Voting Is Moderate

By The Associated Press

Texans were voting in moderate numbers Tuesday in special election which will determine the makeup of the U.S. Senate for two years.

Reports from over the state indicated voting during the morning was light to fairly heavy.

Weather was expected to play an important part in the final tabulation. Tornado warnings were out for a large section of West and North Texas. The sun was out during the morning in sections of East and South Texas, but thunderstorms were predicted in those areas during the afternoon.

Voters had 19 candidates to pick from, including 2 Republicans. The winner takes all and fills out the remaining 2 years of the term of Price Daniel, who resigned after he was elected governor.

Big Spring reported a light vote. Up to 8:30 a.m. only 200 votes had been cast in 6 boxes. Except for a little dust, the weather was fine.

Voting was very light at Lubbock where the weather was balmy. Observers predicted not more than half the 24,000 potential votes would be cast.

Only six voters had voted up to 8:30 a.m. in one of San Angelo's biggest boxes.

Abilene reported a steady and fairly heavy turnout.

Galveston's voting was described as remarkably high but not as heavy as in the November general election.

Voting was light at Beaunont during the morning but was expected to pick up during the afternoon because of interest in a port commissioners race.

Houston, home of Republican candidate Thad Hutcheson, reported a light to fairly heavy vote. Most election judges reported voting "normal" for this type of election. Voting was expected to be boosted somewhat by balloting on an increase pay issue for city firemen.

Voting was heavy in Dallas where city voters also were balloting on city officials.

Marshall reported a light morning vote but expected balloting to pick up during the afternoon.

Mt. Pleasant had a very light morning vote. Four of the largest precincts reported only 2 or 3 voters during the first few hours.

Athens reported a light morning vote and threatening weather.

At Austin long lines of voters were reported at some boxes while others had only a few votes up to 9 a.m. The heavy voting was in West Austin boxes which, in Democratic primaries, generally voted conservative.

TURNPIKE TROUBLES

He's Tired Of Uninvited Guests

BRAMAN, Okla. (AP) — Amos Switzer, who's literally at the end of the road, has appealed to two states for help — so far without success.

He's sick and tired of entertaining uninvited guests on his farm.

The south end of the Kansas Turnpike, opened last fall, stops at the Oklahoma-Kansas border adjacent to Switzer's farm. Oklahoma has never begun work on its part of the turnpike.

There are secondary roads going off at angles from the turnpike to connect with U. S. 177 six miles to the south, but fast-driving motorists have continually ignored warning signs and ended up on Switzer's farm.

"Those cars, the majority of them from states other than Oklahoma and Kansas, kept knocking over the fence at the end of the turpike.

"I moved it back 50 feet . . . and still they knock it down.

"I had some cattle and every time the fence got knocked down they got loose. When they got loose they would get on the turnpike or the other road and I was liable for them. So I nally sold [illegible]

"You know we are right neighborly out here. My wife and myself were married in 1927 and set up housekeeping right here and it's been only the last four months we have had to lock our doors.

"These poor people run off the end of the turnpike and come down here for help. Usually that means a long-distance call to Blackwell, Okla., or Wellington, Kan., for a wrecker or an ambulance — or both—and the highway patrol.

"When we are home that's fine. But when we started to get telephone bills with a lot of long-distance calls on them, we had to start locking up when we left."

Switzer has appealed both to Kansas and Oklahoma for help. Both are sympathetic but Kansas says all it can do is put up signs and Oklahoma says it is a problem for Kansas.

Local Lots Leased For Development

Several city-owned residential lots were leased for oil and gas development in north Snyder last night to a Dallas drilling firm.

The lease to James F. Gray, Dallas, calls for drilling within one year, and to the Canyon Reef pay.

In other actions the council purchased a desk, chair and desk lamp from Bud's Office Supply to equip the office in the fire station now under construction in Southwest Snyder. The bids were for a price of $149.62 for the desk, $41.12 for the chair, and $19.20 for the lamp. No other bids were received.

The council approved calling for bids on 500 sacks of 35 pounds each of activated carbon for use in water processing.

The amount is estimated to be a one-year's supply. Bids will be opened May 6, during the regular session of the council.

King Named To Oil Group

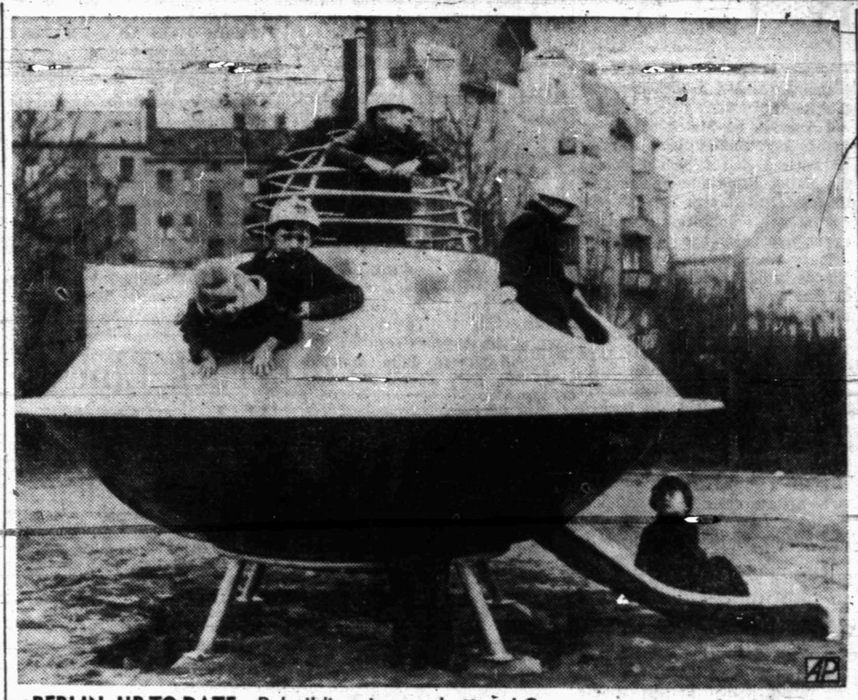
AUSTIN (AP)—Alwyn King, Houston oil operator, was named today to a committee of the interstate oil compact commission which will study foreign oil imports.

The appointment was made by Oklahoma Gov. Raymond Gary, commission chairman, on recommendation of Gov. Price Daniel.

Daniel said he considered the committee "highly important because of the depressive effect of rising imports on Texas production allowables."

"Texas allowables take into consideration market demand in order to prevent waste, while imports are without federal restriction and are beyond the jurisdiction of the states," Daniel said. "This results in Texas having to lower its production with every excessive barrel of oil brought in from abroad.

"This problem must be solved by restricting imports for the good of our industry and our state and for the security of our nation."



BERLIN UP-TO-DATE—Rebuilding in war-battered Germany even extends to the playgrounds of West Berlin, where new playground equipment such as this "flying saucer" is not only great for climbing on but also features a sliding "exit."

Big Campaign On Livestock Is Proposed

WASHINGTON (AP)—Livestock industry leaders want to put on a big promotion and advertising campaign for meat and livestock products.

Sponsors propose to get funds by means of a checkoff on sales of cattle, calves and hogs. The assessment would be 10 cents a head for cattle and calves and around 5 cents for hogs.

A bill to authorize such a checkoff is being considered by committees in the House and Senate. The money would be collected and spent under supervision of the Agriculture Department.

The principal backer of the proposal is the American National Cattlemen's Assn.

Advocates are running into opposition. Secretary of Agriculture Benson has informed the congressional committees he doesn't like the idea, although he raised no opposition when the plan was authorized for the sheep industry.

Opposition also has been expressed by the American Farm Bureau Federation. However, some state Farm Bureau groups are supporting it.

Opponents contend there is danger that all farm commodity groups might get into a big advertising and promotion battle in which no on ewould gain.

Balmy Weather Expected To Fade, Storm Warning Given

Snyder marked up its warmest day of the season Monday, but the balmy temperatures are expected to fade late today, according to the Weather Bureau.

The mercury climbed to 85 degrees Monday, and the minimum recorded last night was 44 degrees.

Meanwhile, a low pressure center which was moving eastward from New Mexico was expected to bring a new cold wave into Texas. The Weather Bureau predicted thunderstorms over a wide area of Texas today. Showers were expected to develop in the Panhandle and then turn to freezing rain or snow late today.

Cooler weather is expected throughout West Texas tonight and Wednesday.

By The Associated Press

Tornado warnings covered a wide section of Texas Tuesday.

A massive storm center pushed down from the Rockies, threatening the Panhandle with its second spring blizzard in 10 days.

The Weather Bureau said the storm was expected to reach the upper Panhandle late Tuesday. Up to six inches of snow piled up in southern Colorado early Tuesday as the storm enveloped much of the same sections stricken 10 days ago.

Stockmen in the Oklahoma Panhandle were warned of heavy snows. The snow warning extended into New Mexico.

A thundershower soaked Amarillo early Tuesday and light rain fell at Galveston and Houston.

The Weather Bureau said thunderstorms were forming in the Panhandle and were expected to develop southward into West Texas during the day and spread eastward. A squall line was expected to bring widely scattered but severe thunderstorm activity through southwestern Oklahoma and western and central Texas.

The tornado warning was for an area from 150 miles west-southwest of Junction to 60 miles east of Junction to Fort Worth to 70 miles west-northwest of Abilene and back to the original point. It extended for the period to 2 p.m. Tuesday.

A severe thunderstorm forecast was issued for portions of West and Central Texas.

The Weather Bureau said the storm center had all the aspects of the costly blizzard that struck 10 days ago. That storm paralyzed the Panhandle region for three days, killing thousands of cattle and 10 persons.

New 'Summer' Water Rates Are Set Here

New water rates will go into effect May 1 following second reading by the city council last night of a "summer rate" water ordinance.

No change will be made for the first 12,000 gallons of water used, but the price per 1,000 gallons will be reduced from 35 cents to 22 cents for all used above the 12,000 per month.

"We hope that this reduction for the months of May, June, July and August will help promote beautification of Snyder through enabling residents to water their lawns and shrubs more this summer," Harold Bennett, mayor, said.

Water will still cost $3 for the first 3,000 gallons, and 35 cents per 1,000 for the next 9,000 gallons, because obligations of the city to the Colorado River Municipal Water District must be met before reductions are made.

"The 22 cents per 1,000 gallons over the 12,000 gallon mark is just about what it costs the city to produce the water," Bennett said.

Contract for construction of a 42-inch in diameter storm sewer from Avenue I at the Twenty-second Street intersection west to Dry Run Creek was awarded on low bid to the R. B. Hodgson Co., of Lubbock.

Hodgson's bid was for a total of $36,505.15.

Three other bids submitted were: Panhandle Construction Co., Lubbock, $38,628.50; Norris Hanley & Norris, Abilene, $49,320; and Clyde Yarbough, Odessa, $38,746.57.

Hodgson's bid stipulated beginning of the contract April 15, with completion in 45 calendar working days.

The storm sewer should greatly alleviate the drainage problem in the east central part of town, Doyle Henricks, city engineer, said.

It will divert water which now comes through town in a shallow creek bed to the sewer.

The bid of Lamb Chevrolet was accepted by the city council on purchase of two new Chevrolet police patrol cars. Lamb submitted the lower of two bids. Lamb's bid was for a total of $1,090 difference between the two new 6-cylinder Chevrolets and two 1956 model Ford's now in use. The other bid submitted was by Snyder Sales Co. on two Fords for a total difference of $1,560.

A resolution was passed by the council which will institute parallel parking on Avenue R from Twenty-fourth Street to Twenty-fifth Street and on Twenty-sixth Street from Avenue S to west of the city hall.

The second Highlands Addition was annexed by the city on second reading of an anexation ordinance which had been requested by petition. The petition was by Scott & Browning Development Co.

The addition is between the present city limits and Towle Memorial Park in south Snyder. It is to be a residential development.

Another annexation was made on first reading of an ordinance to annex by petition an industrial concern on Twenty-fifth Street just west of the present city limits. Such request for annexation is unusual.

The J. P. (Bum) Gibbons Co., and oil field servicing concern, requested annexation so that it could be served with city water and sewer.

A used 100,000-gallon over-head water storage tank was purchased by the council for $17,950, and will be placed southwest of the Snyder to provide ample water reserve storage for the rapidly growing Southwest part of town, and to assure water pressure in the area at all times.

Although a need for a much larger tank can be foreseen, it was explained that the tank purchased last night will be ample for several years. New purchase price of such a tank was estimated by Roy Dunlap, city manager, at $36,000.

Two Alleys Abandoned In Snyder

Two alleys in north Snyder were abandoned by the city council in actions requested last night by James Rosser, attorney for several clients involved.

One of the alleys runs north and south through block 25 of Scarbrough addition. The entire block is owned by Harry Reed, of Southern Electric Co. It is fenced in and is not being used as an alley.

Rosser asid Reed plans construction of a building which would extend across the alley.

Another unused alleyway was abandoned on a similar request, and on the condition that petition signed by all adjacent property owners is brought in to the council before second reading of the abandonment ordinance.

The alley involved is near Thirteenth-street and Avenue S in block 33 of the Scarbrough addition.

Witnesses Slated In Dallas Inquiry

DALLAS (AP)—A special grand jury will hear the first witnesses tomorrow in its probe into the financial downfall of Dallas insurance companies.

Dist. Judge Henry King impaneled the jury yesterday and instructed it to take a "hard look" into events leading to the financial difficulties by the insurance firms.

Dist. Atty. Henry Wade asked the jury to investigate operations of the ICT Insurance Co., Physicians Life Insurance Co. of America, and a number of other firms he did not identify.

Option Is Granted On TV Plan Here

An option to request franchise for a home movie-television set up was granted by the city council last night to two local business men.

N. R. Clements, operator of Snyder Theaters, and J. T. Hughes, owner of radio station KSNY, were given the two-year option.

The option did not include granting of a franchise for the operation, but will give the Snyder men first chance at such a franchise if investigation indicates such a setup could operate successfully here.

As explained by Hughes, the home movie-television setup would operate like this.

Movies and television programs would be transmitted from a central studio here by lines to homes and played in the homes through television receiver sets.

"It would give patrons the choice of several good television stations to watch, or a movie if they preferred," he said.

Foundation Drive Is Discussed Here

Snyder Chamber of Commerce directors discussed plans for the industrial foundation drive at their regular meeting Monday night in the chamber office.

Kickoff for the drive has been scheduled for April 25, and in this connection the chamber board voted to request the mayor to proclaim the week beginning April 21 as "Industrial Week" in Snyder. Such a proclamation and any activities which might develop through it would help focus attention on the industrial foundation program, they suggested.

Detailed plans for the kickoff event will be mapped Thurs. afternoon at a meeting of the Chamber of Commerce Industrial Committee and representatives of the Junior Chamber of Commerce, who plan to assist in the drive.

W. A. Pounds, president of the Tyler Bank and Trust Co., will be principal speaker at the kickoff. Pounds has been actively associated with the Tyler Industrial Foundation, which is one of the oldest organizations of its type in the Southwest.

In other business Monday night, chamber directors heard a report on the organization's annual audit, and discussed plans for a farmer-businessmen's dinner at Fluvanna on April 11. Bill Jordan is in charge of the agriculture committee's arrangements for the dinner.

The Fluvanna dinner will be the second in a new series of activities of that type. The first in the series was held last fall at Hermleigh.

British Strike Is Called Off

LONDON (AP)—Union bosses today called off costly strikes in Britain's shipbuilding yards and factories pending the outcome of a government inquiry into their pay demands.

The strikers — 1½ million in the factories and 200,000 in the shipyards—were ordered to go go back to work on Thursday.

The Confederation of Shipbuilding and Engineering Unions made up of 40 unions which has been running the strikes decided to call them off after a recommendation by its executive.

The decision was taken as the walkouts threatened to cripple Britain's automobile production and factories producing 40 per cent of the nation's exports.

Girl Is Named After Town Of Pocahontas

POCAHONTAS, Ark. (AP)—A Texas couple who say they are full blooded Cherokees, were parents today of a 6 pound 11 ounce girl named after their former Cherokee Indian Territory town, Pocahontas.

Mr. and Mrs. Tom Davis of 4081 Port Arthur Road, Beaumont, interrupted their house trailer trip through the northeast Arkansas region for the birth of their fourth child.

Brownwood Escapees Captured Yesterday

BROWNWOOD (AP)—Two boys broke out of the Brownwood jail yesterday but were captured a short time later in a stolen car at Brady.

Willie Bastillo, 16, of Midland and Wilbert Campbell, 15, of Waco were captured at Brownwood after escaping from the Gatesville School for Boys Sunday. They were returned to the Brownwood jail from Brady after their second break.

Will Head Roundup

AUSTIN (AP)—Bill Daniel of Liberty will head the University of Texas Roundup's rodeo and parade this week-end. He is a brother to Gov. Price Daniel.

TORTURE STORY TOLD

Teen-Age Slaying Probed

OMAHA (AP)—The mutilated body of a teen-ager clad in a T-shirt and blue jeans was dumped on a country road near Omaha early today. One hand had been severed by burns.

Chief Deputy Sheriff Jack Knudtson said the youth may have been the victim of a teen-age revenge killing or he may have been electrocuted.

A physician reported the youth, Donald Marfisi, 17, of Omaha, had died of physical—not electrical—shock.

Officers' first reaction was that Marfisi had been tortued with an acetylene torch.

Later Knudson reported they were considering the possibility that the youth had been climbing a power pole and had become entangled with "hot" wires.

There was a burn under the arm pit. The feet were also charred. But the shoes, which were still on the body, were less badly burned.

Detective Inspector Ernest Brown said Marfisi had been questioned in connection with Omaha burglaries. The youth had only a minor police record, however.

The body was found about 10 miles west of Omaha near a hospital annex. The severed hand was with the body.

Sheriff's officers said the body had been dumped on the spot where it had been found. An on-the-spot search produced no clues.

Marfisi's weeping mother told them her son "had no enemies." His seven brothers and sisters, among them a twin brother Ronald, reported their brother had been in good spirits.

Donald's girl friend told officers of a telephone conversation with the youth about 10:30 last night in which they talked of records and dates.

Marfisi had quit school about a year ago. He had been working off and on for a junk buyer, and was to have gone to work at 6 a.m. today.

11 Crewmen Killed In Airplane Crash

CHINCOTEAGUE, Va. (AP) — A Navy Neptune bomber "exploded in a great ball of fire" shortly after takeoff today and carried its 11 crewmen to death in a flaming crash on Virginia's Eastern Shore.

The twin-engine long-range aircraft ran into trouble a minute after it left the strip at the Chincoteague Naval Air Station. There was a sputtering noise, a witness reported, when the plane was only a couple of hundred feet in the air then a window-rattling blast and the plunge to earth in a big plume of smoke.

It slammed into a plowed field on the farm of Dennis Hurley, two miles south of the air station near the Maryland line.

The Navy said the propeller driven aircraft had taken off for Cherry Point, N.C.

The 11 occupants had no opportunity to jump at such a low altitude. All apparently were buried in the burning fuselage in the 10-foot hole it made in the sandy soil.

Identification was withheld pending notification of kin.

A Navy spokesman said the Neptune long-range bomber crashed in an open field near Atlantic, Va., on the Eastern Shore just south of the Maryland line.

The spokesman said personnel at the base reported hearing an explosion and seeing a ball of fire a minute after the bomber was airborne.

The land-based plane was stationed at Chincoteague.

Solution To Problems

DALLAS (AP)—The United States can find solutions to world problems if it looks to God for guidence, Gov. Raymond Gary of Oklahoma last night told delegates to the 28th Texas Baptist Sunday School convention.

WEATHER

SNYDER TEMPERATURES: High Monday, 85 degrees; low Monday night, 44 degrees; reading at 7:30 a.m. today, 61 degrees.

West Texas—Rain and scattered thunderstorms in Panhandle and widely scattered showers and thunderstorms elsewhere through Wednesday. Rain changing to snow in upper Panhandle late tonight or Wednesday. Colder in Panhandle, upper South Plains and west of the Pecos Valley tonight and Wednesday. Cooler elsewhere Wednesday. Lowest 30-40 in Panhandle and upper South Plains tonight.

NEW HIGHWAY PATROLMAN—Beginning duties this week here with the highway patrol unit of the Texas Department of Public Safety is Jim Kinser, 29, transferred here from Fort Worth. Kinser, a member of the patrol for three and one-half years, succeeded Frank Bean, who resigned from the highway patrol to become assistant manager at the county airport here. (Lee Watson photograph)

REGISTRATION IS HIGH

Auto registrations in Scurry County by the registration deadline exceeded last year's figures at the same time by about 650 vehicles.

Geral G. Greene, county tax assessor-collector, said the total of 9,784 vehicles registered by the deadline is about the highest in the history of the county with exception of 1951, when registration exceeded 10,000.

The tax assessor said any vehicles not registered for 1957 now and driven before they are registered are subject to penalty of 20 per cent of the registration fee.

The registration figures include 6,759 passenger cars, 1,660 trucks, 712 farm trucks, 504 trailers, 18 housetrailers, 105 truck-tractors, 55 motor-scooters, three farm truck-tractors, and 32 dealers.

Suez Settlement Studied By U. S.

WASHINGTON (AP)—Secretary of State Dulles said today he should know in the next 24 to 48 hours whether there is any serious prospect for a satisfactory settlement with Egypt on the operation of the Suez Canal.

Dulles told a news conference he thinks the nations which use the canal should have a much greater voice in its operation than is provided in proposals made by Egypt last week.

He also is seeking in counter proposals to Cairo to get Egypt committed firmly on any Suez Canal plan it may agree to.

The U.S. reply to Egypt's proposals went to Cairo Sunday.

Dulles made clear that as of today he does not know whether the Egyptian [illegible] any of the changes he suggested or whether there is any chance of successful negotiations with Egypt.

Dulles also told his news conference:

1. The United States fully supports Israel's right to send ships through the Suez Canal and also to move them through the Gulf of Aqaba. He said he had no official word that Israel might be planning to send a test ship into the Suez.

2. The United States has never made any commitment, explicit or implied that it would defend the Nationalist Chinese Islands of Quemoy and Matsu beyond the commitment approved by Congress, two years ago. A Formosa defense resolution provided those islands could be defended if their defense was related to the defense of Formosa itself.

This subject came up because a new biography of Dulles says that President Eisenhower personally assured Generalissimo Chiang Kai-shek that the United States would fight if necessary to keep Quemoy and Matsu out of Red China's hands.

Dulles said he would not discuss Eisenhower's extensive personal correspondence but that he was quite sure there was no U.S. commitment regarding Quemoy and Matsu beyond that in the congressional resolution.

3. It is not true that the United States canceled its offer to help Egypt build the Aswam Dam in order to force a show down with the Soviet Union in the Middle East. The action was taken, for a number of reasons, Dulles said, the first being that the House Appropriations Committee had forbidden use of foreign aid funds for the dam.

Be Ready For Sun Time

1493
9-18

DESIGNED to suit your playtime plans—junior sun togs to mix and match at will. Blouse and halter, shorts or pedal pushers.

No. 1493 is in sizes 9, 11, 12, 13, 14, 16, 18. Size 11, (29 bust), blouse, 1⅝ yards of 35-inch; halter, 1 yard; shorts, 1¼ yards; pedal pushers, 2¼ yards.

Send 35c in coins for this pattern to IRIS LANE, (care of Snyder Daily News), Box 438, Midtown Station, New York 18, N. Y.

BIRTHS

A daughter was born at Battenfield-Jones Hospital at 3:41 p.m. yesterday to Mr. and Mrs. D. L. Hammit, route 3. The child weighed eight pounds, two and one-half ounces.

Mr. and Mrs. D. P. Tillery, Airview Courts, are parents of an eight-pound, one-ounce daughter, born at 7:27 p.m. yesterday at Cogdell Memorial Hospital.

Officials Announce Purchase Of Stock

CORPUS CHRISTI (AP)—La Gloria Oil and Gas Co. yesterday announced it has purchased all stock of McMurrey Refining Co. and McMurrey Pipe Line Co. of Tyler.

La Gloria President John F. Lynch said McMurrey's Tyle plant has a crude capacity of about 22,500 barrels per day. La Gloria is primarily a producer and natural gas processor with crude and natural gas liquid production totaling about 17,000 barrels per day.

Lynch said the McMurrey organization will remain intact and no personal changes were planned.

Terms of the stock purchase were not disclosed.

Confederate Veteran Is In Good Condition

PENSACOLA, Fla. (AP) — Postoperative pain is troubling a 109-year-old Confederate veteran, but attendants call his condition "very good" for his age.

William A. Lundy was pronounced as recovering well yesterday from a two-hour gall bladder operation he underwent surgery March 4 for an infection of the prostate gland.

A nurse said Lundy wasn't feeling so well yesterday as he was Sunday but said his condition was "very good considering his advanced age."

Hermleigh Man Faces Felony Charge Here

A felony charge of driving while intoxicated has been filed here against Lewis R. Watts of Hermleigh.

Watts was arrested by the sheriff's department Sunday. His bond was set at $750.

Falling Birth Rate

OSAKA, Japan, April 2 (AP) — Japan's falling birth rate is emptying kindergarten rooms throughout the country. Enrollment of school beginners is only half of what it was 10 years ago.

Decision On Publicity Fund For Dave Beck Is Uncertain

WASHINGTON (AP) — If Dave Beck, beleaguered Teamsters Union president, got the million-dollar publicity fund he wanted to tell his own story in the union's money scandals, he wasn't advertising the fact today.

There were conflicting reports that the Teamsters Executive Board, meeting secretly here yesterday, had given Beck an okay and had turned down his proposal to spend union money to tell "my story."

Beck maintains he's innocent of Senate Rackets Committee charges he misappropriated at least $320,000 union funds. He invoked the Fifth Amendment before the committee in refusing to answer questions, but has told reporters that while he "borrowed" the money he paid it all back.

One source said what actually happened at yesterday's board meeting was that Beck was turned down on his plan for a one-million-dollar publicity program in his behalf.

Only Beck and his chief administrative assistant, Vice President Einar Mohn, were reported to have voted affirmatively on the 13-man board.

But this same source said the board did authorize an amount—he said it was some $150,000 or $200,000—for a one-year advertising program, not publicity, for the Teamsters Union itself. This was described as "limited strictly to telling the Teamsters' story," not Beck's.

Beck's office quoted him as saying this morning: "I have no statement to issue at this time."

The Washington Post and Times Herald reported a turn-down of Beck's million-dollar publicity plan. The Wall Street Journal, on the other hand, said in a story based on an interview with James R. Hoffa, a union vice president, "it was apparent" Beck got board backing for the million-dollar fund.

If the 62-year-old Beck was turned down on his proposition, it was a terrific blow to his political grip within the Teamsters Union. It would tend to cast doubt on the eventual outcome of his announced intent to run for another five-year term as Teamsters president at the union's convention in Miami Beach next September.

Chairman McClellan (D-Ark) of the Senate Rackets Investigating Committee which has accused Beck of irregularities said his group has found "nothing to indicate any impropriety" by Walter Reuther and three other union officials in dealing with Nathan Shefferman.

Shefferman, a Chicago specialist on labor-management relations, was pictured in committee testimony as having bought at a discount $85,000 worth of expensive clothing and other items for Beck. Shefferman said he did not know until later that the money came from union funds.

Truck Lines Taken Over

WASHINGTON (AP)—The Interstate Commerce Commission yesterday granted authority to T.I.M.E., Inc., Lubbock, Tex., trucking firm, to acquire and absorb Southeastern Truck Lines, Inc., Nashville, Tenn.

The Lubbock concern will acquire Southeastern by payment of $200,000 in cash and delivery of 125,000 shares of its common stock to stockholders of the Nashville firm. The Stock Exchange will make the Southeastern stockholders one-third owners of the Lubbock line.

T.I.M.E. operates between Los Angeles and Memphis, Tenn. At Memphis it connects with Southeastern's routes in Tennessee, Missouri, Indiana, Ohio and Georgia.

Dog Is Sold After All Sheep Are Gone

BILLINGS, Mont. (AP) — After Robert Gibson of Jordan saw his 700 ewes sold, he told the auctioneer: "I've sold all my sheep, so I might as well sell the dog."

That's why the livestock market quotations out of Billings Friday carried this line: "One trained sheep dog, 1½ years old, sold at $25 per head."

Employment Picture For Texas Is Bright

AUSTIN (AP)—Some 14,000 additional jobs will be available in Texas this month, the Texas Employment Commission predicted yesterday.

February employment reached 2,954,300. Unemployment was at 181,900, an increase of 12,800 over 1956.

Resources Playing Out

TOKYO, April 2 (AP) — Known mineral resources in Japan will be exhausted in about 10 years, a survey by the International Trade and Industry Ministry shows.

Members Of Cub Pack Play Indian

Cub Pack No. 3 played "Indians" in its meeting last Friday at the Union Methodist Church.

Members of the pack, each dressed like Indians with war paint and all, performed an Indian ceremony before a camp fire.

Troy Bentley, cub master, was in charge of the meeting.

Awards were made to the following:

Bobcat badge—Jake Galloway.

Wolfe badge — Jimmy Lynn Thompson.

Denver stripe — Joe Bill Worthington.

Others present at the meeting were Eddie Harrel, Ronnie Mebane, Brent Lindsey and David Bentley.

PAINTING a scene of Twenty-fifth Street here during an art class is Mrs. E. F. Barton, 1918 Coleman, who during the weekend won an art show at Midland in a field of about 100 canvases with a painting of her husband's drilling rig. (Lee Watson photograph)

Snyder Woman Wins First At Oil Industry Art Exhibition

"If I can do it, anyone can do it."

Those were the words of Mrs. Mayme Barton, 1918 Coleman, after winning the Midland Airpark Art Show during the weekend.

Mrs. Barton, a member of the Snyder Palette Club and an amateur artist, was presented a $100 award Sunday, when the show was opened officially to the public for a week's run.

The painting, "Drilling in Red Earth Country," by Mrs. Barton won the event in a field of about 100 canvases devoted exclusively to the oil industry.

Mrs. Bismarck Shafer and Mrs. Bunt Jones, both of Big Spring took second and third in the exhibit. Mrs. Shafer showed "Laying the Pipe" and Mrs. Jones "Roughnecking."

Mrs. Clarice Worley of Toronto, Canada, daughter of Mr. and Mrs. W. A. McGlaun of Snyder, took fifth place in the exhibit.

Attending the exhibit Sunday from Snyder were Mr. and Mrs. Barton, Mr. and Mrs. Elmer Etgen and Martha, Mrs. Verba Logan, and Mr. and Mrs. McGlaun.

Mrs. Barton, presently a student of Rene Mazza, internationally-known painter who is conducting classes in Snyder, has been taking art lessons only about one and one-half years. She has had a total of about 40 lessons, the first 18 of which were by Dord Fitz, who has an art gallary in Amarillo, who was teaching a class while the Bartons lived at Perryton.

The winning painting by Mrs. Barton was that of her husband's rig, Empire Rig No. 8, which was at the time drilling about 25 miles east of here near Rotan on the Nettleton lease. Her husband, E. F. Barton, is toolpusher on the rig.

Mrs. Barton did most of the painting at the rig, putting the finishing touches on the canvas at home.

Mrs. Barton is in familiar surroundings near an oil rig, since her husband has been a toolpusher about 15 years. Their permanent home is at Wichita Falls. They lived in Snyder since last July.

This was Mrs. Barton's first contest, and the painting which won was the sixth she had done since taking up art. Her only exhibit experience was at a class exhibit at Perryton.

WOMEN

Broadway Reports Shortage Of Fresh Young Actresses

By DOROTHY ROE

Note to stagestruck girls: For almost the first time within memory Broadway reports a shortage of fresh young actresses.

"It's a funny thing," says Jane Deacy, actors' agent, "but it's almost impossible to find a pretty young ingenue around New York. I guess girls in the Broadway vicinity get too sophisticated too young, or else they just aren't flocking to the Great White Way from the hinterlands any more."

Jane, a smiling brunette with a businessman husband and a 14-year-old son, currently spends most of her time casting the TV shows West Point and Men of Annapolis. Both have unusual problems.

"The actors in the shows have to look like cadets," says Jane. "And the actresses have to look like the kind of girls a cadet would invite up to the academy for a weekend or a dance. We have no trouble getting extras for the 'drag' scenes — girls' colleges near both Annapolis and West Point take care of that. But to get an actress with enough experience to carry a main part, who looks young and unsophisticated enough for a cadet's girl friend, is a tough problem."

The shows are filmed about half-and-half in Hollywood and at the academies.

At either West Point or Annapolis, an actor must abide by cadet rules.

Adults Need Pint Of Milk Per Day

Do you drink at least a pint of milk a day?

Adults should, according to nutritionists who recommend highly the mid-morning and afternoon "milk break." Idea is a simple, refreshing way to get the nutrients you need, say these experts.

FOR GOOD EATING

BREAD PUDDINGS

Rhubarb Bread Pudding

3 cups ½-inch soft bread cubes
1 quart diced rhubarb
¾ cup sugar
¼ cup chopped nuts
¼ cup melted better or margarine
½ teaspoon nutmeg
½ teaspoon cinnamon

Combine by tossing together lightly with 2 forks, soft bread cubes, rhubarb, sugar, nuts, better, nutmeg and cinnamon. Bake in a covered greased 1½ quart casserole in a moderate oven (370 degrees F.) for 40 minutes. Serve either hot or cold, with cream or whipped cream.

Yield: 8 servings

Apricot Macaroon Pudding

1 package vanilla pudding
1½ cups milk
½ cup apricot nectar
¾ cup coarse dry bread crumbs
12 canned apricot halves, quartered
½ teaspoon almond extract
¾ cup toasted coconut

Combine vanilla pudding, milk and apricot nectar in a saucepan. Place over medium heat and bring to a boil, stirring constantly. Cool slightly. Add dry bread crumbs, quartered apricots, almond extract, and ½ cup of the toasted coconut to cooked pudding; mix well. Place ½ cup pudding mixture into each of 6 custard cups. Sprinkle remaining ¼ cup toasted coconut over tops of pudding.

Yield: 6 servings

MISS BUCHANAN WED

Miss Ruby Buchanan became the bride of D. W. Johnson in a wedding ceremony at 1 o'clock Friday night in Colorado City.

The wedding was held in the home of the bride's sister and brother-in-law, Mr. and Mrs. Jessie Wiggins, in Colorado City.

The Rev. R. C. Hester of Colorado City performed the single ring service. The bride is the daughter of Mr. and Mrs. Carl Buchanan, Hermleigh. He is the son of Mr. and Mrs. E. M. Johnson, Snyder.

Those attending the wedding were the bride's parents, the groom's mother, Mrs. E. D. Johnson and children of Snyder, Joyce Buchanan and Mr. and Mrs. Jessie Wiggins and son, Ronnie Wiggins.

The newly married couple will live at 801 Twenty-third Street here.

Two-To-Get-Ready!

Here's a simple-to-sew-and-trim beach set that will be a compliment catcher. No. 199 contains tissue and color transfer.

Send 25 cents in coins for this pattern to MARTHA MADISON, care of Snyder Daily News, Box 438, Midtown Station, New York 18, N.Y.

Twin Sister Night Held

Members of the WMS of the Colonial Hill Baptist Church took guests last night at thier "twin sister night" meeting, which was their regular monthly Royal Service meeting.

The evening began with a special program, "This Is Your Life," in which facts and highlights were read on the life of unsuspecting Mrs. B. J. Weaver, who was presented with a plaque inscribed in gold, a white mum corsage, and an orchid bonnet. A song, with new words fit to the tune of "Easter Parade," was sung to the honored lady.

The Carey Circle had the main program, which was on the Carver School of Missions.

Refreshments were served in fellowship hall to the 55 women attending.

SENSATIONAL NEW ELECTRONIC INVENTION

DEAF HEAR WITH BOTH EARS

FREE HEARING CONSULTATION

Now, at last, you may hear with BOTH EARS as nature intended. This means full dimensional hearing. Much more natural and easier to understand. Complete new hearing aid and receiver hidden inside temples of streamlined glasses.

Come in and let Mr. Bailey demonstrate the New Beltone Hear-N-See Glasses at the Manhatten Hotel on Wednesday, April 3, from 1 to 2:30 p.m.

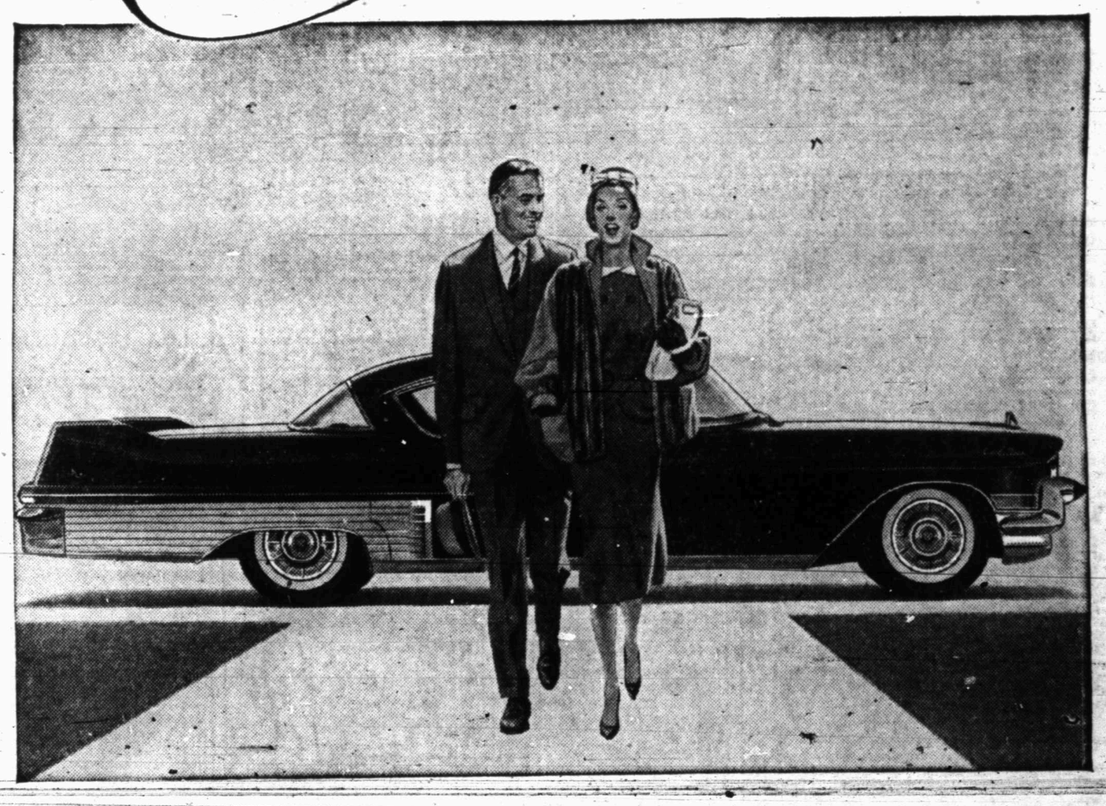
Cadillac



Old Friends in a New Light!

Let's assume you've known them for some time.

And now—in the moment of a glance—you first behold them in the company of a Cadillac car.

There's just no question about it . . . something wonderful happens!

For the presence of a Cadillac car underscores—and most dramatically so—many of the things that enable you to think well of them.

It goes almost without saying that their Cadillac lends form and substance to whatever measure of achievement life may have brought them.

Certainly, it reveals their interest in the safety and well-being of their fellow passengers.

And, most assuredly, it evidences the wisdom with which they select their personal possessions.

Incidentally, you may have noticed, of late that the Cadillac car has cast its revealing light on an ever-growing number of your own friends.

There is every reason why this should be so.

Its original cost is remarkably modest—and several models are, in fact, priced competitively with those of lesser makes.

Its operating economy is extraordinary—with a record of dependability and longevity that is without equal in the industry.

And *its resale value* stands at the very summit in used-car markets all across the land.

Certainly, this triumvirate of Cadillac economies deserves your personal investigation—and your dealer will be delighted to tell you the whole wonderful story at any time.

Stop in soon—for a *ride* and a *revelation!*

TIGER NETTERS—Tiger tennis coach J. P. Ward is pictured instructing his charges on the proper way to hold a racquet as he readies the Bengal netmen for the District 3-AAA meet here Saturday. The Tigers, in three dual matches to date, have won three and lost two. The Tiger netters, from left to right, are: Coach Ward, Rockney Pletcher, Danny Tankersley, Bobby Taylor, Jimmy Crowder and Ronnie Smith. Not pictured is Tim Williamson. (Lee Watson photograph)

Tigers, Midland Clash Here; Allen Top Hitter

The Tiger baseballers will be out to level off their season's record against Class 4A opposition when they host the Midland Bulldogs today at Towle Memorial Park.

The Tigers, in nine games against the top schoolboy division teams, have won four and dropped five.

Coach Speedy Moffett's Tigers, too, will be gunning to square their series with Midland. The Bulldogs took a 4-3 thriller from the Tigers at Midland last week in the first game of the year between the two clubs. Today's game is ticketed for 4:15.

Ronnie Baker, with a 2-1 record, was the probable Tigers hurler in today's game. Baker is operating on a 0.95 earned-run-average in 21 2-3 innings of action.

Baker, in his last outing, notched his first no-hitter of his high school career when he blanked Tom S. Lubbock without a bingle last Friday.

Baker has wiffed 26 and walked 11 this season.

Outfielder Jimmy Allen has taken over the Tiger batting lead with a .500 mark, getting 8 hits in 16 trips.

Second baseman Joe Reaves, however, leads the Tigers in three departments, runs, hits and runs batted-in. Reaves has scored 10 times, has banged 13 hits and has driven in 8 runs.

Reaves' 13 safeties have come on 40 plate appearacnes, giving him a .325 average.

Only one other Tiger regular is hitting above .300. Centerfielder Gary Vice has collected 12-for-36 for a .333 average.

As a team, the Tigers are hitting at a .265 clip, 80 hits in 302 at bats.

Percentagewise, freshman Norman Gladson has the best pitching mark with a 1-0 record. Baker and Tim Roberts lead in most wins, each with two.

Baker's 26 strikeouts is tops in the Tiger ranks.

Following are the Tiger batting and pitching averages to date:

CITES JOE LOUIS CASE

Ted In Another Blast At 'Uncle'

By JOE REICHLER

SARASOTA, Fla. (AP)—Ted Williams of the Boston Red Sox followed up his blast at the Marine Corps, the late Sen. Robert A. Taft and "all those other phony politicans" today with a slap at the U.S. government for its treatment of Joe Louis, former heavyweight champion.

"Here's a guy who has been a credit to his race and his country and look at the treatment he's getting," he said. "I think it's a shame the way he's being hounded for the payment of his back income taxes.

"He'll never be able to pay all that money he owes the government. He's stuck for life. The interest keeps climbing every day and there isn't a damn thing he can do about it.

"Why doesn't the government make some sort of a settlement with him? Or better yet wipe out the entire debt. If some big-shot phony politician was in the same predicament, they'd allow him to settle it by paying two cents on the dollar."

Willians' criticism came less than 24 hours after he had been quoted by Crozet Duplantir, executive sports editor of the New Orleans States, as blasting the Marine Corps, the late Sen. Taft of Ohio, former President Harry S. Truman and the entire U.S. government.

The controversial star reaffirmed he had told the New Orleans newsman he had no use for the Marine Corps, and that he had referred to Sen. Taft as a "phony politician."

He denied criticizing Mr. Truman and the government.

"Sure I said I had no use for the Marine Corps," the 38-year-old former Marine captain said. "I felt that way when they called me back into the service for the second time in 1952 and that's the way I feel now. I resented the way they singled me out because I was in the public eye. I'd have had no squawk if they had called back every reserve officer in the same category.

"I'll tell you why they called a lot of us back. They wanted an appropriation of $450,000 from the government for airplanes and they needed pilots to fly them. So they recalled 1,100 pilots who hadn't flown planes for 11 years.

"As for Taft, I used to think he was a wonderful man. . . . But I found out he was no different than the other phony politicans.

"A friend of mine, without my knowledge, went to see him about getting my release. Taft told him if it were anybody else he would help him, but he couldn't touch me. I was too big. I never asked for any special treatment, but that's a heck of a way to operate."

Recheck Shows Tech Won Freshman Meet

AUSTIN (AP)—A recheck of results yesterday gave Texas Tech a victory in a quadrangular freshman track and field meet held here Saturday. Tech and Texas had tied 52-52 in the results announced Saturday.

A rundown showed Tech was credited with four points instead of five in the 880-yard run and a half-point deduction against Texas was omitted after the clerk of the course had declared a second and third place tie in the 100-yard dash.

The corrected results gave Tech 53 points, Texas 51, Victoria Junior College 40½ and Baylor 19.

How To Hold
FALSE TEETH
More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

SPORTS

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

ONE SHORT STRIDE was the difference of first and third place for the Tiger tracksters in Saturday's Bluebonnet Relays at Brownwood.

Sprinter Bobby Pollard was nosed out by a stride in the 220-yard dash finals by John Dale Lewis of Coleman. Had it been turned around, the Tigers would have scored two more points which would have been enough to hand the meet title to the Tigers.

The Bengals wound up in third place only 1½ points behind the champion, Brownwood. In between, Coleman finished one-half point ahead of the Tigers for second place honors, the point totals for the three teams being 26, 25 and 24½.

We don't recall when we've ever seen three teams so closely bunched as Brownwood, Coleman and Snyder were Saturday.

Tiger Thinlies In Best Showing

Despite their third place finish, the Tigers perhaps made one of their best showings of the season. Although they've finished in the top three in two other meets, second in the Canyon Reef Relays and third in the ABC Relays, the Tigers came closest to a meet championship Saturday.

The times of the Tigers in the low hurdles and the 220-yard dash weren't as good, on paper at least, as they have been in past meets. But actually a 20.9 seconds in the lows and a 22.9 in the 220 run on curves compare about the same as their past performances, we imagine.

Bud Morgan and Rex Wilson in the lows and Pollard in the 220 were all slowed a little better than a second by the curves.

In the three meets prior to the Bluebonnet Relays, Morgan had turned in two 19.6's and one 19.3. He won at Brownwood in 20.9, which, as you can see, is better than one second over his previous times.

Pollard, in the first three meets the Tigers competed in this season, had reeled off two 21.6's and a 21.7, considerably under his 22.9 at Brownwood.

We have pointed these times out in case you may have become concerned over some of the times by the Bengals Saturday as compared to previous performances.

Wilson Approaching Greatness

The performances of Rex Wilson at Brownwood put a little more "teeth" in the Tiger hopes to win Saturday's district meet here. Wilson reeled off a 14.8 race to win the high hurdles and finished a close second to Morgan in the lows. In addition, Rex tied for fourth in the pole vault with a 10-6 leap.

With Wilson around, the Tigers pack a terrific 1-2 punch in both hurdles, with Powell Berry in the highs and Morgan in the lows.

If Wilson can vault 10-6 in the district meet here Saturday as he did at Brownwood, it will probably be good for first place since pole vaulters are pretty scarce around the 3-AAA circuit.

Wilson has put in a lot of hours at conditioning himself for the current cinder season and it's good to see him coming through here at district meet time.

Berry proved Saturday that he is back in stride again after recuperating from injuries.

If a "hard luck" title had been awarded at the Brownwood meet, Colorado City's Jim Windham probably would have won it hands down.

Windham, who will be an odds-on-favorite to win both weight events in the district meet here Saturday, placed second at Brownwood in each event but by the thinnest of mragins.

In the discus, Windham was nosed out by one-half inch for first place while he was three-fourths of an inch shy at winning the shot put.

Buddy Bailey of Stephenville won the discus with a toss of 144 feet 8 inches to Windham's 144-7½ inches. In the shot, Raeford McIlhaney of McCamey won with a heave of 54 feet 1 inch to Windham's 54 feet ½ inch.

Texas, SMU 'Sign' Stars

By The Associated Press

Texas and Southern Methodist were doing best in signing schoolboy athletes according to returns from the letter of intent front.

But some of the Southwest Conference schools weren't yet ready to announce who they had obtained as the letter of intent period opened and just who will come off best can't be decided until they do.

Texas was quite active in the first day, announcing it had obtained eight linemen and one halfback. They were centers Bill Laughlin of Baytown, Jim Rose of Abilene and Bob Goodwin of Houston Milby; guards Bill Weaver of Garland and Wayne Harris of La Vega; tackles Tillman O'Brien of Baytown and Johnny Bronson of Midland, and end Armour McManus of Baytown.

Southern Methodist signed Steve Strange, Dallas Highland Park basketball star, and got these footballers on the dotted line: John Rumley, Dallas Highland Park, tackle; Max Christian, Corpus Christi Ray, center, and John Clusing, Corpus Christi Miller, end.

New Paring Rule Could Cut Stealing

By JERRY LISKA

MESA, Ariz., (AP) — The new major league rule forcing teams to cut down to 28 players by April 15 may keep well-stocked clubs, like the Yankees and Dodgers, from "stealing" four or five games in the opening month of regular play.

That's the opinion of new Manager Bob Scheffing of the last-place Chicago Cubs, who feels that "the trouble with baseball today is that the majors control too many players."

The former manager of the Los Angeles Angels, 1956 Pacific Coast League champions, thinks the enforced paring of squads by the opening of the big league season gives a slight lift to the poor relation clubs in the majors.

"You take a team like the Yankees or Dodgers, with more good players than they know what to do with — they'll have to lop off a number of men almost good enough to make the grade," Scheffing said today.

"That means they can't sneak these men in the first month and get winning performances out of them because opposing pitchers don't know how to pitch to them or the defenses how to play them.

"And while a strong club is using such almost-good-enough players, it can rest its proven talent for later on. Teams like the Yankees and Dodgers were able to steal four or five games with their fat benches during the first month in past seasons."

Most clubs formerly carried between 30 and 35 players before the erstwhile May 15 date for trimming to 25.

"This new 28-player rule will help the minors right down the line," said Scheffing. "It enables farm clubs and affiliates of major league clubs to make definite plans a month earlier than usual. From a publicity or promotional viewpoint, this is invaluable."

Asked if the April 15 cutdown to 28 players might inspire some spring trades, Scheffing said, "We're shopping, but we're not buying, because everybody else is shopping too."

The Cubs several times were on the verge of a deal for an outfielder and a left-handed pitcher. But the St. Louis Cardinals wanted pitcher Bob Rush without satisfactory return to the Cubs.

Wee Olympics Reset Tonight

The Snyder Little Olympics has been re-scheduled for tonight, director John Conley has announced.

Activities will commence at 5:30.

The meet was originally slated for last Thursday but was postponed because of cold weather.

Boys and girls ages 10-13 who are attending a local grade school will be eligible to compete in the local Olympics.

The group will be spilt into two divisions, ages 10-11 in one group and 12-13 in another. Each age group will be divided into first, second and third divisions.

There will be a special division made up of boys over a specified weight, to be agreed upon by the officials.

Each local grammar school will be limited to two entries in each event. Schools that will be represented in the Olympics are West Elementary, East Elementary, North Elementary, Central Elementary and Northeast Elementary.

No participant will be allowed to compete in more than two events.

First, second and third place finishers in each event will receive ribbons.

There will be no team award and no competition based on school affiliation.

Events to be run in all divisions and in each age group are as follows:

100-yard dash, 50-yard dash, 160-yard shuttle relay (four boys running 40 yards each) 1 team per school per age group; 240-yard shuttle relay (4 boys running 60 yards each) 1 team per school per age group); broad jump, high jump and football throw.

Special events include the 240-yard relay and football throw.

Riley Enters Dallas Open

DALLAS (AP)—Polly Riley of Fort Worth, former Texas amateur champion and member of the Curtis Cup Team four times, heads a list of seven amateurs who joined the field today for the second annual $7,500 Dallas Women's Open.

The tournament, won last year by professional Patty Berg, will be played at Glen Lakes Country Club April 11-14.

Miss Riley was low amateur in last year's tournament with a 72-hole total of 300—9 strokes behind Miss Berg, who won the title in a playoff with Betsy Rawls and Marlene Bauer Hagge.

Other amateur entries include Frances Rich, Texas women's champion; Mrs. L. B. Hoseck, former state muny champion; Helen Hampton, former Tennessee and Cuba women's champion; Mrs. Grant Messinger, Dallas women's champion, and Mrs. Grady Prim, all of Dallas, and Roberta Dierken of Pittsburgh.

OLDSMOBILE
GEARED TO SOUTHWESTERN LIVING

"That proves it to me... the J-2 Rocket is like two engines in one!"

GOLDEN ROCKET 88 HOLIDAY COUPE

HE: Right! This J-2 Rocket* is really a new driving experience!

FRIEND: Well, I've handled a Rocket Engine before, but nothing like this. They've always had pep, but this one's got that *extra* pep when you need it!

HE: Don't forget economy.

FRIEND: Yes, but you can't *feel* economy.

HE: Feels pretty good to the pocketbook.

FRIEND: Right! But it beats me how you get economy with a big car like Olds.

HE: Easy. For cruising around, you just use *one* dual-barrel carburetor.

FRIEND: Bet that waters down your performance some.

HE: Not a bit. I've got regular Rocket performance right through the economy range. And believe me, that's plenty. But if you need *more* power . . .

FRIEND: Then what?

HE: Go to Stage Two. You just saw what that does. Give it three-quarters throttle and you've got *three* dual carburetors dishing up more power and torque.

FRIEND: Tell you the truth, I've always liked an Olds. Thought we might get one ourselves some day.

HE: Checked the price lately? You'd be surprised how easy it is to own.

*277-h.p. Rocket T-400 Engine standard on all models. J-2 Rocket Engine, with 300 h.p., and special Rocket Engine, with up to 312 h.p., available at extra cost.

Overall total property owner cost $176,308.79.

Overall total costs to be paid by city: to contractor $62,045.46.

Overall total costs to be paid by city: to engineer $14,301.31.

Overall total unit cost $252.655.56.

Each portion of said streets as designed by unit numbers constitutes a separate and independent Unit of said improvements and shall be improved, and the improvements constructed therein, separately and independent from each and every other Improvement Unit, and assessments to be levied for said improvements in each Unit shall be altogether separate, distinct and independent of and from the assessments to be levied in every other Improvement Unit; and, in making and levying assessments against property abutting upon one of said Units, no matter or circumstance in connection with any other of said Units shall be considered, or have any effect upon, the other, all as fully, and to the same extent, as if separate proceedings and contracts had been had and executed with reference to the improvements to be made in each of said Units.

A hearing will be given and held by and before the City Council of the City of Snyder, Texas, in the Council Chamber of the City Hall in the City of Snyder, Texas, on the 19th day of April, 1957, at 5:45 o'clock P.M., to the real and true owners, whether named or correctly named in the assessment proceedings or not, of all property abutting upon said streets and alleys, within the limits to be improved, and to all lien holders or other persons owning or claiming any such abutting property, or any interest therein, and to all railways occupying any portion of said streets within any Improvement Unit as above defined, and to all others interested in any of the proceedings, contracts or matters and things herein mentioned, or incident or relating thereto or the contract for the consturction of improvements herein referred to.

At said time and place, all such persons, firms, corporations, railways and estates, and their agents and attorneys, shall have the right to appear and to be heard and offer testimony as to the said assessments, and as to the amount thereof proposed to be assessed against abutting property and the real and true owner or owners thereof, and as to the lien and charge of personal liability to secure payment of said assessments, the special benefit to accrue to each such abutting property and the owner or owners thereof by virtue of said improvements, if any, or concerning any error, invalidity, irregularity or deficiency in any proceedings or contract in reference to said improvements, and said proposed assessments, and concerning any other matter or thing as to which a hearing is a constitutional prerequisite to the validity of said assessments, proceedings, and improvements and on which the owner or owners are entitled to a hearing under the Constitution and laws of the State of Texas and the proceedings of said City Council.

Following such hearing, assessments will be levied against each and every parcel of property abutting upon said streets and alleys, within the limits above defined, and the real and true owners thereof, for that portion of the cost of said improvements determined by said City Council to be assessed against such abutting properties, and the real and true owners thereof, and against railways occupying any portion of said units, and said assessments shall be and contitute first and prior liens upon said abutting properties, from the date said improvements were ordered by said City Council and a personal liability and charge against the real and true owners thereof, as of said date, whether such property be described or correctly described, or such real and true owners be named, or correctly named, in such proceedings, or not, and no error or mistake or discrepancy in the names of such owner or owners, or in describing said property in any of said proceedings with reference to said improvements, shall invalidate any assessment or certificate issued in evidence thereof; but nevertheless, each parcel of property abutting upon said streets, and the real and true owner or owners thereof and each railroad, shall be charged with, and be liable for, said assessment, which shall be valid whether or not such owner or owners be named or correctly named, or such property be described or correctly described, all as provided for under Article 1105-b of the Revised Civil Statutes of Texas, as amended, heretofore adopted by said City Council as the Law under which said improvements, proceedings and assessments are being constructed, performed and levied.

Of all said matters and things, all owning or claiming any such abutting property or any interest therein, as well as all others anywise interested or affected by the thing and matters herein mentioned, will take notice.

DONE by order of the City Council of the City of Snyder, Texas, this the 1st day of April, 1957.

(Seal) (s) K. O. Pitner
CITY SECRETARY

State Airport Funds Listed

WASHINGTON (AP)—The government said today it will spend $52,265,226 in the year starting July 1 to help communities build and improve their airports.

Local interests will match federal funds on a 50-50 basis. The Commerce Department said these funds are now available or will be provided.

This is the third of four annual programs authorized by Congress and administered by the Civil Aeronautics Administration.

Federal allocations for Texas as announced by the Commerce Department, included:

Austin, $90; Beaumont, Jefferson County airport, $246,205; Brownfield, $84,625; Brownwood, $24,295; Cleburne, $67,700; Corpus Christi, municipal airport (new) $575,888; Decatur, $20,600; El Paso, $402,300; Fort Worth, Meacham Field, $73,700;

Lubbock, municipal airport, $80,620; McAllen, Miller international airport, $155,646; Mineral Wells, $99,150; Pecos, $9,000; San Antonio, international airport, $591,552; Stephenville, $46,500; Sulphur Springs, $11,750; Uvalde, $15,000; and Woodville, $19,825.

Easy Carpet Cleaning Discovery Hailed

What is said to be the easiest and "cleaningest" home rug cleaner, known as Blue Lustre, is now available after years of research.

Blue Lustre leaves no foreign residue to cause rapid resoiling. The pile is left open and fluffy as the colors spring out like magic. So easy to apply with a long handle brush (like playing shuffleboard) and is safe for all types of carpets.

Use Blue Lustre to clean the entire carpet or remove spots and traffic lanes. It's economical to use as ½ gallon of consentrate cleans three 9 x 12 rugs.

Insurance Collapses Forecast

By DAVE CHEAVENS

AUSTIN (AP)—House investigators have warned that more insurance firm collapses like ICT's are in prospect, and asked for a grand jury look at evidence involving former state officials with ICT.

Dist. Atty. Les Procter said the new grand jury here will delay routine crime probes to study all the evidence brought out by the House Investigating Committee.

Dist. Judge Charles Betts in charging the grand jury said it has a "special responsibility" because of its jurisdiction in criminal matters involving "state officials, departments, and records of state government."

The House committee recommended grand jury study of evidence of alleged financial connections between BenJack Cage's collapsed insurance-investment enterprises and officials developed at its hearings.

Specifically named is [illegible] to the House were former Insurance Commission Chairmen Byron Saunders, Garland Smith, and Smith's son-in-law, Max Rychlik of Austin.

Testimony was that Saunders was everpaid $1,000 on what he reported as a sale of oil property to Cage for $6,000, and that Rychlik cashed checks from Cage concerns totaling $18,200 over a two-year period but performed no services on a job Smith got for him.

Names of seven legislators were mentioned in the report as having received payments from Cage's enterprises. The committee said the propriety of some of these was "highly questionable" but there was no evidence that the payments were for legislative services.

In a meeting of the House State Affairs Committee last night, Insurance Commission Chairman John Osorio underlined the committee's warning that trouble is ahead for more companies. He said "9 or 10 companies look bad now," that there are rumors about others, but "we can't operate on rumors."

Osorio appeared to testify on two pending bills to reorganize the commission. He said he didn't think they were needed because the commission is being reorganized and that its policy now is to protect the public first, then investors. He urged more examiners as the commission's chief need to clean out the companies causing trouble.

The reorganization bills were sent to subcommittee.

The House heard its ICT Investigating Committee's report, but took no action on continuation of its work. The report noted that there is still some investigating that should be done completely to unravel made by the BenJack Cage management.

ICT Insurance Co. was conceived by Cage as an enterprise to aid union labor. It was backed by the Texas State Federation of Labor, some of whose officials were directors.

Cage was ousted in 1956 as head of the management firm for making what the directors called "fantastic" investments. The committee said many were unwise and "probably fraudulent."

Labor investors and policy holders were among those caught when the firm went into state receivership.

Increase For Solons

ST. LOUIS (AP)—Missouri voters decide today whether they will give their state legislators a big increase in salaries and travel expenses. It would be the first such hike in 16 years. Gov. James Blair predicted the pay increase, in the form of a change in the state constitution, will win.

Strike Threatened

PORT AU PRINCE, Haiti (AP)—The threat of another general strike hung over Haiti today as forces opposing Provisional President Franck Sylvain tried to topple his regime.

Lafayette placed the conerstone of Bunker Hill monument on June 17, 1825, when he returned to the U. S. to meet old friends.

IN EMERGENCY

Disability Plan Would Fill Gap

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—It may startle you but—the vice president tomorrow could declare the president unable to carry out his duties and announce himself as president.

So far the two vice presidents who had the best excuse for doing that — those who served under President Garfield, who lingered 80 days after being shot, and President Wilson, laid up for 17 months—did nothing of the kind.

But what would stop some future vice president — in a situation unimaginable now, say crisis, ambition, political conflict — from trying to get the presidency by declaring the president disabled?

The biggest single deterrent would be the power of Congress to impeach him if it thought he was trying to usurp the presidency. Nevertheless, such a try someday is possible so long as the present constitutional gap on the presidency remains.

The Constitution says:

"In case of the removal of the President from office, or of his death, resignation or inability to discharge the powers and duties of the said office, the same shall devolve on the vice prsident . . ."

In that sentence the Constitution does one thing, fails to do another:

1. It gives the vice president power—to step into the presidency—on a contingent basis. That is, he assumes the office if the president is disabled.

2. It fails to say who decides the President is disabled. It does not say the vice president shall or shall not make the decision.

Under law, when a man is granted power on a contingent basis—and when there is no language to the contrary — the decision on when to assume that power is up to him. This was pointed out yesterday by Atty. Gen. Brownell, who told Congress:

"It is a well-established rule of law that in contingent grants of power the one to whom power is granted is to decide when the emergency has arisen. Thus the vice president is constituted 'the judge of the President's inability.'"

Brownell — representing the views of President Eisenhower — urged Congress to fill this gap in the Constitution by a constitutional amendment which he proposed.

Name Change Is Opposed

FORT WORTH (AP)—A suit was fil in Federal Court yesterday by Texas Industries Inc., seeking to restrain the ICT Corp. from changing its name to United Texas Industries, Inc.

The firm asked an injunction claiming the change of name by the ICT concern would constitute "unfair competition" and result in deception and confusion on the part of the public. Stockholders voted for the change at a meeting last week.

Texas industries makes and sells concrete building products.

ICT Corp. lists as holdings a car air conditioning company, AKL ANO Motor Lines of San Antonio and Tubenfin Oil Co., of Houston.

Dividend Announced

DALLAS (AP)—A dividend of 15 cents per share to stockholders of record May 10 was announced yesterday by Braniff Airways, Inc. Stockholders at their annual meeting also named Horace Bolding of Dallas vice president for purchasing and stores and re-elected other officers and directors.

He's Still Wrong

BINGHAMTON, N. Y. (AP)—The entry that H. S. Payson sent into the Binghamton Sun puzzle contest carried a 6-cent air mail stamp, a 20-cent special delivery stamp, 7 cents regular postage and was sent by certified mail. His answer was wrong.

Victim Of Crash

DICKSON, Tenn. (AP)—Lt. Col. Harlan C. Buttrell, 42, of Hampton, Va., was among six Air Force men killed in the crash of a B25 bomber south of here yesterday.

In addition to his wife and two children of Hampton, Col. Buttrell is survived by his parents, Mr. and Mrs. H. M. Buttrell of Decatur, Tex.

Meetings Are Set

DALLAS (AP) — Burris Jackson, Hillsboro, general chairman of the American Cotton Congress, yesterday said dates for four Texas meetings of the 1957 Congress have been set.

The sessions are scheduled for Dallas May 27, Sugarland June 26, Lubbock Aug. 12 and Pecos Aug. 19.

Non-Smoking Awards

EINDHOVEN, Netherlands April 1 (AP) — A Dutch electronics firm is offering awards to employes who give up smoking. Names of those who take a pledge will be published in the company magazine so associates can check on them. The management says its aim is to discourage lung cancer.

Comedian To Conduct

BOSTON (AP)—Comedian Danny Kaye, who says he can't read a note of music, will conduct an open rehearsal of the Boston Symphony Orchestra tomorrow. Purpose is to raise money for the orchestra musicians' pension fund.

Japanese Storm

ASAHIGAWA, Japan (AP)—A 16-inch snow, the worst April storm in Japan in 68 years, has stalled transportation and isolated rural areas in central Hokkaido, Japan's northernmost island.

Adenauer Leaves

TEHRAN (AP) — West German Chancellor Konrad Adenauer left for home today after a six-day state visit during which he promised West German help for economic and farm development in Iran.

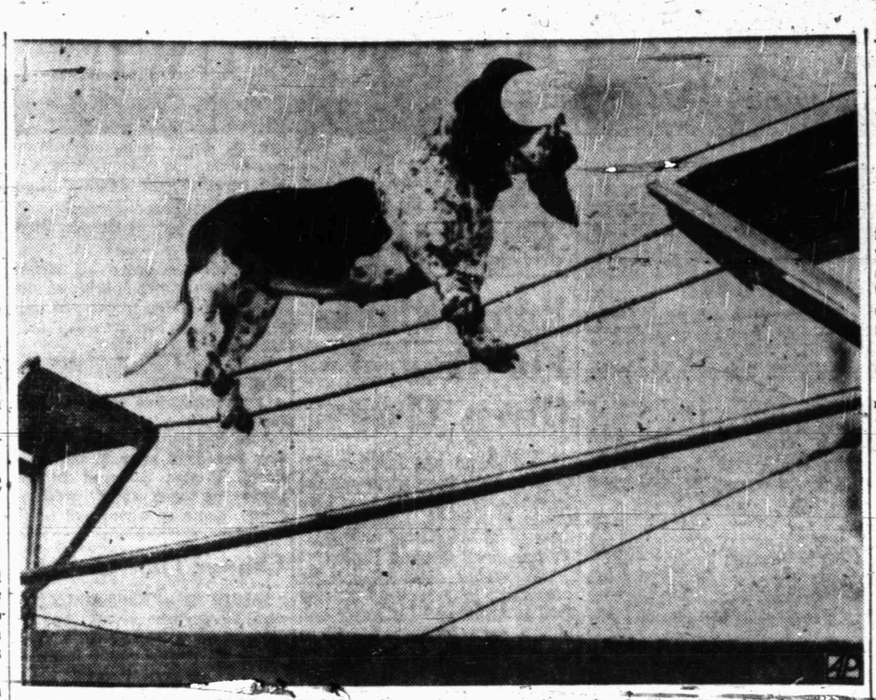
Actor Is Sued

SANTA MONICA, CKALIF. (AP) — Acress Agnes Moorehead, 50, has sued actor-director Robert Gist, 36, for divorce. She charged cruelty and asked $1 a month token alimony.

TOO MUCH TAPPING

BOONVILLE, Mo. (AP)—Kathryn Jayne Kenipf, 17, was tapping her toe in time with the radio music in her date's car. Accidentally, her foot touched the starter. The car, in gear, took off and struck another parked automobile, resulting in $25 damages.

Test Drive A PONTIAC



CLEO LEARNS A TOUGH TRICK— Cleo, the basset hound of movie and television fame, demonstrates her newest trick—walking blindfolded across two tight ropes strung 10 feet above the ground. Her owner and trainer, Frank Inn of Sun Valley, Calif., says the trick is particularly difficult for a basset because of her weight (40) pounds and length (4 feet from nose to ta il.)

Boxcar Problem Is Studied

SAN FRANCISCO (AP) — Southern Pacific and Stanford Research Institute applied their best brains for three years to the problem of the empty box car, an unglamorous but highly expensive waif in the transportation world.

Now they think they have it licked.

Starting July 1, Southern Pacific expects to put in full operation a new electronic computer system to keep an up-to-the-minute check on where its empty box cars are, and where they are needed, said James W. Corbett, SP operating vice president.

"The surprising thing is that we don't have this kind of information," said L. E. Hoyt, assistant to the SP's general manager.

"Nor does any railroad in the country, so far as we can develop.

Hoyt estimated SP's ownership costs on its average of 36,000 box cars in 1955 at 36 million dollars, computed at $2.75 a day.

He said SP's out-of-pocket costs for 250 million empty car-miles in 1955 amounted to 15 million dollars, conservatively computed at 6 cents a mile.

Cutting down the time box cars are empty and idle, Hoyt said, will chop "into staggering inventory costs" and "premium storage on extremely expensive track."

Hoyt joined L. J. Lyons, SP's superintendent of freight car service, and C. J. Feeney, industrial operations research manager at Stanford Research Institute, in reporting on SP's new car control plan before the Railway Systems and Procedures Assn. in Chicago today.

About 200,000 punched cards will be fed each week into an IBM data-processing machine in San Francisco. At the end of each week there will be a forecast of future car movement based on empty cars on hand in each of SP's 11 divisions along 8,000 miles of track between Portland, Ore., Los Angeles, and El Paso, Tex.

Until now railroads have had to depend on men with the "right feel."

A good car distributor, Lyons said, was made by years of experience giving him "the right feel of the situation on what places really need help and which ones are just shouting and can really help themselves."

Preparing For Queen

PARIS, April 2 (AP) — Five hundred British soldiers, sailors and airmen equipped with dress uniforms are on duty in Paris for two weeks. They have come to participate in a British-French military festival during Queen Elizabeth's state visit.

Good Cor[illegible]

SANTA MO[illegible]lif. (AP) — Jimm Durante[illegible]ne partner Eddie Jackson is reported in good condition at St. John's Hospital after a second hernia operation. The 61-year-old song and dance man underwent the previous operation Tast January.

Farm Surplus Barter Plan For Iron Curtain Is Facing Fight

WASHINGTON (AP) — The administration's fight for authority to woo Soviet satellites with surplus agricultural commodities shifted to the House today after bowling over Republican leadership opposition in the Senate.

Its fate in the House, where a similar proposal died last year, was uncertain.

Sen. Knowland of California, the Senate Republican leader, led yesterday's unsuccessful fight to ban barter deals with Iron Curtain countries for strategic materials.

The administration had asked such authority. The Senate approved it in passing by voice vote a bill to make an additional billion dollars available to dispose of surpluses abroad. The bill also would extend the program one year, to June 30, 1958.

Knowland's fight against the barter plan, in which he was supported by Sen. Bridges of New Hampshire, chairman of the Senate GOP Policy Committee, and Sen. Dirksen of Illinois, assistant GOP floor leader, was rejected 54-23.

Sen. Saltonstall of Massachusetts, chairman of the Conference of All Republican Senators, and 18 other Republican senators joined with 35 Democrats to defeat the amendment.

Twenty-one Re[illegible] and Democratic Senators Byrd and Robertson of Virginia supported it.

The present law limits both barter and cut-rate sale of government-owned commodities to "friendly" nations. To broaden the barter provisions, Knowland said, would give the administration a free hand to trade commodities to Poland and "open the door" to subsequent trade with Hungary, Romania, Czechoslovakia and other Red-controlled Soviet-occupied countries.

He said Russia has been stripping satellites of food and other resources to bolster the Soviet economy and that the bill would "replenish the stocks of its satellites."

But senators from agricultural states generally supported the argument of Secretary of Agriculture Benson that barter deals would be of "particular advantage" in view of recent unrest among Soviet satellites.

Mickey Getting Religion

NEW YORK (AP)—Mickey Cohen, an ex-gangster turned nurseryman, prayed and read the Bible yesterday with evangelist Billy Graham.

"I'm sincerely interested in anything that's the correct thing in life," said Cohen.

Graham said he believes Cohen is "sincerely interested in spiritual things and leading a new life."

The two met in Cohen's hotel suit.

Cohen was once a reputed gambling czar in Los Angeles.

The pugy ex-convict was also a frequent but elusive target for gang violence. He was shot at 10 times and bombed once.

He spent four years in prison for evading $150,000 in federal income taxes.

Cohen tried haberdashery for a while, but now operates a nursery in California — "Michael's Greenhouses, Inc."

Cohen said he flew to New York just to see Graham. He said he has known Graham since 1949 and plans to attend the evangelist's New York crusade in May.

Cohen was raised in the Jewish faith, but he said he was "never a very religious person."

Two Killed And Three Injured In Accident

DALLAS (AP)—A car-truck collision here last night killed two men and critically injured three others.

The dead were James Vaughn, 73, and John Dryzer, 66. The injured men were passengers in the same car with two Negro men. The accident occurred in front of Parkland Hospital.

Struck By Train

ALPINE (AP)—Dick Turner, 73, was fatally injured last night when he was struck by a freight train at a crossing here. He was a retired ranch worker.

Killed Yesterday

HOUSTON (AP)—Jerry Pat Knight, 6, was killed yesterday when he ran into the path of a car near his home, police said.

Residential Area Racket Criticized

PHILADELPHIA (AP)—It's not industrial racket and the shrilling of auto horns that the mayor's noise abatement committee is going after.

The committee says half the complaints received last year concerned late parties, yowling pets and blaring musical instruments, radios and TV.

So the committee in a special drive this month is giving top priority to muffling the racket in residential areas.

LABOR RANKS

It's Time For Cleaning House

By INEZ ROBB

It would be a great solace to millions of taxpayers whose money is supporting the U. S. Senate inquiry into corruption and high-binding union labor if we could beleive that union virtue, rectitude and reform would follow as night the day.

Undoubtedly a few of the gents who have been caught "flagrante delicto, i.e., with the till in both hands, may eventually go to jail. (Frank Costello, the big fish netted by the Kefauver — remember Estes? — investigation, spent a handful of months in durance vile. But his lawyers sprung him recently, and he is out once more.)

But it is one woman's opinion that the present Senate investigation of racketeering in the Teamster Union isn't going to be worth a lead nickel unless there is a revolution, sparked by rage and indignation, within the union rank and file.

If I were a member of the Teamsters Union, I would be in a red rage today because my dues apparently had been siphoned off for wine, dancing girls, racing stables, air-conditioned apartments in Palm Springs, a mansion in Seattle and $300,000 "loans" for union bosses.

Maybe the 1,500,000 members of the Teamsters Union, the biggest in the country, are too stunned at the moment by the revelations of hanky-panky in the front office to set up any hue and cry for reasonable honesty in administration of their funds. Maybe it is too early for them to have found their voices.

Or is the American working man willing to tolerate goons and racketeering at the top in exchange for a fast buck, fringe benefits and a biennial raise? Does he honestly believe that this is the price he must pay for union labor representation and its undeniable benefits? And is he supinely willing to pay that price?

If I were a member of the Teamsters, I would be screaming my anger and disgust to the high heavens today at the spectacle to Dave Beck, my trustee, pleading the Fifth Amendment before a Senate committee to avoid answering whether he helped himself $322,448.80 in union funds. I would be petitioning for the head of Teamster Vice-President Frank Brewster and those of his race horses, too.

But the worst thing that can happen to union labor now is for the rank and file of the Teamsters to be indifferent. If nobody in the Teamsters ain't mad at nobody else, if the boys don't give a continental about the finagling as long as they get theirs, then a lot of tax-payers are going to bring a lot of Congressmen to write a lot of new, corrective laws.

It isn't enough for George Meany and Walter Reuther to try to clean labor's house, or for the AFL-CIO ethics committee to get busy with the broom. It's labor's grass roots that need to get out the water bucket and the soap.

Labor unions have made invaluable contributions to the American way of life, but this is a time for disinfectant and not whitewash within the movement.

(Copyright, 1957, by United Feature Syndicate, Inc.)

Question Of Umbrella Use

PHILADELPHIA (AP)—Can you trust a woman farther than a man with an umbrella? Or do men simply hate to be seen with an umbrella? Or are men panty-waists and feel they must stay in when it rains?

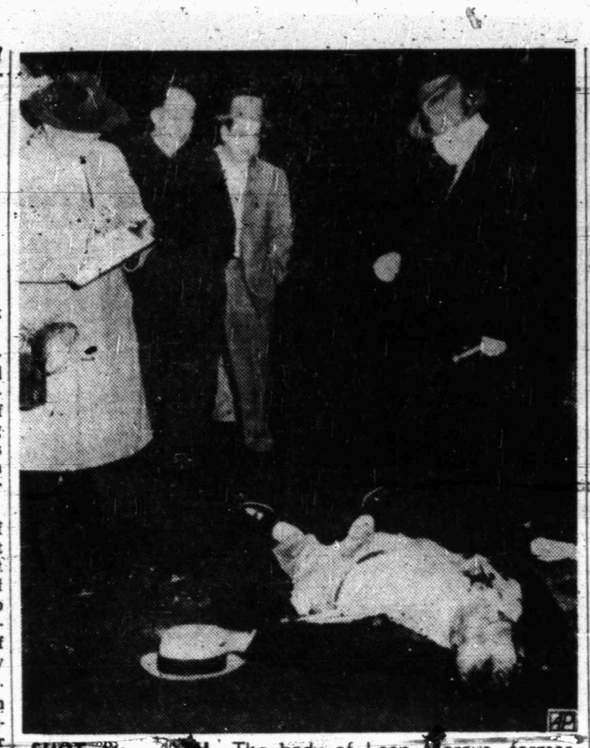
The suburban Jenkintown Bank and Trust Co. is asking such questions in an informal survey of why a good-will idea might run into quite a lot of money.

A while back the bank started an umbrella-lending service for its customers. It set out 25 umbrellas, 15 for women and 10 for men, with tags reading: "A loan for a rainy day." Now all the women's umbrellas are gone, whereas only eight of the others are missing.

The bank is not giving up. A fresh stock has been ordered for lending in expectation of spring rains.

Radio Station Planned

NEW YORK (AP) — The National Council of Churches plans to build a 100,000-watt radio station on the Philippines. The station will beam programs to the Philippines, Indonesia, Burma, Thailand, East Pakistan, India and other areas in Asia.



SHOT TO DEATH—The body of Leon Marcus, former chairman of the board of Southmoor Bank and Trust Co., of Chicago, is inspected by police after he was found shot to death on a south side vacant lot. Police say, Marcus, who was identified by a federal grand jury for a part in the Orville Hodge scandall, was seized and dragged into an auto as he left the home of a friend. He was found shot to death a short time later.

TRAPPED IN TUB

CHESTERFIELD, England, April 2 (AP) — Miss Saran Banner, 51, was trapped in a washtub for five hours.

"I stumbled and sat fair and square in the tub and couldn't budge," she said. Policemen and firemen pulled her out.

Metropolitan Opera Hits Discordant Note

BALTIMORE (AP)—The Metropolitan Opera Co. rolled into Baltimore and immediately struck a discordant note.

Arrival of trucks at the Lyric Theater bearing the Met's equipment snarled rush hour traffic on Maryland Avenue. The result was a dissonant din from hundreds of irate drivers.

One driver caught in the snarl was Henry A. Barnes, city traffic director.

"Some people seem to think that because they're the Metropolitan Opera Co. they are something special," Barnes said later. "Well, I don't know, maybe they are."

Betsy Of Art World Tours The Big City

NEW YORK (AP) — Betsy, Baltimore's fingerpainting chimp with the art world at her feet, set out today on a gay, mad whirl of the big city.

Zoo Director Arthur Watson and Betsy's keeper, Ben Gary, were her champerones for the round of appearances which began with two national televiscon appearances today. Watson also may buy Betsy a mate before returning to Baltimore Thursday.

On the train trip here, Betsy exhibited the sweeping motion which has won her acclaim in the art world (and brought the zoo $1,520 for paintings sold) by casually rubbing her hand over the window of her drawing room.

Farmers Buy More

WASHINGTON (AP)—The Agriculture Department said today farmers are buying proportionately more used tractors and other farm equipment this spring in an effort to offset rising costs of new machines.

Andy Browns Not Forgotten

WICHITA FALLS (AP)—The Andy Browns of Jericho, Tex., who saved 91 weary travelers from a blizzard's fury last week, have not been forgotten by the people they helped.

The Browns said they have received many letters and "love gifts" from those who found refuge in their seven-room farmhouse when the sudden spring blizzard paralyzed the Texas Panhandle March 24-25.

The story won nationwide attention.

Andy Brown drove his pickup into the snowstorm to bring 91 passengers of buses, trucks and cars to his home. The travelers may not have survived afoot.

The Browns say they want one thing made known:

"Our carpet was not completely ruined."

Andy had put down a new carpet only two days prior to the snow storm. It was damaged by the horde of unexpected weekend guests, some of whom had to sit and lie down in shifts during the height of the storm.

"The whole house came through fine," said Mrs. Brown, "including the bathroom."

Mrs. Brown said the bus company had expressed its appreciation for the care given its passengers. She said two truck drivers also placed a set of "Ma and Pa" cups and sauders in the Browns' mail box on U.S. Highway 66. Eleven of the 91 persons sheltered at the Brown house were truck drivers.

The Browns still disclaim any credit.

"We did no more than anyone else would have done had they had the opportunity," said Mrs. Brown.

Entry Blanks For Contest Given Here

One hundred 1957 Pontiacs will be given away in a national "Drive the Champ" contest during the month of April, according to Charles Blount of Chieftain Pontiac, local Pontiac Dealer.

"This contest, which requires the contestant to test drive a 1957 Pontiac and report his impression of the car's performance on a special entry blank, is open to everyone licensed to drive," Blount said.

Pontiac this year set new 24 hour endurance records. In addition, the car was subjected to a grueling 100,000 mile continuous driving test. Just recently Pontiac won the NASCAR Grand National 160 Mile Beach-Road Race at Daytona Beach, Florida," Blount pointed out. "If the winner already owns a 1957 Pontiac, he will be awarded a 1958 model as seon after January 1st as possible."

Four winners will be selected from each of the 25 Pontiac Zones throughout the country. Official entry blanks must be obtained from a Pontiac dealer. Chieftain Pontiac is offering additional prizes locally. The contest closes at midnight, April 30. Complete details and entry blanks are now available at 811 Twenty-fifth Street.

Decorating Change

NEW YORK, April 2 (AP)—Kiosks — ornamental superstructures which have decorated Manhattan subway entrances and exists for half a century — are to be removed, beginning in June. City officials expect it will take five years to remove and replace the 110 kiosks with plain railed-in stairways. The cost is estimated at $800,000.

LEGAL NOTICE

THE STATE OF TEXAS
No. 1731

To Any Sheriff or Any Constable within State of Texas—Greetings:

G. L. Autry, Jr., Administrator with Will Annexed of the Estate of May McClinton, deceased having filed in the County Court of Scurry County, Texas a Final Account of the Condition of the Estate of said May McClinton, deceased Numbered 1713 on the Probate Docket of said Court, together with an application to be discharged as Administrator with Will Annexed.

YOU ARE HEREBY COMMANDED, That by publication of this Writ one time, said publication to be not less than ten days hereof, in a Newspaper printed in the County of Scurry, Texas, you give due notice to All Persons Interested in the Administrator's Final Account and Administrator's Application to be Discharged As Administrator in the Estate of May McClinton, deceased that they are CITED TO APPEAR on the 15th day of April A.D., 1957 before the said County Court, at the Court House in Snyder, Texas; to contest said account and application if they see proper to do so, by filing written answer and objections thereto at or before 10 o'clock A. M. of said day.

HEREIN FAIL NOT, but have you before said Court at the time aforesaid, this writ with your return thereon, showing how you have executed the same.

WITNESS my hand and official seal, at Snyder, Texas this 1st day of April, 1957.

Dan Cotton, Clerk.
(SEAL) County Court.
Scurry County, Texas.

Trading Stamps Crackdown Slated

WASHINGTON (AP)—The Federal Trade Commission may crack down this month on several of the biggest trading stamp companies.

Complaints alleging law violations are awaiting action by the five-man commission which polices business practices, officials said.

They would mean new headaches to a booming 600-million-dollar business already fighting restrictive legislation in several states — with ardent help from housewifes.

The FTC investigation is not aimed at the basic legality of savings stamps.

The pending complaints are understood to be directed at specific practices of some of the estimated 400 companies which sell stamps to storekeepers and, after housewives have pasted them in little books, provide merchandise "premiums" in exchange.

FTC spokesmen have no divulged the charges, but the commission's bureaus of investigation and litigation are known to have been exploring such questions as these:

Whether the advertising of premiums has been misleading.

Whether "unfair methods of competition" have been used — such as giving one store in an area the exclusive right to offer a certain company's stamps.

Whether any stamp company has discriminated, in setting a price on its stamps, between one store and another.

The use of the word "free" in describing premiums reportedly has been questioned by some officials on grounds that the housewife actually pays for the stamps in added cost of merchandise.

Woman Kills Two Children, One A Baby

WASHINGTON, Ind. (AP)—A 34-year-old woman, under treatment for mental depression, killed her two children, one a baby, last night and then tried to end her own life, authorities said.

The children's father, Paul Shrock, also 34, found the bodies of the children, both girls, at 11:15 p.m. when he returned from his work as an orderly at the Daviess County Hospital.

Both were in their beds. The baby, Marilyn, 3½ months, had been smothered with a pillow. Brenda Arlene, 7, had been strangled with a piece of rope.

The mother, Dorcas Shrock, had left her husband a note. At midnight, she walked into the police station and said she had killed her children.

Coroner H. O. Norton said Mrs. Shrock evidently had gone temporarily insane. He said it appeared Mrs. Shrock had tried to hang herself in a doorway in the home but the rope broke.

Daily Oil Output Drops Over Nation

TULSA (AP) — Daily average U. S. oil production during the week ended March 30 dropped 20,450 barrels to 7,797,025, the Oil and Gu Journal said today.

Oklahoma's 15,200-barrel decline to 669,900 barrels was a big factor in the loss. Texas production was unchanged at 3,330,000.

The Journal estimated 1957 production at 673,471,475 barrels compared to 650,536,090 last year.

Colorado was off 1,400 to 158,700; Louisiana, 1,400 to 1,014,850; and Arkansas 600 to 84,100. New Mexico was up 100 to 267,975.

Joke With Zoo About To Die From Old Age

NEW YORK (AP)—The ancient gag of phoning the Bronx Zoo on April Fool's Day and asking for Mr. Lyon, Mr. Fox, Mr. Wolf or Mr. Baer seems to by dying of old age.

The zoo received 2,038 calls yesterday—the lowest for a weekday April Fool in some years. In 1955 there were 5,738 calls.

"It's getting to be too old a joke," said one thankful official.

Florida Village Plan Gets Cold Reception

DEARBORN, Mich. (AP)—Dearborn voters turned a cold shoulder yesterday toward a plan to establish a city-owned retirement and vacation village in Florida.

By a vote of 13,941 to 8,530 Dearborn rejected Mayor Orville L. Hubbard's plan to build low-cost housing on 1,000 free acres north of Miami Beach.

A Florida land developer had offered to give 1,000 acres to Dearborn.

Legislation Fails

SACRAMENTO, Calif. (AP)—The SKTATE Assembly Transportation Committee has defeated legislation to make it a crime to fall asleep while driving.

GROUP TAKES 96 RATTLERS IN HUNT

The rattlesnake season is getting well underway, and the biggest haul so far this spring was made by a party of rattler hunters during the weekend.

The group, included Jim Sorrells, Ben Weathers, Kenneth McKinney, J. E. Shipp, Max von Roeder, and Nolan von Roeder.

Grand Jury Reindicts Dallas Man

RAYMONDVILLE (AP)—John Milton Addison, 28, of Dallas and Denver, was reindicted by a Willacy County grand jury last night on three charges of violating state securities statutes.

Addison was indicted on a charge of selling securities without a license, selling securities without registering as a dealer, and one other indictment covering both charges.

The charges were filed in connection with the sale of uranium stock. Addison posted $1,500 bond. A trial date has not been set.

Earlier indictments had charged him with one count of selling securities without a permit and two counts of selling securities without registering. These were dismissed March 25 after defense attorneys filed a motion claiming the indictments were defective.

Addison was arrested last October after an investigation by former Dist. Atty. Carl Conley and securities investigators from the office of the Texas secretary of state. Conley said the transactions on which the charges were based involved an estimated $200,000 to $300,000.

Other charges of theft by false pretext against Addison were dismissed last month on a state motion after persons involved in the sales signed affidavits saying the charges were untrue.

More Travel Through Reynosa Is Predicted

REYNOSA (AP)—Tamaulipas Gov. Noberto Trevino Zapata yesterday said increased travel through Reynosa to the interior of Mexico would result from completion of a new road under construction.

The governor spoke at the dedication of the new road which will shorten the distance from Reynosa to Mexico City. Road machinery moved out to start work when the dedication was over.

The route runs south from Reynosa and joins the Brownsville-Matamoros road near San Fernando. It will be the shortest route between San Antonio and Mexico City.

Delegations from Mission, McAllen, Edinburg and the Valley Chamber of Commerce took part in the ceremopy.

Spring Comes Late For Woman's Cooler

LOS ANGELES (AP)—Spring has come a little late this year to Mrs. Lottie Roscoe's cooler.

Mrs. Roscoe, who lives in a second floor flat, is sharing her cooler with a mother bird and five eggs.

The opening, on the outside of a wall, seemed just the right size for a pair of linnets. They built their nest and started housekeeping. The redbreasted male flies about outside, patrolling the area.

Bomber Crashes At Reese Base Monday

LUBBOCK (AP)—A B25 bomber crashed while landing at Reese Air Force Base last night. One of the three crewmen aboard suffered minor injuries.

The injured man was Lt. Billy T. Breedlove of Houston. The crewmen were 2nd Lt. Darrell E. Norris, Ashville, Ohio, and 2nd Lt. John R. Nunn, Iowa City, Iowa.

Aga Khan Ill

NICE, France (AP) — The Aga Khan, spiritual ruler of the Ismaeli Moslems, today was reported in failing health at his villa on the Riviera. Friends said the Aga, who will be 80 in November, is suffering from a chronic bronchial condition and has not responded well to treatment.

PATROLLING THE GAZA-ISRAELI BORDER—This narrow ditch dug recently by Israelis marks the demarcation line between Gaza Strip and Israel. Colombian troops of the United Nations Emergency Forces currently patrol the Egyptian side of the ditch in this fashion. Details of how the controversial border was to be drawn are still being argued.

Rain And Snow Sweeps Over Great Plains, Mountain Area

DENVER (AP)—A massive, slow-moving storm bulging with moisture poured rain and snow over a vast area in the parched Great Plains and Rocky Mountain states today.

Rain or snow soaked drought-stricken lands from Montana and the Dakotas southward through Wyoming, Nebraska, Colorado, Kansas, New Mexico and the Texas Panhandle.

Forecasters said the weather system did not appear to pack the vicious wallop of a blizzard 10 days ago that snarled transportation, trapped travelers and killed thousands of cattle.

Winds on the plains were not expected to exceed 25 or 35 miles an hour. The heavy moisture in the snow will probably prevent severe drifting. The storm 10 days ago was accompanied by winds up to 60 and 70 miles an hour.

Livestock men throughout the area were warned to take precautions. Cattle that survived the storm starting March 23 were reported in weakened condition and the new storm posed a serious threat to them.

Ground transportation was reported uninterrupted, although the death of one Colorado motorist was blamed on the storm. Gerald A. Bowker, 30, Burlington, was fatally injured last night when his car skidded on U. S. Highway 6 about 50 miles west of Denver and crashed into a snowplow.

Blizzard warnings were issued for western Nebraska and western and central sections of South Dakota, while heavy snow was forecast in western Kansas and the Oklahoma Panhandle.

A disturbance in the lower Ohio Valley brought rain from the Mississippi Valley eastward to the middle Atlantic Coast states, and from Maine southward into the Carolinas and northern Georgia. Heaviest amounts were in the Ohio Valley.

Impounding Of Ballots Is Sought For La Joya

EDINBURG (AP)—Dist. Judge F. M. Guerra yesterday was asked by Dist. Atty. Jim Bates to impound the ballots after a school board election set for Saturday in La Joya.

Guerra did not take immediate action on the district attorney's petition. Bates said he had received a number of calls from persons in La Joya asking for the action.

Two vacancies are to be filled in the election. J. D. Salinas, J. J. Cavazos and E. B. Reyna, an incumbent, are seeking the two seats. Board member Woods Christian is not seeking re-election.

Drunk Driving Case Is Too Intoxicating

LOS ANGELES (AP)—When contractor Aldred Randolph Copeland pleaded innocent March 8 to a drunk driving charge his trial was set for April 1.

He showed up, all right, but Municipal Judge Thomas L. Griffith Jr. said Copeland's answers to questions were incoherent and he could only conclude that the man was intoxicated. So, he reset the trial for April 5 and gave Copeland five days in jail for contempt.

Report Given On Release Of Water

MCALLEN (AP) — Deputy water master John Clare yesterday said releases of water from Falcon Dam were running at the rate of 600 cubic feet per second after being shut off for 41 of the last 43 days.

Water releases began Sunday and Clare said he planned to continue them for about three more days. Total storage in the reservoir increased by more than 115,000 acre feet during the shutoff.

FACTS AND FIGURES

Rin-Tin-Tin Lived It Up

By HAL BOYLE

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

That FBI Chief J. Edgar Hoover estimates 1 out of every 16 Americans has been arrested and fingerprinted, and that for every dollar given to churches, crime costs 10.

That 1 out of 23 American school children has a hearing impairment that slows his learning.

That the original Rin-Tin-Tin, who earned up to $100,000 a year, lived in a small stucco palace complete with electric lights, running water, a radio and silver food trough.

That the latest vanity fad among Broadway men is to have their full names embroidered on their shirtfronts.

That swimmers are less likely to suffer ear infections if they dive into the water than if they jump in. Ear plugs offer little protection—because most water gets into the ear through the nose.

That because of the difference in the pull of gravity, a person who weighs 190 pounds at the North Pole will tip the scales at only 189 at the equator.

That among ancient remedies for seasickness were such foods as raw pork, red herrings and horseradish sauce. The sailors said the best remedy was "half an hour of rest under a live oak tree."

That phescriptions account for only 20 per cent of the business volume of the nation's 55,000 drugstores.

That Andrew Jackson, who is reported to have installed the first bathtub in the White House, is the only U. S. president who ever killed a man in a duel.

That some fellow has figured we now have passed 35 million laws in an effort to get us to observe the original ten commandments.

That persons over 65 have fewer brief illnesses—those lasting less than a week—but twice as many disabling illnesses as those from 15 to 64 years old.

That a survey in 1955 showed 50 per cent of the American people 22+ drive a motor car, and 14 million families still don't own an automobile.

That it was Mark Twain who observed, "The first half of life consists of the capacity to enjoy without the chance; the last half consists of the chance without the capacity."

Count Shows Ike Is Seven Million Ahead

WASHINGTON (AP) — President Eisenhower ran nearly seven million votes ahead of his party's candidates for the House of Representatives last November. They in turn trailed Democratic opponents by 1,134,000.

GOP House candidates, however, polled 2,958,000 more votes than Adlai E. Stevenson, Democratic presidential nominee.

These statistics were made public today in an official compilation by the clerk of the House.

In only one state, North Dakota, did Eisenhower trail the combined Republican House vote. However, the two House nominees were running from the state-at-large, not from separate districts, and neither received as many votes as the President.

The President's total popular vote was listed at 35,581,003, or about 57 per cent of the 62,027,040 ballots cast for president. Stevenson polled 25,758,765 votes. The remainder went to minority party candidates.

Republican House candidates polled 28,697,321 votes, almost 49 per cent. Democrats polled 29,831,608 for a net gain of two seats. They retained control of the House 234-201.

New Cotton Process Reported By Official

DALLAS (AP) — Changing the chemical element of fibers in cotton materials makes possible shirts that remain stiff without starch, says George Pfeiffenberger of Lubbock, executive vice president of the Plains Cotton Growers.

He told the Texas Cotton Ginners Assn. that it also has made possible dresses that cannot be stained by coffee, tea or ink and slacks that will not wrinkle.

He said the new processes bring qualities which last as long as the cloth.

Wiretapping Ban Is Approved By Solons

HARRISBURG, Pa. (AP) — The Pennsylvania State Senate passed 48-2 and sent to the House yesterday a bill to ban wiretapping.

Sen. Benjamin Donolow, a Philadelphia Democrat, commented: "Wiretapping has gotten to such a point in Philadelphia that a city official can't even call home without his wire being tapped." He did not elaborate.

Resolution Blasting High Court Approved

ANNAPOLIS, Md. (AP) — The Maryland Senate reversed itself last night and approved a resolution labeled as criticism of the Supreme Court's decisions on segregation in public schools.

Sponsored by State Sen. John C. North, the resolution calls upon the Maryland delegation to Congress to propose a constitutional amendment specifying that the question be left to each state.

After failing to pass by 11-11 tie vote last week, the resolution received Senate approval by a 17-5 margin last night. To becme effective and sent on to the congressional delegation, however, it will require House approval.

Georgia Death Toll

ATLANTA (AP)—Twenty nine persons died in traffic accidents during the worst non-holiday weekend in the history of Georgia.

FIRST PRIZE EVERY WEEK—THE FABULOUS TURNPIKE CRUISER—THE MOST ADVANCED CAR AT ANY PRICE!

How you may win the widest_lowest_roomiest car in its field_The Big M!

ENTER THE BIG M DREAM CAR CONTEST_TODAY!

90 free Mercurys_6 Turnpike Cruisers, 60 Montereys, 24 Station Wagons! $450,000 in prizes! A new contest every week!* Enter every week! Win America's fastest growing car!

EASY TO ENTER_EASY TO WIN! HERE'S ALL YOU DO:
1. Go to your Mercury dealer today.
2. Pick up official rules and entry blank.
3. Complete the last line of Mercury dream-car rhyme.
4. Mail official entry blank to "Mercury Contest."

FIRST PRIZE
Mercury 4-door Turnpike Cruiser—one each week. Plus trip to New York for two, with transportation by American Airlines DC-7 Flagship. Special guests of Ed Sullivan at his television show.

NEXT 4 PRIZES
Mercury Commuter 2-door, 6-passenger Station Wagons—4 each week. New BIG M wagons are the most luxurious and easiest riding ever built. Everything is totally new.

NEXT 10 PRIZES
Mercury Monterey 4-door Sedans—10 each week. All Mercurys awarded include Merc-O-Matic Drive and full equipment. Station wagons have power-operated retractable back window.

NEXT 50 PRIZES
General Electric "Companion" TV sets—50 each week. Portable, weighs only 26 pounds! Performs with console clarity. Retail value $129.95.

NEXT 300 PRIZES
Sheaffer's White Dot Snorkel Pen Sets—autographed by Ed Sullivan—300 each week. The world's finest writing instrument. Retail value $22.75.

SPECIAL BONUS AWARDS
$10,000 CASH for new Mercury buyers
$2,000 CASH for used car buyers
(See official contest rules)

*Last contest ends April 20th.

Don't miss the big television hit, "THE ED SULLIVAN SHOW," Sunday evening, 7:00 to 8:00, Station KPAR-TV, Channel 13.
