NOTE OF APPRECIATION

We do appreciate the work the firemen did to put out the grass fire last Friday evening. If they hadn't got there as quickly as they did, our hay shed and hay both would have burned. These men are to be highly commended for the good work they do.

Also thanks to our good neighbor Mary Reeves for calling the fire department.

We are very grateful to each one of you.

PANTHERS BLAST PIRATES 44-16; HOST EVANT FRIDAY

Game at a Glance			
Gorman		Perrin	
13	1st Downs	8	
345	Yds. Rushing	84	
63	Yds. Passing	76	
3 of 6	Passes Comp.	3 of 8	
0	Intercepts	0	
1	Fumbles	3	
4-28	Punts, Avg.	7-23	
12-130	Penalties	4-40	

The Panthers jumped on the Pirates from the beginning gun and raced to a 23-0 first quarter margin and a 32-0 edge at half-time. The Panthers scored the first three times they had possession before pulling the starters before the half. The reserves scored a TD before half time then Jimmy Johnson, who was in the game on

offense only long enough to carry 6 times, booted a 27 yard field goal was the half ended.

The Pirates couldn't get untracked until the reserve defensive unit was put into the game, and they didn't score on the reserves until the latter part of the fourth period.

The Panthers took the opening kick off on their own 42 and scored in just 4 plays. Following a 2 yard loss on the first snap, the Big Red got a first down on the second snap on a run by Johnson, then Larry Keith added more yardage on another play. Then with the ball on the 36 yard line, Keith broke loose for a TD on a beautiful run with 10:34 left in the first period. Keith added the 2

pointer on a run and Gorman led 9-0.

The after holding the Pirates and forcing them to kick, the punt was returned to the Pirate 36 yard line. Then from there it took only one snap as Johnson got the handoff and raced the distance with 7:59 left on the clock in the first quarter. David Pettit ran for the 2 pointer and Gorman led 16-0.

After holding the Pirates on their next possession the Panthers got a penalty on the punt run back and got the ball on their own 13 yard line. From there it took only one carry of the six carries he had for the night, as Jimmy Johnson, rambled 87 yards for the score with 5:34 left in the first period. Kip Nemir kicked the PAT and Gorman

led 23-0.

The fourth Panther tally came with the Panther reserves in the game. After taking the ball on the Pirate 18 yard line the Panthers got a first and goal on two plays, then Steve Spivey got the final 7 yards on a quarterback keeper with 6:15 left in the second period. The kick for points failed.

Then with time running out in the first half, Jimmy Johnson booted a field goal from the Pirate 17 for a 27 yard field goal with Kip Nemir holding for him on the kick. The half ended with the Big Red leading 32-0.

Following the half the Panthers held the Pirates on downs and took the ball on their own 44. It took five plays for the Panthers to score. With Keith at quarterback the Big Red worked on their passing game. After 2 incomplete passes, Keith hit Johnson for 24 yards and a first down. Then Keith added another first down on an 11 yard run before tossing a pass to Johnson for 21 yards and a TF with 9:16 left in the third quarter. The kick for the PAT was no good.

The final Panther score came on a 62 yard scamper by Johnson with 4:56 left in the third. The kick for PAT was no good and Gorman left 44-0.

Then the Pirates got on the board with 6:51 left to play in the game with Holman catching a 60 yard pass for the TD. Gillespie added the 2 pointer on a run and the score stood at 44-8.

The Pirates scored again with just 1:20 left on the clock on a Gillespie run of 7 yards to finish a 42 yard drive in 10 plays after picking up a Panther fumble on the Panther 42. Jeff Mitchell ran for the 2 pointer to make the final score 44-16.

Johnson had an amazing night with 204 yards on just 6 carries to lead the Panthers. Keith had 52 on 7 totes. Danny Burgess had 36 on 7 carries. Tofer Bond had 14 on 3. Steve Spivey had 13 on 7 keeps. Dale Hogan got 11 on 8 tries. David Pettit was 2 for 9. John Woodall was 2 for 1 yard. Kip Nemir got 5 on 1 carry and Gressett didn't run with the ball.

The Panther defense was great against the Pirates while they were in the game. They held the Pirates to only 8 yards in the first half before turning the duties over to the reserves in the second half.

The Big Red will host the always tough Evant Elks on Friday night in the first District 6-B East game. The Elks average about 200 lbs on the front line and are expected to play Gorman a real tough battle, which is nothing new when these two teams get together for their annual rival. The Panthers will be really tested in this game and will have to have an all out effort by the entire squad to win this one. But we think that is exactly what they will have and will come out with a victory.

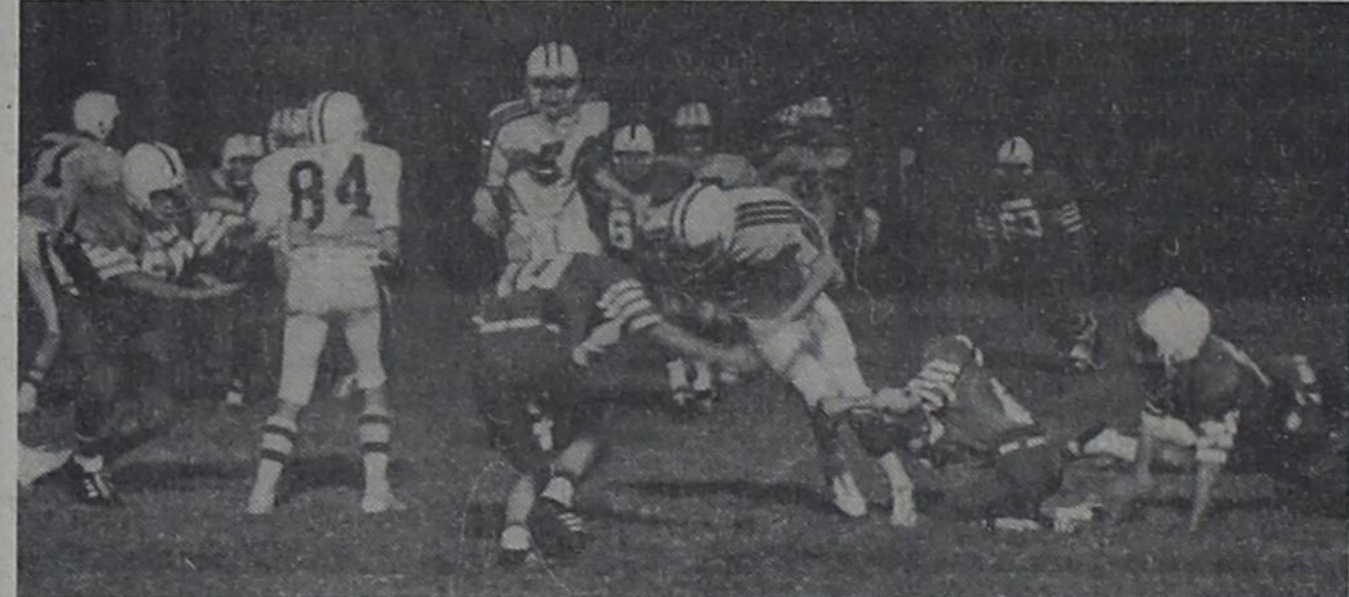

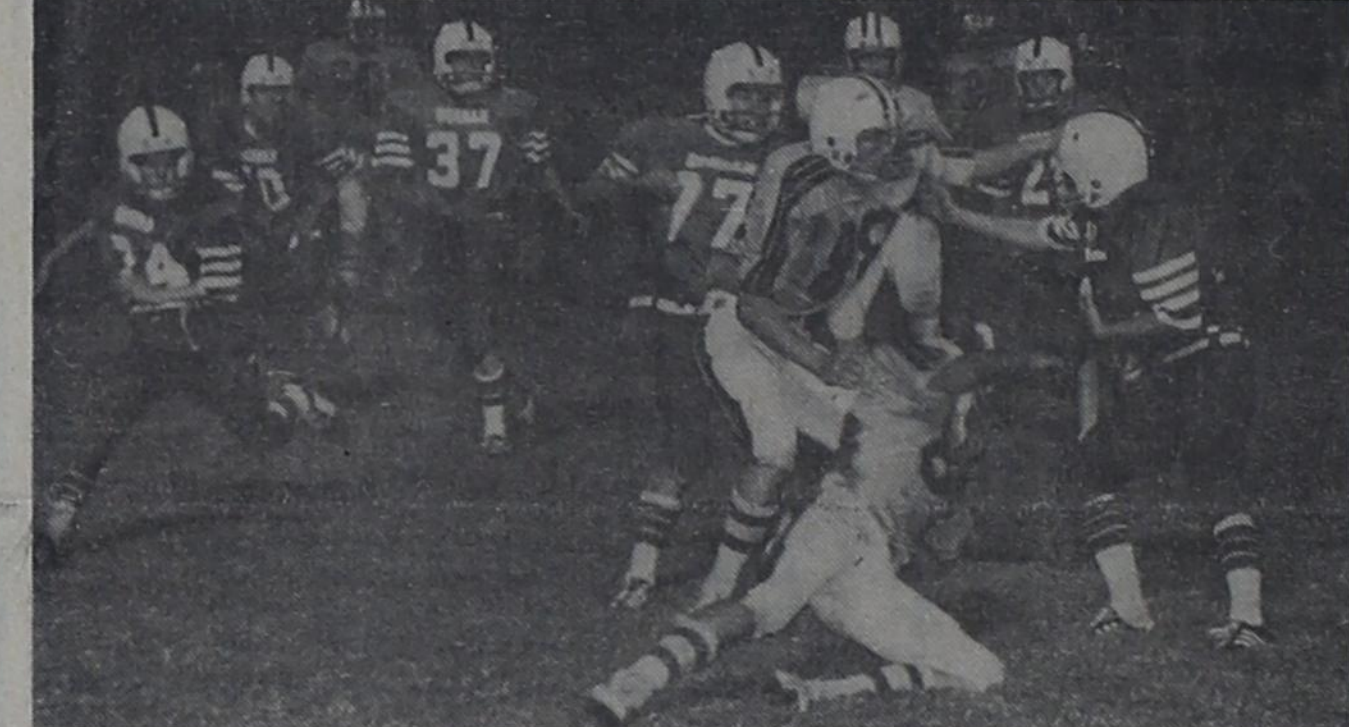

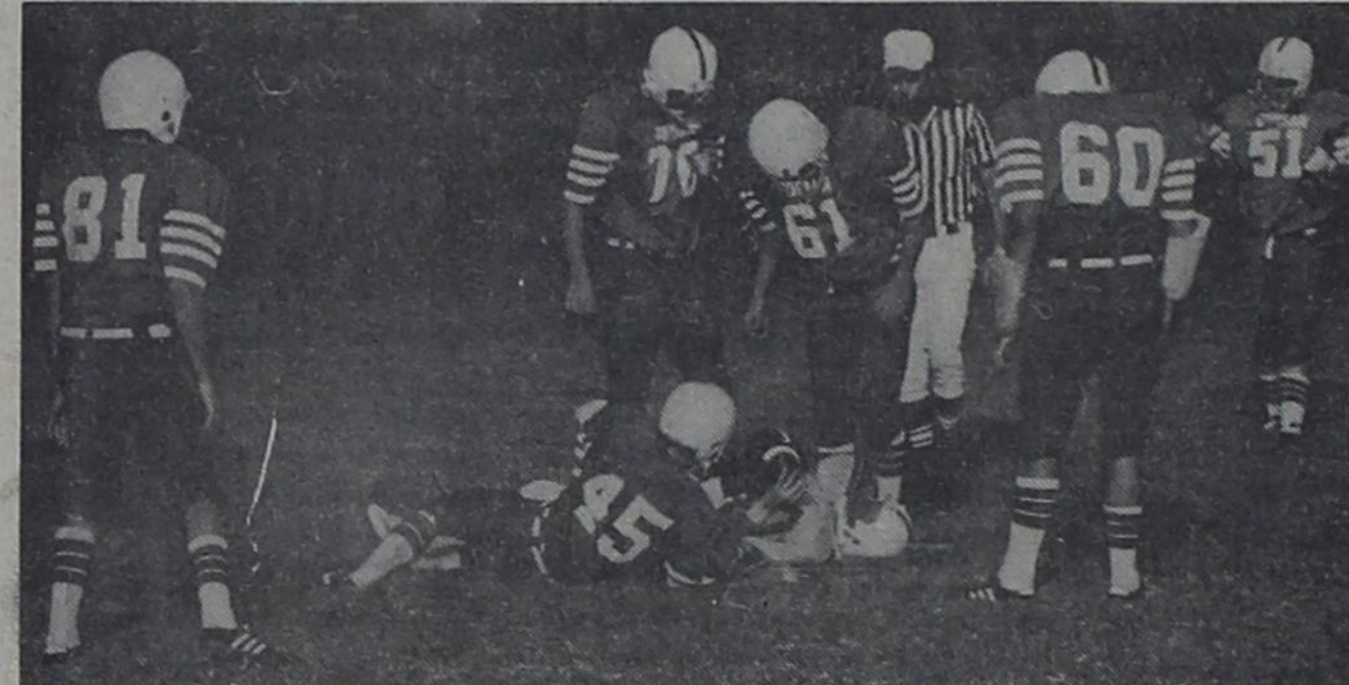

Remember that game time moves up to 7:30 p.m. Get 'Em Big Red!!

**SENIOR

NEWS**

My! Such hot dry weather and the elusive rains still passed us by. Tho we are waiting not too patiently for those heavy rains to come. It would help everything, even in keeping to prevent those horrible grass fires. Remember everything is just like a tinder box as it is so dry. So be careful with your fires. The Old folks are just taking it easy and hoping for a better tomorrow. Just hoping for a mild winter. So their fuel bills will not be so terribly high to pay.

The Office is barely holding on. As so many of the force is hauling hay and helping thresh that bountiful crop of peanuts. It is difficult for us to get any time to play.

Our sincere sympathy goes out to the families of Mrs. Ella Bennett, Mrs. Reed, Mrs. Ormsby. All must pay the debt and stand before the Judge of all Judges sometime.

The other day at Mrs. Bennett's funeral, Mrs. Lee Horn (The wife of the former Eastland Co. Sheriff, Lee Horn) came up to me and said that she wanted to shake hands with me. She said that Lee considered me as one of his best friends. I appreciated the compliment.

The Fall before he ran for Sheriff, Lee came to my place and told me he wanted to run for Sheriff. I told him he could not beat J. B. Williams. He told me that he would carry Cisco, Carbon and Eastland. I said "If you do you will be the new Sheriff." I will do all I can for you.

At that time he was Chief of police in Cisco. I told him we were teenagers together and I had spent many nights in their home. His brother, Lou and I were real close buddies. Lee said that he just wanted the job for one term. He said he wanted to have a chance in that office.

In the Fall before his term was up I told him he had a chance for another term. He said that he promised just one term. That Lefty Sublett would run.

Lee, Lou and I were all War I vets. That made me feel more than obligated to support him.

I noticed where the Pope when he was in the main farming part of the U.S. he asked the farmers to help feed the starving billions of people in the world. Tho he seems to be against any form of birth control. Does he know why American was founded? I am sure he is aware of the cruelty. How he murdered the Indians. Sent all their precious metals and jewels to his Church. Also how Cortez did the same thing to Montezuma. Bow to them and serve their priest of he killed. How the Spanish Armada from Spain & France supported bNapoleon started out to invade England. Tho they were destroyed.

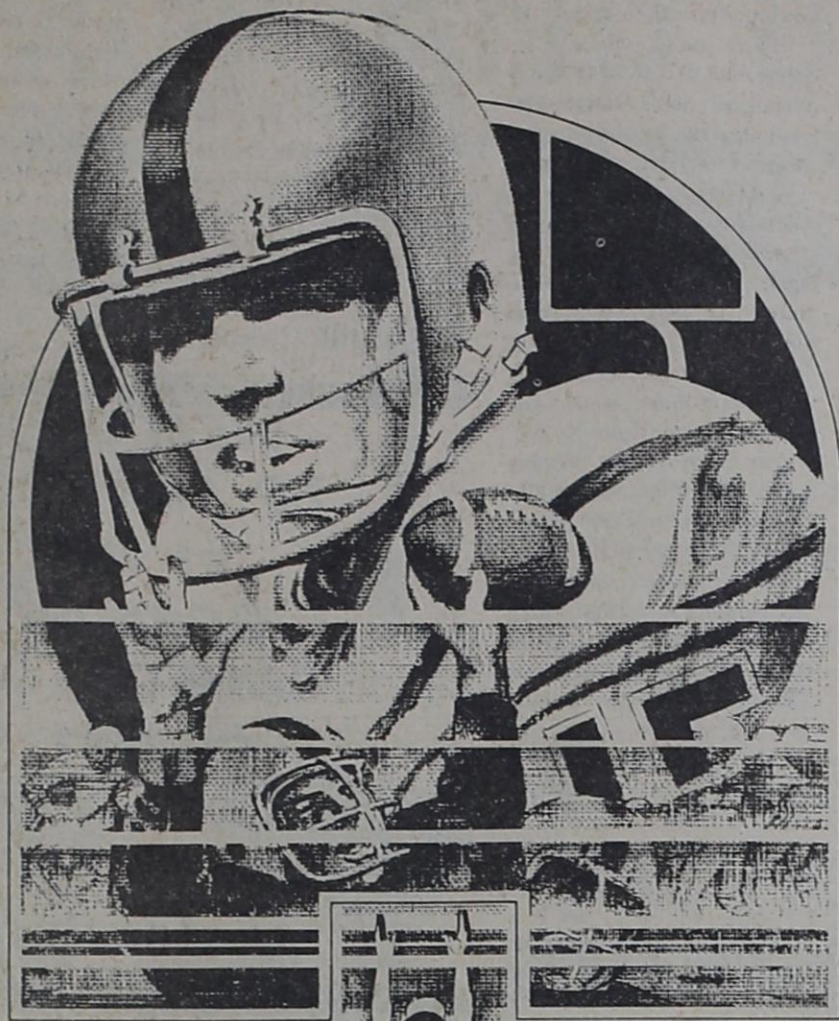

Remember the Pope is just a man selected by their church leaders, just as the Baptist, Church of Christ, Methodist and other.

I remember in 1908 my friend and I were working on a fence that joined the Bollinger place. Mr Bollinger came by and talked to us about a place he owned in Mexico. It was over 100 sections. He said it was such fine land and a warm ideal climate. He said you would hire a man to work for a week. You furnished them in supplies at the end of the week they wre a week in debt to you.

He said the people never married as the priest charged to much. They just lived in thacked protections and also raised children with no hope of being able to feed, cloth and educate the. That was their religion. In 1910 the Mexican Revolution began, I understand he lost all or most of his property. More have been killed in religious wars than any other wars.

Go, Big Red, you are on the right road.

Look up and Smile, it pays.

City Chit Chat

BY
CHARLIE L. GARRETT,
MAYOR

The City Commission met in regular meeting on Oct. 4 with the Mayor and all Commissioners, except Mr. Smith, present. Others attending the meeting were Mrs. Brinegar, Mr. Irvin, and Mr. Ingram.

Minutes were approved as presented and the bills for September were approved with two on which we needed some information. Mr. Ingram presented the monthly report for Mrs. Ingram on the activities of the Municipal Judge for September. Mr. Irvin reported to the Commission on work that had been done during the past month, which included several days of work on the theater building and the laying of some water lines,

some street repair and general upkeep of city work.

It was brought to the attention of the Commission that there had been some complaints by some citizens on property that was unkempt. There seems to be about four areas in which these complaints fall. One area is in lots that have grown up with weeds and grass to the point that are unsightly as well as a fire hazard. The City will be glad to now these lots for a reasonable fee is asked to do so. Another area is in some building that are abandoned and in some cases are falling down. The Commission would like to see these torn down and the property cleaned up. Some of these are fire hazards and may have to be condemned by the City and wrecked because of this. Another area is with

abandoned cars on the street or alley and on private property. We ask those who have these cars to please remove them so that the City will not have to take legal means to do so. The other area is in general upkeep around the homes. Some complaints have been made of much trash being thrown around the house and blowing on the neighbors. Some reports have been on goats, hogs, and other animals that are being kept too close to homes so as to cause a problem. These people are ask to consider the neighbors and try to control this type of complaint.

After discussing these complaints, the Commission voted to draft a letter to be sent to the people on whom we receive a complaint asking them to cooperate with us in correcting it. It is hoped that they will help correct matters on which complaints are made without the city having to use existing City Ordinances to have these things corrected. We do have ordinances that cover all of these types of complaints, but we would rather that those who are guilty will make the corrections without us having to use them.

The Commission voted to pay the remainder of the Swimming Pool note. We paid \$640.26 which paid the note in full. Thanks to Bird-songs for the \$500.00 they gave for this purpose. We are planning a note burning ceremony in the near future. We will let you know when.

I reported to the Commission that I had attended the meeting in Austin on the grant for updating the sewer system. We have been approved to make application for this grant, and if it were approved, we could get up to \$67,500 on the project on which we would have to put up about \$22,500, which is 25 percent of the total cost. If we got this grant, we could install lift stations and get those areas of town that do not have sewer, on the sewer system. This would be an asset to out town as well as serving some families who have never had sewer connections. The City's part of this project can be financed with a loan to be paid back over a 20 year period with a reduced rate of interest. It is estimated that the loan could be repaid over this period with an increase of less than 40 cents per sewer con-

nection. Other adjustments would have to be made to industries and institutions according to the amount of waste water each month that goes into the sewer system. The Commission would like to have some feedback on this proposed project so that we will know if the citizens are willing to see the system upgraded. I will be telling you more about the project and if we get the right kind of feedback, we will be calling some public meetings to inform you just what we are doing and what we think it will mean to the city in years to come.

At the meeting, we rejected all bids that we had on the used equipment that we have for sale. If you are interested in any of this equipment, you will find it advertised in the classified section of this paper. Bids will be opened on November 1, 1979 at 9:00 A. M. in the regular meeting of the Commission. Mail or deliver bids to the City office prior to this time.

Carroll and Carolyn Bays and family of Mineral Wells, Ken Brown of Lingleville, Cathy and Patti Roberson of Stephenville, Melani and Wade Armstrong of Highland, Danny and Cindy Decker, Brad, Terry and Jennifer Moon, J. C. and Patsy Moon and family all spent one night this week with Clell and Dorothy Bays of Lingleville. They all reported having a wonderful time and are looking forward to the annual slumber party next year.

Jane Musick of Lingleville and I visited on Wednesday afternoon with Jeanne, Will and Miki Grimshaw. Niki will see a doctor in Fort Worth on Wednesday. Hope she will soon be as good as new.

Valera Brown of Lingleville and Patsy Moon were in Fort Worth on Friday doing some shopping.

James Mac and Merle Jo Parks of Lingleville were visiting on Friday with Joe and Ann Staude.

Tony and Randy Payne of Lingleville spent Friday nite with Leslie Riddell. On Sat-

urday they along with Tena joined a group from Huckabay and Lingleville and attended the Dallas Fair.

Blake and Delilah Morrison visited on Wednesday afternoon with Hettie Fin-cannon of the Dublin Nursing Home.

We attended Ben Koonces birthday party in the home of Joe Ben and Billie Fay. Koonce on Sunday afternoon. A large crowd was there and we all enjoyed it. Happy Birthday, Ben. May you have many more and each one better than the last.

I've been having trouble with my little granddaughter this week. She wrote on my car (in the dust) Will is dum. I had the audacity to tell her that dumb was spelled with a b in the back of it. In a day or two I was at their house and Jeane and I were talking about doctors. I told (in no uncertain terms) who I wanted the kid to go to and who I didn't want them to go to. In a minute Niki said, "Grandma, now you corrected me the other day now I have to correct your spelling. When you were talking about the doctor you spelled a word

TAX FREE

A Tax Assessor came one day to a Christian to ascertain the amount of taxes he would have to pay. The following conversation took place:

"What property do you possess?" asked the assessor.

"I am a very wealthy man," replied the Christian.

"List your possessions, please," the assessor instructed.

"First, I have everlasting life." (John 3:16).

"Second, I have a mansion in heaven." (John 14:2).

"Third, I have peace that passeth understanding." (Phil. 4:7).

"Fourth, I have joy unspeakable." (1 Pet. 1:8).

"Fifth, I have divine love which never faileth." (1 Cor. 13:8).

"Sixth, I have a faithful wife." (Pro. 13:10).

"Seventh, I have healthy, happy children." (Ex. 30:12).

"Eighth, I have true, loyal friends." (Pro. 18:24).

"Ninth, I have songs in the night." (Ps. 42:8).

The tax assessor closed his book and said, "Truly you are a very rich man, but your property is not subject to taxation."

If all of a person's wealth is subject to taxation, then he is a pauper.

We invite you to worship with us at the First Baptist Church. Darrell Dossey -Pastor

KOKOMO NEWS

By Zelda Jordan

We've sure got strong north winds and a sand storm this morning (Tuesday). It's sure not good for the peanut farmers with peanuts blow-

ing all over the fields. Sure is hard to find the windrows with peanut vines scattered all over the fields. Mr. and Mrs. J. C. Clear-

man returned home Thursday following his surgery and stay in the Hendricks Medical Center in Abilene and he is feeling well and slowly gaining his strength. Their daughter, Mrs. Mike Leonard and Kami Jo and a friend Mrs. Ernest Shira of Canadian spent the weekend with the Clearmans. Kami Jo remained for an extended

visit. Mary Joe, Kami Jo and Phyllis were visitors at the Kokomo Baptist Church on Sunday.

Inflation affects your electric bill even more than your grocery bill.

Every time you go to the grocery store you can see what inflation's doing to your food bill. But because you don't buy electricity by the can, you probably don't realize how inflation affects the cost of electricity.

Fuel costs are up, particularly natural gas. Equipment costs are up. Power lines, transformers and poles cost us more every day. Just like milk costs you more every day.

The millions of dollars we must borrow to build plants to ensure your electricity needs in the future are costing us more.

The cost of building these plants is higher, too, because of inflation. And because of the time and money it takes to comply with an ever-increasing number of government regulations. The longer it takes to build, the more inflation takes its toll.

Inflation, overregula-

tion and rising fuel costs are all making your electricity cost you more. But by using electricity wisely you can do your part in keeping that cost down in your home.

At Texas Electric, we want you to know what you're paying for.
