NUMBER 50.

20 KILLED; 70 INJURED IN AN AWFUL CRASH

"FEDERAL EXPRESS" SPEEDING
AT SIXTY MILES AN HOUR
JUMPED FROM VIADUCT.

5 COACHES WENT OVER

Day Coach Smashed to Pieces and Three
Pullmans Crumpled Together.
Dead Found in Heaps.

By Associated Press.
Bridgeport, Conn., July 11.—Twenty
were killed and seventy injured here
early today in the wreck of the Fed-
eral Express, a fast passenger train
over the New York, New Haven and
Hartford Railroad from Washington
to Boston.

The express engine drawing eight
cars left Harlem River an hour late
and was going at a high speed as it
approached the station here. At
Fairfield avenue and State street the
train was over a viaduct. The
switch on this viaduct was open. The
train thundered upon the viaduct and
hit the switch and the engine with a
mighty leap jumped into the street.
Five cars followed the engine. There
was an awful crash, an instant of
almost complete silence and then
piercing and agonizing shrieks from
the train.

Twenty persons appear to have been
killed outright. The crowded day
coach had the most fatalities, its
dead being removed almost in heaps.
The fall was so terrible that the
three stow Pullmans were almost
crumpled up. The engine rolled
on two hundred feet south of Fairfield
avenue before it stopped. Fire broke
out in the wrecked train, but the city
fire department responded in a few
minutes, extinguished the flames and
joined in the work of rescue. The
engineer was killed at his post. Mrs.
Whitson of Philadelphia was removed
alive but her babe was found dead
beneath her.

The St. Louis National League ball
team was aboard but all were in the
last Pullman and escaped injury.

The ball players whose car remained
on the viaduct, were partly dressed
and for two hours assisted in the
rescue. The ball players car had
been hitched to the rear of the train
by a mistake and it was scheduled
to be up near the front where it would
have gone over the viaduct.

Every ball player was thrown from
his berth by the crash and most of
them lost more or less of their base-
ball paraphernalia.

The wreckage fell from the viaduct
in three heaps, the farthest away was
the engine, twisted into junk. Be-
hind it were the mail and baggage
cars. In the rear and nearest the
viaduct lay a great mass consisting
of day coaches and two Pullmans.
In this mass lay most of the passen-
gers on the train. The day coach was
crushed in on all sides.

Police, firemen, doctors and volun-
teers worked as fast as possible, lay-
ing out the dead and injured on the
lawn of a residence on Fairfield Ave.
Ambulances later carried the injured
to the hospital.

A baby about a year old was found
alive and not much hurt in one car.
It had become separated from its
mother, Mrs. W. V. Clephane of Cher-
ry Creek, Md., who also escaped with
minor injuries.

The death list includes Engineer
A. M. Curtis; Fireman W. A. Ryan;
Mrs. Gwendolyn F. Rogers, wife of an
electrical sergeant of the coast
artillery of the U. S. A., and her
seven weeks' old baby; C. W. Christie,
of Philadelphia; George E. Saunders,
of Norwich, Conn.; four unidentified
men, one a negro; five unidentified
women and one unidentified child.

Railroad officials claim the wreck
was not due to an open switch, but
to the engineer taking the cross over
at about sixty miles per hour, where
the schedule called for fifteen miles
an hour.

Many of the dead were so multi-
lated that identification is very slow.
One was found with his head severed

(Continued on page 4)

THE COURT HOUSE NEEDS RENOVATING

NEEDS IMMEDIATE ATTENTION
FROM PAINTERS AND PAPER
HANGERS.

THE GRAND JURY REPORT

Fifty-Three Bills Returned—Peace Of-
ficers Called Upon to Bury Their
Jealousies.

Peace officers of the city and county
are asked by the grand jury of the
June term in the district court in the
written report filed today to bury
their jealousies and differences and
work together in unity for a com-
plete enforcement of the law. The
report says that the officers are not
all working together in harmony and
with good will.

The grand jury made its final report
this morning and was discharged. It
returned 53 bills of indictment of
which 28 were for felonies and 25
misdemeanors.

They recommended in their report
among other things a complete re-
novation of the county court house.
The report says that the district
court room is especially uninviting
and needs immediate attention at the
hands of painters and paper hangers.

The report in full follows:
To Hon. P. A. Martin, Judge of the
30th Judicial District.

We, the grand jury for the June
term of the district court of Wichita
county hereby submit the following
report:

We have been in session 11 days
have examined many witnesses and
have returned 53 bills of indictment,
28 for felonies and 25 for misdemeanors,
and have carefully investigated all
offenses that have been brought to
our knowledge.

The court house we think needs a
complete renovation on the inside.
The plaster is cracked and falling
off the walls, and the wood work
needs painting. The district court
room is especially uninviting and
needs immediate attention at the
hands of painters and paper hangers.

The building throughout ought to be
kept in a more cleanly and sanitary
manner.

The jail is in as good condition as
is possible considering it is badly
crowded and built without any refer-
ence to sanitary laws. The new jail
ought to be finished as soon as pos-
sible so that prisoners may be prop-
erly cared for.

The report is current that some of
our peace officers take money off of
prisoners when arrested and fail to
return same or account for it in the
proper way, and while we have
thoroughly investigated these reports
and find no evidence to substantiate
them, we are of the opinion that one
man should be the custodian of all
money and other valuables found on
prisoners when arrested, and that the
amount should be turned over to him
and entered on a book to the credit
of the prisoner, and placed under lock
and key together with all valuables
and returned by him to the prisoner
and accounted for in the proper man-
ner. The jailer would we think be the
proper officer to do this work.

We do not approve of the prac-
tice of accepting pleas of guilty and
collecting fines on the streets, be-
lieving that wherever possible the
plea should be made and the fine
assessed before a judicial officer.

Bonds in felony cases fixed in ex-
aminable trials, and by our court
officers we believe often too low
besides they are sometimes what is
called "straw bonds." Every person
charged with a felony should give a

A scene in the poorer districts of New York during the heat wave. The photograph shows youngsters of the congested districts seeking relief from the intense heat in a public fountain.

COMMITTEE WILL INSPECT PLANT

Frank Kell and J. A. Richtoff Will Go
to Chanute, Kansas, to Look Over
Window Glass Factory.

In response to a telegram receiv-
ed this morning by Secretary Day
of the Chamber of Commerce from
the Chanute Window Glass Company
of Chanute, Kan., requesting that a
committee be sent at once to investi-
gate their factory, the directors of the
Chamber of Commerce at the meeting
held this morning, selected Frank
Kell and J. A. Richtoff, to visit the
plant and requested that they make
the trip at the earliest possible date.

It will be remembered that Andrew
Hudson, president and Frank Bos-
tock, secretary and manager of the
company, were here last week to look
over this location and it was at their
request that the committee was ap-
pointed. During the visit of these
gentlemen a conference was held
with the Manufacturing Committee of
the Chamber of Commerce at which
a tentative offer was made to the
representatives of the glass factory
providing a three cent gas rate for
five years, a free factory site and a
cash bonus of \$10,000. No action
was taken in view of the request of
Messrs. Hudson and Bosstock, that
the city first to investigate that plant.

However, it is thought that a deal
can be made for the removal of the
factory on the above basis in the
event that the committee is favorably
impressed with the proposition. The
factory representatives, after looking
over the city and visiting the gas
wells and sand deposits, expressed
themselves as well pleased with this
place as a suitable location, and their
telegram received this morning indi-
cates further that they are interest-
ed in perfecting a deal. As has been
stated in The Times before, the fac-
tory employs about 175 men and
has a weekly pay roll of from \$1500
to \$2000.

It was suggested that a committee
be appointed to investigate the matter
in connection with an effort to secure
a reduction to \$1.50, but Mayor Noble
informed the other directors present
that he had investigated the matter
in behalf of the city and had found
one town in Texas with a similar popu-
lation to Wichita Falls with a rate
below \$2, that being Abilene, where a
rate of \$1.50 prevails. He further sug-
gested that relief could only be ob-
tained through the courts and gave it
as his opinion that such a course would
be an unsuccessful one in view of the
evidence at the command of the com-
pany. The mayor suggested that the
only remedy, as he saw it, was to
await the expiration of the company's
franchise, which would be out about
April 1, 1912. In view of these sug-
gestions the matter was passed without
action on the part of the directors.

A pottery plant has been establish-
ed in North Fort Worth and is now
manufacturing crockery ware, etc.
The clay for the plant is shipped from
a nearby county.

When Pete Pappas, a Greek restau-
rant man secured a license several
weeks ago to marry Miss Lela M.
King he believed that was the only
act necessary to legalize a marriage.
The bride to be didn't know any dif-
ferent and it was only this morning
that they were told that there were
other proceedings necessary to make
them man and wife.

The couple at once repaired to the
county court house where Justice
Brothers completed the necessary
formalities.

What has become of the old-fash-
ioned bride who didn't think it was
necessary to get a feather bed for a
bridal gift?

ANTIS ARE MAKING A THOROUGH CANVAS

While the statewidewards are holding
meetings in every school house, in
the county and have organized in
nearly every precinct the antis have
not been idle. For several weeks
one of the leading antis and a local
agent of one of the big brewing com-
panies have been making a house to
house canvass of the rural districts.

So far the antis have billed no
speakers for this place and it is said
their plan of campaign will be per-
sonal interviews with the voters.

MOVEMENT FOR
LOWER PHONE RATES

The matter of a reduction in the tele-
phone rates as applying to residence
phones was brought up at the meeting
of the directors of the Chamber of
Commerce this morning. The question
was presented by Secretary Day at the
request of T. C. Thatcher, who could
not be present at the meeting. Mr.
Thatcher's attention to the matter hav-
ing been called by the difference in the
rate at this place and Colorado Springs,
where he recently visited, the latter
place having a rate of \$1.50 per month
for residence phones as compared with
a rate of \$2 at this place, notwithstanding
both exchanges are owned by the
same system.

It was suggested that a committee
be appointed to investigate the matter
in connection with an effort to secure
a reduction to \$1.50, but Mayor Noble
informed the other directors present
that he had investigated the matter
in behalf of the city and had found
one town in Texas with a similar popu-
lation to Wichita Falls with a rate
below \$2, that being Abilene, where a
rate of \$1.50 prevails. He further sug-

ANOTHER CLERK FOR LOCAL POSTOFFICE

Homer H. Scott of Abilene, Texas,
Appointed For The New
Position.

Postmaster Dayton has received no-
tice from the department at Wash-
ington authorizing the appointment of an
additional clerk, beginning July 16
as a result of the growth of the busi-
ness at this place and the extra
work incident thereto. In this con-
nection he has announced the ap-
pointment of Homer H. Scott of Abi-
lene, who will enter upon his duties
on the date indicated above. Mr.
Scott was formerly employed in the
office at this place, doing extra work
for something over a year, and he is
said to be a very faithful and efficient
employee.

It is doubtful if there is an office
in a town of like size anywhere in
the country that has enjoyed the
business growth that has character-
ized the history of the postoffice at
this place, as evidenced from the re-
ports from time to time and further
verified by the additional facilities
allowed by the government and the
increase in salaries of both Postmas-
ter Bacon and the employees of the of-
fice.

Revolutionary Pot Boiling.
San Juan, Porto Rico, July 11.—
South American activists received here
today, say the former President Zelaya
is endeavoring to start a revolution in
Nicaragua and has support of a for-
mer ally who is now president of a
South American republic. It is report-
ed that a representative of this presi-
dent met Castro and Zelaya recently
in Europe and arranged for an in-
vasion of both Nicaragua and Vene-
zuela.

It was suggested that a committee
be appointed to investigate the matter
in connection with an effort to secure
a reduction to \$1.50, but Mayor Noble
informed the other directors present
that he had investigated the matter
in behalf of the city and had found
one town in Texas with a similar popu-
lation to Wichita Falls with a rate

DATES SET FOR AVIATION MEET

WILL BE HELD JULY 28 AND 29 AT
LAKESIDE BALL PARK IF
LAKESHORE ASSEMBLY
DIRECTORS CONSENT.

CHAMBER OF COMMERCE

Several Other Matters Discussed at
Meeting of Directors This Morning.

At the regular meeting of the direc-
tors of the Chamber of Commerce
this morning it was decided to have
the aviation meet at this place on
July 28 and 29, which dates were
selected on a motion that prevailed
by a unanimous vote. Some discus-
sion was had as to the location of
the meet, it being the sense of those
present that the event should take
place at the baseball park at Lake
Wichita in the event that there was
no objection on the part of the man-
agement of the Lakeshore Assembly
to be in session at that time. Should
the assembly management decline to
permit the use of the ball park, then
it is planned to have the flight begin
from the city hall, park in Beach
Heights. The arrangements as to the
location, and other matters in con-
nection with the attraction, are left to
the local committee appointed for that
purpose, which committee consists of
T. B. Noble, J. B. Marlow, and J. C.
Tandy.

Among other matters considered at
the meeting was a report from the
committee appointed to solicit sub-
scriptions for the relief of the storm
sufferers in this section and in Okla-
homa. The committee reported a
total of \$1127 subscribed, of which
\$760 was designated for the relief of
this immediate section, while \$367 is
to go to Devol, Grandfield and Loy-
land. The committee further report-
ed that a small amount of the local
fund had been used in purchasing
some seed for one party and medicine
for another and in this connection the
committee was authorized to hold the
local fund in trust to be used as di-
rected by them.

J. B. Marlow on behalf of himself
and associates, made a proposition to
the directors, the nature of which
provided that they would turn over
to the Chamber of Commerce their
well west of town, now 700 feet deep,
together with the casing on the
ground and five acres of land as a
part of a plan to have the well com-
pleted in a sufficient test for oil and
gas. Mr. Marlow explained that an
experienced driller had proposed to
install a big machine and dig the well
to a depth of 2000 feet in considera-
tion of \$4,000, no money to be paid
until the well was completed. He
further stated that they had decided
to abandon the proposition, and
would be glad to turn the well over
to the Chamber of Commerce with
the understanding that it was to be
completed. Some discussion was had
with reference to the matter but no
action was taken by the directors.

J. W. Bradley, as a member of the
committee appointed by the Wichita
Falls Ad Club to devise ways and
means for sending a delegate to the
national convention, was present at
the meeting and requested the direc-
tors to make an appropriation suf-
ficient for one half of the expense
of B. J. Bean, who had been selected
to attend and of Marvin Smith and
P. H. Pennington from New York to
Boston, the three to represent Wichi-
ta Falls. Secretary Day, who is also
secretary of the Ad Club, referred to
the advantages of the city being rep-
resented, explaining that much pub-
licity would come to the city as a
result of these men being in attend-
ance. Mr. Day stated that \$50 would
cover one-half the expense that would
be incurred. After some discussion
the matter was referred to the adver-
tising committee with a request to re-
port at the next meeting of the direc-
tors.

What has become of the old-fash-
ioned bride who didn't think it was
necessary to get a feather bed for a
bridal gift?

The Wichita State Bank

Wichita Falls, Texas

This Bank and Your Business

There are many banks in the country larger than The Wichita State Bank. They may have more capital and perhaps do a greater volume of business. But for the smaller business man, farmer or manufacturer, had it occurred to you that the small bank is the best place for the beginner to go?

The big bank is often cold-blooded and independent. Your business in the big bank is but an incidental detail, and your interests are scarcely noticed.

The small bank, however, can give your business more time and attention, for it is interested in your success.

This bank while small in comparison to some of the large banks, has ample means and facilities to properly care for your business. Its officers have time to consider your interest and welfare. Your business will be welcome and will receive their best attention.

WHEN BUFFALOES ROAMED PLAINS

KANSAS MAN TELLS OF TIME WHEN HE KILLED FIFTY SIX IN ONE DAY.

HE BEAT BUFFALO BILL

Colonel Cody Says Jeff Durfee is the Only Man Who Excelled Him.

Buffalo Bill said recently in New York that the best rifle shot he ever saw was Jeff Durfee of Kansas.

"Durfee was the only man I ever saw who could head me shooting buffalo on the run," said Buffalo Bill.

Jeff Durfee lives in Osborne county, Kan., nine miles from the county seat. His marriage in 1877 was the first that ever took place in Osborne county, and he took his bride to live with him in his house he had built, the first one ever built in the county. That house that he built of oak logs cut forty-one years ago stands today about a rod from the big farm house that he built later when he became rich from enormous wheat crops.

The old house is typical of the old pioneer civilization of Kansas. The old log house is used now as a store house for odds and ends of the farm. Its loft is cluttered with parts of reapers and binders, threshers and disc drills and from among them some old horns of buffalo that he shot forty years ago on that very farm.

Before he became a wheat farmer, Durfee was a professional buffalo hunter for years on the Kansas plains. Buffalo hides brought him the money that paid for the first 160 acres that he bought from the government. Wheat paid for the other 1190 acres in his big farm.

Durfee keeps books on the smooth pine door of the old log house. Chalked upon that door is this record: "Wheat raised in 1910-4,836 1/2 bushels."

Durfee tells of the time when Buffalo Bill rode nine miles across the plains to see what kind of a rifle he used in shooting buffalo.

"That was when Buffalo Bill was supplying the Kansas Pacific road with buffalo meat," said Durfee the other day. "I was shooting buffalo on the head of Walnut creek. Bill heard a good deal about what I was doing. He rode over to see what kind of a rifle I was using. He supposed I had some kind of a new-fangled gun, and when he drove up he says to me: 'Jeff, I heard Dave Willis tell about your going after nine buffalo bulls and killing seven of them in a day. There's no man can do that with any kind of a gun I've ever seen, and if you don't mind I'd like to see your gun.'"

"You'd ought to have seen his face when I handed him my rifle. It was an old government Springfield made into a needle gun. I had paid \$25 for it in Solomon City. It was no so much the gun as the man behind the gun I guess."

Durfee was asked how many buffaloes he had killed in those days.

"I don't know—thousands of them. I used to kill from 20 to 50 a day. One day I killed 56. I could have killed hundreds in a day, but we didn't waste cartridges on cows and small bulls. A bull hide was worth more than a cow hide, so we used to pick out only the biggest bulls. I had a way of my own."

A herd of buffalo wouldn't stampede as long as the hunter kept out of sight. So I used to creep up within good shooting distance and kill the big bull that always led the herd. The herd would become excited but would soon settle down to grazing again and another bull would step out as leader. I would shoot him, and then the next one and so on until the herd became frightened away."

"In those days there were millions of buffaloes on these plains. I stood once on the divide between the two Solomons and looked down on a solid mass of buffaloes as far as the eye could see in all directions. The plain was black with them. The herd was 40 miles wide and I don't know how long. I was camped once on the bank of Beaver creek, which was six inches deep, with swiftly running water. A buffalo herd came to the creek above our camp and drank it dry. For hours the creek bed was dry until the great herd had passed on. In 1872 a great herd of buffalo drank the Solomon river dry, and the water in it was 25 feet wide and a foot deep."

"When I first came to live here in the log house the buffalo herds used to stream past the cabin within 10 feet of it, but I wouldn't shoot them then, because I didn't want the carcasses around in hot weather, and the thousands of wild turkeys are better eating. I've seen 300 wild turkeys in one drove right here on my place. And beaver the Solomon was full of them then. The last buffalo I saw was in 1875 when a bunch of eight came across my place, and I got two of them."

Durfee laughs when he is asked if he ever had any scrimmages with the Indians.

"I never saw an Indian that would fight; they are all cowards," he says. "A band of 13 Sioux Indians followed me for a whole day once. We were hunting 150 miles southwest of here when eight Sioux chased one of our men into camp. I went out on the top of a knoll and signaled for them to come on. Three of them came toward me, and when they got within 50 yards they made friendly signs and laid down their guns. They went into camp with me and we fed them and I smoked a pipe with them. Three years later I was hunting 300 miles northwest of here and was out alone, when I discovered a band of 13 Sioux Indians sneaking up toward me. All day long they followed me

Mrs. Louise Winterfeldt of New York, once called by Mrs. Paquin "the best gowned lady in London," who won out in one of the most unique law suits in the history of the British metropolis. She was sued by a third street complexion specialist, who said that she spent \$100,000 a year in maintaining her business, and that she had five assistants, each of whom brought her in an income of \$2,500 a week for smoothing out wrinkles and restoring to faded cheeks the bloom of youth.

Mrs. Winterfeldt, the specialist alleged took away from her by unfair means one of her assistants—the kind that brought in \$2,500 a week. She explained that Mrs. Winterfeldt had paid her \$500 for treatment while in London and that an assistant had been allowed to accompany her to America, and Mrs. Winterfeldt had persuaded her to stay there as her secretary. The plaintiff went all the way to America to look the assistant up.

Mrs. Winterfeldt and her husband, when in New York, made their home in apartments at Sherry's.

and tried to sneak close enough to shoot me without danger to themselves, but each time I stood them off. At last I went to the top of a knoll and waved to them to come on. Finally one Indian rode out and came toward me, making friendly signs. When he got close he called me by name. He was one of the three Sioux I had fed three years before. We sat down to have a palaver and by and by I happened to look around, and the whole band of 12 was creeping up on me. I got up and aimed my rifle at the heart of the Indian with me and said: "Signal them to halt, or I'll kill you." He waved they stopped, and then I made him march off. That band of 13 Sioux was afraid of my rifle and I took my time getting back to camp."

The Attorney General's department has approved an issue of \$20,000 in bridge bonds for Menard county.

The Bowie Commercial Club has had a United States engineer surveying in that section for ten days for the purpose of determining the cost of good roads in that county. An election will be held soon for voting bonds for building roads.

Palestine will hold an election to determine whether bonds shall be issued for building good roads in that precinct.

A rich silver mine was recently discovered near Marathon, Brewster county, by a party of young men who were out prospecting.

Fifth Anniversary Sale

Unprecedented Values Unparalleled Prices

Yes—We've made something of a stir. We've livened things up a bit. This Great Anniversary Sale has created a panic among the buying public. Little wonder? Never in our experience have we known such a slaughter. It has been a genuine bargain orgie—a surfeit to plenty—a feast of all good things.

And we're still at it. Still cutting off the Dress Goods and Wash Goods—patterns—still dealing out Laces and Embroideries. Still handing over Gents Furnishing Goods and Notions and Dress Requisites and Materials of all kinds away under regular values. Have you been here? Have you examined the offerings? And compared the values? And contrasted the prices? Then, come and get yours.

Remember, with the exception of less than half a dozen articles, everything in the house is on sale at reduced prices.

It will pay you to visit our store everyday during the life of this great sale. Ladies' Skirts, Ladies' Dresses, Ladies' Kimonos, Ladies' Waists, Ladies' Muslin Underwear, Corsets, Vests, Hosiery; Men's Clothing, Men's Underwear, Men's Hats, Men's Hosiery; Men's, Ladies' and Children's Shoes, Oxfords and Sandals all on sale at Anniversary Prices.

Fads and Fashions

New York, July 11.—It cannot be denied that the one-piece dress frock is extremely popular this summer, as is the one piece tub frock of any and every material, and it will form the cornerstone and foundation of the average girl's summer outfit this year. The manufacturers have made great improvements in the lines and they remain much longer than they used to and are so soft that they can be easily laundered.

The colorings in the lines are jovial and more varied than ever before and the fashionable shops display a large variety of the hand-somest models of such one piece linen frocks. Most of them are made with admirable simplicity, which is a great advantage when it comes to laundering.

Little boleros are very chic this season. They are slightly full, and many are edged with ruffles and frills of silk. They are cut low and fastened at the waist line, and are cool and lovely. Pale pinks, blues, greens and lavenders are much in evidence for these short jackets over the frocks. The striped "coatees" are effective with the plain goods the plain with the figured.

Deep revers and sailor collars are pretty finishes for these coats. The simple ruffle of chiffon or net is also good, while hand embroidery or beadwork always is the distinctive touch that a needlewoman can give. These little jackets are in most cases sleeveless and are seamless on the shoulder.

Because the bolero is so much in fashion among the exclusive, the bodices are now made with a wide tuck in them, put above the edge of the high waist band of the skirt. This tuck may be piped or faced with another material if desired. The effect is much like that of a short bolero jacket just reaching the top of the Princess skirt. Sometimes the tuck is made of the material of the skirt. If the bodice is of another fabric, again it is made of the same stuff that trims the skirt.

All the new laces that have a heavy raised design on a net foundation are now called repousse. There is a wide demand for this sort of lace work, although it differs from flat and the ecclesiastical laces that are also in favor. There never was a season like this one for lace, anyway. Whole rooms are given over to it in some of the big shops and machine-made and hand made kinds vie with each other in beauty and dignity.

Almost every kind of lace in the world has ever known has been revived. No gown or simple coat-suit seems complete without the addition of some pattern. The huge Revolutionary revers are made of marvelous meshes, sailor collars are cut from pieces of square laces that have figures of all sorts woven in the net, and stocks and chemises are made from the fine French laces that have

with tabac brown linen nearly as coarse as burlap.
Shot taffeta and striped silks are the popular fabrics for the dressy tailored costumes and for summer wear white is used either in the stripe or the body of the material. With all white silk serge costumes white crocheted or Venice lace over-collars on black chiffon are worn. Large blue and white with large white reverse of mouseline, crepe, satin, or moire—and even of white suede is popular. Sometimes to reverse forms a part of a deep sailor collar of plain satin and inlaid with white Venice lace, and having an overlapping hem the plain satin.

An effective suit is developed in white linen of a coarse weave. The skirt is high waisted and the jacket is short, without being extreme. The broad roll collar is of linen in a fine black and white stripe, arranged on the bias and edged with narrow white novelty braid. The jacket seams are finished with this braid and near the base of each is inserted a pointed piece of the black and white material, trimmed with pearl buttons. A similar arrangement is carried out along the skirt hem and on the outer side of the sleeves as well. Black satin ties are fastened under each side of the collar, to form a sailor's knot at the front. Sleeves are made rather wide and short and the trimmings of the jackets are mostly Breton.

A notable feature of the season's fashions is the extraordinary popularity of black and white and navy blue and white, especially in the form of stripes of various widths, for these "magnetic" effects are seen in cloth, voile, rayon, silk, and in satin, and are exceedingly smart with a touch of bright color in the trimmings such as cerise, turquoise blue or emerald green.

Some very pretty models for after-noon dresses have made their appearance. The newest are absolutely novel in shape and color. New silks are being shown every day. Very supple taffeta is much used in one or two contrasting colors. A new kind of silk is the "Chine." This is chiefly used for tailor made, cut with a short jacket. The jackets are trimmed with a silk fringe, or "ruches" in the same color. Green in all its shades and blue are greatly in favor, and a new blue, rather vivid is called "Clair de Lune."

One of the very latest novelties from Paris is the frill jabot of plaited maline, in which a plaited piece of the material about twelve inches long is caught together in the center with a strip of maline and planed at the front of the lace collar, forming a semi-circle or spreading fan-shaped jabot.

Another new jabot, which is very similar, has the lower edges graduated by being cut obliquely. This is made of marquisette, with insertions

Prohibition Snap Shots

Note.—The matter published in this column is authorized by the county prohibition committee, J. M. Bell chairman.

Of course, the Antis will believe, or, Colonel Belfrage they will Governor of Oklahoma, notwithstanding, about only paid one or two visits Oklahoma and Gov. Cruce is on the round all the time and sworn to enforce the laws of his state. Listen hat Gov. Cruce handed back to our anti Governor.

"I am loath to believe that Gov. Cruce ever used the language attributed to him. If he did, he certainly grossly misrepresented the good people of Oklahoma, and I think placed a very low estimate on the citizenship of Austin, Texas."

It would seem next to Jones' statistics the report of the Dallas County Grand Jury is giving the Antis more trouble than anything in the campaign. And, now comes District Attorney Maury, of Harris County, the headquarters of the Antis, and is distributing pamphlets of the Dallas Grand Jury report to the people of Houston and Harris County, and mailing a copy to every citizen. Because with 500 cases on the Criminal Court docket of his county, he thinks it will have a good effect and tend to alleviate the conditions that exist. Remember, that the Dallas Grand Jury said that 70 per cent. of the crime of that county was due to the open saloons.

Antis of Wichita county, who claim voting out the saloon will injure your town financially, ask O. J. Pickle and Joe Mears, both citizens of our city who recently visited Vernon. Mr. Pickle tried to secure an office to accommodate the Western Union Telegraph Co. and, to his surprise, found everything occupied, and was forced to rent a part of a millinery store for the company. Mr. Mears says that all dwelling houses are also occupied, and the same thing is true at Chilton, and other dry towns along the Denver. Dr. Reed says, a drummer who lives in Gainesville and who is a strong Anti, admitted that Gainesville is now a better town than when they had saloons. Take this testimony, together with the testimony of Judges Carrigan and Martin, that there is more crime committed within two miles of the Court House in Wichita County, than all the other nine counties of this Judicial District, and you can certainly see the effect and influence of nineteen saloons.

(Advertisement.)

Terrible Picture of Suffering.
Clinton, KY.—Mrs. M. C. McElroy in a letter from Clinton, writes: "For six years, I was a sufferer from female troubles. I could not eat, and could not stand on my feet, without suffering great pain. Three of the best doctors in the state said I was in a critical condition, and going down hill. I lost hope. After using Cardui a week, I began to improve. Now I feel better than in six years. Fifty years of success, in actual practice, is positive proof that Cardui can always be relied on, for relieving female weakness and disease. Why not test it for yourself. Sold by all druggists."

A branch of the Daughon Business College has been located at Teague.

SOME CLASS HERE

FOUR BALLS! OUT

Negro Umpire At Atlanta Pulled a New One So The Tale Now Goes.

The umpire scouts overlooked this indicator man. The following is a sample of his work.
The Atlanta Deppens and the Birmingham Gold Dusts, negro baseball teams, were playing a strenuous game in Atlanta. In one inning the Gold Dusts had the bases full with no outs. An ebony-hued batter stepped to the plate. The pitcher sent the sphere to the catcher.

"One ball," called the negro umpire. Again the pitcher got busy.
"Two balls," called the umpire. After the third ball pitched the man with the indicator shouted.
"Three balls!" Once more the sphere went across the plate.
"Fo' balls, yo' out!" shouted the umpire. The batter was highly indignant.
"What?" he yelled. "Me out?"
"Now, look a-hen, man," said the umpire; yo' gotta be out. Dey ain't no room fo' yo' on de bases."—Spokane Spokesman-Review.

ENVOIUS WOMEN.

You Can Have Just as Lovely a Head of Hair as any Woman.
Don't feel blue because your hair is lifeless and faded, get a bottle of Parisian Sage and see how quickly it will become brilliant and fascinating.
Use it daily for a few days and note how quickly scalp itch ceases and dandruff vanishes.
It stops falling hair too and makes thin scanty hair grow thick and profusely.
It's the real invigorating delightful hair dressing for men, women and children, and best of all, if it doesn't do just as advertised get your money back. It kills the dandruff germs, and for 50 cents you can get a large bottle at O. E. Marchman's and druggists everywhere. The girl with the Auburn hair is on every bottle.

The city of Beaumont has asked for bids on a new warehouse to be erected on the city wharf at an estimated expense of \$15,000.

Wichita Falls, Texas, July 11th, 1911.

The "pistol toter" is an enemy to
society and good morals, and as a rule
the fellows who make it a business to
"tote" a pistol is a coward of the
worst kind.

Gen. Castro, at the head of an army
of 1000 men, has again landed on Ven-
ezuelan soil. The next thing to be
looked for is that Castro has again took
charge of the government of that coun-
try. All of which will go to prove that
a man can come back.

Of course, straw votes rarely ever
prove anything, but that don't prevent
them from being taken, and the result
is always made public. Yesterday a
vote of this kind was taken on the
question of statewide prohibition in
the grand jury room, and it showed
72 to 66 in favor of statewide prohibi-
tion. The county and district attor-
neys were included in the poll. It is more
than likely that if a straw vote had
been taken of those against whom true
bills had been returned the poll of the
grand jurors would be offset.

The rentals on telephones in Wichita
Falls should be as low as that now
enjoyed by Abilene and other
thrifty, hustling cities. Abilene has a
rate of \$1.50 per month for residence
phones. That used to be the rate in
Wichita Falls, but when the company
made some improvements in its sys-
tem here, including the installing of
new phones, it claimed the right to
charge 50 cents extra on the new
phones, making the rate \$2.00 per
month instead of \$1.50 per month.
Where the old style phones were left,
only \$1.50 per month was charged. This
has been more than three years ago,
and it is more than likely the company
has been able during that time to col-
lect in extra charges at 50c per phone
per month a sufficient amount to pay
the cost of every one of the phones in-
stalled. It strikes the Times now, that
the company should be willing without
protest to go back to the old rate.

Don't fail to attend the mass meeting
of citizens of Wichita county at the
court house in this city on Thursday
afternoon of this week. This meeting
is by far of more importance, in the
opinion of this paper, than any public
meeting that has been called for in
many months. The matter of calling
an election for the issuance of good
roads bonds is to be acted upon, and
The Times trusts that favorable action
will be the result. Wichita county
needs good roads, and there never was
and perhaps never will be a better or
more favorable opportunity of getting
them than now. The movement has
already the hearty endorsement of the
Farmers' Union organization, and with
the co-operation of the business men
and the people generally of both the
city and county, it can be put through.
If this is done now it will give em-
ployment through the fall and winter
months to several hundred men with
teams, who, unless they are given em-
ployment will be forced to seek it else-
where.

20 KILLED; 70 INJURED IN AN AWFUL CRASH

(Continued from Page 1)

and another impaled on a great
splinter. One remarkable incident
was when the fireman chopped a hole
in the roof of a car lying on its side,
that immediately a man crawled out
dragging a suit case. He said he had
not received a scratch, and began
helping in the rescue.
The engineer after striking the
cross over bumped along over ties
for a hundred and fifty feet before
jumping to the street. The positions
of the fireman and engineer indicate
they jumped after the engine left the
rails.

NEWS NOTES

FROM IOWA PARK

Iowa Park, July 11.—Dr. Gregory,
superintendent of the insane
Asylum at Turrell, Texas, spoke on the
streets last Friday afternoon at 3:30
in the interest of prohibition. He also
delivered a lecture that evening at the
Baptist church, which was filled to
overflowing on "The Effects of Hered-
ity and Alcoholic Stimulants upon
Insanity." The lecture was deeply in-
teresting and when at its close a stand-
ing vote was taken it was seen that al-
most the entire audience endorsed Dr.
Gregory in his stand for statewide prob-
hibition. On Saturday night Dr. Greg-
ory spoke at Denney.

The revival meeting which Rev. Per-
guson has been conducting the past
week is still in progress. Those who
were baptized yesterday morning
were baptized yesterday morning.

At a church conference held Satur-
day afternoon it was decided to call
Rev. Perguson to the pastorate of the
church. He has not yet given an an-
swer to the call.

Saturday afternoon a stranger whose
home is in Houston was thrown from
a freight train and his collar bone and
shoulder blade were broken. He was
moved to the state boarding house
where Dr. Dooley attended his in-
juries.

Messrs. Ralph Hines of Wichita
Falls and Kenan of Electra were among
the visitors in town last Friday.

Mr. Claude Reeves who has been
clerking in Overby & Troutman's gro-
cery store returned to his home in
Tennessee last week to remain until
fall.

Miss Gera Davis has been visiting
friends in the country the past week.
Miss Carrie Whitely is expected home
today from Henrietta where she has
been visiting Miss Ruth Crutchfield.

Mrs. Frank Johnson of Clovis, N. M.
has been visiting her brother H. L.
Terhune.

Mrs. T. P. Lynch arrived home Fri-
day from a visit to Coma, Texas. She
was accompanied by her sister, Mrs.
Babyl and little daughter of Gaines-
ville.

Rev. H. B. Johnson pastor of the M.
E. church at this place is conducting
a revival meeting at Denney this week.
Miss Maude Lightsey of Wichita
Falls spent several days last week
with friends here.

Mrs. Geo. Mills who has been very
low with typhoid fever is reported to
be greatly improved. Her father Mr.
Harp arrived at her bedside Friday
night.

Miss Emma Urbach arrived in the
Park last week to accept a position as
bookkeeper at the Farmers Elevator
Company.

Rev. J. W. Morgan went to Lake
Creek Saturday to fill his regular ap-
pointment.

Mr. Mounts telephone manager at
this place has resigned his position
here the resignation to take effect
August 1.

Mrs. Elizabeth McFadyen, of Frank-
linville, N. C., arrived last week to
make her home with her son, C. Mc-
Fadyen.

Mr. Walter Denny returned to
Chillicothe Sunday after a week spent
with the home folks.

Mr. Robert Brubaker, who recently
graduated from college in Valparaiso,
Ind., returned home last Friday night.

The Mission Societies of the vari-
ous churches will be entertained to-
morrow afternoon by the Presbyterian
ladies at the home of Mrs. Birk.

Mrs. T. W. Parker was hostess to
the 1908 Library Club last Wednes-
day afternoon. The club decided to
serve punch and wafers on election
day, July 22 to raise money to pur-
chase new books for the public li-
brary.

The infant child of Mr. and Mrs.
J. R. Morgan was buried in the Iowa
Park cemetery Friday evening. Rev.
J. W. Morgan conducted the services
at the grave. Mrs. Morgan's sister,
Mrs. Sam Jones of near Holliday, was
with her.

Misses Gertrude and Ida Denny,
Little Small and Little Sisk drove out
to the Denney community Sunday af-
ternoon and attended the prohibition
rally at the Denney school house that
night.

The Magnolia Petroleum Company
which has refineries at Corsicana
and Beaumont will establish a plant
at Paris in the near future.

The Attorney General has approved
the bonds recently voted at Estelline
for building good roads in Hall coun-
ty.

Percy Noodles requests us to say
for him that he has read all he needs
to know of the big doings in London,
lately and that returning travelers
will please not try to tell it to him.

CHURCH PROGRESS

Gleanings From the Religious
Press.

In the Brooklyn Sunday school
parade, reviewed by President Taft,
more than 100,000 Sunday school pu-
pils were in line.

Among the 175,000,000 people of
Africa 2470 Protestant missionaries
are at work. The latest statistics
show 223,156 communicants.

Six conferences of the Methodist
church of Canada have endorsed
church union by votes varying from
about four to one to a unanimous
vote.

There are 120,000 Baptists in Scot-
land, the country which gave to the
world Alexander McLaren, the great-
est apologist preacher of this and the
last generation.

The United Presbyterian church
makes its appropriations for 1911-12
to the various benevolences on the
basis of \$5.20 per member per year,
or ten cents per member per week.

Candidates for the ministry in the
Southern Presbyterian church for the
year just closed were 436, the largest
number for any year in the history
of the church.

Bishop James Atkins of the Method-
ist church has appointed Rev. C. E.
Lindsey of Red Oak, presiding elder
of the Chico (Texas) district, suc-
ceeding Rev. J. Sam Barcus, who has
been elected president of Seth Ward
college, Plainview, Texas.

Contributions from foreign missions
by the Southern Presbyterian church
have increased from \$141,507 in 1900
to \$452,532 for the year just closed.
The per capita contribution has in-
creased during this period from 62
cents to \$1.58.

The German Reformed church
which will probably unite with the
Presbyterian church (North) has 300,
000 members, fully 200,000 of whom
are in Pennsylvania. If union is ef-
fected, the result will be a Presby-
terian church of 1,500,000 members.

The supreme courts of the follow-
ing States have sustained the union
between the Cumberland Presbyterian
and Presbyterian (U. S. A.) churches:
Alabama, Arkansas, California, Illi-
nois, Georgia, Indiana, Kentucky,
Mississippi and Texas.

In this country Baptists lead all
the Protestant denominations in the
number of communicants. Here one
person in every seventeen is the
member of a Baptist church. The
Baptists reported last year were
328,895.

In the roll call of the nations of
the Baptist World Alliance Dr. W. E.
Hatcher of Richmond, Va., answered
for the Southern Baptist convention.
In the territory of this convention
there are nearly 16,000 preachers, be-
tween 22,000 and 23,000 churches and
a membership of 2,288,000 (whites).

The Congregationalists in England
in common with some other denomina-
tions in that country, report a de-
crease in membership for the past
year. The figures given out at the
May meeting of the Congregational
union in London, show that there are
4721 churches (an increase of fifty-
five) and 454,810 members (a loss
of 1807).

Among the chaplains of the United
States army—the churches are
represented as follows: Roman
Catholics, 16; Protestant Episcopal,
15; Presbyterians, 7; Methodist
Episcopal, 7; Baptist, 6; Congrega-
tional, 3; Methodist Episcopal, South,
3; Unitarian, 2; Lutheran, 2; Chris-
tian, 1; United Brethren, 1; African
Methodist, 2; colored Baptist, 1.

Yale Divinity Seminary is to be
transformed into a school of practi-
cal methods of religious work, things
purely theoretic to be discarded.
There are to be departments for
training in pastoral, missionary,
teaching and social missionary service
work. Men will be trained for mis-
sionary service in any part of the
world, and for directors of Bible
study, Christian association and Sun-
day school work.

An exchange comparing the figures
with 1910 finds that the percentage of
increase has been greater in the in-
dustry than in the other professions.
And yet there was never greater
need for more strong, well equipped
men for the ministry. Number of
lawyers—1900, 89,630; 1900, 114,703;
increase, 25,073; per cent increase
20.9. Number of physicians—1900,
104,805; 1910, 132,225; increase 27,
420; per cent increase 26.1. Number
of clergymen—1900, 88,203; 1910,
111,942; increase 23,739; per cent in-
crease, 21.2.

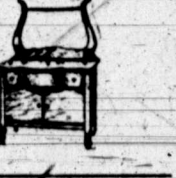

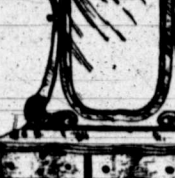

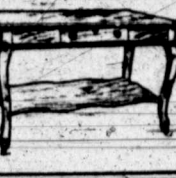

The population of the country has
increased in ten years 20 per cent.
The population of the Pacific coast
States has increased 20 per cent.
The membership of Baptist churches
has increased 93 per cent. Church
buildings have increased 44 per cent.
Contributions to missions 277 for
State missions, 249 for foreign mis-
sions and 574 for home missions, an
average increase in ten years of 301
per cent. Baptist church property
values have grown \$5,695,000 in ten
years.

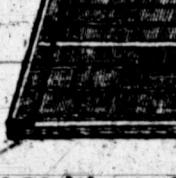

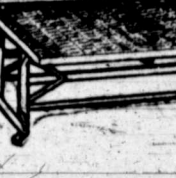

The statistics of the Southern
Presbyterian church, given out re-
cently, show that during the year
ending March 31 there was an in-
crease of fifty-one churches, eighteen
ministers and 4254 members.
Teachers in Sunday schools show an
increase of 517, while the number of
scholars shows a decrease of 5645.
The totals are: Churches, 3375;
ministers, 1712; members, 286,174;
scholars in Sunday schools, 199,464.
Contributions reached the grand total

THE COURT HOUSE NEEDS RENOVATING

Continued from page 1

Newspaper Ghost Stories.

It is interesting to note the appar-
ently everlasting life of newspaper "ghost
stories." In some cases they have been
going the rounds for half a century or
more, but evoke as much interest to-
day as they did at the time of their
origin. One of them especially has
caught the eye of a writer on the New
York Herald, who gives a little of its
history. The item follows (it came
over the wires as a fresh piece of news
from Greeley, Colo.):

"After lying in the tomb of an
Egyptian mummy for probably thou-
sands of years, ten grains of wheat
sent to a greedy farmer and planted
west of here germinated.
"From them eight stalks of wheat
have grown. This promises a variety
of wheat superior to any growing in
this locality and may supplant Ameri-
can wheat."
This story, says the Herald, which
was first printed in James G. Blaine's
Portland, (Me.) Advertiser in 1851, has
recurred with remarkable regularity in
the press of the United States for six-
ty years. Sometimes it comes from In-
diana, but in recent times its habitat
has shifted farther west.

Not An Experiment.

Paint Lick, Ky.—Mrs. Mary Free-
man, of this place says: "Before I
commenced to take Cardui, I suffer-
ed so much from womanly troubles,
I was so weak that I was down on
my back nearly all the time. Cardui
has done me more good than any
medicine I ever took in my life. I
can't possibly praise it too highly."
You need not be afraid to take Cardui.
It is no new experiment. For fifty
years, it has been found to relieve
headache, backache, and similar wo-
manly troubles. Composed of gentle,
acting, herb ingredients, Cardui also
builds up the strength, preventing
much unnecessary pain. Try it for
your troubles today.

Another oil gusher, the second
brought in recently, is reported from
the Electric field. The new well is
owned by the Producers Oil Company.
The bond issue of \$100,000 for
building good roads in Gregg county
was carried by a large majority.

THE COURT HOUSE NEEDS RENOVATING

Continued from page 1

good and solvent bond in sufficient
amount to protect society and the
state, and insure the appearance of
the party before the courts to answer
the charge.

Conditions with reference to the
running of houses of ill-fame in
Wichita Falls, while not ideal are bet-
ter than they have been and the offi-
cers are trying to suppress this evil.
It is hard to get the facts about what
is going on in rooming houses and
the law protects lewd women who
live with their husbands from prose-
cution. Crime cannot be discovered
and punished because perjury among
those who oppose the enforcement
of the law is of common occurrence
in the grand jury room.

Unfortunately our peace officers
are not all working together in har-
mony and good will, but for the good
of the community, the county and
state, we hope they will bury their
jealousies and differences and work
together in unity for a complete en-
forcement of the law.

The provision for taking care of
junior criminal cases who must spend
the night at the court house are not
what they should be and clean and
decent bedding should be provided.

We ask the court to appoint a
finance committee to make a thorough
investigation of the financial offices
of the county.

Respectfully submitted,

W. J. BULLOCK, Foreman Grand
Jury.

Hoke Smith's Election Assured.

By Associated Press.
Atlanta, Ga., July 11.—Hoke
Smith's election as United States
Senator is assured tomorrow.

Victims of Mosquitoes.

Newark, N. J., July 11.—After hav-
ing spent three days and nights in a
swamp near Caldwell, N. J., Aaron
Kennedy is dying from mosquito bite

poisoning. He was out for huckle-
berries and wrenched his ankle so he
could not walk. When found after
three days, swarms of mosquitoes had
bitten him until his features were
swollen beyond recognition. He had
fought the pests by building a fire
and his rescuers found him lying un-
conscious near the ashes.

CLEBURNE WON 3
OUT OF 4 GAMES

IRISH LADS UNABLE TO DO ANYTHING WITH ORAM'S OFFERINGS.

TEAM IS AT HOME TODAY

Series With Ardmore Opens This Afternoon—Altus Team Has Blown Up.

Cleburne, Texas, July 11.—Cleburne made it three out of four yesterday winning from the Irish Lads by a score of 4 to 1. The Lads were able to secure only one measly hit off Oram and their single run resulted from a passed third strike, Gibson being under the impression that only one base could be taken. This has been one of the ground rules but the umpire had not been informed. Cleburne has gone to Durant while Wichita Falls has returned to that place for a series with Durant.

One reason it is so hard for a widower to engage in a romantic courtship is because every time he tries to memorize poetry he goes to sleep.

Archbishops Blank at Dallas.

By Associated Press. Dallas, Texas, July 11.—Arch-Bishop James H. Blank, of New Orleans, and eight bishops from the south and southwest arrived here today for the consecration tomorrow of Father Patrick Lynch as bishop of diocese of Dallas.

Differences in Inborn Capacity

San Francisco, July 11.—The misplacement of children in schools, getting them too high or too low for their mental capacity, is responsible for much of the truancy and incorrigibility, according to Henry H. Foddard, of the School for Feeble Minded, Vineland, N. J., a speaker at one of the section meetings of the National Education Association today. The speaker said that studies at the Vineland institution have shown that sixty-five per cent of feeble mindedness is hereditary. The speaker, discussed particularly the Binet Measuring Scale for intelligence, which has received official sanction by the New Jersey legislature. Mr. Foddard said, in part:

"The Binet Scale is a method of marvelous accuracy and of great practical value, and can be applied to help-us solve some of our problems and make our school system more efficient."

"We are beginning to recognize that many of our difficulties in school are the result of differences in inborn capacity rather than in inborn wickedness. It is therefore necessary to have some method of measuring that inborn capacity."

The Research Department of the New Jersey Training School for Feeble-minded Children has carried out a systematic testing of an entire school population of 2,000 children, using this method. The results amount to almost a mathematical proof of the accuracy of the Binet method. It shows that there are 4 per cent of children who are precocious or better in mentality than the average child, 78 per cent are normal, 15 per cent are backward, and 3 per cent are feeble-minded. This ratio probably holds almost universally.

"We should have schools or special classes for these precocious children in order that the natural advantage with which they are born should not be lost, and that they should not learn bad ways and bad habits from being in classes that go so much slower than they are able to go. The 15 per cent that are merely backward should be in special classes too, that they may be coached and helped along and enabled

ALTUS TEAM HAS
NOT DISBANDED

The report that the Altus team had blown up from the fact information is incorrect.

The Bonham team now in the city enroute to Altus will not go out this afternoon but will proceed to Altus tomorrow where a double header will be played.

In yesterday's game at that place Altus defeated Ardmore by a score of 7 to 0. Members of the Ardmore team which came down from Altus this morning report that a substantial sum was raised by citizens of Altus last night for the support of their team and that the indications were that it would remain in the league until the close of the season.

RECALL MUST BE
STRICKEN OUT

Washington, D. C., July 11.—Chairman Smith of the Senate territories committee today after a conference with President Taft gave notice of an amendment to eliminate the judiciary recall provision of the Arizona Constitution and said if the statehood resolution is adopted as it passed the house it will be vetoed.

HIGH COST OF
LIVING NO MYTH

Washington, D. C., July 11.—The high cost of living is no myth. An investigation by the bureau of labor of the prices of 257 commodities during 1910, shows that wholesale prices then were 4 per cent higher than in 1909, and 1.6 per cent above the average of 1907, which was the year of highest prices since 1890. In view of the Canadian reciprocity discussion, an interesting item in the bureau report shows that the wholesale prices of farm products was 7.5 per cent higher in 1910 than in 1909. Wholesale prices in 1910 were 19.1 per cent higher than in 1900; 46.7 per cent higher than 1897 (which was the year of lowest prices between 1890 and 1910); 16.5 per cent higher than 1890 and 31.6 per cent higher than the average high prices between 1890 and 1899.

Maximum in 1907. The highest prices in this decade were reached in October, 1907, when a general decline began which continued until August, 1908. A rise then set in and there were monthly increases without a break up to March 1910 when wholesale prices reached the highest point in twenty years. They were then, 21.1 per cent higher than the average of 1906; 49.2 per cent higher than the yearly average of 1897, and 33.8 per cent higher than the average price of ten years between 1890 and 1899.

Then followed a slight decline and from June to December, 1910 prices remained nearly level and at the close of 1910, they were still 30 per cent higher than the ten-year average between 1890 and 1900 and 45.4 per cent higher than the record set by the high price year, 1897. Of the 257 commodities considered in the investigation 148 showed an average increase twenty-six showed no change, and eighty-five showed decreases. Some extraordinary variations were recorded during 1910. Potatoes increased 60 per cent; eggs, 80 per cent; coffee 60 per cent; meat, beef 35 per cent.

Rev. O. T. Cooper of the First M. E. Church, South, was called to Bowie today to officiate at the nuptials of Mr. Luther Webb, of this city and Miss Margaret Ayres, of Bowie. Mr. Cooper will return to Wichita Wednesday afternoon.

The contract for the erection of a handsome cottage home for W. Newton Maer was awarded yesterday afternoon in the office of Jones & Orloff, the architects, the lowest bidder being the firm of Brown & Cranmer. The building, which is to cost approximately \$4000, will be one of the handsomest cottages in the city, the plans providing a new and very attractive design. It is understood that work is to begin within the next few days.

Ida Washington, better known in police circles as "Black Ida," and three other negro women were brought before Squire Brothers in the office of County Attorney Boone this afternoon, "Black Ida" being charged with the theft of \$12.01 from a white man in the flats last night. The money was found where the negro women were arrested but the party from whom the money was taken did not know just when or by whom the money was taken and the negroes were released the \$12.01 being restored to the owner. The case was quite an interesting one, a feature of which was the spell that came over the defendant during the hearing, in which she bit the hand of one of the other negro women.

The Ardmore baseball team came in today from Altus for a series of four games with the Irish Lads beginning this afternoon.

The floor in the lobby of the post-office is undergoing repairs, new plank being put in where the old flooring has suffered from wear.

Mrs. Dr. Garrison, who has been quite sick for some time is reported not so well today her condition being more critical than at any time since she was taken down.

San Francisco, July 11.—"Ologies and 'isms' in connection with courses in connection with courses in science were condemned at a department meeting of the National Education Association today by Professor W. C. Morgan, University of California, who said: "The most important contribution which science has to make toward the education of the people should be offered in the first year, the fundamental ideas affecting the life and welfare of mankind, whether they come from one science or from many. This means a general science course, treating those things which come within the general experience of the class. It should teach things, not 'ologies' or 'isms.' It should never be a series of 'six weeks courses' in a half dozen different sciences, but rather something like the old natural philosophy.

"General science will not only give to all students ideas which will be of the greatest service to them, but by eliminating elementary material common to all, it will advance the standard of work in subsequent scientific courses.

"Educators are agreed generally as to the proper junctions of grammar schools and universities in developing intelligent citizenship, but the question is constantly raised whether the ordinary high school curriculum offers the best preparation for life. Nearly half of the students are commonly in the freshmen class; three-quarters of those entering high school leave before the junior year; less than ten per cent go to any higher institution of learning. A square deal for the great mass of students who do not continue their schooling should be the chief care of the high school.

"Recalling these facts, few maintain that the end universities usually given would furnish the best possible preparation for life. Physical geography cannot (probably no single science can) justify itself on this basis."
