M&P Depot Use Topic Of County Discussion

Glenn Rich
Rich To Play With All-Stars

Glenn Rich, 18-year old son of Mr. and Mrs. J. T. Rich of Colorado City and a recent graduate of Westbrook High School, has been selected to play in the All-Star basketball game to be played during the Texas Six-and-Eight-Man Coaches Association meeting July 22 in Brownwood.

Set for 8 p.m. in the Howard Payne College Center Coliseum, the game will feature the state's best players in the All-Star game.

Rich, under the direction of Wildcat coach Dale Byrd, was leading scorer in 10-B for the past two seasons with a total of 651 points, 18.3 average in '74-75 and an 848 total and 23.6 average in '75-76.

In addition, he was All-Tournament in the Roscoe tourney, '74 and at Sterling City in 1975 as well as making the Second Team, All-District, '74-75 and First Team, All-District, '75-76.

Mitchell County commissioners, meeting Monday afternoon, agreed to be the sponsoring agency for applying for a grant through the Texas Parks and Wildlife Department for constructing two tennis courts at Colorado High School and two at Westbrook High School, discussed the possibility of using the Missouri-Pacific depot for the Farmer's Market and also set a revenue sharing budget of \$79,411.

Judge Bill Carter said he had been approached last fall by two M&P officials who informed him the company intended to dismantle the depot but he convinced them that the historical nature of the building was too valuable to just tear it down.

"I told them that if their intention was to get off the tax rolls, that a better course would be to donate it to the county or city for use as a museum or by the Farmer's Market and they agreed that the company might go along with my suggestion," Carter said. "Since then I haven't heard from them but when Mrs. Thompson (Mrs. Charles C. Thompson, head of the Mitchell County Bicentennial Commission, sponsor of the

Farmer's Market) appeared before the court to discuss the market this year, we talked about using the old depot for the Farmer's Market."

"At her suggestion and the commissioners', I will contact the M&P and find out what they have decided. We hope that they will see fit to let us have the building for the Farmer's Market, using the west side for sale of farm and garden produce," he said.

The court also approved expending \$3,500 in revenue sharing money for the Farmer's Market.

The breakdown of the revenue sharing budget is as follows:

--\$20,000 for Public Safety, including \$10,000 for purchase of two new automobiles for use by the Sheriff's Office, \$5,000 for paying the police dispatcher's salary so the county will have 24-hour dispatcher service and \$5,000 for rural fire fighting.

--\$25,000 for Public Transportation, including \$10,000 for bridge repair and \$15,000 for seal coating roadways.

--\$5,000 for the county's share of the Mitchell County Ambulance Service.

--\$5,000, undesignated for expenditure, for Recreation.

--\$3,000 for the Mitchell County Public Library.

--\$5,000 for Social Services for the Aged or Poor, to be used at Wallace Center.

--\$3,500 for the Farmer's market under the heading, Economic Development.

--\$12,411 to Capital Improvements and Equipment, including improving outside lighting at the courthouse and purchase of a new maintainer.

--\$500 unbudgeted for contingency purposes.

--\$79,411, total budget for the period July 1-Dec. 31, 1976.

Judge Carter said the tennis court construction program is funded through a federal grant administered through the Texas Parks & Wildlife Department for use throughout the state and by getting the application in before July 1, the application will be considered this year instead of in January.

"The court approved the grant application and it was mailed to the TP&WD. The West Central Texas Council of Governments (WCTCOG) will pass on it and then the TP&WD will consider it and pass on it in July," Carter said.

The county will supply in-kind services of excavators and this will be deducted from the cash to be put up locally by both school districts, the judge explained.

"The cash for the 50-50 grant will be put up on an equal basis from the two

school districts involved," he said. "the major item of expense being for concrete."

In other business, the court approved letting the Colorado City Mounted Patrol, a CB radio club, use the county ag barn at the fair-

grounds for their July 17-18 Jamboree and talked about the special Bicentennial lighting now at the courthouse, a system of red, white and blue lights on the pillars at the front of the building.

I-20 Accident Kills Trucker

Edmond M. Davis, 30, of Amity, Arkansas, was killed in a truck accident on I-20 about 4 a.m. Monday when the truck he was driving ran off the road and crashed through the median guardrail and off the overpass over the Dorn Road about seven miles west of Colorado City.

Investigating officer Marvin Keenan, DPS highway patrolman, said it looked as though Davis fell asleep at the wheel. He was westbound on the interstate and was killed immediately, Keenan said.

The accident was reported to the police dispatcher at 3:48 a.m. and the investigation followed. Justice of the

Peace Mary Lee Moore ruled death by accident at the scene.

The 1970 International truck-tractor semi-trailer was loaded with charcoal and going from Arkansas to El Paso for the A&P Trucking Co. of Arkansas. It was totally destroyed and contents of the truck had to be picked up off the roadway.

Keenan was assisted in his investigation by Mitchell County Sheriff Bill McGuire and Deputies Mike Stutts and Jim Reynaud.

Davis' body was brought to Kiker-Seale Funeral Home in Colorado City and transferred to Arkansas where arrangements were handled by Davis Funeral Home of Glenwood, Ark.

FATAL ACCIDENT on the Dorn overpass on West I-20 about seven miles west of Colorado City, took the life of an Arkansas truck driver shortly before 4 a.m. Monday. The truck was loaded with charcoal and the above photo shows the way the truck crashed through the overpass median guardrail and came to rest on the Dorn roadway beneath, blocking traffic until the cargo could be cleared.

Discussion Sparks CISD Board Session

A group of six mothers was present during Monday night's session of the CISD board of trustees and as the board relaxed formal procedures, spoke up on issues ranging from quality of education from Kindergarten through high school levels, including need of art and physical education on the elementary level, vocational subjects and motivation of students or the lack of it, to the quality of substitute teaching and the exemption

policy which the board had set for consideration.

The group included Mrs. Tom (Jody) Neff, Mrs. Rick (Mac) Perkin, Mrs. B. B. (Judy) Bridgford, Mrs. James (Nella) Parker, Mrs. Joe (Peggy) Maddox and Mrs. Bob (Libby) Ford.

Following the group discussion in which board members participated, the board voted 4-1 to retain the present exemption policy, even though the mothers who spoke up on the exemp-

tion policy wanted it changed as one said, "so it won't just reward someone for setting in a seat but motivate the student to study toward a goal."

The vote came following a letter read by Supt. Lloyd McKee from high school principal Bill Everett recom-

mending keeping the present policy of exempting all students regardless of grade average as long as the student had only two absences or less in a trimester.

Last week the board had met in a special session to review a number of school

PARTNERSHIP TOURNAMENT at Colorado Country Club is set for Saturday and Sunday as 60 teams have entered the low-ball competition and more are on the waiting list. Bottom photo shows Tournament Marshal Charlie Smith, seated in the golf cart, and assistant marshal Gary Baker, who along with assistant marshal A. C. 25'ers Tourney Starts Saturday

The Annual 25'ers Low Ball Partnership Golf Tournament gets underway at the Colorado Country Club Saturday morning and continues Sunday after flights are figured following Saturday's opening 18-hole round.

Tea off time for in-county players is set for 8:30 Saturday and 1:30 for out-of-county teams. Four flights will tee off Sunday: 8:30 for second and third flights and 1:30 for Championship and first flights.

Over \$3,000 in prizes will be awarded to winners in the four flights and there will be a barbecue supper Saturday night for players and their wives.

Tournament Director is Dr. H. Jene Steakley, with George Powell as Golf Course Chairman and Johnny Grubbs, starter. Charlie

Smith is Tournament Marshal, assisted by Gary Baker, A. C. Craig and possibly Jesse Bolin.

Powell is defending champion along with partner Jim Harris of Roswell, N. Mex. The Championship flight features 27 holes of play Sunday but the other three flights are only 18 holes.

For the first time ever in a 25'er tournament, the local country club course will offer 18 separate tee boxes, challenging players who are used to the familiar 9-hole tee box lay-out. Recent construction at the club has seen the addition of the tee boxes and the course is in the best shape in recent years, says Powell and Club President Jim Kelley.

A full field of 60 teams has entered the tourney, with more on the waiting list.

Short-term projects may be completed in less than a month. This includes repair-removals, remodeling, personal evangelism, engineering, appliance and automobile repair.

Extended special service projects last a year or longer. They may fill in for furloughing missionaries or in emergencies, expenses are paid in part. This could also include teachers, mechanics and general helpers.

Others participating in the Tuesday program were Mrs. H. M. Rice, Mrs. Lee Shaw, Mrs. Bob Manning.

The next meeting of the women will be June 15 at 2 p.m. in the home of Mrs. Clemmer. All women of the community are cordially invited to come.

What you don't know about the cost of natural gas can hurt us all.

You know you're paying a lot more for natural gas, but you may not know why. The reason is basically simple: The average price Lone Star has had to pay its 500 independent suppliers for gas we supply you has risen (about \$166,000,000 more in 1975 than in 1974*). So we have to charge more.

If Lone Star were not able to recover these increased costs, we could run into some major problems. First, we wouldn't be able to buy the gas this area needs. Short supplies of natural gas could handcuff industry.

When industry runs short, jobs begin to disappear. Production falls off. The tax base our cities, counties and school districts depend on begins to shrink. That's why you need to understand how our industry works, why gas bills have to go up, and what Lone Star is doing to keep the increases as small as humanly possible.

Some important questions. Here are some important questions and answers about our service.

1. How do our gas bills compare to other cities? Our customers pay less for natural gas than most cities, including other cities in Texas.** We feel we're doing a pretty good job of selling natural gas at the most reasonable price possible.

2. Does gas cost adjustment guarantee profits for Lone Star? Not at all. In fact, the company has been forced to initially absorb 15 per cent of higher adjustments. This is a serious loss that must eventually be recovered if our cities are to have adequate gas supplies in the future, and if Lone Star is to have a fair return, to which it is entitled by law.

3. Who checks on Lone Star Gas? The Texas Railroad Commission, after a thorough investigation, sets our base (or wholesale) cost of gas. They set the rate of return on the pipeline system that brings the gas from the well to your city. They also monitor changes in the monthly gas costs of Lone Star, and this monthly gas cost information is filed with each city we serve in Texas.

4. How high will gas bills go? Today, your bill is based on the average cost of gas to Lone Star of a little over one dollar per thousand cubic feet. Gas bills will continue to rise in the years ahead, but probably at a much slower rate than recently. It appears that the field price of gas is leveling out so that increases will be much more gradual.

It's not all bad news. Basically, all of those answers say that gas costs more than it used to, and it will continue to cost more.

But there is good news: As long as Lone Star is able to recover its costs, and as long as there is sufficient incentive for producers to drill for new gas supplies, we'll have the gas we need to keep this area moving.

All we ask is your understanding, and your cooperation, to make sure that happens.

If you have a question you'd like answered in an advertisement, write Consumer Information, Lone Star Gas, 301 S. Harwood, Dallas, Texas 75201.

Loraine High Has Summer Home-Ec

The summer phase of the Homemaking program in Loraine High School is proving to be a valuable tool for students seeking employment during and after high school years, according to Margaret T. Latimer, homemaking teacher.

During the 10th month of instruction and/or supervision, students sign up for experiences which they feel will further their own individual growth.

Many students give of their time to see service organizations seeking volunteer workers: such as, the Loraine Nursing Home which cooperates with the homemaking department's candy strippers program.

Many of the candy strippers in the past have found their careers in some phase of the medical services.

This program trains and instructs the students as they fulfill the needs of the patients from day to day. It also helps them identify their own talents and skills

in career choices facing them.

SHERRY HACKFELD has earned a permanent position in the medical records office as secretary after serving apprentice in the office for the past year. Her start came from her two summers in homemaking experiences and the close cooperation the department has with the nursing home.

"How can I control my air conditioning costs this summer?"

UNDERSTANDING YOUR ELECTRIC BILL

Here's a checklist of things you can do to keep your cooling costs down when the temperature is up.

- Have your air conditioning unit checked to be sure it's operating at top efficiency.
- Try a thermostat setting in the upper seventies.
- Keep filters clean. Check them every month.
- Keep air vents clear so air can flow freely.
- Close fireplace dampers.
- Keep direct sunlight out with awnings, draperies, blinds or shades.
- Keep doors and windows closed. Try to limit traffic in and out.
- Vent clothes dryers to the outside.
- Use kitchen and bathroom exhaust fan only to remove excess heat and moisture.
- Schedule cooking, washing and ironing for the cooler times of day to avoid adding excess heat to your home.
- Raise your thermostat at least five degrees if you're going to be away for several hours.
- Turn off air conditioning unit when on vacation unless there are items that might be damaged from heat.
- Attics should be well ventilated to prevent excess heat buildup.
- Make sure your insulation is at least up to the latest FHA standards.
- Weatherstrip or caulk around all doors and windows.
- Keep shrubbery trimmed back from outside units to allow good air flow.
- Consider cooking outdoors more this summer.
- Consider storm doors and windows. Think of them as insulation.
- Remember that a window unit is designed to cool only one room. Turn it off if that room is not being used.
- If buying new air conditioning, get the unit with the highest energy efficiency ratio (EER) — at least seven or better.
- For a free copy of our newest booklet on how to save electricity, give us a call. Or request one on the comment portion of your bill.

★ Discussion From Page 1

policies along with all the school principals and Everett had presented a list of seven alternatives to consider in setting the exemption policy. Approval had been postponed until Monday night's meeting.

The vote came following a poll of members by President Tom Rees. Drew Ballard said his opinion had not changed as he still favored either no exemptions or exempting only those with an average of 90 or above. Gene Blasingame said he had changed his mind after talking to from 35-40 people, who with two exceptions, favored the present policy or a merit list of grades and absences. S. L. (Mac) Morris said his opinion was the same but he favored adopting Everett's recommendation. Edward Roach also favored Everett's recommendation as did Jimmie Bolin, who said he favored either the present policy or no exemption. Rees said he was in favor of no exemptions at all as he felt the student should work toward a goal.

Following the poll, Morris moved that the board adopt Everett's recommendation and the vote was Morris, Blasingame, Roach and Bolin voting in favor with Ballard opposed. The board president votes only in case of a tie. Board member Truman Bodine was absent.

In other business, the board approved transfer of assignments of Kent Holder to include choral director along with his past duty as band director at high school and his wife, Betty's move from elementary teacher to choir director at Colorado Middle School and some time at Kelley working with choral music.

The board was questioned in this move by Mrs. Ford who wondered why a "person with a major in music" had not been hired and asked if McKee had advertised for a music teacher. McKee said that the board hired the most qualified person and noted that every one of the board members felt Mrs. Holder was extremely well qualified for the position with a minor in music along with her years of experience in music and teaching.

Other teachers approved included the hiring of Ronald Conner, Beverly Cormier and Martha Anderson, previously reported.

McKee said in his nine years with the CISD system, he has never seen a more qualified group of dedicated, enthusiastic teachers than the system now has and strongly recommended the appointments.

During the group discussion with the six mothers present, the board and McKee said they would like to add the art, music and physical education teachers to elementary school but the district is presently working up figures for adoption of a budget which incorporates a 17 per cent tax raise and does not now have the money available to add the hiring of a professional teacher for those subjects.

"We have course offerings

that allow a student to be what he or she wants to be-if they want to be a National Merit finalist, a star athlete, a top-notch typist or shorthand student or a drop-out-we have all those subjects now and are working to add even more but it takes time and money," McKee said. "On the one hand, we're looking at taxes going up and less money and on the other hand, we want quality education for our students, and I think we have it."

Other business saw the board settle with Ozite carpet for discolored carpet in the corridor area of the new high school, accepting a cash settlement of \$1,500 instead of trying to take up the carpet and put in pieces which would mean seams in the doorways.

★ Planning From Page 1

historical heritage of Mitchell County and this area. Colorado City Schools Superintendent Lloyd McKee will be master of ceremonies and Smith will be introduced by J. Lee Jones Jr.

Also during the program, the winner of the Bicentennial Commission's playwriting contest will be announced. The winner will receive \$1,000 and the play will be presented by the local playhouse group sometime this fall.

Eleven entries in the contest have been received from all over Texas as well as other states including Oregon and Pennsylvania. Judging in the contest is now underway.

On Sunday, July 4, all church bells in town will ring at 2 p.m. as part of a nationwide program to recognize the official 200th birthday of America.

★ Westbrook From Page 1

Nell Shackelford will sing *God Bless America* and then to cap the program, former Westbrook teacher Mrs. LaRue Broussard, who wrote the school song about five years ago, will accompany the audience singing of the song.

Westbrook Home Economics students, under the direction of teacher Mrs. Mary Ellis, will have a nursery during the morning and afternoon program.

Sunday's activities include a Homecoming by Westbrook Baptist Church as the members have also set a catered barbeque luncheon to follow special services at the church which start at 9:45 Sunday morning. The noon meal will be served in the high school cafeteria.

The present pastor, Rev. Bob Manning, will be assisted in the services by former pastor, the Rev. Frank Hodnett, who is presently living in Carlsbad, N. Mex. The Rev. Hodnett will deliver the sermon about 11 following a special old-fashioned testimonial service which starts about 10:15.

After the noon meal, everyone interested in singing and visiting will return to the church for a get-together.
