School Sponsors Canned Food Drive Dec. 17-19

State Department of Ed- and the Perryton Schools operate with the Texas Coun- Children, sponsors of a ide collection of canned foods ent to feed inhabitants of countries of Europe, J. A. superintendent, said It is urged by school officials that the "Victory Collection of Canned Food Week" be participated in by every resident of Ochiltree county in announcing plans for the campaign which will be conducted December 17-19.

Every school child will be given the privilege of playing Santa Claus to a child in the unfortunate European centers and the cooperation of local agencies and families is asked in donations of canned goods. It is estimated that twelve millions of people will die of starvation in devastated Europe this winter if not fed, Mr. Anderson pointed out.

Those in the community desiring to contribute to this worthy cause are asked to bring to the school on any of the three days of the campaign, such canned food articles as canned milk, vegetables, fruits, juices, meats and soups. Baby foods are also needed. The cans should preferably be of the No. 2 size, although any size will be acceptable as long as it is tinned. Grocers and merchants are asked to assist by giving suitable cartons.

Room teachers will accept the foodstuffs from the children and the public may leave their contributions at the junior high school building or with any one of the three principals.

The Texas Council for Children was asked by the Community Canning Program for Overseas Relief of the United National Relief and Rehabilation Administration to sponsor the drive in Texas. School centers were chosen as collecting agencies as being the most logical and convenient place for most people to contact.

Pasturage-Range Conditions Reduced to 50 Percent of Normalcy by Current Drouth

The slight snow flurry which swept across this area Sunday turned into a dry norther which has continued all week, dashing renewed hopes of farmer-ranchers for a break in the two-month dry spell which has reduced pasturage and range conditions to practically 50 per cent of normalcy. Prospects for wheat in 1946 are still considered normal, however, according to Hood Wills, Ochiltree county agent. As far as the wheat is concerned it would miraculously revive next spring even though no moisture whatsoever was received this winter. There has been 300,000 acres sown in the county this year.

In discussing the wheat and cattle situation in this county, Mr. Wills said that this amount sown in 1945 compares with 305,000 acreage in 1944 from which was derived 2,788,275 bushels of grain. This was an average of 9.1 bushels per acre. The 1945 crop may or may not exceed this although it most likely will.

Beef cattle on the range in Ochiltree county totals approximately 25,000 which is practically the same number put on the range in 1944 by stockmen. Milk cows of all dairy types total 5,000 in the county.

As the Herald goes to press a wet snow which began falling about 7:30 p. m. Wednesday night indicates that much needed moisture over this area is being received. Approximately 1½ inches fell during the night covering the entire Panhandle area with a light blanket.

There have been 20,000 head of cattle sold during the current year, according to an estimate made by the county agent's office.

A. W. Erickson, who operates a subsoil moisture measuring service in Kansas, Oklahoma and Texas, made tests in Ochiltree county early in the week and released the following information to the Perryton Equity: Subsoil moisture in the immediate vicinity of Perryton was 38 inches; three miles east, 46; Huntoon, 28; Farnsworth, 52; Waka, 16, and Spearman, 34 inches.

Returning Veterans Can Subscribe News

The circulation department of the Amarillo News has notified the Herald that new subscriptions may be taken from returning veterans in this county.

For some time the News has found it necessary to curtail subscriptions, accepting only renewals from present subscribers. This was made necessary due to the limited supply of newsprint. It was pointed out that this condition still exists and that no new subscriptions can be accepted from civilians.

Returning servicemen may subscribe to the Amarillo News at $10.00 per year until December 31.

Victory Loan Drive Quota Oversubscribed

Ochiltree county residents furnished an appropriate climax to the bond drives in the final Victory Campaign by oversubscribing its quota of $265,000 according to figures released by dispensing agencies in Perryton Wednesday. Residents made total purchases of $297,965.00 in all classes of bonds during October 29 through December 8. The county's quota of $195,000 in Class E bonds was not met inasmuch as only $148,350.00 was purchased in this category.

Girl Scout Heads Named

Officers to head the Girl Scouts for the next two years will be installed in a formal installation ceremony at the Methodist church, Thursday evening, December 20, at seven o'clock. Miss Norma Ewing, district counselor and field advisor, will be present to officiate as installing officer.

Mrs. R. B. Orrill is president; Mrs. A. J. Kelly, vice-president; Mrs. Chas. Kent, treasurer; Mrs. A. C. Witt, camp chairman; Mrs. Dan Archer, training chairman, Van W. Stewart, finance chairman, Mrs. Jack Allen, public relations chairman.

Leaders of the various Girl Scout troops are also urged to attend.

Miss Ewing will be in Perryton December 20-21, and the following is an itinerary schedule for those days. From 1:30 to 4:30 Thursday she will conduct a leader's training study at the Methodist church. That evening the formal installation of officers will be held, and Friday morning from 9:30 to 11:30 she will conduct another leader's training study period.

Friday afternoon from 1:00 to 3:30 p.m. Miss Ewing will confer with anyone who has problems or questions pertinent to scouting which they would like to discuss with her.

Legion Christmas Set Monday Night

The American Legion and Auxiliary will have their annual Christmas party and gift exchange following the potluck supper on next Monday night, December 17. Everyone attending is requested to bring an inexpensive gift not to exceed 35 cents in cost. The gifts will be put on the Christmas tree for exchange.

Supper will be served at 7:00 p. m. Hostesses in charge of serving will be Mesdames Mark Boehning, Kemper Warren, O. R. Truax, Pearl B. Teeter, O. H. Tallman, O. H. Black, A. P. Spicer, D. C. Wilson, Frank Winn and R. B. Yoakley.

Veterans of World War II and their wives are issued a special invitation to attend the affair.

Details of the program will be under the supervision of Mrs. Ray Veale.

Full Gospel Will Present Pageant

Rev. Ralph Durham, pastor of the Full Gospel church, announced Wednesday that the church would present a Christmas Pageant on Friday, Dec. 21. "The Sweetest Story Ever Told" in three acts with 16 characters and carol singers will be presented.

The public is invited to see the Christmas story as it should be told in every home this year. The story originates in a modern living room, changes to the Judean hills and then back to the modern living room.

Red Cross Workers Urged to Sew For European Children

Although 60 tons of chapter-produced garments were distributed in western Europe by the American Red Cross during the second quarter of this year, more clothing is being requested through increased quotas from Red Cross production corps, Mrs. E. L. Whippo, production chairman of the Ochiltree Red Cross chapter, said Monday. In addition to the clothing sent western Europe, quantities have been shipped to civilians in the Mediterraean area and other parts of the world, yet the need for clothing remains great, she added.

Almost 35,906 girls' capes, 5,000 children's rompers, more than 17,600 boys' shirts, 2,000 girls' dresses, 1,500 women's dresses, 4,920 snow suits, 33,000 slips and petticoats, 50,000 diapers, and 20,880 overalls have been assigned chapters in 17 midwestern states since the first of July. These quotas and an additional 150,000 garments assigned for insular relief in the Pacific make a

Francis Rites Are Held Today

Last rites will be said for Robert Henry Francis, pioneer Ochiltree county farmer-stockman, today at 2:00 p.m. in the First Baptist church. Rev. O. C. Curtis, pastor, will conduct the services. Mr. Francis died suddenly in his home at 915 Southwest 5th street about 9:15 p.m. Monday. He had been ill with influenza and suffered a heart attack.

Pallbearers will be Ivan Day Travis Flowers, Byron Pletcher, Roy Stinson, Glen McGibbon and D. A. Cronister. Honorary pallbearers are George Pletcher, J. W. Bennett, W. L. Anderson, D. D. Taliaferro, Leonard Littau, T. P. McLain, Al Devers, Sam Handley, R. S. Roberts, H. C. Brilhart, Carl Ellis, Jack Allen, Claude Bowen, Fred Lewis T. V. Ellzey, W. H. Ragan, W. E. McMillen and S. P. Whippo.

Obituary

Robert Henry Francis was born October 14, 1883, to C. E. Francis and Molly Nelson in Pettes county, Missouri, and departed this life December 10, 1945, at Perryton, Texas.

He came to the Panhandle of Texas during the early days of Ochiltree county and for many years was actively engaged in farming and ranching in the vicinity of Wolf Creek. He moved to town a few years ago to make his home.

Surviving are the wife, Myrtle Francis; a son, Ralph H. Francis of Perryton; four daughters, Mrs. L. E. Gum of Amarillo, Mrs. C. D. Russell, Mrs. Clarence Morris and Mrs. Elton Walker of Perryton; one brother, Roger M. Francis of Kress, Tex.; Two sisters, Mrs. Emanual James of LeFors, Tex., and Mrs. Luther Petty of McLain, Tex.

Cantata is Planned Sun.

"The Star of Bethlehem", a cantata by Carrie B. Adams, will be presented in the Methodist church Sunday evening, Dec. 16, starting promptly at 7:30 p.m. The cantata will be given by the combined choirs of the Methodist and Christian churches.

The text depicts the Christmas story in a beautiful four-part harmony, bringing the carols and traditional hymns together in a masterful climax of the birth of Christ.

The cantata will be directed by Mrs. R. P. Hurn, accompanied by Mrs. Lewis Jacquot.

Numerous Gifts Are Received in Christmas Drive

Members of the Pierce Johnson Post of the American Legion and Auxiliary met at the Legion Hall Tuesday night and wrapped 30 overseas boxes of gifts donated by the public in the "Gift for Yanks" drive sponsored by the organization. The boxes averaged $4.50 each. This amount plus $66.79 in gifts of miscellaneous sizes brought the total evaluation of gifts to $201.79. The gifts will be sent to a distributing center for dispersal to the government hospitals within the continental limits of the United States and overseas and will be presented to disabled soldiers on Christmas day.

The Perryton schools participated in the drive and raised $31.00 by voluntary subscription along with numerous individual gifts from students. The Red Cross also gave numerous books, combs and writing material.

A. N. Dowers, post commander, and Mrs. S. L. Brillhart, Auxiliary president, on behalf of the Legion Post, expressed their appreciation to the public for the support given to the drive.

Police Chief Warns Business Men of Holiday Check Forgers

Chief of Police J. W. Buckley stated Monday that the U. S. Secret Service had requested his cooperation in warning businessmen to be on the lookout for check thieves and forgers, who usually become very active during the rush of business of the pre-holiday shopping season.

"Merchants should talk this over with their employees now," Chief Buckley said. "All clerks and cashiers should be cautioned to be even more careful than usual in accepting either Government or commercial checks from strangers. No check should be accepted from any stranger unless properly identified.

Chief Buckley referred to the campaign to prevent check forgery, which has been conducted for the past several years by the U. S. Seret Service, Treasury Department, and police departments throughout the country. According to Chief Frank J. Wilson of the U. S. Secret Service, even though the number of forged checks have increased, due to the great number of checks being issued, crime prevention methods have reduced the actual rate of forgeries from 99 per million in 1939 to 38 per million at the present time. This could not have been accomplished without the full cooperation of the police departments throughout the country. These departments, through their efforts, have obtained cooperation from many merchants.

"Many juveniles from 12 to 17 years of age have stolen, forged and cashed Government and commercial checks," said Chief Buckley, "just because some merchants have not asked for positive identification. When a merchant accepts a check from a juvenile, without requiring proper identification, and the check turns out to be a forgery," continued Chief Buckley, "then that mer-

Liberty Has A Price

Even in peace the price of liberty often comes high.

American workers, under democracy, can choose their kind and place of employment. They can lay off or quit, and no police will come to herd them off to concentration camps.

They can strike, and they do—even though the consequences may be directly felt by other millions of Americans who love their liberty, too.

Sometimes men most abuse that which they most cherish . . . There are those who, becoming "leaders," under liberty, take it to license. They become tyrants and dictators—eventually to destroy themselves, those who trustingly follow them, and liberty as well in the end.

Power and authority become a heady brew. Concentrated, it turns out to be corrosive, consuming . . . Have some "leaders" of today's baleful headlines so soon forgotten A. Hitler?

BABSON DISCUSSES NEW DEVELOPMENTS

ROGER W. BABSON, Editor-in-Chief

New York, New York, Dec. 7. I am New York calling on some of my optimistic friends who are hopeful of very good times just ahead of us. In addition to the usual arguments as to the tremendous backlog of orders, the billions of cash awaiting an opportunity to buy merchandise and the possibilities of atomic energy, they throw at me various other things upon which they have been working. Some of them—by no means all—I submit below:

New Ideas for Builders and Manufacturers

Builders may soon be discussing the merits of new "lumber". This will be made from pulp and perhaps from a mixture of excelsior and portland cement. Also, a new cement is being developed from use in concrete flooring which will be as strong but much lighter in weight. It should reduce the amount of steel in buildings. There also is a possibility of concrete which will bend but not break.

Textiles will soon be treated with a wax emulsion which, when added to rinse water, makes clothing water-resistant. Also there is a new process which makes cotton fabrics proof against rot, fungus and mildew without changing their appearance. A new asphalt or oil treatment of sole leather, adaptable to cemented shoes, may greatly increase wear.

Good News For Housewives

The packaging of frozen foods, which have become a "must" for many housewives, is due for a speeding up. Fishing vessels and slaughter houses will be equipped for the immediate processing and freezing of fish, meats and poultry. A new can, the sides of which are fiberboard and the ends tinplate, may revolutionize the frozen food industry.

Cargo and express will be dropped by a parachute shaped like half a baseball cover. So we may expect to have shipments delivered in an improved condition. An appliance manufacturer tells of an electric washing machine which, in addition to washing clothes, has attachments by which dishes may be washed, potatoes peeled, ice cream frozen and even butter churned!

Imprived Transportation and Communications

A bus company operating here through my community has applied for a helicopter franchise. Helicopters will have air-cooled motors counterrotating blades and three road wheels. A PV-3 helicopter, with a long fuselage with a motor on each end, is now being tested by the Coast Guard and Navy. It carries twelve passengers. Regular planes are now being made to travel over 300 miles per hour at an altitude of 100 miles.

Printing is about to enter into a new field. One of the most recent uses for the process of printing is to print electrical circuits on heavy paper with lines of metallic, conductive ink, as a substitute for wires in low-priced radio sets. Television, too, will soon become a part of daily living. One New York Department Store has announced that it is ready to install three television studios in its store.

Further Developments

Britian has developed and used a method by which airfields are cleared of fog through the burning of many gasoline jets. The process is known as "FIDO" which means "Fog Investigation Dispersal Operation". Germany has hit upon a process for extracting ethyl alcohol from wood waste. Furthermore, we hope to preserve aquatic life through the use of a new method of disposing of paper-pulp-mill waste which will make these substances harmless.

Shortly after the first of next year I will make a much more complete summary of new developments which have gone forward during 1945. Returning veterans and others interested in getting into new fields of endeavor should watch for this review.

RELEASED FROM NAVY — A. J. Eudy,, AOM 3-c, was discharged from the Navy at Terminal Island, Calif., Dec. 8. He had completed 17 months active sea duty in the Pacific theatre of operations. He was inducted into the Navy March 12, 1943. Seaman Eudy received his basic training at San Diego, Calif., and on July 6, 1943, was assigned to a transport as a gunner. His principal time after assignment was spent in the Aleutians. Other stations included Hawaii and Australia. He is a son of Mrs. W. A. Elledge of Waka.

Phil Daley Joins Daley Glass Firm

Announcement was made this week that Philip Daley, who recently returned from service in the U. S. Army Air Forces, will be associated with his father, R. H. Daley, in the operation and management of the Daley Glass Shop.

Young Daley was in service for forty three months, serving sixteen months overseas in the South Pacific area, including New Guinea and the Philippines.

Jack Todd, Louie Kurtz and Jack Lovett went to Dallas last week to attend the annual convention of the Texas Baby Chick Association.

O. E. S. Christmas Party December 18

The Order of Eastern Star will hold its Christmas party December 18 at the Masonic Hall. Men and women are to bring gifts not to exceed 50 cents in price.

Refreshments will be served and a regular meeting will be held before the party.

I. S. Burger, Waka, who has been quite ill, is able to be up some now.

Coronation for Booker High School Queen

Miss Norma Jean Neiden was crowned queen of Booker High School in a ceremony at the auditorium, December 1 at eight o'clock. The coronation ceremony culminated the Booker carnival. Verl Winters escorted the queen, who was elected over Wilda Rae Marshall by a small margin.

Leona Rose Henton won the grade school contest, and her escort was Melvin Meyer.

Soft strains of music were played as the attendants and their escorts filed down the center aisle of the auditorium, then up a flight of stairs covered with cotton and glistening artificial snow flakes. The steps were bordered on either side by pink roses and they terminated on the stage where the party formed an open triangle with the queen's throne at the apex.

The silvery throne was carefully appointed with pink and white roses entwined to form an archway overhead.

The girls who composed the chorus were attired in pastel evening dresses and stood on stair steps at either side of the stage. They sang lovely songs appropriate to the occasion and the approach of the queen. Mary Lou Smith was at the piano.

The bugle sounded and the master of ceremonies, Robert Dell Lemon, announced "Her Majesty, the Queen." A spot light followed her from the entrance to her throne. Brenda Joe John, flower-girl, scattered flowers in her path from a miniature pink basket, and Carlos Everett Mountcastle bore a small golden crown on a white tinseled pillow.

Little Jimmy Henderson and Carla Joe Kerns carried the train of the long white robe which was flecked with shiny stars.

The king, with appropriate words of praise, placed the crown on the Queen's head as the evening's festivity came to an end.

The coronation exercise was sponsored by Mrs. Alice A. Kirksey and Miss Lula Alice Scott.

Society Ed Furious Readers Confused

It is putting it mildly to say that our society editor was exasperated last week when she discovered the write-ups of two weddings interchanged. We agree that it was somewhat confusing. To both couples, we extend our regrets and apologies. It was just one of those things that seem to happen now and then on a newspaper. When we pull a a "boner" like this, we realize that every line of the Herald is read.

POSTWAR SMARTNESS

THE new shoulder line, new deep armholes and new front fullness mark this daytime dress as part of the new era just beginning. For postwar efficiency the specially treated rayon gabardine with Tebilized tested crease-resistance practically eliminates pressing. It will hold its shape, its crispness throughout active wear and dry cleaning, and those unavoidable elbow and "sitting" creases will hang out overnight just as they do from fine woolens. Design by Claire McCardell.

Yuletide Program For Sorosis Club Held Wednesday

The December meeting of the Sorosis Club was held Wednesday afternoon in the club room at the Hotel Perryton. After the business meeting Mrs. Leon Shrader spoke on how to decorate the house for Christmas and Mrs. Stanly Key gave the Christmas story.

Those present were Mesdames Arch Talley, E. W. Thomas, A. P. Spicer, O. C. Shearer, D. D. Shanks, O. A. Schuster, C. B. Rogers, Robert Lawrence, W. B. LaMaster, Stanly Key, R. H. Holland, Ralph Headlee, Horace Glasgow, Ira Ferguson, H. T. Cutter, Geo. W. Cutter, D. A. Caldwell, H. C. Brillhart, A. S. Brillhart, Alton Boxwell, Raymond Bowen and Miss Nellie Perry.

Mr. and Mrs. Ward H. N. Gregg were in Amarillo Tuesday attending the meeting for Christian church ministers of the Panhandle.

Miss Rademaker, Doyle Rorabaugh Wed December 2

Friends will be interested to learn of the marriage of Miss Josephine Rademaker, daughter of Mrs. Bertha Rademaker, Harsburg, Ill., to Doyle Rorabaugh, Gray, Okla. The vows were read at the St. Peter's Lutheran church in Emden, Ill., Sunday afternoon, December 2, at two o'clock, Rev. John Detjen performed the ceremony in the presence of relatives and friends.

The bride, given in marriage by her oldest brother, Walter Rademake was beautiful in her traditional white satin gown with a short train and fingertip viel. She carried a bouquet of white roses and carnations.

Miss Rachel Rademaker attended her sister as maid of honor and her gown was of pink; her bouquet was of pink roses. Arnold Rademaker, the bride's brother, attended the groom.

Ushers were Eugene Arnold and Fred Funchum.

After the wedding a reception was held at the brides home. The delicious lunch was prepared and served by two aunts of the bride, Mrs. Clarence Arnold and Mrs. William Struebing.

The bride is a graduate of Hartsburg High School; she attended Brown's Business College in Bloomington and then accepted a position there with the State Farm Mutual Insurance Company where she has been employed for almost four years.

Before entering the service in June, 1942, Mr. Rorabaugh completed two years college at John Brown University in Arkansas. He graduated from Perryton High School in 1939. Most of his first two years of service was spent in Southern States. For some time, however, he was stationed in Bloomington where he met his bride. He received his wings in November, 1944, and prior to his discharge this October, he served as an instructor in the air corps.

The couple are expected to arrive at Gray this week after their honeymoon in Chicago; they will make their home near Gray where Doyle is associated with his father in farming and ranching.

Red Cross Films To Be Shown At School

Two Red Cross films will be shown to the student body of the Perryton Public Schools during the week of Dec. 17, it was announced Tuesday by school officials. While the exact date was not set, students will be notified in time to inform interested parents, who are invited as guests at the showing. The films to be presented are "Nursing Begins at Home" and Newsreel No. Six.

Fifty-three Red Cross chapters in midwestern states received "thank you" letters from officials in Belgium while 32 have responses from the Netherlands for clothing distributed in their territories since the countries were liberated.

From July 1, 1941, through March 31, 1945, Red Cross volunteers produced 32,112,185 garments, exclusive of layettes and toddlers' packs.

ON LEAVE—1st Sergeant Mansel R. Coffee, Jr., arrived in Perryton to spend 30 days leave with his parents, Mr. and Mrs. Mansel Coffee over the holiday season. Upon expiration of leave he will report to Corpus Christi for reasignment. Mansel entered the Marine Corps at Dallas Sept. 10, 1936, and has seen service throughout the Pacific area and Panama. He has two more years to go on a third enlistment. Prior to his return to the States recently he was staeioned a Iwo Jima with the Fourth Marine Division.

New Manager at Farmers Co-Op

Clyde W. Freeman, formerly of Amarillo, has assumed management of the Farmers Co-Op here, taking the place formerly held by J. H. Hohlaus, who recently moved to Texline, Tex., to manage a service station there.

Mr. Freeman recently received his discharge from the U. S. Army Air Corps after three years of service, 2½ years of which was spent in the China theatre. Before coming here he was associated with the Consumers Cooperative Association in Amarillo.

You know I am sitting here writing this and it is as smooth as being at home in a rocking chair. This air travel is the stuff, its quick and not expensive.

Say this good looking Hostess keeps walking up and down the isle—she don't realize her danger—she don't know she's right beside the Panhandle Dark Horse—Boy! She's well upholstered. If we don't come down to earth pretty soon I am liable to grab her.

She served us the most delicious dinner. It sure seems queer sitting up here so high cramming down such good GRUB—especially after all the cow peas, Mexican beans, corn bread and thickened gravy the NALL family consumed during our growing up days out in Cimarron County and don't forget the MILLION cow chips I picked up.

I was a little nervous after eating so much, so when she came to pick up my tray, I said sister I may have to hunt a rest room. She snapped right back Bro. We have one right here on the plane waiting for you.

Here we are landing just 4 hours and 40 minutes from Albuquerque, to Los Angelos, with a stop in Phoenix, Ariz., Bro. this sure is the way to go places.

LEAVES ARMY—Staff Sergeant James Ray McWilliams arrived in Perryton last Wednesday from the Separation Center at Ft. Sam Houston where he was released from the armed forces. Ray has just returned from 16 months of overseas duty in the ETO where he served with a Quartermaster Division. Ray entered service March 23, 1941, at Ft. Bliss, later serving in North Carolina, Wyoming and California before going overseas. Mrs. McWilliams accompanied him to Perryton. She is the former Miss Hororine Herring of Los Angeles, Calif. He is a son of Mrs. Abe McWilliams of this city.

Offiers Seek Man Who Broke Jail Tues

Members of the Ochiltree county sheriff's office are searching for Blackie Rogers, who escaped confinement in the local jail Tuesday night, following his arrest, Saturday night, on two counts. One was for possession of intoxicating liquor in a dry territory and the other was for possession of liquor for the purpose of sale. The arrest was made by Deputy Ray Phagen.

Escape was effected when the door was left unlocked and by scaling the fence surrounding the jail building, it was said.

total for the year of 830,312 articles needed for civilian relief.

Appreciation for the garments received and the good will they promote is shown in many letters to Red Cross chapters. The Burgomaster and aldermen of Geleen, Belgium, whose citizens received clothing from midwest chapters, wrote:

"We are really glad to know the people in the States have such a comprehension of the needs of our population after those long years of German occupation . . . We never shall forget what your country has done and still does for us."

The local chapter will need volunteers to complete its quota of coat type sweaters by the end of the year. Persons interested in assisting with the work are asked to call Mrs. E. L. Whippo, or to meet with the sewing groups at the Red Cross room. The room is open Tuesdays through Friday between the hours of 2:00 to 5:00 p. m.

'Wheat for Holland' Drive Closes Monday

The "Wheat for Holland" campaign, sponsored in Ochiltree county by the Church of the Brethren, will close on Monday, December 17, and according to Rev. P. E. Rhine, more contributions are needed to make up the carload being sought.

The wheat is being raised throughout the United States by churches and other groups. Railroads of the nation are giving special rates on shipping the grain and the Netherlands government is paying all transportation costs.

The country of Holland, The Netherlands, was flooded in an effort to keep out the German armies. The saltwater has destroyed the power of the soil to produce. Twenty per cent of the land was inundated and, being lowland, was the best farm land. The cities were bombed and laid waste, so the country is in a deplorable condition and starvation stalks the land.

In Ochiltree county the Equity elevators were selected to handle the wheat as they are the most numerous. The Equity is also cooperating in the drive by accepting wheat or money for wheat. Contributions may also be made to any local minister, D. D. Hummer, J. V. Stump, Allan Dennison or Marvin Groves.

The following precautions should always be observed by business houses which cash checks for customers:

1. When any stranger asks you to cash a check, insist that he properly identify himself as the rightful payee of that check. Do NOT accept a Social Security card as a means of identification.

2. Insist that the check be endorsed in your presence. If it is endorsed when presented to you, have it endorsed again.

3. Before you accept any check ask yourself this question: "If this check is returned to me because the endorsement is forged, can I locate the forger and recover my money?"

4. Have each check initialed by the employee who pays out money for it and also have the employee to make a notation on the check of the identification given by the person presenting the check.

Band Program

The high school band entertained the senior high students with selected arrangements of "Donkey Serenade," "Finlandia," "Boogie Woogie Brocholi," "Jack and the Bean Stalk," several marches and a number of Christmas carols Friday in chapel. James Hale and Jackie D. Steele played a duet, "Conchita," and much amusement resulted when the pages of James and Jackies' music were blown to the floor. A boy had to hold the music so they could continue playing. The program was enjoyed immensely by the student-audience.

Thespian Society Formed At School

Miss Inez Franz, speech teacher at PHS announced recently that the National Thespian Society, a dramatic honor society for high schools, has been organized in PHS. Members of the Thespian Club are: Rosa Lee Reed, president; Richard Morgan, vice president; Barbara Pletcher, secretary; Jimmie Key, treasurer; Kay Kizziar, clerk; Jim Bill Dodson, Keith Bray, Nettie Mac Brillhart, Veva Jo Mitchell, Don Stephenson, J. C. Jones, Marjorie Hummer, Mildred Sager, Nina Phagan and Barbara Buckley.

The purpose of the new dramatics club is "to establish advanced standards of excellence in all phases of dramatic arts and to create an active and intelligent interest in dramatics among boys and girls of high school." It is a non-social and non-secret organization open to all high school students who possess the required number of points in dramatics. Thespian club members will be constantly on the alert for new members and everyone who has enough points is urged to join. Miss Franz will give the particulars to any student interested in joining.

The Perryton chapter of the Thespian society will be called Troop No. 527. An initiation ceremony is planned for early January when the clubs charter will be received.

Basketball

Football season has closed! Junior's mother had just heaved a sigh of delight.

"At last football season has closed. No more broken collar bones, no more scrubbed and scratched faces, knees and arms. Maybe Junior will look more presentable this evening when he comes home from school. There he comes now. Oh, look he has a bloody nose and black eye! His new pants are torn in the most obvious places! Oh, heavens, I thought football season was over! Junior, Junior, what happened to you? Did that bully down the street pick on you? Did a safe fall on you? Did a car run over you?

"Gosh no; Ma, basketball season has opened. Didn't you know?

El Toro

This if your PHS correspondent, writing from the official desk of your favorite school, where when all other subjects and conversations run low, all you have to do to bring it back to an all-time high is to mention the Follett girls.

Flash! Saturday night is definitely not the loneliest night in the week, is it Beth? That Lt. had all the girls drooling, including Beth.

Atlas Jr. (Frank W. to you) was seen escorting Lucy Lee T. hither and thither at the Jamboree Friday night. What, only one?

Jerry K. and Marion D. have called their recent romance off. However, our little Romeo has lost no time in finding a suitable substitute —namely, Betty H., Marion's best friend!

Wendell C. and Darlene B. were the surprise couple of the week, Friday and Saturday nights. "Beaver", you are to be congratulated.

A few of the couples seen this past week are: Kay K. and DuWayne T.; Bob T. and Dorothy G. Delores C. and Carol T., June P. and Roy J. and Patsy Ruth P. and Kenneth T.

Gene, what's this we hear about you taking Ruty T.'s girl away from him. Shame on you!

Velma Lee, I guess you didn't know that you had been going with a beauty operator, did you? If you don't believe it, just ask Norma.

Carmen has finally got her a man! Don. S. seems to be the lucky one.

Barbara P., what's this we hear about you likeing a certain football boy? How long has this been going on, and does he know?

Thelma T., that cute new number, was seen with four different boys Friday night at the Jamboree. It looks like we PHS boys Friday night at the Jamboree. It looks like we PHS women are really going to have to hold on to our men.

If you are wondering what's behind the smiles Rosa Lee R. and Claudine C. have been flashing all over school, it could be because certain people are coming home from Notre Dame soon.

Veva Jo was supposed to have a date with "Squeeky" W. Saturday night, but she came to the preview by herself. What's the matter "Mitch"—losing your technique?

Brillhart said that it had been so long since she had been with a boy that she wouldn't know how to act. Keith B. seemed to make you remember awfully fast, didn't he, "Nut"?

Verla H., Raymond P.' ex, has been doing all right with Russell C. lately. A little birdie told us she had other interests—namely, Maurice W.

The was quite a little mix-up when Ruth W. and Russell R. appeared together Saturday night. For particulars, consult Vernon F.

Warning! Pat B., if you are not careful, you are going to end up without a man, or so we're told.

Until next week, this is your reporter signing off, promising to bring you the latest gossip from the PHS halls.

Meet the Seniors

Carmen Keith is that blue-eyed, brown-headed senior who likes swimming and dancing, fried chicken and watermelon. She was born in Perryton on September 14, 1929. Claudette Colbert and Van Johnson take her awards for favorite stars; "The Song of Bernadette" was her favorite movie. She liked the book "Seventeenth Summer" and in the music department "It's Been a Long Long Time" is tops in popular music. Bing is the crooner. Her ambition is to become a journalist and her immediate plan after graduation is to attend Stephens College and then the University of Missouri.

Meet Pearl Merydith, who came here in her junior year from Canadian, and whose favorite sport is to outrun the cafeteria racers. She was born in Canadian November 16, 1928. Her favorite song is "Swinging on a Star" and Bing and Frankie are both favorite crooners. Cherry pie takes her favor in food and "Between Two Women" was her best liked movie. Naturally Van Johnson and Helmut Dantine are the best actors, but there is no favorite actress. She liked the book "And Then There Were None" and her pet peeve is people who can't stand on their own feet, but insist on standing on her's. After she graduates she plans to go to college.

Cagers Met Gruver There Friday Night

The Rangers got off to a good start this season when they played Gruver last Friday night in Gruver's gym. The first string lost to Gruver 32 to 41, but the second string won their game 21 to 20.

The basketball boys on the first string are: Clarence Miller, Bobby Schell, Keith Flowers, Kenneth Fuller, Bill Jones.

Second string Rangers are: Dave Hummer, Tommy Pletcher, Raymond Powell, Bob Slaughter and Larry Slaughter.

Coach Murry drove the boys to Gruver in the Ranger bus.

Dr. Powell, Eye, Ear, Nose and Throat. Will be at Dr. Kengle's Office, Tuesday, December 18.

Enact Throbbing Drama in Film, "This Love of Ours" at Ellis

Screen drama at its finest is the description given "This Love of Ours", adapted from the Luigi Pirandello play, "Come Prima Meglio De Prima" and playing Sunday and Monday at the Ellis theatre.

The film stars Merle Oberon, Claude Rains and the new Hollywood "find" Charles Korvin. It introduces the school girl actress, Sue England, in one of the season's best fledgling performances.

"This Love of Ours" is the story of a Paris actress deserted by her doctor husband when he believes her unfaithful. Their reunion a decade later, and the problem of their daughter, who believes her mother is dead, are main keys of the powerful drama.

Years were spent by Bruce Manning, John Klorer and Leonard Lee in developing a screen script from the Pirandello play because of the delicacy required in handling some passages. Locales are Paris, Chicago and Pasadena.

Miss Oberon's costumes are in keeping with her three environments—wife of a French physician, pianist in a cheap nightclub, and spouse of a famed pathologist.

Charles Korvin is the newcomer who was put in the "discovery" class after appearing in only one picture, "Enter Arsene Lupin."

Plans Call For Nine Recruiting Stations

Lieutenant Colonel Robert L. Hardy, Recruiting Officer in command of the West Texas U. S. Army Recruiting District, has announced plans to open nine (9) new Army Recruiting Stations in West Texas before the first of the year.

Colonel Hardy stated that due to the recent passage of the Voluntary Recruitment Act of 1945 by Congress that many men of West Texas who are interested in enlistment in the Regular Army have not been contacted because of the distance involved in traveling to the Army Recruiting Stations which are at present operating in Amarillo, Lubbock, Abilene, Big Spring, and San Angelo, Texas. Colonel Hardy hopes by opening nine (9) new Recruiting Stations to contact those men interested in enlistment and acquaint them with the benefits offered by the Voluntary Recruitment Act which was known in Congressional circles as the "Red Apple" Bill. The benefits included in this Bill are the most generous ever offered by the Nation to its soldiers.

The nine (9) new Recruiting Stations to be opened in West Texas will probably be located in the Post Office Building or other government building in the different cities selected.

WILL THERE BE A STEEL STRIKE?

Not if the CIO abides by its pledged word, given only last spring.

Question: What would be the general effect on the country of a steel strike?

Answer: Over 40 percent of all the factory workers in the country earn their living by making steel into useful products for American life. A shut-down of the steel industry would be a disasterous blow to reconversion and would cause a serious loss in both wages and industrial production at a time when they were most needed.

Question: Is it true that the Steelworkers Union has pledged itself not to strike?

Answer: Yes. Every contract which the Union has signed this year with the various steel companies has a clause wherein the Union agrees not to strike during the life of the contract.

Question: Are those contracts still in effect?

Answer: Yes. They were signed in the spring of 1945 to run until October, 1946

Question: Who signed for the Union?

Answer: Its international officials—Philip Murry, Van Bittner, Clinton Golden and others—and the local Union heads at various plants.

Question: Is the no "escape clause" by which either side could end the agreements?

Answer: No. The Union demanded a fixed, long-term contract and got it.

Question: Why did they want a long-term contract?

Answer: In the Union's own words before the War Labor Board, "The Union's request for a termination date of October, 1946, is not made capriciously or pressed here for bargaining purposes. It represents the considered view of the Union that only such a term will adequately serve the needs of stability."

Question: Did the recent strike vote violate the contracts?

Answer: No. Only an actual strike would violate THEM.

Question: Haven't there been strikes already during the life of the contracts?

Answer: Yes. There were 998 strikes in steel plants during the past year alone. They were mostly local strikes which the Union characterizes as "wildcat," but they meant a big loss in production.

Question: Does the end of the war justify changing the contracts?

Answer: No. The bond was sealed on both sides and should be kept whether times be good or bad. The steel companies are continuing to live up to these agreements. If a strike is called, it will be in clear violation of the existing contracts.

A strike in the face of existing contracts would shatter any confidence in the validity of union agreements in the steel industry.

...r to write to you as I ... an opportunity for ... I am now assigned to ... Division. In the 350th. Inf. ...n. and I will work in the Battalion Aid Station as aid man. I arrived here at the camp yesterday at 4:00 p. m. and at 5:00 p. m. I was on an emergency call to go back up in the mountains and get a lady who was to be "Confined" and take her to a civilian hospital 78 miles away.

The ambulance driver another aid man and myself went. We had a long litter haul to the ambulance and then the 78 miles to the hospital. Her sister went with us but I'll tell you I was never so glad as when we reached the hospital, not a one of we G. I's. knew a thing about Maternity cases and neither did her sister.

We treat G. I's. first then civillans. Pray for me. There is so many diseases here, V. D. is so prevalent that it is a shame and a disgrace to the human race. We certainly have everything to be thankful for in the good "Old U. S. A."

This is a poverty stricken nation, thousands of beggars line the railroads, and roads. Even beg for scraps of bread when we come out of the mess hall. Most of them though, beg for cigarettes; Thirty dollars a carton is what they sell for here, (black market).

Most of the towns are torn up until it is almost impossible to find a whole building, that is in all of Italy south of the Poe river. Here in the mountains of northern Italy it isn't quite so bad. I'm really in the mountains here, the valley looks just like Red River, New Mexico only the mountains are a little more rugged. It is about three fourths of a mile up the mountain to the snow. It is really cold here.

Here are some of the towns near us: We live here (Plazzo,) in an Italian Army camp, four story stone barracks, as nice as any I have seen in the States. We are 60 miles from Trieste, Gorizia is 70 miles away we are right on the Yugoslavia-Austrian-Italian border. Marshall Tito lives just over the hilll from us and Austria is just over the mountain the other way.

One of the kids I was with in Ft. Lewis, Wash. is still with me and we are both assigned to the Aid Station, we live on the fourth floor of the barracks and have a pretty nice place, could stand a little more heat but we got a stove today and with steam and coal heat too we will stay warm. They say we will be isolated in Jan. and Feb. because of the snow.

Well, no news so I'll say bye. Pray for me, love and prayers.

Parisian Life Is Discussed By American Red Cross Worker

Editor's Note: The following letter of interest was received recently by Mr. and Mrs. R. T. Correll from their daughter, Virginia. Virginia is associated with the American Red Cross and is stationed in Paris, France.

Paris
November 22

Dearest Family:

"Happy Thanksgiving"! We had a wonderful dinner today — turkey, cranberries, something kin to turnips (a French dish, I don't know what, dressing, pumpkin pie, fresh apples, hard candy, ice cream and peaches, French bread, butter and coffee, plus tomato juice. Was very good and I ate my lion's share.

This is a holiday but I decided to work, believing as I do that the boss ought to spend more time in the office, at least on the job, than his co-workers. Mrs. Canale has been helping me but I just told her to go home and eat dinner with her husband, an American officer—which she is going to do "tout suite".

I spent most of the morning at the 214th hospital trying to do something for B. J. Trimmer, our British driver who was with the Clubmobile I was with in Heytesburry, England. He took ill in Frankfort, Germany, some two months ago and ordered by American doctors for immediate evacuation to England by air. He has been shoved around for the last two months—nobody paying attention to him. I got wind of it day before yesterday and went to work on it. Saw him yesterday and today, talked to his doctor, also the Chief of Medical Service, a Colonel at the hospital, called Major in the British Army, put a pin under him, he called the British Consulate, and right now things are moving towards either getting Trimmer's wife and family here or Trimmer there. If his family comes here I'm going to keep plugging until I get them all sent back to England by air together. Makes me mad for something like this to happen. He had begun to think everybody had forgotten him, even to the British for whom he lost a lung at Cherbourge. Phooey on us and the British too, especially us for not keeping track of him.

Oh, I had lunch with Sid Jones the 16th of November. He is at Camp Pittsburg near Reims from which camp he will be sent to one of the cigarette camps and then shipped home soon. Lucky guy! Was sure good to see and talk to some one from home. Sid said he run into Giltner LaMaster the night before. Sid thought Giltner was staying at the Washington Club, so I called here. No Giltner. Then I thought he might have said the "Embassy" Club so I called for the "Embassy" and learned there was no such club, but there was an Ambassador Club. Sure enough he was registered there, but not in, so I left a note for him to call. He called that night and came by the next morning. We had coffee and doughnuts at the "Rainbow Corner". Was so nice to talk to him.

If you see "Squid" Gidley give him my congratulations. He married the right one.

We have had some what of a little revolution here in Paris. Bloodless but interesting. The students marked loudly under our window the other night, November 19, in a pro DeGaule, anti-communist demonstration. There was a feeling of fear on the part of some that there might be a demonstration with rifles on the part of the Communists but it didn't take place. It was difficult to ascertain whether the French bourgoise were disappoined or relieved. Suckers for demonstration they are.

Later, I went to a concert, a certain Rudolph Dunbar conducting a French orchestra in an all-American program. Gardarmes were blocking the streets and standing by for action from Concord to Nuilley, every where we had to break through a battery of Gendarmes, enroute to the concert hall.

Paris has seen communists uprisings before and usually at least a hundred people get killed, with a proportion always Gendarmes. These French are not ready to die for any thing yet. And the concert was very good considering the fact that the hall was not heated and both the audience and performers with the exception of the conductor who was the only one of us getting any exercise, froze to death. Everybody played in their overcoats, and none of the audience even took off his gloves. The program was William Grant Still, for whom I care little, as a general rule. He's of the new school with a lot of dissidence. In fact, I was a little embarassed for us Americans putting that kind of stuff on, as our contribution to art. I was a little eager to leave at the intermission, but could not leave without hearing the guy out. I'm glad I stayed now because the last number was Afro-American Symphony, which had some lovely movements in it. It was rather like a negro spiritual, very well done, in fact for my money, it was "great music." Both the conductor and composer are very colorful.

On December 4, the same conductor is going to do some more American music—Samuel Barber, Griffes, Gershwin, Hanson and Aron Copland. I think that might be better and surely more American in that Copland, Gershwin and Hanson are real composers and stick to their element. Usually still sticks to his element that of negro themes, and he produces better music than any of the others, but he feels he must also make discords occasionally to show that he has read the later books on composition.

Just finished reading "Black Boy" a book by a colored man. Am trying to get hold of "Brave New World A Comin' " by a colored man. I'm beginning to get very interested in all this racial fol de rol. I have stacks of army booklets on the Jewish situation. What is this all about dad? But don't misunderstand me, I don't think the prejudice against the negro is concentrated in the south, and I don't understand what all the prejudice on the Jews is about, but I do want to know. Therefore if you have any books to recommend, dad, please mail them to me without delay. Otherwise, I shall make up my mind from the observations I make over here and the books I can manage to pick up on the subject. Something is radically wrong. As the man said, "Being prejudiced is being down on something you are not up on," so if you can help me "up on" this stuff I would appreciate it. As for the paper, I'm not getting it. Will speak to the mail room again.

Please send me five or six boxes of waffle flour already mixed. While in Belgium I bought a couple of waffle irons for the girls at LeHarve. We lack waffle flour. Have received five Christmas boxes. Am saving them for Xmas, except Aun Carol's, which I did not notice was a Christmas package until I had opened it and it looked soooo good "I et it."

Bought me two little combs, the kind that holds the hair off your neck, kind we pay 10 cents for at the dimes store at home, to wear when I went to the opera, and they cost me $1.25 apiece, so you see you folks at home will not get much for Christmas, but the presents I do send will be loaded down with LOVE.

It is awfully cold here in Paris today. I have my electric heater down under my desk and still I am cold. But yesterday I took a flu inoculation shot and it gave me a slight case of flu. However, Al, who is a M. D., says these flu shots often affect people like that. He had one boy who run a fever of 104 from a flu shot. So I'll be o. k. tomorrow.

Wish I had time to tell you about my trip to Switzerland. That country is a PERFECT DEMOCRACY. Will write you about it when I snatch a little spare time. It's wonderful!

Has Arch had his operation? How is he? Kiss Randy and Carrie Lynn for me.

Must wait now. More later. Love you all.

OUT OF NAVY—WILLIAM L. PHILYAW, ACOM, has been released from the Navy at Shoemaker, Calif., according to word received this week from the U. S. Naval Personnel Separation Center there. "Billy" volunteered for service from Perryton June 12, 1942, and received his military training in the Ordnance Department at San Diego, Calif. followed by assignments in California and Corpus Christi. He is a son of Mrs. W. L. Philyaw, formerly of this city.

'Snafu,' Stage Hit, Now Film Riot

"Snafu!" The play that started Broadway howling comes to the screen of the Ellis Theatre as a George Abbott film production under Columbia Pictures' release on Thursday and Friday of next week. Nothing could be funnier than the hit stage play, but this is.

It's the story of a returned boy hero whose family still thinks he's a baby. Screwy! . . . Novel! . . . Antic! . . . Funpacked! . . Uproarious! It's the 1946-model comedy with lots of new modern features. "Snafu!" Even spelled backwards it's fun for U fans.

Robert Benchley, Vera Vague, Conrad Janis, Nanette Parks, Janis Wilson, Jimmie Lloyd and Enid Markley are the featured players. Jack Moss directed.

Children's Diets Should Be Planned

AUSTIN—Discussing the food requirements of a child enjoying maximum health, Dr. Geo. W. Cox, State Health Officer, has stressed the importance of a well-rounded diet and stated that a healthy and well-nourished child enjoys life because he is physically fit.

Emphasizing the importance to health of an adequate and well-balanced diet, Dr. Cox stated further that when a child is in good health, his appetite is good, elimination is regular and sleep is sound and untroubled.

"A child's appearance can usually help parents to judge the state of his nutrition. A well-nourished child has good skin color and there is a moderate padding of fat over the bones and muscles of the arms, legs and body. Muscles are well developed and strong. Teeth are good and the gums are firm and light pink," Dr. Cox said.

The State Health Officer stated that a finicky appetite or a tired feeling after a little exertion indicates possible malnutrition and the child should see the family physician. Poor appetite can also mean the beginning of an illness and possible that the child does not require as much food as he is being urged to eat.

Required as a diet for the pre-school child and those of school age, Dr. Cox included milk, fruits, vegetables, eggs, meat, fish or cheese, cereal and bread and added that cod liver oil and other vitamin preparations are important in winter and early spring but should be prescribed by the family physician.

SUNDAY SCHOOL LESSON

In Peace We Fail Where the Most Success Is Needed

The International Sunday School Lesson for Dec. 16
Scripture: Isaiah 9:2-7; Luke 1:26-80; Hebrews 1:1-4; Peter 3:13-18; Jude 24-25

* * *

"THE time draws near the birth of Christ." It is a good time to consider what Christ means to the world, and what message from His life and teaching is most applicable to a democratic country facing the problems and dangers of the postwar era.

Already it is plain that the chief problems which the peace has left us are moral and spiritual. It is because of this that the peace we have won is in some respects no peace at all. Dissension and strife are still abroad, with killing and destruction in their wake; and while our democratic freedom, in a sense, is demonstrated by the right to strike, and one cannot profess to assess the blame, our lack of united effort and supreme devotion to the common good is emphasized in the deep and widespread conflict between labor and management.

We are failing on the plane where the greatest success is necessary if the highest possible standard of living is to be attained and maintained. There never was a time when fairness, consideration, sympathy and brotherhood were more needed, not only for moral efficiency, but even for the most effective working of our economic life.

What is the message of Christ to the nation? It is first of all a message of God's redemptive love. Cruelty and unkindness are rampant in the world today because men have not experienced the love of God. The message that comes to us from John is: If God so loved us, we ought also to love one another.

In this time of the world's need, and in our own land, some are using the name of Christ to promote division, prejudice and discord. That is blasphemy. "If any man have not the spirit of Christ, he is none of His."

Christian Science

"God the Preserver of Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, December 16.

The Golden Text is: "The Lord shall preserve thee from all evil: he shall preserve thy soul. The Lord shall preserve thy going out and thy coming in from this time forth, and even for evermore" (Psalms 121:7, 8).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The Lord is thy keeper: the Lord is thy shade upon thy right hand" (Psalms 121:-5).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The divine Mind that made man maintain His own image and likeness" (page 151).

Mr. and Mrs. Rufus Bolerjack and Sandra had for dinner guests Sunday Mr. and Mrs. C. A. Zirkle and Troy Bolerjack.

Mr. and Mrs. Claude Cook spent the weekend in Dumas visiting friends.

What Helps Agriculture Helps All of Us

Buy Victory Bonds

WHAT is it that helps agriculture? We know that to grow good crops it takes good seed, fertile soil, a favorable climate, and the skill and experience of the individual. Likewise in the production of livestock you need well-bred animals, proper care and feeding, plus intelligent management.

Through better seeds and new types of plants like hybrid corn, through soil conservation methods, better land management, and improved machinery, through more effective control of pests and parasites, America has reached a level of food production never before achieved by any nation in history. Therein lies much of America's strength for the future.

By many a tragic example, history teaches us that when food supplies fail, nations fall. We of America must see to it that our agriculture becomes always a stronger, surer base for the economy of our nation. This is a task not only for you as producers but also for us who, by providing nationwide facilities and services, bridge the gap which separates farmers and ranchers from the distant consumers who must have their products.

And because our business is so closely linked with the land, we at Swift & Company are vitally interested in all developments that help agriculture. And so in these Swift pages we publish helpful information, knowing that a prosperous agriculture is essential to the livestock and meat industry—and to the prosperity of the nation as a whole.

OUR LIVESTOCK JUDGING METHODS

By R. G. JOHNSON
Head, Department of Animal Husbandry, Oregon State College

Domestic animals are machines for converting plant material into meat, fibers, and other human needs. Competition forces the modern farmer to evaluate efficiency in terms of tons or bushels per acre, dairy production in pounds of butterfat per cow per year, and poultry results in number of eggs per year. Thus, since the basic resource is feed and not animals, shouldn't livestock producers evaluate breeding stock on the basis of meat or of wool their offspring produces per 100 pounds of feed consumed?

The show ring standards for judging animals by external appearance have given us advancement up to a certain point, but breeding for the show ring does not always lead to efficient feed utilization.

A step in the right direction is the increasing use of proved sires. Today, through use of artificial insemination, the purebred breeder is greatly assisted in the establishment and increase of efficient blood lines.

Tomorrow's "yardstick" will not only be bigger yields per acre but also more pounds of meat and fiber per ton of feed.

WHAT DO YOU KNOW? How many of the amino acids essential to health are found in meat?

What governs the price of livestock?

In what dessert is meat an important ingredient?

Answers to these questions may be found in the various articles which are printed elsewhere on this page.

THE EDITOR'S COLUMN

A smart steer on range goes to where the forage is best. A smart livestock producer sells where the market is best. There are many sources of information to help him decide where that best market may be. Radio networks and nearby stations report daily on receipts and prices at central and local markets. Commission houses and their field men are ready to give personal advice on the best time and place to sell. Newspapers publish detailed descriptions of market conditions. Various timely reports are available from the U. S. D. A. and other impartial sources on trends and developments in the livestock-and-meat industry.

In making their bids, livestock buyers also use current market information. *Acceptance of any price offered is entirely up to the producer or his sales agent.* Meat packing plants and their buyers are located at so many widespread points that if a producer is not satisfied with prices offered by any one buyer, he has a choice of several others to which he may sell his animals.

Moreover, with 3,500 meat packing plants and 26,000 other concerns and individuals who slaughter livestock commercially, there is bound to be keen competitive bidding for your livestock. Barring meat rationing and price ceilings, livestock prices are governed by what the packer can get for the meat and by-products.

A MERRY CHRISTMAS and A HAPPY NEW YEAR

"AMINOS" ARE IMPORTANT TO YOU! From the nutrition research laboratories comes the story of *amino acids*, mysterious substances found in the proteins we eat. Aminos are used by our bodies to build and rebuild our tissues, organs, and blood. They also help fight off infections.

Of the 23 knowp aminos, ten are absolutely essential to health and even to life itself. *Meat is rich in all ten of them.* That's why doctors, working to rebuild the shattered bodies of wounded servicemen, order diets with large amounts of meat. That is also why everybody should eat meat for health as well as for its fine flavor and its "stick-to-the-ribs" food value.

Swift and other meat packers, through The American Meat Institute, are telling this vital story of meat and its health-building aminos in many millions of advertising messages. As people read this story, there will be wider markets for meat—and the livestock you produce.

Martha Logan's Recipe for
MINCEMEAT
Yield: 4 quarts

1 pound cooked beef shank, chuck, or neck meat	1½ pounds brown sugar
1 cup meat stock	1 quart cider
½ pound suet	2 teaspoons salt
4 pounds apples	2 teaspoons nutmeg
½ pound currants	2 teaspoons cloves
1 pound seeded raisins	3 teaspoons cinnamon
	5 tablespoons lemon juice

Pare, core, and chop apples. Chop together currants and raisins. Add apples, sugar, cider, and meat stock. Cook about 5 minutes. Grind meat and suet. Add with seasonings to apple mixture. Simmer 1 hour, stirring frequently to prevent burning. Add lemon juice.

This mincemeat may be made ahead of time and canned for use throughout the holiday season.

SORGHUMS ON INCREASE AS CATTLE FEED

By A. D. WEBER
Head, Department of Animal Husbandry, Kansas State College

Proof that the new combine-type grain sorghums, Midland milo and Westland milo are the equal of corn as cattle feed, which was demonstrated recently at the Fort Hays Branch of the Kansas Agricultural Experiment Station, will interest feeders who fatten cattle in the Southwest.

Yearling steers fed these two new grains for 150 days gained 2½ pounds per head daily. *This was equal to results gained by feeding yearling steers No. 2 corn over a like period.* The steers in each lot graded the same (choice), and sold at the same price ($17.00 per cwt.). All grains were fed at the rate of 13 pounds per head daily. Each ration included sweet sorghum silage, 37 pounds; cottonseed meal, 1½ pounds, and finely ground limestone, 1-10 pound.

Three similar feeding trials also proved conclusively that the new combine-type grain sorghums compare favorably with corn as cattle fattening feed—Wheatland milo, Colby milo and Westland milo being tested in these trials.

Increasing use of native feed grains, such as these new type grain sorghums, will greatly benefit the stability and prosperity of this agricultural region.

'Men In Her Diary' Plays Next Week

The eternal triangle becomes a quadrangle when a misunderstood husband, a jealous wife an over-imaginative secretary and the secretary's diary all tangle.

That's the basis for "Men In Her Diary," playing next Tuesday and Wednesday at the Ellis theatre. Peggy Ryan, Jon Hall and Louise Albritton are co-starred.

Handsome Mr. Hall is the husband who runs into difficulties because he failed to investigate the literary bent of his secretarial staff.

Statuesque Miss Allbritton is the better half who mistrusts husbands in general, and hers (Hall) in particular.

Petite Peggy Ryan is the Girl Friday who pulls a major boner by bringing her diary to the office.

And the diary is the package of dynamite which catapults all three animated principals into the divorce court.

Encouragigng the complicated situation is a designing other woman, Virginia Grey, who thinks she would make Hall a more understanding wife than Miss Allbritton. When the two gals—both blondes—meet, the fur naturally flies.

Aiding and abetted by brisk dialogue from the combined pens of F. Hugh Herbert, who authored the stage hit, "Kiss and Tell," and Ellwood Ullman, the lively feature film packs an interlude of solid entertainment. Associate Producer Charles Barton also directed.

For added measure, it offers a strong supporting cast headed by Miss Grey, Alan Mowbray, Eric Blore, William W. Terry, Jacqueline deWit, Earnest Truex, and Slapsy Maxie Rosenbloom.

Someone's idea that the federal government release surplus buildings for housing again brings up that mathematics-defying problem: How could they take 11,000,000 of us out of where we all used to live and wind up with not enough places to live in?

From July 1, 1944, to April 30, 1945, American Red Cross volunteers produced 98,700 children's capes, 52,900 boys' coats, 79,733 boys' shirts, and 34,320 boys' shorts for foreign war relief.
