sent immediately to all interested and affected persons.

That information will be sent out so that the operators and royalty owners will be in position to express their preferences on the proposal at the July 9 meeting.

Order Will Be Asked

If a majority of the interested companies and persons approve the plan at the July 9 meeting it will then be submitted to the Railroad Commission of Texas and that body will be asked to issue an order putting it into effect.

The program includes:

1.—80-acre proration units with an 80-acre tolerance upward at the option of the operators.

2.—An allocation formula of 100 per cent acreage.

3.—Wells heretofore drilled on 40-acre units, or which at the time the order is issued are drilling on 40-acre units shall be given the same allowable as a well on an 80-acre proration unit.

4.—Offset wells heretofore drilled to wells already drilled on a 40-acre spacing pattern must have at least 80 acres allocated to the well as a drilling and proration unit, if the operator does not so, but if the operator does not have 80 acres he can allocate to it such acreage as is available for allocation to the well and the well may be drilled on less acreage than 80 acres but not less than 40 acres.

Such well shall be given the same allowable as a well on an 80-acre proration unit.

What It Means

Rutter pointed out that the effects of this plan would be that old 40-acre units and offset wells drilled as provided in No. 4 above will receive 120 barrels per day allowable; that wells on 80 acres will receive 120 barrels and wells on 160 acres will receive 240 barrels.

Rutter reported that Sohio Petroleum Company, owner of extensive acreage and production in the Spraberry Trend areas has presented evidence to the committee that the drainage area of a well in the Spraberry formation is at least 160 acres. That concern has expressed a willingness to present its drainage data to the Railroad Commission when that body holds a hearing to consider issuing the 80-acre spacing order.

Committee Listed

Members of the special committee which has worked out the program for the 80-acre drilling and proration pattern include:

H. P. Pressler and S. F. Honeyley with Humble Oil & Refining Company, both of Houston; J. C. McCarthy with Stanolind Oil & Gas Company in Midland; J. P. Holloway of Houston and R. H. Coe of Midland, both with Tide Water Associated Oil Company; J. B. Crawley of Midland with The Blackwood & Nichols Company; A. P. Callahan of Fort Worth with James

Wildcat Failures In Three Counties Have Been Plugged

Wildcat failures in three West Texas Counties have been abandoned and plugged. They were in Pecos, Crockett and Fisher Counties.

Marlowe Oil Company and Oceanic Oil Company No. 1 V. J. Crockett, in Northeast Pecos County, and two miles northeast of Baldrige drilled to a bottom of 2,450 feet in barren Glorieta-Permian lime.

Found No Shows

It found no shows for production. Location was 2,280 feet from south and 1,470 feet from east lines of section 9, block 110, TCR survey. It has been abandoned.

Magnolia Petroleum Company No. 1 Henderson, Central Crockett County prospector, 10 miles southwest of Ozona tested the section at 3,300-3,377 feet for an extended period.

This section had logged some shows of oil and a little gas. Was Given A Shot

It was shot with nitro glycerin and other stimulants were used. However none of that activity developed any commercial production and the venture has been abandoned.

Location was 660 feet from north and west lines of section 6, block J. GC&SF survey.

In Northwest Fisher County, Gem Oil Company No. 1 Martinez, seven miles west of Rotan drilled to a bottom of 7,210 feet in barren Ellenburger dolomite.

It found no signs of production and has been plugged. Location was 660 feet from south and east lines of section 165, block 2, H&TC survey.

That made six miles northwest of the Bennett, (Ellenburger) field.

Truce Deadlock Remains Unbroken

MUNSAN, KOREA —(P)—Brig. Gen. William K. Harrison, Jr., Thursday accused the Communists of simultaneously agreeing and disagreeing with Russia at the deadlocked Korean armistice talks.

The senior United Nations negotiator made the statement after hearing the Communist reply to his charge that Red insistence on forced return of war prisoners is inconsistent with the policy of Russia in World War II.

UN refusal to return prisoners who do not want to go home has blocked a Korean armistice for months.

"It is not apparent how you can at one and the same time both agree and disagree with the acts and declarations of the USSR," Harrison told the Communists at a 35-minute, no-progress session at Panmunjom. Another meeting was set at 11 a.m. Friday.

42 Airlines Get Safety Awards

CHICAGO —(P)—The National Safety Council Thursday named 42 U. S. airlines as winners of its annual aviation safety award for their contribution to safe air transportation in 1951.

Airlines which had no fatal accident from the date of their establishment included Trans-Texas. Other award winners included: American, Braniff, Capital, Chicago & Southern, Continental, Delta, Eastern, Pan American-Grace and TWA.

"DRESSED" IN A PLANE—"I feel like I was wearing her instead of flying her," said Test Pilot Bob Starr after taking up "Sky Baby," the world's smallest plane on its first flight at Palm Springs, Calif. The midjet has a wingspread of only seven feet, three inches, is nine feet 10 inches long, weighs 852 pounds and is powered by an 180-pound, 85-h.p. Continental engine that turns a 60-inch wood-and-plastic propeller. Starr, shown in the plane, and Ray Stits, of Riverside, Calif., built Sky Baby for about \$2200.

POINTING IS BAD MANNERS

ALBANY, N. Y. —(P)—Pointed story:
A truck driver stopped at a downtown street corner to ask a question.

Samuel Williams raised his right hand to point.

A dog seated in the cab of the truck stuck its head out of the window and nipped Williams' index finger.

COTTON

NEW YORK —(P)—Thursday noon cotton futures prices were 75 cents to \$1.85 a bale lower than the previous close. July 29.93, October 37.11 and December 36.92.

HEAT KILLS SALESMAN

MARCH AIR FORCE BASE, CALIF. —(P)—An Air Force C-47 transport plane with seven men aboard was reported missing Thursday on a flight from Norton Air Force Base in Van Nuys, Calif.

MEDICAL PATIENT

Debra Lynn Jobe, 603 1/2 South Dallas Street, is a medical patient at Midland Memorial Hospital.

More Funds Sought For Border Patrol

WASHINGTON —(P)—A move to increase funds for immigration control work on the Mexican border was started Thursday.

Senator Lehman (D-NY) told a reporter he and Senator Humphrey (D-Minn.) and possibly other senators would seek to restore \$4,001,000 to the Justice Department appropriations bill for this work.

Unless this is done, he said, immigration officials have warned that control of illegal entry of Mexican "wetbacks" into the United States may collapse.

Reds Hint Of New War Developments

BERLIN —(P)—East German Communists hinted threateningly Thursday of important new developments soon in the Korean and Indo-Chinese fighting wars and in Germany's cold war.

The Soviet-controlled press announced the Communist-sponsored "World Peace Council" meeting here July 1 will make decisions "of greatest significance" concerning these issues.

SURGICAL PATIENT

T. L. Hamer, 201 West Hicks Street, is a surgical patient at Midland Memorial Hospital.

MIDLAND, TEXAS, THURSDAY, JUNE 26, 1952

SECTION TWO

Midland Attorney To Talk At Crane Church Program

CRANE — Members of the First Presbyterian Church of Crane will climax a 16-month building program Sunday with a thanksgiving service in their new quarters.

Tom Sealy, Midland attorney, will be the speaker for the 11 a.m. opening service. He is a deacon of Midland, member of the board of trustees of Austin Theological Seminary and a regent of the University of Texas.

Dr. Jack Ramsay, Jr., minister of the church, will tell the "Crane Story" at the 11 a.m. service, and

Tom Sealy, the Rev. Lee Milling of the Spring, executive secretary for the El Paso Presbytery, also will speak.

The services will open officially the new building. Previously the congregation has worshipped in the Grant County Courthouse.

Three Units Planned
Long range building plans of the church include three units, the first of which is complete. It consists of a fellowship hall, kitchen, study and rest rooms. The other units to be built later will include classrooms and a sanctuary. At present the fellowship hall serves as the sanctuary.

Most of the construction has been volunteer labor.

Women of the Church will serve dinner at 12:30 p.m. following the morning service, and a special can-

Crenshaw Heads Men's Council In Texas Synod

William H. Crenshaw of Midland is the new president of the Men's Council of the Presbyterian Synod of Texas. He was elevated from the vice presidency at the Synod conference held last weekend at the Synod's Mo-Ranch near Kerrville.

Crenshaw is a past president of the Men of the Church of the El Paso Presbytery.

Attending from the First Presbyterian Church were the Rev. Flynn V. Long, Jr., assistant pastor, Don Johnson, John E. Reid, Bob Sutton, W. H. Gilmore, Billy Gilmore, Bill Baldwin, Paul Laverty and Hugh Tanner.

Representing St. Andrews Presbyterian Church were the Rev. Lewis O. Waterstreet, pastor, John Drummond, Phil Hays, Ed Blincoe, Perry Shahan, Don Strickler, Jr., Harry Norris and Hal Sehnert.

Own 'Fishing Wagon' Built By Crane Man

CRANE — "If you want something enough, make it yourself."

That's the attitude of the Lloyd Wimberly family, who wanted a special trailer for a vacation in Arkansas this summer.

Wimberly designed the trailer he wanted and devoted two months of his spare time to constructing it. His friends often pitched in to help, and Tuesday morning the big vacation got underway.

The trailer sleeps four, and it's equipped with a chuck box and electric refrigerator. One wall drops down to form a full size table, and refrigerated air keeps the interior cool.

Mr. and Mrs. Wimberly and their children, Glenn Russell and Lydiane, will visit their small stock farm in Huntsville, Ark., and Mrs. Wimberly's sister, Mrs. Curtis Cook, a former resident of Crane.

But most of their time will be devoted to fishing in Arkansas and Missouri. That's what the trailer was built for.

Monahans DAV Post Planned

MONAHANS — A Disabled American Veterans Post has been organized here with Steve Young named temporary Post commander.

Other officers named on a temporary basis were Frank White and Ed Hedges, vice commanders; Dr. F. M. Applegate, treasurer; Warren Carr, adjutant; and John Hash, chaplain.

Twenty-one members signed at the initial session.

Crossed pieces of lumber now can be glued together to form heavy structural timbers by a new method. Until this method was developed it was thought impossible to glue crosscut wood.

KNOW MIDLAND TRAFFIC CODE

The driver of a vehicle emerging from or entering an alley, driveway or building shall not turn such vehicle to the left.

GOING STRONG

PIOTOU, CANADA — (P) — The only working blacksmith in this community catering to the horse trade is Arthur MacPhee, who for 30 years has been plying the ancient craft on the same location where his father began business some 75 years ago.

School Valuations Jump \$400,000

MONAHANS — Valuations for oil property and utility companies were set at \$25,100,000, approximately \$400,000 above the 1951 valuations, at a recent meeting of the Monahans-Wicket Independent School District board of equalization and all company representatives.

The tax rate was set at \$1.75 per \$100 valuation, 25 cents higher than last year's rate.

Supr. R. D. Lee said the tax yield is expected to be \$594,838.74 to operate the schools next year.

Advertise or Be Forgotten

County Agent Green Points To Danger Of Grass Fires

With some Midland County range fires reported recently, County Agent Charles Green Wednesday urged motorists not to toss lighted cigarettes and matches out of automobiles.

Green said that bottles also constitute a fire hazard as most experts are agreed that reflecting sun rays can ignite dry brittle grass.

"Grass on county ranges is very dry due to the lack of moisture and we have been fortunate the last two years that we haven't had more fires than we have had," Green said.

Most ranch men have erected fire guards on their property, consisting of areas of grass plowed under as a barrier. Many of the ranchers have pressure sprayers used in insect control that can be filled with water for use in combating fires, Green said.

No Midland County Wheat Boost Seen

Midland County Agent Charles Green said Tuesday that no increased production of wheat was anticipated in this county due to government announcement of no federal production and marketing restrictions on the 1952 wheat crop.

"Only a few farmers that irrigate seed wheat patches in Midland County and those patches are for grading and chickens," Green said. "We just don't get enough rain here to grow wheat," he said.

Mediterranean means "middle of the land."

Four Band Students From Midland Listed For McMurry School

ABILENE — Four band students from Midland are among the 130 West Texas school bandsters who have been accepted for the fourth annual McMurry College Vacation Band School, July 20-August 2.

The students from Midland and instruments that each will play are: Edward Block, saxophone; Donna Young, flute; Pat E. Groves, Jr., tenor saxophone; Joe Lee Richardson.

Registration will continue throughout June for the school. Raymond T. Bynum, director, has announced. A capacity group of around 225 is expected to enroll.

Students from high school and college bands may enroll and with special recommendation from their instructor, junior high school students are accepted.

The color of an egg's shell has nothing to do with the flavor or nutritive value of an egg.

Try Old Favorite Recipes For Hot Summer Dessert

When you run out of new ideas for desserts try some old favorites again. Rice pudding comes to mind—creamy and flecked with plump raisins and spiced with cinnamon.

When dinner features a cold main dish—perhaps salad or cold cuts—thought should be given to a warm dessert. At least that's what the nutritionists say—one hot dish every meal no matter where the thermometer travels. And you will feel better if you follow this advice.

Here is a rice pudding with old fashioned goodness and one that calls for top of the stove cooking.

BLUE BONNET SUE'S RICE PUDDING

One-half cup uncooked rice, 1 quart milk, 1/4 cup margarine, 1/2 teaspoon salt, 4 egg yolks, 1/2 cup sugar, 2 teaspoons vanilla extract, 1/2 cup seedless raisins and 1/4 teaspoon cinnamon.

Combine uncooked rice, milk, margarine and salt in top of double boiler. Cover and cook over boiling water, stirring occasionally, until rice is soft and mixture thickens, about one hour and 15 minutes. Remove from heat. Rice grains will not be separate, but blended together. Beat egg yolks until thick and lemon colored with rotary beater. Add sugar gradually, beating until well blended. Fold egg mixture into

Monahans Coaches To Attend School

MONAHANS — Monahans' five coaches will attend the annual Texas Interscholastic League coaching school in Fort Worth August 4-8. They are: Head Coach F. O. Scroggins, Assistant Coach Joe England, Basketball Coach Glenn Whitla, B Team Coach Hackley Sledge and Junior High Coaches Elmer Siz and Curtis Davenport.

cooked rice and blend thoroughly. Stir in vanilla extract and raisins. Place mixture over simmering water and stir with wooden spoon until pudding thickens. Pour into serving dish. Sprinkle with cinnamon and serve warm. Serves 8-10. It may be necessary to add more milk during cooking.

Midland Officials Due At Bar Meet

A number of Midland attorneys are expected to attend the annual convention of the State Bar of Texas July 2-5 at Houston.

Among those attending will be Mayor Perry Pickett and City Attorney Len McCormick. The session will be devoted to sectional meetings and addresses.

HOSPITAL PATIENT

Mrs. Ole Lee Williams, Midland, is a medical patient at Midland Memorial Hospital.

Springtime dessert: plate spoonful of cooked pink rhubarb in sherbet glasses; top with tapioca cream; garnish with strawberries.

Youth Center Chatter

By NANCY LOU KLINGLER

Well here we are again in the swing of the weekly column. It sure is good to be back. We really missed writing this very much, but of course we can't say that you out there feel the same way, but we hope you still will read it.

Our thanks go to Jean Corbell for taking the Chatter over for us while we were away on our vacation. She did a swell job and we never could thank her enough for all her work.

We really had a wonderful time, but enough of that, so we will get started with some good (?) gossip. First of all, we want to tell you about the Rainbow Girls meeting held in Fort Worth last week. We received one grand offer, of which Midland was very happy, not to speak of how happy the girls were who received it. Yes sir, we are just about the happiest that you can find anywhere. Harriett Higgins, Sue Talkington and Wanda Burdette were the girls from Midland in the Grand Cross of Color, and Peggy Greathouse was the member from Midland in the Grand Choir. If you want to hear some funny stories about the trip just ask Barbara Munson or Audrey Rappmund. They saw all that happened just when it happened. A good time was had by all of the girls who went.

Congratulations to Johnny Ward who was in the finals of the Hobbs Invitational golf tournament. Johnny got beat in the finals by singer

Don Cherry. Johnny says he hopes he can beat him in the Midland Invitational tournament this week. Good luck to you, Johnny.

Here's Good Advice

Here is some advice for all smart kids and take it from us. Don't ever try to have four couples in the same car at the same time for it really doesn't work. If you don't believe us just ask any of these: Teddy Kerr, "Fifi" Pryor, Eddie Tagger, Doyle Patton, Dorothy Rialty, Raymond Leggett or Johnny Ward. They will tell you it really is no fun playing sardines.

The Western dance last Saturday night was just about the best one so far and everyone, and we mean everyone, had a wonderful time. There were two crooners, one from Odessa and the other from Georgetown. The only thing about the dance was that it was just a little bit crowded, but that's the best way and then we know that everyone is having a good time. See all of you at the Bulldog Stomp this Saturday night.

While on the subject of dancing, the square dancing is coming along pretty good, but it could do better. So please attend on Thursday nights. It really is a lot of fun. Saturday we lost two of our good members, Martha and Charles Frick, who moved to Corpus Christi. We are sure they will be back just as soon as an opportunity presents itself.

If any of you have items which should go in the Chatter, please tell us. Just give the news to "Myrt," Fern, or yours truly.

Mary Jane and Margie Miller have left Midland to go to California for about a month. We know they will have a good time and we hope they do.

Welcome To YC

There are many new boys around the Youth Center and we want to welcome them as regular members. They are supposed to obtain memberships though. This, of course goes for all Youth Center participants. College students visiting the Youth Center regularly during the Summer months are supposed to buy membership cards too, so don't forget because that helps the Youth Center improve, and we know you want to help.

Those of you who haven't been in the Youth Center this Summer because you think it might be unbearable hot, well you are wrong. We have a very good air conditioner, and we are sure it is just about as cool as anywhere you could go. Of course it would be much cooler if everyone would shut the door as they come in or go out. Now this is a nice hint, isn't it?

For those of you who are looking for something to do during the afternoons, there always are baseball games going on and there is no charge for seeing them. The teams include high school boys or ex-high school boys.

You perhaps have noticed there is some new games on the ground (now that is a logical place for it, isn't it?) and so please stay off of the grass so it will stay as pretty as it is now. Oh, by the way, there is going to be a lawn party, and not the kind you are thinking of either. No, this is going to be one lawn party without too much play. This one will be different from the rest. Here you will help clean-up the Youth Center lawn, and we know you will be more than glad to help, so whenever you are ready, tell "Myrt" and we are sure he will be more than glad to have you help him. "Myrt" wishes all of you were as energetic as Bill Erskine. Fun For All.

The title of this week's movie is "Mat Box Mystery," and we are sure you will enjoy it. The show starts about 8:30 p.m. Friday.

For those of you who are new at the Youth Center, we have some information to pass along. The pool table at the left as you walk in the front door is for the girls. Now, boys can play on it as long as you let the girls have the table whenever they want it.

Barbara Long now is in Fort Worth attending a business college and the Rainbow Girls visited with her when they were in Fort Worth. They say she likes it very much and to tell everyone hello for her, so "Hi."

We hear that Jerden Jowell and June Hazlip are attending the University of Colorado at Boulder this Summer. Bet they are enjoying the cool weather.

Congratulations to newlyweds Jo Ann Flemming and Daniel Flemming, and Jo Ann Drake Morris and Frank Morris.

A girl from Amarillo is visiting here for the Summer. Her name is Ronda Going. We hope you enjoy your Summer in Midland, Ronda.

We guess the rest of you already know this, but we aren't sure, so in case you don't, you will now know. Richard Burke has moved to Dallas. Visitor From Temple.

Bobby Jean Willis has her cousin, Linnie Huggins, from Temple visiting her. We are glad you brought her down to the Youth Center, Bobby Jean.

Didn't tell you about my vacation, did I? General Ike and I arrived in Washington at the same time, and what do you know, they went out to meet him instead of me. My brother, John Klingler, met me and in a few days drove us on to see New York and Boston. His wife is the former Nancy Webb, a 1951 MHS graduate, who is attending the Conservatory of Music in Boston. While I was in Washington, I had the pleasure of talking to Nancy Warren, a former member of the Midland Youth Center. We hope she will be a YC member again some time.

No Change Foreseen In Milk Price Here

Milk prices in Midland, which have remained stable all this year, probably will remain as they are for the near future, spokesmen for two major dairies said Thursday.

Their comments came after Dallas dairies announced a drop in prices in homogenized milk. Two cents came off the price of the half-gallon container, and half a cent was jopped from the quart price. Competition was given as the cause.

Retail prices vary in Midland, it was pointed out, but wholesale prices are expected to continue as they are. The Banner Dairies said prices there have not been changed since last September, and the Borden Company has maintained the same prices since January. Both said no change is contemplated.

TIRED "STUDENT" FLUNKS EXAMS—This elk is through with higher education. He made a visit to Stockholm, Sweden, to escape dogs and hunters, but found that a classroom in Swedish Technical High School during exam time was worse than a haven at all.

ENTERS HOSPITAL

Mrs. Frances Riley, 1011 South Dallas Street, is a medical patient at Midland Memorial Hospital.

Tarnish betrays the age of the silver coating on the mirror of a reflecting telescope, but it is difficult to detect when an aluminum-coated mirror needs a new surface.

★ TEEN TALK ★

By VIVIAN BROWN
AP Newsfeatures

If you're a yen to spread your wings in the big city, Summer is the ideal time. A job away from home during school vacation may help you size up future employment possibilities.

Or you may combine Summer school at a city university with a part-time job. One girl who tried it — pretty Jean Arthur of Kansas City, Mo. — embarked upon her venture in New York last Summer, stayed through the Winter and doesn't quite know when she'll go home.

A graduate of Kansas University, 20-year-old Jean had taught one year at Shawnee-Mission H. S. in Mission, Kansas, when she decided to study for her M. A. at Columbia University, N. Y. C. She banked everything on being able to land a job. Her experiences might be helpful to you for 4th or another year. Says she:

"Since my only work-experience was as a speech teacher, I decided to look for work along those lines. I narrowed this down to available jobs such as 'telephone clerk' — answering complaints perhaps for a department store or utility company — or conducting guided tours, where good speech would be important and useful."

Jean got the guide job — at Radio City, and after Summer classes were over, decided to stay on at Columbia for classes three nights a week. Fortunately there was no conflict between school and job hours, she says.

At first she was a receptionist in the sales and ticket information department of the tour service. There she acquainted herself with the guide job as a trainee. Her first pay was \$183 a month. Later when she became a full-fledged guide her base pay was \$45 a week plus \$2.25 for every additional tour. Since she wears a uniform all day, clothes are not a big item on her budget, except for dates.

Jean shares an apartment with another student (Rent \$88 a month). She believes any girl in a strange city should either share an apartment with a friend or live with classmates, friends or relatives, if possible. Most colleges have a service directing students to apartments and roommates.

It is not easy to figure the cost of food, she says. There are always invitations to dinner, and when she eats at home the cost of food is shared. Says she:

"I'd always heard that big-city boys were wolves, so I was a little nervous about dinner dates. Pretty soon, I realized that they were not very different from boys back home — a little more sophisticated, perhaps, and likely to treat romance more lightly than country boys. But all of the young men I have met so far have been gentlemen."

Jean classifies her New York dates this way:

1. Students: These are the boys you meet at classes. They are fun to be with — discuss school events, examinations and are the "pal-type."

2. Business: Most of the young men she has met in job contacts have been eligible, witty and pleasant. They have a "big brother" complex about a little girl alone in a big city — remembering her birthday, and on holidays and weekends taking her to meet their families.

3. Social: These are the boys you meet through relatives and friends. They are very nice in a dutiful sort of way.

Eastern men have one fault according to Jean — they expect girls to be subtle, and mid-western girls, aren't! She says this frankness which is new to these boys can upset the applecart if you like the boy — he's always being offended at something said, unintentionally.

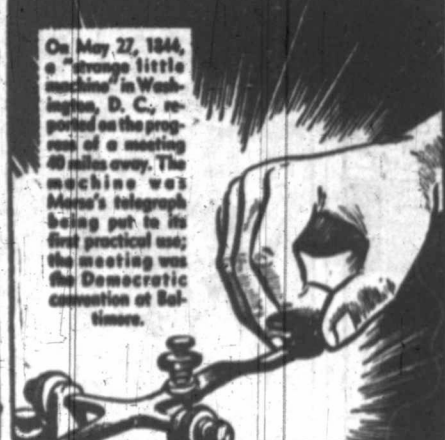

Jean is glad she came to the city but doesn't know what she'll do when she leaves Columbia in August. She'll probably pursue her career as a speech teacher, unless of course she meets the right man. She has "old-fashioned" ideas, she says, and is willing to give up teaching for marriage. Her hope chest is well-stocked containing among other things a complete set of sterling silver and linens.

But Jean isn't looking to snap up just any man. She'll wait for one who enjoys her interests — "simple things," she says, like "concerts, country living, animals, dancing and friends."

MARCH CHAIRMAN — Brig. Gen. Robert J. Smith of Dallas, president of Pioneer Air Lines, has been named Texas State chairman for the 1953 March of Dimes' appeal for funds to carry on the fight against polio.

IN CONVENTION ASSEMBLED, 1844

On May 27, 1844, a "strange little machine" in Washington, D. C., reported on the progress of a meeting 40 miles away. The machine was Morse's telegraph being put to its first practical use; the meeting was the Democratic convention at Baltimore.

Northerners favored ex-President Martin Van Buren; the South and West, General Lewis Cass. After seven ballots, interspersed with speeches, jeering and cheering, a hopeless deadlock forced adjournment. The next morning the telegraph reported history's first stampede: how ex-Tennessee Gov. James Polk, first dark horse to win a nomination, received 44 votes on the eighth ballot, then captured one state after another.

By JAY HEAVILIN and RALPH LANE

Polk's luck turned through the election. He defeated Whig candidate Henry Clay by 65 electoral votes. On inauguration day, his luck ran out. It rained.

THE MIDLAND REPORTER-TELEGRAM, THURSDAY, JUNE 26, 1952-5

When you are making white sauce or broilers, brown them in a little heavy sauce-pan and keep the heat low; stir constantly, scraping the sauce from the sides and bottom of the pan, until thickened and bubbly. To cook chicken breasts from fries hot fat, then add a few tablespoons of water and cover the pan. Cook the breasts over low heat just until they are tender.

Daddy Ringtail

Daddy Ringtail and Bingleinks

Daddy Ringtail, your monkey friend, had dug in the sands by the Whispering River. He had found a box of buried treasure. He was very excited indeed, but trouble, trouble, Bingleink eyes were looking out from the bushes all around.

The man who was with Daddy Ringtail ran away fast with a cry for help. But Daddy Ringtail did

He waited some more, and nothing happened some more. Just Bingleink eyes a-peeping. Daddy Ringtail picked up the treasure box. He put it beneath his arm. He began to tiptoe away. He wondered, he did, what the Bingleink eyes would do. You will never guess. The Bingleink eyes began to tiptoe away in front. Bingleink eyes began to tiptoe away behind to follow. Yes, Bingleink eyes were tiptoeing close beside.

Daddy Ringtail could not get away, oh no. What should he do? Should he drop the treasure box and run? No sir, not if he wanted the treasure box, and he did. Should he sit on the ground and wait until Bingleinks went away? No sir, because Bingleinks are very good sitters and waiters too. They can sit and wait as long as anyone, and of course Daddy Ringtail didn't want to sit and wait that long.

He thought and thought until at last he decided what to do. At last he did decide. He opened the box of treasure to see what the treasure was. And what do you think? The treasure was a piece of paper that said: "To frighten away a Bingleink, all you say is Bingleinkaboo."

Oh, but Daddy Ringtail did not want to say it. He didn't want to frighten anyone, and so he said: "Happy day to all of you Bingleinks! Dou you want me to say a Bingleinkaboo?"

Well sir, the Bingleinks did not want to hear him say a "Bingleinkaboo," at all. They said they didn't. Away they ran in a hurry so they wouldn't hear him say it. Happy day!

PIGGLY WIGGLY

Midlanders On Wooden Horses Pursue Plaster Woman, Illusion Of Roundness

By HAROLD WHITTINGTON

The drawing class of the Palette Studio, 604 North Colorado Street, will meet at 7:30 p.m. Jack Koenig is the teacher.

That's what the notice said, and that's what happened—just as it does every week.

Jack was the first to arrive at the little frame building which serves as headquarters for Midland artists. He spends his days as a geologist for Phillips, but once a week he lends his time and talent to help other amateur artists in pursuit of their hobby.

Before other club members arrived he carefully placed the white plaster bust of a young lady with classic Victorian features before a background of white paper, then trained a baby spotlight on it. He added a rectangular white vase to the scene to complete a simple setting.

Horses Arranges

Horses were arranged in something of a semicircle in front of the plaster figure. Not real horses, of course. These are benches constructed simply of pine lumber with a rail board raised at one end. The amateur artist sits astride the "horse" with his drawing board propped against the high end. It's just about a perfect setup for that sort of thing.

Other members of the club began to arrive before Jack had finished setting the scene. They took comfortable seats in the air conditioned studio and talked of many things. Those who didn't know each other were introduced, and before time for class to start everybody seemed to

feel at home.

The lessons aren't commercialized, and the rank beginner gets as much attention as the more experienced student. A member merely provides his own drawing paper and pencils—and erasers—and climbs aboard a convenient horse to begin work.

Everybody is ready, sitting on the benches staring at the white bust, vase and white background.

"First, I want you to just block in what you see. Simply outline the face and other features, trying to get everything in proper relation to everything else. Don't try to do the shadows and shading yet. Just copy the outline."

"Just block it in, eh?"

"Just block in the features."

Amateur eyes continue to stare at the object. Clean, white paper is propped up on the tall end of each horse.

Grinds On Pencil

Somebody decides his pencil isn't sharp enough yet, so he goes over to the sharpener and grinds it a little.

"One by one the novice artists make tentative marks on the paper. Most of them start with a general outline of the face. Some of the chins are too sharp. Another comes up with a jaw line that is symptomatic of acute mumps. Others are fairly good replicas of the real plaster McCoy.

"No cheating in this class. Nobody is looking at her from the same angle."

"Borrow your eraser?"

Then more silence.

Individual characteristics begin to show up as the drawing progresses.

One man has reproduced the face alone in a square-foot area. The man next to him has sketched the entire scene in the space of less than a square foot. A young housewife has made a good sketch, but it resembles Colla of the Alley Cop comic strip more than it does the plaster bust. Another is doing well, but she is erasing the mouth for the umpteenth time to try again.

Jack watches, gives a pointer here and there. For the most part, silence prevails. Half an hour of it.

"Now let's look at what we're trying to accomplish," the instructor interrupts.

"I've used a white model and a white background with just a single source of light. All we've got to consider then, is simple black and white. We don't have to bother about colors.

"Your drawing paper is flat, but the figure is round. In order to make a better picture, we've got to create an illusion on roundness on the paper. That's where the shadows and the shading come in. We call it toning.

"Imagine now a strip of paper, jet black on one end and dead white on the other with all degrees of tone between—from very light gray to a darker gray on until one end is completely black."

Pencil Strokes Drawing

His left pencil strokes on his own drawing board made it easy on the imagination.

"We simply pick out the 'tone' we need from that strip to repeat in the drawing where it is needed to make the figure look like it is round instead of flat."

Another quick twitch of his pencil produced a triangle, rounded on the bottom.

"In white, this is just a triangle. By picking out the proper tones we can make it look round."

Heavy pencil strokes flicked up and down inside the triangle, followed by lighter strokes to produce an even gray. And sure enough, the triangle transformed into a cone. Just like that.

"That's what you've got to do to make the face look round. I put up a white background to reflect light back on the figure on the darker side.

"Of course, you want the figure itself to resemble what you see as much as possible. That's where your outline, your 'blocking in' is important.

"But to get that 'illusion of roundness' you've got to pick out the gray shades and put them in. Use the side of your pencil. Smear the marks a little with your finger to make them lighter where you need to."

The amateur fingers begin to move amateur pencils, trying to get the right amount of gray for that shadow alongside the nose, trying to leave it lighter there on the cheek bone.

Somebody turned to a new sheet of paper to start all over again. Another lighted a cigarette to think this thing out some more, to study the unmovable piece of white plaster that was presenting the problem.

Time Flies Rapidly

Later in the evening, and time flies rapidly when you're all wrapped up in your drawing, most of the sketches were complete. Not many

of them looked a great deal like the young lady in plaster.

But most of them did have that "illusion of roundness" and everybody was pretty much pleased with the night's work. A good time, apparently, was had by all.

And next Tuesday night, Jack promised, he'd put up something with color in it as a greater challenge in this business of toning—making it lighter here and darker there. For at least a few hours during the week a roomful of Midland citizens will not worry about presidential elections and the war in Korea.

They'll have enough of a problem on their hands trying to create that illusion of roundness.

Atwood Nominated As 20-30 Candidate

KERMIT—Duane D. Atwood has been named by Kermit Twenty-Thirdians as a candidate for governor of West Texas District.

New officers elected were: Wayland Worley, president; Ben Dudley, vice president; and Tom Deck, sergeant-at-arms.

They will serve for a six-month term.

Every activity demands its own type of shoe. General and spectator sports shoes may serve a double purpose for walking and general utility wear.

Driving eight hours a day, averaging 40 miles an hour, a motorist would require 26 years to cover the highways of the U. S.

BOWMAN BISCUIT COMPANY OF TEXAS

Serve Different Veal Bids

RICH AND TEMPTING stuffed veal birds with mushroom sauce will stretch a little veal into servings for from four to six persons.

By GAYNOR MADDOX

NEA Food and Markets Editor

For something different and wonderfully tender, try these veal birds with mushroom sauce. In this recipe, 1 1/2 pounds of veal will serve from 4 to 6. That's delicious stretching.

(Yield: 4 to 6 servings)

One and one-half pounds veal steak, 1/4 cup fat, 1 tablespoon finely-diced onion; 1 tablespoon finely-diced celery; 1 cup finely-diced peeled apple, 2 tablespoons seedless raisins, 2 tablespoons fine dry bread crumbs, 1/2 teaspoon salt, 1/4 teaspoon ginger, 1 1/2 teaspoons kitchen bouquet, 3/4 cup white wine or water, 3-ounce can sliced broiled mushrooms, 1/2 cup thin cream, 2 tablespoons flour.

Have meat dealer cut meat about 1 1/2-inch thick. Pound meat with a meat tenderizing mallet, or edge of heavy plate, until about 1/8-inch

thick. Cut meat in six equal portions. Melt 2 tablespoons of the fat in a frying pan. Add the onion and celery and let cook 5 minutes. Add apple, raisins, bread-crumbs and the seasonings.

Remove from heat and mix well. Pile stuffing in center of pieces of veal. Roll up veal and tie rolls in shape with string. Brush veal rolls all over with kitchen bouquet. Melt remaining 2 tablespoons fat in Dutch oven. Brown veal rolls on all sides over moderate heat. Add wine or water and contents of can of mushrooms.

Cover tightly and bring to boil. Cook over low heat until veal is tender, about 45 minutes. Remove veal rolls to platter. Cut and take off strings. Blend together and add the cream and flour to pan liquid. Cook, stirring constantly, until sauce thickens. Season to taste. Serve gravy with veal rolls.

CHAMPION TWIRLER—Mrs. Norma Kniffen Dozier, holder of the VFW champion twirler titles for 1947 and 1948, will teach a special course in baton twirling and drum majoring at Hardin-Simmons University Summer band school. The school is scheduled for July 21 to August 1. Midland students will be represented at the school.

Here Is How Possible Demo Presidential List Adds Up

By JOHN GUNTHER
Written for NEA Service

I have had the pleasure recently of good talks with Kefauver, Stevenson, Harriman and Kerr, among the leading Democratic aspirants, and at one time or other I have met Truman, Barkley, Vinson, Rayburn, Humphrey and McMahon. What do they add up to?

Suppose we take Stevenson first, even though Kefauver is far in the lead so far as delegates are concerned, because Stevenson's attitude is not finally clarified, and whatever he does will probably decide the fate of all the others.

The showdown on Adlai Ewing Stevenson is something that makes him a rare bird indeed among politicians—he actually, truly does not want to run.

I met him in Chicago, listened to him speak at a meeting, and then had a drink with him while he ate half a grapefruit (he doesn't drink after dinner, and not much before). The next morning we flew to Springfield in his gubernatorial plane, had lunch, and later talked again.

Incidentally, I learned that you pronounce his first name "Adly," to rhyme with "Bardley."

The determining reason why he is reluctant is that he feels that it is his imperative, unavoidable duty to run for governor of Illinois again, win if possible, and put the affairs of that state, so long ill-governed, on a permanently sound foundation.

It is often said, additionally, that

he would not like to run against Eisenhower because they are such good friends. Actually, the governor has met Eisenhower only twice, and on neither occasion did they have much chance to talk.

If Stevenson does decide to run, he will make up his mind without regard to the name of his opponent. He does not want to be maneuvered into the position of being just a "fair-weather" candidate, willing to run if the race is probably going to be easy (as many Democrats believe it would be against Taft), but not willing if it looks hard.

Onerous and agitated pressure is being exerted to make Stevenson declare. It is difficult in the extreme for any public man to say a simple "I won't" to the presidency. Eisenhower faced this same dilemma in 1947-48.

There is only one man who can unhook Stevenson, and that is Stevenson himself. So long as he does not finally, explicitly, unequivocally announce that he will refuse to be a candidate even if drafted by the convention, there is bound to be more and more talk about drafting him.

Stevenson's advantages are many. He is, like Roosevelt, a politician who has become a man of the people. He has, almost alone among candidates, what every President needs above all—a combination of both administrative and political experience. He has been an admirable governor, and he really believes in public service. He is liberal on labor, negroes, and foreign pol-

icy. Yet he is enough of a middle-of-the-roader to capture both wings of the party geographically, and he would be a tough-minded, wily and indefatigable campaigner.

Kefauver? He is a remarkably friendly man, but some people appear to dislike or discount him. He has an excellent liberal record in Congress, quite aside from the crime investigation, but many people think of him as a lightweight, almost as a vaudeville figure.

Senator Estes Kefauver is not a vaudeville figure. He is a candidate in deadly earnest, whose vaudeville tricks pay off.

Merits to Kefauver as a candidate: (1) He has proved himself to be an extremely good vote getter, and his momentum steadily increases. (2) Americans like crime-busters. Dewey got his start this way. (3) His personality is refreshing, his face comparatively new, and his rustic simplicity beguiling. (4) He had the courage to announce his candidacy before Truman withdrew from the race. (5) Labor likes him better than any candidate except Stevenson, and he will get powerful support among negroes.

Demerits: (1) The big city machines detest him, and will do their best to stop him. This is partly because he is a lone wolf, an irregular, a non-conformist, and partly because the crime investigation upset the Democratic appeal in states like Illinois. (2) Truman and the central hierarchy probably will oppose him at the convention. (3) So will most reactionaries in the South.

These are four possibilities: Left, Senator Estes Kefauver, and in right photo, left to right, Senator Robert S. Kerr, Gov. Adlai Stevenson of Illinois, and Averell Harriman.

Kefauver said to me: "They told us we'd get trampled to death in New Hampshire. But look what happened. We had very strong advice not to go into Nebraska. Look what happened. Where are the other fellows going to get more delegates, if I have them?"

Observers Wrong
Averell Harriman? There are those who think to modify an old joke from Harold Lickes—that Harriman is a barefoot boy from the polo fields, nothing more. They are wrong. Actually the transition whereby a man of enormous inherited wealth can become a strong partisan of the left is not at all rare in American politics, and can be perfectly genuine.

Harriman is not to be dismissed on account of his background, though it will probably be a handicap. In actual fact, from the point of view of both national and international affairs, he has more concrete administrative experience than any other candidate.

Harriman, who has a lively and attractive character, is not going to have an easy time at the convention, though he takes his chances

with complete seriousness. He is the only Democrat who has said aggressively, "I can beat Ike." But the machine bosses are, as I heard it put, "using him, not supporting him." The spark that could cause a landslide simply is not there.

He has the powerful New York delegation, but this is likely to melt away; in fact he's given this on a kind of temporary basis, to keep other candidates from raiding into it until convention time. Nevertheless, his name is a powerful thing in the field, and Harriman should not be altogether dismissed. One crack is, "He will show up there in Roosevelt's cape."

The showdown on Senator Richard B. Russell of Georgia is that he cannot be President, because the North will not accept him, and he has no illusions whatever about winning. It may surprise those who dislike him because he is coldly,

implicably reactionary on the negro problem to know that, from the point of view of sheer ability, he is quite possibly the best Democrat in the race.

Highly Respected
Highly respected by his colleagues, inexhaustibly competent, with an intelligent record in foreign policy, a reclus except from his work, Russell has great advantages—if only he were not color-blind on civil rights.

He announced his candidacy for two reasons. First, he thought at the time that Truman would run, and he wanted to get into the field against him. Then, when Truman quit, he was stranded. Second, paradoxically, he wanted to create a situation that would save the party from being split, and prevent another Dixiecrat revolt.

By funneling votes to himself, and at the same time remaining

McCormick Helped Dish Out Front Line Justice In Korea

Leathernecks of the First Marine Division who run afoul of military laws get their "shotgun justice" right on the front lines of Korea, telling their stories to "circuit riding lawyers."

The "shotguns" are pistols and other arms carried by the judges, the attorneys, the spectators, and even the defendant. That's necessary because a Red sniper frequently butts in at close range. Foxholes are handy, and often a dugout or bunker serves as a courtroom.

Qualified attorneys have been named by the Marine Corps to conduct trials wherever a Marine is accused, hence the "circuit riding" term. They go by jeep, plane and shank's mare to the battalion command post, rest camp, or any other part of the front where legal aid is required. Some trials have been conducted with a few hundred feet of the enemy.

Discipline and morale are high among the Marines, the attorney said, thus making it possible for a small group of "circuit riding lawyers" to handle most cases that arise throughout the Korean area.

One of those attorneys was Len McCormick, now Midland's city attorney. He said Thursday that trials conducted under the new Uniform Code of Military Justice gave the accused a fair opportunity and he receives thorough and competent counsel at all times.

Admission of discharge of weapons, caused largely by the rugged terrain, has led to many charges of negligent homicide, McCormick said, and every case is given a hearing on its individual aspects before being brought to formal trial. Other cases include AWOL, theft, disobedience and other similar military offenses.

Discipline and morale are high among the Marines, the attorney said, thus making it possible for a small group of "circuit riding lawyers" to handle most cases that arise throughout the Korean area.

NOW, TIDE WASHES CLOTHES WHITER THAN YOU CAN BLEACH THEM!

THE WASH TEST PROVES IT!

TIDE gets clothes WHITER—with no bleach!

Amazing new tests prove that Tide, used all alone, washes whiter than any soap or "detergent" with a bleach added. It's washday's big news... and you owe it to your clothes to try it! You'll never want to put bleach in the wash water again, once you see how much whiter clothes come with Tide alone!

IT'S A NEW TIDE MIRACLE!

Even if you bleach clothes overnight, they won't be so white as TIDE washes them!

THINK OF IT! You can take two towels; wash one with Tide alone, soak the other in a bleach overnight... and then compare them for whiteness. You'll see that the Tide-

washed towel is actually whiter than the towel that was soaked in bleach! Why, except for stubborn stains, you need never bother with bleaching again!

And what's more...

NO OTHER WASHING PRODUCT with a bleach added WILL WASH YOUR CLOTHES AS WHITE AS TIDE ALONE!

YOU HAVE TO SEE IT TO BELIEVE IT! And you can see it! You can see how much whiter Tide alone gets clothes than any other washing product with a bleach added! No matter what bleach you use in the wash water... no matter what soap or "detergent" you use with... your clothes won't come out so white as they will with Tide alone! Amazing new laboratory tests prove it—get Tide and prove it for yourself!

CLEANER CLOTHES, TOO! Tide gets clothes cleaner than any soap of any kind. Millions of women have proved it. No soap known will get out so much grimy dirt, yet leave clothes so free of dulling film! There's never been anything like Tide for washday miracles. There's still nothing like Tide!

"I'm hanging up whiter clothes—thanks to TIDE!" says Mrs. Annamie Treast of Alwood, New Jersey.

"I've tried all the best washday soaps—the new 'detergents,' too. I've always added the best bleach I could buy to them, but my clothes never came so white as they did after my first wash using Tide alone! I still can hardly believe it—but it's true!"

NO OTHER WASHING PRODUCT CAN PROMISE ALL THIS!

WASHES CLOTHES **WHITER** THAN YOU CAN BLEACH THEM!

GETS CLOTHES **CLEANER** THAN ANY SOAP!

MILDER FOR HANDS THAN ANY OTHER LEADING "DETERGENT"!

NO WONDER TIDE IS THE WORLD'S FAVORITE WASHDAY PRODUCT!

TIDE is milder for hands than any other leading "detergent." So safe for washable colors!

YES! With all its cleaning and whitening action, Tide has an amazing new mildness. Not even the mildest "detergents" made especially for dishwashing are so gentle and kind to hands as Tide!

ACTUALLY BRIGHTENS COLORS! For dramatic proof of Tide's wonderful safety, watch soap-dulled wash prints and table linens come brighter after just one Tide wash. Yes, ma'am! Tide really cares for clothes and colors just as it does for your hands.

AND TIDE IS SO THRIFTY TO USE! Such a little Tide makes such oceans of rich, long-lasting suds... goes so far in hardest water, it's a miracle of economy.

How Conventions Work: Opening Days May Set Pace For Entire Fall Campaign

By BRUCE BLOSSAT
NEA Staff Correspondent

CHICAGO—A national convention's opening days may set the mood and tone not only for the whole show but for the fall campaign as well. So it's hardly fair to dismiss the beginning events as preliminaries.

In both GOP and Democratic affairs, the gavel will fall around noon Monday—July 7 for the former and July 21 for the latter. Things will get off with a welcoming speech of some sort, though the Republicans carefully refrained from inviting Chicago's Mayor Martin Kennedy, a Democrat.

To the television eye, activities that first session will look pretty dull. But a practiced politician might say: "Dull, but important."

They'll be naming temporary officers and selecting committees. By their names the committees are strictly off the dusty shelf: credentials, permanent organization, resolutions, rules and order of business. But beneath the verbal shrubbery lie the makings of the first key steps toward winning a nomination. Especially true.

This is especially true this year of the credentials committee on the GOP side. Credentials hears the hot disputes over contested Southern delegations like Texas and Mississippi. Not since 1912, when upwards of 200 delegate seats were up for grabs, have so many GOP places been at issue. The number is 96.

Republican convention rules require that some of these, 23 in all, be handed back to state party organizations for decision. The rest will be settled at Chicago. By the time the convention opens, the national committee will have heard the evidence from the disputants and have decided which ones to seat.

On the basis of its decisions, the national committee will make up what is called the temporary roll of the convention—the list of all those tentatively entitled to sit in the hall as accredited representatives of their respective states.

Senator Taft's followers dominate the national body, and might produce results highly favorable to his candidacy. In that event, supporters of General Eisenhower may appeal. It is such an appeal from a ruling of the national committee that puts an issue before the credentials committee.

First Big Dose

But before the credentials group and others come up with their reports, delegates and convention viewers get their first big dose of glamor: the keynote address. It's always set for the first night, when

Curtain raiser: Walter S. Hallanan of West Virginia, who'll be temporary chairman of the GOP convention this year, looked like this when he called the 1948 convention to order.

Initial interest is high and the outside audience is likely to be big. For the Republicans, it's General MacArthur for keynote; for the Democrats, Gov. Paul Dever of Massachusetts.

The keynote, as the word implies, is supposed to sound the theme of his party's thinking for the campaign, to sketch out the kind of approach the party would bring to all the top issues, and, yes, to flay the opposition a little or a lot—depending on the keynote's own temper.

Eisenhower backers objected to the choice of MacArthur on the ground he is avowedly for Taft and is unlikely to hew a middle line. There were runnings against Dever, too, when he hinted he might suggest compromise on the explosive civil rights issue.

Temporary Chairman

Usually the keynote is also temporary chairman, serving as convention officer until the conclave is permanently set up. But Republicans this time split the two jobs, in deference to MacArthur's special status. Walter Hallanan, West Virginia national committeeman and a leading Taft backer, got the temporary chairmanship.

It's a crucial spot. Someone said when he got it: "Whatever he does, he probably will be the most hated man in the convention." His biggest test will come when committee reports stream in during the second day. If the credentials committee, which also is controlled by Taft sympathizers, has decided the Southern delegate disputes in the senator's favor, the Eisenhower members may file a minority report. Under the rules, the convention as a whole must act on these reports, and must consider minority reports first.

The ticklish question is: "Who shall be allowed to vote on these?" The national committee's temporary roll may contain many delegates whose seats are in doubt. The temporary chairman must decide whether they can vote on contests or not.

Not On Own Case

There is precedent both ways. In 1912 it was ruled that delegates from a disputed unit, let's say Texas, could vote on disputes in other states like Georgia and Florida, but not on their own case. In 1928, the ruling was that delegates of doubtful status could not take part in any voting on contests.

How Hallanan rules on this issue could have vital effect on the ultimate convention choice of a nominee.

SALES DISAPPOINTED LAST YEAR Air-Conditioning Merchant Welcomes Hot Days Ahead

NEW YORK—(P)—Sweltering days ahead will be welcomed by at least one businessman—the air-conditioning dealer.

His sales were disappointing last year. But the first hot June days, many dealers report, have brought a rush of sales for room coolers. A real hot Summer might make these the first in the entire appliance field to lead the way out of the sales slump.

A steel shortage, however, is already starting to close some appliance plants. And at least one air-conditioning manufacturer says he may have to close down in July. Dealers believe, however, that inventories are high enough to take care of demand for coolers throughout the Summer.

Home air-conditioning is just the latest phase of the industry. It started 50 years ago—in a Brooklyn printing plant. For years air-conditioning was confined to industrial—still major users. Commercial buildings took it up in the 1920's—restaurants, hotels, and finally stores and office buildings.

Politicians To Cool

And Chicago's convention building has just put in a system, hoping to keep politicians cool next month.

By now air-conditioning has grown into a billion-dollar industry. And if year-round air-conditioners

for the home are brought down in cost to the reach of the owner of the low-priced home, the industry might become a major one.

More than three million tons of air conditioning capacity is now in use in this country—most of it installed in the last 10 years.

Carrier Corporation says the first practical air conditioning system was installed in a Brooklyn printing plant by Dr. Willis H. Carrier just 50 years ago next month. It was designed to cut down humidity and make color printing better.

Air conditioning entered the chemical industry in 1908 when York Corporation supplied refrigeration for a Newark, N. J., plant making a film base for the infant moving picture industry. The system eliminated the white specks early movie goers used to see.

Conditioning Spreads

Since then conditioning has spread through many industries. Air-conditioning is used to control water-vapor in textile mills, to get the correct length of a metal spring in a watch, to permit accurate measurements in turning out high-precision parts in airplane plants, to protect perishables on surface ships and cargo planes.

Cloud Wampler, Carrier president, believes year-round home units will soon be affecting home designs. Example: windows can be grouped

for the best light and view without having to be placed to provide cross-ventilation.

Several soon will market a hope air conditioner operating on oil. It has had a gas-powered one on the market for some time. Electrically operated ones are made by nine other companies, and many times that many make room coolers.

Plugs For Gadget

John A. Gilbreath, assistant vice president of Servel, plugs for his natural gas-fired all-year home air conditioner as a possible solution to a seasonal peak-and-valley problem that followed the spread of big gas pipelines across the country. House-heating and factory use has made winter the big demand period for natural gas, with Summer demand slack.

It's Gilbreath's belief that the gas-fired unit he sells could add between 20 and 25 per cent to the load factor of a utility company during the hot months.

He hopes also that within two years the equipment will be economically feasible for \$11,000 homes.

Three Airlines Serving Midland Receive Awards

The three airlines serving Midland are among the 42 named winners of the National Safety Council's aviation safety award in recognition of their contribution to safe air transportation in 1951.

They are American, Continental and Pioneer air lines.

Each airline qualified for the award in one of three ways (1) it completed the calendar year of 1951 without a passenger or crew fatality; (2) it flew two billion or more consecutive passenger miles without a fatality, even though an accident terminated its safety record in 1951; and (3) it completed five or more consecutive years of safe operations, even though an accident terminated its record in 1951.

The town of New Salem, Ind., where Abraham Lincoln once lived, literally disappeared, says the National Geographic Society. Many of its log buildings were dismantled and carried to a nearby town.

TECH PRESIDENT—Dr. E. N. Jones has been named president of Texas Tech College at Lubbock. He succeeds Dr. D. M. Wiggins, who resigned to enter the banking business in Lubbock. Dr. Jones was formerly vice president of the school.

Andrews News

ANDREWS—Phyllis Carter, three-year-old daughter of Mr. and Mrs. Floyd Carter, was honored with a birthday party recently in her home in the Fullerton Oil Camp.

Andrews 4-H Club members who attended the District Encampment at McCamey last week were Laverne Gibson, Joyce Gibson, Linda Alsbrook, Glenda Alsbrook, Patricia Patterson and Mrs. Carl Gibson, 4-H Club sponsor.

Mrs. Chester Allen was feted with a stork shower recently in the Phillips 66 Camp Recreation Hall. Hostesses were Mrs. David Chisole, Mrs. Fred Stevens and Mrs. W. H. Weaver. The program carried out a "Queen for a Day" contest over radio station, BABY.

Australian Speaker Brings Son To U. S.

WICHITA, KAN.—(P)—A 39-year-old Australian newswoman is back at his Wichita typewriter, after a four months' lecture tour in ten states—Minnesota, North Dakota, Montana, Utah, Missouri, Texas, Mississippi, California and Colorado, as well as Kansas.

Ralph Wilson Reid showed motion pictures of Australia—in black-and-white and in color—exhibited native Australian weapons, and tossed boomerangs all over the map. Reid and his family flew to Wichita from Australia in September, 1948. They came here for special training for their oldest boy, John, now 10. Encephalitis, following measles, had left John physically active but retarded, unable to speak or understand.

John's still making good but slow progress at the Institute of Logopedics.

Employment Gains In New York State

NEW YORK—(P)—Business was at a relatively high level throughout New York state in May, except for "depressed" industries such as apparel, shoes and small metal trades which continue to be soft.

A survey by the State Employment Service of 5,100 firms employing 250,000 workers indicates they foresee a three per cent increase in jobs by August. More than 700 of the business firms with defense contracts predict a six per cent expansion in employment.

The construction industry, also considered a soft area, may improve because of eased material curbs resulting from the defense stretch-out. Construction jobs rose in March for the first time in eight months to 94,800, or four per cent above totals of the previous month.

RRC Reports Total Of 52 Sites In Area

The Oil and Gas Division of the Railroad Commission of Texas has reported 52 sites in Midland and surrounding counties for which it has received applications for permits to drill exploratory wells.

Seven of the requests were for wildcat ventures. Gaines County claimed two of these prospectors and the remaining new wildcats were distributed one each among Borden, Ector, Garza, Glascock and Winkler counties.

Ector and Midland Counties led the list of field projects with seven reported in each county. Loving gained five new explorations.

Glascock, Hockley, Scurry and Ward Counties each received four new drillsites.

Two new test sites were spotted in each of Cochran, Dawson and Yoakum counties.

The remainder of the locations were divided one each to Borden, Crane, Howard and Winkler counties.

Borden County
Hobo-Phillips No. 5 and No. 4 Boedeker, No. 5 is 670 feet from north and 1,972 feet from east lines of section 32, block 25, H&TC survey, No. 4 is 817 feet from south and 660 feet from east lines of same section, block and survey, rotary, 7,300 feet depth.

Wichita Falls County
Wildcat-Ada Oil Company of Wichita Falls No. 1 Clayton Johnson, 600 feet from south and east lines of section 39, block 32, T-4-N, T&P survey, rotary, 8,200 feet depth.

Cochran County
Levelland-Cactus Drilling Corporation of Midland No. 2 C. R. Starnes, 660 feet from south and west lines of northeast quarter of section 23, Harrison and Brown survey, combination, 5,100 feet depth.

Landon-Standind No. 5 M. J. Hall, 330 feet from south and 1,933 feet from east lines of tract 13 block L, pal survey, rotary, 5,400 feet depth.

Crane County
Unnamed field-H. Bryan Poff and Brinsmere Oil Company of Fort Worth No. 3 H. R. Henderson, 330 feet from east and 990 feet from south lines of northeast quarter of section 4, block 26, pal survey, rotary, 4,000 feet depth.

Amended: McElroy-Keweenaw No. 1-D Barger, 330 feet from east and 990 feet from south lines of section 40, block 30, University survey, cable, 3,075 feet depth. To deepen.

Dawson County
Mungerville (Pennsylvanian) - Blanco Oil Company and A. A. Buchanan of San Antonio No. 1 and 2 Halliday-State, No. 1 is 660 feet from north and 1,980 feet from west lines of section 96, block M, EL&RR survey, No. 2 is 660 feet from north and west lines of same section, block and survey, rotary, 8,700 feet depth.

Goldsmith-5600 - The Devonian Company of Tulsa No. 3-O Schaubauer, 555 feet from south and 2,840 feet from west lines of section 27, block 44, T&P survey, rotary, 8,900 feet depth.

Goldsmith-5600 - Phillips No. 5-A TXL, 555 feet from south and 630 feet from east lines of northwest quarter of section 21, block 45, T-1-S, T&P survey, rotary, 5,994 feet depth.

Goldsmith-5600 - Rio Hondo Oil Company of Wichita Falls No. 4-C J. E. Parker, 660 feet from west and 1,330 feet from north lines of section 48, block 45, T&P survey, rotary, 6,000 feet depth.

Wildcat-Buffalo Oil Company of Dallas No. 1-BA H. S. Foster, et al, 660 feet from west and 1,980 feet from north lines of section 14, block 43, T-3-S, T&P survey, rotary, 5,900 feet depth.

Yarbrough & Allen - Amerasia No. 7 Carlinville National Bank, 1,550 feet from east and 1,795 feet from north lines of section 18, block 46, G&MMB&A survey, rotary, 11,000 feet depth.

TXL-Silurian-Skelly No. 3 A. E. Thomas, 660 feet from south and east lines of section 42, block 45, T&P survey, depth not reported.

Goldsmith-5600 - Standind No. 19-M C. Schaubauer, 660 feet from north and west lines of southeast quarter of section 21, block 44, T-1-N, T&P survey, rotary, 6,800 feet depth. Dual with Clear Fork.

South Cowden-Vina Bagley estate of Midland No. 4-A L. K. Colbert, 660 feet from south and east lines of section 5, block 42, T-3-S, T&P survey, rotary, 4,700 feet depth.

Gaines County
Wildcat - Blackwood & Nichols No. 3-A Theford, 661 feet from south and 992 feet from east lines of section 20, block A-9, pal survey, rotary, 12,000 feet depth.

Wildcat-Reno Oil Company and Curtis R. Inman of Midland No. 1 Barton, et al, 660 feet from north and west lines of section 134, block G, WT survey, rotary, 5,500 feet depth.

Glascock County
Wildcat-Urlic Drilling Company of Fort Worth No. 1 Leland F. Long, 660 feet from north and east lines of southeast quarter of section 1111, TW&NG survey, rotary, 8,800 feet depth.

Howard-Glascock-E. G. Rodman of Odessa No. 1 Edwards, 230 feet from south and 990 feet from east lines of section 17, block 33, T-2-S, T&P survey, rotary, 2,500 feet depth.

Sauerkraut Salad Costs Little

SAUERKRAUT HEALTH SALAD has eye appeal, taste appeal and is ideal for economical luncheons during the hot summer ahead.

By GAYNOR MADDOX
NEA Food and Markets Editor

Low in calories, high in vitamins, cost little but gives a big appetite surprise—this salad is ideal for hot-weather luncheons:

Sauerkraut Health Salad
(Makes 4-6 Servings)

One No. 2 can sauerkraut, 1 1/2 cup chopped parsley, 1 teaspoon brown sugar, 1/4 cup French dressing, 2 or 3 medium-sized fresh tomatoes, 1 cup cottage cheese, 1 No. 2 can green asparagus, drained, paprika.

With a sharp knife cut each tomato in half through stem end; Cut each half into three sections lengthwise but only enough to spread tomato, not to separate. Spoon cottage cheese between cuts in tomato. For each serving place tomato half on bed of sauerkraut salad. Arrange four asparagus spears by sides of tomato and sprinkle with paprika.

This combination of sauerkraut and lunch meat is perfect on days that seem to wilt the appetite.

Sauerkraut Luncheon Salad
(Makes 6 servings)

One No. 2 can sauerkraut, 1 1/2 pound, canned luncheon meat, 1 1/3 cup chopped pimientos, 1/2 teaspoon grated onion, 2 tablespoons mayonnaise.

Wind Blows 1,000 Miles An Hour 100 Miles Above Earth

WASHINGTON—(AP)—Where does the wind blow 1,000 miles an hour? About 100 miles above the earth, the National Geographic Society reported Wednesday, adding this odd bit of information:

If you were up there in the ionosphere, exposed to those winds, you'd find them too weak to blow your hat off.

"The reason," said the society in a report, "is that at such heights there is little atmosphere. In consequence, nothing exists that could buffet the human and tell him he faced a blow with a speed of more than 13 times earthly winds of hurricane force."

The report discussed the tracking of these "ghost" winds by radar. It said Cambridge University scientists found one super-tornado streaking through the skies at 1,100 miles an hour.

Custard cups can do double duty: they are useful as miniature mixing bowls, as refrigerator dishes, and as molds for desserts and salads. They may also be used for baking popovers. Custard cups are always ovenproof, and are usually made of glass or pottery.

AP Specialists To Assure Top Political Convention Coverage

The Associated Press has assembled a staff of more than 100 writers, photographers and technicians for the two national political conventions in Chicago.

Specialists in politics and international affairs will concentrate on the main business of choosing presidential candidates and hammering together the party platforms. There also will be feature writers, columnists and regional representatives.

All will team to turn out a report for both morning and afternoon papers. The regional writers will cover the activities of individual state delegations, sending home state papers special stories tailored to their needs.

Veterans In Charge

The staff will be headed by William L. Beale, Jr., chief of the Washington bureau and a veteran of eight national conventions. He has been covering national politics and international affairs for The AP in Washington since 1930.

Ronald Kovacic, news editor in the Washington bureau, will be directly in charge of staff assignments and coverage. Bennett Wolfe, Washington special service editor, heads the regional staff and F. A. Resch, general newsphoto editor, the photo staff.

Among the writers will be the veteran political reporter Jack Bell, head of AP's Senate staff; Bill Arbogast, head of the House staff; Douglas B. Cornell, veteran of the White House beat and of campaign tours; Ed Haakinson of the Senate staff; Ovid Martin, Agricultural expert and Norman Walker, Labor reporter.

Pulitzer Prize winners Reiman "Pat" Morin and Don Whitehead

will write interpretive stories to give the atmosphere of the conventions in its public and private sessions. Morin will write for afternoon papers, Whitehead for morning.

Feature Angles Covered

Art Edson and Ed Cress, masters of the light touch, will try for features that may be entertaining as well as instructive. Hal Boyle, the "poor man's philosopher"—another Pulitzer Prize winner—will turn out his column from the convention city, as will Jim Marlow, who writes "The World Today" column. Ruth Cowan will cover women's news.

Many of the writers helped cover World War II and post-war events for The AP in far corners of the world. Others have had more experience dealing with Congress and Washington political events than many of the senators and representatives on Capitol Hill.

AP wires will be extended into International Amphitheater, the Convention Hall, and directly to the convention platform. There will be an AP editing desk in the hall as well as in the hotel where the two parties will have headquarters. Editors from the Washington copy desk who will man the convention desk include J. W. Davis, W. T. Peacock, R. J. Crowley, Don Sanders, G. L. Bridge and Warren Rogers.

Jake Engle and Ernest G. Warren will assist Wolfe on the regional desk. The staff of 16 AP photographers will include cameramen who have

covered leading political personalities from the White House to the grass roots, most of them veterans of many past conventions.

From Washington will come Bryon H. Rollins, Henry Griffin, William C. Allen, William J. Smith and Harvey Georges. Chicago's experienced camera staff of Charles Knoblock, Harry Hall, Paul Cannon, Ed Maloney and Ed Kitch will be on-the-job. From New York there will be John Rooney, long lens specialist, and John Lindsay, whose camera turns up the non-routine feature pictures. Completing the roster are Preston Stroup from Detroit, William P. Straeter from Kansas City, Barry Stroup from Dallas and Harold Valentine from Columbus—all veterans of political camera coverage.

Assigning these photographers and handling their voluminous product for fast Wirephoto distribution will be a crew of veteran AP picture editors including Richard H. Strobel of Los Angeles, B. E. Foster and Robert Baer of Washington, Robert L. Ticken and Patrick McDonald from New York, William F. Achats of Philadelphia and Fred Wright and Waldo Butler from Chicago.

When you are preparing ice cream at home remember to set the temperature control of the refrigerator at the coldest position for freezing; then turn the control half way back to normal for holding the dessert until serving time.

Summer precaution: Wash all fruits and vegetables to be served raw. If you serve salad as a separate course, be sure to accompany it with ad, in a whip, in a pelleted fruit dressing, and as an ice cream sauce.

Checker Cab Uses First Segment In New Ford Fleet

First segment of new Ford automobiles are now in use by Checker Cab Company of Midland, as part of an improvement program in which all of the company's vehicles will be replaced with new Fords, Myron Anderson, company president, reminded Monday.

The new Fords have been equipped with two-way radios and afford the peak in riding comfort, Anderson said.

With a fleet of all new Fords, the company will be in a position to offer uniform and courteous service, he said.

H. S. Murray, Sr., is vice president of the company, and O. L. Beatty is secretary-treasurer.

Morgan Mansion To Go For Taxes

GLEN COVE, N. Y. (AP)—The former mansion and estate of the late financier J. Pierpont Morgan will be auctioned off July 12 to satisfy \$30,000 in back taxes, the Glen Cove City Council decided Tuesday night.

The 56-room stone edifice was built in 1910 at a cost of \$2,500,000. It occupies a three-acre site on East Island, off the north shore of Long Island.

The former Morgan estate was taken over by the city for back taxes last August. It was used for about a year by Andrei Gromyko and other members of the Soviet diplomatic staff, but they gave it up in December, 1950.

MEDICAL PATIENT

Mrs. Margaret Cariker, Route 1, Midland, is a medical patient at Midland Memorial Hospital.

To avoid damage to saucepans from boiling dry or burning, use low heat—as long as food is boiling, you can't hurry the cooking by increasing the heat. If a pan does burn, be sure to let it cool until you can hold your hand on it before you put water into it, or put it in water. If doused with water when hot, metal is likely to warp; enamelware to chip, glassware or cast metal to break. Let a burned pan soak for half an hour or so, then loosen stuck-on food with a wooden spoon.
