THIRTY-FIVE ON HAND FOR DISCUSSION OF REORGANIZATION

W. B. Hamilton, of Wichita Falls, and D. A. Bander, former manager of the El Paso Chamber of Commerce, were introduced to a distinguished group of 35 South Plains citizens as the new president and general manager, respectively, of the West Texas Chamber of Commerce, when the directorate and constituents of the regional organization conferred here today with reference to the future program of the revamped institution.

The president and general manager outlined the general policies of the West Texas Chamber of Commerce, in harmony with resolutions adopted at the El Paso convention, to the assembly this morning in the office of the Lubbock Chamber of Commerce.

Charles E. Coombs, former mayor of Abilene, but now a resident of Stamford, and a vice-president of the W. T. C. C. gave an analysis of the land title situation now prevailing, urging the prior right on the part of record owners to purchase any judicially ascertained vacancies. He further emphasized a plea for change of venue from Travis county to the respective county in which the vacancy is ascertained to exist in connection with title hearings.

Mr. Bander made a modest statement of his conception of duties of the new office and said that he

FIFTEEN WITNESSES IN FATAL STABBING ARE SUMMONED BY BODY

AUSTIN, Nov. 15.—Investigation of the death of Miss Leila Highsmith, 28, in connection with which former Judge John W. Brady of the Third Texas Court of Civil Appeals is held without bond on a charge of murder, was still in the hands of a grand jury today.

About fifteen witnesses awaited turns in the grand jury room, all presumably to testify regarding knowledge of the slaying. Among them were several young people who had rooms at the house where Miss Highsmith, a state house employee, lived and in front of which she was stabbed to death last Saturday night.

Special prosecutors engaged by the dead girl's father, A. G. B. Highsmith, of Baytown, announced a court record would be made of the fact that Judge Brady witnessed a will a year ago in which Miss Highsmith's grandmother left her some property. The will will be filed for probate.

Will Brady of Ventura, California, an attorney and the accused man's brother, joined the array of defense attorneys, said to include some of the most widely known lawyers in the state.

"People of Austin have honored us through the years," Brady said, "and we believe they will withhold judgment in this matter until all the facts are developed."

Mrs. Brady had dinner with her husband in the county jail last night. The food was brought in from a restaurant. Earlier the accused man had a call from his brother.

S. F. GRISSOM VICTIM OF OWN SHOTGUN AT CROSBYTON

(Special To The Journal)
CROSBYTON, Nov. 15.—Funeral services for S. F. Grissom, 60, a resident of Crosby county for 12 years, who ended his life here late Thursday when a self-inflicted discharge from a shotgun took effect in his chest, will be held here tomorrow afternoon at the Hatchell undertaking parlor.

No reason for his act was ascertained. An inquest conducted by Justice of Peace Carter Chase resulted in a verdict of self-inflicted death.

Shortly after 5:30 Mrs. Grissom went to the back yard of her residence and was busy hanging out clothes. Her husband went to the back steps of the home and leaned upon the barrel of the gun pushing the trigger with a stick. Death was instantaneous.

J. G. Brunson, who was digging post holes 50 yards away, turned in the direction of the gun report and saw Grissom fall to the ground. Survivors are the widow, a son and two daughters.

CITY'S WELCOME GOES TO VISITORS UPON ARRIVAL TODAY

Amid the vociferous acclaim of a howling mob of football enthusiasts, four hundred loyal supporters of the Wichita Falls High school Coyotes landed here at 1:30 this afternoon to be on hand for the clash on Tech Field between the Westerners and Coyotes at 3 o'clock.

Met by a large delegation of Lubbock High school boosters and local fans, the Wichita throng embarked on their special train and immediately joined in a gigantic parade with the Westerners forces through the downtown section of the city.

Bands, pep squads from both schools led the demonstration and an impressive array of automobiles, decorated in Lubbock and Wichita colors, joined in the parade. Gold and Black and Maroon and Black were flashed from every vantage as the army of football-mad fans made their way to Coyote headquarters at the Hotel Lubbock.

A veritable army of automobiles, provided to transport the Wichita visitors from the city to the football field, was on hand at the hotel at 2 o'clock. The majority of the Coyote boosters were carried to the scene of today's encounter long before game time.

BEST MAN WINS! CUPID NEARLY LOSES AT JUSTICE ALTAR

EVANSTON, Ill., Nov. 15.—R. V. Robinson was just passing by. He did not intend to get married; but he had, in his own words, "a very narrow escape."

Now consider Sebastian Fersinger and Miss Etta Frame, who did want to get married. They said as much to Justice of Peace Harrison.

He Gets Best Man

"If you insist upon being married," said the Justice, "I won't argue. However, you need a best man. Pardon me while I get a best man."

Justice Harrison went outside. Mr. Robinson was passing by. "How," said Justice Harrison, "would you like to be a best man?"

"I don't mind," said Robinson. "Anything to help out."

Back in the Justice's courtroom, the folks line up.

"Do you," inquired Justice Harrison, "take this young woman to be your lawful wedded wife?"

"Not On Your Life"

"I should say not," said Mr. Robinson, reaching for his hat. "I'd be willing to be best man, but I won't marry anybody."

Justice Harrison reached for his glasses put them on and looked the situation over. He had placed the best man where the bridegroom should have been, and vice versa.

"My error," said the Justice; and soon thereafter Miss Frame became Mrs. Fersinger, and Mr. Robinson went home.

PRISON BREAK PLANS NIPPED

COLORADO GUARDS GET 300 POUNDS OF PEN-MADE WEAPONS

(By Associated Press)

CANON CITY, Colo., Nov. 15.—An impressive array of improvised weapons, apparently manufactured by convicts at the penitentiary here against the time when an organized prison break would be possible has been uncovered by guards working under direction of Warden Francis E. Crawford.

Daggers, metal blackjacks, pieces of pipe and other weapons, weighing in the aggregate more than 300 pounds were removed from hiding places in the penitentiary by guards. The last night Warden Crawford announced the search would be continued until every possibility of finding other weapons had been exhausted.

Were Well Hidden

The weapons were ingeniously hidden—some in walls where they had been camouflaged and others in beds where it was made to appear they were parts of the springs.

The discovery of the weapons was coincident with resumption of the investigation by Governor Adams' investigating committee into causes of the riot at the penitentiary October 3 and 4, in which 13 deaths occurred.

THREE COUNTY HIGHWAYS ARE UP TO VOTERS

C O M M I S S I O N E R S C L O S E HEARING; NO. 5, 9 AND 7 AFFECTED

BY AL HILL
Of The Journal Staff

An election to be held on Tuesday, December 17, was ordered by the Lubbock County Commissioners' court just before noon today, for the purpose of voting on a county-wide road bond issue to provide funds to pave Highways 7, 9 and 53.

The court voted unanimously to order this election, and were cheered by several dozen citizens from Slaton, Lubbock and other parts of the county, when the order was passed. The three petitions before the body were deferred for action until later, this election order having followed presentation of a petition, signed by more than 700 voters, which was placed before the court shortly after 11 o'clock.

Slaton For Plan

Out of 222 voters approached in Slaton, according to J. H. Brewer of that city, only one refused to sign it. In the city of Lubbock only a very few were reported to have refused their signatures and these were known to be opposed to any bond issue. Signers in Lubbock included men from every side of the long-drawn-out controversy over this county's road problems.

The petitions were circulated both here and at Slaton, late yesterday evening or early this morning, after a compromise proposition had been suggested at the hearing yesterday by Slaton representatives. Proponents of the district plan agreed and immediately prepared petitions and began their circulation.

Election Evident

Election was evident from all corners, at the courthouse this morning. In addition to passing the election order, the commissioners passed a resolution wherein they are telling the voters of this county and

TECH FRESHMAN IS TO RECOVER DRINKING OF ACID

"Because she had been in ill health and didn't want to live," Miss Louise Morgan, pretty 16-year-old freshman co-ed of Texas Technological college, sought to take her own life late yesterday when she drank two ounces of carbolic acid.

Attendees at the Lubbock sanitarium, where she was taken by a chum shortly after the incident occurred, announced this afternoon that her condition is considerably improved and that there is hope for recovery.

Walked To Sanitarium

Miss Morgan is the daughter of Mrs. L. W. Gill, 2210 28th street. She walked into the sanitarium building, but shortly afterwards slumped into a chair, her strength fastly waning and then she lapsed into unconsciousness.

An examination revealed that her mouth and throat had been badly blistered, while the smell of carbolic acid was strong in her breath.

Before entering Tech she was a student at Baylor college, Belton.

DAMAGE SUIT GETS RECESS

WACO ALIENATION SUIT BRINGS TESTIMONY FROM OLD FRIEND

(By Associated Press)
WACO, Nov. 15.—With a week-end recess because of a death in the Wigley family, attorneys today planned their campaign for resumption of the million-dollar alienation of affections suit against Flo Crespi, cotton dealer, here Monday.

The suit was brought by Willard Wigley, whose divorced wife, Mrs. Florence Wigley, is now Crespi's wife.

A mutual friend of the Crespi and Wigley families, Mrs. James H. Riley of Waco, told what she knew of relations between the former Mrs. Wigley and Crespi in yesterday's session.

Love Is Admitted
Mrs. Riley said the day before Mrs. Wigley's permanent separation from her first husband, Mrs. Wigley said to her, "I love Flo, and Flo loves me." Prior to then, Mrs. Riley said, the Wigleys had seemed to love each other devotedly, and never quarreled or spoke impatiently to each other.

She said that at one party at her house, to avoid an embarrassing situation she asked Florence Wigley to help her serve, but despite this precaution, "Florence would flit out from the serving table to the back hall and talk with Flo." She made efforts, she said, to persuade Mrs. Wigley to return to her husband after their first separation.

All standard varieties of poultry, including turkeys, ducks and also a rabbit display, are expected to be better this year than ever before. A large turkey display was had last year.

Sweetstake premiums this year are \$5.00 instead of \$4.00 as heretofore. Other premiums are unchanged.

Witnesses Reminded To Stick To Truth

LAMEZA, Nov. 15.—The commandment, "Thou shalt not bear false witness," has been painted in letters two feet high on the railing of the balcony of the Dawson county court room. This little inducement for witnesses to stick to the straight truth when testifying was thought of in 1916 by Judge J. E. Garland, who was county judge then. The wording was painted a few months after the present court house was completed.

HEADACHE AND BAD BREATH

These Symptoms Often Go Away Following the Use of Theodor's Black-Draught.

Winston-Salem, N. C.—"I have been using Theodor's Black-Draught for twenty-five years," says Mrs. Lydia E. Hiley, of 519 West Seventh Street, this city. "I try never to be without it in my home, because I find that a pinch will ease the headache."

"I take Black-Draught when I am bilious or have indigestion. I have found that much of the trouble of this kind comes from constipation. Black-Draught is the best medicine I have ever found to prevent it."

"It is the only medicine I can take and keep on with my work. One of my children was troubled with bad breath, and I gave her Black-Draught. She got over it right away."

"I favor Black-Draught, because it seems to drive the poison out of the system in a natural way."

When you take Theodor's Black-Draught, the digestive organs are helped in a healthy, easy way, and normal elimination is restored without the sickening effects that characterize the use of powerful mineral drugs.

SMITH CASE ENDS AS CASH IS PAID

SAN ANGELO, Nov. 15. (AP)—District court spectators who lingered Thursday night witnessed an unusual demonstration of mahogany decorating when James Cornell, attorney, dumped \$34,516.70 in ten and twenty dollar bills on a table as final payment to W. A. (Dutch) Smith under an agreement whereby Smith and heirs of his deceased wife, Mrs. M. A. Smith, ended a long court battle over wealth that poured from a West Texas goat ranch in the form of oil.

Cornell had asked the court to decide whether the money should be paid to Smith or his receiver Claude B. Smith. The court held the money should be paid to the guardian. Thereupon Cornell dumped the huge pile of currency on a mahogany table and proceeded to count it out. After checking the count, Claude Smith replaced the money in a cloth bag and packed it through the streets under his arm to a bank.

OLD TRADITIONS LOSE TO PROGRESS, SAYS EX-SECRETARY

(By Associated Press)
DETROIT, Nov. 15.—Josephus Daniels, Secretary of the Navy in the Wilson cabinet, today expressed belief America has discarded its traditional policy of "alliances with none," and by successive steps is approaching the door of the League of Nations.

Although leaders have felt committed since 1920 not to reurge entry into the league, he said in an address prepared for delivery before the Civic club here, America has been constantly associated with all international efforts to achieve the goal of the league, permanent peace.

"Should Take Courage"
"Let us thank God and take courage," he said, "that two recent events advance us toward the goal that has always been near our hearts."

These, he said, were ratification of the Kellogg-Briand treaty for the renunciation of war, and the personal discussions of President Hoover and Prime Minister Ramsay MacDonald of Great Britain.

Living and Loving

BY MRS. VIRGINIA LEE

"DEAR VIRGINIA LEE: I am a young married woman 24 years old and have no children. I have been married five years and have worked most of the time. I am helping my husband husk corn now. He never buys me any pretty clothes, as he doesn't approve of it, but he likes to dress up and go out and talk about how other girls are dressed. He doesn't stay home much of the time. I am letting my hair grow, and it is straight and I want a permanent, and he wants me to keep it bobbed so he won't need to pay out the money."

"Would you give me advice what to do, as I am tired of living like this? Does my hubby love me or is he jealous of me?"

He may love you, Pete, but he loves himself and the apple more. If you take care of the home and work outside besides, you are certainly entitled to pretty clothes and the permanent you crave.

Does he handle all the money? If not, take part of what you earn and get what you want. If he does, tell him you won't work unless you get some money for yourself.

A working wife certainly has a harder time than her husband, for she holds down two jobs, while he only has one, and money matters should be arranged so that both have some money of their own when house expenses, insurance and savings are deducted from the sum total of their salaries.

ANXIOUS: The boy friend belonged to the other girl, didn't he, in the first place? He merely went with you because he couldn't go with her when she was away? It was unfortunate that you grew to like him in that time.

If things had been the other way around, and you had been going with a boy who went away and was just friendly to another in the meantime, you can see that you would think it all right to go back to the first one when he came back, wouldn't you? If you can follow that somewhat involved sentence, I think you have a good start for being popular right now, and probably will be more so as you grow older and have more poise.

WEARY BROWN EYES: It is a bit mixed up, isn't it, dear? But the boy you love seems to have the sporting idea, it seems to me. He won't "cut in" on the boy friend.

FAITHFUL writes to cheer "Just Waiting," who feared the girl thought him a flat tire because he went to church and Sunday school.

She is 23 and in much the same position, for she finds that young men are not much interested in church and she is, and is a teacher in the Sunday school. She is sure still waiting will be richly rewarded for his 18 years' Sunday school attendance.

UNLUCKY KID: You can write the boy a letter if you wish, but there is no occasion, as you answered his card with another and he could write if he wanted to continue the correspondence. The boy asks the girl to wear his ring or pin, if he wants her to. You are pretty young to have dates, but if your parents know the boys, and approve, there is no harm in an occasional one. Be friendly and you will find you will make friends.

"DEAR VIRGINIA LEE: I am a girl 18 years old and keep house for my father and three brothers. I am starting to go out with other fellows but my brothers don't approve and call me wild when I have not had a special date yet. My father doesn't seem to care much.

I have a girl friend who is quite peppy but is decent, and they call me wild on account of her. Please advise me. Am I too young to go with fellows? I always refuse a bum when he asks me to go with him. Shall I listen to my brothers? One is younger and one older than me. I always have their meals on time and don't see why they should have so much to say.

"LONESOME JAKE." Brothers are like that, my dear. They always think they should run sister's affairs. I shouldn't pay much attention to them unless they advise you against going with a certain fellow whom they know isn't all right. You are old enough to have boy friends, and as long as you are decent there is no reason why you shouldn't have a good time with the rest of the young people.

BROKEN HEARTED BLONDE: Why not write the boy friend a little note and tell him that if you hurt his feelings through your kidding you are sorry and will try not to do it again. If he doesn't respond to that you will have to let him go, as there is no use running after him, writing him your hands and moaning. He should have known you better in the first place, than to think you would deliberately hurt his feelings, and in the second place, he hurt you by what he said, so he, too, should apologize.

HOPING 5-3: To set your mind at rest, write to the boy and tell him you have written him a letter. The law has been telling him things about you for her own ends. Tell him you had noticed or imagined.

It's a hearty breakfast—and so tasty and so easily digested

SENATE PLUGS ON WITH BILL

REVOLTERS BEAT PLAN FOR RECESS; TARIFF MEASURE UP

BY FRANCIS M. STEPHENSON
Associated Press Staff Writer

WASHINGTON, Nov. 15. (AP)—Surprised by a new uprising in republican ranks, emanating principally from the newer members classified as "Hoover regulars," the weary Senate was plugging ahead on the tariff bill today with its prospective week's recess before the regular session overwhelmingly denied.

Without warning this new republican bloc came to the surface yesterday to strike out against the tariff leadership and to join that other republican faction, the western independents, in voting against the 7 days recess unless the tariff bill is passed.

No Speeches Made
The new members made no speeches and expressed no opinions to the harassed Senate leadership which turned on them heatedly, but they passed the word they intended to keep the Senate in constant session in an effort to get the tariff bill out of the way before December and circulate a round robin pledging members to be present.

Stubbed by this new show of independence which had thrown their week of rest overboard, the Senate leaders turned the tables and demanded night sessions of three hours in addition to the regular eight-hour daily meetings, and the weary Senate was grumbling away today in a faint but desperate hope of getting the tariff bill out of the

EMBATTLED SUITORS FORGET PRIZE AND AMBROSIA IS THE LOSER

CHICAGO, Nov. 15. (AP)—Romantic and 18, Ambrosia Brown curled her lip, scornfully last night when two suitors, meeting on her doorstep, agreed to flip a coin for her company.

"Fights it out like men," she taunted. "My hand to the winner." So Albert Hanson and Tallant Tjetzo fought—until Sergeant James Kearney happened by with his squad. Today they glared at each other from the bench of Judge Herbert C. Immenhausen, Ambrosia, blushing appropriately, stood near.

"Which one do you love?" the court inquired.

"Both," was the perturbing reply.

"Well, the three of you go in my chambers and settle it."

A few moments later, the two men, arms about each other's shoulders, stood again before the judge. Ambrosia was missing.

"You are friends again?"

Together: "We are."

"Do you still love Ambrosia?"

In unison: "Never heard of her."

way before the regular session.

Observers Surprised
Political observers were studying with interest today this new political phenomenon arising in an already politically historical Senate session which has seen a substantial group of western independents bolt the leadership of President Hoover and, joining with the democrats, assume control.

The new republican faction is counted among the strongest supporters of the president in the Senate. It apparently has no leadership and apparently arose in protest at the proposal of a week's vacation from the long grind on the tariff.

Leaders Deny Guilt
At least, Senators Vandenberg of Michigan and Sackett of Kentucky, who are generally credited with organizing the revolt, insist they are not its leaders. They say privately the group has only one purpose—the passage of the tariff bill before the regular session—and arose with-

out leadership as a common expression of concerted view.

It was Senator Harrison, democrat, Mississippi, who retaliated by demanding the night sessions, and he served warning in emphatic language he would expect all those who opposed the adjournment to be constantly on hand.

Speaking back for the republicans who left the party leadership on adjournments, Senator Robinson, of Indiana, said they intended to stay on the job until the tariff task is completed. Senator Vandenberg immediately circulated a round-robin petition pledging members to attend all sessions, and he had well over 20 republican signers today.

FEAR OFFICER THUGS' VICTIM

CHICAGO GANG BLAMED FOR MYSTERIOUS DISAPPEARANCE

(By Associated Press)

CHICAGO, Nov. 15. (AP)—Pears were expressed today by Northern Indiana officials that Deputy Sheriff O. B. Jarman of Rome, Ga., had been slain by companions of Elizabeth Brooks, alias "Honey" Sullivan, alleged "bandit queen," whom he was taking back to Georgia.

Jarman, or a man purporting to be him, presented extradition papers, signed by Gov. Harry C. Leslie of Indiana to Sheriff Lyle of Lake County Tuesday for the young woman. She was wanted in Rome with two male companions in connection with a \$12,000 payroll robbery.

Since Tuesday nothing definite has been heard of either Jarman or Miss Brooks. Authorities believe Jarman either was waylaid and slain after obtaining extradition papers and his documents stolen and used by the young woman's companions or he was slain while en route back to Georgia with her.

Griffin Gets Long Term For Slaying

WAXAHACHIE, Nov. 15. (AP)—Cleve Griffin of El Paso must accept a 99-year prison sentence for the slaying of his father-in-law, Grant Swafford of Avalon, near that town last May unless his attorneys can upset the decision of a jury here last night.

The jury, after deliberating for an hour, voted for conviction and a 99-year term. Mrs. Griffin, daughter of the slain man, and her daughter, Mildred Griffin, sobbed as the verdict was read, but Griffin was calm.

"I never thought

went into places
like that!"

Mrs. BEARDSLEY had just returned from the city and she was telling her friend, Mrs. Stanley, all about her visit.

"... and I saw him through the window. He was all alone at a table in the main dining room of the very best hotel. I was so surprised—you know, from seeing your husband washing his own car and cutting the grass himself and all those things. I didn't think he was at all extravagant."

"Sure, I go in there once in a while when I'm in the city," Mr. Stanley told his wife that evening. "It's not for the food. It's for the coffee. That coffee is worth the price of a meal there by itself. You know, dear, I simply must have good coffee once in a while and... well, I didn't like to hurt your feelings by mentioning it."

"That coffee, madam," the waiter told Mrs. Stanley the next time she accompanied her husband, "is White Swan Coffee. This hotel has used it for years."

Wives who are coffee-wise know that the appetizing aroma and satisfying flavor of White Swan Coffee served at home makes everyone wish that every meal could be eaten there.

"... and I saw him through the window. He was all alone at a table."

TAXES LIKELY TO FALL SOON

TILSON SAYS CUT WILL COME BY HOLIDAY SEASON

(By Associated Press)
WASHINGTON, Nov. 15.—Representative Tilson of Connecticut, the republican House leader, predicted after a call at the White House today that the treasury tax reduction proposals would be passed by the House before the Christmas holidays.
Tilson said he canvassed the possibility of early passage of a tax bill with the President and was confident no objection would be interposed in the House to this course.
One Per Cent Reduction
The treasury proposal is for a one per cent reduction in the individual and corporation rates.
The House leader said he had held conferences with various groups in the Senate and felt little difficulty would be met in passing the bill.
He added a resolution to carry out the reduction would be referred to the ways and means committee as soon as the December session convened.

"It Is Wonderful To Feel Like I Do"

Amarillo Woman Declares She Owe Present Good Health To Orgatone; Gains Eleven Pounds

"For more than two years before I began taking Orgatone, I suffered with stomach and kidney trouble," said Mrs. E. R. Pigg, who resides at 2503 Sanborn Avenue, Amarillo, Texas.
"When I began taking Orgatone," Mrs. Pigg continued, "my system seemed to be all run-down. My back would sometimes hurt me so I could hardly stand up. I had no appetite, couldn't eat much of anything and of course got badly run-down. I also had a great deal of troubles but kept on suffering just the same. My strength and general health was leaving me all the time. I felt tired and worn out from one day's end to the other and was hardly able to attend to my household duties."
"But it is all different now since I began taking Orgatone. It is really wonderful the way it has built me up. Why, do you know I have already gained eleven pounds in weight on only three bottles, and am strong enough to do my own housework with ease. I can get around now without those aches or pains and actually feel better than I have in years. It is certainly wonderful to feel well like I do now all the time and I am glad to have the privilege of making this statement because I believe it will be the cause others getting relief."

COUNTY-WIDE BOND ELECTION CALLED BY COMMISSION ON 17TH OF DECEMBER

(Continued from page 1)

the members of the Texas State Highway Commission that this election is to be considered, in no way, a referendum on the routing of Highway 53 out of Lubbock. This resolution also stipulated that certain conditions alleged to appear on minutes of the highway commission, pertaining to elections and routing, did not meet with the county commissioners' approval; that they never entered into such and never would.
Commissioner W. L. Brashear, of Idalou, remarked this morning that he believed the voters of his precinct would be quite favorable to this county-wide proposition and that considerable support to it would be had. Douglas Pounds, of Idalou, stated that the voters of his locality would be inclined favorably to this election, also.
"Best Available"
Charles F. O'Neill, chairman of the Lubbock County Good Roads association, heading the fight for the district plan, said this proposition was the best thing that could have occurred for the well-being of fellowship among citizens north of the county, as well as for securing a system of paved highways. He thanked the Commissioners' court for its patience in listening to various pleas presented to them.
Commissioner J. T. Pinkston, of Slaton, remarked to this that the commissioners also desired to thank leaders of all sides for their hearty cooperation in getting together, and helping the Commissioners' court out of a mighty tight place.
Met Held Last Night
At a meeting of the Lubbock group, headed by O'Neill, held in the courthouse last night, resolutions were passed favoring this election and pledging support later to help put over an election to pave state highway 134, from Lubbock west, and to do the same toward paving a road from Slaton north to Acuff and Idalou, and from Idalou to Petersburg when they became designated. They also pledged support to work for the designation of roads hand in hand with Slaton and the other towns and communities desiring these.

Following is a copy of the petition presented this morning:
"We, the undersigned resident property taxpayers voters of Lubbock county, Texas, respectfully pray this Honorable Court to order an election in said county to determine the following proposition:
"Whether or not the bonds of said county shall be issued in the sum of \$291,000.00 for the following purpose: The issuance of county bonds for the purchase of district roads, and the further construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, throughout such county, as follows:
Sum Is Explained
"(1) Bonds to be issued in the aggregate sum of \$21,500.00 for the purpose of the purchase of district roads in said county, and which bonds shall be issued in similar denominations, bearing the same rate of interest, having the same date or dates of maturity and with similar options of payment as the bonds heretofore issued and now outstanding against Road District No. 1 of said county.
"(2) Bonds to be issued in the aggregate sum of \$290,500.00 for the further construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, throughout such county, and which bonds may mature serially or otherwise at the discretion of the Commissioners' Court and may run for a term not to exceed forty (40) years from their date and shall bear not more than five per cent (5%) interest per annum.
"We further pray your Honorable Court that at said election there shall be submitted to the resident property taxpayers voters of the county the question as to whether or not an ad valorem tax rod, Lubbock; Neil H. Wright, Lubbock; Clifford B. Jones, Spur, regional director of the West Texas Chamber of Commerce.

Points Explained

"Texas State Highway No. 7 from Hockley county line by Shallowater, Lubbock and Slaton to the south line of Lubbock county, \$225,000.00."
"Texas State Highway No. 9 from Lynn county line by Woodward and Lubbock to Abernathy, \$274,000.00."
"Texas State Highway No. 53 from Crosby county line by Idalou and Lubbock and Wolfroth to Hockley county line, \$370,500.00."

LAWYER TALKS TO COMMITTEE

SUGAR LOBBY EMPLOYE CALLED BEFORE PROBERS

(The Associated Press)
WASHINGTON, Nov. 15.—Edwin P. Shattuck of New York, attorney for the United States Sugar association, told the Senate Sugar committee today he appeared before the Senate Finance committee to argue against a higher duty on Cuban sugar in connection with the pending tariff legislation.

He said he did not get an opportunity to "present much of an argument" since he was answering questions most of the time, and added he presented a brief before the House Ways and Means committee in connection with the pending tariff bill but made no argument.

Memory Is Poor
Asked by Chairman Caraway if he told the finance committee he was a paid representative of sugar interests, the witness said he thought he did.

He said the United States Sugar association maintains a Washington office to handle statistical information and deal with tariff matters only "incidentally."

TRASH HAULER GETS WARNING

CARELESS HANDLING OF REFUSE BRINGS DOWN IRE OF POLICE

Following complaints filed by residents of this city, Chief of Police John Lemond issued a warning this morning against trash haulers who are alleged to have been negligent in their handling of refuse.
"We are going to prosecute haulers who dump or allow trash to fall from their trucks within the city limits," said Chief Lemond. "A minimum fine of \$5 and a maximum of \$100 fine is provided as penalty for such an offense."

Complaint Filed

A complaint was filed today by G. C. Huftstader, owner of Camp Carson, located on Avenue H, which is traversed by those hauling trash to the dumping ground north of Lubbock. "I am trying to keep an attractive camp ground and the carelessness of trash haulers has caused considerable work on my part," said Mr. Huftstader. "Several haulers have used no means to prevent refuse from blowing or falling from their trucks. One truck on North Avenue H is being littered with trash. I will continue to file complaints until the situation is cleared."

TURKEYS BROUGHT HERE ARE FILMED

Between 2,000 and 3,000 turkeys gathered here by the Titman Egg corporation for shipment to the large markets of the north and east, were driven from pens of the firm at their location, 912 Sixth street, into the street and placed in one large group.

A picture of this group was taken in front of the company's building which will be sent to their New York office for an exhibition of the volume of this class of business transacted in Lubbock, according to Manager Johnson.

The Titman corporation has banded about 10 carloads of turkeys from Lubbock for the Thanksgiving trade, already, Johnson said. He expressed the belief that there were many more turkeys raised in the South Plains area this year than ever before.

Negro Worker Here Seriously Injured

He sustained severe injuries on his left side and several ribs were probably fractured, sanitarium attaches announce.

BANDITS TAKE \$400,000 LOOT WHILE DINNER PARTY IN NEW YORK IS HELD

(Continued from page 1)

Cameron, announced he stood ready to pay a reward of \$5,000 each for the capture of the seven bandits alive or \$10,000 each for their dead bodies.

TALES OF HEROISM IN ROBBERY ARE TOLD

BUFFALO, N. Y., Nov. 15.—Mrs. Philip Metz, daughter of Norman E. Mack, Democratic National committeeman, who was stripped of jewels worth nearly \$60,000 last night in a dinner party hold-up at the home of John L. Carson, Jr., told a tale of courage under duress and generous circumstances in describing the incident.

Asked if she was afraid when the seven masked bandits entered the dining room and ordered the guests to throw up their hands, she said everybody thought it was a joke and at first felt no fear.

Seated Near Door
"I was seated at a table nearest the door," she said. "At first I thought it was being done in fun, but when the intruders started to take off my pearls, I knew it was serious business. They grabbed a three strand pearl necklace valued at \$35,000 and then my other jewelry."

When they had taken everything of value, Mrs. Metz said, that feeling as though they couldn't rob her of anything more, she might as well laugh as cry about it.

"I said to them jokingly then that they had taken everything but my clothes and asked if they would like them," she recalled. "One of them picked up my pocketbook and took out five dollars which he dropped on the table, telling me I had better take it as I looked as though I needed it."

Other Guest Calm
The other guests at the party, which was being given in honor of the engagement of Command Van Clief, of Buffalo, and Miss Eleanor Cameron, of Waco, behaved wonderfully well, Mrs. Metz said, and were calm throughout the ordeal.

"I don't know how we stood it so well," she said. "The robbers ordered us to stand up and throw up our hands while they went through our clothes and stripped off our jewelry. Then they made us all lie flat on the floor until they made their get away."

"A maid in a house next door had seen what was going on and telephoned to the police. They arrived about five minutes after the bandits left. I believe it is just as well that they didn't come sooner, as there would surely have been a fearful row, and as it was, we were lucky to get out of it without being shot."

The robbers, according to Mrs. Metz, concentrated only on the three women who were wearing the costliest jewelry. Those who wore imitation pearls were not molested. The heaviest losers were Mrs. Ray Van Clief, Miss Eleanor Cameron and herself.

OKLAHOMA CITY, Nov. 15.—(AP)—Oklahoma's biggest oil gusher, the Indian Territory Illuminating Oil and Foster Petroleum company's Number 1, Thomas-Fuzzell, continued to flow today at the rate of nearly 2,000 barrels an hour after being opened for 18 hours. The 18-hour output was estimated at between 34,000 and 35,000 barrels. The well, in SW SE 12-13 W. South Oklahoma City field, was opened yesterday afternoon, and in the first three hours flowed 6,216 barrels.

Winter Reigns Over All Texas Sections

A light flurry of snow and sleet fell here early this morning, weather conditions being otherwise marked by considerable rise in temperature. Last night the thermometer stood at 28 degrees, at 7 o'clock this morning it was 29, but at 1:30 this afternoon it was registering 42 degrees. No impediment to traffic was reported.

From Associated Press dispatches received this morning snow fell at Colorado, Ballinger, Childress, Wellington, all melting as it struck the ground, except at Wellington which was a heavy fall. Sleet was reported at Corpus Christi.

LANDMARKS FALL BEFORE PROGRESS

The old residential landmarks, which bordered near the public square in the days when business structures centered around the court house, are slowly vanishing as Lubbock's business area extends out pretentiously in response to the vast building era now being experienced in this city.

Most recent of the retreats from shadow of business structures is a residence structure, which was located at 819 Tenth street, near the city hall. The building, owned by Green Thompson, is being moved to 508 Avenue O, and it was erected in the days when horses and wagons were frequently in evidence around the "square."

A filling station will be erected on the site vacated by removal of this building.

Most sharply contrasting the old Lubbock with the new is the Lidel Hotel, frame hostelry sandwiched between the 12-story new Hilton hotel and the new Storage building of the South Plains Investment company.

THE TINYMITES

BY HAL COCHRAN

(READ THE STORY, THEN COLOR THE PICTURE)

At last the big man's meal was done and he exclaimed, "Now for some fun. Just let the good food summer while you set the table quick. The silver's in the big buffet. I'll show you the proper way to lay it out. When once you know, it isn't any trick."

"Oh, we know how," one Tiny said. "Just watch us. We'll go right ahead and have the whole meal ready. Then we'll call you in to dine. We've cooked the best that we know how and trust the

food won't start a row. In fact, wee Coppy's tested things and found them all real fine."

Then came a shimmering of feet. The Tinkles rushed the things to eat up to the towering table. Scouty shouted, "Gee, I hope that one of us is plenty strong to get things up where they belong. Perhaps to lift the food pans up, we'll have to get a rope."

They shortly found this hunch was right 'cause, though they tried with all their might, they couldn't lift the heavy things. "I'll get the rope," said one. The big man showed him where it was and all the bunch were glad because by now they thought that serving was quite a lot of fun.

The big man sat down in his place and then a smile spread on his face. "Oh, gee, but it smells good," said he. "I'll surely eat my share. Bring on the stew that you have cooked and— that nothing's overlooked." As Coppy pulled the rope the stew pail rose up in the air.

"Yum, yum! Can all of this be true?" the big man said. "I'm sure that you wee tots have done a dandy job. This makes my big lips smother. I'll eat until I've had enough. Now don't you Tinkles let me stuff. Real soon, for all your kindness I am going to take you back."

(The big man does something for the Tinkles in the next story.)

Revolt of British Troops Is Learned

LONDON, Nov. 15. (AP)—Revelation in the House of Commons that there had been a mutiny of British troops in Jamaica has aroused considerable mystification here.

The government, while admitting the mutiny occurred, was unable to state when, or the circumstances.

Answering a question in the House of Commons yesterday, Tom Shaw, war minister, said three soldiers of the Scottish regiment stationed in Jamaica had been convicted by court martial on two charges of joining in mutiny of forces belonging to his Majesty's army. He said no details of the affair had been received.

CHICAGO HOME GETS BOMBING

**CITY OFFICIAL, WIFE
ARE HURLED FROM
BED; UNHURT**

(By Associated Press)
CHICAGO, Nov. 15.—Terrorists struck at the city administration today when they bombed the South side home of James Green first assistant corporation counsel.

Green and his wife were thrown from bed, but were not hurt. Property damage was estimated by Green to be \$5,000. Several patients in the Evangelical Deschamps hospital nearby were frightened.

Green is mystified. He said he was unable to account for the attack. He suggested it probably was the work of someone whose enmity he had incurred in his duties in the city's legal department.

The bomb was exploded on the front porch of the Green bungalow shortly after midnight. It tore a hole in the roof drove in the front door and shattered windows looted plaster throughout the residence and toppled pictures China and bric-a-brac to the floor.

Two mail carriers will be employed, one part time man and one full time man.

J. E. Barron, chairman of the local chamber of commerce, worked with Dyer for 18 months in an effort to secure the free delivery service. The two men also secured larger quarters for the local post office building which were opened recently. The building now has twice as much floor space as formerly.

CONGRESSIONAL APPROVAL IS GIVEN TAX REDUCTION PLANS

MELLON PLAN GETS SUPPORT OF ALL WINGS

APPROVAL OF PLAN TO DECREASE TAXES IS NEAR UNANIMOUS

(By Associated Press)
WASHINGTON, Nov. 15.—Prompt Congressional approval of the Treasury's new scheme of tax reduction was brooked today by an almost unanimous agreement among party leaders that the nation's tax payers should benefit as quickly as possible from the prosperous financial condition of the government.

Factional spokesmen of both Houses save only those of the western independent republicans, were in virtual accord in sanctioning Secretary Mellon's plan of lopping a full one per cent from all normal schedules of income taxation.

Democrats Agree
Administration supporters were quick to speak their approbation and were joined by democratic leaders of the House. Senate democrats agreed, too, but held out the possibility of demanding an even greater reduction than that advanced by the Treasury, conditioning their full approval upon more definite information as to prospective federal needs and revenues than is now available.

The western independents were non-committal, although it was intimated they would raise no serious objection. Their position has been that Treasury surpluses should be applied to a reduction of the national debt, on the theory this result increased federal disbursements for interest and indirectly permits lower taxes.

Frown on Legislation
But while there was virtual unanimity upon the Mellon proposal, the attendant Treasury suggestion that legislation be enacted to permit the administration to alter tax rates under a scheme similar to the flexible provisions of the present tariff law, failed by far to evoke the same degree of commendation.

The flexible tariff provisions have been the subject of a vigorous and protracted controversy in connection with the pending tariff bill. Meeting the determined opposition of the democratic-independent republican coalition, President Hoover's desire for a continuation and an extension of the authority conferred upon him by the present tariff law was denied and the power now vested in him relegated to Congress.

Opposition Expected
Similar opposition is expected to develop to the flexible plan for revising the tax schedule. Under the Treasury scheme, the administration would be empowered to alter tax rates to fit estimated government revenues and expenditures. In this way, the Treasury could determine each January what the rates on incomes of the year just closed would be. This, in the opinion of anti-Treasury Mills of the Treasury department, would not interfere with the regular provisions of the revenue law nor preclude a permanent reduction in tax rates.

Secretary Mellon's new proposal for reduced taxes is intended to be of temporary effect. It is planned that the changed rates be embodied in a joint resolution of Congress which could be adopted without the delay that would arise from a general revision of the revenue laws. The resolution would be applicable only to taxes on incomes of the present calendar year and by its expiration automatically restore the present rates when taxes on incomes of 1930 become payable.

NIGHT BY NIGHT IN OLD BORGER

BORGER, Nov. 15. (P)—After investigating a cutting affray, intervening in a wrestling match "Borger style" which got too rough, arresting a hit-and-run motorist and nabbing a man who was transporting liquor, Borger police settled down to a routine night, last night.

E. E. Bain was taken to his home after being stabbed painfully in a Main street fray. One suspect was arrested. Policemen intervened in a "botting" wrestling match to save one of the contestants from strangulation. The match went on after the interruption. A truck driver was arrested after running down the small daughter of J. J. McPherson. The child was not badly hurt.

TWO ARE KILLED

SAN FRANCISCO, Nov. 15. (P)—Two persons were killed and nine others injured in the head-on collision of a stage bus and an automobile at Colma, near here last night. The victims were Mrs. J. P. Deebenbrook of San Francisco, a passenger on the stage, and Mike Messina of San Jose, driver of the automobile.

EFFORTS TO PLACE FARMING ON SAME EQUALITY AS INDUSTRY, ARE PUSHED

(By Associated Press)
WASHINGTON, Nov. 15.—Sensational champions of agriculture today were speeding their efforts to write into the tariff bill rates to place farming on an economic parity with industry.

The agricultural schedule, taken up out of regular order, was the subject of debate continued from a night session last night in which a score of committee amendments increasing farm product levies were adopted.

Downward Note Seen
Sentiment evinced at the night session, first on the tariff bill, when for three hours the chamber wrote increases into the measure, promised short shift for proposals of downward revision.

Debate-weary legislators scorned roll calls on all rates in the farm product classification as they approved committee amendments increasing duties on milk, cream and related dairy products.

First action today involved a decision of cherry rates. Senators from California were at odds with members from Maryland and New York on proposed duties at the adjournment hour last night.

Amendments Approved
Amendments approved at the night session included increases in the tariff on fresh and sour cream

5 cents a pound; dried cream from 7 to 12.33 cents a pound; dried skimmed milk and dried buttermilk from 1.5 to 3 cents a pound and malted milk from 20 to 35 per cent ad valorem.

The levy on cheese and cheese substitutes was increased from 8 to 8 cents a pound provided the latter figure is not less than 35 per cent ad valorem. Duties on live poultry were raised from 3 to 8 cents a pound and on dressed poultry from 6 to 10 cents a pound.

Another amendment adopted made clams, now on the free list dutiable at 30 per cent ad valorem,

as compared with House proposal of 35 per cent.

Acting on the first of the important grain products, an increase in the duty on oats from 15 to 16 cents a bushel was voted.

Soya beans would be made dutiable at 3 of a cent a pound under another amendment adopted where as now they are on the free list. A raise from 2 to 8 cents a pound on dried, desiccated or evaporated cherries was approved.

The Strange Disease of Ugliness

How Barnum's "Homeliest Woman in the World,"
The Neanderthal Man, and the Misshapen People
Who Must Have Been Models for Punch and Judy
As Well as the Queer Statues on Old Cathedrals
May All Have Suffered From the Terrible Malady
Now Known to Medical Science as Acromegaly

Once Beautiful Mrs. Bevan. . . . Permits herself to be laughed at to provide the wherewithal for educating four children.

By ELEANOR EARLY

PERHAPS you know Mrs. Bevan by sight. Or, if you don't, you have heard of her surely. People call her the ugliest woman in the world.

She sits in the sidewalk of a big circus, between the Fat Lady and the Armless Wonder. And the barker, standing in front of her, shouts, "Rose, the Freak! Ladies and Gentlemen, the World's Ugliest Woman."

Then poor Mrs. Bevan rises, and bows, and tries to smile. Her mouth is so big! And her feet, sticking out from under her decent black skirt, are the largest you ever saw.

Rude people point at Mrs. Bevan, and laugh at her unfortunate appearance. Once a man went to the circus, and made any number of mean remarks. Among other hateful things, he declared that an institution was the only proper place for the likes of poor Rose. It was a disgrace, he declared, that a woman should get paid for ugliness.

Now, Mrs. Bevan is rather a sensitive person. And, naturally, she was fearfully upset. Losing her temper completely, she lifted her enormous head, and opened her great mouth.

"May you get it yourself!" she shouted. There was something of a commotion, and a crowd gathered, as crowds always do. The Human Skeleton, in the excitement, jumped down from the platform, and edged her way to Mrs. Bevan.

"Get what, dear?" she asked sympathetically. "ACROMEGALY!" moaned Rose, burying her face in her hands, and crying large tears—her tears were very much larger than other people's.

Nobody had ever heard the word before. And they thought, most likely, that Mrs. Bevan was talking nonsense. The barker moved on to the Armless Wonder. And the crowd trailed after. People do not intend to be cruel. It is probable that they never so much as gave Mrs. Bevan another thought.

ONLY one man—more curious than the rest—sidled up to her. And, when she had calmed down a bit, asked her the meaning of the curious word she used. With quiet dignity, she spelled it for him, and pronounced it again: "Acromegaly," with the accent on the antepenult, or third syllable from the end.

"It's a disease," she told him. "A dreadful disease, that's made me what I am today. Once I was good looking, and the wife of a handsome man. I had four beautiful children. And then I got acromegaly!" She could go no further. Enormous tears ran down her cheeks.

Now, you may think that Mrs. Bevan was romancing. Particularly if you have ever seen her. But, as a matter of fact, she was telling the absolute truth. She was not merely good looking. She was positively beautiful.

Moreover, no one on earth is immune from the dread disease. It is, to be sure, rather rare. Still, it is more common than you would think.

"Acromegaly"—the medical term for those afflicted with this awful malady—comes from two Greek words. It means, literally, Big Ends. That is because the patient's extremities become afflicted. His head, his hands and feet. Even his tongue. His shoulders become heavier. And his neck gets thick and ugly.

It is known, also, as Marie's Malady. That is because a French physician named Pierre Marie was the first doctor to devote his entire time to a study of this fearsome ailment.

Quite a number of French people have the disease, and Dr. Marie's contributions to medical science are of inestimable value. It happens, however, that those afflicted with acromegaly, instead of going immediately to a doctor, wait until the disease has advanced so far that they have actually forgotten when they first noticed certain changes taking place.

Dr. Marie had an idea that the disease was about 25 years developing. But he could not be quite sure, because his patients were so vague about the exact time of their first misery. Sometimes, you see, they had delayed years before seeking medical attention.

RECENTLY there has been a most remarkable contribution on the subject. Dr. Leonard Mark, an English physician, has published a book of his own personal experiences. Dr. Mark is himself an Acromegalic. For years and years, he has seen this terrible disease branding and overpowering him.

Prehistoric Acromegalics. . . . A Field Museum restoration to show what Neanderthal people looked like. . . . Here are all the characteristics apparent in present-day sufferers from acromegaly.

leagues, and in greatest confidence, Dr. Marie pointed out Dr. Mark as a typical Acromegalic.

When the convention was over, the French doctors returned to their own country. And not a soul had breathed a word of Dr. Mark's tragedy to him.

By that time, the wretched man thought he was becoming prematurely senile. And, to ward off old age, he took up fencing again, with the idea of keeping away the stiffness of apparent senility.

Not until he was 50, did it suddenly dawn upon him that he had acromegaly. He went immediately to Paris, and consulted Dr. Marie.

THE disease goes back to the beginnings of time. Hundreds of centuries ago, when the Neanderthal man lived in Europe, acromegaly swept the earth. Professor Keith, who has made learned contributions on the life of that time, points out the characteristics of acromegaly in the remains of the Neanderthal man.

With the obliteration of that race, it is unfortunate that acromegaly did not disappear forever. But you find evidences of it again in the Middle Ages. Consider the old woman on the Cathedral at Reims. Doctors now believe that thirteenth century sculptors came across Acromegalics and used them as models because of their striking appearance. There are other Acromegalics decorating the church, but it is the particular old woman pictured here that comes to Dr. Mark's mind.

"Often in my periods of lethargy this statue rises before my eyes," he says. . . . And then Dr. Mark speaks of Punch and Judy.

Of course you have seen a Punch and Judy show. And you remember Punch's peculiar appearance. Well, Dr. Mark says that Punch is well recognized among doctors as presenting the acromegalic traits.

And then the doctor concludes with pitiful bravado: "Only the other day, while pondering over the changes taking place in my own lower extremities, and the lifeless condition they are gradually assuming, I was struck by their similarity to those of the marionette which we see dangling in the show."

There's no sense scaring people. But, after all, your chances of getting acromegaly are just the same as Mrs. Bevan's or Dr. Mark's. It is not a germ disease. There's no way you can guard against it. It simply happens, and there is nothing to be done about it.

It all hinges on the pituitary secretions, which are much too technical for a layman to understand. Your pituitary gland isn't any bigger than a pea. It is located at the base of your skull above the roof of your mouth. And, in marvelous fashion, it is closely related in function to the growth of the body. The trouble with Acromegalics is that their pituitary gland does not operate properly.

THE great Dr. Harvey Cushing of Boston was recently annoyed when a magazine of national circulation commented on the plight of Mrs. Bevan. There was a little story entitled "UGLIES," describing poor Rose and a number of other ugly creatures.

"Mrs. Bevan's history," declared Dr. Cushing indignantly, "is far from unprovoked. Could it have been written by O. Henry, it would have provoked only tears."

"She is a peasant of Kent, England, and four times a mother. The father of these four children, a truck gardener, died some years ago and left her their sole support. She, previously a vigorous and good-looking young woman, has become a victim of a disease known as acromegaly."

"One of Mr. Ringling's agents prevailed upon her to travel with the circus, and to pose as the 'ugliest woman in the world' as a means of livelihood. Mr. Ringling is kind to his people, and she is well cared for. . . . But she permits herself to be laughed at by an unfeeling people in order to provide the wherewithal for educating her four children."

All unpleasant stories, you know, have a moral. And the moral of this is never be frivolous over the tragedies of disease.

Punch and Judy . . . well recognized among doctors as exemplifying the acromegalic traits.

Attacking a man of Dr. Mark's type. A disease that must, inevitably, take awful toll of all his vigor and splendid manhood.

It began, he says, when he was 24. Dr. Mark did not realize then that it was acromegaly. But, fortunately, he kept a diary. And in that diary he recorded the various small ailments that began, about that time, to annoy him. You can see of what inestimable value that diary is now to medical science. Tracing, as it does, the most obscure beginnings of the disease, it is worth many times its weight in gold.

Well, Dr. Mark was only 24 when he noticed queer feelings and sounds in his ears. He supposed it was due to catarrh, and tried to forget it.

The next year, his eyes began to be affected. The bright sunshine, he says, dazzled him. When he was 26, he became very drowsy, and was frequently overcome by sleepiness. Of course that was embarrassing. And Dr. Mark came in for a good deal of what the English call ragging.

At 28 he had queer feverish attacks. The sounds in his ears became worse, and his head ached a good deal. But he attributed it all to catarrh.

He was practicing constantly, though he experienced a good deal of misery, due to his inability, he thought, to resist colds.

THEN, at 34, a horrible thing happened. That is, the thing itself was not horrible. But the condition that caused it was dreadful beyond words. Dr. Mark became troubled by indigestion. Now, of course, indigestion isn't anything awful. But Dr. Mark's indigestion was caused by what he calls "impediments to mastication." His lower jaw was advancing. That meant that his teeth were not meeting, and he could not chew his food properly.

About this time, he experienced an extraordinary sense of fatigue, and sometimes an inordinate craving for food. The discomfort in his head was almost constant.

Then one day he went to the dentist to have a tooth pulled. While he was taking gas, the dentist noticed the peculiar advancement of his lower jaw. He said nothing about it to Dr. Mark, but he talked the matter over with medical friends. And they all decided that the poor man had acromegaly.

Of course nobody liked to tell him about it. And the doctor himself, strangely enough, had no idea of his malady. When he was 49, Dr. Mark attended a convention of French doctors in London. And there he was spotted, in a crowd, by the famous Dr. Pierre Marie. To his own col-

Ugliness disease in the Middle Ages. . . . A carved stone figure decorating Reims cathedral. . . . The big hands and feet, the clear indication of suffering from headache, the tired eyes. . . . all are symptoms a modern doctor would diagnose as acromegalic tendencies.

Once Dr. Mark was a slim youth, and rather handsome. Now he is a heavy man, with enormous head and shoulders, and thick, protruding lips. Pictures on this page tell the story more plainly than words. In writing of himself, Dr. Mark speaks of his "heavy jaw, and his big hands and feet."

The tragedy of it is that Dr. Mark, not long ago, was a great athlete, and enormously proud of his strength and supple beauty. All through his life he has taken religious care of himself. Some people think of their bodies as the temples of their souls. And so they almost venerate them, keeping them fine and splendid, to make them worthy tabernacles of their immortal spirits. It is probable that Dr. Mark was inspired by that beautiful pagan concept of a body's worth.

He went to school when he was young, in France. And there he took up fencing. Being light in weight, and tall, with the advantage of a long reach, he became exceedingly expert. As a runner, there was no one at the Lycee who could beat him. And he swam, the Frenchmen said, like a fish that never tired. In fact, he was known, throughout Marseilles, as "le jeune Anglais tres fort"—which means "the very strong young Englishman."

Imagine then the tragedy of such a disease as acromegaly
