

## State Conservation Committee Releases Latest Rulings

College Station, Tex.—Three supplementary recommendations of the Texas State Committee of the Soil Conservation program have been approved by the Secretary of Agriculture, it was announced today by A. L. Smith, executive secretary of the State Committee, and Jack Shelton, vice director and state agent of the Texas Extension service.

The first of the recommendations approved is that the term "soil conserving crops" has been ruled to mean any crop on crop land upon which an approved soil-building practice is carried out in 1936 and from which no soil-depleting crop is harvested in 1936.

The second recommendation that was approved for the State of Texas states that sorghum or millet when seeded on crop land between January 1, 1936 and July 31, 1936, if all the crop is left on the land or plowed under, will be regarded as a soil-conserving crop.

The third approved recommendation is in regard to a soil-building practice which states that any sorghum, sudan grass or millet will receive a soil-building practice payment at the rate of \$1 per acre when seeded on crop land between January 1, 1936 and July 31, 1936 and all the crop is left on the land or plowed under, providing that all the requirements for grant are complied with.

## Many Back Taxes Paid With Loans From Government

Payment of over \$3,985,400 of State and County taxes in Texas has removed the names of thousands of farmers from delinquent tax lists and helped to reduce farm tax sales in the State to half the 1933 level, according to A. C. Williams, president of the Federal Land Bank of Houston.

Some 29,900 Texas farmers refinanced their debts through the Federal land bank and Land Bank Commissioner since the Farm Credit Administration was organized and, in many instances, the loans included funds to pay back taxes owed by farmers to local tax authorities.

The total amount loaned for the purpose equals an average tax payment of about \$140 per farmer refinanced.

The \$3,985,000 cover tax payments in connection with \$139,850,000 of land bank loans made in Texas from May 1, 1933 to January 1, 1936. About 23 per cent of this amount was used for tax payments.

Payment of back taxes as a result of Federal land bank refinancing has provided timely assistance to the various counties to pay school teachers, county officers and meet other local government expenses.

## Revival Meeting At Christian Church Beginning June 2

Beginning Monday night, June 1, a two weeks revival meeting will be held at the First Christian church, north Second and Houston streets, with Evangelist Irye L. Townsend joining the preaching. Rev. Townsend was pastor of the church several years back, and has a host of friends here among all church people who will be happy to hear him again and to welcome him back to Lamesa.

After leaving the pastorate of the church here, he was pastor of the First Christian church at Sweetwater for seven years, and is now in the Evangelistic work with headquarters at Las Cruces, N. M.

Morning and evening services will be held each day during the meeting, and everyone is most cordially invited to attend them all.

## Square Dance To Be Feature Of Ft. Worth Frontier Celebration

Fort Worth—The World's largest square dance will be the finale for the Last Frontier, one of the major attractions at the Fort Worth Frontier Centennial which opens July 1. Approximately 500 cowboys and cowgirls will dance in this spectacle.

This mode of dancing—still popular in the ranch lands of the Southwest—will contrast with such modern terpsichorean creations as the flame dance to be introduced by Sally Rand at Billy Rose's \$5,000,000 amusement center.

Cowboy boots and ten gallon hats will also contrast as dancing garb with the feathery, metallic and sheer costumes to be worn by other dancers and the electric flames which will be substituted for her fans by Sally Rand in the dance she will present for the first time at the Fort Worth Frontier Centennial which opens July 1.

A special audition was conducted here Tuesday night by Billy Rose who has made several trips to the square dances conducted around Fort Worth in search of talent for the Last Frontier, one of the major attractions at the centennial playground he is creating in Fort Worth.

With the square dances in the Last Frontier, acrobatic dancing in Jumbo, ballet and other forms of stage dancing in the Casa Manana along with Sally Rand's new creation, the evolution of dancing will be shown at the Fort Worth Frontier Centennial.

## Lamesa Swimming Pool To Open Summer Season

A water carnival to be held at the swimming pool south of town Saturday will officially initiate a season of aquatic sports and other recreational activities there this summer for the people of Lamesa. Trust Rivers has leased the pool and fixtures for the present season and is expending several hundred dollars in improving and modernizing the plant and adjacent amusement park facilities.

Although the pool will be opened to the public Friday, the carnival will not be held until Saturday, when more people will be enabled to attend. Included on the program for that day will be diving and swimming contests, tub races, and other attractions. In the diving and swimming contests, there will be separate events for boys and girls and for juniors and seniors in each division. Prizes consisting of a week's free access to the pool will be awarded to the winner of each event.

The grounds adjoining the pool will be utilized for other recreational activities where two croquet courts and grounds for horse-shoe pitching will be available. Other improvements, which have been underway this week include painting the inside of the pool and reconditioning of the building, on the second floor of which are being installed tables and equipment for operation of an ice-cream parlor.

## Diving Contests At City Swimming Pool Saturday Nite

The first amateur diving contest of the season is to be held at the city swimming pool Saturday night. There will be four main divisions: boys, girls, men, and women divisions. Prizes will be awarded in each event. Competent judges will present the awards.

Free classes in swimming and diving will be conducted three days each week during the month of June. A local team of expert swimmers and divers is being organized and will compete with other West Texas teams in a water tournament the latter part of June.

## James Garland Injured When Run Over By Automobile

James Garland, son of Judge and Mrs. J. E. Garland, sustained very painful and near-serious injuries last Saturday night about 11:30 o'clock when he fell from the "strip-down" Ford that he and several other boys were riding on, and the car following closely behind them and being driven by Jess Burleson ran over him, before it could be stopped.

James was rushed to Lamesa at once where medical aid was obtained. It was thought at first that perhaps his back was broken but an X-ray picture showed that it was only sprained and one vertebra had slipped perhaps an eighth of an inch. He is also suffering from severe bruises and skin abrasions but is improving even more rapidly than attending physicians had anticipated.

## Highway 15, West, Opened To Traffic

Grading, drainage and the caliche base on 16 miles of Highway 15, west to the county line, has been completed and the road was opened to traffic on Monday of this week.

## Rains Of Week Raise May Fall To 1.18 Inch

Gentle, soaking rains which have fallen at frequent intervals throughout the week and amounting to .92 inch, brought the total precipitation for the month of May up to 1.18 inches, and prospects are good for still more.

The rain has been general throughout most of the county. Unofficial reports have reached us of four inches and more in some sections and only showers in others but reports from many sections of the county are that the farmers have received an excellent planting season. The rain fell so slowly that it did little damage to seed already in the ground.

The Plains area as a whole has the best May moisture since in 1902, according to reports.

Grange and Farm Organization Day at the Texas Centennial Exposition in Dallas will be July 30. More than 30,000 members of the Grange will greet National President L. J. Taber of Columbus, Ohio, on that day.

## State Tax Rate Is Reduced 15 Cents

Austin, Texas—The state ad valorem tax rate has been reduced from 77c to 62c and the State will have a cash balance of more than three million dollars in all of the operating funds, except the Confederate Pension fund, at the end of the current fiscal year, Gov. Allred told the Texas Bankers Convention last week.

"This cash balance of three million dollars," the Governor said, "will be maintained even after the increase of the scholastic per capita apportionment from \$17.50 for the current year to \$18.50 by the State Board of Education."

The \$18.50 per capita apportionment is the largest ever made by the State of Texas. It will effect the destiny of about 1,558,000 scholastics.

## WPA Workers Help In School Libraries

Work of WPA employees has developed and extended school library facilities to keep pace with growing student bodies, was disclosed in a statement from R. H. McNew, district director of the WPA, recently.

Books worn until they were useless for library purposes have been reconditioned and replaced on library shelves. Additional books supplied by the project sponsors have been catalogued and classified. Workers complete volumes from which pages have been torn by copying the missing sections from similar books. Newspapers and other periodicals have been indexed, catalogued, bound, and made available for student and faculty reference and research work.

Appreciation for the library work being done in Lamesa was expressed by V. Z. Rogers, Superintendent of the schools. Praising the work of these WPA employees, Mr. Rogers wrote Mrs. Mary Delbridge, District Supervisor of Women's Work, as follows:

"The library project in the local schools has been of more worth to us system, pupils, and the workers than I can estimate in full. The care of books, the help rendered in seeking subject matter, the orderly habits of procedure established and enforced, the repair of books and the filling of periodicals and magazines, and proper use of newspapers have all made for improvements in the local situation."

"The workers have become more and more proficient and have been loyal in every respect."

## PLAY TO BE PRESENTED AT FIVE MILE FRIDAY EVENING

"Cabbages or Dollars", a three-act comedy play will be given at the Five Mile school house, Friday night, May 29.

This play has plenty of comedy and you are assured of two hours of enjoyment. All candidates are cordially invited to come and each will be given time to speak. Funds from this entertainment will go for the power and light plant for both school and church houses. Admission charges will be 10c and 15c.

## Game Protective Association Enjoy Chicken Barbecue

The Dawson County Game Protective Association met Monday night, and on account of the rain, the meeting place was changed from the City Park to the Sunday School Rooms at the Baptist church. About 40 members and their wives enjoyed a real chicken barbecue with all the things that go with it. Elmer Barron, past president, acted as toastmaster, and introduced Bro. E. F. Cole, speaker of the evening, who delivered an interesting address. Next the chairman introduced Mr. Donnelly, game warden of Lubbock District who in turn introduced Mr. Bill McMillan of Lubbock who then gave a lecture illustrated by motion pictures of his big game hunt in Alaska and also exhibited some pictures and trophies secured on this hunt.

The next meeting will be held on the Fourth Monday in June at some place to be designated at a later date and at this meeting a squirrel barbecue will be served and a good program including an address by William J. Tucker, executive secretary state game and oyster association. This address will be illustrated by motion pictures of a big game hunt in Old Mexico and Field Trial meets.

Everyone who is interested in the preservation of wild life are invited to join this Association by paying the dollar dues for the year.

## Eight Weeks Of Summer School To Be Conducted

Summer school will begin next Monday, June 1, and continue for eight weeks, six days a week. Classes will be held in the high school building with F. L. Gregg in charge of algebra, trigonometry, plane and solid geometry, and Henry Norris in charge of the history, English, civics and economics classes.

One hour and thirty minutes per day will be devoted to each subject and the tuition will be \$10 per course. If you are interested in other courses you may inquire about them next Monday.

## Lawn Services For Summer To Begin Saturday, June 6

The first religious services of the season to be held on the Court House lawn will be Saturday, June 6, at 3:00 p. m., with Rev. M. M. Beavers pastor of the Methodist church doing the preaching. The people of the community are urged to attend. All the singers of this territory are invited to come and help in these services.

These services will be held each Saturday afternoon throughout the summer with pastors of the various congregations in the city, in charge.

## Funeral For Alene Frances Clements Friday

Death came to Alene Clements Friday afternoon, May 22, at 2:45 o'clock. Funeral services were conducted from the Klondike Missionary Baptist church, Saturday afternoon at 2 o'clock with Rev. E. F. Cole and Rev. Cundiff officiating.

A quartet composed of Mr. and Mrs. W. W. Beman, Mrs. R. W. Mitchell, and S. M. Latham sang "No Tears in Heaven" and Mrs. R. W. Mitchell, a great aunt of the deceased, sang "Well Understand it Better By and By." Interment was in the Lamesa cemetery by the side of her father who preceded her in death only a few months.

Survivors were: Wayne Webb and her uncles, Johnny Corbin, Jimmie Corbin, Billy Corbin, J. R. Clements and Bill Clements. Flower girls were her little playmates: Clois Aslin, Ruth Slaton, Drucilla Thorp, Dorothy Paintner, Wanda Joe Teague, Betty McKinney, Ruth Bulsterbaum and Ray Corbin.

She is survived by her mother, Mrs. Mary Clements, two brothers, Ray and George, an infant sister, Billie Jean, and a host of other relatives and friends.

Had she lived until August 3, she would have been eight years old. We know that she has gone to a world where there is no heartaches and suffering and has gone to make her home in heaven with her daddy who passed away seven months ago. Her lovely face and sweet smile will be missed while we live here on earth but a precious jewel is awaiting our coming. To those who grieve we say:

Weep not or be sad:  
Still on the Savior rely:  
You shall behold her again and be glad.  
A beautiful flower on high,  
Blooming in beauty in heaven they wait.  
Blooming for you and for me:  
Follow the Lord, tho' the city be far,  
Till our bright blossom we see.

## Otis Little Makes Statement to Voters

To the Citizens of Dawson County: As the time approaches for the selection of your public servants, I feel that I must express my appreciation of the encouragement that comes to me, as I contact the voters of Dawson county, in behalf of my candidacy for the office of Sheriff.

Proving my sincerity, I wish to say that, trying to profit from the mistakes that I, like other human, normal men have made, and desiring to do more of the better things, I pledge anew myself, in giving to the people, a clean, honest service, worthy of your trust.

It is my intention to see each voter, but if every friend will make for me another friend, we shall go into this office to work hand in hand for the betterment of our county, with a fellowship that knows no partiality, thereby making our communities a place where the best people want to live.

Otis Little.

## BOY SCOUT PRESS CLUB MEETING HELD

Press Club Representatives of the various Boy Scout troops gathered at the Tree Top Inn in Lubbock Tuesday evening this week to perfect their organization. Local editors from the various towns of the council were also in attendance. Following the meeting they made a tour of the Lubbock-Avalanche-Journal newspaper plant.

The Boy Scout Press Club is made up of local troop representatives of the council. Each press club reporter writes stories covering local Scouting activities which are turned in to his local newspaper and scout office each week.

Local members of the press club are Richard Crawley of Troop No. 22 and Homer Simpson of Troop No. 23.

## Dawson County Receives \$50,000 RFC Money

San Antonio, Tex.—Loans for refinancing purposes authorized by the Reconstruction Finance Corporation for Dawson County through February 29 have amounted to \$50,000, it has been announced by H. P. Drought, state director of the National Emergency Council for Texas.

Disbursements for this county have aggregated \$50,000 Drought added.

Total authorizations for RFC loans in Texas through February 29, amounted to \$118,175,221.29 and total disbursements were \$96,735,019. These loans were distributed through more than two hundred Texas counties.

Grand total of RFC loans throughout the nation amounted to authorizations of \$7,852,038,202.30 and disbursements of \$5,916,482,390.77, according to a recapitulation taken as of February 29. Drought was informed by Washington officials.

## JOHN GARNER ATTENDS OLD SETTLERS MEETING

J. D. Garner, of Rogers, N. M., was one of the pioneers here to attend the Dawson County Old Settlers meeting last Wednesday. While here he was a pleasant caller at the Courier office and ordered the Courier sent to him so he could keep in touch with his old friends here.

Mr. Dawson, who was a member of the first Dawson County Commissioners' Court, settled here in 1903. In that year, he told the writer, he broke 100 acres of land south of Lamesa, which was the third tract to be broken in the county. Although he has been away from the county for eleven years, he still believes it is the finest country there is.

## Are You In The Red?

## Poppy Day To Be Observed Here Saturday, May 30

Poppy Day will be observed in Lamesa this year on Saturday, May 30th. When Memorial poppies to be worn in honor of the World War dead will be distributed throughout the city by the Allen-Houston unit of the American Legion Auxiliary. The Auxiliary women are making preparation for the observance of the day under the leadership of Mrs. Clarence Wilson, Poppy Day chairman.

The Poppies made of crepe paper by disabled veterans will be offered on the streets by volunteer workers from the Auxiliary unit.

"Poppy Girls" will distribute the flowers in the business district throughout the day. Contributions for the welfare of disabled veterans and needy families of veterans will be asked in exchange for the flowers.

"Wearing the poppy" is a personal tribute to the men who gave their lives in the country's service. By wearing a poppy on Poppy Day all can show they still remember and honor the sacrifices made for America during the World War.

"Wearing the Poppy" also gives the wearer a part in the vast work carried out by the American Legion and Auxiliary for the war's living victims, the disabled, their families and the families of the dead. Every penny contributed for a poppy goes to the support of this work, the bulk of the money being used here in Lamesa in the welfare activities of the local Legion Post and Auxiliary unit.

Mrs. J. A. Whited, Auxiliary President.

## A. P. Hamilton Winner In Last Week Of Contest

The concluding contest of a series of advertisements, which the merchants of the Courier for the past eight weeks, was won by A. P. Hamilton, Route B, Lamesa.

With interest in the contest steadily growing since the first week, so many corrected word lists were received at this office last week that it required much time and checking for the judges to determine the winner. The contest was a great success from every standpoint and we believe that those participating in it, even though they were not all winners, derived much pleasure as well as actual benefit from it.

## Earnest Motor Parts Co. Open For Business

The Earnest Motor Parts company, located on the west side of the square in the building formerly occupied by Davis Food Store, opened Monday of this week for business. They have in stock a complete line of parts and accessories for autos, tractors, washing machines, etc. See their ad on another page of this issue.

L. R. Tidwell, formerly of Lubbock, is manager of the new enterprise. He has this week moved his wife and small son to Lamesa.

## LUNCHEON CLUB HAS REGULAR MEETING

In the absence of Sam Richardson, who was to have had charge of the program, Owen Taylor presided as toastmaster.

Elmer Barron gave a very interesting talk on "Possibilities of Road Construction Throughout West Texas," informing the club that in the near future Highway 15 would be placed with U. S. Markings.

Little Misses Betty Sue White and Billy Jean Myers delighted the club with a tap dance number, accompanied by Miss Inez Sharp. Piano numbers by Mrs. Carl Rountree were highly enjoyed by the listeners.

C. A. Hollingsworth will be in charge of the program next week and Ray Williams will give a special feed. A large crowd is expected.

## AUDIT OF STATE BOOKS VERY SATISFACTORY

R. M. Halstead and N. B. Hill, tax supervisors from the State Comptrollers department, have just completed an audit of the state's books in the local Tax Collectors office from July 1933 to June 30, 1935. The audit revealed all reports very satisfactory.

Messrs. Halstead and Hill have been in Lamesa for the past ten days and state that they have enjoyed their stay in Lamesa very much.

## Club News

### WILSON 4-H CLUB GIRLS HONORED

On the regular meeting day, May 21, the Wilson H. D. club honored the 4-H club girls with a party in the home of Mrs. G. C. Harrison.

During a short business session Mrs. O. H. Khrono presented the club with a Wedding Ring Quilt top and Mrs. J. B. Anderson gave the cotton to be used in finishing it. It will be quilted the first week in June and will be sold for funds to replenish our treasury.

After a number of games were played a luncheon plate containing steak, creamed potatoes, peas and carrots, tomatoes, bread, pineapple pudding and iced tea was served to seventeen women and girls.

### CENTRAL H. D. CLUB

The Central Home Demonstration club met May 20 in the home of Mrs. L. A. Sasser. The meeting opened with the club prayer. After the regular business was attended to the meeting was turned over to Miss Phenix who brought a lesson on "The value of Vitamins in the diet" and discussed several different points in the canning budget.

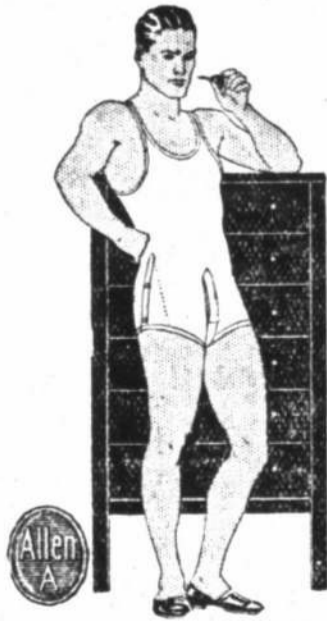

After those present had visited the garden and orchard, refreshments were served to nine members and five visitors. Two new members were received.

We, having no girls 4-H club to entertain, decided to entertain our husbands with a social at the city park, Monday, June 1, at 6 o'clock p. m.

Reporter.

### THANKS

The Fairview Home Demonstration club ladies wish to thank the candidates of the county for the success of the pie supper held at Fairview last Friday night.

## LAMESA CIRCUIT FIFTH SUNDAY RALLY AT BALLARD

There will be an all day rally program for all churches of the charge at Ballard next Sunday. In the forenoon there will be Sunday school, special music and a lay sermon by Hon. R. C. Dial.

Lunch will be served 'on the ground' and a social hour enjoyed.

The program for the afternoon will consist of a sing-song, special music, quartets, duets and short talks on different phases of church work by representatives of the churches of the circuit and others including Rev. M. M. Beavers. The program will be worth while and enjoyable for all who come.

We hope to have a good representation from all churches and communities within the bounds of the charge and make this a real worth while day. Let us especially make this a red letter day for the Ballard community. May the whole community come for the morning services and bring well filled baskets (boxes) and spend the whole day together with the outside guests.

Among other subjects to be discussed will be "Rural home, past, present and future" by Miss Mattie Phenix; "Rural schools, past, present and future" by Miss Pauline Bulsterbaum; and "Rural churches, past, present and future" by Rev. M. M. Beavers.

J. A. Wheeler, pastor.

# FARM NOTES

By Joe C. Williams, County Agent

## Final Date for Sign Up Extended.

According to a letter from the State Board, the final date for the sign up program has been extended to June 10. After that date it will be impossible for any one to fill out a work sheet and get into the program for this year. Again let us urge that every farmer fill out a work sheet as there is no obligation attached to these who fail to fill out work sheets will be unable to get into the program the following year unless a base is established. To date there are over six-hundred and eighty producers who have filled work sheets which leaves approximately two hundred more to fill out according to the number of Bankhead applications that were filled out during 1935.

## Changes in Regulations:

Producers will note the following changes have been made in regard to plantings and practices for qualifying for the grant of money for the New Program signers.

One row or two rows of feed and one row or two rows of peas are permitted to be planted and qualify for the payment. The limit that any one can receive for the leased land is one dollar per acre for the total amount of the leased land regardless of the crop planted or the practice. In other words in case a producer plants all the leased land to peas the payment schedule is \$2.00 per acre when turned under green. However the limit such producer can receive is \$1.00 per acre.

Some want to plant part sugar and part peas on the leased land. This is permitted, also strips of peas, sudan, cane or soy beans are permitted but a producer must have the number of acres leased in the crop that will qualify him to receive the grant.

Grazing sudan or harvesting for seed is permitted. However to qual-

ify for the payment the producer shall leave the crop on the land as a soil builder. In other words unless the crop of cane, sudan, or peas is left on the land he does not qualify for payment of the one dollar per acre.

Peas planted in cotton with the one or two rows of cotton will not be permitted and qualify for the payment.

## Treatment for Smut in Sorghums or Feed Crops:

**Powdered copper carbonate:**  
Applied at the rate of two or three ounces per bushel in the powdered form will give practically 100 per cent effective for prevention of the smuts. Suggested way of treating for the smuts is: Use an old lard can or barrel filled about half full of the seed to be treated, add the copper carbonate in the proportion mentioned above and mix well in order to get every seed coated with the dust.

A cloth or handkerchief should be tied over the month and nose to prevent burning of the nasal passages.

Ceresan may be used also to good advantage which gives about the same protection to the grain against smut. Follow the directions as outlined on the container of the ceresan in case that is used.

These products can be found at practically any of the drug store in Lamesa. The cost is so small and the results so good that any producer can not afford to stand back on the treatment even though no smut has appeared in the grain sorghums and cane.

## Rat Destroyer:

There are several preparations on the market that will kill rats and some that will not kill anything else but rats. The one that has given most satisfaction is Red Squill Powder, which kills rats only and is harmless to poultry, hogs and other livestock that might get the powder.

The method used most satisfactorily is: Mix two ounces of the powder with two pounds of cheap salmon in the manner as sausage is mixed, place balls of the mixture the size of an average marble on a newspaper that has been cut in quarters, one ball to each piece of newspaper and twisted up. Place around the places where the rats use late in the afternoon or at night. The rats will cut into the paper and get the contents which will prove fatal to the rat that eats the mixture. Of course a rat will have to eat any poison before he will be killed. I would suggest that at first the plain salmon or ground meat be used without mixing any of the Squill in the same manner as the mixed preparation be put out to see if the rats will take the meat. In case they eat the plain salmon wait about one week and put out the mixture. You should get the expected results if taken by the rats.

## Fly Control Measures Should Be Taken Now

Austin, Tex.—Thousands of children and adults die every year from diseases carried by the fly. Typhoid fever, tuberculosis, summer complaint, cholera, intestinal diseases, and frequently death follow closely in the trail of the common house fly.

"The control of the fly menace comes at the top of the list of necessary public health measures which should be applied by every city and community in the State," urges Dr. John W. Brown, State Health Officer. "The most effective measure for control is to prevent breeding," he said. "Flies breed in filth, and about eight days are required to complete a life cycle. During her life time of several months, one house fly lays from 600 to 1000 eggs. Thus it can easily be seen that in a season which usually begins in the spring of the year, the descendants from one fly number countless thousands.

"To eliminate flies the breeding places must be destroyed. Manure piles, garbage, and other organic filth furnish the requirements of warmth, moisture and food necessary for the propagation of the fly. Flies should be kept from contact with food or drink or utensils in which such food and drink are prepared and served. Likewise they should be kept from access to privy vaults where they pick up the infections, which they later spread to humans by contact with the food and drink, and by unwashed hands and utensils.

"See that your windows, doors, and porches are screened so that the stray fly from some careless neighbor will not molest your family. See that your grocer keeps meat, vegetables, and fruit screened from flies.

"Organize health measures to destroy the breeding places, control the flies access to your home and food, and establish standards of cleanliness in your community that will eliminate the fly."

Thomas Cole sustained a broken left arm last Thursday night in a fall.

THE *New* **Firestone**  
HIGH SPEED TIRE for 1936

**AVOID accidents—take no chances—buy your tires on Proof of Performance!** Make sure that you and your family will be safe! Skidding, blowouts and punctures caused more than 37,000 accidents last year. Many of these accidents could have been avoided with safe tires.

The new Firestone High Speed Tire for 1936 is the safest driving equipment you can buy. Here is your proof:

**PROOF OF GREATEST NON-SKID SAFETY**  
A leading university made 2,350 tire tests and found that the new scientifically designed Firestone High Speed tread stops a car up to 25% quicker than other tires.

**PROOF OF GREATEST BLOWOUT PROTECTION**  
Every year, since Firestone developed the Gum-Dipped Balloon tire, Firestone Tires have been on the winning cars in the gruelling blowout test of the Indianapolis 500-Mile Race.

**PROOF OF GREATEST ECONOMY**  
Firestone engineers designed the new Firestone High Speed Tire for 1936 to give you up to 50% longer non-skid mileage. This is proved by our own test fleet records and the fact that the world's largest transportation companies, such as Greyhound, to whom safety and tire economy means business efficiency, use Firestone Tires. This is further proof that they are the safest, most economical tires ever built.

Why risk an accident when it costs so little to protect lives worth so much? Equip your car today with new Firestone High Speed Tires—the Masterpiece of Tire Construction.

**WANTED  
ONE MILLION  
MORE MOTORISTS  
TO TRY  
PHILLIPS 66  
POLY GAS**

Something big, new, and important has happened to gasoline... something dramatic and exciting... an improvement so outstanding that recent estimates indicate 1,000,000 motorists have switched from peppy, low-mileage motor fuels to Phillips 66 Poly Gas.

During May, to add another million drivers to our many millions of satisfied customers, we urge only one trial tankful. We do so because we realize that any statements of ours—no matter how sincere—are merely "claims" to you until Phillips 66 Poly Gas has made good in your motor.

Whether you judge it by the way your car sprints from a traffic light, sweeps up hills, or eats up the straightaway; you will quickly feel that difference.

The extra energy units of POLYmer-

ization... the accurate monthly re-balance of qualities to match your weather... the higher test and higher anti-knock—these combine to give you more power and more miles, snappier pick-up and sweeter running. All without paying a penny extra per gallon.

But these statements hit only the high spots in the story which your own motor will tell you. And it's a continued story of top performance and utmost economy for every regular user of the new Phillips 66 Poly Gas.

The very next time your gasoline gauge is low, remember that you have an appointment at the Orange and Black 66 Shield.

**An Exceptional, Long-lasting Oil**  
No effort or expense is spared by Phillips to make this lubricant worthy of being called "our finest quality." It resists heat, fights friction, and maintains its rich body under severe service conditions. It is genuine premium quality at only 30¢ a quart, in refinery-sealed cans. In bulk, 20¢ a quart.

**Boon To Sufferers**  
 Helps Build Red Blood—Tones Up The System—Increases Energy  
 Increasing numbers of Lamesa men and women are receiving the wonderful benefits of Williams S. L. K. Formula, the prescription of a Missouri doctor, which was only recently introduced in this city. Many people feeling "run-down", weak, without appetite or zest for living declare that this new tonic preparation has helped them to feel better than they had for years. Williams S. L. K. Formula helps build red blood corpuscles, tones up the system. It is a mild stomachic tonic, and is mildly laxative and a diuretic stimulant for the kidneys. Men and women need red blood to feel their best. They need system cleansing elements which help to eliminate poisonous waste matter. Williams S. L. K. Formula has been declared a blessing by many weak, run-down, ailing people and you can try it under a positive guarantee of money back if the first bottle does not produce results. Get a bottle today and start taking it.

**SHUMAKE H. D. CLUB**  
 The Shumake Home Demonstration club met Wednesday, May 20, in the home of Mrs. Houchin.  
 Several interesting topics were discussed. Refreshments of punch and cake were served to five members and three visitors.  
 The club will meet June 3 in the home of Mrs. A. B. Maxwell with Miss Phenix in charge of the meeting.  
 Reporter.

**MIDWAY 4-H CLUB**  
 The Midway 4-H club girls met at Hancock school house last Thursday May 21. The mothers of members were entertained with a program and five of the mothers and eight girls were present.  
 Miss Mattie Phenix met with us and we discussed our gardens and how to get rid of insects. Our next meeting will be held at the Mullins school house, May 28.

**MUNGER H. D. CLUB**  
 The Munger Home Demonstration club will meet next Friday, May 23. Miss Mattie Phenix, county home demonstration agent, will be with us at this time and give a demonstration of relishes and sauces. The meeting will be held at 2:30 p. m. in the home of Mrs. C. B. Smith.

**FAIRVIEW CLUB NEWS**  
 The Fairview 4-H club girls met on May 19 with their demonstrator taking charge of the meeting.  
 The club adjourned until our next meeting which will be held on June 2. This meeting will be held in the J. E. Towns home, at which time the ladies will entertain the girls.

**FAIRVIEW H. D. CLUB**  
 "Biting insects are killed by using stomach poison," said Miss Mattie Phenix to the Fairview Home Demonstration club at the home of Mrs. M. B. Gibson, May 19.  
 Sucking insects are a soft-bodied insect and a contact insecticide is used to destroy them.  
 New members of the club were Mrs. J. O. Anderson, Mrs. M. B. Gibson, Thelma Gibson, Rena Belle Anderson and Florence Flud. Others present were: Mesdames Mona Towns, M. F. Mitchell, Tatum, W. O. Robinson, E. L. Robinson, Estell Karr, G. R. Medley, O. G. Kelley, M. C. Lindsey, Nesta Barton, E. O. Fuson, Fulla Barton, W. E. Crump, Lee Anna Raney, Alice Kelley, J. B. Fuson, Offie Womack, Beatrice Kelley, Pauline Raney and Grandma Raney.

**SPARENBERG H. D. CLUB**  
 Friday May 22, the Sparenberg Home Demonstration club had an all day meeting and spent the entire time working on foundation patterns. We had as our guests and helpers Mesdames Speck, Weets and Stanzfield of Shumake club. Three patterns were completely made and one other started. At the noon hour a covered dish lunch was served which was enjoyed very much. In the absence of both president and vice president, Mrs. A. G. Turner presided at a short business session after which we adjourned to meet next at the home of Mrs. L. B. Stuart on June 5th at 2:30 p. m.  
 Mrs. E. J. Turner, reporter.

**BARTLETT H. D. CLUB**  
 The Bartlett Home Demonstration club met in regular session May 13 at the school house. A preceding demonstration was taken up and much benefit was derived from this demonstration on removing stains from clothing. Our next meeting will be with the agent at Mrs. Howard's on May 27.  
 The demonstration is a very important one on pickling and relish making. Every member is urged to attend.  
 Mrs. R. A. Avant, Reporter.

See first what a difference that *V-8 Feeling* makes

ALTHOUGH the Ford is one of the lowest-price cars, it is the only V-8 car below \$1645. That's why you can't really judge it till you drive it. Till you feel the smoother flow of its 85 horsepower—its swifter pick-up—its easier power up hills and at fast cruising speeds.  
 And you'll find other outstanding points in a Ford V-8. The riding comfort of a 123" springbase—almost a foot longer than wheelbase. Remarkable stability over rough roads and on turns. The complete security of a steel body, with safety glass all around, and big Ford Super-Safety brakes.  
 These explain why Ford owners feel so pleased—as they report gas mileage equal to less powerful cars—and no oil added between regular changes. Ford owners get extra benefits in performance—yet pay no extra for them. Choose your new car as Ford owners do—for the things that count.

**METHODIST NOTES**

Welch Circuit

A goodly number of our regular attendance was interested in the school closing at Fairview Sunday. The Baccalaureate sermon was preached at the 11 o'clock hour and many of our members were there. Their absence was excusable and their places were filled by visitors, making the attendance up to an average and above. Have never had better attendance.

nothing special of which to complain. The rain caused the evening congregation to be small.

Mrs. Fred Hubbard was accepted by hearty hand-shake into our church and Christian fellowship of the entire community at the 11 o'clock service. The Fifth Sunday Institute at Welch promises to be interesting as all seem willing to help on programs.

The pastor of the O'Donnell church with his workers will have charge of the afternoon program. Practice your speeches and songs and come early and stay until the close. Music will be interspersed as needed and it will be good.

J. G. Walker, P. C.

**Lets Talk about Clothes**

Denton, Texas.—With the approach of summer, women everywhere begin their search for something cool, yet something that can be worn for any number of occasions. To meet this need manufacturers present clever short sleeved dresses that can be used for sports, for spectator wear, and still go to town of an afternoon with a big hat, white gloves and other white accessories.

The shops are already assembling the prize assortments. Gay, one-piece, usually designed summer dresses show different details in their make-up. They feature stitched bands, necklines with front fullness contrived by experts, buttons used for decoration as well as a purpose, and pockets cut in curves, in points, with and without flaps.

The colors are new and exciting. We found aqua, a knockout blue for blondes or redheads, shades of pink from blush to dusty coral, pale lemon yellow, and strawberry reds. White dresses are used with blazing color effects, and they are tops for summer wear, according to girls at Texas State College for Women (CIA).

Linen textures are the most interesting fabrics and dull weaves fashion the smartest dresses. Plaits are flat, tailored with precision, and placed where they do the most good. Short sleeves are either cut with the bodice top or cleverly inset to assure freedom even for strenuous games. Cotton mesh yokes are used for contrast as well as coolness, and gently rolled collars hug the neckline and are slit down the front so that the muffled ascot scarf shows. Belts are generally of the dress material when they are not of two or three colors for the only color contract.

**PERSONALS**

Miss Thelma Merrick who has taught for the past several months in the Dupree school in Lubbock is spending the week with her parents, Mr. and Mrs. A. H. Merrick. She will attend Tech during the summer semester.

**SUPERFEX**

Another Good Dawson County Farmer Indorses SUPERFEX.

I am glad to recommend to any farmer, a SUPERFEX REFRIGERATOR. I bought mine this year. We light it in the afternoon, it burns two hours and is out. We can go away, spend the day or night without any danger. We had never had one and I wanted the best I could buy. After trying other kinds I found that for the farmer a SUPERFEX was the best I could buy. I would not take for my SUPERFEX, for it will do what you need to have done. I would advise any farmer to invest in a SUPERFEX. It's the best investment you can make.

**OTHERS Claim GREATER ECONOMY— Fairbanks-Morse Proves it to You**

SEE WHY THE **Conservador** CUTS ELECTRIC BILLS

The Conservador is a shell-lined inner door for storing most frequently used foods. It is located behind the main door. It prevents cold air from rushing out and warm air from rushing into the main compartment when the outer door is opened to get one of these oft-used items.

Check these 15 F-M features against any refrigerator:

1. Beauty and Modernness
2. Deluxe Finish (Black Kick Plate)
3. Finger-tip Hardware
4. Conservador
5. More usable storage space
6. Economy
7. Fairbanks-Morse Precision Manufacturing experience
8. Safe, efficient conventional machine unit
9. Slow speed—longer life—accessible for service
10. Fused Cooling Unit
11. Fast freezing—generous ice supply
12. Removable Baskets—easy cleaning
13. Quiet Operation
14. Insulation
15. Price

LOOK inside a dozen ordinary refrigerators and you see practically the same things.

Then look inside the new Fairbanks-Morse. The very first thing that greets your eyes is visible proof of lower operating cost—the exclusive patented CONSERVADOR. As quick as a flash you will see exactly why the CONSERVADOR is the biggest money-saving feature ever put into a refrigerator.

**More Usable Storage Space**  
Greater economy isn't all we can demonstrate. The CONSERVADOR also gives you more usable storage space. It puts the oft-used items up front where they are easy to reach... Keeps them from cluttering and crowding the main storage compartment.

**EASY TERMS**

Come in and see F-M greater economy proved by actual demonstration. Do this before you buy any refrigerator.
