County Farmers Urged To Store Grain Sorghums

Pointing out that most commercial grain storage space is already filled to capacity and unable to fully accommodate this year's estimated bumper crop of grain sorghums, Joe M. Peterson, Chairman of the Dawson County Agricultural Conservation committee, today urged farmers to store their threshed sorghums on their own farms and take advantage of government loans.

Wooden bins are being shipped into Dawson County and are available to farmers at prices not exceeding \$185 for a 1,600 bushel capacity and \$285 for a 3,000 bushel capacity. Money saved by storing grain sorghums on the farm at the loan rate would help pay for the bins, Mr. Peterson explained. The loan rate (farm storage basis) is 95 cents per bushel for No. 2 or better which amounts to about \$1.69 per hundredweight. If local market prices are below the loan, producers can well afford to get a loan on their eligible grain sorghums. Applications for loans may be made at the office of the county agricultural conservation association between now and February 28, 1945.

This year's production of grain sorghums, according to the September 1 estimate, will be about 85 million bushels more than the 10-year average, 1933-42. About 88 per cent of the acreage is in the western areas of Kansas, Oklahoma and Texas.

Mr. Peterson estimates that about 25 per cent of the crop will be harvested during September, 45 per cent during October and the remaining 30 per cent during November.

Due to the lack of storage space and of transportation facilities for spreading supplies throughout the nation, most of the grain sorghum crop will either have to be stored or utilized in or near areas of production, Mr. Peterson stated. Farmers should let their crops dry in the fields before cutting so that the grain may be stored properly, and are urged to feed as much of the grain as possible to their own livestock. Grain sorghums are one of the most nutritious and economical feeds and rank between 95 to 97 per cent of the overall feed value of corn for all classes of livestock.

Further details on obtaining bins and other information pertaining to the crop may be obtained at the county AAA Office, Lamesa, Mr. Peterson said.

Public Invited To Attend Services At Pentecostal Church

The Pentecostal Church of this city, which is located on North Second and Garfield Streets, welcomes you to their services. Sunday School is held at 9:45 each Sunday morning, with preaching at 11 o'clock.

During the week prayer meeting is conducted at 8 p. m., each Wednesday, and young peoples service is held each Friday evening at 8 p. m.

Rev. G. W. Hamilton, pastor, states that the public has a hearty welcome and cordial invitation to attend every service at the Pentecostal Church.

Auction To Be Held At R. E. Robinson's Place Wednesday

Ray E. Robinson will have a farm auction sale at his place Wednesday, October 11, at 1 p. m. His farm is located 14 miles south and 2 miles west on the Stanton road.

Livestock, farm implements, and many other items will go on sale at the auction, and citizens are invited to bring articles they wish to have sold to the place.

Col. Houston Glasson will serve as auctioneer at the Wednesday sale.

W. B. Collins Is A Director Of New Bank at Levelland

W. B. Collins, prominent merchant who has resided here since 1926, when he moved to this city from Oklahoma, will serve as a director of a new bank at Levelland, which is to be named the Levelland State Bank. His son, D. E. Collins, who has been connected with a bank in Sulphur, Oklahoma, since 1919 and who has for the past few years acted as head of the Farmers National Bank there, will move to Levelland and be president of the new institution and serve in active charge there.

W. B. Collins has had a great amount of success in his business activities. Born on a farm, he began work in 1899 in a dry goods store in Honey Grove. Later he moved to Oklahoma, and in 1916 he and his brother, W. H. Collins organized the First Collins Dry Goods store in Eoswell, Oklahoma. There are two of these stores now, one being located at Brownfield and the other here.

Those interested in the Levelland State Bank besides W. B. Collins of this city are: J. O. Gillham, President of the Brownfield State Bank, Brownfield; D. E. Collins, vice-president of Farmers National Bank, Sulphur, Oklahoma; E. E. Ellis, manager for Chas. Baird of Kansas City; Tom Cobb of Cobb's Department Store of Levelland; W. B. Little, manager of Cobb's Department Store, Levelland; W. L. Smallwood, Ginner of Levelland; Boyd Hogue, Magnolia Petroleum wholesale agent of Levelland.

The bank will open as soon as a suitable location, fixtures and supplies can be secured, and will have capital of \$50,000.00 with surplus funds of \$25,000.00.

School Officials To Meet At Lubbock

Two meetings will be held at Lubbock this week for county and school superintendents. The first will be Tuesday night, October 10 and will be held at the Hilton Hotel. At this meeting current school problems will be discussed.

The second session will be Thursday night, October 12, in the Hilton ballroom at Lubbock. This will open at 7 p. m., and is the regular fall meeting of the administrators section of district four. During the evening, Dr. Joseph Griggs, Director of Supervision, State Department of Education, Austin will be the principal speaker.

Local school officials plan to attend.

War Chest Drive To Open Tuesday; County Assessed \$11,156 For The Campaign

County Farmers Sell Black Eyed Peas To Cannery

For the first time Dawson County farmers have sold their green peas produced here to a cannery. Mr. Dorman of a Tyler Cannery has been in the county buying green black-eyed peas and shipping them to his firm by truck. The first shipment was made Wednesday, October 4, and since he has been shipping a truckload of 20,000 pounds per day, and states that he would send more if pickers were available.

County Agent Lee Pool states that indications are that this will be a new industry for Dawson County. He reports that Jack Broyles of Munger picked 1 acre which yielded 2,000 pounds of peas. Farmers shipping from the county include E. L. Hatfield, Jack Broyles, W. L. Lambright, George Cooper, T. H. Coone, G. J. Martin, A. L. Frith, and Colin Todd.

The county agent reports that there is a shortage of pea pickers. He states that hands are being paid \$1.00 per hundred for picking peas, and that some are able to pick 1,000 pounds per day. He says that the vegetable can be picked early in the morning when cotton is too wet to be pulled, and that this might prove a good source to get the peas harvested.

Mr. Dorman has indicated to the county agent that if the product is sufficient here, and if enough interest is shown, a cannery might be set up in this county.

Pfc. Cox Reported Wounded Sept. 23 In French Area

Mrs. Lucinda Cox, who resides on Route D in this city, received a communication from the War Department last week informing her that her son, Pfc. Clyde R. Cox, was seriously wounded in action in France, September 23. The telegram stated that she would be advised of his condition as reports were received.

Pfc. Cox, who served with an Infantry Battalion, had been overseas since February and had been stationed in England and France during that time.

A member of the service for more than 2 years, Pfc. Cox had been stationed at Camp Barkeley most of that time. Prior to entering the service, he was employed with a feed and grain business in this city.

Three of his brothers, Burl, Marvin, and Ira Cox make their home in this county, and one sister, Mrs. Mamie Harvey, resides in Roswell, New Mexico.

Cpl. Charles Busby of Greenville, Mississippi, is visiting with his wife and parents, Mr. and Mrs. C. L. Busby of this city on a 15 day furlough.

The kick-off breakfast for the United War Chest drive will be held Tuesday morning, October 10, at 7:30 a. m., after which time members of the Special Gifts Committee who will be present at the affair, will begin their drive here to get funds for the United War Chest.

The breakfast will be held at the Plaza Hotel.

Work has already begun on the drive, and during the past week 400 letters were sent to residents asking for donations, and officials of the drive report that the response has been very gratifying.

Community chairmen of the War Chest Drive met with Dutch Leuenberger and P. K. Humes Saturday afternoon who explained the drive to them. Rod Meritt, regional chairman from Lubbock, was also present and spoke on the campaign. The community chairmen plan to get their drive under way this week, and have selected their committees.

Saturday morning a group of nine Boy Scouts under the direction of their leader, Joe Spikes, delivered approximately 150 War Chest circulars around town to help advertise the drive which officially opens October 10, and extends through November 11.

A goal of \$11,156.00 has been assessed Dawson County for the United War Chest drive. Chairman of the local campaign, Dutch Leuenberger, hopes that the county will go well over the top in this assignment.

He states, "The Germans and the Japs would like for us to believe that the war is almost over. Nothing would suit them better than to have Americans let down on the home front.

"That is why the enemy propagandists are working overtime—to lull us into a false sense of security. They know that only if we grow over-confident can they hope to stage a successful military comeback.

"Soldiers in the thick of the fight know better. Out where the bullets are flying, no one is thinking about the end of the war. The boys there are thinking of only one thing—to fight to the finish.

"If we let them down now—if we let down in our home-front jobs just because of good news from Europe—our fighting men will be endangered not only by the enemy in front of them, but by their own people at home.

"We just can't let them down.

"Now, more than ever before, they need our full support. Now, when victory is in sight but the fighting harder than ever, they need to know that we are solidly behind them.

"All Texans can show that support by working and contributing toward the success of the National War Fund campaign. Through this single state-wide drive, Texans may contribute to USO, War Prisoners War Fund agencies that are serving our own fighting men, our Allies and war victims everywhere.

It is hoped that every Texan will support the home-front fight for victory."

War Bond Quota For October Set At \$50,800 Here

Carl Rountree, chairman of the Dawson County War Finance Committee received a letter from Nathan Adams, state chairman, this week stating that the October quota for the sale of series E, F, and G war bonds has been set at \$50,800 for Dawson County.

War savings bond sales for this county as reported by the Federal Reserve Bank of Dallas amounted to \$12,643.75 for the monthly period ending September 30, which was far short of the \$50,800 goal assessed the area.

Adams states that the October quota for Texas is \$29,000,000. During September \$23,128,000 bonds were sold, which was approximately 80 per cent of the quota. Adams reports, "While this is a substantial improvement over our August sales, we are still under the national average which was over 99 per cent of the quota in September. The dates for the Sixth War Loan Drive have already been set for the period of November 20 to December 16, inclusive. In the meantime, however, I am very hopeful that we can make a good showing on our October quota."

Lubbock Wallops Lamesa Eleven 40-0 Here Friday

Lubbock's ever-powerful Westerners, trampled over the local eleven here Friday night, and came out of the match with a 40 point victory, leaving the Tornados scoreless. Lamesa's Tornados showed grit and determination throughout the game, and threatened seriously twice. They were knocking on the goal line when the game closed.

In the opening quarter when Lubbock's Westerners first string was in action they scored three quick touchdowns. After that, the subs comprising the second team were called in and soon rang up some scores of their own. The Westerners charted three more touchdowns before the final gun sounded.

The next game for Lamesa High School is scheduled with the Big Spring Steers and will be played here Friday night, October 13. During the past week the Steers met Odessa's eleven and were beaten by 23 points. Odessa scored 36, while the Steers gained 6 points.

Tire Dealers Must Take OPA Inventory

All tire dealers, except mass distributors, must make a quarterly inventory tire report as of the close of business September 30 so that officials may know the number of tires available for resale to consumers, OPA Rationing Executive Ely Fonville announced today.

Report forms have already been mailed to dealers. Any dealer who did not receive a copy of form R-17 should send his name to OPA Inventory Branch, Empire State Building, New York 1, New York.

State-Wide Soil Building Program Urged of Farmers

Texas A. and M. College, bankers, business executives, railroads and state and federal agencies working with agriculture have closed ranks in a united effort to rebuild and maintain the fertility of depleted Texas soils.

The decision for joint action was reached at a meeting of heads of departments of the College, representatives of the Soil Conservation Service and other agencies, and business concerns held on the campus of A. and M. College on September 12. The meeting was called by Acting Director James D. Prewitt of the Texas Extension Service to analyze problems affecting productivity and to lay the foundation for united action by interested agencies, organizations and individuals in rebuilding and conserving the soil.

Dean E. J. Kyle of the A. and M. School of Agriculture, who presided, appointed a nine-man committee selected from groups attending to plan cooperative action in getting the job done. President Gibb Gilchrist pledged the full cooperation of A. and M. College in soil building and water conservation. Director Prewitt said that soil building in Texas had increased about 50 per cent in the past two years. The practice of terracing was well established, but planting of legumes for winter cover crops, which are basic to soil building, was not so far along.

T. J. Harrell of Fort Worth, representing the cottonseed industry, said the agricultural committee of his organization would cooperate by distributing educational information on soil building through cotton gins, cotton oil mills and other media. Paul Walser of the State Soil Conservation Service outlined

a seven point program which he characterized as a "new conception" of conservation. The items in the program were:

(1), Proper land use; (2), Soil improvement by vegetation and fertilizing; (3), Erosion control by vegetation and mechanization; (4), Public information—informing every citizen that he is affected by soil erosion and that each has a part in controlling it; (5), Research to obtain more information about grasses and legumes; (6), Technical assistance; (7), Farmer leadership.

Walser disclosed that 11,000,000 acres of Texas soil have been ruined through erosion and that many more millions of acres are subject to similar damage and loss.

G I Rooster Crows Way Into Mess

AP Newsfeatures
HEADQUARTERS, PANAMA CANAL DEPARTMENT — Immortalized in Irving Berlin's "Oh, How I Hate to Get Up in the Morning," the secret ambition of every soldier—to kill the bugler—was fulfilled vicariously here at the expense of a rooster which used to wake enlisted men on a post of the Pan-

ama Coast Artillery Command.

For months "Piso" had lived precariously, arousing his owner where buglers, bed spilling and excited topkicks had failed. Then his crowing ushered in a day of K-rations and the shadow of the axeman fell across his path.

"Piso's" qualities as a clarion were ignored. K-Day turned into D-Day. He was roasted in the training center bake shop.

"Not that we minded getting up at 5:30 every morning," one GI explains. "That was swell, and we appreciated his crowing. But it wasn't enough for "Piso" to sound off at reveille. He'd tune up every day at 4 a. m. He would have been a perfect alarm clock if we could have regulated him."

"Piso" was bought by Cpl. Augusta Rexach, of Puerto Rico, at a Panama City poultry market as a lost resort when local merchants were fresh out of alarm clocks.

The French town of Chateau-dun embodies the Cross of the Legion of Honor in its coat of arms, commemorating the valor of 1,000 citizens who defied an overwhelming German force in the Franco-Prussian War.

Sgt. Miles Caudle Describes Initial Mission As Easy

AN EIGHTH AIR FORCE STATION, England—Receiving his battle baptism in a recent Eighth Air Force Bombing attack on the German garrison holding out in a fort in the harbor of Brest, Sergeant Miles W. Caudle, 22, of Lamesa, engineer and top turret gunner on a B-17 Flying Fortress, returned to describe his initial mission as "quite easy."

They didn't have many flak guns inside the fort," he said. "That's what made it easy. Also, it was not a long mission. We came in at 12,000 feet for the bombing which is low altitude for B-17's, but it was a small target and we wanted to be sure and hit it."

Sgt. Caudle is a member of the fortress group commanded by Colonel Bostrom, which is one of the many that are continuing to strike at Nazi war industries and troop concentrations like the garrison at Brest even as allied ground forces penetrate the borders of Germany itself. His group is a unit of the 3rd bombardment division which was cited by the president for its historic shuttle bombing of Messerschmitt Aircraft Plants at Regensburg, Germany.

The flyer is the son of Mr. and Mrs. James E. Caudle of Route D, Lamesa. He was bookkeeper with the Planters Gin Co., in Welch before he entered the AAF in September 1942.

Sgt. Jack Busby Has Arrived Overseas

Mr. and Mrs. C. L. Busby of this city have received a letter from their son, Sgt. Jack Busby, stating that he has arrived overseas. He is now stationed in New Guinea and writes that he is doing fine.

Sgt. Busby, a member of the Air Corps, was stationed at Big Spring for 2 years before he was assigned overseas duty.

Cpl. Chilton Serves As Driver For The Quartermaster Unit

WITH THE FIFTH ARMY, Italy—Cpl. Rufus Merle Chilton, son of Mr. and Mrs. W. R. Chilton, who reside at 502 South Austin, Lamesa, serves as driver in an 85th "Custer" Division quartermaster truck company, and played an important role in recently operations on the Fifth Army front in Italy.

As line troops advanced and supply routes were stretched, his job became more difficult. Often he had to make long night trips on dangerous roads and go two or three days at a stretch without sleep.

He had to be alert for enemy bombing and strafing, artillery concentration and mines as he crossed territory that had just changed hands along the front. Adverse weather conditions are routine liabilities in this business, which may delay but never postpone the flow of troops, ammunition, water, rations, gasoline and other supplies going up.

He carries his rifle with him always and can use the machine gun on his truck when the occasion demands. Cpl. Chilton is personally responsible for maintenance of his own vehicle in good operating order.

His wife, Jacqueline, lives at 519 Elizabeth Avenue, Hattiesburg, Mississippi.

David L. Bond Jr., Is Commissioned Ens.

David Lee Bond, Jr., recently graduated from the Naval Air Training Center at Corpus Christi, and was commissioned an ensign in the U. S. Naval Reserve.

He received his preliminary flight instruction at the St. Louis, Mo., naval air base.

As a Naval Aviator, he is an expert flyer, navigator, aerologist, gunner, and radio operator. Naval Aviators fly carrier-based or land-based planes in combat zones, or at Naval Air Stations at home and abroad.

Ens. Bond is the son of Mr. and

Mr. and Mrs. Marshall Cohorn and children, Mrs. J. C. Hall and children spent Sunday with their sister, Mr. and Mrs. Mark Crow of Big Spring.

Mrs. Roy Brooks and James Royce have returned home from Glen Rose.

Mrs. Ralph Bucy and daughter Martha, Misses Lois Barnett, Rose Mary Dawkins, Gladys Brooks, Dorothy Harbaugh and Billie Louise Hutchings of Lubbock spent Friday he re visiting in the home of Mr. and Mrs. M. C. Lindsey. They also attended the Lubbock-Lamesa football game Friday night.

Raymond Bryson Hatch, son of Mr. and Mrs. Raymond Hatch of this city, who is a student of Schreiner Institute, Kerrville, has recently received his promotion to Sergeant.

Drux, French town 40 miles west of Paris, was captured and burned by the English in 1188, was the first battlefield of the Huguenot wars in 1562, was besieged by Henry IV of England in 1593 and captured by the Germans in 1870.

Fish do not close their eyes during sleep.

Mrs. David L. Bond, who reside on Route 1, Ackerly.

TOWN and FARM IN WARTIME

U. S. WILL BUY 1944 WHEAT

The War Food Administration through the Commodity Credit Corporation will buy all unredeemed 1944 crop wheat under loan May 1, 1945, at parity prices (1944 loan rates plus 15 cents a bushel) less all carrying charges to the end of the storage year. In addition, Commodity Credit Corporation purchase prices for wheat in store in terminal and subterminal elevators, which is being acquired to meet feed wheat and other Government requirements, will be advanced from time to time during the season.

COTTON GOODS WILL BE "TIGHT"

The supply of cotton goods is "tighter" now than it has been any time during the war and is expected to remain "tight" for from one to two years after the collapse of Germany, the Office of War Information reports, on the basis of facts supplied by the War Production Board and the Foreign Economic Administration. Production is insufficient to meet military and civilian demands, and the market is short in basic types of cotton fabrics used in low-cost garments. The Pacific war will require more cotton, as the basic military clothing staple, whereas wool has been heavily used in Europe. Cotton fabrics such as certain denims and chambrays will continue to be needed by the military, and cotton duck is now on the urgent list. During the first six months after the fall of Germany the United Nations Relief and Rehabilitation Administration is expected to ask for 300 million yards of cotton textiles, and the food industry must depend upon cotton bagging due to a shortage of jute from India.

DUTCH DOBBINS TO THE RESCUE

When bad weather caused Allied pilots to drop supplies for air-borne troops outside their lines recently, Dutch farmers got out their horses and carts, picked up the supplies and delivered them to their air-borne Allies, Aneta, official Netherlands News Agency, reports.

USE SAME "A" COUPONS NOVEMBER 9

The 17 East Coast States and the remainder of the country will get together on the same "A" gasoline coupons November 9, when "A-13's" in the renewal ration books will be good throughout the country, the Office of Price Administration has announced. The last strip of coupons in the books of East Coast motorists, the "A-12's", will not be used. Only three of the "A-13's" will be good for East Coast motorists, because they will be used only for six weeks. On December 21, all "A-13's" will expire throughout the country, and on December 22, "A-14's" will be good. East Coast motorists will be advised locally to apply for renewal of their "A" rations before November 9. Motorists in the rest of the country already have their new ration books.

SUGAR FOR SMALL "JAM SELLERS"

Sugar for making home-made fruit butters, jams, jellies and other processed food for sale—even though these products are ration-free—may be obtained by farm families, housewives and others to the extent that they used sugar for this purpose in 1941 or to the extent of 250 pounds, whichever is greater, OPA says. Prior to September 27, sugar was not authorized for home-processing non-rationed or point-free foods for sale. Application for sugar for this purpose should be made to the local War Price and Rationing Board, OPA says.

FREE JOB CHOICE FOR VETERANS

All manpower controls have been removed insofar as veterans of the present war are concerned, the War Manpower Commission announces. Veterans do not need statements of availability in order to change jobs, they may be hired by any employer without referral by the United States Employment Service, they may be hired without regard to employment ceilings and in seeking employment through the USES they are entitled as a matter of right to a referral to any jobs of their choice, without regard to essentiality or priority status of such jobs.

SCHOOL FOR VETERANS OVERSEAS

After the defeat of Germany,

education or practical training for civilian jobs will be offered soldiers in the army of occupation and those awaiting shipment home, the War Department says. Soldiers may choose the phases of the program they desire, but they will be encouraged to select activities having bearing on their individual postwar plans. Academic curricula will range in level from the sixth grade through second year college and will include courses in liberal arts, scientific and pre-professional fields. Special classes will be provided for soldiers whose ability to read and write is below fifth grade standard. In mechanical and technical courses and in practical training for trades and vocations, equipment of the signal corps, quartermaster corps and ordnance department will be used.

FURLOUGH RATIOS INCREASED

Inasmuch as processed foods are now valued only in multiples of 10 ration points, the ration of these foods for service men on leave or furlough for 72 hours or more have been increased from eight to 10 points for each nine meals, OPA announces. Civilians eligible for temporary food rations will be issued

processed food rations on the basis of 10 points for each seven days.

SEVEN YEARS OF CASUALTIES

The Chinese Army from July 7, 1937, to June 31, 1944, suffered 2,802,220 casualties, to say nothing of the civilian casualties, of which there are no accurate statistics, the

Chinese news service reports. The only consolation the Chinese have is that during—approximately the same period the Japanese had 2,144,000 army casualties on the China front besides the 600,000 they suffered in the rear.

The tablelands of Tibet vary in height from 14,000 to 17,000 feet.

What To Do With Germany After War Discussed

At a joint meeting of the Lions and Rotary Clubs held at noon Friday in the basement of the First Methodist Church in this city, Olin Culberson, Railroad Commissioner of Texas, gave the principal address.

He discussed in detail what should be done with Germany after the present war ends. Culberson said that it was his opinion that Germany had been dominated by a group of Prussian generals over a period of 1,000 years or more, who had tried for a long period of time to develop world rule by attempting to establish in the peoples mind that they were a superior race.

He said that he felt that the Prussian generals had led their people for some time, and had taken Hitler in their circle as a medium to reach the people. It is his theory that "Mein Kampf" was not an original work of Adolf Hitler, but was merely a copying of the Prussian rulers' philosophy.

Commissioner Culberson quoted several correspondents and others, who have been in Germany and are familiar with their beliefs, in his that "Mein Kampf" was not an original work of Adolf Hitler, but was merely a copying of the Prussian rulers' philosophy.

It was Culberson's belief that in order to prevent other wars, the Prussian generals who have controlled the German people, must be eliminated through some method.

Commissioner Culberson was introduced at the meeting by M. C. Lindsey.

Approximately 150 Lions, Rotarians and their guests were present for the Friday session.

FREE CULLING SERVICE

The Government recommends all poultry be culled at least every six months. This is to conserve feed as well as to help you get peak production from your flock.

The Government also recommends the marketing of all hens over two years of age. Mortality rate increases and production decreases in older hens. We are co-operating with the government by furnishing this free service to the producer.

MINERALS MINERALS

We have plenty of minerals while they last. Those who have feed to spare need not bother with MINERALS; just give their stock or poultry time and they will feed enough to get most of the MINERALS they need.

The farmer who wants pay for the sweat he leaves in the field should see me about MINERALS. Our MINERALS are of the highest quality and my prices are the lowest.

SPECIAL GLASS PROTECTS
TOLEDO, O. (AP) — If you could visualize the amount of electrical energy needed to light 1,250 average U. S. homes, you'd have some conception of the power used in burning the gigantic searchlights guarding U. S. coastlines against aerial attack. Yet the glass faces of such searchlights don't crack or chip from the intense heat.

Technicians of the Libbey-Owens-Ford Glass company developed the special heat-tempered glass used in 800,000,000-candlepower searchlights. During preliminary tests, the glass is subjected to 140 degrees of heat for three hours. Then it is plunged into cold water. The tests, the technicians say, proves the ability of the glass to withstand sudden cooling by rain or sleet.

Lt. Fred Flaniken Cited For Heroic Action In Europe

According to an announcement from the 15th AAF in Italy, Lt. Fred M. Flaniken, 25 year old son of Mr. and Mrs. J. R. Flaniken of this city, is now the proud possessor of the blue ribbon designating that his unit, the oldest heavy bombardment group in the European Theater, has been cited for "heroic performance of duty against the enemy."

The action for which his organization was cited occurred on September 24, of this year, when they led the heavy bombers of the 15th Air Force against the aircraft factory and installations at Steyr, Austria.

Despite fierce attacks by more than 100 enemy fighters against their unescorted formation, the Fortresses fought their way through to bomb the target successfully. The gunners destroyed four enemy fighters, probably destroyed three and damaged two others, while their own losses were one man killed and

one wounded. In all more than 35 enemy fighters were destroyed by the other bombers and their fighter escort that aided in destroying the manufacturing center.

In presenting the award, Major General Nathan F. Twining, commanding general, stated, "The folks at home are now doubly proud of the oldest heavy bomb group in the European Theater."

Lt. Flaniken is a graduate of Lamesa High School and was formerly employed by the Gulf Oil Corporation. He enlisted in the Air Forces January 28, 1943 and received his wings April 8 of the following year. He has been overseas one month and earned the Air Medal and the European-African-Middle East Theater ribbon. His first mission was the August 6 attack on the railroad yards at Odertal, Germany.

His wife and son, Bob, reside at 212 Taft Street in this city.

Mrs. H. H. Lybrand and two sons returned Monday from Camp Hood where they spent the past week visiting with Mr. Lybrand who is in service.

Mrs. W. L. Lee visited with Mrs. Bill McDougal and baby of Lamesa Friday.

"They've served me well
during the war"

After nearly three years of war, many Texas housewives can point with pride to their faithful electric appliances. In these days when extra time is needed for war work or other worthwhile activities, these electric helpers on the home front are called on more often than ever to save time and energy.

Although wartime restrictions on the manufacture of a few electric appliances are being relaxed a little, many months may pass before new appliances are available in quantity.

Ask at our office for helpful free pamphlets on the care of various electric appliances. When expert repair work is necessary, take them to an electric repair shop where they can get the proper attention. Remember, most electricians are extra busy these days, so allow plenty of time for repairs.
