Events Named For Sea-o-Rama On June 8-9

Plans for Rockport's Second Annual Sea-o-Rama, to be held June 8-9, were laid at the regular meeting of the Sea-o-Rama Committee; committees were appointed; and a list of events was prepared.

Delmar Hiller, parade chairman, said this year's theme would be "Fun in the Sun" and that floats could be entered in two categories, either commercial or those built around the theme. First and second prizes will be given in each category, and for the marching bands.

Other events scheduled for this year are the can can girls, for which the Seaman's Lions Club will act as a committee; the barbecue on Sunday, June 9, staged by the Rockport Lions and the Jaycees; the beauty contests on Saturday, June 8, in charge of the Rockport Firemen's Auxiliary; the street dance, Saturday night, with the VFW in charge; and Saturday's fish fry at Fulton, to be handled by the Fulton Lions Club.

Scheduled for Sunday afternoon are boat races, and, perhaps a water ski show.

In other business, the group approved purchase of stickers for automobiles, to be used as a means of advertising the festival; printing of folders to be used at the Dallas Sports Show and elsewhere; a booster trip to area towns; a carnival; and sale of Big Fish tickets, with the prize a fishing trip for four people.

Mrs. J. C. Gurley and Mrs. Cecil Cole, in charge of the beauty contests, announced that there would be four this year—tiny tots, subteens, juniors and seniors, and said that rules for the various classes were being drafted and would be available soon.

Present at the meeting Monday night were:

Mrs. J. C. Gurley and Mrs. Cecil Cole, representing the Rockport Auxiliary Fire Department; Mrs. Ruth McShan, representing the VFW Auxiliary, to which was assigned the sale of soft drinks; Mrs. James Ankele, Gene Carter and Mike Womack, Jaycees; Delmar Hiller, Rotary Club.

Chester Barre and Dr. Leonard Goldman, Rockport Lions; H. C. Mullinax, VFW; Bill Sprigg, Fulton Lions; James Kautz, president of the Sea-o-Rama; Mrs. Mary Juergens, manager of the Rockport Chamber of Commerce; and Louis Donnan, Rockport Seamen's Lions Club.

This drawing, prepared for the Navigation District by its engineers, Lockwood, Andrews and Newnam, shows the proposed improvements at Fulton, which absorb roughly one third the funds asked for in the election of April 13. The improvements here consist of a breakwater to protect the mouth of the harbor from wave action, relocation of the channel, a slight extension of the present seawall, and construction of a low bulkhead to retain the beach, and stop erosion. In addition, water will be extended to the beach, rest rooms are proposed, and there will be more picnic cabanas to furnish shade for folks who like to use the beach.

Wieting Says Regulatory Bill Ready to Introduce

Representative Leroy Wieting, in town over the weekend, said that although the deadline for introduction of bills has passed two weeks ago, he will ask the legislature's permission to put the regulatory power bill in the hopper, and expects to get it under way some time this week.

He also discussed briefly the chances of getting a retarded children's hospital for South Texas.

Aransas County's Water Conservation Bill is almost ready to leave the sub-committee to which it was referred some time ago, Wieting stated, and said that its progress was satisfactory.

He also pointed out that the recent Federal grant for a big 30-inch water line, to be built by the San Patricio Municipal Water District might do much to alleviate the local water situation.

State Laboratory Plans Expansion

The Texas Game and Fish Commission has recorded a lease obtained from Aransas Navigation Board for land adjoining the present laboratory building as the preliminary step toward expanding the facilities here.

Minutes of the Navigation District show that the lease was requested by Robert G. Mauermann, regional director for the Commission in Southwest Texas.

At the meeting in which the lease was requested, Mauermann exhibited plans for the 30-foot extension proposed for the present laboratory building and explained the plans in detail. He stated at that time that the extension would be on the front of the present building, extending all the way across.

Mauermann said that the present building was entirely too small after this was made a regional headquarters in September, 1961.

The new extension practically doubles the size of the lobby, and increases the display area there, with addition of some inland fisheries tanks and a wildlife panorama. He pointed out that 25,000 to 30,000 people a year see these exhibits.

On the second floor tentative plans call for extension of the library, addition of private officers for some of the staff members, and separation of some areas with accordion doors, for convenience in holding meetings.

The State Board of Control is now working on detailed engineering plans for the building, and Mauermann said that it was hoped that these plans will be completed so they can be presented for approval of the Game and Fish Commission at their April meeting.

If the plans are approved, the probability is that construction will start some time this summer.

President's Father, Emory M. Spencer, Have Wildcat Permit

The president's father, Joseph P. Kennedy, through his company, the Mokeen Oil Co., and Emory M. Spencer, have teamed for an 8,500-foot wildcat four miles northwest of Rockport.

Their No. 1 Modesett-Kennedy Fee, where immediate drilling is scheduled, is east-southeast of present production in the Fulton Beach Field, and should it prove successful, would constitute an extension of that field to the south.

The V. G. Gwynn fee is to the west of the location; Fulton Outlots are on the east; and various small tracts owned by G. S. Shubert, L. V. McLester, Guy Barber, Clyde W. Armstrong Estate, Roy Jackson, and D. G. Ferris are to the south.

The exercise will close at the six o'clock Evening Mass with a General Communion for all Catholic participants.

The theme of Father Doherty's conferences will be "the unity of the Spirit in the bond of peace: one body and one Spirit; one Lord, one faith, one baptism; one God and Father of all, who is above all, and throughout all, and in us all."

The men of Sacred Heart Parish extend an invitation to all men of Rockport to take part with them in their Christian Unity Recollection Day at Sacred Heart Catholic Church on the afternoon of Sunday, March 31.

Work On Fulton Harbor Outlined

Portion of $400,000 Bond Issue Will Go To Construction of Breakwater to Protect Harbor And Bulkheading to Retain Beach from Erosion

A portion of the funds asked for by the Navigation District in the $400,000 bond issue to be voted on April 13 will go toward needed improvements to the harbor and beach at Fulton.

These include a retaining wall to keep the beach from eroding more than it has, and a breakwater to keep the prevailing winds from making the harbor so rough that it will damage boats.

This breakwater is to begin roughly a block south of the present mouth of the harbor, and will go straight offshore far enough to keep wave action from reaching the harbor.

To accompany this breakwater, the present Fulton Harbar seawall will be lengthened slightly, and the channel redredged. When completed the Fulton Harbor mouth will be almost identical with that at Rockport, where the pier and seawall in front of the Smith boathouse has kept wave action almost completely under control.

At the north end of the harbor, where the present beach and swimming pier are low located, a concrete retaining wall will be built, extending about two feet above the water level, and the fill from re-dredging the harbor will be used to extend the beach.

In addition to this, the water lines will be extended to the beach, and rest rooms are to be built.

In a speech before the Lion's Club last week, Chairman Ted Little of the Navigation Board told club members that the bond issue could be handled without any raise in the present navigation tax, as this year would see the last bonds of the previous issue retired, and the tax could then be devoted to the new issue.

It has been the Navigation District's custom, he said, not to ask for, or issue more bonds than could be paid off in a comparatively short time. The present $400,000 issue can be paid off in nine years, he said, using the present 30 cents per $100 assessment.

He reviewed briefly the history

Bathing Beauty Contest Rules Formulated

Rules for the Miss Sea-o-Rama Beauty Contest, to be held in connection with Rockport's second annual festival, have been formulated, according to Mrs. Cecil Cole, general chairman of the event, which will be handled by the Rockport Fire Department Auxiliary.

Date of the event is Saturday, June 8, Mrs. Cole said, and the committee is now receiving entries for the contest and will continue to do so until the deadline on May 29. However, letters postmarked May 29, even though they arrive late, will be eligible.

This year there will be five classes.

First, of course, is the senior division, in which girls must be seventeen or older, and where they will compete for the title of Miss Sea-o-Rama. Entrants for this division are eligible from anywhere.

Second is the junior contest, winner of which will be crowned Miss Mermaid, and in which entrants must be between 13 and 16, inclusive.

The third category is a new one this year, and is limited to those girls entered for the senior division, from the Rockport-Fulton-Lamar area only. Girls entered in the senior division are eligible to compete in this for the title of Miss Sea Star without payment of any additional entry fee.

Fourth, for girls of the Rockport-Fulton-Lamar area only, is a class for sub-teens, between the ages of 7 and 12, inclusive; while the fifth, also for area children, is the tiny tots division, in which the children must be between 3 and 6 years old.

No girl may compete in any class who has not reached the age limits for that class prior to May 30, 1963. Girls in the first three divisions must have sponsors; those in the last two do not need sponsors. The entry fee is $5 for each for each entrant.

Entrants must be unmarried and not previously married, and must wear one-piece bathing suits without circular skirts attached. No previous winner is eligible. The entry must be sponsored and entry made by May 30. All entrants must report to the Toast-of-the-Coast Sea-o-Rama headquarters at the VFW Hall in Rockport not later than 9 a.m., Saturday, June 8.

Out-of-town entrants must have a sponsor or chaperone accompanying them to Rockport on June 8, and remain with her until the finals are over.

Entry blanks may be obtained by writing the "Miss Sea-o-Rama Beauty Contest," Box 1055, Rockport, Texas.

Man Charged With Murder In Slaying

Murder charges have been filed against Thelbert McDonald, 39, of Rockport, in the shotgun slaying of Robert McDonald, 48, of Lamar here Saturday morning.

Robert McDonald was shot in the face with a 12-gauge shotgun about 6 a.m. Saturday in a house rented by Thelbert McDonald about four miles south of Rockport, Chief Deputy Sheriff B. L. Hierholzer said.

Hierholzer said Thelbert McDonald, a welder, made a statement admitting the shooting.

The murder charges were filed with Justice of the Peace G. D. Johnson of Precinct 1.

The Aransas County Grand jury was recalled and met Wednesday to consider the McDonald case and others, and returned an indictment against Thelbert of murder with malice.

District Attorney John Flinn, of the 36th District Court, said that the two men were arguing about Thelbert McDonald's ability to weld pot metal. The argument grew heated, and wound up in the shooting.

Afterwards, Thelbert went to Aransas Pass where he contacted Sam Garcia, a friend, and asked him to help dispose of Robert Lee McDonald's body. Garcia refused and Thelbert returned home where another friend, Frank Miller found him about 8:30 a.m. and persuaded him to call the Aransas County Sheriff's office.

Texas Ranger Frank Harger assisted Hierholzer and Deputy Sheriff Joe Earl Hunt in the investigation.

Robert McDonald was a construction worker and a native of Green Cove Springs, Fla. His survivors are not known.

His body was sent Monday night by Cage-Marshall Funeral Home of Aransas Pass to Fernandina Beach, Fla., for funeral services and burial.

MURPHREE BENEFIT FUNDS AMOUNT TO $191 THROUGH GIFTS

Gifts to Mrs. H. H. Dick and Mrs. Robert Harrell, for the benefit of former milkman Carl Murphree, have totaled $191 so far, Mrs. Dick said, and she and Mrs. Harrell want to convey the thanks of the Murphree family to all the many donors.

Mrs. Dick said the Murphree, badly injured in an accident some time ago, is now in Room 325, Spohn Hospital.

Gifts came from as far as Houston, Louisiana and California, Mrs. Dick said, as people read of Murphree's misfortune in the columns of the Pilot.

Which one is the taxpayer?

They look alike. They have the same kind of job to do. Each is concerned with electric service.

Yet one puts tax money into the Federal treasury, the other takes it out.

The property and income of investor-owned electric systems are heavily taxed. Federal government electric systems are not required to pay taxes.

Thus some users of electricity escape taxes which other users have to pay.

Unfair? Of course. But that's not all. Some people are urging the government to take over still more of the electric power business — even though the tax-paying, investor-owned companies can supply all the electricity needed by a growing America.

Think how much of your income goes for taxes. Do you want to pay still more for unnecessary government power and other people's electric bills?

WORK ON FULTON HARBOR—

(Continued from Page 1)

of Navigation District bond issues. In April, 1926, he said, bonds were issued by the City of Rockport in the amount of $18,000, for dredging and bulkheading at Rockport.

In December, 1935, the city issued another $10,000 in bonds, for construction of a boat basin. In 1946, bonds were issued in the amount of $55,000 for construction of the first Fulton breakwater, and in the amount of $30,000 for repairs and improvements at Rockport.

In October, 1949, after the Navigation was formed, Little said, it assumed City of Rockport Seawall and breakwater bonds in the amount of $110,000, and has since paid them off, as well as subsequent bond issues made by the Navigation District.

One such issue was made in April, 1948, for $45,000 for repair and extension of Fulton Harbor, and was apparently included in the $110,000 in bonds assumed from the city.

In 1954, the first large bond issue, for $415,000 was made and used for completion of Fulton harbor, including boat stalls, ramp and extension and completion of the seawall at Fulton, as well as for some minor pavement repairs at Rockport.

The bond issue to complete the first phase of the improvements planned for the Cove was made in 1958, Little said, and for the first phase of the Little Bay project. This issue was for $300,000.

All these bond issues have been paid off, or will be this year, the Navigation District chairman said.

The present bond issue is for work at Fulton outlined above, and for improvements and repairs and maintenance of the district harbors at Rockport and the Cove.

This work will be outlined in subsequent issues of the Pilot.
