Bulldogs Meet Brownfield In Tahoka Tonight

Though the season is barely started, Tahoka will be playing its second District 4A conference game when the Bulldogs meet the Brownfield Cubs, Class AA last year, on the local Kelley Field tonight, Friday, at 8:00 o'clock.

Next Friday, the Bulldogs go to Morton for their third conference game. Next Thursday night at 7:00 o'clock, the Juniors, Seventh and Eighth grade teams meet two teams from Brownfield on the local field.

Coach Toby Greer's Cubs, who last week defeated Lovington, N. M., 26 to 0, their first victory since October 6, 1948, is big but inexperienced. However, five of the nine returning lettermen are in the backfield. Though possibly no larger boys than the Muleshoe team was, Brownfield is much deeper in reserves. Dale Carey, 152-pound quarterback and two-year letterman, is being boosted as the shining light of the team.

Coach Joe Turner's Bulldogs, who caught the fancy of local fans last Friday night with their head-up play, will be greatly outweighed again this week. However, it seems that they found out (Cont'd. On Back Page)

New Physician Moves To City

Dr. Walter H. Stapp, physician and surgeon, who has been with the Hale Center Co-op Hospital the past year and a half, has bought the local business of Dr. F. E. Seale, and is opening his offices and clinic in the former Seale Clinic next door to Tahoka Drug.

The Doctor moved his family, consisting of his wife and two small children, to Tahoka early this week.

Dr. Stapp is originally from Burnett, Central Texas. A young man, he is a graduate of the Southwestern Medical College, Dallas. He spent one year as an intern in the City-County Hospital of Fort Worth. He spent one year receiving special training in diagnosis and internal medicine in Chattanooga, Tenn., and specialized in surgery at Baylor Hospital in Dallas. He also saw service in the Armed Forces.

Congratulations:

Mr. and Mrs. Eldon Carroll on the birth of a girl weighing 7 pounds 2 ounces, at 3:15 p. m. Wednesday in Tahoka Hospital, name Cynthia. Mr. and Mrs. Oscar Roberts of Tahoka and Mr. and Mrs. R. C. Carroll of O'Donnell are the grandparents, and Andra Sue, age three, is the big sister.

Wilson - New Home Will Play First 6-Man Football Game On Sept. 22

White's Winner Of Softball Crown

White's Auto of Tahoka won 1st place and an \$80.00 premium in the O'Donnell Softball tournament by defeating the O'Donnell Co-op team 7 to 4 in the final game played Monday night. The final game was an excellent one, with airtight play and good umpiring, and was a nine-inning affair. Bobby Oliver, White's ace pitcher, hurled an excellent ball game. The Tahoka boys faced a new O'Donnell pitcher, Cullen Crandell of Coahoma, who was in O'Donnell after participating in the state playoff at Plainview. The News is informed.

In the first game of the tournament, Oliver pitched a perfect ball game against O'Donnell Merchants, retiring 21 batters in order. The second game, against O'Donnell Co-op, Tahoka won 15 to 0 to enter the finals. Grassland and two Brownfield teams also competed in the tournament.

White's also recently took second place and a \$50.00 premium in the Post tournament, losing in the finals to a Floydada team. Tahoka's line-up was as follows: Robt. Harvick, catcher; Joe Harvick, first; Dub Harvick, second; Fins Botkin, third; Hugh Ingram, shortstop; Noel Lee Cromer, left field; Joe Minor, center; J. Rainey, right field; Bob Oliver, pitcher; Bill Oliver, manager; and Eldon Gattis, sponsor.

Make Plans For Lynn County Fair

Plans for the annual Lynn County Fair on October 13 and 14 are rapidly taking shape, according to Bill Griffin, county agent.

A much bigger and better fair from the standpoint of exhibits is expected this year. V. L. Botkin is serving as the general manager of the exposition, which will feature a large entry this time of dairy cattle, as well as beef cattle, swine, agricultural and women's department exhibits, and a flower show. Merchants exhibits will be featured also, this department being under the direction of Clint Walker.

Norton's Rides will furnish fun on the midway. On the opening day, there will be a street parade, with Sheriff "Slick" Clem and the Sheriff's Posse in charge. Everyone is invited to participate in this, including the band or various civic organizations. Business houses are urged to plan for floats. Some comic entries are especially desired.

There will also be a Queen's contest, and those desiring to enter or nominate an entry are requested to contact Mr. Clem. Tahoka Chamber of Commerce is sponsor of the fair this year and has assured the association a nice premium fund will be available.

Halftime Show At Tonight's Game

Two classy bands, the Brownfield red and black and the Tahoka blue and white, will put on a halftime show at tonight's football game here that should be worth the price of admission.

Brownfield's band is a veteran organization, while Tahoka's was organized last year.

Last Friday night, the 54-piece Tahoka band, directed by Bill Tregoe, put on its first halftime show and drew high praise from the crowd. The band presented snappy precision formations, and thrilled the spectators with both marches and swing music. A different halftime show has been planned for tonight.

Wilson - New Home Will Play First 6-Man Football Game On Sept. 22

New Home and Wilson six-man football teams will open the District 4-B Conference season in a game to be played at Wilson Friday night of next week.

Coach A. J. Sayles' Wilson Mustangs won the district title last year, but this year has a rebuilding job. However, his boys, though small, are reported to be developing rapidly.

At New Home, Coach Wayne Timmons has some good boys, but this is that school's first year in football and the boys have had to learn the game from the ground up.

Tahoka will be playing at Morton that night, and fans who do not wish to follow the Bulldogs will be welcome to witness the fast wide-open six-man game at Wilson.

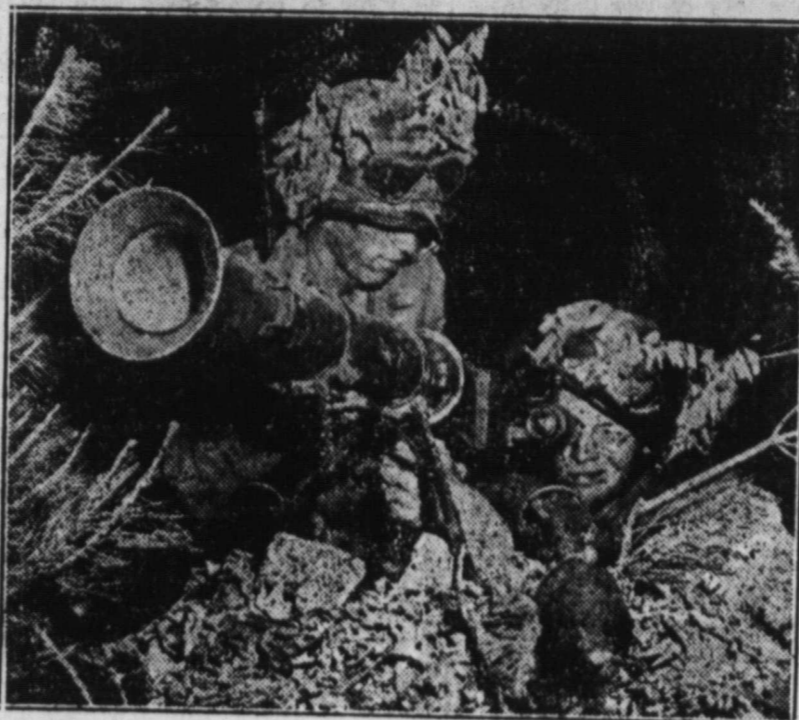

Plan Rotary Ann, Teacher Banquet

Tahoka Rotary Club will hold its annual Teacher-Rotary Ann banquet next Tuesday night at 8 o'clock in the school cafeteria. President Charles Townes announces.

Principal speaker for the occasion will be Charles A. Guy, editor and publisher of the Lubbock Avalanche Journal.

Charles Stewart and Herman Heck are in charge of the program arrangements.

All teachers in the Tahoka schools and their wives, or husbands and all wives, or girlfriends, of Rotarians will be guests.

YES, IT LOOKS LIKE A BIG BLUNDERBUSS—With its conspicuous bell muzzle, this 3.5 rocket launcher resembles the weapons of Captain Myles Standish's trainband, but it is modern in every respect as these GIs would tell you. On the Korean front it has been effective in stopping Communist tanks.

More Oil Shows Encountered In Dulin And Caswell Test Wells

Additional shows of oil and gas have been encountered during the past week in the Mississippi in both the Humble No. 1 W. C. Dulin and the Magnolia No. 1 W. Caswell tests, offsets to the Magnolia No. 1 Garza Land and Cattle Co. discovery well three miles east of Dulin.

The latest drillstem test on the Dulin well was at 9,127 to 9,155 feet. Open one hour, recovery was 850 feet of gas in drillpipe

and 100 feet of slightly oil and gas-cut mud and 265 feet of oil and gas-cut mud. Coring was continuing Wednesday to 9,179 feet. Two previous tests between 9,034 and 9,104 developed shows of oil and gas.

The Caswell well is reported to have had oil bleeding from a core from 9,074 to 9,089 feet. Previous core had shown slight shows of oil.

Houston's Oil Co.'s No. 1 H. B. Howell has been swabbing off and on the past week in an attempt to make the well flow. It has flowed for brief periods. The News had no late reports on the test Thursday, but it is rumored that oil company officials are in a quandary as to whether or not they should acidize the formation.

Ryan, Hays & Burk No. 1 Leon Bromberg, located five miles east and a little south of Tahoka is reportedly still facing delays in getting its test underway.

MFC Corporation No. 1 Garza Land & Cattle Co. test three miles south of the Magnolia discovery is reported awaiting orders at 8,710 feet, in lime.

Standard Oil Co. of Texas No. 1 Smith, west and a little south of O'Donnell, in Dawson county, was reported nearing 5,000 feet.

Methodist Men Hear Rev. Hart

About forty men were present at the regular meeting of the Methodist Men's organization last Monday evening.

A good supper of ham, beans, potato salad, coffee and doughnuts was served by Jess Sessions and Murice Huffaker.

The program was arranged by J. M. Uzzle and J. O. Allen. R. A. DuBose led the singing, and Horace Lindly played the piano. Rev. C. A. Holcomb, Jr., introduced the speaker, Rev. Ira Hart, pastor of the Methodist Church in Ropesville.

Rev. Hart spoke on the subject, "Methodist Men as an Advertising Agency of the Church." He told of the value of advertising in the business world and showed how valuable it could be in the work of the church. He closed with a humorous skit which was thoroughly enjoyed by all.

V. F. Jones, president, was in charge.

Methodist Men will meet again on Monday evening, October 9. The men of the Church and community are cordially invited to attend.

Roberson Leads Queen Contest

Miss Laquita Roberson of Tahoka and O'Donnell is leading the field in the contest for the title of Queen of the South Plains sponsored by the Panhandle-South Plains Fair. Two queens will be named, one from Lubbock county and one from all the other counties of the area.

Miss Roberson, at the Tuesday tabulation, had 159,000 votes. Miss Virgean Field of Plainview was her nearest competitor with 131,500; Miss Carolyn Brady, Brownfield, 128,000; and Miss Thelma Dee Keck, Hockley county, 110,000.

Other Lynn county candidates were: Miss Jo Hogan, 70,000; Miss Wanda Faye Marlin, 60,000; and Miss Patsy Locke, 11,000.

Votes are based on ticket sale to the historical Spectacle, "Panorama of the Plains" which will be staged at the fair October 2-7.

Each winning queen can choose \$500 cash or an all-expense paid trip for two to Havana, Cuba.

Miss Roberson's home is at O'Donnell, but she is employed in the Lynn county sheriff's office.

Local Schools Crowded; Expansion Plans Studied

Some Classes Running Over

Revised enrollment figures for the Tahoka schools show that there are 967 children, an all time record, attending classes this year.

However, heavy enrollment has not yet reached the high school classes, there being only 184 students enrolled there, about the same as last year.

Principal Jim Foust reports the high school enrollment as follows: Seniors, 47; Juniors, 45; Sophomores, 52; Freshmen, 40.

The Eighth Grade, because of crowded conditions, is also at High School building and has 72 students, making a total of 256 in this building.

Principal Urban Brown reports 648 enrolled in the Grade School, distributed as follows: Seventh, 82; Sixth, 81; Fifth, 90; Fourth, 93; Third, 93; Second, 92; and First, 117.

The Negro School has 63 enrolled.

Supt. Vernon Brewer is getting alarmed about the lack of sufficient classrooms for the future and is fearful the school may have to go on a split schedule next year if the increase continues.

Already, some rooms are crowded past capacity for efficient operation. For instance there are 93 students in the fourth grade, only two teachers, and no available room even if there were another teacher. The departmentalized fifth, sixth, and seventh grades are also crowded. Also, if band instruction is to be continued, this department, now meeting in the auditorium, is badly needed. Many patrons are also complaining about the barracks class rooms. Mr. Brewer thinks Tahoka school patrons just as well begin thinking in terms of a new building now, for more room will be absolutely necessary soon.

Plan Schedule For Basketball

Plans for this winter's District 4A basketball competition were made at a meeting of member schools in Levelland Wednesday night of last week.

Supt. Vernon Brewer and Coach Jake Jacobs, who directs basketball in the local schools, represented Tahoka at the meeting.

The district will be split again this year for basketball competition, with the two top teams from each the north and south areas meeting in a tournament to decide the district championship.

Tahoka, Post, Slaton, and Brownfield are in the southern division, and Muleshoe, Littlefield, Levelland, and Morton are in the northern division.

Each team will play each other team in its area two games on a home and home basis.

Winner of the district tournament will receive a large gold basketball trophy and five small gold basketballs for players, and will represent the district in the regional tournament.

Runner-up in the district will receive a large silver trophy and five small silver basketballs.

Possibly six of the schools, including Tahoka, will compete in girls basketball this year under the Interscholastic League set-up.

Laylan McMahan Is Song Director

Laylan McMahan, son of Mrs. Loyce McMahan, has been named music director of the Woodrow Baptist Church.

He is a graduate of Tahoka High who is in his second year at Wayland College. He will drive down to Woodrow from Plainview on Wednesdays and on week ends to fulfill his duties at the church.

School Campus Is Levelled Off

Due to efforts of the Tahoka School Board and Bus Foreman, Lawrence Harvick, the local school grounds have been cleaned off, dirt hauled in, and leveled during the past few weeks.

Appearance of the campus has been greatly improved, and the grounds now offer a safer place on which the children may play.

Showers, Hail Fall In County

Scattered showers fell over Lynn county Sunday afternoon and again Tuesday afternoon, also hail did some damage Sunday in the Grassland community.

Damage up to possibly 50 percent or more was done several Grassland farmers, including 'Lab' Burk, Geo. Carpenter, E. M. Norman, Elmo Bush, and others Sunday afternoon.

Tuesday afternoon, Tahoka received 40 of water in a hard shower, accompanied by hail. Hail was reported in several sections of the county, but no serious damage has been reported.

A few immense hailstones "as big as baseballs" fell at Grassland. The News is informed that Roy LeMond picked up a hailstone which measured 11 inches in circumference. Mrs. L. Walker found one which measured 10 inches, and Geo. Spears one that measured nine.

Lightning Strikes School Building

Lightning struck the upper southwest corner of the Tahoka High School during the shower and electrical storm last Tuesday at about 5 p. m.

A 200-pound stone and a few bricks were knocked off the building corner, but it is not believed that there were any serious cracks in the building resulting.

It is also reported that several houses and out buildings in this vicinity were slightly damaged during the shower and hail storm by lightning.

Board Starts Building Study

Tahoka School Board, at a meeting Tuesday night, decided to make a study of enrollment trends in the local school and the need for an additional school building.

The present buildings are filled to capacity this year, with as many as 47 students in a class, and additional room will soon be imperative.

Calloway Huffaker, president of the board, has asked the building committee, composed of Alton Cain, Buel Draper, and V. F. Jones, to make a study of the needs and the building or buildings necessary for the growing school. Their recommendations will be made to the board and the patrons.

The school owns most of the block of land immediately south of the grade school, which may be used for a new building.

The committee will in all probability consider several proposals, including long range plans for a new elementary or primary building and cafeteria, a band and music building, and a home economics cottage. If a primary building were to be erected, the present grade school could be used for intermediate grades and junior high classes.

At the present time, the cafeteria is temporarily in an old Army mess hall, and four grade school classes are housed in an old Army barracks building. The possibility will be studied of using the material of one of these in a home ec. cottage to house that department. Also, it would be highly desirable to have a separate building for band and music.

However, all of these ideas are tentative and will be given study by the board.

Mr. Huffaker says the situation is already critical and something will have to be done to get more building space.

Mr. and Mrs. T. E. Dikes of Mineral Wells, formerly of Tahoka, arrived this week for a few days visit with their son, Harlan, and other relatives and friends.

Traffic Problem Gets Attention From City Council, Policemen

The City of Tahoka's drive for better observance of traffic regulations is already paying off.

J. B. Florence, new city policeman, states that citizens are giving him excellent cooperation in slowing down of their driving, and otherwise observing safe driving rules.

The City Council last week authorized the doing away of center parking around the square and signs were put up Monday in the centers of streets around the square calling attention to the fact that center parking will not be permitted.

Center parking has been the

Youth Cuts Arm In Fall Friday

Richard Brooks, 9, son of Mr. and Mrs. Neely Brooks, received a severely cut right wrist last Friday night at the football game when he fell from the bleachers on a broken bottle.

The wrist was cut to the bone, with nerves, arteries, and tendons being severed. He was rushed that night to a specialist at Plainview, where he spent five and a half hours in the operating room while the surgeon operated.

Richard was brought home Wednesday of this week. It is believed he will ultimately have full use of the hand.

cause recently of a number of minor crashes, and has been a constant threat to life. Though this may cause many people to park outside the business district at times, it may save some person's life or bodily injury, reduce minor crashes, and permit a better flow of traffic.

Stop signs will be installed on many street intersections in the near future, also reducing traffic hazards.

Speeding on all city streets must be cut down. Now that school has started, there are many children on the streets, and drivers are cautioned that unless they observe safe driving rules, City police may be forced to file charges.

Mr. Florence, and likewise the Night Policeman, J. R. Autry, are the recipients of many compliments for the courteous manner in which they are cautioning traffic violators.

Mr. Florence has had some courtesy cards printed which he is handing to thoughtless drivers. Then, if the person warned does not take the hint, or if the violation is flagrant, he may have to file on some in City of Justice Court.

The Council has given the police orders to stop the wild drivers, and they intend to do their best.

ODDS AND ENDS

That little 100-acre pine forest enclosed in a park at Bastrop is indeed an interesting phenomenon.

Leaving Austin in the late afternoon for the old town of Bastrop 30 miles to the southeast, it was our purpose to spend the night there and to drive through that pine-clad park early the next morning, and this we did. The strange thing about this small but dense forest of tall pines is that it is so completely isolated from the real pine belt of Texas. Except for a few scattering pines in two or three neighboring counties, it stands aloof and alone at least 75 miles from the westernmost outcroppings of the East Texas pine belt, more than 100 miles from most of the western fringe of that belt. Yet the pines straight and tall, have almost completely monopolized at least 100 acres of this park. Winding paved roads have been built through it, and it is well kept.

Some eight or ten miles to the southeast, just on the northern outskirts of Smithville, is the Buescher State Park. Its characteristic feature is the prevalence of great outspreading live-oak trees, from whose branches hang great curtains of Spanish moss. One is reminded of Longfellow's description of the forests of Acadia, Evangeline's childhood home:

"This is the forest primeval—the murmuring pines and the hemlocks,
Bearded with moss and in garments green, indistinct in the twilight,
Stand like druids of old, with voices sad and prophetic;
Stand like harpers hoar, with beards that rest on their bosoms," etc.

The Bastrop Park consists of 2,100 acres, but only a few hundred acres have been improved as a park. There are 1,730 acres in Buescher State Park, but none of it has been well improved.

A scenic drive-way connects the two parks; and for sheer beauty, this area is hard to beat.

Both the towns of Bastrop and Smithville lie on the banks of the Colorado River, and our road from Smithville leads on to LaGrange, some 33 miles further down-stream. We crossed the Colorado once on the eastern outskirts of Austin, twice at Bastrop going to and returning from the State Park, again, at Smithville, and still again at LaGrange. It is a fine stream, passing through a scenic as well as a historic area.

It was at LaGrange that the ill-fated Mier expedition was organized, and there, on Monument Hill, are buried the bones of many of those who lost their lives in this adventure. Four miles northeast of LaGrange up the Brenham road, is the site of old Ruterville College, but when we enquired at a filling station how to get out there, the youthful attendant looked puzzled and had to ask the boss. The boss told us promptly and a little proudly, but that boy was not able to tell us, either just where we would find Monument Hill. I am afraid our public schools are not teaching our children much Texas history, for monuments mark the graves of many Texas "heroes" at LaGrange and it all seemed to be news to that lad.

Well, we stepped on the gas and started up the Brenham road. Almost in no time we saw the sign RUTERSVILLE. There was not much of a town there—just a little store and a filling station or two, and a few dwellings scattered along the road. Just a little further up the road, we saw an arrow at the entry of a side road pointing eastward to the site of old Ruttersville College. We had

no trouble in finding it, on a gently sloping hillside less than half a mile away. And we found more data respecting the old College than we really expected to find. There were two monuments commemorating the work of this college, one erected by the Southwest Texas Conference of the Methodist Church, and one erected by the State of Texas.

Within an iron-fence enclosure near the monument erected by the Southwest Texas Conference, were two other monuments erected in memory of two individuals, the first one to the memory of the first president of old Ruttersville College, Rev. Chauncey Richardson, and the second to the memory of one Joseph Neuman, whose identity was not revealed unless it was disclosed in an inscription carved in the German language on the stone.

As we read the inscriptions on these monuments, we were really thrilled. Why? Because they revealed that this old College established by the Methodist Church in 1840 was the first institution of higher learning ever established by the Methodist Church or by any Protestant denomination in Texas. A small beginning in Christian education, but now, "Behold! how great a matter a little fire kindleth."

Seventy miles to the northwest still stands old Southwestern University, where so many of our early Methodist preachers, lawyers, statesmen, political leaders, and business men were educated; two hundred miles further on to the northwest is that virile and growing western institution, McMurry College; in Fort Worth is the Texas Wesleyan College; and in Dallas is the great Southern Methodist University. All over Texas are countless Methodist preachers who have been educated in these or other Texas Methodist institutions. Ruttersville College at the little Fayette county village four miles northeast of LaGrange was the forerunner if not the grand-daddy of them all. After it had functioned there for fifteen years, it merged with

Soule University at Chappel Hill in Washington county in 1855, another Methodist institution which had recently been established there. Some years later, Soule University was moved to Georgetown and its name was changed to Southwestern University.

As I stood on the site of old Ruttersville College, I could not help but wish that my good friends, Rev. Ben Hardy, Rev. John Wesley Hawkins, and Rev. C. A. Holcomb, Jr., were here with me to bubble over with joy because of the great work that was started right there at Ruttersville.

The town and the college were named in honor of Dr. Martin Ruters, who was sent to Texas from the North as a missionary. In 1835, Col. William B. Travis, who afterwards died as a hero in the Alamo, wrote an appeal which was published in the New York Christian Advocate for some conference or conferences of the Methodist Church to send at least five educated and talented Ministers to Texas as missionaries. Dr. Ruters, who had been president of Berea College, Kentucky, and also of Allegheny College of Meadville, Pennsylvania, volunteered to come, and in 1837, the General Conference of the United

States sent him as such missionary to Texas. He lived only six months after his arrival but during that time he did a piece of monumental work for his church. One of the greatest needs, as he saw it, was the establishment of a college. His only means of transportation was a big black horse, which he usually rode in a sweeping trot "looking after the King's business." His recommendation that such a college be established near LaGrange was accepted and approved by the General Conference, and the College opened for service in 1840.

Administrative Officer, Lynn
County PMA

Marketing Cards to Be Mailed

Cotton Marketing Cards for the 1950 cotton crops are being typed in the County Office and will be mailed in the very near future to operators who have complied with the 1950 Cotton Program. All farms have been measured at this time and most of the farmers who are overplanted and allowed their excess acreage to be rechecked. Some farms may be delayed in receiving their marketing cards due to the fact that their excess acreage is not being destroyed or has

not been rechecked.

Anyone selling their cotton must have a marketing card issued by the county PMA Office.

1951 Wheat Allotments Sent Out

All 1951 wheat allotments have been mailed to farmers in Lynn county. The 1951 wheat allotment program is the same as it was in 1950. If you plant within your allotment, you will be eligible for price support on your wheat harvest from this acreage. If you overplant your allotment, you will not be eligible for price support, but can sell your wheat on the open market without paying a penalty.

Grain Sorghum Loan Is \$1.80 Per Hundred

The 1950 grain loan rate for Lynn county has been set at \$1.80 per cwt. for No. 2 grain. Loans will be available for grain stored

in approved warehouses or stored on the farm.

On warehouse stored grain, the farmer brings his warehouse receipt issued by the warehouse to the County Office where the loan papers are prepared. After preparation of the papers, you carry them to a lending agency and get your money. The service fee for preparing a warehouse stored loan is one cent a cwt.

On farm stored grain, the grain must be in storage on the farm for at least 30 days prior to inspection by our County Loan Inspector. After the 30 day period, you make application at the PMA Office; the grain is inspected; a sample is sent to the grain exchange for a grade determination and then your loan papers are drawn up at the County Office. You then take them to the lending agency for your money. The service fee on farm stored grain is two cents a cwt.

For any further information on this loan program or any other price support, inquire at your local PMA Office.

1951 ACP Program

At this time we have not received out 1951 Agricultural Conservation Program funds and are not in a position to tell you when we will be able to start carrying out 1951 Soil Conservation Practices. If you intend to carry out practices under the 1951 Program, you must secure a written prior approval from the County PMA Office BEFORE you start the practice.

As soon as information is available on the 1951 Program, we will notify you by the newspaper or by a newsletter.

Stubble Practice Applications Being Taken Now

Have you secured your written prior approval for carrying out your stubble practice for 1950? If you intend to participate and qualify for this practice, you must secure your prior approval by not later than November 1, 1950.

The annual Lynn County Fair will be held October 13-14, 1950.

Granary Loans Available Again

Loans to farmers for the construction of farm storage are available again this year. Loans will be made to any tenant, landlord, or owner-operator having an interest in production and storage of grain sorghum, wheat, rye, etc. Loans will be made to cover 85 percent of the total cost of the structures having a maximum term of 5 years, payable in equal annual principle payments with interest at 4 percent. Farmers all over this area are

SGT. J. J. RAINDL IS BACK IN SERVICE

Sgt. J. J. Raindl, who has been in the Army Air Corps Reserve, was called to active duty about two weeks ago, and now is stationed near Nashville, Tenn., at the Stewart A. F. B.

His wife and son hope to join him as soon as he finds living quarters.

Sgt. Raindl is the son of Mr. and Mrs. Frank Raindl, Sr., of Wilson.

MRS. BUFORD HONORED

The home of Mrs. J. J. Raindl was the scene of a pink and blue shower recently honoring Mrs. O. C. Buford of Seminole.

Hostesses were Mrs. F. S. Kahlich of Slaton, Miss Gladys Edwards of Lubbock, and Mrs. J. J. Raindl.

Eighteen guests were present, and twenty-three sent gifts.

Mrs. Buford is the former Miss Claudia Raindl.

MANILLA SECOND SHEETS at The Lynn County News.

Due to the critical shortage of grain storage space, if you desire to build granary on your farm under this program, feel free to call at the County Office at any time for full details.

1949 Cotton equities must be sold or redeemed by September 30, 1950, or the cotton will be pooled and sold by CCC.

IH PISTONS and SLEEVES Give Me Lots of Pep, Power and Pull!

...the boss hasn't been feeding wild oats! It's just my new piston-and-sleeve transfusion that gives all this pep, power and pull. It was just yesterday the boss bragging to the neighbor across fence about my "operation." "You know," he said, "I'm not

only getting more work done since I had those IH matched pistons and sleeves put in, but I'm getting it done cheaper. I've already made more than the cost of the job in oil and fuel saved. Besides, it's a lot more fun driving a tractor with lots of zip and go."

Bring in Your Tractor For a Piston-Sleeve Transfusion TODAY

You'll be surprised, too, at what a piston-and-sleeve transfusion can do for your tractor. Be ready for busy season. Drop in and talk to us NOW.

City Adds Charge For Trash, Garbage Service

The City of Tahoka is faced with the problem of either discontinuing the hauling of garbage altogether or adding a small charge for the same to the water bills of its patrons, according to Mayor K. R. Durham.

In fact, the next water bills will have added thereto a fifty cent charge for this service.

If the people will approve of this new policy by paying such a charge, the service can be continued. Also, the spraying of streets and alleys in the business and residence sections may also be continued. The council believes that the spraying should be worth this to the business men, to say nothing of the protection to the health of the community in general.

This fifty cent charge will not be enough to pay the entire cost of the trash hauling from the residence section and the spraying of the entire town, but the Mayor believes that the City will be able to raise the rest of the necessary funds.

Mayor Durham points out that practically every city and town in this area has long been making such a charge for garbage collection. Even most of the big cities, like Dallas, find this charge necessary in order to operate the service.

During the war years, about \$6,000 accumulated in the street fund. At a cost of \$400 a month, the City has been paying for the trash hauling from the residence section for some time, mostly out of this street fund. This surplus has now been exhausted, and the City must either raise the fund elsewhere or dispense with it altogether.

Heretofore, it might have been

possible to take some money from the water fund for this purpose. However, since the voters approved the issuance of the revenue bonds to modernize and enlarge the water and sewer systems, more than \$1,000 per month must be taken from the water and sewer funds to retire these bonds.

The Council urges that the people of Tahoka co-operate with the City by paying this small charge of 50 cents a month, only \$6.00 a year, to help keep the trash and garbage hauled away, which in turn will help protect our health and make this a cleaner and more desirable town in which to live.

The City has already bought a used street sweeper for \$2,500 which it will put in operation on the paved streets today, September 15. A. C. Davis, grader operator, will operate the sweeper in down-town Tahoka at night. Floyd Davis, who is hauling the trash and garbage, has been doing this work with manual labor but had asked to be relieved of this work. It is believed that the street sweeper, anyway, will do the work better and cheaper than in the past by manual labor.

Keltner Hotel Undergoes Repairs

The Keltner Hotel is undergoing a thorough repairing and redecorating job.

C. B. Keltner, the owner, has had the exterior painted, and the interior will be redone as soon as he can get a plasterer.

He is also having a sidewalk built along the entire north side of his building along Lockwood Street.

GOOD HEALTH

© 1940 HEALTH INFORMATION FOUNDATION

Answer to Question No. 1:

1. The appendicitis death rate has been dropping at an astonishing rate. Metropolitan Life Insurance figures show that whereas 10.2 persons per 100,000 died of appendicitis in 1929, the rate was 2.2 in 1940. New drugs to control infection and improved surgical techniques are largely responsible but early recognition and early operation are important.

Answer to Question No. 2:

2. Athletes' hearts beat slower than the average person's under

comparable conditions because the heart of an athlete has been developed by exercise to do more work per beat.

Answer to Question No. 3:

3. The National Tuberculosis Association estimates that there are 250,000 undiscovered cases of tuberculosis in this country. Every person in every community should have a chest X-ray picture. This is nearly 100 per cent reliable. In almost every community this can be done without charge. The tuberculosis death rate has been reduced 80 per cent in 40 years.

Bill Strange Has New Assistant

W. J. (Bill) Spain of Lubbock has become associated with Bill Strange Motors, Tahoka Ford dealer, as assistant manager in charge of sales and service.

Mr. Spain succeeds Lieut. Bill Strange, Jr., a partner in the firm, who has been called into active duty with the Army.

Mr. Spain has long been connected with the automobile business in Lubbock. He formerly was with Firestone Tire & Rubber Co. He spent ten years with Lubbock Auto Co., part of which time he was manager of their No. 2 house. Also, he was in business for himself about a year.

He expects to move his family to Tahoka some time soon.

Hereford Men Visit County

Forty members of the South Plains and Howard County Hereford Breeders Association spent two days last week, Thursday and Friday, visiting Hereford herds in the area. The group had dinner in Tahoka Friday noon.

Thursday, the group visited herds of members of the Howard County Association, of which C. A. Walker is president.

Friday, starting in the morning at Lamesa, the group visited herds of Alton Youngblood, Tom Estes, Roundtree & Bratcher, and Virgil Phipps.

The group arrived at the farm of Mr. and Mrs. Tom Garrard at

soon, where a barbecue dinner was served by the Tahoka Chamber of Commerce to about 80 people. Mr. Garrard is president of the South Plains association.

The breeders inspected the Garrard herd, one of the best in the country, consisting of 30 cows, 15 yearlings, and several calves. They also visited the fine cattle owned by W. M. May and George Claud Wells, and a number of them went to Lubbock county to view the L. C. Wheeler and J. E. Mann, Jr., Herefords.

Planting good clean seed of the best adapted varieties, that have been chemically treated to control seed borne diseases is inexpensive insurance for the small grain producer.

Fair Boosters Coming Tuesday

LUBBOCK, Sept. 14.—A group of Lubbock businessmen will be in Tahoka on Tuesday, September 19th at 10:10 A. M. to publicize the 33rd Annual Panhandle South Plains Fair to be held October 2 through 7th.

The goodwill tourists are functioning under the auspices of the Lubbock Chamber of Commerce Goodwill Committee, headed by O. L. Gibson. A special program, including a costumed group from the cast of "Panorama of the Plains," will serve as a cordial invitation to the citizens of Tahoka to visit Lubbock during the fair.

Special invitations will be extended to the school children of Tahoka, and novelty souvenirs will be distributed by the Boosters. School children and Texas History enthusiasts will be especially interested in this year's feature attraction, "Panorama of the Plains." The giant production will retrace the development of this area with accurate scenes from the colorful history of the Panhandle South Plains. Approximately 1,000 people will re-enact the historical spectacle.

Other outstanding attractions at the fair will include a cotton exhibit which will explain the process required to change cotton from seed into yarn. The Bill Hames Shows will provide carnival fun for all, and a greatly increased number of educational exhibits will be installed this year.

Craig Family Holds Reunion

A reunion of relatives and close friends of Mr. and Mrs. R. L. Craig was held at their home north of Grassland on August 27. Lunch and cold drinks were served, and the group greatly enjoyed the day visiting kin and friends.

Children and their families present were: Mr. and Mrs. Homer McKay, Lubbock; Mr. and Mrs. Charles Tolleson, Amarillo; Mr. and Mrs. C. S. Craig and Mr. and Mrs. Sport Pendleton, Tahoka; Mr. and Mrs. Loyd Craig, El Centro, Calif.; Mr. and Mrs. Earl Chesser, Oglesby; Mr. and Mrs. Denver Gurley, Weed, N. M.; Billy, Robert, Harvey, Pearl, Frances, W. C., and Barbara, of the family home.

Grandchildren present: Glen W. McKay, Seminole; Mrs. Albert Wadless, Grandfalls; Mr. and Mrs. W. W. Gurley, Winford and Wayland Craig, Viva Mae Blount, Judy and Jerry Pendleton, all of Tahoka; Wanda and Sherrill Gurley of Weed, N. M.; also, three great grandchildren.

Other relatives: Mr. and Mrs. The premium list this year has been boosted to \$12,500. The chief increase in departments can be pin-pointed to an approximate \$2,000 boost in the livestock division.

Fresh paint and paving have changed the appearance of the fair grounds this year. Workmen have been active completing a \$25,000 improvement program which includes paving of the streets and Midway, and the walkways in the livestock and swine barns.

JACK ALLEY ROBINSON

1213 LOCKWOOD STREET

HALL ROBINSON

Odds & Ends

(Cont'd. From Editorial Page)

Here is the inscription carved on the monument erected by the State of Texas on the site of the college:

Rutersville College

First institution of higher education in Texas. Recommended in 1837 by Martin Ruter, D. D. Chartered as a Methodist School in 1840. Granted four leagues of land by the Republic of Texas. After educating more than 800 students, it merged in 1856 into the Texas Monument and Military Institute. Erected by the State of Texas in 1936.

Our information is that it in fact merged with Soule University at Chappell Hill, but the Monument and Military Institute carried on for years thereafter in the old buildings abandoned by Rutersville College.

The perpetrator of this column has had many friends during his brief span of years who were educated at great old Southwestern University, which was the outgrowth of the school on whose sacred site we stood the other day.

We do not know what would have become of these good friends of ours if it had not been for Southwestern University. Some of them might have stepped aside and become victims of Baylor or some other Baptist institution; or of Trinity, staid old school of the Presbyterians; or of Add-Ran or its successor T. C. U.

Good old Dr. Richardson and his associates and successors saved the day for all these Methodist hordes.

It was a beautiful drive on up to Brenham, and Brenham is a thrifty old town. Chappel Hill, site of old Soule University, is just a few miles out east or southeast of Brenham, and we should have gone out and stood on that hallowed ground too, but we had been making slow progress in clipping off the mileage, and there were both Independence and Washington-on-the-Brazos ahead of us, and so we bypassed old Soule and Chappel Hill, and hurried on to Independence, site of old Baylor University and Baylor College, incorporated in 1845 under the Republic of Texas. Henry L. Graves was elected its first President on January 12, 1846.

But, as we stood on the site of Old Baylor, we thought not of Henry Graves, but of the three men who had been responsible for the founding of the University. Judge R. E. B. Baylor, Rev. William Tryon, and Rev. James Huckins, great men, all three of them, measured by anybody's standard. And then we thought of others who came on the scene just a little later, particularly Dr. Rufus C. Burleson and then Dr. William Carey Crane, great educators both of them, each serving in order as President of Baylor at Independence. Dr. Crane was the father of Judge R. C. Crane of Sweetwater, well known to many people in Lynn county.

Huckins and Tryon were sent to Texas by the American Baptist Home Mission Society as missionaries, in response to an appeal made to the Board by Texas Baptists, Huckins coming in 1840 and Tryon in 1841.

Huckins was a native of New Hampshire, born in 1808, and he graduated at Brown University, Providence, Rhode Island, in 1832. He came to Texas in 1839 at the behest of the Home Board to make a survey of the religious needs of the state and settled in Galveston as pastor of the church there in 1840, a church which he himself organized. During the same year he organized the first Baptist Church in Houston. He was a brilliant man and from the very first became an outstanding leader.

William M. Tryon was born in the state of New York in 1810,

graduated at Mercer University, Georgia, and was ordained to the Ministry in 1837, served two churches in Alabama, and arrived in Texas in January, 1841, as a missionary. He went to Independence to resuscitate that church, which was in the midst of serious difficulties, conducted a great revival, and as a flaming evangelist he rapidly won the admiration of Baptists throughout south and east Texas. In October, 1841, he led in the organization of the Texas Baptist Education Society, which soon thereafter sponsored the establishment of Baylor University. He and Judge Baylor in 1845 obtained the Charter of Baylor University under the Republic of Texas. Tryon did his last work as pastor of the First Baptist Church in Houston, which he served for two years with great success. Then at the age of 37 he died, to the great sorrow of the Baptist denomination.

Judge R. E. B. Baylor, born in Kentucky in 1791, was already 48 years of age when he came to Texas in 1839. He had already gained considerable distinction as a lawyer and legislator in Kentucky and later as a congressman in Alabama. It was also in Alabama, after he had reached middle life, that he was converted

and baptized and became a Minister of the Gospel. After coming to Texas, he served in the Congress of Texas and was a member of the convention that adopted the Constitution of the state when it was admitted to the Union. Then he was appointed a district judge by J. Pinckney Henderson, the first governor of the state, and served as district judge for twenty years. At the same time he did much missionary work, preaching and drawing great crowds wherever he went. At the close of one such meeting held in the town of Washington, he baptized 41 converts in the Brazos River.

These and others of similar talents were the men who founded old Baylor University. So, when we stood on the site of one of the original buildings of the institution a few days ago, our heart swelled with joy and pride that such men had had such a glorious part in the founding of our greatest Baptist College.

A monument was erected in 1936 by the State of Texas on the site of the building mentioned above, and in addition to other information inscribed thereon was this statement:

BAYLOR UNIVERSITY
The Oldest Existing Edu-

ational Institution in Texas Continues in Unselfish Service Pro Ecclesia, Pro Texaria. (Which, being interpreted, means For the Church and For Texas.)

But this building was not constructed until 1851. Prior to that time, the work of the University was carried on in a building built originally for a female academy. And that is another interesting story.

It all started, it seems, when an old maid school-teacher, Miss Frances Trask, came down from Boston and opened a Girls Boarding School at Independence. That was in the latter part of 1834 or the early part of 1835. We do not know who furnished the money that constructed the building, but Miss Trask, a woman of fine personality and attainments, seems to have conducted the school successfully for three or four years. In 1839, the first Congress of Texas issued a Charter for Independence Academy, a girls school, and undoubtedly it was carried on in the same building which Miss Trask had used, and when the time came for the town in that locality to put in bids for the location of Baylor University, Independence included in its bid the two-story frame

THE LYNN COUNTY NEWS,

Friday, September 15, 1950

building in which Independence Academy had been conducted. The bid of Independence was accepted and the old Academy building was used by Baylor University for five years before sufficient funds were raised to build a new administration building.

So that's the way old Baylor University got started. It opened its first session in 1846 with 24 students. It now enrolls more than 6,000 students each year at the main University, not including Baylor Medical School at Houston nor Mary-Hardin-Baylor College at Belton. Nobody knows how many students have enrolled in Baylor during its 104 years of history.

Pretty soon we will give the low-down on the beginnings of Trinity University and of T. C. U. The original stately building of Trinity University at Tehuacana still stands, and we visited it recently.

Early buildings of Add-Ran still stand at Thorp Springs also, but they are almost inaccessible to tourists and we saw them only from a distance. Our impression is that they are not now being used at all.

Go To Church Sunday.

DRAW H. D. CLUB NEWS

The Draw H. D. Club met in the home of Mrs. J. D. Martin on Friday, September 1.

Miss Graham Hard gave a demonstration on diseases of flowers, showing pictures of the plants with different diseases.

Refreshments were served to Miss Hard and five members, and four visitors.—Reporter.

GET FAST, TEMPORARY RELIEF From Local Pain Of:

**RHEUMATISM
LUMBAGO
NEURITIS
BURSITIS
SCIATICA
ARTHRITIS**

as well as fatigue and muscular aches and pains of simple colds.

IT'S SO EASY! Give yourself a 1-minute gentle "rub-in" with this amazing new ointment as directed, and see how fast your pains and aches are eased!

MODERN RESEARCH DRUG IN SURIN

Now—after months of investigation, Science comes to the aid of sufferers tortured by local superficial muscle pain with an amazingly effective, new preparation called—SURIN.

SURIN does double duty! It contains the modern research drug—b-methacholine chloride. When rubbed on the skin this remarkable substance dilates the surface blood vessels in the local area at the point of pain. Therefore, SURIN (1) increases local circulation, and (2) allows its local, relaxing agents, camphor and menthol, and the local analgesic, methyl salicylate, to penetrate fast! In just a few minutes, you feel a glorious, soothing warmth—a glowing sensation of relief that develops and lasts from one to three or more hours!

No longer is it necessary to suffer intense superficial muscle pains. You can apply SURIN without fear.

SURIN IS *New!*

THE SECRET OF SURIN

Based on a new application of a principle, SURIN permits a marked degree of absorption of the analgesic drug thru the skin... acts fast to give temporary relief at the point of pain!

SURIN IS SO EASY TO USE

Just follow directions on the package. Smooth SURIN on lightly wherever you feel superficial pain... and amazingly fast SURIN starts to work, penetrating into the local pain area. You may feel wonderful local temporary relief even though you have been suffering pain and discomfort for years. Try SURIN without fear.

SURIN's ointment base is new too! Smooth and creamy-white, it washes off easily with warm water and will not stain washable fabrics.

GET PAIN RELIEF!—GET SURIN!

McKESSEON & ROBBINS, INC.
Bridgeport 9, Connecticut

NEW!

School Will Get Two New Buses

Two new school buses will be delivered to the Tahoka Schools next week, according to Galloway Huffaker, president of the board. Each bus has a 48-passenger Superior cab mounted on a Ford chassis.

Lawrence Harvick, bus foreman, and Clovis Honeycutt will leave Sunday for Lima, Ohio, to accept delivery of the buses, and expect to be back Thursday or Friday.

The Tahoka Schools are operating eight buses.

M. C. Ruchny entered Tahoka Hospital Wednesday with a severe gallbladder attack.

Pfc. Dwayne Driver Awarded Certificate

A certificate of merit has been awarded to Pfc. Dwayne D. Driver, son of Mr. and Mrs. Curtiss L. Driver of Idalou, who tied for high scorer in rifle firing in his platoon at San Diego, Calif.

A copy of the Marine Corps Chevron received in the Lubbock Marine Corps recruiting office stated Driver and Pfc. Jack E. Kindred of Coddridge, Texas, tied for high scorers of the 1st Recruit Training Battalion's platoon 31 with scores of 231.

They received certificates of merit from Col. W. M. Nelson, commanding officer of the battalion, in the platoon's graduation ceremonies upon completion of boot camp training at San Diego this month.

Their score in rifle firing was in the "expert" classification.

Driver is a graduate of Idalou High School, where he played football, basketball and baseball. He enlisted in the Marine corps June 26 in Lubbock.

Pfc. Driver formerly lived in Lynn county with his parents for many years, being well known by Lynn county citizens.

Football

(Cont'd from front page)

last week that big boys can fall hard, too.

If the Bulldogs exhibit the same fight they did against Muleshoe and if their blocking and tackling, particularly downfield blocking, continues to improve, the local team, though young, small, and inexperienced, is due to show the fans some good football this year.

A huge crowd is expected for the game tonight, and Supt. Vernon Brewer suggests that all Tahoka fans sit in the west stands and leave the east stands for the Brownfield visitors.

The Muleshoe Mules defeated the Bulldogs by a score of 13 to 0 on the local field last Friday night.

Outweighed an average of 12 pounds to the man, the Bulldogs showed a lot of the old scrap for which Tahoka football teams were famous a few years ago, and the two teams were about evenly matched.

The young Bulldogs field the rangy Mules to a 0 to 0 tie during the first half, with the two teams fighting on equal terms.

Muleshoe scored first in the middle of the third quarter following an exchange of kicks with Muleshoe ending up with the ball on Tahoka's 30. Two running plays were good for 4 yards, then Muleshoe completed its first pass of the game, 18 yards net to the Tahoka 8. Two plays later, the Mules scored from the 6.

Tahoka received the kickoff on its own 30 yard line. The quarterback attempted a jump pass, which a Mule intercepted and ran 30 yards to score. The kick was good, and the game ended 13 to 0.

The Bulldogs made two drives downfield to make scoring threats, both in the second quarter carrying the ball to the Mule 29 on the first drive. On the next threat, the Bulldogs carried to the 7 yard line on a beautiful 21-yard run by Halamicek and a 5 yard pass Halamicek to Gurley.

Quarterback Lynn Halamicek was Tahoka's most consistent ground gainer. Wiley Curry locked good blocking and tackling. Playing his first game, Bartley showed great promise at end, and did James Foster at fullback. Marlow Davis, at defensive end. Jackie Slover at tackle, and Bill Short at half. Good playing of Gurley, Conrad Ratliff, Tekell, Brice, Martin, Clayton Carter, Jimmy Drager, and Bennie Brookshire, and possibly others was also outstanding.

Fans were tickled to see the Bulldogs blocking hard and tackling low again, and though the team didn't win this time they proved the opposition can not come to big to push around at times.

Muleshoe and Tahoka each made eight first downs. Tahoka tried 13 passes, three were complete for 22 yards total, and two were intercepted. Muleshoe tried 12 passes one was complete for 18 yards, and one was intercepted. The visitors punted six times for a 32-yard average. Tahoka eight times for a 35-yard average. Muleshoe drew 65 yards in penalties, and the locals 25 yards. Tahoka fumbled once and lost the ball, but covered all three Mule fumbles. The visitors, however held a decided edge in net yards gained running, 58 to 128.

Junior Teams To Open Season Here Thursday With Brownfield

Brotherhood To Meet Monday

The Brotherhood of the First Baptist Church will meet in regular monthly session next Monday night at 7:30 o'clock.

A good program has been prepared and it is earnestly desired that every man in the Church will be present unless providentially hindered. The Brotherhood, like all other organizations in the church, is being financed by the church, and no one will be asked to contribute to pay for the meal served or for other expenses incurred by the Brother-

Seventh and Eighth Grade Teams To Meet In Double-Header; First Game Scheduled To Start At 7:00

The physical education program started in the Tahoka Grade School two years ago is being given added emphasis this year.

As last year, the fall sport of football is being given special emphasis for the boys of the Seventh and Eighth grades. The coach this year is Tom Bartley, a graduate of East Texas State at Commerce, who played football at Austin College. Fifty boys are out for the two teams, and a

schedule of games has been arranged for them.

The Junior teams' football season opens Thursday night of next week at 7:00 o'clock, when the Tahoka Seventh and Eighth Grade Bullpup teams meet the Brownfield Seventh and Eighth Grade teams in a double-header on Kelley Field in Tahoka. Admission prices will be 25 and 10 cents.

Return games will be played with Brownfield later, and two games each will be played with Levelland and Slaton on a home and home basis.

Tahoka's Eighth Grade team shows signs of being a formidable outfit, according to Coach Bartley. This is the team that had such a successful season last as Seventh graders.

The Seventh Grade boys are playing football for their first time, and many of them are small. It remains to be seen how much they can put out, but with a little seasoning, he expects these boys to look good in a game also.

Last year's Eighth Grade boys this year are out with the Bullpup squad, and in another year or two the "fender" program may be expected to pay off on the team to an even greater experience.

School authorities believe that football is an important factor in building better citizens. It teaches team-work, ability to get along with one's fellowman, regard for the rights of others, sportsmanship, and helps develop mental alertness, and a better physical body. In addition, a busy boy seldom gets into too much trouble. In the words of Cal Farley, "A boy out of wind doesn't feel like throwing rocks."

Eighth Grade
The Eighth Grade squad is composed of the following 24 boys:

Robert Jaquess, Bobby Bass, Don Reid, Bobby Huffaker, Garland Huddleston, Chester Watley, A. W. McClellan, Don Ables, Guy Witt, Vernon Brewer, Tom Anderson, Frankie Jones, Cecil Owens, Jimmy Williams;

Thomas Jolly, Roy Riddle, Leslie Parris, Roswell Bartley, Gene Jackson, Melvin Crotwell, Duane McMillan, Wendell Norman, V. J. Melton, and Buddy Thormaehlen.

The following 25 boys are working out for the Seventh Grade team:

Seventh Grade
Billy Evans, Donald Blair, Jerry Cain, Glenn Anderson, James Burkhardt, Stanley Stone, Jimmy Ray McMillan, Carleton Bell, Ted Pridmore, Kenneth Durham, Chas. Berry, Leon Davis, Jerry Slover, Gordon Smith, Bobby Hays, J. D. Davis, Murray Williams, Tommy Parris, Aaron Zedlitz, Dwain Boswell, Ronald Williams, Raymond Garcia, Hubert Yandell, Bob Smith, and Jerry Williams.

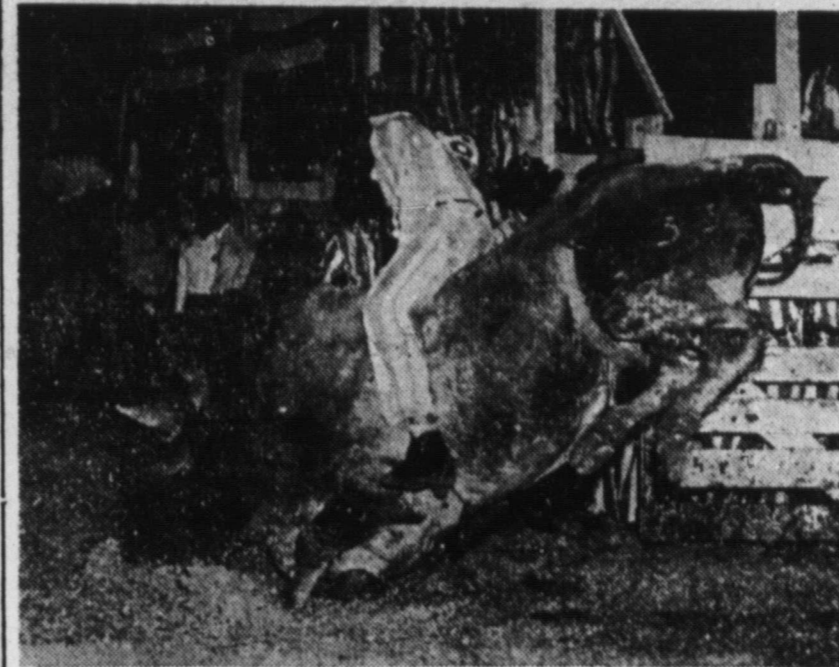

The above lists are possibly incomplete, as other boys were expected to report for football this week.

Brownfield schools enrolled 1,837 students the first week of the current session, a substantial increase over the same period last year.

TAHOKA, TEXAS, FRIDAY, SEPTEMBER 15, 1950

Bitin' The Sawdust

This rider stays on even as his mount hits the dust in a headlong dive after coming out of the chute. Action like this can be seen at each performance of the 19th Annual Texas Prison Rodeo, to be held on October 1, 8, 15, 22, and 29th, at Prison Stadium in Huntsville, Texas.

Local Couple Adopts Baby Girl

Mr. and Mrs. Rebel Thomas returned home Monday night from Fort Worth with their newly adopted little girl baby, which they received that morning.

The Little Lady is three weeks age, weighs 5 and a half pounds, has blue eyes and light hair, and has been named Deborah. However, the parents already are

calling her "Debby." She was born August 25.

Mr. and Mrs. Irving Stewart and Mr. and Mrs. Luther Thomas are the adopted grandparents, and they are said to be about as happy with the new family member as the parents. Grandma Era Stewart, however, says papa and mama are already fussing over who holds the baby. Even Grandpa "Eye" has had a hand in the feeding operations.

Witt's Brother Dies Suddenly

Homer Wilson Witt, 57, brother of John Witt of Tahoka, died of a blood clot in a clinic in his home town, Lubbock, at about 10:30 a. m. Saturday.

Witt had been a resident of the Plains 55 years, moving to Crosby county with his parents as a child in 1895. He had been living in Lubbock since 1921, and was engaged in the furniture and floor covering business.

Funeral services were delayed

by reason of his wife having suffered a collapse following his death.

Mr. Witt is survived by one daughter, two sons, three brothers, and five grandchildren.

W. M. (Bill) Thompson reports that his wife is continuing to improve. Mrs. Thompson fell and broke a hip several months ago, and was in a critical condition for several weeks.

Looking for a Money Saver?

Better Buy Buick!

YOU CAN SEE here how smart it is—don't have to be told that it's the most quickly identified car on the road today.

You probably know that the engine under that broad bonnet is a Fireball straight-eight valve-in-head engine and a lively stepper in any company.

You can check the abundance of its room by the simple expedient

of taking the family and trying out its spaciousness at the nearest Buick dealer's—and a very few minutes on the open road will satisfy you that all-coil springing, low-pressure tires and Buick's torque-tube drive really do produce a ride that is matchless for its soft comfort.

BUT RIGHT NOW, it may be that the money angle is the thing uppermost in your mind, and on that we'd like to make two points:

All our records go to show that this is the most economical Buick ever built. It is easy on gas, on oil, on tires, on upkeep.

And if you choose it with

Dynaflow Drive,* it immediately eliminates all chance of friction-clutch repair and replacement—not to mention greatly reducing rear-axle and transmission maintenance.

Best of all, your initial outlay is a highly favorable one—whatever Buick you buy. For these brawny straight-eights—built rugged and solid for durable service—are priced at a level that makes them a standout buy in any price class.

Yes, better buy a Buick. Your dealer will be glad to demonstrate, glad to work out all the arithmetic of a deal. See him right away and get an order signed.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

Tune in HENRY'S TAYLOR, ABC Network, every Monday evening.

Mrs. J. O. Allen Hosts Dixie Club

Mrs. J. O. Allen was hostess to members of the Dixie Home Demonstration Club at a meeting in her home Wednesday, September 6.

Mrs. Clifton Hamilton who was a delegate to the State Convention at Big Spring in August, gave an interesting report on the meeting.

A report on the year book committee was given by Mrs. E. J. Cooper.

During the meeting, Club members showered the hostess with gifts for her new home.

Refreshments of cookies, mints and punch were served to two visitors, Mrs. E. E. Evans and Mrs. Dan Carpenter. Members present were Mesdames, E. J. Cooper, Clifton Hamilton, Troy Copelin, T. D. Dunlap, E. R. Turcell, Charlie Schulz, T. D. Lishman, and the hostess.

The Club adjourned to meet again on September 20, in the home of Mrs. Elmer McAllister.

devotional by Mrs. Godfrey. Our class attendance that day was twenty-five.—Reporter.

Baptist Attend Association Meet

The Brownfield Baptist Association is holding its annual meeting in the First Baptist Church of O'Donnell today, of which Rev. John H. Johns is pastor.

All the co-operating churches in the Association, about 21 in number, make their reports to this body, showing the accomplishments of the churches respectively during the preceding year, including the work of the Sunday School, the Baptist Training Union, the Women's Missionary Union, and the Brotherhood.

The report of the First Baptist Church of Taboka will show total contributions for all purposes for the associational year ending on August 31 to have been \$31,514.49. During that time there were 129 additions to the church, 38 of them by baptism and 91 by letter or statement. Many letters were granted, however, the total running a little more than 100. Total resident membership at the present time is reported to be 767. The present pastor, Rev. Lee Ramsour, came to this

at 4:15 o'clock in the REA building.

CARD OF THANKS

We wish to express our heart-
felt thanks and appreciation to
our many friends for their un-
tiring effort during the illness and
death of our dear beloved wife,
mother and sister. We also wish
to express our thanks to Dr.
Prohl and nurses at the hospital
for all they did. —H. A. Winkler,
R. L. Winkler, Tom Winkler and
family, Hap Winkler and family,
Dell Fisher and family, Ted Bag-
gett and family, and Mrs. Fannie
Watson.

Maurice Small returned last
mid-week from Dallas, where he
spent several days helping spoil
his new granddaughter, the first-
born of Rev. and Mrs. George
Maurice Small. He claims the
baby takes after him, but other
members of the family are hap-
py that the only resemblance she
bears to her grandpappy is the
fact that she has little or no hair
on her head.

Mr. and Mrs. W. P. Andrews
left Tuesday for their home in
Santa Barbara, California, after a
visit of several days here with
their son, A. B. Andrews of Taho-
ka, and daughter, Mrs. C. E.
Yates of Meadow. Mr. Andrews
formerly lived in the T-Bar com-
munity, but has been in Califor-
nia about fifteen years working
for the Southern Pacific railroad.

A clean kitchen range not only
looks better, but it also cooks
better than one that is allowed to
gather greases, spilled food, dust,
or rust.

Cars Are Needed To Haul Bulldogs

In order that the Tahoka Bul-
dogs may have more time for
workouts, drill periods on Mon-
days, Tuesdays, and Wednesdays
are being extended from 2 to 5:30
p. m. instead of 2 to 4 p. m.

Because of this longer drill
period, it becomes necessary for
someone to carry a number of
boys living in the country home
at 5:30 on these days.

Tahoka Chamber of Commerce
has taken over the project of
furnishing rides for these boys.
Volunteers who are interested in
helping the boys receive better
training by furnishing such rides
are invited to contact Clint
Walker, Chamber of Commerce
secretary. It is not expected that
each car driver will have to make
more than three trips during the
season.

Mrs. G. C. Sheaffer, Jr., and
two children, Rhenea and Kent, re-
turned to their home at Madison-
ville last Friday after a visit here
with Mr. and Mrs. G. C. Sheaffer,
Mr. and Mrs. A. L. Dunagan, and
other relatives.

Joe Don Minor returned to the
University of Texas early this
week. After laying out of school
a year because of an injury, Joe
Don will again be out for foot-
ball, although he will not be el-
ligible for play on the Varsity un-
til next year.

Cpl. Harold Croftwell, who is
stationed with the construction
engineers at Fort Sill, Okla., has
been home for ten days visiting
his parents, Mr. and Mrs. O. A.
Croftwell. He expects to be sent
overseas soon.

A high percentage of the pas-
ture grasses that are planted in
Texas at the present time are
species that have been introduced
or brought into the State.

A recent survey shows that if
all known facts in producing,
harvesting, and marketing cotton
were utilized, there would be an
average net profit of \$75 more
per acre than at present.

Mr. and Mrs. H. G. Hodges re-
turned home Thursday of last
week from Ruidoso, N. M.,
where they spent several days va-
cationing and resting up for the
fall rush.

Announcing the Double-Duty CHRYSLER Traveler

**the smart new sedan that
converts in seconds into a
sports car or cargo carrier.**

Twice as useful as any ordinary sedan as a beautiful
sedan seating six! Or fold down the hinged back seat and
cushion... and you have a level deck 6 1/2 feet long. You
can sleep on it... load all your hunting and fishing gear
... haul farm implements, fence posts—a thousand and one

things no regular car can carry. It's like having two cars in
one. Come see how the new Chrysler Traveler makes
your dollars do double duty. Take the wheel... find out
how Chrysler's built-in value all the way through is combined
with new utility that beats anything on the road today.

See how the rear seat cushion folds forward against the front seat back, and
rear seat back turns down to form flat, level-loading platform. Spare tire can be carried in
passenger compartment, or in well at right of luggage compartment.

Counter-balanced trunk lid opens easily, and stays open for easy loading.
Sturdy luggage rack on roof adds conveniently to the huge carrying capacity of this car.
Upholstery is tough plastic that resembles grained alligator hide.

Miss Elizabeth Inez Rainey and Ray Earl Sooter Exchange Vows Friday

Before baskets of white gladioli and greenery, Miss Elizabeth Inez Rainey, daughter of Mr. and Mrs. B. F. Rainey of Route 4, Lubbock, became the bride of Ray Earl Sooter, son of Mrs. Tom Hes, 2706 Bates St., Lubbock, Friday evening, September 1, at 7:00 p. m. in the home of the bride's sister and brother-in-law, Mr. and Mrs. Floyd H. Davis.

The beautiful double ring ceremony was performed by Carl Spain, a Church of Christ minister and Bible teacher of Texas Tech.

The bride wore a ballerina length dress of baby blue chantilly lace over white skinner bridal satin. It was fashioned with a sweetheart neckline, fitted bodice, and a large circular skirt. Her small blue velvet hat was trimmed with rhinestones and a white veil. Her flowers were a corsage of pink carnations.

All the wedding traditions of something new, something borrowed, and something blue were carried out in the bride's costume; also, the penny in her shoe for good luck.

For something old, the bride wore a gold pin belonging to her mother that had been handed down through generations of her family.

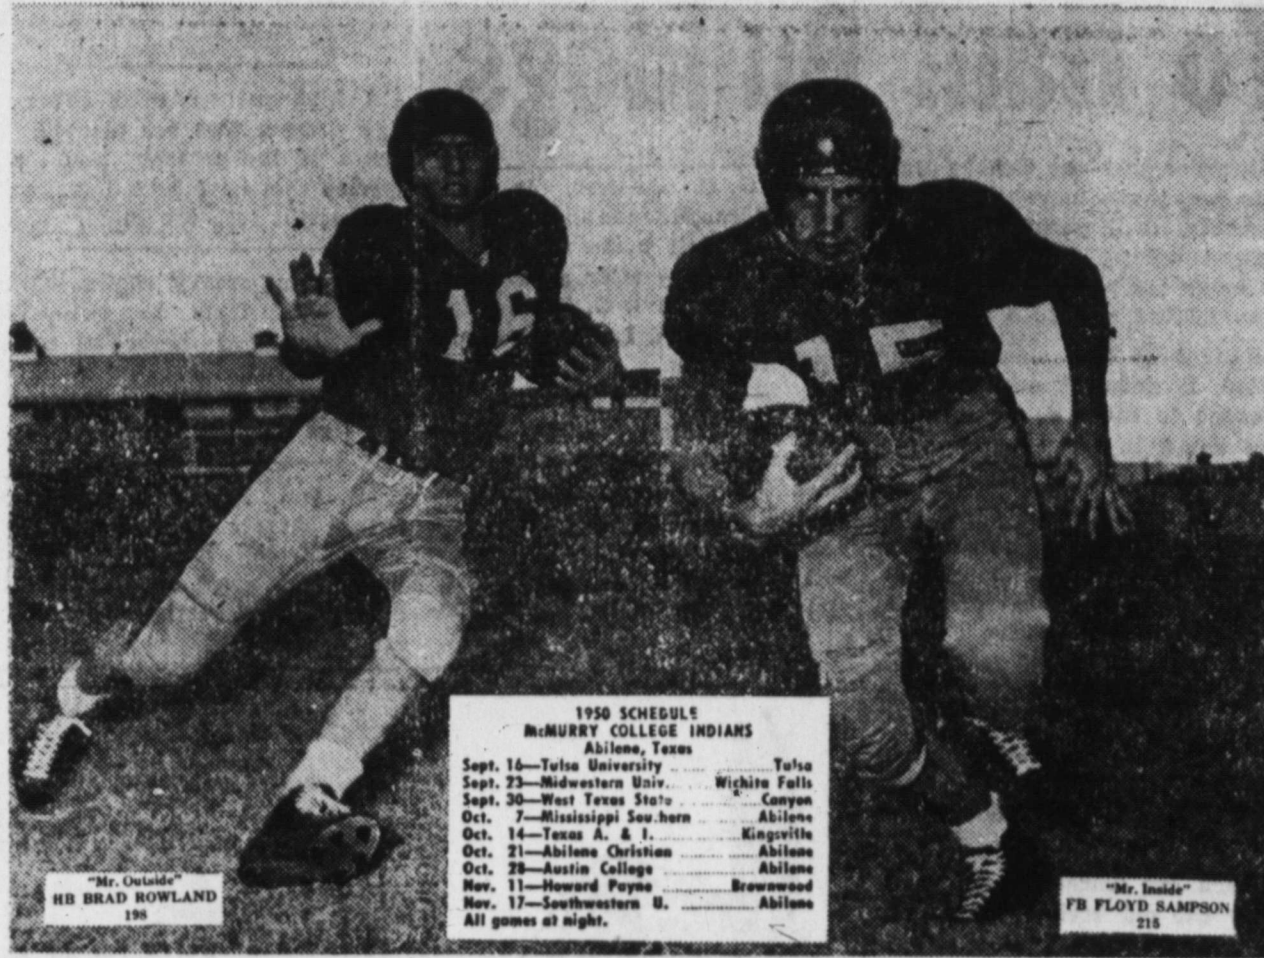

Mrs. Don Kizer, dressed in a tan and brown street length dress and wearing a corsage of white carnations, was matron of honor. Eugene Sooter served as his brother's best man.

A reception followed the ceremony. The bride's table was centered with a beautiful white two-tiered wedding cake surrounded by white flowers, greenery and candles, flanked by two large punch bowls filled with fruit punch. The bride's mother finished cutting the cake after the bride and bridegroom cut the first piece. Mrs. Carroll Bailey, cousin of the bride, and Dorothy Rainey, a sister of the bride, served the punch and cake to the many friends and relatives present at the wedding.

After their honeymoon in Colorado Springs, Colo., the couple are making their home in Lubbock, where they both will continue working. The bride is an operator for Bell Telephone company, and the bridegroom is with Barrett's Automotive Service.

The bride and bridegroom both are graduates of Cooper High School. The bride formerly lived at Tahoka and attended school at Midway and at Tahoka High.

Indians Hit Warpath!

Accidents Take Heavy Toll

With almost four men and women in the United States suffering disabling injuries every minute of the work-day, it is obvious that occupational accidents rank among the nation's major problems.

Believe it or not, injuries and deaths on the job are responsible for more loss of working years than any disease! Among men, only heart disease and cancer take more lives annually than do accidents, according to the Association of Casualty and Surety Companies. Furthermore, fatal diseases strike principally the aged or middle-aged, while accidents take their terrible toll from all ages.

Though the occupational accident rate has sharply decreased since 1925, this decrease has not by any means matched the reduction in our annual disease death rate. For example, 15 years ago, in 1935, pneumonia and nephritis had death rates considerably above the accident rate, but by 1947 the rates for these diseases had dropped 53 percent and 30 percent, thanks to new medicines and improved medical techniques.

Proper safety behavior on the part of the worker is vital to any marked reduction in the national occupational accident toll each year. At the same time, the employer soon learns that a carefully-planned and carried out accident prevention program definitely pays dividends from both a humanitarian and a dollars-and-cents point of view. The President's Conference on Industrial Safety gives point to both of these facts.

Anyone, no matter what his or her job may be, can learn to live and work more happily and

The Trend is to Ford

America's No. 1 Economy Trucks

MORE AND MORE truck users everywhere, in every line of business, are switching to Ford Trucks. The fact is that Ford is making bigger sales gains than all other trucks combined.

The force behind this tidal wave of popularity is Ford Truck economy. This economy starts with a choice of over 175 models from 95-h.p. Pickups to 145-h.p. Big Jobs, which permits selection of the right truck for the job. It continues with low Ford prices made possible by volume-purchasing and volume-production know-how. It reaches its crest with specific economy features like a choice of V-8 or 6-cylinder power, Loadomatic ignition, Flightlight aluminum alloy pistons, and many other features that give efficient, reliable performance over a longer period of time.

Join the Big Trend to Ford Truck economy. Smart truck users everywhere are enjoying the benefits of longer Ford Truck life which means fewer repairs, lower maintenance costs, less time lost in the shop. Let your Ford Dealer show you how America's No. 1 Truck Value can do more per dollar for you.

OVER 175 FORD TRUCK MODELS BUILT FOR LONGER LASTING ECONOMY

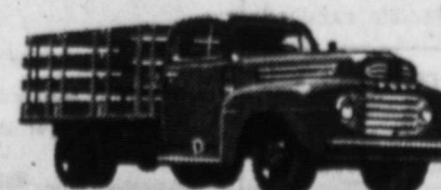

145-HORSEPOWER F-7 and F-8 BIG JOBS are Bonus Built for the biggest jobs in trucking. Up to 39,000 lbs. G.T.W. 5-speed transmission. Air brakes available on F-8.
