ELDORADO — SCHLEICHER COUNTY, TEXAS

THURSDAY, JULY 31, 1952

NUMBER 30

WILDCAT IS DUE 2 1/4 MILES S. E. OF ELDORADO

The Gray Wolfe Co., of Houston Monday applied for a permit to drill a 6,500-foot wildcat in Schleicher County—2 1/4 miles southeast of Eldorado.

The test well will be 1,980 feet from the south, 660 feet from the east line of section 21A HE&WT, on a 1,280-acre lease. Ground elevation is 2,406.3 feet.

Owners of section 21, according to a Schleicher County ownership map, are: Eloise Thompson Woodhull, Eleanor Thomson Hutcheson, and Mary Jane Thomson Allen.

Primitive Baptist Association Meeting On Coming Week End

The Joe Faulk's ranch in the Bailey Ranch Community will provide the meeting place for the Primitive Baptist Association meeting opening July 31 and continuing on through Sunday.

Newman Lykins of Lampasas is moderator of this group which includes Primitive Baptist churches at Lampasas, Santa Anna, Stephenville, Fort Worth and Eldorado. Charlie Richards of Santa Anna serves the Eldorado church as part-time minister.

Those attending the meetings this weekend will camp at the meeting place, and will cook and have sleeping accommodations there at the camp site. Messengers from the member-churches will have part in the business sessions.

MANY SHELL MEN MOVE

With the opening up of many better jobs in the Shell system, there is a heavy turnover of job assignments—a fact which is effecting personnel of the local station. As some of these assignments are only tentative today, news concerning promotions cannot be released until later, probably next week.

Dee Smith, veteran employee in the system, put in his last time on the job last night. Today he and his wife have gone to Houston after storing their furniture, and they will make plans for a place of retirement.

Bill Mund has been promoted to take the position formerly held by Fred Watson, who is acting chief engineer as long as the company operates on the 10-inch line.

It is understood that Phillips 66 has bought out the 10-inch line, and that Shell will give possession as soon as the Bailey Station and the new line are completed, but construction work on these is running behind schedule due to the steel strike. The deal is understood to have included houses, pipe, and the entire plant.

—The Eldorado Success, \$2.00 year.

Post Script

Just seven years ago this week, this newspaper changed hands and the present owner took over. As we look over the issues of those years we realize that a lot of things have happened to the county—also that the Eldorado business district, which has not seemed to change radically, has had more of a turnover than one would think.

We've made some modest improvements in the newspaper plant too and have been pleased with the steady growth in the business, as the town grows. Folks have been most kind, and we've come to the point where we don't consider ourselves newcomers any more.

When the business grows to warrant more expansion, we hope to get more equipment and put on more help. As it is it looks like we'll rock along as it is for the time—until it rains, at least.

Thanks for your cooperation and your interest and all past favors—and phone us or bring in your news—we're always ambitious about trying to give you a good local paper (plug plug).

—ps—
The City of Eldorado has completed the job of spraying with DDT, in an effort to keep down the breeding of flies, mosquitoes, and disease germs. The city carries out this project at least once a year.

—ps—
Among families moving here from out of town, or moving to another house are C. H. Goodmans, to Marvin McDonald rent house, Winford Owens to Lydia Thorpe apartment, Quentin Dunn to Mrs. Mercer house, John E. Smith to Mrs. Flora Riley house, J. D. Hallmark to Bert Page house.

—ps—
Headline from the Success of a year ago: "1 1/2 Million Dollar Cotton Loss Looms As Rain Time Runs Out."

—ps—
C. C. Henderson is leaving for Dallas tonight, on the first part of an expense-paid trip to the Mississippi Gold Coast, furnished by the Chevrolet Co. The free trip—a stag party, by the way—is in recognition of being a winner in Chevrolet's May-June Saft-T-Way campaign.

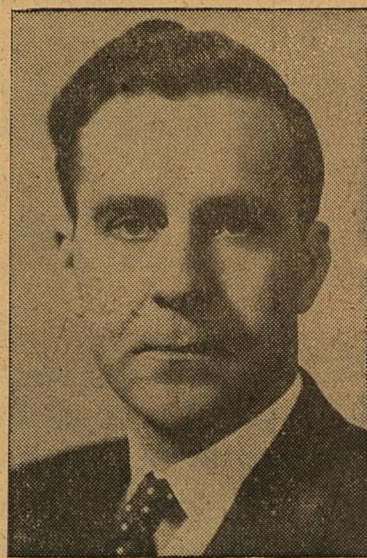

Sally Rose of Austin visited the Forrest Runge from July 14 to July 28 when her parents Mr. and Mrs. Lewellyn Rose and brother, Peter, came to take her home.

Fastball News

The Eldorado fastball team will play Christoval in a game starting at 8:30 p.m., on the Eldorado field tonight—Thursday. An interesting contest is promised.

Six Out of Seven Incumbents Re-Elected In County Saturday

New Labor Rules To Be Heard At Sonora

Hon. MICHAEL J. GALVIN
Under-Secretary of Labor

SAN ANGELO — West Texas ranchers will have a chance to hear of the provisions of the new Mexican labor agreement directly from the men who took part in the international negotiations. A meeting sponsored jointly by the Texas Sheep and Goat Raisers' Association, Texas and Southwestern Cattle Raisers' Association and the West Texas Chamber of Commerce has been scheduled and is to be held at the Sonora High school at 2:00 p.m., Saturday, August 2.

Honorable Michael J. Galvin, Under-Secretary of Labor, Washington, D. C., will head the list of representatives of the Labor Department who will discuss the new Mexican agreement and its operating procedures and later will take part in a panel discussion to answer questions from the floor.

A barbecue lunch will be served at 12:30 p.m. in the high school lunch room, according to Mr. Williams.

Pipe Shortage Delays New Gas Lines In Schleicher and Sutton

Pipe shortages directly attributable to the recent steel strike have forced Lone Star Gas Company to delay laying more than 130 miles of major transmission and gathering lines especially designed to meet increased customer demands anticipated this winter.

This condition was reported Saturday by Lone Star President D. A. Huley of Dallas, who said that the two pipeline construction projects represented in the 130 miles had been set for completion in September and October. He added that numerous other transmission and extension projects throughout the company's operating area also have been set back.

Largest of the two transmission lines referred to by Mr. Huley is the 70 miles of 20-inch diameter pipe to extend from Garvin County in Oklahoma to Lone Star's compressor station at Petrolia in Clay County, Texas. Application for this construction has been approved by the Federal Power Commission.

Miers Line Delayed

A 30-mile line of 12-inch diameter had been scheduled for installation from the Miers gas field in Sutton county, connecting to Lone Star's transmission network near Eldorado in Schleicher county. This line was to have established a new source of supply from a new major dry gas field, Mr. Huley said, pointing out that construction of this pipeline has also been postponed to an extent dependent upon when the necessary pipe can be made available. Construction was to have started in the middle of July and completion was set for Sept. 1.

The gas company owns and operates distribution plants for more than 600,000 customers in 386 cities and towns in Texas and Oklahoma. Its transmission pipeline network feeding these points exceeds 6,300 miles.

SOUTHWEST TEXAS CO-OP TO HOLD ANNUAL MEETING 12TH DAY OF AUGUST

The Southwest Texas Electric Co-op has set the date of August 12 for their annual meeting. At that time there will be the usual annual business meeting, with reports and other routine business of the co-op, also a social get-together of REA users from several counties served by the co-op.

District And State Election Results

With more than a million votes tabulated by the election bureau, the following results are shown in state and district offices as of Tuesday morning:

HOME COMING CROWD WILL EXCEED THOSE PREVIOUS

That the Homecoming crowd will be larger than that of previous years is indicated by the interest people in general are taking in the event, and the enthusiastic response received by local people from out-of-towners who report that they are coming.

This big annual Homecoming, which will take place one week from Saturday in Eldorado, will provide a complete day of recreation and entertainment, concluding with a dance that night.

As far as is known, the plans are to be carried out as previously announced—if there are any changes or additions that fact will be reported next week.

The Episcopal Guild met at the Forrest Runge ranch Monday, July 21. Six members were present.

300 MORE VOTES THIS YEAR

It may be interesting to some of our readers to check the Schleicher County vote totals of 1952 with that of 1950. From our files we give the figures from two of the 1950 races:

In the Clerk's race that year Finley received 699, and Schuller 241—a total in that race of 940, compared with a total of 1241 in the Clerk's race this year.

In the Judge's race in 1950, Meador received 470, and Craig 475—a total of 945 compared to a total of 1245 this year.

ABSENTEE FIGURES

This year was the first time that absentee ballots were handled thru a separate box under new election rules. Out of 192 ballots requested, 177 were voted and turned over to the Absentee Election Judge. Of the 177 votes polled, it would appear that over a third were not counted, due to various disqualifications. In the County Judge's race, for example, there are 105 votes accounted for in the absentee box, and in the Clerk's race a total of 102.

575,000 4-H'ers Get Training to Cut Farm Accident Toll

Farm safety surveys made by 4-H'ers show that matches within reach of small children and stairways littered with toys, jars and other articles were much in evidence as fire and accident hazards in rural homes.

Chicago—(Special)—More than 575,000 4-H Club boys and girls throughout the nation are receiving training in farm accident and fire prevention this year. The outstanding feature of this training in the National 4-H Farm and Home Safety program is to check and remove from farms and homes any conditions likely to cause fire, accidents or injuries. These 4-H surveys are acclaimed a valuable contribution to the nation-wide campaign to reduce the annual toll of 15,000 farm people dying and 1,300,000 being injured as a result of rural accidents each year.

Here is a report, made by a 4-H girl on behalf of her local club, after making a safety survey of every home in the community:

"In all homes having stairways that we visited, the stairs were full of toys, jars, tools and other articles," she stated. "In many homes people used kerosene to build fires. They also had oily cloths and papers stored close to the stove and flue. Matches and unlabeled bottles of poisonous

liquids were within reach of small children.

"On several farms visited, boards with rusty nails pointing upward were much in evidence. In our local schoolhouse, the ceiling plaster in the classroom was loose. If it fell it would cause severe injuries to the pupils.

"After we had made our survey, we called a community meeting. Attention was called to the hazards we had found. Immediately following the meeting everyone present began work necessary to make our community a safe one. Every hazard we had found was corrected."

Medals of honor are presented to five county winners having the best 4-H records in safety work, and a trip to the National 4-H Club Congress in Chicago is awarded to the State champion. Eight of the latter will be selected as national winners, who will each receive a \$300 college scholarship. Awards are provided by General Motors for the eighth consecutive year. The program is conducted under the direction of the Co-operative Extension Service.

First Baptist News

We had our lowest average attendance since March in the month of July. We had only an average of 163 in Sunday school, and the lowest Sunday was the third with 127. The efficiency banner for July was won by the Junior department with a grade of 60% and the Nursery was second with a grade of 59.7. Congratulations go to these two fine departments for the month of July. The Nursery department was the only department that reached their goal for July. Their goal is 15 and they averaged 15. Mrs. Perry and her workers are to be congratulated.

The monthly workers conference was held this Tuesday evening at the church with Mrs. Perry and Nursery department had charge of an interesting program. This is a vital meeting for all who are interested in Sunday school. This is a very necessary meeting for all the officers and teachers of the Sunday school, but not nearly enough of them are taking advantage of this opportunity. This vital meeting is held the last Tuesday evening in each month.

Our revival begins Wednesday evening August 6 at 7:30 p.m. Services will be held twice daily through August 17. R. B. Cooper Jr. will be at the piano and in charge of youth visitation and prayer services. Rev. Darwin Welsh will be the director of the music and in charge of the Junior choir. Rev. Clifford Nelson will be in charge of Adult prayer services and visitation and will bring the messages. A cordial invitation is issued to all to be in every service. Visitors will be welcomed and members will be expected. Evening services will be held on the church lawn with the song service beginning promptly at 8:00 each evening.

This Sunday at 3:00 p.m. is reg-

ular deacons meeting. All of the deacons are urged to be present and all the men of the church are urged to attend these meetings. The deacons meet each first Sunday at 3:00 p.m. Brother W. O. Alexander is chairman of the board of deacons and he expresses his desire that all of deacons and more of the men of the church be present Sunday afternoon.

Miss Sylvia Ann Nelson wishes to express her thanks to all the fine people who have called and who have given her so many lovely gifts. She wishes me to tell all of you that you are the friendliest and best people she has seen since she has been in America. (And incidentally, Mrs. Nelson and Brother Nelson wish to thank all of you fine people also for the wonderful things you have done.)

Our offerings to our budget through our Sunday school for the month of July was in the amount of \$830.38. We wish to express our appreciation to the fine way our people are supporting our financial needs of the church. Their fine response will enable us to enlarge our budget for the coming year that we may do more here at home and around the world. We challenge any person to give God one tenth, save one tenth and live on the eight tenths and fail to be successful, happy, and useful in the Lord's work. "Freely received freely give, for God loveth a cheerful giver."

Our pastor will preach at both services Sunday. His message for Sunday morning will be "The Price of Disobedience." At the evening hour he will preach on the subject "God's Grace." We are grateful for the many visitors we are having in our services. We warmly welcome you to any and all of our services. If you are a Baptist and living in Eldorado we invite you to make our church your church home. We strive to be the friendly church with a spiritual program.

YOUR CHILDREN

Are you raising your children by the standard of God's word?

1. He that spareth his rod hateth his son, but he that loveth him chasteneth him betimes. Prov. 13:24.

2. Chasten thy son while there is yet hope; and let not thy soul spare for his crying. Prov. 19:18.

3. Train up a child in the way he should go; and when he is old he will not depart from it. Prov. 22:6.

4. Foolishness is found in the heart of a child, but the rod of correction shall drive it from him. Prov. 22:15.

5. Withhold not correction from the child for if thou beatest him with the rod he shall not die. Thou shalt beat him with the rod and shall deliver his soul from Hell. Prov. 23:13-14.

6. Faith cometh by living, and living by the word of God. Rom. 10:17.

These are the plain and easy to understand words of God. My prayer is that we try in everything to carry out the commands of God. —F. H. Pryor, Fundamental Baptist church.

Guests of the J. R. Trenthams for a week are their daughter Mrs. Ab Uherek and children Nova Jean and Lewis Ray. They live at Hobbs, New Mexico.

Mr. and Mrs. Clemens Sauer and family spent the weekend in Fort McKavett with the latter's parents. Mr. and Mrs. R. S. Trimble, and their son Earl and his wife, who were there from Tyler.

Mr. and Mrs. Arch Crosby and daughter Grace are spending the week visiting relatives in Kerrville and San Antonio.

HOUSE JOINT RESOLUTION NUMBER 38

providing an amendment to Article III of the Constitution of the State of Texas by the addition of a new Section to be known as Section 50a, providing for the establishment of a State Medical Education Board and a State Medical Scholarship Fund from which grants, loans or scholarships may be made to students desiring to study medicine; providing that such students shall agree to practice in rural areas of this State; providing certain restrictions and limitations; providing for an election and the issuance of a proclamation therefor.

Be It Resolved By The Legislature of the State of Texas:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 50a which shall read as follows:

"Sec. 50a. The Legislature shall create a State Medical Education Board to be composed of not more than six (6) members whose qualifications, duties and terms of office shall be prescribed by law. The Legislature shall also establish a State Medical Education Fund and make adequate appropriations therefor to be used by the State Medical Education Board to provide grants, loans or scholarships to students desiring to study medicine and agreeing to practice in the rural areas of this State, upon such terms and conditions as shall be prescribed by law. The term 'rural areas' as used in this Section shall be defined by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, A. D. 1952, at which all ballots shall have printed thereon (or in counties using voting machines the machines shall provide for) the following:

"FOR the Constitutional Amendment providing for the establishment of a State Medical Education Fund from which grants, loans or scholarships may be made to students desiring to study medicine."

"AGAINST the Constitutional Amendment providing for the establishment of a State Medical Education Fund from which grants, loans or scholarships may be made to students desiring to study medicine."

Each voter shall mark out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment; and if "it shall appear from the returns of said election that a majority of the votes cast are in favor of said amendment, the same shall become a part of the Constitution of the State of Texas."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State. The expense of publication and election for such amendment shall be paid for out of proper appropriation made by law.

Bruton Families Together Sunday

There were 43 relatives present, including six of Mrs. Bruton's children, when the group held an all-day get-together at the home of Mrs. Mattie Bruton and Miss Mary Bruton Sunday.

When a daughter who lives in Ft. Worth decided that she could get home, those living closer made a family gathering out of her visit, and all spent the day Sunday together at the family home just a few miles south of Eldorado.

Present were: Mrs. N. E. Ballew of Mertens, Mr. and Mrs. Leonard Rubenkoenig and four children of Ft. Worth, Mr. and Mrs. C. A. Bruton, Mr. and Mrs. Fred Bruton, Mr. and Mrs. R. H. Duncan and Shirley and Stevie, Mr. and Mrs. W. C. Spurgers and Freddie and Skippy, Mr. and Mrs. Ted Bruton, Mr. and Mrs. Wilbert Bruton and Kerry and Kathie, all of San Angelo.

Mrs. Bill Arnold and Barbara and Sue, formerly of Kansas, who are leaving soon to join Mr. Arnold in France.

Mr. and Mrs. C. O. Bruton and Robert, Mr. and Mrs. W. E. Bruton, Mr. and Mrs. Ray Bruton and Bert and Betty, Mr. and Mrs. Ray Alexander and James, Mrs. Mattie Bruton and Miss Mary, all of Schleicher county.

HOUSE JOINT RESOLUTION NUMBER 20

proposing an Amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 61 to authorize cities, towns, and villages of this State to provide insurance for employees; providing for the submission of the proposed Amendment to the qualified electorate; and providing for proclamation and publication by the Governor.

Be It Resolved By the Legislature of the State of Texas:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding a new section thereto to be known as Section 61 to read as follows:

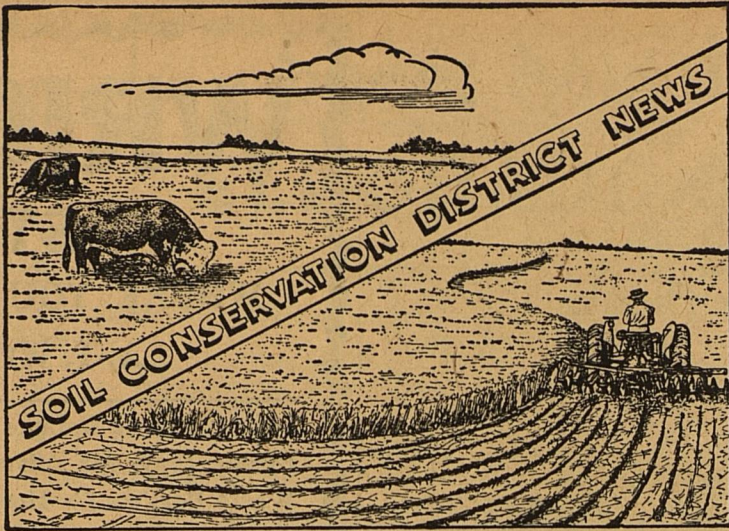

"Sec. 61. The Legislature shall have the power to enact laws to enable cities, towns, and villages of this State to provide Workmen's Compensation Insurance, including the right to provide their own insurance risk for all employees; and the Legislature shall provide suitable laws for the administration of such insurance in the said municipalities and for payment of the costs, charges, and premiums on policies of insurance and the benefits to be paid thereunder."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electorate of the State at the General Election to be held on the first Tuesday after the first Monday in November, 1952, at which election all ballots shall have printed thereon (or in counties using voting machines the said machines shall provide for) the following:

"FOR the Constitutional Amendment authorizing the Legislature to provide for Workmen's Compensation Insurance for employees of cities, towns and villages"; and "AGAINST the Constitutional Amendment authorizing the Legislature to provide for Workmen's Compensation Insurance for employees of cities, towns and villages."

Each voter shall mark out one (1) of said clauses on the ballot, leaving the one (1) expressing his vote on the proposed Amendment; and if it shall appear from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

ARCHIE MITTEL MEMBER, ELDORADO
FORD BOWLAWE MEMBER, CHRISTOVAL

Milton Faught of the Eldorado Divide Soil Conservation District is realizing the benefits from range conservation on his rangeland 8 miles northwest of Eldorado.

When the soil and water conservation plan was prepared for Faught's place in January 1949 the 90 acre pasture was in fair condition. Faught has improved the range condition from fair to good by practicing range conservation. Realizing that all the rain received should be held on rangeland, a good grass cover has been kept to hold water on the land and allow it to go into the soil. The good cover was maintained by keeping the livestock in balance with the forage produced. To permit the better grass to reseed and increase, all the livestock were taken off during the growing season when possible.

Faught states that his rangeland is continuing to improve and will eventually reach its maximum production. In observations made it was found that the better grasses such as sideoats grama, vine mesquite, pinhole bluestem and little bluestem are increasing. Faught

realizes that by managing his pasture so the better grasses will continue to increase, the amount of feed produced per acre will be increased.

By practicing range conservation Faught states, "I saved approximately \$452.60 last winter and this spring." Faught obtained this figure by assuming that if he had fed his 9 cows for 120 days the hay would have cost \$259.20 and cotton seed cake \$193.40.

To sum up all the benefits from practicing range conservation Faught states, "all rain received was held and went into the soil, good cover prevented loss of moisture by evaporation, grass litter left on the soil kept soil in good condition, and grasses that produce more feed per acre have increased."

Faught's objective in practicing conservation on his rangeland is to improve each acre to its maximum potential forage production. When this goal has been reached he will produce more pounds of beef per acre, which means more dollars and cents per acre.

Personal News Items

Mr. and Mrs. Leonard Lloyd and family spent several days on their place at Batesville. There are two houses on this irrigated place, one for Mr. and Mrs. Earl Lloyd, who live there, and the other for the use of the rest of the family when they are visiting there.

Mr. and Mrs. A. A. Cooper of Big Spring spent the week end here with the latter's parents, Mr. and Mrs. E. E. Newlin, and other relatives in this county.

Mrs. Jack Clark has been on the sick list.

These families have been visiting Mr. and Mrs. Albert McGinnes: Mrs. McGinnes' sister Mrs. Billy Hawkins and Sheri of Midland, who returned home Sunday with Mr. Hawkins, who came after them the preceding night; and another sister Mrs. Joe Poynter and baby daughter Cynthia of Michigan, who are visiting in Texas and who arrived in Eldorado Monday night.

Mrs. Monroe Sweeney of Taylor arrived here Tuesday to visit Mr. and Mrs. P. K. McIntosh, and on Wednesday Mr. and Mrs. John T. Crim joined the group.

Mr. and Mrs. Elton McGinnes and children accompanied Mr. and Mrs. Claude Dittmore of Tennyson to Longview, where they visited their brother and son, then all went to Tyler to attend a family reunion Sunday. They were away from home Saturday, Sunday, and Monday.

Mr. and Mrs. A. J. Stevens spent the weekend in Alpine with the Peyton Cain family, and attended Paisano encampment.

Mrs. Henry Moore had as guests Friday a car of six women from Veribest: Mrs. J. S. Johnson, Mrs. P. J. Standefer, Mrs. R. H. Dealy, Mrs. Robert Rex, Mrs. Frank Meacham and Phyllis Ruth Standefer.

Mr. and Mrs. Bert Holly and Mike have gone on a two weeks' vacation trip to Carlsbad and points west. Mr. Holly is one of two highway employees who live in Eldorado.

Mr. and Mrs. Robert Milligan have gone to Rockwood to take their guest Mrs. Ola Shelton, Mr. Milligan's sister, home, and today all are attending the Stewartson family reunion at Coleman. The E. H. Topliffe family are also attending the reunion.

The Roaches, including Mr. and Mrs. A. J. Roach, Mary Nell Roach, and Jim Tom Roach and sons Tommy Joe and Henry, returned last Thursday from a visit in Gatesville with John Roach and family and in Abilene with other relatives.

Mr. and Mrs. Ralph Treadway and daughter Sheryl of Hadacol Corner, and Joyce White of Abilene spent the weekend here with their parents, Mr. and Mrs. Byrd White.

Mr. and Mrs. E. H. Sweatt Jr. entertained Saturday night with a barbecue supper. Attending were Mr. and Mrs. Grover Lee Johnson of Big Lake, Mr. and Mrs. C. L. Smith, the Earl Yateses, Mrs. Cut Edmiston, Mr. and Mrs. E. H. Sweatt, Mr. and Mrs. Leonard Ray of San Angelo, and the host and hostess.

Mrs. Floyd Chick and daughter Jean of Ballinger visited with Mrs. W. E. Baker here recently.

Mr. and Mrs. Ben Doty and son and daughter of Hobbs, New Mex. left Tuesday for their home after spending several days with Mrs. John Luedecke, Mrs. Doty's mother and other local relatives.

Mrs. Lizzie McAngus drove with five girls to Camp Alliston for the weekend, to meet other relatives on an outing. The girls were Mimi Ann, Peggy, Wanda, Bonnie and Becky McAngus.

Mr. and Mrs. Morris Isabel have returned from San Antonio where they visited Mr. Isabel's brother and Mrs. Isabel's sister and their families. They returned home Sunday after a week's visit there.

BULLETIN TO ALL DRIVERS:

SAFETY INSPECTION DEADLINE SOON!

On or before September 6th all cars and trucks in Texas must pass a rigid state safety inspection. Ford Dealers invite you to come in for a special safety check regardless of make or type of motor vehicle you are now driving. Stop in today!

One out of three NEEDS THIS SERVICE!

According to preliminary reports on a nationwide Safety Check made last May, nearly one out of every three of the nation's motor vehicles (32.6%) is unsafe! Of over 300,000 passenger cars checked, 31.4% were in need of service. Of over 45,000 trucks checked, 39.7% were found unsafe! Brakes, lights and steering headed the list of parts most usually found defective.

HERE'S WHAT WE DO

If you come in for safety service:

- ★ CHECK BRAKES
- ★ CHECK FRONT LIGHTS ★ CHECK REAR LIGHTS
- ★ CHECK STEERING ★ CHECK EXHAUST SYSTEM
- ★ CHECK TIRES ★ CHECK WINDSHIELD WIPERS
- ★ CHECK GLASS ★ CHECK HORN
- ★ CHECK REAR VIEW MIRROR

AT A SPECIAL LOW PRICE!
F.D.A.F.

HERE'S WHAT YOU GET

If service is needed:

- NEW-CAR SAFETY
- ★
- NEW-CAR PERFORMANCE
- ★
- NEW-CAR DEPENDABILITY
- ★
- NEW-CAR ECONOMY
- AT A SPECIAL PRICE!

LET US CHECK YOUR CAR... CHECK ACCIDENTS!

TO THE CITIZENS OF

SCHLEICHER COUNTY

It is with a deep sense of humility and appreciation that I express my gratitude and thanks to you for the vote and support given me in the recent primary election in nominating me for the office of State Senator of the 25th District. It was impossible for me to see each citizen of this large district, personally, even though I conducted an active campaign in an effort to meet you and discuss those public issues, the determination of which may affect the welfare of the State and district. Again thanking you, and with best wishes, I am Sincerely yours,
—Dorsey B. Hardeman
San Angelo, Texas 1t*

MRS. MABEL PARKER

THANKS VOTERS

I wish to extend my thanks to the voters of Schleicher County for returning me to the office of County Treasurer. Your loyal support this year and in the past is deeply appreciated and I promise to continue to put forth my best efforts for the good of Schleicher County. My chief aim is to keep an accurate and detailed record that you can be proud of and I trust that I will have your continued confidence. Again I say thanks to all.

SERVES SEVEN STATES—This new 18-story Southwestern Home Office building of The Prudential Insurance Company of America will be formally opened July 28-29 in Houston as headquarters for Prudential's insurance and investment activities in Texas, Arkansas, Kansas, Louisiana, Mississippi, Missouri and Oklahoma. More than 1100 employees will work in the building.

Methodist Notes

Schullers Honored

Honoring Mr. and Mrs. W. A. Schuller, who are moving to Houston, about 100 people attended a farewell party in their honor at the church. The group met in the church basement, where the pastor, Rev. Doyle Morton, led a sing-song, with Mrs. Keno Ogden at the piano.

Mr. and Mrs. Schuller and their children, Suzie and Winford, Jr., were presented with a gift—an electric toaster from the group. Mr. E. H. Topliffe made the presentation speech, and both Mr. and Mrs. Schuller expressed their appreciation for the gift and for the church association over the years they have lived here.

The Schullers own a farm near Eldorado on which they are leaving their stock, to be looked after by a local relative. Mr. Schuller has been offered a position with a firm which he formerly served as machinist, and because of the drought he is moving to Houston to start work on this new job. They state that they are leaving the county because of the drought and that they hope to move back here some day.

The family have a number of relatives in Houston. They left Eldorado Tuesday morning.

The wives will be guests when the men's class of the Methodist Church hold their social tonight, Thursday, on the lawn at the E. H. Topliffe home.

The young people of the church will have a social Friday night. They will meet at the church at six o'clock and go to Christoval on a wiener roast. All of the young people from intermediates up are urged to attend.

Rev. Doyle Morton, accompanied by Lige Chrestman, went to Ozona Tuesday, as guests of the Ozona Rotary Club. Rev. Doyle was principal speaker on the program, using as his subject Missionary Work in Brazil—as he had experienced it.

The pastor announces next Sunday morning as Communion Sunday—observed usually the first Sunday in the month. Sunday School at 9:45, preaching at 10:55 a.m. and 8:00 p.m., and MYF at 7:00 p.m. Prayer meeting each Wednesday night at 8:00, choir practice at 8:30.

Ray Tisdale will talk Sunday night on the Methodist Laymen's Conference which he attended at Kerrville.

Kerrville Meeting

About 300 Methodist laymen were in attendance at the annual laymen's conference at Mt. Wesley July 26-27. They represented churches in the Southwest Texas Conference, which lies east of the Pecos river and west of the Colorado. The program was in charge of Conference lay leader W. W. Jackson of San Antonio.

Speakers included General Robert J. Smith, president of the Texas Pioneer Air Lines of Dallas; Pat Thompson of Bay City, director of the Texas Methodist Stewardship Movement; Judge Marvin A. Childers of San Antonio, president of the Judicial Council of the Methodist church; and Roy L. Farrow, executive secretary of the Texas Methodist College Association and associate director of the Stewardship movement.

Plans were laid for the stewardship emphasis in local churches. "While there is no immediate financial goal," said Mr. Thompson, "we hope to lead people to a commitment of all of life to Christ and raise the level of support of the

church."

Dr. R. F. Curl, executive secretary of the Inter-Board Council of the Conference, and Rev. Horace M. King, associate, participated in the program.

Among those present were Tom Buchanan and Ray Tisdale, laymen from the Eldorado Methodist Church.

SON FOR MAGINOTS

Born July 26 in Eldorado, a son to Dr. and Mrs. Robert W. Maginot. The baby, who has been named Mark Allen, has a brother, Preston Monroe, age 3.

Grandparents are Mr. and Mrs. Henry W. Maginot, San Angelo, and Mr. and Mrs. M. F. Peters, Houston.

Moisture Absorbents

COLLEGE STATION — In hot, humid weather it is difficult for homemakers to keep the house and its contents dry and fresh smelling. Bernice Claytor, home management specialist with the Texas Agricultural Extension Service, suggests that the use of the new electrical drying equipment or chemicals that absorb moisture from the air will help to dry out the house.

Mrs. Claytor explains that the electrical dehumidifiers draw in damp air, condense the moisture and then draw it off. This equipment should be used with doors and windows where condensation causes moisture damage.

Two chemicals that absorb moisture from the air are silica gel and calcium chloride. These are available in department stores and drug stores. Silica gel is not harmful to fabrics, does not drip and may be used again after it has been dried in a vented 300-degree oven. Hang it in a cloth bag or place in an open container in closets with the doors closed. Silica gel is blue when dry and pink when full of moisture.

To use calcium chloride, the specialist says place this chemical on a non-rusting piece of screen wire over an enamel ware container placed in closed closets. As the moisture is absorbed the calcium chloride liquifies and should be replaced with new material. Do not let this liquid come in contact with clothes because it is harmful to fabrics.

Personal News Items

Wanda Nell Fore, daughter of Mr. and Mrs. Albert Fore, has as a guest Nettie Faye Yandell of Tahoka. Other guests in the home this week were Mr. Fore's brother-in-law and sister, Mr. and Mrs. E. T. Rayland, and his mother Mrs. Walter Fore, who accompanied the Raylands and who is here for a longer visit.

Maria Arevola, who lives on the Horace Linthicum place, where her husband is employed, underwent surgery here Saturday night.

Mr and Mrs Bill Mund and Mr and Mrs J W. Hoover have been fishing at Buchanan.

Miss Constance Spence of Big Lake spent July 27, 28 and 29 with the Forrest Runiges.

An Election day picnic was held Saturday, July 26 at the Forrest Runge ranch. All voters and families came and brought a picnic lunch. 24 out of a possible 26 voted. There were 52 present.

Anita Runge of Belton spent Friday, Saturday and Sunday with her family here.

Mr. and Mrs. W. L. James of San Angelo spent the day Sunday with Mrs. James' parents, Mr. and Mrs. Martin Estes.

Mr. and Mrs. Paul Orr, here with Republic, have a new daughter, named Randy Karen, and weighing six pounds and 11 ounces at birth here Wednesday night. Grandparents are Mr. and Mrs. Barry Orr of Hereford, and Mrs. Barbara Mathier, of Belton and a great grandmother is Mrs. J. B. Rogers. The new baby has a sister, Barbara, age four.

Mrs. Way King, who is spending the summer with her daughter Mrs. A. J. Burk, has returned to her daughter's home after hospitalization at Dumas for a kidney ailment. In a telephone conversation with the family there this morning Mrs. E. G. Donaldson, her daughter, was informed that Mrs. King is doing well.

Mr. and Mrs. John Stigler and sons Johnnie and Jerry were out of town twelve days, on a sight-seeing trip. They went through Louisiana, Mississippi, Missouri, Arkansas and Oklahoma. They report a fine trip, and cool weather much of the time.

Mr. and Mrs. Bob Bradley of Midland spent the weekend with their Schleicher County relatives.

Mrs. Ora Davis has been visiting her son "Jiggs" in Detroit, Mich., and expected to visit also in Kansas City and other places before returning home. In her absence she has rented her house to the W. D. Gregorys, who have had as guests their son, Kirk, a University student, who receives his degree this summer, and his friend from New Braunfels. Another son Phil, who also attends the University, is at home the second summer semester and is working with the Shell gang.

Mrs. P. W. Yarbrough of Glenville, Georgia arrived here Wednesday to visit her sister Mrs. Will Doyle.

Mr. and Mrs. Grover Joiner were in San Angelo Sunday and brought home their grandson Robert, to spend the week.

Peggy and Mimi Ann McAngus, who work in San Angelo, have had a two weeks' vacation with their parents. They are daughters of Mr. and Mrs. Ross McAngus.

E. H. Coulter returned Tuesday from Oklahoma, where he visited relatives. He was away from his home and business twelve days.

Schleicher County Oil News

Tucker Drilling Company and J. Ralph Stewart, both of San Angelo No. 1 Jeff Harkey, Central-North Schleicher County wildcat, flowed oil at the rate of 14 barrels hourly, natural, from perforated section at 4,851-55 feet in a Canyon sand and has shown no water.

At last report it was taken potential test for completion. This project is the former Hiawatha Oil Company and Dan Auld No. 1 Jeff Harkey which was abandoned at total depth of 6,183 feet in barren Ellenburger.

Those operators abandoned the project in September, 1951. They tested at 4,832-84 feet in the Canyon sand and developed some flowing oil and gas and also some salt water.

A deal was made recently for Tucker and Stewart to take the old hole over and clean it out and test the Canyon sand again. The test reported here where the wildcat has flowed oil from the four foot section resulted. Location is 660 feet from north and east lines of section 77, block H, GH&SA survey. It is 25 miles northeast of Eldorado.

The prospective new field opener is on a lease on which Phillips Petroleum has an overriding interest.

Kewanee Oil Company No. 1 Bert Page, south outpost to the Page field of southeast Schleicher Co., has been plugged and abandoned in lower Pennsylvania lime and shale at 5874 feet. Last drillstem test was from 5733 to 5752 feet. Tool was open two hours. Recovery was 90 feet of gas in the drillpipe and 100 feet of gas-cut mud and 215 feet of salt water with no shows of oil. The Strawn was topped at 5722 feet. Location was 660 feet from south and west lines of section 300, block L, GH&SA survey and 10 miles southeast of Eldorado.

Taylor No. 1-B Mittel, southeast offset to the opener of the Neva West (Strawn) field of central-north Schleicher, recovered salt water with some shows of oil after swabbing 24 hours in the Strawn. Swabbing continued through perforations at 6393-97 feet.

Delta Gulf No. 2C H. F. Thomson Estate, project in the Huldale (Strawn) field, was preparing to squeeze casing perforations from 5710 to 5720 feet.

Standard No. 2-2 Mrs. Viola McWhorter in the same field, was drilling below 1324 feet in anhydrite and lime. The same concern's No. 3-4 Wilson, located in the Neva West pool, was progressing below 3023 feet in anhydrite and lime.

W. W. Carter and others No. 1 M. L. Jackson and others, wildcat 5½ miles southwest of the Page field, was drilling below 6711 feet in lime and shale. A drillstem test was taken from 6073 to 6101 feet in sand. Recovery was 30 feet of slightly gas-cut mud.

Earl Fain, Jr., No. 1 Mrs. Grace O'Harrow, wildcat 16½ miles east of Eldorado, has been plugged back from 6204 feet to 5864 feet. The section from 5770 to 5864 feet was to be drillstem tested.

The Pure Oil Company No. 1 R. S. Williams, northwest Schleicher wildcat, was bottomed at 7408 feet, fishing for lost bit cones.

Mr. and Mrs. E. R. Bryant left Wednesday for Corpus Christi. Mr. Bryant will return Monday and Mrs. Bryant will remain for a longer visit with the couple's son and daughter in law, Mr. and Mrs. Earl E. Bryant.

N. R. Densman's mother Mrs. D. M. Densman is here visiting her son and his family. She will return to her home at Coleman later this week.

Recipe of the Week

French Fried Rice

1 cup uncooked rice
2 cups cold water
1 teaspoon salt.

For cooking rice: Place the ingredients in a 2 quart saucepan and bring to a vigorous boil. Turn the heat as low as possible. Cover saucepan with a tight fitting lid and leave over low heat for fourteen minutes. Do not remove lid nor stir rice while it is cooking. Turn off the heat, remove lid, and allow steam to escape as the rice cools.

For frying rice: Place two tablespoons cooked rice (more if a large container is used) in a fine mesh basket or strainer. Fry in deep fat, 375 degrees, until a light golden brown, about 2½ minutes. Drain the rice on absorbent paper.

FUNDAMENTAL BAPTIST NEWS

Bro. Paul Burke of San Antonio filled the pulpit Sunday at both services in the absence of our regular pastor Rev. F. H. Pryor who held services at the Bethel Baptist Church in San Angelo. We had a good attendance in Sunday school and a number of visitors in both services. Bro. Burke is a very capable young preacher and has visited the church on previous occasions. He was accompanied by Mrs. Burke.

We have a Sunday school class for every age, with consecrated, dedicated teachers, who use only the Bible as our textbook. If you are new in our city and have no church home, we extend to you a welcome to come and worship with us. If you have small children come and enjoy leaving them in our nursery.

The pastor announces the following services: Sunday school at 10; church services at 11:00; evening services at 8:00. Weekly services: Wed. night at 8:00 prayer meeting and pastor teaches doctrines of the church. Thursday evening at 8:00 ladies Bible study, with Mrs. Pryor leader; Thursday night at 8:00 teachers meeting; Saturday night at 8:00 prayer meeting for the entire church. We trust that more will attend these good prayer meetings where we can humble ourselves and thank God for his many blessings and ask his continued blessings upon our church and our lives. Make your plans to come to church and Sunday school next Sunday. Learn what God has in his word for you. Visitors are always welcome at our church and we trust that we can be a blessing to each visitor, and they to us.

The ladies Bible study met at the parsonage Wednesday evening at 2:00 and concluded by honoring Mrs. Clyde Thackerson with a layette shower. Refreshments were served to 14, and all enjoyed the afternoon. Mrs. Troy Thackerson was a visitor.

News From Our Neighbors

Heavy Absentee Vote

Heavy absentee voting for the first Democratic primary Saturday points to great interest in the election and to a great turnout of voters in Pecos County, which this year has more qualified voters than at any time in history.

With 278 ballots issued on absentee applications, as compared with 203 in 1950 for the first primary, there is every indication that balloting Saturday will go far beyond the 1950 total for the county—when 2466 votes were cast.—Fort Stockton Pioneer.

Absentee Vote

Although there has been an apparent lack of discussion on local races and some feel that county and state races involved in the primary election have generally been overshadowed by national politics, a record was established in County Clerk Ada Martin's office when a total of 77 persons cast absentee ballots there. In addition, 49 others were forwarded by mail up to Wednesday noon. — Menard News.

Phone Rate Hiked

Telephone rates in Bronte have increased about 33 percent, beginning this month. The settlement of the dispute with the San Angelo Telephone Co., which has been going on for about a year, was reached several days ago when the Bronte City Council agreed to the 33 percent raise.

Other cities belong to the association of rural cities served by the San Angelo Telephone have agreed to the raise or will do so. The group was formed to negotiate with the company.

The telephone company was seeking a raise of almost 100 per cent at the start of the negotiations. — Bronte Enterprise.

Bond Election Set

SILVER, July 23—Local interest centers this week around the school bond election to be held along with the regular Democratic primary on Saturday.

A bond issue of \$175,000 is proposed for building and equipping a new school auditorium and gymnasium. Sentiments being exchanged indicate the bonds will carry by a big majority. —Robert Lee Observer.

Sale Ad Withdrawn

Oil wells have a way of making a poor farm look mighty good.

A man in Mississippi recently submitted copy for an advertisement he wished to run in The Stockman. The ad described a Mississippi farm for sale. A statement of cost was submitted to the prospective

advertiser and this week a second letter came.

"Be sure and kill that ad," he wrote. "An oil well was brought in three miles from my property and to the north there are about 30 wells, something like 7 miles away. I have been offered an unbelievable price for my royalty."

He did want to run an ad, however, and enclosed a check to pay for it. But in it he wants to buy 100 head of registered Hereford heifers. That farm looks a lot better in the shade of an oil well derrick. —Ozona Stockman.

Locker Plant To Close

T. J. Bailey, owner of the Ozona Locker Plant, has announced to his customers that the plant will be closed on August 4. All locker renters have been notified to remove food from the lockers before that date. No announcement has been made of plans for disposition of the equipment. —Ozona Stockman.

Ozona School News

Four vacancies remain at this time in the faculty of the Ozona Public Schools for the 1952-53 term, Supt. Lem Bray reported this week.

Mr. Bray reported on a shift in personnel which will fill the vacancy in the post of principal created by resignation of Blake Yager. P. O. Hatley, who served last year as principal of the Junior High School, has been named to the high school principalship.

Johnny Clark, Junior High teacher, will become the new principal of that school. The other two principals, W. H. Stockard of the South Elementary, and Glen Hicks of the North Elementary, will return. —Ozona Stockman.

What's Going On In Sonora

The showers here last Friday did not total two inches as was reported in one of the metropolitan daily newspapers. It was closer to a half. Several ranchmen got good rains. Scattered reports include Espy-Vander Stucken, 2.55; Thomas Espy ranch, 1.30; Bryan Hunt, 2; Dave Locklin, 1; and good rains on the following: Dan Cauthorn, Miers Savell, Clyde Hill, Wes Hill, and Roy Valliant. . . Lt. Johnson (he married the former Miss Francis Drennan) is being transferred to Korea. . . Mrs. Cleve Jones suffered a knee injury last week near Sierra Blanca when the car in which she and Jones were riding collided with another car. . . Miss Blanche Lavon Taylor is swimming instructor at the pool this summer. —Devil's River News.

Birthdays Celebrated

F. J. Cartwright, employee of the local Wm. Cameron & Co. store, observed his 83rd birthday anniversary Saturday, July 19, and this coming Sunday he will share honors with the store's 25th anniversary in Big Lake. —Big Lake Wildcat.

Rained There

Whatever most of us think about this Louisiana type weather we've been having, we hafta admit that it has put a different color on things around the country. For instance the cattle and sheep, the goats and horses and even the rabbits, are eating again. Saw some grass seedling out in several places in the past few days—something we haven't seen in a long time in open range. Driving around the country over several hundred miles during the past week-end, we saw more greenness than we've ever seen and it's getting greener.

Got caught by a rise in Tornillo creek Saturday afternoon which we watched for about 2½ hours. If Terlingua creek, Maravillas and a few others up and down the Rio Grande run that much those lower valley folks won't be out of water for some time, and the Gulf of Mexico may even get out of banks.

And just to think, Paisano encampment hadn't even started. Records in the Big Bend National park showed 5.50 inches of rain from July 1 to 20, which is quite a bit of agua. —Alpine Avalanche.

New Water Line

This morning at 8:00 o'clock the new city water main officially became a part of the service of the Eden Water Works following completion of lines and installation of seven additional fire plugs the first of the week.

City Secretary C. O. Smith said Wednesday that the lines were completely tested Tuesday and put on 24-hour sterilizing and would be turned into the regular system Thursday morning.

Some 4,000 feet of main line pipe and seven additional fire plugs, plus some 400 feet of additional line were included in the entire project at a total cost of about \$13,000. —Eden Echo.

Kenneth Doyle and family have moved to Ronova, Pennsylvania. Kenneth accompanying the Delta Gulf rig to that area.

Important To Know The Poisonous Snakes

College Station. —Some day your life may depend upon how quickly and accurately you identify a snake. Only four of the 103 species of snakes known in Texas are considered dangerously poisonous, says R. E. Callender, specialist in wildlife conservation for the Texas Agricultural Extension Service. He urges Texans to become familiar with these poisonous snakes so that positive identification can be made quickly in case a member of the family is bitten.

The four species of snakes that are poisonous are the rattlesnakes, copperheads, cottonmouth moccasins and the deadly little coral snake. Rattlesnakes are easily identified by their rattles; the copperhead by its chestnut-brown hour glass markings over light brown or brownish gray background color; the cottonmouth moccasin is a dirty brown in color and is usually found around water—on old logs or driftwood and they can bite under water. The coral snake is the beauty of the group, but adds Callender, it's also the most deadly. Don't, says the specialist, confuse it with the more commonly found king snake because the mistake could be fatal. The color rings of the coral snake are red, yellow and black and completely circle the body and if the red ring touches the yellow, you've found a coral snake. Treat him with care.

Fangs for ejecting the poison are common to all poisonous snakes. The marks left by the fangs are a sure identification sign. The venom injected by the rattlers, copperheads and water moccasins is known as hemotoxic venom because it effects the blood cells. The coral snake, on the other hand, injects a neurotoxic venom and it effects the nervous system. Antivenins, which are available at most drug stores, are ineffective for treating the bite of the coral snake.

Snakes can be discouraged from moving in on the home lot, says Callender, by keeping the place clean. Rubbish should not be allowed to accumulate and trash should be removed for such debris about the place is usually inhabited by rats and mice. These rodents are favorite food for snakes and unless kept under control, snakes will move in to clean them up.

Here's a word of advice from Callender on what to do in case a person is bitten by a poisonous snake. Keep the victim quiet; don't let them walk, become over-heated or take alcoholic stimulants. Don't cauterize the wound with strong acids nor inject potassium permanganate. Get the victim to a doctor as soon as possible but first aid measures will help. Apply a tourniquet above the bite and make cross cut incisions at bite and on to the advancing edges of the swelling. Apply suction with the mouth or a suction cup but release the tourniquet.

SCRATCH PADS

Made of 16-pound white bond paper, with 100 sheets to the pad.

THE SUCCESS OFFICE

quet every 15 minutes to keep up circulation. Inject, antivenin, if available, as soon as possible. After the injection, release the tourniquet and continue the suction. In the meantime, have the patient on the way to a doctor or the doctor on the way to the patient.

Callender warns that hunters and campers should never go to the woods without a snake bite kit. He urges home owners to keep their premises clean and to be on the look out at all times for the poisonous snakes. All except the rattler strike without warning—and the rattler sometimes does his biting before sounding off—so the safe thing to do is stay out of the way of all snakes and discourage them to stay out of your way.

Personal News Items

The L. B. Dildines had as guests Saturday the Grady Coopers and Young McWilliams, of Brady, who were on their way to Carlsbad.

Thad Dildine went to San Angelo Saturday morning to bring home Mrs. Dildine and Ramona. They were in San Angelo with the Dildines' daughter Mrs. Lowell Ellis, who had surgery recently. Ramona had been staying with her sister several weeks and Dean the Ellises' son, is here for awhile.

Miss Jean Satterlee of Chattanooga, Tenn., left Saturday for her home, after a two weeks' visit with her brother-in-law and sister Mr. and Mrs. Bill Rountree. While she was visiting in Texas the three took a trip to San Antonio, Galveston and Austin.

Mrs. Ruby Damron took her daughter Mrs. George S. Robinson home from San Angelo to Ballinger after surgery, and returned to Eldorado yesterday.

A car, crowded off the highway, turned over on the Eldorado-Christoval highway Wednesday evening. No one was injured and the car was little damaged. Officers to the north handled the case.

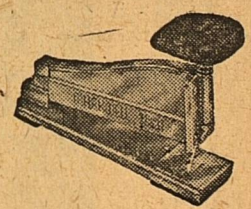

Mrs. E. H. Coulter leaves this afternoon on a trip East. She expects to stop over for a brief stay in Dallas, and go from there to Schenectady, New York, by train, to visit her daughter Wanda, Mrs. Ray Sherrard, and her family for about three weeks.

A guest in the home of the H. E. Browders is Mrs. Browder's sister, Mrs. Mattie Tatum of San Angelo.

Thank You!

I thank the voters of Precinct No. 1 for returning me to the office of Commissioner for another term and assure you that I will do my best to merit a continuation of your support.

The Halbert family joins me in again saying

"Thank You!"

A. J. HALBERT

July 30th - Waves Tenth Anniversary

PLOTTING AND PLANNING, in the technical sense, are the lot of the Navy draftsmen. Their work involves the reading and interpretation of blueprints; the preparation and altering of topographical, hydrographical, architectural, structural, mechanical, electrical and statistical drawings, plans, sketches, tracings, maps and charts. Vita Olson, Seaman, of Long Island, New York, is using her skill at the drafting table.

A YEOMAN'S WORK IS NEVER DONE—but every WAVE yeoman enjoys being a member of the Navy's tremendous office force. Mary Schultz, Yeoman first class, of Milton, Massachusetts, makes an important entry in an enlisted man's service record which follows him wherever he goes.

YES, IT'S TAPE, BUT NOT RED TAPE. WAVES are a familiar sight in a Naval Communication Station where they perform many functions. These Teletype seaman apprentices (l. to r.) Lillian Jennings of Longmont, Colorado and Lora Lacy of Goshen, Indiana, check the tapes as they come into the San Francisco office as part of their duties.

MAINTAINING COMMUNICATIONS EQUIPMENT IN TOP OPERATING CONDITION requires highly trained personnel. Rosemary Adams, Electronics Technician second class, of Rogers, Arkansas, like many another WAVE serving at naval communications centers throughout the country, makes a routine check on a radio receiver.

GOOD HEALTH IS A FORM OF INSURANCE AGAINST INEFFICIENCY. At naval hospitals and dispensaries the WAVES perform numerous types of medical and clerical duties. Joan Paul, Hospitalman first class, of Philadelphia, Pennsylvania, carries out some of her highly technical work in the pathology laboratory of the Charleston Naval Hospital.

EFFICIENT NAVIGATION OF MODERN NAVAL AIRCRAFT depends upon complicated electronic equipment. WAVES have proved their aptitude for the detailed mechanical work involved in maintaining such equipment. Edna Saylor, Aviation Electronics Technician, airman, of Patterson, New Jersey, looks through an operator's scope testing equipment for alignment and tracing circuit trouble.

AGILITY PLUS PROFESSIONAL CAPABILITY are necessary attributes of Navy Photographers. Mildred Stelling, photographer's mate third class, of Kingsport, Tennessee, climbs to the top of a gun mount aboard a vessel at the Charleston Naval Base, in order to gain the best vantage point for shooting a picture.

KEEPING TABS ON NAVY PERSONNEL IS A BIG JOB. WAVES have been taught to operate almost all of the complicated machinery by which big business (and that includes the U. S. Navy) tabulates its records. Helena Roberts, Machine Accountant second class, of Forty Fort, Pennsylvania, is determining how many personnel of a certain category are on duty within the Twelfth Naval District through the use of an IBM sorting machine.

THE NAVY'S VAST SUPPLY SYSTEM involves the providing of, and accountability for, vast amounts and various types of materials. Any WAVE who works in a naval supply activity must know the stock. K. A. Harney, Storekeeper first class, checks the description of materials on orders against their Navy stock number for accuracy.

Marian Torres, Aerographer's Mate second class, of Avon, California, checks the weather map with pilot Lt. L. E. Dunlap, USN, of Watsonville, California, before he takes off on a flight.

SAFE DIRECTION OF NAVY AIR TRAFFIC demands a high degree of accuracy, precision, self-reliance, and calmness in time of stress. Gertrude Anderson, Air Controlman first class, of Spenard, Virginia, gives the "All clear" signal from the tower to aircraft preparing to take off from the Naval Air Station, Seattle.

McClatchy Reunion Attended By 84

July 26 and 27 were the meeting days for the annual McClatchy family reunion at the Coleman city park. Of the 84 present all were members of the family except four.

Present were:
Bangs: C. T. McClatchy and wife and 2 children, Mr. and Mrs. Wiley McClatchy, Mr. and Mrs. O. J. Martin, Mr. and Mrs. Avery Stewart, Mr. and Mrs. Talmadge McClatchy Jr. and 3 daughters, Mr. and Mrs. Stafford Stephens and 3 children, Fred McCormick.

Midland: Jo McClatchy and Mattie, Dwight McClatchy and wife and son Jimmie.

Novice: Bob Featherston.
Snyder: Mr. and Mrs. Cecil McClatchy and 2 children, Mr. and Mrs. Lem Younger.

Coleman: Mr. and Mrs. H. O. Newman, Mrs. J. S. Martin.

Eldorado: Mary McClatchy.

Lubbock: Mr. and Mrs. Goodgion, Mr. and Mrs. T. Z. Goodgion, Mr. and Mrs. T. Z. Goodgion Jr., Mr. and Mrs. Clifford Hamilton, Mr. and Mrs. Earl McClatchy.

Brownwood: Mr. and Mrs. Travis McClatchy, Mr. and Mrs. Herman Martin and Slurrie.

Santa Anna: Mr. and Mrs. Hilburn Henderson, Lynn Price, Mr. and Mrs. Bond Featherston, Mr. and Mrs. Jack Dockey and two sons, Mr. and Mrs. Tom Lindley.

San Angelo: Mr. and Mrs. Frank Newman and Frances, Mr. and Mrs. Gene Newman and baby.

San Angelo: Mr. and Mrs. Frank Newman and Frances, Mr. and Mrs. Gene Newman and baby.

Stonewall: Mr. and Mrs. Howard Cravens and 4 children.

Ft. Stockton: Mr. and Mrs. Earl Lindley.

Paul Conway of Oklahoma, who is entering service, spent a few days here with his brother and sister-in-law Mr. and Mrs. Carroll Conway. This week the Conways are leaving on a vacation trip to Oklahoma, where they are visiting relatives.

PRESBYTERIAN NOTES

Mrs. Edwin Jackson was hostess and the Rev. Charles Bruce was lesson leader when the Women of the Church met in joint session Monday afternoon at the Presbyterian Church. There were 11 present, also three visitors. The pastor spoke on the life of John Knox.

Edwin Jackson attended a Mid-Texas Home Missions meeting at Brownwood recently as a member of the committee.

Mr. and Mrs. Josh Ewing Jr. and Mrs. Ben Ewing of San Antonio have returned home after visiting in Schleicher County with the Ewings. The Ben Ewings' daughter spent a week on the ranch.

Gloria Jean Gray and her friend Mary Sue Smith of San Angelo have returned home after visiting the Alvin Farris. Both girls are 11 years old.

Mr. and Mrs. John Faught and son Johnnie of Merton visited recently with Mr. and Mrs. Joseph Faull, joining local relatives at the Faull home.

Here from Carlsbad, New Mexico were Mr. and Mrs. Will G. Smith, who spent two days in Eldorado with Mrs. Rex McCormick, Mrs. Smith's sister.

Patton Enochs and his family are vacationing in East Texas with relatives. They expected to be gone about two weeks when they left Eldorado Monday.

Here recently to visit Mr. and Mrs. W. H. Graves was Mrs. Graves' brother Floyd Harrison Jr. of Del Rio who visited the Graveses and his daughter Sheila who makes her home with them.

Dinner guests in the home of Mrs. Frances Mund Sunday were the Wendell Yates family of San Angelo, and L. D. Mund and Orval Edmiston and families of Eldorado.

Soprano Scheduled

Frances Cassard, noted soprano, will be presented in concert at the school auditorium, August 15, under the sponsorship of the Methodist Church.

Miss Cassard is preparing to be a musical missionary in India. She is an artist of the very first rank, not just an average singer—it usually costs a great deal to hear her. For her appearance in Eldorado there will be a free-will offering, which should be very generous in view of her importance in the religious world, and the excellence of her performance.

Frances Cassard brings enthusiasm and understanding to her concerts. She was educated at Oberlin College; the universities of Rome, Italy, Teheran, Persia, and Tokyo, Japan; Juilliard School of Music, New York City; and has her Master's degree in Sacred Music from Union Theological Seminary. She is currently studying at Columbia University and Union Theological Seminary for a Doctor of Philosophy degree. Her fields of specialization have been music, drama, radio, and history of religion. Her professional experience has been rich and varied. She sang leading opera roles at La Scala in Milan, and at the opera houses of Rome and Florence, Italy; appeared in concerts and on the radio in the United States and Japan. She was in Japan for four years, living three lives; professor at the Tokyo Imperial University, student at Tokyo University of Fine Arts, and concert artist. She studied Japanese culture and life, lived with a Japanese family, and taught and studied with Japanese students.

She was the first American to sing in atom-bombed Hiroshima and Nagasaki after the War.

The Albert Thigpens visited Monday in San Angelo with Mr. and Mrs. Hayden Lewis, also with O. R. Young, who has been quite sick, and who is being taken to a hospital in Dallas.

Mr. and Mrs. Albert Ray Thigpen, who are in Hondo where the former has work during the drouth season, were here during the weekend at their home in this county.

Mrs. A. E. Prugel and family of Sonora visited Tuesday with Mrs. Mae Tisdale.

Mrs. B. C. Thornton spent the weekend in San Angelo with her son and daughter-in-law.

Guests of the W. O. Faull family for a few weeks are Mrs. Faull's mother Mrs. John Clark of Houston. Also visiting for an indefinite time are her two daughters, Peggy and Wanda, also of Houston. Peggy will be employed by the San Angelo Telephone Co., after a short vacation. She has been employed by the Southwest Bell Co., at Houston. Wanda will be with her parents until her husband finishes his boot training at Ft. Leonard Wood, Mo., after which she will join him.

Mr. and Mrs. Len Schwobel have moved from Austin to Fort Worth where they are at home at 3104 Chilton Street. Mrs. Schwobel is the former Jewel Davis. Her sister, Fay Davis, has remained for the summer in Austin where she is working as an art model at the University.
