Dedicate Honor Roll Board Wednesday

Proposed Air Line Routed Through Part of West Texas

The Sunshine Airlines, with headquarters for this section in Amarillo have filed an application for a permanent certificate for public convenience and necessity with the Civil Aeronautics Board for air transportation of person, property and mail between points in Texas, Oklahoma, and New Mexico.

Eight routes have been mapped out by this organization to serve the territory mentioned. One of the routes set forth includes Lamesa. This route covers territory between Amarillo, Plainview, Lubbock, Tahoka, Lamesa, Odessa, Midland, Big Spring, and San Angelo.

If the certificate is granted by the Civil Aeronautics Board, members of the Sunshine Airlines propose to use helicopters or any other type of aircraft which may be suitable and available.

J. Lindsey Nunn, Amarillo; Houston Harte, of San Angelo; Bernard Hanks, of Abilene and Gilmore N. Nunn of Lexington, Kentucky, make up the partnership which ask for this certificate.

Rotary Club Hears Rev. D. Carver At Regular Meet

The Rotary Club had its regular meeting last Friday at a luncheon at the Plaza Hotel. The members enjoyed a talk given by Rev. Douglas Carver, who is conducting a meeting at the First Baptist Church.

The club welcomed their new member, E. E. Wright, at this meeting. Visitors were Mr. Tucker and Mr. Goodwin, of the highway department; Lt.-Col. Louis B. Reed, of Fort Sill, Oklahoma; and Lt. John Pipes, who is visiting M. C. Lindsey.

Rotarians plan to welcome on Friday, August 20, M. W. Larmour, Governor of the 127th District of Rotary International. Governor Larmour has been a staunch member and leader of the Rotary Club for many years. He will advise and assist officers of the club on matters pertaining to club administration and other Rotary service activities.

Friday evening the Rotary Club assembly will meet together at the Plaza Hotel at 8 p. m. to discuss plans relative to the club.

Cadet H. B. Reeves Completes Course

Cadet Horace B. Reeves, son of W. O. Reeves of this city, has completed the basic flying training course, and was graduated from the Marana Army Airfield, Tuscon, Arizona.

He will now be sent to an advanced flying school to complete his last phase of cadet training.

Cadet Reeves attended Lamesa High School and the University of Texas.

U. S. cruisers and privateers captured more than 1,000 British merchantmen in the war of 1812.

EISENHOWER'S BIRTHPLACE — In this two-story house in Denison, Tex., Gen. Dwight D. Eisenhower, commander of the Allied armies in North Africa, was born. A Denison city director of 1890-92 listed the general's parents as living at this address.

FIRST BALE COTTON RECEIVED AT LOCAL GIN TODAY

Lamesa received its first bale of the 1943 cotton crop today, August 16th. It was brought in by H. C. Brooks and was grown on his farm southeast of Lamesa. The McDonald Gin is ginning the cotton.

More details will be given in the next issue of this paper, as the ginning had just begun when this paper went to press.

The first 1942 bale of cotton was ginned August 20, and the first 1941 bale arrived August 27, which bring the 1943 crop ahead by several days.

Funeral Held For Hackleman Girl

Pearlene Voncile Hackleman, daughter of Mr. and Mrs. J. E. Hackleman of Route C, passed away August 12 at 10 p. m. Funeral services were held at the Higginbotham Chapel with Rev. E. F. Cole officiating on August 13 at 5 p. m. The burial took place at the Lamesa Cemetery.

Pearlene was born November 11, 1927 and was 15 years of age when she died.

She is survived by brothers C. D. Nelson of San Diego, California; Gordon Nelson, Paynefield, Washington; Arvid Hackleman, Camp White Ore.; J. C. Hackleman Jr., Lamesa; sisters, Mrs. L. A. Bessers, Hereford; Mrs. Brooks Kilgore and Nelda Jean Hackleman of this city.

Dairy Breeder's List Wanted By L. R. Pool

Lee R. Pool, county farm agent requests that all farmers bring to him their list of dairy breeders. E. R. Eudaly, dairy specialist for the extension, is revising the dairy breeders list of the state.

It is hoped that dairymen will respond to this request as quickly as possible to enable Eudaly to make a roster of Texas dairy breeders.

Up to 40,000 workers can be housed in the Pentagon building of the War Department.

Thanks Expressed To Lamesans For Helpful Services

Many Lamesans donated services, funds, and furnishings to the Recreation Center for service men located at the Lamesa Field, which had its formal opening Wednesday, August 11. For their services, appreciation and thanks are due:

Mr. and Mrs. J. H. Harp, The Lamesa Lion's Club, Girl Scouts of Troop No. 2, Audrey Cox, Mrs. Tom Wood, Mrs. Charlie Proctor, Mrs. Gordon McGuire, Jr., H. L. Crouch, Mrs. Jack Phinizy, Mrs. Nellie Chumbley, Mrs. Alpha Dugger, Mrs. A. E. Jacobs, Mrs. R. R. Townsend, Mrs. R. E. Speck, Miss Elmerine Barron, Mrs. W. H. Meech, Luther Standefer, Q. E. Terrill, Mrs. R. G. Ragan, Mrs. Nelson Cope, Mrs. Grover Wilkes.

Mrs. C. E. Ault, Mrs. R. J. Boardman, Mrs. M. E. Smart, Mrs. D. W. Massengale, Mrs. V. Z. Rogers, Mrs. Clyde Privitt, Mrs. C. W. Firestone, Randals Lumber Co., Higginbotham-Bartlett Lumber Co., Bill Chilton, and A. D. Emory.

Easterwood Brothers Receive Promotions

It was reported this week that Edwin Easterwood has received his promotion to First Lt., at Silver Creene Camp, located in Florida. His brother, Hardin Easterwood also received his commission as a Second Lt., at Santa Anna, California, this month.

They are the sons of H. E. Easterwood of Temple, former resident of this city.

Pythian Sisters Met At The K. P. Lodge

On Thursday, August 5th, at the K. P. Lodge, the Pythian Sisters held their regular meeting to transact routine business.

Members present were MF, Willie Mae Privitt; Manager, Lora Barrett, Guard, Bernice Harwell; Protector, Katie Lou Ashley; PC, Myrtle Mitchell; ES, Mary Hurly; MRC, Verma Pruett; Michie Holly; Lee Anna Rainey; and Clara Wilson.

Mrs. Sally Turnbow, visitor, was also present for the meeting.

Lions Club Plans Entertainment for Wed. Afternoon

The Lions Club was well attended at the regular Thursday luncheon held at the Plaza Hotel.

The members heard a very enjoyable program at that time. Lion Fred Walker of Brownfield reviewed the "Lions International Convention at Cleveland, Ohio." Dennis Q. Lilly, deputy district governor of the Lions Club located at Brownfield, spoke briefly, as did Lt.-Col. Louis B. Reed of Fort Sill, Oklahoma.

Other visitors were Marvin Wilson of Sweetwater and Earl T. Williams.

Members discussed plans for the arrangement of a program for Wednesday night, August 18, when they will entertain with a dinner for the visiting dignitarians who are to appear on the dedication program presented Wednesday afternoon. The Lions also made plans to entertain the men of the A. A. F., Bombardier School Band of Big Spring.

The local club extended invitations to Lion members of nearby localities to attend the activities planned for Wednesday, August 18. Several out-of-town visitors are expected.

4-H Boys To Get Gilts In Sept.

The Sears' and Roebuck's pigs which were supposed to be received in May by nine 4-H Club winners, will be ready for the boys sometime around September 1st. Mr. Regenbrecht, swine inspectionist for extension service, has made arrangements so that plans will fit in accordingly.

Earlier 4-H winners did not have their gilts ready for the May distribution, consequently Jo Hall, Sears' and Roebuck's manager, approved the plan for purchasing larger gilts to give to the new bunch of 4-H winners.

J. I. Mathews Has Good Feed Crop

J. I. Mathews, long time resident and good farmer of the McCarty community, brought a well developed ear of corn to the Courier office this week. "I have 5 acres of corn", Mr. Mathews said, "as well as fair maize, hegari, kaffir, and an excellent cotton crop."

More and more evidence is piling up each day in Dawson County to refute the argument that the extreme hot and dry weather of recent weeks, has resulted in a complete loss to growing crops.

While everyone will agree that considerable damage has resulted from the dry weather, Dawson County will come through this fall with better than an average harvest. Look out for a wet December.

Mr. Mathews' record in Dawson County reveals that he assisted in the removal of Chicago to Lamesa in the early days.

Program Will Be Held At 2:30 p. m.

Hon. Cong. G. Mahon and Lt.-Col. Louis B. Reed Will Give Addresses

The memorial is progressing nicely and all appearances point to a successful day Wednesday, August 18th. Outstanding events for that day are the dedication, unveiling program and the bond drive, both planned to honor Lamesa men who are now in the Armed Forces.

The dedication and unveiling of the Honor Roll Board has been scheduled for 2:30 p. m., Wednesday and will take place on the north side of the Courthouse lawn. The program consists of the following:

1. Military Band Concert (concluded by National Anthem) A. A. F. Bombardier School Band of Big Spring.
2. Invocation — Chaplain of Lamesa Field.
3. Song, "God Bless America" — by assembly.
4. Religious program.
5. Introduction of guests — by Master of Ceremonies.
6. Address by Lt.-Col. Louis B. Reed.
7. Band Music — Quartett.
8. Address and Dedication of Honor Roll Board by Hon. Congressman George Mahon.
9. Song, "America" — by assembly.
10. Benediction — by Chaplain Patterson of Big Spring A. A. F. Bombardier School.

You'll enjoy this program and you will want to see the Honor Roll Board in completed form. Make arrangement to be on hand Wednesday at 2:30 p. m.

Also sharing in the outstanding events of the day is the bond drive which will be underway throughout the day, to show the respect felt toward local service men. The goal set for the bond sales is to have a bond purchased for each Lamesa man enlisted in the armed forces.

Booths will be set up in the local banks, and at the fronts of the different business houses around the square to make sales. Committees from the American Legion Auxiliary and the Dawson County Women of War appointed by Mrs. Annie Crow and Mrs. M. C. Lindsey, heads of these organizations, will be stationed at the different booths.

Obtain your bond from some of these women and show the loyalty and patriotism you feel for Lamesa men who are at the battle front and the war camps scattered throughout the country.

A-C J. C. Norris Is Taking Basic Flying

A-C J. C. Norris, son of Mr. and Mrs. W. M. Norris, is now at Perrin Field, taking his basic flying training.

He took his primary training at Ballinger, Texas.

Mr. and Mrs. Clyde Branon and children Tom and Sally and Miss Sue Reid of Paducah left Monday morning for Ruidoso, New Mexico, where they will spend several days vacationing.

St. Peter's, in Vatican City, is the world's largest church.

Victory Gardens Are Billion Dollar Victory Crop

By **ROBERT E. GEIGER**
AP Features Writer

Amazed agricultural experts, uncrossing their fingers, are calling the American Victory Gardner, with his billion dollar crop, the "miracle man" of 1943.

Through flood, drought and insect siege, in the east and in the west, in the south and in the north, the little man with the hoe is adding hundreds of thousands of tons of brightly colored vegetables to American menus.

As for timeliness, the crop reached many tables in the nick of time.

Good Supply

"If it weren't for the Victory Gardeners you wouldn't be able to buy an adequate supply of vegetables at any price," says John Brucato, chairman of the victory garden council in war-busy San Francisco. "Many people are eating produce exclusively from their gar-

17-Year-Old Youth Chooses Training

SOUTH PLAINS ARMY AIR FIELD, Aug. 16. (Spl) — South Plains youth 17-years-old now are being given the opportunity of choosing training in Uncle Sam's

den's. As for quality, the experts have been amazed at what an amateur can do with seed and a little ground.

"We have thousands of almost perfect gardens in Denver," says C. M. Drage, the special agricultural agent appointed to advise that city's Victory Gardeners. "The amateurs have stayed on the job like professionals and all summer long have watered, cultivated gardens and battled the insect pests. Very little insect, disease or climatic damage is apparent."

As for quantity, Mrs. Vernon Lamson, chairman of the New York City Victory Garden Department, says:

"The closest I can figure is that there are probably 400,000 gardens in the five boroughs and that they will produce, as a minimum estimate, a half ton each.

"These figures sound astronomical for a city but inspection of gardens in one small section alone completely convinces me that these amateurs are growing food in quantity and quality of which any professional can be proud!"

Millions Of Gardens

Receiving similar reports from scores of American cities and villages, the National Victory Garden Institute, through its president, Paul C. Stark of Louisiana, estimated 50,000,000 Victory Gardeners are attending 20,000,000 backyard and community gardens which will produce one billion dollars worth of food. This estimate of value, say the food experts, is conservative.

Lester Norris, chairman of the Illinois war garden committee, says thousands of gardens 30x50 feet are producing as much as \$65 worth of vegetables.

"Illinois gardeners alone are producing \$50,000,000 worth of vegetables from 1,000,000 gardens," he says.

George T. Donoghue, director of Victory gardens for the Chicago Metropolitan District, estimates there are more than 130,000 gardens, covering 1,700 acres in his territory.

"The crop yield from these, if only one pound per square foot, including succession crops, will be 55,000,000 pounds or 27,500 tons of fresh food," he says.

School Kids Help

Chicago school children, from fifth, sixth, seventh and eighth grades, numbering 14,062, are raising 500 tons of vegetables in city parks.

In addition, Chicago has 1,503 community gardens with as many as 800 families cooperating on single projects, and perhaps 50,000 families in the combined projects. The gardens vary in size from one to 32 acres. There are no less than 50,000 backyard gardens, says Donoghue, within the city limits.

On the far western side of the nation, San Francisco Victory gardeners have planted 60,000 backyard plots plus 500 community gardens in vacant lots. Picnic tables will be provided and families will be encouraged to take their outings there, working in the gardens. An exchange store also will be established where tools and vegetables may be exchanged among the 12,000 amateur gardeners.

Aside from the monetary value of the gardens and the fact that they helped to fill the nation's food bins in a critical moment, many also have added neighborliness at a time when it was an asset to the war effort.

"With gas and tire shortages, there's a shortage of recreation also," says Denver's Garden Consultant Drage. "The gardens helped to fill this need by substituting a work-hobby for pleasure-play."

"Vacant lot gardens became the gathering places for neighbors, forming sort of a miniature town hall in each block, where everything from the best cure for potato blight to politics is being discussed."

Religion Thrives In The Services

WASHINGTON (AP) — The extent of religious activity within the armed forces is disclosed in the recent report of the office of chaplains. In one month, nearly 100,000 services were attended by more than 5 million persons. There were more than 4 million "pastoral contacts." In addition, the chaplains performed almost 4,000 marriages; received nearly 3,000 professions of religion and distributed nearly 500,000 religious articles, Testaments and Bibles. Further, 33 field reports were missing from this summary.

expanding Air Force.

Youth of the area who volunteer now will be given a chance to finish their present semester of education, all of them waiting until they are 18-years-old before starting their training as pilots, bombardiers, navigators and other members of the Allied flying might.

The youths are advised to contact the nearest Aviation Cadet recruiting centers. Written consent of parents is necessary. Upon enlisting in the Air Corps reserve, the youths will receive special Aviation Cadet wings.

Any youth who enlists in this program will be given an opportunity to receive the finest possible training in the world today, leading to wings and commissions.

Further details may be obtained by writing or contacting the Public Relations Office at South Plains Army Air Field in Lubbock.

Wedding Bells

KEARNS FIELD, Utah (AP) — It seems the sergeants are the marrying kind. A check made at this Army Air Forces basic training center showed that in one month 24 officers and men were married to Utah girls. Of these 15 were sergeants.

OCCUPATION IS PRINCIPAL FACTOR IN DRAFTING DADS

By CHARLES MOLONY
Associated Press Staff Writer
WASHINGTON, Aug. 11—Selective service headquarters is preparing, D. C. Speaker said tonight, to make occupation the principal factor in determining the order of calls for induction into the armed forces, now that drafting of pre-Pearl Harbor fathers has been authorized after Oct. 1.

Speaker, unofficial authority, said that it is planned:

1. To extend the long-dormant "non-deferrable" list and make holders of certain "non-essential" jobs subject to call first, regardless of how many children they have, unless their induction would mean "extreme hardship and privation" to dependents.

2. To grant super-eligibility for occupational deferment to certain jobs and to certain industries engaged in direct production of war materials, such as airplanes.

Both the new non-deferrable and the super-deferment lists will be announced officially next Sunday, Speaker said, and will represent what war manpower and selective service officials consider about the ultimate step short of a general labor-draft for handling the manpower situation.

The double-edged action, Speaker said, will be designed to press draft-age men to shift to jobs in

industries more essential to the war effort by:

1. Putting a "penalty"—danger of speedy induction — on remaining in jobs listed as non-deferrable.

2. Offering a "reward" — comparative assurance of deferment — for moving into work designated as crucial to the war effort.

The super-deferment designations will take effect right away Speaker said, while the non-deferrable designations will have a delayed effective date—about mid-September — to give men in those jobs time to get into draft-protected war work or to register with the U. S. Employment service for it.

The new non-deferrable list, Speaker continued will differ from its predecessor in that it will deliberately designate some occupations requiring skill of a high order because persons possessing those skills are critically needed in the most vital war industries.

The original non-deferrable list, issued last April 1, was aimed at so-called non-essential workers such as night club employes and beauty operators, bellhops and bootblacks, chauffeurs and antique dealers.

Speaker said the action would not alter the plans for drafting fathers when supplies of non-fathers without occupational or hardship

KITCHEN CORNER

AP Features

To keep kitchen furniture clean go over the wooden parts frequently with a cloth dipped in warm soapy water. Wipe dry and then apply a reliable furniture polish. This helps keep the wood in good condition as well as improving appearance.

If you keep the broiler door open a little when cooking there will be less smoke from the broiling food.

Season meats just before they are removed from the stove. This applies to baking, browning, broiling or cooking in a small or large amount of hot fat.

To pep up the flavor of cooked lima, navy or green beans, add a little chili sauce or catsup just before serving. A tablespoon per 1-2 cups of beans is plenty.

Prunes pears and peaches combine nicely into a refreshing, nutritious salad for summer serving. Top with French dressing.

You can cut down the amount of sugar usually called for in rhubarb pie or puddings if you add some dates, raisins or prunes. The flavors go well together. Put about 1-3 cup raisins into each cup of diced rhubarb.

When putting peanut butter into cake, cookie or bread mixtures, make sure that the peanut butter is well blended with rest of ingredients to prevent streaks through the batter. The peanut butter can be creamed with fat or blended with liquid called for in the recipe.

Spiced honey butter makes a delicious spread for toast, biscuits or pancakes. Mix together equal portions of butter and strained honey.

deferment are exhausted, but would affect sharply the order in which they may be called.

Also, he said, it will open an avenue for the 6,500,000 fathers now laid open to induction after Oct. 1, to get deferment by moving into the "right" jobs.

Deferments gained by taking such jobs will last until replacements by men of non-draft age, or women, are available, Speaker said, observing that with labor reserves growing scarcer every day in many cases that should mean deferment for the duration.

Currently, there are some 3,000 jobs in 36 broad fields of activity entitled to special consideration for occupational deferment, and these will not be affected by the new super-deferment list, except that there may be some psychological devaluation of the deferment privileges of jobs merely classed as essential.

With the new set-up, there will for four draft classes on occupational lines. These, in the order of call for men holding them, will be:

1. Non-deferrable jobs.
2. A "no-man's-land" of endeavor embracing all jobs not otherwise listed.
3. Jobs holding "essential designation."
4. Jobs on the super-deferment list.

REJECTION OF MOST FATHERS IS FORECAST

SANTA FE, N. M., Aug. 11. (AP)—Maj. Gen. Lewis B. Hershey, selective service director, estimates that four out of every six fathers drafted will be rejected as physically unfit for armed service duty.

"I look for a comparatively high rejection rate among fathers for physical reasons," said Hershey, who is here for a conference with state draft officials. "The average age of fathers will be higher. If the average induction age is 24 now, it will probably be from 31 to 32 for fathers. As age goes up, so does the rejection rate for physical reasons. I think we will be lucky if 2,000,000 of the 6,000,000 fathers registered can meet military physical requirements."

Antiseptic Gloves Help U. S. Fliers

LONDON (AP)—Antiseptic gloves to protect and treat hand burns are the latest of the many rescue devices and medical issues which R. A. F. fliers are using, and which are supplied free to American airmen under reverse lend-lease procedure.

The gloves, which contain antiseptic and curative powders, are made of a secret new surgical material. They can be slipped on

heat, add 1-4 teaspoon cinnamon and 1-4 teaspoon grated orange rind for each 1-2 cup of mixture. Serve warm, poured from small pitcher.

easily without further irritating burned tissue, and they do not hamper hand movements. They were devised by William Stannard, who flew for Britain in the last war, and are kept in a small, blast-proof and non-inflammable envelope, which also holds morphine, burn cream for the face and a large dressing for body wounds.

READ THE RECORD OF ACTUAL PERFORMANCE

WE CAN OFFER eligible car owners the only synthetic tires backed by the experience gained from this car owner's test—B. F. Goodrich Silvertowns. In 1940, thousands of Silvertowns (in which more than half the rubber was synthetic) were sold to hundreds of car owners. They were put to work right alongside natural rubber tires. More than 80,000,000 miles have gone by... and these Silvertowns more than equaled the performance of the natural rubber tires. So—depend on the records of actual performance and get—all-synthetic B. F. Goodrich Silvertowns Come in and see this tire today.

EASY TERMS AVAILABLE IF YOU DESIRE

LIMITED STOCKS

Only B & C Book Holders Who Qualify For Tires For Essential Driving Can Get These Ameripol Silvertowns.

There still is a critical rubber shortage. Most synthetic rubber is needed for vital war requirements. Every American must continue to conserve rubber! Follow the five basic rules of tire conservation from the Office of the Rubber Director:

1. Drive only when absolutely necessary.
2. Keep under 35 miles an hour.
3. Keep your tires properly inflated.
4. Have them inspected regularly.
5. Share your car with others.

Earl M. Forrest Sends Poem Home

Editor's Note: The following is a poem to Mr. and Mrs. A. B. Forrest by their son, Coxswain, Earl M. Forrest, who is in the U. S. Coast Guard. Forrest, who has been in the service two years, is with the U. S. Fleet somewhere in the Atlantic. He is a former resident of Dawson County.

He sits in cozy comfort at the Garden rink
And braves the vicious ice floes that bobble in his drink.
They plow the wintry darkness huntin' subs with their "ashcans"
And in his cushioned luxury, he calls them "Hooligans."

They ran the surf at Oran and Casablanca, too
In flooded streets of river towns, they've saved a life or two,
They've kept the sea lights burning from Key West to St. Anne's
Yet from the ringside press box, he calls them "Hooligans."

They've never lost a troopship and the merchant seamen know
They'll keep the sea lanes open from here to Tokyo.
They kept a lonely beach watch, and foiled invaders' plans
But safe in Bleeks' or Ganzl's, he calls them "Hooligans."

Nobody had to draft 'em—they simply up and went,
Men with beard and graying hair, and kids with Dad's consent.
In tropic heat and biting cold they serve,—these Joes and Dans
But snug and smug in New York town, he calls them "Hooligans."

He's on the line for ten per cent in Victory Bonds and Stamps,
They'll give a leg an arm, a life—these oceanic tramps.
He sits and frets and moans and sweats about the ration bans
But they haven't guts to date, among the "Hooligans."

SCOTT'S CLEANERS LAUNDRY

Lamesa, Texas

Essential User To Get Needed Gas

Reduction of gasoline ration coupons — effective in Texas at 12:01 Monday morning — will not work a hardship on farmers, ranchers, other agriculturalists, and on workers needing home-to-work rations, Region OPA Administrator McCullough said at Dallas Sunday.

But he warned that rationing boards will give no automatic increases to offset the cut which reduces value of A, B, and C book coupons from four to three gallons. "Only justifiable increases will be made," he told reporters in a reduction-eve interview. "There will be no automatic increases of supplemental rationing by local boards to offset this cut," McCullough said, "or the purpose of the gasoline consumption curtailment — to give the entire country an equitable share — would be nullified."

MARRIAGE LICENSE

Those securing marriage licenses over the week end were Carl Broughton and Miss Naomi Smith, August 11, Hubert Lee Speck and Mrs. Doretha Edith Self, August 11, Joseph Jutte Banner and Miss Annie Lois Kirkpatrick August 11.

Mrs. E. V. Hick and children of Lubbock left Saturday for their home after a weeks visit here with her parents, Mr. and Mrs. A. H. Merrick.

R. L. Batson of Vancouver, Washington, visited here this past week with his father, N. L. Batson.

Mrs. Ida Wartham, and Mrs. R. C. Wilson and children of Sulphur Springs and Mrs. Lee Nelson and children of Fort Sumner, New Mexico, spent the week end here visiting in the home of Mr. and Mrs. Jack Ladd.

Miss Idona Smith returned Sunday from Fort Stockton where she spent several days visiting with relatives. Her neice, Miss Gloria Simmons returned with her for a visit.

Mr. and Mrs. Karl Cayton and son, and Mr. and Mrs. Sam Singleton and children are visiting in Ruidoso, New Mexico, this week.

Billie Jean Meyers left Friday for California where she will visit with her sisters, Mrs. Johnnie Smith and Miss La Nelle Meyers.

From Guadalcanal to Scapa Flow; Capetown to Laska's shores For more than one and fifty years they've fought the nation's wars Their honor in their service is as great as any man's Yet he thinks he's very comic when he calls them "Hooligans"

Now Dick is short for Richard, and Richard means the brave, But valor is a silly thing and leads but to the grave. So stay at home Poor Richard and save your old tin cans And leave the war to the fightin' men you call the "Hooligans."

Mrs. Rupert Austin and Mrs. Guy Cope spent the week end at San Angelo visiting with their husbands, who are stationed at San Antonio.

Mr. and Mrs. W. S. McNew, and Mrs. Clyde Bailey spent Sunday in

Hobbs, New Mexico, visiting with their sister, Mr. and Mrs. H. B. Dean.

Mr. and Mrs. J. Fred Dahnke and Miss Juanita Flenniken spent the week end at Ropesville visiting with relatives.

ARE YOU SUPERSTITIOUS?

Well, we didn't think we were either, up to last FRIDAY THE 13TH. And we won't be still if the good customers who bought the Scott Air-Plane Type Spray Nozzles that regularly sell everywhere at \$1.25 each from our in-experienced clerks at 20c will come in and correct the deal in part. It happened while the owner had gone away over Thursday and Friday to try to get a little more merchandise the people are asking for and needing so badly. The loss to us on the 100 sold is \$105. Under the circumstances, we will be glad to adjust with all who bought at that price on the basis of 95c per nozzle, which would still be a saving to the purchaser of 30c per nozzle. Or we will pay each purchaser back what he paid the clerks and 25c extra on each nozzle. Either adjustment would leave us with a little less loss, the purchasers with a bargain, and each with a conscience that he could sleep with.

THANKS.

Special Day Is Proclaimed For Lubbock School

SOUTH PLAINS ARMY AIR FIELD, Aug. 16. (Spl) — Governor Coke Stevenson has proclaimed September 2, 1943, South Plains Army Air Field Day in Texas.

Gov. Stevenson in his proclamation said: "By virtue of an intensive and ambitious training program carried out under the direction of its commanding officer, Col. Norman B. Olson, SPAAF has become "the Home of the Winged Commandos," known as such throughout the nation, and has proved that the military glider is safe, practicable and effective."

The governor further pointed out that "more young, expert glider pilots have been graduated from the South Plains Army Air Field than any other place in the world, including those youthful fighters who have flown, are flying and will fly American gliders in the invasion of Europe."

A special program is now being planned for September 2. It is hoped that leading civilian and Army officials will be on hand for the occasion.

This is the second such honor for the field, a similar tribute being paid last year.

Miss Dorothy Pool of Lubbock spent the week end here visiting with friends.

Lt. James Farmer of Carlsbad, New Mexico, spent the week end here visiting with his parents, Mr. and Mrs. John Farmer.

Sgt. Skeet Noret of Big Spring spent the week end here visiting with his parents, Mr. and Mrs. Ed Noret.

Mrs. A. J. McDaniels Sr., returned this past week from Amarillo, where she visited with Mr. and Mrs. Tom Tillman several days.

Mrs. C. L. Bankhead and daughter returned this past week from Amarillo, where she spent several days visiting with relatives.

Lamesa Field Has 5 New Officers

Men receiving promotions at the Third AAF Liaison Training Detachment, Lamesa Field are Captain Merle J. Carroll, assistant air forces supervisor, who held the rank of first lieutenant; and Captain Robert R. Reilly, former public relation officer, now commandant of students.

New officers at the field are Second Lt. James F. Black, former resident of Abilene, who is an assistant air forces supervisor; Second Lt. Frank O'Neill from Boston, Mass., who is the intelligence officer replacing Lt. Ford; First Lt. Douglas F. McDowell is the new assistant post surgeon, replacing Lt. Carl Paul.

Pythian Sisters To Hold Meeting Thurs.

Pythian Sisters will hold their regular meeting Thursday night, August 19, at 8:30 at the K. P. Lodge Hall.

At this time they will initiate several new members. All other members are urged to attend.

Report Of The Oil Showing In County

Darby Petroleum corporation No. 1 Mrs. Annie A. Harris, 440 feet from the south and west lines of labor 16, league 268, Moore county school land survey, in southwest Dawson county, about 12 miles southwest of Lamesa, is drilling below 4,050 feet. It has approximately 1,500 feet more to drill under present contract for a 5,500-foot hole.

Gulf Oil Corporation No. 1 Mrs. Carrie Slaughter Dean, at the center of the northeast quarter of the northeast quarter of section 30, block 1, Poitevant survey, T-6-N, and 11 miles northeast of Lamesa is drilling around 5,930 feet. This operation is scheduled to drill 9,500 feet.

Pvt. Roy G. Futrell Is At Kessler Field

Word was received this week that Pvt. Roy G. Futrell, son of Mr. and Mrs. Grover Cleveland Futrell of 1404 North Street, started his recruit drill this week in the Basic Training Center.

He is located at Kessler Field, Biloxi, Mississippi, a unit of the Army Air Forces Training Command.

Budget Hearing to Be Held Friday, Aug. 20, at 8:30

The budget hearing for the public on proposed expenditures and receipts for Lamesa Independent School District preparatory to setting school district tax rates for 1943, is scheduled for Friday night, August 20th at 8:30 p. m. The meeting will be held at the Tax office of the local school district which is located in the E. C. Nix Building.

The president of the Board of Trustees, E. W. Renner, is the budget officer under the Texas Budget Law.

The number of pupils on the approved rolls for next term is 1879. There are 66 white and 35 colored transfers additional, and four districts, including, Gail, Sunset, Bartlett and McCarty, which send pupils to either the Lamesa High School or both elementary and high schools under contract agreements to give the Lamesa school an anticipated enrollment of 2,000 or slightly more pupils. This will require a faculty

Social Security Observes Its 8th Anniversary

SAN ANTONIO, Aug. 14 — In connection with the observance of the eighth anniversary of the Social Security Act, it was announced by the Social Security Board today that the war has had little effect on the public assistance program set up under that system and administered by the States in cooperation with the Board. For the country as a whole the number of recipients of old-age assistance has declined less than 2 per cent; many States have increased the size of payments because of higher costs of living. A decrease of about 20 per cent in the number of children receiving aid was reported. Payments to the blind remain approximately the same.

Monthly payments to recipients in June 1943 (in State and approved plans) from Federal, State and local funds were as follows:

\$53,385,000 to	2,181,700	needy age
1,390,000 to	53,800	needy blind
\$11,717,000 to	739,000	dependent children in 302,800 families

\$66,492,000.

Cumulative payments under the program from Federal, State and local funds, February 1936 to June 30, 1943, are shown below:

\$3,198,267,219	to needy aged
\$ 92,278,975	to needy blind
\$ 797,336,656	to dependent children

\$4,087,882,850.

Grants to States, February 1, 1936, through June 30, 1943, were:

\$1,680,103,615	for old-age assistance
\$ 47,193,187	for aid to blind
\$ 325,002,726	for aid to dependent children

\$2,052,304,528.

Nine Re-classified By The Local Board

At its regular meeting on August 12, the Selective Service Board made these classifications:

Men designated to appear for physical examinations are William Smith, Charles Bussell, Hiram Ruggles, Owen Taylor, Jr., and James Aten.

Allie Drury received a 1-A rating and Virgil Page and Leon Herbert Richter are now 2-C. Allen Steelman received a 4-F classification.

American soldiers eat nearly twice as much as civilians.

DO YOUR SHARE AND SHARE THE JOB

Cotton growers, front-line fighters on the production line that is supplying oil for food, linters for munitions and meal and hulls to produce "Food for Victory," hold key positions in today's war.

Our mill recognizes this and we wholeheartedly pledge ourselves to do everything possible to help you and your neighbors do the best possible job. Three things that will help everyone—and help to win the war—are:

.....1.....

Prompt marketing of cottonseed with the assurance that you, as a cotton grower, have a "priority" on the feed products of your seed so that **you will get the amount of meal and hulls you absolutely have to have for your livestock.**

.....2.....

This prompt marketing of cottonseed for processing will make the meal above your own requirements available to dairymen, beef cattle raisers and other livestock producers of this section. **The only possible way for livestock producers to continue in business is for cotton growers to share the cottonseed meal produced from their seed in excess of the actual needs of their own livestock.**

.....3.....

Conserve your feed by feeding no more than is actually necessary, by avoiding waste, by "culling out" inefficient animals, by growing legume pastures, and in every other way recommended by County Agents, Vocational Teachers and other authorities.

These three steps — which you can take with the utmost confidence that our mill will assist you in every possible way in meeting your own feed requirements — will materially help to solve the feed problem.

Sell your cottonseed to the gins as you gin your cotton in order that the seed may move into the **OIL MILL** so that you may secure feed as soon as possible and that other needed materials may be produced promptly for the armed forces and war industries.

We take pride in the fact that no Dawson County farmer has ever come to our mill for meal and hulls and gone away empty handed.
