Neff's Nursery Completes New Facility

Flowers need their sleep.

And, at Neff's Nursery, 16,000 pots of chrysanthemums are getting their beauty rest.

Or, at least, they soon will be.

It's all part of a new, completely automatic green house that has enabled Neff's Nursery

to double their production and thus, supply flowers to a growing list of flower shops.

This new facility covers almost a half-acre and as viewed from nearby Highway 208, appears to be three buildings.

However, it is just one large structure covered on the sides and top by sheets of clear plastic that look like sheets of tin but let the sunshine in.

The building was erected by manufacturers and Lonnie Wyrosdick of Colorado City did the electrical work that makes the building "climate control" completely automatic.

The sheets of plastic will be operated just as curtains. They will be pulled in the evening so that it will be dark and the plants will get enough sleep.

Rush Neff explained that during the summer, there isn't enough darkness for flowers to get necessary "sleep" and the artificial effect has to be created.

In the morning, the black plastic will be drawn, letting the sunshine in.

Neff pointed out that 1,600 See NURSERY Page 7

TOWN TALK

By MAC MCKINNON

The day's coming, predicts City Manager J.A. Sadler Jr., when Colorado City won't have a police force.

All police work in Mitchell County will be done by one agency, probably the sheriff's office.

This possibility is being considered in many cities and in some places it is already a partial reality.

Police, like other functions of local governing bodies, is becoming increasingly expensive and the less duplication there is, the better.

The Colorado City police force now accounts for about half the city budget.

Sadler pointed out that while the police force here is doing a good job, it would probably be more practical for the city to contract with the county for police services.

Colorado City now has seven policemen and four dispatchers (one part time).

The Mitchell County Sheriff's office has four men, plus one dispatcher, and Sadler estimates the Sheriff's office could add four or five men to give police protection to Colorado City.

If this should ever happen, it would probably be necessary to put sheriff's deputies in uniform but this is already being considered.

Since Interstate 20 passes through Mitchell County, it is the thinking of some people that the sheriff and deputies should be in uniform to be properly identified.

A city-wide cleanup is tentatively set for the middle of April with Colorado City service clubs expected to play a big role.

The Mitchell County Boys Club is planning a big clean-up day in conjunction with National Boys Club Week, April 9-15. This will include picking up cans and bottles for re-cycling.

Also, several people have been talking about having a downtown painting and cleaning party.

One sensor in the middle of the building feeds information back to a "brain" that controls the temperature and humidity in the building.

At night, the temperature is kept at a constant 68 degrees and in the day, the temperature is allowed to rise to 70 degrees.

On one side of the building is louvered shutters controlled by the "brain" and, just inside the shutters, are pads. Humidity is lowered or raised by running water into the pads and fans on the other side of the building suck air through the wet pads to control the humidity.

The temperature determines just how many of the fans are running at a time and a sensor on the outside of the building tells the "brain" if it is day or night.

The potted plants are about two-feet off the ground on stands welded by Roland Dossey.

Dossey and Wyrosdick are in the process of installing black plastic sheets just above the potted plants.

Hospital's Therapy Unit Opens

Root Memorial Hospital has officially opened its new physical therapy unit.

The unit is located in temporary quarters in a trailer house at the rear of the hospital. The trailer house will be used until an addition can be built onto the hospital.

Charles Smith, formerly of Gorman, is the physical therapist. He is licensed and registered with state and national physical therapy organizations.

Treatment can only be given when prescribed by doctors and in order to use the new hospital facility, a prescription is necessary, George Witten, hospital business manager, said.

Facilities at the physical therapy unit include a whirlpool bath, paraffin bath, exercise equipment and many other facilities.

Rites Today For Julianna Helm

Student Killed In Car-Bicycle Accident

Funeral services will be held at 3 p.m. today (Sunday) at Oak Street Baptist Church for Julianna Helm, 15, who was killed Friday night when her bicycle and a car collided.

She was the daughter of Mr. and Mrs. William A. Helm.

Burial will be in Colorado City Cemetery, under the direction of Kiker - Rains - Seale Funeral Home.

Julianna, a sophomore at Colorado High School where she was an honor student, was less than a quarter mile from her home when the accident occurred.

She and one of her sisters were riding bicycles along Highway 208, two-tenths of a mile south of the Colorado City city limits.

Highway Patrolman and Randy Wilkinson and Deputy Sheriff

W. R. (Bill) McGuire said Julianna was crossing the highway when she was hit by a car as she neared the center stripe of the roadway.

She was knocked 50 feet by the impact.

Tommy James Wyatt, Jr., 24, of San Angelo, driver of the car, told investigators he was unable to stop his car after he saw the bicycle rider.

Rev. Joe Temple of Abilene will officiate at the funeral, assisted by Rev. Caddo Matthews, pastor of Plainview Baptist Church.

Julianna was born June 13, 1956 in Colorado City and was a member of the Colorado High Black Knights band.

She is survived by her par-

Rees, Morris Elected

370 Vote In School Election

Colorado City voters turned out in larger than expected numbers Saturday to re-elect Tom Rees to the school board and name S. L. (Mac) Morris to succeed Mrs. Kenneth (Eleanor) Cowan.

The total number of votes

cast amounted to 370 and there were 19 absentees.

Morris, a partner in Costin Implement, was the leading vote getter with 284 ballots while Rees got 281 votes.

Mrs. Tom (Jodie) Neff re-

ceived 187 votes and there were two write-in votes for Truman Nix, former Colorado athletic director and now operator of a service station here.

The two elected to the board will serve three-year terms.

Rees, an attorney, has been serving as president of the board.

Morris will take his position on the board at the board's next meeting April 10 in the school library. He succeeds

Mrs. Cowan who declined to seek re-election after many years service on the school board.

J. W. (Bill) Randle was election judge.

In the hospital board election also held Saturday, there were 104 votes cast, R. B. Baker, election judge, reported.

However, the three candidates, Murrell, Blassingame, Tom Moore and Bob Reilly, were unopposed in their bids for re-election.

Science Award To Senior

Danger Revealed For Marijuana Cutting

An experiment pointing to the possibility of poisonous plants being included with marijuana has won a science fair sweepstakes award for Colorado High's Barbara Jean Bell.

The senior student was top winner of the Biological Division of the Region 14 Science Fair Thursday at Hardin-Simmons University in Abilene.

Her sweepstakes exhibit, "How's Your 'Grass' Cut?", was the outstanding presentation in the fair's senior high school biological division.

Barbara Jean's success in regional competition sends her to New Orleans April 30 and May 5 as a finalist in the National Science Fair. Going with her as she represents Region 14 will be her mother, Mrs. B. H. Bell, 305 East 16th St., and Ronnie Lee Tatom, Sweetwater High student who won the region's physical science division sweepstakes, and Tatom's mother.

The Colorado High senior's exhibit resulted from her assessment that drug information available to high school students is rather scanty.

So, Barbara Jean began tes-

ting poisonous plants that look like 'grass' (marijuana) and that might be cut with marijuana and included in the marijuana illegally sold and bought.

She cut, dried and rolled into cigarettes a variety of poisonous plants which become difficult to distinguish from marijuana.

Cotton at one end of the cigarette holder of the simple smoking machine collected residue

from a cigarette. The cotton was then mixed with specified amounts of water and the solution administered to rats.

Miss Bell's testing with rats was with both the water solution and actual cigarette smoke. Some of the rodents--kangaroo rats--reacted violently, so violently that the known more highly poisonous plants were not administered for fear the animals would die.

One of the rats began fight-

ing when administered a small amount, then fell into a deep sleep.

Leaves used in the testing were from chinaberry, lantana, larkspur, blue bonnet, black locust and others.

The project exhibit based on the experiment was built at Barbara Jean's home. Psychodetic lighting was utilized with 24 See AWARD Page 7

Park Plan To Austin

City Officials Set Conference

City officials will go to Austin soon to further its plan for obtaining federal-state money to assist with development of an extensive park system.

City Manager J. A. Sadler Jr. said a conference with Texas Parks & Wildlife Department officials has been set for April 7.

Representatives of the City Council will accompany Sadler and Billy Jacobs, engineer

with West Central Texas Council of Governments, to the Austin conference.

The capitol visit will be the second step in the park project since the estate of the late H. S. (Dick) Hickman gave 20 acres of Lone Wolf Creek land, located between U. S. Highway 80 Business Route and Ruddick Park, for use as Hickman Park.

Sadler and City Council are looking toward development of a coordinated park layout, including Ruddick and the new Hickman Park, plus an extension of Ruddick Park northward.

a stage-by-stage schedule.

This would be more financially advantageous while allowing for systematic development in accordance with a master plan.

The Austin conference is aimed at acquainting the State Parks department with the assets of the city's park system, the great potential for additional development if state and federal funds can be obtained.

Joe Robinette, 25, formerly superintendent of Ft. Leaton historical site at Presidio, has been named new superintendent of the Lake Colorado City State Park.

Robinette, a native of Miranda City, near Laredo, and his wife, Betty, a native of El Paso, moved into their new home at the park Friday.

He succeeds Larry Neal, who was killed in February in a truck wreck.

Robinette, a graduate of Sul Ross State University at Alpine, is excited over the prospects of the new park and believes it has a great potential.

The new superintendent said he hopes a groundbreaking can be held by early summer to get construction on new facilities at the park underway.

WSCS Special Meet Set

April meeting for Women's Society of Christian Service of First United Methodist Church will be April 19.

Place for the special meeting will be announced at a later time, according to WSCS officials.

During that session delegates to the annual WSCS meeting to be held in Plainview April 11-12 will report convention activities, including plans affecting the future of the WSCS organization.

Three of the local group were in Ackerly recently for a Big Spring District WSCS Day

Apert' program in First United Methodist Church.

They were Mrs. Billy Wilkinson, Mrs. Bob Ratliff and Mrs. S. M. Piller.

Mrs. Wilkinson served as music director for the almost 100 women attending who represented 19 district churches.

Purpose of the study was to learn why disciples asked Jesus to teach them how to pray, to discover some facts about Jesus' prayer life and how these relate to the lives of Christians today.

A Taste, Please

Larry Kinard Jr., a senior student at Colorado High School and employee at Colorado City Community Center, gets a taste of breads and cookies from Mrs. Don Stewart during the annual tasting tea sponsored recently by Colorado City Garden Club in Community Center. Larry was among about 50 guests attending the annual fete. Dixie Edge, Donna Brown and Beverly Solomon assisted in serving.

You see, they remember what he used to have-but they didn't know that he had updated his merchandise to include new, modern lines. They didn't want what he used to have-so they went on to his competitor, who told them of the new shiny wares on his shelves through his local newspaper.

Miss Bell's experiment point-
ed to the fact that plants could
be cut with "grass" (mariju-

plants could not be distinguished
from marijuana without knowl-
edgeable inspection. It also
revealed that several of these
plants could cause violent re-
action.

Barbara Jean won the Navy
Science Cruiser Award last
year at the Region 14 Science
Fair.

Her brother, Robert A. Bell,
a freshman in Colorado High,
won an honorable mention in the
Junior High Biological Divi-
sion at the fair with his exhib-
it "How Did The Meriam Kan-
garoo Get to Mitchell County."

The meriam kangaroo is a
rat--the same variety used in
his sister's sweepstakes win-
ning project--that has not been
reported this far east in the
U.S.

Robert has been trapping the
kangaroo rats for a couple of
years and reports he has found
the rodents as far east as Abi-
lene. His project showed where
the rats are "supposed to be"
and where they actually are now.

His work raises the question
of where the rats have been
here before, or now are mi-
grating eastward from original
habitat.

a car struck him, smashed in-
to 2 other vehicles. The driv-
er, James Howard Rose, 30,
of Dallas also was killed.

The 3-car accident happened
when a 1965 Rambler 4-door
sedan driven by Timothy Juan
Cover, a student from Waxaha-
chie, went out of control on
the overpass, wrecking with the
car's front wheels hanging over
the north rail of the overpass.

Cover and 2 passengers, Jan-
et and Kathy Rousseau of Mid-
land, were not injured.

Constable Graham and Lo-
raine Policeman Jack Brewer
went to the accident scene. A
second car had sideswiped the
wreck and stopped off the over-
pass.

Brewer was in his pickup
radioing for state highway pa-
trol assistance, about 30 yards
east of the wreck, and Graham
was flagging traffic nearby when
the Rose car, a 1962 Chrysler
sedan, approached the wreck.

Rose's car went out of con-
trol, skidded broadside on the
overpass, hitting Graham and
smashing into the driver side
of Brewer's pickup where Po-
liceman Brewer sat radioing
Colorado City police dispatcher
for aid.

The sedan continued to careen
broadside on the overpass, hit-
ting a motorist who had stopped
to help flag traffic, then skid-
ding into the side of the Cover
sedan hanging on the overpass
rail above FM Highway 644
and the railroad.

State Highway Patrolman Kent
Cearley heard the crash on his
police radio and the immediate
silence of Brewer's previous

active radio as he hurried to
the accident.

Both Constable Graham and
Rose were dead upon arrival
at Root Memorial Hospital.

The injured bystander, C. D.
Ratliff of Odessa, was treated
and released. Uninjured were
Brewer and Rose's wife, Car-
oline, 28, of Dallas.

Graham had served as the
Loraine constable for a dozen
years in addition to operating
service station business. His
extra public service was actu-
ally a labor of love for a
community hard pressed for
adequate law enforcement. His
only pay was the \$1 per month
plus expenses.

Graham was born May 23,
1923, in Comanche County and
had lived in Loraine since 1930.
He and the former Oleeta Clax-
ton were married July 16, 1942,
in Snyder.

Survivors are his wife of
the Loraine home; 3 daughters-
Mrs. Sherry Rankin of Mid-
land, Mrs. Judy Watkins of
Frankel and Betty Graham of
the home; 2 sisters- Mrs. An-
nie Browning and Mrs. Leroy
Lucas of Loraine; 6 brothers-
Tom, Joe, Elwood, Clay and
Donald, all of Loraine, and
Bob Graham of Colorado Ci-
ty; and 2 grandchildren.

New Dates For Social Security

A representative of the Big
Spring Social Security Office
will be in Colorado City twice
monthly this quarter.

A representative will be here
in Chamber of Commerce
office, 105 Elm Street, April 12
and 26; May 10 and 24; June
7 and 21.

Information can also be ob-
tained by telephoning, writing
or visiting the Social Security
Office, Room 232, Federal
Building, 501 Main Street, Big
Spring, 79720.

NURSERY
From Page 1
potted plants are shipped out
of the new building a week.
The chrysanthemums have a
growing time of about 10 weeks.

Neff's Nursery is now send-
ing flowers weekly of the new
facility to Fort Worth. Weekly
shipments also go to Hobbs and
Roswell, N.M., as well as sup-
plying flowers to retail outlets
in Colorado City, Sweetwater,
Snyder, Big Spring, Midland-
Odessa and Lubbock.

The new building went into
operation in January but the
sophisticated part of the op-
eration is just now being com-
pleted.

This time schedule worked
out just right for us to salute
Neff's Nursery and the other
fine industries in Colorado Ci-
ty during Texas Industrial Week
April 2-8.

Scholarship Applications

WESTBROOK - Applications
for the Navy-Marine Schol-
arship Program are now available
at both Westbrook and Loraine
High School.

Preston C. Lightfoot, coun-
selor for both schools, this
week said the program offers
financial aid for four years in
college.

Applicants for the program
will be considered based on
scores obtained on either the
Scholastic Aptitude Test of the
College Entrance Examination
Board or the American College
Test.

Further information can be
obtained from Lightfoot.

Brush And Palette Hears Tech Student

John Chinn, a student at Texas Tech University, was guest speaker for a regular meeting of Colorado City Brush and Palette Club Monday night in Art Studio.

Chinn talked about his work as a student in the Tech art department and showed some of his work explaining processes of completion.

Coinciding with his current studies in printmaking, under direction of Tech instructor, Lynwood Krenek, Chinn showed a wood block, silk screen and etching work, describing work process of each. He also talked about upcoming work in lithograph using limestone blocks.

The Tech student, son of Dr. and Mrs. John H. Chinn of 422 East Ninth Street, explained that in his opinion "there are two sides in which people are looking at art now. One is

the artistic which follows the principals of art; the other will it sell?"

At Tech Chinn has had art courses directed by Steve Reynolds, a potter; and Robert Fainter in which students studied color, shape and form using live models.

In concluding remarks the former student at Texas A&I reported a tendency toward using more photography rather than line drawings in commercial art.

Attending the Brush and Palette meeting were Mrs. Warren Costin, Mrs. Roy Howell, Mrs. Orin Feaster, Mrs. J. B. Hilliard, Mrs. R. H. Ratliff, Sr., Mrs. Bob May, Mrs. Ace McShan.

Also, Miss Violet Moeser, Mrs. Tom Barry, Mrs. Charles Walker, Carl Bell and Mrs. Lynn Halbert.
