7-year sentence given in murder trial

The murder trial of Felix Molina in 32nd District Court was concluded rather abruptly about noon Wednesday when the defendant pleaded guilty to a lesser charge and was sentenced by Judge Weldon Kirk to seven years in the Texas Department of Corrections.

After selection of the jury, Molina entered a plea of not guilty to the indictment charge of murder and the trial got underway Monday with Carl Brauback presenting the State's evidence. Molina, 45, was accused in the shooting death of Roberto Antonio Aguilar, 28, of Loraine. The Loraine man died at the scene after being shot in the chest during an argument at Butler's Cafe on First Street in Colorado City on November 7, 1986. Several local law enforcement officers were called in to testify.

After presentation of the State's case was concluded, Molina, through his appointed attorney, Peter F. Sheridan, informed the court that he wanted to enter a plea of guilty to a lesser charge of second-degree voluntary manslaughter by use of a deadly weapon, to wit: a firearm. Upon agreement with the State, Molina entered a plea of guilty to the lesser charge and waived trial by jury for the punishment stage and requested that the punishment be set by presiding Judge Kirk.

After Judge Kirk's charge to the jury, the jury took only a few minutes to render a guilty verdict. Judge Kirk then set the sentence at 7 years in prison, with 134 days of time in jail credited.

After the court adjouned, Molina was escorted under heavy guard to the Mitchell County Jail where he will be held until he can be placed in the state prison system.

Finley named Loraine Councilman

Robert Dale Finley was appointed to the Loraine City Council Thursday to fill the unexpired term of his brother, Gary, who resigned from the council last month.

Gary Finley moved from Loraine, prompting his resignation.

Robert Dale Finley, a farmer, was sworn into office by City Secretary Christine Britton after his nomination and unanimous approval by the council.

In other business, a public hearing was held concerning the city's proposed application for a Texas Community Development Program grant with which to pave seven streets.

Although no citizens were at the meeting to speak for or against the proposal, Kay Howard of Gary R. Traylor Associates of Lubbock, planning consultants, and Gary McKay of Todd Engineering of Abilene were on hand to explain the costs of the paving program and how to proceed with the grant application.

McKay said the anticipated cost of paving will be about $200,000. He will have a more accurate figure at the November meeting after the council agreed on the width of the streets.

Mrs. Howard said there is $1.2 million in grant funds available for this area and that the maximum grant amount is

Wolves beat Brady

BRADY—The Coloradoa City Wolves traveled here to "Deep in the Heart of Texas" Friday night and went home with a thrilling 22-21 win over the Brady Bulldogs.

The win upped the Pack's record to 4-2 for 1987 and to 2-1 in District 5-3A. Brady, after a 3-0 start, dropped to 3-3 with its third consecutive loss.

"I was worried," said Wolf caoch Tom Ramsey afterwards, among excited Wolf fans. "We had lost the momentum. Big No. 80 went up with his 6'-4" and that's better than our 5'-5" and 5'-6"."

Ramsey was referring to the last play of the first half, when Brady's Warren Sanderson caught a 21-yard pass from Michael Shields. The catch, in the endzone behind defenders Ricky Arispe and Cary Richie, pulled Brady within 14-16 at halftime.

"We still had the lead, but they scored on the first possession of the second half," said Ramsey, "and it took us a while to regain the momentum. The defense turned them away later. The opportunity jumped up for us and we took it in. The kids played well. We knew we had to wear them down."

"The big M is the only thing right now," said Ramsey, referring to Friday's game when the Merkel Badgers come to Wolf Statium for Colorado City's Homecoming. "We are going to line up like two heavyweights."

The Wolves twice overcame Brady leads—scoring the final go-ahead touchdown on a do-or-die drive with 4:13 left in the game.

Harvest-aids discussed; Stripping within 10 days

Approximately 35 local cotton producers attended the meeting Thursday at Villa Inn Restraurant to discuss the various harvest-aid chemiclas, their use, time of application and maturity of cotton crops.

Charles Stichler, extension agronomist from Fort Stockton was on hand for the discussions.

Uses of these chemical are primarily to allow cotton producers to get an early start with the cotton stripping to avoid bad weather delays and the improve the grades and price.

A large number of local producers have used various harvest-aid chemicals and will be ready to begin to strip their cotton within about 10 days, Mike Mauldin, county agent, reported. Thus far no cotton has been stripped, but gins are now preparing to get in operation.

After the luncheon, the big group of producers visited several local cotton fields to view the crop maturity status and the current results of harvest-aid chemical use.

For The Record . . .

by M. Gene Dow, GM

FROM THE SCRIPTURES— "The Kingdom of Heaven is like a mustard-seed, which a man took and sowed in his field. As a seed, mustard is smaller than any other; but when it has grown it is bigger than any garden plant..." Matthew 13:31-32

* * *

I have 10 acres of cultivated land over in Scurry County near the Mitchell County line. It was planted in cotton for four or five years before my "gentleman farmer" gave it up for a lost cause. The most I ever made off it was $172.75 and $50 of that came from some governmental program. Typical, huh?

Gene Dow

Thus, while participating in the recent Farm tour, I became quite interested in the CRP (conservation reserve program) where you can plant grass and get paid up to $40 per acre for it. Better than what I did with cotton, for sure. I asked our tour guide, Kevin Wright, "how much land can be placed in the CRP?" "Since there is a $50,000 payment limit, up to about 1,250 acres at the current bid prices," he said.

"Well, how about T-E-N acres," I questioned. He just about fell off the bus door step, with surprise, but confirmed, "Well, yes."

Man, that means I can get $400 a year off that land! Then I found out you have to keep it deweeded. With my luck it would probably cost me $800 a year to keep the weeds and sunflowers, which are now arm-pit high, out of the grass.

* * *

THE LONE WOLF SAYS, "The world is changing so fast nowadays you couldn't stay wrong all the time even if you tried."

* * *

As an addendum to the CRP subject I might add that Love grass (now that's the name of it, I'm not going to get sexy) is the most popular grass planted locally in the program. It has an unusually small seed, nearly as small as a mustard seed. Kevin told me that the Mitchell County SWCD conducted a contest at the Fair for people to guess how many seeds there were in 7 ounces of Love grass that was on display at their booth. Richard Arthur, an employee of Texas Electric here, won the prize with a guess of 750,000. "He was closest to the actual count of 656,250," Kevin reported.

"Oh, yea," I inquired, "and just who counted them?"

"We use our 'Good Book'," he said, "the service knows how many seeds are in a pound and we just extrapolated ... otherwise we would still be counting!"

Let's see now, I figure I'll need about an ounce of Love seed for those 10 acres, plus an airplane to sow them, several gallons of weed killer, a land leveller ... yea, $800 expense is about right.

COLUMBUS DIDN'T TURN BACK

Discovering places and things can be pretty discouraging. When Columbus arrived on this continent nearly 500 years ago his crew was sick, dishearted and ready to turn back. Even the medicines they carried were primitive and not sufficient to help with their problems.

Another more modern group of explorers are those who toil in research laboratories, looking for and testing new drugs. Fortunately, these pioneers did not turn back either and today many once feared diseases have been cured. Hopefully, in the not too distant future more new disease fighting medicines will be appearing in our pharmacy laboratory.

The Medicine Place is dedicated to your better health. They would like to be your pharmacy. They are committed to keeping your prescription costs as low as possible. They will now knowingly be undersold on any prescription. That's The Medicine Place's Pledge to you.

Ray Mayo

This has been the week for the bizarre and unexpected.

First, there was a possessed mirror, then the man who sat up in bed and spoke after being declared dead and finally the woman who was taken away in a space ship, only to be returned to earth later.

What sounds like science fiction is actually some of the plots from the new fall lineup of television shows this past week.

The plots are unexpected, to say the least. What's bizarre is that the television network executives expect the viewers to accept what's being dumped in our laps.

Monday night viewing was rather limited, to say the least. There was a pro-amateur football game on one channel, some light-hearted comedies on another channel and a movie on the third major network channel.

I opted for the movie, thinking that "Haunted by Her Past" sounded like a good mystery movie. The mystery was why I kept watching after the first few scenes.

The plot centered around a woman who was told by a 18th century ancestor, via an image in a mirror, to kill her husband just as her mother had killed her father in the same room of the colonial-era inn.It's true I've seen pretty gastly things when I looked in a mirror, but I've never seen any other image than myself, regardless of whatever condition I happened to be in at the time.

Tuesday night viewing is somewhat of a blur. I only remember watching one television show, "Moonlighting", and all that I can remember of it is one of the actors talking to a clay animated figure of the show's leading woman. It was neither bizarre nor unexpected - it was stupid.

However, Wednesday night viewing takes the cake as far as bizarre is concerned.

I've long been a "Magnum PI" fan and I was anxious to see the first show of what he says will be his last season. But, I just wasn't expecting Magnum to be floating in a never-never land while his family and friends watched for his return from a coma. Just as the doctors unplugged him and pronounced him dead, he sat up in bed, very much alive. B the end of the show, he's in top form, still mystified, as I, about his curious odessy into the outer limits.

After that strange encounter, a flip of the dial allows us to tune into one of my wife's favorite shows, "Dynasty". I only allow her to watch it because she allows me to watch late-night "M*A*S*H" reruns.

I wasn't a regular "Dynasty" viewer last season and the continuation of some of the plots leave me bewildered, to say the least. Even my wife wasn't ready for the scene when one of the characters tells her husband of the night she was whisked away in a space ship. Her father announces later in the show that he will seek election as governor of Colorado. Can you just imagine what the news media will make of the candidate's daughter's UFO ride?

Mind-boggling to say the least.

Maybe I'm just getting old, but whatever happened to "Walton's Mountain"-type shows when about the only bizarre thing was how they managed to get everyone to the supper table at the same time.

Every time they find a decomposed body out by some gravel pit, I find myself rethinking the death penalty.

It happened again recently in these parts. The woman, a 27-year-old schoolteacher, had been missing for two weeks. Day after day the TV cameras were on hand to take pictures of the father walking through pasture land, or digging with a shovel - along with police investigators - through the debris at a dump yard.

You couldn't help but feel sorry for him. He was a no-win situation. If he found something he'd be devastated. If he found nothing, he'd be devastated.

Fortunately, somebody else eventually found the body. It was so badly decomposed that positive identification couldn't be made until dental records were checked.

I hate the idea of some criminal laughing to himself, thinking, he's going to get away with this. If torture was involved in this murder, my impulses tell me we should torture the person who did it in precisely the same manner. Something deep down - something that is probably sick and demented - tells me I'd enjoy witnessing that torture.

The frustrating part is that I've never been able to justify capital punishment - much less torture. Not that I haven't tried very hard.

I think maybe I enjoy capital punishment much the way I enjoy professional boxing. It's difficult to justify the sport of two men standing in the middle of a ring trying to kill one another. But way down deep, where the animals snort and sneer, executions offer the same undeniable satisfaction as watching my guy rip off the bad guy's head.

The question is whether to feed the emotion or the mind. No question which of the two has the larger appetite.

Most people I talk to about capital punishment feel one of two ways. It's justified for the good of society, or it's primitive and designed to satisfy savage yearnings for revenge. I have no trouble recognizing the latter.

What's good for society, capital punishment advocates say, is having streets that are safe at night and day. It's getting rid of bad elements which simply cost the tax payers money. We can kill the murderer nice-like-lethal injection instead of a million and one ice-pick wounds - but kill him we must.

We don't usually bring up the vindictive part, mainly because there are better ways to flatter one's self. Not bringing it up helps to preserve the practice of legalized killing, too. It makes it easier to decide this is some kind of a duty. A responsibility.

I may be wrong, but I suspect most people have their own animals snorting and sneering way down deep, animals that aren't giving a thought to duty and responsibility.

The problem with killing somebody as punishment for that person having killed somebody else, is that it goes against most religious teachings in this country. Certainly against Christianity.

As far as capital punishment being a deterrent to future murders, that's absurd. People still get up in the morning, read about the executions, then put on their mad suits and go out and kill each other.

Consequences are rarely thought of until the murderer has had time to sit down in his cell on death row and philosophize about it for eight or 10 years.

Letters to the editor...

Moving experience

TO THE EDITOR:

Dear Mr. Mayo:

We wish to thank you for the wonderful tribute you had in your column for the Vietnam servicemen who lost their lives and to those who are still living and to those who are still missing.

It helps so much to know that others care and have not forgotten them.

We went to Big Spring Sunday to see the memorial and to hear the programs and dedication.

It was such a moving experience to see our son's name, as well as the names of all those other 58,022 other Americans who gave their lives.

Thank you again.

Sincerely,
Mrs. W.W. Cooper

No head in sand

TO THE EDITOR:

In response to the recent Letter to the Editor, I would like to try to clear up some misconceptions and misunderstandings.

"Discipline Management"—A handbook of rules, regulations, laws.

"Teachers"—Employees (parents themselves) who like other parents, did not write this handbook.

My opinion of the Discipline Management Handbook, in no way reflects on the teachers. I know many of our teachers personally. I have this year, as well as last year, spent many afternoons in our public schools—volunteering, because I can appreciate the heavy workload on our teachers.

Just as it is my freedom, right, and responsibility to vote, so is it also my freedom to disagree, my right to my own opinion, my responsibility to act on that which I disagree with. That is what America is all about.

In the Letter to the Editor, the statement, "Parents, let's stop acting like our children ... and help teach them responsibilities," was made.

Burying our heads in the sand does not teach children anything. In fact, we would be saying to them, "it doesn't matter what goes on, you cannot do anything about it." I for one believe this attitude is what has happened to our country now.

Our teachers teach in the classroom, the Constitution of the United States of America. Why take the time to teach this document, if in the future, as adults we are criticized for exercising those rights.

I stand with our teachers 100% and wish only to help and encourage them in their efforts to educate our children, who will someday be our leaders.

But, I will continue to stand up for my rights and stand by my children when I feel an injustice has been done.

Ineffective ISS

TO THE EDITOR:

To those people who only seem to be able to see out of one eye. We the people, of the United States of America, do still have a few Constitutional rights left to us. Because some people choose not to be led to the slaughter does not mean that we are acting like our children. Most of us believe in standing behind our teachers, but not if one is in the wrong. Being a "teacher" does not make you be always a 100% correct person. Our Discipline Management Plan for CISD was not drawn up by a "teacher." I haven't noticed anyone going on strike against the teachers.

Most people are concerned with our I.S.S. program. They are concerned as to why two girls fighting at high school get three days in I.S.S.; but two boys fight in Athletics, that resulted in a broken jaw and several thousand dollars medical bill, and get no I.S.S., both during school time and on school property. A student pulling a gun in Athletics and nothing happening. A student getting three days I.S.S. for putting a dead animal on another's car. We are concerned with the ineffective use of I.S.S. We are concerned with the two standards use of I.S.S. We are concerned with 20 days in I.S.S. for a first offense alcoholic or drug offender. Most parents do not want their kids to use drugs or alcohol. But we all as human beings make mistakes. We can get a student's attention and try to teach them something without having to break their spirit. 20 days in I.S.S. for a good student that makes an honest big time stupid blooper is excessive. Kids will be kids. They have to get through the growing process.

Choosing not to sign a paper because you do not believe in it does not mean you're striking against "teachers." It means you're standing up against being led down the primrose path.

A T.E.A. representative told me that House Bill-72 requires school systems to send out copies of the Discipline Management Plan, but that no one can be required or made to sign them. Dr. Garcia said they would like for parents to sign but they do not have to. The wording understand and consents causes the problems; as Dr. Garcia said they had had numerous complaints from different school systems over the wording.

The Dictionary defines consent - to give assent, agree, comply or yield, to agree in sentiment, opinion. Abide - means to stand by, to await, or accept the consequences of, to put up with; tolerate.

Maybe if we were asked to understand and abide by these rules would be different. We all have rules and laws to follow. But we do not necessarily have to consent to them. That does not make us strike against teachers.

On a more personal note, I know there are several teachers that can vouch that I have, can, and will stand for and beside a teacher if I feel they are in the right.

I will continue to stand up for what I believe in and carry the label "Troublemaker" proudly because I know at the end of time, I only have to answer to one being.

Sincerely,
Rogene Spruell

No Savior

TO THE EDITOR :

I hear and read of all the praises of having a prison here. It seems that there are no verbal or written objections to it. But I feel that there are some in town that don't agree with the so called majority! It all seems like a general Brainwashing to me! I don't feel that a general meeting of highly pro inclined people, 500 or so, against 5, is a legitimate way to say one way or the other. The only way is to call a general election! Anything else is a sham! If we get the prison I predict:

1. That within 3 to 5 years that Mr. Gig Tongued Emerson will skip the state and leave Mitchell County holding the bag!

2. The elected elite will then tell us that if we let the prison go into the finance company's hands, we will have no control over what happens there, and we only need to pay for 8 to 11 years, and we can own it ourselves. So pass a bond election to raise our taxes just a little and it will be ours.

Yes, the prison might have a few advantages! Maybe a handcuff factory. Certain people here would have their own private "Staglag 17". Yes, I'm sure that it would really brighten up the looks and name of C-City.

I also read the letter of Mrs. Lee in the Wednesday RECORD and I suggest that if she would look around the ag barn on cheese day, she could see quite a few of the people who have money, they're already there and they are not there for a look and see either!

No! People of C-City! Mr. Emerson is not a savior of anything, not even himself!

Yours truly,
Joe R. Johnson

Poor taste

TO THE GENERAL MANAGER

Dear Mr. Dow:

I have resisted writing this letter for several days thinking maybe my irritation from one of your recent columns would go away. It hasn't. Several issues of the Record ago, you printed some quotes of local individuals in your column. For the most part, they were amusing if not wise, with one glaring exception, the quote of Sonny Emerson. I find it hard to understand why an individual of his apparent stature would make a statement that "no one under 34 can pour p-- out of a boot". It would seem to me that he is doing his best to alienate some of the younger talent in the Colorado City area that might help him with his project. What amazes me even further is that you would even take the time and space to print such a remark.

I am over 34, (unfortunately), so Mr. Emerson's comment was not aimed directly at my age group, but I think it shows a great lack of taste on his part and a great insensitivity to your readers, and even to Mr. Emerson, to print the quote in an otherwise amusing and informative column.

I lived in Colorado City during the late 70's and have continued to take the Record while living in Oklahoma, Utah and now Abilene, Texas. I do so, and now have decided to continue to do so, because I like to keep up with the local news and personalities.

The next time you see Mr. Emerson, you might tell him that there are a lot of people under 34 that can indeed "pour p-- out of a boot", and that some day, he just might need their help.

Gary L. Smith
A Concerned Former Resident

GM's Note: Thank goodness you re-subscribed or I would have really been in trouble! You are right, half or more of what appears in "For the Record" is probably not worth the space it takes up except to get readers to chuckle a little bit. Mr. Emerson's quote was somewhat out of context, but his answer to a question at the public meeting did draw a laugh, and not intended to be a slap at the younger generation. Laugh a little, it won't hurt.

Groups honor outstanding CHS teacher

WACO - Carolyn Walker of Colorado High School won third place recently in the Secondary Division of the sixth annual L.W. "Bill" Gray Awards for Excellence in the Teaching of Private Enterprise competition.

Mrs. Walker was honored for her topic, "The Agony and the Ecstasy of the Stock Market".

Sponsored by the Baylor University Center for Private Enterprise, the Texas Association of Business (TAB) and the Texas Council on Economic Issues, the competition awards $1,000 for first place, $750 for second, $500 for third and a $50 bond for honorable mention.

More than $6,000 in prizes will be distributed statewide to the winning teachers in the elementary, intermediate and secondary divisions.

In announcing the winners, TAB president Dane Harris said, "We are very proud to recognize these teachers' achievements. We feel that both the quality of our education system and our private enterprise economy would be secure if all teachers would demonstrate the vision that these have had."

The awards recognize teachers who develop creative ways of teaching private enterprise and economis. The program honors Gray, who retired after serving as TAB president for more than two decades.

Dr. Calvin Kent, Baylor professor of private enterprise and director of the Center for Private enterprise, indicated the importance of the awards competition is growing.

Beginning this year, teaching about the free enterprise system is required at all grade levels, and a course in free enterprise economics must be completed before a student can receive a high school diploma. Also, vocational/technical courses are to include units on entrepreneurship.

SHADOW PUPPET - Members of Mrs. Katherine Walla's middle school speech class presented a shadow puppet program to kindergarten students at Kelley Elementary School Wednesday. The students use overhead projectors to display the puppets as they read stories. Standing at left is Mrs. Walla.

Weddings

Roach, Hoeve exchange wedding vows

Kelley D. Roach became the bride of Bruce H. Hoeve during a double-ring ceremony Sept. 5 at 2 p.m. at Calvary Baptist Church.

Rev. Travis Monday, pastor, officiated.

The bride is the daughter of Mr. and Mrs. Edward B. Roach of Colorado City. The groom is the son of Mr. and Mrs. Henry Hoeve of Ransom Canyon.

Fifty-five ivory candles accented with greenery decorated the church. Pews were marked with burgundy satin and ivory lace ribbons. Burgundy roses highlighted the reception area as well as the wedding cake which had a burgundy fountain.

Given in marriage by her father, the bride wore an ivory gown with long, see-through sleeves. The dress was accented with small roses and seed pearls. The neckline, sleeves and hem of the dress were accented with lace.

She carried a bouquet of a dozen burgundy roses accented with ivory and burgundy ribbons and lace.

Wedding music included "I'll Still be Loving You" (Restless Heart), "The Lord's Prayer" and "Whither Thou Goest".

Maid of honor was Michelle Jackson of Lubbock. She wore a solid burgundy satin dress with burgundy lace overlay and long lace sleeves and a burgundy sash. She carried three ivory roses with ivory lace ribbon.

Bridesmaids were Reesa Kelley of Lubbock and Carla Sheltos of Lubbock. They each wore a sold burgundy dress with burgundy lace overlay, a satin sash and long, lace sleeves. They each carried three ivory roses with lace ribbons.

Flower girl was Claudia Hoeve, niece of the groom. She wore a burgundy dress with rows of ivory lace.

Candlelighters were Carly Beth and Mandy Lynn Roach, nieces of the bride. They wore burgundy dresses with ivory lace collars.

Best man was Mike Dellies of Dallas. Groomsmen were Eric Nelson and Goober Evans of Lubbock. They were attired in black tuxedos with ivory shirts, ties and cummerbunds.

Ushers were Ty D. Roach, brother of the bride, Clifford Hoeve and Gregory Hoeve, brothers of the groom and Mohammed Rahman, cousin-in-law of the groom.

A reception followed in the church parlor. The bride's table featured the traditional three-tiered wedding cake accented with burgundy roses and fountain. Dozens of burgundy roses and ivory lace and ribbon completed the setting.

Wolves upset Brady Bulldogs, 22-21

From Page 1

The Wolves came out passing to start the game, as Joe David Rodriquez caught three early passes from Ismael Silva for 26 yards.

On the next possession Silva was blindsided, and Stremain Phillips recovered a fumble for Brady at the Wolves' 35. Wolf defense held and Brady's Frank Stirman missed a 25-yard field goal attempt.

Brady went 55 yards and took a 7-0 lead on a three-yard scoring play by Michael Sillemon with 7:44 left in the half. Stirman kicked the PAT.

The Wolves came back like gangbusters with a 73-yard march that ended on an 11-yard, high-stepping score by Beau Rees with 5:15 left in the half.

Ray Rivera missed the extra point kick, but Brady was called for three consecutive offsides violations. Rees ran for the extra point after the third flag. Rees finished with 139 yards on 23 carries. The extra, extra point played a big part in the final count.

Big plays in the drive were for 25, 5 and 3 yards runs by Rees and a 13 yard run by Pat Tillis. Three plays after Rees' score, Mark Russell recovered a fumble by Shields at the Brady 39. Seven plays later Rees dove right for a score with 1:18 left in the half. Rees ran for all but four yards of the drive. Tillis got those.

Dennis Smith made a tckle for the Wolves on the Brady kickoff return to Colorado City's 42. A broken play pass from Shield to Sillemon gave Brady a first and 10 at the Colorado City 25. Shields and Sanderson connected on the 21-yard score on the last play of the first half to put the Bulldogs back in the game.

Brady scored to open the second half to take a 21-16 lead on a 1-yard Sillemon score. Shields had a big 44-yard keeper to the Wolves 28 in the drive.

The Wolves didn't respond in the third quarter—punting and fumbling their two possession of the period. The fumble was on a pitch from Silva to Tillis.

An interception by Colorado City's, Cris Perkin started the fourth quarter. Colorado City gave the ball back after Smith dropped a "bomb" from Silva.

The next time the Wolves got the ball, they drove 65 yards on their last chance to pull out the win. The Wolves took the lead for good on a 13-yard jaunt by Tillis through a big hole leading to the near left corner of the endzone.

An 11-yard pass from Silva to Russell, two 7-yard runs by Silva, and a face-mask call against Brady were big plays in the drive.

David Garcia's interception and Edwardo Melendez' sack ended the last two Brady possessions, respectively, for a few of many outstanding defensive plays for Colorado City.

Colorado City had 16 first downs, 195 yards rushing on 40 attempts, 5 punts for an average of 29.0, lost 2 fumbles, was penalized 4 times for 27 yards, and completed 6 of 9 passes for 40 yards.

Brady made 15 first downs, rushed 48 times for 226 yards, had 3 punts for an average of 33.3, lost 1 of 1 fumble, was penalized 5 times for 36 yards, and completed 5 of 13 passes with 2 interceptions and 41 yards.

Loraine wins 22-21

LORAINE—Coach Tom Merdith's Loraine Bulldogs, came from behind in the third quarter to down El Paso Jesus Chapel 22-21 here Friday night in an exciting 6-man grid tilt.

EPJA jumped to an early lead in the first quarter when Will Risher scored on a one yard run, for a 6-0 lead after the try for extra point failed.

Loraine came back with a 46 yard touchdown run by Rudy Sanchez. Shawn Finley kicked the 2-point PAT to put the Bulldogs in the lead 8-6.

In the second period, Risher again punched over from the one yard line and the kick was good to put EPJC back out in front 14-8, which held up through the half.

Early in the third quarter, EPJC upped its lead to 21-8, when Risher rumbled 57 yards to score, then added a one-point PAT.

But the Bulldogs went to the air for two staight touchdowns to nail down the victory. Casey Cooper passed to Charlie Alvarez, good for 58 yards and a touchdown. The PAT failed leaving the Bulldogs still trailing 21-14.

But Cooper connected with Luis Leija on a 43-yarder, then Finley added the winning margin with a 2-point conversion and the close 22-21 victory. The fourth quarter was scoreless.

With the win, the Bulldogs evened their record at 3-3 for the season.

JV downs Coahoma

A 20 yard touchdown pass from Ken Land to Mark Alvidrez gave the Colorado City Wolves a 7-6 victory over the Coahoma Bulldogs in a junior varsity football game at Wolf Stadium Thursday.

The contest was originally scheduled for 7 PM but was moved to 5 PM because Coahoma didn't have enough players to field a freshmen team. Several Colorado City freshmen, who were scheduled to play at 5 PM, joined the junior varsity for Thursday's game.

Alvidrez' reception was the first score of the contest. Land and Edward Flores connected for a 35 yard pass play that ended the first quarter.

"Then Colorado City got the wind," said coach Jerold Epperson, "and Land threw to Alvidrez for the score."

Dane Hoover kicked the extra point.

"They(Coahoma) scored in the third quarter after we fumbled a snap at our own two yard line," said coach Epperson. "We held them on the extra point(an incomplete pass)."

"We had another real good defensive outing," said Epperson. "I imagine we held them to under 50 yards rushing. The only time they threatened was when we fumbled."

Epperson cited John Phariss, Alan Howell, Danny Luera, Adon Deloera and Jesse Franco as defensive standouts. Rene Silva and freshman George Ramsey made interceptions for the Wolves.

"It was another hard fought battle," said Epperson, "a typical Colorado City and Coahome game. Bobby Arocha ran good offensively. Scott Pesnell ran good and caught a big pass. Gabriel Ornelas made a catch."

We moved the ball well. We got inside their 20 a couple of times then got bogged down and didn't punch it in but our defense held them. Freshmen Felipe Heredia and Bobby Silva did a real good job. This makes us 4-2."

"The offensive line I thought did a pretty job," said coach Rick Robinson. "Alan Howell, Ray Sutton, Hadley Weaver, John Phariss, Danny Luera and Adon Deloera did a real good job."

The junior varsity Wolves take on Merkel there at 7 PM Thursday. Merkel cancelled the freshmen game, too, and instead the Wolves will travel to Sweetwater for a 4 PM contest Thursday.

CMS gridders win

Anderson also completed 2 of 7 passes for 15 yards and no interceptions. The Wolves rushed for 404 yards on 49 attempts-an 8.3 average-and had 419 total yards.

Zamarippa also made an interception for the Wolves and recovering fumbles were Humphrey and Frank Briseno.

The Wolves totalled 267 yards.

Bennett attends seminar

Dr. Don R. Bennett has returned from a four-day postgraduate seminar conducted by the Parker Chiropractic Resource Foundation at the Hilton in Dallas in September.

Also attending the seminar were Judy Bennett and Virginia Dearen, chiropratic assistants.

PCRF President Dr. James W. Parker conducted the seminar and was aided by a team of over 55 well-known instructors in the profession. The seminar presented over 150 classes covering nearly every phase of a chiropratic practice. Other postgraduate courses include chiropractic techniques, advanced patient care and modern X-ray technology.

Speical methods were included to aid the doctors in improving the approximately 80 percent correction rate chiropractic care offers patients of headaches, backaches, leg and hip pains and other pains.

Mrs. Bennett and Mrs. Dearen are two of over 60,000 chiropractic assistants to have received specialized seminar training through PCRF Seminars.

Dr. Bennett was graduated by Texas Chiropractic College. He practices in Colorado City at 2620 Hickory, G-Kell Building.

CITIZEN OF THE YEAR award presented by the Kiwanis Club was given to Elmer Martin (right).

County Oil and Gas Report

At a location nine miles southwest of Westbrook, Mobil Producing of Midland finaled a new oil producer in Mitchell County's East Iatan-Howard Field.

The well is designated as the No. 219 Mary Foster, pumping 61 barrels of oil per day, and will produce from perforations in the Clear Fork Formation, 2,391 to 3,207 feet into the wellbore. Location is in a 3,840-acre lease in the T&P Survey, Sec. 17, Blk. 29.

Dedica Energy of Mattoon, Ill., completed two oil producers in the East-Iatan Howard Field. The wells are designated as the No. 1 Schattel, located six miles southwest of Westbrook, and the No. 1 Virginia Lotspeich, located one mile south of Iatan, Mitchell County.

The Schattel well pumped 230 barrels of oil per day, plus 15 barrels of water. The Lotspeich well pumped seven barrels of oil daily, along with 150 barrels of water. Production will be from perforations in the Clear Fork Formation, 2,604 to 3,257 feet into the wellbore (Schattel well) and 3,038 to 3,314 feet into the hole (Lotspeich well). Total drilling depths were 3,380 and 3,335 feet, respectively.

The Schattel well is in a 30-acre lease in the T&P Survey, Sec. 12, Blk. 29, while the Lotspeich is in a 40-acre lease, same survey, Sec. 2, Blk. 29. Dedica Energy replaced William H. Zuhone Jr. as the operator.

Kohler Energy is planning to conduct a re-entry operation at the No. 2 Kohler-Brennand, a developmental well in Mitchell County's Westbrook Field. The operation is located five miles west of Cuthbert in a lease in the H&TC Survey, Sec. 19, Blk. 26. It was originally completed by Sydson Doro Exploration Feb. 15, 1985, and production was from perforations in the Pennsylvania Formation at 7,294 to 7,689 feet in the wellbore. Originally bottomed at 8,100 feet, Kohler Energy plans to deepen the well to approximately 8,350 feet and seek production in the Ellenburger Formation.

Sun Exploration and Production of Abilene has filed production figures on a plug-back operation at the No. 9 J.F. McCabe "A", a developmental well in the North Jameson Field, Mitchell County. The well pumped 29 barrels of water from perforations in the Strawn Sand Formation at 6,166 to 6,308 feet into the hole.

The same operator originally completed the well June 2, 1981, with bottomhole at 7,198 feet. Sun plugged the well back to 7,150 feet.

Drillsite is in a 485-acre lease in the H&TC Survey, Sec. 3, Blk. 1A. Location is 21 miles southeast of Colorado City.

Salvation Army donations asked

About this time every year, the people of Mitchell County confirm their generosity and compassion - they give to the Salvation Army to help in time of need.

"I know of no other group so careful with money. The Salvation Army sees that your gift dollars go where you want them to go and do what you want them to do," said Rev. Roy Bryd, local Salvation Army chairman.

Mail your gift now to the Salvation Army, Box 491, Colorado City, Texas 79512.
