Voters Approve \$3.57 Million School Bonds

By Pat Blair
Aransas County voters gave approval to all three school bond propositions — a total of \$3.57 million — by comfortable majorities Saturday, September 13.

Proposition 1, calling for issue of \$1.7 million in bonds to finance improvements to all five county schools, received the largest number of favorable

votes — 645 for versus only 285 against the proposal.

Proposition 2, for air conditioning the high school, was approved by a vote of 590 to 331, and Proposition 3 passed by a vote of 526 to 393.

The vote count became official following a canvass of election returns during a meeting of the Aransas County school board of

trustees at 7 p.m. Monday, September 15.

School Superintendent Joe Randow said the next step is to begin work with the financial advisors to get a favorable bond rating. At the same time, school officials are also expected to start work with the architects on plans for proposed new construction.

Under Proposition 1,

ceiling fans will be installed in all the classrooms "or equal space" in all five schools. In addition, the ceilings in the junior high school, Live Oak Elementary and Rockport Elementary will be painted to seal the ceiling material. This is in keeping with HEW requirements.

School Board Hires Three New Teachers In Session Monday

Three new teachers will join the faculty in Aransas County schools as a result of action taken in a busy session of the School district's board of trustees Monday night, September 15.

New teachers are De Lois Young, special education; Janice Spears, homemaking; and Joe Searcy, science teacher.

The school board also accepted the resignations of Bill Lee and Frances Mutscher.

Other action taken during the two hour-plus meeting that began at 7 p.m. at the School Administration Building included appointment of Dorothy Webb as acting tax assessor-collector.

School Superintendent Joe Randow told board members that the school district had to have "a person with a title" to meet state requirements that certain papers and forms be signed by "a legally appointed person."

Randow added that Jack

Groseclose, the appraiser hired by the recently-created Central Appraisal Board, "can't sign anything until January 1, 1982," the date when — under state law, — Groseclose will officially assume the duties of tax appraisers for all govern-

ment entities in Aransas County.

Board members authorized Randow to negotiate with Welty Water Well Service for digging of a new water well behind Pirate Stadium, the well to have a

Council Expected To Adopt \$1.50 Tax Rate

Rockport's city council is expected to adopt a proposed \$1.50 per \$100 tax rate — the same rate it now uses — at next Monday's, September

22, city session.

That's at least partly because no citizens showed up at the Monday, September 15, public hearing on the subject.

It's also because the city budget is based on the \$1.50 tax rate — which the State considers a "tax increase" even though there is no change from the past year.

The "tax increase" question was the reason the city was required to hold Monday's public hearing.

Under new state tax laws, the city had to compute its "effective tax rate" according to a formula provided by the State. If the effective calculated tax rate is more than three percent above what it was for the past year

— according to the formula — the city is required to call a public hearing on the proposed tax rate.

City Secretary Herman Johnson said Rockport's effective tax rate for 1980-81 was a six percent increase over the effective rate for 1979-80.

Johnson pointed out that the State, in its formula for computing the effective rate, assumes 100 percent tax collection, makes no allowances for tax discounts and the city's bonded indebtedness does not change from year to year — all fallacies, the city secretary said.

He told the council the city's original tax rate was \$1.50 per \$100 based on 33 1/3

Pirates Battle Gregory-Portland

By Bob Crawford
Sometimes in football, the toughest battle of the year does not surface until the end of the season with playoffs, etc. However, Rockport-Fulton will have their backs to the wall this week as they take on District 15-4A favorite Gregory-Portland, a team seeking their twelfth title in a row.

The Pirates were upended last week by Taft 22-19, and the Wildcats narrowly escaped defeat themselves, kicking a field goal with just seconds remaining to defeat the Carroll Tigers 31-30.

Rockport comes into the game with a huge array of offensive weapons if they can only get on track. In the backfield are three of the

finest runners in South Texas in Micheal Simmons, Ernest Gonzales, and Dwayne Walls. At quarterback is Jim Eaton, who annually has been a better than 50 percent passer.

The Pirates have an adequate line and receiving corps to do the job. Now, all they have to do is prove it.

Gregory-Portland, year in and year out, are tough

defensively, and this year will probably be no exception, although Carroll exploited the Wildcat defense in the second half of their game. With a cast of many, the Wildcats keep coming after the opponent's offense. Bryan Ray and Roland Salinas spearhead the attack.

On offense, the Wildcats feature a balanced attack, and Coach Ray Akins is still working on ironing out some minor problems in his backfield.

As for those who witnessed last week's game against Taft, the Pirates have a swarming defense, which except for three or four plays, controlled the game.

The showdown is scheduled to begin at 8:00 in Pirate Stadium.

Aldrich Picks 'Em For \$20

Bea Aldrich of 1202 Lady Clare is winner of the \$20 first prize in this week's Football Contest, correctly naming 13 of the winning teams in 15 games.

Felix Garcia Jr. of 927 North Church and Don Snowden of Rockport tied for second and third place with 11 games out of 15 picked

correctly. The tie-breaker — the Rockport-Taft game — wasn't any help since they both picked Rockport to win by a score of 21 to 14.

Garcia and Snowden will share the second and third-place money — a total of \$7.50 each.

This week's Football Con-

test is in today's Pilot Midweek Edition, and will be carried in the Midweek Edition through the end of the football season.

Reason for the switch is to put each contest closer to Friday's game and make it more convenient for our readers.

Rape Charges Filed Against Four

Four San Antonio men have been charged with rape by threat and bond set at \$10,000 each following an incident early Sunday at a residence in Holiday Beach.

The four have been identified as James F. Crowton, Steve Dale Anders, Xavier Rodriguez Guerrero and Mark Klejian.

Criminal Investigator Ricky McLester said one of the men was taken into custody but, because of a delay in getting warrants issued, the other three were on their way back to San Antonio before deputies could begin pursuit.

He said those three were arrested in Refugio County.

McLester said the four men picked up their victim, a 19-year-old Corpus Christi woman, in Port Aransas and brought her to Holiday Beach, to a residence owned by Klejian's family, where the alleged rape occurred.

Based on additional information from the victim, McLester said, a search warrant was obtained to search the residence and the two cars driven by the men.

The investigator added marijuana, three pills and a "light, powdery substance believed to be amphetamines" were found in the cars. No narcotics charges have been filed, pending additional investigation.

CHARGED WITH RAPE

Aransas County Sheriff Bob Hewes escorts two prisoners into jail where they will be booked on charges of rape by threat following their arrest in Refugio County. A third man was arrested in Refugio County and a fourth in

Aransas County following an incident in Holiday Beach early Sunday. Bond of \$10,000 each was posted against all four men.

CPL explores new power sources for long-range needs

Because of the shortage of natural gas—and resulting restrictions on its use by utility firms—Central Power and Light Company is turning to other fuels to generate electricity for its customers in South Texas. For the immediate future, CPL will rely heavily on nuclear and coal-fired plants, drawing more than 40% of its production from these two sources by the late 1980s.

But the company is doing long-range planning, too. In cooperation with research agencies and other utilities, CPL is presently studying several new areas that have the potential to become energy sources many years from now; gasification of solid or liquid fuels, geothermal steam, solar repowering, and nuclear fusion.

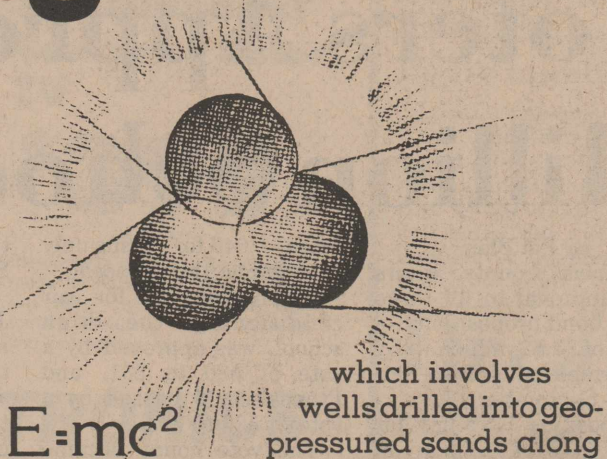

At CPL's La Palma Power Station in San Benito, a gasification research project is being conducted on conversion of solid and liquid fuels into

a gas that can be burned in place of natural gas in existing boilers. Sustained generation of electricity already

has been achieved with gas produced from heavy fuel oil. Other fuels, such as coal and lignite, also will be tested. The experiment will determine whether the gasification process will allow utilities to continue using existing boilers when natural gas is no longer available.

CPL also is participating in a project to examine the possibility of using geothermal energy for production of electricity. The project,

which involves wells drilled into geopressured sands along the Texas coast, is being coordinated by the Center for Energy Studies and the Bureau of Economic Geology at the University of Texas at Austin.

As a member of the Texas Atomic Energy Research Foundation, CPL has supported since 1957 nuclear fusion research at the University of Texas. Researchers at the Fusion Research Center in Austin are optimistic that the scientific feasibility of nuclear fusion can be proven by 1982, but it will take another 15 to 20 years to design a reliable fusion power plant.

Besides sharing in these studies, the company also is represented on a Utility Advisory Committee for a Solar Repowering Study on the possible utilization of solar energy to repower an existing gas boiler.

South Texas can depend on CPL to investigate and develop the alternate power sources necessary to assure continued electric service far into the future.

July Shrimp Landings Up In Area

Shrimp landings in the Rockport - Fulton - Aransas Pass area showed a slight increase in July, 1980, over last year — but totals for the year-to-date were still below 1979 levels.

Landings for this area were the second-highest for the state, however, for the month — and the highest for the year-to-date.

Area shrimpers brought in some 1,499,600 pounds of shrimp for July this year compared to just over a million pounds for July of last year.

But the total shrimp landed for the first seven months of 1980 amounted to 4,167,700 pounds —

compared to last year's January through July totals of 5,114,700 pounds.

Statewide, this area's July shrimp landings were the second-highest, falling just behind the approximately 1.8 million pounds landed in the Brownsville-Port Isabel area.

The combined shrimp landings in these two areas accounted for more than half of the total 5,797,000 pounds of shrimp landed in Texas in July.

The seven-months total for shrimp landed in this area in 1980 is the highest in the state, with the Brownsville-Port Isabel landings — 3,945,100 pounds — a close second.

The Rockport - Fulton - Aransas Pass landings for January through July total more than one-fourth of the total state landings of 15,042,700 pounds for the period.

Statewide, according to figures released by the National Marine Fisheries Service (NMFS), trawlers working brown shrimp made fair to poor catches of legal size shrimp in Gulf waters throughout July.

Bay trawlers reported fair to good catches of small brown shrimp from Matagorda, San Antonio and Aransas - Corpus Christi bays during that period. In late July, NMFS offi-

cials report, trawlers working white shrimp in Gulf waters made fair catches of medium to large shrimp.

The poor crop of shrimp in Florida and off Northern Gulf states brought an unprecedented number of out-of-state trawlers into Texas waters prior to the opening of the 1980 season, according to the Fisheries Service. Some 200 vessels from other Gulf, mid- and south Atlantic states were in Texas ports from Port Arthur to Brownsville.

Fuel supplies were adequate at \$6 to 92 cents, but fuel costs are expected to force a substantial number of vessels to remain in port by mid-October.

Disaster Form Must Be Complete

Residents who applied for disaster assistance through the Federal Emergency Management Agency (FEMA) in the wake of Hurricane Allen must complete their Disaster Impact form before the verifier visits their home, a FEMA spokesman has said.

Dale Milford, Federal Coordinating Officer for FEMA, said Part B — pages 6-14 — of the "Documentation and Assessment of Disaster

Impact" form must be completed in order for disaster losses to be verified.

Failure to complete Part B before the verifier visits the applicant's home will cause the applicant to be passed over, Milford said, until after FEMA has served the other disaster victims on its waiting list.

FEMA has received more than 20,000 applications for assistance from individuals in the 12-county disaster area who suffered losses as

a result of high winds and heavy rains that accompanied Hurricane Allen.

Those who need help in completing the Disaster Impact form can call a toll-free telephone number, 1-800-242-3219, Milford said. Trained FEMA personnel will be available to answer questions.

Milford emphasized that this assistance will not delay the processing of the application — delay will occur only if the applicant has not filled out pages 6-14

(Part B) before the verifier arrives.

"FEMA is making every effort to provide assistance to all eligible applicants as soon as possible," Milford said, "but many applicants will not be reached by FEMA verifiers and representatives for several weeks."

He added all available FEMA personnel have been brought into the South Texas area to speed delivery of disaster assistance.

Eyes And Answers

TENNIS AND VISION
Dear Dr. Pettey: I'm in my fifties and started playing tennis two years ago. I wear trifocals. Without the glasses, I can't see where the ball is; with them, I see the ball but lose it a little below eye level and can't hit it.

Usually, the solution to

your type problem is quite simple: Have your vision specialist prescribe "tennis glasses." That means either a single vision lens for distance only, or a bifocal with the very small reading portion set quite low in the main lens so it won't be up in your way of seeing the ball.

If you are playing on outdoor courts, the doctor will have your lenses colored to reduce glare and heat rays.

If you are playing indoors, don't wear colored lenses, which would reduce your usable vision and cause you to lose some of your sensitivity to judging the position of the oncoming ball, as well as its speed.

For those of you who may be having similar difficulties playing golf, the same advice applies. Use single vision lenses or low-cut bifocals. If you can't see it, you can't hit it!

Your pleasure in playing these games can be greatly increased with proper eye care.

Armando Hinojosa Returns To Rockport

An informal reception on Sunday, September 21, will launch a two-week showing of the works of noted Laredo artist Armando Hinojosa at Rockport's Live Oak State Bank.

The reception, open to the public, will be from 2 p.m. until 5 p.m. Sunday. Hinojosa and his family will be on hand to meet those who attend.

The artist's original watercolors and bronzes will be on display during regular banking hours through Friday,

October 3.

This will be Hinojosa's second one-man show in Rockport. His first — also at Live Oak State Bank — was in February, 1976.

The Laredo artist has a unique technique in watercolors, producing paintings notable for their dull detail, soft colors and striking composition. His bronzes are produced by the lost wax process and show the same fine detail and composition that mark his paintings.

He has held major exhibits in Houston, Austin, Dallas and Midland and has shown his works in one-man exhibits in Missouri, New Mexico and Washington D.C.

In Mexico, his works have

been on display in Mexico City and Monterrey and he has been featured in "Hispanic Who's Who in America."

Hinojosa's works are owned by many local collectors as well as such

nationally-known collectors as Richard Nixon, the King Ranch, the Killam Ranch, singer Vicki Carr, former Governor Dolph Briscoe, Allan Shivers, the Crown Prince of Jordan and Lt. Governor Bill Hobby.

Dates Announced For AP Shrimpooree

It's going to be a fun time in Aransas Pass October 24-26 as the Chamber of Commerce 32nd annual Shrimpooree gets under way.

The Shrimpooree promises something for everyone, whether their interest is in fishing, men's legs, bubble gum blowing, or outhouse racing.

Whether they enjoy eating seafood or enjoy watching someone else eat, the Shrimpooree is the place to be.

One of the highlights of the Shrimpooree is the arts and crafts fair. Tents full of handcrafted items, pottery, jewelry, fine arts, belt buckles, hat bands and lots more will be available for some early Christmas shopping.

Another highlight is the Shrimpooree beauty pageant. Girls from three years of age to 21 are invited to enter the pageant.

For the second year boys, ages three to six years, will be competing in the Master Shrimp-Tot division of the pageant.

Of course, the Shrimpooree would be incomplete without the World Shrimp-Eating Championship. Many a man who thinks he is a big shrimp eater has pushed himself away from the table before the 30-

minute time limit was up.

Three and a half pounds in half an hour is the Shrimpooree record set in 1974.

A fishing tournament for the largest redfish and largest trout will be held between October 20 and 25. A \$50 gift certificate for the winner of each category will be given by Jim's Sporting Goods of Aransas Pass, headquarters for the tournament.

A Piggy Perch Division for children age 10 and under will also be a part of the tournament.

"Something for everyone" is the 1980 Shrimpooree. There is such a variety of contests that no matter a person's interests there is something for him.

Contests include the "Great Outhouse Race of 1980," Men's Sexy Legs Contest, Bubble Gum Bubble Blow Up, Beer Chug-a-lug, Marshmallow Eating Contest, Jalapeno Eating Contest, Cake Decorating Contest, Talent Contest and Beard & Mustache judging.

Persons wishing to enter the Shrimpooree parade, any of the contests, or take a booth should contact the Chamber of Commerce, 452 Cleveland, Aransas Pass, Texas 78336, phone number 512-758-2750.

Rustye Spencer Celebrates Birthday

Rustye Spencer is celebrating a birthday on September 19. She is and her family are on vacation in Rockport this month, and she is enjoying the beach and shell collecting. Rustye and her family live in Tomball, just outside Houston.

Members of the Timothy, Eunice and Lois (TEL) Sunday School class of Rockport's First Baptist Church, their husbands and other guests met Tuesday, September 9, for a luncheon and program in the church's Fellowship Hall. Sixteen members and 10 guests were present. D.R. Simmons asked the blessing before the lunch-

eon. Polly Rogers carried out a patriotic theme of red, white and blue in the decorations which featured a large floral arrangement of roses and carnations. Mary Godde directed the

singing, and the devotional was given by Edith Cameron, followed by a prayer.

A musical group called "The Golden Girls" composed of Edith Cameron,

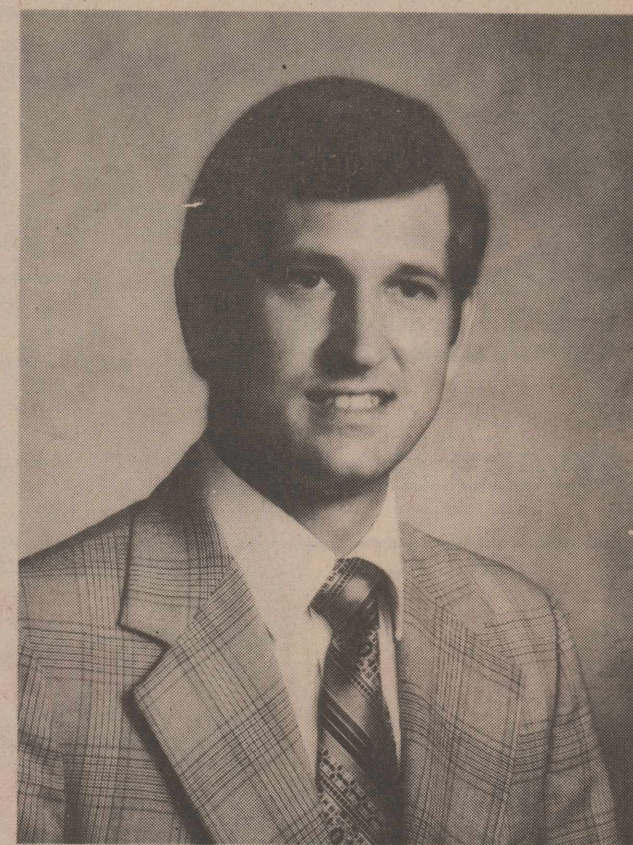

director, Viola Ferguson, Mary Godde and Winnie Keith at the piano — sang "The Eyes of Texas Are Upon You" as an inspiration for Polly Rogers in her speech campaigning for the "Presidency of the Society for the Eradication of the Gophers."

Evelyn Townsend gave the Secretary-Treasurer's report, followed by other business, and a closing prayer.

Other members attending were Mamie Schuster, Arla Stephens, Tiney Gayle, Leone Wagstaff, Flora Davis, Beulah Dedmon, Evelyn Champion, Sheila Roach, Gladise Thomson and Fay Henderson.

Guests were Harold Stephens, Ed Godde, Paul Keith, Mr. and Mrs. Grover Traylor, Rev. Charles Fake, J. Paul Rogers, Truett Rosh, J.V. Ferguson and D.R. Simmons.

The next meeting will be at noon, October 14, at the Fellowship Hall of the church.

AARP News

By Lucille E. Skrobarcek
The September 11 game afternoon winners were Mrs. Hazel Dailey and Mrs. Ruth Gordon in bridge.

Stan Heath won the Final and the "Pouch of Coins" went to Mrs. Amy DeLeuw.

Hostess for this game afternoon was Mrs. Margaret Gill.

Thursday, September 18, is the date of the next game afternoon, beginning at 1 p.m.

Forty-eight AARP members attended the business meeting of Rockport Chapter 1536 Wednesday, September 10. Mrs. Frances Cook, president, conducted the meeting.

John Mitchell, program chairman, and E.J. Randow, Superintendent of Schools, presented information, accompanied by slides, on the School Bond Issue. A question and answer session followed the formal presentation.

Mrs. Olive Holmes and Merrel Holmes gave a delightful account of their experiences on a very eventful, interesting, and sometimes harrowing boat trip this past summer down the Atlantic Coast.

In their nautical dress, with the sailboat's picture on display, and with their realistic delivery, they gave the audience a keen interest in the trip.

Mr. and Mrs. Holmes were unable to complete the account of their experiences. Hopefully, they will come back at a later date and give us all the interesting details.

Rockport Chapter 1536 will have a "Sunset Supper" on Wednesday, September 24, at 5 p.m. A short meeting will precede the buffet, then tables will be set up for bridge.

Bring your favorite dish and enjoy a fun evening.

AARP will sponsor a dance Wednesday, September 17, at 7 p.m. at the Paws and Taws Building. The music man, Gene Rickles, provides a great variety of beautiful music. Bring a friend and increase our attendance.

Saturday, October 11, and Sunday, October 12, the Seafair dates, are fast approaching.

Please — collect all items for the "New and Old"

booth and deliver them to Mrs. Genevieve Ohrling, John Ashbaugh or the Concern Center.

Many cakes will be needed for "The Cake Walk" booth. All members are asked to bake two cakes and deliver them to The Town Hall, First National Bank on the Saturday and Sunday of the Seafair.

Mamie Whitaker Honored With Party

Mamie Whitaker of Fulton was honored with a three-table bridge party at the home of Mrs. Nell Skrobarcek, St. Francis Circle in Peninsula Oaks, recently.

It was a farewell party for Mrs. Whitaker who is moving to California.

Those attending included Mesdames Bessie Glass, Lucille Skrobarcek, Kay Ragot, Betty Jean Ward, Helen McCague, Mary Lu-

cille Skrobarcek, Phyllis McBride, Olive Holmes, Irene Hopper, Margaret Gill and her daughter Susan.

FACTS ABOUT WINES

The Robust Reds

Just like the popular white wines, the robust reds can range in taste from bone dry to mellow. Which ones you'll like best depends on you and what's on the menu.

The driest of our red table wines are the new Mendocino Burgundy and our fine varietal, Cabernet Sauvignon. They go best with the heavier red meats such as beef and lamb and they are best when served at about room temperature.

Cribari's Zinfandel is a dry varietal table wine and our Mountain Burgundy is almost as dry. Our Chianti is lighter in body and not quite as dry. All three go well with turkey, veal, duck and wild game.

Best with the hearty main courses, like lasagna and spaghetti with their rich red sauces are our Vino Rosso and Mello Burgundy. They are the least dry of the red table wines we make.

Today, many people are enjoying red wines slightly chilled. That's perfectly OK for the lighter and less dry red wines, but not as good to serve the more robust red wines chilled. For them, it's best to take them out of the ice box for 30 minutes before serving.

Anytime that you have a question about red wines, I would be happy to hear from you. Write me at Cribari & Sons, Suite 618, 500 Sansome St., San Francisco, CA 94111.

LITTLE KNOWN FACTS

It's usually a good idea to begin taking a child to the dentist when she's around three. This is the time tooth decay tends to start, and even if her teeth check out perfectly, it helps to get her used to going to the dentist.

TIPS FOR HOMEOWNERS
TIPS TO HELP YOU

Many homemakers avoid scrubbing pots very often by cooking in large quantities and storing meal-sized portions of food in the freezer in special pouches for those with better things to do than wash dishes.

A new paint brush will last longer and be much easier to clean if you soak it in a can of linseed oil for 12 hours before it is ever used.

Small nicks on your drinking glasses? You can smooth them away by rubbing with #00 emery paper.

(No. 3 of Three Parts of Traveling With Your Pet)

TRAVEL BY CAR
If your pet is not accustomed to the car, take it for a few short rides before your trip. You cat might ride better in a carrying cage.

Stick to your regular feeding routine and give the main meal at the end of the day or when you've reached your destination. It will be more convenient to feed dry food if the pet is used to it. Dispose of unused canned food unless it can be refrigerated.

Take along a plastic jug of cold water to avoid possible stomach upset the first day. Give small portions of both food and water and plan to stop every two hours for exercise.

Remember to include a leash in your travel kit!

Pets should not be allowed to ride with their heads outside car windows. Particles of dirt or insects

can penetrate the eyes, ears and nose, causing injury or infections.

Excessive amounts of cold air taken into lungs can also cause illness.

When leaving your pet in a parked car, be sure to lock all doors, and open windows enough to provide ventilation without allowing the animal to jump out or get its head caught.

In warm, hot or humid

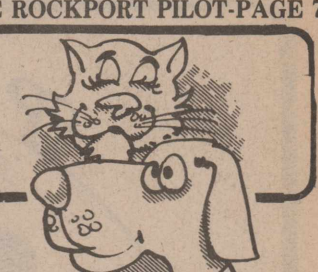

weather, you should not leave your pet in a parked car!

Grooming (bathing, combing, nail trimming) before the trip will make the animal more comfortable.

Most states prohibit animals on buses, and recent rules now prohibit animals on trains. Exceptions are generally made for seeing-eye dogs accom-

panying blind persons. Inquire in advance with your local carriers.

Trouble can arise quickly in country settings camping with your pets. Skunks, porcupines, snakes and other creatures can bite or injure your pet. Therefore, keep your animal in sight and on a leash at night.

Screen Pass Sinks Pirates

By Bob Crawford

With a fourth and five at the Pirate 33 yard line, Taft set up their offensive "last chance" effort. Throughout the night, the only real burns suffered by the Pirate defense was on the screen pass — and that's what Taft went with to make the first down. And not a Pirate defender was anywhere in sight. With its success, Taft got new life and an eventual 22-19 victory. Even those with little knowledge of the game in Pirate Stadium were sitting in the stands screaming, "Watch for the screen!" Taft completed the play to their giant fullback Kent Woodard for the first down at the Pirate 21. From there on they hammered the ball in, putting a loss on the Pirates.

Greyhound runner Jack Sanders catapulted into the end zone, and Taft went ahead to stay with 1:47 remaining.

Rockport opened the game like anything but a ball of fire, with quarterback Jim Eaton throwing a pass with the appearance of quail after it had been shot, getting put out of the game for awhile after taking a shot from Taft defender James Pieper, and stand-in quarterback Adam Harden threw for an interception. After that on the very next possession, the Pirates coughed up the ball on a fumble. So, the offense was anything but sharp.

After a scoreless first period, Rockport finally struck. Taking over on a punt, the Pirates marched the ball 78 yards to a score, with Freshman fullback Dwayne Walls blasting the final 10 yards and the TD. David Williams kicked the point after, and Rockport led 7-0.

After the Pirates kicked off, a judgement call by an official hurt the Pirates in the worst way. With the Hounds trying to go to the air, Pirate cornerback George Solis made a play for a pass, and the official threw the flag for a vital interference call. Had Solis held on to the ball, there would have been no way the man could have thrown the flag. But with the ball rolling free, he dropped his hankie. What that play did for the Hounds was to allow them to sustain their drive, which eventually ended in a score. On that drive, Taft burned the Pirates twice on the screen.

Sanders topped off the Hound drive with a one-yard plunge, and then kicked his own extra point. With 7-7 registered on the board, Taft kicked off. The ball was fielded, and the Pirate runners began their starburst. This time

when Eaton took possession, he and Walls collided for a brief moment. Then Walls broke out and around the Hound defenders, and raced 78 yards to the end zone. A high snap from center killed any chance for an extra point. The lead stood up until the half. Early in the second half, a Pirate mistake opened the door for the Hounds again. Facing a wind, Ernest Gonzales tried to punt the ball away, but by the time it had quit rolling, it was good for only seven yards.

Taft took over on the Pirate 27 yard line. Just two plays later Taft quarterback Randy Reiley threw an absolutely perfect ball to the back of the end zone to 6'3" Tim Reynolds who was behind Tim Walker. Tight-roping the end line, Reynolds pulled the ball in for the TD. Sanders notched the kick, and Taft led 14-13.

On the following kickoff, the Pirates tried the starburst, but all they got for their trouble was Eaton and Walls both out of the game for a while. As Eaton turned his back to make the handoff, the Hounds cracked him solid and forced him into Walls.

Rockport stood tough and proud, and came right back on some tough running by Simmons, and then Gonzales darted through the Hounds on a 48-yard scamper for the go-ahead score. The Pirates tried for two, but the pass failed.

The Pirates tried to pick up some insurance a little later on a field goal try by Williams, but it failed.

Taft marched the ball right down the field, knocking on the goal line's door. With third and five at the Pirate nine yard line, the Hounds tried to go wide to the right. George Solis broke through the blockers and creamed the Hound ball carrier, shaking the ball loose. After a wild chase, the Pirates recovered.

With the goal at their backs, the Pirates tried successfully to quick-kick the ball out of trouble. Gonzales got the ball out to midfield.

From there, the rest is history. Taft did what they had to do, and the big screen pass pulled the plug out of the Pirates' ship.

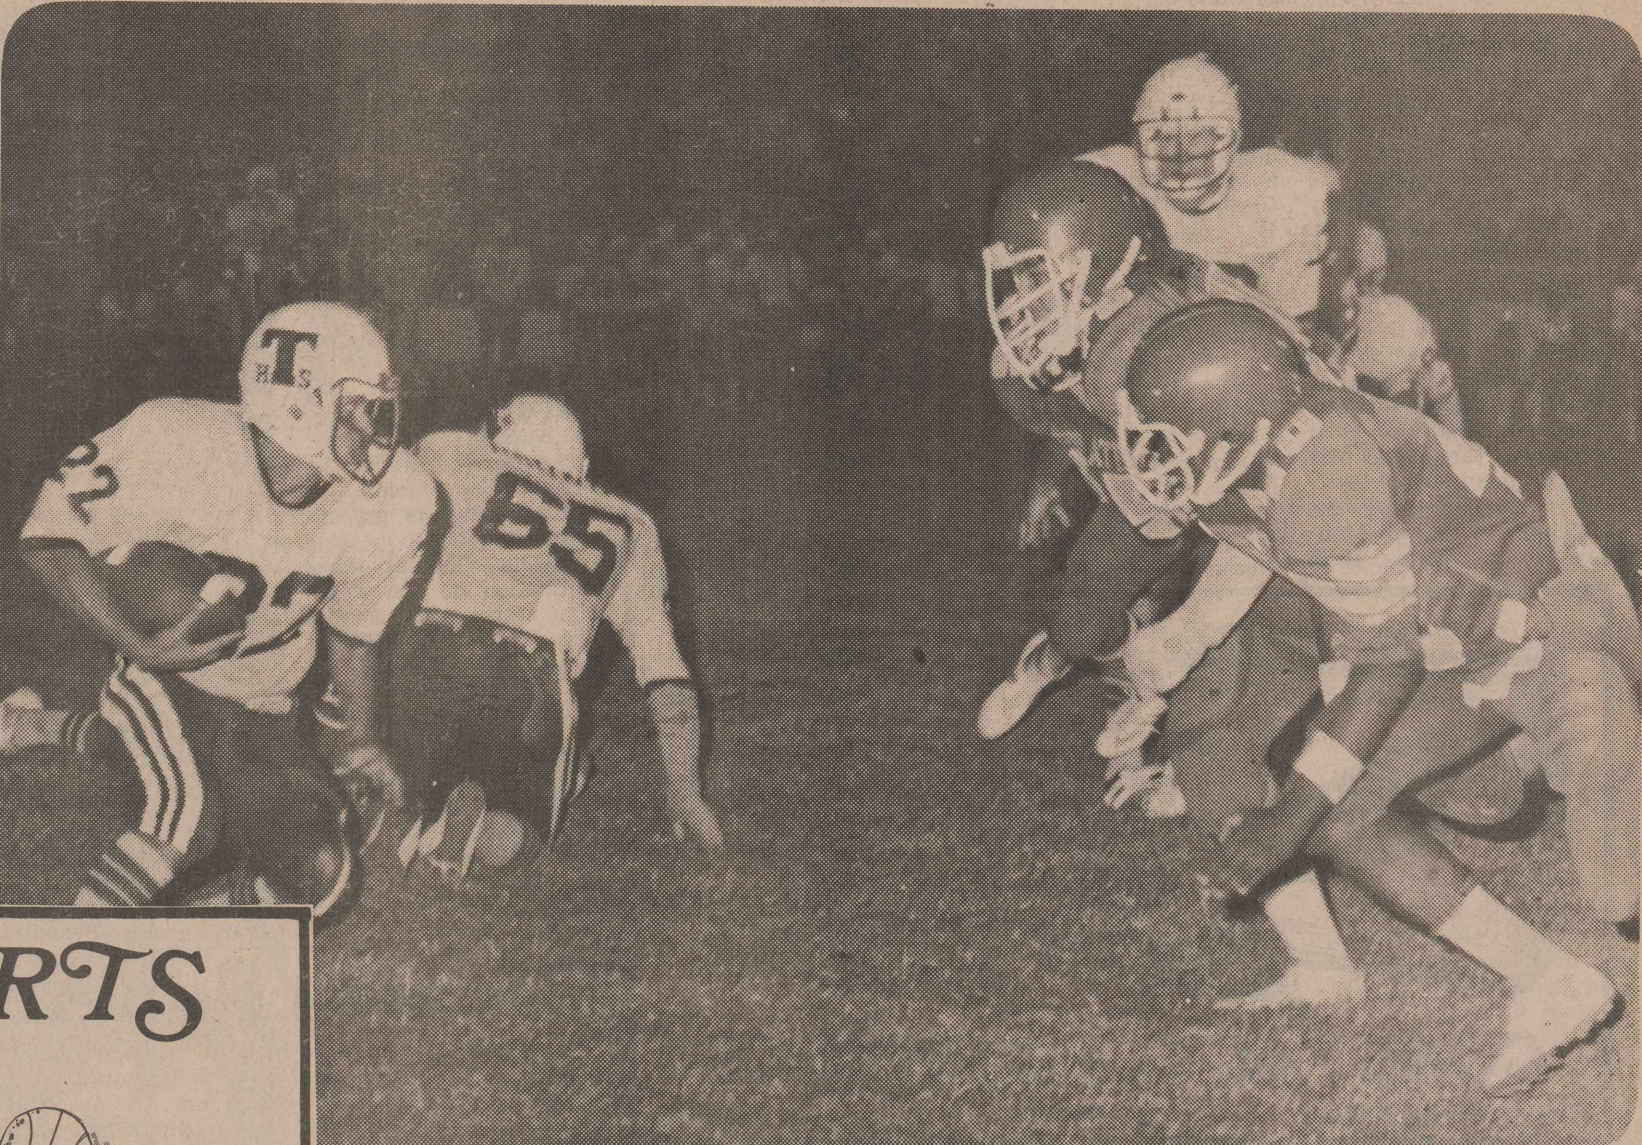

The Pirates tried to make a comeback, but rushed themselves by going for a long pass on a third and eight, had a tough-chance pass dropped, and then ended on fourth down with an interception.

Pregame news suggested that Jim Krebs, a linebacker for Taft, was a super player, and his performance didn't disappoint anyone, as he was all over the

field. Rockport linebacker Alvin Miller also found himself around the ball on lots of occasions, getting in on 16 tackles. Pirate safety Adam Harden knocked down Taft runners on 14 occasions.

After the big offensive show a week ago against Aransas Pass, the Pirate running attack was held to 200 yards, 127 of which were picked up by Gonzales.

When the game horn sounded, the tale of the outcome could be listed in the turnovers — Taft 1; Rockport 4.

The strong Pirate defense continued to shine. Shown here bringing down one of the excellent Taft runners during Friday night's 22-19 loss.

SPORTS IZOT

Taft JV Stops JV Pirates, 15-0

By Bob Crawford

Taft's passing and short run offense were enough to push by Rockport-Fulton's JV last Thursday night in Taft by a 15-0 margin. Rockport gave up numerous turnovers, and if not for a blistering defense, the score might have been doubled.

The Pirates started the game off with a fumble, and things really never got any better. Playing without running back Peter Nichols, the Pirate offense never got wound up.

There was no score in the first period, but Taft threatened with a first and goal in the early seconds of the second period. Big James Tumlinson cracked the Taft ball carrier, knocking the ball afar, and Lupe Contreras picked up the pigskin.

Taft seemed to just sit and wait for their opportunity, and they didn't have

long to wait. Pirate quarterback Mark Cory let go with an errant pass, and Taft picked it off. Taft turned the mistake into a score to take the lead, and then tackled on two points to lead 8-0.

Another mistake allowed the Hounds a chance to score, and that's just what they did. The Hounds blocked Mike Covarrubias' punt attempt, and then recovered on the Pirate eleven. One pass is all it took for the Hounds to score. With the kick, the score read 15 for Taft and 0 for the Pirates.

From then on, the teams swapped fumbles, although Taft was trying to go for the big play on the last play of the game, and only a saving tackle by James Thomas stopped the runner short of six points.

This week, the Pirate JV has to battle the Wildcats of Gregory-Portland in Portland.

Romero, R-F Freshmen Win Over Taft

By Bob Crawford

Ramond Romero raced for 235 yards and three touchdowns to lead the Freshmen Pirates of Rockport-Fulton past Taft 17-6 last Thursday night in Taft. The Pirates kicked off to

Pirate guard Larry Clark (64) clears the way for Gonzales (30) who lead all Pirate runners with 127 yards against Taft. (Pilot Photo By Perry Carter)

Taft and a tremendous shot on the Greyhound ball carrier shook the ball loose, and Rockport's Jarardo Olivarez recovered. Romero opened the fireworks with a 26-yard run down to the six.

Then a Romero TD was called back by a penalty, but the Pirates went for the same play again, and with guard Tommy Barnard out front, Romero dashed into the end zone. A try for two points failed.

The Pirates ran into a bit of trouble on the next series as Taft used the quick kick to pin the Pirates on their own one yard line.

Taft took over the ball in good shape and threatened, but great individual plays by Robert Dominguez and Doyle Parr shut the Hounds down. In fact, the Pirate defense played extremely well during the contest.

The teams exchanged possessions for the remainder of the half, although the Pirates got down to the one yard line and failed to put it in.

In the second half, Olivarez, Barnard, and Rudy Perez teamed to dump the Taft quarterback

for a loss to stop a serious threat at the Pirate 20 yard line.

On the first play following the sack on fourth down, Romero started to his right, got hit a few times, kept his legs moving,

ing, bounced off of tacklers, and then shot away from the pack on his way to a 77-yard run for paydirt. Again the try for two was no good.

Taft got a cheap touchdown as a result of a minus one-yard punt at the Pirate fourteen. In three plays, Taft had scored, leaving the

score at 12-6. Rockport scored again in the final quarter when Romero again broke away from tacklers, this time racing along the sideline for 45 yards.

The win, added to the forfeit given by Aransas Pass, leaves the Pirates 2-0 as they take on the Wildcats of Gregory-Portland Thursday in GP.

Dreams For Art Museum Go On Paper

Dreams of an art museum in Rockport are finally going onto paper — with local artist Al Barnes preparing to do the honors.

That's the word following a recent meeting of the Rockport Art Association, the moving force behind the efforts to get an art

museum for Rockport and Aransas County. Barnes has volunteered to do a rendition of the proposed art museum — at

no charge — for presentation, hopefully, at the Art Association's annual board meeting November 5.

At that point, the Art Association hopes to launch a drive to raise the remaining funds needed to construct and maintain the building.

Money for the museum has been raised annually through the Rockport Art Festivals, with some \$12,475.79 being raised in this past summer's effort.

Cam Leonard, festival chairman and vice president of Live Oak State Bank, said the Art Association has a total of \$75,376.80 in certificates of deposit — all raised through the annual festivals — earmarked for the museum building fund.

The Association's goal,

he continued is to raise between \$350,000 and \$400,000 to be used in actual construction of the museum, plus another \$100,000 that will be invested as a perpetual care fund to maintain the facility.

Plans call for an octagonal building to be constructed in the shape of a lighthouse.

Leonard said this design was selected as being "ideally suited to the site" which is between the Bay and Rockport Harbor.

Preliminary plans call for at least one classroom and at least one workshop as well as a central gallery. There will also be a small office for the museum manager.

Initially at least, Leonard said, the facility will be staffed by volunteers.

Commercial Zone Pending

The Rockport and Fulton beach areas are included in an application, soon to be made with the Texas Railroad Commission, requesting the commission to designate a commercial zone around the City of Corpus Christi.

A commercial zone, under a 1965 amendment to the Texas Motor Carrier Act, is "an area within and adjacent to an incorporated municipality in which local movements by motor carriers — other than specialized motor carriers and carriers of bulk commodities in tank vehicle — may be conducted without Railroad Commission regulation of entry or tariffs."

The present pending application is being made by Joe Saldivar, owner and operator of City Delivery Service and Storage Company of Corpus Christi.

The proposed commercial zone includes all of Nueces County, all of San Patricio County and the Rockport and Fulton beach areas.

Purpose of a commercial zone is to allow the zoned area "greater flexibility and freedom to develop its own system of motor carriers and facilities" without waiting for Railroad Commission approval of each route and tariff, according to a release from Saldivar's attorneys.

BONDS

[Continued From Page 1]

done under this proposition will include enlargement and air conditioning of the kitchen and dining room at the junior high school and extensive remodeling at the high school.

Proposition 2 earmarks \$170,000 for air conditioning of the high school.

Under Proposition 3, \$1.7 million is marked for construction of a new auditorium and remodeling of the existing facility into a new band hall. The new auditorium is proposed to have a seating capacity of 1,200 — more than double the capacity of the existing

structure.

The new auditorium will be constructed at the site of the present school administration building. Plans call for investment of the bond money and construction of a new administration building using the interest earned from this investment.

Under law, interest derived from bond investments can only be used for construction.

The school board proposes to pay for the bonds in 15 years, a schedule that will mean a tax increase of approximately 15 cents per \$100 to satisfy bonded indebtedness.

TAX

[Continued From Page 1]

percent of property values. Several years ago, the percentage was increased to 40 and the tax rate has remained the same since then.

Johnson added the tax computations must be done annually under state laws.

He also told the council that, effective January 1,

taxes will be based on 100 percent of property valuation — which will mean a decrease in the tax rate per \$100. It will not mean a tax increase for Rockport residents.

Since Monday's meeting was a public hearing only, the council took no official action.

six-inch casing with a 1000 gallon fiberglass tank.

Wetly dug a well behind the stadium in the early 1960s, Randow said. The well was originally 85 feet but has since filled in and is now only 56 feet deep and cannot be made serviceable.

This well plus another are used to water the athletic fields.

Board members approved purchase of three sets of five-row bleachers — total cost of \$2,157 — to replace the existing baseball bleachers which are unsafe.

Also approved was a certificate relieving tax liability against six lots in the Lucas Subdivision. Taxes, amounting to \$132, became delinquent in 1978 and the land has changed owners since then.

In the Superintendent's Report to the board, Randow told board members that the school district has received an insurance settlement of \$17,792.50 due to hurricane Allen. He added some of the storm damage was not covered by insurance.

Accent On Health

Texas Department of Health
Robert Bernstein, M.D., Commissioner

Many homeowners are using and buying chain saws to cut inflation by sawing their own firewood — but unfortunately, many owners don't know how to use saws correctly, says the Texas Department of Health.

"About 24,000 serious injuries from 'kickback' alone were reported in 1979," said Mackie Lawrence, with the department's Product Safety Division.

"Kickback is the sudden swift movement of the turning saw blade toward the user. Kickback can happen when the saw chain around the tip of the guide bar strikes an object. It can also occur when wood being cut closes in and pinches the saw chain in the cut," said Lawrence.

According to the Consumer Product Safety Commission (CPSC), the chain saw injuries serious enough to require hospital emergency room care increased from 29,000 in 1976 to 53,000 in 1979. There were, however, an estimated 105,000 chain saw injuries that required medical attention during that year.

The CPSC is currently exploring ways for ensuring that safer chains for new saws, and safer replacement chains for old saws, will be in the marketplace.

Lawrence has some advice for chain saw users and potential buyers of these tools. "Match the saw size to the job you expect to do most often," he says. "If the guidebar (the part of the saw the chain revolves around) is much longer than the thickness of the wood you're cutting, the tip of the guidebar could strike the ground or some object and cause a kickback injury."

On the other hand, Lawrence says, if the guidebar is too short, it will be necessary to bury the tip of the saw in the cut. This could also result in a serious kickback injury.

For frequent log cutting and the felling of small trees, the recommended guide bar length is 14 to 20 inches, he said. For the occasional cutting of small limbs, logs and trees, the recommended guide bar length is eight to 12 inches.

Lawrence says to check safety features when shopping around for a new saw. These include the safety tip, which covers the chain as it passes around the nose of the guide bar. The safety tip reduces the chance of kickback by keeping the chain from contacting anything at the tip of the guide bar.

A chain brake is also a sensible idea because it's designed to stop the chain in a fraction of a second if kickback occurs. Special saw chains and guide bars are also designed to reduce injury caused by kickback.

Lawrence suggested these general safety tips:

*Let the chain saw do the work. Don't try to force the saw through the cut.

*Be aware of the downward or outward path the saw will take after the wood is cut. Keep your legs out of this path.

*Take your hand off the trigger between cuts.

*Start all cuts at top speed (full throttle) and continue to cut at top speed.

*Before making any adjustments or repairs, turn off the saw and be sure the chain has stopped moving.

*Never attempt to start your saw on your leg or knee.

*If saw chain continues to move while engine idles, adjust idle speed. If it still moves, don't use the saw until it has been repaired.

Lawrence said there are some jobs that are not for you and your chain saw. "Brush or shrubbery should be cut with brush cutters, hedge trimmers or hand saw," he said. "Their flexibility may cause a chain saw to bounce toward you."

"Don't climb a ladder or a tree with a saw, and avoid cutting limbs above your mid-chest height. Never allow someone else to hold a piece of wood as you cut it."

It's important to dress appropriately when using a chain saw. Protective clothing should include hard hat, safety goggles, suregrip gloves, hearing protectors, safety shoes, and close-fitting shirt and pants.

Lawrence said you should review your owner's manual frequently, especially if you don't use your saw often or are attempting to do something new.

For more information contact Harold R. Ray, Director, Product Safety Division, Texas Department of Health, 1100 West 49th Street, Austin, Texas 78756.

HELP US TO HELP YOU**NOTICE TO DISASTER VICTIMS**

Hurricane Allen caused considerable damage to the homes and personal belongings of many South Texas residents. As a result of high winds and heavy rains, the Federal Emergency Management Agency (FEMA) has received more than 20,000 applications for assistance from individuals living in the 12-county disaster area.

Each of the applications received by FEMA must be processed and the disaster losses verified by a FEMA representative. If you have applied for assistance at a FEMA Disaster Assistance Center, you must complete Part B of the form you received (Documentation and Assessment of Disaster Impact), Pages 6-14, before the verifier visits your home.

If these pages are not completed, your disaster losses can not be verified. Your failure will cause the processing of your application to be delayed in that you will then be passed over until FEMA has served the other disaster victims waiting on the list.

If you need help in completing the form, you may call toll-free 1-800-242-3219 if you live outside Corpus Christi, or 887-0691 if you live in Corpus Christi, and trained FEMA personnel will assist you. This assistance will not delay the processing of your application. Delay will occur only if you fail to fill out Pages 6-14 before the verifier arrives at your home.

FEMA is making every effort to provide assistance to all eligible applicants as soon as possible, but you should be advised that many applicants will not be reached by FEMA verifiers and representatives for several weeks. All available FEMA personnel have been brought into the South Texas area from all parts of the nation to speed the delivery of disaster assistance.

Thank you for your cooperation.

Sincerely,

Dale Milford

NOTICIA PARA VICTIMAS DEL HURACAN

El huracan Allen dejo bastante dano en las casas y propiedad de muchos residentes del sur de Tejas. La agencia federal de direcion de emergencia (FEMA) ha recibido mas de veinte mil aplicaciones para asistencia de personas que viven en los doce condados de desastre.

Cada una de los aplicaciones recibidas por FEMA tiene que ser procesadas y los danos tiene que ser verificados por representantes de FEMA. Si usted aplico por asistencia en unos de los FEMA centros de desastre, tiene que completar la parte B de la forma que recibio (Documento y Avaluacion de Desastre), paginas 6-14, antes de que el verificador vaya a su casa.

Si estas paginas no estan completas no se puede verificar lo que perdio. Esto puede retrasar el proceso de su aplicacion por que FEMA pasara su aplicacion hasta que todas otras aplicaciones esten procesadas.

Si necesita ayuda con su forma, puede llamar este numero sin que pague 1-800-242-3219, si no vive en Corpus Christi. En Corpus Christi llame 887-0691, y le ayudaran. Esta asistencia no retrasara el proceso de su aplicacion. Habra retraso unicamente si no completa paginas 6-14 antes de que el verificador vaya a su casa.

FEMA esta haciendo todo el esfuerzo para dar asistencia a todas personas eligibles lo mas pronto que pueda. Pero deben saber que pueden pasar semanas antes de que vaya un verificador a su casa. FEMA tiene todo el personal que se puede en el sur de Tejas para asistir rapidamente.

Gracias por su cooperacion.

The Legislature has already passed enabling legislation (H.B. 1510) for this proposed amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment permitting the legislature to authorize banks to use un-manned teller machines within the county or the city of their domicile on a shared basis to serve the public convenience."

**PROPOSITION NO. 2
ON THE BALLOT**

House Joint Resolution 97 proposes a constitutional amendment that would grant the State and the accused the right to an interlocutory appeal from the following trial court rulings in criminal cases: pretrial rulings of a statute; on a motion to quash, dismiss, or set aside an indictment; and on a motion to suppress evidence. The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing appeal of certain pre-trial rulings of a trial court in a criminal case by either the state or the accused."

**PROPOSITION NO. 3
ON THE BALLOT**

House Joint Resolution 98 proposes a constitutional amendment that would require a single appraisal of all property subject to ad valorem taxation and would provide for a single board of equalization within each county. The con-

stitutional requirement that the county commissioners court sit as a board of equalization would be eliminated, and elected officials of the county or governing body of the taxing unit would be prohibited from serving as members of the board of equalization.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment requiring a single appraisal and a single board of equalization within each county for ad valorem tax purposes."

**PROPOSITION NO. 4
ON THE BALLOT**

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize bingo games on a local option election basis if the games are conducted by a church, synagogue, religious society, volunteer fire department, nonprofit veterans organization, fraternal organization, or nonprofit organization supporting medical research or treatment programs and if the proceeds are to be spent in Texas for charitable purposes of the organizations."

**PROPOSITION NO. 5
ON THE BALLOT**

House Joint Resolution 86 proposes a constitutional amendment that would allow the Legislature to exercise fiscal control over the expenditure of certain appropriated funds, subject to any conditions and limitations provided by law and subject to the ap-

proval of a budget execution committee that would be composed of the Governor, Lieutenant Governor, Speaker of the House of Representatives, Chairman and Vice-chairman of the Senate Finance Committee, and Chairman and Vice-chairman of the Committee on Appropriations of the House of Representatives.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to grant the governor power to exercise fiscal control over the expenditure of appropriated funds as provided by law."

**PROPOSITION NO. 6
ON THE BALLOT**

Senate Joint Resolution 8 proposes a constitutional amendment that would allow the Governor who appointed a previously confirmed official to remove that official from office subject to the advice and consent of the Senate; and if the Legislature is not in session, to call a special session of the Senate which may last no longer than 2 days for consideration of the removal.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the governor to remove appointed officers with the advice and consent of the senate."

**PROPOSITION NO. 7
ON THE BALLOT**

House Joint Resolution 121 proposes a constitutional amendment that would authorize counties with a population of 5000 or less to construct and maintain private roads if they impose a reasonable charge for the work. The Legislature by general law may limit this authority. Revenue received from private road work may be used only for the construction, including right-of-way acquisition, or maintenance of public roads.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing counties with a population of 5000 or less to perform private road work."

**PROPOSITION NO. 8
ON THE BALLOT**

Senate Joint Resolution 36 proposes a constitution-

al amendment that would change the jurisdiction and authority of the State's appellate courts. The amendment would change the name of the Courts of Civil Appeals to Courts of Appeal and provide that these courts have intermediate appellate jurisdiction over both criminal and civil cases. The amendment would change titles for the Associate Justices of the Supreme Court to Justices and would require members of the Supreme Court to be attorneys licensed in this state while holding office.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to change the name of the Courts of Civil Appeals and the names and qualifications of the justices of the Supreme Court and to prescribe the jurisdiction and authority of the appellate courts."

**PROPOSITION NO. 9
ON THE BALLOT**

House Joint Resolution 54 proposes a constitutional amendment which defines separate property owned by either spouse as all property, both real and personal, of a spouse owned or claimed before marriage, and that acquired afterward by gift, devise or descent. Persons about to marry and spouses, without the intent to defraud pre-existing creditors, may by written instrument from time to time partition between themselves all or part of their property. Spouses may exchange a community interest in property owned or to be acquired for a community interest in other community property. The amendment would allow spouses to agree in writing that income or property arising from any separate property is to be separate property rather than as community property as it would be in the absence of an agreement. The amendment proposes that a gift from one spouse to another is presumed to include all income or property deriving from such gift.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment allowing spouses to agree that income or property arising from separate property is to be separate property."

**PROPOSICION NO. 9
EN LA BOLETA**

Resolución Conjunta #54 de la Cámara propone una enmienda constitucional que define la propiedad que posee cualquiera de los cónyuges como separada, incluyendo las dos clases—de bienes raíces y los bienes inmuebles—los tales fueron propiedad de alguno de los cónyuges antes del matrimonio o fueron adquiridos después como un regalo, ya sea un legado de bienes raíces, o de descendencia. Las parejas que están por casarse o los que ya están casados, y sin la intención de defraudar a sus acreedores preexistentes, pueden repartirse de vez en cuando, entre sí y por escrito, toda o parte de su propiedad. Pueden también intercambiar un interés común en bienes poseídos o que van a poseer por un interés común en la comunidad de bienes. La enmienda permitirá a los cónyuges convenir por escrito que los ingresos o bienes derivados de cualquier propiedad particular seguirá siendo propiedad particular en lugar de ser comunidad de bienes como sería si no existiera este convenio por escrito. La enmienda propone que el regalo de un cónyuge a otro se supone que incluye todos los ingresos y bienes derivados de tal regalo.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional permite a los cónyuges el consentir que los ingresos o los bienes que se derivan de los bienes particulares permanezcan como bienes particulares."

County Fair, AirSho Coming Up In Hondo

HONDO — The excitement of a county fair will combine with the thrills of a daring AirSho in Hondo on the weekend of September 20 and 21 to offer area residents plenty of entertainment.

This will mark the first official Medina County Fair since 1932 and from the schedule of events it looks like a whing-ding both days at Hondo City Park.

It will kick off at 10 a.m. Saturday, September 20, with a giant parade through downtown Hondo.

The AirSho will be presented by the famed Confederate Air Force and its thrilling flying feats will begin at 2 p.m. on Sunday, September 21, at Hondo Airbase.

AirSho admission prices will be \$10 per person over six years of age at the gate, but advance tickets are on sale through September 20 for \$5 per person.

In San Antonio they are on sale at all Sears, Joskes and Montgomery Ward stores.

Tickets are also on sale at all Gill Savings offices at San Antonio, Hondo, Castroville, Devine, Lytle, Pearsall and Cotulla.

Airbase gates will open at 10 a.m. and approximately 60 WWII vintage aircraft will be on static display until show time.

Other attractions, plus food and refreshments, will include the 149 AD Band, Ronnie Mason picking and singing, Boogie Allen and Helotes and two shows by the South Texas Airborne Squadron with radio controlled aircraft.

A C-130 from the famed 433rd TAW Alamo Wing at Kelly will demonstrate a cargo drop and short field landing.

Meanwhile over at the City Park those attending the Medina County Fair will enjoy armadillo races, bluegrass music, mariachi music, square dancing, Alsatian dancing, a chili cook and the usual livestock and home arts judging and an art show and sale.

Some unique events people will enjoy include a homemade wine judging, a corn shucking contest, cow

chip throwing, horseshoe and washer pitching. The kids will love the carnival and the opportunity to ride a helicopter and a hot air balloon.

Cowboy horse races will be run Saturday and the finals on Sunday with a \$600 saddle going to the

winner. Fiddlers will compete for \$600 in prizes at the fiddlers contest.

There will be plenty of food with the Hondo Young Farmers serving a barbecue plate at noon and evening on Saturday and noon on Sunday.
