Equipment for Dam Construction

Two giant Euclid dirt-moving machines are shown being unloaded off flat cars at the T&P Station this week, destined for use at the new Champion Creek Dam south of Colorado City. A total of six machines of this type were brought here the past week from Cleveland, Ohio by the dam contractor, Moorman, Dewitt & Singleton. Each rig weighs around 15 tons.

## Anti-Trash Burning Law Okayed By City Council

### Street Emulsion Studied for Dust

City Council Monday night unanimously adopted an ordinance prohibiting trash burning—except in special circumstances—within the city limits.

At the same time councilmen asked City Manager Snethen to investigate possible road emulsions that might be applied as dust preventative to unpaved city streets.

The anti-trash burning ordinance carries a fine up to \$100 for violators.

And the road emulsion study is being conducted with the council proposal that, if applied to unpaved streets, the purchase price of the emulsion will be paid for by property owners.

The anti-trash fire ordinance provides city officials with a real weapon to prevent the burning of trash in the open or in open containers on public or private property.

Council a month ago approved a special resolution urging a halt to all trash fires, then followed up this week with unanimous passage of the ordinance.

The action against trash fires comes with a serious outbreak of grass fires, many of which were started from trash burning.

Provisions of the ordinance allow for city crews, with special instructions from department heads, to burn trash or refuse under certain circumstances.

The ordinance also allows for a business or individual to burn trash or garbage in specially approved incinerators, which meet certain specifications. However, the incinerators must be inspected by the fire marshal and a permit must be obtained even before trash can be burned in approved containers.

The new ordinance goes into effect this month.

Study for possible application of emulsion to unpaved city streets came after a letter from A. R. Wood was read to council.

Wood, who lives on College, said dirt was so bad at times on College that "residents have to get inside their houses and shut their doors."

"I believe something should be done," wrote Wood, who suggested oil might be applied to the street.

Dust is worst, he wrote, between 5 p. m. and 10 p. m. with traffic between E. Highway 80 and Veterans of Foreign Wars Hall.

City Manager Snethen told councilmen that similar dust conditions are in areas of the town, especially in the area of the Little League baseball field.

### New Pipe Line To Extend to Borden-Garza

Shell Pipe Line Corporation Thursday announced plans for construction of a crude oil pipe line from Mitchell County into the Borden-Garza county area of West Texas.

The project will consist of approximately 63 miles of trunk and gathering lines.

There will be 43 miles of eight-inch diameter trunk lines and about 20 miles of four-inch and six-inch gathering lines.

A pump station and tankage will be located at the northwestern terminus of the trunk lines in Garza County.

The new pipe line will tie into Texas Pipe Line Basin System Station, located in Mitchell County's northeastern area at China Grove. The Basin System extends from Jal. N. M., to Cushing, Okla.

Construction, which is expected to start in about six weeks, will be by contract, according to A. E. (Al) Lain of Shell Pipe Line's Midland staff.

The new line is scheduled for completion Dec. 1.

### White Opens Auto Service Firm Here

White's Automotive Service opened this week on West Highway 80, between Shaw Bedding and Upholstery Company and Caddell Transit Corporation.

The new business, operated by Jack F. White, will engage in complete automotive repair service, including generators, starters and electrical systems.

Mr. and Mrs. White moved here recently from Midland where Mr. White had worked the past three years for Halliburton Oil Well Cementing Co. The Whites have a three-year-old son and reside at 603 E. 18th.

### ACTINOMYCETES IN WATER

## Not Sure of Spelling — But You Can't Forget the Taste!

No wonder some persons want to spit it out. It's too big to swallow.

At least, that's the way it is in spelling. Actinomyces is the word.

And it or they, which ever you prefer, is what has been putting the off-brand taste in your drinking water.

Actinomyces are nebulous matter, much smaller than algae, that is peculiar to lakes of water.

These minute particles of matter—so small a microscope must be used to identify them—go through a three-stage cycle. Each cycle provides a different odor or taste.

And Colorado City's municipal staff has eliminated the first two stages, but couldn't quite get all of the third stage.

Which is enough left to play havoc with most people's taste buds.

City Manager Rollin K. Snethen told councilmen Monday night that the city staff had done everything possible to alleviate the actinomyces—and the resulting bum taste in drinking water.

"We have done everything that Dr. J. K. Silvey has said should be done," the city manager said.

Dr. Silvey is director and professor of biology and chairman of the division of science at North Texas State College in Denton.

He also is the accepted authority in the United States on taste and odor control.

Snethen, with manuals from Dr. Silvey and special microscopic studies, has identified the culprit in our water supply.

### Knox City Visitors

Mr. and Mrs. Carl Shelton and daughters, Carla and Shari Lynn, of Knox City visited friends and relatives here last week end.

### SET FRIDAY NIGHT

## Church Softball League Planning

Organization of a church softball league is scheduled Friday at 7:30 p.m. in First Methodist Church's Fellowship Hall.

The meeting was announced Thursday by Gene Parham, who heads the Oak Street Baptist team.

Any church in Colorado City and vicinity interested in participation in the church league is urged to have representatives at the Friday evening meeting, Parham said.

"We would like to have in attendance all those persons who want to play in the league," he explained, "in addition to the ministers and team managers."

Last year the church league completed a full schedule with seven participating teams. Spectator interest was one of the highest generated here for any summer program in recent years.

And the 1957 championship went to the Oak Street Baptist

The city not only is adding carbon to water, but has provided for pre-chlorination and also has put copper sulfate in Lake Colorado City.

For those who might be interested, actinomyces have a good side. They are the basis of some of our finest drugs, the mycins.

But for those who still need a different taste in their drinking water, the city is furnishing well water at the north water works, just off 17th St.

### STOCKHOLDERS TOLD

## Area Faces Good Farm Prospects

Loans totaling \$4,683,000 were made last year by Sweetwater Production Credit Association for farm and ranch operations in this West Texas area.

And more than \$4,000,000 was repaid from the year's operations despite down grading of cotton because of bad weather, association stockholders were told Wednesday at their 24th annual meeting in Sweetwater.

The loan report was made by E. W. Wiman of Roscoe, director and vice president of SPCA, who said this area has the "right kind of land, the right kind of know-how" for farm and ranch operations with good credit facilities.

Wiman told the SPCA stockholders that farm and ranch conditions are greatly improved with an exceptionally good small grain crop, promising cotton and high price cattle.

More than 2,000 stockholders attended the association's fish fry at noon Wednesday in Sweetwater's city park. They were from the seven counties — Mitchell, Nolan,

Dawson, Borden, Fisher, Scurry and Kent.

The group re-elected Wiman and H. M. Murphy of Hermleigh as directors for the association. Walter L. Boothe of Sweetwater, is president, Grady Pitts of Sweetwater is secretary-treasurer. Directors with Wiman and Murphy are J. N. York of Snyder and Frank Jones of Lamesa.

Lower interest for borrowed money was reported to the meeting by W. N. Stokes Jr. of Houston, president of Federal Intermediate Credit Bank, which discounts agricultural production loans made by production credit association of Texas.

Stokes said the money rates are "coming down" after last year's high prices caused by the demand from corporations for building capital.

"Money," he emphasized, "is a commodity sold in the market like cattle and crops."

"And the high demand raised the cost," he explained.

City Manager Snethen told councilmen that similar dust conditions are in areas of the town, especially in the area of the Little League baseball field.

Acres of Blue Panic Grass

Thriving blue panicum grass, waist high in places, marks the land which Irvin Grant has placed in Conservation Reserve at his Buford farm. Under the Soil Bank's Conservation Reserve program, the grass must remain for three more years.

### THREE-PHASE PROGRAM

## Long Range Conservation Plan Mapped for Irvin Grant Farm

Irvin Grant is moving ahead with an all-around conservation program for his Buford community farm.

It is a three phase program—combining better soil usage, soil building crops and conservation farming practices.

Grant developed his ambition program in a Great Plains Conservation Program contract with the U. S. Department of Agriculture.

The Great Plains program

County Fair Dates May Be Set Soon

A date for Mitchell County's Fair may be set in the next few days and committees appointed in the show's various divisions.

A 13-man planning committee met in the Civic House Wednesday morning to discuss the proposed fair.

"We don't want to take away from the Loraine Fair and certainly want all the Loraine exhibitors at the county fair," said, Ernie Larmer, Chamber of Commerce manager.

Sites for the county fair were the new Lone Wolf building now under construction at the highway circle east of town, the Civic House downtown. If the Civic House is used, the streets could be blocked off for activities and the T&P parking lot utilized.

Heading the planning committee was Elmer Martin, chairman of the chamber's agriculture committee, sponsors of the proposed fair.

Others present were Lewis Williams, Francis Winn, John Russell, Gus D. Chesney, Mrs. Jay Craddock, Drew Ballard, Jeff Taylor, Jack Burkhalter, J. C. Costin, Curtis Latimer and Joe Ed Boatright.

### Summers Guests

Monday guests in the home of Mr. and Mrs. Charles Summers and son, Dickie and Lee were Mrs. Melvin Baumann and son, Allan, of Loraine.

Also Mrs. Summer's parents and brother, Mr. and Mrs. Rhodes Arnold and John Charles, of Roscoe and Marshall Perry Arnold of Tulsa, Okla.

Both soils are good and productive, but the L-12 type is hazardous to farm in row crops. In fact, SCS technicians say it should be established in permanent vegetation... and, that is exactly what Irvin Grant plans to do even though it may require several years.

At present Grant has 28 acres of guar on soil Unit 7 and L-12, all planted at the same time. Guar on the Unit 7 soil is approximately 10 inches high and blooming with promise for good crop.

But the guar on the Unit L-12 has been cut off by the sand and is being severely hurt by sand. In fact, the sand and wind has just about convinced Grant that he will be unable to establish anything on this soil before fall.

Grant has approximately 140 acres of L-12 soil on his farm and he has been fortunate to control most of it with a good early stand of sorghums and peas — both fine soil building crops.

On a majority of his Unit 7 soil, which he has in contact to severe wind erosion. See CONSERVATION Pg. 5

### IATAN, SHARON RIDGE

## Two Fields Gain New Producers

Oil operators have completed two new wells in Mitchell County fields.

Robinson Drilling Company of Colorado City No. 7 W. W. Watson is a 50.37-barrel producer in Iatan. East Howard Field and William Burlington, Inc. No. 8 J. L. Strain is a 50.45-barrel oiler in Sharon Ridge 1700 Field.

The No. 7 Watson was finished after treatment of 500 gallons of acid and 10,000 gallons of frac fluid.

Oil gravity is 30.1 with production from perforations between 2,864 and 2,874 feet over total depth of 2,900 feet. Location is 2,310 feet from south and 1,650 feet from west lines, Section 20, Block 29, T-1-S, T&P Survey.

The No. 8 Strain was completed after treatment with 1,000 gallons of acid. Production is from perforations between 1,569 and 1,598 feet over total depth of 1,604 feet. Oil gravity is 31. Location is in Section 2, J.

### Guar and 'Hot Spot'

Young crop of guar, just about 10 inches high, is a soil building and cash crop. Irvin Grant is growing this season on his Buford farm. "Hot spot", in the background with wind-blown soil, will be averted in future years with change in soil usage on the farm.

IN MASONIC HALL

# Colorado City, Sweetwater Assemblies Host Special Meet

Colorado City Assembly and Sweetwater Assembly, Order of the Rainbow for Girls, were hosts here in Masonic Hall Wednesday evening, July 9, for a special meeting honoring Miss Sondra Wyatt, grand worthy advisor of grand assembly of Texas.

Miss Wyatt her mother, Joann Price of San Antonio and Miss Sue Fairchild of Kerrville, grand faith; were here for a special visit on their way to the supreme assembly in Seattle, Wash.

Other grand officers present included Mary Walden of Seminole, grand immortal;

Sherry Brown of Andrews, junior member of grand examining committee; Roberta Fuqua of Sweetwater, grand representative from Georgia to Texas; Alvon Hudgens of San Angelo, grand representative from Missouri to Texas.

Also, Mrs. Lillie Krohn of Brownwood, grand visitor; Mrs. Joann Kelley, past grand representative from Maine to Texas.

Fourteen past and present worthy advisors and mother advisors were introduced.

Mrs. L. B. Elliott, chairman of the board of grand examiners; Mrs. A. G. Hugens of San Angelo, deputy grand matron of district five—section one; and Dr. R. O. Fuqua of Sweetwater, member of grievance and appeals committee of grand chapter of Texas Order of the Eastern Star; were introduced and welcomed.

Mrs. Willie Whitmore, worthy matron; and J. W. Wiggins, worthy patron of Colorado Chapter No. 58 Order of the Eastern Star, were also recognized.

A dinner in Masonic Hall preceded the meeting. Mrs. G. C. Lemons, Mrs. J. W. Wiggins and Mrs. Maggie Hamrick were in charge of arrangements for the dinner. Colorado City Assembly, accompanied by Marilyn Horton.

past worthy advisor, presented a drill before the formal opening. They formed a heart and sang "Let Me Call You Sweetheart" to Sondra Wyatt as they held up the letters spelling "Sondra."

Three candidates were initiated into the Order by officers of the Colorado City and Sweetwater Assemblies. Those initiated to fill stations were Janet Stone, worthy advisor; Sandra Scott, worthy associate advisor; Suzanne Graham, charity; Virginia Patterson, hope; Joann Chambers, faith; Judy McGuire, recorder; Donna Bledsoe, treasurer; Ann Seltzer, chaplain; Glenda DeShazo, drill leader; Sandra McGueen, love.

Fourteen girls from the two assemblies formed the choir. Following the initiation a talk was presented by Miss Wyatt, grand worthy advisor. Corsages and gifts were presented the grand officers. Colors for the special meeting were in red and white with a large heart, lettered "Love", centering the East, surrounded by roses and hearts.

Following the program refreshments were served from a tea table covered with a lace cloth over red with a centerpiece of red roses. Mrs. G. A. Horton and Mrs. Maggie Hamrick presided at the tea table. Approximately 75 persons attended the meeting representing at least eight assemblies.

## Personally Yours

By EVELYN GUNNING  
Record Women's Editor

Nearly everyone looks forward each year to a vacation. . . . But usually just hopes for a vacation traveling to foreign countries. Not just wishing but going is MISS MARIET ROBINSON, who sailed for Europe from New York City Sunday aboard the brand-new flagship, the S. S. Atlantic. She is combining study with travel.

MARIET, a student at Texas Christian University, and 14 other students and teachers from TCU are members of the Folk Dancing Group who are on a seven week TCU European Annual Study Tour.

The group will disembark July 23 in Belgium — at Zeebrugge and proceed to Brussels for a visit to the 1958 Universal and International Exhibition with 51 nations displaying their outstanding achievements, showing their arts and handicrafts, where national groups will show their folk dances and where special choir-groups will perform and compete. . . . BRUSSELS' WORLDS FAIR

Other foreign countries the group will tour includes France, Switzerland, Germany, Austria, Italy, England and Eire. MARIET is excited and happy about the entire tour of eight countries, where the group will study the history of folk dancing in Europe, which is the purpose of the tour. . . . But her big brown eyes were really full of stars when she spoke of their visit to Rome. . . . where they will stay four days in the Eternal City with the great monuments of the past: Forum Romanum, Coliseum, Pantheon, St. Peter's, the Catacombs on the Appian Way, the art collections of the Vatican, and one evening at the Opera di Caracalla.

Near the latter part of August the group will fly to London and sightseeing of the British capital will include the Tower of London, Buckingham Palace, Westminster Abbey, Parliament, Piccadilly, Hyde Park and an excursion to Royal Windsor Castle.

The group will fly home to U. S. arriving August 31 at the New York International airport.

MARIET is not the only one happy about her trip to Europe, her AUNT RUTH who reared her, Mrs. J. B. PRITCHELL is also excited about the many places MARIET will visit.

## Hostess Club Meets With Mrs. Hamrick

Mrs. Robert Henderson and Mrs. R. E. (Dick) Gregory Jr. were co-hostesses last Thursday for the Hostess Club in the home of Mrs. J. M. Hamrick.

Games of "42" and canasta were played during the afternoon. Mrs. Charles Goodlett was high score winner in the games of canasta, and Mrs. Charles Dockrey, low score winner.

In the games of "42" Mrs. L. A. Sadler, Jr., won the traveling prize, Mrs. J. R. Erwin, high score, and Mrs. Drew Ballard, low score.

Following the games secret pals were revealed.

The hostesses served a sandwich plate to two guests, Mrs. Raymond Watlington and Mrs. Thomas Bob Long. Members attending were Mrs. Goodlett, Mrs. Dockrey, Mrs. Sadler, Mrs. Erwin, Mrs. Ballard, Mrs. W. D. Erwin, Mrs. Jerry Brooks, Mrs. James D. Wulfjen, Mrs. Billy Hammond, Mrs. Babe Cox, Mrs. Emmett Banks Jr., Mrs. Roy Lee Beach, Mrs. John Reeves, Mrs. G. K. Beall, Mrs. Eelon Harrell, and the hostesses, Mrs. Henderson and Mrs. Gregory.

Mrs. Jerry Brooks and Mrs. W. D. Erwin will serve as

co-hostesses for the next meeting July 24 in the home of Mrs. J. M. Hamrick.

### Visit New Mexico

Mr. and Mrs. Glenn Thomas and son, Dick, left Sunday for a week of vacation. They will visit Ruidoso, New Mexico, and other points in northwestern New Mexico.

### Visit Dude Ranch

Mr. and Mrs. Eldon Mahon and children returned Friday evening from a vacation in San Antonio, Houston, Galveston and Kerrville.

Mr. and Mrs. George Witten and children joined them in Kerrville at the Flying L Dude Ranch where the two families vacationed.

field and on 17th Street west of Hickory.

The manager said the city was confronted with two major problems in the oiling of dusty streets:

(1) If the city oiled one street, residents on all other unpaved streets legitimately could ask for the same... and the cost would skyrocket for the city.

(2) Oil not satisfactory because it "tracks in" to houses and is detrimental to shrubs and flowers.

"Would residents at these dusty trouble spots consider paving?" Mayor Trevor Crawford asked.

"I don't think so," the manager replied. "We approached those near Little League park and about half of them in a four block area signed up."

"They are just up against a tough proposition," said Councilman R. B. Baker.

"I don't think we could afford to put oil on any street without approval of everyone on the street," Crawford said, "because it kills flowers and tracks in the house."

Sneathen suggested that the city might place emulsion on streets free if residents purchased the emulsion.

Council then instructed Sneathen to investigate to see if a suitable, recommended emulsion—not just road oil—can be acquired at reasonable cost.

ervation Reserve of the Soil Bank, he has a good stand of blue panicum grass. And he will be required by Conservation Reserve to keep this grass on the land three more years.

However, at the end of his Conservation Reserve contract, Grant plans a switch. His Unit 7 land will be terraced and placed back in cultivation. All his L-12 land will then be established to native grass mixture and kept in permanent pasture.

The switch — all part of his long range conservation program — will provide cultivation on the most suitable soil and provide permanent cover for the danger-type soil, at the same time allowing Grant to carry a few head of cattle for extra cash profit.

## Standard Oil Names Area Sales Head

E. Y. Beaver has been named to the newly created position of district sales manager for Standard Oil Company of Texas, Midland-Odesa District, which includes Colorado City.

In making the announcement from El Paso, G. E. Wing, sales manager for Standard, stated that the change is part of an overall marketing re-organization designed for greater service efficiency to the public. It is the result of many months study by the company.

Through decentralization of responsibility, according to Wing, Beaver will have broader authority and a more streamlined operation within his district.

Beaver began his career with Standard in Clovis, N. M., in 1939. He will continue to be headquartered in Midland, where he has resided with his family since 1956.

**IN 5-3 UPSET GAME**

## Cards Hand White Sox Initial Loss of Season

Cardinals did what all the other Pony League teams have been trying to do for the entire season.

They defeated the White Sox and Steve Hillhouse, Tuesday night.

It was the first loss in 16 games for the Pale Hose and of course, the first defeat for Hillhouse, the ace southpaw hurler.

The score was 5-3. The ironical twist: Hillhouse allowed only one hit and struck out 17 Cardinals, on his way to the loss.

It was Daniel Garcia, fireballing little pitcher, that defeated the White Sox, allowing six scattered hits.

Each team scored one run in the first inning. Cardinals' score came when Cloud got on base via an error and Willie Joe Smith doubled to bring Cloud home.

Sox scored when Barney Barnett walked and scored on Thomas Vest's singles.

In the fourth, the Cards got their golden opportunity. Smith, Clifton Lee, Robert Cade and Fred Montis all scored on a series of walks and errors for a 5-1 lead.

In the bottom of the fourth, Hillhouse started his team's rally with a triple. Davis and Barnett followed with doubles for two runs.

In the sixth, the Sox almost pulled the game out of the fire. Hillhouse led off with a double and Charles Belvin singled.

But the determined Cards tightened down to stop the rally.

Hillhouse led his team at the plate with a single, double and triple in three trips.

In the other Pony League game Tuesday, the Athletics slaughtered the Braves, 20-0.

Athletic hurler Charles Houston held the Braves to two hits as his teammates lowered the boom on the Brave hurlers for 14 hits and 20 runs.

Brave Coach Runt Currie used Alton Currie as his starting pitcher but called on Roger Richards and Max Connell for relief work.

The one-sided game was called at the end of five innings.

Davis heaved the shotput 51 feet 8 inches to finish second behind Robert Young of Brownwood who had a mark of 53-4.

Represent Jaycees in Athletics

Jerry Lady, left, Vernon Carey, center, and Melvyn Berman represented Colorado City Jaycees in athletic events this month. Lady and Berman returned Sunday from the State Junior Tennis Meet in San Antonio while Carey competed in the Jaycees' Junior Golf Tourney in San Angelo.

## Yankees Tie Pirates, 8-8, as Giants Edge By Indians, 5-4

An eight-inning game that ended in an 8-8 tie for the Pirates and Yankees, plus a last-inning rally by the Giants that whipped the Indians highlighted Little League action here Monday night.

Pirates, who have already cinched the league crown, had to come from behind to tie the game with the second-place Yankees.

The Giant victory was their second of the year, a 5-4 affair over the Redmen.

In the Yankee-Pirate game, the Yanks took a 1-0 lead in the first inning on Joe Anderson's score. Anderson doubled and was scored by Reggie Noble's two-bagger.

Yanks increased the lead to 2-0 in the second inning with a four-hit barrage off Pirate hurler Frank Biggers. Martinez started the fireworks for the Yanks with a score. Following him were Wayne Parham with a single, Ronnie Hillhouse, Anderson with a double, Noble's single, Freddie Fox and topped off with Ronnie Rothwell's home run.

Pirates started to work in the third with Pete Garrett. Dale Walker and Biggers all scoring. Biggers' hit was a round-tripper.

After that, second inning the Yanks were unable to score but the Pirates kept creeping up on the Yank lead.

In the fifth, Pirates used singles by Garrett, Gary Jones and Walker for four runs to pull within one run of the Yank lead, 8-7.

In the sixth, Walker powered his 10th homer of the sea-

son over the fence to tie the game at 8-8.

The teams rocked through the seventh and eighth innings without additional scores, so the game was called on the time limit.

Walker with three for four paced the Pirates while Anderson with two for three was tops for the Yanks.

A three-run rally in the bottom of the last inning enabled the Giants to win victory No. 2 for the season. Behind 4-2, Giants used double by Larry Hamner, plus singles by Bill Geiger and Davis to score the three runs for a win.

Indians marked up three runs in the first inning on walks by Williams and Bill McGuire, single by Joe Wallace and double by Larry Wallace.

Johnny Castillo scored Indian run No. 4 in the second on walks issued by the Giant hurler Skipper Warren.

Giants' first two runs came in the fourth with Hamner and Howard Belvin scoring.

Then the Giant rally in the sixth that won the game.

The regular season play ends with Thursday's games.

Three Colorado City youths—Melvyn Berman, Jerry Lady and Vernon Carey—carried the Jaycee banner in athletic events the past two weeks.

Berman and Lady returned Sunday from the Jaycees' State Junior Tennis Tournament in San Antonio. They lost in the first round of the tough meet with 500 of the state's top net stars competing.

Berman, who won the local singles title, lost to Jerry Walters of Baytown, 6-2, 6-0. Walters went onto the semi-finals, downing the defending state champ, Mac White of Corpus Christi, on his way up.

As a double team, Berman and Lady lost to Wolfe and Melbourne of Odessa, 6-0, 6-4. The Ojessa pair battled their way to the semi-finals before losing to the eventual champs.

Carey competed in the Jaycees' District Junior Golf Tourney at San Angelo this month, finishing 8th in a field of 38 golfers.

His 36-hole total was 167. Jaycee Win Talley accompanied Berman and Lady while Jaycee Morris Williams traveled with Carey.

**BOTH TOURNAMENTS IN SNYDER**

## League All-Stars Prepare For Area Playoffs Monday

Colorado City's Pony League All-Stars are receiving good practice prior to the Area Playoffs Monday in Snyder.

The C-City squad lost a narrow 5-4 decision to Abilene's Pony League All-Stars Saturday night in Abilene.

And they are scheduled to play Sweetwater's Teen-Age League All-Stars Saturday, 7:30 p.m., in Sweetwater.

In the Saturday night game at Abilene, Colorado City's Pony Leaguers were ahead until the sixth inning when an Abilene runner stole home to tie the game, 4-4.

In the last of the seventh frame, a C-City error allowed an Abilene score and 5-4 victory for the Key City boys.

Abilene's team, composed of the top boys from the city's 16 teams, had difficulty in hitting the offerings of pitchers Steve Hillhouse, Daniel Garcia and Archie Joe Biggers.

Hillhouse, who pitched three innings, struck out seven Abilene batsmen, while giving up two singles.

Garcia hurled two innings, striking out four and giving up two singles. Biggers handled the final two innings, whiffing three and allowing three hits.

C-City's All-Stars scored early, pushing across four runs in the first three innings, mainly on the wildness of the Abilene hurlers. The team collected seven hits during the seven inning tilt.

The Abilene team had beaten the Abilene Teen-Age All-Stars, 5-4, a few days prior.

Both the Pony League and Little League All-Star Teams here begin playoffs Monday in Snyder.

The Snyder American League will meet C-City Little Leaguers Monday with the winner to meet the Snyder National Leaguers Tuesday for the area title.

Just a few steps away in the City Park in southwest part of Snyder will be Pony League Teams of C-City and Snyder battling in a three-game series.

The game Monday will be followed by another Tuesday and if a third game is necessary, it will be played Thursday night.

Officials are reported trying to figure out a way to avoid as much conflict as possible in staging these two tournaments.

It has been suggested that starting times of the games may be juggled so that fans could see both tournaments.

But as of Thursday, both tournaments were scheduled to begin at 7:30 p. m. each night.

Mr. and Mrs. B. L. Reed and children of Abilene are guests this week in the home of Mrs. Reed's parents, Mr. and Mrs. Laine McCollum, in Loraine.

More Concern For Peak Travel Period

Vacation motor travel is big business in Texas, with nearly ten and a half million tourists spending \$531 million as they piled up four billion miles of driving during 1957.

Those figures were mentioned this week by J. O. Musick, general manager of the Texas Safety Association, as he warned Texans of the many traffic accidents that occur during summer's peak vacation months.

He attributed such accidents to many causes, but listed the principal ones as being:

(1) Excessive speed. Because many vacationers try to cover too much territory in too short a time, speed is an important factor.

(2) Alcohol. People on vacation are likely to be in a holiday mood and frequently their pursuit of a good time includes drinking.

(3) Laws. Failure to observe traffic signs and laws exacts a high annual toll. About one-fifth of the cars smashed up in rural fatal accidents are found to have disregard warning or stop signs.

(4) Fatigue. Driving while fatigued is a foolish practice indulged in by vacationers who won't take time out to get sufficient rest.

Valuable Program

Over one and one-half million dollars is being paid to landowners in the Plains area of Texas through the Great Plains Conservation Program.

This is a voluntary program which applies to 98 counties in the Plains area, including Mitchell County. It provides cost-share assistance for any approved soil and water conservation practice.

Most any sound practice dealing with soil or water conservation will be approved. Some of the practices now underway are reseeding to grass cultivated land that is actually unsuitable for cultivation.

Since the program started in late February, 303 contracts, including 565,814 acres, have been signed in the Plains area. This means that payments averaged \$2.85 per acre.

The Soil Conservation Service handles the administration of the program. More information about it may be obtained from the SCS office here in Colorado City.

PHILOSOPHER SAYS

Alaska Best Look Before She Leaps

Editor's note: The Shiny Flats Philosopher on his Johnson grass farm on Bone Hollow Creek has a new slant on the Alaskan problem, his letter this week reveals.

Dear editor: As I understand it from reading the newspaper the last few weeks, Alaska finally has won the right to become a state.

Understand, it's mighty nice to be a part of the United States. It's nice to be a state, to get Federal grants to get to send Senators and

Congressmen to Washington and to vote on presidents, but has Alaska gone into the other aspects of this proposition?

For example, take debts. The United States is reputed to be a rich country, but you've got to remember in some places they measure a rich man by the amount of money he owes.

Moreover, have they considered taxes? States rights is a fine theory, but have those Alaskans figured how many acres of snow and ice it'll take to produce enough tax money to build some roads, some schools, court houses, a state capitol, a governor's house?

Have they figured how much it costs to run a legislature, with a state supreme court, welfare office, assorted bureaus and departments, and other necessary endeavors of a state?

On the other hand, I don't see any reason for assuming those Alaskans are any better than the rest of us, and I for one say, come on in. Help tote the load. Taking in more states may be the only answer to our problems.

The way I see it, is every new state we get, that's just another endorser on our note.

Yours faithfully J. A.

Firms Now Save Shopper's Time

The most notable trend in large city retailing today is the rise of centralized shopping centers in suburban communities.

The manner in which modern shopping is done has been the cause of the growth of more convenient shopping centers. It is evident in a town our Colorado City size.

Flourishing suburban stores have been quick to recognize such practices. Their advertising is supporting some of the nation's finest community newspapers.

Yet, in every small city the same changes in buying are taking place. The time-saving convenience provided by newspaper advertising means just as much in Colorado City as it does in a Dallas suburb.

In each case, hurried shopping and the fact that all business is local are reasons for increased reliance on newspaper advertising.

Letters To Editor

My views and version of the age old town of Colorado City, which is located below the hills of the Colorado River: It is surrounded by a high rugged mountainous hill with many great rocks and terraces and bush cedar trees.

ed church meetings are gone and the old preacher who preached four hours has been replaced with 45-minute sermons.

There are many more people now. They are taught to be more kind today than then and they have more education now. They have no more learning ability now than they did then, but they have more educational facilities, more subjects to teach and learn.

We did not have any modern-day research laboratories like they do now. We did not have the good lighting system we have now. They did not have the good way of transportation, nor the good hearing system.

We miss the big herds of cattle and the howls of the coyotes and the little wild animals that used to be here. We have large elm trees where there used to be little mesquite. The little school house that had one teacher who rang the bell for classes has been replaced with the large schools in town.

Research Moves Carefully for Texas Constitution's Revision

By VERN SANFORD Texas Press Association

In 1876 a wagon with a team of oxen was good transportation in Texas. But on today's city streets and super-highways, the ox wagon would be just a traffic bottleneck.

Some Texans now are saying Texas' 82-year-old, ox wagon-era Constitution is a bottleneck on the road to development of dynamic 20th-century government.

Constitutional revision is not one of the currently sizzling issues. But, quietly and patiently, numerous people in government, in the bar, in professional and civic groups, the press and in private and public educational institutions are plugging away in a make-haste-slowly campaign.

Principal objective now is to get Texans thinking about what they want and need in a state constitution today.

Their campaign gained official blessing last year when the Legislature passed a resolution instructing the Legislative Council to do research on the subject and report back in 1959.

Next meeting of the advisory group is to be held in September. Right now, one member admits that progress toward revision is itself moving at an ox wagon pace.

Legislative Council, with a staff of seven, and 11 studies under way, can't go all-out on this one thing, but is doing some fact gathering during the summer.

Advocate of Constitutional revision advance these points, among others, as reasons for concern:

- 1. It's a staggering document, 47,000 words long, patched up with 133 amendments. If nine more proposed amendments are approved next November, it'll be 54,000 words. Much of it is regarded by lawyers as properly belonging in the statutes rather than in a basic document like the Constitution. Much is cited as totally useless, such as provisions for repelling Indian raids.

conglomeration of agencies, departments, commissions and divisions, "just grew." It's all so loosely put together, say critics, that folks don't know who to blame when things don't suit them.

3. Another argument made is that increasing concentration of government in Washington can be halted only if state governments are sufficiently vigorous and adaptable to meet people's changing and growing needs.

State Insurance Board has announced that, effective Aug. 1, auto insurance rates will be substantially higher in most parts of Texas.

State Insurance Board has announced that, effective Aug. 1, auto insurance rates will be substantially higher in most parts of Texas. Average hike will be 32 per cent on comprehensive coverage, 19 per cent on liability and 17 per cent on collision.

Commission members expressed hope that passage next November of a constitutional amendment to permit use of state funds for advertising would make continuation of their efforts possible.

1. An increasing number of collisions. 2. Higher cost of repairing today's swanky cars. 3. Higher cost of hospital and medical care. 4. Generosity of juries in awarding damages to claimants.

Auto owners, said Jackson, must realize they set their own insurance rates by the way they drive.

WATER FUTURE—Hope

for an ever-more-properous Texas is found in the recently completed state federal survey of Texans' water resources and needs.

Contents of the study were made public by U. S. Sen. Lyndon B. Johnson who requested the survey a year ago. Texas Board of Water Engineers and three federal agencies collaborated in compiling data.

Each major river basin was studied and the possibility of switching floodwaters from one basin to another discussed at length.

"The scope of the economic impact of large-scale water exchange in Texas is impressive," said the report. "If exploited to its logical conclusion, there is solid evidence to indicate that the increase in Texas income would be of great magnitude."

ON FISHING FOR INDUSTRY—A how-to-do-it booklet for communities wanting to attract new industry is now in circulation.

It was published by the Texas Industrial Commission with private donations. In 66 pages, the book tells how a community should analyze itself, correct any inadequacies and bring all good points to the fore in a promotional effort.

Commission members expressed hope that passage next November of a constitutional amendment to permit use of state funds for advertising would make continuation of their efforts possible.

HAND OFF—State Board of Education has gone on record as officially—and positively—opposing any plan to tamper with the permanent school fund.

Last legislature voted to make 1 per cent of the permanent fund available annually for current expenses. State Auditor C. H. Cavness has proposed making part of future income from school lands available for pressing present needs and putting only part into the multi-million-dollar school trust fund.

But the school board declared the fund should be "inviolate."

Biblical Authors Ahead of Today

It is necessary, when reading stories such as that of Cain and Abel, to realize that these stories have a moral and spiritual significance far beyond that of historical events.

We must realize that before the Bible could be written, it had to be experienced. There are moral conceptions that, as originally perceived by saints and prophets, might be compared to the products of the great inventive genius in the physical world.

Try to dismiss from your mind the development of the ages; try to visualize what it meant for men originally to perceive these things. They were spiritual discoverers.

The first in the sacredness of human life. The second

is that man has responsibility for his fellowman, that he is his brother's keeper. Millions of men have not discovered that and will not acknowledge it today.

Then there is the concept of mercy. Even of Cain, who had committed a foul murder, there was the possibility of forgiveness and protection from the vengeance of his fellowmen. The mark of Cain was the mark of sin and violence, but it was also a mark to protect a man from mob violence.

How far ahead of our life today was the man of spiritual and moral vision who wrote this story? How far the world must go before it catches up with him.

**KILLED NEAR LORAIN**

**Oil Well Service Employee Is County's 7th Traffic Death**

By MRS. C. C. HAMILTON  
Record Correspondent

LORAIN — O. L. Hollis, 42, Sweetwater well servicing company employe, died in the Johnson Hospital here Saturday at 7:35 p.m. of head injuries suffered in a car wreck near Loraine Friday night.

Three other men, all employes of Pool Well Servicing Co., also were injured and treated at Johnson Hospital.

The accident happened on a curve, just west of the Johnson Football Field West of Loraine school, on FM 644 one-half mile south of city limits, as the four were returning from their homes at Sweetwater from work about 11:30 p.m. Friday.

John Vasquez, who was the first one to come upon the accident soon after it happened, went into Loraine and reported it to Jack Brewer, night watchman.

Brewer and Mr. and Mrs. Bill Bowles, who had just returned from a ball game at Ira, took the four victims to

the Hospital. Hollis never regained consciousness before he died the following evening.

Other injured in the accident were Virgil McNurlen, less injured of the four, treated and dismissed soon after being taken to hospital; Weld on Lange, painfully hurt but dismissed from hospital Sunday; and Walter Wilson, driver of car, still in hospital Tuesday with bruised muscles above left hip and other injuries.

All four men lived at Sweetwater.

Hollis, who lived at 104 E. Alabama St., Sweetwater, was thrown out of the pickup when the vehicle rolled over at the curve. He suffered head injuries and fractured skull.

He was the seventh fatality in Mitchell County in 1958, according to Highway Patrolman Al Chambers, who investigated the accident.

Funeral services were held for Hollis at 10 a.m. Monday in the West Side Baptist

Church in Sweetwater with the pastor, Rev. Don Reed, officiating. Burial was in the Sweetwater Cemetery with Wells Funeral Home in Roscoe in charge.

Hollis is survived by his wife, one son, Jimmy Doyle of Sweetwater; his mother, Mrs. B. F. Hollis, Sweetwater; one sister, Mrs. Ruby Daniel, Carlsbad, N. M.; three brothers, Lee, of Sweetwater, Homer, of Fort Worth, and Rev. Ernest Hollis of Del City and pastor of the Bethel Baptist Church six miles south of Loraine.

Several members from the Bethel Church and from Loraine attended funeral services in Sweetwater, Monday morning.

**Smiths Travel To Gilmer For Visit**

LANDERS — Leaving Friday for a visit in Gilmer were Mr. and Mrs. J. D. Smith Jr. and daughters, Sally and Martha. They were to visit in the home of Mr. Smith's parents, Mr. and Mrs. J. D. Smith.

## Cosden Moves to Forefront In Manufacture for Plastics

With the completion of a new polystyrene plant, Cosden Petroleum Corporation becomes the first to perform every step in producing this basic material for many of today's plastic products.

And Col-Tex Refining Company has a hand in furnishing components for the polystyrene manufacturing at Cosden, the Big Spring parent corporation for Col-Tex.

Polystyrene pellets from Cosden's Big Spring plant will be shipped all over the U. S. ready for use in manufacturing such items as radio and television cases, food containers, eyeglass frames, and toys.

Company officials also have revealed a unique marketing plan, whereby Cosden highway transports will carry bulk deliveries direct to customers, rather than the normal

shipments in sacks or bags. Dubbed "curb-service marketing," the new system will employ trucks equipped with fast pneumatic-unloading devices. Carrying up to 34,000 lbs. of the plastic pellets, the trucks will fill special gravity-feed hoppers at the buyer's plant.

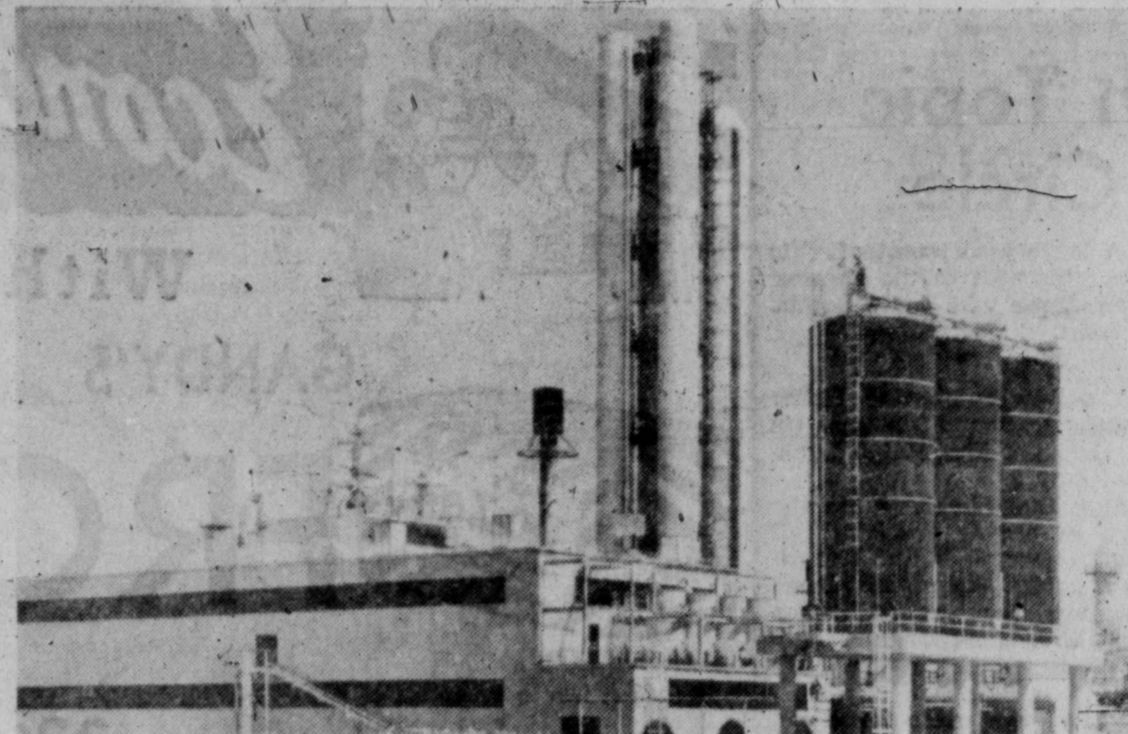

The new delivery plan permits customers to take instant inventory and eliminate such fringe expenses as unloading, warehousing, multiple handling, and contamination. Bulk prices are determined on a delivery-zone basis.

Cosden's new plant completes a chain of component processes that convert crude oil into ethylbenzene, then to styrene monomer, and finally to finished polystyrene. Company spokesmen say they know of no other manufacturer thus able to control the quality from first step to last. It is further stated that new technological features within the Cosden process are expected to result in the industry's lowest production costs.

Two grades will be produced at the Big Spring plant: general-purpose crystal polystyrene and high-impact polystyrene.

Styrene monomer used in the conversion process comes from an adjacent plant completed by Cosden last year. This plant is the first to recover ethylbenzene successfully from a mixed-xylen stream for producing commercial quantities of styrene.

Both the styrene and polystyrene plants are part of a continuing program of diversification and expansion in manufacturing-petrochemicals and other finished petroleum products. Hub of the program is Cosden's 32,000-barrel custom refinery at Big Spring.

New Styrene Facilities

New Cosden styrene polymer plant is housed in low building at left. Vertical tanks (r.) are gravity-feed storage bins where finished bulk polystyrene is held for shipment. Specially-equipped transports are positioned under hoppers for loading, then driven direct to customer. Tall towers in center background are part of revolutionary monomer plant completed in February 1957, as the first fully-integrated facility to produce styrene direct from gasoline. This completes Cosden's program of expansion to produce polystyrene in a continuous sequence of operations from natural resource to finished product.

### Blakley Story Is Typically Texan

The typical American story is of the poor boy who made good through his own efforts. This is the story of Bill Blakley, born in a covered wagon while his parents were on their way to a homestead in Oklahoma territory. He has come a long way in 59 years. Said the *Austin American-Statesman*, when William A. Blakley, announced for the Senate:

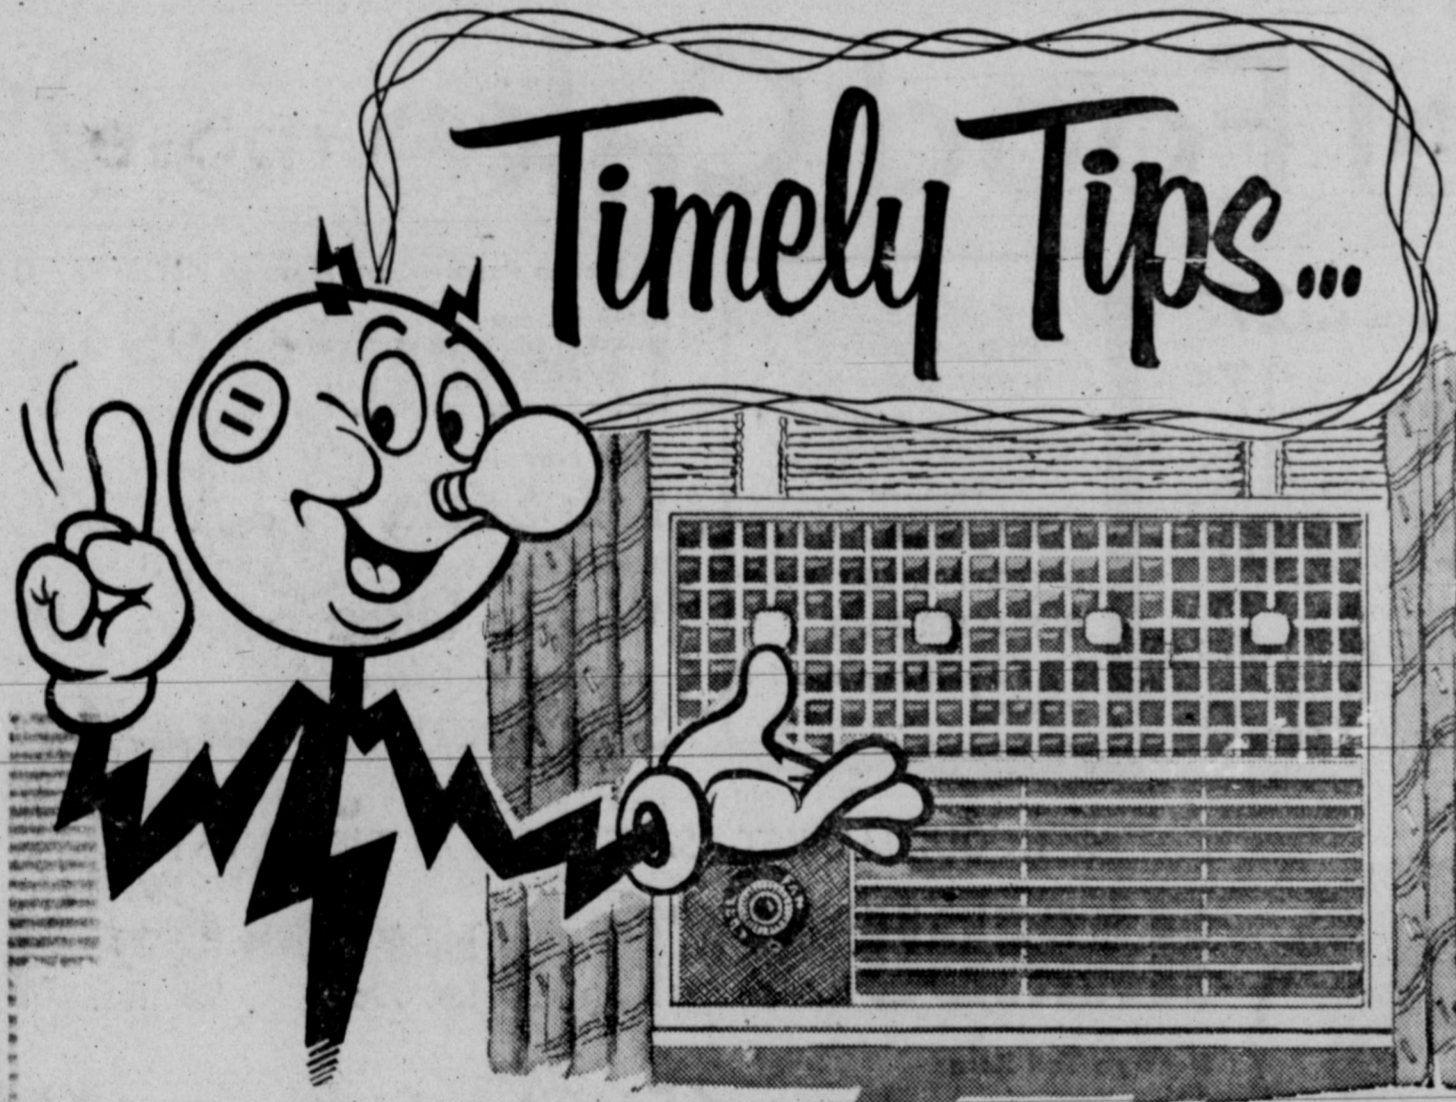

"... He was a top-hand cowboy; he was an exceptionally good accountant and lawyer. We have an idea that he is going to be a refreshing, able political candidate. He would make a great United States Senator."

Vote for Bill Blakley on July 26 — an able man whose only ambition is to serve all of Texas.

## ...to help you get the most efficient cooling from your REFRIGERATED ROOM AIR CONDITIONER

- Cool only an area within the size your unit is designed to cool. When cooling a larger area, the unit is overworked and its efficiency is lowered.
- Keep air filters clean. Clogged filters lower efficiency of the unit and cause it to use more electricity.
- Insulate ceiling area above room being cooled. Insulation keeps hot air out, cool air in.
- Locate unit in shade if possible. The north side of house is best, followed by east, south and west. Proper shading of unit increases its efficiency.
- Properly regulate intake of outside air. This is important to operating efficiency of your unit.

- Follow manufacturer's instructions carefully.
- Keep out direct sun rays. They bring in heat which your unit must work extra hard to remove. Awnings over your windows will help.
- An automatic thermostat is recommended to hold room temperature to 78 to 80 degree level recommended for comfort. Each degree below 78 degrees increases power consumption unnecessarily.
- Remember, too, that operating cost is governed by hours of use. Turn off your unit when you expect to be away for several hours. You can quickly lower the temperature when you return.

An Electric Refrigerated Room Air Conditioner is a wonderful comfort during hot summer weather. Follow Reddy's tips and make the most efficient use of your unit. It will help you LIVE BETTER ELECTRICALLY!

### Party Celebrates Fifth Birthday

Mrs. Joe Terry honored her son, Mark, on his fifth birthday Friday with a party in their home south of Loraine.

Games were played by those present and group pictures were made.

Enjoying the birthday cake and punch were Mary Jo and Eddie Crawford of Jacksboro; David Terry, Susan Terry, Mrs. Billy Crawford; the honoree and his mother.

A large assortment of gifts was presented to the honoree from those who could not be present.

The North Loraine Home Demonstration Club met in the home of Mrs. Ralph Lankford July 2.

Mrs. Bud Shepherd led the club in prayer and roll call was answered with current events. Mrs. Raymond Wheeler gave the council report and Mrs. Jack Linam, club president, directed the business.

Plans were made for a candidate rally July 19 at 8:00 p.m.

Announcement of a tea sponsored by the North Loraine and Baumann Club, will be held at the Lions building on July 16.

Refreshments were served to Mmes. Roy Wells, Willie Taylor, Harold Hallmark, Raymond Wheeler, Bud Shepherd, and also Katrina Wells, Beth Shepherd and Kay Nell Wells.

Mr. and Mrs. L. V. Hock and two grandchildren, April and Bruce Hock, of Houston spent the weekend holidays here with Mrs. Hock's father, J. T. Hock Sr.

Others joining them Sunday in the home of Mr. Hock for a family reunion were J. T. Hock Jr. of Toyah; Mrs. E. D. Hager of Sweetwater; Mrs. Inez Hock, Ann and Jimmy, of Colorado City; Mr. and Mrs. Bob Holman of Lubbock; Mr. and Mrs. Jack Richey, of Loraine.

### New Senate Hand Aided Democrats

When William A. Blakley was appointed to the U. S. Senate in 1957, he was a political unknown in Texas. But Washington awaited his arrival with great interest. So close was the party balance in the Senate that Blakley's vote was the difference between Democratic and Republican control.

True to his Democratic tradition, Bill Blakley voted with his fellow Democrats. They have been in control ever since.

Now Bill Blakley seeks his first elective term in the U. S. Senate. A vote for Blakley is a vote for sound, Democratic government.

### One grease with many uses... try Humble's Multi-Purpose Grease H

It fills the needs of most farmers and ranchers for lubricating all their equipment. This wide range of use reduces the chance of applying the wrong grease. It keeps your storage requirements to a minimum because you need only one grease instead of several.

The quality of Multi-Purpose Grease H equals or surpasses that of every single-purpose grease that it replaces. Multi-Purpose Grease H gives better lubrication and protection for chassis, track rollers, wheel bearings, water pumps, ball and roller bearings, universal joints and other lubrication points.

Call me for Multi-Purpose Grease H, and for other top-quality Humble products for your farm or ranch —
