PACIFIC FLIERS OVER 'DEATH SPOT'

Wichita Wheat Crop Valued $1,000,000 As Harvest Starts

30 BUSHELS TO ACRE EXPECTED NORTH OF CITY

Electra and Burkburnett Sections Also Report Fair Yields

HARVEST STARTS

Many Farmers at Work Gathering New Grain Crops

Aided by recent rains, most of the wheat fields of Wichita county have a prosperous season in store, with the best averaging a yield of approximately 30 to 35 bushels, according to an estimate Thursday by County Agent G. C. McGown. With most of the wheat in good shape, farmers in some sections of the county began cutting wheat, and also oats and barley, early this week, Mr. McGown said.

IRRIGATE POTATOES

Potato growers in the Wichita area should begin to irrigate their crops again, as many fields are in need of water, according to advice given Thursday by O. K. Barnes. It is essential that the potatoes be kept growing, Mr. Barnes said, and to this end growers should not wait too long before irrigating. Prospects for the Wichita county are fairly good, it was stated.

Farmers at Work

Wheat fields in the vicinity of Electra, it was estimated, will average a yield of from 10 to 15 bushels, while the best Burkburnett fields should yield from 10 to 12 bushels.

Fields immediately north of Wichita Falls, including the Mora C. Clark fields, considered among the best in the county, should produce an average yield of from 30 to 35 bushels, Mr. McGown estimated.

With the majority of wheat growers using combines this year, the full harvest should be in progress in a week or 10 days, Mr. McGown said.

Fair Crop

Accurate estimates of the probable yield in Wichita county will not be available for some time, Mr. McGown said, but those in close touch with the production here said the Wichita crop would run well over 600,000 bushels. At the present price of wheat, the value of the county crop will approximate $1,000,000, it was pointed out.

Fliers Make Safe Landing in India

MADRID, May 31. (AP)—Ignacio Iglesias and Francisco Jiminez, who hopped off from Seville at noon Tuesday to break the world's distance flight record by a trip to Karachi, India, have landed near Nasirabad. This is 250 miles north of Karachi. The radio message which brought this word added that the landing was made safely.

Aged Man Drops Dead While Arranging Will

GARDEN CITY, Kan., May 31. (UP)—Leslie E. Stanard, 73, retired farmer, came to a law office here late today to draw up his last will. Before he had time to indicate its terms, he dropped dead.

Star Athlete Killed When Car Overturns

ATCHISON, Kan., May 31. (UP) Floyd George, boxer and former star athlete of the Effingham, Kan., high school, was killed today when the automobile he was driving skidded and overturned on the highway west of here.

Hambone's Meditations

Poor Molly! She's Too Plump

Dieting is no joke to Molly O'Day, Irish movie lass and sister to Sally O'Neill, also of the films. If plump little Molly doesn't lose 20 pounds in the near future she'll be jobless. Recently she was forced to give up the leading role in a production because she had too many curves. Molly likes candy—lots—but she's willing to sacrifice sweets for a career, hence her resolution to diet.

Mrs. E. L. Brient of San Antonio Heads Graduate Nurses' Society

Miss Eva M. Wallace Is Second Vice-President; Amarillo Wins Next Convention

Mrs. E. L. Brient of San Antonio was elected president of the Texas Graduate Nurses' association, at the concluding business session of the three-day convention at the Kemp hotel, Thursday afternoon. The association held its annual convention here in connection with the League of Nursing Education, the Organization of Public Health Nursing, the American Red Cross and the St. Barnabas Guild for Nurses.

Miss Ruby Buchan of Temple was chosen first vice president; Miss Eva M. Wallace of Wichita Falls, second vice president; Mrs. Alma Rambert of Dallas, third vice president; Miss A. Louise Deitrich of El Paso, secretary-treasurer, and Miss Saidie Hausmann of Galveston, and Miss Lucy Harris of Fort Worth, directors. Directors who hold office from last year are Misses Florence Gants of Texarkana, and Miss Ann Taylor of San Antonio.

Scholarship Established

Amarillo was named as the convention city for 1929.

Items of unfinished business taken up at the afternoon session included the establishment of a committee to have charge of the $1000 scholarship fund for young graduate nurses who desire to further their studies. This committee will be made up of the heads of the Graduate Nurses' association, the League of Nursing Education, and the State Organization of Public Health nurses as well as the treasurer of the state association and the educational secretary of nursing of that association. Only nurses who have been graduated six months or less may avail themselves of this loan. Further stipulation was made that such nurses remain in the state of Texas follo-

SEVEN KILLED IN COLLISION

Score Injured When Two Interurbans Crash

DANVILLE, Ill., May 31. (AP)—Seven persons were killed and a score injured, some probably fatally, when two interurban trains of the Illinois Traction system crashed head on at Fithian, seven miles west of here, late this afternoon.

The dead are:

Frank Craig, Danville, motorman of the eastbound train; Dr. Charles B. Johnson, Champaign, Illinois, pioneer; George Johnson, Terre Haute, Ind.; Dennis Pyle, White Heath, Ill.; Ira Clodselper, White Heath, Ill.; Fred Gulick, St. Joseph, Ill., and an unidentified person.

The crash is attributed by Pat Cummins, motorman of the westbound limited train, to the failure of his airbreaks.

His train, he said, was scheduled to stop at the siding to allow the eastbound train to pass. When he applied the air to stop his train, however, the brakes would not take hold, he declared.

The westbound limited was of steel construction and was little damaged by the impact. The eastbound local was an old wooden coach and the front end, in which was the smoker and motorman's cab, was crushed to splinters.

Apparently, every passenger in the smoking compartment was killed outright. Motorman Craig died on the way to a hospital in Danville.

Wife of Former Mayor Killed in Car Accident

SATANTA, Kan., May 31. (UP)—Mrs. Fred Warner, 40, wife of the former mayor, was instantly killed late today when the automobile she was driving overturned near her home. She was en route to Subiette to a party, driving the automobile of Guy Peterson, Satanta car salesman, said to be driven at a rapid pace, the automobile jumped across a ditch and utrned over.

Wichita Falls Man Selected to Give Blood in Erysipelis Case at Pampa

A search extending through half a dozen Texas cities ended in Wichita Falls Thursday when H. C. Owens, local barber, volunteered to furnish blood for transfusion in an effort to save the life of M. O. Danciger, prominent Texas oil man, critically ill in Pampa.

Mr. Danciger, who formerly had offices in Wichita Falls, is suffering from erysipelis. All treatment proved unavailing. Finally physicians decided that the only chance to save Mr. Danciger's life lay in transfusion of blood. But here a second difficulty arose.

The blood, to be effective, they said, must be anti-erysipelis toxin. It must come from a man who has recently recovered from the disease. Wires were sent to cities of the state, asking physicians to look for such a person. Search in Fort Worth, Amarillo, Pampa and other cities was unavailing. Dr. James W. Powers was asked to assist in finding a man who would furnish the anti-toxin, and Mr. Owens was located.

Meanwhile a specialist from Kansas City reached Pampa by airplane to superintend the transfusion operation. Mr. Owens was to have left Wichita Falls by airplane for Pampa late Thursday after the specialist had summoned him.

BLANTON TELLS ABOUT GRAFT IN TALK HERE

Congressman Presents His Candidacy for Senate Address

FLASK STORY TOLD

West Texan Cites Practices Of Solons Which Cost People

After having been introduced by Judge A. H. Carrigan as the greatest graft exposer in congress outside of Senator Walsh, Congressman T. L. Blanton of Abilene brought tears to the eyes of his listeners and had them cheering, in a speech Thursday night in the 89th district court room in the court house.

The congressman chugged into town in his "tin Lizzie," which he has christened "The Spirit of West Texas," and appealed to Wichita county people to help elect him as the first senator Texas has ever had from West Texas.

Never Had Senator

A man was presented by Judge Carrigan to show that the western two-thirds of Texas has never had a United States senator and that there are five candidates living in and around Dallas.

Former service men in the audience stood up to shout their endorsement of the congressmen when he stated "I have done more to help former service men than all the other Texas congressmen out together." He said that he has helped more Wichita Falls and Wichita county service men, not of the world war but of the Spanish-American as well, than any other congressman.

The downfall of a congressional practice allowing $125 a session for stationery came when Blanton got an ostrich skin covered whisky flask from the stationery room charged up to him as stationery, he charged.

"I got manicure sets, jewel boxes, grips and all manner of things from this room and it was charged up as stationery," he said, as he told how that practice by senators and congressmen was finally ended.

Congress Barber Shop

He also told of the congressional barber shop, enjoyed by the solons but paid for by the people. In this same class he listed the congressional rest rooms, including the restaurant. He also told how one representative received 31 handsome cedar chests at the rate of one each Christmas as the national Christmas present. He said that every congressman received the same little Christmas present given to the congressmen by themselves and paid for out of the people's money.

Mr. Blanton told how he has stopped all these things and other major and minor graft. He claimed to have been the first to start the investigation of former Secretary Albert Fall of New Mexico, and also of Charles R. Forbes, former head of the United States war veterans bureau.

Opponents Ignored

Giving all foreigners now in the United States just two more years to declare their intentions of becoming American citizens or face deportation, was urged by Mr. Blanton, who pledged he would work to that end.

Mr. Blanton's bid for the nomination here was made in a way unique for polititions, in so far as he did not mention a single political opponent.

Two Girls Hurt As Car Overturns After Collision

Zilda Ruth, 3, and Ollie, 5, daughters of Mr. and Mrs. J. R. White, 1410 Bell avenue, suffered severe cuts and bruises when the automobile which their father was driving turned over following a collision between Mr. White's car and an automobile driven by an unidentified white woman.

The two girls were rushed to the Wichita General hospital where they were given treatment and allowed to go home.

The woman driving the second automobile fled following the accident, witnesses said. She later was arrested by police, gave her home in Dallas, and was lodged in the county jail pending filing of charges.

Mr. and Mrs. White, in the automobile at the time of the collision, were not injured in the accident.

ROME FEARS FOR DIRIGIBLE

Government Issues First Communique

ROME, May 31. (UP)—An official communique issued today advanced the opinion that Gen. Umberto Nobile had ended his flight in the dirigible Italia "perhaps violently" between Wiejde Bay and Henlopen straits, "not less than 50 nor more than 21 kilometers from Kings Bay."

This was the first official statement issued by any government since the Italia was lost. The Italian government, apparently after consulting experts, outlined relief expeditions planned in collabora tion with Norway, Sweden and Russia, and gave precise calculations of time and place the Italia went down.

Summarizing Nobile's situation, the comminique says the accident occurred at 10:27 a. m., May 25, "and it can be calculated that the flier was unexpectedly, perhaps violently, interrupted in the space of ten minutes from the last radio call."

"The crew now must be located, calculating the distance on the north coast of Spitzbergen precisely in the zone between Wiejde bay and Henlopen straits—that is not less than 50 kilometers nor more than 160 from Kings Bay," the communique said.

Air Relief Wanted

"While these calculations cannot be absolutely exact, yet they are sufficiently well defined to allow relief action to be determined, first, by informative explorative action by the Citta di Milano aided by local guides, and also by the steamer Hobby and the whaler Braganza, chartered by the Italian government.

"In the second place, relief should be by explorative aerial action entrusted to two airplanes sent with a ready spirit of comradeship by the Norwegian government, and piloted by Lieut. Luetzow Holm and Capt. Riiser-Larsen, and also possibly other aerial units furnished in generous impulse by the Swedish and Soviet governments.

"If it is not possible to reach the survivors by sea, relief will be organized by land. These expeditions will be ready to move as soon as it is definitely learned where Nobile is located.

"It must be remembered that Nobile was equipped with means to meet an enforced landing, such as rations. The Italia's crew will be partially equipped to meet emergencies, thus justifying hope of favorable results from the search."

Loot in Electra Robbery Found In Abandoned Car in Snyder, Texas

ELECTRA, Texas, May 31.—A Buick car, identified as one stolen from a Vernon physician Wednesday night, containing loot taken in a warehouse robbery here Thursday morning was found abandoned in Snyder, Texas, late Thursday, officers here were advised. Immediately upon receipt of the advice, officers left here for Vernon, planning to take the physician with them for purposes of identifying the car in Snyder.

The loot recovered consisted of six cases of cigarets taken from the Jackson news stand here, when J. R. Williams, night clerk of the Armilda hotel, was forced to prize the lock from the door early Thursday by a lone and unmasked bandit. The newsstand is next door to the hotel. Mr. Williams was forced to load the cigarets into a waiting Buick sedan.

Following the robbery, Mr. Williams was compelled to enter the car, in which he was taken, by the robber, to an abandoned power plant, five miles south of the city. Here, the robber gave him a sheet and counterpane with the command for him to remain there until daylight. Mr. Williams arrived home about 5 a. m.

The man, who is of medium height, fair complexion and well dressed, had previously engaged a room, leaving the hotel for a cafe. Upon his return, Mr. Williams went outside to assist in removing luggage from the car, when he was overpowered.

The robber has not yet been found.

Jap General Commands Evacuation of City

TSINGTAO, May 31. (AP)—General Yasamitsu, commander of the Japanese third division, who a week ago called upon the northerners to withdraw seven miles from Tsingtao, addressed an ultimatum today to the Chinese generals to evacuate the town by tomorrow.

Everything points to compliance with this order.

The degree is newly authorized, and will be sought in 1929 by several students.

COUNTY DELAYS DECISION ON TAX TANGLE

Assessments Too High, But How to Cut 'Em Puzzles

TAX EXPERT TALKS

Austin Man Gives Basis Followed in Fixing County Rates

Wichita county tax assessments are too high, but how to reduce them proved the problem which an all-day session of county commissioners and chamber of commerce leaders had failed to decide late Thursday afternoon. The proposed decrease in assessments will come up for consideration by the two bodies again Tuesday.

Assessments Too High

Advocates of the assessment reduction plan urged an assessment upon a 33 1-3 per cent basis, instead of the present 50 per cent basis, with the possible saving to Wichita county taxpayers of $156,000 now paid to the state. Commissioners generally agreed the present assessment rate is too high, with Wichita county bearing more than its share of the burden of state taxes, but sought more information on the power of the commissioners to increase tax rates to a point to care for the decrease in assessments.

While pointing out that he had made no recent investigation of the question and that he therefore possibly might be in error, County Judge E. W. Nicholson expressed the opinion to The Record News that the commission could not levy a tax rate of more than 90 cents on the $100 valuation. This rate would be 30 cents below the $1.20 rate necessary to carry the proposals of the reduction advocates.

Limit in Dispute

According to those seeking the lower assessments, there is no limit on the rate the county may levy. This opinion was given The Record News by a number of attorneys who said they knew of no state law which set a limit. Higher rates in other counties were also pointed out.

John T. Smith of Austin, former railroad commissioner and tax expert, told a Record News staff member over long distance Thurs-

Childress Youth Hurt in Collision

Special to The Record News.

CHILDRESS, Texas, May 31.—Robert Brown, 15, son of Mr. and Mrs. Jack Brown, was seriously injured when his automobile collided with another and turned over twice here early this afternoon. The accident occured in front of the First Bantist church at Avenue C and Third street.

Brown was rushed to the office of a physician, where it was discovered his collar bone was broken. An X-ray examination was ordered to determine extent of other injuries.

Brown is said to have collided with an automobile driven by Mrs. Lynch Sparks, of Garden Valley.

Rancher Killed While Crawling Through Fence

GARDEN CITY, Kan., May 31. (UP)—William Lindner, a longtime rancher near here, was instantly killed today when he crawled through a wire fence pulling his shotgun behind him. The accident happened on his farm near Kendall, to which he recently moved.

Last Minute Thirst Saves Passenger's Life

KANSAS CITY, Mo., May 31. (UP)—A last minute thirst for a bottle of soda water saved Oliver G. Trombley, of Detroit, from a fatal crash here in which his pilot, Herman Fanger, a captain in the German air service in the war, was killed. Trombly, son of a Detroit realtor, climbed out of the plane to get a drink just before Fanger took off on a trial flight.

"Nobody's Business Where I Talk," Heflin Snaps at Campaign Probers

WASHINGTON, May 31. (US)—With the national convention only two weeks off, the sum total spent in behalf of all presidential candidates is but $653,756.22.

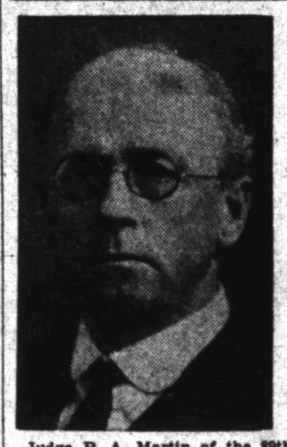

The senate campaign investigating committee made the total public late today after its final session here in which it was revealed that the Ku-Klux klan is not spending an extra nickel in politics this season, and that Senator Thomas J. Heflin, Democrat of Alabama, has been doing right well as a speechmaker.

Heflin, called as a witness, admitted he had made 40 speeches last summer and was paid by the klan $150 per speech and expenses. He talked on "Romanism, Mexico and Nicaragua mostly," but generally mentioned Governor Al Smith—"When I did not forget it," he declared.

The Alabama crusader clashed hotly with the committee, however, when it sought to learn where he plans to speak between now and election day and what he expects to get and from whom.

"That's nobody's business," Heflin snapped.

Heads Judges

Judge P. A. Martin of the 89th district court, was elected president of the Texas District Judges' association at their annual convention in Dallas Thursday.

JUDGE MARTIN HEADS JUDGES

Wichita Falls Jurist Is Named President

DALLAS, May 31. (AP)—A proposal to merge the Texas District Judges' association with the Texas Bar association as a judicial section of the latter was unanimously indorsed by vote of the judges in annual convention here Thursday. All judges of appellate and trial courts thereby become members of the bar association, the merger to be completed during the current convention of the bar association.

Retaining the right to elect a separate body of officers, the association named Judge P. A. Martin of Wichita Falls president, Judge M. J. Jeffrey of Lockhart vice president; Judge Royall R. Watkins of Dallas, third vice president, and Judge Joe H. Eidson of Hamilton secretary treasurer.

The address of welcome was delivered by James Collins, Dallas city attorney, and Judge Hugh Carney of Texarkana responded. Reports of officers were read and adopted.

Thirty-five Texas judges were in attendance when the convention opened.

All National Balloon Race Entries are Found

PITTSBURGH, Pa., May 31. (AP)—All of the 14 balloons that took off in the national elimination race were believed accounted for tonight by race officials following a report that the American Business club of Akron had landed safely 40 miles east of Richmond, today. Earlier Captain E. W. E. Kepner, of the Army No. 1, made known he had come down at Weems, Va., while the other 12 bags were scattered in several parts of southwestern Pennsylvania, beaten down by a wind and electrical storm that brought death to two balloonists and injured several others.

Pastor Sentenced, Fined On Perjury Conviction

GUTHRIE, Okla., May 31. (UP) Denied a motion for a new trial, Rev. P. C. Hesser of Payne county, was sentenced today to two years in the federal penitentiary at Leavenworth and fined $100 on a perjury charge. Attorneys gave notice of appeal and posted $2500 bond.

Hesser testified at a trial of John Ramsey, charged with the murder of Henry Roan, Osage Indian, that a confession of Ramsey was not signed when presented before the grand jury of which Hesser was a member. The government proved that it was signed.

Oklahoma Rains Help Crops and Pastures

KANSAS CITY, Mo., May 31. (UP)—Showers that fell in sections of Kansas and Oklahoma, with forecasts of more rain to come, have materially aided wheat, corn, pastures and other crops. Goodly amounts of precipitation were reported from Wichita, Kan., east to Kansas City.

MESSAGE FROM PLANE TELLS OF PROGRESS

Southern Cross, Bound For Australia, Speeds Over Sea

.. KEEP TO COURSE

Fliers Signal Ships For Bearings 600 Miles From Shore

SAN FRANCISCO, May 31. (AP) The Mackay radio at 10:05 received a radio message saying the Southern Cross had struck a downward current and lost altitude.

The air message was flashed out without address. Radiomen said the drop evidently had startled the sender.

The message was as follows:

"Hit an air pocket."

The signals then stopped abruptly.

OAKLAND, May 31. (US)—Streaking toward Honolulu, the Southern Cross, giant monoplane bound for Australia, entered the mysterious "death spot of the Pacific airways," 600 miles out, shortly after 2 o'clock this afternoon, (Pacific time).

Back on their course after an hour's flying off the radio beacon lane, the crew of the Southern Cross sent back radio messages indicating that all was well as they entered the strange, death haunted area, 600 miles from the mainland where earlier fliers are believed to have encountered death.

The Southern Cross, Australia's entry for transoceanic flying honors, this evening should be well

Log of Flight

(By The Associated Press.)

A log of the Southern Cross' flight from Oakland to Australia via the Hawaiian Islands, based on Associated Press reports, follow:

Tri-motored monoplane hopped off at the Oakland airport at 8:51 a. m., Thursday.

9:30 a. m.—Southern Cross reported generator trouble.

10:20 a. m.—"Altitude 2000 feet; everything o. k."

10:57 a. m.—The San Francisco Examiner received a message from the monoplane asking for test signals, saying they couldn't "get the beacon."

11:41—The ship reported "228 west, going good" (probably overestimated distance.)

12 Noon—"240 southwest of S. F. light ship. Cloudy. 73 knots."

1:20 p. m.—Oakland airport received message from the plane saying it was 425 miles out.

"Doing Fine"

1:30 p. m.—Captain Charles Kingsford-Smith, commander, messaged "all shipa," saying "we are doing fine, speed 75 miles." He gave other data.

1:45 p. m.—Southern Cross messaged that steamer Wilhelmina was about 180 southwest. At that time the Wilhelmina was about 800 miles southwest of San Francisco.

2:45 p. m.—Southern Cross' radio

2:45 p. m.—Monoplane talked with Wilhelmina trying for more definite bearings.

3 p. m.—Southern Cross' radio "nearly passed out" amateur receivers reported.

3:10 p. m.—Radio corporation of America received a message from the Southern Cross as follows: "Doing fine. Six hours out. Altitude 1200 feet."

4:15 p. m.—"Everything o. k. Visibility pretty good. Altitude 1000 feet." This message from the plane said nothing about position.

6:58 p. m.—"Latitude 33 north, longitude 135 west. Speed 70 knots. Going strong. Altitude 1200 feet. Sea smooth." Distance about 850 miles.

Sky Gray

8 p. m.—A message announced the plane's position 860 miles from San Francisco flying over a bank of clouds.

8:30 p. m.—"The sun is in the west."

9 p. m.—Just 12 hours after leaving Oakland the western sky is still gray, illuminated by the sun. Altitude 3500 feet.

GARNER RAPS BIG EXPENSE

Texan Says Congress Was "Extravagant"

WASHINGTON, May 31. (US)—All peace-time records for "extravagance with the people's taxes" were broken at the session of congress just ended, Representative John N. Garner, Democrat of Texas, asserted in a statement issued today.

"Authorizations for appropriations in the future were the greatest in the history of the republic outside of war times," said Garner, adding:

"During the years he has been in the White House President Coolidge has asked congress to appropriate fully $250,000,000 more than congress allowed.

"I believe the tax-reduction bill passed at this session of congress will be the last for years. The next tax bill will deal more with correcting inequalities than in cutting rates.

Heavy Appropriations

"Appropriations made at the session just ended totaled about $4,600,000,000, which is about $300,000,000 more than the outlay in the session a year ago."

Garner left Washington tonight for his home in Texas, where forces demanding repeal of the federal estate tax are fighting his re-election this fall.

The fiery Texan is slated to be Democratic floor leader in the house in the 71st congress, Representative Finis J. Garrett of Tennessee being a candidate for the senate this year. A Democratic house would put Garner in line for the speakership.

The nation's greatest business—government—will show a profit of around $500,000,000 the present fiscal year, according to treasury estimates.

Expenditures Greater

The "stockholders" in this enterprise will hand over to Uncle Sam directly and indirectly over $4,000,000,000 out of their $90,000,000,000 annual income by June 30.

Indications were that expenditures next fiscal year will be greater and receipts probably $300,000,000 less than in 1927-1928. The tax reduction bill will lop off about $160,000,000 in next year's revenue, it was estimated.

Secretary of the Treasury Mellon will have cut the national debt another $1,000,000,000 by June 30, on which date the public debt will be approximately $17,500,000,000, or about $9,000,000,000 less than at the peak in August, 1919.

Debt Reduction

Most of the surplus this year will go toward debt reduction in addition to $354,751,000 from the sinking fund and about $160,000,000 repayments on war debts from foreign governments, treasury officials said.

Secretary Mellon is preparing for refinancing operations June 15, involving retirement of about $400,000,000 in treasury certificates and possibly a block of third liberty bonds. There are $1,328,000,000 of these bonds outstanding. The issue matures September 15. The third libertys have been reduced $818,777,777 during the present fiscal year.

The treasury's June 15 financial turnover will approximate $1,250,000,000, including retirements, new issues, income tax receipts and other income on expenditures, it was estimated.

Man Held Here Believed Escaped Okla. Convict

Facing charges of aggravated assault, a man believed by officers to be an escaped convict from Oklahoma, was arrested Thursday by members of the sheriff's department. Fingerprints of the suspect were made and forwarded to Oklahoma authorities by Sheriff W. G. Bralley.

The man was accused of aggravated assault by a woman claiming to be his sister. The arrested man gave officers a name which the woman told officers was incorrect. Charges against the man will be filed Friday, Mr. Bralley said.

Deaths

ROY STANFORD BECK

Funeral services for Roy Stanford Beck, 37, who died in a local hospital at 7 o'clock Thursday morning were held Thursday afternoon at 4 o'clock at the Rosemont burial park, with the Rev. W. H. Townsend, pastor of the Lamar Avenue Baptist church, officiating. Burial was in Rosemont.

Mr. Beck is survived by his father, J. H. Beck, and two brothers, E. D. and J. W. Beck, all of Gainesville.

Twins Make Identical Grades

(Above) CAROLYN and ROSALYN WONES
(Below) ROBERT and RAY DIX

DELAWARE, Ohio, May 31. (United Press)—Do identical twins have similar intellectual ability as well as physical likeness? This subject has received much discussion at Ohio Wesleyan university here due to the fact that two pairs of twins now enrolled at the university received the same grade averages in courses taken during the last semester.

Carolyn Wones and Rosalyn Wones of Warsaw, Ind., made exactly the same average for the first semester, and so did the Dix twins, Robert and Ray, of Wooster, Ohio.

The Dix boys did not take the same course and were greatly surprised to find that their total averages for the semester were the same.

The Wones girls took the same courses and were in classs together, however. Student rumor has it that professors being unable to distinguish between them solved the problem by giving them identical grades. The high school record of the Wones twins also showed almost identical grades.

lowing training thus gained in order that the state may benefit from the scholarship.

Endorsement was adopted of the four measures proposed by the state legislative council for the 41st state legislature of Texas, which includes the county school administration; property rights of married persons; repeal of civil clause in search and seizure law, and maternity and infancy appropriation.

Resolution Adopted

The afternoon session was presided over by Mrs. Brient with Miss Deitrich, secretary. Miss Deitrich read the report of the revision committee of the constitution and by-laws, which was adopted by the association. Dr. Nat F. Grafton pronounced the invocation.

The following resolutions were adopted: "Be it resolved that the Graduate Nurses' association, the League of Nursing Education, the Organization of Public Health Nursing, the American Red Cross and the St. Barnabas Guild for Nurses give a sincere vote of thanks for the gracious hospitality afforded them by members of the Wichita Falls auxiliary of the medical society and the chamber of commerce.

"Be it further resolved that a special vote of thanks be extended the arrangement committee for its interesting and educational programs. May every delegate carry to her district a feeling of friendliness and gratitude toward Wichita Falls for the complete success of our 21st annual convention."

A tea was given Thursday afternoon at the Country club by courtesy of the Alumnae society of the Wichita General School of Nursing.

The convention was brought to a close Thursday evening with an entertainment of musical numbers at the Woman's Forum. The program included the following numbers: Piano solo, "Fantasie Impromptu" (Chopin) by Mrs. James V. Allred; vocal solos: "Day Is Done" (Strauss) and "Charity" (Hagmann) by Mrs. Hallie Adams Hill, accompanied on the piano by Mrs. Allred; violin solos, "The Old Refrain" (Kreisler), "Poeme Poetique" (Fibith) and "Moment Musicale" (Kreisler-Schubert) by Stanley M. Raub, accompanied on the piano by Mrs. J. W. Akin Jr. A group of dancers from the Knickerbocker studio gave the following numbers: "Eccentric Jazz" by Johnny Frances McBay and "Flapperette" by Aline Morrison. Mrs. Claude Ruffner had charge of a group of entertainment selections.

District reports were given Thursday morning by the following delegates: No. 1, Mrs. Martha Madland; No. 2, Mrs. Eva Moore; No. 3, Miss Grace Emery; No. 4, Mrs. E. O. Sharp; No. 5, Miss Ellen Gustafson; No. 6, Miss Josephine Russo; No. 7, Mrs. Fay Eubanks; No. 8, Mrs. R. Sedgwick; No. 9, Miss M. Perry; No. 10, Miss Irma Gordon; No. 11, Miss Mildred Baker; No. 12, Mrs. Effie Killingsworth; No. 13, Miss Allene Warren; No. 15, Miss Bonnie Kirby. No delegates were present from district 14.

Dr. Floyd Allan Bash pronounced the invocation.

FARMERS NEAR DEMOCRATS

HOUSTON, Texas, May 31.—Those Democratic leaders in Houston for the party's national convention in June who have thoughts of farm relief legislation will have an opportunity to rub elbows with Texas farmers. Near the Democratic coliseum is a gigantic farmers' market, headquarters for hundreds of agriculturists who "flivver" in daily.

KANSAS CITY STAGE READY

Chairman Butler Arrives For Meeting Today

KANSAS CITY, Mo., May 31. UP)—Although the Republican national convention does not open for more than a week, the convention season will officially open Friday with the expected arrival of William M. Butler, chairman of the Republican national committee, and Senator Reed Smoot, chairman of the resolutions committee.

They will take over the reins of active management and their coming foreshadows the early arrival of other members of the committee. Accompanying them probably will be Mrs. Alvin T. Hert, vice chairman of the national committee.

Kansas City took on a definite political convention atmosphere today with the arrival of James W. Good, chairman of the Herbert Hoover campaign. His first statements were an enthusiastic prediction that the secretary of commerce will be nominated on an early ballot.

No Season Tickets

Season tickets may be given this year, but only session to session tickets will be passed out, Conrad Mann, local chairman of the convention, said.

Senator Smoot is expected to launch immediately into the task of writing a party platform, with an important plank on the agricultural question undoubtedly one of the measures.

The first meeting of the national committee is scheduled for Monday when hearings on 73 contested seats in the convention will begin. Most of these contested delegations come from the south and are concerned principally with Hoover's candidacy.

Not alarmed over the recent corn belt movement coming as an aftermath of President Coolidge's veto of the McNary-Haugen bill, Good declared that the marshalling of agricultural forces was against President Coolidge and could not be interpreted as being against Hoover. Those who are seeking to rebuke the veto are rebuking the president.

Endorse Coolidge

"But the Republican convention is going to endorse the administration of Coolidge," Good said. "The president has vetoed the farm bill, but on grounds which the Republican convention is bound to accept and sustain.

"I think Frank O. Lowden of Illinois, was quite right when he declared he could not be a candidate unless the farm issue, as he interprets it, should be recognized. I join in that view. Only if the Republican convention rebukes President Coldge, and declares for McNary-Haugenism with its principle of the equalization fee, can Mr. Lowden be nominated.

"In my opinion, Lowden is through right now. The convention will be solidly behind the president. How it can be that and develop any strength for Lowden and McNary-Haugenism, isn't clear, is it?"

LOWDEN VOICES FARM VIEWS

CHICAGO, May 31. (UP)—Frank O. Lowden, the "farmer's candidate," for the Republican presidential nomination, echoed the recent protests of the middlewest farm organizations here today when he said, "If the Republican party does not face the agriculture issue, the Democrats will."

Lowden came to Chicago to complete convention plans with his campaign manager, Clarence F. Buck.

The result of their meeting brought out emphatically that Lowden hopes to "carry on" with the corn belt farmers in their protest at Kansas City against President Coolidge's veto of the McNary-Haugen bill.

Three Drinks Daily, Three Drunks Yearly, Gardener's Lot

Yellowed 'Agreement' Throws New Light On Life of Washington

By CHAS. S. HAYDEN
Staff Correspondent

WASHINGTON, May 31.—That George Washington, father of his country, was a pretty human individual, with most of the virtues and some of the vices of his day and time, is now generally understood. Now and then, however, additional evidence of this comes to light.

Such, for instance, as the copy of an agreement which Washington made with his gardener, Joe Garber, stipulating three generous drunks a year for the latter, together with three drinks a day. This agreement is now the property of Miss Fanny Washington Weeks, 1920 Sutherland place, Washington, who inherited it from her grandmother, to whom it was given by Garber.

The text of this agreement, faded and yellow with age and obviously written with a quill pen, reads as follows:

Agreement Signed

"This agreement made 1783 between Geo. Washington of Mt. Vernon, Va., and my colored gardner, Joe Garber, witnesseth: That I promise to give Joe Garber ten dollars to get drunk on at Xmas and stay drunk ten days, two dollars to get drunk on at Easter and two dollars to get drunk on Whitsuntide, and a drink before breakfast, one before dinner and one before supper all the balance of the year.

"Witness my hand and seal this day and year aforesaid:

(Signed) "George Washington.
"Joe Garber" (his mark) "X."

So far as known, agreement between Washington and his gardener, or "gardner," as he spelled it, has never been published, but the signature is very clear and has every evidence of being genuine. It is easy to reconstruct the situation which prompted it. Washington evidently wanted certain work done. It wasn't done and inquiry developed that the gardener had been hanging around the Mt. Vernon still house, the foundations of which remain adjacent to the wonderful old colonial home overlooking the Potomac. Instead of inflicting punishment, as another might have done, Washington called in the offending servant and, without seeking to reform him, suggested an agreement under which the old darkey might have three drinks a day and three drunks a year, one to be of 10 days duration.

Got His Drinks

There is no record to show how the agreement was kept, but it is a fair assumption that Joe had his three drinks a day of the whiskey for which the master of Mt. Vernon was famed among his fellows, and if he was allowed to measure them himself, it is probable they were of the "four finger" variety. Miss Weeks, who is of the co-lateral branch of the Washington family, her direct ancestor having been George Washington's grandfather, has many Washington relics and takes great pride in them. Although she has always considered herself a Republican, she has the deepest antipathy for some of the modern sumptuary laws, the Volstead law in particular, and says she plans to send the letter here quoted to Gov. Al Smith of New York, for whom she has conceived a high admiration.

Relight Ancient Fires.

BOLZANO, Italy.—Flames leaped high on hills surrounding Merano recently in commemoration of the huge bonfires used in the middle ages to signal neighbors when plague swept the country. The custom has been continued by the peasantry during the intervening centuries and the fires are lighted at a specified time at least once a year.

Pinched in His Bath.

CALCUTTA.—The Indian Nationalist, Gurudit Singh, may well blame cleanliness for his present plight. He was arrested here while taking a bath, following a trip to Peru. He was charged with sedition and inciting to class hatred, in connection with a series of speeches delivered in this city prior to his visit to Peru.

King George of Britain Celebrates 63rd Birthday With Nation's Acclaim

U.P.—Pathe News
KING GEORGE V

LONDON, May 31. (UP)—More than 400,000,000 British subjects will celebrate June 4 the birthday of their king and emperor.

British forts and battleships all over the world will fire the royal salute in token that His Britanic Majesty is 63 years of age.

Every public and governmental building in all parts of the empire will fly the Royal Standard beside the Union Jack.

And in the nation's capitol the picturesque and traditional ceremony of "trooping the colors" will mark the passing of another year.

Although the king was born on June 3, the formal celebrations will not be held until by royal decree.

The Horse-Guards parade in St. James' park will resound to the massed bands and the clock-work step of the marching guardsmen. On these occasions thousands of people press against the cordon of police and crane their necks to catch a glimpse of King George as he leaves Buckingham palace on horseback, wearing the brilliant scarlet uniform of colonel-in-chief of the brigade of guards, crossed by the blue ribbon of the Order of the Garter.

From the palace, the king will ride through the Mall to the parade grounds, attended by nearly all the male members of the royal family. On his right will be the Prince of Wales and on his left the Duke of York, each resplendent in the uniform of a colonel of guards.

A royal luncheon, attended by all the leading participants in the morning ceremonies, follows and during the afternoon the king is kept busy receiving official ambassadorial and ministerial calls and congratulatory messages from the rulers of the world.

On June 6 most of the royal family will witness the Derby and in the evening His Majesty will give the Derby Day banquet to members of the Jockey club.

Fire Eater And Trouper Marry

NEW YORK, May 31. (US)—"The paths of glory lead but to the grave"—Thus did old Thomas Gray, the poet, rave;

But Chundra-Bey tells quite another story.

"The grave has led me on the path of glory."

When a man has been buried alive in nearly every state in the union and survived it, he isn't afraid of anything, hardly. Chundra-Bey, for example, proved this today by marrying a fire-eater.

Chundra-Bey, who is 26 and lives at the Hotel Mansfield, appeared today in the chapel of the municipal building and was wedded to Miss Elsie M. Eye, same address. For some years past the bride has made her living by touring the country on a flaming diet. After the wedding the couple returned to the Mansfield, where they were "at home" to friends.

Chundra-Bey makes his living and fame by being hypnotized, placed in a sealed casket, buried six feet deep for an hour or so and then exhumed alive and smiling. He declares he has proved that Thomas Gray was wrong; that the grave has led him to the paths of glory.

Goff Beats Hoover In West Virginia

CHARLESTON, W. Va., May 31. (UP)—Guy D. Goff, West Virginia's favorite son candidate for president, apparently has won the Republican delegation from this state against Herbert Hoover and the Democratic delegation will go to Governor Alfred E. Smith of New York.

The latest returns today showed 1842 precincts out of the state's 2306 gave:

Republican ticket: Goff, 102,474; Hoover 93,940.

Democratic ticket: (1589) precincts) Smith 59,237; Senator James Reed 52,175.

Even though Hoover were to run heavily ahead of Goff in the remaining precincts, their vote is comparatively small and it is doubtful if he couldn't win.

A bag egg is lighter than a good egg.

CLUB WOMEN FLAY SMITH

Anti-Al Circulars Are Distributed

SAN ANTONIO, May 31. (UP)—Attacks on Gov. Alfred E. Smith of New York were contained in circulars distributed late today at the convention of the general Federation of Women's clubs.

Mrs. Jesse W. Nicholson of Maryland, president of the women's Democratic league of dry voters, distributed the printed circulars. Although the federation is non-partisan in its official acts, prohibition will be stressed throughout the entire federation program, leaders said. No official stand on presidential candidates is expected to be taken, however.

Friday the women will drop the business of the convention and engage in a day of play. The much advertised play day will feature sight seeing trips to local spots of interest.

For the first time in the history of Fort Sam Houston, an army review is to be held for women. This will be an early morning attraction. Mexican bands, negro spirituals and cowboy ballads will entertain the delegates at noon. Little Mexico will be the rendezvous of the visitors Friday night where prizes will be given for best Mexican dancers and most attractively decorated chili stands.

The federation fine arts program tonight featured an address on the living art by Gutzon Borglum, sculptor.

P.-T. A. COUNCIL HOLDS MEET

Wichitans Appear on Burk Program

Special to The Record News.

BURKBURNETT, Texas, May 31. The first meeting of the county council of the Parent-Teacher associations was held at Burkburnett high school Tuesday with 10 schools represented. These were Burkburnett, Fairview, Wichita Falls, Valley View, City View, Weith, Pleasant Valley, Petrolia, Cashion and Clara.

The invocation was said by Rev. Miles B. Hayes of the Baptist church. This was followed by the Scripture reading by Mrs. H. S. VanCleave.

Superintendent Butler Westerfield of the Burkburnett schools made the address of welcome. In the absence of Mrs. Gale Mitchell, who was scheduled for a response to the welcome, Mrs. S. C. Anthony of Thrift expressed the pleasure of the visitors at being present, and gave a brief history of the growth of the P.-T. A. in Texas.

Question Box

Chairman Mrs. C. R. Roberts installed a question box at this time. The questions were taken up and discussed later in the day.

In an address on the difference between the nature of clubs and the P.-T. A., Mrs. Frank Creighton of Wichita Falls, president of the 13th district county council, discussed the relative value of health discipline and education in the life of the child.

Mrs. T. H. Lawson from Wichita Falls conducted a school of instructions and answered questions on problems that come up in P.-T. A. work.

Two songs, "One Fleeting Hour," and "Slumber Boat," were sung by Mrs. W. D. Utts, who was accompanied on the piano by Mrs. Glen Kincaid.

Mrs. J. M. Fox, corresponding secretary of the 13th district, gave a talk on publicity, and described the scrap book that is to be kept by the local recording secretary, and entered in exhibit in the state and national council.

The afternoon session started with a general singsong which was followed by a round table discussion. Representatives from each group discussed their success or failure with membership drives, programs, health plans and magazines used in the organization. Mrs. J. Z. Steinkoenig reported on the pre-school clinic and Mrs. Harry ten Brink on social entertainment.

At 2 o'clock the presidents of each association gave a report on their own particular organization.

During a short business session it was resolved that there would be three meetings of the county council during the next year, these to be held during October, February and April. The first will be held at Cashion school, as this school is next in alphabetical order.

The meeting adjourned at 3 o'clock, the following having registered:

Mrs. J. M. Goins, Mrs. Frank Creighton, Mrs. John M. Cox, Mrs. J. S. Steinkoenig, Mrs. A. A. Bishop, Mrs. D. M. Morris, Mrs. S. C. Anthony, Mrs. T. M. Murphy, Mrs. O. J. Norwood, Mrs. W. I. Johnson, Mrs. J. Grube, Mrs. J. C. Hathaway, Mrs. A. W. Von Struve, Mrs. S. A. Davis, Mrs. J. S. Waller, Mrs. T. A. Bankhead, Mrs. J. H. Tusley, Mrs. Roy Fultz, Mrs. F. D. Posey, Mrs. Joe McKenzie, Miss Mary Foster, Salina Foster, Mrs. C. R. Roberts, Mrs. E. C. Underwood, Mrs. P. R. McLean, Mrs. C. W. Lovell, Burl Bryant, T. H. Lawson, Mrs. Harry ten Brink, Mrs. W. A. McGee, Mrs. E. R. Keller, Mrs. L. J. Terrell, Mrs. R. A. Franklin, Mrs. Ben W. Tipton, Mrs. Clyde R. Wofford, Mrs. Bryan Jones, Mrs. C. Newburn, Mrs. P. M. Glass, Mrs. S. A. Covington, Mrs. Ira L. Cain, Mrs. S. C. Cropper, Mrs. E. R. Simon, Mrs. Ellis Greeson, Mrs. H. S. VanCleave, Mrs. Lelia Ada Westbrook, Mrs. A. L. Gregg, Mrs. F. R. Knauth, Mrs. S. E. Gilmer, Rev. Miles B. This photo of Mme. Lupescu was snapped at Oakhurst, England, shortly before the pair set out for Belgium.

ALTUS BOASTS PRIZE FLOWERS

Garden Adjudged Third In America

Special to The Record News.

ALTUS, May 31.—Altus, although not considered a town of flowers, has one flower garden of which the entire state may boast and which was the garden spot to be judged third in a recent contest conducted by the Mid-Week Pictorial magazine. This is the flower garden belonging to Mr. and Mrs. R. M. Wooldridge of 716 East Commerce street in Altus, and for which the prize was awarded for a picture of the garden.

First prize of the contest was awarded for a picture of a flower garden at Pawtucket, R. I.; the second prize went to a garden at Fayetteville, Ark.; while the Wooldridge garden picture received third prize.

Wooldridge devotes most of his time to the Citizens State bank of which he is president, but by getting up earlier than the average Altus citizen each morning he is able to care for his garden. Not only his home garden proves that he is a lover of flowers, but practically anytime of the year a bouquet of flowers may be seen in his office.

Texas Mother Praises Nurse

There isn't a mother living who won't agree that no half-sick child should be the subject for an experiment with medicines of uncertain merit. When your child is bilious, headachy, half-sick, feverish, restless, with coated tongue, bad breath, no appetite or energy, you know that nine times out of ten it's a sign his little stomach and bowels need purging. And when you know that for over fifty years leading physicians have endorsed one preparation for this condition, there doesn't seem to be any reason for "trying" things.

Rich, fruity California Fig Syrup clears the little stomach and bowels gently, harmlessly and in a hurry. It regulates the bowels, gives tone and strength to them and to the stomach; and helps to give your child new strength, energy and vitality. Thousands of Texas mothers praise it. Mrs. Valerie Adams, 1052 Castro St., San Antonio, says: "I'll never forget the nurse who got me to give my baby boy, John, California Fig Syrup. Nothing else seemed to help his bowels, which were left weak after an attack of measles. That was when he was just eighteen months old. He suffered for many months before I gave him Fig Syrup, but it stopped his trouble quick. I have used it with him for colds and little upset spells ever since. I consider him a Fig Syrup baby."

Insist on the genuine article. See that the carton bears the word "California." Over four million bottles used a year.

Camp Fire Girls Announce Week's Open Air Program

The group of Camp Fire Girls who left Wednesday for summer camp at Diversion dam report a successful first few days of camp life. They find camp life to be more pleasant than the last few days in town, according to word received here from Miss Mary McIlheran, executive.

Mrs. R. F. Mahood, executive from Stamford, brought 17 Camp Fire Girls who joined the group from here at Diversion dam Wednesday. Boy Scouts under the supervision of Frank Creighton, scout master, are keeping the campers supplied with water and other necessities.

The following daily schedule is being followed by the girls: Reveille at 6:30 o'clock; swimming for beginners from 6:45 to 7:15; breakfast at 8 o'clock; tent clean-up from 8:45 to 9:30; morning sing at 9:30; crafts, hand work, nature lore study and camp study from 10 to 11:30 o'clock; 11:30 to 12 o'clock, free time; dinner at 12 o'clock; rest period from 1:30 until 2 o'clock; quiet period from 2 until 2:45; first aid, hygiene at 2:45 to 3:30; games, crafts at 3:30 to 5; beginners swim from 5 to 5:30 o'clock; advanced swimmers from 5:30 until 6 o'clock; supper at 6:30; vespers at 7:30 o'clock; evening prayers at 8 o'clock.

Girls from the following towns are represented among the campers: Thrift, Byers, Stamford, Petrolia, Aspermont and Wichita Falls. Girls from Dallas and Holliday will occupy camp next week.

The camp staff is as follows: Miss Mary E. McIlheran, director; Mrs. Maude Bartholomew, general assistant; counsellors, Mrs. George C. Hengy of Dallas, for swimming; Mrs. Anna Barnhill, Wichita Falls, nature lore; Miss Gladys Horn of Thrift, handcraft; Mrs. R. F. Mahood, Stamford, campcraft, and Miss Winnifred Elrod, camp nurse.

ITHACA, N. Y.—A lifeboat, applicable for steamers, warships and ordinary craft, has been invented by Thomas Ditrich of this city. It can be equipped with a gasoline motor, radio and searchlight. Ditrich claims his boat will successfully withstand storms on the ocean and that it will be the safest ever constructed.

Even the Bride On Her Honeymoon Travels Light

By MME. LISBETH

In this day and age, with everybody traveling, even the bride travels light. A serviceable suit that is as practical for hiking, motoring—a favorite way of honeymooning, by the way—boating, etc., as it is smart, is usually chosen, and the other costumes in her trunk—or suitcases—are of the kind that pack into a small space and are not easily crushed.

The going away suit is pictured at the left above. If one prefers a more dressy ensemble for this time this little suit would be a smart and useful addition to the trousseau, anyway. It is made of a knitted fabric composed of wool and rayon, in beige, with the kerchief beige and olive green, green felt hat and shoes of beige and brown.

Second from the left is a pretty ensemble that might be worn at the hotel from morning until nightfall. It consists of a jacket of imported brocade with a dress of yellow josetti with pleated skirt. One might prefer the longer jacket with this dress, but the short length is chic.

Of course our bride must include a printed frock in her collection. Next to the ensemble is such a dress of printed chiffon—very simple—with a large hat which must be gotten in if possible. It is a horsehair braid, wide brimmed, and, trimmed with rows upon rows of lace. Renee Adoree posed for this one. Now the evening dress. It must be of soft material with the favored uneven hem finishing with the wide skirt. The frock pictured at the extreme right is a fuchsia colored chiffon. It has a tight bodice, relieved by a deep handmade lace collar. The skirt is draped with a shash or girdle of self material tied in a soft bow in front. Dorothy Gulliver is the model.

A top coat of soft woolen to put on over the suit or dress in cool or stormy weather is a needed addition. The accompanying sketch is of the bride's overnight bag of gray calcutta lizard with blue enamel, gold and crystal fittings.

Mrs. Musick Honor Guest at Party On Thursday Afternoon

Mrs. George Musick who is leaving soon to make her home in Hereford, was honor guest at a delightful party at the home of Mrs. R. L. Ausley on Kemp boulevard, Thursday afternoon. She was assisted in entertaining by Mrs. George A. Patterson.

The entertainment for the afternoon was informal with character readings given by Mrs. B. B. Greever and Mrs. Halcomb and a stunt given by Mesdames Patterson, R. L. Kirby and Jewel Cunningham. A poem contest in honor of Mrs. Musick occasioned a great deal of amusement.

Little Charlotte Ann Agee, dressed like a fairy, brought in a basket of gifts, among them a shower bouquet of handkerchiefs. Dainty refreshments were served by the hostesses.

Those present were: Mesdames C. F. Moss, M. L. Payne, E. A. Woods, Ernest Hallford, F. R. Ludolphus, A. L. Kirby, E. L. Horner, J. H. Esline, R. M. Phillips, F. M. Armstrong of Seymour, C. E. Ward, Troy Ogilvie, Dewey Moss, E. M. Agee, Peckham, Verda Bruner, Jewel Cunningham, Alice Fulmer, J. R. Wood, Bruce, Patterson, the hostesses, honor guest and Misses Lola Moss, Elizabeth Thomas, Jusnita Armstrong and Rachel Ann Armstrong of Seymour.

Easy on Him

GOLDWATER, Mich.—Out of their 20 years of married life, Mr. and Mrs. Albert Sherer remained silent for 18. After their second year, in which Sherer chided his wife on her conduct, they stopped talking to one another, although both continued to live in the same house. Mrs. Sherer, in attempting to get a divorce recently, was refused and advised to try again. Now the Sherers are on speaking terms once more.

Society Leaders Plan Generous Entertainment G. O. P. Convention

Mrs. E. B. McLean

Mrs. E. B. McLean, above, wife of the wealthy Washington, D. C., publisher, has planned to make her week attending the Republican national convention at Kansas City in June a social event as well as political. She has rented a suite of rooms in a Kansas City hotel at the rate of $175 a day.

By J. C. JOHNSEN
Staff Writer for Central Press and Record News

KANSAS CITY, Mo., May 31.—This city's "four hundred" is waiting on the Republican convention with its thousands of distinguished visitors from all sections of the country.

Society leaders have made intensive entertainment plans, and a period of most generous hospitality is assured in the private and public functions being arranged for the G. O. P. visitors.

Talk of vacations is taboo. Instead, the slogan "after the convention" is in vogue.

Hostess to Be Busy

Elaborate arrangements are being made by the Twentieth Century Republican club. Headquarters of the organization will be in the Young Women's Christian Association hotel here, where the Kansas City Republican hostesses each day will serve tea and offer hospitality generally.

The women members of the entertainment committee, under the leadership of Mrs. C. A. Braley, vice chairman, have arranged to station well known social leaders in the leading hotels to receive the out-of-town guests.

A great bulk of the entertainment will go on separately from organization. Social leaders who never before have taken an interest in politics will entertain friends from out of town during the week, and the social calendar simply is bulging with scores and scores of slated luncheons, afternoon teas and dinner dances.

Many Prominents

Out-of-town visitors also are planning to give parties during the convention. Outstanding among these so far, is that planned by Mrs. Edward B. McLean, social leader of Washington, D. C., and wife of the wealthy publisher of the national capital. Mrs. McLean has rented an elaborate hotel suite at $175 a day. The suite consists of six rooms and is furnished in artistic style.

Trevor William Rees-Jones should make a pretty modern looking missionary, don't you think? And he will probably be a missionary or a minister, if his parents' wishes are taken into account at all. Trevor William is the son of Rev. and Mrs. David Rees-Jones. Mr. Rees-Jones is pastor of the Floral Heights Presbyterian church.

The lad moved to Wichita Falls with his parents from Anadarko, Okla., last August. And he has just come back from a week's visit with his grandparents who live in Chelsea, Okla.

Trevor is a first generation American, his father having come to America from Wales when he was a youth. And the boy would make a very fine looking Celt, too, as he possesses dark blue eyes and dark hair as well as a fair skin.

Trevor William (wonder what the boys call him) is five years old and full of curiosity, which drives him into all sorts of tight places.

Lightsey First To Get Auto License

The first of the drive yourself rent car companies to take out its city license from the office of City Clerk W. E. McBroom Thursday, praised the new ordinance as fair to the rent companies and protective to the public. The company was the Lightsey company, Mr. McBroom said.

A city ordinance, similar to those used in almost all of the cities of the nation and copied directly from the ordinance of the city of San Antonio, provides that all rent car companies be insured or bonded to protect the public life and property in all cases where the rent company cars may be involved. It was said that many who rent these cars are not financially responsible in the case of accidents, and that the public is thereby endangered.

New Ordinance Bars Handling of Fruits

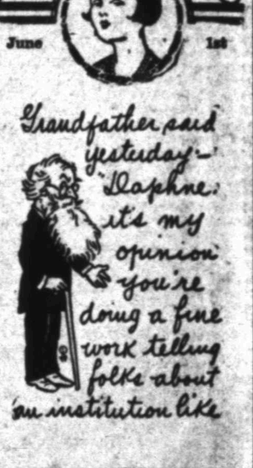

A city ordinance providing heavy fines for the public and for the storekeeper for handling and touching fruits and vegetables has been prepared by City Attorney Thelbert Martin at the request of the city council.

The object of the ordinance is to make for more sanitary handling of fruit and vegetables in grocery stores and other places where fruit and vegetables are sold. The ordinance will be presented to the city council Monday night.

Parents Should Guard Against "Slumping" Into Children's Care

Slumping Down to Be Cared for, Shifting the Burden Many Years Too Soon to Younger Shoulders, Monopolizing Their Children Without Thinking of Their Welfare—These Are Things Against Which Parents Must Guard.

Are you a parasite upon your children? Do you live upon them either financially or spiritually? Do you devour their earnings? Do you drain them of freedom, of happiness, of their very youth? Do you smother them with your own personality so that you choke out their own individual lives?

There are plenty of parents who regard their children as nothing but slaves provided by a beneficent Providence to support them. The number of able-bodied men and women who knock off work as soon as their children are old enough to take out their working papers is perfectly appalling.

Husky mothers and fathers in the very prime of life take refuge behind the specious plea of "old parents," and shamelessly live upon the meager wages of immature girls and boys. They are ten times as able to work as their children are, but it is easier to loaf and graft the money that poor little Johnny makes running errands, or that thin, little 16-year-old Mamie earns standing behind a counter in the basement.

Nearly all parents who go to live with their children are quitters who give up too soon. Most of them have 20 years more of good work in them if they had the will to struggle on and be independent, but their children offer such an easy avenue of escape from the daily grind that they take it without giving a thought to the burden they are laying upon them.

Many other parents deliberately plan to make their children support them when they are old. They make plenty of money to provide for their old age if they chose to exercise any thrift and economy, but they are too self-indulgent to do so.

They spend as they go along, living up to their incomes. They buy cars and radios and fine clothes and jewelry. They take trips. They go to the theater and are movie fans. They keep a fine table and literally eat, drink and are merry, taking no thought for the morrow, because when they are old and their earning days are over they can always go and live on the children.

They never think what a hardship this practically always works on the children. They never think of the privations it means to a daughter, earning a small salary, to have to divide her meager wage with father and mother. They never think what a crushing burden they are to the son who is just getting a start in the world, and who has all that he can do already to support his wife and babies.

Of course, the parents justify themselves by saying that we supported our children when they were small and we have a right to expect them to support us when we are old. But at that the children get the hot end of the bargain, because their parents supported them 15 or 20 years at most, and they are called upon to support the parents often 30 or 40 years.

Of course, it is true that there are many cases in which the parents always live on the ragged edge of want and cannot possibly put aside anything for their old age. Then naturally the children are under every obligation to support them, but the great majority of dependent parents are dependent through their own fault. They looked upon their children in the light of an old-age pension and blew in what they made on having a good time.

It is oftenest mothers who are spiritual parasites upon their children. Mother may have plenty of money to maintain her own establishment, or live in a hotel, but she has no life outside of some beloved child, and so she fastens herself upon it and sucks it dry of vitality.

Generally the child is a daughter, and mother goes to live with her, although she knows perfectly well that her son-in-law does not want her, and that her presence in the house is a menace to her daughter's domestic peace and happiness.

She also knows that no young person wants an old person continually hanging about his or her neck. She knows that while an old person may be amused and stimulated by the gay chatter of the young, and interested in all their hopes and plans, the prosy conversation and reminiscences of the old bore the young to tears.

Nevertheless, mother attaches herself so securely to daughter that she cannot be dislodged. She isn't even merciful enough to go off on a visit, or to take a trip and give daughter and her husband a little time alone together. She is always there underfoot.

Always sitting across the table at meals. Always listening in on every conversation between husband and wife. Always on the back seat when they go out for a ride. Always the third party when they go to the theater, or to pay a call, because mother never can be left behind without hurting her feelings.

The parasitic mother is never more deadly than when she clamps herself down upon a son and drains him of his very heart's blood. Perhaps 90 per cent of old bachelors are victims of parasitic mothers.

You see these pitiful cases everywhere. Old women with gray-haired sons dancing attendance upon them wherever the go. Fetching and caring for mother. Dragging mother around with them to places of amusement. Mother boasting of her son's devotion, and of how they have always been everything to each other, and how son never leaves her at night, and of how he reads aloud to her until she goes to sleep, and of how son had promised her when he was young that he would never marry and leave her.

And you see son dry as dust. Narrowed down to an old woman's measure. Nothing vital in his life. No wife, no love, no children, no absorbing interest, nothing to look back upon, nothing to look forward to.

All of his youth, all of the freshness of his life, all of his romantic longings and fancies, the devotion of a wife, the clinging arms of little children, all filched from him by a selfish old woman who wanted to keep him for herself.

Parasitism is a vice into which it is very easy for parents to fall, and so it is one against which they should especially guard themselves. It is so easy to slump down and let somebody else do it, and to shift our load to younger shoulders. It is always a temptation to monopolize those we love and who interest us, without thinking of their happiness and welfare.

But fatherhood and motherhood should mean something more than selfishness. It should put the child's good before its own. It should not prey on its young.

DOROTHY DIX.

Dear Miss Dix—I am a young man 21 years old and want to go out in the world to earn my living and make a success, but being untrained I am undecided what to do. My father objects to my going and thinks I should stay under him and work in the shop where he does. He quarrels because I go out at night, although I give him all my earnings except a very little that I keep for myself. What should I do?

—TROUBLED YOUTH.

Answer—Try to find out what nature intended you to do. Even if you have no very decided talent you have some aptitude for doing some particular thing.

There must be some one special thing that you enjoy doing and do better than anything else. Find out what this is and then go to some trade school and learn how to do it well. Get to be an expert. They are the only ones who can command a good salary. There is no place for an untrained worker.

If you want to leave home and feel that you can better your condition by doing so, go. Very often this is the best thing for a boy to do, because his father always regards him as a child and treats him as one, and he can only develop his independence by getting away from parental control.—DOROTHY DIX.

CHIC CHERIE — LATEST FASHIONS

Cherie is going shopping. She's hardly bought a garment yet in Paris! Dina will meet her later, but Cherie feels that not an hour should be lost, and starts alone. Cherie is apparently adequately clad in a skirt and coat of beige cashmire accompanied by a pale green crepe blouse and topped by a pale green ribbon hat—but she needs more clothes.

Dina will meet Cherie, surely she will meet her. But in the meantime what an odd and fascinating place to buy books and what an odd and fascinating book! Dina is dressed for shopping on the Rue de la Paix rather than on the Quai—in a black crepe daytime dress with rows of tucks and a flaring black hair hat trimmed with one lone gardenia.

It's a little difficult to explain. Not that Cherie is unreasonable, but that Dina doesn't really know just why she didn't meet Cherie. She didn't do anything else. She has only one book to show for her day—however, let them settle that. We want to mention that Dina's evening gown is red taffeta, too, with a skirt that flares likewise, but by the medium of pleats rather than folds—and they both indicate the popularity of taffeta in brilliant colors for summer wear.

Political Pot Shots at Politics by Col. Hugh Nugent Fitzgerald

OLD WAR HORSE

There are many old war horses in the picture taken of the delegates at large. Governor Moody isn't an old war horse, but is the chairman of the delegation. Gen. M. M. Crane of Dallas is the very next name on the list. He was lieutenant governor of Texas and attorney general of Texas when Hogg was governor. Thomas Ball of Houston began as an immortal at Baltimore in 1912; the same year Cone Johnson of Tyler, W. A. Keeling of Austin, but the list does not contain the name of the Dallas boss or of Cato Sells who had been indorsed by the Tarrant county delegation for position of delegate at large. Love fought his way out of the picture and Sells must have forgotten the road to the place of the spotlight. Women delegates are more numerous than ever before. Mrs. W. E. Spell was one of the organizers of the Moody forces in McLennan county. She is responsible for about a dozen names of prominent club women who are delegates at large or alternates and all are supporters of the governor. Mrs. H. H. Sevier is down on this list. In addition to this, according to the records of the convention, she is the national committeewoman from Texas. There is a young woman alternate from San Antonio, Mrs. Laura Burleson Negley, the daughter of Albert Sydney Burleson, who was postmaster general in Woodrow Wilson's cabinet and the very first Wilson cabinet officer to declare for Smith for president.

AFTER LOVE

Harry N. Graves of Williamson county is a district delegate. Fred Blundell of Caldwell county is another. These gentlemen represent the ninth district. Graves is one of the vigorous and fighting Democrats of Texas. He is the law partner of Chairman Dave Wilcox on the state committee and he insists that it is one of the first duties of a Democrat to stand hitched if he has been a participant in the preliminaries. John Boyle and Sen. A. J. Wirtz are delegates from the 16th district and Sen. Walter C. Woodward is a delegate at large. Woodward is one of the leaders of the harmony Democrats, is a stalwart pro and has been hunting Tom Love's scalp for lo these many years.

WHAT DO YOU THINK?

Nowhere on this solemn earth,
In all of God's regime,
Is there a man who cares not
For fellow man's esteem.

'Tis well—a reputation,
That brings respect so true;
But what is twice as helpful
Is what YOU think of YOU.

—John Self Elliott

ABE MARTIN

Th' average married woman has so much leisure that ther's nothin' else fer her t' do but repent, unless she likes t' play cards. It's about time nature wuz profitin' by a few of her mistakes, fer rhubarb nearly allus follers too close on th' heels o' all th' vicissitude o' winter.

One-Minute Sermon

Foolishness is bound in the heart of a child; but the rod of correction shall drive it far from him.

He that oppresseth the poor to increase his riches, and he that giveth to the rich shall surely come to want.

Bow down thine ear, and hear the words of the wise, and apply thine heart unto my knowledge.—Proverbs, xxii, 15-17.

An Ideal Wife

MAN'S chances of getting an ideal wife are only three out of ten. This computation has been made by Mrs. Clarence G. Goodwin, past president of the Illinois Federation of Woman's clubs. Now just what are a woman's chances of getting an ideal husband? Mrs. Goodwin only told half the story. She should have gone all the road.

Where the Money Goes

ACCORDING to available statistics the homemakers of America spent 80 per cent of the American income. Marie Gifford said so. And Marie is an authority. She has figured it out. She says that the average man spends by 20 cents of every dollar he earns, and that the woman in her home spends about 80 cents. In other words, the woman in the home is the purchasing agent of the family. She does the buying and the advertising agent should not overlook the fact.

Will Finance Their Own Road

AN EXCHANGE lets it be known that the directors of the Gulf and West Texas railroad will undertake to effect rail connection between San Antonio and San Angelo themselves "without waiting on the Frisco system to get interested enough in it to start action."

The first thing the directors will do will be to raise $1,440,000 participating preferred stock.

They say that the money is in sight, that the road will be built and that too without delay.

Everywhere in Texas Texans are coming out of their trance. Every year the wealth of Texas grows by leaps and bounds. Every year the financial and industrial institutions and enterprises are spreading out. Texas' money is in a position to talk in Texas.

States and Air Travel

IN ALL of our crowing over the development of commercial aviation in this country, we seem to have overlooked one thing; the individual states have, with few exceptions, failed to adopt the proper regulatory laws for planes operating within their borders.

Commercial planes operating in interstate commerce can be counted on for safety, both as regards pilots and ships. Federal regulations see to that. But many states have no regulations at all. The result is that a great many "flying crates," as aviators call them, are in service. They are often dangerous ships to ride in, and they account for a great many of aviation's fatalities.

Each state should tackle the problem at once. Commercial aviation is on the eve of a tremendous expansion. Proper regulations are urgently needed.

New England's Compensation

A CENTURY ago New England was the great manufacturing section of the United States.

In recent years other sections have risen as competitors, aided by natural advantages New England lacks. A number of New Englanders have felt rather pessimistic about the future.

But there is a silver lining to the cloud. The American Automobile Association estimates that more than 2,000,000 motorists will visit New England this summer, spending in that section fully $150,000,000.

That is a lot of money—enough to make up for a sizable industrial slump. What the automobile association might well have added is that the visitors will get their money's worth. There is no other part of the country any richer in scenic and historic values than New England. It deserves to be a vacation spot of the first magnitude.

John Bull Was Shocked

A NOTED English statesman and man of letters was Lord Oxford and Asquith who passed on in the not remote past. He had been prime minister of England. He was one of the outstanding leaders of international thought and action. He had devoted his life to politics.

He was as famous as a scholar and orator as he was as leader of the once great Liberal party of Great Britain.

John Bull was shocked the other day when it became known that the dead stateman left an estate of only $45,000, and that he was relieved of financial worry during his last days by the beneficence of friends.

It was stated by a London journalist that a year ago a group of wealthy Englishmen irrespective of party combined to give Asquith $50,000 and an annuity of 2500 pounds.

Here in America there is a lame duck alley maintained in Washington where broken statesmen go after defeat has come to them. They remain in the lame duck alley picking up the crumbs of patronage that are swept from the tables of their successors in office.

There are broken down statesmen in every American state. Many are old as well as broken. Their pockets are empty. They played politics as a game. They won and held office, many of them for years. Then they were tossed out. What price glory?

EXPERTS AND THEIR LACK OF FACTS

Not so very long ago one of these national experts put out a business map showing Guthrie the capital of this state, which shows about how modern they are.

Oklahoma may not be very important in New York and all that, and we don't care much, but when the New Yorkers start writing about us, they ought to get their facts on straight.

THE ROAD TO PERFECTION

This country has its troubles, but they vanish into thin air when we think of what other parts of the world are going through. At least we have peace, prosperity, and we are advancing. That does not mean that we should not seek constant improvement in our governmental affairs, however. It should merely act to renew our faith and determination to reach out toward perfection.

THE "CANARY" MURDER CASE

By S. S. VAN DINE — AUTHOR OF THE BENSON MURDER CASE

© Charles Scribner's Sons

CHARACTERS

PHILO VANCE.
JOHN F.-X. MARKHAM, district attorney of New York county.
MARGARET ODELL (the "Canary").
CHARLES CLEAVER, a man-about town.
KENNETH SPOTSWOODE, a manufacturer.
LOUIS MANNIX, an importer.
DR. AMBROISE LINDQUIST, a fashionable neurologist.
TONY SKEEL, a professional burglar.
WILLIAM ELMER JESSUP, telephone operator.
HARRY SPIVELY, telephone operator.
ERNEST HEATH, sergeant of the homicide bureau.

THE STORY THUS FAR

Margaret Odell is found strangled in her apartment. Skeel's finger prints are found on the scene, but Vance believes Skeel has been hiding in a clothes closet while the girl was murdered. Mannix, Dr. Lindquist and Cleaver all lie about their whereabouts the night of the murder. Spotswoode, who had been calling on the girl, had rushed back to her door at the sound of her scream, but had been reassured that everything was all right. Skeel telephones that he will tell who committed the murder. He fails to appear, and the next day he is found strangled, evidently by the same person who had killed the "Canary."

CHAPTER XLII

Nine o'clock the next morning found Vance at the district attorney's office. He had brought several newspapers with him, and was reading, with much amusement, the first complete accounts of Skeel's murder. Monday was generally a busy day for Markham, and he had arrived at the office before half past eight in an effort to clean up some pressing routine matters before proceeding with his investigation of the Odell case.

Heath, I knew, was to come for a conference at 10 o'clock. In the meantime there was nothing for Vance to do but read the newspapers; and I occupied myself in like manner.

Punctually at 10 Heath arrived, and from his manner it was plain that something had happened to cheer him immeasurably. He was almost jaunty, and his formal self-satisfied salutation to Vance was like that of a conqueror to a vanquished adversary. He shook hands with Markham with more than his customary punctiliousness.

"Our troubles are over, sir," he said, and paused to light his cigar. "I've arrested Jessup."

It was Vance who broke the dramatic silence following this astounding announcement.

"In the name of Heaven—what for?"

Heath turned deliberately, in no wise abashed by the other's tone.

"For the murder of Margaret Odell and Tony Skeel!"

"Oh, my aunt! Oh, my precious aunt!" Vance sat up and stared at him in amazement. "Sweet angels of Heaven, come down and solace me!"

Heath's complacency was unshaken.

"You won't need no angels, or aunts either, when you hear what I've found out about this fellow. I've got him tied up in a sack, ready to hand to the jury."

The first wave of Markham's astonishment had subsided.

"Let's have the story, sergeant."

Heath settled himself in a chair. He took a few moments to arrange his thoughts.

"It's like this, sir. Yesterday afternoon I got to thinking. Here was Skeel murdered, same like Odell, after he'd promised to squeal; and it certainly looked as though the same guy had strangled both of 'em. Therefore, I concluded that there musta been two guys in the apartment Monday night—the Dude and the murderer—just like Mr. Vance has been saying all along.

"Then I figured that they knew each other pretty well because not only did the other fellow know where the Dude lived, but he musta been wise to the fact that the Dude was going to squeal yesterday.

"It looked to me, sir, like they pulled the Odell job together—which is why the Dude didn't squeal in the first place. But after the other fellow lost his nerve and threw the jewelry away, Skeel thought he'd play safe by turning state's evidence, so he phoned you."

The sergeant smoked a moment.

"I never put much stock in Mannix, Cleaver and the doc. They weren't the kind that would be mixed up with a jailbird like Skeel. So I turned all three of 'em to one side, and began looking round for a bad egg—somebody who'd have been likely to be Skeel's accomplice. But first I tried to figure out what you might call the physical obstacles in the case—that is, the snags we were up against in our reconstruction of the crime.

Again he paused.

"Now, the thing that's been bothering us most is that side door. How did it get unbolted after 6 o'clock? Who bolted it again after the crime? Skeel musta come in by it before 11, because he was in the apartment when Spotswoode and Odell returned from the theater; and he probably went out by it after Cleaver had come to the apartment at about midnight.

"But that wasn't explaining how it got bolted again on the inside. Well, sir, I studied over this for a long time yesterday, and then I went up to the house and took another look at the door. Young Spively was running the switchboard, and I asked him where Jessup was, for I wanted to ask him some questions. And Spively told me he'd quit his job the day before—Saturday afternoon.

Heath waited to let this fact sink in.

"I was on my way downstairs before the idea came to me. Then it hit me sudden-like; and the whole case broke wide open.—Mr. Markham, nobody but Jessup coulda opened that side door and locked it again—nobody. Figure it out for yourself—sir—though I guess you've pretty well done it already. Skeel couldn't have done it. And there wasn't nobody else to do it."

Markham had become interested, and leaned forward.

"After this idea had hit me," Heath continued, "I decided to take a chance; so I got outa the Subway at the Penn station, and phoned Spively for Jessup's address.

"Then I got my first good news; Jessup lived on Second avenue, right around the corner from Skeel! I picked up a coupla men from the local station, and went to his house. We found him packing up his things, getting ready to go to Detroit. We locked him up, and I took his fingerprints and sent 'em to Dubois. I thought I might get a line on him that way, because crooks don't generally begin with a job as big as the Canary prowl."

Heath permitted himself a grin of satisfaction.

"Well, sir, Dubois nailed him up! His name ain't Jessup at all. The William part is all right, but his real moniker is Benton. He was convicted of assault and battery in Oakland in 1909, and served a year in San Quentin when Skeel was a prisoner there. He was also grabbed as a lookout in a bank robbery in Brooklyn in 1914, but didn't come to trial—that's how we happen to have his fingerprints at headquarters.

"When we put him on the grill last night, he said he changed his name after the Brooklyn racket, and enlisted in the army. That's all we could get outa him; but we didn't need any more.—Now, here are the facts: Jessup has served time for assault and battery. He was mixed up in a bank robbery. Skeel was a fellow prisoner of his. He's got no alibi for Saturday night when Skeel was killed, and he lives round the corner. He quit his job suddenly Saturday afternoon.

"He's husky and strong and could easily have done the business. He was planning his getaway when we nabbed him. And—he's the only person who could've unbolted and rebolted that side door Monday night. . . . Is that a case, or ain't it, Mr. Markham?"

Markham sat several minutes in thought.

"It's a good case as far as it goes," he said slowly. "But what was his motive in strangling the girl?"

"That's easy. Mr. Vance here suggested it the first day. You remember he asked Jessup about his feelings for Odell; and Jessup turned red and got nervous."

"Oh, Lord!" exclaimed Vance. "Am I to be made responsible for any part of this priceless lunacy? . . . True, I pried into the chap's emotions toward the lady; but that was before anything had come to light. I was bein' careful—tryin' to test each possibility as it arose."

"Well, that was a lucky question of yours, just the same."

Heath turned back to Markham. "As I see it, Jessup was stuck on Odell, and she told him to trot along and sell his papers. He got all worked up over it, sitting there night after night, seeing these other guys calling on her.

"Then Skeel comes along, and, recognizing him, suggests burglarizing Odell's apartment. Skeel can't do the job without help, for he has to pass the phone operator coming and going; and as he's been there before, he'd be recognized.

"Jessup sees a chance of getting even with Odell and putting the blame on some one else; so the two of 'em cook up the job for Monday night. When Odell goes out Jessup unlocks the side door, and the Dude lets himself into the apartment with his own key. Then Odell and Spotswoode arrive unexpectedly.

"Skeel hides in the closet, and after Spotswoode has gone, he accidentally makes a noise, and Odell screams. He steps out, and when she sees who he is, she tells Spotswoode it's a mistake.

"Jessup now knows Skeel has been discovered and decides to make use of the fact. Soon after Spotswoode has gone, he enters the apartment with a pass-key. Skeel, thinking it's somebody else, hides again in the closet; and then Jessup grabs the girl and strangles her, intending to let Skeel get the credit for it. But Skeel comes out of hiding and they talk it over. Finally they come to an agreement, and proceed with their original plan to loot the place.

"Jessup tries to open the jewel-case with the poker, and Skeel finishes the job with his chisel. They then go out. Skeel leaves by the side door, and Jessup rebolts it. The next day Skeel hands the swag to Jessup to keep till things blow over; and Jessup gets scared and throws it away. Then they have a row. Skeel decides to tell everything, so he can get out from under; and Jessup, suspecting he's going to do it, goes round to his house Saturday night and strangles him like he did Odell."

Heath made a gesture of finality and sank back in his chair.

"Clever—deuced clever," murmured Vance. "Sergeant, I apologize for my little outburst a moment ago. Your logic is irreproachable. You've reconstructed the crime beautifully. You've solved the case. . . . It's wonderful—simply wonderful. But it's wrong."

"It's right enough to send Mr. Jessup to the chair."

"That's the terrible thing about logic," said Vance. "It so often leads one irresistibly to a false conclusion."

He stood up and walked across the room and back, his hands in his coat pockets. When he came abreast of Heath he halted.

"I say, sergeant; if somebody else could have unlocked that side door, and then rebolted it again after the crime, you'd be willing to admit that it would weaken your case against Jessup—eh, what?"

Heath was in a generous mood.

"Sure. Show me some one else who coulda done that, and I'll admit that maybe I'm wrong."

"Skeel could have done it, sergeant. And he did do it—without any one knowing it."

The Day Book of a New Yorker
By CLARK KINNAIRD.

NEW YORK, May 31.—There no longer is any necessity for authors to starve in garrets unappreciated, and only the hopelessly mediocre and lazy ones do.

Competition among magazine and book publishing houses has become so keen that established authors, and in some cases unknown ones, may sell their work before it is written. Publishers, magazine editors and literary agents advance royalties to authors on manuscripts and even on bare ideas. Every publishing house has in the ranks of its authors from two to a dozen writers whose books do not sell, but who are continuing to have their books published because it is hoped that eventually they will produce best-sellers and become established in public favor.

Stories by writers like Irvin S. Cobb, Ring Lardner, Booth Tarkington, Mary Roberts Rinehart and Zane Grey are sold months and years in advance. Thornton Wilder, author of the sensational "Bridge of San Luis Rey," is reported to have signed a five-year contract with a publishing house which doesn't take effect until he has delivered two more books to his present publishers. He hasn't begun work on his next novel.

◇ ◇ ◇

A question that often occurs to lay minds is, How much do authors get for writing books? Contracts usually provide for royalties on a sliding scale.

Ordinarily, they get 10 per cent of the retail price, which varies from $2.50 to $5, for the first 10,000 books sold; 12½ per cent of the next 5000 and 15 per cent on all copies sold above 15,000. If the book sells 20,000 copies at $2.50, the author's share is around $9950, in addition to whatever he may have derived from the first serial (magazine) rights. He may profit additionally from second serial (newspaper) rights, movie rights and popular priced reprints. First serial rights of books by established authors frequently sell for as much as $25,000. Theodore Dreiser got $90,000 for the film rights to "An American Tragedy," and large royalties from the stage version.

Window-dressing achieves the realm of art along Fifth avenue. Department stores and shops employ staffs of designers and dressers to create exclusive effects. Norman Bel-Geddes, famed as a designer of setting for plays, notably "The Miracle," is paid $500 a week for doing window designs for one store. Another shop has a special department in which its window furniture, sketches, etc., are sold as works of art.

Most of the exclusive shops copyright their window display effects so that stores in other cities may not imitate them.

One store with expansive windows which occupy thousands of dollars worth of land, seldom has more than one or two articles in its display. Its window designer has the easiest job I know of.

Speaking of window displays, the latest thing in false teeth designs has diamonds inset in the imitation incisors. Lulu McConnell, the actress, is one who wears a set.

Marlow Named Convention Place by Woodmen

Special to The Record News

ALTUS, Okla., May 31.—Marlow was selected as the next meeting place for the southwest Oklahoma district meeting of the Woodman circle, by the approximately 150 delegates in attendance here Wednesday.

Among the awards made during the afternoon session were pins to several members of the 25 past years, a prize to the Lawton chapter for the largest number of visiting delegates at the district convention and to the Duncan delegates for having traveled the longest distance to the meeting.

Several district and state officials were in attendance for the meeting here.

Family Flees From Home in Terror After Series of Mystery Attacks

HOLDENVILLE, Okla., May 31. (UP)—To escape the possibility of further attacks against them, Mr. and Mrs. P. E. Hackett left here secretly last night for an unannounced destination, it was learned today, from employes at Hackett's Automobile agency.

It was understood the couple and their small child went to Kansas.

Two mysterious attacks have been made on the family within the past 10 days. On the night of May 23, Mrs. Hackett was bound and gagged in the Hackett home by a masked man.

Early Monday morning an intruder entered the Hackett home and attempted to kidnap Billy Bob, the couple's 22 months old son. The kidnaping was foiled when Hackett awakened and turned on the lights.

City and county officers are still without a motive for the attacks.

Mrs. Hackett was employed by the Liberty National bank at Oklahoma City before she came here.

Address, "In Memory of the Departed," by Mrs. Ada Ramey of Wichita Falls.

Male quartet, "Beautiful Isle of Somewhere."

Pantomime, "Rock of Ages," by Flora Mae Bagley and Mrs. C. D. Wilkerson.

Prayer by chaplain.

Memorial ceremonial, by Mrs. Etta Ballard.

Memorial address, by Rev. W. W. Rivers.

School Boy Slays Mate and Then Self

OMAHA, Neb., May 31. (AP)—Alice Brainard, 17-year-old high school student, was shot and killed while walking home from school here late today by Walter Suchart, who, then turned the weapon upon himself.

Suchart was taken to a hospital where he died an hour later.

School mates of the girl said they believed Suchart was actuated by jealousy. They said he and Alice had been quarreling.

Electra Pupils Give Recital

Special to The Record News

ELECTRA, Texas, May 31.—Miss Eva Williamson, supervisor of the department of speech arts, presented her pupils in a recital Wednesday night in the high school auditorium, to a large and appreciative audience. The program was carried out with neatness and dispatch and showed much talent. As rendered the program is as follows:

Reading, "Uh, Uh, No, No," Pauline Henson; reading, "Mother's Red Shawl," Wilena Smalley; monologue, "Selling the Baby," Katy Rose Day; reading, "True Worth," G. F. LeBus Jr.; reading, "Tucking of the Baby to Bed," Mary Ruth Tubb; folk drill, "Minuet," by class; costume reading, "The Patchwork Quilt," Sarah Ruth Glenn; reading, "In the Usual Way," Elizabeth Asbill; chalk talk, Elaine Crawford; musical number, "Foolish Questions," Elaine Crawford, Mildred Reich, Ruth Bessent and Olive Reich; monologue, "The Bath Hour," (a) "Anthony's Address to Rome," Russel Austin; costume reading, "Molly," Martha McNeely; reading, "Woman on the Phone," Golden Williams; monologue, "Behind the Curtain," and "Mother Mine," Marjorie Beasley; one-act play, "The Florist Shop," Hazel Rippy, Ivan Torvie, Darleen Henson, Ogden Stroud and Rufus Ragland. Card bearers, Louise Cross and Beth Weatherall.

Former Students Hold Home Coming at Austin

AUSTIN, Texas, May 31. (AP)—The annual home-coming gathering of former students at the Woman's building, Texas university, will be held June 2. This celebration will mark the 25th anniversary of Mrs. Neil Carothers' directorship of the dormitory.

A number of students who are expected to attend the national convention of the Federated Women's clubs in San Antonio are expected to journey here for meeting.

Married Women Barred As Pageant Entrants

AUSTIN, Texas, May 31. (AP)—Austin's entry in the Galveston pageant of pulchritude must be really "Miss Austin."

The selection committee has announced that no married women need apply.

Doctor at 83 Found People Preferred His Prescription

Dr. B. Caldwell M.D. AT AGE 83

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

Then, the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs, with pepsin.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. If grown people want to use them no one can deny them the privilege, but they should never be given to children.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs? All drug stores have the generous bottles.

We would be glad to have you prove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write "Syrup Pepsin," Monticello, Illinois, and we will send you prepaid a FREE SAMPLE BOTTLE.—Adv.

OWSLEY TALKS TO GRADUATES

38 Seniors Get Diplomas At Seymour

Special to The Record News.

SEYMOUR, Texas, May 31.—Graduating exercises of the Seymour High school were held here last Friday at the municipal building. Col. Alvin C. Owsley delivered the principal address while Superintendent J. F. Kemp spoke on the achievements of the school for the past several years. Mr. Kemp has had charge of the Seymour schools for the past eight years. He emphasized the fact that many students of the Seymour schools had achieved distinct honors in district and state meets.

Miss Mary Grace Milam, one of the graduates, was honored by having awarded to her the Wm. B. Praythor scholarship of the University of Texas. This honor is granted to only one aspirant each year and is given on the basis of grades made and intellectual promise. Miss Milam completed the regular four-year high school course in three years with a grade average of more than 96. She was valedictorian of the graduating class while Glen McDaniel delivered the salutatory.

There were 38 graduates consisting of 24 girls and 14 boys as follows:

Wanda Baker, Mary Grace Milam, Juanita Camp, Merlyn McGuire, D. U. Crispin, Galen Porter, Lula Faye Gray, Frances Sessions, Murrie Head, Margie Siddens, Elizabeth Johnson, La Verne Webb, Roy Lankford, Aubrey Lunsford, Kate Britton, Pat McDavid, Arva Cooper, Pauline Powell, Charles Foyt, Irene Beals, Frank Guthrie, Irvin Baumate, Jimmie Jefcoat, Ellie Warren, Clive Lankford, L. O. Wharton, Alva Rena Bowles, Glen McDaniel, Hazel Casey, Yates McWilliams, Mildred Donehoo, Maxine Rickert, Cecile Guthrie, Floyd Shawver, Pauline Hill, Lois Stewart, Sam Jones and Dickie Wilson.

Houston Boulevard Made Into "White Way"

HOUSTON, May 31. (AP)—Work of making Main boulevard here a "white way" at night is being completed and will be displayed to delegates and visitors attending the Democratic national convention here.

Hundreds of new high-tension lamps on gold painted standards and other equipment already have been installed, and the system will be given a formal test early in June.

New Vice President Of Postal Telegraph Co.

NEW YORK, May 31.—Clarence H. Mackay, president of the Postal Telegraph Cable company, announced today that Augustus H. Griswold, vice president of the Pacific Telephone and Telegraph company, had been appointed executive vice president of the Postal Telegraph system with headquarters in New York. As such, Mr. Griswold will be the administrative and operating head of the postal telegraph system under the board of directors and the president. Mr. Griswold was born in Illinois in 1879 and is a graduate engineer of the University of Illinois. He has wide experience in the communication field having filled important official positions with the Western Electric company and the American Telephone and Telegraph company before he became vice president of the Pacific Telephone and Telegraph company, which position he now leaves to join the postal telegraph system.

Doctor's Wife Murdered in Love Triangle

DR. FRANK LOOMIS TOLD POLICE HE FOUND WIFE MURDERED

ARRESTED AND ACQUITTED OF THE CRIME

SEEN MUCH IN THE COMPANY OF MRS. GERTRUDE NEWELL

FEARED MRS. NEWELL WOULD RETURN TO PARENTS—IS SUICIDE

PROSTRATED, MRS. NEWELL EVADES POLICE AND REPORTERS

Shunned by almost everyone in life—in death Frank Loomis seemingly has gained sympathy from those who were once against him. The three cornered love triangle which ended in his suicide and the murder of his wife has baffled Detroit police. His wife was found slain in their home in February, 1927. Despite his protests of innocence, Loomis was arrested and tried. Acquitted, he resumed social contact with Mrs. Gertrude Newell, with whom Dr. Loomis is shown in the photo to the left, but was almost deserted by his other friends, who blamed him for his wife's murder. Mrs. Newell was indirectly blamed, and was questioned by police. Finally Loomis gave up all, and ended his own life by turning on a gas jet in his room. He left a note protesting his love for Mrs. Newell. At the right are shown Dr. Loomis' two children, Janet and Frank, and their murdered mother.

HOLLIS CLUB GETS CHARTER

Altus Delegates Attend Rotary Meet

Special to The Record News.

ALTUS, Okla., May 31.—Altus was represented at charter presentation meeting of the Hollis Rotary club Tuesday night with 40 Rotarians and their wives. Dwight Wolfinger, governor of the twelfth district of Rotary, comprising western Oklahoma, presented the charter in behalf of Rotary International.

Approximately 350 visitors and guests from 10 cities were present for the charter meeting. Chickasha, Hobart, Sentinel, Cordell, Waurika, Holdenville, Childress, Quanah, Mangum and Altus Rotary clubs sent members to the meeting.

Dr. J. B. Hollis of Mangum, former Hollis man for whose father the town was named, presided over the meeting. The Mangum Rotary club sponsored the Hollis club, which made it the grandchild of the Altus club since Altus sponsored Mangum a few years ago.

The Keys quadruplets, daughters of Flake Keys of Hollis, appeared twice on the program.

Probe of Slaying In Mexico Asked

WASHINGTON, May 31. (UP)—Arrest and punishment of the murderer of Howard Smith, American citizen, has been demanded of the Mexican government by H. F. Arthur Schoenfeld, American charge in Mexico City, the state department was informed today.

Schoenfeld's message said he had received information from the Mexico City office of the British-owned Santa Gertrudis Mining company that Smith, the company's general mine foreman at Pachuca, was shot and killed yesterday afternoon.

Smith, whose home was in Denver, Colo., is survived by his widow and a small son living in Pachuca.

249,940 Cotton Spindles Operating in Texas

WASHINGTON, May 31. (AP)—The department of commerce announced that, according to preliminary census figures, 276,736 cotton spinning spindles were in place in Texas on April 30, 1927, of which 249,940 were operated at some time during the month.

The aggregate number of active spindle hours reported in the state for the month was 81,341,240.

West Texas Teachers Give Women Athletic Letters

CORPUS CHRISTI, Texas, May 31. (AP)—The second annual convention of the South Texas Chamber of Commerce will be held at Laredo November 19-20, according to an announcement by Ray Leeman, general manager of the organization. The date was decided upon at a recent meeting of the executive board of the organization.

NEW LIONS' CLUB AT SEYMOUR

O. P. Calwell Is Elected President

Special to The Record News.

SEYMOUR, Texas, May 31.—A Lions club was organized here Tuesday evening at a banquet held at the Seymour hotel with a charter membership of 34. Lion J. S. Pitman, accompanied by his daughter, Miss Eleanor Pitman, of Wichita Falls, were present and assisted in the organization. Some interesting musical numbers were rendered by Miss Pitman. O. P. Caldwell was elected president of the club. The three vice presidents elected are J. L. Bussell, B. F. Rupe and R. R. Kellum. Loyd D. Jones was elected secretary-treasurer; E. A. Newman was elected tail twister and S. A. Palmer lion tamer. Luncheon meetings will be held weekly on Thursdays at the Seymour hotel.

Ingenious Farmer Speeds Up Cultivation Process

RAYMONDVILLE, Texas, May 31. (AP)—A way by which he can speed up his farm work has been conceived by A. P. Smith, who is farming 640 acres of cotton near Lyford in Willacy county.

Mr. Smith employs two tractors, on each of which he connects a beam from which three cultivators are attached.

With this contraption and a few laborers he is able to cultivate over 100 acres of cotton a day, he said.

400 Attractive Home Sites Properly Restricted and Sectionized Permitting the Neat Brick and Stucco Home of Moderate Cost

100 locations fronting on Weeks Park of 260 acres affording a view that answers your demand for scenic beauty; and convenient recreational advantages with safe play grounds for the children.

A golf course across the street—an urban section with all city conveniences—ten minutes' drive to the business section.

We will plant 4000 trees this fall, which means on your lot too—without any additional cost to you.

If you are not ready to buy now, select a site and we will hold it four months without any obligation until you are ready. The addition is in the path of the growing residential section of Wichita Falls, thus insuring your investment. We will deal through any realtor in Wichita Falls from whom you may secure further information; or see our agents on the ground—

We are going to make the price and terms suit present conditions and encourage you to start a home now when a dollar has more buying power in the home construction field—labor and building materials—than any time in the last 10 years. Our prices are lower per square foot than any other desirable section. Our terms include financing the cost of your home for the amount you are now paying for rent.

IRION COUNTY GETS DRILLING

19 New Locations Made In West Texas

SAN ANGELO, May 31.—Irion county is to get three additional wildcats, bringing its total at this time to eight, and Upton, Crockett and Pecos counties each gain one through locations listed last week. Two locations were made in Crane county, one each in Jones and Loving counties and nine in Winkler, making a total of 19 compared with 17 the preceding week.

Whitmer Property Trustees' No. 2 Abe Mayer was spudded May 5 and early in the week was down below 800 feet. It is 1000 feet from the north line and 2640 feet from the east line of section 1127, G. C. & S. F. Ry. Co. survey.

Move in Rig

Six miles west of the Abe Mayer ranch headquarters and on the J. T. Thompson land, Pat Markey of San Angelo and California associates have moved in a rig for a test at the common corners of sections 5, 6, 11 and 12, block 10, S. P. survey. Markey and associates have 3500 acres under lease. Their test is on a tract comprising 160 acres out of the four corners of the sections mentioned and is intended to be carried to 3500 feet.

Empire Gas & Fuel company will drill in Irion county on the Bar S ranch of the Sawyer Land & Cattle company, 2310 feet from the south line and 1650 feet from the east line of section 186, block 1, T. & P. Ry. Co. survey. This wildcat will be on a block assembled by J. F. McManmon of San Angelo, part of which was turned to the Empire.

In Upton County

Buell & Hagan's No. 1 J. W. Robbins in Upton county will be 330 feet from the south line and 1650 feet from the east line of section 2, N. T. Ry. Co. survey, about two miles south and a little east of the pool on the Orient railroad east of McCamey.

In Crockett, Eppenhauer and others will drill No. 1 University 1320 feet from the south line and 1730 feet from the east line of section 15, block 50.

Pecos county's location was made by Wahnlick and others, 500 feet from the north line and 500 feet from the west line of section 25, block 1, G. C. & S. F. Ry. Co. survey. It will be No. 1 Arnold.

One of Crane county's two new tests will be Church & Weekley's No. 1 University-Doull, 330 feet from the south and west lines of section 39, block 30. The other will be The Texas company's No. 2 University-Gafford, 330 feet from the north and west lines of section 46, block 30.

In Jones county, E. L. Evans will drill No. 1 ing in section 197, Manuel Bueno survey, 1000 feet north and 350 feet east of the west 40 acres of the east 80 acres of the south 240 acres of the section.

Lockhart & Company made a location in Loving county for No. 1 Hubbard, 4400 feet from the northeast line and 400 feet from the southeast line of section 83, block 33, H. & T. C. Ry. Co. survey, or 400 feet from the southeast line of section 83, block 33, H. T. C. Ry. Co. survey, or 660 feet northwest of Lockhart & Company's No. 1 Allen.

Winkler County

Four of Winkler county's nine locations were made by Southern Crude Oil Purchasing company as follows: No. T-67-3A4 Hendricks, 350 feet from the north and east lines of section 4, block B-12, public school land, a west offset to Landreth & Roxana's No. 1-A Cowden, a late producer; No. T-67-3B3 Hendricks, 2310 feet from the south line and 990 feet from the west line of section 33, block 26, public school land; No. T-67-3B4 Hendricks, 990 feet from the south line and 330 feet from the west line of section 33, block 26, public school land, and No. T-67-3B5 Hendricks, 2310 feet from the south line and 330 feet from the west line of section 33, block 26, public school land.

Other Winkler locations follow:

Atlanta Oil Producing company No. 2-B Hendricks, 440 feet from the north line and 1650 feet from the east line of section 44, block 26, public school land.

Humble Oil & Refining company No. 8-C Hendricks, 1650 feet from the north line and 330 feet from the east line of section 32, block 26, public school land.

Landreth Production company No. 4-C Hendricks, 1320 feet from the south line and 990 feet from the west line of section 40, block 26, public school land.

Prairie Oil & Gas company No. 3 Hendricks, 1320 feet from the south line and 1650 feet from the west line of section 40, block 26, public school land.

Skelly Oil company No. 6 Hendricks, 440 feet from the south line and 1650 feet from the east line of section 40, block 26, public school land.

Corrections were noted in the following locations:

Pecos county, Sosby Petroleum company No. 1 Smith, 1650 feet from the north and east lines of section 24, block 194, G. C. & S. F. Ry. Co. survey.

Sutton county, Phillips Petroleum company No. 1 A. G. Holman, 2310 feet from the north line and 330 feet from the east line of section 25, C. C. S. & R. G. N. G. Ry. Co. survey.

Sunday, Jr., Weds Bride Again

Marrying the same wife a second time a year and a half after the first wedding, Billy Sunday Jr., son of the evangelist, is shown here at Los Angeles, Calif., with his bride, as they sailed for Honolulu on their second honeymoon. Sunday Jr., asserts that he has been the subject of misunderstanding in reports that the second marriage was the result of a separation and reconciliation. The first ceremony was performed in Tia Juana, Mexico, and according to the Sundays they feared a Mexican marriage might not be legal in all respects and so decided to have an American one as well.

BABY KILLED BY POISONING

Tolbert Infant Dies After Accident

Special to The Record News.

TOLBERT, Texas, May 31.—Funeral services were held here Wednesday afternoon at 2 o'clock for Roy Steve Davis, infant son of Mr. and Mrs. John R. Davis of Farmers Valley, who died from poisoning at the family home late Tuesday night.

The child died after it had accidentally swallowed a quantity of kerosene oil Tuesday afternoon. Physicians who were called to the infant's bedside were unable to relieve the sufferings caused by the poisonous liquid.

The funeral services were in charge of the Rev. Ruben Smith, pastor of the Chillicothe Baptist church. Interment was in the Holbert cemetery.

The child is survived by its parents, five brothers and one sister.

WANTS DOG JAILED

DALLAS, May 31. (UP)—A Dallas citizen wants Queenie put in jail.

The irate citizen called the city attorney's office and wanted something done about a dog that barked at night and kept everybory awake. He was asked the name of the owner of the dog.

"That," he aneswered. "I can't tell you, but the dog's name is Queenie, and that is who I want to file a complaint about."

The city attorney told the man that it would be better to leave Queenie out of jail.

BAR SUGGESTS LAW CHANGES

Lawyers Draft Plan for New Procedure

DALLAS, Texas, May 31. (AP)—Material changes in law and legal procedure, including provisions for the incarceration of insane criminals until they are "absolutely safe," are recommended in a report to the Texas Bar association by the committee on criminal law and procedure. The association met in annual session here today.

The report was filed with George C. Gaines, Jr., secretary of the association, by Ned B. Morris of Houston, chairman of the committee.

Institution Sought.

A criminal insane institution should be created, the committee said, where persons of unsound mind convicted of homicide can be kept under observation and treated for a "suitable length of time." In proper cases, the report said, the issue of insanity should be tried exclusively in the district courts.

Among other recommendations, the committee urged that a law be passed permitting felony defendants to waive jury trials by pleas of guilty, and that permission be given to waive a jury in all cases by consent of the state and the defendant.

Liquor Violations.

It also was urged that the penalty for liquor violations be amended so as to permit the penalty to be either a term in prison, or a fine, or a fine and imprisonment.

Changes in the matter of selecting and organizing juries, the report said, making provisions directory and not mandatory, should be made.

Revision of laws relative to bail bond in felony cases should be amended to require the defendant to appear at the first term of court after final disposition of his case on appeal to answer charges against him, it was recommended. At present the bond can be forfeited only after the case is affirmed. "If it is reversed and remanded," the committee said, "he need not appear but may escape if he desires to do so."

Report Urged.

A civil statute requiring the attorney general to report on indictments returned during his tenure of office, although it has been followed, has "become almost worthless," the committee said. It was recommended that the statute be amended so as to require these reports from clerks of the district and county courts twice each year.

The committee also recommended that the court of criminal appeals be empowered, by law revision, to sit during vacation periods, that is from the last Saturday in June until the first Monday in October.

Another law change would clarify the jurisdiction of courts in offenses committed on federal property and deprive no persons of citizenship in criminal cases unless the conviction carried with it a penitentiary sentence.

Pen Sentences.

A general statute should be passed declaring that no offense should be considered a felony unless it may be punished by imprisonment in the penitentiary, the committee said. The defendant then should not be considered a felon and deprived of his citizenship unless the penalty assessed him is a penitentiary term, the report said.

The legislature should study conflicting rules relative to the testimony of penitentiary convicts to testify in criminal cases and declare plainly their meaning, the committee urged.

Closing its report, the committee declared:

"On the whole the enforcement of criminal laws in this state was never better and was never in a more wholesome condition, from the court of criminal appeals on down through all the lower courts."

CITY TO FILE 500 TAX SUITS

Personal and Property Payments Sought

There will be 500 more tax suits filed in the near future against Wichitans who have not paid their personal and property taxes, it was learned Thursday from Thelbert Martin, city attorney.

Mr. Martin said that he has filed a great many cases and that large numbers already have been settled. In advance of the filing of the last of the cases, he has asked that all who are behind with their taxes come to the tax assessor's office and pay up at once.

YOUNG MAN!

Watch Your Step!

HOW SAFE IS YOUR JOB?

Monday Morning You Go to Work.

Will your conscience be bothered or will you be just indifferent about your debts like the young fellow who said to his co-worker, "I lost out on the last job because of a poor credit rating, but I got this one so it doesn't make much difference." But the falsity of his statement was shown by his responsible friend who replied, "I think you are wrong. Last week the boss had your name under consideration for a branch manager's job. It seemed that you displayed more than usual ability, but to get a better view of your personal habits, your credit rating was referred to. Because of the continual 'slow pay' after your name, you were eliminated."

Remember, young man, your credit rating is a reflection of your character and reliability. Are you going to spoil your good name by a careless attitude toward your credit obligations? Go to your creditors and make some arrangements to clean up that old account.

The Tire Supreme

Firestone

Gum-Dipped TIRES

HOLD ALL WORLD RECORDS for Speed, Safety and Endurance

The Mark of Quality

How has it been possible for Firestone Gum-Dipped Tires to sweep aside all the old records in every field of motoring and set up an entirely new standard for judging speed, safety, endurance and mileage? Such outstanding performances on all types of cars and commercial vehicles, on brick, board and dirt speedways as well as under the same everyday driving conditions that every motorist meets, could only be brought about by the most advanced tire engineering the world has ever known. Never before in history have such feats been accomplished, because never before have there been tires so perfectly designed for each motoring need—with such balanced construction from beads to tread—with every part of the tire engineered to function perfectly in the service for which it is built.

THE ONLY TIRE THAT HAS ITS CORDS DIPPED THROUGH A RUBBER SOLUTION

Here is a single cord from a Firestone Gum-Dipped Tire untwisted to show how it is composed of small cords and strands. It takes millions of cotton fibers to make up these cords for a tire, and each must be thoroughly insulated with rubber to prevent friction and heat, in the carcass—the greatest enemy to long tire mileage. Firestone engineers found that by dipping the cords of the tire carcass in a rubber solution, every fiber of every cord is saturated and insulated with rubber, adding the greatest flexibility and strength, and unifying the whole structure of the tire. Gum-Dipping made the Full-Size Balloon Tire practical by adding the extra strength for the extra flexing strain. That is why Firestone Gum-Dipped Balloons—the original low pressure tires—have held outstanding leadership for more than five years.

THE MOST DURABLE AND LONGEST MILEAGE TIRE

The amazing mileage of Firestone Gum-Dipped Tires results from the scientifically designed tread which is engineered to the contour of the Balloon Tire carcass—it flexes uniformly with the carcass at every point of contact—it is compounded of the toughest, most wear-resisting tread rubber possible—this tire does not weave or sway under load. It does not rut wear and because of the center ribs and provision for rubber displacement, wears more evenly and longer than any tread in the world.

THE SAFEST TIRE

Experienced race drivers will not trust their lives or risk their chances of victory on any other tires. Firestone Gum-Dipped Tires have enabled drivers to make higher speeds, with safety, than ever before possible. Imagine the terrific strain, pressure and flexing imposed upon Gum-Dipped Tires when Ray Keech recently broke the world's record at more than 207.5 miles per hour. Yet following the race the owner of this car wrote that the tires were in perfect condition.

The tread of the Firestone Gum-Dipped Balloon Tire is scientifically designed for low pressure giving the greatest amount of non-skid when it comes in contact with the road. This is the result of its great flexibility, permitting the tire to yield freely and cling to the road. Notice the narrow rider strips and small non-skid projections which permit this tread to flex freely with the new Gum-Dipped carcass.

THE MOST COMFORTABLE TIRE

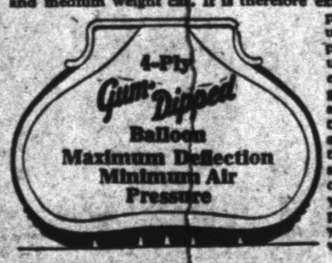

The world's first practical low pressure tire—the Full-Size Gum-Dipped Balloon, was pioneered and developed by Firestone. No manufacturer has ever been able to duplicate this tire, either in the low, comfortable pressure it accommodates, or in the amazing mileage records it has established. Only Firestone has been able to give motorists true balloon tire comfort, absorbing every obstacle in the road without sacrificing long mileage.

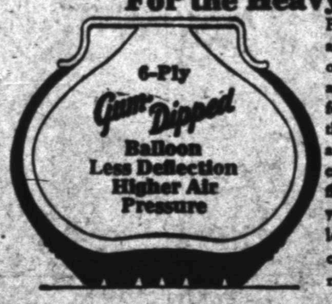

A Firestone Gum-Dipped Tire That is Supreme for Every Class of Service

For Light and Medium Weight Cars

This tire is designed and engineered to the needs of the light and medium weight car. It is therefore extremely flexible, of limited ply construction, made unusually strong by the extra process of Gum-Dipping and uniformity in cure. It is generously over-size and will give you greater comfort, safety and economy than any tire in the world of heavier and more bulky construction. Do not decrease your speed, increase your gasoline consumption or wear out your tires prematurely by putting a heavier tire on your light or medium weight car.

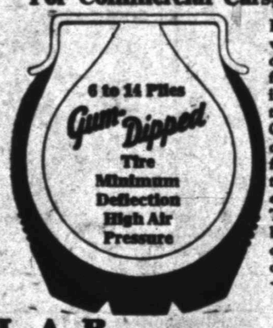

For the Heavy Car

Firestone has also designed a special tire with extra plies of cord fabric and heavier and tougher tread, especially for heavy cars. Naturally, this tire requires additional air pressure, and while the carcass is Gum-Dipped and flexes uniformly under load, yet its degree of deflection is less because of its heavier carcass, thicker tread and necessary higher air pressure.

For Commercial Cars, Trucks and Buses

For motor vehicles of still greater weight and carrying capacities, the carcass is made still heavier, using from six to fourteen plies (depending on size) of cord fabric and a thick heavy tread. This tire is also Gum-Dipped by the special process and makes this tire more flexible and durable than any other tire in its class, yet it is engineered especially for commercial vehicles. This is the best tire that money can buy in its class, but if you want comfort, safety and economy of operation on passenger cars don't use this thick, heavy tire.

Indianapolis 500-Mile Race

Decoration Day, May 30, 1928, for the 9th consecutive time, Firestone Gum-Dipped Tires won the famous Indianapolis Sweepstakes.

207.5 Miles Per Hour—The Fastest Time Ever Made On Wheels—Made On Firestone Gum-Dipped Tires

Ray Keech, driving the enormous and tremendously heavy 36 cylinder 2500 h.p. Triplex Special, on Firestone Gum-Dipped Tires, set a new world's record when he averaged 207.5526 miles per hour at Daytona Beach, Florida, April 22, 1928.

Frank Lockhart did not have his car equipped with Firestone Gum-Dipped Tires—and no other cars in the speed trials at Daytona Beach were Firestone equipped, except Ray Keech's car.

Firestone Gum-Dipped Tires Have Won Every National Championship Race Since 1920

Dave Lewis won 200 mile race at Atlantic City, in 1927, at average speed of 130.58 miles per hour without a stop—on Firestone Gum-Dipped Tires.

One-Half and One Mile Dirt Track Records

Frank Lockhart made an average of 80.826 miles per hour in a 100-mile race at Cleveland, in 1927, breaking all dirt track records, on Firestone Gum-Dipped Tires.

Car Owners' Records

H. A. Foster, New York City, writes he is amazed at Firestone mileage. He has driven his car 42,000 miles on Firestone Gum-Dipped Balloons, including trip from coast-to-coast.

G. T. Meinzer, Chicago, Ill., has driven 53,586 miles on a set of Firestone Gum-Dipped Balloons and has just equipped with a new set of these wonderful tires.

Eugene A. Boother, Lodi, Calif., calls Firestone mileage "phenomenal." A set of Gum-Dipped Balloons on his car have run 57,000 miles and he states they are good for 5,000 more.

Coast-to-Coast Passenger Car Record

Ab Jenkins, in 1927, drove his Studebaker Commander on Firestone Gum-Dipped Balloons, from New York to San Francisco for a record of 77 hours and 40 minutes.

Coast-to-Coast Truck Record

"Cannon Ball" Baker, in 1927, drove a 2-ton GMC truck, fully loaded from Atlantic to the Pacific—3,693 miles in 137 hours and 36 minutes. This fastest and longest truck run on record was made on Firestone Gum-Dipped Heavy Duty Pneumatics.

Endurance Record

In 1927, three Studebaker Commanders, (two roadsters and a sedan) on Firestone Gum-Dipped Balloons made 25,000 miles in less than 25,000 minutes. The roadsters finished in elapsed time of 22,968 minutes, or an average speed of 65.31 miles per hour; sedan finished in 24,200 minutes, or 61.98 miles per hour.

At Atlantic City, April 23, 1928, two Studebaker Dictator Roadsters, on Firestone Gum-Dipped Tires, finished 5,000 miles in less than 5,000 minutes. The first roadster finished in elapsed time of 4,751 minutes, or an average of 63.136 miles per hour; the second finished in elapsed time of 4,892 minutes, or an average of 61.312 miles per hour.

Passenger Bus Record

The Black Diamond Bus Line, Brownsville, Texas, report a set of Firestone Gum-Dipped Tires on a 20-passenger bus, ran over 83,000 miles.

Johnson Storage & Distributing Company, Fort Worth, Texas, received 63,000 miles continuous service on set of Firestone Heavy Duty Truck Tires.

Taxicab Record

Harbor Taxi Co., Ashtabula, Ohio, report over 61,000 miles service on a set of Firestone Gum-Dipped Tires.

William R. Rothwell, Detroit, Michigan, taxicab operator, drove 71,000 miles on a set of Firestone Gum-Dipped Balloons.

FRANK ERNEST NICHOLSON

By COLONEL CHARLES A. LINDBERGH.

COL. CHAS. A. LINDBERGH.

Lindbergh is, beyond a doubt, the most famous man in the world today. Lindy is one Missourian who didn't have to be shown. Likewise, he is one man who knows aviation from the ground up.

Lindy got his flying start to fame when he made his sensational nonstop flight to Paris. Since then he has been subject to nonstop flights in oratory. He is one youth who truly has had his wing.

Yesterday he was an unknown citizen—a successful air mail pilot who nursed an idea of flying across the Atlantic. Today he is the idol of every man, woman and child. Recently he was presented with the Congressional Medal of Honor—which is the highest gift within the Government — for his unparalleled feats in aerial navigation.

Considering the particular zest, with which he related the following story to friends in New York, together with the fact that it was retold in his widely read book, "We" there is every reason to believe that it really is his favorite.

"One of the most amusing but equally serious incidents that I have ever come across happened during my barnstorming days, when I was with a flying circus in Colorado, while waiting for work on the air-mail route," said Colonel Lindbergh.

On this particular day I was doing stunt flights in a Colorado town. For that night the owner of the plane and I were booked for a fireworks exhibition to be given between darkness and midnight in a town some few miles away.

"We were late in leaving the first town, and I realized that it would be impossible for us to make it to the other before dark.

"I was a little worried, for I had never landed at that town before. The owner of the plane, however assured me that he knew the exact location of the landing field.

"Its right next to the golf links," he said, 'I've been there a lot of times.'

"When we arrived over the town it was dark as pitch. I throttled the motor and shouted:

"Now just where is the landing field?

"Why, replied the owner, I told you it was right next to the golf links!"

"'Yes,' I shouted back, 'but where are the golf links?'

"Imagine my surprise when the owner called back:

"'Why—er—I don't know.'"

HEALTH and DIET ADVICE

By DR. FRANK McCOY
Author of "The Fast Way to Health"

Questions in regard to health and diet will be answered by Mr. McCoy who can be addressed in care of this paper.

Eating for Brain Power

Successful business men have undergone remarkable change in personal appearance within the past two generations. A few years ago a man was not considered a capitalist unless he was fat, but now, with scarcely an exception, the keenest minded industrial leaders and those who have captured the greatest fortunes are lean individuals.

The older generation of moneyed men was inclined to be corpulent, such as the elder Morgan and Diamond Jim Brady. Henry Ford, Andrew Mellon, and John D. Rockefeller are examples of the modern industrial leader.

At one time it was the custom of the business man to doze away several hours of valuable time after his hearty noon dinner, but these old fashioned, easy going habits will not fit in with the changes of this age of keen competition.

It is interesting to inquire about the diet of those who are in the ranks of the foremost thinkers. Almost without exception they are the light eaters. They may smoke to excess—they may drink themselves under the table—but they have learned from experience that eating rich food cuts down their earning capacity.

Almost everyone has experienced that drowsy feeling after eating a heavy meal. While it does not make much difference to the average person, it is of the utmost importance for one who lives by his brain, to be clear and wide awake during his working hours. Heavy meals make such a great demand upon the alimentary organs that the nervous system must be robbed of the blood which would be used in thinking processes. All vital functions that are not essential to life are suspended, and a state of body and mental lethargy ensues. In other words, we become "logy."

If by a supreme effort of will, one were to force mental activity immediately after a heavy meal, he would be very apt to suffer indigestion. It is possible to indulge in mental activity for a limited time with the use of stimulants, but this is only a spur on the already over-taxed nervous system and if continued, will eventually result in a nervous breakdown.

Mental power should improve with age, and if a light, non-starchy diet is adhered to, this will be the natural happy result.

The diet of a brain worker should consist mainly of fresh fruits, non-starchy vegetables, protein and small amounts of fat and natural dried fruits. The starch should be closely restricted, the amount used depending on the exercise.

The man who wants to be a success cannot afford to burden himself for the day with a breakfast of sausage, sinkers, and hot cakes; he will very likely be out-distanced by his keen minded competitor who has eaten a simple, wholesome breakfast.

The amount of bread and cereal foods that a brain worker uses should be kept at a minimum. The idea of eating for efficiency may seem a bit restricted, but you will be richly repaid by an increased mental and nervous energy.

Try it, and you will be able to pluck the plums of success; and those who are too lazy to change their habits of eating, exercising, and thinking will wonder why you are so "lucky" or how you get your "pull."

Questions and Answers

Question: Mrs. H. G. writes: "I have read with interest your various articles, and especially have watched for an item on gaining instead of reducing. I think there are just as many slim people who need advice as there are fat ones. Do you think malted milks all during the day will make me take on flesh? I want to gain just a little—I am so thin."

Answer: I have written many articles on the subject of gaining weight and will be glad to send some of them to you if you will give me your name and address. You will not gain any good weight by stuffing yourself. A reasonable amount of wholesome food is all that is necessary, if you will take proper exercises and build a strong muscular body.

Question: Mrs. J. L. asks: "Living in a small town it is not always possible to get fresh vegetables; still, we wish to follow your menus exactly. Would it be all right to use canned vegetables?"

Answer: There is a widespread belief that canned foods are unwholesome but with our modern methods of canning, this is not true at the present time. Also, there are arguments about the vitamin content being lowered by food standing in a can for very long before being used, but there is no evidence to show that this decrease is very great. By all means use the canned foods if you cannot get the fresh ones, and I especially suggest spinach, asparagus, string beans, corn, French artichokes, ripe olives and pineapple. Send a stamped, self addressed envelope for my article "Substitutes for Fresh Vegetables."

Question: Mary S. writes: "Am troubled with stomach and intestinal gas. Would yeast be apt to cause more gas?"

Answer: Yeast will cause more gas if used with a meal. If you want to experiment with the yeast treatment, take it when the stomach is empty.

Houston Foreign Trade Convention Is Praised

HOUSTON, Texas, May 31. (AP)—Reports of delegates from all parts of the country show that they regard the annual meeting of the National foreign trade convention here in April was an outstanding success, word received here from O. K. Davis, secretary of the National foreign trade council, said.

Mr. Davis, writing from headquarters in New York, recited that "now that we have looked over reports of the convention more carefully, the council is more than ever pleased with the splendid support given the meeting by the people of Houston and Texas. For the last eight years no city except Seattle has given our convention more substantial support than did Houston with its 422 delegates; and the 864 delegates who came from the state as a whole, ran the state of Washington a close race for the best state representation we have ever had.

"This has shown us Texas is interested in foreign trade."

NEGRO SITS ON STEWART JURY

Oil Man's Lawyer Springs Legal Surprise

WASHINGTON, May 31. (US)—A jury of four women and eight men—one of the latter a negro—was quickly formed today by Justice Frederick L. Siddons to try Col. Robert W. Stewart, chairman of the Standard Oil company (Indiana), charged with contempt of the senate.

The oil millionaire declined to answer two questions asked by the senate public lands committee last February. Later he relented and appeared before the committee, answering the queries which he had earlier spurned.

Surprise Is Sprung

Springing its first surprise of what was ordinarily expected to be rather a drab proceeding of protracted legal arguments, the defense, through the versatile Frank J. Hogan, Washington lawyer, told the jurors it would show that the questions propounded by the committee were written by a newspaper correspondent who handed them to Senator Gerald P. Nye, Republican, of North Dakota, chairman of the senate committee.

"We will show you," Hogan shouted, "that these two questions were not asked by the committee at all. Senator Walsh (committee prosecutor) had finished his examination of Colonel Stewart at the time. He had said 'that is all.'

"Then a bright young newspaper man who has a keen sense for the sensational sent two questions to Senator Nye. Those are the two questions which are the basis of this indictment. It was not questions asked by a senate committee, but questions asked by a newspaper man which this defendant declined to answer."

Committee Flayed

This stroke of legal technique was followed by a charge that the committee was a "snooping expedition," a "senate detective agency formed for the benefit of collecting evidence for a pending lawsuit."

Hogan had earlier announced that Paul Y. Anderson and Elliott Thurston, Washington newspaper correspondents, have been subpoenaed as defense witnesses. The two writers will be used in an effort to bolster up the lawyer's charge to the jury.

Shot Kills Frederick Man

Sheriff Deems Inquest Unnecessary

Special to The Record News.

FREDERICK, Okla., May 31.—M. E. Campbell, 48, employed on the Joe Cruze tenant farm, 14 miles southeast of here, was found shot to death in his home late today.

Campbell had sent two small boys, aged 3 and 5, into the yard to play and was found a short time later with part of his head blown away.

A long stick had apparently been used to discharge the gun, a 12-gauge shotgun, according to Sheriff Jenks McCorkle, who examined the body. An inquest will not be held, Sheriff McCorkle said.

The two children, hearing the shot, rushed into the barn, and discovering what had happened, notified their mother who was chopping cotton in a field about a mile away. The body was taken in charge by local undertakers, and funeral services probably will be held here Friday.

Mr. Campbell had been in ill health for some time. Relatives could assign no other reason for the act.

Surviving are his widow and eight children.

Jail Place for Cheap Politicians, Wilder Says

KANSAS CITY, Mo., May 31. (UP)—The city jail and not the city parks should be prepared for the army that will be composed mostly of "cheap politicians and politcal bums" instead of real farmers, G. W. Wilder, of the Farmers club, Rindge, N. H., wired late today to Conrad H. Mann, local chairman in charge of arrangements for the Republican national convention.

Cal Lays Cornerstone To Red Cross Memorial

WASHINGTON., May 31. (AP)—President Coolidge, as head of the Red Cross, today laid the cornerstone of the new memorial to the women of the World war now under erection here.

The memorial is to consist of a $575,000 building adjacent to the existing Red Cross edifice here which is dedicated to the memory of the women of the Civil war.

Montague Jury Receives Robbins Murder Case

MONTAGUE, Texas, May 31.—The case of Jeff Robbins, charged with murder in connection with the fatal shooting of his son-in-law, Joe Blackmon, last month, went to the jury in district court here at 7 p. m. Thursday, after state and defense attorneys had completed arguments. No indications were given as to when the verdict would be returned.

In Gubernatorial Race Two File as Candidates

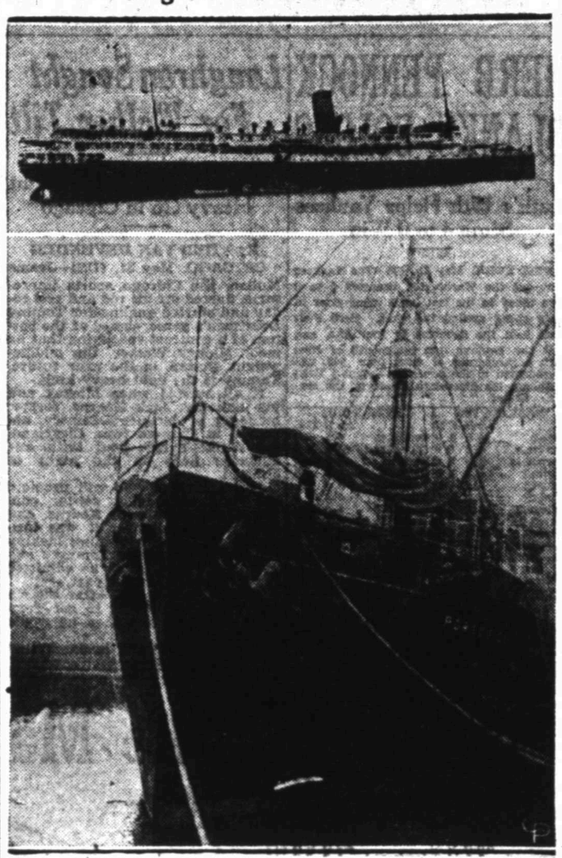

TOPEKA, Kan., May 31. (UP)—Two candidates, a Republican and a Democrat, filed today their declarations with the secretary of state announcing their candidacies for the gubernatorial nomination.

Charles F. Scott, Iola, is the Republican, and E. T. Hackney, Wellington, is the Democrat.

Roosevelt to Nominate Smith at Houston

NEW YORK, May 31. (US)—Franklin D. Roosevelt today confirmed the report that he had been chosen by Gov. Alfred E. Smith to place the New York executive in nomination for the presidency at the Houston convention. Mr. Roosevelt performed a like service for Smith in 1924.

Fog Causes Crash of Liners

In one of the deepest fogs New York has seen in years, six vessels crashed into each other in and around New York harbor. Photo above shows the Clyde line flagship Mohawk, aground at Normandy Beach, N. J., after the Old Dominion lined Jefferson had been in collision with it off the Jersey coast, outside New York harbor. Both are coast liners. Eighty-five passengers and a crew of 120 were taken off the Mohawk after she was run aground in a sinking condition. Below is the S. S. Porto Rico, damaged in a collision with the S. S. Veendam, transatlantic liner, in the fog-shrouded harbor. Photo shows the damage done to the bow of the Porto Rico.

County Delays Tax Decision

(Continued From Page One.)

day night that in general county tax rates were fixed as follows: A maximum of 15 cents for road and bridge funds, which could be increased to a maximum of 30 cents by a vote of the people; a maximum of 25 cents for the general fund, and a rate sufficient to cover payment of interest, sinking funds, etc., on bond issues. Bond issues may reach a total of one-fourth of the assessed valuation of the county, Mr. Smith said. The Austin man said he had the information as to the situation in Wichita county, and that his opinion was based upon general practice.

The first obstacle met by friends of the assessment decrease-rate increase proposal was encountered when the commissioners found that the proposed change would cut the road and bridge fund $21,000 short of requirements, even though the rate were increased from 19 cents to 22½c, the maximum for this levy.

Present county property valuations, set at 50 per cent, total $70,000,000. The proposed drop to 33 1-3 per cent would lower this figure to $50,000,000 and would trip the road and bridge fund from a present revenue of $133,000 to $121,000.

Raise Road-Bridge Rate

Proponents of the tax readjustment offered as a solution the holding of an election in which the people would be asked to authorize the assessment of an additional 7½ cents for roads on each $100 valuation.

J. B. Marlow, member of the special Chamber of Commerce committee, pointed out that the present rendition on a 50 per cent valuation basis, 67 cent tax, returns the state $496,000 from Wichita county. The county receives, at its present 80 cent rate, about $560,000, he said.

The proposed decrease of the assessed valuation to a 33 1-3 per cent basis would give the state, on its 67 cent rate, only $312,666, effecting a saving to ttaxpayers of about $156,000, Mr. Marlow said.

In order to maintain the present county revenue, a rate of $1.20 on the $100 valuation would be necessary, he pointed out.

A second argument advanced against the valuation change had to do with the shortage this would cause to the rural school fund.

Burl Bryant, county school superintendent, said that this could be remedied by organization of independent school districts and rural high school districts. Following Mr. Bryant, Charles I. Francis, president of the Chamber of Commerce, declared that the independent school arrangement would bring the schools a higher income than the present tax allows them.

Judge Nicholson had told the committee that the commissioners wanted to reduce the assessment, but that the legality of such a procedure was questionable. He also pointed out the effect this might have on the schools.

Kuntz Brings Charges

Commissioner L. L. Kuntz, fighting the proposed change, declared that the wealthy citizens of Wichita county were keeping from the state taxes due against valuable jewelry. Others, he declared, did not render large portions of live stock. He told the committee that he was "not going to do anything that would allow the Travis county grand jury to send me to the penitentiary."

"You know you are not going to the penitentiary," Mr. Marlow retorted, "but if you did go you would not be the first man to go to the penitentiary for doing his duty."

Discussion on the proposed change was heated, but all commissioners agreed that some reduction should be made in the assessments. They remained divided as to the valuation basis, however.

Other addresses in favor of the assessment cut were made by R. H. Henry of Burkburnett, W. S. Duvall, president of the Burkburnett Chamber of Commerce; John C. Murphree, president of the Iowa Park Chamber of Commerce, and G. B. Smedley of the Wichita Falls Chamber of Commerce.

NAME PROFS IN POWER PROBE

Higher Learning Linked In Trust Scandal

WASHINGTON, May 31.—Twenty-four executives of utility companies were on the faculty of the University of Colorado in 1926, according to a letter placed in evidence at the federal trade commission's investigation of the power trust lobby today.

The letter was written to an official of the National Electric Light association by George E. Lewis, director of the Rocky Mountain committee on public utility information.

Professors Paid

It was also brought out that payments of more than $2000 had been made by utility interests to professors at the University of Colorado and other institutions, for working on a "survey" of municipal operation of electric light plants, and on certain aspects of the Boulder dam situation.

Theodore J. Grayson, whom the power lobby paid $250 per speech when he denounced the Boulder dam project as "communistic," told the federal trade commission how the power interests and the higher learning bear one another's burdens in Pennsylvania.

Course Started

Grayson admitted that course desired by the utility leaders had been started, through him, at the University of Pennsylvania.

As to speeches for the power lobby, attacking government ownership, Grayson made three of them, he said. They were delivered in New Orleans in November, in Richmond December 1, and before the University club of Geneva, N. Y., on December 31.

"I received $250 for each address and I do not think I was overpaid," said Grayson.

Good Roads Association Elects New Officers

DES MOINES, May 31. (UP)—W. W. Brandon, former governor of Alabama, today was re-elected president of the U. S. Good Roads association, in convention here. J. A. Roundtree, Birmingham, was re-elected director general. The following were named vice-presidents at large:

Governors Paulen, Kansas; Erickson, Montana; Hammill, Iowa; Green, Michigan; Moore, New Jersey; Richards, South Carolina; and Gore, West Virginia, and Senator T. L. Oddie, Nevada.

Child Killed in Auto Crash at Brownwood

BROWNWOOD, May 31. (AP)—The youngest child of Mr. and Mrs. H. M. Mrs. Kilgore was in the accident of last Saturday night in which Peggy Mae Genelle of Fuller, 8, was run over and killed.

FLIERS OVER 'DEATH SPOT'

Southern Cross On Way To Australia

(Continued From Page One)

long aerial leap across the Pacific to Hawaii.

Four In Plane.

The silver-winged tri-motored Fokker monoplane piloted by Captain Charles Kingsford-Smith is carrying a crew of four intrepid airmen across the Pacific. Charles T. P. Ulm is relief pilot, Lieut. Harry Lyons, navigator and James W. Warner, radioman. From Hawaii the fliers will hop to Suva and then to Australia.

"When the "death spot" was reached anxious ones on shore here who remembered the lives lost there in previous flights grew more tense and listened more closely as the Southern Cross' radio was heard.

But the messages remained firm. Nothing was said to indicate danger and as the minutes and hours passed, the strain lessened and hope grew brighter that the four air-sailors are bound toward victory.

Holds to Course

Just after 2 o'clock the Southern Cross radioed back that all was well.

Their position at that time was 132.03 west 32.35 north—600 miles out and right on the course.

Today's aerial argosy of high adventure began when the Southern Cross zoomed down historic Oakland airport at 8:50 a. m. the first ship to attempt an America to Australia flight. Three minutes later the big three-motored Fokker left the runway and headed for the air lanes of the Pacific, Hawaii bound.

The distance of the projected flight is 7778 miles. The first leg to Honolulu is 2406 miles. Their second destination is Suva, 3138 miles away. If this "hop" is completed, it will be the longest over-water flight in history. The third "jump" will be to Brisbane, more than 2000 miles away. From there the aviators will fly to Sydney, their final destination.

Weather Favorable

Favorable flying weather was reported by the government meteorological bureau here as the South-along on the first 1000 miles of the ern Cross was made ready for its great adventure this morning. Capt. Kingsford-Smith estimated that the flight to Honolulu would take 25 hours, at an average speed of about 100 miles an hour.

Twelve hundred gallons of gasoline were in the fuel tanks of the plane as it rolled to the runway for the take-off. Kingsford-Smith, who is in command, was the first to arrive at the Oakland field. He was in his flying clothes. His three companions appeared shortly after 8 a. m. and the final preparations were begun.

More than 4000 persons had assembled to cheer the departing airmen. Three women, weeping, kissed Kingsford-Smith goodbye, and he seemed affected by their emotion. Among them was the mother of Lieut. Albert E. Eichwaldt, who lost his life in the Dole flight to Honolulu last year.

Pilot Confident

At 8:46, with all motors roaring, Kingsford-Smith signaled the mechanics that all was ready. Suddenly the center engine stopped. Six minutes later it was pounding again. This time, the "let go" was given and the big machine rumbled down the runway. A minute later it was in the air and the great flight had begun.

Seven tons of cargo were aboard the Southern Cross. Three mascots were carried by the crew—a Billiken, a Felix cat and a mule's shoe.

A minimum of life-saving equipment was taken. The fliers voted against carrying life rafts and other safety devices. A hack saw was carreid to cut away the engines in case the plane is forced down. Kingsford-Smith is confident that, with gasoline tanks emptied by emergency valves, the big plane will remain afloat for hours in a calm sea.

Three radio sets are aboard, one supplied with power from storage batteries which could be used in case of a landing. The Southern Cross is equipped to both send and receive on their radio sets.

Dance Hall Looters Held

Police Chase Suspects In Daring Holdup

INDIANAPOLIS, May 31. (UP)—Seven men were questioned by police today in connection with the holdup of 200 guests at the "Speedway dance," in the fashionable Broadmoor Country club here Wednesday night. Money and jewelery variously estimated from $50,000 to $200,000 were obtained.

Hot Pursuit

The seven men detained today were pursued for 30 miles through the suburbs of Indianapolis and on a country road. Victims of the holdup and officers of the club told police there were six or more men in the gang that staged the robbery.

Chief of Police Claude Worley announced he was not satisfied with answers given by the seven men and indicated they would be held for further questioning.

The hold-up was staged in a spectacular manner. The gang drove up to the club in automobiles, cut all telephone wires and announced their arrival by several revolver shots to the guests, many of whom were out-of-town visitors.

Coolidge Picks Tobacco Magnate's Wisconsin Estate for Summer Home

WASHINGTON, May 31. (US)—President Coolidge will establish his summer White House this year on a picturesque island in the wooded lake region of northern Wisconsin, it was announced today.

The chief executive will spend his vacation on the estate of the late Henry Clay Pierce, multi-millionaire tobacco magnate, situated on the shores of the extreme western point of Lake Superior, 12 hours ride northwest of Chicago and 29 miles southeast of the city of Superior.

The executive offices will be moved to Superior and it is the plan of the president to motor daily between the lodge and his offices to take care of the nation's business. This is the system he followed in the Black Hills and Rapid City, last summer.

Selection was made after an inspection tour that took a representative of the president all over the United States.

President Coolidge has not as yet set a date for departure, but has indicated it will be within a few days after June 11, the date of the administration's annual business meeting.

All that our Spudders have to do to win the series from the Buffs is to take the games today and tomorrow. The champions lost the opener yesterday out at the lot, 10 to 5. Until the ninth inning when the Buffs counted three runs it was anybody's ball game. And it was one of the most thrilling pastimes played here this season.

Home runs and sensational fielding featured the contest. There were six circuit drives, two by George Watkins, his third and fourth in three days, and one each by Jenkins, Joe Cobb, Selph and Barnes. With the exception of Barnes' knock the four-ply drives were terrific smashes over fences. Barnes got his home run in the third inning when a ball hit into left field, bounced into the stands, the ground rules of course entitling him to go all the way. It would have been a two-base hit had the ball stayed inside the field.

Of the defensive plays, of which there were several that glittered, two in particular stood out. One was a catch by Tom Jenkins, one of the greatest plays ever made at Athletic park. Heinie Schuble drove a mighty clout to the fence in the fourth inning. Racing at the crack of bat against horsehide, Tut reached the ball and caught it just as he crashed into the fence. He was hurled to the ground at the impact but held the ball. Tom was unhurt, though a trifle shaken.

Stanton Makes One

George Stanton furnished the other remarkable play in this day of outstanding achievements. The rookie first baseman raced to the Buff dugout and with outstretched gloved hand caught Powell's foul in the fifth inning.

Benton, Turgeon, Lamb, Walker and Watkins also came up with plays of sharp drives or harsh grounders that cut off hits and potential runs.

Herb Cobb, who pitched excellent ball his last two starts, and Frank Barnes, the southpaw who chucked a two-hit, 1-0 shutout victory in his last game here, were the opening hurlers. Neither lasted the route, the mauling maces of the two clubs pounding both off the hill. Barnes, however, is credited with the victory and Cobb is charged with the defeat.

Carleton relieved Frank and Estill succeeded Herb. Neither was effective, though Kildee managed to get by the last three innings which he worked without the Spudders scoring. Kildee at that stopped the Spudders when he went to the hill in the seventh with none out and a runner on second.

The Buffs pounded Cobb for six runs and seven hits in seven innings, and finished with four tallies and seven more blows off Tom. The Spudders got all their runs and seven blows off Barnes and three knocks, unproductive of scoring, off Carleton.

Jenkins Batting Leader

Jenkins was the batting leader with two hits in addition to his homer in four times up. Stanton whaled two blows, one a double. Numerous of the Buffs banged a brace of knocks each, Walker and Snyder alone of the enemy going hitless.

Williams' men were first to tally, scoring two in the second inning. Eldred, first up, walked. Jenkins singled to right, Eldred stopping at second. J. Cobb sacrificed, Hock to Walker. Stanton singled to center, Eldred and Jenkins scoring.

The first eight Buffs at bat were retired in order but Barnes hit his home run with two out in the third.

Wichita Falls tallied one in its half, to lead 3-1. Benton singled to right after one was out. Roetz bounced to Hock, who threw wide to Selph in an effort to catch Benton, Rabbit continuing to third. Lamb forced Roetz, Hock to Selph, Benton scoring.

Watkins' first home run over the right field barrier in the fourth after two were out was duplicated by Jenkins in the Spudders' half, and we led, 4-2. But the Buffs tallied four in the sixth.

Buffs Take Lead

Barnes was safe on a bounder to Benton. Hock singled to right, Barnes going to second. Selph hit safely to the same territory, filling the bases. Worthington popped to Stanton. Watkins hit his second home run, also over the right field fence, scoring the three runners ahead of him.

The champions weren't beaten yet, and they kept trying gamely, with the result that they tallied one in the seventh. Joe Cobb clouted over the left field wall for a home run. Stanton doubled to center. Carleton relieved Barnes and stopped the scoring.

Swenson batted for H. Cobb in that inning and Estill went to the mound. He gave up a run in the eighth when Selph, first up, hit over the left field wall for another home run. The Buffs added three more in the ninth.

Powell was safe on a high bounder to Benton and with one out, Carleton's single to right sent Powell to third. Hock hit to right, Powell scoring and Carleton stopping at second. Roetz fumbled Selph's roller, filling the bases. Worthington singled to center, Carleton and Hock scoring.

Notes of the Game

President J. Doak Roberts of the Texas league will present the attendance trophy, won by Wichita Falls again this year, preceding today's contest. Charles I. Francis, president of the chamber of commerce, will accept the prize in behalf of this city.

Prexy Roberts viewed yesterday's game. He plans to stay through the conclusion of the series tomorrow.

This IS ladies day.

Three umpires are working this series, being assigned by Roberts probably because of the players' rivalry that was so intense and marked in previous Buff and Spudder series. Yesterday's game was peaceful and calm.

Some 1600 fans viewed the proceedings.

Andy Anderson, sports editor of the Houston Press, is accompying the Buffs on this trip. Pop Boone, sports editor of the Fort Worth Press, also came over for yesterday's pastime.

The fans booed Carey Selph, Houston second baseman who had a fist fight with Howard Fitzgerald in the Spudders' last game at Houston, several times yesterday. But many of them applauded him when he hit his home run.

Homer Peel, Buff outfielder, who sustained a a broken ankle early in the season, is back in uniform.

Bubber Jonnard, Buff catcher, who suffered a fractured leg, will be out of the game several more weeks.

Benton made a sparkling stop and throw on Walker's grounder in the second inning.

Walker robbed Stanton of a hit when he snared a liner in the fourth.

Watkins roamed all over the outfield to pull down hard hit balls. Lamb also made some fast plays.

Jim Lindsey probably will be Frank Snyder's hill choice today. Payne or Steengrafe will work for the Spudders.

German Finds Iodine In Milk of Wyk Cows

EMDEN, Germany, May 31. (AP)—A valuable medicinal remedy in the form of iodized milk has been discovered by Dr. Gmelin, a physician in Wyk on Foehr island in the North Sea.

Dr. Gmelin established the existence of from 1-14th to 1-23rd of a grain of iodine in the milk of cows and sheep grazing on the islands of the German west coast. Its presence is attributed to the powerful influence of the North Sea, noted for its emanations of large quantities of salt, radium and iodine, especially during low tide.

Pitts Ritticisms

Following capacity crowds on opening day a number of ball clubs announce that their parks' seating capacities will be enlarged. Golf certainly has killed interest in the national pastime.

One park was so full ushers had to use shoehorns to seat the fans. Two days before the tilt the club owners were selling squeezing room only.

At that club owners could learn a thing or two from street car companies. A rush-hour trolley car makes a sardine can look like a vacuum tube.

A ball park car the other day was so crowded the motorman had to walk. When the trolley came to a stop no one could move enough to get off. It was a terrible situation until some one found a can opener and excavated an exit through the floor.

When the crowd poured into the street a curious throng of passersby gathered. They thought it was a movie mob scene.

In a mid-western town a trolley once jumped the track. Two-thirds of the population were hurt.

BABE FAR AHEAD

Bambino's 19th 11 Days In Van of Record-Breaking 1927

NEW YORK, May 31. (UP)—Babe Ruth hit his 19th homer of the season off Irving Hadley, of the Washington Senators, in the third inning of today's game, which was won by the Yankees, 4 to 0.

Ruth is 11 days of his 1927 record. He hit his 19th and 20th off Buckeye of the Indians last season on June 11.

Today's homer was a long fly into the right field stand with no one on base.

Ruth's 19th Helps Yankees Score 4 to 0 Win

NEW YORK, May 31. (AP)—The Yankees shut out the Washington Senators 4 to 0 here today in the last home game prior to their swing around the west. Herb Pennock held the Senators to four hits, and sent the Yankees into the month of June with a percentage of more than .800, unprecedented in the American league. Babe Ruth got his nineteenth homer of the season. Score:

Loughran Sought For Walker Tilt

Mullen Would Stage Light Heavy Go in Chicago

By FRED VAN DEVENDER

CHICAGO, May 31. (US)—Jeems Mullen, the Chicago sports impresario, dusted off his rod and reel today and started angling for Tommy Loughran's name, signed at the bottom of a contract specifying that he meet Mickey Walker, the middleweight champ, in the near future. Tommy is the light heavy king.

It all started when Mickey and his manager, Jack Kearns, former manager of Jacques Dempsey, appeared in Chicago from Cleveland, for Walker's title bout with Ace Hudkins here on the night of June 21.

Jeems Mullen, who will promote the Walker-Hudgins set-to, conferred at length with Kearns, and after it was all over it was intimated that the only thing lacking for the title scrap is Tommy's signature, which it must be admitted is the most important part.

Kearns, it was said after the engagement, told Jeems to get Tommy's signature and then he would talk business.

But about all the business that would be necessary for the Walker end of it would be for him to sign his John Hancock on the dotted line. It is a known fact that it is Walkere's ambition to have a try for the light heavy title.

Steers Send Love To Bears On Option

DALLAS, May 31. (AP)—Edward "Slim" Love, veteran Dallas southpaw, has been turned over to the San Antonio Bears on option, it was announced today by officials of the Dallas club. He will join the Bears Friday at Shreveport.

For several years Love was one of the leading pitchers in the Texas league, but has not been able to finish a game this season.

Dallas officials also announced the acquisition of Johnny Mann, an infielder, from the Chicago White Sox, and Outfielder Escallier from the Mexia club of the Lone Star league. Both players will report Friday.

WEST BEATS MARRIOTT, 13 AND 20 FOR GREENBELT GOLF TITLE

NEW CHAMPION AT TOP FORM

Parr Defeats Clower in Second Flight

By AL PARKER
Staff Correspondent

MEMPHIS, Texas, May 31.—Johnny Marriott had only one big day of golf in his system and he went down here today in the final round of the Greenbelt Golf association's championship tournament before the methodical machine-like play of Raynes West of Memphis. Marriott conceded the match and the 1928 title when he gripped the hand of West at the finish of the sixteenth hole.

He was 13 down with 20 to go and hopelessly beaten, but just as good a loser as he had been a victor in defeating the previous day the twice champion, L. S. Walker of Quanah and the twice runner-up, Sam West of Memphis, in succeeding rounds.

Marriott did not play within a hundred miles of his game of the previous day and the best he could do in the 16 holes played was to halve three. West won the other 13, not alone because of the poor play of his opponent, but his own wizardry from tee to pin. West went out in par figures and was not far from perfect on the seven other holes.

West Easy Winner

After halving the first hole, Marriott was in trouble on his second and West won the hole with a four. The remainder of the eight holes of the first nine went much the same way—Marriott falling down with one club or the other and West clicking off par figures with monotonous regularity. The first hole of the second nine also was halved and Marriott halved one other hole, before the match ended on the sixteenth green, West winning the remainder.

The new Greenbelt champion has been one of the big favorites in each of the preceding two tournaments, but his play on the home course was his best thus far in the Greenbelt competition, and he had a strong following from the start of the tournament. He defeated W. H. Cooke of Clarendon in the second round and Jack LeBus of Electra in the semi-finals. In the qualifying round he turned in the second low score of 70.

The most interesting of the final matches today was the consolation in the first flight, in which the 14-year-old Roy Farrell of Vernon defeated Bud Marriott, representing the Electra Country club, in an exciting extra hole match. Marriott came into the eighteenth hole one up, but gave the youngster an opening with a poor second shot that mean an extra hole. On the nineteenth Farrell put his drive on the green and won with a par three.

Jack Parr Wins

Jack Parr of Electra was on easy winner in the second flight, defeating Pete Clower of Memphis, 10 and 9.

Tot Williams of Vernon won the third flight by defeating James Parr of Electra, 3 and 2.

Al Cooke of Clarendon defeated R. W. Alley of Wellington in the fourth flight finals.

Jim Jennings of Electra won the second flight consolation by defeating H. E. Tarver of Memphis, 3 and 1.

The third flight consolation was won by Irvin Johnsey of Memphis and the fourth consolation by Ed Foxhall of Memphis.

Following the conclusion of final matches in all flights this afternoon, golfers were wending their ways homeward, delighted with the Memphis tournament and the manner in which it had been conducted. A record number of 110 players started in the tournament Monday.

Noted Stars Play In Texas Net Meet

HOUSTON, Texas, May 31. (UP) More than 100 singles entrants and 50 entrants in the doubles matches, in addition to the Mexican cup team and Wilmer Allison, national intercollegiate champion, are expected for the Texas state tennis championship tournament starting here Monday.

The finals of the tourney are scheduled for Saturday and Sunday, June 9 and 10. During the off periods in the qualifying rounds, several exhibition matches have been arranged.

Among these matches will be one between Allison and Berkley Bell, Southwest conference champion. Sunday Capt. Victor A. Ponce de Leon, Alfon Unda and Ricardo Tapia, members of the Mexican Davis cup team, will meet Bruce Barnes, Leslie Coleman and Jack Norton, all of Houston, in exhibition matches.

Among the entries are Howard Kev. Karl Kamrath, Jim Ferguson, Gillespie Stacey, Will Caswell, Dr. E. A. Penick, coach of the University of Texas tennis team, Louis Thalheimer, J. B. Adoue, Jimmy Quick, John Barr, George Peak and Wicher Settle of Dallas.

In the women's division, Mary McHale, woman's singles tennis champion of Texas, is favored to win.

Oklahoma Heavyweight Hope

BABE HUNT

By NORMAN E. BROWN
Staff Writer for Central Press and Record News

TULSA, Okla., May 31.—The state which unearthed the only "white hope" heavyweight champion and also another of the outstanding figures of the "white hope" era, now carries high hopes of seeing the next heavyweight king produced somewhere in its rolling acres.

And right now two most promising prospects are Babe Hunt and Buster Martin, with Hunt carrying the edge with most fans at the writing.

Career Like Morris

If Hunt does ride into the national heavyweight limelight eventually on his pile-driving fists, his rise will be somewhat of a repetition of that of Carl Morris.

Morris, though born at Fulton, Ky., had drifted westward before he broke into the boxing game. He was an oil well hand around Sapulpa, this state, when his ability with his "dukes" drew attention. Or it might have been his size more than his fists. He stood six feet four inches, and weighed 235 pounds.

Dragged rather hesitatingly into the scramble for the chance to meet Jack Johnson and bring the heavy crown back to the white race, Morris proceeded to take on practically every one of the other "hopes," including Jack Dempsey, the man who was destined later to lift the heavyweight division back to normalcy after the brief reign of Willard the giant.

Morris met Dempsey three times, losing in four rounds to the Mauler at Frisco, dropping a second verdict on a foul in six rounds at Buffalo, N. Y., and then going out in a few seconds under one of Dempsey's short rights at New Orleans.

Among others Morris met were Fred Fulton, Andre Anderson, Jim Coffey, Frank Moran, Martin Burke, Jim Flynn, Bob Roper and Willard. His meeting with Willard occurred December 8, 1915, in New York. Willard was as green as Morris. The two of them floundered over the ring for 10 rounds. It was a no-decision affair and ended that way.

Now along comes Hunt. A giant, too. Stands at Morris' height and weighs 190 pounds. Was working in the oil fields near Ponca City, this state, about a year ago, when "unearthed."

Dennis Magirl, once a welterweight boxer and at the time running a gymnasium near Ponca City, is given credit for recognizing the lad's possibilities when the latter asked for a chance to break into a series of fights Magirl was staging at Tonkawa. Together they decided to gamble on Hunt's possible future in the ring game.

Since that day Hunt has been in 23 bouts and has won 19 of them by the knockout route.

No great stars in his list of victims. Pushovers, perhaps, for more experienced fighters. But while tossing these 19 over, Hunt has apparently learned some of the fine points of the sport. Hence the interest of the fans in him.

Along with the development of Hunt, fans have also been watching the work of "Buster" Martin, a Tulsa product. And being alive to the possibilities in bringing the two together, a Tulsa promoter has now lined these two up for a battle, June 4. As a matter of fact, however, the outcome of that scrap will have little bearing on the future of either, due to the youth and inexperience of both, but the winner will have a chance to take on bigger and better opponents immediately—to show his stuff.

Willard's Stamping Ground

Willard, the man whom the white hope era swept into the world's heavyweight championship, is a Kansan by birth, but was a cowboy in Oklahoma and "just a-driftin'" when he was plucked from the saddle and tossed into the ring.

And so, taking credit for giving the American public the white hope champion and his outstanding "hope" aside from Willard himself, the state has high "hopes" of one of these lads climbing to a point where he can trek east and demand a chance at Gene Tunney—or whoever may be riding the crest when the Oklahoma entry is "ripe."

Reid And Costley Of Wichita Falls Win Contract On Vernon Court House

VERNON, Texas, May 31.—Contract for general contruction of the new $375,000 Wilbarger county courthouse was awarded late Thursday to Reid and Costley of Wichita Falls. The successful bid was $292,767.

The total contracts and allowances, including architects fees, amounted to $370,362.75, according to totals announced.

Minor contracts were awarded as follows:

Heating and plumbing, $21,000, J. C. Korioth Plumbing and Heating company, Sherman.

Electric wiring, $3,150.75, L. L. Hudgens Electric company, Wichita Falls.

Elevator, $5784, Hunter Hayes Elevator company, Dallas, Texas.

Accoustical treatment, Southwestern Flooring and Sales company, Dallas, $1160.

Furniture, $5225, Wilhide Speakman company, Dallas.

Desks and table chairs, $6379, Wichita Falls School Supply company.

Courtroom Benches, $7900, American Seating company, Fort Worth.

Jugo-Slavian Parliament Forced To Adjourn in Bloody Demonstration

BELGRADE, May 31. (UP)—Troops, police, mounted gendarmerie, and firemen clashed today with anti-Italian demonstrators in the worst riots which have occurred here since the war. Three were known dead, sixty students and police were wounded, some seriously, scores were arrested, and tonight semi-martial law prevailed with the streets heavily patrolled by troops and mounted police.

Opponents of the government's Italian policy forced sudden adjournment of parliament after irate deputies had battered their desks to pieces in their anger.

Students and other anti-Italian demonstrators wrecked a restaurant, fought police with coffee cups, saucers, beer glasses, wine decanters, and stones; then barricaded the restaurant and fought a revolver battle with heavy casualties.

Divorce Court Proving More Popular Than Marriage Bureau, Records Show

Twenty-four more couples succeeded in securing marriage licenses than applied for divorce during May. During May 52 suits for divorce were filed in district court and 76 marriage licenses were issued by the county clerk. In the first five months of this year, licenses have been issued to 384 couples by Miss Elizabeth Hall, county clerk.

Taking into consideration the number of out of county residents included in those receiving marriage licenses, it is estimated that many Wichita county residents sought happiness through the divorce courts than through marriage during the month of May.

EQUALIZATION BOARD

The first informal meeting of the recently named board of equalization for the city of Wichita Falls will be held at 2 o'clock Friday afternoon. The meeting scheduled Thursday was postponed. The object of this meeting is to informally discuss city values. Members of the board are J. N. Prothro, J. M. Baker and Roscoe Staton.

Dempsey to Fight Again When Tex Needs Him, Is Opinion of Runyon

Rickard Plans September Battle With Jack as Principal. Damon Believes, But Opponent Is Only a Guess

By DAMON RUNYON
Copyright, 1928, by Universal Service

NEW YORK, May 31.—I gather that some of the neighbors are surprised, skeptical, morbid and even a little bellicose because of the well sustained rumors that trickle off the west coast to the effect that William Harrison Dempsey is planning another trip to the roped arena, as we say at the club.

Well, only the Dempsey man could arouse such variety of emotions among the citizenry. However, I am surprised that anyone should as much as cock an eyebrow over the rumors, because this pillar of perspicuity long ago informed you that the Dempsey man would not do that very thing.

I mean to say I cannot understand how the proletariat can read herein what's what and continue doubting unless, perchance, they have a vague impression that I may not know what I am talking about. But let us perish that thought at once!

Of course the Dempsey man will fight again. Of course. There will be the usual denials by Dempsey, to be sure, and the usual denials by Mr. George Tex Rickard, but Dempsey will fight again just the same. I never could understand why Mr. Rickard is always doing so much denying for Dempsey, at that. Mr. Rickard is no mind reader, and he has been crossed up by the Dempsey man on those denials as often as the sports writers.

The latter are crossed up on an average of several times a day when Dempsey is in real action, but some of them—mainly the younger, more trusting ones—continue clinging to the belief that Dempsey knows his own mind, which scientists have long ago proved a complete fallacy.

Electric Light Training

Dempsey is out there in Los Angeles talking of taking up that old familiar light training because much of it is done by electric light.

He says he is going to train to condition himself for his dramatic efforts with Mr. David Belasco's "The Big Fight." I hasten to assure the Dempsey man, on the word of Mr. Bill Boyd, Mr. Louis Mann, Mr. Will Collier and a lot of other prominent thespians, that the drama is not so desperate an enterprise that the punching bag, roadwork, and dumb bells are essential to it, though it sometimes uses the latter.

"In all my years of dramatic effort, I never had to have any sparring partners to ready myself up for a hard part," said Mr. Collier to me last evening. "I have often embarked on difficult plays with no more training than a hair cut, and a once-over shave by Felix, the friar's barber. I think Mr. Dempsey is exaggerating in his mind the difficulties of his new career."

But Dempsey is said to be planning to go back to his old training quarters at Soper's ranch at Ojai, in the mountains of southern California, and there get himself in the very pink for his grapple with Mr. Belasco's opus. If you ask me, I think he has been tipped off that the epilogue will be a brisk 15-round heat with one of the boys.

Tex Plans Jack Fight

I think Mr. George Tex Rickard is planning a September show that will feature Dempsey, but that he is keeping Dempsey in the background just at present so that the old Manassa man mauler won't put the crusher on the impending affair between Mister Tunney and Thomas Heeney.

What Dempsey does to those shows any time he gets to stirring around in the news is a sin and a shame. Mr. Rickard is well aware of that. So he induced Dempsey to remain as quiet as possible until the July pig-sticking is over, although I wouldn't say that this is so very quiet in view of the recent rumors. The Manassa mauler just can't keep in the shade.

If Thomas Heeney should by any chance defeat Mister Tunney, then, of course it is a triple-plated cinch that Dempsey fights just as soon as Mr. Rickard can rope and throw Thomas Heeney. And if Mister Tunney wins, and announces his retirement, as his close friends think he will, or even announces a long recess, it is again a cinch that Dempsey will sally forth to battle.

Why? Well, $500,000 for one reason. That ain't hay, as the man said.

Other Conjectures

It is within the bounds of possibility that unless Thomas Heeney proves a most formidable opponent, Mister Tunney and Dempsey may have it again in the autumn. But I am inclined to doubt this now, basing my doubt on the belief that Mister Tunney will choose to fight but once in 1928.

Wherefore Dempsey's opponent will be determined by the fistic events of the summer. He will be picked by circumstances from the array of heavyweights who will be chucking gloves at each other during the hot weather—John Risko, the terrible Sharkey man, Napoleon Jack Dorval, Phalling Phil Scott, Knuta Hansen and possibly Senor Paolino Oo-Scrap-Umbay, the Beeark of the Basque.

DAILY DOPE

By LARRY DAILEY

DESPERATE EFFORTS are being made by the Dallas club officials to land a winner. The latest move of the Steer moguls calculated to make their team contenders in the second half is the acquisition of Johnny Mann from the Chicago White Sox. That Mann, who went to the Pale Hose last season from the Wichita Falls club, will add greatly to the strength of the Steer infield is certain. Possibly some of the other numerous deals engineered recently by the Dallas club also will be effective.

◆ ◆ ◆

The race for the lag in the second half promises to be even more hectic than this first-half campaign—and one must look a long way to find a more closely contested chase than that right now in our circuit. It was noted in this column the other day that the second division clubs all have strengthened recently, while there is no sign of faltering among the leaders. Houston and Fort Worth doubtless will go through the season as now constituted, barring of course the hazard of mishaps. San Antonio could add a bit of strength, but the Bears are plenty tough as they are. When the Spudder ill and ailing are at their best again, which won't be long, the champions will resume a place as foremost contenders. Indeed, the Wichita Falls club in recent days has shown signs of snapping out of a slump and of attaining the top of its game.

◆ ◆ ◆

THE BIG STICK of K. M. Landis, commissioner of baseball, has been swung. It has landed on the heads of the St. Louis Brown moguls and their minor loop farm, the Tulsa Oilers. Also it has been felt by the Milwaukee team, which may not be owned by the Browns, but which is "friendly" in its dealing with the St. Louis Americans. In awarding Catcher Thompson to Louisville the commissioner has indicated he will act with a heavy hand on "cover up" cases in the future. Thompson was owned by Milwaukee. Tulsa was in dire straits for a catcher. Milwaukee asked waivers on Thompson and Louisville claimed him. So Thompson was "sold" to the Browns, who in turn sent him to Tulsa. Or rather, intended sending him to Tulsa. But Catcher Thompson has been awarded to Louisville by Judge Landis. A warning thus is served to clubs with interlocking connections that such practices must cease; that a fine of $500 will be meted out for repetition, and the player awarded to a claiming club, such as to Louisville in the Thompson case.

◆ ◆ ◆

THIS MAY AFFECT the St. Louis Cardinals, who with their extensive farming system embracing half a dozen minor league clubs, including Houston Buffaloes, move players from one team to another whenever desired. The "chain store" ownership in baseball, as exemplified by the Cardinals and Browns and others to a lesser extent, is decried by many men in the game as an evil toward the sport. That is a matter of opinion. I see arguments to both sides of the matter. Anyhow, there is no argument in favor of "cover up" cases such as that of Player Thompson, which are unfair both to the athlete and other clubs.

Politics May Halt Railroad Efforts

SAN ANTONIO, May 31. (AP)—Railroad politics may forever end the efforts of Corpus Christi, San Angelo and San Antonio to obtain a connecting rail line, R. W. Morrison, president of the proposed Gulf and West Texas line, told a meeting of citizens here today.

The meeting was called to consider means of raising $600,000 to help build the road. This is San Antonio's quota of the stock to be issued.

Morrison said that the threat of the new road had stirred up railroad politics in Texas, which, he said, prevent the Frisco from taking over the proposed Gulf and West Texas line and are driving the Frisco to seek possession of the Orient, in order to build the old proposed extension from San Angelo to Del Rio.

"All existing roads are against the proposed line," Morrison said, "for the reason that it would cut their tonnage slightly in one section or another."

It was decided that the stock to be sold in the new line would be sold on the basis of 25 per cent down and the balance in four, eight and 12 months.

BIG CITY FOR DEMOCRATS

HOUSTON, Texas, May 31.—Houston, host to the Democratic national convention in June, is near the 300,000 population figure. Growth has been so rapid in the last 10 years the U. S. census bureau refuses to set a definite figure in its annual estimates.

The gross area of the United States is 3,026,789 miles.

LOUGHRAN AND LATZO READY

Tom Defends Light Heavy Crown Tonight

NEW YORK, May 31. (UP)—Tommy Loughran, light heavyweight champion, and Pete Latzo, former welterweight champion, took light workouts today to keep in trim for their scheduled 15-round title bout at Ebbets field, Brooklyn, Friday night. The match was originally scheduled for Wednesday night but was postponed because of rain.

The betting odds have mounted to 3 to 1 on Loughran, with no Latzo money available.

"Cash and Carry" Pyle Forgets to Carry Cash

NEW YORK, May 31. (UP)—The cry, "Can Pyle pay?" was raised again today when C. C. Pyle, promoter of the transcontinental derby, failed to turn over the $48,500 in cash to Tex Rickard for payment to the 10 winners Friday night as promised.

Pyle explained the slight slip-up by saying he had been unable to have the money transferred from a California to New York bank in time to complete the transaction today. The money, Pyle assured newspaper men, who will be placed in Tex Rickard's hands early Friday.

Irvine Is Named Coach Of Brownsville Preps

BROWNSVILLE, Texas, May 31. (UP)—In a new system of coaching for the Brownsville school, J. W. Irvine has been named head coach.

Irvine will head a corps of three coaches, one woman coach and student assistant coaches. Irvine, coach of the junior high school here last year, won the junior high school state title with his team. His assistants will be Raymond Plato, graduate of the University of Illinois coaching school and former Columbia university student; Doug Fessendon of San Antonio and Webb Conley of Austin.

Fessendon also is a graduate of the University of Illinois. Conley has been coaching the Austin junior high school for the last five years

Athletes at Dallas For Olympic Trials

DALLAS, Texas, May 31. (AP)—The vanguard of some 400 athletes from all over Texas, Arkansas, Oklahoma and Louisiana streamed into Dallas tonight for two days of tests on the track and field at the stadium of Southern Methodist university.

Tomorrow will be devoted to junior A. A. U. championships for the southwest, with Saturday given over to Olympic tryouts preliminary to the final tests in the Harvard stadium July 6-7.

Eighteen events make up the program for the junior A. A. U. championships, and Olympic candidates will compete in a like number.

The meet will mark the first competition over the new $10,000 track in the stadium. The cinder path has been proclaimed one of the finest in the country, and, if the weather remains propitious, several southwestern records are expected.

Universities, colleges, high schools and athletic clubs and unattached athletes are represented in the long lists of entrants.

MAN AUCTION

Males "Sold" to Women Aboard Ship On Leap Year Day

NEW YORK, May 31. (US)—Everyone aboard the Cunarder Franconia, which got back from a four-months cruise around the world today, was still talking about the "man auction" held aboard the ship on "leap year day," February 29.

Every man on the ship went on the block—debonair Sir Walter Raleighs, women haters, fat men, skinny ones—all kinds and more.

And as Mrs. D. A. Lauferty of New York knocked them down to the highest bidders—the bidders were the women on the ship—many a man looked sheepishly as he heard the price offered for him. The funds derived from the sale went to the seaman's fund.

The highest price of the day was brought by Commander R. B. Irving, O. B. E., captain of the ship. He was "knocked down" to a western widow for $260.

U. S. and Japan Net Teams Meet

Play in Davis Cup Tennis Starts Today

CHICAGO, May 31. (US)—"Big Bill" Tilden, the only remaining member of that powerful little United States net oligarchy, which ruled the international tennis field for more than six years, will open play here tomorrow in the American zone Davis cup final against Japan.

The order of the draw, given out this evening from the Chicago Town and Tennis club, where the matches will be held, finds the tennis superman matched against Tameo Abe in the opening singles match.

In the other singles engagement to be played tomorrow, Johnny Hennessey, the agile red head from Indianapolis, will be pitted against Yoshiro Ohta, the ace of the Japanese forces.

George Lott, 21-year-old University of Chicago star, will pair with Tilden in the doubles to be played Saturday afternoon. The Americans will meet Tameo Abe and Teizo Tobe, Japan's choice for the doubles play.

Jimmy Lavender Takes West Texas Golf Title

MINERAL WELLS, Texas, May 31. (AP)—Dennis Lavender of Abilene, 19, is champion of the West Texas Golf association, defeating Bob Scott of Colorado nine and eight on the 28th hole of the finals of the 1928 tournament here Thursday afternoon.

Hole Ripped in Side Of Sub in Collision

NEW LONDON, Conn., May 31. (AP)—A collision today between the submarines S-18 and S-12 at the submarine base here ripped a hole in the special operating compartment of the S-12.

The S-12 was coming up alongside the flagship U. S. S. Camden when rammed near the aft part of the ship receiving a hole in its side. Outside of the flooding of the motor room, no other damage was inflicted.

NEW YORK COTTON

NEW YORK, May 31. (AP)—Early declines were just about recovered in the cotton market today, October contracts selling up from 20.50 to 20.70, and closing at 20.68, compared with 20.69 at the close Tuesday. The general market closed steady, at a net decline of 1 to 3 points, all active months being just a point under last Tuesday's final quotations.

The opening was steady at a decline of 5 to 12 points. Reports of fairly good weather in the South over the holiday, appeared to offset relatively steady early cables from Liverpool, and there may have been some selling on expectations of a fairly favorable weekly report from the weather bureau. Offerings were not particularly heavy or aggressive, but there was not much support and prices soon showed net declines of 15 to 19 points.

The weekly report proved about as expected, and appeared to have been discounted, as the market turned steadier when additional selling pressure failed to appear following its publication. Reports that trade buying had helped to absorb offerings in the decline to 20¼ cents for October, also had a sustained influence, and the market just about recovered its losses during the afternoon.

July sold up from 20.38 to 20.56, and December from 20.35 to 20.54. Last prices were within a point or two of the best. The afternoon buying was probably promoted by private crop reports pointing to a moderate increase in acreage and emphasizing the boll weevil menace.

Prospects for showers in the eastern belt were considered a contributing factor on the afternoon rally.

Port receipts today 6344. U. S. port stocks 1,231,080. Exports today 14,409, making 6,992,062 so far this season.

NEW ORLEANS COTTON

NEW ORLEANS, La., May 31 (AP)—Greater activity was shown on today's cotton market with the price trend lower owing to continued favorable weather over the belt and lower cables than due. October, after an opening decline of 24 points, rallied from 20.02 to 20.17 and closed at 20.14, down 12 points net for the day. The general market closed steady at net losses of 10 to 14 points.

Losses of 4 to 7 points were sustained in early trading owing to the arrival of cables that were from 4 to 6 points worse than due. Prospects for a continuation of dry weather caused further recessions in the market, with July trading down to 20.20, October 20.02 and December 20.00, or 23 to 26 points under yesterday's close.

The official forecast for showers for the belt started a rally, notwithstanding a favorable weekly weather and crop summary. The upward movement found impetus in the issuance of two bullish private acreage estimates and the detailed weather report showing more rain had fallen over the holiday than was indicated by the map. The market recovered 11 to 16 points from the previous lows in this movement.

Liquidation caused the market to turn easier in the final trading with the close a little under the best, July at 20.32; October 20.14, and December 20.12.

Wichita Man Freed On Charge of Theft

Homer Gatlin was released from the county jail and charges of theft filed against him were dismissed by members of the district attorney's office Thursday. Gatlin was arrested about a week ago in connection with theft of cigarettes from a box car on the Katy tracks.

At the time Gatlin was arrested by D. C. Copelin, special officer for the Katy railroad, a second man who is alleged to have attacked the railroad officer, was shot in the leg. Charges of assault with intent to murder were filed against G. W. Clumbley after the shooting. Mr. Copelin received a gash in the forehead during the melee.

High Living Standard Cause of Construction

FORT WORTH, May 31. (UP)—Higher standards of living, the product of the world war, is responsible for a large percentage of the construction of both public and private enterprises now under way throughout the country, according to Col. W. L. Chevalier of New York, publisher of the Engineering News Record.

"The eyes of the East are turned on the South today as they have never been before, and it is evident that millions of dollars are being spent and are to be spent in the next few years in this section," he said.

Failure of Wall Street to Discover Benefit in Merger Causes Stock Slump

By BROADAN WALL
Universal Service Financial Expert

NEW YORK, May 31.—Stocks moved higher today as the money scare was offset by the flood of merger rumors which followed the Chrysler-Dodge deal. Radio was the outstanding feature of strength being joined in its advance by International Tel. & Tel. American International was in steady demand and skyrocketed also while group work brought about outstanding gains in a few other specialties. Rails were somewhat more popular on receipt of a favorable car loading report. Coppers were steady but oils quieted due to increased output of crude for the week.

There was plenty of money to be had at the official call rate of 6 per cent and some brokers received loans outside of regular channels at 5¾ per cent. Foreign exchange was steady and quiet with the Canadian dollar slipping a little lower. Cotton eased off while heavier selling of wheat and other grains was influenced by further bearish weather advices from the northwest.

Every motor company with stock on the exchange was mentioned in one or more merger rumors. Hudson, Packard, Hupp and others moved higher as a result but Chrysler declined as the street is unable to see what benefit the corporation gets from its merger. Dodge preference moved higher as it was out of line with the exchange privilege of share for share with Chrysler. Even the truck companies were mentioned in consolidation talk with Mack spoken of most often. Together with several automobile makers it was pointed to as the next one to be taken in by Chrysler.

Walter Chrysler made most emphatic denial that his corporation, and he reputedly controls it, plans to take in any other organization. Durant is interested in both Hudson, Hupp and Packard so when he gets back Saturday the bull talk probably will increase. When the first enthusiasm passes, however, 95 per cent of the merger talk will prove to be "bunk."

Boston Wool Market

BOSTON, May 31. (AP)—A ready outlet for the fine western grown original wool continues to exist at steady prices. Much of this quality of the medium grade wools that are coming in are under contract as soon as graded. Inquiries are being received from the mills for any further offerings of the medium wools that may become avilable from grading that progressed a little further. Buyers are quite keen for these wools, and are taking up most all of unsold stock available before any large quantities have accumulated.

MEAD JOHNSON & CO.
5 Year Record.

Mead Johnson & Company was formed under the laws of Indiana in 1915. The company specializes in the manufacture of materials for infant diet, its principal products being "Mead's Dextri-Maltose." This is distributed in the United States and several foreign countries. The company makes other infant foods, as well as cod liver oil, lactic acid milk, protein milk, and powdered milk.

The main plant of the company is located at Evansville, Ind., and it has two other plants at Zealand,

Michigan, and Belleville, Canada. It also maintains several small factories in Newfoundland. The corporation has completely equipped chemical and biochemical laboratories for the studying of products along infant diet lines.

Net income in 1927 amounted to $1,068,541. This was equivalent to $6.28 a share on the preferred stock and $6.06 a share on the common. It compared with $1,030,808 in 1926, but a larger number of shares are outstanding at present than in 1926, so that the rate per share was not so high. Profit and loss surplus amounted to $1,227,449.

There is no funded debt. Capital stock outstanding consists of $1,700,000 in 7 per cent cumulative preferred stock of $10 par value, and 165,000 shares of no par common.

Dividends have been paid on the preferred stock since issue to date. An initial dividend of 75c a share was paid on the common April 1, 1927, and this has been continued to the present time. There was a stock dividend of 10 per cent on the common paid January 1, 1928.

As of January 1, 1928, current assets totaled $2,151,280; current liabilities were $447,737, leaving a net working capital of $1,703,543. Book value of the common stock amounted to $1,727,448 or $10.46 a share.

Habeas Corpus Seeks Custody of Children

T. W. McClung of Memphis, in a petition for habeas corpus filed with Miss Eunice Jackson, district clerk, Wednesday, is seeking to gain possession of his two children, Nellie McClung, 10, and T. A. McClung, 7, from S. C. Kimble of Iowa Park, maternal grandfather of the children.

In the petition, Mr. McClung alleges that the custody of the children was not awarded at the time he was divorced from his wife.

Mr. McClung was ordered by the court to pay $10 a week for care of the children, following hearing instituted by Mr. Kimble several weeks ago.

Grain

By THOMAS TEMPLE HOYNE
Universal Service

CHICAGO, May 31.—The exodus of the May futures today made for erratic grain markets that closed irregularly, with wheat showing a loss for the session and corn a gain. Today these two leaders may reverse performances.

At the close wheat was 1⅛c to 3¼c down; corn was ½c to 1⅜c up; oats were ⅜c higher to 2½c lower; rye was ⅛c off to 6¼c up.

Shorts in May rye suffered a squeezing process that ran the market up late in the day 7⅜c from the bottom. The fever was purely local, however. May wheat went out disgustingly weak; so did May oats.

May corn advanced 1⅜c over the previous close, but there was nothing of a pronounced bullish nature in that, in view of the supposedly strong cash position. May corn went out at a discount under the July. If this means anything it means the cash situation is not nearly as strong as bullish words describe it.

After a decided sinking spell early, wheat had a good rally. Again the market met with selling and petered out toward the close. Nevertheless, wheat does not look to this writer like a particularly attractive sale on any further decline today.

A good upward reaction in wheat is due.

What pit traders have been doing in wheat seems to be just the reverse of what they have been doing in corn. Corn, they have apparently been buying against short wheat.

For the last three trading days the covering in corn and buying for long account appears to have been very heavy. A lot of good bears have taken profits and are only waiting for the spot to sell corn again.

In the cash market wheat was 1c to 2c lower; corn was unchanged to ⅛c up; oats were ⅛c to 2c off; rye was quiet; barley was steady.

Panhandle Company Moving to New Offices

The Panhandle Refining company is moving its offices to the new Panhandle building at Seventh and Travis streets from the old quarters in the Staley building.

For several days small portions of the office organization has been making minor moves and the major move is expected to be made Saturday, according to Roy Jones, president of the company.

The new Panhandle building is being finished to its full four-story height. At the start it was known as the Culbertson building but when Panhandle purchased a half interest in it, the name was changed to the Panhandle building.

Large Crowds Attend Henrietta Revival

Special to The Record News.

HENRIETTA, Texas, May 31.—Rev. Paul E. Martin, pastor of the Methodist church of this city, assisted by Rev. Robt. E. Huston of Dallas, began a two weeks community revival Sunday. Rev. Huston is in charge of the music, and has been unusually successful in previous meetings. Large crowds have been attending both the morning and evening services.

NEW PRO-RATE BASIS URGED

Higher Limit in Winkler Field Is Asked

FORT WORTH, May 31. (AP)—Probability of a recommendation for raising the limit of production placed on the Hendrick pool in Winkler county under the Texas railroad commission order, and a proposal for a different basis of pro-ration for the new Leck area to the north developed at the commission's pro-ration hearing here today.

The hearing was attended by the full commission, and by R. D. Parker, chief supervisor of the oil and gas division of the commission. It was also attended by one or more representatives of all producers and operators in Winkler county, and by severol royalty owners.

Necessity for an upward revision of the limiting figure was brought out by J. D. Collett, chairman of the advisory committee for Winkler county. Collett pointed out that with a different weight being given acreage and potential production that a limit of 150,000 barrels, which is the market outlet has resulted in actual production of only 136,000 to 138,000 barrels per day. This "lost motion is due to the fact that certain of the older tracts on their acreage win an allowance of production above what they can actually produce. In order to allow for this, and permit the full use of the 150,000 barrel outlet, a higher figure will have to be given and 175,000 barrels or even 200,000 barrels per day. This will result in an actual production, however, of only roundly the 150,000 barrels which it was intended to produce, it was pointed out.

Good Progress Made In Work On Hangar

Pouring of cement for the foundations of the hangar at Kell field, the Wichita Falls municipal airport will start Friday, according to announcements made at the field Thursday. Rapid progress has been made on the digging of the foundations and all work of construction will be pushed forward immediately.

The house built for the field manager, who will spend his time at the field, is complete and is only a short distance from the hangar.

The new dirt road, graded a couple of months ago by the county commissioners, is in fair shape despite the recent rains.

West Texas' Aviation Future Bright, Belief

SWEETWATER, Texas, May 31. (UP)—A wonderful future for aviation in this part of the country was predicted by W. J. McKenzie, traveling airport representative of the United States department of commerce, during a recent visit here.

Due to the fact that several transcontinental air lines are being established over the Rocky Mountains farther north were being interfered with by rain squalls, it is highly probable that lines will be established farther south, he said.

McKenzie advised all towns in this section to get interested in aviation.

Railroad Operator Halts Attempt to Rob Bank

HOLDENVILLE, Okla., May 31. (UP)—Quick work by Hughes county officers probably prevented a bank robbery at Stuart, near here, today.

A Rock Island railroad operator going off duty discovered a large sedan parked near the First State bank at Stuart. In the car he saw two men and a complete acetylene plant equipped with a cutting torch.

The men had abandoned the car and vanished by the time officers arrived. A posse led by bloodhounds traced the men to a point four miles northwest of here where a Ford coupe had been stolen.

Famed Scientist Found Living in Dire Poverty

PARIS, May 31. (AP)—The man who invented vanadium steel and helped save the wine industry of France has been saved from starvation by charity.

At 87, deaf, weak and disillusioned, M. Helouis, decorated for his fight against the Phylloxera that was killing vines, is kept in a home for the aged by the Society of Friends of Science. His story told before the Academy of Sciences, caused that august body to vote a contribution of funds.

Millions of dollars, the academy was told, have been made in the industrial world by the scientific knowledge of the worn out man who was found starving in a little shed outside of Paris, still feebly working over his books and papers and simple laboratory apparatus, but without food or money.

Services Friday For Mrs. Susan E. Thomas

Funeral services for Mrs. Susan E. Thomas, 65, who died Wednesday morning, will be held at the family home, 1103 Eighteenth street at 12:30 o'clock Friday afternoon, with the Rev. L. S. White, pastor of the First Church of Christ, officiating.

Burial will be in the Vernon cemetery, where the body will be forwarded immediately after the services here.

Mrs. Thomas is survived by a son, John W. Thomas, Wichita Falls.

City's Income From Fees Totals $6700

The income of the city clerk's office from corporation court fines, business licenses, sanitary fees, cemetery, golf course, building permits and many other classes of revenue for the month of May, totaled $6700, according to an announcement made Thursday by W. E. McBroon, city clerk.

Boy King Feels Cares of Rule

Although he's reigning under a regency, the boy king, Michael of Rumania, has already felt the cares of his office, with the peasant party staging protests against the present government. King Michael is shown above, with the Princess Mother Helen, and Dowager Queen Marie, acknowledging the salute of his regiments as they pass in review in celebration of national independence day at Bucharest. Below is a view of a small delegation of peasants marching along a country road to join a congress at Alba Julia in protest against the government.

"Hottest" Days Here In May Fail To Equal '27 Temperature Record

Month Reaches High Mark in Precipitation, With Total Rainfall of 3.99, Report Shows

Sweltering Wichitans experienced another of the "hottest" days of the season Thursday, when the temperature for the second consecutive time registered 101 degrees. The temperature Wednesday reached this intensity early in the afternoon.

Although this mark stands as the most intense heat experienced this year, it is excelled by six degrees by the maximum temperature of May 1927. The high mark for last year, according to the monthly report of the Texas Electric Service company bureau issued Thursday, was 107 degrees, and occurred on May 28.

Minimum 45 Degrees

The minimum temperature for the month was reported as 45 degrees, occuring on May 13, whereas the lowest temperature for a year ago was 50 degrees on May 10. The mean maximum temperatures were given as: May, 1928: 87:39; May, 1927: 91.93. The mean minimum temperatures were given as: May, 1928: 61.39; May, 1927: 65.37. The mean temperature of the month, the report states was 74.39, in contrast to 78.64, the mean temperature for May, 1927.

The greatest range in temperature occurring on any one day during the past month occurred on May 8, when a difference of 37 degrees was noted between the two extremes. In May, 1927, a total range of 37 degrees occurred on May 28.

Heavy Rains

A total of 3.99 inches of rain fell during the past month, whereas only .99 inches fell during the same period last year, the report states. The greatest amount of rainfall in a 24-hour period last month fell on May 18, when a total precipitation of 2.38 inches was noted. For the preceding year the record was .77 inches of rainfall, which fell on May 12. Over one hundredth of an inch fell on seven days during the past month and on five days during May, 1927.

Six thunderstorms visited this region during the last month, whereas only one, on May 27, occured in 1927. The storms occured last month on the 12th, 15th, 16th, 17th, 18th, and 20th, it was reported.

Other items in the monthly report: Number of clear days 13; partly cloudy, 6; cloudy, 12; no snow; no sleet; no hail.

Schedule Prepared For Summer Movies

Feature pictures and comedies, as well as educational films, will be shown by the city park department at various parks of the city on the six week nights during the summer months, according to announcement made Thursday by C. C. Bunnenberg. Two of the nights, Friday and Saturday of each week, the free shows will be given at two different parks in the city.

The schedule as announced by Mr. Bunnenberg follows:

Monday, Bellevue park; Tuesday, Grant street park; Wednesday, Carrigan school grounds; Thursday, O'Reilly park; Friday, North Side community house and Washington school grounds, and Saturday, at Bowie school grounds and Scotland park.

Semi-Annual Community Chest Report Reviews Work of Members

The semi-annual report of the member organizations of the Wichita Falls Community Chest was released Thursday by Miss Myrle Neely, secretary.

Days of care given children at the day nursery totals 6106, and the cost of keeping the children was $2367.58. The colored day nursery and charities' cost for the period was $1224.22. This covered 2310 days of nursery care for children and also actual relief given to 118 families.

The report of the Salvation Army of the number of men who were given tickets to work on the sand pile for their food and who then came back for their food was 167 to 21. One man out of every eight was willing to work 30 minutes on the sand pile for his meal. The others did not want to work 30 minutes even though it meant food. This organization provided beds and food to several thousand men and women.

Two immigrants were assisted by the Travelers Aid and a total of 1530 persons were assisted by this organization.

The Family Relief association assisted 2720 persons in the six-month period in various ways. The groceries, milk and other supplies given to hungry families cost $2000 a month.

The Y. W. C. A., with 1050 members, has 14 volunteer sponsors and holds an average of 23 meetings a month. Of the 261 applications for work received, 141 have been checked off with jobs.

The Boy Scout troops show 432 members in 22 troops, with five more troops to be organized in the near future.

Camp Fire Girls have 20 groups totaling 229 members.

The work done by the executive office of the chest is also outlined in the report. All collections and disbursements are made through that office. The local chest also has become a member of the American Association of Community Chests.

TAXES TOTAL 8185 IN MAY

Interest and Penalties 'Cost' Delinquents

A total of $8,185.80 was collected in May for delinquent taxes in the office of W. R. Hyer, according to the monthly report of the office. As there are no current taxes due, the delinquent taxes are the only ones that are coming in.

The receipts came from taxes due in all years from 1920 to 1927 inclusive.

The only 1920 tax item was for 73 cents. It had grown, however, to $2.13, divided as follows: Tax 73, costs $1, interest, 33 cents, and interest .07.

The month's tax income schedule follows:

Taxes	$6887.24
Penalties	665.82
Interest	412.74
Costs	180.00
Total	$8185.80

Kept Strange Vow.

MONTGOMERY, Mo.—More than 40 years ago Mrs. Mary Moist vowed, because of a quarrel with her husband, that she would go to bed and stay there until she died. Although her husband died many years ago she remained in bed until death fulfilled her threat at the age of 92.

The astronomical day begins at noon; the civil day at midnight.

A scene from "That's My Daddy," starring Reginald Denny, at the Majestic theater.

"Sadie Thompson," known over the world as the stage play "Rain," is opening at the Strand Friday.

Those who like their comedy in large sized and healthy doses should get a great kick out of "That's My Daddy," now at the Majestic theater.

The Four Aristocrats of Song will be heard on the Vitaphone at the Strand on the program opening at the theater Friday. This is probably the greatest money's worth program given so far at the reopened theater.

Then, of course, the big feature is W. Somerset Maughm's masterpiece, "Sadie Thompson," which has been given the new name that the general public might not know it is the stage play "Rain."

The first frost and the last frost are usually preceded by a temperature very much above the mean.

"Fewer and Better Schools" Aim Of Educators, Bryant Tells Rotary

Two county school superintendents, Burl Bryant of Wichita county, and G. W. McDaniel of Clay county, told Rotarians of the advantages to be derived from supervision of rural schools at the Rotary club luncheon Thursday noon.

Mr. McDaniel, introduced by Harry Newton of the local Kiwanis club, told of the success met by the three Texas counties with rural school supervision. The Kiwanis club, Mr. Newton told the Rotarians, had voted to secure supervision of the Wichita county rural schools.

Mr. Bryant outlined the progress made in the county schools in the past several years. "Fewer and better schools should be the aim of educators," Mr. Bryant said.

Two violin solos were given by William Donnell, son of Mr. and Mrs. B. D. Donnell. He was accompanied on the piano by Mrs. J. V. C. T. Christensen. The program was arranged by Edwin Bebb.

BURNS SEND 2 TO HOSPITAL

Refinery Employes Hurt In Accidents

C. G. McLaughlin, employe of the American Refining company, and W. H. Thornton, employe of the Continental Oil company were in the Wichita Falls Clinic hospital Thursday night recovering from burns received earlier in the day.

Mr. McLaughlin was burned across the arms and legs when he touched a hot pipe in the chambers of a still at the refinery Thursday morning. Mr. Thornton suffered burns over the arms and chest when struck by a gasoline flash while working on a pipe line. Neither man was dangerously injured, attendants at the hospital said.
