County-State ROW Tiff Apparently Ends

The long debate between Howard County and the State Board for Hospitals and Special Schools on right-of-way easement for US 87 across Big Spring State Hospital grounds was apparently ended this morning.

T. A. Welch, Big Spring house mover, was tentatively awarded contract to relocate two residences on the hospital property. Relocation of these two buildings has been the stumbling block which has delayed signing of the right-of-way deed.

Welch, bidding on the relocation under the much modified stipulations of the state board, offered to do the job for \$7,405. There was one other bid — that of J. R. Garrett, also of Big Spring, for \$7,432.50.

Originally, the State Board had made so many requirements relative to relocating the buildings that the original bids had been more than \$14,000 — which was twice the amount of money the county had set aside to pay for the job.

Recently the State Board made

a new proposition, modifying sharply its original requirements. Under the new plan, Welch and Garrett both offered bids which are just under the amount of money the state and county planned to spend for the project.

The State Hospital easement is the final action needed to complete right-of-way needs for the US 87 improvement program.

The county commissioners said that Welch's bid will be sent to the state board for its meeting on Dec. 11 and that it is assured the offer will be accepted.

A few signboard easements are yet to be cleared up and the entire road from Fairview south to the city limits will be cleared and the highway department free to award contract for the road improvement job at its pleasure.

The State Board will meet next Monday to discuss also an agreement with the City of Big Spring over water rates.

The board will consider a new water rate in which the city seeks a standard rate replacing the 10

cents per thousand gallons set for the hospital in 1937.

The hospital has asked for more water, to increase the supply from 350,000 to 750,000 gallons per day, but has failed to agree on the city's rate.

The city is laying a new and larger water main along the route of US 87 north to a point east of the hospital gate, which will provide a bigger supply. However, the city commission, in laying the line, has held firmly to the point of not increasing the supply unless an adequate rate is received for the water.

Under laws governing bond issues for water and sewer improvements the city cannot legally sell water to one customer below the rates charged other customers and the city commission has gone on record as holding to that law.

The board will also consider the sale of surplus land at the Kerrville State Hospital, and consider awarding contracts for new ward buildings at Travis and Abilene State Schools.

Shopping Problem.

A parking place looked pretty scarce when this picture was taken today on Main Street in downtown Big Spring. The Christmas shopping season was obviously in full swing, as cars circled the block, waiting for a place to dash in. Crowds on the sidewalks and in the downtown stores were more than a match for the bumper-to-bumper traffic as the city appears to be in the midst of a record-breaking holiday season.

Mrs. Bishop, Long-Time Area Resident, Dies Here

Mrs. Nora Bishop, who spent almost half a century as a resident of this area, died unexpectedly Sunday evening just a few days short of her 80th birthday.

Mrs. Bishop, who was making her home with a daughter, Mrs. Lucille Burke at 1208 Marjorie, was active as usual and was doing some chores just a few minutes before she was stricken and died at 7:30 p.m.

The funeral has been set for 10 a.m. Tuesday at Nalley - Pickle Chapel with Dr. R. Gage Lloyd,

First Presbyterian minister, officiating. Burial will be in the City Cemetery beside the grave of her husband, Walter Bishop, who died in 1956. Pallbearers will be Calvin Shipley, Seminole; Jim Smith, J. F. Choate, L. Z. Shafer, Robert Satterwhite and Lawrence Robinson. All friends will be considered honorary pallbearers.

Mrs. Bishop was born Nora Mustian on Dec. 8, 1881, near Alexandria, La. When she was four years old, her family moved to Fairdale, Texas, and it was there that she was married to Walter Bishop on Nov. 9, 1902.

They moved to West Texas in 1904, settling on a farm and ranch in Borden County near Vincent and were for years prominent in the affairs of that area. They later moved briefly to Abilene for the daughters to attend college, then settled in Big Spring in 1940. Mrs. Bishop, who was employed by Cosden, was a great hand to garden, and this love was shared by Mrs. Bishop, also an ardent flower gardener. Outside of the Baptist Church, she did not hold membership in any group, devoting herself to her home. For approximately 14 years she had suffered from a heart condition.

Surviving Mrs. Bishop are two daughters, Mrs. Carl Peterson and Mrs. Lucille Burke of Big Spring; one son, Ted Bishop, of Big Spring; one grandson, Edmund Burke III, Big Spring. She also leaves four sisters, Mrs. Jennie Enner, Mrs. Jim Enner of Jasper, Mrs. D. A. Dainwood, Hemphill, and Mrs. M. L. Whitehead, Nacogdoches; two brothers, Bob Mustian, Hot Springs, Ark., and Tom Mustian, Odessa.

Muggy Weather Covers Texas

By The Associated Press

Muggy weather, more like spring than early December, covered most of Texas Monday.

Fog cloaked the areas around Beaumont and Corpus Christi, and there was a little light rain in Central Texas during the night. Skies were clear at only a few points along the coast, in deep South Texas and around Laredo.

Temperatures remained well above normal. Readings before sunrise varied from 45 degrees at Dalhart to 69 at Brownsville.

Clouds were expected to linger through the day over much of the state, bringing occasional scattered showers, and considerable cloudiness was in prospect for the eastern two-thirds of Texas again Tuesday.

DAVIDSON LOOKING FOR SIX LARGE, LIVE, WILD RABBITS

Carroll Davidson, Big Spring Chamber of Commerce manager, is looking for six large, live, wild jackrabbits. He doesn't want them for himself; it's a request from the Baylor University Chamber of Commerce.

In the Spring, Baylor wants the rabbits to use during its spring training program. Expenses of handling and shipping will be paid by the school's Chamber.

Davidson's problem is where to get the jackrabbits. Granted that West Texas is heavily populated with jackrabbits in pest proportions, not many of them visit the Chamber office. With this in mind, he has called for help to anybody in the area who can help him corral the six rabbits, large, live and wild.

Hemisphere Reconsiders Cuba Policy

FOR TEACHERS

Social Security Vote Is Today

Teachers in Big Spring Schools make the decision which counts regarding Social Security today at faculty meetings in the various schools, according to Pat Murphy, business manager of the Big Spring Independent School District.

Each teacher will vote today to either accept Social Security or to remain out of it. In a straw vote in September, there were 201 teachers who wanted Social Security benefits.

The school system was put under Social Security by action of trustees and a preliminary vote was held in September to determine who intended to accept the program. Another vote is required 90 days after the initial vote. This one is decisive.

Funds have been withheld from teacher's pay since September and have been held in escrow by the school, Murphy said. After this referendum, it will be sent in for persons wishing to go under Social Security and will be refunded to those wishing to remain out of it. Teachers who previously voted against Social Security and have now decided to join may pay their back funds in order to gain

full benefits since Social Security was instituted here.

This referendum is for teachers who were in the school system when it was put under Social Security. All new teachers automatically are brought into the program.

YOUNGSTERS HELP FUND

Young children are demonstrating their concern for needier youngsters at the Christmas season, because several of them are sending in their gifts to the CHEER FUND. This is the project which means toys and goodies for kiddies in homes where Santa otherwise would not appear.

Every cent goes to help city firemen buy parts to repair donated toys (and they can use more discarded toys!) and, if there is a surplus, it will be available to the county health nurse to get medicine or food in cases of real emergency.

Bert and Wesley Boullion are two youngsters who wrote "We want to help," and W. W. Moeser's grandchildren, Gregg and Kathy, were donors.

No matter how small the gift, the CHEER FUND will be grateful for it. Make checks to CHRISTMAS CHEER FUND and send to The Herald. Thanks to these friends:

Bert Boullion	\$2.50
Wesley Boullion	2.50
W. W. Moeser and grandchildren	1.00
Gregg and Kathy	1.00

East Germans Strengthen Wall

BERLIN (AP) — Working through the night, under floodlights, 2,500 East German workers narrowed the seven crossing points between West and East Berlin today and strengthened the adjacent sections of the Berlin wall with more concrete.

Clash Coming On Refugee Issue

UNITED NATIONS, N.Y. (AP) — The United States and Israel headed today for an open clash with the Arab world over how to help the 1,500,000 Palestine Arab refugees.

East, West Agree On Laos Peace Plan

GENEVA (AP) — The Western powers and the Soviet Bloc agreed today on a far-reaching agreement on how to maintain the peace and neutrality of Laos.

The six-point agreement was adopted at a closed session of the 14-nation Laos peace conference. It will become operative when the

neutrality treaty now being drafted by the conference is completed.

Some important obstacles remain to be overcome, particularly the integration of the hostile Laotian military forces. But today's agreement marked the most substantial step forward yet taken by the conference and was hailed by Western and Communist delegates alike.

The agreement names Britain and the Soviet Union as joint, permanent guardians of Laotian neutrality.

The British and Soviet delegates are the co-chairmen of the 6½-month-old conference. Under the new agreement, their governments are to consult each other and decide what action to take whenever the peace or neutrality of Laos is threatened.

The agreement also gives the Soviet bloc a veto over all major

WASHINGTON (AP) — A proposal to call a hemisphere foreign ministers' conference to consider collective action against Cuba was expected to win approval today in the Organization of American States.

The proposal before the OAS Council is sponsored by Colombia. The conference would consider the threat of communism and decide what steps to take against it. Cuba is not mentioned by name, but is the obvious target.

Prime Minister Fidel Castro clearly placed himself in the Communist camp Friday night when he declared he was a Marxist-Leninist and would remain one "until the day I die."

His announcement seemed to pull the rug from under those in this hemisphere who have sought to defend Castro from charges of subversion to communism. Some hemisphere countries now may take a second look at their stand against intervention in the internal affairs of another sovereign nation.

Colombia's foreign minister, Jose Joaquin Caicedo Castilla said in advance of the council meeting that the prospects seemed "very good for our project."

One veteran Latin-American diplomat predicted that the proposal would obtain near-unanimous approval.

There may be some opposition from nations that traditionally oppose intervention in another country.

Many OAS representatives, however, seemed to agree that the conference would be called, although perhaps not as early as the Jan. 10 originally proposed by Colombia.

In Seclusion

HOLLYWOOD (AP) — Dinah Shore and George Montgomery sought seclusion separately today and the movie colony turned from gasping to guessing about the surprising collapse of their "perfect marriage."

Yarborough Cites Demo Apathy In Tower's Victory

LOS ANGELES (AP) — Sen. Ralph Yarborough, D-Tex., said Sunday that Republican Sen. John Tower was elected in Texas because the state's Democratic party didn't have the leadership to instill confidence in the voters.

Yarborough told the National Conference on Volunteer Political Activity that too often political parties became stagnant from being in power too long.

Tower is the first GOP senator from Texas since Reconstruction days.

"Democratic voters stayed away from the polls," Yarborough said, "because they said, 'Why vote?'"

Canvass Set

FLORESVILLE (AP) — School trustees prepared to canvass results today on a \$35,000 School District bond issue which carried by a slim margin Saturday. The vote was 455 to 442.

Crash Kills 3 In Louisiana

FT. POLK, La. (AP) — Two servicemen and a civilian died in a three-way auto collision on U.S. 171 north of Deridder, La., early Sunday.

Ft. Polk authorities identified the servicemen as Pvt. Weibey Falkenberg, 19, of Ft. 1, Carmine, Tex., son of Mr. and Mrs. Reinhardt Falkenberg, and Spec. 5 Mike Muse, 19, of Navasota, Tex., son of Mr. and Mrs. Frank Muse.

The civilian was Melton Walllet, Riddle, La. The Texans were members of Co. B, 386th Engineer Battalion, 49th Armored Division.

Court To Rule On School Prayer Issue

WASHINGTON (AP) — The Supreme Court agreed today to consider whether it is unconstitutional for prayers to be said in public schools.

A petition submitted by parents of nine children in four schools in New Hyde Park, N.Y., contends the offering of prayer in schools violates the Constitution's principle of separation of church and state.

The New York State Board of Regents, the governing body of the state's public school system, had recommended to all local school boards that this prayer be used daily in opening exercises:

"Almighty God, we acknowledge our dependence upon Thee, and we beg Thy blessing upon us, our parents, our teachers, and our country."

The objecting parents said they were, variously, members of the Jewish faith, the Unitarian Church, the Society for Ethical Culture, and one parent is a non-believer.

They appealed to the high tribunal after New York courts ruled the prayer did not violate the Constitution.

Oil Market Showdown Due

DENVER, Colo. (AP) — A controversy over equitable sharing of the domestic crude market by all oil producing states headed for a showdown today.

There was indication officials of the Interstate Oil Compact Commission would take two steps designed to end the year-old dispute.

A subcommittee on equitable opportunity was expected to seek authority to broaden its study to include natural gas as well as crude oil.

Commission officials also were drafting a resolution to reaffirm traditional policy that the compact can do nothing more than place recommendations before its 33 member states for acceptance or rejection.

LBJ Says Red Meddling May Have Been Mistake

CHICAGO (AP) — The Communists' effort to create fear and consternation "may well have been the greatest mistake in their history," Vice President Lyndon B. Johnson said today.

This Communist pressure, he said, helped draw "free men everywhere" closer together. He called it "the outstanding fact of 1961."

Johnson, in an address pre-

Walker Will Go It Alone

NEW YORK (AP) — Former Maj. Gen. Edwin A. Walker says he'll go it alone in his fight against communism.

"I will not be affiliated with anyone in particular," he declared Sunday when asked whether he would carry out his programs through such organizations as the John Birch Society.

"I intend to be myself and stay unassociated with any organization or any individual except the necessary personal staff to carry on my correspondence and my assistance in my program and objective. I am not going to be a principal spokesman for anyone but Edwin A. Walker."

Walker quit the Army last month following removal from his command of the 24th Division in Germany last May. It came after an investigation of complaints about an information program he sponsored among his troops.

An Army investigation cleared Walker of accusations that his troop training course was patterned on literature of the John Birch Society. The report said, however, that Walker was a society member.

Stickney Hears New Death Date

HOUSTON (AP) — Dist. Judge Miron Love set Jan. 19 today for the execution of convicted murderer Howard Stickney.

Carla Insurance Handling Approved

DALLAS (AP) — Chairman Thomas Ferguson of the Texas Board of Insurance said Sunday his agency feels insurance companies have met their obligations in handling Hurricane Carla damage claims.

In the hurricane's wake, dispute arose over how damage was caused — by wind or water. Insurance company spokesmen held losses from flood waters or heavy rains were not covered.

Guard Flap Continues As Citizen Soldiers Take Sides

DALLAS (AP) — Members of Texas' 49th Armored Division in training at Ft. Polk, La., fired away at each other today with charges of a "spineless demonstration" and countercharges of inept leadership.

Twenty-six National Guardsmen in a letter to the Dallas Times Herald criticized "juvenile, spineless and disgusting demonstrations" of some individuals complaining about their active duty.

Other Guardsmen said complaining reservists "have reason to complain."

The disagreement marked the latest flurry in the argument over Guardsmen complaints that prompted talk of a full-scale investigation.

One National Guard private said reservists "are now being trained by National Guard sergeants who in many cases don't even know how to march. That is, they don't know how to left, right, left."

Their rebuttal came after Lt. Herschel Braley said that men at Polk are being trained by competent men with many years of experience.

Braley was supported by the letter-writing Guardsmen, who also slapped at complaints about lack of proper equipment.

"We will take care of our own," the 49th Division members said. "We do not expect anyone to give us anything. What we need to have, we secure."

Complaints piled up. In the wake of Braley's counterattack against those he called "cry babies," Guardsmen in Dallas for the weekend served up a rebuttal. They pointed to a notice posted at Ft. Polk proclaiming:

"Our job as non-commissioned

officers of the Army and this unit is preparation to fight...we will demand the utmost effort, and the highest standards of all men serving under us."

A National Guard specialist said:

"As far as I'm concerned the training schedule is just a piece of paper on the wall. Of the six weeks I have spent at Polk training for combat, I have attended exactly five classes. The rest of the time I have been on detail cutting grass, on KP or some other useless job."

The letter also said the decision for release from active duty was one for President Kennedy "to make. 'We have enough to do without worrying about this.'"

One of the Guardsmen who complained about conditions cited a treacherous thing that occurred a week ago at a post theater.

"When a segment of a newsreel showed President Kennedy talking with Indian Prime Minister Nehru, you could not hear the soundtrack because of the boos and hissing."

The same man added that morale seemed to take a boost with the President's announcement last week that the Guardsmen might get out before their year's active duty is up.

Cosden Group Of Duplicate Players At B. Spring Club

Members of the Cosden Country Club duplicate bridge players met at the Big Spring Country Club Sunday afternoon, with eight and a half tables to accommodate the group.

Winners in north-south were Mrs. Charles Tompkins and Mrs. Tom South, first; Mrs. Hayden Griffith and Mrs. Travis Reed, second; Harve Williamson and Ed Hartstein, third; Mrs. Ben McCullough and Mrs. John Stone, fourth.

In east-west play, winners were Mrs. R. E. Dobbins and Mrs. Ward Hall, first; Mrs. Anne Hardy and Mrs. George McGann, second; Mrs. J. H. Holloway and Mrs. E. G. Patton, third; Mrs. Tommy Hutto and Mrs. Dan Greenwood, fourth.

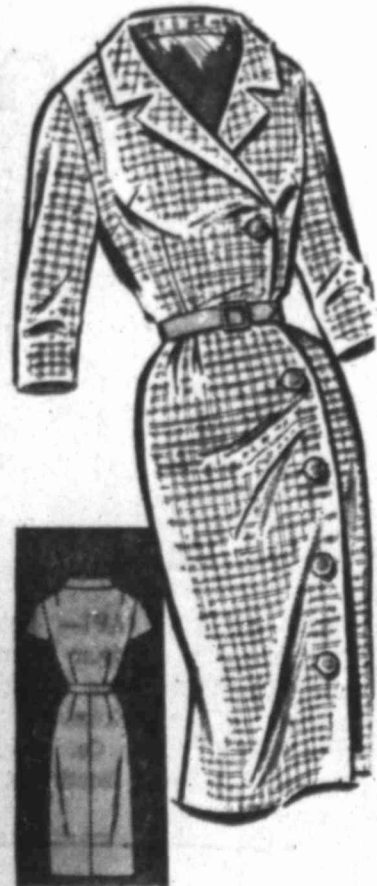

Players will meet at Cosden Country Club at 1:30 p.m. Sunday.

Return From State Meeting

Mrs. M. A. Dunagan and Mrs. Hilliard Diltmore of the Elbow P-TA returned Friday from Houston where they were delegates to the state meeting of the P-TA, Nov. 29-Dec. 1.

Mrs. T. W. Whaley of Kosse is president of the association, which 2,832 attended. Theme of the sessions was "Homes Create Strength Through Effective Learning"; this was developed by pupils and teachers of the Houston schools.

Place of the 1962 convention was set for Fort Worth, with the date to be announced.

Asymmetric

Here are very smart lines with an eased fit, in a good-looking sheath that makes a side-closing. No. 3125 comes in sizes 14½, 16½, 18½, 20½, 22½, 24½. Size 16½ takes 4½ yards of 35-inch fabric or 2½ yards of 54-inch. Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, Box 1400, New York 1, N.Y. Add 10 cents for each pattern for first-class mailing.

For the new Fall-Winter Pattern Book presenting the latest pattern designs and featuring comprehensive lessons in dress-making send 50 cents.

Anniversary Is Marked

LAMESA (SC)—Mr. and Mrs. William M. Wilkerson observed their Golden Wedding anniversary Dec. 3 with an open house in their home in Lamesa.

Mrs. Wilkerson is the former Mary Lou Price, daughter of the late Mr. and Mrs. H. H. Price. Wilkerson is the son of the late Mr. and Mrs. George W. Wilkerson. The couple was married in Sweetwater, where they made their first home until 1928.

Then they moved to Borden County and resided there 10 years before moving to Dawson County. He farmed until he retired in 1944.

The couple has 10 children: Mrs. O. H. McSpadden, Bill and Kenneth Wilkerson, all of Lamesa; M. Sgt. D. E. Wilkerson, serving in Korea; Mrs. Elvis Freeman of Turner, Ore.; Mrs. Raymond H. Womack of Lubbock, Mrs. Fred Leclair of Dixon, Calif.; Ira W. Wilkerson of Dayton, Ohio; Mrs. Lynn Lyons of Chickasha, Okla.; and K. E. Wilkerson of Lubbock.

Birthday Parties Are Given In Bob Wash Home

FORSAN (SC)—Parties in the Bob Wash home have honored two of their children with birthday observances.

On Wednesday, Danny William was the honoree on his fifth birthday anniversary, when young friends were entertained with games and presented peppermint sticks, balloons and bubble gum as favors.

The birthday cake was frosted and decorated in yellow.

Friday evening, Dianne Wash gave a slumber party for five of her friends on the occasion of her eighth birthday anniversary. The birthday cake was decorated with a china doll and dog with frosting roses of pink and leaves of green.

Local Women Are Judges For Show In Pecos Homes

"Christmas Stories" was the theme of the placement show given by members of the Sand and Sage Garden Club of Pecos Saturday and judged by three local women.

Mrs. Zack Gray and Mrs. Kyle Caudle, both of the Spaders Garden Club, and Mrs. John B. Knox of the Big Spring Garden Club, were judges for the show, given in the homes of Mrs. Melvin Hoelscher and Mrs. Roy Lindsay.

Christmas flower arrangements for tea tables and for family tables were displayed. Entertainment for the judges included a luncheon and a tour of gift and florist shops.

MR. AND MRS. WILLIAM M. WILKERSON

Wiggins Family To Make Home In Wichita Falls

FORSAN (SC)—Airman I.C. and Mrs. Gary Wiggins and Debbie have moved to Wichita Falls, where he is stationed at Sheppard AFB. Wiggins recently returned from a tour of duty in Alaska.

Mr. and Mrs. L. T. Shoults, Jackie and Joyce recently visited her parents in Desdemona. Mr. and Mrs. C. D. Walker, Brad and Brit.

Donna and Gregg have returned from a deer hunt at Barksdale. In Midland recently were Mr. and Mrs. C. L. Draper, who visited relatives.

Mr. and Mrs. T. J. Wall, Randy and Teresa visited his sister and her family in Midkiff.

Visiting in Olney are Mr. and Mrs. Frank Davidson, who are guests of his brother, Mr. and Mrs. Roy Davidson.

Mrs. O. W. Fletcher has as her guests this week her children, Mr. and Mrs. Freddie Stuart, Brad and Brit.

Supper Given For Birthday Party

FORSAN (SC)—A hamburger supper, given by Mr. and Mrs. Roy Walraven, Friday evening, was an in-honor affair for their daughter, Kay, on her eighth birthday anniversary.

Indoor games entertained the group and favors were balloons for the seven classmates of the honoree.

A pink and white birthday cake was served with the supper; Mrs. Woodrow Scuday assisted the hostess.

Bride-Elect Honored At Party

A shower of bridge accessories was given recently for Judy Simpson in the home of Mrs. George Moench when she entertained with a dessert bridge.

Miss Simpson, daughter of Maj. and Mrs. L. R. Simpson, 33B Albrook, is to be married Dec. 22 to Donald Lewis Powell. He is the son of Mr. and Mrs. W. R. Powell of Colorado City.

Dessert was served from a table in red and green Christmas decorations, and bridge appointments followed a white and gold bridal motif.

Bridge accessories were presented to the honoree by guests who were seated at three tables; winners in the games were Mrs. E. L. Powell and Mrs. Carl McCum.

House Seats To Be Filled

WASHINGTON (AP) — Four special elections for the House of Representatives are coming up to fill seats formerly held by Democrats. Three of the contests will be held this month in the South.

Democratic campaign spokesmen say they believe all four districts will remain Democratic, but they have their fingers crossed. They say they no longer are taking the South for granted. A Michigan election also could prove tough.

Republican leaders appear none too optimistic, but say they are quite hopeful of breaking the long Republican drought in Louisiana where two conservatives are trying for the seat left vacant by the death of Rep. Overton Brooks. This election is Dec. 19.

2 IN TEXAS

The other elections are Dec. 16 and 23 to fill vacancies in Texas caused by the resignation of Reps. Frank Ikard and the death of Speaker Sam Rayburn, and Feb. 13 in Michigan for the seat of the late Rep. Louis C. Rabaut.

In Louisiana's 4th District, the candidates are Democrat Joe Waggoner, oil products wholesaler, and Republican Charlton H. Lyons Sr., Shreveport oil dealer. They were named in a primary.

I. Lee Potter, the Republican National Committee's Southern spokesman, said he is quite hopeful about GOP chances in Louisiana, despite the fact that Democrats have 97 per cent of registrations. Potter said both Waggoner and Lyons are ultra-conservative and Lyons is conducting an aggressive campaign.

Although Republican Richard M. Nixon carried the Louisiana 4th in 1960, the vote was split three ways, with an uncommitted

slate of electors polling about 35 per cent and President Kennedy getting 27 against Nixon's 38. Brooks won the district last year 3 to 1.

TOUGHER

Republicans count their chances tougher in both Texas scraps. They say their best hope lies in a new Texas law requiring a winner to poll a majority, otherwise the top two go into a run-off. The Texas candidates were not named in primaries.

In each Texas election there is only one Republican running against a group of Democrats. Republicans hope the Democrats will split the vote sufficiently to let their man reach the run-off.

In the Texas 13th, where Rep. Ikard quit to become an official of the American Petroleum Institute, the lone Republican candidate is Joe Meissner Jr., a conservative businessman who resigned as a Wichita Falls councilman to make the race.

OPPONENTS

His Democratic opponents are Judge Graham B. Purcell Jr., and State Rep. Vernon Stewart, Wichita Falls; Dist. Atty. Jack Hightower, Vernon, and Jimmy P. Horan, Archer City lawyer-businessman.

In Rayburn's 4th District there are five Democrats against one Republican candidate. The last Republican to run in this district got 800 votes in 1946.

The Democratic candidates in this Dec. 23 race are David Brown, Roy G. Baker, and R. C. Slagle Jr., Sherman; State Sen. Ray Roberts, McKinney, and Jack Finney, Greenville. Conner Harrington, Plano, is the lone Republican.

The Michigan election is in the Detroit-Grosse Pointe area where Rabaut won 13 House races broken by a lone defeat in 1946. Democrats say Rabaut had a strong personal hold on the district and they are not going to get caught napping in what they call a potential danger spot there. Rabaut carried the district—the 14th—last year 132,602 to 78,548.

Candidates for the Rabaut seat will be chosen in Jan. 23 primary. Six Democrats, including Rabaut's son Louis, a tax attorney, have announced so far. The others are State Sen. Harold M. Ryan; William J. Coughlin, assistant Wayne County prosecutor; Martin W. Baginski, probate court official; Harold McLaughlin, president, 21st Ward Democratic Club, and Roland O'Hare, president, American Civil Liberties Union of Michigan. State Rep. Robert E. Waldron is the GOP candidate.

New 'Hot Oil' Regulations Due

WASHINGTON (AP) — The Interior Department said Sunday that changes in Connally "hot oil" regulations will become effective Jan. 1.

They include new reporting forms for use by oil producers in more than 100 Texas counties, all of Louisiana, and Lea and Eddy Counties in New Mexico.

The Connally Act, passed in 1935, makes illegal interstate shipment of oil in excess of amounts permitted by state laws.

Walkout In The U.N. Over China Issue

Soviet Ambassador Valerian Zorin, center foreground, gathers his delegates from their seats for a walkout staged by the entire Soviet bloc during a United Nations General Assembly debate on representation of China. The walkout

came when Nationalist China's Tingfu T. Tsiang, at rostrum, began speaking. Zorin had asked expulsion of Nationalist China and that Communist China be seated.

Weekend Violence Takes 22 Lives

By The Associated Press

At least 22 persons died violently in Texas during the first weekend of December. The toll included 15 killed in traffic.

West Texas deaths included:

Donald Taylor, 19, an Abilene Christian College student from Amarillo, died Sunday night as a light car overturned 2 miles north of Abilene on U.S. 83. Jerry Shackelford, also 19, suffered minor injuries.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were

Meany-Reuther Split Widening

BAL HARBOUR, Fla. (AP)—A fast-broadening rift appeared to be developing today between two of organized labor's top leaders—AFL-CIO President George Meany and Auto Workers chief Walter Reuther.

It has been no secret the two men haven't gotten along particularly well for some time. Now they've taken to exchanging potshots publicly.

Meany told reporters over the weekend that Reuther, head of the old CIO until Meany got the top job of the merged labor movement six years ago, is chief among union leaders who have been negligent in organizing activities.

Reuther retorted today through a spokesman for his union that Meany's criticism was untrue and intended merely to cover up failure of the AFL-CIO itself to engage in new member recruitment. The spokesman also said the Auto Workers Union has substantially organized its jurisdiction, except in the white collar field. The Reuther spokesman flatly

denied an assertion by Meany that Reuther has sharply cut down his organizing staff. The spokesman said there had been no staff reduction since the 1958 recession era.

More sparring between the two union leaders seems sure to develop at the AFL-CIO convention opening here Thursday.

Meany had a problem on his hands in another sector. James R. Hoffa's Teamsters Union also is holding an executive board meeting at nearby Miami Beach. Hoffa is taking advantage of the situation to call in AFL-CIO friends in an effort to get the Teamsters back into the federation.

Hoffa flatly predicted that an end of the four-year-old Teamsters exile is inevitable. His chances seem slim during the current union meetings, but Hoffa said he was encouraged by a conditional reaffirmation bid voted by the AFL-CIO building trades unions last week.

Meany was said to have written the resolution himself, and in such a way that Hoffa would have to quit as Teamsters president before his union could be considered for readmission.

Dec. 20 Called Astronaut Date

NEW YORK (AP)—Dec. 20 has been selected as the date for this country's manned orbital space shot, says Rep. Victor L. Anfuso. The New York Democrat in a television interview Saturday said if the shot is made successfully "it will certainly be a wonderful Christmas present."

ALL - SOUTHWEST 1961

Saxton, Alworth Unanimous Picks On All-Southwest Team

By HAROLD V. RATLIFF
DALLAS (AP) — James Saxton, Texas' mighty runner, and Lance Alworth, Arkansas' versatile back, were the only unanimous choices for the all-Southwest conference football team.

These two drew all eight votes of the coaches for the dream team, and it turned out to be a 12-man aggregation instead of the conventional 11.

Saxton led five Texas players to the first team. The Longhorns co-champions of the conference, dominated the field as they did for all but one game this season.

Rice put three on the all-conference team. Arkansas wound up with two and Southern Methodist and Baylor landed one apiece.

Texas A&M, Texas Christian, and Texas Tech failed to place but each had some strong contenders.

TEXAS DOMINATES

In the Texas group making the team were Saxton, quarterback Mike Cotten, tackle Don Talbert, and Bob Moses and Johnny Treadwell. Treadwell tied with Arkansas' Dean Garrett for one of the guard positions.

Cotten and Talbert were the nearest to Saxton and Alworth as unanimous choices, each getting six votes.

Johnny Burrell of Rice was picked as Moses' opposite at the wings while Robert Johnson of Rice paired with Talbert at tackle. Raymond Schoenke of

Southern Methodist led the guards.

Center went to Bill Hicks, the steady Baylor veteran.

Rounding out the backfield was Roland Jackson, Rice's magnificent fullback.

There were only two repeaters—Burrell, the Rice end, and Alworth, Arkansas' all-around half-back.

NEARLY

Jimmy Collier, Arkansas end, made a strong bid but lacked one vote of tying Burrell for one of the terminal spots.

Herby Adkins, Baylor's hustling guard, also made a run for a job and he, too, lost out by a single vote.

There was little competition for center and in the backfield where Saxton, Alworth, Cotten and Jackson dominated the field.

Saxton earned his place with one of the biggest years of rushing in conference history. He galloped for 846 yards—the league's best in six years.

Alworth was third in the conference in ground gaining with 516 yards, rolled up 300 yards returning punts, caught 18 passes for 320 yards and scored 30 points.

The all-Southwest Conference team (players, position, weight, class and home town):

Ends—Bob Moses, Texas, 195, senior, Richmond, Tex., and Johnny Burrell, Rice, 185, senior, Fort Worth, Tex. Tackles—Don Talbert, Texas, 230, senior, Texas City, Tex., and Robert Johnson, Rice, 215, senior, Pine Bluff, Ark. Guards—Ray Schoenke, SMU, 212, junior, Weatherford, Texas, and Dean Garrett, Arkansas, 200, senior, Benton, Ark. and Roland Jackson, Rice, 200, junior, Austin, Tex.

Center—Bill Hicks, Baylor, 206, senior, Little Rock, Ark. Backs—James Saxton, Texas, 164, senior, Palestine, Tex.; Mike Cotten, Texas, 180, senior, Austin; Lance Alworth, Arkansas, 178, senior, Brookhaven, Miss.; and Johnny Treadwell, Texas A&M, 180, senior, Dallas.

Brewer Takes Florida Event

WEST PALM BEACH, Fla. (AP)—Gay Brewer Jr. was \$3,800 richer today by virtue of his first-round victory in the West Palm Beach Open golf tournament.

The Crystal River, Fla., shot-maker won his second straight PGA tournament with his fourth consecutive sub-par round of 71 Sunday for a 274 total over the par 72 course.

Gay Brewer Jr., 69-64-70-71—274 \$2,800
Arnold Palmer, 73-67-70-68—278 \$1,900
Bert Weaver, 69-72-67-71—279 \$1,300
Johnny Potts, 72-68-71-68—279 \$1,200
John Barnum, 73-71-68-68—280 \$1,100
Don Massengale, 67-69-74-71—281 \$916
Sam Snead, 70-76-67-72—281 \$916
Bobby Nichols, 71-68-71-71—281 \$916
Ted Kroll, 71-74-68-69—282 \$775
T. Boynton, 70-69-72-71—282 \$775

Victorious in their first tournament play of the year last week and at Odessa, the Howard County Junior College Jayhawks will get a reprieve this week before taking part in the San Antonio tournament.

The schedule calls for the Hawks to open at 11 a.m. Friday against Del Mar in the first round. Not too much is known about the field, and on the basis of initial showing, the Hawks may rank among the favorites. Allen Academy is also highly regarded.

HJCJ players bruised their way to the finals in the Odessa invitational and apparently were coasting along to an easy victory in the championship game when South Plains College at Levelland bristled. The Hawks did well to hang on for South Plains grabbed the initiative in the stretch and whittled a 17-point bulge down to five points at one stage before the HJCJ team finally won, 56-47.

Other first round pairings at San Antonio pit Schreiner against Victoria, San Antonio against LeTourneau Tech, Allen Academy against San Jacinto.

Local Drivers In Winning Column

Three Big Spring drivers won first places in the Charioteers Drag Races held Sunday at Hobbs, N. M.

Port Porter won the D sports car event in her 60 MG. John Huckle, driving Jan Talley's '50 Olds, won the K stock event, while Travis Anderson came in first in his '50 Ford to win the L stock class.

Local drivers will be idle until Dec. 17 when they go to Abilene for the regular monthly Jaycee drag races.

SUNLAND P'K RACE RESULTS

FIRST RACE (3-year-olds and up, 6 furlongs)—Rubicon Rose 30.60, 2.50 and 2.40; Sun 3.00 and 2.80; El Chigile 6.50. Time—1:12.

SECOND RACE (3-year-olds and up, 6 furlongs)—Bessie Cagle 9.20, 5.00 and 5.00; Agoura Call 5.80 and 5.00; Don Mealy 10.00. Time—1:12.

THIRD RACE (2-year-olds, 1 mile)—Galant Root 2.50, 2.40 and 2.40; Rebel Date 5.20. Time—1:12.

FOURTH RACE (3-year-olds and up, 400 yards)—First Call 4.00, 2.60 and 2.30; Ava Dial 3.60 and 2.30; Easter Rose 2.20. Time—20.

FIFTH RACE (QH and TB allowance, 3-year-olds and up, 870 yards)—Kaystorm 4.30, 3.00 and 2.80; Admiral Van 4.40 and 4.40; May High 5.20. Time—45.3.

SIXTH RACE (3-year-olds and up, 1/2 mile)—Sir Bay 12.00, 5.20 and 4.00; Oakville 5.80 and 3.40; Little Cap 11.40. Time—1:12.

SEVENTH RACE (3-year-olds and up, 1/2 mile)—Whoopee Crane 14.00, 6.50 and 3.00; Sir Gus 5.50 and 2.40; Brief Dream 2.40. Time—1:17.1.

EIGHTH RACE (3-year-olds and up, 1/2 mile)—King Khal 11.00, 4.40 and 3.40; Time—1:16.

NINTH RACE (3-year-olds and up, 1/2 mile)—Lion 20.00, 4.00 and 4.00; Queen Dream 7.40 and 5.20; Tempest 8.00. Time—1:28.2.

TENTH RACE (3-year-olds and up, 1/2 mile)—Sir Bay 12.00, 5.20 and 4.00; Oakville 5.80 and 3.40; Little Cap 11.40. Time—1:12.

Quintels—31.60. Total Handle—215,097. Attendance—3,768.

Predictions Of Playoffs Coming True

By HAROLD V. RATLIFF
Associated Press Sports Writer

Everybody that was expected except Donna was in the semifinals of Texas schoolboy football today, and things were shaping up for pre-season predictions to come true.

That would put Wichita Falls and Corpus Christi Ray in the Class AAAA finals, Dumas and San Benito in the Class AAA title playoff, Jacksboro and Brady in the Class AA finals and Albany and Hull-Daisetta in Class A's biggest game.

Donna crept in with an upset triumph over highly rated Sweeney in Class AA. The southern boys whipped Sweeney 32-14.

Before Wichita Falls and Ray can reach their big showdown they must take out such worthies as Fort Worth Paschal, which rolls along unbeaten and untied through 12 games, and Galena Park, which holds an 11-1 record and a 27-12 victory over previously undefeated, untied Houston Milby.

Wichita Falls and Paschal clash at Fort Worth while Ray tangles with Galena Park at Galena Park, both games Saturday afternoon.

Hurrying Dumas and enthusiastic Gainesville meet at Vernon Saturday afternoon in one-half of the Class AAA semifinals. Nederland and unbeaten, untied San Benito get together at San Benito Saturday night.

Dumas was impressive last week in smashing four-times state champion Breckenridge 34-8. Gainesville also looked mighty good in racing past Corsicana 38-19. And Nederland was fearsome in lashing Angleton 35-0. San Benito easily trimmed Del Rio 29-8.

One of two games matching undefeated, untied teams comes in Class AA, where Quana takes on Jacksboro at Wichita Falls Friday night. Brady, a former champion, builds his team around multi-talented quarterbacks, fleet half-backs and crisp blocking.

Officials at Southern Methodist University, a school that blazed the trail in intersectional football for the Southwest Conference, probably would sniff at the suggestion but that school's one last hope to keep the wolf away from the athletic dormitory would be to hire a man like Woodson.

Warren would give the Southwest Conference something it has not really had since the days of Doak Walker—colorful football.

A few more years operating as it has in football and SMU can play its football games in a telephone booth.

San Angelo outweighed Wichita Falls 17 pounds per man, on the average, in their football playoff game last weekend.

Danny Birdwell, the ham-handed center from Big Spring who played his last football game for the University of Houston against Oregon State last weekend, probably will turn to pro ball next fall.

Quite probably, he will be commissioned to play with the Houston Oilers of the AFL, because Danny—who logged more playing time than any performer on the Cougar team (he averaged 36 minutes a game)—has become quite a favorite with the Houston crowd.

"He'd play 60 minutes a game if we had to have him," line coach Andy Zubel remarked recently. "He's one of the greatest competitors I ever coached. He might make a few mistakes out there, but he's always trying to do his best."

"Danny is the type of individual I'd like to have on my side in a game of bridge or gin rummy or golf or anything, for that matter. It really tears him up when something goes wrong out on the field."

Zubel is of the opinion that the pros could play Birdwell at about 255 pounds and use him either as a defensive end or offensive center. Andy contends that the Big Spring product could be a fine of defensive end for years among the pros.

In the Tulsa game this year, Birdwell was wound up tighter than the proverbial drum, principally because the news that Harold Lahar had recently announced his retirement as the Cougar coach.

Houston faced a four-down situation deep in its own territory at a stage of the game when it was trying to protect a 7-0 lead. The Houston punter dropped back to take Danny's snapback, but the tense Birdwell not only snapped the ball over the kicker's head but the ball nearly cleared the fence, in back of the end zone, as well.

"If it had been anybody other than Danny," Lahar said after the game, "the ball probably would have landed in the end zone and Tulsa might have gotten a touchdown out of it."

"Tulsa got a safety out of it but game, 14-2."

"I was just trying too hard," Danny told his coaches. No one who has ever seen Birdwell play could fault him for that. He couldn't play any other way but at full throttle.

League Meetings Slated Tuesday

An organizational meeting of managers for the YMCA Church and Industrial Basketball League is scheduled for 7:30 p.m. Tuesday at the Y, according to Joe Leach, physical director.

This is the final meeting to determine the number of teams which will play and non-attendance will be taken to mean that a team will not be entered, he said.

E. C. Smith is chairman of the group.

Junior High Teams To Play San Angelo

San Angelo Edison brings its eighth and ninth grade basketball teams here to two games against Rannels Junior High today. The first tilt is scheduled at 6:30 p.m. and the second at 8 p.m.

In turn, Goliad will be invading San Angelo with similar games against Lee Junior High at the same time.

Goliad and Rannels seventh graders will square off at 5 p.m. in a prelude in the Rannels gym, repeating a performance last week at the Goliad gym.

Steers To Contest With Brownfield

Big Spring High School, sporting a surprising 4-1 record after little more than a week of play, will tangle with Brownfield Tuesday at 5 p.m.

The Steers dropped a game to Lamesa 47-36, in the final round of the Lake View Tournament at San Angelo on Saturday. Lamesa, however, perennially has one of the roughest case outfits in the area, hence the loss wasn't wholly unexpected for the inexperienced Steers.

Green Bay Clinches 2nd Western Crown

By MIKE RATHET
Associated Press Sports Writer

The Green Bay Packers stole their showdown struggle with New York, clinching their second consecutive Western Conference

LOOKING EM' OVER

By TOMMY HART

Only one motel would accept Big Spring's application for overnight lodging during the local cagers' San Angelo stay for a tournament there last weekend.

The Steers, of course, are now an integrated team and Coach Delnor Poss wanted the boys to all remain together.

Hardin-Simmons' worries over an athletic budget quite probably started when Warren Woodson virtually was

boosted out of Abilene and took a job at the University of Arizona. Woodson is a man of high moral principles and an indelibly fine character who is coach at New Mexico State University. "Warren" is a controversial individual but he fields winning teams wherever he goes.

Woodson also develops colorful teams. It was Warren several years ago who criticized the Split T attack as the "three yards and a cloud of dust" offense. Woodson builds his team around multi-talented quarterbacks, fleet half-backs and crisp blocking.

Officials at Southern Methodist University, a school that blazed the trail in intersectional football for the Southwest Conference, probably would sniff at the suggestion but that school's one last hope to keep the wolf away from the athletic dormitory would be to hire a man like Woodson.

Warren would give the Southwest Conference something it has not really had since the days of Doak Walker—colorful football.

A few more years operating as it has in football and SMU can play its football games in a telephone booth.

San Angelo outweighed Wichita Falls 17 pounds per man, on the average, in their football playoff game last weekend.

Danny Birdwell, the ham-handed center from Big Spring who played his last football game for the University of Houston against Oregon State last weekend, probably will turn to pro ball next fall.

Quite probably, he will be commissioned to play with the Houston Oilers of the AFL, because Danny—who logged more playing time than any performer on the Cougar team (he averaged 36 minutes a game)—has become quite a favorite with the Houston crowd.

"He'd play 60 minutes a game if we had to have him," line coach Andy Zubel remarked recently. "He's one of the greatest competitors I ever coached. He might make a few mistakes out there, but he's always trying to do his best."

"Danny is the type of individual I'd like to have on my side in a game of bridge or gin rummy or golf or anything, for that matter. It really tears him up when something goes wrong out on the field."

Zubel is of the opinion that the pros could play Birdwell at about 255 pounds and use him either as a defensive end or offensive center. Andy contends that the Big Spring product could be a fine of defensive end for years among the pros.

In the Tulsa game this year, Birdwell was wound up tighter than the proverbial drum, principally because the news that Harold Lahar had recently announced his retirement as the Cougar coach.

Houston faced a four-down situation deep in its own territory at a stage of the game when it was trying to protect a 7-0 lead. The Houston punter dropped back to take Danny's snapback, but the tense Birdwell not only snapped the ball over the kicker's head but the ball nearly cleared the fence, in back of the end zone, as well.

"If it had been anybody other than Danny," Lahar said after the game, "the ball probably would have landed in the end zone and Tulsa might have gotten a touchdown out of it."

"Tulsa got a safety out of it but game, 14-2."

"I was just trying too hard," Danny told his coaches. No one who has ever seen Birdwell play could fault him for that. He couldn't play any other way but at full throttle.

crown in the National Football League and forcing the Giants and Philadelphia Eagles into a two-week test of strength for the Eastern title.

Led by Jim Taylor and Paul Hornung, the Packers edged the Giants 20-17 Sunday, wrapping up the Western title with a 10-2 record and leaving New York and the defending league champion Eagles in a tie for the top spot in the Eastern sector with two games remaining. Both New York and Philadelphia have 9-3 records.

The Packers won it as Taylor scored twice on runs of 14 and 3 yards—the last the clincher in the fourth quarter—and Hornung brought his league-leading point total to 143 with a pair of field goals and two conversions. Altogether, Taylor ran for 186 yards, a club record.

The key play was made by Packers' defensive back Jesse Whitton, who stole the ball from Alex Webster on the Giants' 30 in the final quarter. The Packers, trailing 17-13, took advantage of the grab, Taylor finally going in for the winning touchdown from the 3.

The Eagles brought their record to 9-3 by blitzing the Pittsburgh Steelers 35-24, and have the advantage of playing at home against the Giants next Sunday in a battle that could determine Green Bay's opponent in the Dec. 31 championship playoff.

Not to be counted out, however, are the Cleveland Browns, one game back of the leaders with an 8-4 record after beating Dallas 38-17. The Browns meet Chicago next, then close out at New York while the Eagles are at Detroit.

The Lions moved into second place in the West, beating the Bears 16-15 while the San Francisco 49ers were losing to Baltimore's Colts 20-17. St. Louis extended Washington's winless streak to 22 games with a 38-24 win and Minnesota whipped Los Angeles 42-21.

The Giants built a 17-13 lead at halftime as quarterback Y. A. Tittle plunged a yard for a touchdown. Bob Gaiters went two for another and Pat Summerall kicked a 41-yard field goal. The Packers scored on Hornung field goals of 23 and 25 yards and a 14-yard ramble by Taylor.

clouted, to push into the championship playoff.

Boston hung in the race with a 29-24 victory over Denver and New York kept its hope alive when it socked Dallas 28-7. New York is a game and a half off the Houston

DEAR ABBY

Still The Best Answer

DEAR ABBY: We are twins (16) who read your column every day and respect your opinion greatly. So do our parents. Our parents forbid us to date boys out of our religion. We don't intend to get serious about these boys, we just want to date them. Isn't it better to go with them and get it out of our systems than not be able to, and think we are missing something?

THE TWINS

DEAR TWINS: The following letter was received the same day yours came. It's as good an answer as I could give. And it's from a girl your age: "Dear Abby: I have been wanting to write this letter for a long time. I read your fabulous—and I do mean fabulous—book, 'Dear Teenager.' I followed your advice on personality and dating out of my faith. As a consequence, I am now going steady with the most wonderful boy in the world. He is of my own religion and he treats me like a queen. He has never asked me for anything more than a kiss. Abby, please go right on telling girls to stay with boys of their own faith and they'll stay out of difficult situations. Thank you with all my heart."

"SWEET 16 AND NEVER BEEN HAPPIER."

DEAR ABBY: I want to ask you in all seriousness—how can a man know if his prospective bride is virtuous or not?

DEAR SERIOUS: Ask her!

DEAR ABBY: Please tell "Sucker's Wife" my husband used to make himself available for help

all over the neighborhood while I had trouble getting him to fix things at home.

One day I took my baby's broken high chair to a neighbor's and got her to call my husband and ask him to fix it. She called him and he ran right over and put it in first-class condition. Afterwards, I told my husband and we all had a good laugh about it. Ever since then I have had no trouble getting things fixed at home.

G. A.

DEAR ABBY: I was impressed with the letter signed SUCKER'S WIFE. It was from the woman whose husband repaired everybody's appliances in the neighborhood free, but her own sewing machine had been in need of repairs for a year.

I've been in the sewing machine business since 1937, and have been taken advantage of many times, but I don't think I am the worse off for it. Will you write the lady and tell her I will be delighted to fix her sewing machine FREE if she'll pay the freight both ways?

Sincerely,

W. L. L. Fayetteville, N. C.

DEAR W. L. L.: You are very generous. The lady lives in Honolulu.

Everybody's got a problem. What's yours? For a personal reply, send a self-addressed, stamped envelope to Abby, in care of The Big Spring Herald.

For Abby's booklet, "How To Have A Lovely Wedding," send 30 cents to Abby, Box 3365, Beverly Hills, Calif.

Reds Again Blame U.S. In Atom Tests

MOSCOW (AP)—The Russians tried again Sunday night to put the blame on the West for continuance of nuclear weapon tests.

The Soviet government declared that unless the Western powers stop all nuclear weapons tests—including underground explosions that don't produce radioactive fallout—it will resume "such nuclear tests as it deems necessary for the consolidation of its defense capacity."

A few hours after the Moscow warning the United States announced it had set off a low-yield underground nuclear blast Sunday and is preparing to go ahead with another test next Sunday.

"Our announced policy is to test and talk," a State Department spokesman said in Washington.

The Russians, who broke a three-year moratorium on nuclear

testing Sept. 1 for a series of big to gigantic nuclear explosions in the atmosphere, said the time has come now "for the early achievement of an agreement which would rid the peoples of experimental weapon blasts."

"What are the Western powers striving for?" asked the statement. "To end nuclear tests throughout the world or to continue their pursuit for an illusory superiority in nuclear weapons."

The Soviet call for an end to testing made no mention of supervising any new moratorium as demanded by the Western powers.

Tass, the Soviet news agency, distributed the Soviet statement. It said it was issued in connection with last week's resumption of the Geneva test ban talks.

The Geneva talks are hopelessly deadlocked as a result of a new Soviet refusal to admit any inspectors of a test ban to Soviet territory and the West's rejection of the Soviet demand for an unsupervised test moratorium.

The Soviet return to the Geneva talks last week was interpreted as an indication they had completed their series of tests that included the biggest man-made explosion—only carrying a force of 50 million tons or more of TNT.

A U.S. State Department spokesman said Sunday night that the United States has no indication that the Soviet Union has stopped testing.

President Kennedy has said the United States also will resume testing in the atmosphere if the government feels this necessary for Western defense. U.S. experts are now evaluating the new Soviet weapons, as indicated by fallout samples and other evidence resulting from the recent test series, to determine if the claimed U.S. lead in nuclear weapons is endangered.

Scott & White Is Dedicated

TEMPLE (AP)—Medical leaders from the United States and more than 2,000 Texans attended ground breaking ceremonies for the new \$8 million Scott and White Memorial Hospital.

Taking part in the ceremony were Dr. Luther L. Terry, surgeon general of the United States; Dr. Leonard Larson, president of the American Medical Association; Dr. Charles Mayo, professor of surgery and head of the famed Mayo Clinic at Rochester, Minn.; Jay A. Phillips, of Houston, chairman of the hospital's board of trustees who was master of ceremonies, and the president of the hospital, Dr. Paul M. Bassel.

Deer Hitchhiker

Terry Kinney, 26, of Grosse Ile, Mich., reenacts how he hitchhiked 350 miles with a deer. Kinney shot the 150-pound spikehorn buck near Sault Ste. Marie in Michigan's Upper Peninsula after he decided to hunt some more although friends took the car and left for home. He got the deer to the highway and it took five free rides to get home.

A Devotional for Today

The spirit of the Lord shall rest upon him, the spirit of wisdom and the understanding, the spirit of counsel and might. (Isaiah 11:2.)
PRAYER: Dear God, we thank Thee for the coming of Thy promised help in our Lord Jesus Christ. Help us this day to put our faith in Him who is, above all, a mighty Savior. In His name, Amen.
(From The Upper Room)

Progress On US 87 Development

The Texas Highway Commission has taken formal action to peg a new routing of US 87 through San Angelo. At a cost of about five million dollars, this will involve several new bridges and multilane traffic arteries. With a minimum of 4-lane divided on bridges (this would be two lanes to twin spans), the route would range up to 6-lanes divided through much of the city proper.

It requires no imagination to see that this will accommodate the rapid movement of a tremendous volume of traffic. There will be no bottleneck in San Angelo for this key north-south transcontinental highway.

This is but another of the evidences that we need to be alert to responsibilities in this area. Howard County lacks one piece of right of way (across the state

hospital grounds) before the road can be converted into 4-lane divided highway north to Fairview. (Earlier this year the section from Fairview to the Dawson County line was completed as a 4-lane divided route.) Perhaps we need to impress upon the state agencies the urgency of obtaining this final bit of roadway. By that time, perhaps the Highway Department will be ready to proceed with a new Gregg Street (US 87) overpass. US 87 from Lamesa to Tahoka is 4-lane divided highway, and at the moment work is under way on enlarging to 4-lane divided highway from Tahoka to the Lubbock County line. This focuses attention on the stretch from the Howard County line to Lamesa. It is to be hoped that Dawson County, working through the Lubbock District highway offices, can get a green light for this section.

Bringing It To A Head

The efforts of the Colorado River Municipal Water District to get something done about pollution of the river watershed in northern Mitchell and southern Scurry Counties appear to be coming to a head.

Last week CRMWD directors authorized an appeal to the Texas Railroad Commission to halt the handling of oilfield brines in such a manner that will result in pollution of fresh groundwater and surface waters.

In the meantime, Mesa Pipe Line Company announced that it has more than three-fifths of the production in the Sharps Ridge area pledged to it and has started staking 60 miles of pipeline and securing right of way. For operators who desire assistance in salt water disposal, Mesa has promised to build a separate system for this purpose, deeding the ownership to operators once the system has paid out.

Permian Corporation entered the picture with a unique plan last week to collect salt water and oil in a conjoined state at the lease tank batteries. The fluid would move to a central separation point where the salt water would then be dis-

posed. Whether Permian will proceed in the face of the percentage sign-up reported by Mesa remains to be seen. If so, between the two, most of the area could be brought under control.

Cresland and Granger are now experimenting with a water flood program. This is starting with about eight wells (six of them for flooding and two for recovery) and if the formation proves susceptible to such secondary recovery methods, the permit under which operators are proceeding could affect upward of 100 wells.

In all there are 1,621 producing wells in the area. These average about three barrels of oil per day, most of which have substantially more salt water than oil. If the developments among private concerns last week bear immediate fruit, the vast bulk of pollution can be halted. If not, the railroad commission may in time issue a order shutting down wells until such a time as satisfactory disposal of salt water can be assured.

Cleaning up this mess is a job that has been put off just as long as possible. With the necessity of moving in time to provide for water needs a decade hence, the cleanup can't be put off longer.

Holmes Alexander

Cuban Situation Grows Worse

RIVERSIDE, Conn.—Drexel Gibson, 49, a calm, chain-smoking, no-axe-to-grind American language teacher, spent five months as a Communist prisoner in Cuba, where he left at least 16 fellow Americans and 10,000 anti-Castro Cubans behind him. "The plan they sent to the United States," Gibson told this reporter, "is that we use our military strength, which is all that Latin Americans respect. My fellow prisoners told me to tell Americans: 'If you won't do it for us, for God's sake do it for yourselves.'"

I WAS ABLE to get this exclusive background interview from Gibson because of some help which Sen. Tom Dodd (D-Conn) and I tried to give him. One night last summer, a reader phoned to tell me the story of Gibson's plight, and gave me a phone number where I could reach Mrs. Mary Gibson at Madison, Conn. After talking with her, I got in touch with Sen. Dodd who, thereafter, pounded Swiss and American authorities to help Gibson. He had been picked up by Cuban police in the dragnet arrests following the April 15th invasion—and held without charges. The Gibsons to this day don't know what caused his inexplicable release.

GIBSON IS NOW grateful to be home, and not interested in capitalizing upon his miseries, but he feels he has a patriotic duty to alert this country to "serious and imminent dangers in Latin America." He feels that Castro, as a Communist spearhead, has already been at war with us for two years. Our failure to recognize this state of war has weakened us and vitalized the Red drive on the Western Hemisphere.

GIBSON MENTIONED Brazil, Ecuador and British Guiana as countries moving into the Sino-Soviet orbit because of our inaction. He said that President Kennedy's splendid speeches have been hurtful in that they inspired hope, but brought disappointment. He said that the administration's Latin American aid program, Alliance for Progress, is regarded as a sign of American feebleness and fear of Castro. While not a preventive warrior by temperament, Gibson is convinced that the longer we wait to liberate Cuba, the bloodier the inevitable battles will be.

"AS SOON AS CUBAN boys and girls

are strong enough to lift a submachine gun, they are given these arms and trained in their use. Every child who has entered high school since Castro took over has been taught that pre-Castro Cuba was a slave colony of the United States and that the Cubans were slaves—in exactly those words."

Gibson told of the fanatical hatred being drilled into Cuban youth by methods that would make Hitler look like a piker. He heard a 12-year-old girl in an emotional frenzy deliver a prize-winning poem on the "martyr," Reuben Lopez, whose body was found near the U. S. Navy station at Guantanamo Bay and delivered to Cuban authorities. The Cuban government sponsored the poetry contest which inspired many hymns of hate against American "murderers" and "slavers."

"THE LONGER WE delay, the more of these children we must kill," said Gibson. He came home appalled at the apathy, or worse, of American officials toward Americans in need of their country's protection. He went to Cuba with "Permission to Visit Cuba" stamped on his American passport, and with a Czechoslovakian visa which authorized his entrance.

But nobody in official Washington seemed to think that these authorizations carried any obligation to get him released, although there was a great scurry to recover pirated American aircraft. Back home, Mary Gibson fired indignant letters to Secretary of State Rusk and to publisher Henry Luce, whose magazine, TIME, ran a maudlin story about "forgotten" Cubans. She told one State Department interviewer, Eldred Kupinger, that she would have borne to have her husband die in a liberating invasion—but not as a forsaken prisoner, an American type which is prevalent in Communist jails around the world.

"PEOPLE WHO think that the Cuban Revolution will fall of its own rottenness, couldn't be more wrong," said Gibson. "Russia and the European satellites are keeping Cuban industry going. Red China (where people are starving to death) is shipping rice to Cuba. Meanwhile, the Communist-controlled news service, Prensa Latina, with the most modern equipment and methods, is featuring the U.S.A. throughout Latin America as an imperialist power far bigger and worse than the Rome, British and Napoleonic Empires."

Cuba today—the Western Hemisphere tomorrow?

(Distributed by McNaughton Syndicate, Inc.)

Excuse Didn't Hold Water

MACON, Miss.—Caught with illegal whisky in his possession, Tommy Halbert had a ready excuse. "I'm just carrying it to my wife," he pleaded. "She just can't drink that Macon water."

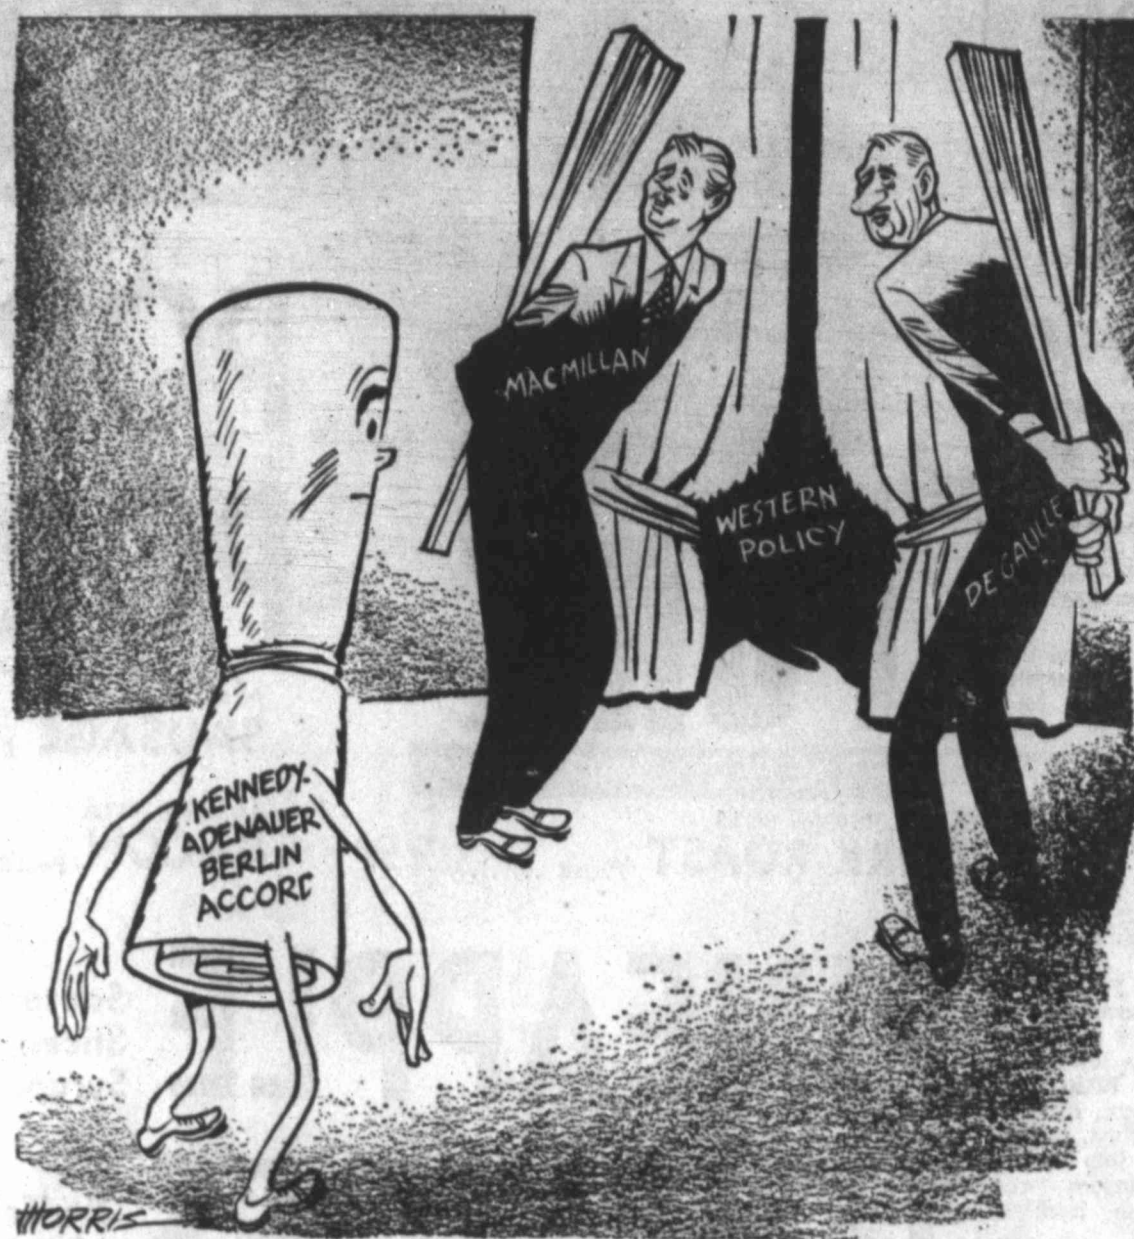

The judge was unimpressed. He fined Halbert \$300.

Too Near The Ranch

WHEATLAND, Wyo.—An over-anxious big game hunter from Pennsylvania fired seven shots at antelope and deer near a Wheatland ranch this fall.

Reaching his targets, the hunter found four dead and two wounded horses. The seventh had missed.

The hunter paid the farmer for the six horses.

MAY NOT RECOGNIZE HIM LATER

Kennedy's Statement Nothing New

WASHINGTON (AP)—President Kennedy hardly had the words out of his mouth—about wanting to see free elections in Cuba—when Fidel Castro made it plain there won't be any.

Kennedy, in his interview with Ivesia, the Soviet government newspaper, said last week the

United States would accept a Communist government anywhere if it was approved by the people of a country in free balloting.

The American dispute with Cuba, Kennedy said, is that Castro has not permitted "free and honest election," and until he does his government cannot claim

to represent a majority of his people.

CASTRO, who took over Cuba almost three years ago, and still has not allowed elections, said over the weekend he was leading his country into communism and would create a single political party with restricted membership.

This means he will pick the membership. The Cubans, like the people in Russia and the satellites, will have to mark yes or no on the candidates chosen for them.

Thus, any prospects of better relations with Cuba become even more remote, particularly since Kennedy said: "What we find to be objectionable, and a threat to the peace, is when a system is imposed by a small militant group by subversion, infiltration, and all the rest."

KENNEDY'S statement that this government was willing to recognize another government—in this case a Communist government—chosen by its people in free elections is not a new principle in American history.

But there is a certain contradiction in the yardstick he uses for finding a system objectionable when it is imposed by a "small militant group."

That's exactly—through a militant group—how Castro took over Cuba. It's also exactly how the Bolsheviks took over Russia. This country recognizes and deals with Russia but not with Cuba.

But communism is closer in Cuba than in Russia. This demonstrates the dilemma of American presidents when, faced by different and shifting situations, they first try to consider what they think are American interests.

Nathan Schachner, in his biography of Thomas Jefferson, who was George Washington's secretary of state and became the third president, said: "For all his philosophical and personal pre-occupations, Jefferson followed in his handling of foreign relations a strictly American attitude."

"The test to him, as to Washington, was the advantage and benefit of the United States."

Needed: A Gypsy Wife

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

One of the things a young, would-be executive needs most is a wife cheerfully willing to lead a semi-gypsy life. The average executive is moved 12 times by his firm before he finally settles down to that big swivel chair in the home office.

It's fun to buy records in a Swedish music shop. You not only get to listen to a record free—you can also dance with the sales girl.

Even when you're wide awake you don't see 11 per cent of the time. This is because you blink every 2 and 1/2 seconds.

If your feet get tired, so do your shoes. A 150-pound person with a three-foot stride who walks 5 miles a day at the end of a year has put a total of 120,450 tons of weight on his shoes. Incidentally you'll probably buy 250 pairs of shoes in your lifetime.

Man versus Nature: Man is the fastest living thing on land or in the air. But swordfish have been clocked at sea swimming 57.5 miles per hour. Can man do that underwater?

Our Quotable Notables: "The people of this country are bored by the attentions of people who formerly snubbed you."—Mary Wilson Little.

Well, sometimes you readers write in and correct me on the occasional errors in these items I pluck from my mail bag but do not guarantee. Here's one I doubt myself. "A genuine pearl's average life is no more than 50 years."

What is the age of the oldest genuine pearl in your family?

The custom of having three names is comparatively new. William Makepeace Thackeray is one of the earliest and most prominent I can recall. Some 17 of the U.S. presidents were not at birth given a middle initial or middle name.

While we're on names, did you know that Rosetta Jacobs is Piper Laurie and Roy Fitzgerald is Rock Hudson?

Wisecrack of the Week: "Humor is a smoke screen that keeps us from being blinded by the truth."

News from the world's most glamorous grandma: Marlene Dietrich's two best beauty secrets: (1) A warm bath instead of a sleeping pill, and (2) warm soap and water to improve the complexion. (If these work for Marlene, why do you and your wife need 12 other secrets?)

Taking the load off Santa Claus: Between now and Christmas the U.S. postal service will deliver some 3.5 billion seasonal good will cards. Which, if put end to end (and to many a weary postman it must seem they are), would stretch one million miles.

Seniority: Only nine U.S. states have enough people 65 or older to make up more than 11 per cent of their population. They rank: Iowa, Missouri (ex-President Truman), and my mother who is 74, help keep up the longevity record there), Nebraska, New Hampshire, Vermont, Florida, Massachusetts, Kansas and Maine. Alaska is last—it has only 2.4 per cent of its people to call on for post-65 wisdom.

To Your Good Health

Some Skin Troubles Among Young People

By JOSEPH G. MOLNER, M.D.

"Dear Dr. Molner: What could cause sores and raw spots on top of the ears, and other scratches and open wounds to stay unhealed for weeks and sometimes months? My 12-year-old daughter has this trouble. I haven't taken her to a doctor because they go away in time. My husband thinks she keeps picking the areas. She says she doesn't.—Mrs. L. W."

This is unusual in a 12-year-old and I would strongly suspect that your husband is right. Some nervous individuals pick and dig at the skin, perhaps without even realizing it. Such slow healing can, of course, be due to the repeated irritation and/or a mild infection of the scratch. Your doctor should be able to tell readily whether self-scratching appears to be the major cause.

"Dear Dr. Molner: My husband is always falling asleep despite desperate efforts to remain awake. It comes in the evening as soon as he relaxes. He falls asleep while playing cards, watching TV, in the middle of a party or even in the middle of a sentence. He is perfectly normal otherwise. Several others in his family are afflicted the same way.—Mrs. V. J."

I do not agree that he is "normal" otherwise. There is such a thing as "narcolepsy," and I've heard of a victim who even went to sleep standing up on a bus—

but narcolepsy can be treated if found to be the cause.

Among reasons for extreme fatigue are chronic infection, anemia, poorly-functioning thyroid or other glands, faulty eating habits, overuse of tobacco or alcohol.

A thorough physical history and examination should reveal some underlying cause or causes of this overwhelming sleepiness.

"Dear Dr. Molner: What do you think of contact lenses? O. G. O. G."

I have no quarrel with properly fitted contact lenses if, for one reason or another, a person prefers that type. A recent report in the Archives of Ophthalmology, by Dr. John R. Cassidy, shows that 78 per cent of wearers of contact lenses are satisfied with them. In short—a good score, but one person in five may have difficulty with them. Some people just can't adjust to contact lenses.

"Dear Dr. Molner: My wife has been in the hospital with a serious heart ailment diagnosed as a myocardial infarction. "She was given a radioactive iodine treatment, hoping that this would both reduce the severity and lessen the number of painful attacks. (She has had severe back aches and also her eyes become puffy and swollen.)

"Has the treatment anything to do with the backaches and puffiness around the eyes?—R.M."

Radioactive iodine is given for

certain types of heart cases.

In brief, the treatment is used to suppress the activity of the thyroid gland, to ease pressure on the heart. Yet it is impossible to calculate the exact, precise amount of change that will result. Within reasonable limits, yes! But exactly? No.

It is quite possible that the back aches and puffiness of the eyes are due to a lack of thyroid. Some thyroid extract, given by mouth in small amounts, may afford considerable relief.

NOTE TO MRS. G. F.: I even have had one letter from a mother who had TWO sons with Legg-Perthes disease. Both, by the way, recovered fully, which is usually the case. It took one boy four years, the other five. Some recover sooner.

Of all the problems that pediatricians encounter in children, pinworm is the commonest. To learn the newest methods of treatment for this pest, write for my booklet, "The Commonest Pest, Pinworm," enclosing a long, self-addressed, stamped envelope and 20 cents in coin to cover handling.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Around The Rim

'Christmas Carol' A Failure

One thing and another: When Charles Dickens' "A Christmas Carol," made its appearance in 1943, it was a financial flop.

It sold less than 15,000 copies in its first year and was a bitter disappointment to Dickens, who was accustomed to sales of 70,000 of his novels in the first month of their publication.

DICKENS authored another Christmas story, entitled "Dr. Marigold's Prescriptions," which sold 230,000 copies in its first week, yet that piece of literature is practically unknown now.

"A Christmas Carol" has since become probably the world's outstanding Yule story.

THOSE WHO insist that Africa is a land with an unlimited future obviously know what they're talking about.

The continent, the experts point out, holds under its surface the world's largest supplies of raw materials and it potentially is the richest land on earth.

ONE AUTHORITY says one-quarter of the potential crop lands on the globe lie in Africa. A small piece of East Africa lying in the high plateau region, boasting the healthful climate of the temperate zone, is capable of producing as much agriculturally as the whole of the United States.

Africa's soil can grow almost anything

and the country boasts vast power potentials which are available for all forms of development.

IT'S TRUE that it takes a heap o' living to make a house a home. It's also true that it takes a heap o' repair work (repairing faulty doors, polishing doors and etc.) to make a house a home.

YOU'RE NOT getting any younger if you can remember when street traffic signals came equipped with warning bells.

IT TAKES upwards of 130 man hours to clean those giant airlines which look so spic and span when parked on the runway.

Most of the cleaning has to be done by hand, just like you would wash and polish your car. The bigger airlines boast 6,000 square feet plus of exterior space. Each has to be given a major polishing annually.

EACH AIRPLANE has to be hand polished once a week.

There's a psychological reason for cleaning the aircraft, too. Airline executives feel that the riding public will assume that if the airplane itself is well kept, its engines are well kept and, for that reason, safer.

—TOMMY HART

Inez Robb

The Need For Foster Parents

Every month our household is made joyful by a letter from a small girl in Hong Kong, where some problems are universal to all eight-year-olds.

"I am in the age of changing teeth and have some teeth come off," Lin Lai, our foster daughter, writes in the letter that has just arrived from the British Crown Colony. "I don't want to talk and laugh because I am afraid my friends will make fun with me."

SO MY HUSBAND and I have written to tell our child, who is in the third grade and bright as a button, that some of our teeth came off, too, when we were her age. And that even I, whose nickname was "Chatterbox," was afraid to show my mouth for fear my friends would make fun with me.

This dear child, whose parents fled the Chinese mainland when the Communists took over (her father was a Chinese Army officer) is but one of more than 24,575 desperately needy children currently on the rolls of the Foster Parents' Plan.

THIS EXTRAORDINARY organization will celebrate its 25th anniversary in 1962 with Mrs. John Fitzgerald Kennedy as honorary chairman of the Silver Anniversary program. The group hopes in '62 to double the number of children now cared for and to extend its work to South America. Negotiations are now under way for the Foster Parents' Plan to begin work in Colombia.

Since 1937, when the organization had its small beginning in an effort to save the child victims of the Spanish civil war, Foster Parents have adopted more than 100,000 children.

IN THAT QUARTER century, three-quarters of the children have been rehabilitated, grown up and "graduated" from the plan. In that span, wars around the world have made pitiful victims of innumerable children. The plan, to the limit of its funds, has rescued children who

were starving, cold, dressed in rags and often living in the streets.

For \$15 a month or \$150 annually, an individual or an organization can literally save a child in Hong Kong, Greece, Korea, Viet Nam, Southern Italy, the Philippines or in certain wretched parts of France.

THE MULTIPLICITY of individuals who adopt a child is heart-warming, but the range and variety of clubs or groups that do so is staggering. At the moment groups in 27 different U.S. prisons each support a child. There are many of pinhole and poker clubs that ante up regularly for "their" child.

One group of working girls gives up desserts at luncheon time to chip in and support a child in the Philippines. The staffs of both the Coshocton Tribune in Coshocton, Ohio, and the Enterprise Ledger in Enterprise, Ala., care for a child.

THE PLAN'S graduates continue to write the Foster Parents' Plan. Not long ago it received a letter from Franco Stinchetti, now a young radio-telegraphist in Sardinia, who said more in one line about the plan than could be inscribed in a book. He wrote, "The Foster Parents' Plan opened the doors of life to me." Then Franco added, "I shall try to be worthy of the benefits received."

In 1962, the plan hopes to open the doors of life to many more children. At this Christmas season, when I am appalled by the glittering and useless junk for sale at every hand, I am more than ever convinced that a present to such an organization as the Foster Parents' Plan is the best possible gift to give in the name of the man or woman who has everything.

CHRISTMAS IS FOR children; so is the Foster Parents' Plan, whose address is 353 Park Avenue South, New York, 10, N. Y.—if you are in the mood to do a good deed brighter a naughty world. (Copyright, 1961, United Feature Syndicate, Inc.)

David Lawrence

Who Are The 'Extremists'?

WASHINGTON—Much has been said lately about "extremists." President Kennedy has assailed them in public speeches. So has Vice President Johnson. As one reads the headlines this week, however, it is becoming increasingly apparent that only one kind of "extremists" is in disfavor and that some of the others are actually extolled as heroes and champions of freedom.

To plan to take the law into one's hands is bad when the "minute men" foolishly organize groups of their own, but somehow the same kind of tactics are given an heroic flavor in the phrase "freedom riders."

MISSISSIPPI now reports a riot incited by "freedom riders" at a restaurant. Plans are being made for the exertion of pressure next week on the owners of restaurants—wholly disconnected from railroads or buses and operated as private businesses—along a Maryland Highway. "Sit-in" demonstrations that have aroused resentment or produced riots and even bloodshed are not being condemned by either President Kennedy or Attorney General Kennedy as the acts of "extremists."

Vice President Johnson has pointed out in one of his recent speeches that the Communists hope to triumph by striving to "array brother against brother, class against class, race against race." Every one knows that widespread publicity is given in the press and radio in Europe to the "freedom rides" and "sit-in" demonstrations.

YET WHO starts these things? Members of the National Association for the Advancement of Colored People and of another organization known as the Congress of Racial Equality participate in these demonstrations. Is it possible that the administration here hesitates, for domestic political reasons, to denounce these tactics or those whose demonstrations unwittingly furnish publicity for the Communist criticisms of America? It could be presumed that the Negro vote, which has benefited the administration in many elections, is too large to risk alienating it by any public criticism of the Negro organizations that are conducting the "freedom rides." Maybe if they had as few members and as little influence politically as the John Birchers, the "freedom riders" would have long ago brought down upon their heads the wrath of administration spokesmen.

THE CHURCH organizations, too, are for the most part strangely silent. Though inevitably the "freedom rides" result in violence every now and then, it is the police who are denounced for alleged

"brutality" when they make arrests or try to preserve order. Indeed, some clergymen actually participate in the demonstrations and allow themselves to be arrested in order to get publicity for the cause they espouse. There's no objection to anybody getting publicity for a cause, but there is a distinct difference when the form of demonstration is calculated to cause violence.

WHAT IS the solution? Maybe it would be helpful to reread the following words from a decision of the Supreme Court of the United States:

"We consider the underlying policy of the plaintiff's argument to consist in the assumption that the enforced separation of the two races stamps the colored race with a badge of inferiority. If this be so, it is not by reason of anything found in the act (a state law), but solely because the colored race chooses to put that construction upon it. . . .

"THE ARGUMENT also assumes that social prejudices may be overcome by legislation, and that equal rights cannot be secured to the Negro except by an enforced commingling of the two races. We cannot accept this proposition. If the two races are to meet upon terms of social equality, it must be the result of natural affinities, a mutual appreciation of each other's merits and a voluntary consent of individuals. As was said by the Court of Appeals of New York, 'this end can neither be accomplished nor promoted by laws which conflict with the general sentiment of the community upon whom they are designed to operate.' . . .

"LEGISLATION is powerless to eradicate racial instincts or to abolish distinctions based upon physical differences, and the attempt to do so can only result in accentuating the difficulties of the present situation."

The foregoing quotations come from the famous decision of 1896 known as "Plessy v. Ferguson," but they were repeated this year by Judge Ben Cameron of the U.S. Circuit Court of Appeals in filing a dissenting opinion in connection with a case of racial disturbance on a bus line in Birmingham, Alabama. It was this same viewpoint which the Supreme Court of the United States in 1954 overturned, not on the basis of constitutional law, or legal precedents, but by citing "modern authority"—namely, several treatises on psychology and social science. Small wonder there are "extremists" who today form organizations to demonstrate against this form of "modernism" in the federal judiciary. (Copyright, 1961, New York Herald Tribune, Inc.)

Applicant

George S. McDermott, 28, is believed to be the first blind applicant ever to take the Peace Corps examination. McDermott, totally blind for 11 years, is a graduate student at the Hartford Seminary Foundation. He would like to go to India with the Peace Corps to help set up teacher training programs for the blind. He took the examination at Hartford, Conn.

Hope Gets Cut In TV Filming

HOLLYWOOD, (AP) — Comedian Bob Hope suffered a two-inch cut on his forehead when he was hit by a champagne bucket while filming a skit for his Dec. 13 television show Sunday night. Hope and actress Nancy Kwan were portraying two movie stars caught in the recent Bel-Air fire and the bucket was supposed to be lowered to them by ladder from a rescue helicopter. It came down too fast and struck Hope who was stunned but not seriously hurt. He resumed the skit with an adhesive patch on his forehead.

Church Claims Largest Budget

DALLAS, Tex. (AP)—The first Baptist church of Dallas Sunday oversubscribed a record \$1,218,600 budget, which officials believe to be the largest local church budget ever. Total subscriptions were \$1,233,810, or \$15,210 over the goal.

Common Market May Change U.S. Traditions On Tariffs

GENEVA, Switzerland (AP)—The end may be in sight for the world's traditional way of negotiating tariff deals—the way used by the United States since 1934. This emerged clearly at last week's high-level GATT-General Agreement on Tariffs and Trade conference.

President Kennedy wants power to make sweeping tariff cuts with the new method—but he faces a stiff battle in Congress.

The reason for such a fundamental revision of American tariff policy comes from the six members of the European Common Market—the way they do business with each other and the way they have offered to do business with outside countries.

The Common Market, set up by the Treaty of Rome in 1957, introduced the across-the-board or linear method for cutting tariffs. The six member countries—France, Germany, Italy, Belgium, Holland and Luxembourg—agreed to cut 10 per cent off their tariffs on trade between each other every so often, eventually ending up with zero tariff after 10 cuts.

The 10 per cent has so far applied to all except farm goods. France is now demanding the same advantage be given to agricultural products as to manufactured items.

The freer trading in the Common Market has proved such a stimulus to the economy that the cuts have been speeded up to come almost once a year. Most of the other (West) European countries, linked in the European Free Trade Association, have de-

One-Man Missiles For British Soldiers

LONDON (AP) — The British Aircraft Corp. has announced British soldiers are being equipped with one-man missiles that can destroy a tank at ranges of 200 yards to a mile. It says 30 other Western nations are interested.

Deep Inhalers

CHICAGO (AP) — A crowd of 3,500 spectators—inhalers deeply watched more than \$250,000 in tobacco products go up in smoke Sunday night as fire destroyed the Galt Tobacco House, Inc. The fire, of undetermined origin, burned large supplies of tobacco products stocked in the company's warehouse.

'Bus Stop' Opus Taken From Air

NEW YORK (AP)—Several television affiliates of the American Broadcasting Co. canceled Sunday night's episode in the network's "Bus Stop" series. The program, featuring singer Fabian in his TV dramatic debut, involved a teen-aged killer.

The network described the program as "strong, meaty drama." A network spokesman declined comment on a report that the sponsor had withdrawn.

Station WSIX-TV in Nashville, Tenn., said the program was "possibly not suited for family entertainment on Sunday night."

Ex-Official Dies

AUSTIN (AP) — Funeral service will be held Tuesday for George Wendell Barcus, a former judge, member of the Legislature and assistant attorney general of Texas. He died Saturday at the age of 87.

Literal Minded

MINNEAPOLIS, Minn. (AP)—"Pack everything" was the instruction given by a family that moved from here recently.

At their new destination the family found the van company had included a banana left on the kitchen sink, a pail full of garbage, and a dead cat.

ONE HOPE

By T. R. Tarbet, preacher,
Church of Christ, 2300 West Highway 89
P.O. Box 1282.

"There is one body, and one Spirit, even as ye are called in one hope of your calling" (Eph. 4:4).

The one hope is the hope of the gospel, the hope of eternal life. (Col. 1:23; Ti. 1:2).

In some religions, two hopes are held out. One is the hope of heaven. The other, the hope of 1,000 years of Utopia on earth. The latter is usually the stronger hope with them, judging from the amount of time spent talking about it and preaching on this millennium. Their affection is placed on things on this earth, yet to come.

The Bible says, "If ye then be risen with Christ, seek those things which are above, where Christ sitteth on the right hand of God."

Anti-Radiation Drug Sought

AUSTIN (AP)—A University of Texas-Air Force research team is applying basketball's zone defense to science.

The 12 scientists are using the defense principle in search of an anti-radiation drug.

"Our goal is similar to the zone defense in basketball—we want to find a chemical which will protect key molecules in the body's system," said Air Force Capt. George Melville Jr., a member of the group working at the university's Balcones Research Center.

Melville specified enzymes and proteins as key biological molecules subject to damage from radiation. He likened them to a chain's weakest link.

"A breakdown of these key molecules would stop a whole process even if the rest of the process is undamaged by radiation," he said.

"We can't protect the whole system from radiation's harmful effects, but we can protect the weakest parts and thereby prolong the life of the whole system."

In the four years since the study began, the scientists have narrowed the possible radiation antidotes to 12 chemical compounds.

Melville said one of these compounds eventually—his estimate is five years from now—will be available as a preventative medicine to be taken prior to nuclear bomb blasts.

The compounds are tested on more than 600 monkeys and rodents, which are subjected to rays typically released by nuclear blasts.

Melville said the study is one of several in the United States.

Postal Confusion

TOKYO (AP)—Japan's postal ministry reports 1.44 million letters and 8,000 parcels piled up as a result of postal workers' refusal to work overtime until the government grants year-end bonuses and pay raises. Postmen, asking \$13.88 (equivalent) more a month, average \$38.31 monthly.

To Make Orbit Flight

Astronauts John H. Glenn Jr., right, and Scott Carpenter pose in front of a Mercury capsule at Cape Canaveral, Fla., after Glenn was named to make the United States' first manned orbital flight. Carpenter was chosen as his backup pilot.

Perfectly Formed Italian Beauty Drawing Attention

By BOB THOMAS
AP Movie - TV Writer

HOLLYWOOD (AP) — Hollywood is discovering Rosanna Schiaffino, a faultlessly formed beauty from Christopher Columbus' home town.

Nice discovering. For Rosanna is a brown-eyed charmer with curves that start where Sophia Loren and Gina Lollobrigida left off. The Genoan lass is 5-feet-8, and her 127 pounds are exactly where 127 pounds should be.

Rosanna is here to play an Italian movie star in "Two Weeks in Another Town" with Kirk Douglas, Cyd Charisse, Edward G. Robinson, Claire Trevor; Hollywood veterans all. Even in this fast company she is attracting notice.

In fact, she did a shower scene last week that attracted so much notice that the set had to be closed and guarded.

bathtub scenes in pictures, and they never did that for me."

Though she has made 13 Italian films, Rosanna said only in Hollywood has she appeared so uncovered. "See what happens when I leave my mother at home," she remarked.

But Rosanna is no dope: She brought along her sister.

Her other major diversion has been birthday parties.

She explained: "Is wonderful country. On Friday, they tell me to come to the set. I did not think I was working, but I come anyway. There is everybody with big, long cake and singing 'Happy Birthday.'"

Candidates, Hopefuls Jockey For Position In State Races

AUSTIN (AP)—Candidates and hopefuls are jockeying for position in what could be one of the hottest Texas political campaigns in years.

The primary has been moved up to May 5. The filing deadline is Feb. 5.

Nearly two dozen names are on the 1962 tentative candidate list for the top three elective posts, governor, lieutenant governor and attorney general.

Many potential candidates like to announce formally at the last minute because of the state law requiring that money spent after such an announcement be reported.

Others hold out to create the illusion of a draft, or to see who else is getting into the race, to line up financial backing or to try to build an organization.

Of at least 10 men who have been mentioned as possible candidates for governor, only two have announced formally—Atty. Gen. Will Wilson and Republican Jack Cox.

Cox, a Breckenridge businessman, ran against Gov. Price Daniel in the Democratic primary last year, but switched parties several weeks ago.

Wilson, once a Texas Supreme Court justice and for three terms attorney general, has made little secret in past years about his desire to capture the state's chief executive post.

Daniel, in his third term now, won't say what his political plans are. Asked what he intends to do,

Daniel usually says he will have to wait—perhaps until after another special session in January—before deciding.

Others shy about making their decisions public include Navy Secretary John Connally, who says he shouldn't be counted out, and Rep. Jim Wright, who ran a close third in the special senatorial election won by John Tower. Both are from Fort Worth.

Plainview lawyer Marshall Formby, a former State Highway Commissioner, said last week he would announce for the Democratic nomination for governor in January.

Others mentioned as possible entrants include former Gov. Allan Shivers, Houston lawyer Don Yarborough, Land Commissioner Jerry Sadler, and Republican J. A. Gooch of Fort Worth.

The lieutenant governor's race is entirely different. Nearly all the expected major candidates have made announcements, or have committed themselves.

The reason, as one candidate said, could be that with hot races for governor and attorney general in the offing, the run for lieutenant governor could be decided early, possibly by the February filing date.

Already considered in the race are state Sens. Preston Smith of Lubbock, Jarrard Secrest of Temple, Bob Baker of Houston, Crawford Martin of Hillsboro and House Speaker James Turman, are. Asked what he intends to do,

have announced, O. W. Hays of Temple and Ellis Dibrell of San Antonio.
