New Pontiac to Go On Display

An entirely new line of cars—bigger, longer and more luxurious—plus an improved and newly styled line of Chieftains for 1954 will go on display Friday and Saturday at the Johnson Pontiac Inc.

The new line, known as the Star Chief Series, is 11 inches longer over-all, has a two-inch longer wheelbase, a more powerful eight-cylinder engine and some of the most luxurious interiors ever offered in a motor car.

All 1954 Pontiacs have been restyled with a new radiator grille, new silver streak, new side mouldings and many other features.

The Pontiac straight eight engine has been stepped up to 127 horsepower.

An expanded line of optional accessories is offered this year, including power brakes, Comfort Control front seat with a tilt-or-raise feature, automatic electric window lifts for front doors, instrument panel safety cushion, air conditioning for eight-cylinder models, and improved power steering, as well as the famous Dual-Range-Hydra-Matic transmission.

Dairy Group to Meet Monday at Booker School

The High Plains Dairy Association will meet Monday night at 7:30 o'clock in the Booker school. Members and all interested dairymen in the area are invited to hear important developments on the organization of the Tri-State Milk Producers Association.

A film on some phase of dairying will be shown and coffee and doughnuts will be served.

The Tri-State Milk Producers Association is being formed from dairymen in Western Oklahoma, Eastern New Mexico, the Panhandles of Texas and Oklahoma. It will be a bargaining agency with the milk purchasing companies.

Officers of the High Plains Dairy Association are Raymond Green of Booker, president; Robert Howard of Logan, vice president; Vernon Day of Perryton, secretary-treasurer.

Annual Ranger Club Banquet Monday Night at Cafeteria

The annual Ranger Club banquet honoring the 1953 Ranger football players and coaches will be held Monday night, Dec. 21 in the school cafeteria.

Dick Todd, backfield coach at Southern Methodist University for the past season, will be the prinicpal speaker. Todd, who set a state and national scoring record while playing for Crowell high school, later became All-Southwest Conference helfback at Texas A&M College and an All-Professional selection with the Washington Redskins.

Tickets to the event are on sale at $2 per plate. Tickets may be secured from Alton Witt, Bill McLanahan and Mason Anderson, or may be bought at the First National Bank or Perryton National Bank.

The program will include musical selections from the Perryton high school boys' octet and selections from a trio composed of Coke Harlow, Tom Knighton and Mack Suitor.

Rangers Enter White Deer Meet

The Rangers will play in the White Deer basketball tournament this week end, competing with seven other teams. They play their first game Thursday at 7 p. m. when they meet the Panhandle Panthers.

The White Deer tournament has only the boys division and the Rangerettes have no games scheduled until next Tuesday night when they meet Canadian at Perryton.

Teams in the White Deer tournament include Price College, Tulia, Panhandle, Perryton, White Deer, Memphis, Lefors and Canyon.

Services Held Monday for C. E. Jackson

Charles E. Jackson, Ochiltree county pioneer, died at his home in Perryton Friday night following a long illness. He was 75 years of age.

Funeral services were held Monday afternoon in the First Methodist church with Rev. A. B. Cockrell and Rev. Keith McCormick of the First Baptist church conducting the rites.

Active pallbearers were Coy Merydith, Drayden Gordon, Carrol Wall, J. W. Rice, George Symons and Neal Thompson. Honorary pallbearers were Dr. J. W. Chase, S. L. Brillhart, George Yates, Earl Silsbee, Carl Ellis, Ray Phagan, John King, Dick Duke, Dick Barton, Sid Talley, Spencer Whippo, Clint Ragsdale, Henry Cutter and Walter Daniels.

Mr. Jackson came to Ochiltree county in 1886 and was one of the first settlers along Wolf Creek. His father was one of the buffalo hunters and Indian fighters of early day Plains history and the Jackson family came to Wolf Creek when there were few settlers in the country.

He was married on March 2, 1918 at Old Ochiltree and the family moved to Perryton in 1930.

One More Week for Santa Claus Letters

Only one more week remains for children to send in their letter to Santa Claus to be printed in the Herald Christmas edition on Dec. 24. Letters written to Santa Claus in care of the Herald will be forwarded on to the North Pole after a copy is made for publication in the Christmas issue. Many letters have been received, and there is still time for every boy and girl in the Perryton area to write Santa Claus, if they have not done so.

Several Subjects Are Considered By Commissioners

The Ochiltree commissioners court met Monday morning and Tuesday afternoon, discussing improvement of the fair grounds, raising pay of jurors and contributing toward an educational film on burglary.

The commissioners decided to put a metal roof over a portion of the stock pens at the county fair grounds and to have the work finished before the Junior Livestock Show in February.

A discussion on graveling the roads at the fair grounds was held, and it was decided to solicit trucks from the baseball club, roping club, livestock associations and other interested groups to haul caliche and gravel sometime in January to improve the fairgrounds roads.

The court voted to raise the pay of jurors from $4 per day to $5 per day and pay for one meal per day, not to exceed $1.25.

Texas Ranger Frank Probst and Sheriff Ray Phagan appeared before the court to ask for a $250 contribution toward making an educational film on burglaries. Probst told the court that this film would show various techniques in burglaries and that it would cost about $3,500 to make. Contributions were being solicited from 28 Panhandle counties. The commissioners voted to contribute $250 for the cause.

J. E. Brownlee Dies December 9 In Santa Fe

J. E. Brownlee, father of W. T. Brownlee and Jess Brownlee of Perryton, died suddenly December 9 at his home in Santa Fe, N. M. He was 72 years of age.

Funeral services were held Friday afternoon at Santa Fe and on Sunday afternoon at Kingfisher. Burial was made at Kingfisher beside his wife, who died in 1938.

Mr. Brownlee was closely connected with the history of Oklahoma and this section of the country. He was a civil service employee and civil service examiner and was registrar of Beaver county when it was opened up to homesteaders. He was one of the men who made the

Churches of Perryton Area to Present Christmas Cantata at School Auditorium Sunday Nite

"Gloria In Excelis," a Christmas cantata by Yale-Mendellsohn, will be presented in the Perryton school auditorium by the combined church choirs of Perryton and vicinity on Sunday night, December 20, at 7:30 p. m.

Bob Irby, choral director of the Perryton schools, is director of the choir. Accompanists are Mrs. Bob Urban, Mrs. A. P. McCelvey and Miss Carol Lawrence.

There are 95 voices in the combined choirs, taken from the participating churches in the Perryton area. The program is sponsored by the Perryton Ministerial Alliance.

Featured in the cantata are Winfred Walker and Dolores Clark, a duet; Paul Tucker, tenor solo; Mrs. Rufus Bolerjack, Mrs. Garland Daley and Mrs. James McAnally, trio; Fred Osborne, Rev. J. W. Harder, Juanita Pletcher, Mrs. J. M. Randolph, Iris Martin, Geneva Peterson, Donnie Bachelor and Rev. Alvin Klotz, octet; Mrs. Roy Johnson and Ione Martin, duet; and Lawrence Ellzey, bass solo.

There are 35 sopranos, 28 altos, 12 tenors and 20 basses in the choir.

Everyone in the Perryton area is invited to attend. The final rehearsal of the cantata will be on Saturday evening at 8 o'clock.

Lighting Contest Entries Sought

There is plenty of time for home owners to decorate their homes for Christmas and participate in the Lions Club contest which offers $50 in three cash prizes.

There is no entry blank for the contest, an annual event of the Lions Club, and all a person has to do is put up Christmas lighting on his home.

Judges will make their decisions by the end of this week.

Canadian Teams Here Tuesday

The Rangers and Rangerettes will meet the Canadian basketball teams at the Perryton gymnasium on Tuesday night, Dec. 22. Canadian won both boys and girls games at Canadian Tuesday night while the Ranger B team won their contest.

This will be the last game for Perryton teams until after the Christmas holidays. The Rangers meet the Borger Bulldogs in Perryton on January 1. Both Rangers and Rangerettes open District 1-AA play when they are host to Canyon on January 5.

Large Crowd at Dedication of Nativity Scene

Dedication and opening of the city park Christmas scene was observed Monday night with a large crowd present for the unveiling of the Nativity scene. The shepherd scene, with five life-sized figures, was added to the park this year, along with the manger scene which was previously displayed.

The Nativity scene project is sponsored by the Perryton Sorosis Club in cooperation with the city administration, Chamber of Commerce, Jaycees and other organizations.

The opening night program featured Christmas carols and religious songs by the Perryton school choral groups, under the direction of Bob Irby and Juanita Pletcher. Rev. J. R. Russell, the narrator, told the Christmas story and introduced the Christmas carols.

Guests were welcomed by Mrs. O. A. Schuster of the Sorosis Club and Harold Hudson, Chamber of Commerce vice president.

It is planned to add a new scene each year to the park. The scenes are floodlighted each night during the Christmas season and are visited by hundreds of persons.

New Chevrolet Here Friday

More power, an extension of the automatic transmission to all cars, and design revisions to give a low, longer look feature the 1954 Chevrolet automobile which goes on display Friday and Saturday at the Perryton Motor Co.

Favors will be given to all visitors at the showroom during these two days. A Bel Aire model and a series 210 model will be on the floor for the two day showing.

In appearance, the new Chevrolets have a longer, more rugged look. Designed for a broader, lower effect, the front bumper has been curved farther around the fender. The grille, bumper guards, parking lamps and hood ornamentation have been modi-

Little Cheer Here

List of Needy Families Grows As Christmas Time Approaches

Christmas is traditionally a time for cheer, but for a number of Perryton families, there will be little cause for rejoicing this year, except for the help that their more fortunate neighbors give them.

The list of needy families is growing at the Red Cross office, and while assistance is being given by local organizations and individuals, there may still be some families without much Christmas, says Mrs. J. F. Cox, Red Cross home service secretary.

For example, there is one old man who is living on a $48 pension, who says he would appreciate "a pair of overalls and a jumper."

A woman with three children, whose husband deserted the family, is supporting the children with part time work and doesn't have quite enough for food, let alone Christmas presents.

A widow with one child could use a Christmas basket.

One family with six children are without funds for Christmas since the father has been ill for the past few months. They are subsisting on relief.

A widow with four children, deserted by the father, is trying to make ends meet with part time work but doesn't have enough for Christmas.

Tractor Chase Is Tiring

FAIRVIEW, Mont. (AP)—Farmer John Reidle's tractor took off, unmanned, into the darkness. He chased it—across railroad tracks, through fences, a beet field and across a road. It just missed a car.

Reidle said his tractor could go only 20 m.p.h. but after his chase afoot he swore: "It seemed to go twice that fast."

Police Found Efficient

RICHMOND, Va. (AP) — M. L. Weatherington, of Beaverdam, Va., walked into Richmond police headquarters to report the theft of a suitcase containing clothing from his automobile.

"Say, that looks like my shirt," he told Detective J. G. Smith, who was holding the garment.

It was. Richmond police had picked up the thief. And Smith had already checked the owner's name through a laundry mark.

Mrs. King Moves From Ranch Home

Mrs. J. A. King is moving this week from the old ranch home on the Canadian River to her new home just completed in Farnsworth.

The late Mr. King built a large one-room log cabin in the spring of 1896 and the couple lived there ever since except for the winters spent at the coast in South Texas.

The log cabin has been converted into a nine room modern home which Mrs. King is leaving fully furnished as she expects to go back there for the summers.

Finds Trip Unnecessary

HARTFORD, Conn. (AP)—Ted Matusewic, who has been flying planes since 1919 without injury, fell on a flight of stairs in his home and broke his right arm.

"The thing that burns me up is I can't remember what I went downstairs for," Matusewic said.

A conference on alcoholics found the typical Canadian alcoholic is middle class between 35 and 45, a skilled or semiskilled worker, married, owning his own home with two or three children.

Soldier Escape From Fort Is Film Thriller

The escape of four Confederate prisoners and a girl from a fort in the Arizona Territory of the 1860's, their pursuit by a tough Union captain, and their adventures with the Indians is the plot of "Escape from Fort Bravo," which comes to the Ellis Theatre on Sunday and Monday.

William Holden, Eleanor Parker and John Forsythe are the principals in the romantic triangle of the picture, filmed on location in the desert and mountain county of New Mexico and Death Valley, Calif.

Holden enacts the hard and toughened Captain Roper, a man difficult either to outwit or outdraw. But where his opponents fail, the lovely Southern sympathizer, Carla Forester (Eleanor Parker) succeeds. With her aid the four Rebils, including her fiance, Captain Mash (John Forsythe), escape from Fort Bravo hidden under the tarpaulin of a goods wagon, and Carla goes with them. But their freedom is short-lived. Guided by the cowardly prisoner, Bailey (John Lupton), Roper captures the fugitives. It is on their way back to the Fort that they are ambushed by the Mescalero Indians and are pinned down in a sandhole in the middle of the desert as arrows, lances and bullets rain down on them. It is now that the true character of each person in the ambushed party is revealed. Roper attempts to save the others by walking toward the Indians in an attempt to fool them into believing him to be the last man alive, in a tense and suspense-packed film.

vet; and the mystery man, Robert Douglas.

They all meet in the dark and forbidding city of Tangier where life is cheaper than sustenance. Here the dangerous game of international politics and intrigues is played out, while intermingled throughout the suspense-filled plot is a generous amount of romance, with both ladies in love with Palance.

In a crushing climax the sides are pitted in mortal battle with lethal lead being slung all over the city. Who emerges victorious and how the twist of fate plays its unalterable course make for what is reportedly some of the most exciting motion picture moments in many a day.

Dark Mystery In Tangier Forms Picture Plot

Intrigue and dark doings in the mystery city of Tangier provide the thrilling subject matter of the adventure drama, "Flight to Tangier," which comes to the Ellis Theatre on Friday and Saturday.

Jack Palance, Joan Fontaine, Corrine Calvet and Robert Douglas star in the picture.

The film's story concerns the activities of a strangely assorted group to make easy money. There is the soldier of fortune, Jack Palance; the nice girl from America, Joan Fontaine; the not so nice French sire, Corrine Cal-

Christmas Spirit Puts Money Into Santa Fe 'Conscience Fund' Annually

When Christmas spirit pervades the nation each December, that still small voice called "conscience" works overtime, and Santa Fe Railway's treasury department at Topeka, Kansas prepares for increased entries in Account 607.

Into Account 607 (Miscellaneous Credits) go amounts classified as "Conscience Fund" donations, cash sent in by anonymous persons who claim to owe the railroad money because of a financial error or theft long since forgotten by the company.

Treasurer C. A. Menninger says from 25 to 39 "Conscience Fund" contributions totaling several hundred dollars are received by the railroad annually from all parts of the system. Amounts this year ranged from 45 cents to $66.

The largest "Conscience" donation on record totaled $595 and consisted of four 100 dollar bills, three fifties, one twenty, two tens and one five. Mailed in Fort Worth, Texas, in 1941, the money was accompanied by an unsigned note reading: "Enclosed find $595 for which I was not due. It was received years ago. As my life has changed I want to clear all things up."

Champion "Conscience Fund" doner in recent years is a Denver, Colo., man carried on the books as "A. R. Christian." Signing himself, "A Real Christian," this doner has sent in eight payments of five dollars each, four this year, on a bill of $60 which he claims he owes the company for "Goods missing, and for which I was responsible when I was a boy working for the railroad".

"The $66 amount contributed this year came from Los Angeles for "Two one-half fare tickets which were not paid in 1917." Other recent sums received include: two dollars for "material taken in 1903," four dollars for "four grain doors" and $35 for a ride on a freight train.

A letter received from Temple City, Calif., in 1943 contained a $50 bill as "Seven times what a short round trip in your line in Kansas would have cost in the 1880's." The writer explained "Lack of money and a desire to provide my wife with what she needed made the time long. Now that she no longer needs because of her death, "I pay it."

Practically all "Conscince money comes by mail, although in 1950 one contributor turned in $10 at the Galesburg, Illinois ticket window and left without giving his name.

Last year a "Sinner" in Neodesha, Kansas remitted a one dollar bill to pay for two Pullman towels taken 25 years ago, and "Ole Timer" of Red Hills, Okla., sent $20 to cover "Chiselling on extra gang groceries a long time ago."

The latest contribution was received last week from Fort Worth. Five dollars was enclosed with a note signed by "Anon Y. Mous" who explained:

"In June, 1907, the writer purchased a ticket from Amarillo to Texico. The coach was very crowded and the conductor overlooked me and failed to lift my ticket. Several weeks later I cashed the ticket at Amarillo, thinking nothing of, however, during the years that still small voice, or conscience, has told me that it was wrong. Believe the distance from Amarillo to Texico is about 100 miles and about that time, fare was three cents per mile. Am enclosing five dollars which will cover the amount and the extra bookkeeping involved.

Before Christmas, Treasurer Menninger expects to receive several more of those letters.

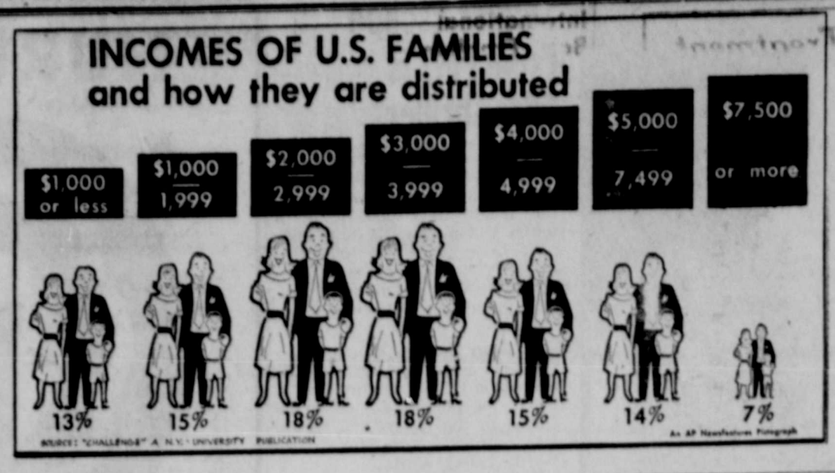

"It's too bad there isn't some way we can wish them all Merry Christmas," he said" "but under the circumstances I suppose that's impossible.

Double Alarm

ENID, Okla. (AP)—They were showing a training film to firemen at the central fire station the other day.

When it came time to turn in the movie alarm there were two rings, one on the sound track, the other in the station.

The audience left in a hurry on the local call only to find it was a false alarm.

Duane Bell Gets High Oxford Honor

Duane Bell, son of Mr. and Mrs. Aldon Bell, 818 Baylor, and student at the University of Oxford, Oxford, England, has been elected president of the Tyndale Society of the university.

The Tyndale Society is one of the outstanding literary organizations of the University of Oxford. It is named in honor of William Tyndale who was graduated from Oxford in 1512 and is best known as an English reformer and Bible translator.

This is the second honor that the Rhodes scholar has received; the first was at the beginning of this school year when he was elected president of Hertford College.

As president of Hertford College his duties are quite similar to those of the president of the student body of a large American university. Bell is the liaison representative of Hertford College students and takes their suggestions to the faculty.

He is the first American (foreigner) to hold this important position in many years and probably the second time in the history of the college that a foreigner has been so honored.

Mr. and Mrs. James L. Wright, a daughter, Lou Anne, born December 15.

Mr. and Mrs. Herbert Gibson, a son, Bennie Wayne, born December 11.

Mr. and Mrs. Louis B. Elston, a son, Terry Eugene, born December 11.

Machine Replaces Dogs

WINNIPEG (AP) — Mechanization is usurping the historic domain of the Arctic sled dog. Veteran mushers in northern Manitoba are turning to the huskymobile for more efficient and cheaper transport.

It is a small-track sled, similar to the famed snow-mobile. The switch is attributed to the high cost of food for the dogs, which claims too large a slice of the trappers' income.

New 1954 Mercury with—

MORE POWER PER CUBIC-INCH DISPLACEMENT THAN ANY CAR IN ITS CLASS

161-Horsepower Engine

for the easiest driving you have ever known

LMDA

Even tough driving becomes almost effortless with Mercury's completely new overhead valve V-8 and all-new ball-joint suspension. And you have your choice of 5 optional power features.

Take passing, for example. The two extra barrels of Mercury's 4-barrel carburetor cut in automatically, by vacuum—give you an extra surge of power.

Take hill climbing. With its high power-to-weight ratio, you barely begin to tap its 161 horsepower. Take cornering or parking. Mercury's new engine is teamed with ball-joint front suspension for better cornering, easier handling.

Here's power that's smooth, responsive, quiet, economical.

You can make your driving as easy as you wish with optional power steering, power brakes, electric window lifts, no-shift Merc-O-Matic Drive, even a 4-way adjustable power seat.

Equally important is Mercury's easy-on-the-eyes styling—completely new front and back, plus the most striking color combinations and interiors yet. See the 1954 Mercury—try it—soon.

Reviewer Finds 'The Miser' Full of Laughs and With Excellent Acting

By ALVIN F. KLOTZ

How do you write a review of a dramatic performance when you know very little about how to write a review of a dramatic performance? There is always the possibility of finding someone who does know something about it. Accordingly, I have enlisted the aid of some thirty people (without their consent, incidentally) to help me give you a few of the highlights of the performance of Moliere's "The Miser" which was so ably presented by the Players Incorporated last Thursday night.

The play was distinctly of comic satire and though one did not realize the factors which prompted its writing it was of genuine interest to anyone with an open mind for good solid entertainment. We are told by Myrtle Alice Pearson that the play gave a good picture of French society and that it was a trait of Moliere to criticize the weakness and the errors of the people.

The play itself, began in a most surprising manner. The setting itself was startling. It consisted of a series of steps, statues and keyholes, locks and chains. Ronnie Witt suggests that the reason for all this might be in the fact that the Miser was not about to part with a cent of his money—thus the scenery of locks and chains. Or in the words of Robert Leatherman, "Keyhole doors would suit the mentality of the miser very well."

Much of the play was centered around the superb acting of J. Robert Dietz as the Miser. In this capacity he was "a tight old man" in the words of Janice Miller, or conservatively, "blinded by his greed for money (Elaine Clack). Shirley Smith characterizes him as a man with a lot of pockets and keys. Mr. Dietz accomplished this role in a number of ways including a "froggy" voice as Don Simpson would put it and a cackling laugh which even made him appear greedy. (Wiley Clark). His constant tripping on the way up the steps was always good for a laugh. Kay Cayler suggests that she would surmise that as a result of his antics "there is one step that is slightly worn."

Perhaps one actress who drew the most comment from the students was Pat Barnett who played the part of Frozine. Partially this was her splendid acting and very deep voice. Certainly, too, they observed in meeting her after the performance that as an actress she is doing a marvelous job of overcoming a handicap.

All in all, it was an excellent performance. Action was fast, timing was perfect. The senior students commented much on that. Delores Clark observes that they "always made their entrance at the precise moment." Gestures, too, were the object of much comment. Lawrence Stephens felt that they were particularly outstanding, especially those of Elise whos hands moved with rhythm and a flowing motion. (played by Joan Delehaunty). Molly Clark observes rightly that some of the overdone movements and gestures were "something you would see in old-time pictures." Delano Stipp commented on the "extra action" which indeed, there was plenty of, sometimes of slapstick proportions.

—IN THE SERVICE—

Pfc. Lloyd Sword, who has served the past 17 months with the 322nd Tank Bn. near Hammelburg, Germany, arrived Tuesday to spend Christmas with his parents, Mr. and Mrs. E. E. Sword. Pfc. Sword was discharged from the Army on Dec. 14 at Camp Chaffee, Ark.

A-2c Jimmy Witt, stationed at Pinecastle, AFB, Orlando, Fla., arrived home by plane Tuesday to spend Christmas with his parents, Mr. and Mrs. Cecil Witt.

ET-2c Don Stephenson, who has been stationed aboard the USS Eldorado in the Far East for the past year, docked in San Diego, Calif. on Dec. 9. Mrs. Stephenson met her husband in San Diego and they arrived in Perryton this week to spend Christmas with his parents, Mr. and Mrs. J. H. Stephenson, Jr., and with Mrs. Stephenson's parents, Mr. and Mrs. F. L. Gerard. After a 30-day leave, ET-2c Stephenson will report to The San Diego Naval Base on Jan. 9 for assignment.

Max Dendy has been promoted to 2nd Class rating after completing an electronics and mechanical school in Washington, D. C. He has been enrolled in an advanced Navy school which will end in February. Mrs. Dendy is with her husband in Washington, D. C.

Here is the magnificent new Pontiac Star Chief for 1954!

Here, in fact, is *the first genuine luxury car ever to be offered in Pontiac's low price range!*

As the biggest Pontiac ever built, the new Star Chief brings you all the generous added length required for peak roadability and riding ease. You will be cradled in fine-car comfort never before available at or near the price. And this extra length provides a long, low, aristocratic silhouette like costly cars, brought to even greater beauty by a brilliant new treatment of Pontiac's exclusive Silver Streak. Interiors are in key. Here is the gracious, spacious look of luxury for which motorists have paid several thousands more than the modest cost of the new Star Chief.

Add to all this an even mightier Pontiac engine and you will understand why you should not only see, but drive, this magnificent new car at the earliest possible moment.

See the completely new Star Chief this weekend, along with the wonderfully improved Chieftain Series—General Motors lowest priced eight and the famous economy six. Together, they amply demonstrate that, whatever you prize most in an automobile, dollar for dollar—you can't beat a Pontiac.

TO ADD TO YOUR DRIVING PLEASURE AND THE LONG-RANGE VALUE OF YOUR CAR—PONTIAC OFFERS **A WIDE SELECTION OF OPTIONAL EQUIPMENT***

Dual-Range Hydra-Matic Drive provides instant response in traffic, extra-economical cruising on the open road.

Pontiac's Famous Power Steering offers finger tip steering ease for parking and slow turning yet you retain safe road feel.

Pontiac's New Air-Conditioning cools your car to the temperature you set in minutes. Eight-cylinder models only.

New Pontiac Power Brakes let you stop faster with far less effort and foot movement. A major advance in safety.

New Electric Window Lifts let you raise or lower front windows to any desired height merely by touching a button.

New Comfort-Control Seat adjusts to 360 different seat positions at a touch for the most comfortable driving position.

*Optional equipment and accessories available at extra cost.

Ear Ticks Noted In Local Cattle, Agent Reports

An increasing number of ear tick infestations in cattle have been reported in this area, according to county agent Delbert Timmons. The principal symptom of ear ticks is that the animal does not walk normally, Timmons says. The animal seems to lose control of its legs and may wobble. Sometimes the animal gets down and is not able to get up and refuses to eat.

Uusally an animal's ear will droop when they have ear ticks, but not necessarily so.

Treatment consists of tick oil or commercial preparations of stock 1029, applied with a paint brush, completely covering the inner and outer surface of the ear.

Another treatment is a mixture of three parts water or oil and one part of Eq 335 or Lindane powder in one per cent solution of water.

Craig Lawrence Has Birthday

Craig Lawrence celebrated his fifth birthday, December 10, with a party at his home.

Craig's grandmother, Mrs. Paul Corbin, and his aunt, Mrs. Joe Schollenbarger Jr., assisted Mrs. Lawrence with the entertaining.

The party was held in the garage which was decorated for Christmas. The walls were decorated with large Santas. Colored balloons hung from the ceiling.

The refreshment table was laid with a green cloth and centered with two birthday cakes. One cake was decorated with cowboys and horses and the other cake was iced in white and decorated with a Christmas tree, Santa and candy canes.

Ice cream, cake and green punch were served.

Games were played and children's records were enjoyed. Favors were hobby horses.

Present to help Craig celebrate were Don and Sue Schollenbarger, Sandra Gidley, Joe Lynn Brillhart, Craig Ragsdale, Danny and Bobby Wade, Doug and Jan Fuller, David Holland, Doyle and Jeannette Felix, Danny Luthi, Clifford Phelps, Tanis Price, Linda Schum[illegible], Larry Kerns, Joyce [illegible] Townsend and Vick[illegible]

DR. MILLER viewing X-Ray in the spinep[illegible] department.

While the wide scope of Chiropractic is amazing to the uninformed, we do NOT recommend Chiropractic as a CURE-ALL. Chiropractic is effective in those cases only where the cause is found to be defective in organic energization due to spinal misalignment (subluxation). Most of our cases are those that had previously resisted ordinary methods of healing. Our examination is designed to eliminate those we cannot help.

SCIATIC

CASEN O. 1436: A lady of 36, overweight, was subject to frequent low back pains and then nine months ago fell on left hip causing excruciating pain in hips and right leg. Her doctor gave her pills and advised heat treatments and tape but patient remained unable to wark or move without terrible pain during past nine months. Was considering a hip operation when she came to the Chiropractic Clinic where an examination and X-rays of spine dislocated a hip and spine misalignment causing interference with the sciatic nerves. Corrective adjustments brought IMMEDIATE relief and after a short while complete realignment restored this patient to her full duty as housewife and mother.

STOMACH TROUBLE

CASE NO. 1474: A lady of 48 years was brought to the Clinic from her bed suffering from nervous exhaustion, stomach ulcer causing great stomach distress vomiting and pains, and fever, long headaches, dizziness, chronic constipation, and a very tender and sore gall bladder. Regular treatments had failed to help her, instead she gradually became worse. Examination revealed a neck vertebrae out of alignment causing defective energization and functional disorders. After adjustments restored alignment, this case went to work daily and when discharged she reported no pains or discomforts, all symptoms gone, and normal good health. She was well and happy for the first time in many years.

IRREGULARITY

CASE NO. 1015: A young matron of age 28 had not had a period for 7 months, had frequent headaches, left breast pains, shortness of breath, extreme nervousness, nausea, indigestion and stomach distress which had resisted all previous efforts and medicine to cure. The Chiropractic Clinic made a spinal analysis to locate the effective innervation and spinal X-rays to bring the area into view for correction. Adjustments were begun and in a few months this case reported periods were regular and other symptoms gone.

LOW BLOOD PRESSURE

CASE NO. 2013: A young mother age 32, after being treated three times a week for a year without results, came to the Chiropractic clinic complaining of a pressure feeling inside her head. "Feels like the top will blow out," she said, "then it will itch and tingle, and then my entire back tingles painfully. Nose stops up all the time. Eyes burn and feel sore above them, and the back of my head and my neck feels sore. I feel tired all the time and have weak spells. Have frequent colds, dizzy spells, indigestion, gas bloating, constipation, and low blood pressure. "Generally speaking," she said, "I've been sick most of my life." The scientific spinal examination and spinal examination and spinal X-ray located a spinal subluxation. UPER-SCOOPER DIG 'EM—This huge tree digger, said to be the one of its kind, made its first run on the 1,100-acre Wolfe Nur- at Stephenville, Tex., this week. It was designed by Hugh Wolfe can excavate between 4,000 and 5,000 trees per day. A 16-man crew could dig approximately 600 trees per day by hand. Pulled wo huge "cats," the attachment is mounted on a third heavy duty or for a combined 300-horsepower pull as it digs 42 inches into dirt. Its operation cost is estimated at $55 per hour. Club Entertained Friday Evening

Mr. and Mrs. James Pitts, 1512 South Drake, entertained their supper club last Friday evening.

Arrangements of poinsettias decorated the living room.

The serving table was decorated with a Christmas scene with a background of candles. A red candle encircled with holly centered the smaller tables.

A turkey dinner was served to Mr. and Mrs. O. W. Dunkle, Mr. and Mrs. Harold Hudson, Mr. and Mrs. Josh Hopkins, Mr. and Mrs. Gilbert Mize, Mr. and Mrs. Jack Todd, Mr. and Mrs. Paul Loftin, Mr. and Mrs. Alton Boxwell, Mrs. J. C. Sims and the host and hostess.

Bridge was played during the evening. Mrs. Sims held high score and won the traveling prize. Mrs. Dunkle held second high score and Mrs. Loftin held low.

Monthly Meeting Held Dec. 7

The Jollyette 4-H Club members held their monthly meeting December 7 in the home of Brenda Rickard.

Betty Witt presided during the business meeting.

Four girls were selected to attend a Leadership Training school. It was voted to have the club Christmas party and gift exchange on December 17, in the home of Mrs. Charles Selby.

The hostess gave a demonstration on cookie making. She served the cookies with hot chocolate to Donna Swink, Evelyn Graham, Nancy Graham, Betty Witt, Marilyn Baker, Ruth Pshigoda, Glynnes Blackwell, Earlene Schwalk, Corline Selby, Ruth Ann Smith, Barbara Margraves, Vema Jean Latham and the sponsor, Mrs. Selby.

Hoovers Are Dinner Hosts

Mr. and Mrs. C. A. Hoover were dinner hosts recently honoring members of the Texas Tech judging team and their coach.

The team was enroute to Lubbock from Chicago where they had judged at the International.

Those present were Peggy Blackmore, Mrs. Carl Blackmore, Fred Willis of Odessa, Carl Williams of Hermleigh, Carl Menzies of Menard, Lewis Blau of Booker, Stanley Anderson, coach, Billy Jones of Brady, Dale Hoover and the host and hostess.

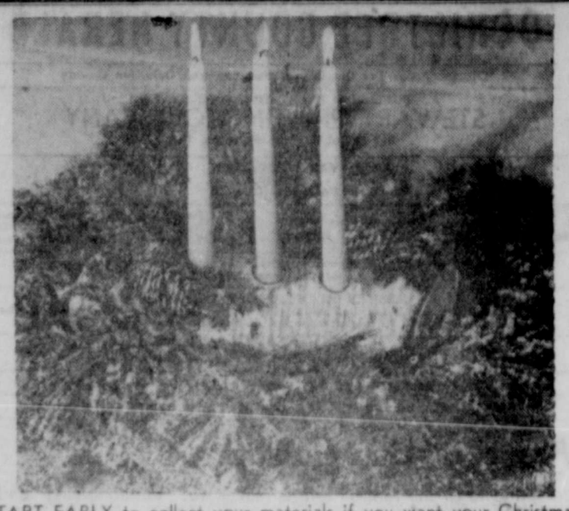

LONG STRIDE—Larry Mason (28), Odessa high school back, went through left tackle and picked up six yards before he was brought down by Wayne Pace (6), back of Woodrow Wilson high school of Dallas in the first quarter of the semifinal Class AAAA schoolboy football game in Odessa, Tex., Saturday. David Mitchell (53) of Woodrow Wilson is also diving at Mason. The game ended in a 14-14 tie, but Odessa won on first downs to enter the finals. (AP Wirephoto)

START EARLY to collect your materials if you want your Christmas decorations to be outstanding. Here is a suggestion for a table decoration. Hunt for a small log. The one here is birch. Bore your three holes carefully with an eye to alignment and spacing. Make sure your candles will fit. Find your pine cones. Then when the time comes, a few evergreen branches and a little of the artificial snow you spray on, and there you are.

Peace or Destruction

In spite of the Russian retorts that it was "warmongering" and derisive comments on the part of some leading Democrats, we thought the atomic energy speech of President Eisenhower before the United Nations last week was full of common sense.

He laid it on the line to Russia—the U. S. is ready to cooperate in using atomic energy for peaceful purposes—or it is ready to retaliate with the most dreadful warfare the world has ever known.

Stockpiling race of atomic energy today is on a mammoth scale. This country's stockpile today exceeds nine times the total power of all bombs and shells exploded or fired during the full duration of World War II. Any single air group can carry more of this destructive cargo than was dropped in all the bombs on Britain in the same war.

Although the U. S. made and dropped the first atomic bomb in 1945, this country does not share its secret—thanks to spies and traitors who passed the information on to Russia. This country does at present have more atomic bombs and presumably more facilities for making more than any other country on earth.

However, the stockpiling of atomic weapons and the making of more is not the primary aim of this nation. Defense is the first aim, and with Russia getting more and more bombs on hand, it becomes a question of how much retailation this country would have if hit first.

The President called for a sharing of knowledge and materials with other nations in controlling the atom bomb. Any other course would be a disaster to all countries, and to our civilization, he said.

Alfred Nobel, the inventor of dynamite, thought he had a weapon so powerful that it would act as a deterrent toward warfare throughout the world—but he was proved wrong.

If the world can learn a lesson—perhaps it can control atomic energy.

Get It From Washington—It's Free

It surprises many persons to know that money from Washington is not free; that the people pay it. The rich Uncle Sam is not just a generous fellow who gives us what we want.

Here is where the federal government got its money during the last fiscal year:

From individual income taxes (those who made $600 or more a year): $29,274,107,000 (of which $17,929,047,000 was withheld by the employer and taken from your wages before you got your check).

Those who work, Social Security taxes (withheld from your wages), $4,464,264,000.

Those who drink liquors or wines, $2,549,088,000.

Those who smoke cigarettes, cigars or use tobacco, $1,565,162,000.

Those who buy gasoline and oil, $808,460,000.

Those who bought automobiles, $578,149,000.

Those who bought trucks, $147,445,000.

Those who bought parts, accessories, or tires or tubes, $325,497,000.

Those who use electricity, $53,094,000.

Those who bought refrigerators, air-conditioners, $57,970,000.

Those who bought radios or phonographs or records, $125,124,000.

Those who bought musical instruments, $9,412,000.

Those who bought jewelry, $230,403,000.

Those who bought furs, $41,436,000.

Those who bought toilet supplies, $112,892,000.

Those who bought luggage, $90,799,000.

Those who use the telephone or telegraph, $705,770,000.

Those who traveled by train or bus, $275,174,000.

Those who shipped by train or truck, $388,589,000.

Those who went to shows, $330,782,000.

Those who went to cabarets or night clubs, $45,489,000.

Those who joined clubs, $33,592,000.

Those who ate sugar, $78,473,000.

Those who died, $750,591,000.

All of us, $65,009,939,000.

You get it for nothing from Washington, do you?

From the SIDELINE

with HAROLD HUDSON

We had an editorial in the Herald a couple of weeks ago, testing the idea for a United Fund to combine all the fund raising activities of the year into one drive. To date we have received comment from several persons, and the idea doesn't seem to take hold. Most of those to whom we've talked have something to do with raising money for the polio, cancer, heart, Boy Scout or Red Cross drives and they doubt if a single fund drive would approach the contribution totals now made in a series of separate drives.

One fellow told us that in the course of a year a business man or individual may give $50 to these fund drives when they are scattered out at $5 or $10 a lick—but it would be tough sledding indeed to try and get $50 from him at one time. And perhaps this is right.

Another brought up the idea of the troubles that would arise in administering a joint fund. Who would say which organization got the most from the United Fund and who would pacify those who thought they were shorted when the funds were distributed? Would there be as much concerted effort on a United Fund drive as there would be on a series of different drives? Different persons are interested in different kinds of drives, and it was pointed out that a worker may not devote as much time to a fund drive for all purposes as he would to a drive to benefit the particular activity he was most interested in.

We want it understood that we are not trying to start a United Fund—and certainly we are not interested in becoming a "gear" in determining how much money to collect and distribute for the various worthy activities. We brought this subject up purely by request.

Television has its benefits in areas where reception is good—for the country editor, at least. Not nearly as many meetings, which a country editor must attend, are scheduled for evenings, they say, because the organization heads know attendance would be small because of TV.

Fishing is almost a disease with some men, but it's not always catching.

We heard a good story the other day: The president of a large corporation called in an employee and said, "You've been with us only a few weeks but you have impressed me tremendously. I'm going to double your salary now, and next year I'll make you a member of the firm. What do you think of that?"

Said the young man: "Gee, thanks, Dad."

Beginning January 1 social social security taxes are due to go up to 2 per cent from employer and employee, thus wiping out the scheduled cut in income taxes for the lower wage brackets. All that we have read about this increase indicates that the social security raise is being made merely because it was set up in a schedule by law passed by Congress several years ago. There is no need for more money in the social security fund.

There is now over $18,000,000,000 in the social security reserve fund—or there would be if it hadn't been borrowed by other government departments. The reserve is increasing at the rate of $1,000,000,000 a year at the 1½ per cent rate. Why the increase? We don't know and we'll bet few members of Congress know either.

Wolf Creek Philosopher

Russia In For Troubles, Too

(Ed. note: The Wolf Creek Philosopher detects a crack in the Iron Curtain, he claims this week.

Dear editar:

In the cold war fought with hot words with Russia these days, lots of people get into the habit of thinkin all the blunders are bein made by us, that the Russians are almost all-seein and everything comes off accordin to their schedule.

There's nothing to it. We don't hear about it, but Russia makes as many busts as other countries, maybe more.

The reason I know this is that every once in a while a little information leaks out from that ruthless country.

The other day I was out here lookin over a newspaper, I forget which one it was, it doesn't matter, the difference between lots of dailies is that one of em prints Drew Pearson on page 4 and the other exerts its individuality and prints him on page 2, and ran across an item that convinced me Russia is slippin.

Accordin to this item, Russia is now makin loans to some of its allies. For example, she has just loaned North Korea a billion rubles, about 250 million dollars, and has shipped her a lot of free food and has also agreed to postpone payment of loans previously made.

Personally, I'm glad to hear this. What it means is that Russia is on the way to losin its allies.

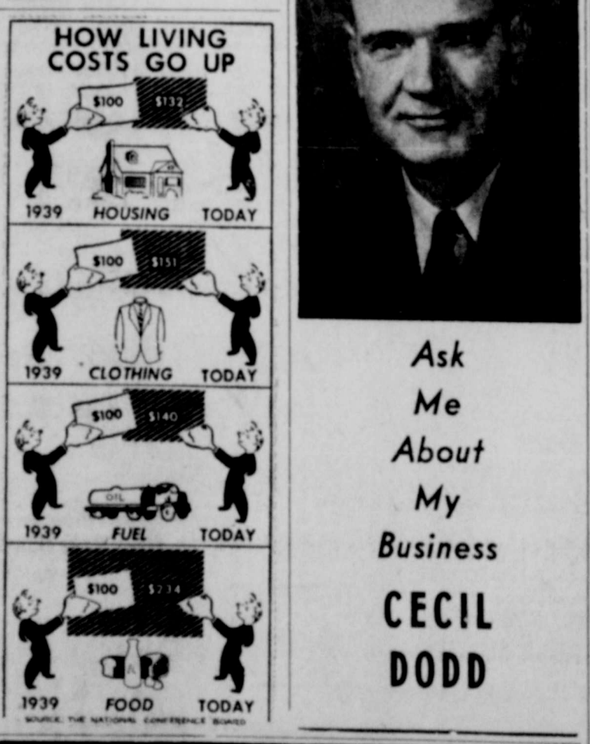

One of the foremost lessons of history is that the way to lose friends among nations is to loan em money, then postpone the payments when they come due. Ship em a lot of food, and you set a program in motion that generally leads to unfriendliness, on account of the only way you can keep up their friendship is by sendin em more food after that, then more after that, and the minute you let up, they turn on you.

Hence as far as I can see it's good news that Russia is goin into the loanin business.

Also, I noticed in another paper where the Russian government has lost its title to two estates on Long Island because of failure to pay the taxes. As I understand it the Russians bought the places to live in while attending the United Nations meeting, and while the Russian big shots aren't in the habit of payin taxes, the rule only applies to estates in Russia, not in the United States.

Loanin money to your friends and failin to pay your taxes are two of the best ways I know to hit the skids. Everything's not as sound in Russia as Russia pretends.

Yours faithfully,
J. A.

Ask Me About My Business

CECIL DODD

Veterans Forum

Q—I'm planning to borrow on my permanent GI insurance policy, and I'd like to know how I'm supposed to pay the money back?

A—Your loan may be repaid at any time, in full or partially in amounts that are multiples of $5. Interest is payable annually on the anniversary date of the loan.

Q—I am a World War II veteran and I'm planning to go back on active duty. I'm going to ask VA to waive the premiums on my GI term insurance policy while I'm in uniform. My policy has a disability income provision, for which I pay a little extra. Will payments on that provision be waived also, along with my regular premiums?

A—No. If you want to continue this disability protection while in service, you must continue to pay the required extra amount. Waiver of premiums, authorized by law, do not apply to these extra payments.

Q—I plan to get a GI farm loan. How can I find out who would make such a loan in my community?

A—Information as to who makes farm loans under the GI Bill usually may be obtained from your County Agricultural Extension Agent. Or you might check with your bank or other lending institutions in the area.

Q—I'm figuring out my yearly income for purposes of the VA pension that I receive because of my total disability. I do light part time work on a farm and I receive my salary in kind, and not in cash. Is that considered as income?

A—Yes. The value of salary received in kind, including a fair value for maintenance, is considered as income for VA pension purposes.

Enemies At Peace

WEST GLACIER, Mont. (AP)—Ranger Harold Estey reports a sight as strange as if a sheep and a wolf were playing together.

At the Logging Ranger Station in Glacier National Park, Estey said he saw a half grown marten tusseling with a gopher. The ranger said they were playing like a couple of cub bears.

Ordinarily martens eat gophers.

Roy Rogers supplied the boots and the remainder of the Western outfits were made up from individual contributions.

According to Farley, the Western star's Christmas present added up to the largest single gift ever received at the Ranch and dressed up the snappiest and happiest group of cowhands ever assembled. The repeat performance is expected to be even more successful.

Along with the boots, each boy will receive a package that will contain a new suit of dress Western clothing containing a selection of trousers, shirts, western necktie and a belt with the big western type buckle that is so popular with the boys.

The Western clothing for each boy will cost about $25. Many people have expressed the desire to provide for a boy at the ranch and to give him a better Christmas than h has ever had before. mas than he has ever had before.

They are doing that this Christmas by furnishing the special package containing the Western clothes.

Rogers arranged it so that the boots being given to the young cowhands will come in three different colors this year so that each boy will get his choice of colors.

SANTA WEARS A STETSON—Cowboy star Roy Rogers displays a pair of the 200 pairs of boots he is giving to the young cowhands at America's First Boys' Ranch near Amarillo, Tex. for Christmas. Rogers started giving the boys at the ranch a new pair of boots last Christmas and this year's gift to the young wranglers is estimated to cost about $8,500 which is a big load for Santa's pack.

Gruver Preacher Makes 865 Mile Trip Each Week

FORT WORTH—The old circuit-riding preacher, who sometimes made 50 or 60 miles a weekend visiting his churches, was a stay-at-home compared with some Brite College of the Bible students at Texas Christian University.

Take Frank Reese of Fort Worth and Doyle Green of Arkansas Pass, for instance. Both are graduate students in Brite during the week and then travel hundreds of miles to become pastors on Sunday.

Reece makes just 865 miles each weekend to preach in his church at Gruver.

Green does 780 miles round trip weekly to his church post at Crystal City.

During the school year, they'll travel a total of some 55,000 miles. Reece uses the railroad for his jaunts to Gruver in the Panhandle. Green uses his car for the long trip to Crystal City, only 90 miles from Laredo on the Mexican border.

The churches pay for the long hops, along with a salary that keeps the commuting ministers in school. The young preachers admit its a rugged, weekly assignment but they like the work that permits them to complete their degrees.

Reece and Green are not alone in their travels by any means. Many other Brite students and several undergraduate ministerial students are making weekly trips. Many travel more than 200 miles one way to their chruch jobs.

Among them are James Henderson of Four Oaks, N. C., who has a pastorate at Millersview, 220 miles; Jerry Johnson of Oklahoma City who does 210 miles to Daingerfield; Stanley Land of Neosho, Mo., who goes 200 miles to Cooksville; Jimmy Livingston of San Angelo who has 200 miles to Menard each Sunday and Tom Shuster of Bertram who has 200 miles to his hometown.

"If travel is broadening," the young ministers grin, "we really should be well prepared for our work by graduation time."

Incidentally, in its handsome new quarters in the $1,200,000 Religion Center on the campus, Brite College has an all-time high enrollment this year. Dean Roy C. Snodgrass expects it to increase sharply in the next few years.

Local Soldier Describes Trip To Rest Camp

(Ed. note: The following letter was written by Sgt. Joe Cagle, on duty in Korea, to his parents, Mr. and Mrs. E. B. Cagle describing a recent trip to Japan on leave.)

Dear Mom, Dad and Charles:

I'll try and tell you about my trip to Japan on R&R. It was pretty nice, it was sure swell to get to talk to Jewell Ann. She sure sounded natural. I will have to just hit the high spots.

I left here Monday night the 9th and went to a railroad depot where we sat until 3 a. m. before we left for Seoul. We got to Seoul about 8:30 that morning. I was never so cold in my life. The trains over here don't have heat. You are lucky if there is any doors or windows in them. We sat at the Seoul Air Base all day Tuesday and Tuesday night at 5 a. m. Wed. morning we left on a C-124 Globemaster for Tokyo.

There was 120 of us on it. We landed at Tokyo about 10:30 a. m. There we rode a bus to Camp Drake. When we got there we had a steak dinner, which was o. k. and all the milk we could drink, when I came out I weighed 10 lbs. more I think.

Then we turned in all our clothes and got uniforms, ties and all. We left Camp Drake at 6:30 p. m. for Yokahoma. By bus we went here on our own. We was free to go where we wanted to. We got to Yokahoma about 8 p. m. We got our rooms and all settled, than a hot bath and clean sheets and boy did we ever sleep.

Tuesday morning another hot shower and down town to do some shopping. I really got a kick out of shopping at the Japanese stores. They seem to be real nice to you. First of all we had to get our money changed for Jap money. You get 360 yen for $1 American money and it is all paper money. We spent most of our time shopping and eating. Then on Wednesday night the 18th we left Yokahoma at 7:30 and went back to Camp Drake.

There we changed clothes again and at 11:30 p. m. we had a meal of ham and eggs, and at 1 a. m. we left for the airport. We got there at 2 a. m. and at 3 a. m. we left for Korea again. They had 200 of us on this time. We got to Seoul at 7:30 and stayed till 1 p. m. and then got on a train for here. We got back here about 8:30 p. m. I was so darn tired I just went to bed.

I had 20 letters when I got back. It is 12 degrees here tonight. Hope everyone is O. K. back home. Hoping to see you all before long.

Christian Science

Services 11 a. m. each Sunday
Public Cordially Invited

That God, good, is the only power governing and protecting man and the universe is pointed out in the Lesson-Sermon to be read in Christian Science churches this Sunday. "Is the Universe Including Man, Evolved by Atomic Force?" This is the question which comprises the subject of the Lesson. The Golden Text is from Hebrews: "Thou, Lord, in the beginning hast laid the foundation of the earth; and the heavens are the works of thine hands" (1:10).

The omnipotence of God is emphasized in various selections to be read from the Bible such as this one from Psalms (24:1): "The earth is the Lord's and the fulness thereof; the world, and they that dwell therein." The following statement by Mary Baker Eddy, the Discoverer and Founder of Christian Science, will be included in the correlative passages to be read from the Christian Science textbook: "A material world implies a mortal mind and man a creator. The scientific divine creation declares immortal Mind and the universe created by God. Infinite Mind creates and governs all from the mental molecule to infinity" (Science and Health with Key to the Scriptures, p 507).

Horseback Driving

IRONTON, Ohio (AP)—Can a man be accused of drunk driving when he's on horseback? A police car chased a tipsy driver and his steed the other night. Just as the officer cornered his quarry with the time-honored, "Pull over to the curb," the thought occurred to him:

"What can I charge the guy with?"

And, while he pondered, the frisky horse cantered off, his rider bobbing in the saddle.

Skeletons In Bohemia

NEW YORK (AP)—Utility company employes say discovery of human remains in Washington Square is "a matter of routine." Washington Square is the center of Greenwich Village, artistic and bohemian resort. An estimated 100,000 persons have been buried in the area, which was used as a Potter's Field from 1797 to 1823.

Ochiltree County Included In Economic Disaster Loan Area

Authority to make Economic Disaster loans in all counties of Texas has been received by L. J. Cappleman, State Director of the Farm Home Administration. The effect of the designation, Cappleman explained, is to continue the making of Production Disaster loans throughout the state during 1954 and to authorize the making, for the first time, of Economic Disaster loans.

There is a difference in Economic Disaster loans and aid in the case of a production loss. The farmer who has suffered crop losses because of drouth, floods, insects or other natural causes is eligible for a Production Disaster loan if he is unable to obtain operating funds elsewhere. If the farmer is a sufferer from the effects of insufficient income and excessive operating costs he is eligible for an Economic Disaster loan if unable to get needed credit from local sources.

Production Disaster loans were first made in Texas in 1949, following the disastrous freeze in the Rio Grande Valley and the tropical hurricane which swept the rice area in October of that year. Later, the loan authority was extended to the entire state because of drought, insect infestation, and adverse weather conditions.

In announcing the new loan, Cappleman said that the $11,850,000 fund allotted Texas for crop production loans is now practically exhausted, although $3,000,000 was added in the closing days of November.

He pointed out in addition to the disaster and economic type loans that funds are available in the form of Special Livestock loans to established ranchmen to carry on their operations. Funds of this type already advanced to ranchers total $7,800,000 he said. Ranchers, in addition to borrowing for operating expenses, may obtain funds to restock their ranches and replace herds depleted by effects of the drought.

Dairymen who need to replace animals to build up dairy herds to normal may obtain funds for such purpose, he said. Disaster loan funds, advanced primarily for crop production purposes has passed $6,000,000 total.

Special Livestock loans provide emergency credit at 5 per cent to ranch operators who are unable temporarily to obtain from recognized lenders the credit needed to continue their operations and have reasonable prospects of working out of their difficulties.

Applicants certify in writing the extent of damage they suffer and the fact that they cannot obtain the needed credit from other sources. Their eligibility is determined in all cases by a County Committee familiar with the conduct of farming and livestock operations.

Production loans are approved for a wide variety of purposes such as purchase of feed, seed, and fertilizer, or to meet other essential operating expenses.

Special Livestock, Disaster and Economic loans are scheduled for repayment over the minimum period consistent with the borrower's ability to repay.

They are secured for the full amount. Those secured by liens on cattle or other livestock are scheduled to be repaid as determined by the borrower's ability to pay, in no event longer than 3 years. Credit extended for crop production purposes or for feed ordinarily is scheduled for repayment when the income is to be received from sale of the crops and livestock products produced with the aid of the loan. Funds are available and applications may be submitted at the office of Arthur R. Turner, County Supervisor, located in the Courthouse Annex building in Perryton.

The port of Polperro, Cornwall, was once popular with English smugglers.

HER FIRST HUNT—Mrs. B. L. Jones of Reed's Lake community near Temple, Texas, went hunting this fall for the first time, after her husband had been trying to talk her into it "for ten years." Her bag was her limit in deer and one turkey gobbler, shown above. She shot the deer, an eight-pointer and a five-pointer within 30 minutes of each other on her third day out near Fredericksburg. The gobbler fell to her gun, borrowed from a neighbor, the morning of the fourth day. Mr. Jones came home empty handed. (AP) Photo

Fire Ball Helps Make Safer Christmas

(AP) Newsfeatures

SALEM, N. J.—Battalion Chief George Pappas stood surveying a fire-gutted living room and the cause of it all—the burned skeleton of a once gaily decorated Christmas tree—and an idea was born.

"The problem of cutting down the damage of Christmas tree fires had a lot of us puzzled," Pappas says, thinging back to that day several years ago. "I guess I thought about it more than the others because I went to work to see what could be done."

This season the result of Pappas' idea went on sale in department stores throughout the East. It's a fire extinguisher made to resemble a king-sized Christmas tree ball. It carries the appropriate name of "Fire Ball."

The 37-year-old operator of a dry cleaning establishment, who serves as battalion chief of the Salem Volunteer Fire company said the idea of the "Fire Ball" came to him "all of a sudden." But it took me more than two years to perfect and find a manufacturer willing to take a chance.

"Christmas tree fires are one of those things that happen so quickly there's no chance to get a regular extinguisher," Pappas says. "The answer had to be something that goes off automatically."

Pappas' Fire Ball is filled with eight ounces of carbon tetrachloride. It has a fuse which breaks the ball and releases the liquid into smothering vapor at 160 degrees temperature. Mounted on the trunk of the tree, the exploding ball sends its extinguishing vapor throughout the burning tree in from four to seven seconds.

Nearly 300,000 Fire Balls have rolled off the assembly line in a nearby Philadelphia factory after a late start this year. The number is expected to multiply rapidly next year.

Pappas hopes his first—and so far only—invention will help cut the 12,000 Christmas tree fires that occurred last season. His manufacturer is so certain that he's issuing a free $1,000 insurance policy with each extinguisher.

Pork Must Be Well Cooked to Be Quite Safe

AUSTIN, TEXAS— "Now that winter is here, our thoughts turn to pork roast dinners or perhaps to waffles and sausage suppers. From the standpoint of good nutrition, pork is good to eat. It is rich in protein, fat, and vitamin B, but undercooked or raw pork is also the most common source of a disease called trichinosis," Dr. Geo. W. Cox, State Health Officer, said today.

Trichinosis is caused by a tiny parasite which is found in the muscular tissue of infected animals. When such meat is eaten, the parasites multiply and enter the blood stream, causing fever, intense pain in the muscles and a high white blood cell count. Symptoms of trichinosis are varied. It may be confused with typhoid fever, food poisoning, colitis, rheumatism, pneumonia, and many other diseases. However, you need not worry about becoming ill with this disease if you cook pork thoroughly.

According to Dr. Cox, pork that has been thoroughly cooked will not transmit Trichinella—they die at 137 degrees Fahrenheit. When pork becomes white and no pink color remains in the center of the cut as well as around the edges, it is safe to eat. Long, slow cooking will do the trick and retain the delicious juices of the pork.

This disease is transmitted in hogs principally by the feeding of uncooked garbage which invariably includes raw pork scraps containing the parasite of trichinosis. It is, therefore, essential for hog raisers and farmers to cook all garbage before feeding it to swine.

Dr. Cox says, "Don't let your fear of this disease rob you of your enjoyment of pork and its products, which are delicious and good for you. The most important preventive measure is—eat only pork that is well cooked."

Sunday Eggs Pay Off

DUE WEST, S. C. (AP)—Thousands of "Sunday eggs" combined with perseverance to buy an organ fund when the building was erected in 1925. Fund-raising in this small community of modest incomes was not easy.

The women donated to the fund the eggs their hens laid on Sundays. In addition they used all the usual money-raising methods, including ice cream suppers and quilting bees. Twice their savings were wiped out by bank failures. But the women persevered and the hens cooperated on Sundays.

Twenty-eight years and $17,000 later, the church installed the organ.

Mr. and Mrs. Virgil Castle, Ray and Lu Nette were in Wichita, Kansas Sunday to attend the wedding of a niece.

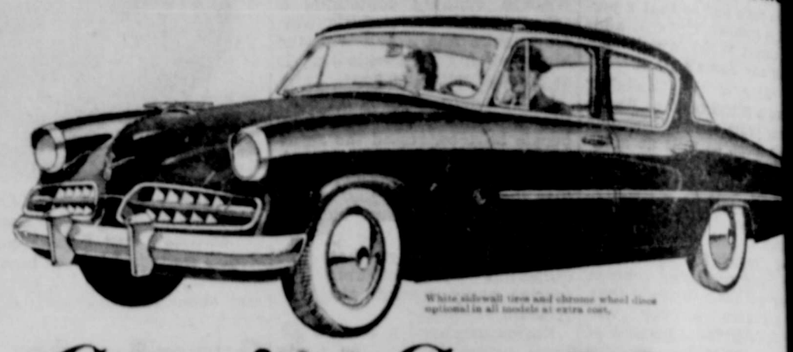

The Niagara River, running into Niagara Falls, collects the entire natural discharge of four of the five Great Lakes—all but Ontario—and its watershed covers an area nearly the size of Texas and holds captive half the freshwater in the world, says the National Geographic Society.

In the last 100 years, the twin cataracts of Niagara Falls have receded 300 feet, and, if the erosion continues at the present rate of one to four feet annually, the American falls will be a bone-dry cliff in 2,000 years.

What we do for self dies; what we do for others grows into immortality. *A cup of water given in Christ's name shall not lose its reward.* Mark 9:41. Rebekah gave water to a stranger... she became the wife of Isaac, an ancestress of Christ. An uneducated old man, with a verse of scripture, turned a youth to Christ... Charles Spurgeon. Florence Nightingale gave her cup of life, and changed nursing from a despised job to a blessed profession. A small boy gave his lunch, and Jesus fed five thousand with it. Attend your church and bring your cup, your life to God... *He can make big streams of good flow from it.*

The Star Chief Custom Catalina for 1954

Queen of the highways, the Pontiac Star Chief Custom Catalina is bigger, longer, more beautiful. On a new 124-inch wheelbase and eleven inches longer over-all, the Star Chief Custom Catalina has new performance with the increased horsepower eight-cylinder engine and Dual-Range Hydra-Matic, new bright color combinations and new lovely top grain leather or leather-and-nylon interiors. Pontiac in 1954 also offers a Custom and a Deluxe Catalina in the 122-inch wheelbase Chieftain series with its distinctive styling.

Dale Hoover Is Nominated for 1954 'Who's Who'

Dale Hoover of Perryton was one of the 26 Texas Tech students submitted by the college for the annual "Who's Who in American Colleges and Universities" honors.

A committee from the Student Council and Dean of Student Life's office picked 26 Tech students, five juniors and 21 seniors, for the recognition.

Dean James G. Allen, dean of student life, announced the Who's Who nominees. He said the students were selected on the basis of scholarship, character, leadership, and contributions to student life on the Tech campus.

E. J. Tarbox, Jr. of Follett was also nominated. He is one of the five juniors on the list.

Hoover, who has a 2.62 average, is a senior agriculture student. He was Tech's Aggie of the year in 1952-53, was a member of the International Livestock Judging team champions in 1953; won the Block and Bridle Scholarship in 1952-53; and has been on the honor roll since the spring of 1951. He is president of Block and Bridle; vice president of the International Relations Club; senior advisor of Phi Eta Sigma; and has been secretary and treasurer of the Agricultural Club and Alpha Zeta, honorary fraternity in agriculture.

Tarbox is president of the Tech Chamber of Commerce, a member of the Student Council, on the Executive Council of the Baptist Student Union. He was valedictorian of his high school class; won three speech scholarships and a Sophomore scholarship.
