Commission approves county policy changes

By Helena Rodriguez

The Bailey County Commissioners Court on Monday approved amendments to the county's Personnel Policy and Employee Information Manual.

As a result of the amendments, the commissioners eliminated the emergency leave policy for employees and incorporated it into parts of the employee's sick and funeral leave policies.

The Commission had previously tabled the amendments so they could find out what the state's policy on funeral leave is. The commission wanted to be consistent with the state

since some county employees are also state employees.

The new funeral leave policy grants county employees up to five working days of leave to attend a funeral of a member of their immediate family. The county considers immediate family to include spouse, child, spouse's child, parent, brother, sister, grandparent or grandchild.

The amendments also include a change in wording for employee resignations and terminations. The county also changed the wording of the probationary period for new

Older workers week proclaimed in Muleshoe

By Helena Rodriguez

At least three senior citizens in Bailey County are involved in the Green Thumb, Inc., Senior Community Service Employment Program. Bailey County Judge Marilyn Cox proclaimed the week of March 13-19 as Older Worker Week in Bailey County on Monday.

Local participants include Thursie Reid, who works at Muleshoe Area Healthcare Center; Adele Thompkins, who works at The Texas Department of Health and Lena Ruthardt, who works at Muleshoe Public Library.

Green Thumb operates the senior employment program

under a grant with the Employment and Training Administration of the United States Department of Labor.

The program provides part-time employment and training opportunities for economically disadvantaged seniors age 55 and older.

Reid has worked at Muleshoe Area Healthcare Center for two years.

She said, "I enjoy being back at work. It is a pleasant place to work and it is just a good place to be if you have to work."

Prior to working at the nursing home at Muleshoe Area Healthcare, Reid, age 75, was retired.

Reid has lived in Muleshoe

since 1963.

Another Green Thumb participant Adele Thompkins, has been involved with Green Thumb for 11 years. She works at the Texas Department of Health, where she is a medical records clerk.

Before Thompkins, age 73, worked at the health department, she was a bookkeeper.

She enjoys her job at the health department, saying, "It is a place where people come to get help and I enjoy seeing people get help. I like working here because there is work here I can do this old."

Thompkins said that if she wasn't involved with the Green Thumb program, she probably

wouldn't be doing anything.

Thompkins has lived in Bailey County for 70 years.

Lena Ruthardt has been involved with Green Thumb for 11 years and has worked at the Muleshoe Public Library for eight years. Before working at the library, Lena said she would just stay at home.

Ruthardt has lived in Muleshoe since 1959.

The Green Thumb program is currently operating in 132 counties in Texas and two counties in New Mexico.

The program provides almost 1,000 senior trainees with the opportunity to earn wages

Qualified seniors provided with home-delivered meals

The Meals on Wheels organization was formed for the purpose of providing home delivered meals to qualified senior citizens. The meals are prepared by the hospital at a total cost of \$2.75 per meal, and delivered by volunteers. There is no charge for the meals,

but the subscribers are invited to contribute if they can and should. But they receive one meal per day - five days a week whether they contribute or not.

The policy of Meals on Wheels, Inc. is to promote and supervise various programs

designed for the purpose of developing the physical, educational, and mental welfare of said senior citizens in the area to be served, and to help finance such programs, without regard to race, creed, color, sex, or national origin, and without respect to their financial or so-

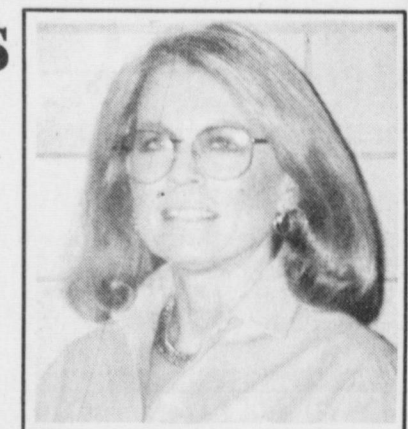

cial status.

Home delivered meals, as referred to above, are served in accordance with doctor's directions, where such directions exist, and to those subscribers as may be approved by the Board of Directors. No charge is made for said meals, but do-

nations will be invited and accepted.

Parents/Students attend Financial Aid Seminar

A good crowd of parents and high school students attended the 7th annual Financial Aid Seminar sponsored by the Jennyslippers last Thursday night.

Rhonda Calvery, Jennyslippers president, opened the meeting and gave the welcome.

Billie Downing, chairperson of the seminar, then introduced the Jennyslippers, and those on the seminar panel. The honor roll of local donors of scholarships was read.

Several individuals and members of groups who award the scholarships were present to let the students know of their interest in them. Ricki Warren of the Bailey County Electric Cooperative announced that

their scholarship has been increased to \$600.00 this year. Nancy Kidd announced that the Five Area Telephone Cooperative was omitted from the list and they gave \$600.00.

Downing then called on Cathryn Wright, of the Opportunity Plan to report those special Muleshoe scholarships. Mrs. Wright reminded the crowd that although the Opportunity Plan is located in Canyon, it is not limited to students attending WTSU. One of the most recent scholarships is the Elizabeth Watson Scholarship for an education major and Mrs. Watson was in Attendance.

Teacher Elected To Post

Muleshoe teacher Alice Liles has been elected to the Board of Directors of the 30,000-member Texas Classroom Teachers Association.

Liles, who teaches 10th grade English at Muleshoe High School, will represent District 17, which includes Bailey, Lamb, Hale, Floyd, Motley, Cottle, Cochran, Hockley, Lubbock, Crosby, Dickens, King, Yoakum, Terry, Lynn, Garza, and Kent counties.

employees to orientation period. County employees will be considered in orientation period during their first six months of employment.

The changes were made based on suggestions from the Texas Association of counties. Also on Monday, the Commission discussed District Judge Jack Young's facilities.

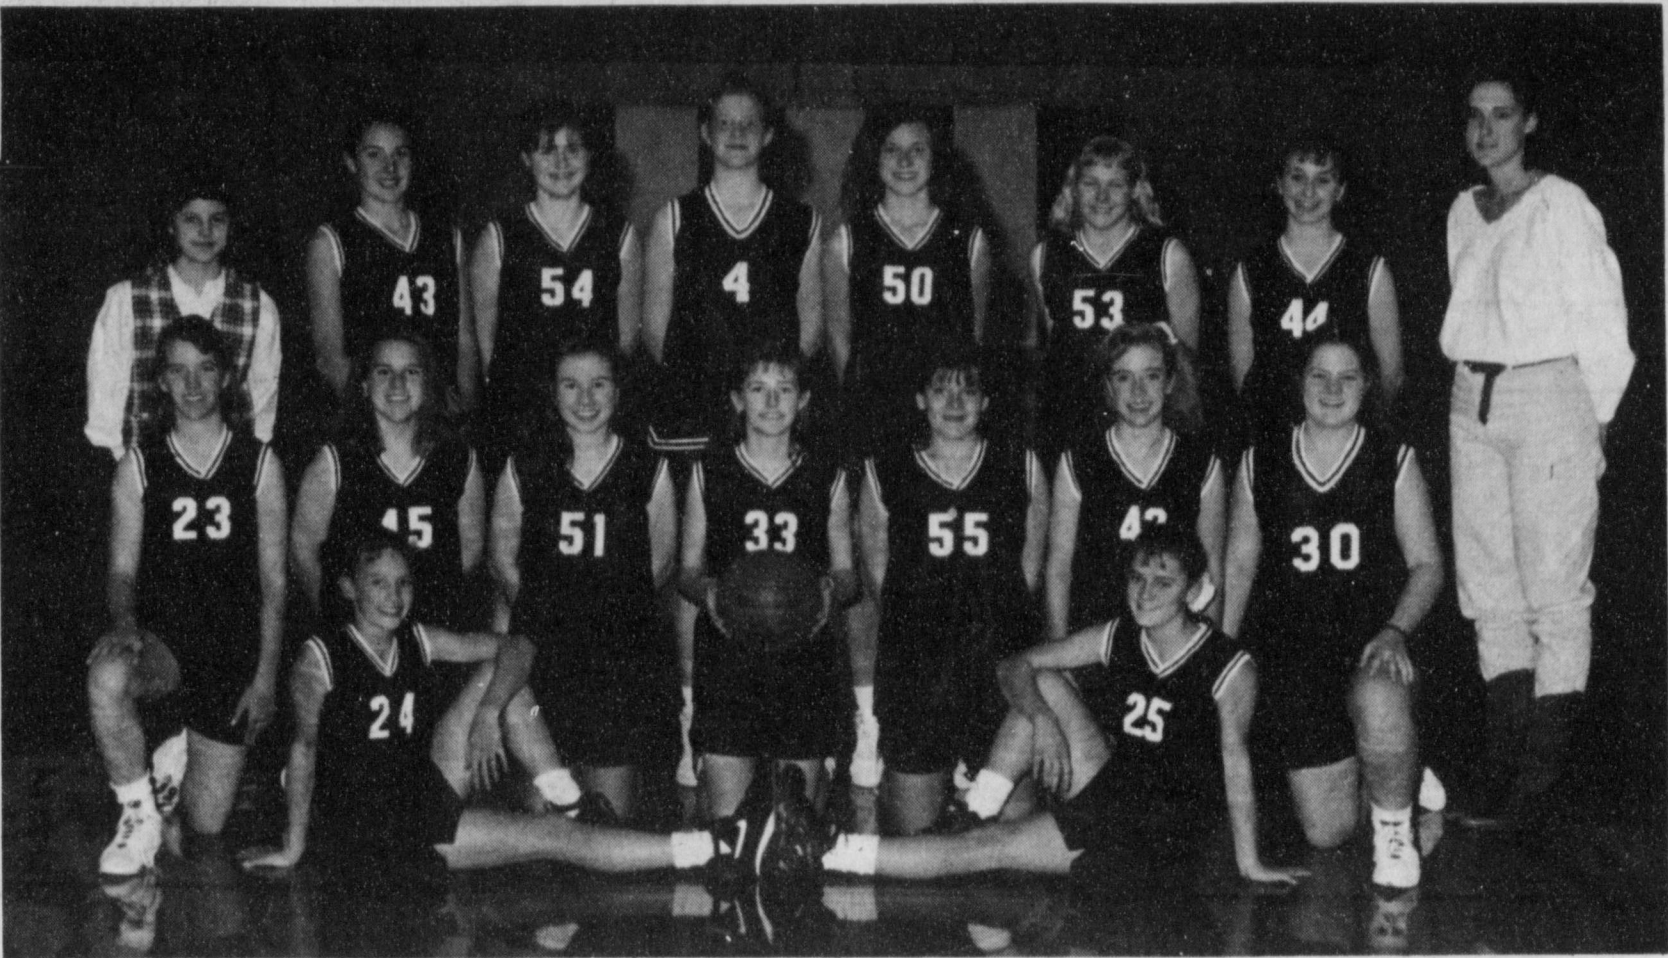

The county currently pays rent for the judge's office since there is not room for one in the courthouse. The judge informed the county the building where his office is located may be sold so he suggested, in the event, moving his office to a building he owns. Young said he will not charge the county

rent but the county will pay utilities. No action was taken on this matter Monday.

The Commission also approved one soil conservation worksheet in accordance with Section 201.151 of the Agriculture Code and discussed a gift to take to the upcoming West Texas County Judges and Commissioners Association annual meeting in Odessa.

Commissioners will pay for part of the gift themselves and also seek a donation from a local business.

The Commission on Monday also approved and ordered the payment of county bills and the payroll.

Dear Friend and Customer;

Are you tired of paying high prices for brand name prescription drugs? So are we--the community pharmacies of this country. We are fighting to reduce drug prices by attacking the anticompetitive practices of most drug manufacturers.

Manufacturers raised the prices of their prescription drugs more than three times the inflation rate in the 1980's; and according to the Senate Committee on Aging's report of January 31, 1994, the inflation rate of drugs was 15.5 times greater than the general inflation rate in 1993. The price increases are artificially high and are not justified by increases in research or production costs because, among other reasons, the drug manufacturers (a) buy other people's research or merge with companies that have promising drugs; (b) benefit from basic research done by federal and academic laboratories; (c) get substantial tax breaks for their research or for moving production facilities to Puerto Rico; or (d) duplicate drugs that are already successful.

The drug manufacturers do not allow community pharmacies (chain or independent) to buy their products at the same low prices as hospitals. The prices charged to community pharmacies are often 3 to 5 times, and sometimes 10 to 20 times, higher. The lower prices are not offered to hospitals because the hospitals buy in bigger quantities than the national chain drug stores and independent pharmacy buying groups which often purchase in much bigger quantities than most hospitals. Manufacturers charge low prices to hospitals to get on their list of approved drugs because: (1) physicians tend to prescribe for their office patients the drugs which the hospital list requires them to prescribe for hospitalized patients and; (2) manufacturers know that after patients leave the hospital they tend to stay on the same drug that was prescribed for them while they were in the hospital. Therefore they entice hospitals to hook patients on expensive drugs for the rest of their lives.

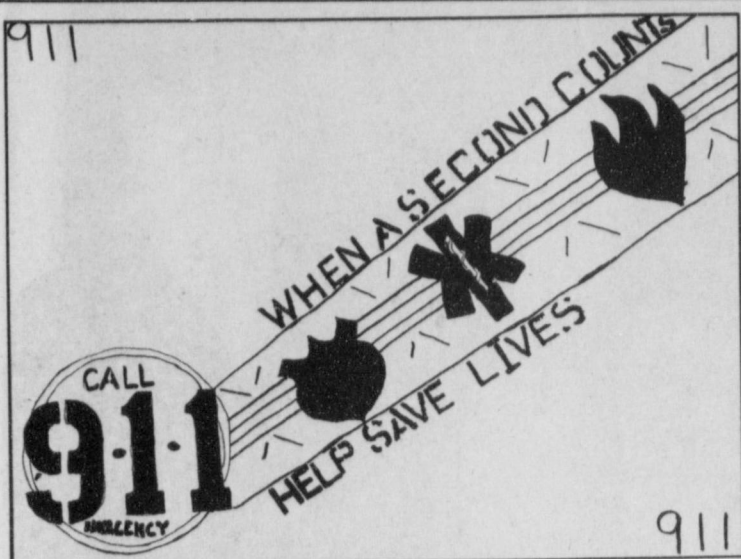

What is truly mind boggling is that both hospitals and community pharmacies often buy drugs from the same wholesaler, but, as we said earlier, the price to the community pharmacies (even when bought in the same quantity as the hospital purchases) is 3 to 5 times higher. This works through the "Chargeback System" in which the manufacturer sells products to the wholesaler at artificially high prices but then allows the wholesaler to charge back to the manufacturer the difference between the artificially high original price and the low price if the product is sold to a favored customer such as a hospital.

If you think this might be a violation of the federal anti trust laws then you will understand why our pharmacy has joined in filing a class action law suit against 32 drug manufacturers and wholesalers to bring this practice to a halt. We believe that the same price should be offered to all buyers when they buy in like quantities.

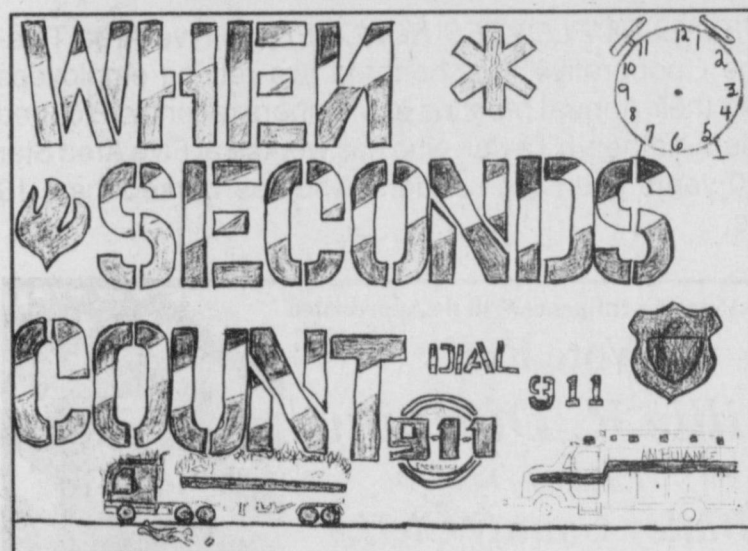

We pledge that when we get access to the lower prices, we will pass the savings on to you. Our goal is to provide our customers with EQUAL ACCESS to the lower prescription prices available. We will keep you advised how the law suit progresses.

The Country Peddler Show

TM, produced by American Country Shows, Inc. is the Original Folk Art & Decorator Show. Since 1978 it has been the premiere gathering in the nation for folk art and home decor enthusiasts.

According to show founder and manager Robbin Ely-Ramsey, what sets the Country Peddler Show TM apart are the "three P's of Peddlers": Presentation, Pride in Product and Professionalism.

Warm, inviting booths line what has been described as the perfect street of shops. Appealing folk art fills every corner of the show.

The effect is complete: with sounds of soft dulcimer and the scent of potpourri.

Uncountable works of art are offered for sale at every Country Peddler Show TM. Guests will discover fashions, dolls, furniture, pottery, jewelry, woodwork, metalwork, fabrics, potpourri and an ever changing array of new creations.

World Day of Prayer to be held Mar. 4

Women throughout the Muleshoe area will gather at First United Methodist Church, Fellowship Hall, 507 West Second Street, on Friday, March 4, in observance of the annual World Day of prayer service, sponsored by Church Women United. This year's service, part of a global celebration observed by Christian communities throughout the world, has been prepared by Christian women in Palestine and explores the theme Go, See, and Act.

The 1994 Service, based on the story of Christ's passion and resurrection as told in the gospels of Luke and Mark, focuses on the experiences of women living in the occupied

territories of the West Bank and Gaza. The authors--Lutheran, Episcopalian, Catholic, and Orthodox Christian women who identify themselves as Palestinians, share their personal stories while calling upon all people to work toward reconciliation and justice.

Founded in 1887 by Mary Ellen James, World Day of Prayer calls upon participating communities to join in "informed prayer and prayerful action." Offerings received from World Day of Prayer participants in the United States help support CWU in its national and international witness. Among the programs supported is CWU's Intercon-

tinental Grant fund, which provides financial assistance to projects benefiting women and children worldwide.

All women of all faiths are invited to join in this service. Child care is available.

Congratulations! Lady Mules

MISD to administer TAAS tests

Muleshoe Independent School District will be administering the Texas Assessment of Academic Skills Test during the week of March 7, 1994. Students in grade 10 and those in grades 11 or 12 needing to retest in writing, reading, or mathematics will be involved in this test administration.

In addition, students at the 4th and 8th grade levels will be taking the writing TAAS. Testing will begin on each campus at approximately 9:00 AM.

The writing TAAS will be administered on Tuesday, March 8, the Reading TAAS on Wednesday, March 9, and the Mathematics TAAS on Thursday, March 10. Students that are absent on these days are not allowed because of Texas Education Agency regulations, to make-up any missed tests.

Students, if at all possible, need to be in school on the designated testing days. Students that are well rested and eat breakfast generally achieve better test results.

Parents are encouraged to discuss the importance of this test with their children and help Muleshoe ISD teachers and administrators provide the students with optimum testing conditions.

If you have questions or concerns about the TAAS, please contact Linda Marr at Muleshoe High School (272-7571) or Connie Kenmore at DeShazo Elementary (272-7546).

Thinking about drilling a well or installing a CENTER PIVOT IRRIGATION SYSTEM?

Interest rates are the lowest since 1970. Our improvement loan rate is currently 6.95% fixed for 10 years. A \$35,000 center pivot financed for 15 years will have an annual payment of \$3,830 for the first 10 years. A 10 year loan would cost \$4,971 per year. You can't hire a hand to move pipe this cheap. Take advantage of low rates. Save labor; Save water! Rates change every Wednesday.

Get A Load Off Your Feet

(NAPS)—If you're like
most Americans, you prob-
ably know being over-
weight is no good for your
heart, but you've probably
never thought about what
all that weight could be
doing to your feet.

Fortunately, there are
steps you can take to im-
prove your weight and feet.
First of all, see your doc-
tor. He or she can deter-
mine just how overweight
you are—if you are—and
what's the best way to go
about improving things.

Next, see a podiatrist.
This medical specialist can
tell you what shape your
feet are in and how to
keep their health up while
you're slimming down.

Many doctors recom-
mend a diet that limits
alcohol and foods such as
fatty meat, thick sauces,
sweets, butter and cream.

Your doctors may also
suggest you exercise at
least three times a week
for 20 minutes or more at
a time. Choose a level of
activity high enough to

make you breathless, but
not so violent that you get
dizzy. Walking is consid-
ered an excellent exercise
for your feet as well as the
rest of you. Your podiatrist
can help you determine
what shoes are best for
your exercise regimen.
Just bear in mind your
feet have to bear the brunt
of most exercises and treat
them tenderly. Running
puts a force of three to four
times your body weight on
each foot with every step.

You can obtain further
information on foot prob-
lems by telephoning 1-800-
