

AMERICAN TROOPS BEING SENT TO MEXICAN BORDER

ARTILLERY AT SAVANNAH AND PENSACOLA TO COME TO TEXAS.

UPRISING IMPENDS

Official Advice Received at Washington East Grave Doubts On Orozco's Loyalty.

Savannah Troops to Texas. Savannah, Ga., Feb. 6.—Instructions were received here today at Fort Screvens for three companies of coast artillery to get ready to go to Texas at once.

Pensacola Artillery Ordered to Border. Pensacola, Fla., Feb. 6.—Two companies of artillery at Fort Barrancas have been ordered to the Mexican border.

Another Uprising Impending.

Washington, D. C., Feb. 6.—Another uprising is impending in Mexico, according to official despatches received here. They cast grave doubts on the loyalty of Orozco to Madero and intimated that Orozco is about to begin a new rebellion and declare the state of Chihuahua independent. Preparation for action is renewed in army circles. The last few hours' developments have put United States forces on marching orders, and several thousand soldiers are resting on their arms. The entire state of Chihuahua is reported in revolt.

Chinese Imperial Troops Defeated.

San Francisco, Calif., Feb. 6.—Fifteen hundred Chinese imperial troops were killed or wounded and 500 captured in the battle at Chai Chow yesterday, according to the Chinese Press today. The Republican forces numbered 9000 and the Imperials 6000.

Escaped Convict Killed.

Houston, Tex., Feb. 6.—Orem Matthews, an alleged escaped convict from Brazos county was shot to death early this morning by Detective Geo. Peyton while resisting arrest. An inquest exonerated Peyton.

J. J. Perkins returned this afternoon from a short business trip to Decatur.

START WORK ON IMPROVEMENTS

The Wichita Ice company yesterday morning began the erection of a \$35,000 addition to its factory, which when completed will give the plant a capacity of three times its present output.

The new addition will be of concrete and brick, 50x175, and will be built just west of the old building. When completed, the plant will have a capacity of 150,000 pounds per day, which is more than the out-put of any plant in the state west of Ft. Worth.

The new addition will be built principally for storage purposes and office room, and additional machinery, including another large engine and Frick ice making machine will be installed in the old building. Cold storage room to the capacity of 25,000 cubic feet will be added and this will be rented to firms desiring cold storage room. A large number of men will be put on the new work, to complete it in time for the spring business.

NEW HOLE STARTED ON OVERBEY PLACE

Iowa Park, Texas, Feb. 6.—The Diamuka well on the Overbey place has been abandoned and a well near the old hole has been begun.

Mr. Jim Hines is at Wichita on the jury this week and Mr. Ralph Hines is taking his place in the store.

Mrs. Frank Emanuel and three children of Dallas, are the guests of Mrs. M. A. Love.

Miss Freda Conn visited friends in Wichita Falls a couple of days last week.

Mrs. Frank Boyd of the Christian Church entertained her Sunday school class of girls at dinner Sunday.

The Woman's Home Society met at the home of Mrs. Bain this afternoon at 3 o'clock. Quite a number were present and an interesting meeting was enjoyed. The hostess served refreshments of cake and fruit salad. The little child of Mr. Brown is quite sick with catarrhal fever.

ALL FOR THE WORKING MAN

SOCIALIST SPEAKER SAYS CAPITALISTS DESERVE NO CONSIDERATION AND HAVE NO RIGHT TO EXIST.

THINGS THAT ARE WRONG

Our Morality, Religion and Laws Wrong Because in Interest of Ruling Class.

Our religion is wrong. Our morality is wrong. Our laws are wrong. Why? Because morality, religion and laws but reflect the interest of the ruling class who in this country are the capitalists. This in substance was one of the declarations of Stanley J. Clark, the Socialist orator, who addressed a large crowd at the Auditorium last night. The speaker apparently did not think it worth while to show wherein these things were wrong, but contented himself with a declaration that they were wrong because they reflected the interests of the ruling class. His words were heard with close attention and considerable enthusiasm by a large part of the audience. He said that government was first instituted for the protection of human property and not human life. He illustrated his thought by saying that at one time in this country on one side of the Mason and Dixon-line human slavery was morally, religiously, legally and physically wrong. The reason for this difference, he said, was the fact that on one side of this line slavery was for the interest of the ruling class and on the other side it was against the ruling class. Material environments mould the religion and the morals of a nation, he declared. He said the Socialists did not believe in one plan of salvation and one plan of ethics for the working man and another for the capitalists, for, according to the words of Jesus Christ, there was no plan of salvation for the rich man.

"The Socialists believe the working class is the only class that has a right to existence," the speaker declared repeatedly in his address. "The Socialists believe the working man should have the full product of his labor, not a fair share, as some others," was one of his declarations that brought forth applause. Another was "The working man is not so much interested in a square deal as in a square meal." A chorus of amens and "that's right" greeted his declaration, "and the church has lost the spirit of Jesus Christ."

He said that the Republican party was a party of money lords; the Democratic party was the party of the middle class and the Socialist party was the party of the working man. "Others," he said, "believe that men and homes and souls should be robbed and made desolate by machines" while the Socialists believed the working men should own and control and dominate the machines that the working should receive the full product of his labor.

One way in which the working man could secure the full product of their labor would be the collective ownership of those things upon which they collectively depend, he said. Land, air and water were among these, also the mine and factory.

Clark reminded his hearers that they had a fine opportunity to apply the principles of Socialism in Wichita Falls. "Elect the Socialists in Wichita Falls and every office will be filled by a workingman. None of your officers will be monopolists who stand for scab labor. The policeman's club will be in the hands of a working man." The speaker then told of the operation of the city government in Milwaukee, where the socialists were in control. He told how, in a strike the chief of police addressed the strikers telling them that any policeman who molested them while they were picketing or calling a scab a 'scab' would immediately have his badge taken from him. He said if there had been such officers in a recent strike in his state the strikers would not have lost. He left the inference that strikers would be permitted far larger liberties when there were Socialist policemen.

"Do you want your city ruled in the interest of the workers," he shouted, was the question that was up to the laboring men of Wichita Falls. "Let the world know that the working men know that they are class conscious. We believe that we are entitled to all the consideration and that the capitalists are entitled to no consideration whatever, and have no right to exist. Ignorance is the only thing that keeps the working men of Wichita Falls from getting a full share of the product of their labor. People exclaim, 'how much do you want, anyway?' I say what we are asking for is only a handout on the way to the real meal table."

Reported That Other Former Subsidiary Companies Will Declare Liberal Dividends Soon.

ADDITION FOR ELKS CLUB ROOMS

Work began today on the construction of a second story to the Anderson and Patterson building on Eighth St. The contract having been secured by Dan O'Reilly, who announced that the job will be completed as rapidly as possible.

The new addition, when finished, will be leased by the Elks to be added to the present quarters of that lodge, thus giving to the B. P. E.'s in this city a home as large and probably as well equipped as is possessed by any organization of a similar nature in this part of the state. The addition will be used for the lodge's pool tables and as a domino room.

Marvin Smith and Miss Maud Carnes left last night for St. Louis, Chicago and other points and before returning to this city will probably make a trip to New York. They go on business for McClurkin's Dry Goods Store.

WEATHER FORECAST

Tonight fair; Wednesday fair and warmer.

CLOSES DIRECT TESTIMONY

STATE UNEXPECTEDLY ENDS INTRODUCTION OF DIRECT EVIDENCE IN SNEED TRIAL.

MR. COBB'S CORRECTION

Over Protest of Attorneys of Both Sides Wichita Falls Man Corrects Testimony As Reported.

Fort Worth, Feb. 6.—Prosecution in the Sneed case unexpectedly closed the introduction of direct testimony at 11 o'clock this morning. Judge Swayne adjourned court until 1 o'clock this afternoon at the request of the defense. The prosecution has many witnesses left which will be used in rebuttal.

Over the protest of attorneys for the prosecution and defense, Judge Swayne this morning permitted Ed Cobb of Wichita Falls to take the stand and make a correction regarding his yesterday's testimony. After he had taken the stand he said the stenographer's notes of the testimony made it appear he said he heard Boyce say something before he was shot by Sneed. He said he intended to swear he had not heard Boyce say anything.

The following is the testimony of Ed Cobb of this city in the Sneed trial yesterday as reported in the Ft. Worth Record:

Ed Cobb, an aged man who knew Captain Boyce for twenty years, was the second witness called, it having been announced that he was ill and must testify at once so he could go to his home. It was his testimony which developed the first sensations of the day, for he said on cross-examination that he had heard some one say that "young Boyce and Mrs. Sneed will be back together inside of thirty days," or words to that effect, the deceased and Edward Throckmorton, also deceased since the beginning of the trial, were together in the lobby of the Metropolitan hotel.

Witness could not say which one of the other two men made the remark, neither could he give the exact wording of the sentence, but he acknowledged that something to that effect had been said.

Counsel for the defense endeavored to have Mr. Cobb tell something of an assertion alleged to have been made by Captain Boyce to the effect that he would "drag the name of Sneed through the mire if it took all of his money and the rest of his life," but such efforts proved futile.

After testifying that his home is in Wichita Falls and that he had known Captain Boyce for twenty years, Mr. Cobb said he had never seen Sneed until this trouble arose. He did not know him, he said, and did not see him on the night of the killing.

"I arrived from Wichita Falls," said the witness, "on Jan. 13 and spent the day in Fort Worth. I left that night at 8 o'clock for Temple and was not present at the time of the shooting."

Mr. Hanger—Where were you, Captain Cobb on the Saturday night in question before you left the city?

"I was in the Metropolitan hotel. I left the hotel at twenty minutes to 8 o'clock to go to the depot. I sat in the lobby with Ed Throckmorton and Captain Boyce for an hour and talked before I left the hotel."

In reply to a question, witness said he was with Captain Boyce, who was killed, but he did not remember whether Captain Boyce was between him and Throckmorton or whether he sat at the end of the table. Captain Boyce was in an apparently good humor over having the indictment against his son quashed.

Witness testified that he saw the accused and two other men enter the lobby. One of them was W. M. Atwell, whom witness knew.

Mr. Hanger—What were they doing in the lobby when you saw them?

Mr. Cobb—Oh, they passed back and forth through the lobby. They were near the clerk's desk when I first noticed them. They stood there for twenty-five or thirty minutes, and then moved toward the door and stood between us and the cigar stand for some time.

Mr. Hanger—When they started out what happened?

Witness—Well, just as they were about to reach the door Atwell called Boyce and they talked. I talked a while with a friend and then shook hands with Captain Boyce and left to catch my train.

On cross-examination by Mr. McLean, witness was asked what Captain Boyce said when he saw Sneed in the lobby.

"He said, 'when he Sneed now,'" was the reply.

McLean—Didn't he say he'd see Mrs. Sneed and Al Boyce back together inside of thirty days?

Witness—Not to me. He may have made that remark to Throckmorton, but I never heard it.

Q.—What did he talk about? Did he

talk to you about his troubles? A.—Yes, he told us of his troubles. Q.—Didn't Throckmorton say they would be back together inside of thirty days? A.—No.

Q.—What did Captain Boyce say about his troubles? A.—He told us about coming to Fort Worth to have the prosecution of his son stopped and said that he regretted the trouble more on account of his wife than for any other reason.

Q.—Now, Mr. Cobb, you talked to your old time friend about two hours. What else did you talk about? A.—Well we talked about the cow business in the early days when Captain Boyce first took hold of the X I. T ranch up in the Panhandle, and then we talked about the trouble.

Q.—Where were Sneed and Atwell and Bowman when you first saw them, did you say? A.—They were in front of the clerk's desk in the lobby of the hotel. Later the other two went out when Captain Boyce and Mr. Atwell talked.

Q.—Did you know anything about the elopement of Mrs. Sneed and Captain Boyce's son? A.—I knew what I had read in the papers. I read all about the elopement and about Sneed bringing back his wife from Canada.

The witness spoke clearly and efforts of Mr. McLean to tangle and confuse (Continued on Page Five.)

TEXAS-OKLA. LEAGUE IS READY

DENISON, SHERMAN, GREENVILLE WICHITA FALLS, BONHAM, MCKINNEY, ARDMORE AND DURANT MEMBERS.

Another Meeting Will Be Held at Ardmore February 24, to Arrange a Schedule.

The cities of Denison, Sherman, Greenville, Wichita Falls, Bonham, McKinney, Ardmore, and Durant will compose the Texas-Oklahoma league for the coming season.

This was decided upon at a meeting of league magnates held at Sherman yesterday afternoon and evening. All of these cities were represented in the meeting by enthusiastic delegates, and each was formally granted a franchise, with the exception of McKinney, whose representatives were not empowered to close finally, but who expressed a desire to enter the league, and the place was left open for it.

President F. P. St. Clair, presented his resignation, which was accepted, only after Mr. St. Clair had said that it would be absolutely impossible for him to serve another year. His successor has not yet been elected, although a number of names were presented.

Decisive action was taken relative to ability of the clubs to stay in the league for the full season, and a resolution was passed that each town should put up a cash forfeit of \$250 as a guarantee that the league dues would be paid and the rules observed. No action was taken on a schedule, but this question was deferred to a meeting to be held at Ardmore on Feb. 24th.

Four men charged with intoxication appeared in the city court this morning and were assessed the usual fine of ten dollars each; failing to pay which they were sent to join the city street gang. Two vagrant cases on account of the absence of the city attorney from town were continued until tomorrow morning at nine o'clock. Only one case of drunkenness was tried in the city court yesterday morning, the usual fine of ten dollars being imposed.

WARRANTS ISSUED

Among the Number Indicted in Federal Court.

Indianapolis, Ind., Feb. 6.—Thirty-three indictments were returned this afternoon by the Federal grand jury which has been investigating the so-called dynamiting conspiracy cases. The names have not been made public but it is generally believed a number of prominent labor officials are included, some of whom are said to be officers of the International Structural and Bridge Workers' Association.

Warrants for the arrest of those indicted have been placed in the hands of the U. S. marshal.

The indictments, 32 of which bore on the dynamite conspiracy are known to be in part against the men who met Orle E. McManigal in Detroit in June 1907, and induced him, because of his familiarity with explosives to become a regular member of the McNamara's "dynamiting crew." Other indictments are believed to be against the men who met McManigal in Boston and showed him where to place the explosives which blew up a part of the opera house there March 27, 1909, and who afterwards went with him to Springfield, Mass., and showed him where to blow up a part of the municipal building and also against the men who escorted him from New York to Hoboken, N. J., and to Jersey City, where he did "jobs" in 1909 and 1910. Also the men who met him in Cleveland in July, 1910, and arranged for the explosion at Akron, Ohio, and men who took charge of him when he arrived at Peoria, Ill., to block up the places there.

Another indictment is said to deal with a Chicago man, who after McManigal wrecked the South Chicago Iron Works plant in February, 1910, handed him an envelope containing \$155 with the remark "there's money in that." The men who were traced as having helped in explosions at Omaha, Erie, Pa., Davenport, Ia., Perth Amboy, N. J., Pullman, N. Y., and many points in Ohio where twenty explosions occurred are said to be involved.

A charge of the concealment of the knowledge of other's guilt was said to be brought to bear in connection with the \$1000 allowed monthly to J. J. McNamara, as secretary, treasurer of the Bridge Workers for which he gave no accounting.

City Attorney Fred Householder left last night for Sherman, on a short business trip.

MEMBERSHIP MEETING NEXT MONDAY NIGHT

In line with the decision of the directors of the Chamber of Commerce to hold membership meetings at frequent intervals during this year at which not only members but other citizens will be urged to attend, a general membership meeting will be held next Monday night either at the Wichita Theatre or the opera house.

While this meeting is called for no special purpose the welfare of the city will be discussed and any member of the Chamber of Commerce will be invited to give his or her views.

J. B. Marlowe is chairman of a special committee appointed to arrange for the meeting and is arranging for a vaudeville following the business session.

FELIX LINDSEY'S HOME IS BURNED

At about one o'clock yesterday fire totally destroyed the home of Felix Lindsey, an old time slave and for many years a soldier in numerous Indian wars, and partially all of the contents of the house were consumed by the flames. Felix has a wife and nine children dependent upon him for support and the destruction of his home, which was only partly covered by insurance, is a severe blow to him.

The house was situated near Holiday Creek in the southeastern part of town, and owing to its distance from the nearest fire plug, the department, although making an unusually quick run to the scene, was unable to render any material assistance in saving the structure, which was a four-room affair. Felix announces that he will attempt to rebuild his home at once.

OIL COMPANY'S MELON CUTTING

STANDARD OIL CO. OF INDIANA WILL DECLARE DIVIDEND OF \$29,000,000.

OTHER MELONS ARE RIPE

Reported That Other Former Subsidiary Companies Will Declare Liberal Dividends Soon.

New York, N. Y., Feb. 6.—It is said that within the next month the Standard Oil Company of Indiana, one of the former thirty-three subsidiaries of the Standard Oil Company of New Jersey, will declare a dividend of \$29,000,000 in stock. At their meeting on March 7th the stockholders will be asked to increase their stock that amount. The capital is now one million. A stock dividend will then be declared. Soon after the dissolution of the Standard Oil Company of New Jersey, shares of the Indiana Company sold as low as \$1,400. Yesterday they were quoted at \$4,000. It is believed the Indiana melon cutting is the beginning of a number of capital stock increases among the subsidiaries.

STOCKHOLDERS MEETING WAS POSTPONED

On account of the absence from the city of several officials of the Wichita Falls Route, the meeting which was scheduled to have been held this afternoon for the purpose of choosing officers and directors for another year was postponed until the 15th of the month, when further action will be taken on the matter.

W. H. Duffey, who was a delegate to the International Bricklayers' Union at St. Joe, returned last night and reports a most enthusiastic session of the union. Among other matters, the convention decided to hold the next session, which comes in 1914, at Houston.

Jack Allen, well known to the talking trade of the city, tomorrow morning will open a shop of his own in the Kahn store.

List of Explosions Which Were Investigated

Indianapolis, Ind., Feb. 6—Fully one hundred explosions of dynamite, at points scattered over 17 States, and covering a period from the summer of 1905 to October 16, 1911, when dynamite was found beneath a bridge near Santa Barbara, California, just before President Taft's special train passed over it, were inquired into by the Federal Grand Jury which has investigated what the Government has regarded as a nation-wide dynamite conspiracy.

It has been the theory of the Government that all of these explosions were intended to intimidate employers and non-union workmen with the general intent to abolish the so-called "open shop," and compel submission to the demands of certain labor organizations, more particularly the International Union of the Bridge and Structural Iron Workers.

The States in which explosions occurred were Ohio, Indiana, Illinois, Pennsylvania, New York, New Jersey, Maryland, Connecticut, Massachusetts, Michigan, Wisconsin, Iowa, Missouri, Nebraska, Utah, California and Washington. Ohio, with twenty explosions, had more than any other one State. Illinois, Indiana, and New York follow in order, in respect of the number of the explosions.

There were two explosions in 1905; nine in 1906; six in 1907; twenty-six in 1908; twenty in 1909; twenty-five in 1910, and thirteen in 1911. These figures are exclusive of the explosion which wrecked the Los Angeles Times plant, and resulted in the confessions and imprisonment of the brothers John J. and James B. McNamara. John J. McNamara was secretary-treasurer of the International Association of Bridge and Structural Iron Workers.

The preliminary exhibit of facts and allegations about the explosions and their supposed origin was gathered and presented to the Federal authorities by the National Erectors' Association, an organization of iron and steel manufacturers and contractors who had declared for the "open shop." After the explosions in 1905, the Erectors' Association was formed and in May, 1906, after declaring as an organization for the "open shop," engaged detectives to seek out the identity of those responsible for the explosions.

One of the first instances of the finding of hidden explosives occurred before the erectors organized and followed an attempt to blow up a building in East Twenty-third street, New York City. Two men were convicted. One of them confessed to having received \$150 on one occasion for a "job" and \$100 for cutting a cable. He told of the location of 100 one-pound sticks of dynamite, which subsequently were found in the Jersey Meadows and in the sands at the foot of East Twenty-fourth street.

The erectors continued their investigations until the spring of 1911, but while the detectives were working in one place, the explosions occurred with more frequency in others. More than a dozen viaducts, bridges, buildings and other construction work, all being erected by firms employing non-union labor, had been blown up before Ortie E. McClinton appeared on the scene, and before he began to work with John J. and James B. McNamara as a professional dynamiter.

The investigation of the dynamite conspiracy, after the pleas of guilty had been made by the McNamara brothers, was continued, to ascertain who else, if anyone, participated in or gave financial support to the crimes.

The chief explosions, or attempts, which were given special attention by the Federal grand jury, were as follows:

Announcement.

I have sold my drug store, at the corner of Eighth and Ohio to Messrs. Thornberry & Shaw, I take this means of thanking the public for the generous patronage accorded to me during the time I have been in business. I still want to ask a continuance of that patronage for the new firm, as I am qualified to assure my friends that their wants in the drug line will be carefully safeguarded. Messrs. Thornberry & Shaw are both efficient druggists, and have been in the store for a long time, are thoroughly acquainted with the trade. I shall continue to make headquarters at the store for the practice of medicine, and those who are indebted to me, either for drugs of medical service are offered to call at the store or at my office in the Kemp and Keil building and make settlement at once.

Build a Home in 1912 and Rejoice

every anniversary thereafter like a lot of your friends do who gave up the chase for elusive riches long ago and started to build their fortunes in the good old substantial way of our Pilgrim Fathers. Remember, "A rolling stone gathers no moss," and nothing will stop a family from rolling quicker than a comfortable home. It gives husband, wife and children something to work for and once you get such a nucleus of action from the whole family, success is bound to crown your efforts. We've been preparing for a lot of home building here this year and have a stock of lumber that outclasses in quality even that which your grandfather used when he built his home sixty years ago, and you know that's "going some." Come in and see it.

BATHTUB TRUST CASE UP TODAY

CRIMINAL TRIAL OF SIXTEEN
FIRMS AND THIRTY-TWO INDIVIDUALS IS CALLED.

LICENSE A SUBTERFUGE

Jobbers Compelled to Enter into Uniform Contracts and Sherman Law Violated.

Detroit, Mich., Feb. 6.—The Government's criminal case against the sixteen firms and thirty-two individuals in the so-called Bath Tub Trust, who are alleged to have obtained control of 85 per cent of the annual output of enamel ironware bathtubs, sinks, lavatories, etc., in the United States was called for trial in the Federal Court here today. The case, which has been pending in the courts for nearly two years, is regarded as one of the most important in the anti-trust campaign of Attorney General Wickersham.

The criminal proceedings grew out of a civil suit to dissolve the alleged combination, begun by the Government in the Federal Court at Baltimore in 1910. The evidence adduced in the hearings of the civil suit was presented to the grand jury here by Edwin P. Grosvenor, special assistant to the Attorney General, and indictments were handed down on December 6, 1910.

It is charged by the Federal officials that as a result of a ten days' meeting at Mount Clemens, Mich., in April, 1910, a fund of \$7,000 was used to set in motion a plan that resulted in giving to the defendants control of sixteen manufacturers and nearly 400 jobbers, representing an output of approximately \$10,000,000 a year.

The indictments charge that the defendants compelled the jobbers to enter into uniform contracts, and that all the defendants refused to sell to any jobber unless he would sign such a contract. The Government officials take the ground that the evidence in the civil suit showed that the defendants attempted to disguise their combination by the subterfuge of purchasing the patents on certain tools and licensing certain firms to use these tools.

The Government places great weight on the testimony of Edwin L. Wayman of Pittsburg, who is described as the licensor of the alleged combination and whose testimony in the civil suit has rendered him immune from being made a defendant in the criminal proceedings. The Government charges that Wayman obtained \$7,000 from the People's State Bank of Detroit by giving 100 shares of the Standard Sanitary Manufacturing Company as security and that, in using this fund to purchase several patents, \$5,000 went back to the Standard Manufacturing Company for patents that it is alleged to have turned over to the combination. The Government charges that Wayman collected \$5 per furnace per day from each of the sixteen defendant firms, some of which had as many as eighty furnaces, and that after two months those firms that did not violate the agreement were to receive a rebate of 80 per cent of this contribution. Wayman's collections, it is alleged, ran as high as \$700 per day.

Full plans for the defense of the firms and individuals under indictment have been made at a conference here of attorneys interested in the case. The attorneys appear satisfied that they will be able to put up a strong defense of the indicted men. They contend that the case hinges on the exact classification of the Arrort patent, for the use of which licenses were issued to the sixteen indicted firms, thus creating the alleged trust. The points involved being so finely technical, the attorneys say the defense still is surprised that the Government attorneys talk of asking jail sentences for the indicted magistrates if they succeed in convicting them of conspiring to restrain trade.

The individual defendants who will be placed on trial are as follows: Theodore Ahrens, Francis J. Torrance, E. L. Dawes, and W. A. Hyler, officers of the Standard Sanitary Manufacturing Company, of Pittsburg; C. M. Voegelé and T. R. Barnes, president and secretary of the Barnes Manufacturing Company, of Mansfield, O.; Frank M. Caldwell and J. J. Mahony, president and vice president of the Cahill Iron Works, of Chattanooga; Jesse T. Duryea and B. O. Tilden, president and secretary of the Colwell Lead Company, New York City; W. G. Winfield and A. G. Ward, of the Day-Ward Company, Warren, O.; S. M. Ford and Reid Carpenter, president and secretary of the Humphreys Manufacturing Company, Pittsburg; Jordan L. Mott and Max Goebel, of the Mott Iron Works, New York City; Thomas Walker and A. C. We Prove It.
Every day ZEMO gives relief and cures men, women and children in every city and town in America whose skins are on fire with torturing ECZEMA rashes and other itching, burning, scaly, and crusted skin and scalp humors.

ZEMO and ZEMO (ANTISEPTIC) SOAP, two refined preparations will give you such quick relief that you will feel like a new person. We give you three reasons why we recommend and endorse ZEMO and ZEMO SOAP for all skin and scalp eruptions.

1st. They are clean, scientific preparations that give universal satisfaction and are pleasant and agreeable to use at all times.

2nd. They are not experiments, but are proven cures for every form of skin or scalp affections whether on infants or grown persons.

3rd. They work on a new principle. They do not glaze over the surface, but they penetrate to the seat of the trouble and draw the germ life from underneath the skin and destroy it. In this way a complete cure is effected in any case of SKIN OR SCALP ERUPTION.

Hoppe vs. Sutton.

New York, Feb. 6.—Billiard enthusiasts are looking forward with keen interest to the 182 championship match between Willie Hoppe and George Sutton, which is to be played tomorrow night at the Hotel Astor. It will be the second time within six months that these two noted cue experts have contested for the championship title. In the previous match in this city last November Hoppe succeeded in easily defeating the veteran Sutton. The latter was disappointed by his showing and challenged again. In his practice work the past few weeks Hoppe has displayed excellent form and he presumes confidence in his ability to retain his title.

ONE-CENT POSTAGE BILL.

Representative Weeks of Massachusetts and Senator Burton of Ohio, have introduced in congress a bill calling for one-cent letter postage, and if it becomes a law, July 1 is the date set for its inauguration, provided it is introduced at the present session of congress. As it was never intended that the government should make a profit out of the mail business, the result will be a great saving to the people through the reduction in postage may bring about more letter-writing. Opposition to the passage of the bill is likely to come from the postmasters, especially that class of postmasters whose salaries are based on the amount of business transacted annually, and the sale of stamps cuts quite a figure in a year's business for any post-office. The bill is backed by what is known as the National One-Cent Letter Postage Association, with headquarters at Cleveland, Ohio, which has a membership of several thousand, composed principally of large business concerns whose postage bills run up into the thousands annually. The bill is as follows:

The rate of postage on a letter of one-half ounce weight or fraction thereof, if carried from New York City to Buffalo, a distance of less than 50 miles, was in 1843 25 cents, and similar rates, high as compared with present rates, prevailed elsewhere.

By successive and frequent reductions, this rate was reduced until, by act of March 1, 1883, the rate was 5 cents only for a letter weighing one-half ounce or a fraction thereof, to be carried any distance whatever, within the limits of the entire country.

These reductions so stimulated the growth of mail of the first class that no reduction, or only a small temporary reduction, in revenue occurred. These manifold reductions all took place in the first forty of the last sixty years, while no reduction in first-class postage rates, save that an extension of the weight limit from one-half ounce or fraction thereof was made in 1885, but that no other reduction save this above named has been made in the period of nearly thirty

years that have elapsed since Oct. 1, 1883.

During most of this time the first class mail has produced a revenue vastly in excess of the costs of its service, as an instance of which the revenue for the latest fiscal year, ending June 30, 1911, has been over \$162,000,000 of which amount over \$42,000,000 is estimated profit to the department, thus indicating that a considerably lower rate, which would enormously stimulate the growth of this class of mail, with a resultant further increase of revenue therefrom, would probably simply compensate the Government, particularly bearing in mind that no reduction is contemplated in postage on postal cards.

It was never intended that the department should make a profit from any class of mail; now, therefore, be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, that upon all mail matter of the first class postage shall be charged, on and after the first day of July, 1912, the rate of 1 cent per ounce or fraction thereof.

ON TRAIL OF THE MONEY TRUST.

When a certain newcomer in politics made a few choice remarks last year about what he termed the "money trust," derisive hoots filled the air. "Don Quixote and the windmills," "a demagogue with a new booger-bear," "a fool and his phantasmagoria," "a reversion to populism"—these were some of the comments that greeted his allusion.

Yet the passage of a few months has turned this booger-bear of a disordered mind into the well-defined suspicion of a real trust.

Representative Henry of Texas, has introduced a resolution in the house calling for an exhaustive investigation of the "money trust." His resolution provides for a committee of seven members from the house, instructed to investigate the extent to which any group of financiers can control the money of the country; how railroads control banks and how banks control railroads; how groups of money men control deposits of banks and trust companies, and to what extent they utilize their power in that way; to what extent agreements exist by which corporations protect each other from competition; the extent to which interstate corporation securities are marketed without competitive bidding, and the speculative operations of officers of national banks. It also calls for special investigation of the New York clearing house and the New York stock exchange.

No man who has cut his wisdom teeth doubts the actual and powerful existence of an alliance of the money powers. But it is a matter of doubt whether a congressional committee can catch this trust, even if it gets close enough to put salt on its tail—Atlanta Georgian.

QUICK RETURNS FROM WANT AD

A two line classified ad in Monday's Times brought three answers before six o'clock of the same day, and the paper was not off the press till after five.

That is a record that hardly another paper in the world can boast of, and one that ought to create confidence in the minds of every one who has any item of business that demands publicity.

The ad in question was inserted by James Prothro, of the Palace Drug Store, who was seeking a girl for general housework. There is no other advertisement that it is harder to get answers for than household help, and the one class of advertising for which the Times does not guarantee results, by reason of the scarcity of this class of help, and the increasing demand for it.

Yet before Mr. Prothro had gone to bed the evening Mrs. Prothro had received three answers to the ad, and that, too, before she had known the ad was in the paper.

In proportion to its circulation, Times advertisers receive more results than almost any paper in the world, yet its rates for any kind of advertising is lower than similar rates in any city of the same size in the Southwest, or than any paper of the same circulation in the country.

I WANT EVERY WOMAN TO READ THIS LETTER

To Whom Concerned:

It is now six years ago since I was given up by the doctors to die. I had been a sufferer for many years with a pain in my side. I had been advised that I had appendicitis, by another that it was ovaries trouble, and one even told me cancer. Nothing but an operation would do me any good, I refused this. I rapidly grew worse, and was in bed for 7 weeks and was then told it was too late to operate. I would never live through it. The doctors told my husband that at best I could not live longer than a month. I suffered so much and could not get rest or sleep. My husband asked Dr. Duncan to come and see me, and in less than one hour I was almost free from pain and had the first night's sleep in months. Eight days after the first treatment I was able to go to their office; six months I was well and now six years have past and I have never had a symptom of the old trouble. I am in better health than 90 per cent of my friends. I was treated by Drs. Duncan & Duncan in Fort Worth. MRS. L. B. HENDERSON, 1200 San Pedro St. San Antonio, Tex.

The city police officers yesterday morning arrested and brought before the Mayor's court, a man charged with violating the city ordinance prohibiting teamsters from driving over the sidewalks in the residence portion of town. The man was fined five dollars and warned not to repeat the performance.

It is announced at the city hall that a number of complaints of this nature have been received by the police officers and that it is known that the law is being daily violated in this manner in a number of instances. The officers have instructions to arrest all offenders of such a class, and unless the practice of driving teams over the sidewalks is stopped at once, a number of fines will be imposed in the near future.

CLOSE DIRECT TESTIMONY

(Continued from page 1.)

fuse him relative to what he had read relative to the Canadian flight of the couple proved futile. The attorney gave up the effort and Attorney Cone Johnson questioned the witness.

Mr. Johnson—Did you hear Mr. Throckmorton say that young Boyce and Mrs. Sneed would be back together inside of thirty days. Mr. Cobb?

Mr. Cobb—There was some language such as that used. I do not know whether Throckmorton said it or not.

Q.—What were the words used, Mr. Cobb?

A.—I do not know what the exact words were. Something such as you say, was spoken there at the time.

Q.—Mr. Cobb, didn't you hear Captain Boyce say that he did not have time to live but that what time he did live and what money he had would be spent in dragging the name of Beal Sneed through the slime, such as the name of Mrs. Sneed had been dragged through?

A.—No, he never said that in my presence.

Witness said that Captain Boyce weighed somewhere in the neighborhood of 180 pounds and was active for his age. He was extremely well preserved for his years, said Mr. Cobb.

On redirect examination by Mr. Hanger, witness was asked what Captain Boyce had said about regretting young Boyce's trouble on account of Mrs. A. G. Boyce, 85.

A.—He said he was sorry of the trouble on account of his wife. He also said that he was sorry his son had been accused of stealing \$20,000 worth of diamonds. "He could buy all the diamonds he wanted," Captain Boyce said. "His mother gave him a diamond and he won't wear it. He didn't steal the diamonds."

Q.—What else did he say, Mr. Cobb?

A.—He said that Al Boyce was 21 years old and able to take care of himself, and to mind his own business. He said that he hated to have his son indicted for stealing the diamonds and that he had had the indictment dismissed.

Mr. McLean on cross-examination asked the witness what else Captain Boyce had said about Al Boyce, Jr.

Mr. Cobb—He said he was tickled because Al was out of trouble.

Q.—He didn't say anything about being tickled for Beal Sneed and his two little children because the wife and mother had returned to them did he?

A.—No sir, he didn't.

Q.—He said Al was more than 21 years old and able to take care of himself, eh?

A.—Yes sir.

Q.—But he didn't say anything about the little Sneed children?

A.—No.

Q.—He said he was glad of the indictment charging this son with the theft of \$20,000 worth of diamonds, where he will remain until his case is brought up for trial.

Q.—What else did he say?

A.—Yes, he said he was glad.

Q.—What else did he say?

A.—He said he regretted the trouble more on account of Al Boyce's mother than for any other reason.

Q.—He didn't say anything about regretting the trouble on account of Sneed and the little girls?

A.—No. He did not mention them at all.

Q.—(By Mr. Johnson.) Didn't Captain Boyce tell you that he would drag the name of Beal Sneed through the mire?

A.—No.

Q.—(By Mr. McLean.)—He said his son wasn't the kind to steal \$20,000 worth of diamonds, eh. But he said nothing about his son running away with another man's wife, did he?

A.—No, he said only what I've told you.

Resolutions of Approval

Whereas, the Head Camp of the Modern Woodmen of America, met in adjourned session in Chicago, January 23, 1912, and

Whereas, after careful study and review of the society's past history did find that the present rates were inadequate and

Whereas, after a thorough investigation of rates plans, etc., did establish a table of rates based on past experience, said table of rates being pronounced by all of the insurance actuaries and commissioners present to be adequate beyond all reasonable doubt and at the same time as low as could be established to insure permanent protection, and

Whereas, that in order to show our appreciation of the efforts of our delegate, Neighbor C. H. McConnell, and the approval of his actions in supporting said changes and our approval of the new table of rates in general, be it

Resolved, that Wichita Falls-Camp No. 12006, Modern Woodmen of America, hereby ratify the action of the Head Camp in placing our society on an adequate basis, and be it further

Resolved, that a copy of these resolutions be mailed to Head Consul A. R. Talbot, one to State Deputy, A. N. Rooks, one to C. B. McConnell, our delegate to Head Camp, and a copy be given to the local press.

Adopted unanimously in regular session, February 1, 1912.

Dr. Nicholas Murray Butler, president of Columbia University, is mentioned for the Republican nomination for governor of New York next fall.

Members of the Iroquois Club of Chicago are soon to launch a campaign for Mayor Carter H. Harrison, who is seeking the Democratic presidential nomination.

THE BOHEMIAN GIRL

It is with great pride that the management of the Wichita Theatre announces the engagement of the Sheehan English Opera Company for Saturday evening February 17.

From the Atlantic to the Pacific coast press and public are unanimous in proclaiming this organization the finest opera company in the English language.

Realizing the fact that inasmuch as this is one of the most notable attractions heard in this country since the same Mr. Sheehan was here with the Henry W. Savage English Opera company, and that the demand for seats will be unusual, the management has arranged to allow patrons THE OPPORTUNITY OF PROCURING DESIRABLE SEATS AT ONCE FOR THIS ENGAGEMENT. This has been done in response to many requests from theatregoers who do not wish to stand in line, yet desire to be assured of good seats in advance.

Kindly fill out below how many seats are required, and the date. Send remittance by money order, express order or check, together with a stamped and addressed envelope, and mail to Marlow & Stone, Wichita Theatre, Wichita Falls.

MARLOW & STONE, WICHITA THEATRE, WICHITA FALLS, TEXAS.

Robatch's Mineral Water. It is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases. This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. Difference Between Stocks and Bonds. As few of us fully understand the difference between the words "stock" and "bond," we are giving below a clear definition, one that is formulated by the United States Railroad Securities Commission:

"A railroad bond is essentially a note made by the company; it promises to pay a certain amount of money, say one thousand dollars, at a specific date of maturity, and to pay interest at specified rates in the meantime. The obligation is definite. The value is limited by the terms of the instrument. "But a share of railroad stock is of a different, and more complex character. It represents two things instead of one: That a certain sum has been paid in, and that the holder of the stock has a certain share in the ownership of the property, of whatever value that may prove to be. The second of these things is what a railroad ultimately gives the stock certificate its value. In the case of a railroad bond the fact that it calls for one hundred or one thousand dollars is far from being the determining factor. It is but one incident among many, even in theory it purports merely to show that this was the amount originally paid by the purchaser when the road was built. It does not create an obligation to pay its face value, nor does that face represent its money value as a share. The value varies with the development of the property as a whole. "The principle of a bond is a fixed sum, its interest a fixed charge. The value of a share of stock is essentially variable, its profit essentially indeterminate."

POLITICS AND POLITICIANS. Nebraska City, Neb., has adopted the commission plan. Minnesota socialists will nominate their State ticket at Minneapolis this month. New Mexico's first Republican State convention will meet at Santa Fe on March 8. The membership of the present Congress includes twenty-five graduates of the University of Michigan. Lieutenant Governor Hall has entered the race for the Democratic nomination for governor of Indiana. E. S. Johnson, member of the Democratic National Committee, has made formal announcement of his candidacy for the Democratic nomination in South Dakota.

clean sweep without raising the dust? Fortune doesn't always knock when a woman is having her "at home" days. It doesn't cost any more effort for some people to laugh than for other people to worry. You can't always judge of a woman's standing from her efforts to get a seat in a crowded car. Hoax—"Your friends, the brewer and the doctor seem to be great friends." Joax—"Why shouldn't they be?
