Arrest in Brillhart Cattle Theft

Cattle Recovered at Buffalo, Okla.; Two Arrested at Guymon

With the arrest of R. L. Webster Backus and Cyrus Hayes at Guymon Wednesday afternoon by Sheriff Owenby of Buffalo, Harper county ,local officers feel that some of the recent cattle thefts in this area will be solved.

When employees of H. C. Brillhart went to work at the Brillhart place south of Perryton Tuesday morning they discovered that some cattle had been hauled away Monday night. They did not know the exact number as Mr. Brillhart was not there and he was the only one that knew how many head were in the pasture. When Mr. Brillhart returned from a hunting trip, it was found that 13 head were gone, nine steer and four heifer weaned calves.

The loss was reported to Sheriff Talley's office but no trace was found until Tuesday afternoon when the Buffalo sheriff called and wanted to know if any cattle were missing down this way. In the meantime, Deputy Sheriffs Fred Huston, F. L. Garrett, D. D. Taliaferro and State Highway Patrolman Sam Fort had taken casts of the tires left by the truck that hauled the cattle away.

The cattle were hauled to Buffalo and sold to the operator of a sales ring in Buffalo for $657.00. When the cattle were put up for sale, a buyer present raised the question

Oct. 4-10, Fire Prevention Week in Texas

AUSTIN—Gov. Coke Stevenson has formerly proclaimed October 4 to 10 as "Fire Prevention Week" in Texas.

Citing the urgent necessity for preventing fires during time of war, Gov. Stevenson said, the production of materials essential to the prosecution of the war by our nation is taxing the capacity of industrial plants, and curtailment of production because of fire becomes a menace to our own safety."

The Governor called upon Texas citizens and various local organizations to emphasize the danger of fire and to encourage fire prevention.

Commenting on Fire Prevention Week, Marvin Hall, State Fire Insurance Commissioner, suggested that every Texan accept individual responsibility in adopting fire prevention measures at home and at work.

"According to the official proclamation," Hall said, "Fire Prevention Week has special significance this year. The defense of factories, farms and homes against destruction by accidental fires is essential to the war production program and conservation of vital resources.

"There is another reason why we are preventing fires. We are now receiving dividends of lower insurance rates—the result of preventing fires. In order to keep the low fire insurance rates now in effect, it will be necessary for us to prevent fires in the future."

District Meet of Christian Churches

A district convention of the Christian Churches throughout the Panhandle will convene in Amarillo October 9 for an all day session. Several car load of Perryton delegates are planning to attend.

Anyone wishing to make the trip is asked to get in touch with Mrs. Debi Riley, phone 188.

Tire Applications Not Carried Over by Board, Month to Month

Persons who made applications to the Ochiltree County War Price and Rationing Board before Sept. 15, for tires and tubes, must make new applications if they still need same. Under revised regulations, local boards are not allowed to carry over unfilled applications from month to month. Unfilled applications are taken out of the active file and placed in the unfilled file. New applications must be made. This is a nation-wide order and local boards cannot vary from the regulation.

Indict Hardin For Brake Murder

Oklahoma Youth to Trial Jan. 4 for Killing Perryton Man

Paul Hardin, Oklahoma youth charged with the killing of A. L. Brake, Perryton man, 10 miles north of Panhandle, Texas, April 13, was indicted for murder by the Carson county grand jury at Panhandle, Sept. 21.

The indictment was served on Hardin in the Gray county jail at Pampa. He is charged with "unlawfully and voluntarily and with malice aforethought of killing A. L. Brake by shooting him with a pistol."

Brake's lifeless body was found by the side of Highway No. 117, early on the morning of April 13. He was returning from a defense plant job in California to his family in Perryton and was going to take them back to California with him.

It is charged that the accused hitch-hiked a ride with Brake in Amarillo and killed him shortly afterwards north of Panhandle, stealing the victim's car, later found wrecked and abandoned north of Perryton. Hardin was arrested at Flagstaff, Ariz.

According to the Panhandle Herald, Hardin will not be tried before the January term of the court which convenes Jan. 4.

Red Cross Ship Army Garments

Under the direction of Mrs. Henry Richardson, knitting chairman of the local Red Cross Chapter, a second shipment of knitted garments for our armed forces has been completed and was sent to headquarters during the past week. Included in this group were 30 sweaters, 20 pair of sox; 30 helmets and 5 mufflers.

The first finished garments of the olive drab yarn, which is used for the men in the U. S. service was sent in June. This second shipment brings the total sent to 90 sweaters; 70 pair of sox; 30 helmets and 5 mufflers. There is a supply of yarn on hand in khaki, red, green and brown and garments yet to be completed include 75 refugee sweaters; 60 helmets; 50 pair of sox and 20 sleeveless sweaters.

The names of those who knit the service garments just mailed and the amounts each made are: sweaters, two each, Mrs. Geo. Jackson, Miss Eugenia Mitchell, Mrs. Harry Nail and Mrs. J. F. Cox; one each, Mrs. G. L. Kengle, Mrs. Arvie Hale, Mrs. Irvin Hergert, Mrs. A. N. Dowers, Moina Caldwell, Elizabeth Huffhines, Mrs. J. L. Bryan, Mrs. H. C. Brillhart, Mrs. W. L. Lovett, Nellie Wingren, Mrs. Lorena Kutch, Mrs. L. H. Lance, Mrs. W. C. Herndon, Mrs. Frank Keith, Mrs. E. L. Whippo, Mrs. B. B. Lee, Mrs. E. B. Gyger, Mrs. Clifford Beck, Mrs. J.

Four Enlist in Service; Ten Selectees Leave Wednesday

Four men from Ochiltree county have enlisted in the U. S. army and navy. Harry Theodore Miller of the Waka community was accepted Sept. 22, at Lubbock by the Army Air Corps as a specialist. Mr. Miller was born July 17, 1899, Douds, Iowa, and his enlistment papers show him a carpenter by trade.

Alfred Delaney Rose, born April 3, 1902, Coldwater, Miss., enlisted Sept. 24, in the navy at Dallas. He worked as a farm laborer for R. A. Bowers.

Clarence Ray Morris, born Mar. 7, 1922 in Perryton, enlisted in the navy, Sept. 28, Dallas.

Victor Houston Halliburton of the east part of the county with address at Booker, enlisted in the navy, Sept. 26, at Dallas. He was born Jan. 5, 1916 in Beaver county, Okla.

The following men left Wednesday morning for induction into the army at Ft. Sill, Okla.: Floyd Jines, Billy Bert Sanders, Oren Milton Gatewood, Cecil Williams, Clarence Burdean Yadon, Jerry Mire Shelton, Walter Allen, Herbert Dale Newman, Jake Kammerer, and Elmer Loyd Smith (transferree from Oklahoma).

Alva Leonard Dutcher, Lew Butler Collins, Frank McKillips and Vernon Clyde Burgess will leave Tuesday, Oct. 6, for induction into the army at Ft. Sill.

IN STEP WITH JOHNNY DOUGHBOY

Children Enlist in War Effort

Chapel Program This Afternoon Signs Up For the Duration

The Perryton Public Schools have enlisted for the duration with the Schools at War program, sponsored by the Treasury Department and the U. S. Office of Education and its wartime commission. In celebration of "joining up" the chapel program at 2:30 o'clock this afternoon will be devoted to a presentation of the schools participation in the war effort for the term.

The general staff for the chapel program and all war activities will be the Victory Club, an organization of high boys and girls, who are the shock troops for the advance on the enemy.

Officers of the club are: Bob Bray, president; Jack Parker, vice president; Peggy Thomas, secretary; Helen Marie Hudson, treasurer; G. K. Rupprecht, reporter; Members are Bill Allen, Don Ellis, Laverne Crowe, Shannon Daniel, Gail Rogers, Edwin Pletcher, Wilbur Cotner and A. J. Eudy.

Freeze Rubber Boots and Work Shoes

Effective at midnight Sept. 29, the OPA ordered all sales and shipments of six types of men's rubber boots and rubber work shoes frozen to prevent a buyer's "run" on the stocks now on hand and also to give dealers time to take inventory.

All retailers, wholesalers, and manufacturers of the rationed footwear are required to obtain OPA inventory forms from their local War Price and Rationing Board on either Thursday, Friday or Saturday of this week.

The "freeze" period will end on Monday, October 5, when rationing to customers begins. The Ochiltree County War Price and Rationing Board will be open to workers and company purchasing agents who need certificates entitling them to buy the rationed footwear.

To get a certificate, the applicant must fill out two copies of a form

See No. 6, Back Page

Local Woman is Club President

Mrs. Kathryn Mounts was elected president of the Community Service Club, Saturday, on the second ballot and received $25 for the weeks salary. Finley Hamman was chosen first but because of non payment of the ten cent weekly dues, could not qualify.

The service club, sponsored by the American Legion, is a charity organization. The salary for Saturday, October 3 is $50.00.

Ochiltree County Red Cross Chapter Makes Fine Record in Service Kit Contributions

Salvage Old Keys

Every home, business and office has many old discarded keys. The metal used to make keys is of vital importance to the government for the manufacture of munitions and implements of war. Now the government is asking that you donate these old keys to the USO, who will sell the metal and apply the proceeds for USO work. You'll find handy containers at the First National Bank and the Herald office. Bring in your old keys today.

The voluntary donations received by the local Red Cross Chapter during the past ten days to fill and supply Service Kits for all men leaving for foreign army has reached a total of $827.00.

Folowing is a list of all donors to Wednesday morning. This list does not include the names of the faculty members as listed in last weeks paper.

Many Dollar Contributions

Lida R. Mulkin, Helen Doerrie, Mrs. T. J. Morgan, Viola Glaspie, Everette Deeds, C. U. Pope, R. H. Francis, Mr. and Mrs. Wm. Jennrich, Mrs. Sue Ragan, D. W. Dunnihoo, J. S. Slaughter, Pete Osborne, Bryant Flowers, W. M. Boston, Mrs. O. H. Tallman, Lucille Rupprecht, Lee B. Carter, E. W. Hearn, W. E. McMillen, Joel Nelson, Robert Howard Holt, Mrs. G. D. Holt, Mrs. J. H. Norwood, C. C. Carter, Letha Corbin, Mr. and Mrs. Arvale Hale, Mr. and Mrs. C. R. Hartman, Bill Monn, Jack Atchinson, C. A. JUST HERE and THERE

When the administration sincerely and honestly attempts to stabilize wages, especially in defense industries, then we will endorse the administration's fight against considering prevalent high farm labor prices in arriving at fair selling prices for farm products.

We say that if the administration had any intention of stabilizing wages, then there would be no danger of inflation from allowing the price paid for farm labor to enter into the parity price problem.

Stabilization of wages, as we understand it, would eliminate the present high wages being made to incompetent and inexperienced help on the farm and in every line of business and industry.

Stabilize wages and the price paid for farm labor will not raise farm production costs even tho the administration prevents it from becoming a part of the law. Leave the farm labor wage out of the parity price and farmers get this ultimatum from their government: "We care not a tinker's damn as to what it costs you to produce but we are telling you what you'll receive for your products, even though high farm wages compel you to produce at a loss."

Farmers don't like it, Mr. President, it stinks, if you want to know what we think about it.

Industry is permitted to raise their prices as cost of production goes up. Union labor strikes when they consider wages do not go up as cost of living costs increase. Most defense work is on a cost plus basis. Yet the administration says that cost of production must not enter into the price a farmer receives for his products.

The administration, through their "wishy-washy" methods, has let wages soar. Fuzzy faced boys and inexperienced girls are being paid from $50 up per week in defense plants, high wages that are often spent in honkey-tonks and hot spots. Men and women, who

Navy Recruiter In Perryton Every Week

Chief H. P. Longabach of the Amarillo Recruiting Station of the U. S. Navy was in Perryton today. He says that there will be a recruiting officer in Perryton on Thursday of each week. He will maintain headquarters at the Selective Service office in the courthouse, hours 9 a. m. to 4 p. m.

Due to the shortage of help in Amarillo office, it has been several weeks since a recruiter for the Navy was in Perryton.

Former Beaver Co. Boy is Missing

Wendell L. Beckwith, former County youth is reported missing in action, according to information received this week by his uncle, Earl Enterline, of the Twichell community. Wendell, is a son of Mr. and Mrs. G. H. Beckwith, Seminole, Okla., who lived near Balko, Okla., until 1936. He attended the Balko school.

The letter from his parents to his uncle stated that he lost his life on the U. S. Destroyer Calhoun. The first word the parents had was over the radio September 5, when he was reported missing. Later they received official notice from the government that he was missing in action.

Another son of the Beckwiths, Lavan, is in the air corps now in Australia. There are several relatives in this area. The grandparents of the two young men reside in Beaver, Mr. and Mrs. S. Enterline.

Sunday dinner guests of Mr. and Mrs. Leon Shrader were Mr. and Mrs. Otis Shearer, Mr. and Mrs. James Brillhart, Kathryn Louise and Mary Bess, and Mr. and Mrs. Claud Shearer and Otis Claud.

Please Return Your Sept. 24 Herald if You Do Not Want It!

The Herald made a poor guess on the demand for extra copies of last weeks Herald, devoted to the men from the Perryton area in the service. With over three hundred copies ordered before our presses started running, we printed an extra 650, but these were gone by Saturday night. We have many calls from relatives and friends of "men in service" who want extra copies for permanent filing so we are asking that persons having copies, that they do not intend to keep, to please return them to the Herald office and we will give them to persons wanting same. We have a number of copies on hand that were reserved but have not been taken out of our office. Some of these were paid for in advance, others were not. All reserved copies in our office on noon, Saturday, Oct. 3, that are not paid for, will be sold. Persons wishing extra copies are asked to call the Herald as we are keeping a list and will try to fill all orders.

Lions Tribute To Lt. Kelley

Lt. E. D. Kelley, president of the Perryton Lions Club turned his office over to A. P. McCelvey at the Tuesday noon luncheon. He leaves today for Miami, Fla., where he will report for duty in the United States Army Air Corps.

Glen McGibbon and J. H. Woodward outlined the program paying tribute to Lt. Kelley. Patriotic songs were sung by members of the club led by I. R. Buchanan. Max W. Boyer in a speech paid tribute to Lt. Kelley in behalf of the organization.

Miss Elizabeth Jameson, music teacher in the Perryton Schools will play the piano for the Lions Club during the coming months.

Methodist Church Dedicates Service Flag, Sunday

A dedicatory ceremony will be held at the Methodist Church Sunday morning, October 4, in placing a service flag in the Church auditorium in memory of the gallant young men in the service of their country. The entire congregation will take part in the delication.

There will be approximately 60 stars on the flag. Those are men connected with the church by actual church membership, membership in the sunday school, or from the homes of Methodist families. The pastor requests that if there are others whose names have not been handed in he would like to have them at once. All are eligible who are connected with the church

Utilize Surplus Grazing for Feeding Sheep

Many Lambs and Ewes Shipped in; Feeding For Fall Shipments

County Agent E. W. Thomas reports that Ochiltree county stockmen are using sheep to eat their surplus grazing crops. Many thousands of lambs have been shipped in from the range sheep country during the past 60 days for grazing on sudan, volunteer wheat, stubble and sorghum fields. For the most part the lambs are thrifty and making satisfactory gains.

Among those who have shipped in lambs are the following: J. S. Slaughter, C. W. Barker, J. H. Kershaw, Harlan Hawk, T. M. Osborne, R. H. Holland, Harold Hawk, L. R. Conner, Luther Wade, W. M. Deck, Herman Hargrove, Merton Smith, N. P. Dear, Leonard Wright, M. W. Truax, O. C. Rogers, G. M. Cooper, Ecton Lawrence and H. C. Brown.

Breeding ewes have been shipped in by the following: Herman Hargrove and Merton Smith, O. C. Rogers, R. H. Holland, Roy Jeoffrey, Ecton Lawrence.

In addition to the lambs which have been shipped in, several thousand lambs raised in the county will go to market as finished lambs within 30 or 60 days. Most of the shipped im lambs will go to market prior to Jan. 1.

Raise Minute Men Flag at Gray Sunday

Gray Booster Station Wins Award Through War Bond Sales

The general public is invited to attend the "Minute Men" flag raising ceremony at the Natural Gas Pipeline Co. booster station west of Gray, Sunday afternoon, Oct. 4, 3:30 o'clock, so announces Ronald Hendry, station superintendent. The "Minute Men" flag is awarded by the United States Treasury to organizations that have enrolled one hundred per cent of their employees on the payroll deduction plan for the purchase of U. S. War Bonds.

O. H. Pruett, chairman of the Beaver County War Bond committee, will present the coveted flag. A patriotic program has been arranged for the presentation. The program will consist of formal flag raising, pledge of allegiance to the flag, and an address by Mr. Pruett.

Carl Ellis, chairman of War Bond sales in Ochiltree county, and M. R. Coffee, Perryton Postmaster, have been invited to attend the ceremony.

Mr. and Mrs. Harold Wimber and daughter, Carolyn, of Hobbs, N. M., came in Friday for a visit in the Al Ackley home and with other Perryton friends.

Stevens Succeeds Kelley; Thompson Succeeds Stevens; Truax Resigns Faculty

The resignation of 1st Lt. E. D. Kelley from the principalship of the Perryton High School when he left this morning to report for active duty with the United States Army Air Corps at Miami, Fla., was the signal for a general shake-up among faculty heads.

Martin L. Stevens, former superintendent of the Booker schools, who started this year as principal of the elementary grades of the Perryton schools was promoted to succeed Lt. Kelley as senior high school principal.

Doyle Thompson, who came to Perryton this year as Junior High coach from the Waxahachie, Texas schools, has been named by Superintendent C. Wedgeworth to succeed Mr. Stevens as principal of the elementary school. The subjects taught by Kelley are being assumed by various faculty members.

Glenn A. Truax, now serving his third year as director of the Music department of the Perryton schools, has submitted his resignation to the Board of Education. It was accepted with the understanding that Truax would remain until a successor could be obtained. Mr. Truax will go to the North Texas State Teachers College, Denton, as band director. He will also direct the bands of the Denton High School. While this is a decided promotion and a well deserved honor for Mr. Truax, his going will be a blow to Perryton musical organizations. Mr. Truax is without question, the Panhandle's best band director.

In Red Cross Work

Rev. W. C. Elizey, son of Mr. and Mrs. T. V. Elizey of the Wolf Creek country, is now stationed at Ft. Sill, Okla. as an assistant Red Cross Director. Rev. Elizey was formerly pastor of a Methodist church in Colorado Springs, Colo. He was here last week to get Mrs. Elizey and baby who have been visiting at the Elizey Ranch for the past month. Mrs. T. V. Elizey returned with them to Oklahoma where she will visit with her mother at Hobart.

Speed Limit 35 Miles in Texas

O. C. Watson Jr., section foreman for the Texas State Highway Department, stated late Wednesday afternoon that crews working out of the Perryton headquarters have removed all speed limit signs reading over 35 miles per hour.

This was in readiness for the national 35-mile per hour speed that went into effect this morning. Mr. Watson states the 35 mile limit signs will be put up on all state and Federal highways in Texas just as soon as they can be painted.

The order to remove signs allowing speeds of over 35 miles per hour came direct from department headquarters in Austin.

Mrs. Cecil Sharp Funeral Services

Funeral services for Mrs. Cecil Sharp, former Perryton resident who died Sept. 21, San Pedro, Calif., were held at the Perryton Full Gospel church, Friday afternon at 3:30, with Rev. Jack Barker, Laverne, Okla. officiating. Interment was in the Blue Mound cemetery.

Pallbearers were Ben Barker, Laverne; Jim Depew, Marshall Stone, Tom Weldon, Mitchell Modrick and T. R. Murray.

Flower girls were Emma Lee Weldon, Opal Murray, Anna Lehman, Wanda Sheppard, Venita Townsend and Mildred Stone.

Mrs. Sharp had been in poor health since January of this year.

Miss Elsie Mae Hull was born Feb. 11, 1901 at Morrison, Okla. to Mr. and Mrs. J. C. Hull. When a small girl she came to Beaver county, Oklahoma, with her family in 1905, her parents settling on a homestead just across the state line north of Perryton.

She was married Sept. 6, 1916 to Cecil Sharp. The Sharp family moved to Perryton in 1927 from their farm. They had been back on their place for several years before moving to California last April.

Jabez Called on the God of Israel
I Chronicles 4:10

There is very little said about Jabez in the word of God, in fact there are only two things mentioned. One of them is found in the ninth verse of this same chapter of our text, which is that Jabez was more honorable than his brethren.

The other characteristic mentioned about Jabez is found in our text. He prayed. Jabez called on the God of Israel. I heard a noted teacher say that, "the most honorable thing a person can do is to pray or call on God."

I notice four things for which Jabez prays: First, its a personal need; "Oh, that thou wouldest bless me indeed." It is true we can become self centered very easily, however there are times in a person's life when they should pray for themselves. When the love for God and man is not as fervent as it ought to be, we must needs pray for ourselves. When a person is going through a trial, a time of sorrow or disappointment, I believe it is very much in order for one to pray for himself.

The second thing Jabez prays for is "enlarge my coasts," that is let me be of greater help to more folk. Help me to reach beyond a little circle of friends in my corner of town or in this corner of the school district. Lord enlarge my coasts.

The third request is that: "Thine hand might be with me." Wanting God's presence wherever he went. We ought to so live that God will go with us wherever we go and not only that, but that we will earnestly desire his presence wherever we go.

Fourth: "That thou wouldest keep me from evil." Someone has said that there are pit falls on both sides of the road that leads to heaven and we most assuredly need the help of the Lord to discern the good from the evil.

In conclusion let us pray with Jabez these words, "Oh that thou wouldst bless me indeed, and enlarge my coast, and that thine hand might be with me, and that thou wouldst keep me from evil—and God granted him that which he requested." God is no respector of persons. He will answer your prayer as He answered Jabez's prayer.

Christian Science

"Unreality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 4.

The Golden Text is: "He that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting" (Galatians 6:8).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him . . . And the world passeth away, and the lust thereof; but he that doeth the will of God abideth for ever" (I John 2:15, 17).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Man walks in the direction toward which he looks, and where his treasure is, there will his heart be also. If our hopes and affections are spiritual, they come from above, not from beneath, and they bear as of old the fruits of the Spirit" (page 451).

OFFICIAL NEWSPAPER OF PERRYTON SCHOOLS — PERRYTON, TEXAS, THURSDAY, OCTOBER 1, 1942

News of the Perryton Schools Reported an Edited by the Student Staff.

Victory Club to Sell War Savings Bonds, Stamps

Physical Education Program

Physical education has been set up in Perryton High school on a basis for giving students a credit upon graduation. Students will take physical education three periods a week as follows: One period of lectures on health, hygiene, posture, and carriage. One period each week in the gymnasium. One period in military drills. This is in keeping with a nationwide program designed to improve the physical condition of boys and girls upon graduating from high school.

The present war has revealed that a very poor type of physical training has been taught in our public schools. This has become a mandatory course in all high schools today.

Tom Slack and George Philbrick will have charge of the physical education program with the assistance of other faculty members.

C. Wedgeworth, Superintendent, had the following to say on physical education when interviewed by a member of the Journalism Class. "Our schools today are facing one of the most trying periods since the beginning of free education in America. Good teachers are going at a premium and can hardly be obtained at any price.

"School revenue is being curtailed through the rationing of gas and other commodities. The public in general is jittery; both students and teachers are at unrest.

"It now behooves us all to set ourselves to the task of making our school program stand up. The educational program must go on. Let us all put forth greater effort in our work than ever before."

Student Farewell To Lt. Kelley

Uncle Sam has called again. This time it's farewell to E. D. Kelley. The students of Perryton High assembled in the Sr. High Study hall Monday, Sept. 28, at activity period to honor Mr. Kelley with a program and gifts, pencil, utility case, brief case.

The program was given as follows: Edwin Pletcher, master of ceremonies; Music by the auditorium band; Talks of Appreciation: Angie Nell Tevis, Mildred Forbes, Helen Hudson, C. H. Williams, S. N. Henry, Opal Pearl Murry, Bob Bray, Verna Harris, Bobby Zenor and C. Wedgeworth. Presentation of gift, Wilbur Cotner; group singing, "Star Spangled Banner." The students joined hands and gave the school slogan for the year, "I will work, fight and give to preserve Democracy."

SHADE OF THE HAT

Arvada Russell was in a car wreck Sept. 23 and luckily was not injured.

O'Neal Wilson underwent an appendectomy in the local hospital Wednesday, Sept. 23.

Harriet Vogt and Gladys Smith, both juniors, have married. They will not return to school.

Lefty Lee, who is attending Texas A. & M. was on the campus Thursday.

Miss Helen Fitch, the senior high librarian, is giving lectures to the seventh grade on the use of the library.

It is believed that Paul Hale has joined the navy, anyway he has been absent for several days.

Leon Engleman has a leg injury. This kept him from playing football this year.

Doyle Thompson's son, David, broke his arm in a fall. He seems to be getting along fine.

The local P. T. A. had their first general meeting Monday night, Sept. 28. This was followed by the reception of the faculty.

Mrs. O. A. Schuster, Mrs. W. B. LaMaster, and C. Wedgeworth attended a district board meeting of the P. T. A. in Amarillo, Saturday, Sept. 26.

Misses Eugenia Mitchell and Myrtle Lois Pearson were in Amarillo over the week-end.

Grade School Chapel

Grade School chapel Thursday, Sept. 24, was presented by Room 5A with Dale Hoover acting as master of ceremonies. Mrs. Sam Fort had charge of chapel and gave a patriotic and musical program titled, "Our Flag."

The program follows: "The Star-Spangled Banner," class. A short history of "Our Flag," Bobby Dear, Wanda Hoover, Don DeArmond, Ella Firestone, Gene Caldwell, Nancy Lee Dodd, Richard Blackmore, Choella Dunham, Bob Dunlavy and Anna Cheek. "America The Beautiful," class. A reading, "Our Flag," Connie Kershaw. "America," class. "Why I am glad to be an American," Harry Helfenbein, Roberta Doggett, Gary Conley, Theria Hargrave, Terry Cook, Nan-

The War Savings Bond and Stamp drive for the ensuing year will be lead by the Victory Club. All people in school are urged to buy their bonds and stamps from this club.

The bond bank, as it will be called, will be in the El Sombrero office across the hall from the principal's office. The sale started Thursday, October 1.

At the last meeting of the Victory Club, rules and regulations for new members were made. Anyone wishing to join this organization and do their part in helping win the war, see any member of the club.

Rangers Crush Lefors

BOB BRAY

A well balanced running and passing attack backed by a strong defense carried the Perryton Rangers to a 20 to 0 victory over the Lefors Pirates here Friday night, Sept. 25.

In spite of cold disagreeable weather, a fair season opener crowd saw the Rangers tally once in the second, third and fourth quarters to win a hard but decisive victory from the Pirates.

The first quarter was fairly evenly matched with both teams playing hard to gain an early lead.

The Rangers scored their first touchdown late in the second quarter when they took the ball on downs to the Pirate's 36 yard line. A wide sweep by Turner gained 8 yards. Then a pass from Turner to Allen put the ball on the Pirate's 7 yard line. Three plays later French plunged over to score. Schollenbarger kicked the extra point. The half ended with neither team threatening again.

The Rangers scored again in the third period after recovering a Pirate fumble on the enemy's 39 yard line. A plunge by French picked up 8 yards. Then on a short pass from Turner to Allen the latter got loose and raced 31 yards to cross standing up. Schollenbarger's try for conversion was good making the score 14 to 0.

The last tally came in the fourth quarter after the Rangers intercepted a pass on the Pirate's 42 yard line. Two wide plays netted 14 yards. Then French broke loose on an off tackle play and ran 29 yards to pay dirt. Schollenbarger missed the conversion leaving the score 20 to 0.

The Rangers kicked off with neither team penetrating again. The Pirates were trying desperately to score on long passes.

The Rangers showed a strong defense holding the Pirates scoreless. Outstanding defensive linemen were Daniels, guard, and Eudy, tackle. Pearson, alternate line backer, showed up well on pass defense.

The starting line-ups:

Perryton	Position	Lefors
Allen	LE	Clemmons
Eudy	LT	Hext
Bishop	LG	Cheek
Bray	C	McCulluck
Daniels	RG	Ray
Schollenbarger	RT	Browning
Pearson	RE	Sanaugham
Turner	LH	Huges
Parvin	RH	Hill
Holland	BB	Brock
French	FB	Landon

Home Room Organizations

The members of Perryton High School met in their separate home room groups and the following officers were elected:

Seniors

Myrtle Lois Pearson, sponsor; Lena Mae Wilson, president; Dwight Trosper, vice president; Bob Turner, secretary; Betty Jean Pugh, treasurer; Orrel Daniel, reporter; Lorine Littau, program chairman.

Eugenia Mitchell, sponsor; Wilbur Cotner, president; John Fogleson, vice president; Ruby McGarraugh, secretary; Ruby Thrasher, treasurer; Mary Ellen Moss, reporter; Lavern Crowe, program chairman.

Tom Slack, sponsor; John Daniel, president; J. J. Keim, vice president; Peggy Jane Thomas, secretary and treasurer; G. K. Rupprecht, reporter.

Juniors

S. N. Henry, sponsor; Clarence Engleman, president; Clayton Schollenbarger, vice president; Margaret Hearn, secretary; Donald Enterline, treasurer.

Verna Harris, sponsor; Opal Murray, president; Edwin Pletcher, vice president; Pauline Cotner, secretary and treasurer; Sue Hargrave, reporter.

C. H. Williams, sponsor; Quentin Engleman, president; Paul Dowers, vice president; Mary McClung, secretary; Don Eudy, treasurer; Nona Holdeman, reporter; Georgine Lallament, program chairman.

Sophomores

G. B. Henry, sponsor; Ann Patton, president; Calvin Schroeder, vice president; Shannon Daniel, secretary; Sue North, reporter; Helen Hudson, treasurer.

Mary Dean Dozier, sponsor; Virgy Grabeel and Bettye Hall. The program was concluded by the class singing "God Bless America."

Perryton High Players Organize

BILL ALLEN, President

Comedy! Drama! Farce! Fantasy! Mystery! You have witnessed these types of plays in the past through such productions as "Girl Shy," "Trifles," "She's My Daisy," "Give Me Credit," "Mountain Mumps," and "A Young Man's Fancy." The Perryton High Players hope to be as successful with their presentations as Perryton high school plays have been in the past.

"The Perryton High Players" is a newly organized club which is made up of high school students interested in dramatics. There were forty-three members present at the first meeting and from all indications the organization will be a success. The club will meet the second and forth Mondays of each month. The Perryton High Players plan to give at least one long play each semester.

The study of dramatics not only gives an opportunity for the broadening and deepening of insight into human life, but also serves to give wholesome recreational activity to the school.

Faculty Honors E. D. Kelley

Thursday, Sept. 24, the faculty honored E. D. Kelley with a buffet supper in the Home Ec department. Mr. Kelley left Perryton Thursday Oct. 1, to serve as a first lieutenant in the army air corps. After dinner was served, Mrs. Hadley Reeve, who was in charge of the evening's entertainment, lead the group in several games and songs pertaining to the army air corps. At the close of the program, C. Wedgeworth presented Mr. Kelley with a Parker 51 fountain pen from the faculty.

—FOR VICTORY! BUY BONDS—

Rangers to Borger for Friday Game

The Perryton Rangers will face their toughest foe so far this season when they meet the class double A Borger Bulldogs on the latter's home field Friday night, Oct. 2.

The Rangers will be trying to make it three straight wins but it will be a tough invasion. The Bulldogs have a big, fast, and fighting team this year with plenty of experience. They are expected to be a top team in their district.

The Bulldogs will be trying to get back in the win column after winning their first from Liberal and the losing to a strong Electra team. They are also anxious to avenge the scoreless tie battle of last season with the Rangers.

The Rangers know they will have a tough assignment and are working out hard in preparation for it. Although they will be rated the underdogs, the Rangers are made up of boys with Missouri ideas, "They have to be shown."

Perryton's probable starting lineup is as follows: Allen le, Eudy lt, Bishop lg, Bray c, Daniels rg, Schollenbarger rt, Pearson re, Turner lh, French fb, Parvin rh, and Holland bb.

EDITORIAL

Teachers Are Human

"Miss Blank sure is a cranky old thing, isn't she?" Yes, this is a statement that is heard far too often on the campus.

Teachers are just folks like the rest of you. They have worked hard to prepare themselves for this profession. Their minds have been trained in a way that they are well fitted to give instructions. Furthermore the slurs that are made about them should be stopped. Teachers are chosen not only because of their intellectual ability, but on the basis of their Christian characters. Remember the teachers are better informed than the students.

Hats off to the teachers of the Perryton schools. They are among the leaders in their community. Students wish to express their sincere appreciation for their loyalty to duty and responsibility.

Caution!

PEGGY THOMAS

Here today and gone tomorrow! Time, an important factor in our lives, slips by without warning. If your time is not bringing the dividends that you think it should, it is your own fault. No one but yourself can be blamed for idling your time away.

One motto is, "Never put off until tomorrow what you can do today." Some people twist this quotation around to read, "Never do today what you can put off until tomorrow."

At this crucial period in our Nation's history; the saving of time is more essential than ever. Bring in your scrap iron and old rubber today! Not tomorrow!

Soldiers on the front are pleading for materials with which to fight. This problem could be remedied with the purchase of War Bonds.

Are you using your time to push toward Victory? If not, do so immediately. You will never have a second chance to use the time that you are wasting now.

Stevens to Replace Kelley

Martin L. Stevens, who came to Perryton this year from Booker, will replace E. D. Kelley as high school principal. Mr. Stevens has served as elementary principal thus far this year. His office will be filled by Doyle Thompson, who was the high school math teacher. Mr. Thompson is the junior high coach.

El Juego

If you will remember last year the football team lost the first and through the last game. This year the team won the first two games. Let's hope they win right on through the last.

Bill Allen and Travis French will surely be the heros for this week. Remember they made the touchdowns over Lefors.

Donald Ellis was out of practice for three days last week with a cold.

Uncle Sam needs men. The high school and junior high are having physical ed. this year trying to make these men.

Bob Turner was slightly injured in the game last week. Let us hope he will be ready for Borger.

Many boys are waiting for boxing season to open. It could be caused by rivalry on who plays on first string on the football squad.

There is one outstanding thing in Perryton High School which makes all sports. That is the spirit of the student body. Thanks to you all, and keep it up.

The Perryton Lefors football game was dedicated to E. D. Kelley because of his departure for the Army, Oct. 1.

Billy Hill of the Lefors football team suffered a leg injury in the first half of the game Friday night.

THE TOWN THAT LET HIM DOWN

HE: Well, here's the city limits. Tomorrow I can see my customers around town. Are you tired?

SHE: Not very. Does the car need anything?

HE: Yes, it does, but the map shows no Conoco station here.

SHE: You and your Conoco Nth oil . . . but I don't blame you . . . the way this car performs.

HE: Here's the hotel, and a garage right across. Let's leave the car there, eh?

* * * *

ATTENDANT: Good evening! In for the night?

HE: Yes. Fill the tank, grease her, check the oil, *but don't drain.*

ATTENDANT: What brand do you use?

HE: Conoco Nth.

ATTENDANT: Sorry, haven't got it . . . but this is the last straw, mister. You're the fifth driver this week demanding Conoco Nth. Seems like everybody knows about that Death Valley Test, when six engines were run to destruction. Conoco Nth outmileaged the average of five other brands more than two to one. I'm going to get some in stock.

HE: Sure, your regular customers, too, will want Conoco Nth to OIL-PLATE their engine.

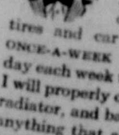

Conoco Nth helps keep your oil and your engine clean. It can save you repairs and many a quart. See Your Conoco Mileage Merchant today. Continental Oil Company

Wake up Texas! More and More Scrap is Needed!

Get this straight, Texas.

The urgent appeal for scrap, iron, steel, rubber, brass, copper, aluminum, cooking fats, tin cans, waste paper, zinc and lead is the most important thing in your civilian war lives today.

No one is kidding about this scrap drive. Its the real thing; could mean the difference.

Our steel mills, the supporting team of democracy's arsenal, are almost entirely dependent upon you and your efforts to forge the instruments of war.

Latest survey of the nation's steel mills reveals an average eighteen-day supply of scrap. In one big Texas mill, the average supply is only two days. If the scrap doesn't keep flowing to that mill, it could run through that two-day supply in forty-eight hours and be forced to shut down.

Or, to put it more simply, that old flatiron you have in discard and just haven't tossed on a scrap heap could make thirty hand grenades.

Shocks you, doesn't it?

From the biggest chunk of scrap steel to the grease drained from your breakfast bacon it is imperative to give—AND NOW.

Waste greases play a part in this war? Just save two pounds of it, strain it, hurry it to your butcher.

Know what you have done?

Two pounds of waste cooking fat will make enough glycerine for five anti-tank shells.

Is that too much to ask of an American housewife?

Housewives, far from the front lines, must learn quickly that their every kitchen is a part of the arsenal of democracy. Every day you neglect your waste fats or leave a piece of scrap iron or steel in your basement, attic or garage is just another way of hoarding for Hitler.

Texas is gradually responding to the scrap call. But the large communities haven't scratched their junk piles. It isn't Dallas, Harris, Bexar or Tarrant counties producing the goods.

It so happens that Wichita County, its population seven times smaller than Dallas, is the bellweather. At the last count that community had dragged in some 38,000,000 pounds of junk.

Forget the scrap we sent to Japan. That's water over the dam. We've got a little avenging to do now.

Lewis C. Huff, Assistant Executive Secretary of the Texas Salvage Committee, reminds:

"People of America talked in horror about the scrap sent to Japan in 1939—scrap that came back in shells. But just remember this—at the pace we are turning out steel for our war effort, that ENTIRE AMOUNT sent Japan in that year would last only two weeks in American mills."

It's the problem of Americans, regardless of age.

Texas has to get tough about this scrap drive.

Like little Sweetwater in West Texas. Recently Sweetwater closed the entire town for several hours for an intensive scrap collection. Stores were battened down. Golf courses and fishing holes were patrolled by guards to see that no one played during the collection period. At 4 p. m. the drive was over. Mountains of junk had grown in Sweetwater. Employees who had been off duty to aid in the drive went back to work.

To quiet a rumor salvage officials consider worse than Axis propaganda, let's consider the case of the junk dealer in the nation's drive for scrap metals.

Many uninformed citizens of Texas have protested against selling their scrap metal to junk dealers in the belief that the junkman was making a handsome profit out of the war.

"Frankly, I'm worried because so many people refuse to turn in their junk simply because it has to go through a junk dealer," said Lewis C. Huff ,executive assistant secretary of the Texas Salvage Committee.

"I don't think it is Axis propaganda; it is far more deadly than any propaganda those buzzards could possibly conjure up.

"Either you and I and all the other salvage workers are going to overcome this Prince of Saboteurs or else I shudder to think of the consequences."

The government of the United States isn't in the junk business. Just who would handle, process and ship these mountains of rusty steel and iron to the steel mills if a licensed, qualified junk dealer didn't do the job?

Huff explained that one half of all the iron and steel being used in building implements of war is scrap junk.

"Still, so many people refuse to turn in their junk because it has to go through a junk dealer. Certainly it has to go through a junk dealer—that's their business.

"If we didn't have them to sort, grade, collect and prepare this junk for the steel making furnaces the war would soon be over for us. Bear in mind that there are over seventy grades of iron and steel scrap, and over one hundred grades and types of metal.

"All of this junk must be carefully and accurately graded and prepared to specifications and then shipped to the mills in carloads in one grade.

"Who else but a junk dealer has the knowledge, experience, equipment and ability to perform this very necessary service?"

Does anyone complain about qualified shipbuilders, plane factories or munitions plants doing their essential job? Hardly. The junkman also has his role in this war.

The government has no facilities or organization to salvage scrap metal. The government has authorized and ordered junk dealers to cooperate and pay for such scrap metal when delivered to them.

The government has set a ceiling price that these dealers can get for various grades of scrap metal. The junk dealer, therefore, is restricted in the profit he receives for an urgent job.

I walked through several scrap yards recently. It's tough work and little profit on these wartime contracts. I saw, and I checked figures.

Frankly, it's time we realize that these junk dealers are as important to the war effort in his particular line as any other war industry.

Citizens should place the winning of the war above anything else.

Let the United States government, your last hope in a winner-take-all war, handle the business of establishing ceiling prices and method of procuring scrap for the hpungry steel mills.

If we can't trust our fellow man in this war—and that includes your junkman—we're in a helluva fix.

That's what we're fighting for.

Get your scrap in now. That's your job. Don't worry about the other fellow's function.

The Nation's Steel Mills are Running Out of Scrap. They Haven't Enough On Hand for Even 30 Days More. When This is Gone They May Have to Shut Down --- for All New Steel Is 50% Scrap. Get Your Scrap Ready to Turn in NOW!

Whose Boy Will Die Because YOU Failed?

Think about it as revenge—a way to get back at the scum who have attacked us. Or think about it as a little more protection for our fighting men—something you, yourself, can do to bring as many as possible home alive.

But think about it now—for the scrap in homes, farms and factories has got to be moving to stock piles within the next few weeks OR IT MAY BE TOO LATE!

Maybe you don't know what it means to have production fall off. Maybe you can't imagine how it feels to be hunkered down in a foxhole wishing for just one more clip of cartridges. Or to see the enemy rolling through your lines because you didn't have just a few more tanks.

OR MAYBE YOU DON'T CARE!

We think you do. We feel that our whole community is ready to rise up and bring in the scrap.

Start looking around your place for scrap today. If you've got a son in the service, do it for him. Do it for the neighbor's boy—for those fine young chaps you just passed, out on the street.

Above all do it for your country . . . and do it now!

Gas Masks, Helmets in the Cellar

(From Evening Bulletin, Philadelphia, Pa.)

Do you have a dozen gas masks in your garage—or two steel helmets in the kitchen closet—or three bayonets down in the cellar?

You may think the suggestion absurd, but the War Production Board's Conservation Division suspects that you do have these implements of war hidden away in your home.

It's like this—an old automobile tire too worn for use can provide enough reclaimed rubbber for the gas masks. An old flatiron long out-dated by the new electric one could easily be turned into two brand new steel helmets. And a discarded wash pail, full of holes though it might be, represents three bayonets.

Actually, a survey shows, you have a veritable arsenal.

That lawn mowwer you still hang on to in spite of the more efficient new one could be converted into six 3-inch shells.

Is that a copper kettle among tha tpile of rubbish? Some soldier's automatic rifle could use the 84 rounds of ammunition it would make.

That flying fortress you saw overhead yesterday might have had electrical connections soldered with the lead reclaimed from 60 old tooth paste tubes.

To name a few more of the many scrap items the war efforts needs—burnt-out light bulbs to be used in making compasses; cooking fats to make glycerine and so on, ad infinitum.

But, say, time's a-wasting. Let's get the family to work and go over the house with a fine-toothed comb.

On the Home Front

Your government has requested that all civilians voluntarily hold consumption of meat at 2½ pounds per person per week until rationing machinery can be set in motion.

Here's why: In the year beginning October 1, 1942, the army, navy and lend-lease will need 6½ billion pounds of meat.

Civilian consumers would take more than 21 billion pounds of meat if it were available, because the demand is abnormal due to high buying power, coupled with a decreasing supply of most things to buy.

This makes an estimated demand of 27½ billion pounds.

But the supply is expected to be only 24 billion pounds during the year.

Subtract one from the other and you get what a lot of civilians are going to get along with less of.

The individual household may use any method the family prefers to hold consumption within the 2½ pounds per person per week. If there are invalids, old people, young children, or vegetarians in the household, the housewife should not assume that the weekly allowance total for the household may be 2½ pounds for each person. For instance, if a family of four includes two infants and two adults, the weekly allowance should be five pounds, not 10. Meatless days may be the answer to the problem. How the reduction is made is not important, but that the reduction be made is of the greatest importance. American nutrition and health can well be maintained on the war-time allowance. It is a normal amount of meat. By cutting meat consumption to 2½ pounds per person per week, civilians can again answer the question: "What can I do to help?"

Manpower shortages are everywhere and growing more critical daily. We not only are desperately short of "front line" war workers—those with special skills—but by the end of 1943 we shall need about 18 million workers of all kinds, partly to replace the millions of men who will be called into service, although chiefly for war production expansion. This means that more women will be employed—by the millions. It means that at least five million persons who are not now working at anything will have to go to work. It means that our manpower, in time, must—in one way or another—be "rationed;" that is, applied where it is needed most. To some extent that is already being done.

If you tried to buy a new piece of farm machinery or equipment within the past week, you found, no doubt, that Uncle Sam had placed control on such sales—a prelude to rationing.

Government agencies have decided that the all-out agricultural production program scheduled for the coming year is so important that it is necessary to place present stocks of new farm machinery and equipment into hands of farmers who need it most. Stocks of such equipment were ordered temporarily "frozen" by the U. S. Agriculture Department, with the order to remain in effect until machinery for rationing can be set up by the USDA.

Under the proposed rationing plans, details in each state will be handled by State USDA War Boards, and in each County by the County Farm War Board, of which the county AAA committee chairman is the head. In addition to the chairman, the county rationing committee will be composed of two farmer members and their alternates, appointed by the County War Board. In the Southwestern region, the State War Board chairmen are B. F. Vance, College Station, Texas, and C. T. Cameron (acting), Stillwater, Okla.

The temporary rationing plan classifies farm machinery and equipment in three groups.

Items in the first group (Group A) include farm machinery vitally essential to current agricultural needs and which hereafter may not be sold by a dealer unless the farmer has obtained a purchase certificate from his county rationing committee—not the county war price and rationing board. In this group are included combines, disc harrows, feed grinders, grain drills, hay balers, milking machines, beet lifters, beet loaders, corn pickers, grain elevators, lime and manure spreaders, milk coolers, pickup balers, potato diggers, shredders and tractors (including garden tractors).

In the second group (Group B) are other farm machinery and equipment not in the first group, and which may be sold on certification by the farmer to his dealer that the equipment is essential for current agricultural production needs. In the third group are such items as hand tools and smaller horse-drawn equipment which may be sold without restrictions. The temporary rationing plan does not apply to repair parts.

Another item of interest to the Home Front army during the past week was the announcement by Regional OPA Administrator Max McCullough that the tentacles of inflation were again clutching at the nation's pocketbook—that the cost of living was still rising in the Southwest despite price control. He pointed out that price control was proving an effective deterrent, because figures issued by the Bureau of Labor Statistics showed that prices of controlled items were remaining stable, but prices of uncontrolled items were rising. A survey of the major cities in the nation showed that from July 15 to August 15 the cost of living climbed 2.2 per cent.

Fewer Types of Light Bulbs: Almost 2000 electric light bulbs and lamps of various voltage, wattage and color will go out of production when WPB's new order L-28-A goes into operation on November 1. No curtailment in the total production of electric bulbs will result from the action, as adequate supplies of the permitted types will be produced.

From time to time, the Office of Price Administration has taken steps to maintain quality—an important part of the price control picture. There have been many reports that manufacturers have cut the quantity or quality of a commodity but have maintained their March highest price. OPA has vigorously warned such dealers that lowering of quantity and quality must be accompanied by a similar reduction in price. After a thorough investigation, OPA found many of the nation's packers ungrading their meats, thus forcing the country's housewives to pay a high price for poor quality meats. As a corrective measure, the OPA has directed that all beef and veal carcasses and cuts sold as "choice" quality must be so graded and grade-marked under supervision of official Department of Agriculture graders. These choice varieties, which have been graded as AA, normally constituted approximately five per cent of the total output and are used primarily by the hotel and restaurant trade. However, in recent months of short beef supply, buyers have encountered an enormously increased percentage of the total output privately marked by packers as choice grade AA, which is the highest price grade. Such increased volume in the top grades represents upgrading in which purchasers—anxious to secure supplies regardless of price—have acquiesced.

Editor's Note: Brother Sibley, we are pleased to have this letter from you even though the Herald was sent to you by Mrs. L. T. Tucker. Rev. Sibley was pastor of the Perryton First Baptist Church for many years.

September 28, 1942

Mr. Van W. Stewart,
Ochiltree County Herald
Perryton, Texas.
Dear Van:

Returning from town this afternoon I found the special edition of the Herald in my door. I am sure that you were the one who sent it although I could think of any number of friends in Perryton who might have been that thoughtful. I appreciate your thoughtfulness more than you will ever know.

I had heard about the death of R. T. and Dick and about Lee Tucker, in fact had had a letter from Mrs. Tucker last week in reply to my letter sometime ago. I was amazed at the large number of boys from that section. One can hardly describe the feeling when one looks at the pictures and reads about the boys who attended our Sunday school, many of whom I had baptized into the fellowship of our church. It did me no little good to have this comprehensive information about the boys I have known and loved thru the years.

Loyd Drake was in our services yesterday morning. In fact he is a regular attendant at the morning service which is the only service they can attend. He has been in our home on one occasion. We have around one hundred and fifty boys at Avenger Field and expect to have all the boys who attend our services in the homes of our people every Sunday from here on out.

There are more than one hundred stars on the service flag that hangs at the front of our church and behind the choir. Two of the stars are gold and one of the blue stars represents a lad who was at Clark Field when the Japs attacked. We hope he is well although we are virtually sure he is a prisoner.

Assuring you that I remember with delight the pleasant associations of other days and appreciate your remembering me with this special issue.

Sincerely yours,
J. M. Sibley

Used Tires and Tubes Frozen

WASHINGTON, Sept. 30—The Office of Price Administration today froze the sale of used tires and tubes and revealed that used tires would be rationed to provide for all essential uses in conformity with the Baruch rubber committee recommendation.

The order was issued to freeze the present supply of used tires pending completion of the new rationing program, which will govern the use of these tires just as present rationing regulations control the use of new and recapped tires, the OPA said. It added that when used tire rationing is initiated, the freeze order will be lifted to the extent necessary to permit sale to certificate holders.

OPA said it was "important to have available for rationing not only the mileage that is represented by used tires with good tread thickness still remaining, but also the supply of recappable carcasses which are the starting point of any successful recapping program."

Mr. and Mrs. Monroe Carter left Saturday for their home in Long Beach, Calif., after a few days visit with relatives here. They were accompanied as far as Tucumcari, N. M. by his nephew, Mr. and Mrs. Gene Brillhart and Mrs. Vernon Schnell, who after a visit with Mrs. Brillhart's grandparents near there, enjoyed a trip to Carlbad Caverns.

Plainview Man Puts Wooden Tires on Tractor

PLAINVIEW, Sept. 24—A major bottleneck in mechanical farming operations in this section of the Plains has been remedied through the ingenuity of a Plainview machine shop operator.

Bill Whiteside is turning out wooden tires for the front wheels of tractors. Scores of farm tractors on rubber were idle because tires for the front, or guide wheels, were unavailable. Whiteside and his shop force got their heads together and the wooden tire is the result.

Without exception the tires have proved satisfactory when used as they were intended, that is, only on ground surfaces and not on concrete.

Constructed in five curved sections of Mexico pine, the Whiteside tires are held on the rim with a steel band used in the same manner that a wagon tire is used to hold the fellies of a wagon wheel.

The first operation Whitside completes in making a wooden tire is sawing out the five blocks. The blocks then are sawed in crescents that when placed end to end will make a perfect circle. The tire is then in shape for the large lathe. Placed on that machine, one side of the wooden circle is turned to a glass-like smoothness then turned over and the operation repeated. Then the tire is soaked in creosote to preserve it. The tire is then ready to be mounted on the wheel and the steel band put on.

There's your tires, mister, and believe it or not, it is but little heavier than the ordinary rubber tire and tube.

Whiteside lays no broad claims for the wooden tire. He says it will work very satisfactorily if used on a tractor and kept on dirt. He said, if a set of the tires was placed on an automobile they would go "flat" in a short time, as the vibration would wear away the wood under the steel band, it would fall off, and the motorist would find himself right back where he started, driving on the rim.

The idea of the wooden tire was worked out in the Whiteside shop and was prompted, Whiteside said, due to the fact that so many farm tractors had to stand idle because rubber tires, the same sizes as automobile tires, were not available for the front wheels. The wooden tires are made in sizes 16x5.50, 16x6.00 and 16x6.50.

Whiteside, in a business affected seriously by wartime demands, found it difficult to get plenty of the right kind of wood for his tires, but thinks that in the Mexico pine he will have a satisfactory and at the same time plentiful material.

Lake View Tattler

Mr. and Mrs. John Sim have returned from visiting their relatives in and near Scott City, Kans.

Mr. and Mrs. Ed Hooper were callers in the Ruth Nitchske home last week. Thadene Deck spent the week end with Bertha May and Katherine Nitchske.

Paul Harbin, Wayne Huff, Glarion Rees, Mr. and Mrs. Orville Fullbright and daughter, Orelene were callers in the Pipkin home last week end. Mrs. S. J. Powell called in the Nitchske and Pipkin home Monday morning.

Mr. Pipkin shipped a carload of sheep from Spearman to Kansas City markets Saturday morning.

Mrs. Fred Wildhagon called in the Hollis Gossett home in Perryton Thursday.

Sam Nitchske and son, Luther were at their farm Monday getting ready to brand cattle.

Hip, hurrah! We are actually getting our roads in this neck of the woods graded.

Saturday afternoon I was in Spearman sitting in the pick-up waiting for Sam in front of a black smith shop. I heard several boys yelling, hey there, head him! Hey, run this way. Nope he's gone that way! Here he is, head him there. Stretching my neck first one way then the other trying to see what was going on, I saw a white pig come running from toward town with two boys running and two boys riding bicycles all trying to catch the pig. Really they couldn't call directions as fast as that little pig was going. I laughed until I couldn't laugh at the way that pig dodged those boys and hte work those boys were doing trying to catch that pig. Finally the pig run across a vacant lot that had weeds near the path that were about six feet high. One of the boys on one of the bicycles almost run over the pig, made a sudden turn and fell into the weeds. The other boy on the bicycle almost run over the pig, then fell, bicycle and boy on top of the other boy. By then the pig was gone again, I watched them chase for seven blocks. But the last I saw, the pig was going dodging this way and that toward the country. He had a permanent curl in his tail. I just wondered what place of business that pig had patronized.

This afternoon at early twilight, I drove to the mail box. In the road ahead of me I saw something I couldn't make out just what, I slowed the speed and then stopped and what I saw was a family of pole cats, an old cat and seven kittens, they didn't seem to be scared. I can't say that I was, but I hurriedly shut the car windows. The older cat then crossed the road. The road being fresh graded the kittens could hardly climb the bank of the ditch. The mother came back to them, they worked and worked until they made the climb then they all huddled together and what I saw looked like willow plumes sticking up in the air. I drove on to the box and on my way back I watched for them. They were almost at our gate cutting across the wheat toward our house. I stopped again to see them closely and again they all huddled in one bunch. I do hope our cats don't take up their ways.—Mrs. S. J. Powell, reporter.

Parent-Teacher Monday Program Is First Meeting

The Perryton Parent Teacher Association held its first meeting of the year in the school auditorium, Monday evening, September 28, 8 o'clock. Mrs. C. B. Rogers, president, called the meeting to order. Rev. Wm. E. Fisher gave the devotional.

During the business session it was voted: to raise the dues from 25c per member to 50c (25c of this amount will remain in the local treasury); to continue giving a room prize for the most parents present, representing any one room, at each meeting during the year; and to sponsor a Faculty Fine Arts program to be the money making project for the organization this year. Martin L. Stevens was named to the executive committee as visual education chairman.

Led by Glenn Truax, the following songs were sung by the group: "Remember Pearl Harbor", "Three Little Sisters," "Johnny Dough Boy" "Til Reveilee", "Marine's Hymn" and "The Star Spangled Banner". Van W. Stewart was the main speaker of the evening. His topic was "The Family Takes the Job", which he adapted ably to our present conditions and gave an enlightening discussion thereon. Some of the highlights from his talk were: Conservation is our most important ant war weapon. It would be necessary to take care of all the things we now possess and if possible learn to get along with less. Luxuries are out and many of the now necessities will become luxuries. Hoarders and spies are in the same class, both filthy enemies. It is necessary that each of us put our savings into helping win this war, in order to have freedom for ourselves, our children, and the land we love. Those who missed hearing Mr. Stewart, missed an inspirational talk.

Mr. Wedgeworth explained the Home Room by saying, "The purpose of Home Room is to discover the childs needs and as far as possible give him those things. The Home Room is to the School what the Home of the Family is to the cross sections of Society. All this tends to develop leadership."

The sixth grade won the room prize in attendance.

New teachers were introduced and a social hour followed.—reporter.

World Communion Observed Sunday

A World wide fellowship of Christians of all nations and denominations will be observed Sunday, October 4. Wherever possible in conquered nations, on the mission fields and in free nations, Christians will assemble to partake of holy communion.

Last year the Chaplains of the Army and Navy observed world-wide communion Sunday quite generally. One of the best attended communion services was held aboard the battleship North Carolina. Indications are that there will be an even larger participation this year by the Army and Navy Chaplains. It will be a source of inspiration to the congregations at home to know, that along with them, their young men are part of this world-wide communion fellowship.

The Perryton Methodist Church will observe the sacrament at both services next Sunday, and at the morning service will also observe a dedicatory ceremony in placing a beautiful service banner in the church auditorium honoring boys of the church now in service for their country.

"October 4 is a good day for you and every member of your church to write to the boys who are in service from your congregation and families. Through the Methodist Commission on Camp Activities and Chaplains, a word of cheer goes from home churches to soldiers in camps across the land or sailors on the seven seas," stated Methodist Council of Bishops.

FARM AND RANCH NEWS

Farm Trucks Regulated After Nov. 15

County agricultural agents in Texas are helping acquaint owners of farm trucks with the new government orders which vitally affect them, says George E. Adams, vice director and state agent of the A. and M. College Extension Service.

A new regulation of the Office of Defense Transportation requires a Certificate of War Necessity for the operation of farm trucks as well as other trucks, busses, and taxis. The regulation becomes effective Nov. 15.

"The Extension Service is interested in helping farmers and ranchers conserve their equipment for war purposes," Mr. Adams explains

Certificates of War Necessity will govern a truck's maximum mileage or minimum loads, or both, and no operator subject to the order will be able to obtain gasoline, tires, or parts without a Certificate. Enforcement officers of all states and political divisions have been authorized to report violation of the order.

Owners and operators of farm trucks and other commercial vehicles will make applications for their certificates on forms supplied by field officers of the ODT. They will also be required to keep records of their operations.

Wheat Feeding Steps Up in Texas

COLLEGE STATION—Texas stockmen have bought 575,000 bushels of government-owned wheat for feeding to livestock under the U. S. Department of Agriculture's wheat-to-meat program, the Texas USDA War Board has announced.

Feeding of surplus wheat is expected to pick up still greater momentum during the months to come as Texas farmers strive to increase the production of meats, B. F. Vance, board chairman, said.

Recent Congressional action permits the Commodity Credit Corporation to sell government-owned wheat at prices equivalent to 85 per cent of the parity price of corn. In Texas feed wheat prices range from 85 cents to 93 cents, depending on location of the buyer. The wheat can be purchased through county AAA committees.

Special attention is being paid the feed wheat program at present because of the great interest in meat requirements of America's civilian population, armed forces and Allies, Vance pointed out.

Despite the record three billion-bushel corn crop forecast last week, livestock will require more feed than can be supplied in corn and other feed grains, he declared, and wheat is filling in the gap.

The right legal blank for every transaction. Texas Standard form legal blanks at Stewart Printing Co.

Farm Machinery Rationing is Now in Effect

Rationing of farm machinery is necessary to insure fair distribution and best possible use of available machinery, the Texas USDA War Board declared in orders to county USDA war boards instructing them to set up county farm machinery rationing committees.

Farm machinery was "frozen" in the hands of dealers Sept. 17 pending organization of rationing committees. Farm machinery rationing on state level will be supervised by the Texas USDA War Board. On the county level the county AAA chairman will head the county rationing committee.

Audie Conley, as chairman of the Ochiltree County AAA Committee and USDA War Board, is chairman of the rationing committee. Members are C. C. Witt and G. M. Dietrich. Alternate members are H. C. Graham and A. C. Emberson.

The only types of farm machinery for which rationing certificates will be required are beet lifters, beet loaders, combines, corn pickers, disc harrows, feed grinders, fertilizer spreaders, grain drills, grain elevators, hay balers, lime spreaders, manure spreaders, milk coolers, milking machines, pickup balers, potato diggers, shredders and tractors.

The "freeze" order and rationing will not restrict the sale or transfer of repair parts or used machinery and equipment.

Three classifications of farm machinery and equipment were set up in the rationing order. Group A, listed above, includes machinery which is scarce and especially needed to meet current agricultural needs. Group B, including items somewhat less scarce, may be sold upon certification by the farmer to the dealer that it is required to meet current needs. Group C, including the smaller items, may be sold without restrictions. This exempt group includes hoes, rakes, forks, scythes, shovels and all hand-operated and one and two-horse drawn farm machinery and equipment not specifically listed in Group A.

Eligibility requirements for Group A purchases include inadequacy of present equipment and inability to meet farm production goals by repairing, or by purchasing or renting used machinery, or by custom or exchange work. A purchaser must turn in replaced equipment and agree to rent or let others use the new machinery on specified terms and conditions. The purchaser must present a satisfactory reason if changing from horses or mule power to motor power, or from hand labor to machinery.

Applicants who are refused certification for machinery purchase may appeal to the Texas USDA War Board and then to the Special War Board Assistant to the Secretary of Agriculture.

A list of applicants receiving certificates and the equipment which they purchase will be kept available for inspection in county offices and will be available for publication.

HOME DEMONSTRATION CLUB NEWS

H. D. Club News

By Miss Huffhines

Mrs. Garland Redfern of the Perryton Home Demonstration club, has been appointed year book chairman for the county to fill the vacancy made by the resignation of Mrs. Hollis Gossett of the McMillen club.

Work will begin Saturday on Saturday on plans for the coming year for the clubs of the country. Year books will be outlined by a committee made up of one member from each club in the county. The demonstration for next year will probably center around food preparation and food production.

Members of the planning committee to meet Saturday are: Mrs. J. H. Kershaw, Missouri Ave. club; Mrs. P. W. Wermske, Waka; Mrs. Claud Crouch, Ochiltree; Mrs. C. U. Pope, Black; Mrs. L. F. Waggoner, Notla; Mrs. D. K. Baumann, Perryton; and Mrs. Kenneth McLain, McMillen.

—FOR VICTORY! BUY BONDS—

• Missouri Ave. Club

There are several advantages in canning in tin instead of glass, stated Miss Elizabeth Huffhines, county home demonstration agent, to the members of the Missouri Avenue club which met September 24 in the home of Mrs. W. R. Zenor.

There is no breakage in using tin. The products can be cooled much more quickly and poisoning does not have the opportunity to set in. Tin also helps to preserve the color and flavor. Foods can safely be stored in the refrigerator in the can in which it was processed. Many people empty the contents from the can into a dish before storing and probably the can is more sterile than the dish.

Attractive refreshments were served to the following members Mrs. A. W. Henry, Mrs. H. M. Hawk, Mrs. J. H. Kershaw, Mrs. Beulah Stark, Mrs. Earl McGarraugh, Mrs. Fred Huston, Mrs. J. S. Slaughter, Miss Elizabeth Huffhines and the hostess.

Ergot Poisoning Killing Cattle

COLLEGE STATION—A threat to the livestock industry this fall is ergot poisoning which already has brought losses to Panhandle ranchers.

Ergot is a fungus disease which often affects the heads of many native grasses, rye, and other small grains during wet seasons. Dr. H. Schmidt of the Experiment Station Division of Veterinary Science explains that the fungus not only causes abortion but also may cause sloughing of the hoofs, horns, ears and tail.

Dr. Schmidt, together with other veterinary authorities and pathologists from Texas and Oklahoma, recently made a range inspection trip in the Panhandle. They found that Canada wild rye, Virginia wild rye, and Western wheat grass in the vicinity of Canadian are heavily infested with the fungus disease (ergot). The fungus was also found as far south as Gray County.

Upon the invitation of County Agricultural Agent John O. Stovall of Hemphill County, approximately 50 ranchers who had suffered livestock losses met with the state and Federal officials.

Since there is no effective antidote for ergot poisoning, the disease must be prevented by stopping consumption of infected grasses. George W. Barnes, animal husbandman for the A. and M. College Extension Service, recommends these general precautions:

Cut for hay before the plants head out meadows likely to become infected. Or cut the infected heads and remove them from pastures and meadows. Avoid feeding hay which contains infected heads. Provide livestock with an abundance of clean forage during the fall and winter when the heads are softened by moisture and other forage is covered with snow. If necessary, remove stock from infested ranges.

—FOR VICTORY! BUY BONDS—

Teamwork is The Answer

COLLEGE STATION—With so much more work to be done on Texas farms and fewer hands to do it, family teamwork offers about the only solution to a tough problem.

Dosca Hale, specialist in parent education and child development for the A. and M. College Extension Service, says teamwork will not only help get necessary chores done, but it will give every member of the family a feeling of importance and usefulness. Even the tiny tots should be given some assignment within their abilities, she says.

Farm women and girls are taking over the regular farm work and outside chores which enlisted men and other war workers used to do. They are adding this work to the jobs they have always done—gardening, poultry care, cooking, canning, laundry, cleaning, and sewing.

If every member of the family assumes some extra duties, the load will not be so heavy on any one. To help "organize" the family, Miss Hale suggests making a list of all the work which must be done from day to day on the farm. Then an equitable division of work can be made and the plan changed to meet new circumstances and needs.

Planning for family teamwork should include some time for recreation, church, and educational activities, the specialist advises. This is necessary to mental health, especially in war-time. To families kept on the farm by war-time travel difficulties, Miss Hale offers copies of her new leaflet, "Have Good Times at Home." They are available from county agricultural and home demonstration agents.

Farm Machinery Goes to WAR!

All Farm Machinery and Equipment
is divided into three (3) groups, A. B. and C.

GROUP "A" shall include the following New Farm Machinery and Equipment:

Beet Lifters	Fertilizer Spreaders	Milk Coolers
Beet Loaders	Grain Drills	Milking Machines
Combines	Grain Elevators	Pickup Balers
Corn Pickers	Hay Balers	Potato Diggers
Disc Harrows	Lime Spreaders	Shredders
Feed Grinders	Manure Spreaders	Tractors

"Each farmer desiring to purchase machinery or equipment in Group A will file an application with his County Rationing Committee. The County Rationing Committee will consider each application or disapprove it. If an applicaiton is approved a purchase certificate will be issued to the applicant authorizing him to purchase the equipment. The purchase may be made from the dealer named in the application or from any other dealer."

The County Rationing Committee is Authorized to Approve Applications Only if it is Evident that:

1. The Applicant's present equipment cannot handle the increased production or new production planned and needed as a contribution to the current agricultural need.
2. The applicant cannot meet his equipment needs by repairing his old equipment, by purchasing or renting used equipment, by custom work, by exchange of work or equipment, or by any other means.
3. The Failure to approve the application would result in a substantial reduction in the production of crops or commodities essentjal to the war effort, and
4. The machinery or equipment will perform more than one average service for similar machinery or equipment in the community.

The County Committee Shall Disapprove an Application for One or More of the Following Reasons:

1. The applicant is able to have repaired and made serviceable the machinery and equipment which he proposes to replace;
2. The applicant refuses ot turn in the machinery and equipment which he proposes to replace;
3. The applicant has not named in his application a dealer from whom he can purchase the new farm machinery and equipment;
4. The applicant wants to change from horse power or mule power to motor power and has not given a satisfactory reason for the change;
5. The applicant wants to change from hand labor to machinery and has not given a satisfactory reason for same;
6. The applicant refuses to rent or let others use the new machinery and equipment on such terms and conditions as the County Rationing Committee may deem necessary.

If the application is approved, a non-transferable certificate for the purchase of new farm equipment is prepared in triplicate and two copies mailed to the applicant. This certificate will be known as form MR-3. The equipment authorized must be purchased within 10 days after the date the certificate is granted.

No sales of machines listed in Group A may be sold or delivered after September 17 unless purchaser has a purchase certificate. If a machine has been sold and has even been paid for but has not been delivered, it is understood that the purchaser must now make an application and be given a purchase certificate before the dealer will be permitted to make delivery of the order.

GROUP "B"—Machinery and Equipment—

All other machinery not in Group A or in Group C, is included in Group B. This group is covered by WPB Limitation Order No. L-26, with which many of you are familiar.

To secure machinery under Order No. L-26, it is necessary for the purchaser to ceritfy his need by his signature on one of these orders—but the Ration Board certificate is not required at the present time.

GROUP "C" included Hand Tools—

Hoes, Rakes, Forks, Scythes, Shovels, and All hand operated and one- and two-horse drawn farm machinery and equipment not included in Group A.

There are no Restrictions whatever on Repair Parts . . . or on Items in Group C. Neither are there any restrictions on the sale of Used Farm Machinery and Equipment! However, this does not mean we can always get repairs without delay.

(The above information is brought to you by the equipment dealers listed below, who hope that it may be of value ot you in determining the extent of purchases which may be made under the present set-up).

ADDITIONAL SCHOOL NEWS

Meet the Teachers

He loves fried chicken and who doesn't? He teaches math and is especially fond of Geometry. He thinks that "Gone With the Wind" is a magnificent show. In his opinion Gary Cooper is a splendid actor, and Ann Sheridan is hard to beat. Strange as it may seem for a teacher; he is interested in livestock. For recreation he enjoys playing dominoes and fishing. As for reading he'll take "Grapes of Wrath" any time. An affable man with no intense dislikes or pet peeves. He especially likes the close communion of the students in assembly. Originally from Waxahachie, he received his B. S. degree from North Texas State Teacher's College, Denton. These are characteristics of Doyle Thompson, Junior High football coach.

—FOR VICTORY! BUY BONDS—

High School Chapel

"Organization plus cooperation equals success," was the theme of high school assembly, Friday, Sept. 25. Kathleen Brillhart acted as master of ceremonies. Mary Kathryn Allen and Patsy Arnold were color bearers. Jack Elledge read the scripture from the Book of Psalms and led the assembly in the Lord's Prayer. Jack Parker gave a short talk in explanation of the Victory Club, and Peggy Thomas spoke on the subject "Preserve Democracy by Buying War Bonds and Stamps."

Glenn Truax, led the chapel in the following war songs: "Johnny Douhboy," "Remember Pearl Harbor," "Three Little Sisters," and the "Marine Hymn." Two new fight songs: "Go Team Up," and "Fight, Team Fight" were learned.

The pep leaders, Alverna Records, Helen Marie Hudson, Susanna Harbaugh, and Jerry Carmichael led in several yells and songs to give the Ranger Squad a sendoff in the game with Lefors.

Barnett's Bakery

"For the Duration"

Housewives, too, are in this war for the "duration." Their duties are as clear as those of the men in the service.

Take care of the equipment you have, keep your appliances in good order at all times, for many of them cannot be replaced until after the war.

Watch your food purchases, keep them to a minimum, buy with "nutrition value" ever in your mind so that your family will get the most nourishment from the amount of money you spend.

Save vitamins by cooking food quickly in a minimum of water. Save the liquids to be used in soups and other dishes.

Keep all leftovers, no matter how little is left. They can be used in making salads, soups and sandwiches.

Save fuel. The instant that water starts to boil, reduce the burner flame to "simmer" position.

Budget your expenditures, keep them to a minimum. Invest your savings in War Bonds and Stamps.

Public Service Corporation of Texas

You can do it better with gas

"Hey, Mom...it's ALIVE!"

"HELP! HELP! I thought it was a pretty green stone, but when it stuck its neck out, I knew it was alive. It just shows you can't always judge by appearances."

That goes for motor oil, too. When you want *quality* oil . . . and who doesn't these days? . . . it is best to rely on facts and on the good name of the petroleum producer. That way you're sure of getting the genuine article.

You know that Phillips is one of the great independent organizations in the petroleum industry. You know that Phillips has a well earned reputation for giving greater value. So it means something when Phillips makes this simple, straightforward statement: If you want our *best* oil, remember we specify that Phillips 66 Motor Oil is our finest quality . . . the highest grade and greatest value . . . among all the oils we offer to car-owners like yourself.

Because quality oil means so much to car life, remember these facts when a new 1,000-mile mark clicks up on your speedometer, and when you are making the seasonal change.

Drafted!

. . . to stand guard over eyes at work

You're working harder these busy wartime days and that means your eyes are working harder, too. Spare yourself the added fatigue that comes from straining your eyes under inadequate light. Treat them to the soft, generous light of an I. E. S. Better Sight Lamp. Then you can relax and read or sew in comfort. You'll find it will help you wake up refreshed for the next day's work . . . free from the nervous muscular tension that accompanies prolonged eyestrain.

How I.E.S. Lamps Help Eyes

I. E. S. Better Sight Lamps were especially designed by lighting engineers to provide safer, easier seeing. The white glass diffusing bowl under the shade sifts out harmful glare and provides both generous, soft, downward light for close visual tasks, and upward light for general room illumination. Try an I. E. S. Lamp beside your favorite easy chair. See what a lift it gives to tired eyes.

No. 1 Continued from Front Page

Behind the slogan, "We Are Ready," the youth of the Perryton schools stand today on threshold of a program which will unify and co-ordinate the roles they will play in their country's all-out war effort.

Unler the Schools at War banner, boys and girls of school age will go all-out for victory through the campaign watchwords, "Save, Serve, Conserve." Unified programs of War Savings Bond and Stamp sales through the Student War Savings Bank, student organized salvage drives and myriad of other activities will be the outstanding features of the campaign.

The keynote of the campaign was sounded by Secretary Morganthau when he said:

"War is costly but freedom is priceless. To deserve freedom we must fight to keep it. Freedom is a thousand times worth all the money, all the effort, all the sacrifices that we must put into the struggle to win it. I know that the United States can count on its 30,000,000 young Americans, to whom an unshackled future is particularly important, to enlist 100 per cent in our fight for freedom. By buying War Savings Bonds and Stamps whenever you can and by doing every other thing possible in the war effort, you will help to speed the day of victory.

"By participating fully in the Schools At War program your school can proudly tell the world, 'We Are Ready . . . ready for war, ready for victory, ready for peace.' "

that they might be "hot stuff." Upon investigation they found that the seller had cashed the check and left Buffalo. He represented himself as George Wenstead.

The cattle were positively identified as being the property of H. C. Brillhart.

Deputies Huston and Taliaferro were in Buffalo with Mr. Brillhart late Wednesday afternoon, when Sheriff Onweby called from Guymon stating that he made the arrests and had the truck suspected of hauling the cattle.

Deputy Garrett and Patrolman Fort left for Guymon immediately with the plaster casts which established that the truck was the one used in the theft. It was a 1938 Ford truck with a stock rack.

The men under arrest, had been returned to Buffalo by Sheriff Owenby before local officers arrived at Guymon.

It is reported that the accused men have confessed to the theft and also admitting stealing a tire from a truck at the Brillhart place. It is thought that a third party was involved in the job but the men under arrest have so far refused to reveal his identity.

that will be available at the local War Price and Rationing Board. These can be obtained by coming to the board in person, writing for them, or sending a representative.

In filling out this form, an applicant must establish the fact that the actual work he performs is essential and he must specify the type of rationing rubber footwear needed and the conditions that make it necessary for him to have them. He must further establish that he has no available rubber footwear suitable for use on his job, and he must agree to turn in for salvage any unserviceable rubber footwear he owns.

Most types of rubber footwear necessary for ordinary use can be made mostly from reclaimed rubber and therefore are not rationed but can be purchased as usual. In this non-rationed class, are men's rubber boots and rubber work shoes smaller than six, lumbermen's overs, which are leather boots with rubber feet, men's artics, gaiters, work and dress rubber, and women's and children's rubber boots, rubber work shoes, artics, gaiters, and rubbers. Although these types are not being rationed, the rubber conservation program depends on the cooperation of the public in not buying any more of these ordinary types than urgent necessity demands.

Surviving are the husband; four children: Mrs. Pauline Townsend, Booneville, Ark.; Lavanhu, Rodonda Beach, Calif.; Clifton, Gray, Okla.; and Betty of the home address. One child is deceased. There are two grandchildren.

Other survivors are the parents who live at Huntsville, Ark.; three brothers and a sister: Ernest E. Hull, Long Beach, Calif.; Mrs. Bernice Hamilton, Long Beach, Calif.; J. P. Hull, Guymon, Okla.; and Vernon Hull, North Hollywood, Calif.

Mrs. Sharp had a host of friends in this vicinity where she was well known through her activities as a saleslady in various Perryton stores. She was a loving mother, a zealous church worker and a kind neighbor.

No. 7 Continued from Front Page

never earned as much in a month as they are now paid for a weeks time, are in defense plants.

And they say a farmer is unpatriotic for figuring cost of production to arrive at a fair selling price for farm products.

To the parents, relatives and friends of the "boys in service" whose pictures we have published in civilian clothes, we want to say that the Herald would like to run a picture of your boy "in uniform" when you can furnish us with a photograph.

However we are going to put a string on the above offer. We have paid for the engraving run in last week's issue and we feel that it would be no more than right for you to share the expense of a second engraving. The cost to you will be one dollar for each single column engraving.

This offer does not change our policy of the past . . . that of publishing and having engravings made at our own expense of all men in the service from the Perryton area, whose engraving we do not already have. And we do want pictures in uniform unless it is simply impossible to furnish same.

We think that one of the finest things possible for the Perryton community is the cooperative spirit of the ministers of our churches. They are banded together in an association meeting together monthly to discuss topics of mutual interest and effecting the entire community.

We often think that bickering and sniping between churches and churchmen adds to the confusion and keeps many good nonchurchmen from affiliating with any church.

When church people as a whole grant to all people the right to think, act and worship according to the dictates of their conscience, then we will see a better world. Who is any man to say that another's religion is not just as good as his.

Unity among the church people of the United States is just as important toward winning this war as unity among American people and their allies.

If every farmer and rancher in Ochiltree county would even come close to the record set by Erwin George, the Ochiltree county scrap campaign would be a closed chapter. On last Friday, Sept. 25, Mr. George delivered 21,160 lbs. of scrap to a Perryton junk dealer.

This is almost 11 tons from one farm and one farmer. So far as we know this is the record for the Perryton area for scrap iron coming from one place. If any one has exceeded this figure or even come close, we would like to know.

It did us a lot of good when the Fisher county draft board came out on top in their fight with Brig. Gen. J. Watt Page, state selective service director.

This is America. Let's keep it a democracy. It is folks like these draft board members down in Fisher county with "guts" enough to differ with "half-pint boys in "gallon" size men jobs that will keep this the America we love. It's funny how "big" governmental authority makes some men.

Ramsey S. Black, Third Assistant Postmaster General, is authority for the statement that newspapers to men in the armed forces, will be forwarded to new addresses, when they are transferred. This service is given only to first class mail to persons other than in the armed services.

Seems to us like the U. S. employment Service office at Borger is wasting a lot of time and iravel expense for working men when they call them into Borger from Perryton for interviews regarding their occupational questionaries. We have heard of several men from Perryton being called into Borger recently. If the USES needs this information, let them set a day, notify the registrants, and do the interviewing here in Perryton. Conservation of time and money is just as important to the war effort for persons in civil life as it is for the government employees.

The government is urging more use of the V-Mail service for letters to men in foreign service. They say that mail congestion for overseas is getting to be a problem. Postmater M. R. Coffee has a liberal supply of V-Mail stationery. Use V-Mail the next time you write overseas.

The scrap metal collection in Ochiltree county is improving as farmers catch up with plowing and wheat planting. With shortage of labor and transportation facilities, farmers can only do so much, and producing food for victory comes first.

That Extra Something!

...You can spot it every time

TO DO a special kind of service takes that extra something. Coca-Cola does a special service to thirst because it has that extra something, too. More than just quenching thirst, ice-cold Coca-Cola brings energy-giving refreshment that you feel . . . and enjoy.

And Coca-Cola brings you the deliciousness of its clean, exciting taste. A finished art in its making blends special, wholesome flavor-essences to merge all the other ingredients into a unique taste all its own. No one can duplicate it.

To think of refreshment is to think of ice-cold Coca-Cola. Its quality, taste and refreshing goodness set this original drink apart from all others.

* * *

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called Coke. Coca-Cola and Coke mean the same thing . . . *the real thing* . . . "a single thing coming from a single source, and well known to the community".

While you're exchanging pictures, why not exchange your thirst for an ice-cold Coca-Cola. You'll go for the sparkling goodness of its delicious taste and you'll welcome its after-sense of refreshment.
