## Girl Hit By Auto

### Dies After Tragedy In Yard

Mrs. Roy Wayne Iglehart Saturday afternoon promised her 9-year-old twins 50 cents each to clean the backyard.

They were eager for the job. And the mother with her two youngest sons sat on the porch watching the busy twins.

Another daughter, Deborah, 8, went into the house to get her so she could help the twins roll up the clothes line wire.

Then it happened. At 504 East Seventh at 8:10 p.m.

"It was all over before I could look up," spoke the young mother.

But she always will remember the sounds of a car crashing the backyard fence in a tragic accident that took the life of her older daughter, LaWayne, and injured LaWayne's twin, DaWayne.

An automobile, driven by Madeline L. McIntosh, went out of control as it traveled south on Hickory Street, swerved across

the street into the Iglehart yard hitting both youngsters.

Traveling more than 77 feet from the time it went out of control, the auto first glanced off a tree and went through the fence before first hitting the boy, then his sister.

LaWayne who would have entered fourth grade this month,

was knocked unconscious although the lens of her glasses were not visibly scratched. She died about two hours later in local hospital.

DaWayne, released from the hospital Monday morning, had three teeth knocked out, six stitches in his lower lip and a bruise on his forehead.

## Charged In Wreck

A felony charge of murder by accident while driving while intoxicated has been filed against Madeline L. McIntosh.

District Attorney Weldon Kirk filed the complaint Monday in Precinct 1 Justice of Peace Leonard Henderson's Court after the death of 9-year-old LaWayne Iglehart Saturday night.

Miss McIntosh was driver of a car which went out of control as it traveled south on Hickory Street and hit the child who was in the backyard of her home at 504 East Seventh.

Her bond was set at \$2,500.

## Board Approves 5-Cent Increase

# School Lunch Tab Up

Students in Colorado Independent School District will be paying five cents more for school lunches in 1970-71.

Board of trustees voted the increase in meal costs Monday night in a regular monthly business session.

The action was attributed to the rising cost of food and labor which has made it more difficult to operate the cafeteria system within the receipts received.

Students at the beginning of the fall school term will be paying these prices:

Kelley - 40 cents, up from 35 cents.

Hutchinson and Wallace - 45 cents, up from 40 cents.

Junior and High School - 50 cents, up from 45 cents.

Superintendent Lloyd McKee

emphasized the major cause of lunchroom system's decrease in cash-on-hand and its increased cost of operation is the free meal program which involves 21.7 per cent students at Kelley, 19.6 per cent at Hutchinson, 21.9 at Wallace, 22.0 at Junior High and 8.0 at Colorado High.

Average cost per lunch last school year was 45 cents with total lunchroom expenditures totaling \$108,289, compared to the 1970-71 budget estimate of \$112,730, outgo, according to McKee.

Reimbursement on milk and lunch program is an estimated \$18,000 for the new year, comparable to \$15,708 in 1969-70.

Money expected from students and teachers lunches (including the five cent increase) is estimated at \$75,266 - \$8,207 more than last year. Estimated receipts from banquets and meetings are \$1,500, compared to \$1,453 last year.

Cash receipts from breakfast program for 1970-71 is estimated at \$3,000 compared to \$2,926 revenue from the program last year.

Even though school officials anticipate no major change in prices for Colorado High School snack bar, the 1970-71 lunchroom budget shows an estimated other income from snack bar to be \$15,300, \$1,795 more than the past year's \$13,505.

Expenses for the ensuring year include food purchases, estimated at \$53,161, the same as 1969-70.

Labor expense has been increased with the 15 more work-

ing days, plus a five cent an hour increase in salary for 24 workers, to an estimated expenditure of \$45,569. That's \$5,061 more than last year's \$40,508.

Other expenses (snack bar, etc.) is estimated at \$14,000, compared to the 1969-70 total of \$14,615.

A breakdown of individual

lunchroom reports for 1969-70 follows:

Kelley - 64,546 total meals, 14,534 free meals, \$17,155 total income, 86.5 per cent participation.

Hutchinson - 43,685 total meals; 9,089 free meals, \$14,056 total income, 89.3 per cent participating.

Wallace - 25,015 total meals,

5,794 free meals; \$7,119 total income; 97.1 per cent participation.

Junior High - 35,074 total meals, 6,178 free meals, \$12,440 total income, 71.8 per cent participation.

Senior High - 39,206 total meals, 4,013 free meals, \$15,687 total income, 38.5 per cent participation.

## Commissioners Okay Teletype Installation

Mitchell County Commissioners have approved the installation of a teletype system in Mitchell County Sheriff's Office in Court House.

The system, available to city and county governments in a 19-county area, is being made possible by a federal land grant through West Texas Central Council of Governments.

Commissioner's Court is one of three county governing agencies to approve the system. Also okaying teletype were city of Colorado and city of Loraine.

Even though the grant will finance the equipment purchase, local agencies will pay monthly service charges.

Target date for county installation is January 1, according to Judge Elmer Martin.

Commissioners in weekly session Tuesday made a formal request for \$21,690 from State Board of County and District Road Indebtedness.

This amount available to the county after Sept. 1 represents Mitchell County's share of lateral road money due from the state and will be used for maintenance, construction and improvement of lateral roads, officials said.

Commissioners also approved the exchange of \$3,260 in permanent school fund for U. S. Government Bonds valued at \$4,000, due in 1985 with option redemption in 1975. The exchange will be made through H. L. Schafer and Company of Amarillo.

## Band Practice Begins

Pre-school rehearsals for the Black Knights, Colorado High School marching band, will begin Monday.

### Flower Talk

The catnip plant has a beautiful cluster of flowers that are whitish and tinged in delicate pink. It was given the name catnip because cats like to roll and play in the leaves. They will eat them, too.

Catnip was once used to make a valuable home tonic and a remedy for babies' colic. It has also been used as a seasoning for food.

It has become a common roadside weed in North America and Europe.

Some of the old stand-bys are still the favorites. For instance, there is nothing that says more to the mother of a new baby than a dozen red roses. Dad, send them to mother. Just call 726-3254.

## CONVERSATION CORNER

NATIONAL HOUSE of Representatives has approved the constitutional amendment giving women equal rights by a vote of 346 to 15.

Approval by the Senate is expected to be a breeze. Then there will have to be approval of three-fourths of these United States, followed by a year before it takes effect.

Speaker of the House John McCormack called the approval vote "Another historic step."

Congressman Emanuel Celler, New York Democrat, called it "A step backward."

Noted that one of the 13 "Nay" votes came from Representative Bob Poage of Waco, Texas. Well, at least he has the courage of his convictions. He thinks the new amendment would endanger the Texas homestead law which favors the women, he said.

UNLESS the years have changed Bob Poage more than years have any business medicine with people, he is still a Christian gentleman and does not deserve to be picketed by women in the Feminist Liberation Movement.

First met him when, as a handsome Baylor law graduate,

he was courting a Baylor senior class beauty so it couldn't be that he has anything against the ladies.

Think it more likely that as a Texas he was trying to protect the women—even against themselves, as he saw it.

HAL BOYLE, a very broad-minded city columnist, came out with a plaintive question in his Monday piece.

"What is it the women really want?" he asked in some confusion. "What puzzles the average man most is why women should want to be equal with him when he already feels unequal to them."

Well, what puzzles the average woman, Mr. Boyle, is that we don't know what the women want, either. We just want. We were born wanting something or other and will probably die the same way.

MOST of us are in accord about wanting equal education, equal jobs and equal pay, equal status in the courts.

Most of us shudder, on the other hand, at the thought that the new amendment might make us eligible for the draft and for the paying of alimony.

Most of us would make rotten

soldiers. And until we all get re-educated, what money a woman makes is hers, along with what money her husband makes, let's face it.

DO NOT mean to seem frivolous about this matter of rights for women. It is not a frivolous matter. But some of its methods are!

Need for day care centers for young children of women who have to work is a very serious need.

"Right to own property even if your name starts with 'Mrs.'" is another thing Texas waited too long to remedy.

Martha Griffiths, Michigan Democrat Representative, is absolutely right when she holds that "So-called protective laws have become restraints" to women and wives and widows alike.

So far, so good.

BUT WHEN the Feminists cry for some other "rights" such as equality with men at every level, part of it sounds like a fight for "rights" to the plain vanilla women.

Would have marched for votes for women had I been old enough then. That was a legitimate fight, well-won, and its late-coming is still a reflection on the men.

Absolutely and positively refuse to march for abolition of the bra and such-like.

Due to wrong thinking and early training, no doubt, had still rather be feminine than neuter gender.

He's a he and she's a she, and do not care one bit. Better by far the way things are than to turn into an "it."

WOMEN have a way of getting most of the credit for life's little niceties, any how. Been giving Emmaleth Thompson the credit for cards from far-away places for years. Guess what she laughingly told us last time that it's her husband Charlie C. Thompson who writes and mails all their vacation cards.

From Ghana, where the Thompsons are visiting Emmaleth's sister, comes a colorful card from Charlie saying they spent three days in Madrid. They plan three days in

London after the stay in Ghana.

SEEN LATELYS include Barbara (Mrs. Carroll) Gray of the LTNS (long time no see) department. Lovess Curlee, wife of Tandy. Mary (Mrs. Bruce) Hart and Juanice Bruce in a lunch time twosome.

Saw, too, Tom Rees, Jim Hestand, Bill Erwin, County Judge Elmer Martin, Gilbert Leach, Buck May, Sheriff Lewis Claxton, Weldon Kirk, the DA, Ira Hardin.

Deputy Forrest Smith, his wife Esther, their son Wayne and his wife Reggie (nee Long) are just back from a trip to Dayton, Ohio, where they visited Esther's mother.

Lena (Mrs. Gwan) Strange was doing some studying at the library. Asked about the son Clay Strange to find he has been accepted for enrollment in Law School at University of Texas at Austin next month. His little wife will finish work toward her degree at UT. Lena and Gwan visited the couple in Austin recently and Lena's still aglow over the trip.

OFF THE CUFF - Guests of Glade and Wilson Hrbacek have been Jimmy and Joy Hrbacek of Dallas, along with their three children Scott, Shel, and Doug.

Louella and W. B. Crockett, Jr., are due home this weekend from a vacation jaunt to Padre Island and Port Isabel. Sons Bill and Bruce, and daughter Cathy went with them.

Louise (nee Hart) and Paul Crenshaw, Jr., of New Orleans, stopped by to see Mary Hart enroute to leaving first son Mike at Camp Philmont, Boy Scout Camp, in New Mexico. The couple and their younger

Children Cathy, Leigh, and Steve are currently visiting Louise's father Bruce Hart in Odessa. Mike will ride the chartered Scout bus home.

EXPECTED this weekend from Salt Lake City, Utah, are our Dr. Jimmy Pickens, his wife Juanice, and children Martha, Joanna, and Greg. Dr. Jim is doing graduate study in neurology. The family will visit his mother Katherine (Mrs. J. M. Pete) Pickens. Plus his sisters Mary Jo (Mrs. J. D.) Hill and Nell Ruth (Mrs. Charles) Holman.

Hill son John, by the way, is hoping for Fort Bliss after his basic at Fort Ord, N. C. Son Steve in-back in Lubbock after training in Arizona. Cathy Hill Latham's husband Harold has received his degree from Tech.

HAPPY HOUSE on Hickory St. belongs to Mildred and Bruce Campbell. Their daughter Verna and her husband John Merritt of Huntington Beach, Calif., Merritt sons Jim, Bob, and Scott are houseguests of Verna's parents and of Verna's grandmother Mrs. W. H. Miller.

After C-City, they will visit John's first son and other Merritt relatives in Alabama. They missed seeing "The Nuckolls Twins" here by a few weeks. Sharon, wife of Larry Currie of Ft. Basing, N. C., met her twin sister Karen at the Campbell home in July. Also visiting the Campbells then were Karen's husband L. M. Newby and their baby daughter Michele of Yuma, Arizona.

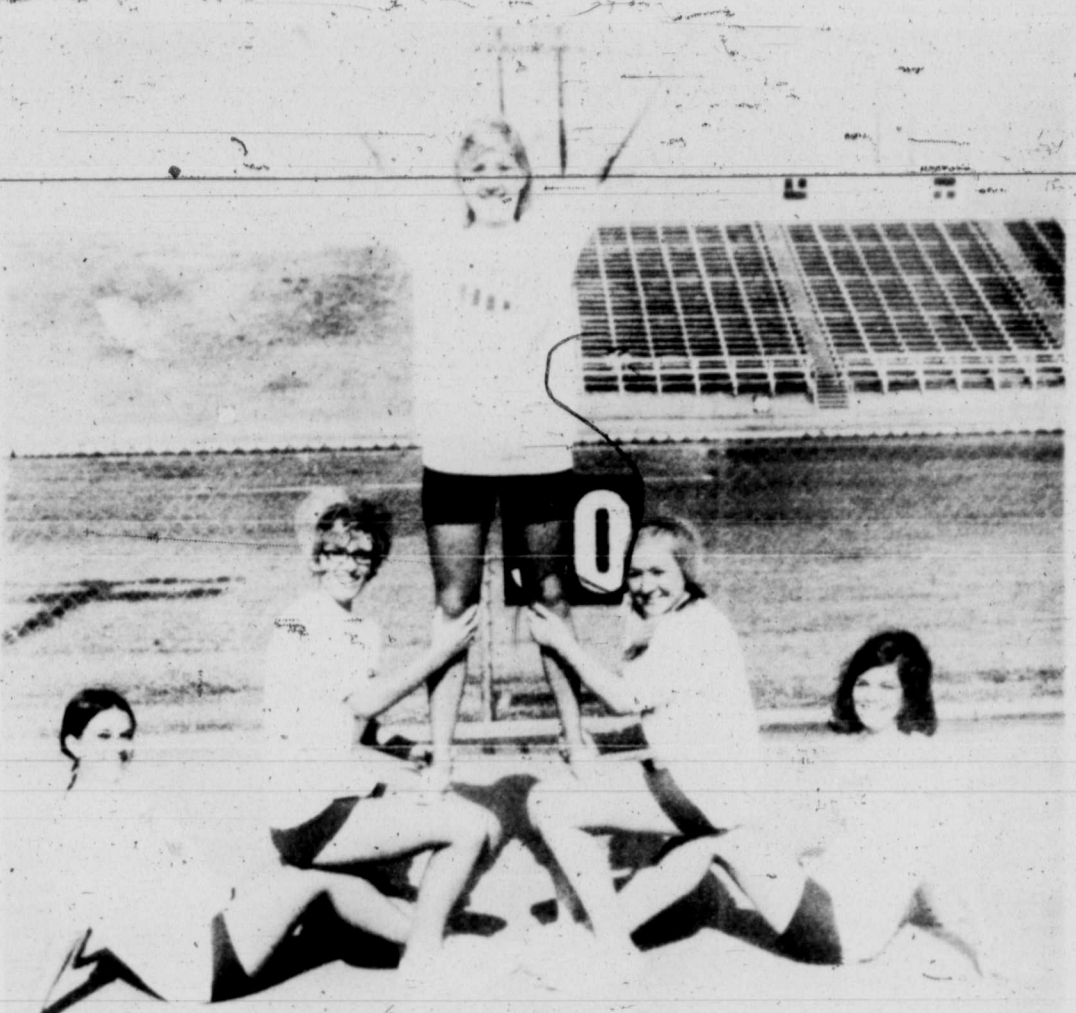

Michele makes five generations for the maternal side of the family with great-grandmother Mrs. Miller, great-grandmother Mrs. Campbell, grandmother Verna, and the little mother Karen in the line-up!

Yes. Happy Birthday

Not too many of us—especially as the years begin to climb—care about counting out loud of our birthdays. But the one celebrated last week by Lone Wolf Electric Cooperative Inc. is different.

The cooperative and all its members should be prouder every year their anniversary comes around on the calendar. For theirs is an organization which has meant better living for all the them as well as better business and industry for all our community.

Their electric lines move power to oil wells, irrigation pumps and other installations important to our economy. And the homes this power lights are furnished with refrigerators, freezer, washers, dishwashers, vacuum cleaners, mixers and other good-living items which were bought from our stores.

So, congratulations Lone-Wolf for another year as a key asset within our community.

# Catfish Farming Interesting To Mitchell County Farmers

Several landowners in the Mitchell County area are showing interest in catfish farming.

"At least a half dozen local residents have made inquiries about the production," said Don Hodges, supervisor of Mitchell Soil Conservation Service.

"We don't know how serious they are," he continued, "but they have made inquiries about operations."

John Kazda, soil conservationist at SCS, announced Friday that bulletins concerning catfish farming along with services of SCS biologist James Henson of San Angelo are available at the local office.

According to Henson the first essential in the establishment of a fish farming operation is a ready supply of good quality water.

It takes at least 25 gallons per minute of water to maintain a surface acre of water. Well water is an excellent source of water due to its purity and being free from undesirable fish or fish eggs. "Additional attention must be given to total hardness and oxygen content of the water," Henson said. Desirable range is between 6.5 and 8.5. Minimum oxygen level for catfish ponds is 3 parts per million. "A low-

er level may kill the fish.

A second essential is proper pond construction. In this area deep water is not necessary for catfish farming. Ponds should be constructed to be about 3 feet deep on the shallow end and about 7 feet deep at the deep end. A drain must be provided that will drain the pond in a few hours. The berms of the earthen dam should be wide enough to facilitate the operation of necessary equipment and the side slopes should be 3 to 1.

The stocking rates used in a catfish farming operation depend on the size of fish desired at the end of the growing season. Fingerlengths stocked at 1500 per surface acre of water will average slightly over one pound and at 2000 per acre, slightly under one pound in a 210 day growing season. The growing season is regulated by water temperature. When water temperature remains below 60 degrees F, catfish feed sparingly.

Pond management during the year includes maintaining the water quality, controlling predators, insects, weeds, diseases and parasites.

## Conner Follows Destruction Path Left By Hurricane Celia

BY SARAH HARRIS,  
Women's News Editor.

"You just can't believe it."

That's the way Colorado City's G. G. Conner describes destruction of Hurricane Celia in the Corpus Christi area.

Conner has just returned from Corpus Christi, where he operated a Civil Air Patrol mobile communications unit.

His station was at the Corpus Police Department parking lot. And his unit provided communications for a full week, for state and local police, Red Cross and other emergencies.

He returned Monday, having hurried from Colorado City with his mobile unit immediately after the hurricane hit the Gulf Coast.

The police station is a recently built building but its north wall was blown out. Operations were set up in basement and parking lot.

Conner's CAP communications vehicle, a transformed military bus belonging to Civil Air Patrol, is equipped with a two-way radio monitor, state

police frequency, two-way communication on sheriff frequency, ground to air facilities, amateur frequency, several air patrol frequencies and a Texas State Guard frequency.

With a 5,000 watt generator also light up the police department parking lot.

All telephone systems, completely disrupted by the hurricane, was about 50 per cent restored when the local volunteer returned home.

"The people," continued Conner, "were surprisingly calm and seemed to take it in stride."

"I've seen three but this is the worst as far as property damage," he added.

"A freight train on a track was blown to pieces, trailer houses looked as if they had exploded, leaving only the wheels," the Civil Air Patrolman stated as he described the storm's effect.

A former resident of Rockport, Conner went to that town to see where he had lived to find just the foundation of the house standing.

Conner was relieved by volunteer patrolmen from Houston and Rio Grande Valley Wednesday night after two nights without sleep.

Conner said the main problem of the distressed area was drinking water.

Conner, an employee of Sun Oil Company at Jameson Gas Plant, encouraged anyone interested in the Civil Air Patrol, a strictly volunteer organization, to contact him.

He and his wife, who recently moved here, reside at 300 Concho Street.

## Heroes... A Must For Boys

Every boy has his heroes. You just don't grow up without 'em.

But who are they?

You can tell a lot about a boy... how he'll grow... the kind of man he will be... just by his heroes.

That's because a boy becomes a part of his heroes. He dreams... and plays

and plans to be like them.

So, be careful where your boy finds his heroes.

Church is a fine source. The best.

A boy discovers the brave and the strong and the clean in Bible study and religious education. And from these great lives he learns their qualities for his own life.

Yes, indeed. Be careful about your boy and his heroes.

## Social Security Raised

Social Security benefits paid  
to residents in Mitchell County  
totalled \$127,000 a month as  
1969 ended. Erven Fisher, so-  
cial security district manager,  
reported.

Of the social security bene-  
ficiaries living in Mitchell  
County, 1169 are retired work-  
ers and their dependents. An-  
other 353 are receiving bene-  
fits as the survivors of work-  
ers who have died, and 161  
are getting benefits as dis-  
abled workers or the depen-  
dents of disabled workers.

Fisher pointed out that al-  
though the majority of social  
security beneficiaries are old-  
er people, about one out of every  
four is under age 60.

In the State of Texas, 321,147  
people under age 60 are collect-  
ing social security payments  
each month. The 186,769 who  
are under 18 are receiving  
payments because a working  
father or mother has died or  
is getting social security dis-  
ability or retirement benefits.
