Absentee Voting Underway

By Pat Blair

Absentee balloting for national, state and county offices is underway in the office of Aransas County Clerk Ruby Hart.

Absentee voting for both Democrats and Republicans began Monday, April 14, and will continue through April 29. Primary elections for both parties are set for Saturday, May 3.

County Republicans have the shortest ballot, including a presidential choice, three contested state races ad several uncontested state and local races.

In the presidential primary, County Republicans will be asked to cast a vote for Ronald Reagan, George Bush or "Uncommitted."

County Democrats will be given a choice of three names — Jimmy Carter, Edward M. Kennedy, Jerry Brown — or an "Uncommitted" vote in a "non-binding Presidential preference referendum" on their primary election ballots.

For U.S. Representative 14th District, both Democrats and Republican voters have a choice of candidates.

On the Democratic ticket,

New Council Sworn In For Busy Session

By Pat Blair

In a busy post-election session Monday night, April 14, Rockport's new council was sworn in, Charlie Garrett was elected mayor pro tem and the council turned its attention to sewer problems and hospitalization insurance.

Municipal Court Judge S. Reese Rozzell administered the oath of office to re-elected Mayor Walter S. Falk Jr. and Ward 1 Alderman Dan Ward and to newly-elected Ward 2 Alderman Henry Bent.

Mayor Falk praised the past services of outgoing Ward 2 Alderman Jerry Shaw, calling him a "dedicated citizen of Rockport" who "voted his conscience" as a council member.

Rozzell was reappointed municipal court judge and was given the oath of office by Falk. Ellis L. Clark was appointed alternate municipal court judge and Elva Mullinax was named fire marshal, but neither was present to take the oath of office in Monday's meeting.

Garrett was elected mayor pro tem for a term of one year on the council.

Council members opened bids on proposals for hospital insurance for city employees then referred the proposals to City Secretary Herman Johnson for analysis and comparison with an eye toward a possible council workshop on the matter later.

Proposals were submitted by Blue Cross/Blue Shield, Metropolitan Life Insurance, the Texas Municipal League and Whitney-Vaky. Falk pointed out the proposals were too complicated, and involved too many variables, for a decision to be made on price alone.

Water and sewer service were the subjects of five items on Monday's agenda — including a proposal that Urban Engineering be authorized to prepare plans and specifications for laying a larger sewer line in

Trustees Approve Pay Raises

By Eddie Bradley

The Aransas County School Trustees held their regular monthly meeting Monday night and officially approved the official vote tally from the recent trustee election; they also gave all district employees an eight percent pay raise for next year over the base salary.

Gary Smith, J.W. Harden and Polly Bracht were named to a committee to canvass the vote count. They reported back that the tally as originally presented was correct, making Joe Ed Meyer the winner in Place 4 and M. Gene Gregory the winner in Place 7.

After Superintendent Joe Randow swore Meyer and Gregory in, the board elected officers — President, Ottie Mundine; Vice President, Gary Smith; Secretary, Polly Bracht.

After much discussion and comparing figures prepared by Randow, the board voted unanimously to give the salary increase for the coming year. The increase, added to increment and step raises the district gives, might not completely match the inflation rate, but the board decided it would be a big help.

One of the factors the members had to consider was that any raise would probably raise taxes somewhat, but they also felt that they had to stay competitive with other school districts for quality personnel.

In other business, the

Chamber Of Commerce Holds Annual Banquet

The Rockport Chamber of Commerce held their annual banquet at the Sandollar Cattleman's Bayhouse on Saturday, April 14.

A little over 180 people were expected to attend the event, and that was just about the number that turned out, as the room was filled to near capacity with Chamber members, guests and visiting dignitaries. State Senator A.R. "Babe" Schwartz was the featured speaker.

In the past, the banquet has marked the beginning of a new year for the organization, but the new fiscal year doesn't begin until July, so the present officers--Raulie Irwin, Jr., President; Ed Armstrong, First Vice President; Pat Brown, Second Vice President and Larry Boone, Treasurer--will remain on duty until then.

Retiring Chamber Directors included Charlyne Miller, Larry Boone, Charles La Bounty and Raulie Irwin.

Bill Agee was recognized and given an award for his service in hoisting the flags on the flagpole at the ski basin each day.

New Directors include Cam Leonard, Wayne Nugent, Joyce Hill and Pat Brown, who was retiring but was relected. Calvin W.

County Adopts Animal Control Ordinance

By Pat Blair

Members of Aransas County Commissioners Court have approved an animal control ordinance with the idea that some charges may need to be made later.

The action came during a session of the commissioners court that began at 9 a.m. Monday, April 14.

In other action during the session, commissioners approved re-recording of a plat for City by the Sea Unit 5 and voted to request that the court begin receiving a monthly revenue report on airport operations.

The new animal control ordinance will require dog and cat owners in Aransas County to vaccinate their animals by the time the animal is four months of age.

It also would require pet owners moving into the county to comply with the ordinance within 10 days.

Rabies tags would be required for vaccinated animals and an animal bite must be reported within 24 hours.

The ordinance would require some type of health officer or animal control officer to enforce it, Judge John Wendell told commissioners Monday, but added the county sheriff could be appointed to this post.

He suggested that the commissioners at some later date might want to consider establishing the position of county health officer.

Commission member J. M. Spriegle, DVM, told the commission that there are

Winston Churchill Gift Shop Opens

It offers just about everything from baby clothes to a 103-year-old player piano and...yes, the owner's name really is Winston Churchill.

At least that's one owner's name. The other half of the team is Judy Churchill, and they opened their Winston Churchill Gift Shop in a formal ribboncutting ceremony at 11 a.m. Friday, April 11.

Rockport Mayor Walter S. Falk Jr. cut the ribbon to officially open the gift shop located at 103 South Austin. Also on hand was Patsy Tynes of Tynes Realty, from whom the Churchills are leasing the space, and Mrs. Lee Hoke from Illinois, Mrs. Churchill's mother.

The new gift shop will be open from 10 a.m. until 5 p.m. Mondays through Saturdays, says Churchill, who said he and his wife opened the shop because they "wanted to do something close to home.

THE KILLER BEE EPISODE

During the last session of the legislature, twelve liberal voting State Senators, including our Senator, A. R. Babe Schwartz, hid out in a garage apartment in Austin for eight days in order to keep the Legislature from considering and voting on a bill they did not like. Law enforcement officers searched for eight days with orders from the Lt. Governor to arrest them and bring them back to the Senate Chamber.

Wednesday Morning, May 23, 1979, The Galveston Daily News

Governor Clements calls killer bee senators 'spoiled'

AUSTIN, Texas (UPI).. Gov. Bill Clements said Tuesday a walkout by a dozen Texas senators and the resulting delay on consideration of several of his major proposals has pushed the state to the brink of a special legislative session.

"Truant senators are acting like spoiled children and playing games. I want them to return to work and get on with the serious business of the state--such items as initiative and referendum, electronic surveillance, budget execution and energy legislation," Clements said.

"It is unfortunate that we even have to contemplate a special session and the additional expenditure of more than a million dollars. But if childish games and a minority's refusal to face its sworn duties in 140 days of a regular session doom some of the major legislation I have been talking about, I will have no choice but to consider calling a special session to dispose of unfinished business."

"This escapade provides amusing news copy and gives headline writers a field day for puns about bees. But it is a sad commentary on our legislative system when a third of the Senate's membership can, by hiding out and skirting duties, paralyze the session in its crucial hours," he said.

When the going got tough, your State Senator, A. R. Schwartz, cut and ran from his important duties, responsibilities and obligations. Running away and hiding from the law was a terrible violation of those responsibilities and obligations. It is my hope that the voting public will react and seek accountability for his actions on Saturday, May 3rd, in the Democratic Primary by voting for Dean Neugent, State Senate.

GERALD MORGAN WANTED
LOWER HEATING AND COOLING COSTS

. . . so he built his new home to EEA standards . . .

Keeping energy costs down—particularly for heating and cooling—was one of Gerald Morgan's chief concerns while he was making plans for his new home in Refugio.

After considerable research, he decided to build the house to meet the standards of the Energy Efficiency Award sponsored by Central Power and Light Company. The results, he declares, have been well worth the extra care and effort.

"I felt like I would be way ahead if I spent the money now to insulate and build a home that I would be able to heat and cool more efficiently," Morgan says. "I am now reaping the benefits from the things I have done to cut down on energy use."*

Besides heavy insulation, the Morgan house includes such energy-saving features as double-pane windows and a highly efficient heat pump for heating and air conditioning. All leaks and cracks have been sealed to eliminate loss of cool air, and the thermostat is set at 76 to 78° during the hot season.

Morgan adds that he enjoys the comfort, cleanliness and convenience of his EEA home almost as much as its energy efficiency. He believes that anyone planning to buy or build a new home would be wise to investigate the EEA program.

To learn more about this energy saving plan for all-electric homes, ask for a free booklet at your CPL office. Or get the details from your architect, designer, realtor or builder.

*The exact amount of savings will depend on individual circumstances.

Council Provides Services

The Aransas County Council on Aging provides a number of important services to the area's senior citizens — those age 60 years or older — says new council director Mrs. Gwen Conyea.

She reminds area senior citizens that the following services are available:

Medical transportation. On Monday and Tuesday mornings and Friday afternoons, a van will pick up and carry Aransas County residents to doctors' offices in Aransas Pass, Ingleside and Corpus Christi.

Transportation for errands. All day on Wednesdays, local transportation is provided for grocery shopping, trips to pharmacies to fill prescriptions or other errands.

Noon meals. On Mondays through Fridays, a noon meal is served to 30 senior citizens at the Council on Aging headquarters, 112 North Magnolia. This service is limited and there is a waiting list for those who want to participate.

Anyone who needs one or more of these services is asked to call the Council on Aging, 729-5352.

Student News

Michael Jay Montague of Fulton is among 160 students at the University of Texas in Austin to be named to the 1979 Fall Semester College of Fine Arts honor roll.

Students qualifying for the fine arts honor roll accumulated a total of 52 or more grade points for the semester, passing all courses. Total grade points are calculated by multiplying the number of semester hours undertaken by the value of each grade. The honor roll was announced by Dean Oscar G. Brockett.

ACLLA Ceremonies Scheduled

The 1980 Edition of the Aransas County Little League Association has announced the season Opening Ceremonies to be held on Saturday, April 19 at the Little League Ball Field in Memorial Park.

The ceremonies will be kicked off by a Parade of Teams, featuring all boys and girls on the 26 teams in decorated pickups and floats. The parade will begin at 4 p.m. at the Rockport Post Office. The route will follow the Seafair parade route, continuing past the ski basin, down Highway 35 to the stop light near Dairy Queen, turning West to wind up at Memorial Park for the ceremonies.

The ceremonies will begin at 4:45 p.m. with a parade of teams onto the Little League field. The ACLLA Women coaches will challenge the Rockport-Fulton Women's Softball League to a game, while the men display their talents on the big field.

At approximately 6 p.m., Barbeque plates with all the trimmings will be sold for $2.50 a plate. Proceeds of the sale will be used to benefit the 1980 Aransas County Little League Association, and the Law Enforcement Explorer Post Number 343.

Baptist Women Hold Luncheon Meet

Edith Cameron won the prize, a compact, in a traveling gift game played during a meeting of the Timothy, Eunice and Lois Class, ladies of Rockport's First Baptist Church, Tuesday, April 8.

The event, a covered dish luncheon in the church's Fellowship Hall, was attended by 13 members and one guest.

Social Chairman Polly Rogers carried out a Spanish theme in the table decorations, "Bien Venidos Amigos", with large colorful Spanish flowers, cactus and jalapenos.

President Mary Godde presided over the program and business meeting which opened with the singing of two song, "Jesus Never Fails" and "The Family of God", with Winnie Keith at the piano.

This was followed with a duet by Marie Kuykendall and Mrs. Keith, "Precious Lord Take My Hand", accompanied by Mrs. Grover Traylor at the piano.

Edith Cameron gave the devotional with the reading of two poems, "The House of Prayer", By Edith Steiner Rice, and "April Poem."

Other entertainment was furnished by Mrs. Rogers and Tiney Gayle. Evelyn Townsend presented the Secretary Treasurer's report. The meeting was closed with a prayer by Mrs. Godde.

Other members attending included Mamie Schuster, Lucy Shell, Evelyn Champion, Viola Ferguson, and Ann Johnson. Mrs. Traylor was the guest.

The class will have its next meeting at noon May 13 in the Fellowship Hall of the church.

Rockport Home And Garden Club Meets

The Rockport Home and Garden Club held its monthly meeting on April 10 at the First Methodist Fellowship Hall, with Mrs. Lewis Caton as hostess.

Future activities of the club were discussed. Plans include participation in the 1980 Sea Fair by having a plant booth.

Following a study on plant grooming which was presented by Mrs. Caton, the remainder of the program was turned over the Mrs. W.D. Alley, Flower Show Chairman.

Mrs. Alley gave a flower show schedule review, as plans were finalized for the 1980 flower show to be held at the First Methodist Fellowship Hall on April 24 from 2:00 p.m. to 4:00 p.m. The show will be open to the public.

Brownbuilder Lupe Gomez: working in Seadrift, building Texas

Lupe Gomez, from Roma, is one of more than 35,000 Texas Brownbuilders—men and women of Brown & Root—currently at work across the state.

Lupe joined Brown & Root in 1952 working as a laborer. Now he's a labor foreman helping to construct a major petrochemical plant. He and his wife, Celina, have three children and now live in Port Lavaca. Lupe also has a ranch near Alamo Beach where he raises horses, cattle, pigs and other livestock.

Texas Brownbuilders like Lupe are proud of the part they are playing in our state's industrial and economic growth. Brownbuilders are also a source of great pride to us. Their loyalty and dedication are our most important assets.

Brown & Root's operations are worldwide in scope. A significant factor in our growth has been a longstanding policy of recognizing potential for advancement within the ranks of Brownbuilders, offering each individual the opportunity to advance according to his or her ability and merit.

FIRST NATIONAL ARTIST

Pat Barnett of Key Allegro is First National Bank's Artist of the Month for April. Shown here with some of her paintings that will be on exhibit in the bank lobby during the month, Pat moved to Rockport in 1977 from Wichita, Kansas. She is a graduate of Northwestern University where she majored in business and personnel psychology. "There is no greater satsifaction to an artist," she says, "than being able to paint a picture and have someone else enjoy it."

Metaphysics Offered To Residents

A course in "practical metaphysics" — or how to use positive thinking to improve your life — is being offered to Aransas County residents.

Taught by Jean Glowka, a certified ontological instructor and writer of the "Healthful Hints" column that appears in the Pilot Weekender, the course is offered from 7-8:30 p.m. Mondays in Mrs. Glowka's home on FM 1781.

The 30-week course will cover the basics, says Jean, who explains metaphysics as "the rules for the game of life. Without knowledge of the rules, life becomes very complicated, confusing and disorienting. Know the rules, and life becomes rather simple and intensely beautiful."

She has been studying metaphysics and related subjects for about five and a half years and is certified as an instructor through the Ontological Society in Houston.

The course will be offered at no charge, and Jean will also be available for individual counseling on personal problems, metaphysics, meditation and nutrition.

She plans later advanced courses in metaphysics and ontology for those who complete the basic course.

VA Study Plan

The Veteran's Administration's work-study program is open to veterans attending college full-time under the GI Bill. Students can earn a maximum $775 per semester above their GI Bill allowance by agreeing to work 250 hours at $3.10 per hour.

PRIMARIES

(Continued from page one)

candidates for this office are William N. (Bill) Patman, Jason Luby, Robert N. (Bob) Barnes and Joe Salem.

The post of State Representative, 41st District, has drawn only one candidate on each party ballot -- Leroy J. Wieting for the Democrats and Gene Matthews for the Republicans.

In the Republican primary, contenders for the 14th District representative are Gerald D'Unger, C.L. Concklin and Russ Baird.

The office of railroad commissioner is also a contested race in both party primaries, with Buddy Temple and John Poerner squaring off in the Democratic races; and a three-way race — between E.W. (Billy) Kidd, Henry C. (Hank) Grover and John Thomas Henderson — on the Republican ballot.

Democrats Jim Hightower and James E. (Jim) Nugent are opponents to fill an unexpired term on the railroad commission. On the Republican ballot, only one candidate, H.J. "Doc" Blanchard, is seeking this office.

Seven Democratic candidates are running for four associate justice seats on the Texas Supreme court.

The Place 1 seat has drawn three contenders: James P. (Jim) Wallace, John C. Phillips and Wayne Scott.

In Place 2, the choice will be between Democrats Sears McGee and Lawrence E. Bergman. Robert M. Campbell is running unopposed on the Democratic ticket for the Place 3 associate justice post, and C.L. Ray is running, also unopposed, to fill a four-year unexpired term as Place 4 associate justice.

On the Republican primary ballot, Jim Brady is running unopposed for the Place 1 associate justice seat, and Will Garwood is the unopposed candidate for the Place 4 unexpired term.

Democratic contenders for judge, Court of Criminal Appeals, Place 1 are Leon Douglas and Marvin O. Teague.

In Place 2, Court of Criminal Appeals judge, Democrats John Humphreys, W.T. Phillips and Mike McCormick are vying for election, and the Place 3 judge's post has also drawn three candidates — Tom Davis, Edith Roberts and Walter Boyd.

For State Senator, 17th District, Democratic candidates are A.R. (Babe) Schwartz and Dean Nugent. Republican candidates for this office are James E. (Buster) Brown, Ed Stuart and James Parker.

Democrats will vote to fill five positions that drew no candidates on the Republican ballot.

These offices include State Board of Education, 14th District, Mrs. A. T. (Mary Ann) Leveridge Jr., unopposed; associate justice, Court of Civil Appeals, 13th District, Gerald T. Bissett, unopposed; District Attorney, 36th District, Tom Bridges, unopposed; sheriff, Robert Hewes and Jim Pridgen; and county tax assessor-collector Allena Jones, unopposed.

No Democrat is seeking the office of county attorney, but Republicans will vote on this office in their primary ballot. James L. Anderson Jr. is running unopposed for this office on the Republican ticket.

In the county commissioners' races, Democrats will vote on the following:

County Commissioner Pct. 1, Grace Stanick, Roy Hinton, Raulie Lee Irwin Jr., John M. Lee, Dan Nelson Adams and Rachel Garcia.

Commissioner Pct. 3, Pat Farley, Jimmy Woods Jr., Raymond Owens and Roy Biggs Jr.

On the Republican ticket, Bill Wilson is running unopposed for county commissioner Pct. 1 and W.B. (Pete) Sanders is unopposed in his bid for county commissioners of Pct. 3.

Democrats in precincts 1, 2 and 3 will vote on county constables — Les Sorenson, unopposed in Pct. 1; John H. Ray Jr., unopposed as Pct. 2 constable; and I.E. (Buddy) McLester, also unopposed, for constable, Pct. 3.

Rounding out ballots for both parties are the races for county and precinct chairmen.

For the Democrats, Lola L. Bonner is running unopposed for re-election as county chairman.

Candidates for precinct chairman — to be voted on only by residents of that precinct — are Mrs. H. F. Elliot, unopposed in Pct. 1; Marie Baker, unopposed in Pct. 1A; Virginia Shivers, unopposed in Pct. 2; Freddie A. Lingner, unopposed in Pct. 3; Zora Belle Casterline, unopposed in Pct. 4; and Louise A. Wilken, unopposed in Pct. 4A.

On the Republican ballot, candidates, all unopposed, are Harold L. Shirey for county chairman; Anthony S. Thorne, chairman Pct. 1; Blas Ramirez, chairman Pct. 2; Mrs. Cy (Dee Dee) Richards, chairman Pct. 3; and Peggy O. Bloch, chairman Pct. 4.

No candidate filed for the position of chairman Pct. 4A, but space is provided for a write-in.

Voters in the Republican primary will also be asked to vote "for" or "against" the following on the primary ballot:

"Under the supervision of a judge, the state police should be able to use electronic surveillance methods, such as wiretapping, in cases where suspected drug dealers are involved."

"Texas should have Initiative and Referendum, a way for the public to vote directly on issues and make law in elections rather than depending only on the state legislature.

COUNCIL

(Continued from page one)

Little Bay Shores.

The proposal, approved by the council, is to replace the existing six-inch line with a 12-inch sanitary sewer pressure line. Johnson told the council the present six-inch line is deteriorating and is too small for the job it should be doing.

Urban Engineering is the city's consulting engineering firm.

A petition from "24 irate citizens" in the Smith and Wood Subdivision protesting drainage problems brought sympathy from the council and a pledge to work with the county to try to alleviate the problem city-wide.

Mayor Falk read the petition — signed, he said, "by 24 irate citizens" — which asked the city to do something to prevent the kind of flooding that occurred in the area on September 19. Specifically the petition was concerned with drainage problems on Lady Clare, Omohondro, Linden, Cherry and Maple streets.

Mayor Falk pointed out that the September 19 flood "was the worst since 1967" and was complicated by high tides in the bay — which prevented runoff of water into the bay. Falk said Rockport, which is a low spot in the county, catches drainage from areas north of the city and there is "no way at present time, even with pumps, to take care of abnormal flood conditions."

The council did, however, pledge to work with the county to try to solve these flooding problems.

Pirate Players Win

By Bob Crawford

For the third time in five years, Coach A.C. Blunt's Rockport-Fulton tennis players have won the District 15-AAA tennis title. The Pirates won out over Flour Bluff by a narrow margin in the Varsity Division, and then won the Junior Division as well.

Tony Aleman, the top seeded player in boys singles, proved why he has been the top player in the district this year as he took a 64-61 contest over Robert Moore of Sinton to win the singles.

Nancy Crites and Terri Price teamed up in the gilrs' doubles to lay claim on the first place spot in doubles with a win over Pam Steiger and Debbie Scruggs of Tuloso-Midway in two sets, but the last set had to be decided by a tie-breaker. "I was a little bit worried when we jumped out 4-0 in the tiebreaker and then let them come back on us before taking it," said Coach Blunt.

In girls' singles, Meredith Montague finished the tournament in third place.

The Junior Division title was claimed by the Pirates behind the strong play of boys doubles winners, Phillip Viccinelli and Shawn Bateman. Holly Garrison defeated all comers in the girls' singles, and Glenn Groves took third in the boys singles.

The points for the tournament were scored by the first, second and third place finishers, with 15 for first in the singles and 20 in the doubles. Third place finishers collected 5 points in singles.

The Varsity participants for the Pirates, other than those who placed, were Donnie Estes, Wes Wilhour, Bobby Albin, Andy McMillan and Gary Cruz in the boys' division, while Lori Allen, Alvina Sanchez and Gwen Davis played in the girls' division.

On the Junior level, Daren Hall, Vickie Bang, Jennifer Janecek, Karen VonHeuvel, Kim Hunter and Theresa Roberts all took to the courts.

The Freshmen Division participants were hit with some bad luck in the draw, and not one of the players were able to make it out of the first round. In most of the instances, the Pirate players were matched in the draw with the eventual winners of the divisions. Striking the ball for the Freshmen boys were Steve Theodore, Mark Luigi, Carson Larimore, Richard Miller and Jeff Miller. Paige Rogers, Rebecca Ward, Carolyn Metzner, Gail Rutledge and Gina Guillette represented the girls.

Aleman, Crites and Price will now advance to regional competition, and Montague will be the alternate in her division.

The girls will play this weekend, Friday and Saturday, April 18-19, in Corpus at the H. E. B. Tennis Center. Aleman will play at the same location on April 25-26. Two matches won will mean a trip to the state competition.

Houston Couple Wins Tourney

Chris and Carol Pope, husband and wife team from Houston, won the title in the Spring Mixed Doubles tournament at the Rockport Racquet Club last Saturday, defeating another husband and wife team, Ronnie and Patsy Tynes of Rockprot, 6-3, 6-2 in the final match. Trophies were awarded.

Bill Hansen and Elizabeth Bohn and Robert and Nancy Richter were finalists in the consolation division but were unable to play the deciding match in that division Saturday because of weather and lateness of the hour. It was planned to play their match later in the week.

Despite unseasonably cold weather, the tournament attracted 30 players from Portland, San Antonio, Aransas Pass and Houston as well as from the Rockport area. Buzz Sanders, Racquet Club tennis director, organized and managed the tournament.

In addition to those previously mentioned, players in the tournament included D. D. Dean, Larry Patterson, Randy Ramey, Claudia Bateman, A.C. Blunt, Jr., Frances Blunt, James Bracht, Polly Bracht, Bill Rowe, Joan Rowe, Allison Teague, Reese Rozzell, Ty Domaschk, Billy Becthel, John Gutzke, Anita Burgtorf, Bill Wadsworth, Nan Slusher and Ed Slusher, John Gutzke, Pat Heldenfels and Mary John Lynch.

Tidal Flow Vital

AUSTIN -- The movement of tides has fascinated humanity for thousands of years, perhaps even to prehistoric times.

Explanations for tidal movements were mainly mythological until Sir Isaac Newton developed his theory on gravity which led to the discovery that tides were caused by the gravitational pull of the moon and sun on the earth.

On the Texas Gulf Coast, tides are relatively minor compared to those in some parts of the world, but a Texas Parks and Wildlife Department coastal fisheries biologist points out that they have a vital and dramatic effect on the coastal environment -- including sport fisheries resources.

Shad Wendorf said tides along the Texas Coast are usually only one to two feet. This is in contrast to Atlantic and Pacific Coast area tides of five feet or more and to those of New Brunswick and Nova Scotia which can reach a height of 50.5 feet.

"Experienced fishermen can use the computer-calculated tide tables published by the National Ocean Survey to predict the movement of game fish," Wendorf said. For example, Wendorf said the onset of a flood tide causes Gulf waters to flow through the passes into the bays. Shrimp and bait fish move shoreward with the rising water level, followed closely by game fish.

"Fishermen working the passes and jetties at this time should find increased action as the tide-running spotted seatrout (speckled trout) move with the flow," said Wendorf.

"During ebb tide, the situation is reversed," he continued. "The game fish swim offshore to wait in the passes for the bait fish that will soon follow."

Wendorf theorized that the stronger the tidal movements, the more intense the feeding activity is likely to be. The strongest periods are the summer and winter solstices, around June 22 and December 22, and the spring and fall equinoxes, March 21 and September 21.

"Fishing success may be further enhanced if the tidal change occurs in the early morning hours or after dark, when trout and red drum (redfish) normally feed," Wendorf said.

Fishermen also should be aware that wind direction has an effect on tides and water clarity. "Winds blowing with the current tend to clear the water, while those blowing against the current will cause it to be muddier.

Trout prefer a gentle wind, and are not especially fond of muddy waters," Wendorf advised. "Redfish seem to bite in windy weather and are not affected so much by muddy water."

Wendorf said there would be no coastal fishing as we know it today without the cleansing, recycling effect of tides. And fishermen who are most familiar with tidal effects are best equipped for successful coastal fishing.

TOURNAMENT WINNERS

Chris and Carol Pope of Houston, left, took the Spring Mixed Doubles tournament title at the Rockport Racquet Club Saturday by defeating Ronnie and Patsy Tynes, right, of Rockport, 6-3, 6-2 in the final match.

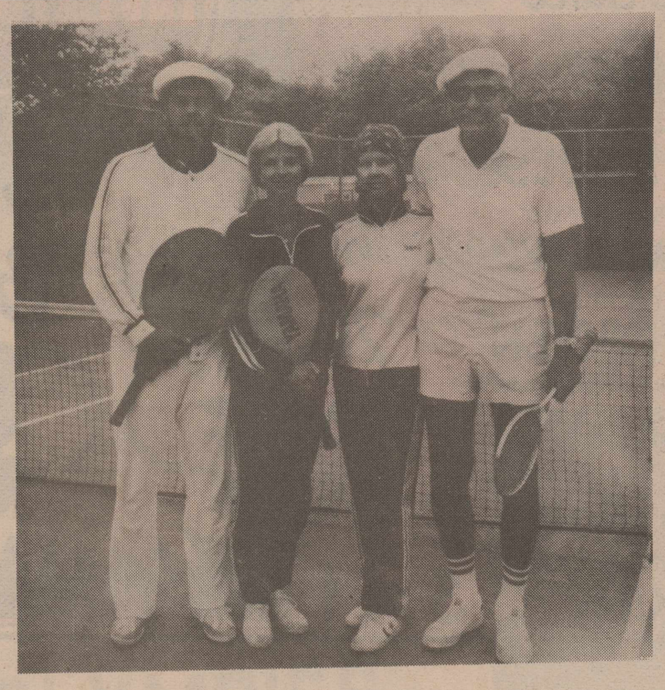
Questionnaires Sent To Hunters

AUSTIN — A sandhill crane harvest questionnaire is being sent to over 5,000 crane permit holders to help assess the Texas crane harvest during the 1979-80 season, according to the Texas Parks and Wildlife Department.

"This is the best survey method of determining the harvest of sandhill cranes and these figures will help the U.S. Fish and Wildlife Service and the department establish equitable crane regulations for next fall," said John Roberson of the department.

"This harvest information as well as the crane production date collected this summer will help both the federal and state regulating agencies in setting bag limits and hunting dates," Roberson continued.

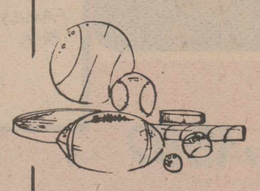
Roberson said prompt return of the questionnaire is important, since tabulation of the size and distribution of the crane harvest must be compiled in June.



CONSOLATION FINALISTS

Finalists in the consolation division of the Spring Mixed Doubles tennis tournament at the Rockport Racquet Club Saturday were, left to right, Robert and Nancy Richter, Elizabeth Bohn and Bill Hansen. The final match in this division was postponed until later this week because of inclement weather and lateness of the hour.

Speaking Of Sports



Lady Pirates Third In District

Darlene Dilworth and Alma Dickerson qualified for the girls' regional meet in leading the Lady Pirates to a third place finish in the district track meet in Calallen on Friday, April 11.

Dilworth won a trip to the regionals by virtue of her second-place finish in the high jump (4 feet, 11 inches); Dickerson did the same in the 100-meter dash (13.35 seconds).

These two girls, along with Belinda Cross and Julie Huff, were also on the 440-yard and 880-yard relay teams that finished third in both races.

Cross was third in both the long jump and the 880-yard dash. Huff took third in the shot put.

Dilworth finished fourth in the triple jump as did Danielle Adams in the 100-meter hurdles.

Cross in the triple jump and Dilworth in the long jump both finished fifth.

Delfina Walker finished sixth in the mile run; Julie Adams tied for sixth in the high jump.

In the Junior Varsity Division, Tammy Walker placed second in the 880-yard dash and Lory Broadhurst was third in the mile run.

Fifth-place finishers included Kim Foitik in the 220-yard dash, Delia Huff in the 100-meter dash and Tammy Barlass in the mile run.

The 440-yard and 880-yard relay teams of Yogi Guerra, Huff, Foitik and Barbie Mosier finished sixth in both races.

Coach Karen Richter said she was very pleased with the team's performance; most of the girls had their best times of the year in the disrict competition.

Baseball Pirates Fall, 8 - 1

By Bob Crawford

The first round of competition in the District 15-AAA baseball chase ended in disappointment for the Rockport-Fulton Pirates, as Flour Bluff scored four runs in the fifth inning to guide them past the Pirates 8-1.

The fifth inning proved to be a nightmare as the Hornets sent ten men to the plate, and scored four of them. Walks, an error, and a pair of timely hits provided the Hornets with enough cushion to win, even though they added four additional runs in the later innings.

"For four innings we were in a real game," said Coach Skip Richardson, "but then everything went wrong at once." Through four innings of play the Pirates and the Hornets were battling in a 1-0 contest with the Pirates on top.

Bill Jennings had led off the game with a single and moved around the bases on a throwing error by the Hornet pitcher, who fired the ball past first base into right field.

After that first inning score, the Pirates could never threat again, getting only two men as far as second base.

Flour Bluff added three runs in the sixth and another run in the seventh.

Jennings, Mark Setterbo and Dennis Hull collected hits for the Pirates.

The next outing for the Varsity Pirates will be against West Oso in Rockport and will open the second round. The game is Thursday night at 7:30.

The Pirate JV closed out its season Friday night losing to Flour Bluff in a heart-breaking eight innings. Flour Bluff had opened with eight runs in the first two innings off Tim Redden before the Pirates began to fight back.

Trailing 8-1, Rockport put two more runs on the board in the third to cut the gap to 8-3.

The Pirates tied the game at 10-10 in the seventh before Flour Bluff scored a trio of runs in the eighth.

The Pirates had three hits out of Robert Flores and two from Travis Jennings to pace the hitting.

The loss closes out the season for the JV.

Game Time Re-set

The starting time for the baseball game between the varsity Pirates and West Oso this Thursday, April 17, here in Rockport, has been moved up to 5:30 p.m.

WAR ENDED

4 egg yolks
½ cup sugar
¾ cup sweet wine: Marsala, port or sherry
1 tbsp. brandy
1 peach per person
Lemon juice

Beat egg yolks and sugar together in the top half of a double boiler. Add wine, and place over hot water and cook, stirring until the sauce is foamy and thick. Remove from heat, add brandy, stir, and chill in the refrigerator. About 15 minutes before serving, peel and slice one peach per person. Squeeze on lemon juice to prevent discoloration and place in refrigerator. To serve, put peach slices in sherbet glasses, cover with sauce.

Philosophical Thoughts

By Bob Keepers

When we were not much bigger than a microbe in our mother's body, an awesome power clothed those tiny spirits with a coat of skin and caused them to grow millions of times larger in only nine months.

No one remembers when the ability to think was acquired; it just came with the package.

As thinking developed, some people attributed intelligence to human beings and instinct to all other forms of life, a real stumbling block to understanding.

Thought is a phenomenon necessary for the exercise of free will, to make individual decisions, to swim, crawl, walk, run, jump or fly.

The ability to build a thousand cities or a thousand ant hills comes from the same source, any difference that may be suspected lies within the observer.

Concentrating his thoughts toward scientific knowledge, man labors to understand the motions of the stars, planets and galaxies and designates them with names and numbers.

With instruments he has made, he has been able to determine the presence of solar winds, the speed of light, hydrogen in cosmic rays, the wavelengths of the electromagnetic spectrum, the atomic structure of the elements, the electrically positive, negative and neutral qualities of atomic particles, ozone, isotropic motion and photosynthesis.

Many thoughts were required to determine altitude densities, degrees of temperature, humidity, dewpoint, learometric pressure, sound frequencies, viscosities, magnetism and shades of color.

More thoughts were used to determine north, south, east and west; the 360 degrees of a circle; units of time; weights and measures; the latitudes, longitudes equator, equinoxes, solstices; dimensions of the earth and its 365 revolutions per orbit around the sun; eclipses, the Coriolis force and continental drift.

Still more thoughts were used to determine the boundaries of continents, mountains, valleys, peninsulas, islands, seas, lakes, rivers and streams for maps.

Others devoted their thoughts toward determining the differences and naming the rocks, trees, flowers, grass, grains, fish, reptiles, insects, animals and birds.

Others thought of alphabets, symbols, the pronunciation of words in every language and established dictionaries and encyclopedias.

Thought has produced art, physics, mathematics, chemistry, music, politics, religions, water power, electric power, gas combustion, communication and trans-

portation systems, roads, highways, towns and cities, laws, games, relativity and every attitude of mind.

To consider several billion people around the earth working, playing, teaching, learning, reading, writing, talking, listening, believing, doubting, loving, hating, laughing, crying, praying, cursing, makes us wonder what will we think of next.

Every life is different in desire, perseverance, knowledge, wisdom or goals.

Like radioactivity, thought is self-motivating; it takes us to the bottom of the sea, to the top of the highest mountains, and even to the moon.

Our picture forming thoughts are aware of what we see, hear, smell, taste or touch.

It costs nothing to understand ourselves, our thoughts are with us at all times, how we use them is more than important.

Thought is the fourth dimension, the unseen cause of the other three, and without which there would be no such thing as time, or anything else.

Baked Beans

1 large (3-lb.) can pork and beans
1 cup packed brown sugar
1 large onion, diced
6 to 8 slices bacon

Preheat oven to 350 degrees. Drain juice from beans. Put beans, brown sugar and diced onion in casserole dish. Cut bacon into ½-inch strips and fry over medium heat in small frying pan, until cooked (not too crisp). Add bacon to beans and stir well. Bake at 350 degrees for 1½ or two hours, until beans thicken.

Private Property Week Celebrates Ownership Rights

Aransas County residents are asked to join Americans throughout the nation in observing Private Property Week, now through Saturday, April 19.

Private Property Week -- which began Sunday, April 13 -- is sponsored by more than 1700 boards of realtors in communities throughout the country as a way of making Americans more aware of their right to own real property without government interference.

Locally, the observance is sponsored by the Rockport Area Board of Realtors under its president, Louise Wilken.

The right to own private property is one that is taken for granted by many Americans, says Miss Wilken who adds that not every nation grants this right to its citizens.

The freedom to own private property is the basis not only for our freedom as individuals but for the free enterprise system, Miss Wilken emphasized.

She urged county residents to renew their efforts to preserve the freedom and right to own property privately "and by doing so, celebrate Private Property Week throughout the year."

ASSETS FROZEN

The assets of Germany and Italy in the United States were frozen on June 14, 1941.

Cancer Fund Drive Crusade Chairman Named

The 1980 Cancer Crusade officially got underway in Aransas County Tuesday, April 15, and volunteers will be contacting residents throughout this month in an effort to raise funds for cancer research.

Crusade Chairman W.C. Underwood adds that residents who are not contacted but who would like to donate money to the Cancer Society can send their checks to Beth Weekley, P.O. Box 1143, Rockport, Texas 78382.

Or they can call Mrs. Weekley at 729-6766 to make arrangements for their donations to be picked up.

Mrs. Weekley is a Crusade captain for the Copano Ridge-Copano Village area. Other captains include Mrs. Larry Strickland, Harbor Oaks; Rosemary Setterbo, West Terrace; Linda Puster, Oak Terrace, Carita Gould, Copano Cove.

Others are Tanya Gatlin, Peninsula Park; Rose Wright, Palm Harbor; Elizabath Coker, City by the Sea; Rose Taylor, FM 1781; Nida Schmidt, Smith and Wood Addition; Mrs. W.M. Clampit, Rockport Apartments; Mary Guertin, Lamar Community outside Holiday Beach.

Also Velma Perkins, east Holiday Beach; Erin Turner, Wind Swept Oaks; Anabel Harris; Shadyside; Faynell Harrell, Fulton; Pat Ankele, Little Bay; and Betty French and group, Key Allegro.

The area captains appoint volunteer workers who do the actual door-to-door collecting.

Goal for the Aransas County unit of the American Cancer Society is to raise $5,000.

Money raised is used to help fund cancer research.

The local cancer society unit also assists victims of cancer in Aransas County through such services as transportation to cancer treatment centers; rehabilitation programs; replacement of blood used during treatment; and loans of equipment such as hospital beds, wheelchairs, walkers and crutches.

Denton Cooley In Rockport

Dr. Denton A. Cooley, surgeon-in-chief of the Texas Heart Institute in Houston, was among the guest speakers at a family physicians' seminar in Rockport this past weekend.

Among local practitioners attending the four-day event were Dr. Thelma Frank and Dr. Charles C. Veatch, both of Rockport, and Dr. Fred Dinkler of Fulton.

Some 90 doctors attended the seminar, sponsored by the South Texas Chapter of the Texas Academy of Family Physicians (TAFP). This is the second time this organization has met in this area -- it held a similar seminar two years ago at Sea Gun in Lamar.

The latest seminar, Thursday, April 10, to Sunday, April 13, was in the Key Allegro Community Center.

In addition to Dr. Cooley, other speakers during the seminar included Milton Davis, M.D., general and thoracic surgery-clinical professor at the University of Texas Health Science Center, Dallas; Robert B. Elliott, M.D., member of the clinical faculty at Baylor and University of Houston, Houston; Ronald P. Mahoney, M.D., F.A. C. C., director of maximal stress laboratory and cardiac catheterization laboratory at Houston's Memorial Hospital.

Also addressing the group were Beverly Mead, M.D., of the Department of Psychiatry and Behavorial Science, Creighton University School of Medicine, Omaha, Nebraska; Terry Weiss, M.D., assistant clinical profession of medicine, division of Rheumatology, St. Louis, Missouri, School of Medicine; and Dewey Ziegler, M.D., president of the American Academy of Nuerology and professor of neurology at the University of Kansas, Kansas City.

The seminar was supported by grants from Landry Pharmaceuticals Inc., Dista, Merck, Sharp & Dohme and Wyeth Laboratories.

Sailing Club Meets

Mark Foster of Corpus Christi spoke last Thursday to members of the Rockport Sailing Club on the World Racing Program. Foster is an Olympic Class skipper and attended Olympic trials last summer in Europe.

Possibly the most knowledgable racing expert to ever appear before the local club, Foster digressed to discuss competitors from other nations, especially Russia. "I'll support the President in his boycott of the games," he said, "but I'd still prefer to meet them in sporting events rather than in Army green." Reporting on conversations with Russians he said athletes are privileged citizens in their own country with above average education and income.

A brief report on a Easter weekend to Port Isabel was made by Pat Brown. Although the cruise was not a formal club function 13 RSC boats crewed by approximately 50 members participated. All boats sailed south in the Gulf. Some returned the same way and others via the Intra-Coastal Waterway. The Rockport sailors were entertained at a Bloody Mary breakfast and later a dinner. Hosts were the Laguna Madre Yacht Club.

RSC skippers and owners participating were Fred and Ann Comingore in Cho Cho San, Kevin Sigler in Southern Comfort, John Bunton in Chiriga, Lloyd and Ruth Umfleet in Final Freedom, Al Barnes in Treacle, Bob and Kay Christian in Golden Goose, Sam and Marguerite Kahalewai in Halea - Kala, Murry McMillan in Whisper I.

Also, Jim Wideman in Joy Lee, Charles and Eleanor Brown in Gypsy Girl, Dan and Patricia Graves in Seascape, Jack Britton in Whisper II and Bob Massey and Bill Southwell in Abigail Faith.

Fred Dinkler, rear commodore and ranking RSC officer on the cruise, presented the Laguna Madre club with an RSC burgee.

Beach Tree-Planting Project Is Under Way

A project to transplant trees from Rockport's Memorial Park to the beach area is just about off the drawing board and under way.

Live Oak trees in the park, that need to be removed for the new soccer field, will be taken to the area where the Wee Putt course had been located, and planted.

Felicia Ratajki of the Aransas County Recreational Association Inc. especially wanted to thank the following for their donations toward the tree-planting project: the City of Rockport for contributing the trees, Ted Greenfield of Trees Unlimited for time and labor in removing and transplanting the trees and John Gimler for his time in planning and helping carry out the landscape work.

The Aransas County Citizen's Band Association has helped financially, and their latest donation of $257.83 will be used to help defray some of the costs of the tree removing equipment.

Mrs. Ratajki says the Recreational Association is still in need of donations to help complete the tree-planting project; they are asking all Aransas County citizens who are interested in donating money to send contributions, which will be tax-deductible, to the Aransas County Recreational Association Inc., c/o Wilson Newman, P.O. Box 1193, Rockport, Texas 78382.

Also, you can call Charles Augustine at 729-1985, Anita Dingenary at 729-0326, Felicia Ratajki at 729-6379 or Wilson Newman at 729-1248 to arrange for your donations.

An open letter from Sen. Bill Patman to the people of the 14th Congressional District.

Dear Friends,

I'm giving up the state senate seat I've held for 19 years to run for Congress in the 14th District. I want to go where the toughest, most experienced fighters are needed to deal with the crises of today — and that is in Washington.

During my two decades of service in Austin, I've tried to look out for the folks who aren't there to look out for themselves, and who don't have highly paid lobbyists to look out for them. Someone has to speak for, and fight for, the average, hard-working Texan, and I've been proud to do it. You can count on me to take that same approach to Washington as your Congressman.

Some other things I want to take to Washington are the simple values of honesty and character. Those are common values among the families of our area, and I don't see why they shouldn't be common values in the Congress of the United States. I'm proud of my record of honest stewardship for the people of South Texas — a record I'll carry forward in Washington. The people of our area deserve nothing less.

My dad, Wright Patman, served in Congress for 47 years. He left a heritage that my wife Carrin and I have cherished and tried to cultivate in our own family — the habit of hard work... strength of character... standing up for the "little guy" against the high and mighty... the courage to fight for what you believe in and not give up until you've won. It's a heritage that springs from our traditional Texas values.

We'd like to work with you to preserve those traditional Texas values in Washington. They helped make this country great. They can do it again.

Sincerely,
Bill Patman

Home Financing:
More Than One Way To 'Skin A Cat'

CHICAGO— Nowadays, selecting a way to finance a home is similar to selecting a flavor in an ice cream store. Some are tried and true. Others are a bit unconventional, and still others seem just too exotic.

But they are there for the choosing and, according to several buyers and Realtors, many of them provide a means for skirting the high interest rates in today's mortgage marketplace.

"Many buyers are taking a wait and see attitude toward interest rates," said Ralph W. Pritchard, a suburban Chicago Realtor who is the 1980 president of the National Association of Realtors. "They don't realize that there are other financing instruments available at significantly lower rates. And while they wait, inflation is increasing the price of a home."

Take the case of Tony Jauregui, a 23-year-old sales representative for a lumber company in Escondido, California. Tony had $6,000 saved for a downpayment when he began looking for a home. But, because of his total income, he couldn't qualify for a conventional mortgage loan.

With the help of Fred Grimes, an Escondido Realtor, Tony was able to purchase a $59,000 two-bedroom, two-story townhouse by assuming the owner's Federal Housing Authority-insured mortgage, which had a 9.5 percent interest rate, with graduated payments.

The sellers had $14,000 equity in the home and were preparing to take a second mortgage from Tony to cover the $8,000 difference between his downpayment and the equity. Upon reconsideration, however, they decided they needed the cash.

Realtor Grimes made a phone call and found a third party who was willing to put up the $8,000 at a discount, with the sellers tacking the $1,100 discount fee onto the price of the home.

"Tony was happy to get a graduated payment mortgage at such a low interest rate, regardless of the additional $1,100, and the sellers were glad to sell their property and be able to collect their equity in full," Grimes explained.

"I'm not involved in real estate and don't know all the ins and outs of these techniques," said Tony. "Buying now turned out to be a terriffic deal—and an education."

To help with the monthly payments, Tony's younger brother is going to live with him and pay rent.

A young couple in Fresno, California, were getting discouraged home hunting when they employed Realtor Les Reid of Fresno. It just so happened that Reid had worked with a seller a few months earlier and, when the deal fell through at the last minute, he bought the home himself, assumed the mortgage and put it back on the market.

The home, a 3-bedroom, 2 1/2 bath on 1/2 acre was listed at $75,000. The couple, Paul and Chris Viscione, only had $6,000 as a downpayment, but their combined salaries easily covered the monthly payments.

During their conversations, the Realtor discovered the Visciones owned a small plot of unimproved land in the Sierra Mountain foothills that Paul had bought when he was in college. He and his wife had not visited the property for about six years.

That land became part of the deal and the transaction was set: The equity in the unimproved land plus the $6,000 became the downpayment, with the Visciones assuming Reid's 11 percent mortgage as Reid had done when he bought the home. Conventional interest rates at the time were at 13.5 percent in California.

"It never dawned on us that we could use that piece of land as downpayment," Paul Viscione said. "In fact, we were pretty skeptical until the final papers were signed."

Dennis and Blyth Barber of Dubuque, Iowa, also stumbled on a bargain in their home hunting. In Iowa, some state-sponsored bond money for lower interest mortgages was allocated to each city. The money, at 8 percent interest, was used up long before the Barbers began their search.

"When I heard about this, I called the Barbers at 11 p.m. They got to the bank the next day, qualified for the mortgage, and ended up buying a $42,000 home at 8 percent interest.

As Herb Bisping, a Dubuque Realtor, explained: "We had been working with them (the Barbers) for about a month. During this period, someone who had qualified for the bond money decided not to purchase and the money became available.

"The idea that no money is available has become an accepted misconception here," said Bisping. "I'd say that 99 out of 100 buyers don't know about the opportunities that are available."

John Marino, a Realtor with Bisping's firm, added that 50 percent of the buyers he serves end up using different financing instruments than they had originally planned.

"I had a veteran who had decided not to use a Veterans Administration loan because of all the red tape involved," Marino said. "We counseled him to change that decision, and the result was he got a $90,000 mortgage at 11.5 percent interest instead of 13 percent which, over the life of the mortgage, will save him roughly $40,000."

In Atlanta, Realtor, Steve Dixon said that the problem now is not obtaining financing but educating buyers that different types of available financing will work to their advantage.

"Say a buyer purchased a $60,000 home that had a mortgage balance of $40,000 at 9.5 percent interest," Dixon said. "The buyer has only $6,000 and can qualify for a conventional mortgage at 12.58 percent interest.

"My job is to show him why assuming the existing loan and taking a new short-term loan on the $14,000 difference (to cover the balance of the equity) would be a better deal.

"These days, we (Realtors) have to do more for our buyers than take them to the bank," Dixon continued. "The mortgage crunch of 1973-74 taught us that in order to be an expert in selling homes, you must be an expert in knowing how to finance those sales."

Chicago Realtor Ed Hall agrees. He noted that Realtor boards throughout the Chicago land area have held creative financing seminars for their members.

"Money is available," Hall said. "The problem is that buyers have become apathetic because of all the adverse publicity about the availability of money, and they're sitting on their nesteggs waiting for rates to drop," he said.

"That philosophy is one risky gamble," Hall continued. Even if interest rates dropped, the savings from the lower rate would be offset by how much the price of the home had increased during the waiting period.

"When we are confronted with the 'wait and see' argument, we map out the tax savings that a homeowner would realize from buying now," Hall said. "Usually when they see the advantages spelled out in black and white, they realize why waiting is not a wise idea."

"And besides, as far as financing goes, there is more than one way to 'skin a cat' in this business," Hall concluded. "All it takes is a little imagination and a lot of experience."

Rockport Makes 'Southern Living'

Rockport has made the pages of another well-known publication — the April edition of "Southern Living."

Jerry Beatty of the Rockport-Fulton Tourist Association said a writer for the magazine came down a while back, followed by a photographer who took the pictures that accompany the article.

Headlined "Artists by the Sea," the article is reprinted below:

In the fishing town of Rockport, the view of the ocean doesn't always end at the shore. In galleries and artists' homes in Rockport, the seascape lingers on in canvas after canvas—boats rock gently in the harbor, seabirds perch on weathered wooden docks, and huge oak trees, with windswept limbs, watch over silent sandy beaches.

Just as it is a draw for fishermen who come to try their luck in the warm waters of the Texas Gulf Coast, Rockport is also a lure for artists who try to catch the images of the seacoast town on canvas.

Some do both. "We came down here 16 years ago to go fishing," recalls Estelle Stair. "That did it. I've been painting ever since." Mrs. Stair operates Estelle Stair's Gallery, and she is president of the Rockport Art Association, a group that has more than 100 artist members.

Her gallery, at 406 South Austin Street in Rockport, shows the work of association members, and it also offers lessons and studio space for visitors who come to Rockport on vacation. "We have five classes a week that people who drop in can attend," Mrs. Stair said.

Rockport, perched on the Texas coast an hour's drive from Corpus Christi, has a variety of scenery within close range for artists to work on.

"We go out on location as much as possible," Mrs. Stair said. "We can do ranch land nearby, and seascapes, harbor scenes, and birds."

Rockport's huge oak trees are another frequent subject for artists. The trees, which are shaped by landward breezes, look permanently windswept.

"The trees are harder than anything to do," Mrs. Stair said. "It's hard to make them believable."

In 1948, when he was looking for a place to live and paint by the sea, Simon Michael was the first professional artist to move to Rockport. Since then, many other artists have followed. Michael has the Simon Michael School and Gallery of Fine Arts at 510 East King Street. There are more than 20 other galleries and craft shops in Rockport and the nearby town of Fulton. Many of the galleries and shops are located on Austin Street, one of the main streets in Rockport.

Rockport-Fulton Hosts District Literary Meet

By Bob Crawford

Rockport-Fulton High School was the scene this past Saturday for the District 15-AAA UIL Literary Meet. Hundreds of fine young people filled the halls of RFHS to participate in events ranging from Spelling and Plain Writing to Slide Rule.

In all, twelve categories of contests were conducted, with students from the eight district schools taking part. The events were broken down as follows: Poetry Interpretation, Prose Reading, Spelling and Plain Writing, Typewriting, Debate, Slide Rule, Informative Speaking, Shorthand, Persuasive Speaking, Science, Number Sense and Journalism (Headline Writing, Newswriting, Feature Writing and Editorial Writing).

Two other events, One Act Play and Ready Writing, were conducted at earlier times, but both count in the overall point total in determining a winner of the meet.

Gregory-Portland gathered 231 points to run away with the championship. Tuloso-Midway placed second with 104 points, and Sinton took third with 77 total points.

Points were awarded to the first, second and third place winners, but six places in most events received awards; medals were given to the top three, and ribbons went to the fourth, fifth and sixth places.

Rockport-Fulton, which has its literary program on the grow, had one first place winner, two seconds and a trio of third place winners. In addition, Rockport-Fulton placed numerous students in the fourth through sixth positions.

Alejandro Villarreal accumulated the highest score in Slide Rule to take that event. Irene Garcia talked her way to a second place in Informative Speaking, while Terry Gastauer convinced the judges with his opinion for second place in Editorial Writing in the Journalism section. Speedy Johnston followed in Slide Rule with a third; Patty Reyes placed third in Shorthand and Reagan Little took third in Science.

Fourth places were taken by Julie Adams in Newswriting and Mollie Davis in Typing. Taking fifth positions were Debbie Woods in Spelling and Plain Writing and Ruth Lane in Shorthand. Claiming sixths in district were Nancy Adams in Poetry Interpretation, Scott Cory in Prose Reading, Les Turner in Persuasive Speaking and Joe Barlass in Number Sense.

Rockport totaled 50 points for the meet.

MINI OLYMPICS WINNERS

AARP News

By Lucille E. Skrobarcek

The card games at Paws and Taws Building are continuing every Thursday at 1 p.m.

Hostesses for the month of April are Mrs. Hazel Dailey and Mrs. Grace Hayes.

The winners on Thursday, April 3, were Mrs. Freda Hawley and Ralph Legge in bridge. Mrs. Elsie Legge won the finale.

The winners on Thursay, April 10, were Jerry Huffman and Mrs. Frances Cook in bridge. Frank T. Fohn and Floyd Dailey both won the finale.

The next bridge party is Thursday, April 17, at 1 p.m.

There is and AARP-sponsored dance on Wednesday, April 16, at 7 p.m. Invite your friends to come to these dances. It is not necessary for them to be an AARP member.

The business meeting on Wednesday, March 9, was attended by 43 members and six guests. Paul Riddle conducted the meeting as Myrtle DeForrest, president, had temporarily lost her voice.

The guest speaker at the business meeting was Ms. Annette Reddel, Sea Food Consumer Education Specialist associated with the Sea Grant Program at A&M University, who shared ideas for selecting and preparing seafood. She actually prepared four dishes, gave the recipes for them, and then raffled them off to members. It was an extremely interesting program. Pamphlets were available and they contained several recipes for seafood.

Ms. Anita Dingenary spoke on the problems of Little League in this area. This is a very large undertaking with 460 children participating. About 30 of these children are unable to buy uniforms. Ms. Dingenary asked for donations of $20 to finance a child.

Volunteers are needed to maintain the grounds at the Memorial Park and to keep score.

The next meeting of AARP Rockport Chapter 1536 is Wednesday, April 23 at 11 a.m. A covered dish luncheon will follow a very short meeting.

Volunteers of the Concern Center provided assistance to older citizens at the Council on Aging in filling out their Census forms.

The net profit made on "The Talent Dollar Program" was $438.30. We wish to thank all the members who took part in this project and very generously gave of their time and talent.

Mr. William Fishwick, coordinator of the Tax Aid Program, stated that the volunteer counselors helped 297 persons with income tax and spent 436 hours in tax aid assistance.

Thanks to Mr. Fishwick and the counselors who did such a wonderful job in making this program a success.

Pet Talks

By Dr. Hap Lutz

Dr. Lutz is a graduate of Baltimore City College and Texas A&M University. He specializes in small and exotic animal practice. He was an instructor of small animal diseases and surgery in the Veterinary School at Texas A&M and was in private practice in Waco for 25 years.

OWNER'S VOICE SETS THE TONE FOR DOG EDUCATION.

The tone of voice is one of the keys to successful dog education.

Do dogs understand words? Animal behavior experts have different opinions. Some believe that dogs do not comprehend the actual meaning of words. Others believe the average dog has a 30- to 50-word vocabulary. Exceptional animals have up to a 1,000-word vocabulary.

How many words your dog understands will depend on how much time you spend working to educate him.

An important element is the tone of your voice. Do you react favorably to a shrill, nagging voice? No? Neither does your dog. You are much more inclined to respond to a pleasant tone, and so is the dog.

In educating your dog, your commands should be delivered in a well-modulated voice that is warm, but decisive.

Of course, the basic tone changes with the situation. The "come" command, for example, lends itself to an eager voice; encouraging the dog to come quickly and directly to you.

A command of "No!" needs a firm, disapproving tone. Effectively delivered, it is often scolding enough without being reinforced with a slap or a shake.

No command should be given in a hesitant or unsure tone. The dog senses your lack of conviction. This tone of voice doesn't inspire obedience. Instead, it invites a "let's see if I can get away with this!"

Commands should not be shouted. The exception to this rule is if the dog is outdoors and not within normal hearing range. A dog's hearing is acute and a loud voice is painful. Raising your voice in anger is a poor educating procedure. This only confuses him.

Know what you want the dog to do, and tell him in a tone of voice that makes the command clear. This will encourage a cheerful, obedient response.

If you have any questions concerning the health or care of your dog, please send your questions to the Rockport Pilot, P.O. Box 608, Rockport, Texas 78382. Dr. Lutz will answer them in the weekend edition.

Accent On Health

There are no lifetime guarantees applicable to the body's organs, but for most people the kidneys perform their functions well and for as long as they are needed.

Aside from waking you at night or causing discomfort during long trips or meetings, you may go through life with little concern about your kidneys.

Yet, these amazing organs function 24 hours a day to provide a variety of functions. They remove fluids and waste compounds from the blood and also regulate the internal body chemistry by selective excretion or retention of a wide variety of compounds, Director Dr. H.L. Harle, director of the Chronic Disease Division of the Texas Department of Health (TDH).

In addition, the kidneys assist in regulating the production of red blood cells and in maintaining normal blood pressure, said Dr. Harle.

The kidneys are, unfortunately, susceptible to various diseases and infections which may impair their functions or cause a complete breakdown in their lifesupporting activities. A complete failure of kidney function can cause death in a matter of several days.

This cessation of function, end-stage renal disease (ESRD), will bring some 1,150 Texans this year into the TDH Kidney Health Care Program. When the kidneys fail, a person has four options:

1. He may get on an artificial kidney machine (hemodialysis):
2. He may begin intermittent peritoneal dialysis;
3. He may begin continuous ambulatory peritoneal dialysis, (CAPD); or
4. He may receive a kidney transplant to replace the non-productive organ.

There is a fifth alternative—DEATH

Life-giving support to a person with end-stage renal disease is costly—far beyond the reach of a vast majority of individuals.

However, state and federal legislation came together at the right time to provide financial aid for those unable to pay the $20,000 to $30,000 a year necessary for dialysis treatment or the cost of a kidney transplant.

Legislation establishing the TDH Kidney Health Care Program became effective September 1, 1973. It complements a federally-funded program in the Social Security Administration and takes care of expenses for individuals until they are covered by the federal program. It also helps those who don't qualify for federal funds.

State Of The Region

By Juliet K. Wenger

Unusually large attendance at workshops indicates that legal advice is one of the most urgent needs of the elderly.

The COG has two contracts with Coastal Bend Legal Services to provide service for the elderly, one contract covering Nueces County and another covering the remaining 11 counties in the region.

Five attorneys of the Legal Services put on an all-day workshop in the Central Jury Room of the Nueces County Courthouse. This is a large room which extends from the speakers' platform down wings in two directions. There were people crowded into both wings their full length, more than 250 in all.

This workshop was entirely in English. Roy Hudspeth, who directs the service, said the size of the crowd should not have surprised him because he is aware of the need, but it did. So, a workshop conducted in Spanish was held in Robstown. This, too, was well attended.

Both workshops were taped. English or Spanish language tapes are now available to play in senior centers anywhere in the Coastal Bend. When the playing of the tape is requested, a representative from Legal Services accompanies it, so questions can still be asked.

The tapes will be played continuously in both languages during the regional Mayfair to be held in Memorial Coliseum in Corpus Christi May 6 and 7. And, again, an attorney from Legal Services will be present for questions or for further information.

Legal advice is available to all elderly through Coastal Bend Legal Services.

Some of the subjects that the workshops and the tapes cover are wills, the handling of bill collections, what needs to be done when a husband or wife dies, insurance, social security, fraud (particularly the pigeon drop), housing, and the rights of grandparents.

Quarterly Tax Payment Due

Most corporations operating on a calendar year basis and having an expected tax liability of at least $40 for 1980, must make estimated federal tax payments no later than April 15, 1980, the Internal Revenue Service says.

The amount due by April 15 should cover one quarter of the 1980 estimated tax, according to the IRS. The estimated tax and the amount of each installment can be computed on Form 1120-W (Worksheet), "1980 Corporation Estimated Tax." This form should not be filed with the IRS, but be retained with the corporation's records.

When payments of estimated tax are deposited in authorized commercial banks or Federal Reserve Banks, they must be accompanied by Federal Tax Deposit, Form 503, the IRS said. Supplies of Form 1120-W and a helpful pamphlet, IRS Publication 542, "Corporations and the Federal Income Tax," are available free from local IRS offices.

Have you been watering that money tree a little extra lately?

Probably you have. Haven't we all? Especially if you've been looking for a home. Some money trees seem slow growing though. Must be the weather. But, in the meantime, if you'd like to get on with finding just the right home, we've got a much more dependable idea than watering money trees.

Call a REALTOR. Not just a real estate agent. A REALTOR. Look for the logo. Sit down with a REALTOR. Talk over your situation with him. Explain what you're looking for. Put this professional to work.

Because a REALTOR is a member of a local Board, he's got a lot going for him, including: wide knowledge of the local housing market and he knows a variety of ways to finance a home.

For wishing, a money tree. For action, a REALTOR.
